CANE RUSH MONDAY MORNING

GYM. DOINGS---DANCE FRIDAY NIGHT---SMOKER NEXT MONDAY NIGHT

Amos Elliott Views Squad

Ex-Captain of U. C. Winning 15 Plans to Put U. N. in Winning Class

"I want every able bodied man in the college out for football," said Elliott to a Sagebrush representative. "It will enable the men to escape the dryer gymnasium work and at the same time will be helping their school. Every man should be out, and be out Saturday. We want freshmen, sophomores, juniors and seniors regardless of whether they ever saw a football before or not.

"We are going to have lots of interclass games and an interclass championship. It is our purpose to find the new material and this is one of the best ways to get the men interested and thus to find it.

"There will be no one wanted upon the field until Saturday afternoon. Suits will be given out by Graduate Manager Ross each night until then. Practice will begin in earnest Saturday afternoon. Freshmen will be ready on the field at 2 o'clock; varsity at 3. Every man must be on time. The freshmen-sophomore game will be postponed until the following Wednesday. On all afternoons during the week the freshmen will begin practice at 4; the varsity at 5 o'clock. Striped jerseys will be reserved exclusively for Block N men upon the team."

The following schedule and notice has been posted:

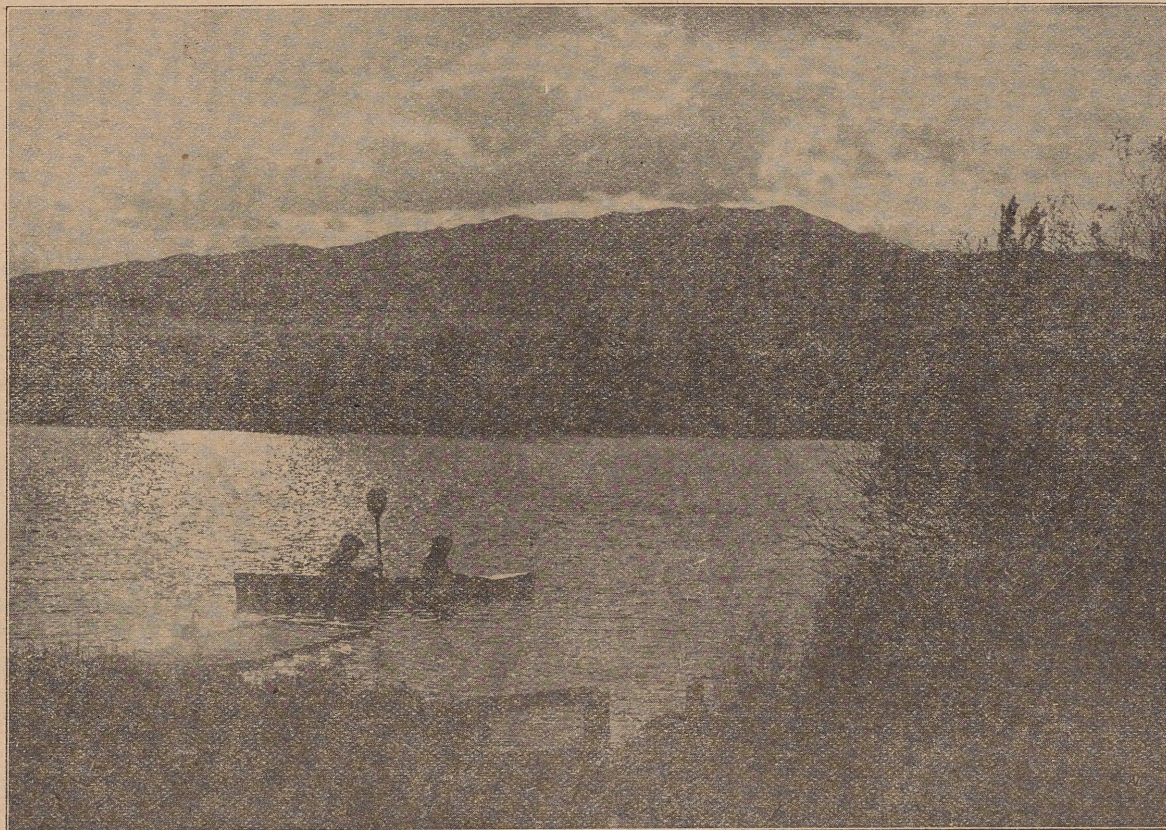

FOOTBALL MEN NOTICE

A deposit of two dollars (\$2.00) will be required of all men taking out football suits this season. Upon receipt of the \$2 the graduate manager will give out a complete suit and receipt for the money. At the end of the football season this money will be returned upon the presentation of the receipt and the football paraphernalia. Football suits will be given out Wednesday, Thursday and Friday nights at 4:30.

The following schedule has been arranged:

September 10, freshmen vs sophomores.

(Continued on Page Eight)

INVITING!

GEESE, SWANS AND FISH IN LAKE

Fishing for trout in the pond at the University of Nevada will be a sport of the future, plans having been completed for stocking the water with small fry to be obtained from the state hatchery. J. B. Lynch, landscape gardener in charge of the grounds, has the fish problem in hand.

The university pond was made about three years ago by throwing up an embankment across the southern end of a gulch lying between Hatch station and Manzanita hall. It includes perhaps two acres and from a shallow depth at the north end its bottom slopes down to a depth of 18 feet at the bridge just above the university lawn. Below the upper two feet the water is very cold and it is believed that conditions are right for raising trout.

Ten thousand trout fry have been ordered and are expected any day. A

screen has been placed over the spillway to keep the trout in. Next year or year after it is likely that permits to fish may be granted favored persons. Additional fry will be added from year to year.

The university pond is kept filled

NOTICE RUGGERS

* Football practice will begin on *
* Saturday afternoon. Freshmen *
* must be on the field at 2 p. m.; *
* varsity aa 3. No one is wanted *
* on the field before Saturday. *
* Suits will be given out at the *
* training quarters on each after- *
* noon until then from 4:30 to *
* 5:15. *
* Every man must be on the field *
* each evening promptly at the ap- *
* pointed time. *

with fresh water from the big Orr ditch, which encircles the pond, having been constructed with the curve years ago in order to get around the canyon which then barred its course.

It is said to be the intention to cut out the curve in the Orr ditch another year, carrying the water straight across the southern end of the pond.

