

U. N. GLEE CLUB OFFERS PRIZES

THE 1913 ARTEMISIA WILL BE ON SALE NEXT FRIDAY MORNING

Huge Block N. On Peavine

CONSTRUCTION OF THE LARGEST COLLEGE LETTER IN U.S. BEGAN SUNDAY

At 9 o'clock Sunday morning there was a general exodus from campus to hills—the boys were on their way to the Reno Mizpah to make that N. On last Thursday afternoon Harvey McPhail and Clarke Webster went to the place, surveyed and marked out the letter so that every thing was in readiness for active work on Sunday morning.

The trip to the mountain is the direct outcome of the campaign started in the student body by McPhail Friday. As a result 28 men volunteered for Sunday morning and, as the proposition is purely a voluntary one, it is only proper that university should know the persons who have the school spirit at heart strong enough to spend most of their Sunday in this labor. The following are those who worked on the hill Sunday: Seniors—Mackay, Patrick, Reynolds; juniors—McPhail, Harriman, Allen, Farrer, Barber, Parsons, Perkins; Sophomores—Sheehy, Hylton, Abbott, McDonald, Phleaging, Dondero, Neeld, Ogilvie; freshmen—Henningsen, Cazler, Hovey, Faber, Van Dalsem, Fake, Lampe, Able, Borchert, Quigley. If there are any mistakes or omissions they are unintentional and The Sagebrush, if notified, will correct them in its next issue.

The site of the N is that occupied by the conspicuous "Reno Mizpah" sign which attracted so much attention a few years ago. It lies on a bare, steep slope just above the Reno Mizpah mine and is especially prominent when viewed from the campus and Mackay field. The work of throwing the rocks and grubbing the sagebrush was completed Sunday. Next Sunday work will be to whitewash the letter and for this task a call for volunteers is hereby issued.

When it is understood that this N is 180 feet long by 140 feet wide, that each stripe is 20 feet in width, and that there are five blocks each 20 feet square, some idea of the magnitude of the task accomplished Sunday will be had. A letter of this size contains approximately 13,200 square feet of surface. This amount of rock was handled yesterday and this whole surface must be whitewashed next Sunday so that the letter will be in readiness for the Santa Clara field meet on May 3.

N Men Meet on Wednesday

Block N Society to Hold Meeting Wednesday, April 16; Final Arrangement for Entertainment

The Block N society will hold the last meeting for this year in the training quarters Wednesday, April 16, at 4:30 p. m., and every member is requested to be present as many important matters will come up. The first of these is the completing of arrangements for the rally before the Academic League meet and the entertainment of the visiting schools.

As this is to be the last regular meeting of the year election of next year's officers will be held. Remember the time, 4:30 Wednesday.

THE ARTEMISIA STAFF

Artemisia Board Makes Important Announcement

Next Friday, April 18, is the date set aside for the public sale of the University of Nevada Year Book.

At 11 o'clock on that date the Artemisia board will drive up to the campus with a crate of 100 Artemisias. The crate will be broken, the books sold and thus the final steps toward re-establishing this custom will have been taken. In view of the fact that the total number of copies printed is only 400, and that only 350 of these will be for sale it is possible that all applicants cannot be supplied; so bring your money early next Friday and be sure of a book.

Nothing but the highest praise has

been heard from members of the University and Reno who have seen the two sample copies now in circulation. "The book cannot help but be a credit and boost to the University throughout the whole state," as Miss Sissa put it, while Captain Applewhite said, "The articles are good, the drawings fine and the jokes are worth laughing at."

Mr. Sanford of the Reno Printing company and one of the main supporters of the book considers it the finest piece of work ever put out by his shop.

Friday is the day, \$2.50 the price and remember the number of copies is limited.

Our Glee Club Has the Spirit

THEY OFFER PRIZES FOR COLLEGE SONGS—HERE'S YOUR CHANCE

BY BUC

Has our most desirable school song, "U. of N. So Gay," outlived its usefulness. Let's see if it has. Lester P. Merrill is the author of the song which today we recognize as Nevada's, and he wrote it about the year 1895. For 18 years, therefore, we have extolled Nevada's glory in the two short verses of "U. of N. So Gay." Imagine an art patron being led through an exhibit of famous paintings to the tune of "Very Pretty" rendered by a zealous attendant. Would he buy more than half the pictures? Probably not.

Oh, but we have other songs, you say. True, we have, but how many of us go through the streets whistling "Mid the Mountain Circled Valley," or how many would care to hear "My Own Nevada, I Am Not Ashamed of You," sung as the school song? No one, I'll venture to say, cares a whoop for any school song except "U. of N. So Gay," and so few of us know that, that it hasn't an even chance to be popular.

Nevada needs a song that the students will want to whistle as they walk down the streets. She needs a song with music that will attract attention immediately and with words that have in them the strength and virility that makes teams win. "U. of N. So Gay" was exactly that kind of a song 18 years ago. "Good-Bye Dolly Grey" was pretty popular then, too. See the point?

The Glee club has made a somewhat extended study of college songs. It is the club's main business to interest the people of Nevada in the University. Their interest, therefore, in a good live song for Nevada is much more than casual.

Others have interested themselves. The girls, for instance, formed a rooting section during football season, and made an attempt to utilize the meagre material at hand. The boys at Lincoln hall made a similar attempt last year. Neither effort was productive of much good.

