

FIRST FOOTBALL GAME SATURDAY

First and Second Teams Play Hard Game--Football Notes

By "THE PRINCE"

Saturday afternoon last saw the first real tryout for the team on the Mackay athletic field, and there is little doubt but that Coach Elly Bennett is well pleased with his efforts, not to mention the efforts of his squad. The game was played in halves of 25 minutes, and that that was long enough was evidenced by the fact that a number of the men had the appearance of roosters who had been caught in a summer shower, as they left the field for the training quarters at the blowing of the final whistle. But that is neither here nor there, for were the team on edge now it would be a stale outfit before the season was half over.

Taken right through, a very fair exhibition of the game was given, and the work of two men in particular was admirable, viz., Menardi and Bob Bringham. The former was faultless, but Bringham has a deal to learn yet, and must get away from the idea that he can pass a ball when carrying it under one arm. Several times he would have been instrumental in scoring had he been able to get rid of the ball when he was tackled.

Of the forwards, Rogers showed up well, and will be heard from later, as the game is a little new to him yet. In fact, the second half was new to all participating.

Coach Bennett had his charges play the new rules in regard to kicking for touch in this half, but "Never Again!" At a meeting of the rules committee of the Universities of California and Stanford, at the Palace hotel, San Francisco, on Saturday night it was decided to take no action regarding the proposed changes. Everybody heave a deep, deep sigh, for it would have been very strenuous work to chase that ball up and down the field for an afternoon without respite.

William Unmack of the San Francisco Call was about the strongest op-

ponent of the proposed changes, and "King" Bill knows something of the Rugby game—in fact there is not a man in this part of the country who is the judge of the game that Unmack is.

Saturday's lineup was as follows: First Team—Charles, wing forward; Settlemyer and Harriman, front rank; Pearson, lock; Mackay and Rogers, side rank; Layman and Kniffen, rear rank; Seitz, halfback; Bringham, first five-eighths; Webster, second five-eighths; Curtin, three-quarter; McPhail and Heine, wing three-quarter; Pennell, full back.

Second Team—Percival, wing forward; Reynolds and Ferriss, front rank; Noyes, lock; Patrick and Perkins, side rank; Dorn and Barton, rear rank; Menardi, half back; Wilson, first five-eighths; Richardson, second five-eighths; Anderson, center three-quarter; Kelley and Wiley, wing three-quarter; Axt, full back.

Others who went into the game at various stages were Cashin, Golden, Hamilton, Hynton, Patterson.

* * *

Far be it from me to borrow an expression from Mrs. Hoggheheimer, but if you think back to the first issue of the Sagebrush of this semester, I'm almost sure you will find that I predicted the advent of Professors Young, Frandsen and Maxwell Adams on the football field by the end of September. I'm told that the advance guard in the form of Professor Adams was there some little time back. I did not see him. Perhaps he was observed by a goal post. But unless I was "seeing things," and I hardly think that possible, as I am observin' gtraining rules, I actually saw Professors Young and Frandsen among the spectators on Saturday afternoon, and by the animated looks on their faces, they were interested in—something. Was it football?

(Continued on page four)

Mechanical Department Very Busy

Boiler Tests Soon—Possibility of Road Tests on Passenger Mallets

The Department of Mechanical Engineering is working overtime these days. New machines are received every few days and the work of changing over the machines in the shops is going on apace. Some new machine shop tools have arrived and have been put in place and are being made ready for the use of the students.

Aside from the shop work improvements there will be some outside work in testing for the students to handle. The boilers at the Sparks Round House are to be tested for efficiency. Prof. Scrugham made tests on these boilers three years ago and the efficiency ran pretty low. The brickwork in the sittings has been changed and Prof. Scrugham has secured for the students the opportunity to run the test. This test will run continuously for a period of thirty-six hours and will be complete in every detail.

Further, Prof. Scrugham is in correspondence with the Southern Pacific Co. relative to getting our students the opportunity to work on the road tests of the new Mallet compound passenger engines which have just been received by the railroad. These road tests are good practical engineering training and it is to be hoped that Prof. Scrugham will succeed in getting our students out on them.

The Faculty Science Association to Meet

Interesting Course of Lectures for This Year

The Faculty Science Association will hold its first meeting for this school year at 4:40 p. m. Tuesday in the geology lecture room in the Mackay School of Mines building. Professor J. E. Church will speak on "The Prevention and Avoidance of Frost in the Fruit Belts of Nevada," giving an account of the work at present under way in the state. The work promises to be of considerable economic importance and is of general interest.

