FRESHIE--SOPH GAME WEDNESDAY

Nevada Wants Every Man In College Out For Football--This Year

THE BATTLEFIELD

Great Get Together Rally Held In Gym

Peppy Speeches—Lots of Spirit—Big Results—The First Rally and Watermelon Feed of Year 1913-1914. Coach Elliott Urges More Support on the Field

Around great, long tables of clean pine boards in the gym Monday night sat this year's college men. The occasion was a watermelon feed and smoker; the object, to introduce new men to University of Nevada college pep.

The rally was led by Yell Leader Arthur Boggs. Mayor Doc Milentz of Lincoln hall was master of ceremonies. The doctor called upon Brewster Adams, introduced him to the new men and then the bunch heard a good talk. Scott Jamison, Mr. Adams informed them all, on account of another engagement, could not be present. Mr. Jamison, however, had asked Mr. Adams to remind the boys that those good watermelons they were enjoying were the gift of Mr. Bacon of the Palace. No sooner had the word "Bacon" passed the lips of Mr. Adams than the "senator" was on his feet and a big "skyrocket" for "Bacon and the Palace" was lustily given.

In the name of the townspeople of Reno, Brewster Adams welcomed Amos W. Elliott, Nevada's football coach, to this community. He emphasized the importance of a winning team to every college and the people

represented by that college. To Amos Elliott he wished all success for a team that would be a credit to the town, a credit to the university and a credit to Coach Elliott himself. "Boys," he said, "you have a good start for a winning team tonight."

Coach Elliott

When the applause with which Brewster Adams' talk was greeted had subsided, Doc Milentz introduced Coach Amos W. Elliott. Coach Elliott made his speech a short one but it had all the sharpness of a determined leader. He said that he was glad to be here—that this, indeed, was a great send off for the football year. He said, in part: "Although there has been a great deal said about support, when it comes to show down on the football field, support is lacking. There were 11 freshmen out the first day; 13 today (Monday). Support like that does not make winning teams."

The coach went on to say there was no reason why the college should not have a larger varsity squad. He urged the unimportance of previous ex-

(Continued on page eight)

Home Bought By Fraternity

T. H. P. O. Purchases Jackson Flats—Will Improve House for College Home

The Jackson flats on the corner of Seventh and Center streets have been purchased by the T. H. P. O. fraternity for use as a home. The property includes the four flats, a total of 22 rooms, and four baths—the double lot, which includes the corner, and a strip of land 16x50, which extends to the alley. All ready the members of the fraternity have made their efforts show by clearing the lot of a dense forest of weeds and by washing down the house.

Numerous improvements will be necessary to make of it a comfortable home. Under the direction of Bert Cahlan the men have already started repairs. Three rooms and one hallway down stairs will go to make the living room. This room will be the most popular in the house, for in it all parties and dances will be held. Two rooms on the south side will form the new dining room, and with tables now arranged for, 30 men can be accommodated. Two rear rooms will be made into one to be used as a kitchen.

A suite of two rooms and bath are reserved for the matron of the house. One bath room will be cleared, lined with tile, and two or three showers installed.

(Continued on Page Eight)

U. N. Glee Club Again Started

Director Haseman Expects Great Things From the Bunch This Year

With the pride of last year's Glee club still shining in his face, Prof. Haseman gave a few moments to a Sagebrush reported on the prospects for a club this year.

"They're great," was his emphatic answer. "While we lose Rose, and have found, as yet, no man to take his place, we have enough of the old men to make a fair showing. Coach Elliott was a member of the U. C. Glee club while at California and has promised no end of assistance. Monk Ferris has not yet put in an appearance, but I'm on his trail fast and hope to bring him back shortly. Monk will be sadly needed."

"What we want now is new material. We need to see a lot of these new people who have a bit of ability. I wish you would say in the Sagebrush that a larger Glee club than ever is hoped for, and that to make it large we need the new men. I shall post a notice seen that will give full particulars. In the meantime what your tastes for a 'better-than-ever-Glee club.'"

Hiss Jessie Hylton returned to college Monday. Lee will not be at school this year but will remain on the ranch at Hylton, Elko county.

Cane Contest Over Quickly

Sophs Win Right to Wear White Vests and Canes in 4 Minutes and 27 Seconds

The cane rush was short and sweet—for the spectators. It was held on the Mackay field Monday morning. At 10 minutes to 10 the gun started the sophomores in their race down the field. Four minutes and 27 seconds later the freshmen had been defeated.

The gathering for the 1916-1917 class struggle was the usual one. The bleachers were crowded with co-eds and other spectators. A bunch of sophs clad in cast-off clothing, taking their ease at the north end of the field; another bunch of poorly clad persons, nervous and trying not to show it, in the middle of the field, gave themselves away as freshmen, were there as always. Juniors, coatless, wearing battered, decorated gray plugs and carrying canes walked among the knot of freshmen, cheering them. Seniors, under new sombreros, walked in and out among the groups. The usual scattering of officials, newspaper men with pads, and postcard men with cameras completed the gathering on that smooth green field on that sunny September morning.

At 9:45 Referee Silas E. Ross reminded each class of the game. Five minutes later Starter Haseman shot the gun and the sophs, joined hands V shaped and plunged pell mell down

Our New Fall and Winter Suits, Cloaks and Hats Have Arrived

PRICES TALK, especially when the quality is better than that of any competitor in Nevada, or the extreme western states.

Our buyer is on the ground continually in New York City and Chicago. We buy in small lots only but have six swatches or samples and can supply any suit, cloak or dress by measure, in four days from Chicago or seven days from New York, by telegraphing one way. We defy competition.

Overhearing a remark by a lady in front of our windows, that they looked so attractive, she was afraid to enter, for fear we were high priced. It is just the opposite; we are the lowest priced house in the West. Comparison, Prices and Quality will convince you.

As soon as our capital and sufficient stock is sold, we will add a complete line of dress goods (by the yard) and everything carried by a complete up-to-date dry goods store.

Why send, or go to San Francisco, Chicago or New York for a ready-to-wear or custom made suit or gown, when I can give you better at less price. It is what I came here for; I represent two of the very best houses in the United States. Why not keep this money in circulation in Reno? Comparison of goods and prices will convince you.

Get a Good Garment

In fact, get the very best! It costs no more than a cheaper-made article, and the good garment will give you satisfactory service.

Exclusive agents for the "Palmer Garments," Fall and Winter 1913-1914.

We have an exceptionally attractive line, and want you to see it. You'll discover values you'll like, and the styles are sure to please.