The Glee club comes forward now with a reasonable offer for the words to a new song, that shall represent Nevada as the peppiest college in the west. Both from the standpoint of business, and that of loyalty we can afford to get back of this most commendable movement.

* CONDITIONS OF CONTEST *
* 1. A prize of \$10 is offered *
* for the best song (words only) *
* presented before May 10, 1913. *
* 2. A prize of \$5 goes to per- *
* son presenting the song judged *
* as second best. *
* 3. The judges will be chosen *
* from among the students, fac- *
* ulty, and musical fraternity of *
* Reno. *
* 4. No tunes are to be sug- *
* gested. The Glee club has a plan *
* to provide a suitable air. Orig- *
* inality will be rewarded first, *
* direct steals will have little con- *
* sideration. A short, snappy com- *
* position is suggested. *

Nevada League Athletic Meet

THE 1913 ACADEMIC MEET WILL BE THE BIGGEST EVER HELD HERE

To the Principals of the High Schools of the Nevada Academic League:

The following will be the official order of events for the Nevada academic track meet of May 10, 1913:

Trials, beginning at 10 a. m.

1.—50-yard dash.

2.—100-yard dash.

3.—120-yard hurdles.

4.—220-yard dash.

5.—Broad jump.

6.—Pole vault.

7.—High jump.

8.—220-yard hurdles.

Finals, beginning at 2 p. m.

1.—220-yard hurdles.

2.—50-yard dash.

3.—Mile run.

4.—100-yard dash.

5.—Broad jump.

6.—440-yard dash.

7.—Pole vault.

8.—120-yard hurdles.

9.—Shot put.

10.—880-yard run.

11.—High jump.

12.—220-yard dash.

13.—Half mile relay; teams to consist of four men, each man to run 220 yards.

A half-mile relay between teams representing high school principals or superintendents, the University of Nevada seniors, and the University of Nevada faculty will be a curtain raiser to the meet.

There will be a girls' tennis tournament held in the morning at 9:30. Each High School of the league may send two contestants for this tournament, the entries being subject to the same conditions as those of the other contests of the league. A pennant will be awarded to the winning team.

It is positively necessary that all entries reach Professor J. G. Scringham, 760 Nevada street, Reno, chairman of the board of control, not later than May 1.

The board of control would like to impress upon the principals the importance of a physical examination of their entries prior to the meet. This will eliminate the chance of injury to the contestants in the more strenuous contests of the meet.

The above is the announcement sent out by the board of control of what promises to be the biggest track meet

(Continued on page five.)

Things Doing In E. E. and M. E.

A reporter of the Sagebrush happened into the electrical laboratory last Saturday morning and found the place in a turmoil. In a jiffy pencil and notebook appeared on the scene and he asked, "What's the matter?"

"Oh, nothing—just the seniors at work on their theses."

The reported wished it was a fight, but it wasn't, so he just had to make the best of it.

In one corner of the room he found Gilcrease and Hamilton, amid a great quantity of water, noise, and machinery working on a centrifugal pump test and operation. Just far enough away from the hubbub to be comparatively safe and dry, over a machine that buzzed and flashed, leaned two more earnest workers. These were Gignoux and Dorn and they were working a thesis entitled, "Double Current Generators." Sometimes in the electrical laboratory and sometimes in the machine shop, Ward Lusk was figuring working and building on his rotary gas engine, while, in a little room, away from the noise and confusion outside, toiled with trowel and pan, a solitary workman. It was Morris Anderson, a senior in C. E., making tests to find the efficiency of diatomaceous earth as a pozzalino in Portland cement.

Leslie's Book Takes Notice

A letter received from Leslie's Magazine of New York by the University office and asking for information and pictures of our recent Mackay day celebration, promises some valuable advertising for this institution. The matter has been placed in the hands of the board of regents, and photographs relative to the day and to the campus and information in regard to the affair will be forwarded at once.

Pennant for Winning Rifle Team

A few months ago a rifle club, affiliated with the National Rifle Association of America, was organized in the cadet battalion. The object of this club is the encouragement of military rifle shooting among the cadets of the battalion.

Appreciating the efforts which are being made by the members of the club to foster an interest in rifle practice, the enterprising firm of Gray, Reid, Wright company has donated a handsome silk pennant to be awarded the winning company rifle team. This is a gift which will be greatly appreciated by the members of the battalion. It is the first time that such a gift has been made at this university.

Strange to say, rifle shooting has not in the past aroused the interest and enthusiasm which it should at our university. In the east and middle west annual rifle competitions between teams of different colleges, and company teams in the same college, are becoming equal in importance to the annual athletic meets. Trophies are awarded the winners. While we are slow in starting, it is hoped, with the encouragement which we are receiving, that ere long we can show other members of the National Rifle Association that rifle shooting is not a forgotten art in this part of the country.

Rifle shooting, in addition to being of great advantage to the nation in time of need, is of real benefit to the individual. It is universally recognized as one of the cleanest sports that a boy or young man can engage in. It gets one out in the open air, in healthy, manly competition; it does not require special physical qualifications on the part of the individual; it is a sport which any one with good red blood can get out and enjoy.

BASEBALL

There will be a baseball game on Sunday, April 20, at Moana springs, between the Reno town team and the Nevada Stars. The game will be called at 2:15. Both of these baseball aggregations have been training hard and some good baseball is expected. An admission of 25 cents will be charged, and tickets are now on sale.

Advertisement.

Read the Sagebrush for all the college doings.