In addition to stocking the pond with trout, it is the intention to procure additional water fowl. There are now two black swans and two Canadian geese paddling about on the lake. A wire fence has been constructed through the tules on the north side to keep them in and to keep dogs out. A house has been built in which the birds may winter.

The Canadian geese were obtained through the efforts of Attorney Sardis Summerfield and are the gift of the park commissioners of San Francisco.

Faculty Has Many Changes

Prof. Dick Brown Back on Campus After a Year's Absence

There have been many changes in the U. of N. faculty during the summer months. Among these are the following: A. E. Hill, of the University of Chicago will have charge of the freshman English courses in the place of Prof. Paine, resigned. Prof. Turner, also in the English department, will teach several courses in public speaking and expression. Prof. Dwight B. Huntley, a mining man of broad experience, who has held important positions as mine superintendent, etc., in California, South Africa, South America, Colorado, Arizona, Idaho and other parts of the mining world, and who had charge of the Mackay school of mines during Prof. Young's absence in Europe in 1909 and 1910, is on the campus and will succeed Prof. George J. Young, who has accepted the position as head of the department of mining in the University of Minnesota.

Prof. Turner, of Wesleyan college, Neb., is an adjunct to the department of English, and will teach courses in public speaking and expression. Miss Margaret Mack, a graduate of Nevada, who has been taking work at Columbia, is again at Nevada and will instruct in the biological department under Prof. Frandsen. Prof. Knight, another former member of the faculty, is back again in his old place as instructor in agronomy.

No one has yet been engaged to fill the position of head of the college of agriculture recently vacated by Prof. Gordon T. True. Prof. True has been elected professor of animal industry at U. C. and will work at the university farm at Davis and at Berkeley. He will make his home at Davis.

As professor of German Miss Kate Riegelhuth, also well known on the campus, will succeed Prof. Von Jankinski. Miss Riegelhuth has been attending college at Columbia since leaving the university. This summer has been spent in Berlin and in other parts of Germany, where she has been doing special work in German. Her

SOCIAL

Y. W. C. A.

Listen!!! This means every college girl, old or new, regular or special. The Young Women's Christian association of the University of Nevada here and now invites you to an informal afternoon on the spacious veranda of Manzanita hall, from 3 to 5 on Saturday. This is your chance to meet all your year's associates, and become better acquainted and feel more at home with those whom you have already met. We can already taste those dainty sandwiches that you will share. Give us a chance to tell one of you new girls from another and let us become differentiated persons to you. We ask especially that the new down town girls come up and meet those from other parts of the state and from California. While the boys are having their fun, let's have our Remember, every girl on Manzanita veranda Saturday afternoon. If you can't come at 3, come later. We shall be sorry not to see every girl there.

SORORITY TEA

Wednesday afternoon at the home of Miss Clara Smith on 9th street a most enjoyable informal tea was given by Delta Delta Delta in honor of all the new college girls. The home was prettily decorated for the occasion, and the hostess and guests became most happily acquainted during merry conversation and over the dainty refreshments.

FACULTY CLUB ENTERTAINED

Wednesday afternoon at the home of Mrs. J. D. Layman on University Terrace, the faculty women were delightfully entertained at the first meeting of the year by Mrs. O'Brien and Mrs. Applewhite. Dr. Stubbs was the honored guest of the party. He told the ladies of his pleasing and profitable sojourn in the university cities of Europe, and assured them that he had found in his absence no group more attractive or standing for higher ideals than this gathering. The hostesses were assisted in serving the dainty refreshments by Miss O'Brien and Miss Neasham, two of the prominent seniors at college this year.

GET ACQUAINTED DANCE

Everybody has read the welcome posters about the jolly informal to be given by Tri Delta on tomorrow, Friday, night in university gym. And everybody who isn't an absolute "boob," "dub," etc., is going to get his old girl or his new girl or his big bunch of either boys or girls all together and come to this delightful informal, have a good-time social. You might as well get acquainted with the inside of the big gym with its dandy floor and the good music and the friends old and new who are going to be there. Remember, Friday night, and be there with your friends, in bunches, or come alone and meet some friends. The music begins at 8:30, and we want to see every single student and faculty member present.

TRI DELTAS ENTERTAIN

THE FRESHMEN

The first few weeks after college opens are always rather trying for the new girls, but this year we are hoping to make things easier, by helping them to get acquainted with each other and thus ward off that homesick feeling.

Several jolly-up affairs have been planned by the Y. W. C. A., the hall girls and the sororities. The Tri Deltas gave an informal tea Wednesday afternoon, which was well attended by the freshmen, who had a "lovely time." It was held at the home of Clara Smith on Ninth street, and while the Delta Delta Delta pangs were there, the color scheme was green, in honor of the invited guests. Then too, you know bright green is very fashionable this season. In fact—but how is this for a freshman?

"I shall worry myself green and be stylish."

DECLINES FELLOWSHIP

Because of his opinion that a year's work under Dr. Jacobson in the research laboratory at the university would be of more value to him than spending another year at John Hopkins, August Holmes last Tuesday wrote the letter declining the \$500 fellowship offered him by that university for good work there during the preceding term. The many friends of "Bub Hix" are congratulating him these days upon his success in his work in physical chemistry in the east, but Bub says they should congratulate him upon his good fortune in again being upon the campus of the University of Nevada.

June Weddings Very Popular

FOLSOM-CURNOW

High noon on June 25 was the hour selected for the marriage of Miss Ethel Folsom, daughter of Deputy Sheriff and Mrs. F. G. Folsom, and Mr. George L. Curnow. This was a pretty church wedding and the Presbyterian church was elaborately decorated with palms, roses and ferns by loving friends, making an appropriate spot for the pretty ceremony.

Rev. James Byers, the pastor, officiated and read the impressive lines. The bride was given into the keeping of the groom by her father and was lovely in her gown of white crepe dechaine finished with touches of pearl trimming and wore a pretty veil which was fastened to her hair with orange blossoms. She carried a bouquet of bride's roses.

The bride was attended by her sister, Miss Martha Folsom, who was dainty in a gown of pink chiffon and carried pink carnations. The groom was attended by a brother of the bride, Mr. Ernest Folsom.

Immediately after the ceremony a wedding breakfast was served at the home of the bride's parents and they left for the ranch home of the bride's sister, Mrs. P. R. Evans of Genesee, Cal., where they will visit before continuing on to their home in Pocatello, Idaho.

