

# SANTA CLARA, THAT'S ALL

## Commercial Club Smoker for Guests

### Waratahs Enjoy Evening In Reno

The smoker at the Commercial Club, on the evening of election day, like everything else connected with the Australian visit, was a grand success. At about 8 o'clock the Waratahs began to arrive. Prof. Scrugham, Prof. Hill and others of the faculty, some of the members of the entertainment committee and a committee of the Commercial Club were all there to greet our guests and to make them feel at home. Soon cigars and cigarettes were lighted, from the tables came the click of billiard balls and pool, and from the groups lounging in the comfortable chairs could be heard the hum of conversation. From time to time as the election returns came in and were read aloud, the Australians listened eagerly, and seemed as interested as did our own citizens. Like most Britishers, too, they were pleased with Wilson's victory. It was a late hour, indeed, when the smoker broke up and the Waratahs, accompanied by some of the Nevada men, proceeded to their hotel.

## Mrs. R. Brown Visiting Reno

Mrs. Richard Brown is visiting her mother, Mrs. Libbey, for a couple of weeks at her home on Riverside avenue. Mrs. Brown reports the whole Brown family as being well and enjoying their stay at Pacific Grove. The change has worked wonders for "Prof." He has not been able to walk so well in years as he does now. He has partially recovered from the rheumatism, which so bothered him during the last few years at Lincoln Hall. Through Mrs. Brown, Prof. sends his kindest regards to all of his old friends, the boys at Lincoln Hall.

Hattie, too, is well and happy, but sometimes homesick. Helen and Dick and Buster are having the time of their lives and are growing rapidly.

#### A FLASH

Word (unofficial), was received here this morning that Lester P. Harriman had been elected to play with the All-American Ruggers against the Waratahs.

## PORTRAIT OF JOHN W. MACKAY

In the library of the Mackay School of Mines, there hangs a crayon portrait of John W. Mackay. The picture is a famous one of its kind and was drawn by the Artist Fink in 1880. A more complete history of the picture will follow in a later issue of The Sagebrush. The portrait was presented to the University by the Reno Commercial Club. The letter of transmission follows:

Reno, Nev. Nov. 2, 1912.  
Prof. Geo. J. Young, University of Nevada, Reno:  
Dear Professor:—The Club takes great pleasure in presenting to the Mackay School of Mines the portrait of John W. Mackay, believing that its library is a more fitting place for the picture than the rooms of the Commercial Club, notwithstanding that it is prized most highly by our members. The library of the Mackay School

of Mines should contain the pictures of the mining pioneers of the state of Nevada, as, aside from the development of its immense mining interests, they were also the makers of its history, and it is most fitting that John Mackay's picture should be one of this collection.

Very sincerely yours,  
C. T. STEVENSON,  
Secretary.

## Waratahs Win With Heavy Score Featured by Sportsmanship of Teams

That the Nevada Rugby team was defeated by a large score is conceded, but those who did not see the game cannot appreciate the type of Rugby and the clean sportsmanship displayed by the members of both teams.

At all times did Referee Reading have the game under complete control. With the true sportsmanship displayed in the game by winners and losers, a more open and fair exhibition of the English game could not have been possible.

Kicking against a very strong wind at the start of the game, Nevada punted to the Waratahs and they returned with a short high kick to midfield, which their forwards closed upon and rushed for a good dribbling gain to the Nevada territory. Here a scrimmage took place and the Nevada team started a return aggression that could not be stopped until a Waratah back sent the ball sailing over the crowd of bewildered lads from the Sagebrush college in a most difficult position.

Nevada rallied and held the visitors for a few seconds. Here a scrimmage sent the ball to the three-quarter line and active and fast passing scored the first try for their team, after a passing rush that gave four men a chance to handle the oval. They did not convert.

After the first try of the Waratahs, the local lads returned determined to score, and Curtin, receiving a pass from the Australian half back by an interception, ran fully sixty yards to be tackled on the touch line. A throw in sent the ball to the forwards of the Nevada team and a rebound gave Percival a chance to fall over the line for the first of Nevada's two tries, just inside the field of play. Score, 3-3. Bringham did not convert.

For fully twenty minutes the play of

the two teams was confined to the mid-field, and then came the passing of rushes that inevitably resulted in scores for the visitors. They outdistanced their less experienced opponents. The score at the end of the first half stood 28-3 in favor of the Waratahs.