Merchandise shipped everywhere. Give bank, store or friend references; 119 North Virginia Street.

Marie Bonfils, Inc.

RENO, NEVADA

The New Shop for Women

Save yourself time, trouble and worry; use our mail order department.

Our's is a popular priced line, from \$15 to \$50, yet we are to be exclusive agents for Jonasson & Co. suits and gowns, but shall carry but few in stock as they are so expensive—one of the most exclusive lines in America.

Capital \$25,000, of which a small portion is for sale. It can be made to pay from 10 per cent to 15 per cent dividends.

Many thanks for coupons and subscriptions received. It's to be the people's car if I win.

Dairy School Outfit Large

Building to Be Completed in Mid-Semester Will Add Greatly to University Equipment

Few on the campus besides those immediately concerned have paid a great deal of attention to the building be constructed on the east side just below the Orr ditch. This is the new dairy building and will be the home of the new school of dairying. At the last session of the legislature in Carson \$4800 was appropriated for headquarters for such a school. The plans of the regents have grown since this amount was appropriated and now this money will be used for actual building construction. The equipment of the plant will be that of a small but up-to-date and scientific manufactory of dairy products. This equipment will cost \$6000 and will come from the United States agricultural fund.

The building is being built by the Friedhoff company, a firm of local contractors; it was designed by F. J. De Lonchant. The building will be a two-story structure, the ground floor to be occupied by the entire creamery plant, the upper floor to be devoted to the class and lecture rooms. The building will cover an area 90 feet long by 36 feet in width.

Although Professor Scott has not placed any of the orders for the equipment of the building, several dairy supply and machinery companies have asked for an opportunity to bid on the outfit needed. When equipped, the following list of dairy product machinery will have been installed: Receiving vats, milk clarifier, pasteurizer, cream separator, milk cooler, bottle filler, cream ripener (Wizard type), churn (Victor type), butter printer, starter can, large and small vats for commercial and student work in the cheese factory, cheese press. In addition to this equipment the plant will be outfitted with refrigerating machinery of the ammonia compression type. Ice cream will be frozen in a continuous brine freezer and according to the plans of the regents, ice freezing boxes will eventually be put in. Power for the factory will be entirely electric. The milk and cream will all be conveyed by a gravity system with the exception of one place where a small electric pump will be used. All departments of the creamery will be reached by steam connections for the purpose of sterilizing all machinery.

Contrary to the expectations of many creamery people, these university plants have proved a benefit to the local producer rather than a source of injury to his business. It has been the experience of localities where university plants have been in operation that the local people have actually been benefited because of the increase of the dairying industry in that locality.

The University of Nevada plant, which is expected to be in operation by the middle of the present semester, will produce a minimum of 600 pounds of butter per week. Cream will be obtained from local dairies and paid for according to test. The product will not be retailed but sold to wholesalers and labeled simply, "University of Nevada."

Reno, Nevada, Sept. 2, 1913.

Dear Student:

You are about to enter upon the studies for this semester, and it is of the greatest importance that you should be in best of condition to meet the many duties which require your full attention. To be able to cope with your fellow student it is essential that your physical condition is up to the highest standard, and every loss of vitality be wisely avoided. An unconscious waste through "EYE STRAIN" may cause you unnecessary trouble. I would be pleased to have you call and get a thorough scientific examination of your eyes FREE of charge. If you DO NOT need glasses I will frankly tell you so. I am a registered Optometrist, and passed the examination of the California State Board of Optometry, am a graduate with the highest honors of the Philadelphia Optical College, also of San Francisco and Los Angeles. You will get the benefit of my thirty years of experience in the Optical profession. All my work will be warranted and glasses furnished at most reasonable rates. I can duplicate any lens at short notice. Assuring you of a fair deal, permit me to remain,

Yours respectfully,

JOHN B. KOCH, O. D.

P. S.—Keep this for future reference.

Student Fund Contains \$1500

Summary of Achievements in Worthy Cause. Special Article Being Prepared

The following is a brief summary of the work being done and the results so far achieved by the good people who have interested themselves in the student loan fund. A special article treating the work in detail is being prepared by a faculty member who has interested herself in the matter and will appear in an early issue of the Sagebrush.

"Less than one year ago the women of Nevada decided to create a student fund for the aid of young women desiring an education but who had not the means to complete their course.

"The first steps were taken last October and at the expiration of the first year the fund will contain at least \$1500.

"Reno, alone, has contributed \$590 to the fund, Sparks gave \$200, Carson and other cities did nobly and, as a result, Nevada occupies the enviable position of leading all states which have established student loan funds.

"Already the state fund has aided two young women. One of these graduated last June and is in a position to begin repaying the amount borrowed. The other took a course in the summer school and is qualified to fill a lucrative position.

"The general committee, which had the Reno work in charge, feels that it is under deep obligations to all who so generously contributed of their time and money in support of the cause.

"We feel that our most sincere thanks should be given those who assisted in the work," said Mrs. Frank Patrick, chairman of the committee, yesterday. "No one refused to help and we are under deep obligations to the people of Reno and the state at large.

"The work of increasing the fund will continue and all donations will be thankfully received."

Always on the job. Slatts, Reno Quick Lunch.

UNIVERSITY NIGHT

Next Sunday night is university night at the Baptist church, corner Chestnut and Second streets. Rev. Brewster Adams, a friend of college and students, cordially invites you to be present. He will talk directly to you members of the student body. A quartet under the direction of Prof. Haseman will furnish music. Services will begin at 7:30.

FRESHMEN
The class of '17 held its first regular meeting of its college career in room 6 Friday. The newcomers showed lots of pep and began taking interest at once, as was manifested by the large attendance. Officers for this semester were elected and plans for the numerous class functions were discussed. The hay ride, the annual treat of freshmen to the juniors, was acted upon and committees appointed. This enjoyable function will take place in the near future.

The following officers were elected and will manage the affairs of '17 until Christmas:

President, Dean Bryant; vice president, Gardner Chism; secretary, Zenas Wilson; treasurer, Eva Walker; Sagebrush reporter, Agnes Constable; yell leader, Irving Rivett

Dr. John B. Koch, the students' optometrist, fits glasses right.

SUGAR BEET TO BE STUDIED IN FARM CROP CLASS

A study of the sugar beet will begin the work in the class of farm crops. Laboratory demonstrations of the root will be given to show what portions of the root contain the most sugar and how these parts of the plant may be developed by the adoption of proper cultural methods.

