NEXT SATURDAY--UNIVERSITY OF CALIFORNIA

Big Rally and Auto Parade Next Friday Evening

RALLY ON PLAZA TO ECLIPSE ALL FORMER EFFORTS. STUDENT BODY TO MEET WEDNESDAY

There is going to be a rally Friday night. It is going to be a big live rally with a big bonfire. The big doings will start out with an auto parade which will start from the campus. The band will be there with both feet, as it always is. The autos will be there for the students. From the campus the parade will wind up down through town and after traversing all the main streets will wind up on the plaza with a big bonfire and a bunch of speeches. The various committees in charge of the different parts of the rally are hard at work getting things into shape for the big doings. The men who are getting the autos, Prof. Haseman, Lieut. McClure and G. M. Tyler are hard at work. They have a good many machines listed already. The Reno Brewing Co. have given them the big auto truck to use as the "water wagon" for the band. The big truck will hold the whole band nicely. This machine will lead the parade. The committee is sure of a record-breaking number of machines. Several of the fellows are paying a visit to all the storekeepers down town and having reservations made for their boxes, etc. The Freshman class promise that they are going to make the bonfire the record breaker that their class is. Fireworks have been ordered, principally of the noise making kind and things promise to hum down town next Friday. Wednesday, after school, there will be yell practice. This is to get ready for Friday. Yell Leader Tyler has several new yells. He wants to try them out so that they can be used

for the big doings. If the weather does not permit having yell practice on the bleachers, it will be held in the gym. Be there and learn the new yells. Edgar Pearson, student body president, and R. M. Seaton are trying to get a half holiday Friday afternoon, so that the students may have a better chance to sell tickets for Saturday's game. The committee on ticket selling, one member from each class, have divided the town off into four districts; each class to have one district and canvass that district thoroughly. This method was tried a year ago and met with great success. Wednesday there will be a meeting of the student body. One of the matters to come up is the admission to be charged for the game. It is proposed to tax the students two-bits for this game. Every student should be there. Professors Haseman and Knight will be on hand to give out particulars about the arrangements for the auto parade. Thursday night the Knights of Pythias grand lodge, which is meeting in town, are going to have a burlesque parade down town. They have extended us an invitation to join in the fun. It is a chance to get a little advertising and a bunch of the fellows have signified their intention of making the best of it. Don Cameron has charge of this affair. Some signs are being prepared and costumes are being gotten together for the occasion. Here is a chance to boost the football game and incidentally help out the treasury of the student body.

METEOROLOGIST RETURNS FROM SUMMER VACATION

VISITS SEVERAL COLLEGES AND BRINGS BACK COLLECTION OF VALUABLE BOOKS

On last Thursday, Prof. H. P. Ferguson, of the Department of Meteorology, returned from his summer's trip through the east. Professor Ferguson spent a good part of the summer at the Blue Hill Observatory, near Boston, Mass. He spent a few weeks at McGill College, at Montreal, Canada, and some time in New York. His visits at these places were in the interests of his department here in the university. When he returned, Professor Ferguson brought with him a valuable collection of technical books on the subject of meteorology.

AGRICULTURAL PROFESSOR IS IN CALIFORNIA

JUDGING LIVE STOCK AT HANFORD, KING'S CO. FAIR

Prof. G. H. True, Professor of Agriculture and Animal Husbandry in the School of Agriculture, is at present in Hanford, Cal. He was called to Hanford to act as livestock judge at the King's County Fair, now being held at that place.

On account of his wide experience as a judge and classifier of stock, Professor True has succeeded in getting for himself an excellent reputation as a judge of stock.

The new line of English caps received by Frank & Bane are the finest yet seen in Reno.

The Owl restaurant never closes.

FACULTY MAN TO ADDRESS MEDICAL CONVENTION

DR. JOHNSTONE TO DELIVER IMPORTANT PAPER

When the State Medical Society convenes in Reno next week one of the lectures will be by Dr. O. P. Johnstone. Dr. Johnstone is the bacteriologist in charge of the State Hygienic Laboratory. His paper will be on the Leucocytic extract. The extract is a serum and is used as a hypodermic injection in the treatment of diseases of the throat and lungs such as pneumonia or bronchitis. This method of treatment is comparatively new in this portion of the country, while it has been in vogue only a few years in the east. Dr. Johnstone has had remarkable success in a number of cases and the paper he is to present before the convention will represent his investigations in this line with the extract.