The second half showed the visitors in their true form. Fast and furious, but at all times playing the ball and not their opponents, they rushed Nevada to the five-yard line in less than ten seconds. Here Sheehy, the fast five-eighths, saved the day again with a timely boot to touch from the goal line of his team. Australia, however, came back and started the best football ever seen on the coast. Their passing was faultless and they backed up well so that scoring was inevitable from nearly every passing rush.

Kent, the fast bootman of the Waratahs, starred by dribbling from ruck plays and starting the open work that so much characterized the game. At no time was there a chance for a man to be hurt by being kicked when down, and he was immediately set upon his feet by his opponent.

The score grew by three points at almost regular intervals, but the visitors' goal kicking was a sad affair, in that they only converted three goals during the entire game, of sixteen recorded.

The final score of the game was 57 to 6. Nevada scored a well-earned try during a dribbling rush when the local lads sent their team in a pack over the line by sheer force. The local boys failed to convert.

During the entire game there were no men replaced on either team and there were no injuries registered on any of the players.

The local players say they were

beaten by the best lot of true sports ever to play on the Mackay field, and that they congratulate the visitors on their way in which they play.

A statement made by "Bob" Richards, one of the Waratah team, follows:

"We have played the finest team of true sports that we ever hope to compete against in any country or on any continent. In all our games on the coast we have not met a team that played the game of Rugby in the way in which Coach Ross and Captain Mackay are conducting their players. Clean playing, aggressive at all times, and displaying a considerable better knowledge of the game than many of the other teams we have played since our arrival on this coast, was the rule. Our boys are here to show the players the way to play the English game, and we are doing our best to deliver the goods. In no game thus far have we competed against a team that is deserving of so much credit as is the Nevada University team.

"Although a bit weak in tackling and smothering the ball, the Nevadans showed that they were able to grasp the game for all there is in it and play it for the sport of it, and incidentally with if they may. Our visit on these shores is the most pleasant that any one could wish. We have been treated royally everywhere we go and our boys certainly appreciate the treatment accorded them by the people of Reno, the students and the Commercial Club of your city."

The Nevada team lined up as follows:

Forwards—Hamilton, Laymon, Perkins, Kneffin, Mackay, Henninsen, Harriman, Percival.  
Backs—Menardi, Sheehy, Bringham, Curtin, McPhail, Webster.

## Sophomore Hop Enjoyed By All

### Decorations a Feature of the Dance

The Sophomore hop, the first class dance of the year, was decidedly a success. A feature of the affair was the scheme of decoration and, for the success of this feature the class points with pride to Miss Jessie Hylton. The gym presented a twilight scene in the late autumn. The softened lights shown down upon the merry dancers through masses of yellow leaves. In one end of the gym a cheery log fire glowed ruddily. Trees of evergreen set here and there, added a touch of color to the scene. In the other end of the gym, Bob Ostroff's orchestra, from a rustic platform, made of real logs with the bark still on them, and half hidden by boughs of yellow leaves, dispensed music in keeping with the picture. There were cosy corners, too—little log cabins covered with yellow vines and set in the very dimmest recesses of this autumn forest—so in keeping with the scene that you would hardly notice that they were there.

In this woodland scene, promptly at 9 o'clock, the hop started. The grand march was led by President Joe McDonald and his partner, Miss Leola Lewis. During the march, the programs, little red and white affairs, representing the class colors, the result of the skill of "Huskey" Sini—were given out. The dancing continued until the wee hours. Schottisches, moonlights and extras were cleverly worked in by the floor manager, Robert Bringham.

Throughout the evening delicious punch was served from a little log booth by a darkey dressed in the rustic costume of a woodsman.

#### NEW MANAGER FRALEY'S STORE

On account of the increasing business at the Fraley store since the removal to the west side of Virginia street, Mr. Fraley has been obliged to secure a manager for his store.

He has been fortunate enough to secure the services of Mr. G. U. Ashby, who has been in charge of the cloak and suit department of one of San Francisco's best stores. Mr. Ashby is a thorough cloak and suit man and has very progressive ideas on the conduct of a store. He has been in business for himself, having conducted stores in Los Angeles and in Idaho.

Mr. Ashby is a man of pleasing personality and original plans. He is already very much pleased with Reno and its people, and proposes to make this city his permanent home.

FROM LONDON  
 22 Cockspur St., London S. W.  
 11th October, 1912.