While connected with the sugar industry at Fallon Professor Knight conducted experiments on the raising of sugar beets for seed. He is in possession of a sugar beet plant which is loaded with a heavy crop of matured seed, grown in Fallon this year. The seeds are large and fully developed and indicate a high germinating power. This seed will be tested for power of germination by the class and included in the plots at the experiment farm next spring.

An average beet seed crop should net the grower from \$100 to \$150 per acre, but two years are required to produce one crop of seed. The conditions of soil and climate in Nevada are very favorable for the production of beet seed, and a ready market is certain since at the present time over three-fourths of the seed used in the United States is imported from Europe.

Social

THE PLACE—BACK VERANDA MANZANITA HALL—THE WHY A WATERMELON FEED

The spacious back veranda of Manzanita hall has become a popular place for all kinds of good times. Last Monday evening at 7:30 the girls and some faculty members met there to enjoy a water melon feed, a treat of Mr. Bacon of the Palace bakery. Between the slices of water melon, gay jokes were freely sent back and forth. The evening ended in dancing, after the freshmen of Manzanita, with a little resistance at first because of injured pride at being asked, moved the piano from the recreation room.

NEWSY NOTES ABOUT SOME WE KNOW

Miss Hazel Ohmert, '12, is teaching Latin in the Winnemucca high school.

Miss Emma Smith, a graduate of the normal, '13, is teaching the Anderson school.

Another graduate of the normal, '13, Miss Hazel Bacon, left last week to accept a position as teacher in the Roseville, Cal., school.

Miss Mary West will teach the Gallego school this year.

Miss Leola Lewis spent last Saturday and Sunday at Manzanita hall. She reports school teaching interesting.

Delta Rho

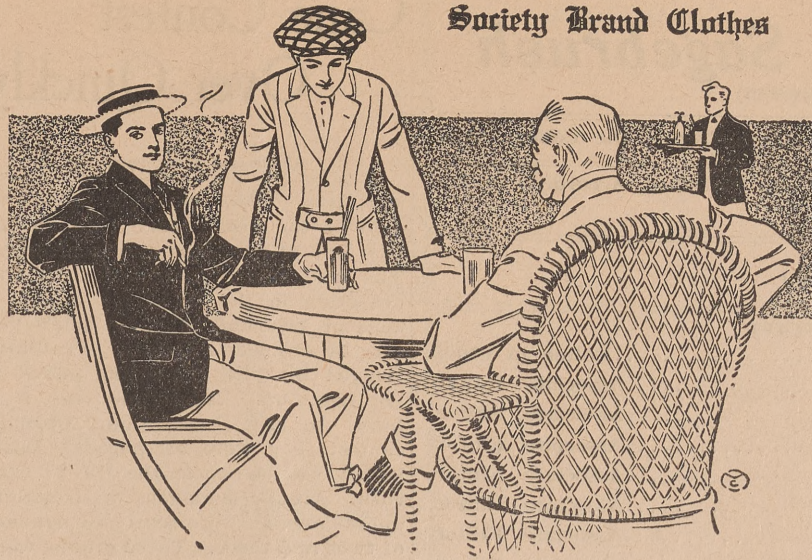

The big annual affair of the first college month occurs this, Tuesday, evening at 255 University Terrace, when the Delta Rho sorority receives all the new girls. Elaborate preparations for a magnificent evening are being carried out to the full.

Jolly Party Friday Eve

This year's first gym party was given Friday evening by Tri-Delta and proved a happy success. Most of the college people, old and new, attended and danced for several hours to the strains of a splendid three-piece orchestra. Every one became acquainted with everyone else, for faculty as well as students were there, and the most dignified professors enjoyed tripping the light fantastic as much as the giddiest freshman. We are always ready for more of just this kind of happy parties.

THE FIRST CABINET MEETING

At a small social gathering in Miss Wygal's study, the Y. W. C. A. cabinet held its first meeting this year. Few business questions were discussed, for the only purpose was to make a pleasant beginning for this year's work.

TO DELINQUENTS

Monday night there was a rally in the gym. It was a big rally and a good one and if you were not there and do not know already, this issue of the Sagebrush will tell you all about it. If you were not there it will tell you something more, too. When the men of the student body of the University of Nevada get together for a rally, they expect every male member of the student body to be there. Other engagements, even lessons, are no excuse. President Stubbs, in general assembly, granted the hours between 7:30 and 9 o'clock on Monday evening for the rally; at this period of the year those hours were more valuable to your college than they were to you or they never would have been so granted.

The Sagebrush is, indeed, glad to say that there were few absentees Monday night. Of the few who were absent, the majority were not absent on account of lessons. They were absent on account of what is commonly called a "date" or a "previous

engagement." It should be understood by all men now, at this early point in the year's activities, that a date is no excuse for absenting yourself from any event which the majority of your fellow students deem will be a benefit to the college or its student body. In the days gone past, at Nevada, there were well organized vigilantes who put peepless men who kept away from rallies in the ditch. This year there is developing a strong public spirit which will make the lot of the spiritless even harder to bear.

When you become a citizen of a state, you forego certain privileges; when you become a member of any society certain personal rights are sacrificed for the welfare of the group. Remember that when you become a member of the student body of the University of Nevada, you also make some sacrifices. One of these that the student body demands is, that you cancel personal engagements at times when your college mates have planned rallies for the good of your college.

Missouri College Woman Plans To Help Sisters

KANSAS CITY, Sept. 9.—After working her way from the simple little country home near Brookfield, Mo., to become one of the leading woman students of the world, Miss Mabel Sturtevant is now striving to establish a business in which girls may engage who must get their education by their own efforts. As national president of the Associated College Women Workers, she is busy on plans for selecting a home for that organization, in connection with which will be several factories, a farm, a publishing house and dormitories to house hundreds of young women.

Girls to Work and Go to School

The plan is that raw materials raised on the farm will be manufactured into food products in the factories, and the profits will go to giving the girls their college education. The young women themselves will do as much of the work as they can. Most of them will be employed in the factories. They will also do the work of printing the *Inspirer*, the monthly publication of the organization.

Miss Sturtevant has been looking over Des Moines, Iowa, with a view to selecting that city as the place of the organization's home offices and factories. If she does not find it favorable she will go to Minneapolis, Minn. The selection will fall to one of these two cities, depending on the final decision of eastern capitalists and philanthropists who are backing the movement. This decision will be made on recommendations of Miss Sturtevant concerning the relative opportunities offered by the two cities.