The meetings of the science association are open to any one who cares to attend, and an interesting program for the year is being planned. Two weeks from Tuesday the next meeting will be held. Professor L. C. Heller will speak on some of his recent work.

Stop at the Owl Cafe on your way home.

Former U.-N. Forward With U.-C.

Dolan to Play With University of California This Year

The Daily Californian prints the following about Larry Dolan, Ex. '12: "The team will be further strengthened by the acquisition of Dolan. Although an Olympic player last year, Dolan will be eligible for the 'Varsity this season, and for two more to come. He is registered as a member of the junior class."

Dolan was one of our star forwards two years ago. Together with Bennett and Leavett he was picked for the all coast team. Dolan will undoubtedly make one of California's best men in the forward bunch. There has been a good deal of speculation as to whether Dolan would play with U. C. this fall, but that was settled on Tuesday last, when he appeared in football togs ready for practice.

Cadet Battalion is Organized

Appointments Are Made to Fill Vacancies

The University of Nevada cadet battalion from present indications is going to be larger and better than ever before. The enrollment in the two companies is larger already than it was last year and the same is true of the Cadet Band.

Lieut. McClure returned to the campus last Monday and he was greatly pleased at the progress that had been made during his absence. Since the opening of the semester the work has been under the supervision of Cadet Bajor Bruce, and it has been gratifying indeed the way the new men have taken hold of the drill and the way they have progressed under the instruction of the officers.

Last year Harold Fletcher was appointed as captain of B Company, but as Mr. Fletcher did not return this year Company B was left without a captain. Ed Pearson has been appointed to fill this vacancy.

The officers this year are as follows: Dan Bruce, major; M. D. Anderson, captain A Company; Edgar Pearson, captain B Company; R. M. Seaton, adjutant; L. K. Finney, first lieutenant Company A; Dale Pruett, first lieutenant Company B; Thomas Smither, second lieutenant Company A; Nat Wilson and L. B. Patrick, first sergeants of A and B Companies respectively.

The appointment of sergenat major has not yet been made, this office being vacant because Harlan Heward did not return to college.

SUMMER SCHOOL HELD NEAR MASON

Surveying and Geology Students Accomplish Much

The summer field class in surveying and field geology was held near Yerington during the past vacation. Camp was made at the Bluestone mine, about four miles from Yerington and two from Mason, in a gulch 800 feet above and overlooking Mason Valley. Thanks to the kindness of Mr. C. A. Weck, superintendent of the electric lighted cabins were used as offices. Grub such as Mother used to furnish was had at the mine boarding house and Mr. and Mrs. Dougherty, not to mention Joe, will always be remembered by the boys. Tents and cots furnished by the University gave the best of sleeping accommodations and the surrounding country furnished the necessary practice ground for the engineers and geologists that swarmed over its surface.

The Bluestone Mine is on the east slope of the range that separates Mason and Smith Valleys and the rugged topography furnished 200-400 foot hills in plenty to be climbed. Without a thin veneer of sagebrush and other desert vegetation the geological features were very plainly displayed and could be followed in their general outline at a distance. The area proved to be almost ideal for the work of the summer.

The surveying class took the field first and in the course of four weeks plumbd two winzes and surveyed four levels of the Bluestone Mine, connecting the circuits over the surface from the portals of the tunnels. A location survey for a new claim, which was named "The University," was made over the steepest hill in the area, one slope meaning 42 degrees vertically. But the crowning achievement was the setting of thirty triangulation stations on the more prominent hills, one of which was 5380 feet above sea level, and completing the base for the topographical and geological map. Over twelve miles of stadia traverse were run over the roads in the area

and up the Mason trail to camp. In addition a short railroad survey was made.

The geology class following put in the topography and geology of an area 14,000 feet east and west by 10,000 north and south, a little more than five square miles. The topography was finished in five days but the geology proved to be somewhat more of a problem. In brief it consists of a spoon shaped block of tertiary rhyolites and tuffs faulted down into the granite, schists and limestone that form the core of the range. Numerous minor faults served to complicate the structure and mix things up generally. Of especial interest were the remnants of an old stream channel that appeared to run across the present drainage. Besides completing the map of the area a few days were spent visiting the Bluestone, Nevada-Douglas and Ludwig mines and in measuring a geologic section north of Mickey Pass.