The bride, who is another of Reno's popular teachers, is a graduate of the university normal and is a charming and brilliant young woman and very popular in social circles. Her many friends regret that she is to leave Reno.

The groom, who is also a graduate of the university, a member of the T. H. P. O. fraternity and is the son of Mr. and Mrs. James Curnow of Lake street, and brother of Mr. Thos. Curnow, the merchant. He holds a responsible position with the Southern Pacific in Pocatello. He is very popular both in Reno and the northern city.

Congratulations from U. N. go with them and wishes for their success and happiness.

REED-SCHRAPS

The Reno Journal told the story of the marriage of Paul C. Schrapps and Florence N. Reed on June 20, as follows:

"A university romance was culminated last night in the marriage of Miss Florence N. Reed of Elko to Paul C. Schrapps of Reno. The ceremony occurred at the home of Mr. and Mrs. E. I. Williams, 202 Maple street, Rev. Brewster Adams of the Baptist church officiating. Charles Coffin Jr. was groomsmen and Miss Williams bridesmaid.

"Mr. Schrapps was graduated from the Mackay school of mines in 1912, and his bride was a graduate of the class of 1913, University of Nevada.

"Immediately after the ceremony Mr. and Mrs. Schrapps left for New York, where they will take ship to South America, where Mr. Schrapps will engage in mining engineering."

Both are making their home in Guayquil, Ecuador. They claim Chicago as their real home.

SMALL BODY OF SOPHS PUT FRESHMEN T OROUT

Tuesday evening the freshmen babes gathered their forces and attacked a few sophs on general principles. The sophs were surprised at the onslaught because they at first thought a few kindergarten children had attempted to block the way, so feeble was the struggle. After the sophs, numbering about eight, had put 20 freshmen on their backs intending to spank the supposed children, one of the babes declared he was a freshman. The sophs laughed gaily and allowed the infants to go home to bed.

HOWES IN CANADA

Prof. A. E. Howes, who was last year the teacher of agronomy in the college of agriculture and who in that brief year made himself popular not only with all of the people on the hill but with the farmers with whom he came in contact throughout the state, is the principal of a dominion agricultural school at Vermillion, Alberta, Canada.

AT SMITH COLLEGE

Miss Margaret Fulton leaves today for Northampton, Mass., where she will enter Smith college. She will be accompanied by her sister, Miss Helen, who will visit for several months in the east.

Have you paid your athletic fee?

Our Si Ross' June Wedding

Graduate Manager and Miss Emily Coffin Married This Vacation

The writer for the social columns of "The Journal" describes in detail the wedding of Miss Emily Coffin and Silas E. Ross on June 11 last, as follows:

"One of the very interesting weddings of the week was solemnized Wednesday evening at Trinity Episcopal church when Miss Emily Coffin became the bride of Mr. Silas Ross. The church was beautiful in a floral decoration of roses and ferns. Rev. Samuel Unsworth, the pastor, performed the marriage ceremony.

Previous to the interesting ceremony, Miss Marjorie Goodrich in her rich sweet voice sang "Because," and promptly at 8 o'clock to the strains of Lohengrin's wedding march, Miss Frances Buckland of San Francisco presiding at the organ, the bride entered on the arm of trolley Sardis Summerfield, who gave her into the keeping of the groom. The bride, who is pretty and vivacious, looked charming in a gown of soft white embroidered crepe de chine trimmed in orange blossoms. A full court train hung from the shoulders which was draped with a fichu of Venetian lace. A cap of the lace fastened with a cluster of orange blossoms fashioned the long flowing veil and the bridal bouquet was of roses and lilies of the valley.

Miss Lola Stoddard was maid of honor and wore a gown of white with veiled tunic of green chiffon and carried pink roses. Miss Meda Menardi and Miss Marjorie Clark of San Francisco were bridesmaids and wore quaint gowns of pink chiffon and carried baby roses. The maid of honor and bridesmaids wore short veils drawn into dainty Juliette cap effect. The groom was accompanied by Prof. Haseman. Immediately after the ceremony the bride and groom left for a tour of California. The church was filled to overflowing with friends and relatives and Mr. August Frohnen and Mr. Jensen presided as ushers. The bride and groom were the recipients of a large number of exquisite gifts which was a token of their popularity. They will make their home in Reno."

Lincoln Hall Is Appreciated

By JOHN LEMBERGER

During the summer many improvements have been made on the hill but these in Lincoln hall are probably most appreciated.

To begin with, everything is new and convenient. All the halls have been painted and the rooms have been replastered and new paper put on. There is indeed some contrast between the old plaster broken rooms of last year and the neat, clean, papered rooms of this semester.

The new single beds which we find in our rooms are very comfortable and the new bedding furnished by the school is appreciated by all.

Almost everything has received a coat of paint, some of which has not become dry, as many of the fellows have discovered.

But at any rate we are all proud of our new quarters and in accordance to our sincerity we cheerfully deposit \$5 with the comptroller which shows that we will not tolerate any rough houses.

A set of rules have also been drawn up to which each student signs his name and promises to observe each and every one.

TO WASHINGTON

The co-operative laboratory of the U. S. bureau of soils which has been in operation during the past couple of years in the Mackay mining building, has been closed. Jack Cullen, who has been chemist in charge for many months past, leaves today for Washington, D. C., where he will still remain in the government service. Jack is mighty sorry to leave the hill and takes this means of saying "good-bye" to his Nevada friends. Nevada is just as sorry to lose Jack and it not forgetful of the services he has performed as coach of last year's baseball squad.

Navy School of Training

It is my ambition as secretary of the navy to make the navy a great university, with college extension, high school extension, and primary extension, all on board ship. Every ship should be a school, and every officer should be a schoolmaster. In this way we can give the young man his rightful chance to better his position, and at the same time benefit the navy by increasing the knowledge and usefulness of its personnel.

It is not easy to secure the full complement of young men of character needed each year to man our ships. To stimulate enlistments it has been necessary to resort to recruiting stations, traveling recruiting parties, and advertisements.

We are all familiar with the gaily colored advertisements of the navy, showing the American bluejackets in a natty costume, doing all sorts of interesting things. One of the chief features of these advertisements is the offer to young men, as an inducement to enlist, of the opportunity to learn more than a score of trades.