FACULTY WOMEN'S CLUB TO MEET WEDNESDAY

On Wednesday afternoon the faculty women's club will be the guests of Mrs. S. C. Dinsmore and Mrs. C. S. Knight. The club is composed of the lady members of the faculty and the wives of the professors and instructors. The meetings of the club are the scenes of many pleasant social gatherings and are looked forward to with a good deal of pleasure by the club members.

The new line of English caps received by Frank & Bane are the finest yet seen in Reno.

Stop at the Owl Cafe on your way home.

THE GENERAL ASSEMBLY MET LAST FRIDAY

DR. STUBBS DISCUSSES DINNER HOUR AND MAKES SOME ANNOUNCEMENTS

Friday the General Assembly was called to order by President Stubbs. He had the plans for the campus as made by Mr. Bliss on the stand in view of every one. After telling of his trip through the east with Mr. Bliss and their visit to the University of Virginia, Dr. Stubbs showed the assembly the positions of the prospective new buildings, what they were and what they were for. He spoke of the new library and administration building that they expect to start next year. Of the Social Hall and the Auditorium. He spoke of the proposed new entrance from Lake street.

After inviting the people to view the picture from close quarters when the assembly was dismissed, Dr. Stubbs took up the discussion of the dinner hour over which there has been a good deal of complaint from the students. He gave in a few words several of the reasons why the faculty wanted the schedule as it stands now. He said that to accommodate the courses they had decided to use Saturday morning for lecture work. The change taking up some of the Saturday time of the students, but giving them the time during the week.

The next item Dr. Stubbs spoke of was R. T. Crane's indictment of the moral standards of American college men. Under the direction of the President a committee had undertaken to see how near these allegations applied to the University of Nevada. The committee, composed partly of faculty men and the rest from the college men, made their investigations and reported to President Stubbs.

From their figures Dr. Stubbs made the following statement:

"So far as the University of Nevada is concerned, I knew that these charges of drinking among students were wholly untrue, yet I have taken great pains to ascertain the percentage of students in the University of Nevada who were addicted to the use of intoxicating liquors.

"We have at present 150 young men in the University. Of these it is carefully and reliably estimated that at least 80 per cent do not use malt or spirituous liquors in any form. That 14 1-2 per cent occasionally drink a glass of beer, but do not drink it habitually, and in no case use spirituous liquors. It is estimated that 6 1-2 per cent of the students have at some time or other drunk liquors to excess on occasions when their enthusiasm over result of a college game has gotten the better of their judgment. Even this small per cent, however, have not formed the habit nor indulged in the use of liquors to excess except on the few occasions here mentioned.

"I think that one-half of one per cent of the men of the University of Nevada represent the drinking that is referred to in Mr. Crane's indictment of the leading colleges of the country."

Following this, Dr. Stubbs made the announcement for the next assembly.

The band was out and played several pieces which brought forth a good deal of applause.

A new ice cream parlor has just been installed at the Thomas Cafe.

When you're out late remember the Owl Cafe is open.

BIOLOGY DEPARTMENT GETS NEW APPARATUS

MANY NEW MODELS RECEIVED

The Department of Biology with headquarters in Hatch Hall has just received a large supply of new equipment in the way of apparatus and models of various sorts. The apparatus is for general physiological work and was selected by Professor Frandsen as the best he encountered on the trip he took during his year's leave of absence.

One of the new models is of the nervous system of the human body. The others are general physiological models and wax models.

The addition of this new apparatus will greatly facilitate the work in this department and fills a long-felt want.

EXECUTIVE COMMITTEE MEETS

On Wednesday, September 27, the Executive Committee held forth in the training quarters. Treasurer R. M. Seaton reported that there was \$130 yet in the office. The salary of C. A. Meletz, as assistant manager, for \$6, was allowed and voucher for \$175 for the fare of the Santa Clara team was ordered paid.

Ways and means of making the Nevada-California game next Saturday were discussed. It was recommended that the price of admission to the game be raised twenty-five cents for everybody. This would make the general admission 75 cents, for the Reno high school students 50 cents, and all university students 25 cents.