W. H. Settlemyer, Esq., President  
 Associated Students, University of Ne-  
 vada, Reno, Nevada, U. S. A.

My dear Mr. Settlemyer: The fol-  
 lowing dispatch from you was duly  
 received just as we were about to em-  
 bark for London and very greatly ap-  
 preciated:

"Once again the students of the  
 University of Nevada wish you and  
 yours a most enjoyable vacation."

I telegraphed a reply to you, which  
 you doubtless received, expressing our  
 grateful acknowledgements for the  
 kindly act showing the thoughtfulness  
 of the students toward us.

We arrived in London late Tuesday,  
 October 8th, being detained some  
 twelve hours by a typical London fog.  
 For the last two days we have done  
 considerable sight seeing. Yesterday  
 we were especially busy, saw a parade  
 of detachments from the crack regi-  
 ments such as the Coldstream Guards  
 and the Irish Grenadiers and listened  
 to a band of sixty pieces. The music  
 was fine, the drilling was perfect and  
 as we enjoyed it my mind went back  
 at once to the University Cadets and  
 the fine showing they made, especi-  
 ally at the close of last year before  
 the inspecting officer of the United  
 States Army. We also had a brief  
 view of the cavalry parade by a de-  
 tachment from the crack cavalry regi-  
 ments, then the day was consumed by  
 visiting the Houses of Parliament  
 and Westminster Abbey, particulars  
 of which I will give you at some later  
 date.

I expect to go to Oxford next week  
 and then will arrange my plans for  
 the first two or three months.

We are all well. We are happy, but  
 our hearts are with the University of  
 Nevada and its students.

Wishing to be remembered to all  
 the members of the student body,  
 I am,  
 Very sincerely yours,  
 J. E. STUBBS.

**COLLEGE LIFE**

When a fellow goes to college to  
 learn to be a man, and forgets the  
 fountain knowledge, on hard study  
 puts the ban; when he stays out till  
 the wee hours with his wine cup and  
 his song, you can wager that he won't  
 adorn the campus very long. When  
 the midnight parties get him and his  
 thinker goes to smash, and he spends  
 in young November all his January  
 cash; when he laughs at all his  
 troubles and the price he has to pay,  
 he has tried the shore and easy route  
 and soon he'll be away. When his  
 eyes get sort of bleary and his nose  
 most awful red, and he writes home  
 to his kind old dad he's sick and near-  
 ly dead; when he trembles when he  
 sneezes and shivers with his cough,  
 then all the fellow sympathize who  
 came down to see him off. He took  
 a course in one short year that  
 should have taken four, and because  
 he couldn't do the work, he comes to  
 school no more; he was badly over-  
 worked you know, and took the  
 needed rest, and everyone says of  
 him, he always did his best.—The  
 Gargoyle.

**MILITARY SCHEDULE**

Reno, Nev., Nov. 8, 1912.  
 Memorandum No. 14—

The following schedule of drill for  
 week commencing Monday, November  
 11, is hereby announced:

Monday, November 11—No drill;  
 general assembly.

Tuesday, November 12—Guard  
 mounting, with band. "A" Company  
 will act as new guard, "B" Company  
 as old. Corporals look up posting  
 and relieving sentinels.

Wednesday, November 13.—Battalion  
 parade and review; battalion  
 drill.

Thursday, November 14.—Butt's  
 Manual—battalion—with band.

By order of the  
 COMMANDANT OF CADETS.

Miss Evelyn Crothers, who former-  
 ly taught music in the Reno public  
 kindergarten, is teaching in the kin-  
 dergarten in Westlake Seminary, Los  
 Angeles.

Frank Peterson is in San Francisco  
 on business connected with the Irr-  
 igation investigation and incidentally  
 took in the Stanford-California game.

#### WHAT'S THE MATTER, BUB?

SWARTHMORE, Pa., Oct. 26—Johns Hopkins did not prove a stumbling block to the Swarthmore football team here today, the home eleven winning by the score of 40 to 6. Swarthmore crashed through the Baltimoreans' line almost at will, scoring six points in the first period, 21 in the second, and 13 in the third. Johns Hopkins' six points were made on two fine field goals by Full Back Gillette in the fourth period.—N. Y. Times.