When I became secretary of the navy, I determined to find out if the young men who had been attracted to the navy by these advertisements were really getting what had been promised them. I soon reached the conclusion that only in exceptional cases has the navy been making good its promises. I found that it was only the young man of exceptional merit and ability, or with unusual determination to learn a useful trade, who was really getting the kind of instruction which all who enlisted had been led to believe would be afforded them. I decided then that either the navy must stop publishing such advertisements, or else it must give the young man all that the advertisements promised.

I intend to do the latter. I intend to see that the young man who in good faith accepts the promise of the navy to teach him a useful trade shall have abundant opportunity to learn. I consider that to give the enlisted man that chance which as an ambitious American he demands is my chief business in the navy department today.

To establish on each ship a school of instruction for the enlisted man is my aim at present. These ship schools should be open not exclusively to the exceptional man, but to each young man on board. I suppose that every young man who enlists shall be given at the outset an opportunity to choose for himself what line of training he wishes to pursue, whether it be electricity, radiograph, carpentry, machinery, plumbing, painting, ship-fitting, coppersmithing, blacksmithing, boiler-making, gun-pointing, hospital stewardship, commissary stewardship, bookkeeping, stenography, or any of the other occupations for which the navy is prepared to fit him. When he has made his choice he should be assigned to a regular course and given regular instruction in the kind of work that he has selected. I wish to emphasize the fact that I intend to see that first of all every young man is given his choice, and second, that he actually receives that kind of instruction which he elects. The rest must depend upon the young man himself. Popular Mechanics Magazine.

OUR BOYS' OPPORTUNITY

Luther Burbank, by experience and accomplishment doubtless the best qualified man in the world today to make such a statement, says the great opportunity for our boys and young men is in agriculture. He points out that after the young man has spent eight years at hard study of medicine, the law or engineering, he has not made a success; he is only prepared to commence the battle for it. Whereas, to add but one kernel of corn to each ear grown in this country in a single year would increase the supply 5,000,000 bushels. One improvement in the potato is already paying back \$17,000,000 a year. Everything we eat and wear comes out of the ground. With less than half our population raising things, should there be any wonder that the cost of living has increased 58 per cent in 15 years? To quote from Mr. Burbank:

"What the world needs, urgently and now, is men who can increase the forage from our present acreage so that 16c will buy a pound of the choicest sirloin, as of old, instead of a pound of rump, as now.

"What the world needs is not theory, or agitation, or college lore; there are plenty of these, and at a cost of one hundred and eighty million dollars per annum in money and who knows how much time, they have suc-

ceeded in increasing our crop yield only a bare 3 per cent.

"What the world needs is men who can do to agriculture and to horticulture what Edison did to electricity, Carnegie to steel, and the underbilts, Hills and Harrimans to transportation—develop their efficiency."—H. W. Windsor in the September Popular Mechanics Magazine.

Class Fight Begins Early

'16's and '17's Hostile—Desperate Fight Predicted

There will be all kinds of college rushes at an early hour Thursday morning but no one seemed to appear the worse for wear, afterward. Long before the sun had even begun to rise a group of sophs gathered in a dark corner along the river bank and then the work of pasting gorgeous green and red posters about town began. The posters are clever and are to be seen everywhere. To the credit of the freshmen let it be said that whole, unscratched posters are hard to find.

While the '16's were busy posting their rules the freshmen were far from idle. A dummy likeness of their enemy was disclosed by the sun when he rose this morning. Mr. Soph hung by his neck from the tree near the bridge and swayed gruesomely with each gentle breeze. For hours he hung there—no soph appeared to pull him down and at last he was recaptured by the seventeens themselves. From the dark glances that have passed back and forth between the first and second year men on the campus today, the sophomores seem not to have the intention of letting this insult go unavenged. A desperate fight within the next 48 hours is expected.

Over on the Manzanita steps things were not so calm. The '16 girls were in charge of the posters. The freshmen girls rushed them. The fight was short and sweet. The posters were saved.

ANNOUNCEMENT OF THE DEPARTMENT OF PHYSICAL EDUCATION FOR MEN

The purpose of the department is to aid in the assurance of the well-being of the student. All students, unless otherwise instructed, will be required to complete in a satisfactory manner, the work in the department of physical education to be graduated from the university. A physical and medical examination of each student will be given within the next two weeks. Important physical measurements will be taken and any disabilities will be given attention and proper measures will be instituted to correct them.

The requirement for graduation will be a two-hour course per week for one year in the gymnasium, or satisfactory work equivalent to it in some form of outside athletics approved by the athletic committee. For the present this will include football, baseball, track and tennis, any of which may be elected by the student and substituted for the gymnasium work.

A brief lecture course in personal hygiene, first aid to the injured, etc., will be offered in conjunction with the regular gymnasium work.

For the present year gymnasium classes will commence November 3.

ELECTED AT REGENTS MEETING OF AUGUST 11, 1913

C. S. Knight—Agronomy.
Albert E. Hill—Assistant English, from University of Chicago.

Alexandrine E. LaTourette of Iron Mountain, Mich., graduate of Pratt Institute of New York, assistant librarian.

Julia R. Kelsey of Marion, Indiana, music.

Victor H. Hoppe of Dennison university of Ohio, expression and public speaking.

Miss Rosalie Pollock, assistant professor of education.

Amos W. Elliott, athletic director for one year, from California.

NOTICE

Subscriptions to the Sagebrush for the coming year will be \$1.00 in advance. After the first two issues no sample copies will be given or sent to any one. Subscriptions can be paid to Bob Farrer, Arthur Boggs, Frances Smith or Joe McDonald. Get a receipt when you pay and notify the management if you do not receive a paper promptly.

Reno, Nevada, Sept. 2, 1913.

Dear Student:
You are about to enter upon the studies for this semester, and it is of the greatest importance that you should be in best of condition to meet the many duties which require your full attention. To be able to cope with your fellow student it is essential that your physical condition is up to the highest standard, and every loss of vitality be wisely avoided. An unconscious waste through "EYE STRAIN" may cause you unnecessary trouble. I would be pleased to have you call and get a thorough scientific examination of your eyes FREE of charge. If you DO NOT need glasses I will frankly tell you so. I am a registered Optometrist, and passed the examination of the California State Board of Optometry, am a graduate with the highest honors of the Philadelphia Optical College, also of San Francisco and Los Angeles. You will get the benefit of my thirty years of experience in the Optical profession. All my work will be warranted and glasses furnished at most reasonable rates. I can duplicate any lens at short notice. Assuring you of a fair deal, permit me to remain,

Yours respectfully,
JOHN B. KOCH, O. D.
With R. Herz & Bro., Inc.