Phi Kappa Phi On April 21

The Phi Kappa Phi fraternity will hold its initiation and banquet on Monday, April 21. Upon this date the present seniors who have been elected to membership in the society will receive their degrees. Alumni of the University who have recently been selected as worthy of the fraternity have been summoned. For the benefit of those alumni who will not be able to appear on April 21, a second initiation will be given during commencement week.

That Dollar

Have you heard about the "Conference Dollar?" Well, the association girls are launching a grand money-making scheme in which every girl on the hill will have a chance to participate. The requirement is that every dollar given shall be earned. The hill is already alive with enthusiastic young money-earners. Manzanita has become a very fountain of resourcefulness. Some of the girls have already earned their dollar and the rest are perfecting their plan of action. They are dividing the work according to their several talents. One girl does cleaning, another darns (well, you know what she darns) at so much a pair, and another talented young lady is setting up an up-to-date hair-dressing parlor. Even the wholesome and exhilarating task of digging those little yellow flowers out of lawn has been whispered of as a feasible means of hard-earning a dollar.

What are all these dollars for? They are to send delegates to the annual Pacific Coast conference, to be held next summer at Moss Beach, near Monterey, Cal. Every year the association sends as many girls as possible to this conference to acquire new ideas and a new supply of enthusiasm for the coming year's work. The more girls we send, the greater will be the success of our association. A whole lot of money was made at the big Y. W. C. A. dinner and a whole lot more is going to be made before the end of the semester.

If you have any odd jobs to be done, now is your chance, the greatest opportunity of its kind during the whole year. Don't miss it! Any girls who have earned their dollars will please hand them in to Miss Carna Damm at their earliest convenience. This contest closes on the first of June.

Y. W. C. A. DINNER

Miss Florence White, assisted by Miss Wygal, entertained at dinner on Saturday evening. The guests were the members of the retiring and incoming cabinets of the Y. W. C. A. The dinner table, decorated in tulips and place cards, made an attractive background for the delicious dinner which was served in courses by Miss Vivian White and Miss Zelta Sheldon. Covers were laid for 16 and after dinner music and games were enjoyed until a late hour. In accordance with their usual custom as "Varsity" girls, the people at this party had a fine time.

Don Bird is now holding a responsible position on the coast, where he is the General Electric company's agent in Oakland, Berkeley and Alameda.

Aggies Scheme Some Rally

Committee in Charge Has Plans for a Gasoline Parade April 24

When the Aggie club give their student rally and show at the Grand theater on April 24 they will give out a notice for the student body, the faculty and the friends of the University to assemble at some of the well known corners to enter the gasoline parade. Plans have been made for the securing of about 50 "gasoline buggies" (pronounced automobiles) for the carrying of the students from the campus to the show and a short parade around town. The exact time and place of the starting of this parade is thus far indefinite but the committee in charge of the parade, Messrs. Engle, '16, Patrick, '13, and Lemberger, '16, will give out definite information concerning the parade gasoline, etc., at a later date.

It should be remembered, however, that the entire student body is invited to attend this rally and the finances are to be devoted to the A. S. U. N. and there will be no chance for any one to gather any of the funds whatsoever as the entire ticket sales must be turned in the same evening as the show.

Y. W. C. A.

The Y. W. C. A. meeting on Wednesday will be addressed by Miss Effie Mack on the "Christian Association of Smith College." Miss Bessie Kelley will sing and an unusually fine meeting is assured. Come.

Frank Peterson and Prof. J. C. Jones returned to Reno Sunday morning after making brief visits in San Francisco.

John H. Hamlin Weds Miss Kelley

John H. Hamlin, librarian at the Carnegie free library in this city, went quietly to Oakland last Friday and was married to Miss Rebecca Kelley, daughter of the late General E. D. Kelley. Last night he acknowledged that he was a benedict and the details of a romance of several years were properly completed.

Mr. Hamlin and Miss Kelly were married in Oakland at the home of the bride's mother, last Friday evening. The bride remains with her mother for a short time on account of her parent's health, but will soon join Mr. Hamlin in Reno, where they will make their home.

The bride has a wide circle of friends in Reno, Santa Cruz, Cal., and in Carson City, with whom she is justly popular. She attended the University of Nevada and has taken a prominent part in local social affairs. She is the niece of Mrs. George Turrittin of this city. Up to several months ago she made her home here, going to Oakland to be with her mother. For several years, during the incumbency of the late General Kelley as surveyor general, she resided in Carson.

Mr. Hamlin for years has been the librarian at the Carnegie library and in addition to those intimate friends of social circles has made a large number of friends by his courteous attention at the library.

Last Meeting Of Engineers

D. W. Cole of Truckee-Carson Project to Address Club Members and Friends Wednesday

The last regular meeting of the Engineers' club of the University will be held Wednesday evening in the lecture room of the Mackay building at 8 o'clock. The feature of the evening will be an illustrated lecture by Mr. D. W. Cole, upon the subject of the reclamation of arid lands by the United States government.

Mr. Cole is at present project engineer in charge of the Truckee-Carson reclamation project and has obtained from Washington a large number of lantern slides illustrating the progress of the work on a number of the projects in the United States and particularly upon the Truckee-Carson project and the work at Lahontan.

The government has expended about \$90,000,000 upon the reclamation of arid and semi-arid lands in different sections of the country and \$9,000,000 of this amount is being expended upon the Truckee-Carson project in Nevada. This is a matter which should interest every citizen of Nevada and especially those connected with the University. The importance of this project from an engineering, agricultural commercial or educational standpoint can hardly be over estimated.