The people of Mason Valley made the trip especially enjoyable. Kne-meyer, ex. '14, got up a moonlight hay ride for the boys. On another occasion the young people of Mason visited the camp and gave a dance in the boarding house. In addition four dances were given in Mason which were taken advantage of by many of the boys.

Sam Arentz, Supt. of the Nevada-Douglas and Ludwig mines, treated the boys royally on the two occasions they visited his mines and his kindness and courtesy will be ever remembered by them.

The surveying class was in charge of Prof. Boardman and included: Cashin, Bruce, Breeding, Bennett, Tibbals, Gilcrease and Reynolds. The geology class was in charge of Prof. Jones and included: Bruce, Breeding, Reynolds, Teel, Seaton and Smither. The trip proved to be the most successful so far taken and all feel that the summer's work was well worth while.

U. OF N. MAN GOES TO OXFORD

Fourth to Get Rhodes Scholarship Here

On Friday, Cedric H. Beebe, '12, left to go to Oxford college, England as a Rhodes scholar. He will visit points of interest in the eastern states on his way back and expects to sail from New York about the last of the month.

Beebe is a Reno boy. He graduated from Reno High with the class of 1908 and entered U. of N. with the present senior class.

He registered in the College of General Science and took work preparatory for the Rhodes examination. In his sophomore year, he and Stanley

Wilton took the examination and Wilton passed the higher of the two. Last year Beebe took the examinations again and received the appointment.

Beebe is the fourth Nevada man to go to Oxford on Rhodes scholarship. The other three are St. Clair, Scott Unsworth and Stanley Wilton.

Cedric Beebe is the second one of the class that entered with the present Seniors to go to Oxford.

We extend to Mr. Beebe on behalf of the faculty students of Nevada our wishes for his best possible success as a Rhodes scholar.

MANY MAY GO TO CALIFORNIA-NEVADA GAME

The Southern Pacific company have offered a reduced rate to all Renoites and students who accompany the Nevada Rugby team to Berkeley the latter part of October.

This rate will be only one fare if 100 go on the same train.

In addition to this the company has graciously consented to run a special train from Reno direct to Berkeley the night before the game.

This train will leave within 24 hours after arrival, thus eliminating hotel bills completely. 300 passengers will insure a special Reno-Berkeley train. Boost for this excursion.

FORMER U. OF N. PROFESSOR MARRIED

About the last of August Dr. J. Warren Phillips, formerly professor of chemistry and physics, was married to Miss Sarah Phillips of Pennsylvania. After an extended wedding trip through the eastern states Dr. and Mrs. Phillips will make their home in Silver City, Nev., where Dr. Phillips has extensive mining interests. Dr. Phillips was professor of chemistry and physics here from 1890 until 1899.

Fraternity life has recently been abolished at Yale by the adoption of a plan of dormitories, which will be entirely controlled by the University.

NOTICE

Yell Practice

ON THE BLEACHERS TUESDAY AND THURSDAY AT 4:35

TYLER, Yell Leader

Our Last Year's Graduates

Where They Are and What They Are Doing

"Bee" Pray is teacher of English, Latin and mathematics in the Gardnerville high school.

Cora Cleator is residing with her parents in San Diego, Cal.

Agnes Mead is teaching at Fairview, near Gardnerville.

Vera Hasch is at Smith College, Northampton, Mass., preparing for a M. A. degree in history.

Gertrude Pike is teaching at Fallon. She has the third and fourth grades.

Hattie White has the school at Smith Valley, near Carson.

Ellsworth Bennett is our graduate coach.

Hugo Hauser is working in the mines at Goldfield.

"Hans" Horn is registered in chemistry at Stanford University.

"Jimmie" Layman is a sub-station operator at Tonopah.

Melvin Jepsen has charge of the science department of the Sparks high school.

Frank Hobbins is assaying for a mining company at Gold Circle.

Walter Harris is assayer for the Kimberly Consolidated Mines company at Kimball, Nev.

Clinton Sparks is assayer for the Mizpah mine at Tonopah.

Al Myers is mineral land examiner for the Southern Pacific company.

Mr. Thomas caters to the college public.