## EDITORIAL

### SOME STUDENT BODY CRABBING

For the Friday preceeding the Australian game an important meeting of the Associated Students was called by President Settlemyer. At that meeting there were not seventy-five (the number which the Constitution provides shall constitute a quorum) members present.

Last spring you members of the A. S. U. N. elected Bill Settlemyer your president. Your duty is loyal Nevadans consists of more than casting your ballot on election day. When you make a man your president you are in honor bound to support him in the work he is trying to do toward the advancement of the Association. You are not giving him his due support by staying away from student body meetings.

We also hold that student meetings are just as important as any of the other college functions. We see no reason why a meeting of the Associated Students should be subordinated to a meeting of the Glee Club or any other of the campus' minor activities.

This paper has also noticed that there are some of those "wise guys" on the hill who are always to be found in every bunch. You know the kind we mean—those fellows who stand around with their hands in their pockets and their noses turned up and call Student Body meetings "a joke," and refer to the college

as a "h—of a school." There are a whole lot of you fellows who don't belong to the bunch who were not at that meeting a week ago Friday. The way not to get classed with them is to go to the meetings in this future.

Now in regard to the meetings themselves. We believe that the system is wrong. If Freshmen, Sophomores, Juniors and Senior alike left at liberty to get up and say what they thought, there would be more interest taken in the meetings. At the next student body meeting, have the seats all drawn up in a small semi-circle around the platform so that everybody can hear and be heard. Try to get the meetings out of that deep rut in which they have run so long and see if these isn't a quorum present at Student Body meetings in future.

Miss Rowena E. Glass came down from Carson for the Sophomore hop last Friday night.

## Southern Pacific Company and what it does

The Southern Pacific is glad to assist the Faculty and Students of the Nevada State University; also, teachers and students of the Public Schools. It gladly grants half-rates to all of the above from or to any point in Nevada when applied for by the President of the University, or the Superintendent of Public Instruction.

The Southern Pacific Railway is one of the best constructed and equipped railroads in the world. It has ninety pound steel rail, is stone ballasted, has steel bridges and electric block signals that protect every train for two miles in both directions. There has not been a passenger killed by the Southern Pacific Company for four years. This means that during that time 157,000,000 passengers were safely carried to their destinations on its lines. This is a record unequalled by any other railroad. \$6,000,000.00 have been expended within the past five years in installing Automatic Block Signals. Every mile of the Southern-Union Pacific Systems to Omaha, San Francisco, Los Angeles and Portland is now protected.

The same company is paying out monthly in Nevada millions of dollars in wages. Sparks pay-roll alone, the greater part of which money drifts to Reno, amounts to over \$100,000.00 per month. The Southern Pacific Company pays taxes in Nevada to the amount of thirteen hundred dollars per day, every day in the year. This includes Sundays and holidays.

The company grants to Clergymen reduced rates. They daily assist by charity rates, indigent, aged or helpless cases.

When this road was built from Reno, Nevada, to Corrinne, Utah, there were but seven white settlers found. There are more now. They produce cattle, sheep and crops. The Southern Pacific gives them a reliable line and helpful rates to market on everything they produce.

The Southern Pacific Company spent \$80,000.00 in advertising Nevada during 1910; \$85,000.00 during 1911. It is spending much this year in Germany, England, and in every foreign country, asking people to come to Nevada. All other interests combined within the state have not expended so much money for advertising Nevada as has the Southern Pacific.

We solicit the business and good will of the people of Nevada for the Southern-Union Pacific Companies.

## Big Doings Next Week

The next big event in the college calendar is the Y. W. C. A. Pageant to be given the 22d of this month, in the High School, or if that building is not finished in time, in the Orvis Rng school. For several weeks the girls have been practicing their various parts until now they are nearing that state of perfection necessary to a successful production. This fact alone would insure a good attendance; but when one considers that in addition to being good actresses, the girls are all students of the University, each with many friends, he knows for a certainty that the house will be crowded.

The Pageant is divided into four main parts, namely: Japan, China, South America and Africa. Each section is a sketch illustrating the work of the Association in each of the respective countries mentioned. The Pageant will therefore be instructive as well as entertaining. Good music will be furnished by University talent. The practical work will be shown, as, for instance, one scene shows a Chinese class in gymnastics actually at work, another the Association in Buenos Ayres acting as hostess to girls from several foreign countries. If there are any sceptics in the college, as to the practical good which the Association is doing all over the world, they must come and see the Pageant.