As stated before in the columns of The Sagebrush the Engineers' club holds open meetings and cordially invites all members of the University faculty and student body and their friends to attend their meetings if they are interested.

SANTA CLARA MEET IN 2 WEEKS

The track squad will observe strict training rules from now until the 26th of this month, when the climax of the season's work will come in the meet with Santa Clara.

Coach Holway and Capt. Bringham are putting forth their last efforts to get hold of the men who stand a possible chance of taking a point. For it is very necessary that all candidates be out at once if they get into any kind of condition before the meet.

From now on we should all work together toward making the coming meet a success. To win will mean a whole lot to Nevada. Those that cannot get out on the track can boost the thing along by encouraging those who can.

Headlight Tests

Prof. J. J. Scragham returned Sunday morning from a flying trip to the coast. While in Oakland on Saturday Prof. Scragham conducted some headlight tests for the Southern Pacific company. The purpose of these tests was to demonstrate the candle power of electric headlights, and by them it was found that none of the commercial headlights tested could exceed 800 candle power. The type of electric headlight at present in use on locomotives average very little in excess of 500 candle power.

Our Glee Club Schemes Tours

Prof. Haseman Tells What the Glee Club Wants to Do in the Way of Advertising College

From what we could gather from Prof. Haseman the Glee Club has no more than started activities for the year.

"We're up to some big stunts yet" were the doctor's words, "and while we make no secret of our plans, we cannot promise their fulfillment.

"Our biggest venture is to be undertaken during the first week of vacation. Before the Club members scatter for their homes, we want to spend a week in the eastern part of the State with possibly a flying trip into Utah. Only a short time ago we were forced to refuse a reasonable offer from a booking agent for a fifty day concert tour. Our successes thus far have encouraged us to take at least a week's fling at it on our own hook. Those of us who have never walked the ties may be given a novel experience.

"That we can do a great deal for the University is the firm belief of every member of the Club. Our motto is 'The Right Kind of Advertising for the U. of N.' and it is to this end that we are striving.

"Already we are working on music for Commencement week. Both the boys and the girls Clubs will take part this year, and perhaps the Quartet will be called upon. Work on the Cantata 'The Rose Maiden' is progressing rapidly. The men and women interested are taking a hold in fine shape. A successful production is inevitable.

"Mind, all I have told of our plans are tentative. We want to do the best possible with the means at hand, but with limited means we can hope for only limited success."

Hugh Gallagher is representing the General Electric company in Sacramento.

To meet abnormal conditions now prevailing will inaugurate an **EXTRAORDINARY SPECIAL Introductory Sale** Commencing Monday April 14th and continuing during the week

I have quantities of fresh goods, new goods, no old stock, already bought and arriving from New York City almost daily. Expected to sell them at New York prices, but owing to the forced Bankrupt Sales now going on, they all will be sold at the lowest possible notch. Let your motto be, "Go to the New Store First." See prices and compare. I am here to stay, my success means future reasonable prices for the next four and a half years at least, the terms of my lease, for the ladies of Reno.

Every piece of merchandise marked down to the lowest possible notch. I want to become acquainted with you personally, and will be on the floor to meet visitors as much as possible during this sale, as I have secured the services of a French Madame to assist me and take charge of a portion of my custom dept. Suits under ordinary conditions worth \$25 marked to \$19.50; Suits worth \$35 marked to \$24.50. Coats, Evening and Afternoon Gowns marked from \$35 to \$24.50; coats marked \$37.50 to \$27.50, and from \$80 to \$22.50; cotton gown tub dresses and waists just received today marked at unusually low figures of \$2.85 upwards; waists from \$1.90 up; to hand embroidered at specially low prices. Gowns from \$4.50 up to meet all classes.

In our Millinery Dept. we have received a new line today, marked at such close prices that you must buy, everything fresh and new.

No one will be urged to buy any article unsuitable or unbecoming. Money refunded as cheerfully as accepted. All customers treated alike with the utmost care.

Respectfully yours,
Marie Bonfils

EDITORIAL

YOUR DUTY

Does every member of alumni, faculty and student body of this University appreciate the possibilities of the Nevada Academic meet? If they do there is little need for editorial comment here. But in the event that a few may not appreciate, or, appreciating may not act, a few words will be chanced here.

The University of Nevada takes charge of this meet each year, turns its field and training quarters over to the High Schools, and says, "Make yourself at home."

Frankly, this attitude has its purpose. Its purpose is to interest High School people in this institution—the University of their own state. The University has followed this policy for a number of years. Members of the faculty and student body have in years past devoted their time and labor in making the meet serve this purpose. It has served its purpose, but not to the maximum, and the fault lies not with committees on arrangements, but with the students individually. Each member has not taken upon himself the obligation of

interesting the guests of himself and the college.

This year the board of control is arranging a bigger meet than ever before. The number of students which this event may turn Nevadaward cannot be estimated—but its possibilities are great. It is up to us individually to make it serve its purpose to the maximum.

Lincoln hall will be the home of the High School athletes. You dormitory men make them feel that it is their home. Make it your business to meet the boys, show them around, entertain them, arouse their interest. Above all kill that spirit—the spirit which, if allowed to grow, means the death of this college—that Nevada is not just as good as any university in the country. It is hard to find where such a spirit has started, but it has. It should be stamped out before that academic meet. Nevada is proud of the equipment she possesses; her equipment is open to the inspection of her High School visitors; their inspection must arouse their interest; and their interest in Nevada's purpose in this meet. You see your duty.