U. N. Professor to go Abroad

Goes to Europe to Carry Out Investigations

Dr. C. A. Jacobson of the department of chemistry writes that he expects to sail from New York on the Austro-American steamship line for Trieste on September 13.

Prof. Jacobson has spent the summer in Wisconsin and Pennsylvania visiting relatives. The last three or four weeks he has spent at Johns Hopkins University in New York doing library work.

Immediately on his arrival at Trieste, Prof. Jacobson will go to Zurich, Switzerland, and will start his work there about October 1. He expects to be in Zurich about six months and from there will go to Paris to carry his work on farther.

Professor Jacobson will carry on biological chemical research work relative to the nutritive properties of alfalfa. Last year he collected his material from different parts of the country and prepared it to take along.

Dr. Jacobson expects to be gone on this work somewhat over a year.

EDITORIAL

From time to time announcements for different social affairs are posted on the bulletin board by means of display posters. The posters are a good deal of work to make and are for the purpose of attracting people's attention where they would miss the ordinary written notice. For the past year it has been practically impossible to keep an attractive poster on the board long enough to drive in the tacks which held it in place. Some one always comes along who thinks the poster would look better on his or her room than it did on the bulletin board and proceeds to find out.

This causes a good deal of inconvenience to the parties who put up the poster, necessitating the making of another, and causes a good many people to miss the announcement.

If the parties who make it a practice of taking these posters would hold their desire for decorations in check for a few days until after the date mentioned on the poster has passed, it would be greatly appreciated by the people giving different functions and benefit the college people generally. The golden rule is a good one and might well be applied here.

GENERAL ASSEMBLY

There will be an assembly in the University gymnasium Friday, September 15. The following "Camp Fire Talks" will be given by Spanish War Veterans:

"A Soldier's Life in the Philippines," Captain C. H. Burritt.

"On Board a Man-o'-War," District Attorney Woodburn.

"Life of the Indian Scout in the Northwest," Colonel John Reddington.

"Medical Service in the Army," Dr. Von Rodesky.

Students are requested to be in their places promptly.

A general invitation is extended the public.

MRS. DR. STUBBS RECEIVES FACULTY LADIES

Mrs. Stubbs entertained the faculty women at an informal afternoon last Thursday. Mrs. Fulton and Mrs. True assisted Mrs. Stubbs in entertaining her guests.

A new ice cream parlor has just been installed at the Thomas Cafe.

STANFORD HAS BIG SQUAD

Numbers Break All Previous Records

After the big rally a week ago Friday, the Stanford men broke all records signing up for the football squad. The official count showed that 210 men signed up at that time, and more are expected later. This is the first time that the two hundred mark has been reached at Stanford, and the supporters of the cardinal are rejoicing.

MILITARY SCHEDULE

Monday, Sept. 11—Company drill. Close order with arms. Band practice. Tuesday, Wednesday and Thursday—Same as for Monday.

Friday—General assembly. It is desired to get the companies in the best condition possible in case that the cadets are called upon to go through movements before the Spanish War Veterans. Cadets will watch the military bulletin board for further announcements.

ANOTHER ALUMNUS MARRIED

On last Sunday Miss Josephine Kelly, Normal '09, and Mr. George Morgan stole a march on their friends and were quietly married. The couple came down from Virginia City by auto to Reno where the ceremony was performed. The wedding was a very quiet affair, only a few friends other than the necessary witnesses being present.

We join their friends in wishing them all success and happiness possible.

FALLON FAIR ASSOCIATION PUTS UP CUP

Offer Trophy for Baseball

The Fallon Fair association have put up a silver cup as a trophy to go to the team winning the baseball series at the Fallon agricultural fair this year. The cup is a very handsome affair and is valued at over \$50. The fair association have extended the U. of N. an invitation to compete for the cup.

An extremely conservative estimate places the yearly earning power of the Utah Agricultural College at above six million dollars.

Propose to Change the Football Rules

Write Manager Kennedy Regarding Proposed Changes

On Tuesday Graduate Manager Kennedy received from Manager Farmer of U. C. a letter stating that certain changes in the present football rules had been proposed and he would like to get the opinion of the Nevada men on the subject. The two rules changed mentioned by Manager Farmer are:

1. Where the ball is kicked and pitches into touch, it shall be played by a scrum at the point from which it was kicked.
2. When the ball is kicked and rolls into touch, it shall be played by a scrum at a point at right angles to, and ten yards from the point where it passes into touch.