GREETINGS

The U. of N. Sagebrush greets you new students of the college. It congratulates you, too, on making this university your choicest—your paper is sure you will never regret it. To the members of the faculty, old and new, "The Sagebrush" extends the same hearty greeting. To President Stubbs, it joins with all people on the hill in a cordial welcome home.

These first days of college are hard ones for new people. They are days of handshakes and good cheer between old friends reunited; they are days of lonesomeness for you. Probably in no time in your whole college career will you feel so much like leaving us as now. Old students urge you be patient—getting acquainted is a slow process but it is sure at Nevada. In a few months some of you will be among the most popular people on the hill; others will have made their letters in football and their names will echo across the Mackay field; still others will have achieved a reputation for diligence and excellence of work that even the oldest of Nevadans will envy. In a year from now you will be the ones happily greeting old friends—there will be another bunch of freshmen there to do your bidding and try your metal. Old ones say to you: "Make yourselves home at Nevada."

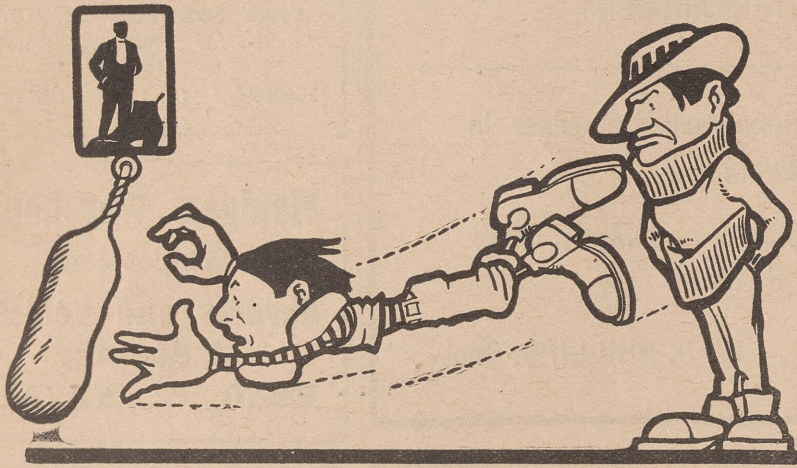

THE STUDENT COUNCIL

The Sagebrush calls to your attention the report of your committee on a new mode of student government, and also the constitution for a student council which that committee has drafted. These are reprinted for your earnest consideration. Whether we go on in the same antiquated, make-shift fashion or have practically student control; whether we stay mired in the rut or go sailing along as students in all progressive universities are doing, is up to you. This is the beginning of a new year—does it mark a new era? A vote will be taken shortly.

In this, the first issue of the Sagebrush for this year, a few words to new as well as the old students, if heeded, will go a long way to make your college paper a credit to your school.

We have to depend almost entirely on our advertisers for support to maintain the paper and it is only natural that they wish to get some returns for the money they expend.

All the business houses who advertise with us represent the business of first class standing and we want the students to trade with these houses and thus show their appreciation.

Council Com. Makes Report

Report of Committee Recommending New Mode of Student Government

Mr. Chairman:
 Your committee appointed to investigate student government in other institutions has completed its work and herewith respectfully submits its report.

In order to acquaint you with the method pursued in securing our data, we wish to state that about 50 letters were sent to the leading colleges in the country, asking for a copy of their student body constitution, and any other information that might aid us in securing our desired aim. We studied the information so received most thoroughly, and after careful and earnest deliberation we are able to recommend the following:

We feel, however, before making these recommendations that it is incumbent upon us to analyze conditions existing here and to bring them to your attention.

If you will read the present constitution you will find there are no provisions by which the student body may legally petition the faculty or board of regents. We do not deny the fact that in the past these governing bodies have been petitioned, and the things sought for, granted, but in doing this the A. S. U. N. has not acted in accordant with the power vested in it by the articles incorporated in the constitution.

You may have also noted that the college spirit, without which no college can develop, has been gradually waning. In attempting to find out just where the evil lay, and what remedy there was for it, we found that the work of the A. S. U. N. was hampered and not facilitated by the present composition of our governing body. governing body of a college must be a great power in the inspiration of class and college spirit, and of welding the students into one efficient unit. For a governing body to be successful in accomplishing these things, its powers must be clearly defined and all of its members must be energetic, public spirited and efficient. Efficiency, however, can not be expected of a loosely bound organization of over 250 students.

We find also that there is a lack of social intercourse between student and student, and faculty and student. This we feel is due to the fact that there is no body that can take the initiative and bring these at present separated elements into closer social relations.

We also noted that there is a tendency of late to ignore the customs and traditions of our university. The customs of a college are its sacred institutions. It is through them, and them alone, that long after you leave these castles of learning that your memory goes back to your Alma Mater. Not that we wish to assume the unpleasant role of censors, but we cannot help noticing, with deep regret, the marked contrast of our freshman class and the freshman classes of other institutions. It would be the height of folly, however, to place the responsibility solely on the lower class for we must be candid and admit that the fault rather lies with the system in vogue here than with the class. In-

Fashion Talk No. 3

Ladies, let us now spend a few minutes in thought, as to what really constitutes good clothes. Any gown maker can measure, cut, fit and put fine materials together with more or less accuracy, but real elegance is in the perfect gown. Has your gown-maker had from five to fifteen years of the best training in a fashionable center? Is your dress or gown up to the present standard of style, fit, comfort? Do you feel "at home" in it? Are the materials, colors, trimmings and laces well blended, and are they suited to your figure, height, hair, eyes and features? One correctly made custom gown is worth three ready-to-wear, and will last three times as long. We make them from \$35.00 to \$100.00, and upwards, the average being from \$35.00 to \$75.00, according to materials and laces used. The writer had sixteen years of steady working experience in New York City. She loves her art. A perfect gown upon a pleased client is her delight. May we show you some new materials just received from New York City—also new French fashion plates, which are at least six months or a year ahead of all American books? A gown made from them will remain in style twice as long.

We have just received over \$500 worth of new laces and trimmings, sold by yard.

Over 1000 samples of new materials.

Over \$100 worth of findings.

Over \$400 worth of ladies' fall hats.

Over \$700 worth of suits and cloaks. Our leader in six colors, all sizes, 34 to 46, at \$18.75, is a beauty. \$500 worth of dresses and single skirts are on the way.