Paul J. Rainey's African Hunt

Marvelous Motion Pictures At Majestic Theater Next Week

With the coming of the Paul J. Rainey African hunt pictures, which will be shown at the Majestic theater for three days, beginning next Sunday, theatergoers of this city will have an opportunity of seeing what is considered by the American Geographical society and the American Institute of Natural History as the most marvelous motion pictures ever taken. Probably more than any pictures of recent years do these films, made by Mr. Rainey in the jungles of Africa, have a genuine educational value. They should, at any rate, prove more attractive to the average theatergoer and seeker after knowledge than any book or play. Hunting big game with a camera has been one of Mr. Rainey's hobbies for years, and when he plunged into Africa with a moving picture camera he could hardly have expected to achieve the results that are shown in these pictures. They were not taken for public exhibition, and it was more by accident than anything else that Mr. Rainey gained any idea of their commercial project. Hunting wild African game with a moving picture machine is a sport for few, for it entails an enormous expense and countless dangers—but Rainey is a sportsman, not a showman. The pictures will show the biggest and the wildest of African wild animals in their natural condition. If only half that is said of these pictures is true, they are more to be desired as an entertainment than much that is offered as legitimate drama. adv.

SHOWS CAN CONTINUE

NEW YORK, April 14.—Mayor Gaynor's interpretation of the liquor laws was contradicted by the court of special sessions today, which decided that restaurant keepers may stage cabaret shows after 1 a. m., provided no drinks are served after that hour.

Miss Dinsmore To Wed in East

The following announcement from the Bangor Daily News of Bangor, Maine, will be of interest to the friends of Miss Mary Dinsmore at the University of Nevada, where the young lady was employed during the winter in the office of Dr. P. P. Kennedy.

One of the prettiest of the season's social functions took place Wednesday evening at the residence of Mr. and Mrs. David E. Dinsmore in High street, Dover, when their daughter, Miss Mary, entertained a party of friends, Miss Dinsmore and her guest, Mrs. Charles Hayden Crossland of Dexter, receiving. The rooms were very artistically arranged, pink being the prevailing color in the decorations.

During the earlier part of the evening auction bridge was enjoyed. The score cards were things of beauty, of graceful design and hand painted.

In the dining room where delicious refreshments were served, the color scheme was carried out, the daintily appointed table presenting an unusually attractive appearance. The place cards were hand-decorated, with pinks. A large bouquet of pink carnations formed the centerpiece, and clustered among the flowers were pink heart-shaped folders from which delicate ribbon streamers extended to each plate. At Mrs. Crossland's invitation, the guests secured the folders, which were found to contain excellent pictures of Miss Dinsmore and her fiancé, Mr. Lee McDowell, of San Francisco, their engagement being thus uniquely announced.

Miss Dinsmore has but recently returned from Reno, Nevada, where she has been for several years with her brother and his wife, Prof. and Mrs. Sanford C. Dinsmore. After the wedding, which will take place in September, she will reside in Los Angeles.

Miss Dinsmore is one of Dover's most popular young ladies and the congratulations and good wishes that are being showered upon her are most sincere.

Miss Dinsmore was a popular member of the Fortnightly club of Reno while Mr. McDowell was in Reno for several years, but at present is connected with the Southern Pacific Railway company as civil engineer and has a score of warm friends. A wealth of congratulations go forth from Reno.

SPECIAL SESSION OF ARIZONA LEGISLATURE

PHOENIX, Ariz., April 14.—In his call today for the third special session of the legislature, Governor Geo. Hunt included a recommendation to the law makers to provide the machinery for the direct election of senators, in consonance with the recent amendment to the federal constitution. The governor also recommended the creation of a uniform legislation commission and the enactment of a law to use convicts in state road making.

Appropriations for Arizona buildings and exhibits at the San Francisco and San Diego fairs in 1915 were asked for. The special session began today.

Nevada League Athletic Meet

(Continued from page one.)
in the history of the Nevada Academic league. It will be noticed in the announcement that the board has arranged for a girls' tennis tournament to be held during the meet. Already Carson, Lovelock and Winnemucca have written their intentions of entering teams in the tournament and it is probable that Reno and other high schools will express their desire to compete before the first of May. The idea of holding a tennis tournament in connection is to arouse a broader interest in Academic league affairs. Many of the High Schools of the state have neither the material nor the facilities for turning out track teams, but as some of these schools are very interested in tennis, the board of control is planning to make the tournament an important feature on May 10.

Up to date there are a greater number of High Schools and which represent a larger extent of territory, that have served notice that they will enter contestants in tournament, field meet or declamation contest, than have entered since the organization of the Nevada Academic league. Formal notice has been given the board of control that contestants will enter one or more of these three branches by the following High Schools: White Pine County High School; Ely; East Ely High; Elko High; Humboldt County High School; Winnemucca; Humboldt County High School, Lovelock; Sparks High School; Lassen County High, Susanville; Reno High; Carson High; Douglas County High School, Gardnerville; Lyon County High School, Yerington; Tonopah High; Goldfield High; Clark County High School, Las Vegas; Clark County High School, Bunkerville; Inyo County High School, Bishop. As the board does not close its list until May 1 there may be still others who may enter.