Manager Kennedy and Coach Bennett took the matter under consideration and replied to Mr. Farmer that rule 2 was satisfactory but that they did not favor the first.

Both Coach Bennett and Manager Kennedy say that rule number 1 would make the game much harder on the players and particularly hard on the forwards.

It would do away with all touch kicking and consequently reduce the number of line outs as a scrum would be called for each kick into touch. This would make the game a great deal less spectacular and interesting from the spectator's point of view.

Further, take it with a bunch of forwards who are following up the punts, every time a kick pitches in touch it necessitates the forwards retreating the ground they have already gone over in following up. Naturally this makes it hard on the players, and gives the team that is getting near its own goal practically no chance to relieve themselves by kicking except per chance the ball pitches in the field and rolls in touch.

The rules are an adoption from the rules of the Australian Professional Northern Union and while they may reduce line outs and ruck plays and open the game somewhat, it is doubtful in the minds of many of the Rugby enthusiasts whether or not it will be for the betterment of the game generally.

AN OPPORTUNITY TO SECURE A BUSINESS EDUCATION

The Nevada Commercial College now occupies the fifth floor of the Odd Fellows building, at the corner of Second and Center streets, Reno, Nevada. Here they have found large, light and airy rooms away from the noise of the street. The building is provided with excellent elevator service from 7:30 a. m. until 9:30 p. m.

The business, shorthand and language courses are complete in every particular. Men and women will here receive a thorough business training. The day school is in session from 9 to 12, and the night school from 7:30 to 9:15.

Miss Scribner's work in Reno speaks for itself. She is in charge of the stenographic department and extends a cordial invitation to former pupils to call and inspect the newly equipped school and register in the free employment department.

The commercial department is in charge of a man with many years of technical and practical experience in some of the largest and best business colleges in the east. He is also an expert accountant.

Professor Madden, a graduate of Harvard University and the latest Pologna, Italy, and the University of Paris, France, has charge of the English department and classes in Italian, French and Spanish. Special prices for these subjects.

There are many former pupils of these able instructors employed as secretaries, court reporters, accountants and in many other lines of office work demanding good salaries. Many new pupils have enrolled and there is every indication that the school will be filled to its capacity.

A business education has been the means of starting more young men and women on the road to success than any other line of special training. Reno now has an institution in the heart of the city giving instruction of this kind.

SORORITY ENTERTAINED

Delta Rho's Guests of Miss Morrow

Miss Nell Morrow was the charming hostess at a delightfully informal party last Tuesday evening. The time passed gaily in games and in stunts. Most delicious refreshments were served last of all to the following young ladies: Misses Mathilda Jepson, Margaret Longwith, Emma Graham, Ethel Thompson, Almee Thompson, Helen Hobbins, Isabel Schuler, Ruth Stubbs, Eleanor Rogers, Marie De Flon, Ada Hussman, Elsie Herz, Clara O'Neill, "Bob" O'Neill, Pearl Stinson, Edwina O'Brien, Myrtle Neasham, Eunice Cogwin and Nell Morrow.

EXECUTIVE COMMITTEE MEETS

At the meeting of the executive committee Wednesday evening, September 6, it was decided to bestow upon Gilbert Tyler, '13, the honor of yell leader. He is to choose his own assistants.

The report of the graduate managers for the month of August was read and approved.

The proposition of having a student body meeting in the near future was discussed. Just when the meeting will be called is not yet known, due to the change of the noon hour from one to two.

JUST A WORD OR TWO

All those who receive the Sagebrush this week and who have not paid their subscription prior to next Monday, September 18, 1911, will not receive the next issue of the Sagebrush.

This is required by postal regulations. Subscriptions may be paid to L. B. Patrick, Robert Ware, '15, C. M. Ogden, '12, Marie De Flon, '14, or Mabel Finney, '14.

BUSINESS MANAGER.

Reno Firm to Give Cigar Lighter

A very unique and original idea, originated by the popular firm of Lachman & Mayer at The Smokery is being carried out for their many customers.

They are to give each purchaser a numbered ticket which entitles the holder to get a good pocket lighter free.

