Student Body Nominates Officers

Last Thursday the Associated Students met in the gym. It was the regular meeting for the month of April. The minutes of the last regular and special meetings were read and approved in the usual manner. "Bill" Settlemyer made the report of his committee on the arrangement that they had made with the Reno High as to the annual Freshmen-High school football games and track meet. The question of the division of the receipts of the games was discussed and on the recommendation of the committee it was voted that they be divided evenly with the High school.

E. R. Mackay reported for his committee that were to see the faculty and regents about the making of the payment of the athletic dues compulsory.

He told of going before the faculty and presenting the case of the students. He had talked the matter over pretty carefully with the president. Mackay read the following letter from President Stubbs:

those nominated for the various offices in the student body next year:

President—W. H. Settlemyer, N. L. Dorn.

Vice president—J. G. Goldsworthy, L. L. Gilcrease, Harold Layman.

Secretary—Miss Eunice Cagwin, C. A. Milentz.

Treasurer—Nat Wilson, D. B. Bradner, H. McPhail, C. Hamilton.

Graduate manager—S. E. Ross.

Women's athletic manager—Miss Lillian Davey.

Member of executive committee sophomore class—L. Harriman, Phil Cowgill, Sol Cazier.

Member of executive committee freshman class—Joe McDonald, T. P. Walker, Laurina Marzen, R. Sheehy, E. S. Abbott, A. Boggs, J. Kniffin and A. Trabert.

Editor of the Sagebrush—H. W. Grayson, R. P. Farrer and C. M. Ogden (incumbent).

Manager of the Sagebrush—L. B. Patrick (incumbent), L. G. Chapman and R. R. Richardson.

There was some discussion as to whether or not Ogden was eligible for re-election. President Pearson ruled that as long as he was not to graduate this year, and was registered as a junior in the office, his name should go on the ballot. The same ruling applied to L. G. Chapman, who was nominated for business manager.

April 10, 1912.

Mr. E. Reay Mackay,
Committee from Associated Students, University of Nevada,
McKissick Hotel, Reno.

My dear Mr. Mackay:

You have asked me to answer the following question:

"Can the students make the athletic fee of four or five dollars a semester compulsory?"

Hitherto the fee for athletics has been approved by the faculty and the board of regents and collected through the administrative office, and then paid over to the treasurer of the Associated Students. The question whether this was legal or not has never been raised until the present time.

I have submitted this question to our legal advisors, Messrs. Cheney, Downer, Price and Hawkins, and their opinion is as follows:

"The regents have the authority to say what fees shall be collected from the students other than tuition, provided the money received from the students is under the control of the regents and directed by the administration. This would apply to a matriculation fee, to an incidental fee, to laboratory fees, and to a fee for athletics. The regents cannot place the control of the fund received from any one of these fees in the hands of any other body than the administrative officers of the university."

This would mean, therefore, some little change in the collection and disbursement of the athletic fee. I would suggest some such plan as follows:

Let the Associated Students agree that the athletic fee collected from the students with the sanction of the board of regents be placed under the control of a committee on athletics, composed of three members of the faculty, two members from the alumni and four members from the undergraduate students. In this way I think the fee can be required of students and administered to the satisfaction of the university.

While I have no action from the academic council to guide me, nevertheless it is my opinion that each member of the faculty would contribute something toward the support of athletics, probably an amount equal to that paid by each student.

Yours very truly,
J. E. STUBBS,
President.

After some discussion of the subject a motion that the committee take up the matter further with the faculty was passed.

The proposition made by President Stubbs is the best that has been presented to the students for some time and offers a good way out of the difficulty of collecting athletic dues.

The "N" society brought up the proposition of purchasing the pictures of the football teams of the university that have been taken in the past fifteen years. These pictures, two of each team, can be had for forty dollars.