All their former notions will be shattered and on the ruins will come a true realization of the advantage of this world-wide Association of all the nations.

## Winnemucca High School

Two games of lawn tennis between double sets of the Lovelock and Winnemucca High Schools took place at the local school house Saturday afternoon, November 2, and resulted in a victory for Lovelock.

The Lovelock team was composed of Miss Ruth Davis and Miss Portia Olson and on the opposing Winnemucca team were Miss Beatrice Lang with and Prof. J. F. Graham. The first double was won by the Lovelock team with a score of 6-1. Lovelock also won the second set, score 6-4.

The second double game also resulted in a victory for Lovelock, the score being 6-4. The sets in this double were Miss Edith Erickson and Prof. J. R. McKillop of Lovelock and T. Poulin and Leonard Simpson composed the Winnemucca team. The scores for the first set were Lovelock 6 and Winnemucca 3. The second set resulted in the Lovelock team scoring 6, and Winnemucca, 1.

**Visitors Are Banqueted**  
The visitors from Lovelock to the Winnemucca school were tendered a reception and banquet at the high school building Friday night.

## Standard Quality

There is no quicksand more unstable than poverty in quality and we avoid this quicksand by standard quality.

## Col. Roosevelt At the Grand

Colonel Roosevelt, the ever popular leader of the Bull Moose, will appear at the Grand Tuesday, Wednesday and Thursday of this week in a special film by the Pathe Company of America. This film has been exceedingly popular and seats have been at a premium wherever it has been shown. Two other big features also for Tuesday, Wednesday and Thursday: Pathe Weekly, with its usual interesting news-pictures of world events, and a spectacular Kalem War drama, "The Confederate Ironclad." This photo play is full of thrills and includes an exciting combat between two gunboats, and a spectacular race by locomotives. All the programs at the Grand this week are A-1—high class as at all time. But don't forget to see the Colonel, Tuesday, Wednesday and Thursday.—Advertisement.

Prof. Howes delivered a lecture in the teachers' institute at Gardnerville upon the subject of Agriculture in the Public Schools.

# Carson High School Notes

## C. H. S. ATHLETIC ASSOCIATION DISPLAYS SOME PEP

What is the matter with C. H. S. Athletic Association? Nothing at all, except that its treasury was rather low. One of the faculty suggested a way to fill it and students took up the idea with the greatest enthusiasm.

The plan was to have a booth down on Carson street and sell hot coffee and doughnuts, "just like mother used to make," all day and all night, too, election day.

And that is just what the association did. They opened their booth at 2:30 in the afternoon and sold coffee until 1 a. m. The coffee was fine, the people were generous and kept the boys and girls busy filling their orders.

The result was \$37 clear gain. Hurrah for a fine tennis court in the spring.

Some of the mechanical engineering students are engaged in preparing plans and specifications for a new heating plant for the Sparks public school. As soon as the plans are completed, bids will be called for and the contract awarded for the work. The system is to be of the plenum or hot air type. Oil fuel will be used. Regent J. W. O'Brien of the University, is one of the Sparks School Board.

### MECHANICAL TESTS

A number of samples of insulating material used in railway work has just been received from the general manager's office of the Oregon Short Line. An official test will be made in the mechanical laboratory to determine which varieties are most efficient.

# Reno High School Notes

## The Alameda Trip

On Thursday evening, the Reno High team departed for Alameda, where one of the best times possible awaited them. After a sleepless night the team reached Oakland at 7:30, where we had a slight breakfast. On coming out of the "Peerless" we were greeted by a string of automobiles, and to our joy were asked to seat ourselves in them.

A most pleasant trip followed, the automobiles went from Oakland to Berkeley, where we were taken through the University of California grounds. Then the machines turned and returned to Oakland, and from there to Hayward, by the way of Lake Merit. Alameda was our final destination, and after a short ride around the city, we finally arrived at the school house, where all "piled out."

Then came the luncheon, long to be remembered by all the Reno fellows. It was served by the Alameda High School girls, and they surely looked after the wants of the visitors. Short speeches were had by Principal Thompson of the High School, Rev. Meyers, Mr. Bruner and the captains.

The Alameda girls deserve a great deal of credit for their work, for many were the favorable remarks of that most elaborately prepared luncheon.