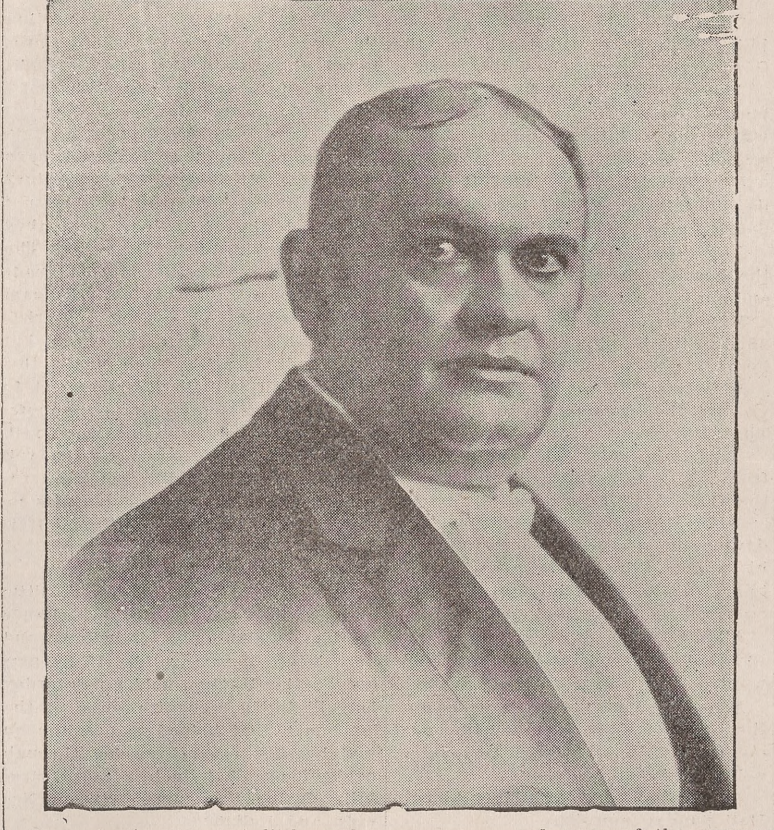

The drawing will be pulled off at their store on Wednesday and Saturday evenings at 10 P. M. and the winning number posted next day in their front show window.

For fine lunches call at the Thomas Cafe.

HERBERT L. FLINT

At the Majestic All This Week

The wonderful power of the human imagination will be shown at the Majestic theater this week when the Flints will demonstrate the sciences of hypnotism, mesmerism and kindred psychic conditions that are much

talked about, and yet little understood. Dr. Flint is one of the greatest living authorities on this subject, and while the Flint entertainments are now said to be given for laughing purposes only, they are at the same time a logical and scientific demonstration of the power of the human mind over the human body. At a word from Mr. Flint the young

SOCIAL CLUB DANCE

A BIG SUCCESS

The first dance given by the U. of N. Social club on Saturday evening last was declared by all to be a complete success and one of the most enjoyable events of its kind that they had ever attended. The floor was in excellent shape, the music fine, the decorations—well they are permanent—and Adam's ale was served as punch.

About fifty couples were in attendance and several half couple in addition. In other words several gentlemen were obliged to "stag it," owing to the unfortunate fact that they couldn't get partners. However, it is reported around that there were lots of young ladies at Manzanita hall who didn't go to the social, so apparently it wasn't on account of lack of girls that the young men came alone.

However, after all is said, everyone had a most enjoyable time, and it is to be hoped that there will be even more couples at the next dance and that everyone will have just as good if not a better time than they did last Saturday evening.

Y. W. C. A. NOTICE

There is to be a regular meeting of the Y. W. C. A. in room 6 next Tuesday at 4:30. The meeting promises to be an interesting hour, as we are to have Miss Meighan speak. Every girl who can should come.

The Y. W. C. A. girls gave a reception to Miss Salisbury and the new girls on the hill on the 21st at the home of Mrs. J. E. Stubbs. The girls were entertained with songs and instrumental music and later played a very interesting game. Dainty refreshments were served by the Misses Hazel Ohmert, Florence White, Matilda Jepson and Margaret Langwith.

For fine lunches call at the Thomas Cafe.

1915 won from their Sophomore opponents in the underclass contest at U. C. for the first time in six years. The usual pushball contest was declared a tie, but the superiority was decided by means of a tug-of-war in which 150 participated from each class.

Uniforms Will Arrive Soon

Otis & Taylor expect the first shipment of uniforms for the students who "ordered early" to arrive in time for parade Friday.

