## HIGH vs. FRESHMEN WEDNESDAY

### Be Ready To Vote On Student Council Question Next Meeting

#### Freshie Party Sad and Glad

Lots of Fun, Fruit, Refreshments, Autoes, Wagons, Hayseeds, Dancing, Sophs

By "TWO OF 'EM."

Secretly and quietly the members of the seventeen class extended a cordial invitation to the favored juniors to attend a hay ride on Friday night of last week. The plans were kept secret by everyone except the freshmen, who confidentially told others and they in turn told the sophs.

"They're going to the Country club in auto trucks," "No, they're going to Huffaker's," and "they have to take hay racks as they can't get the trucks," were some of the many reports that reached the ears of the attentive sophomores.

When Friday night came, sophs as well as freshmen disappeared from the hall in small groups, only to meet again at some previously arranged rendezvous; the sophs at the southside school and the freshmen at Lois Benton's on Elm street.

Some few sophomores on their way to the meeting place met the hay racks but did not have the courage to take the wagon from the stable men. Through this error on the part of '16 the freshmen met and prepared to run the gauntlet of water, eggs and tomatoes to Huffaker's. While they were still at their meeting place they succeeded in wetting some of the prosperous sophomores who had secured autos and were riding around keeping tabs on them.

By 9 o'clock the first wagon was ready to make the try. They came across the Virginia street bridge in a very jovial manner but when they reached Liberty street a different tone came from the wagon of merry-makers. A garden hose from a connection on the east side of the street suddenly sent its spray of water unmercifully onto the crowd in the wagon. The girls screamed and the boys shuddered. Fifty feet farther and a hose from each side of the street poured a heavy stream of water into the wagon. "Oh, my, those new hats." A

MANZANITA HALL

#### Seniors Have Soccer Honors

Reay Mackay Gives '14 the Decision At Last Moment of Game No Crabbing

It was at 3:15 o'clock last Saturday afternoon that the seniors started something they should never have finished. And thereby hangs a tale.

With a self-confidence born of right, might, and a few more such attributes, it is the custom of each class, during its senior year, to offer a challenge to the faculty. The context may be interpreted as this:

"We have listened to your shopworn principles, and dog-eared phrases for four years. We have learned all you are capable of teaching; come, now, let us show you how really in-

Continued on page 5

#### Coed's Dorm. Self Governed

Girls At Manzanita Believe They Have Reached Advanced Stage

This semester the girls of Manzanita hall decided that they had reached an attitude of altruism which would make self government in the dormitory a success. A committee was appointed with one representative from each class and the house president for chairman of the committee to put the plan into operation and the result is a more or less modified form of self government.

A freshman put the question the other day: "What will self govern-

#### Summer School Last Session

Session This Year Instructive and Enjoyable. A Credit to the University

The summer session of the U. of N. opened June 23 and continued six weeks.

The session was well attended. The total enrollment being 47 teachers, all of whom were in attendance practically throughout the whole term. This is unusual, since it is quite customary for persons to attend but a portion of the time. Besides the good attendance the per cent of teachers enrolled was high as compared with other states.

The courses offered covered all the work ordinarily required of the pub-

(Continued on Page 4)

#### Preps and Babes Are Confident

Other Football Dope—Senior Soph Champ Game Friday—No Alumni Game

All of the interest on the hill these days is football and all the interest in football centers on the freshmen-Reno Hi game tomorrow afternoon. Coach Elliott is in charge of the freshmen practice and he thinks his team is going to win. Lester Harriman '14, who has for three successive years won his N in football, is instructing the high school boys and he says they have every chance for success. The rest of the fans are not so sure who is going to win and they are awaiting anxiously the result.

A year ago the freshmen-Reno Hi game was instituted regularly as an annual event to be played on the Mackay field. On account of the earliness of the season, Coach Elliott has not definitely picked his team. The coach is not well enough acquainted with the men at the present time to be sure that he has all of the right men in the right places and it is possible that a good many men who deserve to play in Wednesdays game will not be found in the line-up that is to follow. However, all men are to report in suits and it is highly probable that a good number more than herein scheduled will have a chance to play.

When Coach Harriman of the R. H. S. team was asked about his line-up, he was found to be in much the same position as Elliott. Harriman says that the Reno boys are surely full of pep and with their present enthusiasm continuing on through the year, you may expect to hear from Reno Hi later in the season.