This plan of charging university students is necessary in view of the fact that the college students will not sell tickets for the games. This matter will be presented to the associated students at a meeting to be held about Wednesday.

Y. M. C. A. CHAIRMEN ARE APPOINTED BY PRESIDENT

President Donald Cameron of the University Y. M. C. A. has appointed the chairmen of the standing committees of that organization and the full committee in one case.

Morris D. Anderson is appointed chairman of the committee on membership. To act on this committee with Mr. Anderson, Leonard L. Gilcrease and Archie Trabert have been selected.

The committee on Bible Study is to have Herbert Ware as chairman.

L. G. Chapman has been appointed chairman of the Social committee.

The committee on meetings is in charge of Arthur Reynolds as chairman.

The rest of the men who will make up the last three committees have not yet been appointed. Their names will be announced later.

U. N. GRADUATE AT STANFORD UNIVERSITY

J. S. "Hans" Horn, is now at Stanford University taking a post-graduate course in industrial chemistry. Horn graduated with the class of 1911 from the School of General Science. His major was industrial chemistry.

The work he is doing at Stanford is following up along the same line. Aside from his studies "Hans" is using part of his time as an assistant in his department.

Nevada Varsity Defeated by Santa Clara College 5-0

SANTA CLARA BESTS VARSITY PLAYERS IN STUBBORNLY CONTESTED GAME

FOOTBALL NOTES BY "THE PRINCE"

An exciting game was witnessed on Saturday last, between the above named teams, and the final score of 5 to 0 in favor of the Santa Clarans does not give one any idea of the closeness of the contest, for on many occasions the varsity men had an opportunity to score, which was lost, not by any effort on the part of their opponents but because the Nevadans lost sight of the main points that their coach has been drilling into them for weeks, and either tried individual work or played a defensive game in place of offensive, or vice versa.

Santa Clara had a decided advantage in winning the toss for choice of goals, and fortune favored them still further. They had the wind with them throughout the first half of 30 minutes, during which time it blew with such hurricane force that the Nevadans in place of gaining with their kicks, had the mortification of seeing the ball come backwards instead of going forward. They fought on stubbornly, and with the idea too, that the elements would be as much for them, in the next half, as they were against them in this half. But, —Fickle fortune! The wind took its ten minutes' rest with the players at half time, and was an absentee when they resumed the game. Once in a while it blew very gently, as though to mock the blue and white men, and they played on with more vim than ever.

During the first half, Nevada was on the defensive most of the time, but at that, there was no reason why the Californians should have been allowed to score, and it was through the quickness of Quill, and the dilatoriness of several Nevadans—backs and forwards alike—that the score was made.

Nevada started in the second half, to do things, and time after time, the ball was within easy distance of the Santa Clarans' line, but the opportunities offered were not taken advantage of, and the chances to score were lost.

During the first half, the forwards from the coast, were able to get the ball from the scrum, without a single exception, but in the second half, with Spencer in for awhile, and afterwards, "Pop" Anderson, an appreciable difference was apparent, and some feet in the rear rank too often impeded the progress of the ball on its way to the half back.

Just previous to the close of the game, when the ball was within five yards of Santa Clara's goal line, where it had been on and off, for a considerable time, Charles picked the ball up and dashed over the line, but Referee Mayers disallowed the try on the ground that the ball had not been put fairly in the scrum. Suppose the try should have been allowed, and had Mayers thought it was a try he would have allowed it, for it is like butting one's head against a stone wall to try and bluff him, I hate to think of the story the men from Santa Clara would have had to tell, when they got home.

Any one can appear to have a many disposition, so long as things go as he wants them, but to get the inside of a character, look for it under adverse conditions, and in that way only will you find whether a man is entitled to be addressed as such, or not.

The fighting dutchman—the girls call him "Bill," and to the uninitiated

he is known as William Settlemeier—was in his usual fine form, and played a dashing game as did Harriman. Perkins was not at himself, for some reason, and did not seem to get going. This was in marked contrast to his play of the previous Saturday, against Sacramento, when he was on the ball all the time. Spencer replaced Holmes at half time, and did yeoman service for his team, as did "Pop" Anderson, who relieved Spencer. Mackay and Kniffen collided during the first minute of play, with the result that the former had three ribs separated from his breast bone. Not content with this, in the last few moments of play he got his face in the path of a Santa Clara "boot" and when last seen was trying to rustle a violin. Wanted to touch it—for a string long enough to take three stitches above his right eye. On account of his staved-in slats he will be able to devote some extra time to study for the next couple of weeks. Maybe some of the Profs won't be delighted to learn this.