The N society, through its president, Mackay, recommended that the student body vote the funds necessary to make the purchase. There was a little talk on the subject but nothing was done that amounted to anything. No money was allowed and the matter fell through.

Following this the nominations for officers of the student body were opened. The following is the list of

Two 1911 Grads To Mary

Mrs. W. H. A. Pike presided over one of the most elaborate of the week's social functions Saturday afternoon at her home on South Virginia street, when she entertained at a luncheon, announcing the engagement of her second daughter, Miss Gertrude Beatrice, and Mr. Randall Brooks Layman, the eldest son of Prof. and Mrs. J. D. Layman. The manner of announcement was most artistic and unique. The center of the large round board represented a body of water, the edges banked with the daintiest of vines and in the center was cupid shooting arrows at a bevy of pretty gowned miniature maids in boats which were sailing about the lake, alternate strands of green and white ribbons extending from each boat to the place cards, and nestled in the boat was the dainty message. These were drawn at the conclusion of the elaborate menu and were very pretty favors of the happy event. After congratulations the afternoon hours were spent with saving many of the dainty articles which will no doubt form part of the wedding trousseau. The bride and groom are both of Reno's most respected families and their engagement has been the culmination of happy college days. They are both very popular in college and social circles and their wedding will be a society event of the pretty month of June.

The bride is a young lady of charming personality and has a host of friends. For the past year she has been principal of the schools in Fallon.

Miss Pike is a member of the Delta Rho sorority and was quite prominent in all its affairs while in college. She graduated from the college of liberal arts with the class of 1911.

Randall Brooks Layman, or "Jimnie," as he was known to all his many friends in the university, graduated from the University of Nevada last May. He is a member of the Sigma Alpha fraternity. Layman took his degree in mechanical engineering. He now holds a position with the power company at Tonopah where they will reside in the future.

FRESHMEN-HIGH SCHOOL MEET NEXT SATURDAY

Next Saturday the first of the annual track meets between the freshman class and Reno High school is scheduled to take place this week. Saturday is the day set for the event. The meet should be quite interesting. There is a good list of talent in the freshman class and among the High school students.

The Owl Cafe requests your appearance at meal time.

SENIOR CLASS, TAKE NOTICE

There will be a meeting of the class on Thursday of this week in Miss De Laguna's room at 7:30 p. m. There is some important business to be taken care of. Promptness will be appreciated.

Signed:
R. M. SEATON, President.

When you are late, eat at the Owl.

Delta Rho Dance Is Big Event

Saturday evening in the gymnasium the Delta Rho sorority entertained at the largest and most elaborate dancing party of the entire season, having as their guests nearly all the college students and faculty and many others. One of the most delightful features of the event was the fact that so very many of the older sorority members came to Reno to attend. The renewing of old college ties was indeed pleasant.

The entire gym was converted into a veritable Japanese garden, and hundreds of many hued lanterns, festooned from the ceiling brilliantly illuminated the merry scene. Wisteria and cherry blossoms were attractively used in the cozy corners and the overhanging boughs were most attractive. A quaint old water wheel that slowly turned, served as an artistic retreat for the thirsty dancers, and delicious was the punch that was furnished with the most entrancing music.

Never did college society dance in a more attractive setting and even before the place was animated by happy faces of the dancers, the hall presented a picture charming to look upon, a veritable Japanese tea garden with its wealth of Japanese lanterns, Japanese flowers and masses of greens, its unique cozy corners, the effect of giving the auditorium an airy festive appearance that was most pleasing. One of the many pleasing surprises was the spot from which a bevy of dainty buds dressed in Japanese gowns dispensed the daintiest of refreshments all the evening. This group were Misses Alice Hobbins, Myrtle Cameron, Lola Stinson, Dorothy Morrison, Dorothy Higgins, Helen O'Neill and Constance Watson.

As the guests gathered in their dainty gowns of every hue and looking as merry as their conversation and the hundreds of lights were turned on the scene was one of dazzling beauty and the crowning glory of a wonderful scene.