At 1:30 a monstrous rally was held in the High School. It was a great success, many distinguished people speaking. A few selections were rendered by the school students, and every one declared them great. One of the selections was a parody on "Dixie," composed by one of the High School girls. (Written before Alameda come to Reno.):

"I want to be, I want to be,  
I want to be up north in Reno,  
Where the boys are going to play  
A game with Reno High on Saturday.  
You ought to see, you ought to see,  
You ought to see the boys in Reno.  
You can tell them all I'm goin' to  
R-E-N—I don't know how to spell it,  
But I'm goin', you bet I'm goin',  
Up to Reno town."

In the evening a football show was held in one of the theaters, and all enjoyed themselves immensely. All then went to bed for a good night's sleep.

Saturday dawned, and it looked like

rain, but at 2:30 in Recreation Park, the sight did not look like rain. The bleachers were crowded, and all were anxiously awaiting the whistle to see what those little Reno fellows were going to do.

And they found out. Those little fellows fought the Alameda team to a standstill. In the first half the Alameda team scored two tries, but failed to convert either; in the second half the team weakened just a trifle and Alameda ran over three tries, converting only one of them.

The defense work of the Reno team was fine, then followed the ball, and tackled well, and Alameda was lucky in getting 17-0. The game was marked by clever playing, which always makes it interesting, regardless of the score. Mr. Black, formerly of the University of California refereed the game and he surely is to be pleased on his good work, as not one complaint was registered.

That evening the Alameda High School gave a dance in honor of the Reno team. Here again all had a swell time. The programs were very neat, and the punch was great, but

best of all were the girls—nuff sed.

The Reno team left for Reno on Sunday night and returned to school Monday noon. Of all the trips the High School has had in the last four years, never was such a good time had. Alameda will remain in the thoughts of the fellows who took the trip as the place where exists goodfellowship; were clean sportsmen dwell, and where the best entertainment and hospitality ever given to a visiting team was had by our Reno High supporters.

### School Notes

Next week the football men will get their R's. Two games or four halves must be played to get one.

Mr. Clark now leads in the bowling tournament. He gained this lead by a sudden and unexpected spurt, but Mr. Bruner and Mr. Lyons say his stay will be short, as they bean business.

Basketball is at a standstill, as the High School has no court, but expects to start work soon.

ROBERT E. LAVEGA,

R. H. S. 1913.

## THE JOURNALS PUBLISHED AT HARVARD

Perhaps no college in the world can boast of greater activity in the field of undergraduate journalism than can Harvard, for at the Cambridge university, this particular branch of work has always engaged the attention of an unusually large number of students. At present there are in the college five distinctly undergraduate papers, these consisting of the university daily, The Crimson; the college comic paper, The Lampoon; two literary magazines, The Advocate and The Monthly, and The Illustrated Magazine, a combination of a literary magazine and a news journal. In addition to these long-established papers, there is The Harvard Engineering Journal, conducted for the most part by undergraduates in the college, and The Harvard Musical Review, a magazine which put in an appearance this fall as a distinctly novel feature in college journalism. The Harvard Graduates' Magazine, The Harvard Alumni Bulletin, and The Harvard Law Review are long-established journals published in the interest of