The career of Miss Sturtevant is an inspiration to any girl who must rely upon her work to get an education. As a girl back in her home near Brookfield, Mo., she had dreams of pushing ahead to the heights of schol-

arship. Her mother was a widow, and they were poor. But by diligent efforts on the part of both, Miss Sturtevant got through the eight years of rural school in five years. Then the mother moved to Brookfield, where the daughter was sent to high school. She finished the four-year course in three years, winning the curator's scholarship in the University of Missouri.

But even with a scholarship it takes money to attend a university, and money was the one thing Mabel Sturtevant did not have.

It took three years' work as a bookkeeper and later as a district school teacher for her to save up enough money to go to Columbia to attend the university. Again the mother went along. She rented a large boarding house, and by her work she was able to give her daughter plenty of time to spend on her scholastic duties.

Miss Sturtevant chose the academic and law courses, finishing the work in two and a half years, and qualifying for a prize which entitled her to three months' travel in Europe. After spending the summer abroad, she returned to the university for graduate work.

First Among World's Students

But while in Europe, Miss Sturtevant had learned of the will of William Braun which provides an annual prize of about \$2500 for sending around the world the graduate of any university who makes the highest general average in the contest for the prize. The competition is open to all the world, and hundreds of the best students all over America and Europe compete.

Miss Sturtevant began preparing with all her energy and determination. She took the examination. She won. With a percentage of 94 on a list of

Cane Contest Over Quickly

(Continued from page 1)

the field. They made for the west side of the area, broke through the first line of freshmen and went down. The next four minutes of fight was desperate in the extreme. It was a case of give and take, no side's victory or any side's victory. Freshmen hugged the pile and sophs pulled to get them off. In a cane rush it is hard to pick heroes—in Monday's contest they were all heroes. Little yellow was shown in the '16-'17 cane rush. Around a nucleus of struggling underclassmen were scattered bunches of twos and threes. These groups were constantly becoming more numerous—it meant victory for the sophomores. Suddenly there was a big upheaval in the main pile-up. Some of the big men in the sophs had gotten in their work. By sheer weight the cane was carried forward. In the hands of Johnson it crossed the line. Four minutes and 27 seconds out of the 20 minutes allowed were used.

The following are those who took part in the rush:

Freshmen—Sather, Pierce, Coster, Bryant, Chism, Duddleson, Fife, Gooding, Hood, Hopkins, Kemper, King, Luce, McIver, Squires, Scott, Volmer, Wise, Wilson, Short, Melarkey, Rivetts, Brennen, Watson, Neasham, Folsom, McLaughlin, Pinneo, Clark, Crowley, Baker, Organ, Moore, Pohl, Hojgkinson, Heard.

Sophomores—Hovey, Cafferatta, Fake, Glass, Hinckley, Lemberger, McCubbin, Price, Pierson, Van Dalsem, Withers, Johnson, Jeyson, Masters, Layman, Fuss, Faber, Henningsen, Silva, Borchert, Crummes, Cazier, Constable, North, Robinson, Whitmore, Mills, Reilly, Heward, Hobbins, Jackson, Beard, Tranter, High.

The following were the officials who supervised the contest: Referee, Silas E. Ross; starter, Haseman; timekeepers, McQuinton, Menardi; judges, Harriman, Delahyde, McPhail, Webster, Sheehy, Trabert, Dessar, Smyth, Grayson, Milentz, McDonald, Boggs, Neeld, Bowler.

questions covering the whole field of academic training, she stood far in the lead of all her competitors.

In all this honor, the mother was not forgotten. Together they went to Europe on the first and shorter tour, and together they went on their trip around the world. Nothing about the career of this remarkable Missouri girl than the attachment of mother to daughter and daughter to mother.

The trip around the world was made. Sociological and educational conditions were studied. Book were written. Later Miss Sturtevant engaged in active newspaper work in Canada, and then she became woman's editor of a leading eastern magazine.

To Smooth the Way for Others

But through it all this girl of remarkable achievements and high honors remembered the path which she had trudged, and now that she has covered the most wearisome part of it, she would make the way smoother for others who have dreams like hers. She gives her whole time to the activities of the Associated College Women Workers. In this organization are young women living in all parts of the United States. By its work hundreds of girls of limited means are enabled to get college training. In order to systematize and centralize the work these girls do and to broaden the field so that more may profit, the organization's home and factories are now being planned.

Last year, Miss Sturtevant said, in one community 19 girls—members of the association—earned more than \$5400 in the three months of their summer vacation. It is in the summer months that the association expects the young women seeking college educations to make the money for the expenses of the school terms.

The work engaged in by the girls, Miss Sturtevant explained, is divided into 18 parts. Not 50 per cent of the girls can do any one thing well, she said, and for that reason there are many branches of the work. There are some who make their money by painting, decorating panels and the like; some who do embroidery work; others who are given employment as saleswomen. But in the big factories where food products are to be manufactured it is planned to have most of the young women work.

President Stubbs has been at Pacific Grove for the past few days and is expected on the campus tomorrow.

The Schedule

FOOTBALL MEN NOTICE

A deposit of two dollars (\$2.00) will be required of all men taking out football suits this season. Upon receipt of the \$2 the graduate manager will give out a complete suit and receipt for the money. At the end of the football season this money will be returned upon the presentation of the receipt and the football paraphernalia. Football suits will be given out Wednesday, Thursday and Friday nights at 4:30.

The following schedule has been arranged:

- September 10—Freshmen vs. sophomores.
- September 17—Freshmen vs. Reno high.
- September 20—Alumni vs. varsity.
- September 27—Sacramento Athletic club vs. varsity.
- October 4—College of Pacific vs. varsity.
- October 11—St. Mary's vs. varsity.
- October 18—Olympic club vs. varsity.
- October 24—California vs. varsity.
- October 29—New Zealanders vs. varsity.
- November 1—Barbarians vs. varsity.
- November 8—Santa Clara vs. varsity.

All games, excepting the California game, are to be played on the Mackay field.

(Signed) S. E. ROSS, Graduate Manager.

GENERAL ASSEMBLY

The general assembly last Friday morning was an appropriate first general assembly for the college year. President Stubbs made several announcements, among which were that the Rev. Dr. Aked of San Francisco would address a general assembly in October. General assemblies will be held on alternate Fridays this year; Friday's 11 o'clock period not so used will be for the use of the students.

After the announcements were made Dr. Stubbs introduced Rev. E. L. House. His address was upon some elements of success and was enjoyed by all present.