Then as the orchestra began to play the grand march, led by Miss Helen Hobbins and Mr. Settlemyer, was formed and the vast gathering fell in line.

The orchestra dispensed the most inviting music, and the young ladies dispensed the most charming hospitality, and are to be congratulated on the manner in which they entertained their guests, and the most genial happiness reigned, for they personally watched that no one was neglected.

Among the vast gathering was seen Governor Oddie and sister, Miss Grace Oddie, Mr. and Mrs. Robert Fulton, Mr. and Mrs. John Fulton, Mr. and Mrs. R. M. Price, Mrs. Gordon True, Mr. and Mrs. Whitney, Mr. and Mrs. Goldsworthy, Mrs. Johnstone, Mrs. Tweddle, Misses Cameron, Arnot, W. Edsen, Rhodes, F. Levy, M. Finney, Davey, Coffin, Glass, F. Hill, F. Dodd, Benton, Graham, M. Mack, Reigelhuth, Walker, Pyle, Davis, Martin, Rose Stewart, Calhoun, Stoddard, Stevenson, Edith Mack, Brown, Jepson, Willey, Newmarker, Hall, Parry, Jones, Smith, O'Neill, Wheeler, Gosse, Roxy Thoma, Cole, Neasham, O'Brien, Herz, Munk, Langwith, Stinson, Clara O'Neill, Hussman, E. Herz, Steinmetz, Taylor, Hoffer, Norcross, Clark, M. Leon, G. Leon, Hibbard, Harris, Fulton, Thoma, Thompson, Stubbs, Marzen, Morrow, De Flon, Margaret Fulton, Cagwin, C. Cagwin, White, Hawcroft, Hobbins, Jones, Weck Hlyton, Bird, Williams, Hauss, Reed, Holesworth, Schular and Messrs. Dorn, Hardy, Wilson McNulty, Patrick, Lacey, Ross, Folsom, Cazier, Duddleson, Delahide, Settlemyer, Abbott, Hilton, Breeding, Pennel, Dewar, J. Wilson, Robb, Anderson, Schrapps, Goldsworthy, Sinai, Spencer, Ostroff, Henderson, Setz, Hy-mers, Power, Johnson, Burke, Nippen, Gibson, Ogden, Bane, Nixon, Golden, Palmer, Farrer, Steele, Pruett, Bringham, McPhail, Axt, Bender, Menard, Fletcher, Curtain, Cameron, Payne, Hall.

Prof. G. H. True Made Director

At the last meeting of the board of regents held last week they decided to appoint Gordon H. True to the office of director of the experiment station. Prof. True has for the past eight years been a member of the U. of N. faculty in the chair of professor of animal husbandry and agriculture. His appointment to this new position will not materially affect his work in the department of agriculture, as he will be the head of that department also.

Prof. True came to the University of Nevada from Arizona, where he was engaged at the university. He graduated from the University of Michigan and also from the University of Wisconsin. His home is now in Reno.

The chair of director carries considerable responsibility with it. The station receives a considerable amount of money from the United States government and they depend upon the directors of the various stations to see that this money is correctly expended. At the University of Nevada this amount aggregates nearly \$40,000 per annum, and this money must all be spent by requisitions through the director. This is the most important work that Professor True will have to carry out.

Y. W. C. A. TO HAVE SPECIAL SECRETARY

At a meeting of the Y. W. C. A. held the last of the week, it was decided to appoint a regular secretary for the University of Nevada to have an office on the campus and to be of general utility to the co-eds. Thus far there has been pledged nearly \$900 to defray the expenses. Mrs. George S. Nixon has been very generous, donating a very large share to this good work. The senior girl graduates have donated \$10 each to go into this fund.

The U. of N. is thus far the only college in the inter-mountain district that is to have a regular secretary. The girls of this institution are to be congratulated on their hustling and unified action along these lines.