Harold Layman was an absentee Saturday, on account of an injury to his shoulder, but it is to be hoped that he will be able to get into the game against U. C. on the seventh.

"Rich" Sheehy played a cool, heady game at full. He is as game as they make 'em, a quick thinker, with a good kick, and will do very well in the position.

Menardi was as full of life as ever and what few opportunities he had he took advantage of, as did McPhail. But Saturday's game was not a backs' game at all, and none of them were given a chance to do anything. I look for Nevada to put up a rattling good game against California next Saturday. Some of the scoffers, will, no doubt, if they read this, hand me a bilious grin, but I mean what I've said.

"Spence" and "Pop" Anderson, it's up to you to get out and train.

BOILER GIVEN PRESSURE TEST LAST THURSDAY

NEW INSTRUMENTS RECEIVED BY PROF. SCRUGHAM

Thursday saw the new boiler for the Electrical building given its pressure test. The boiler is designed to carry a working pressure of 200 pounds to the square inch. To test the boiler it was filled with water and by means of a force pump the pressure was raised one hundred pounds above the rated working pressure. This pressure as shown on the pressure gauge was a little over three hundred pounds to the square inch. Under this heavy pressure no leaks in the boiler were developed. This pressure is over twice as high as the boiler will ever be run, so there is no possibility of the boiler breaking. Saturday the smoke stack was hoisted into position back of the boiler. It is of sheet steel and about sixty feet high.

During the week several new testing instruments were received. Some of these came from Germany and are considered the best that money can buy. One of the new instruments is a Tachometer or speed indicator. It will show any number of revolutions correctly from sixty to eight thousand.

Who is "Slatts"? He sets the best table at the Owl.

To watch the exhibition of Rugby put up by the visitors last Saturday one would suppose that Marquis of Queensbury rules governed the game instead of the Rugby rules. Marquis of Queensbury rules are supposed to govern one style of sport but football is quite a new name for it. Some changes were suggested in the rules this year but as far as can be ascertained they had no tendency to give the players any privilege to play the game that generally takes place in a square ring.

The referee is supposed to be the judge of fair and unfair in the playing on the field. He is there for that purpose, although some seem to have ideas to the contrary. A team that cannot show enough sportsmanship to stand by the rules of the game it plays is a poor advertisement for any school.

FACULTY SCIENCE CLUB MEETS NEXT TUESDAY

Next Tuesday the meeting of the Faculty Science club will be addressed by Dr. Romanzo Adams. His subject will be the report of the Aldrich Monetary Commission. The subject is a live one and the speaker is one who makes a study of such subjects and all indications point to an extremely interesting lecture.

The meeting will be called at 4:40 p. m. in the Geology lecture room of the Mining building.

MILITARY SCHEDULE

The following schedule of drill is announced for the week, beginning October 2, 1911.

Monday—Battalion drill. Close order. Band practice.
 Tuesday—Same as Monday.
 Wednesday—Same as for Monday. The band will practice marching.
 Thursday—Battalion parade. Blue uniforms will be worn.
 Sergeants will study positions as guides, as they will all be tried out as such.

All officers will be given a chance to drill the battalion and the companies.

By order of
THE COMMANDANT.

For fine lunches call at the Thomas Cafe.

DORN-HAROLDI-ROSS CONCERT AT MAJESTIC

At the Majestic Theatre, Tuesday
evening, October 3rd, the opening of
the local Y. M. C. A. concert season
will take place, introducing the
Dorn-Haroldi-Ross company in a
modern program of artistic vocal and
instrumental numbers.

Lilly Dorn heads the organization
and is a dramatic soprano from
Vienna, Austria, a most beautiful and
talented woman who has had extend-
ed experience on the dramatic, oper-
atic and recital stage. This is her
second season in the recital field of
America and she comes well recom-
mended to the Reno public.