Mr. and Mrs. Harry Standerwick motored into Reno a few days ago from Lake Tahoe and have been guests at the home of Dr. Hood. Harry is an '06 man and was formerly graduate manager of the student body. Mrs. Standerwick is also a graduate of Nevada. Mr. Standerwick is now employed in the secretary of state's office in Sacramento.

NOTICE

Subscriptions to the Sagebrush for the coming year will be \$1.00 in advance. After the first two issues no sample copies will be given or sent to any one. Subscriptions can be paid to Bob Farrer, Arthur Boggs, Frances Smith or Joe McDonald. Get a receipt when you pay and notify the management if you do not receive a paper promptly.

Educational Tyrammy

The candidates are practically unanimous in stating that the tests in mathematics, particularly arithmetic, were very rigid.—News from Annapolis.

This is very strong. The whole educational tendency of the age is toward greater flexibility. If Greek is too hard, make reading novels a substitute. If history is too dull, try motion pictures. If geometry compels too much hard thinking, simplify it. If any subject is unpopular, eliminate it. If school boys fail to pass their examinations, call for a commission and reform—the examinations. If intellectual currency is too scarce, put out more; let there be plenty for everybody, even if worth but 50 cents on the dollar. Try to find out what the children want and let them have it. Shall the people rule?

To this liberal and progressive policy there are painful exceptions. The treatment of candidates at West Point and Annapolis is as brutal as forcible feeding and ought to be investigated by congress. Out of 570 candidates who have just taken the examination for admission to the naval academy only 260, or 44 per cent, passed, which shows conclusively that something is wrong. Decidedly suspicious is the statement that "officers will not disclose the cause of resulting conditions." Why this reticence if there is not something to conceal? But the facts speak for themselves. These recruits, we are told, are "probably the most disappointing in the history of the mental entrance examinations." What can this mean if not that the authorities are dogmatic aristocrats increasingly out of touch with modern progress? Is it not an axiom that if an examination doth not fit the average candidate something is wrong with the examination?

Specially significant is the fact that the candidates are "practically unanimous" as to the rigidity of the tests in arithmetic. There is hardly any subject in which pedantic and narrow minded examiners can work more mischief. They have been known to be fussy about small points like punctuation, such as giving the answer as 432.7 miles instead of 43.27 miles. In respect to the multiplication table

GRIFFIN AND STRACHAN DEFEATED ON COUNTS

OAKLAND, Cal., Sept. 9.—Clarence J. Griffin and John R. Strachan, who were this year's challengers of McLoughlin and Bundy for the national championship in lawn tennis doubles, were defeated today by William M. Johnston and Ella Fottrell in the final doubles match of the California tournament. The score was 6-4, 6-3, 6-2.

William Johnston, the playing through state champion, defeated Lynn Murray of Stanford university in the final match of the singles title, 6-4, 5-7, 6-4, 6-4.

The title winners represented the Golden Gate tennis club of San Francisco.

they are strict constructionists, and allow nothing for temperament as to the product of seven and nine. In problems in percentage they give no latitude to taste or individuality as to which number shall be divided by what. All this is wrong. The navy has thrown "port" and "starboard" overboard to left and right, respectively; is it not time to chuck the old stand pat multiplication table after them? A system which flunks 56 per cent of young Americans from the public schools, academies and colleges is manifestly outdated and in need of a sweeping reform. Shall a naval career be blighted by mere technicalities like the position of a decimal point?—Springfield Republican.

Did you see Bill Smythe about that A. S. U. N. card?

A FIGHT LAST YEAR

Lively Game Begins Season

Preliminary Instructions by Coach. Fast Initial Scrimmage—Coach Not Satisfied With Numbers

Promptly at 3 p. m. Saturday afternoon, Nevada's 1913 football squad was out upon the Mackay field for the first day of practice. Coach Elliott, in his suit of a California rugger, took the men in hand for a stiff first day's work. The first three quarters of an hour was devoted to preliminary work in passing and dribbling the ball and in scrum and back field formations. Instructions for the kick off and drop opt and the respective positions for the same were the next in order. Ten minutes were given to a practice scrimmage and ten more to perfecting the men in the art of falling on the ball and covering up.

The rest of the time was given to a practice game. Lined up against the players of the sophomore, junior and senior classes were 15 freshmen. They fought hard against the varsity, and for the first day's practice, the contest was an interesting one. The varsity went over the line for two tries.

Coach Elliott was not altogether satisfied with Saturday's showing as far as the number of men out is concerned. There were 38 men upon the field, too few men and too small a percentage of them freshmen for a winning Rugby team was the complaint of the coach. In the light that there were 43 men out on the initial day of practice last year, Coach Elliott's complaint is justified. A campaign has been started to interest more men and to secure more material for the squad. Those who donned suits Saturday afternoon are as follows: Johnson, Harriman, McPhail, Webster, Abbott, Delahyde, Constable, Cazier, Ogelvie, Healy, Borchert, Hovey, Fake, Walker, Layman, Stickney, Sheehy, Hancock, Robinson, Silve, McDonald, Fuss, McCubbin, Withers, North, Koster, McLaughlin, Duddleson, McIver, Kemper, Hopkins, Clark, Volmer, Squires, Sather, Folsom, Mills, King, Neasham.

As has been mentioned previously the striped suits will be reserved for N men alone. Graduate Manager Ross has on hand some new gray jerseys with word "Nevada" stenciled across them for the use of the second team men.

In conversation with a Sagebrush man after the practice game Saturday afternoon Captain Delahyde said: "While I am not thoroughly satisfied with the number of men who showed this afternoon, there is nothing discouraging in the outlook. A great many of the men have just arrived in Reno and needed this Saturday afternoon in which to get settled in college quarters. Next week, Hungry Henningsen and a lot more of the old men will be back and therefore a better showing made."

Beginning with Monday afternoon, freshmen must be on the field at 4. Roll call of the varsity squad will be held at 4:50 sharp. All men not there on time must give adequate reason or join the gym class. Coach and captain will strictly enforce this rule.

By THE DOCTOR

Next Saturday at 2:00 p. m. the faculty and seniors will play their fifth annual game of soccer. The faculty have most of their old players with them again this year, and with the new men they promise to play the seniors off their feet. The seniors, however, have several old Rugby stars among their number and claim they have discovered the secret of the faculty winning streak of the past four years. At any rate they are very optimistic as to the results of the contest and desire "to be shown."

The Ladies' Faculty club will be on hand ain a body to cheer their dear ones on to victory. Their usual serpentine between halves will be a feature of the game.