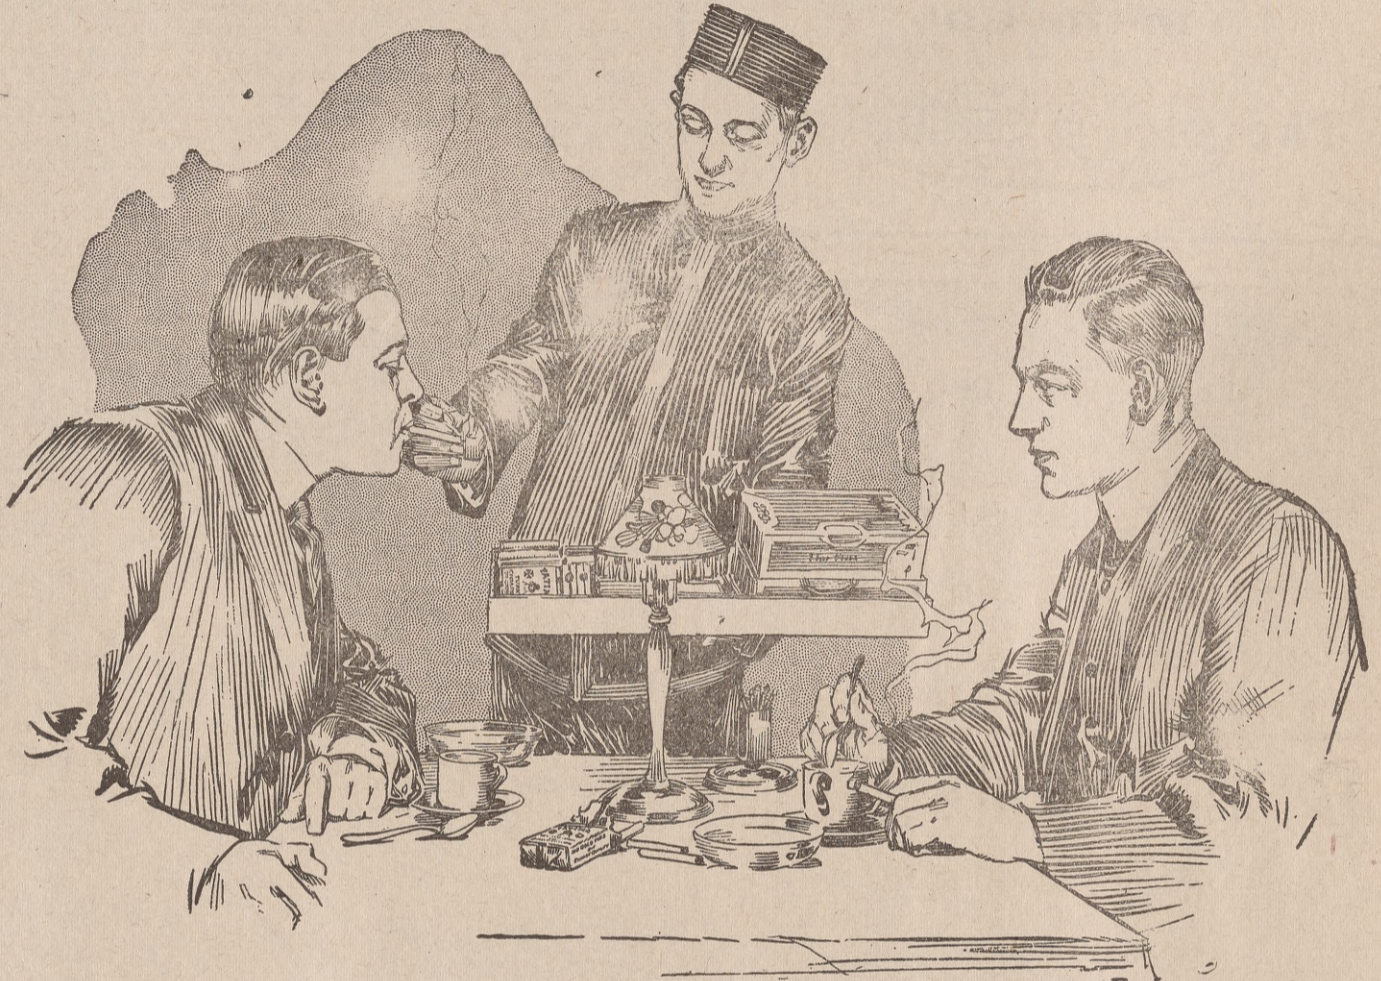

Harvard, but they are not in any sense undergraduate publications.—N. Y. Times.

Frank Hobbins, '11, who has been pursuing the mining game in Tuolumne county, California, was a visitor in Reno Sunday and Monday. Frank left Monday night for Rawhide, where he will be employed in the mill of the Nevada New Mines Company.

J. A. Nadon, Mech. Eng. '08, is now motor salesman for the Westinghouse Electric Co., of Pittsburg. His territory is Pennsylvania and New Jersey. He writes that he expects to be assigned to one of the sales departments in San Francisco at an early date.

H. J. Gallagher, Mech. Eng. '08, was recently transferred from the Nevada sales district of the General Electric Company to the San Francisco sales office of the same company. The transfer is in the nature of a promotion in recognition of Gallagher's excellent work in Nevada.

"Observe any group of men at coffee and smokes"

# FATIMA TURKISH BLEND CIGARETTES

To test the popularity of the Fatima just glance around any first-class cafe—

Observe any group of men at coffee and smokes.... It's ten-to-one you will see the unpretentious Fatima package somewhere about the table—then note the expression of content which invariably rests upon the faces of Fatima smokers.