**GAME AT FOUR**  
Wednesdays game will be called promptly at 4 o'clock. Coach Elliott is anxious to have the big game scheduled for the afternoon in time for some varsity practice.

Monday evening the following names were given to the Sagebrush as those who would probably represent the '17 class in Wednesday's game: Chism (Reno Hi); Bryant (Reno

## Reno High School Notes

The Reno High School opened September 2 with an attendance exceeding that of last year by 25. Four of last year's faculty are replaced by Mr. Hook, Snead, Teeter and Palmer, who are rapidly becoming acquainted with the students.

The B. A. A. held its first meeting Friday the 5th. The membership numbers about 95. Mr. Clark was elected faculty business manager, Ed Caffrey, treasurer; and A. M. McCarthy, president, filling the position left open by the resignation of W. Melarkey.

It was decided to purchase suits for the football team and the dance Saturday night was to aid that fund.

Football was started last week and the material is very promising. Lester Harriman of the university team is coaching the Reno high team and expects to put out a winner. The boys are coming out in large numbers, but there are many more who are urged to attend practice. Also the student body should remember that spectators are allowed at the practice each evening.

Hugh Rains, who resigned the captaincy, was replaced by E. Fogel, who was elected by last year's "R" men on Thursday, September 4.

A schedule is being arranged by the faculty and student managers. As there is only one date on which we can use the Mackay field, October 25, there will be only one game in Reno with an outside team. The trip to the coast will include two games.

Our annual game with the U. of N. freshmen will be played Wednesday, September 17. We look for a decisive victory. Every student is expected to be present to root. The game will be called at 4 o'clock.

A proposition is under way to make handball, tennis and basketball courts in the rear of the building. With the co-operation of all students, both boys and girls, this is sure to be a success. Get busy R. H. S.

Dr. House gave a very interesting lecture at the high school Wednesday afternoon. The subject was the object of life and of what a successful life consists. He told several stories and jokes to illustrate various points; concluding with some valuable advice to the students. Besides being instructive, it was entertaining and every one enjoyed it immensely.

Saturday night, September 6, the baby class and sophs met in battle. At the end of about 20 minutes of vicious fighting, the sophs were found to be securely tied. The freshmen are very proud of the victory, but in spite of their great strength and large numbers the small red caps are to be seen clinging to their upper extremities.

The freshmen held a meeting last week and the following officers were elected: Irving Cowles, president; Hazel Hall, vice president; A. Burke, secretary and treasurer. There is a rumor abroad that they intend to give a dance in honor of their elders the latter part of the month. Good luck to the freshmen.

A. MCCARTHY, '14.

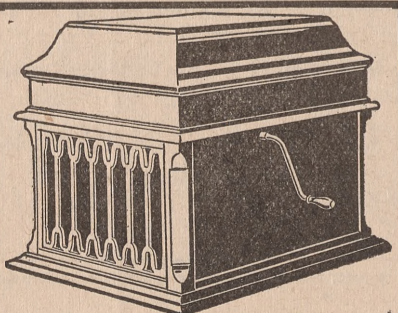

H. T. Wilkerson, M. E. '04, is mechanical engineer for a large machinery supply house in Portland.

Miss Isabelle Schuler is at her home in Santa Barbara.

## Veteran Miners Visits School

Aged Worker Visits Prof. Huntley At the Mackay Building

Last week a veteran of the mines, scarred by blasts and stiffened by the heat or cold or damp of many shifts, walked into the Mackay school of mines. He was interested in the equipment. When he noticed Prof. Palmer demonstrating an air drill of the piston type, his face brightened as if he had seen an old friend. Many a chuck he had hammered when drill was stuck, many a bolt he had tightened, many a hole he had drilled for stope or drift, but never before had he seen the inside workings of one of these machines. He stood fascinated and watched the compressed air drive the drill forward and allow the rebound. He grabbed the valve with an accustomed grip and experimented for himself. Yes, it was his old friend—the crank, the feed screw, the chuck, the drill—all were there—and he had seen, for the first time, "how she worked." He turned to Prof. Dwight Huntley, who stood watching him. There was a suspicious moisture about his eyes. "Thanks," he said, as he gripped the professor's hand. "I'll come and see you again." Slowly and with head bent he hobbled through the doorway and out upon the quad and a fellow that came into the building as he was passing out thought that he heard the words, "and that is the way she works."