Gives Good Talk On Air Brake

Thursday afternoon the Engineers' Club had the pleasure of listening to a most interesting talk on the air brake and its development. The talk was given by Mr. W. E. Petrie, Mr. Petrie is the road foreman of engines for the Southern Pacific company. The lecture was given in the Physics building and the attendance was of the best.

Mr. Petrie took up the air brake from the time that its necessity was recognized by Mr. Westinghouse, through the various stages of its development up to its present perfection. The history of the development from the old hand brake, the attempts at making a steam brake, the earlier direct application of the air to the brake cylinders and the final use of the present system of "automatic air" was told in a pleasant and interesting manner.

The Engineers' club has been very fortunate in getting good speakers for their meetings. Mr. Petrie made an address that was thoroughly enjoyed by all those who heard it. The hour seemed all too short. It is hoped that the club will be able to get him to come to the university again and give the student engineers another talk.

Mr. Petrie is a pretty busy man, and it is hard for him to get away. It was through the courtesy of the division superintendent that we were able to get Mr. Petrie here this time.

PROF. DOTEN DOES SOME FINE WORK

The following is an extract taken from the Photo Era, April, 1912: Samuel Bradford Doten, B. S., entomologist of the University of Nevada, Reno, Nevada, has been photographing by flashlight minute living insects. His apparatus is very ingenious, and his pictures marvels of microscopic detail. Those of our readers who are interested in photo-micrography may procure from Professor Doten an illustrated manual which shows his methods of work, and also some of the resulting pictures. Address him at the University of Nevada.

College Romance Ends Happily

Married, in San Francisco, Friday, April 12, 1912, Lyman Kelso Finny and Augusta Curler. The two stole off very quietly and were married at the home of Dr. Vogel, an uncle of the bride, the only guests present being Mr. and Mrs. B. F. Curler, Mr. and Mrs. A. Vogel, and Dr. and Mrs. Vogel.

These are the fifth and sixth members of the class of 1912 to choose the degree of matrimony instead of that of B. S.

Mrs. Finny left college the second semester of her junior year, while Mr. Finny stayed with us until the second semester of his senior year.

Mrs. Finny is a charming blonde, and always prominent in social and athletic affairs. She was the star forward of the 1912 class basketball team, and played with the 1910 'varsity' team. She was class secretary during her freshman year and president of the tennis club for two years. We all remember her as the charming Mrs. Balew in "Higy of Harvard," the clever junior play of 1911. Our best wishes go with her all through life. She is the daughter of ex-Judge and Mrs. B. F. Curler, of Reno.

Mr. Finny played with the 'varsity' football team of 1910-1911. He was treasurer of his class and business manager for the junior play.

The home of the couple will be in Los Angeles, where Mr. Finny has a good position.

Delegates Chosen For Big Meet

The representatives that are to go from the several schools and colleges to the conference meet at Berkeley on May 4th have been chosen. The University of Nevada is to have two men go at the expense of the conference committee. Coach Ross says that he will try to send about five more men down at the expense of the Associated Students.

The following is the list of the entries from the various schools:

State College of Washington—Graves, Schultz, Cooke, Stookey, Cool.

University of Washington—Evans, Courtney, Lang, Wright, Abbott.

University of Nevada—Bringham and Randall.

Pomona—Baur, Billings, Fischer, Gillette and Sturgis.

U. S. C.—Throop, Hodge, Smith, Ward, Walkins, Kelly, Swigert.

Santa Clara—Best, Bennison and Hardy.

St. Mary's—Vlaught.

The list of the entries from Stanford and California have not been submitted and will not be until after the Stanford-California meet this month. There are a number of the men on the team here that have made the required time but they were not selected by the committee in charge of the meet to represent the U. of N. It is these men that Coach Ross hopes to take down at the expense of the college.

TOLERANCE OF BREAD BY DEPT. OF W. AND M.