Notice the meanderings of the cigarette boy.... See him wind his way among the tables.... Mark the proportion of those plain white, irresistibly fragrant Fatimas he is asked to light....

It is the same in the finest clubs and hotels—you will find Fatima in the best company everywhere.

The reason is this:—the men of brains and taste have learned of the wonderful blend of Turkish and Virginia tobaccos that

fills the Fatima—of the generous quantity of these delightful smokes inside that simple package.... And, accustomed to judge merit by inside quality instead of outside appearance, they swear by Fatima.

Just say "Fatima" at the next tobacco store you come to and see how quickly the man finds the spot.

Significant observations, these—

 The Great Big Store, corner of Fourth and Virginia Streets

### U. C. Women Forego Bouquets

Women of the University of California are at present engaged in a war against the custom of wearing flowers and expensive bouquets at college dances and receptions. The women students at the head of the movement are sanguine of success, and it is predicted by many that "when the young man's fancy lightly turns" to the florist, he will be met by his fair partner with a stern rebuff and a printed copy of the women's resolution. Following the action taken by the senior women, the women of the sophomore hop committee have unanimously adopted a resolution in favor of doing away with the custom of wearing flowers to college dances. Action has also been taken by a number of women's organizations on the campus, and it is hoped to do away entirely with this practice in a short time. It is urged that a large number of students who would otherwise attend the dances are kept away by the additional expense. Besides this, it is said that the flowers are a nuisance, as they drop on the floor and make it unfit for dancing.

California is at present host to the Waratah football team of Australia. The team is a pick of Australia and New Zealand and has made a fine record of victories over the Pacific Coast Rugby aggregations. The Australians are being extensively entertained by the faculty and student bodies at a number of smokers, rallies and theatrical entertainments. The men are guests at the various fraternity houses and express themselves as well pleased with the California brand of American hospitality.

University of California excavators have recently found on the Panama-Pacific exposition site interesting anthropological remains from a shell mound which exists under the surface of the grounds. The deposit of shell and bone, dropped from hands of former aborigines, is somewhat more modern than other recent discoveries, being only about five to seven hundred years old. The mound was probably a seal hunting station rather than a city, because of the lack of graves and the usual instruments. It is now two feet below the water level, showing the amount of subsistence of the surrounding land. All the important finds from this source are now at the university's Museum of Anthropology in San Francisco.

Plans are now being made for the raising of funds to endow a college of domestic arts and sciences. It is expected that this college will be in full operation within a year. Miss M. L. Kissell, associate professor of domestic arts, who was added to the faculty, is at the head of the movement. Speaking of the proposed new department, President Wheeler said:

"In taking up this branch of education, California is showing the way for other universities. The immense popularity of the courses which have been added to the curriculum proves their worth. It is the sort of thing that counts."—New York Times.

During the last week there were four new students who registered in the University. Otto Holloway, of West, Texas, is taking up special work in English. Warren Robinson, a graduate of the Cedarville High School, California, has entered the School of Mechanical Engineering. Helen H. Carpenter, of Ohio, is taking up special work in English. Dave Abel is back on the hill and has registered in the College of Agriculture.

**Souvenirs for Santa Claus**

A neat shield of the "N" mounted on a watch fob and also on the picture frames for your friend's picture or face, can be seen at the art department of the Porteous Decorative Company. The emblems are the product of quality. He is glad to sell them to the students of the Varsity and their friends everywhere and believes that they will be a good advertisement for the University, and since they do not bear the name of their maker, they may be used as a gift without the least bit of disgrace. In fact they are a credit to any wearer, anywhere.

The new stock of souvenirs just received at the Porteous Decorative of Mr. Porteous' ingenuity and originality consists of picture frames, photo frames, desk covers, shields, watch fobs, views of Reno, R. H. S. pennants and a large variety of other materials that will make a room look better and make your friend a better friend, can be had at the store. Just call for Sam Porteous and then ask for novelties. And after all, gentle reader, you will not be disappointed if you do not buy; there are lots of clerks and there are lots more things to see, and you must certainly appreciate novelties of all the man who put the "Stu" in Student.

The regular meeting of the Y. W. C. A. will be held Wednesday at 4:30 in the Association room. Mrs. Helen Harford, who is visiting in town, will address the girls. They should all take advantage of this opportunity to hear an out of town person speak.