In connection with the board of control are working to make the 1913 academic field meet a success, the Block N society and others. A committee from the Block N, consisting of Scott Jameson, W. H. Settlemyer, and Arthur Boggs, will have charge of the entertainment and housing of the men. This committee plans to have the men housed in Lincoln hall during the meet in order to lessen the expense and to give the High School boys an accurate impression of life at Nevada. With the same idea, a committee consisting of Mrs. Kaye, Miss Day, Miss Wygal and Miss Davey are making arrangements for the housing of the High School girls at Manzanita. Because the state purchased a large supply of bedding for the use of the summer school students, the problem of housing High School people in the dormitories has been solved.

In addition to the committee above named, the board has assigned special features to the following committees: Girls' tennis tournament, Misses Elsie Sameth, Clara Smith, Elda Barber and Elda Orr; declamation contest, Billingshurst, Ordahl and Hunting. The latter committee will be in full charge of the declamation contest and were chosen because they form the executive board of the State Teachers' association.

Maude Adams In "Peter Pan"

Miss Maude Adams, just as sweet and charming as ever, delighted a large audience at the Majestic theater last evening. "Peter Pan," Barrie's whimsical fantasy of fairyland was the vehicle and in it Miss Adams appeared at her best.

Miss Adams' art needs no description. She must be seen and heard to be appreciated. Those who do not witness "Peter Pan" with Miss Adams as Peter, will miss one of the treats of their lives.

The production is excellent throughout, the company being large and well balanced. It is a play for the young and old, equally enjoyable for the gray-haired and the Buster Browns.

"Peter Pan" will be given its second and final production at the Majestic this evening.

Reno High School Notes

On Wednesday after school the Boys' Athletic association met and discussed several important topics. The association voted money to send Frank Harriman and R. Lavega to the Stanford interscholastic; also voted a gift of \$30 to the piano fund. This will greatly aid in paying for the piano in the gym.

The school play given Saturday eve was another success.

On Thursday evening the two track men picked to represent Reno High in the Stanford meet left for California. Although not in first-class condition on account of the short training, they, however, never finished last in any of the events, or did they win points, but they tried, and worked hard but with no avail against the star athletes of our sister state.

The treatment received at the hands of the Stanford men will never be surpassed. They treated all the contestants royally, and long will that good time linger in the minds of the interscholastic contestants. Friday the teams were shown over the campus, in the afternoon they witnessed the interclass meet at night the moving pictures of the great Stanford-California game. Saturday morning the trials came and a great many men were eliminated. Then the big meet proper. It was a success from start to finish. Not a moment passed without something doing.

Stockton High, with two men, Parker and Grunsky, took the meet. Anaheim and Palo Alto tied for second. Twenty-six schools of 47 never got a point.

Saturday evening a general reception was held. Many pleasing stunts were pulled off. Sunday saw the athletes departing for home, all giving praise for Stanford

Baseball Men Going Ahead

Signaling and Team Work Being Featured by Coach Cullen—More Games Expected

Active and progressive work is still characterizing the doings of the Nevada Varsity baseball squad. Last week's progress was particularly marked as a result of the coaching of Jack Cullen, who took the team in charge on that last Monday. Cullen is giving the squad a little of the theory and science of the game along with the practice. Signals and team play are being featured.

Although it has been rumored that the Santa Clara game, which is scheduled to be played on the St. Ignatius diamond in San Francisco on May 5, may be played at an earlier date, no official news of the change has as yet reached the squad. Graduate Manager Ross, therefore, is making every endeavor to line up another contest which may be played on the coast during the same trip. A definite agreement in regard to closing such a deal with St. Ignatius is now pending. In addition to the games played in California, there will in all likelihood be several contests with the teams of neighboring towns played here before Commencement. A game with the Indians of the Pyramid lake reservation, who are anxious to cross bats with the varsity nine, upon the Mackay field, offers some interesting sport

At present positions on the varsity team are being held as follows, and for some of the places competition is strenuous: Catcher, Kent and Bringham; pitcher, Ferris; first base, Boggs; second base, Sheehy; short stop, Grayson (captain); third base, Abbott; left field, Hamilton; center field, Charles and Bowen; right field, Riley and Scheeline.

The team suffered a little hard luck at the first of the week by Monk Ferris spraining his ankle in practice. Monk is getting along fine at present and will be in the box stronger than ever before the week is over.

MRS. HERMAN DAVIS, Prop.

Federal Seed Distribution

Lysle Morrison Visits Aggie Dept. and Makes Arrangements Interesting to Farmers

Few western people have any conception of the scope of the work now being handled by the office of seed distribution, Bureau of Plant Industry, at Washington. It is not the intention of this article to deal with all the work of the office, but to refer to one phase of it, the dry-land seed distribution, which department is under the management of Mr. Lisle Morrison.

Mr. Morrison visited the experiment station last week and discussed the future of the semi-arid west with members of the agricultural staff.

The work of Mr. Morrison's department may be said to be two-fold—the collection of dry-land seed and the distribution of dry-land seed. Inasmuch as dry-land seed is always good seed, its distribution throughout any part of the country can only have beneficial results. However, the department aims to distribute this seed, produced under semi-arid conditions, only to those who will test it on land where precipitation and irrigation are somewhat short. People are just beginning to realize individuality in seed and the fact that seed produced under favorable conditions is not the seed to sow where more or less hardship is to be encountered.