Ignaz Haroldi, the violinist, of the
organization, is a player who has had
the honor of being engaged as soloist
with the Berlin Philharmonic Or-

chestra; who has toured America for
two years and is called "the poet of
the violin." Possessed of remarkable
technique, and commanding a depth
and breadth of tone that are unusual,
he uses his brain and gives to his
audience musical words without trick
playing of any character. He is an
artist who scorns curious by-paths
and who adheres to virile interpreta-
tion—interpretation which makes all
things real and humanly beautiful; he
is among the few who make music
the language of all nations. Tone
color takes on a few definition when
produced by the magic of his bow,
and his violin sings all things with
indescribable charm.

Gertrude Ross, the accompanist, is
a brilliant pianist and soloist as well
as a composer, and one of the best
known on the Pacific Coast. To those
who have not heard these artists, we
can only advise that their splendid
success elsewhere promises a most
brilliant and auspicious opening of
the Y. M. C. A. season this year.

The new line of English caps re-
ceived by Frank & Bane are the
finest yet seen in Reno.

GENERAL ASSEMBLY NEXT FRIDAY

PROF. FRANSDEN TO SPEAK ON IMPORTANT SUBJECT

Friday morning at 10 o'clock regu-
lar weekly general assembly will be
held in the gymnasium.

As President Stubbs announced last
Friday the lecture will be by Prof.
Peter Frandsen of the Department of
Biology. His subject will be "Hygiene
and Sanitation of Infectious Diseases."
The subject is a live one and one
which confronts us all at times.

This lecture is but the first of about
six which President Stubbs is having
arranged along this line. At the pres-
ent writing the remaining subjects
and speakers have not been fully set-
tled. They may be announced at the
assembly, Friday, if the list is com-
plete at that time.

Students are requested to be in their
places promptly.

The subject is of general interest
and a cordial invitation is extended
to all who may wish to attend.

HARRY CORSON CLARKE ATTRACTION AT MAJESTIC

Mention of the name of Harry Cor-
son Clarke at once brings to the mind
thoughts of comedy—of fun—of
laughter, loud and long—pleasant
memories, it may be, of hearty amuse-
ment afforded in the past. Such being
the case, it will be welcome news to
all that the popular comedian will ap-
pear here for one night only on Sun-
day, October 8th, presenting his sel-
ected company in his latest and great-
est laughing hit, "His Absent Boy."
The comedian has been so long before
the public now that it seems super-
fluous to sing his praises or those of
the production he will give. It has
a good, plain story that runs right
through, and has the merit of being
perfectly intelligible through all the
maze of complications that ensue.
The principal character, Pennie by
name, is one of those unfortunate in-
dividuals who are controlled, together
with the rest of the household effects,
by their masterful wives. In Pennie,
Mr. Clarke has a part which gives him
magnificent opportunities, and he ex-
tracts every possible iota of fun from
the piece. The whole, presents an
evening that is full of laughter from
start to finish.

Harry Corson Clarke will appear at
the Majestic theatre next Sunday
evening, October 8th. The advance
sale will open Friday morning.

BIG ISSUE NEXT SATURDAY

Sagebrush Will Run Special Edition
For Saturday's Game

If you're on the bleachers next Sat-
urday at 2:30 p. m. your Sagebrush
will be awaiting you. The manage-
ment have decided to issue this num-
ber of the "College Paper" in order
that the visitors, students and play-
ers will know "who is which."

Your receipt on or before Saturday
noon will insure all the latest news
and a number of fine views of each
team and the campus.
Don't miss this issue.

PROFESSOR VISITS MECHANICAL SCHOOL

SPEAKS HIGHLY OF WORK OF MECHANICAL DEPARTMENT

Dexter C. Kimball, Professor of
Machine Design and in charge of the
Department of Mechanics at Cornell
University, is spending a few days in
Reno visiting the Mechanical Depart-
ment of the University of Nevada.
Professor Kimball was formerly
working manager for the old Stanley
Electric Co., now the General Electric
Co. He is the author of a number of
standard texts on mechanical sub-
jects. Professor Blessing, formerly
with the University of Nevada, has
been one of Professor Kimball's as-
sistants for a number of years. Mr.
Kimball expressed himself as much
pleased with the equipment and teach-
ing methods of the Engineering De-
partment and stated that at least a
year or two in such western schools
would materially add to any man's
education.

A new ice cream parlor has just
been installed at the Thomas Cafe.