Mr. Thomas caters to the college public.

For fine lunches call at the Thomas Cafe.

men on the stage will, by concentration of their own attention, see wonderful sights, and hear wonderful sounds, and the strange part of it is that all these sights and sounds are even more vivid than the ones which reach the brain through the normal channels of the eye and the ear. Those who are interested are invited to question the subjects who are upon

ALUMNI NOTES

George R. Bliss, Mines '97, has returned to Reno for a two or three months' visit from Africa. Mr. Bliss is with the Jupiter mine, Germiston, Transvaal, South Africa. His visit this year is the first for several years and he remarked the many changes on the campus. Mr. Bliss is one of the successful mining men who have helped to make the reputation of the University of Nevada what it is. He is also one of the original members of the T. H. P. O. fraternity.

Miss Mary O'Neill, "Bob," has been elected to the position of instructor in English in the Reno high schools. Miss O'Neill is a member of the class of '09, B. A.

"Dud" Homer, '10, has been on the campus lately. Wednesday night football practice looked too inviting and "Dud" had to "boot the ball about a bit."

Marion Foss, Mines '10, was in town last week.

Miss Vera Hasch, '11, and Miss Effie Mack left Monday night for Northampton, Mass., where they will take post graduate work at Smith's College.

Miss Norrine McNamara, Normal '11, has the school at Blair, Nev.

Miss Reine Ross, Ex. '05, has been elected teacher of Latin and English in the Virginia City high school.

Jay Carpenter, Mines '07, former instructor in assaying and metallurgy here, is in town from Tonopah.

**NEW COURSE OFFERED
OPEN TO MEN STUDENTS**

A new course in dress ethics has been established. It is open to all men students. Lectures on color schemes a specialty. Hours to be arranged. No credit.

"GRANDMA" TILLSON,
Instructor,
Lincoln Hall.

A new ice cream parlor has just been installed at the Thomas Cafe.

**Special Training
as a Necessity
in Education**

Important Subjects Discussed at Assembly Friday

Public playground for the children and physical and special training as part of the education of men and women formed the topics of discussion at the assembly held in the gymnasium last Friday, President J. E. Stubbs presiding.

The first speaker was Mrs. George Ordahl. She discussed the value of play and playgrounds, presenting statistics showing that in cities where playgrounds had been provided that there was a falling off of crime among children. Mrs. Ordahl has made a special study of this work and her lecture was most interesting, coming as it did when a movement is on foot to change the city park into a children's playground.

Miss Helen Meighan, director of physical culture for women at U. of N., followed with an address on the value of physical culture in schools. She spoke of the increase in the number of universities and schools that demanded compulsory physical education, showing that such training is essential to any properly planned course in education. She then took up the subject of physical training from a point of view of health. By examples and statistics she showed that a well planned and systematic course in physical training was one of the broadest high roads to health.

Miss Grace A. Day of the College of Education then spoke of the value and necessity of special training of young men and women for teachers. She spoke of teaching as a science and not a faculty inborn in the person, and as a science it must require special training to be mastered, as do the other sciences.

Miss Day then detailed the methods used where special training of teachers was carried on and how the methods were the result of careful study by people who knew. She pointed out that to send out people to teach in our schools who were prepared in the subject matter alone and not specially trained in teaching as well as a most dangerous and costly experiment both to the new teacher and the school.

PERSONALS

Gilbert M. Tyler, Ex. '3, came in last week. He is going to register special and work down town out of school hours.

"Mother" Hubbard, Ex. '13, comes up to Lincoln Hall quite often to renew old acquaintances. Hubbard is working for Stone & Webster engineering corporation.

Claude Teel, Ex. '11, spent several days on the campus last week. He left Thursday for Auburn, California.

Claude Shoer, '04, was on the campus a few days ago. He is going to Germany to study.

"Bee" Bray, '11, spent Friday on the hill. Miss Bray will teach in the Gardnerville High School this year.

Agnes Mead, '11, left for Fairmeadow, near Gardnerville Saturday where she will take charge of the school.

Miss Harriet White, '11, left Saturday to take charge of her school at Smith Valley, near Yerington.

J. J. "Red" Delahide is confined to the hospital by an attack of malaria and not typhoid fever as first reported.

Miss Marjory Mead has been confined to the hospital the past few days by an attack of malaria.