The agriculturist should not judge the work of this department by what he has seen of the distribution of garden seeds. Mr. Morrison aims to employ seed for one acre as the minimum, indeed, most of the packages sent out this year contain 10 pounds of each variety. In the case of alfalfa for dry-farm conditions this is sufficient seed for two acres. In Nevada the distribution has been dry-farm alfalfa seed from Idaho, Nebraska, Kansas and Washington, three new varieties of field peas and one package each of Sudan grass and Brown County Dent corn. Sent free through the mails these large packages tend to produce on the part of the postmasters language not always found in the almanac. However, "the greatest good to the greatest number" so that in this case postmasters must sacrifice themselves for the good of the many

This seed is under congressional distribution it is true, but so far the distribution has been careful and should be of great benefit to the recipients. The seed is distributed by the department but is sent to those named by Congressmen. Frequently the member of Congress is broad enough to submit the names of those recommended by the State Experimental station as careful and trustworthy experimenters. Owing to the exigencies of politics this is not always easy, but it is being done. One legislator requested, may instructed Mr. Morrison to send the seeds to his office for mailing, but when he learned that the "seeds" meant over a ton of material he begged leave to withdraw the motion. Mr. Morrison is looking to the securing of seed for 1914 distribution from the Elko County Dry Farm and from dry-land seed producers in Surprise Valley and elsewhere to the north of us. He outlined a scheme of co-operative experiment with the State Station as the center, and expressed considerable surprise and pleasure upon learning that Nevada was in the game already and showing the way. It seemed to interest him greatly to find that the Sagebrush State possessed so many fine agricultural possibilities.

Leonard Gilcrease, Norman Dorn and Frank Gignoux will travel east in July or August where they will enter the service of the General Electric company at Schenectady, N. Y.

Big Meeting of The A. S. U. N.

Vote of Thanks Extended Hurst Bros. —Mammoth Rally Planned— Officers for Next Year Named

An important meeting of the A. S. U. N. was held in the gym last Friday morning. Under the head of old business Henry Wolfson, of the committee in charge of new methods of student body government, reported that owing to the delay in receiving replies to letters sent out to the various colleges, the committee was unable to make a complete report. It was moved, carried and seconded that the time allowed the committee for making its report be extended indefinitely.

From this matter President Settle-meyer passed to new business and Harvey McPhail suggested that a mammoth "N" be constructed on the side of a mountain northwest of the campus. He called for volunteers to work on it Sunday morning. Applause followed his suggestion.

Next President Reay Mackay of the Agricultural club announced that the aggies were working on a performance to be given at the Grand theater on April 24. Mackay asked that the yell leader arrange a parade for that night and the aggies would tend to the rest. There is a guarantee of \$50 for the A. S. U. N., so watch out for something big on the 24th of April.

Mackay went on to say that he and President Lewers were sitting in the president's office not long ago when a bevy of co-eds crossed the lawn in front of Morrill hall. The practice seems to be a common one at present and unless it is stopped by student spirit, Mackay announced, there are liable to be unsightly fences constructed around every one of these plots.

Vote of Thanks

Next in order was a motion which was seconded and carried unanimously that A. S. U. N. extend a vote of thanks to the Hurst Brothers of the Grand and Majestic theaters for courtesies which they have extended at various times.

Other Business

The tennis court proposition was brought up next by H. C. Neeld of the Block N committee. The proposition stands at present as outlined editorially in the last issue of The Sagebrush, and is pending the action of the board of regents.

The Block N in basketball, which was awarded Neeld by the executive committee on the recommendation of the coach and captain of the basketball team during the recent season, was formally ratified by the student body by a unanimous vote.

Student Nominations

There being no other business President Settle-meyer declared that nominations for officers of the A. S. U. N. for the term 1913-1914 were in order. The following are the nominations made:

- For president—John I. Cazier.
 - For vice president—Clark Webster, Harvey McPhail.
 - For secretary — Nell Morrow, Maude Price.
 - For treasurer—William I. Smith.
 - For sophomore member executive committee—Elmer Abbott, H. C. Neeld.
 - For freshman member executive committee—Irving Van Dalsem, Coin Cazier, John Lemburger.
 - For women's athletic manager—Lisle Rushby, Myrtle Neasham, Lelia White, Grace Mahan.
 - For graduate manager—Silas E. Ross.
 - For editor "Sagebrush"—Elmer Wiley, Bob Farrer.
 - For business manager "Sagebrush"—Delwyn Dessar, Joe McDonald.
- Persons may be nominated for any office if notice is served up to within 48 hours of election. Election day is Friday, May 3.

MILITARY SCHEDULE

April 11, 1913.

Memorandum No. 17.
 The following schedule of instruction for week commencing Monday, April 14, is hereby announced:

- Monday, April 14—Battalion establish outposts.
- Tuesday, April 15—Battalion, advance guard formation. Outlined enemy will be encountered; attack developed.
- Wednesday, April 16—Battalion review and inspection, followed by guard.
- Thursday, April 17—Company drill. By order of the COMMANDANT OF CADETS.