Several prominent physicians of the city have been engaged and hospital accommodations have been arranged for the proper care of the injured. Prof. Lewers will be there with the water can and Dr. Stubbs will be in charge of the office adding machine to score the tallies.

The teams will be chosen from the following:

Faculty—Jones, Knight, P. B. Kennedy, M. Kennedy, Elliott, Scragham, Haseman, Powers, Preston, Ress, Gorman, Applewhite.

Seniors—Grayson, Delahyde, Webster, McPhail, Smyth, Milentz, Menardi, Harriman, Wilson, Cazier, Evans, Allen, Dessar, Hilton, Hamilton, Chafin.

Are you a member of the student body?

LINCOLN HALL RULES AND REGULATIONS

Students must register at the office of the comptroller before taking possession of rooms. Any student failing to register will be excluded from the hall. Rooms are not transferable without the consent of the master of Lincoln hall. All changes by the occupants of rooms must be made on or before the third day of the month.

All bills for room rent must be paid in advance between the first and fifth days of the month. If rent is not paid by the fifth day the room in question will be declared vacant and the effects of the person delinquent will be removed and placed in storage. Occupants of rooms in Lincoln hall are required to deposit the sum of five dollars (\$5) at the beginning of each semester as a special breakage fund. All injuries to the building or furniture are charged against this fund. The amount of damage caused by individual carelessness will be collected from the individual concerned, but if the damages are of serious importance the occupant will be asked to give up the room.

No trunk or other parcels can be left in any of the rooms during the summer vacation. Students, leaving their rooms, should turn off all lights, and lock their doors. The board of regents will not be responsible for any articles taken from the rooms or hall. Furniture or bedding belonging to the hall must not be removed from one room to another. Occupants of rooms are held responsible for the condition of the furniture in their rooms and also the condition of their rooms.

No stoves, lamps, candles, electric irons, appliances or substances of any kind whatever for the production of artificial heat or light other than those furnished are allowed in the building. If any are found they will be immediately removed and the occupants of the rooms will be requested to leave the hall.

Occupants must not meddle with, or change the electric light fixtures in rooms or halls. Not more than three lamps per room shall be permitted, none of which shall consume more than 60 watts. Bicycles will not be allowed in the rooms or hallways. A place is provided for them in the basement.

The use of intoxicating liquors of any kind is strictly prohibited. Hazing in all forms, including tubbing and all other interference with the personal liberties of fellow students, is strictly prohibited.

A representative of the board of regents will make an inspection of the hall from time to time to see that the rules are carried out.

University of Nevada.....191..

As a resident of Lincoln hall, I agree to observe and abide by the foregoing rules and regulations.

Student.

Big Contest Tomorrow

There is a good deal of excitement down on the football field every night over that freshman-sophomore football game. The sophomores are the better organized. When seen at the watermelon feed last evening they informed a representative of the Sagebrush that a captain had already been elected and the team tentatively picked. Last year's varsity fullback, Lloyd McCubbin, has been selected to captain the sophomores. His men will probably line up as follows: Forwards—Cazier, Lemberger Heward, Henningsen, North, Mills, Silva, Robinson; backs—Fake, McCubbin, Hovey, Jepson, Healy, Constable, Fuss; substitutes—Withers, Borchert, Caffarata.

Although the freshmen had not organized or elected a captain up to the time of going to press, the members of their team are known for the simple reason that they have just enough men to make a team. The seventeens have some promising material—men who have appeared on the field and mn who have not—but they will be handicapped in the game tomorrow because of the absence of leadership and concerted action. The following are those of '17's who will line up against the sohps on Wednesday afternoon: Pinneo, King, Watson, McIver, olmer, Duddleson, Kemper, Sather, Clark, Hopkins, McLaughlin, Coster, Squires, Neasham, Chism, Folsom.

The game will be called immediately after classes on Wednesday afternoon.

The county normal school at Virginia City has been discontinued and one has been installed in Tonopah.

Regent Codd Once And Now

Popular Member of Board a Big Bug in Rochester

The following article appeared about our friend and regent, A. A. Codd, in the Rochester Miner:

"Once upon a time A. A. Codd was as nearly a replica of Beau Brummel as his conscience and good sense would permit. His trousers were always carefully pressed, his linen immaculate and his cranium an advertisement of the last word in tonsorial art.

"But that was before he took over the No. 2 lease and built the Nevada Shortline railroad.

"He has more money than he possessed in the good old days and infinitely better prospects, but he looks so tough that he is almost afraid to go back to that pretty little bungalow in Reno where wife and babies reside.

"Codd is living in a tent pitched on the burning sands of Oreana, where he can oversee the transfer of ore. Occasionally he rides up the grade on his train and spends an hour or two amid the muck of the lower levels.

"At all events he is getting out the ore. Rochester Hills, of which company he is president, general manager and practically everything else, is now shipping about 60 tons of ore daily.

"On Monday the railroad will begin handling 40 tons a day from the Platt lease, alias No. 1, alias Big Four.

"Meanwhile the reserves of shipping ore have been practically drawn off from the upper workings of the Codd lease, leaving about 8,000 tons of milling ore, valued at about \$15 to the ton.

"On the 100-foot level below the tunnel point in the shaft station has been cut and drifting; and stoping will begin immediately to remove another unit of the ore measure in this wonderful block.

"At the same time the shaft will be continued at the rate of five or six feet a day and at another hundred feet a station will be cut and there will be another round of drifting and stoping.

"Grading and foundation laying are in progress for the new plant, which will be capable of handling about 500 tons of ore daily. It will be ready for business in from 40 to 60 days.

"The Nevada Shortline is beginning to look like a real railroad. The roadbed is being put in perfect condition and the steam locomotive is capable of making a round trip every hour."

TONOPAH MOTION PICTURES AT THE MAJESTIC

"The Tonopah Stampede" will be presented at the Majestic theater on Wednesday, Thursday and Friday nights of this week. It is a five part production and all the scenes were made in Tonopah and surrounding country. Governor Oddie and a number of prominent men appear in the picture in a number of important scenes. A very interesting and intensely dramatic story runs throughout the picture depicting the adventures of a young man and woman who went into the camp with the stampede when the news of the strike was given out.

It shows the stampede to the new strike, the arrival, staking claims, the lease and bond buying and selling stocks. Shows every detail of mining from the time the miners go down in the mine until the ore is sent to the surface and from the time it goes into the mill until it is melted into bars of gold and silver. Views are shown at a depth of 1500 feet in the famous Belmont. Part of the action of the story takes place at this level. Exterior and interior views of the following producers are also shown: Mizpah, Belmont, Buckeye, West End, Tonopah Extension, Midway, Halifax and others. All the scenes of mining operations are correct technically as they were made under the direction of one of the prominent engineers of Tonopah. Aside from the entertaining and dramatic qualities of the production it is a very highly instructive and educational subject and of great local interest. There will be but one presentation each evening and all seats are reserved. The performance starts at 8:15.