We shall shortly have some of the finest dress goods ever shown in Nevada, which will be sold by the yard.

A visit from you will always be welcomed. Let us have a little chat upon this subject of the custom made gown. It is far cheaper and more satisfactory in the end than any other.

Clients anywhere in the coast states can be served just as satisfactorily by measurement blanks, samples and catalogs, as our customers who live in Reno. Try our mail order department for anything you need.

Please accept my thanks for the many coupons and subscriptions I am receiving from everywhere in the Nevada State Journal contest. I would be glad to receive your subscriptions for that paper—three months, \$1.50; six months, \$3.00; one year, \$6.00. Should I win the car will be at your service when you visit the largest city in Nevada. It will meet all trains, call at homes for customers and use of physicians' patients. You can simple telephone for it.

COUNCIL COMMITTEE MAKES REPORT

(Continued from page 4)

stead of reprimanding the class as a whole or any particular individual for lack of interest, or for failure to carry out our traditions and customs, if we were to have a body that would explain to the incoming classes just what is expected of them, and the penalty for neglect, much better results would be secured.

You may recollect that a feud existing between the two lower classes was settled on the campus some time ago. We feel safe in stating that no college would tolerate such action, for its derogatory results are apparent. The newspapers were quick in grabbing the incident and flashed it in glaring headlines to the "ever-eager-sensational-seeking-newspaper." This surely was a case of misdirected publicity.

For the remedy of the aforementioned, we recommend the establishment of a student council. Changes in government are usually radical. We have, however, endeavored to study thoroughly our own conditions, and we offer, what we deem a very suitable, and at the same time, a conservative change. The present body, since its main work is in the line of athletics is left, except for some minor changes, in the same status. No change in its composition is agitated nor are its powers curtailed.

The work of the student council is to be directed in other fields. Its purposes will be to draw the students and faculty into closer relationship. It will be the medium through which student opinion may be represented to the university authorities. It will endeavor to establish an employment bureau, so that suitable employment for the students can be found. It will investigate any infringement of college rules, and recommend to the faculty what action should be taken thereon. It will exercise control over all inter-class affairs and disputes. It will acquaint the incoming classes with the customs and traditions of our college. It will carry on a campaign of publicity, so sorely needed by our institution, in fine, it will do everything to further the interest and welfare of the student, and create a spirit of loyalty which makes a college truly beautiful, and its traditions most holy.

The details of the council are made clearer in a copy of a constitution herewith appended.

In conclusion, we feel justified in predicting that by the establishment of a student council, the work of bringing the University of Nevada into the rank of leading colleges of the country, will be facilitated. The University of Nevada is destined to assume an eminent position among her sister colleges and this new body, full of life and vigor, will be a good aid to her. We realize that it is the supreme hope and earnest desire of each and every student, to look up with pride to our Alma Mater, and we owe it, not only to ourselves, but to posterity, to create such institutions that will materially bring to realization our most cherished ideals.

Most respectfully submitted,
 HENRY WOLFSON,
 ROBT. P. FARRER.

The Asilomar Y. W. Conference

Nevada Well Represented in First
Gathering in New
Camp

By GERTRUDE SHADE

From the 1st to the 13th of August, delegates from the city and student association of California, Nevada and Arizona met together at the first conference held on their own grounds, Asilomar, near Moss Beach. The place of meeting is a 30-acre tract of land extending along Moss Beach, between the famous Seventeen Mile Drive and the beautiful Pacific. Here are the white sand dunes where Bible and mission study classes were held and here are the pine, oak, and cypress trees among which ten tent houses, for the accommodation of the delegates, are hidden in groups, and the first permanent building, a rustic structure of pine logs, rises and overlooks the bay. The city delegates' conference ended on the 7th; the students' began on the 5th, and so, for the two days over 320 delegates assembled together for the same purpose. Among these representatives were nine from Nevada, Myrtle Neash-Claire Smith, Florence White, Rachael Rand, Eunice Cagwin, Maud Price, Zoe Gould, Gertrude Shade and our local secretary, Miss Wygal. On two afternoons one more was added to our representation and that was when Mrs. Layman, a member of our advisory board, was with us. We greatly enjoyed her visit.

During the conference week, Bible and mission study classes, platform meetings and technical councils were arranged for the morning hours. In order to bring back to our own Y. M. C. A. members and others as much as possible of the spirit of the conference, the delegation divided, some attending one class and others another. An interesting advance Bible study course was given by Professor Charles E. Rugh of the University of California. His subject was "The Abundant Life" and was based on the gospel of John. Miss Wygal conducted a class in the study of "Jesus, the Man of Galilee." The aim of the course was primarily to strengthen the religious foundation of the members and to assist the students in learning to know the Bible. The mission study classes were interesting as well as instructive and, being conducted by workers in the various fields, the lectures were replete with anecdotes of their own experiences. At these classes the delegates had the opportunity of listening to lectures given by Miss Edith Terry Bremer who is at present engaged in work among the immigrants in New York City; Miss Margaret Mathew, who has just returned from her work in Japan and Miss Mary Bently, who for the last few years has been in India. Rev. William Day of Los Angeles gave a series of addresses on "The Affirmations of Modern Christianity." It was from the thought that "all religious thinking rests upon the conception of God" that all his wonderful ideas came. A very pleasant hour was spent at the technical council where the presidents and the chairmen of the different committees met, talked over the work done in their own associations, exchanged ideas and added as new ones for the coming year. With vesper services and a delegation meeting in the evening the day closed. At two of our delegation meetings we were honored by the presence of Miss Chickering and Miss Mathew. The afternoons were free and in that time parties went out on jaunts to Point Pinos light house, Del Monte hotel, Joe's Point, Pacific Grove and Pebble Beach. At the Presidio, a special concert was planned by the military band, and autos were donated by the citizens of Monterey and Pacific Grove to make the 17-mile drive possible for the delegates. Before the city delegates left, a grand pageant, which showed the different fields of Y. W. C. A. work, was given. The first division represented delegates, coming from all parts of the states to a conference. Each delegation personated something different—Nevada, a "hiking" party. Before this division of the pageant ended, Nevada's delegation with Redlands, Occidental and Pomona sang the following:

"Sing a song of colleges,
Tell us where to go,
Redlands where the knowledge is,
Nevada where they row;
Occidental for your belles,
Pomona for your ball,
Each for its own kind of girls,
But Asilomar for us all."
We sang it with a vim and didn't object to the "row" in the fourth line

because we knew it had to rhyme with "go," and besides we are in hopes of some day having a rowing crew. On the same afternoon the conference grounds were dedicated, and Mrs. Hearst announced the name of the grounds as Asilomar, the Spanish for "a retreat by the sea." At dinner time the colleges' delegates sang their college songs and sent back and forth gay repartees. Asilomar was really a place for all students. Even Stanford appreciated U. C.'s joke when one of her delegates brought out the well known "yellow bear."