Proper Advertising Brings Big Results

ANNUNCIING THE ADVENT OF NEW FALL STYLES IN "SAMPEK CLOTHES" FOR YOUNG MEN

"Sampeck Clothes"
The Standard of America

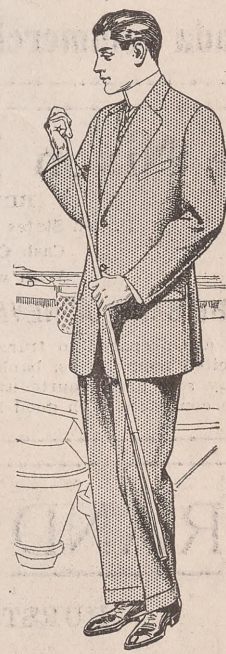

FRESH from New York, the fash-
ion center of the United States, we
have just received the "Sam-
peck" garments which we ordered
made especially for the young men of
Reno.

They are now on exhibition and
sale. These models include many
choice and exclusive styles made from
the finest of pure wool fabrics in a
variety of delightful patterns and
weaves.

If you are conservative in your
tastes, you will find plenty of con-
servative styles from which you will
have no difficulty in making a selec-
tion. If you like pronounced styles,
you will find an excellent line await-
ing you. If your choice is for the
distinctively English type of garments,
we have anticipated your desires and
are waiting expectantly to show you
the clever features which we have
had incorporated in some of our
"Sampeck" models.

The prices of "Sampeck Clothes"
will appeal to you strongly.

Call and see these new Fall mod-
els before the other live young men
get the first pick.

HIGH SCHOOL NOTES

There will be a meeting of the Executive committee Tuesday afternoon at 3 o'clock in Professor Thompson's room.

Thursday there will be a meeting of the student body of the U. N. H. S. in the Math. room.

Basket ball practice will start Monday afternoon on the dirt court. Our first game this season will probably be with Susanville and as they have no floor like our Gym, we will have to become acquainted with playing on an out-of-door court. Although our team has been considerably weakened since last year, we expect to put out another championship team with the aid of Coach Ross and Captain Shutter, the big center and mainstay of the team.

On Saturday, September 28th, the Reno high school football team met and defeated a scrub team consisting of second team and prep players. The scheduled game for that morning was called off on account of the low standing of several players. The game was one of the most stubbornly contested ever played on the Mackay field, and had it not been for Burke and Conway the score would probably have been the reverse with the scrub team on the long end of the score; as it was however, Reno high won the game 8 to 3.

We wish Reno high success in their future games and are only too sorry we can't play them on account of our early start in basket ball.

A large and jolly crowd gathered at the Orvis Ring school last Friday night and helped the R. H. S. make their dance a success. Many from the

ampus attended the dance and all agree that there is some class to the Reno high bunch as gloom chasers.

PERSONALS

Miss Anna Pion, Normal '09, was a visitor on the campus Saturday. Miss Pion is teaching the school at Huf-fakers.

Miss "Gussie" Curler, ex. '12, was on the quad Thursday.

Miss May Porter, ex. '12, was with us one day last week.

L. L. Gilcrease, '13, is back and is registering in Mechanical Engineering. His coming is hailed with delight by the band. Gilcrease played solo clarinet last year.

Albert Rowe, '13, is reported on his road to register in the School of Mines.

NOTICE TO THE STUDENTS

I wish to secure a vote of the students upon the following questions:

1. Do you prefer the luncheon hour from 12 to 1, or 1 to 2?

2. If you prefer the usual luncheon hour from 12 to 1, then will you be willing to have the drill hour and the physical culture hour from 1 to 2?

3. I wish each of you to vote individually upon these questions, putting your answers according to the numbers of the questions, and sign your name to it. Moreover, if you reside in town and regard the hour from 1 to 2 for luncheon as a hardship upon the home-makers, please say so upon your ballot.

All of the students of the University will hand in their ballots on Tuesday at 12 o'clock as follows:

The young men to Lieutenant McClure;

The young women to Miss Meighan. At 2 o'clock Lieutenant McClure and Miss Meighan will meet with the President and count the votes. An announcement of the result will be placed on the bulletin board Wednesday, October 4th, at 11 o'clock.

J. E. STUBBS,
President.