John McElroy, Ex '03, a prominent attorney of San Francisco and whose offices are in the Call building, was a visitor upon the campus Friday.

Consult Dr. John B. Koch, the registered optometrist, for your eyes.

At the Heward Home

Delta Delta Delta sorority was a jolly entertainer Thursday evening at the lovely home of Miss Elsie Heward. The spacious lawn was softly lit by the many colored lanterns that were strung across the porch and pillows were very much in evidence, scattered throughout the yard. A peanut hunt was the first amusement, after which everyone felt very much acquainted and all united to make the evening a jolly success. There was dancing on the tennis court, games on the grass, music inside and most delicious punch, wafers and mints in a convenient and popular spot. Later in the evening water melon was served. Those present were Misses Taylor, Kemper, Johnson, Agnes Constable, Elsie Humphrey, Lois Benton, Lucile Gallagher, Adele Norcross, Eleanor James, Edith Mack, Vera Lemmon, Clara Smith, Bernice de Hart, Elsie Heward, Mary Raitt, Dorothy Bird, Maude Price, Gladys Hofer, Margaret Hazlett, Josephine Williams, Alice Van Leer, Vivian Engle, Messrs. Elmer Heward, Clarke Webster, Ford Harvey, Hopkins, Will Melarkey, Kemper, Elmore Abbot, Lester Withers, Reg Meeker, Richard Sheehy, Claude Wheeler, Peter McKinley, Louis Sommers, Fred Wilkie, C. Cazier, Jack Pearson, John McLaughlin, Lester Harriman, Prof. Haseman, Albert Jackson.

Woman's Faculty Club

The first meeting of the Woman's Faculty club was held Wednesday afternoon at the home of Mrs. James D. Layman where she was assisted by Mrs. J. O'Brien and Mrs. H. L. Applewhite. The ladies were happy together again after their vacation and several happy hours were spent, Dr. Stubbs giving an account of his travels and later the hostesses served delicious refreshments. Present were: Mrs. A. A. Codd, Mrs. Boardman, Mrs. J. C. Watson, Mrs. Scott, Mrs. Hartman, Mrs. J. C. Jones, Mrs. Romano Adams, Mrs. Maxwell Adams, Miss Samathe, Miss Pollock, Miss Day, Mrs. Sanford Dinsmore, Mrs. J. D. Layman, Miss Lillian James, Mrs. P. E. Cowgill, Mrs. Miles, Kennedy, Mrs. J. E. Church, Mrs. George Ordahl, Mrs. Preston, Mrs. Powers, Mrs. Walter Palmer, Mrs. O. P. Johnstone, Mrs. Richard Brown, Mrs. Theodore Clark, Mrs. J. G. Scrugham, Miss Wygal, Mrs. Kronk, Mrs. Lynch, Miss Benny, Mrs. R. B. Layman, Miss Myrtle Neasham, Miss Edwina O'Brien, Miss Dorothy and Miss Mildred Applewhite.

Miss Smith Entertains

Wednesday afternoon Delta Delta Delta sorority entertained informally at a tea at the home of Miss Clara Smith on Ninth street. The affair was given for the new girls at college and it was an afternoon made exceedingly pleasant by the meeting of old and new students. Miss Nan Coon presided at the prettily decorated table and graciously served the jolly girls with dainty refreshments. Interested as all were in chatting over affairs on the hill the music that several of the girls contributed was not lost and was enjoyed by everyone. Late in the afternoon the guests departed, voting the affair decidedly enjoyable and the Tri Delta girls delightful hostesses.

THE LATEST AT MANZANITA

Evening, not quite midnight, feeds seem to be the present fad among the girls at Manzanita. So far, they have been places to get acquainted, real good time "jolly-ups," and have given an opportunity to sing songs that everyone knows and add exciting sentences to queer detective stories and have them suddenly end in a dream or in the apprenticing of three janitors.

Constitution Student Council

CONSTITUTION OF THE STUDENT COUNCIL

Composition ARTICLE I

Section 1. Members shall be elected to this council from the various classes of the university as follows:

From the senior class, two members; from the junior class, two members; from the sophomore class, two members; from the freshman class, two members.

Sec. 2. In addition, the residents of all the classes of the university, the president of the athletic association, the editors of the Sagebrush and Artemesia, shall be members of this council (ex officio, but shall not be eligible to hold office in this council).

Duties of Members ARTICLE II

It shall be the duty of the members of this council to attend regularly all its meetings, to serve faithfully on the committees to which they may be appointed, to enforce all measures of the council.

Officers ARTICLE III

Section 1. The officers of this council shall consist of a president, vice president and a secretary treasurer, who are to be elected for one collegiate year at the first meeting of each newly elected council, from the senior, junior and sophomore delegations respectively.

Duties of Officers ARTICLE IV

Section 1. The president shall preside at all meetings of the council; enforce due observance of the constitution, by-laws and rules of the council, offer for consideration all motions regularly made and seconded, appoint all committees except the standing committees; call special meetings when urgent business is on hand or upon written petition of five members of the council; and at the end of his term of office send a report concerning the progress of the council to the president of the university and a copy to the newly elected president of the council.

Sec. 2. The vice president shall in the absence of the president, exercise all the functions of the president.

Sec. 2. The secretary treasurer shall at every meeting of the council call the roll and take careful note of the absent members, make a careful and accurate record of the proceedings of the council, keep a record of all reports and communications and keep a record of all correspondence; inform the members of all meetings; be the custodian of the funds of the council; pay out upon an authorization signed by the president and countersigned by the vice president all money authorized by the council; he shall submit at the first meeting of every month a financial report.

Standing Committees ARTICLE V

Section 1. There shall be one standing committee, viz.: The executive committee.

Sec. 2. The executive committee shall consist of the president of the council, as chairman; the vice president and the secretary treasurer of the council. The duty of this committee shall be to carry out those instructions of the council specifically allotted to it; to serve as a mediary between the council and the authorities of the college.

Meetings ARTICLE VI

Section 1. Regular meetings of this council shall be held bi-weekly within one of the buildings of the university.

Sec. 2. Special meetings may be called by the president and he shall call a special meeting upon written request of five members of the council.