After experiments on the shrinkage of bread conducted in the weights and measures laboratory, the following tentative decision is made:

One-half ounce for shrinkage on one pound loaf of bread not over fifteen hours from oven. The tolerance on a loaf of bread weighing 12 ounces shall be three-eighths of an ounce on bread not over fifteen hours from the oven.

On loaves of bread weighing less than one pound the tolerance shall be the corresponding fraction of the tolerance for the standard loaf of bread.

If a loaf of bread sold or offered for sale weighs more or less than a pound, it shall be labeled in plain, intelligible English with its correct weight, together with the name of the manufacturer.

If further tests on the shrinkage of bread should clearly show that the tolerance is too much or too little, then the department of weights and measures will revise its decision.

The bulletin on "The Avoidance and Prevention of Frost in the Fruit Belts of Nevada," is off the press and ready for distribution. It contains many hints to the orchard men of the state and should prove very valuable to the fruit growers.

General Assembly Next Friday

President Stubbs has invited Miss Charlotte Anita Whitney of San Francisco to address the University assembly on Friday, April 19th. Miss Whitney is the president of the college equal suffrage league of California, which Dr. Aked says did some of the most splendid work in the campaign for equal suffrage in California last year.

Miss Whitney has just returned from Oregon where she organized a chapter of the league among the girl students at the University of Oregon. Nearly every woman's college or state or county co-educational university of standing has an equal suffrage club among the girl students.

There are many men's leagues as well, Dartmouth, Yale and Harvard all having men's leagues for woman suffrage, there being twenty-five altogether in the United States.

Miss Whitney will address the girl students after assembly with the object of forming a chapter of the college equal suffrage league here.

St. Mary's--U.N. April 27

The proposed meet with the University of Utah has been postponed until next year. Utah could not come here this year as the only date that they had open was May 25th, which is two weeks after we close for the semester. The manager of the Utah team is still very willing to resume athletic relations with the U. of N. and a contract for two years will be signed in the near future. By the terms of this contract two meets will be held between the two universities. One meet will be held on the Mackay field and the other will be on the Utah field.

The final arrangements for the meet with St. Mary's are being made. The meet will take place on April 27th, a week from this coming Saturday. The team is working hard to get into trim for the occasion and expect to give the collegians the time of their lives. If the meet is a financial success the proceeds will probably go toward sending the additional members of the track team down to the conference meet.

PROFESSORS ATTEND SCIENCE MEETINGS

Professors Maxwell Adams and J. Claude Jones were representatives of the University of Nevada at the annual meeting of the Pacific Association of Scientific Societies that met at Stanford on April 5th and 6th.

Prof. Jones read a paper before the Geological Society of America. His paper was on the ore deposit at Barth, Nevada. Prof. Jones has made quite an extensive study of this deposit.

Professor Adams attended the meetings of the California section of the American Chemical Society. There was presented before this society a paper by John Stevens Horn (Hans) who graduated from the U. of N. last year.

This paper is the thesis that Horn has prepared to get his master's degree in chemistry from Stanford University. Horn has been doing some fine work at Stanford and has made quite a name for himself. He graduated here last year and will get his master's degree this spring at Stanford. This speaks well for our school and particularly of Horn.

INSTRUCTIONS FOR THE PLANTING OF TREES

Prof. P. B. Kennedy has prepared a pamphlet which contains fifty suggestions as to the planting of trees and their care. It is very thorough and some of the instructions that he gives are well worth remembering. If you are interested in the subject get one or two.

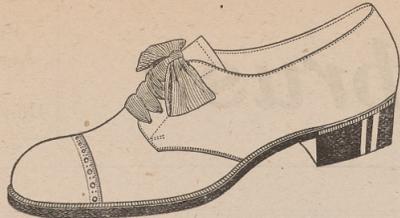

GLEE CLUB MAKES TRIP TO VIRGINIA CITY

Saturday afternoon the university glee club made a trip to Virginia City. They left Reno for Virginia in autos. One loaf left at one and the other at half-past five. They sang at the theater that evening and returned Sunday morning. The members of the club report that they had a fine time.