With the splendid teachings and pleasant experiences in their minds, with the good-fellowship of all and the making of new friends, the delegates left Asilomar and closed a very successful conference. Some of the delegates will conduct a few meetings and give their point of view of the conference. The Y. W. C. A. extends a cordial invitation to all freshmen and students to visit and hear them tell of their own experience and to join the Y. W. C. A. too.

Executive Com. Regular Meeting

Executive meeting September 3, 1913.

Military

General Orders No. 1
September 13, 1913.

The regular work in the department of military science and tactics will begin Monday, September 8, at 11 a. m. All old cadets will report to their respective company commanders on the campus near the gymnasium at that hour. All new cadets will assemble at the same place and will be assigned to companies under the direction of the cadet major and the cadet captains.

After the companies are dismissed, new cadets who have musical ability and would later consider transferring to the band, will report their names to the commandant. By order of the COMMANDANT OF CADETS.

PAY YOUR ATHLETIC FEE

Find the treasurer of the A. S. U. N. Bill Smythe, and buy an athletic card the day you register. This card not only makes you one of Nevada's students, but it admits you to all the football games, gives you a voice in the student body, allows you to take part in athletics and above all gains for you the assistance and respect of all the loyal sons and daughters of Nevada.

NEW GUNS

The department of military science and tactics has been provided with eight of the latest model Springfield rifles and some brand new sliding target carriers.

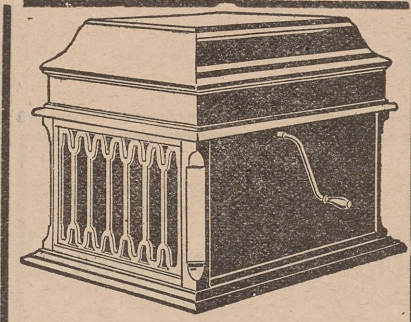

Dr. John B. Koch, the students' optician, at R. HERZ & BRO., the jewelers.

E. J. Nixon, Optician
Announces the removal of offices from Masonic temple to rooms 1, 2 and 3, Thoma-Bigelow building, over Gray, Reid, Wright store.

The new offices provide more commodious quarters for improved instruments and machinery, and facilitates the giving of prompt, accurate and reliable optical service.

Tommy Smithers has charge of "the property near Silver City. Underground," a promising mining property near Silver City.

Little Notes of the Summer

**Jottings Jotted by a Campus Stayer
in the Months We Were
Away**

Dr. Moore, head of the department of veterinary science Cornell university, was a visitor at the university on July 21.

Miss Letitia Winn, formerly a student at the U. of N. and later at Stanford, was a visitor in Reno in July, the house guest of Miss Ruth Miller. Several social functions were given in her honor.

Alberto Axt appeared on the campus earlier in the summer resplendent in a full growth of red whiskers. Birdie is in Reno at present but will leave shortly for Platora, in the Quinn river valley, Humboldt county, where he will teach the district school.

John Patterson, C. E., '00, was married during the month of July to Miss Pearl Kenyon of Berkeley. They are making their home at Cedarville, Cal.

Miss Mary Dinsmore, who served as clerk in the department of botany, horticulture and forestry at the university during the former part of the last term, was married to Mr. Lee McDowell in Reno on August 16. They are now living in San Francisco.

George W. Betchel, a native of Reno, and formerly a student at U. N. H. S. and of late years an electrician in San Francisco, died on June 26 in that city.

Harold M. Taylor, formerly of U. N. H. S. and now a bank clerk of Portland, Oregon, was married to a Miss Miller of that city on July 2.

Byron Milner, draughtsman of the Truckee River General Electric Co. and Reno Power Light and Water Co. and formerly a student at U. N. H. S. was married to Miss Miriam S. Humphreys on June 25. They are at home at 543 North Center.

Richard Rising of Dayton and Miss Virginia Griffin of Carlin, Nevada, were married on June 22 at Carlin. They are living at Dayton, Nevada.

Elsworth Bennett has returned to Seven Troughs after spending a part of the summer in Nevada City, where he was called by the serious illness of his father.

Paul Foster, the 12-year-old son of Mr. and Mrs. T. W. Foster, 221 West Fifth street, was drowned in the campus lake on August 3.

Prof. L. T. Sharp, who last year occupied the position of instructor in agronomy in the college of agriculture, has been appointed assistant professor of soils and associate of the experiment station at Berkeley.

Ransom H. McDowell, for 13 years head of the agricultural department of the University of Nevada, was killed on August 7 at the West street crossing by train No. 23.

Miss Sadie Frandsen, sister of Prof. Frandsen, will hold the position of clerk in the office of Prof. P. B. Kennedy during the coming term.

Robert W. Young, mines, '09, brother of George J. Young, was married on July 16, 1913, to Miss Genevieve C. Manaton of Palo Alto. San Francisco is their home.

Otto T. Williams, B. A. '96, a lawyer of Elko, visited the campus on July 10.

Miss Mila Coffin, a freshman at Nevada last year, has matriculated at Stanford.

Mrs. T. G. Farrer and daughter, Miss Elsie, mother and sister of Bob Farrer, have moved from Carson to Reno and are at home at 682 Nevada street.

During the latter part of July a daughter was born at Berkeley to Prof. and Mrs. George Young. Miriam is the name of the little girl and to say that George J. is a happy father is expressing it lightly.

The summer school was largely attended and a great success. More of it will appear later.

AT PICOHE

Charles L. Brown, who received his master's degree from this university at last commencement and who has assisted Prof. Frandsen in the department of biology for several years past, left Wednesday for Pioche, Nevada, where he will be the principal of the high school.

TO U. C.

It has been reported on the campus that Huskey Sinai, Bill Duddleson, Red Fancher, Jockey Haun, Harry Scheeline, Ben Osborn and Lee Hylton are all to be students at U. C. this year.

Did you see Bill Smythe about that A. S. U. N. card?