Sec. 3. Eight of the members shall constitute a quorum.

Elections ARTICLE VII

Section 1. All class elections shall take place within two weeks after the beginning of every college year.

Sec. 2. The council shall be convened by the vice president of the previous council within one week after the aforesaid election; and the vice president may convene the members of the previous term's council before such elections take place.

Sec. 3. Election of officers shall take place at the first meeting of the new council and voting shall be by secret ballot.

Powers of the Council ARTICLE VIII

Section 1. The student council shall have power to exercise control over all inter-class affairs and disputes; to act as judge of all disputes that may be submitted to it by the

classes or by the student organizations; to levy a tax upon the classes of the college, provided, however, that any such tax may be the same for each class; to call mass meetings of any class or of the entire student body; to take into consideration the action of any student or body of students, and also the purpose and conduct of all student organizations which may seem derogatory to the good name and noble purposes of our institution; and having conducted a proper investigation, to punish or prevent repetition of such conduct in the future; to place before the faculty and governing authorities of the college by petition suggestions regarding the curriculum, government and management of the college; to publish the college weekly known as the "Sagebrush;" to compile a custom book for the guidance of the classes of the college.

Amendments ARTICLE IX

Section 1. There shall be no amendment or repeal of this constitution, except upon a written proposition signed by three members of the council submitted at a regular meeting and entered in the minutes.

Sec. 2. Such proposition shall be voted upon at the regular meeting next succeeding its introduction, and if two-thirds of the members present vote in favor of such amendment or repeal it shall be submitted to the classes of the university for approval.

Sec. 4. Any section of this constitution may be suspended at any meeting for that meeting with the unanimous consent of the members present.

BY-LAWS

Section 1. The order of business in the meetings of the student council shall be:

1. Roll call; 2, reading of minutes of previous meeting; 3, communications; 4, reports of committees; 5, old business; 6, new business; 7, good and welfare.

Sec. 2. No proxies shall be admitted to any meeting without a signed statement from the person they represent.

Home Bought By Fraternity

(Continued from Page One)

The upstairs will be reserved for sleeping rooms only, there being, of these, 12. An archway at the head of the stairs has already been cut making the upstairs one apartment. A large porch in each the front and back of the upper story can very easily be made attractive.

Of improvements to be made at a somewhat later date the following might be mentioned:

A massive porch will be built to extend the width of the house; one large ornamental door will do the work of the four now in evidence. In the early spring a tennis court will be built on the corner lot. Very soon the attic—a room 18x30, will be fitted up as a lodge room and meeting place.

Much enthusiasm is being shown in this, the first home to be owned by a fraternal society at Nevada. The step is right in line with the rapid growth and improvement in student affairs at the college on the hill.

Great Rally Held In Gym

(Continued from Page One.)

Enthusiasm of college people on the bleachers during practice, and every man physically able upon the field are the support necessary for Nevada to have a winning team.

Other Pithy Speeches

Captain Delahyde, when called upon, seemed loath to leave his watermelon. Separating a little bit from a larger bit he walked to the main table and gave his little speech. To duplicate the team of 1909 is the hope of the captain and he says we have the material, "Beat Santa Clara worse than they beat us last year," is the captain's slogan. He agreed with Coach Elliott in the matter of support and from him juniors and seniors did not escape a scolding.

Dr. Charley Haseman varied the method of procedure. He did some boosting for the faculty-senior soccer game and (his face remained nearly straight while he said it) he recommended that the Rugby squad pay particular attention to the faculty's play on that day for some very fine points in the game would surely be disclosed. Prof. Haseman, in a more serious tone, placed emphasis upon the importance of regularity and promptness in showing for practice.

Toast Master Doc Milentz next took the floor and made a little speech himself. It was a good little speech, too, the doctor made and it had to do with the how and the why, and the interest every man had in, preserving the high standards of this university.

Prof. Scrugham went back in the history of Nevada to the team of 1903 when Nevada beat California 6 to 0. That was professor's first year in the institution and he has been a football enthusiast ever since.

Prof. Knight followed the same line of thought. "The spirit shown at Nevada during the years that I have known her has been remarkable for the size of the college and the student body," he said. "All you fellows have to do now is to get out and show your ability to the coach. There is material here for a stronger team than ever. Everybody get out and push the team along."

Prof. Thompson paid his tribute to the men of the second team. They were the fellows who made fighters of the varsity men. "A winning team is the creation of the men who, without the hope of glory or reputation, get out night after night to do their best for the university."

Vice president of the student body, Clark Webster, made a good short speech in which he urged a longer enrollment of football material.

Closes With Yells

After the speeches the freshmen cleared the floor and the bunch gathered for some good Nevada yells. Mr. Bacon was cheered again and then Cotton and Turner, Lochman, and Mayer, and Colbrandt and Reilly—the three firms who had donated the smokes—were skyrocketed heartily.

Senator Boggs told the freshmen that there is a massive "N" to be whitewashed. The first rally of the term closed with a song to U. of N.

Dr. John B. Koch, the students' optician, at R. HERZ & BRO., the jewelers.

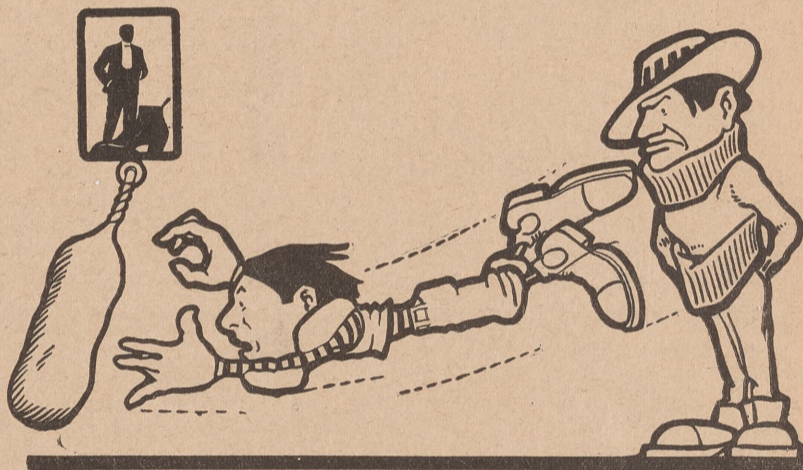

To our Old Student Customers and Friends, and also the Freshman:---

We welcome you and hope that your term at the Great University of Nevada will be a successful one and that you will in later years, feel thankful for having been one of our students. With best wishes from

Yours truly
Lachman & Mayer,