AT STUDENT BODY MEETINGS

The last meeting of the student body was not as well attended as it should have been. There were in their neighborhood of fifty per cent of the members of the associated students present. The meetings of the association are for the students to attend. Every student should make it his business to see that he gets there and takes an active interest in the affairs of the association.

There are some of those who attend the meeting for the sole purpose of seeing how much fun and frivolity they can stir up. The meetings of the association are for the purpose of transacting business and not for affording some few people a chance to have some sport. Some of them get up and talk on the question just because some one says, "Get up, and say something." They have no idea of what they wish to say. Afterwards they wonder why there is not much accomplished at the meetings.

The Sagebrush hopes that the students who are responsible for these conditions will see that they are remedied.

PREPS ISSUE THIS MONTH

The issue of the Sagebrush for April 30 will be gotten out by the students of the University High school. They will gather all the material and do the editing. If the prospects are as good then as are hoped for they will have six or eight pages in their issue.

The preps are planning to have a goodly number of cuts made especially for their issue. This will add greatly to the appearance of the paper. The preps say that they will try to outdo the freshman issue which appeared just before the holidays.

POND IS FILLED AGAIN 5

Last week the water was turned into the lake again. This looks good to all the students. The pond always looks better when it is full of water. Furthermore the weather is turning warmer—or it will in the near future. That gives the men in the hall pleasant prospects of using the place for having a swim or two. The small boy with his canoe is already in evidence.

MEASURING SNOW AT MT. ROSE

Last week Professor J. E. Church returned from a trip to Lake Tahoe where he had gone to help in the measuring of the snow depth there. Prof. Church has quite an extensive outfit at the lake and is gathering some very important data. Saturday he left for Mt. Rose to take the measurements of snow depths on the mountain and adjoining regions. Prof. Church reports that the average depth of the snow is about sixty per cent of that of 1910.

When you want to eat, eat at the Owl.

PERSONALS

Mr. and Mrs. P. Keyser, of Portland, Oregon, both members of the class of 1899, are visiting in Nevada. They are at present in Elko, and will probably be in Reno over commencement. Mrs. Keyser was Miss Aimee Sherman.

L. E. Dubois, ex-'12, has been spending the week end in town and has been a frequent visitor on the hill.

Al Meyers, mineral land examiner for the Southern Pacific company, is spending a few days in Reno.

Paul Arntz, ex-'11, spent part of last week in town.

Prof. G. H. True is at the dry farm at Elko.

Walter R. Harris, '11, was a visitor on the campus Sunday. He left Monday for Topaz, Nevada.

NOTICE

There will be a meeting of the Big N Society in the training quarters on Wednesday evening at 7:30. Certificates of membership will be issued to those present. Officers for next year will be nominated.

E. R. MACKAY, President.

ARE FIXING UP NEW LAWNS

Mr. Lynch, the landscape gardner, has quite a number of men at work under his direction putting in the shrubs and flowers in front of the lake and Manzanita hall. The water pipes that are to supply the flowers and lawn in front of the girls' dormitory have all been laid and the work of planting the shrubbery is being pushed through with as much speed as possible.

**Freshmen Glee
Next Friday**

The Freshman Glee, the one big dance of the year, where everybody is assured of a good time, takes place next Friday night in the gym.

The freshmen have made elaborate plans and have spared nothing in their endeavors to make this a grand success.

Every member of the student body and the faculty of the university are invited to be present. If you don't dance, come and look on, your presence will be appreciated.

The grand march will begin promptly at 9 o'clock, so get your ladies, boys, and join in the march for you will have one grand time as the guest of the class of 1915.