Business In U. Of N. Office

A Continuation of Article Deal-
ing With Finance Begun
Last Week

(Continued from Last Week)

The People of the state of Nevada, represented in senate and assembly, do enact as follows:

Section 1. The interest derived from the investment of all moneys arising from the sale of the 90,000 acres of land granted to the state of Nevada by act of congress approved July 2, 1862; the interest derived from the investment of all moneys arising from the sale of the seventy-two sections of land granted to the state of Nevada by act of congress approved July 4, 1866, for the establishment and maintenance of a university; all money paid as interest on deferred installments on purchase of lands named in this act which may be sold under contract as provided in section 9 of an act entitled "an act to provide for the selection and sale of lands," etc., approved March 4, 1871; and all money arising from the ad valorem tax on taxable property in the state of Nevada, including net proceeds of mines and mining claims, for university purposes, is hereby set aside and inviolably appropriated for the support and maintenance of the University of Nevada, and shall be paid out for the purposes designated in the acts creating the several funds without further appropriation.

Section 2. The Board of Regents of said University and Agricultural and Mechanical College, as provided in section 4 of article 11 of the Constitution of Nevada, are the sole trustees to receive and disburse all funds of said University and Agricultural and Mechanical College for the purposes provided in section 1 of this act; provided, that all claims, before payment, of every name and nature involving the payment of money by or under the direction of the Board of Regents from the funds so set aside and appropriated, shall be passed upon by the Board of Examiners.

Section 3. It shall be the duty of the State Controller to report to the Board of Regents of said University and Agricultural and Mechanical College, on or before the last day of each and every month, the detail of all income received for university purposes from whatever source.

Now a few words in regard to the business methods in the office itself. The regents have made arrangements to have the books of the comptroller audited twice annually, a step which is in accord with the policy of the most progressive institutions of the country. Allen Knight, certified public accountant of San Francisco, who audits the books of both Stanford and U. C., at present has charge of auditing the books at Nevada. His report on the audit which he conducted during the week commencing February 17, 1913, has just been received. The report is an exhaustive one and is very complimentary to the present system of conducting university business. In the report the business is classified according to the following seven schedules: (1) bills receivable; (2) contingent fund (3) agricultural and mechanical fund; (4) agricultural experiment station account; (5) dining hall account; (6) university farm sales; (7) reconciliation of bank accounts. In addition to these seven schedules there is a trial balance which in reality combines all schedules in one.

Heretofore the departments of the University supported by the state have been run on the fiscal year beginning January 1 and ending December 31, while those supported by the United States government have been run on the fiscal year which begins on July 1 and ends on June 30. Under this new arrangement all departments of the University will be run on the government fiscal year in order to secure more uniformity and thus a greater simplicity in the accounting.

In accordance with the above mentioned plan all departments of the University will be asked for estimates for the fiscal year beginning July 1, 1913, and a budget for this period will be passed upon by the board of regents instead of for the two-year estimates that have been made in previous years. Up to July 1 of this year the University will be run on the budget that was passed

by the board of regents last year. The new library building, which is to cost \$10,000 and which will be located between the chemistry building and Stewart hall, will be commenced at an early date. Advertisements for bids upon it and upon the new dairy building, which is to be located near the carpenter shop and which is to cost \$4800, will be issued as soon as the board of regents decides upon the plans. The dairying building is to be modern in every detail and will probably be modeled upon that of the University of California farm at Davis.

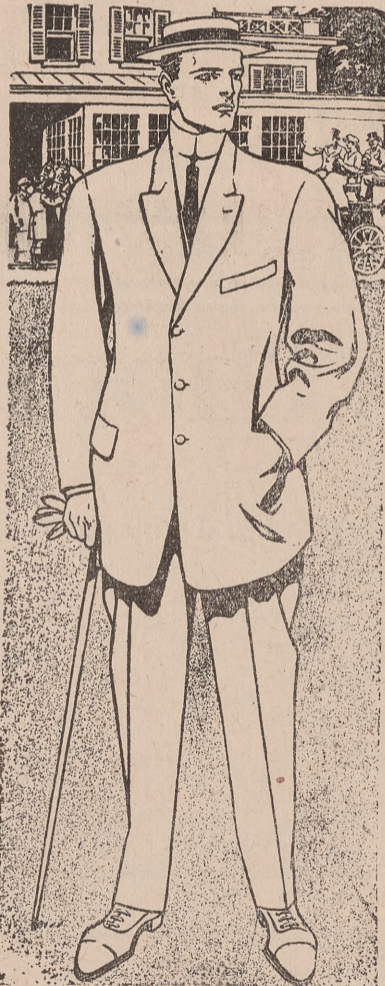

Freshies vs Reno High Saturday

Every time Reno High and a freshman team get together in any kind of athletics there is a scrappy contest. Next Saturday afternoon they get together in a track meet on the Mackay field. The freshmen, under Captain Hovey, are doing some good, steady and consistent training and expect to carry off the long end of the score. Although the freshmen feel a little weak in some of the track events, especially the sprints, they expect to make the field events pull them over on the safe side.

Reno High athletes are being put through a pretty stiff course of training these days in preparation for the academic meet on May 10. Laveago is the leader of the squad and he expects a high school victory next Saturday. At any rate the showing made by his team will give him a better insight into the chances that R. H. S. will stand in the big meet. Reno High is showing up especially strong in the sprints. The time, 2:30, Saturday afternoon.

The attention of the students is called to the autobiography of Col. Roosevelt which has been started in the last two numbers of the Outlook.

Read every issue of the Sagebrush.

Copyright Hart Schaffner & Marx

YOU may be a sea-shore man; you may take a vacation or a long trip this summer. You may stick close to business. Wherever you are, you will find a Hart Schaffner & Marx summer suit just the thing for hot weather comfort. You will see real service in these all-wool fabrics, tailored to fit.