Miss Hazel Tinny, Normal '10, was visiting the campus Wednesday and Thursday.

Miss Dale Cole, '14' has returned from the south and will register in the College of Education.

Eddie Knemeyer, Ex. '13, spent Friday on the campus. Knemeyer is on his way to Illinois, where he is going to register in the architectural department of the State University.

Allyn Carville, '13, is going to register at Ann Arbor in the law department.

Miss May Porter, who is to become the bride of Chas. Helphenstine next month, was the charming recipient of a linen shower last week.

Spencer paid a flying visit to Lincoln Hall Sunday morning.

"Bub Hix" Holmes, '12, arrived Saturday evening.

Miss Gussie Curler, Ex. '12, will return to college next semester.

Lloyd Lonkey, Ex. '10, and W. H. Goldsworthy, Mines '10, were on the campus Sunday. Lonkey is working for Stone & Webster Engineering Corporation at Verdi and Goldsworthy is working in their offices here.

HIGH SCHOOL NOTES

Last Thursday morning a special meeting of the University high school was held in order to elect a president, a vice president and girls' basketball manager. The result of the election was as follows: President, Alberto Axt; vice president, Walter Jepsen; girls' basketball manager, Hattie Brown. At this meeting another lack of school spirit was shown and that was when only about fifty students out of eighty voiced their opinion by voting. Every student has a perfect right to vote. This means the girls, too. After the meeting all the boys met in order to discuss football. There were about forty present, out of which thirty promised to be on the field Monday afternoon. That is pretty good spirit. Now come out and back your promises up by deeds. We have good chances of holding the championship in football this year and it is up to every one of you to get out and make the team.

"Pussy" Wiley, who is now captain of the team, promises to live up to his name and declares we will have to call him wildcat after the first football game.

Manager Steinbitt announced a possible game with Susanville about the middle of next month. We would be glad to have this game, as we have many good friends in the Lassen county high.

The following is the Adelphi Literary program: Piano solo, Thelma Hall; welcome, Forest Johnson; H. S. events, Harry Hovey and Ben Curler; recitation, C. Watson; speech, R. Steinbitt; summer vacation, C. Morrow; reading, Marjorie Clark.

The following officers were elected: R. Steinbitt, president; Cherrie Perkins, vice president; Louise Fris, secretary; Harry Hovey, treasurer; Leland Brown, marshal-at-arms; Donna Cottrell, reporter.

Gentil Bernard is back with us again and promises to be the same athlete he was last year.

FACULTY ENTERTAINED

The domestic science department was the scene of a faculty meeting Friday afternoon. After various business questions were discussed dainty sandwiches and coffee were served by Misses Margaret Langwith, Mathilda Jepsen, Marie De Flon and Gladys Jones.

**FIRST FOOTBALL
GAME SATURDAY**

(Continued from page one)
P'raps, P'raps not! Quite soon the question will be answered, as they are likely to begin to entertain most any old time from now on.

Lloyd Lonkey, the dandy "five" of the '09 team, was in town Sunday. He looks well and tells me that he and "Arch" Millar are in good form and will probably be in the alumni lineup on Saturday next. Millar was a rear ranker of note. In fact there was not a man on the '09 team that was not a special feature.

I've got nothing to say regarding the scare we were given over the proposed changes in the rules. "Sufficient unto the day, is the evil thereof." They were turned down.

Seems as though the "Barbs" have some team this year. Their victory over California on Saturday does not tell much though. Every year they begin well, but finish in the mud. The team that defeated California reads more like a California alumni team than anything else. The "Barbs" have lost a good man in Brown, but old Sands is with them again this year, and it will do Nevada good to meet the big Moarlander once more, and hear his team give the Moari yell. Sands does not know what the yell means. He tells a different story regarding it each year, and perhaps he can give a new one this time. It is due.

Sam McClure, the clever little break-away forward of the Reliance (Oakland) club of '09, is in town and may locate permanently. If he gets out on the Mackay field on Saturday he will likely recognize some of the '09 bunch that helped to put him on crutches for several weeks, through neglecting to handle him more carefully during the game between Nevada and Reliance.

President Stubbs is getting to be a regular spectator at practice. Now, can it be that Prex. is getting points to put him in line for coach should Nevada decide for equal suffrage? Oh Doctor!

When you're out late remember the Owl Cafe is open.