July Wedding College Folk

**Old Football Star and Popular Coed
Married in Reno During the
Summer**

Of the marriage of Miss Bonnie Thoma and "Tex" Hardy, two popular college people, on July 16, the Nevada State Journal had the following to say:

One of the prettiest weddings of the summer months was solemnized at 8:30 o'clock last evening at the home of the bride's mother, Mrs. George Thoma, on South Virginia street, when her eldest daughter, Miss Bonnie, became the bride of Mr. Roy Harvey.

The home was beautiful in roses of pink hue, which were placed in every nook in most artistic appointment. Mrs. Peter Shields of San Francisco, aunt of the bride, presided at the piano and, to the strains of the wedding march, the bridal party entered the parlors and stood beneath a bower of roses, while the beautiful ceremony of the Episcopal faith was performed by the Rev. Dr. Jenvey, a close friend of the bride's mother.

The bride was beautiful in her gown of embroidered crepe and point lace, and wore her mother's wedding veil, which was fastened with a Juliette cap of old point lace. Her bouquet was of valley lilies and Cecil Bruner roses.

The bride was accompanied by her sister, Miss Roxie Thoma, who was dainty in her gown of pink silk mull and carried a bouquet of long stemmed pink roses. The groom was accompanied by Mr. Bert Nixon. Little Helen Flanigan and Helen Pike, in dainty gowns, received the guests.

After felicitations refreshments were served at small tables, each being laid with a center of roses.

The bride and groom left on the 10:14 train for San Francisco, where they will spend a week awaiting sailing of the Lurline on which they will take passage to the Hawaiian Islands.

The magnificent array of gifts in silver, cut glass, brass, china and jewels speak of the popularity of the bride and groom. Both are very popular in Reno's social circles. The groom holds a responsible position with Mr. George Wingfield in the mines at Fairview. The young people will make their home in Fairview.

The Nevada State Fair

Great interest in the nineteenth annual Nevada state fair is being aroused throughout the entire state, by the prominent part the great Carver show is taking in this exhibition.

The Carver show was secured at a very great expense, but it will prove to be such an added attraction to the numerous other fair features that the expense will be greatly offset.

Lorena Lorenze, the principal performer for this show, is now in Reno superintending the construction of the 40-foot tower from which she makes her famous high dives.

That her performances are out of the ordinary and something that impresses those who see them, are manifested by the great demand for the show all over the country and the amount of newspaper publicity which the show and her work is given.

Besides making the wonderful and death defying dive on the back of her trained horse from the 40-foot tower into eight feet of water, she makes numerous dives alone in every different style known to high divers. The suicide dive, when she takes a girl in arms and makes the fearful leap is second only to the dive on the back of the horse.

The Carver show also has a phenomena, Bobbie, the boy high diver. Bobbie dives from the seemingly impossible height of 105 feet into a tank containing only two feet of water. Before the splash he makes diving from such a great height is seen he is on the surface of the water swimming about.

This wonderful show is now in Sacramento preparing to exhibit at the California state fair. From there they will come directly to Reno where everything will be in readiness to receive them.

YOUNG AT MINNESOTA

Prof. Geo. J. Young, for years head of the Mackay school of mines, is now in Minneapolis where he has accepted the position of head of the department of mining of the University of Minnesota.

AT MODESTO

Louis Rose, a popular freshman of last year's entering class will not enter college before Christmas. Louis was employed as engineer on a plant at the insane asylum through the summer and was forced to return to his home in Modesto a few days ago on account of ill health.

TO SANTA CLARA

James (Goat) Curtin was on the campus for a couple of days in the fore part of the week shaking hands with college friends. The Goat will enter Santa Clara this term.

YELL LEADER TRY OUT

There will be a try-out for yell leader on September 17, the afternoon of the alumni game, on the bleachers. "Senator" Boggs has been authorized by the executive committee to act until that date.

WITH THE WINGED O'S

Coach Holway has accepted a position as athletic director in the Olympic club of San Francisco.

Prices are right. Service is good. Reno Quick Lunch. Slatts.

College Men Are "Strong" For The New L System Clothes For Young Gentlemen

They meet their ideas of appearance and endurance. No frills about them—no affected cut—just well designed, clean-cut, stylish-looking clothes, that fit right—feel right—look right—and best of all—stay right. And the price is right.

NOTES GATHERED FROM FRIENDS AS TO WHEREABOUTS OF GRADS

Miss Eunice A. Cagwin is teaching the seventh grade in the Sparks public schools.

Miss Marie De Flon will attend the Bernard college, New York, this year. Miss Mildred Donohue is to teach at Wonder, Nevada, during the term 1918-1914.

Friends of Miss Carolyn Hauss report that she will not enter the teaching profession at least for this year. Her home is in San Francisco.

Hess Helen Higgins will have charge of the school at Hot Springs, Smith valley, Lyon county, Nevada.

Miss Bertha Jones is to teach in another part of Smith valley this term.

Miss Leola Lewis has the school at Browns, Nevada. The Sagebrush, like all of her other friends in this vicinity, is glad that she has located so close to Reno.

Miss Florence White will have charge of the first four grades in the Golconda schools and has already entered upon her duties in that camp.

The Misses Edith and Elizabeth Winter have both accepted positions as teachers in schools both near Wells, Elko county.

Arthur Reynolds is following the mining game in the good old camp of Grass Valley.

Norman L. Dorn, Frank Gignoux, Leonard Gilcrease, all graduates in E. E., will be in the employ of the General Electric Co. at Schnecktady, New York.

FACULTY HAS MANY CHANGES

(Continued from Page One.)
 steamer lands in New York on Sept. 8 and she will be at Nevada the following week.

Others, bran new to the institution are, Miss Alexanderine E. La Tour-ette of Iron Mountain, Mich. She will be assistant librarian, is a graduate of Pratt Library Institute, New York, and will arrive here in October. Miss Rosalie Pollock, who will reside at Manzanita, and will be an instructor in geography in the college of education. Miss Maud Denny of the University of Illinois, will be the instructor of music.

Amos W. Elliott, coach and physical trainer of men, has been on the scene for several days and is already starting football in earnest.

Last, but not least, is Prof. Richard Brown, who is back again as superintendent of buildings. "Dick" is thinner than he was but his health has improved as the result of a year's rest at Pacific Grove. Prof. and Mrs. Brown and children are at their old home on North Virginia street. Miss Hattie Brown remained at Del Monte, where she is employed.