NOTICE

A statement in one of the Reno papers last week to the effect that the Freshmen Glee was to be a soft-shirt affair, that no dress suits would be allowed and that the ladies and escorts would be forced to sit on the floor to eat their refreshments, is altogether false.

The glee, though not a strictly formal affair, will conform with all customs, and the usual propriety of a dance given by responsible parties, and will in no way be a children's affair, as was pictured in the piece referred to.

FRESHMEN DANCE COMMITTEE,
JOE McDONALD, Manager.

NEW NUMBERS FOR PHONES

The following are the new numbers of the phones on the campus:

- 175—Mining Building.
- 176—Chemistry Building.
- 121—Mechanical Building and University Hospital.
- 122—The president's house.

Plenty to eat and well cooked without Jap help, at the Owl.

DELIVERS SPEECH BEFORE ENGINEERS' CLUB

Last Wednesday evening the Engineers' club of the University of Nevada had the pleasure of listening to a address by Mr. Ed. Ryan. Mr. Ryan is the state inspector of mines. He took as his topic the prevention of accidents in mines.

Mr. Ryan is a man who is well versed on this subject and his talk was enjoyed by all those who had gone to the meeting of the club. It is not unlikely that the officers of the Engineers' club will try to get Mr. Ryan to favor them with another of his talks.

When you are late, eat at the Owl.

PLANNING DANCES FOR COMMENCEMENT

Miss Meighan is planning to have a number of dances for the festivities that take place during commencement. Last year the physical culture classes under her direction gave a number of folk dances on the lawn of the quad. They were very pretty and well given. The dance this year will be of somewhat a different order. Among others there will be some May-pole dances. The poles have been ordered and the classes under Miss Meighan's direction are at work perfecting the steps. Plans are being made to hold the dances in the gym in case that the weather will not permit them being held on the quad.

When you want to eat, eat at the Owl.

FOR THE GIRL GRADUATE

The Palace is making a Special Showing and Sale of Materials for graduates. We invite you to inspect them.

Baseball Trip This Week
 Word was received Thursday morning from Graduate Manager Farmer of California, calling off the baseball game with the University of Nevada (on account of muddy field). During the first few weeks of season Manager Kennedy tried in vain to arrange a schedule with Farmer, but the only date open was Saturday, April 13, providing no deciding game was to be played between Stanford and California on that date.
 California won two straight and Kennedy wired Farmer that he would be down Saturday. No sooner had the telegram arrived than did the California manager wire, "No hope; California field flooded."
 The Nevada boys were sorely disappointed when word was received so early in the week. The schedule included Stanford, April 12, California, April 13, St. Mary's, April 15. No doubt the Californit people remember the 3-2 eleven inning game of last spring when the Nevada boys gave them a slight scare. Neither Stanford or St. Mary's complained about mud.
 Next Saturday the baseball team, Cadet band and Reno Gun Club will leave for Fallon. A special train has been chartered, leaving Reno at 1:35 p. m. Saturday, and returning at 7:30 Sunday evening. Students' rate, \$2.70 for the round trip. About seventy people are expected to make the trip. Hop aboard. A real live time guaranteed.

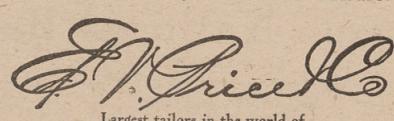

NOTICE TO STUDENTS
 Owing to the fact that I may be unable to return to school next year I wish to withdraw my name from the ballot a sa candidate for representative on the executive committee from the freshmen class.
 R. H. SHEEHY
 I do not expect to return to the university next year and therefore wish to withdraw my name as a candidate for business manager of the Sagebrush.
 R. R. RICHARDSON.
FRESHMEN NOTICE
 There will be an important meeting of the Freshmen class Tuesday afternoon at 4:30 in room 6. All the dance committees will render their final reports. The final arrangements for the glee will be made and it is imperative that every member be present.