## F. L. Peterson Representative

Popular Graduate Making Preparations for Congress At Tulsa

Preparations are now on at the agricultural college of the state university looking to the assembling of prize samples of grain which will be taken by Prof. Frank L. Peterson, irrigation engineer at the Nevada experiment station, who has been detailed by President Stubbs as the states representative at the international dry farming congress to be held at Tulsa, Okla., next month.

Prof. Peterson will confine himself strictly to the grain exhibits, taking samples from the Elko dry farm which are confidently believed to be in the very first grade as dry farm products. Especially is this true of the Turkey Red wheat, samples of which are said to be as fine as any ever produced.

The congress will convene at Tulsa on the 22d of October and Prof. Peterson will leave just prior thereto. This is the eighth annual meeting of dry farmers of the entire world, the last one being held at Lethbridge, Alberta, where international experts told of the wonderful progress that had been made in the science of dry farming in the last few years.

Prof. Peterson will leave about the middle of October, in the meantime assembling the collection of samples he will take with him to compete for the prizes that are offered. Farmers of the state who believe they have prize winning dry farm grains may communicate with him.

### CONCERNING A FEW

Miss Betty Reilly does not expect to be back to the U. of N. this year. Instead, she has decided to teach at Pioche, Nevada.

Miss Irene Baglin of Virginia City was registering here last week.

Miss Isabel Rising left for Denio, Oregon, last Saturday, to begin her school teaching career. She was at Manzanita Friday night, bidding her friends good-bye.

Miss Ina Powers spent Saturday and Sunday in Virginia City.

\* \* \*

### STEP TAKEN TOWARD STUDENT CONTROL AT MANZANITA

Last Wednesday the first house meeting was held at Manzanita hall for the purpose of discussing the very important question of student control. A few of the upper classmen gave their views. Strange to say, there was not a dissenting voice among the 28 girls in the hall, and so business began right off. A committee of four, representatives from each class, were appointed to draft the constitution that will hereafter govern the hall. These were Alice Van Leer, Frances Smith, Helen Heffernan and Vivian Williams. The condition is at present in the process of development, but it is hoped by next week to be finished, adopted and abided by.

## Upper-College Game Seniors'

"George" Tells About the Senior Victory and What He Hopes Will Result

By "GEORGE"

The junior-senior game was all that was expected—and then some. It was nearly time for the game to be called and the seniors began to show a little agitation, among themselves—their front to the juniors was always a brave one. The cause of all this agitation—they had not men enough. Five minutes remained, the situation was becoming desperate. Sophomores were told to prepare for the fray. Those five minutes were dwindling but inversely as they dwindled brightened the hopes of the seniors. Their ranks were swelling. One minute remained, one measly minute and there was one measly place to fill. Suddenly Webster hollered, "There's Schuyler,"—everybody looked. Philip S. Cowgill was sailing down the hill with the breeze, carrying a full head of canvas, and managing those C. E. legs of his in such a manner as to gain the maximum of efficiency.

The game started. Veterans played like veterans and kept their tribe of inexperienced helpers a-playing too as best they could. Coach Elliott refereed the game and tried hard not to laugh at some of the stunts his players executed. But for all that the game was a good one and both sides were kept guessing most of the time.

That senior-junior game is too old a story now to describe in detail. As this is a case of "Let George do it," George will make it short. Suffice it to say that the first half ended with never-a-score, but the juniors had the bloated swine covering so close to the line that the seniors had a worse case of mental anguish than the one in control before Philip Schuyler showed. The second half was not so lucky for our friends of the exposition class. Along toward the close of the game Harvey McPhail, '14, grabbed the pigskin and away he went. A few juniors tried to nab him but they didn't have the required speed. It was a pretty run—as pretty as anybody would wish to see—and Harvey planted the ball at a point equidistant from each goal post. Also he converted and the score stood 1914, 5; 1915, 0. Amos Elliott might just as well have stopped the game then—the juniors didn't get any more.

Like the freshie-soph game there was a purpose behind this senior-junior contest. "George" doesn't know whether or not this purpose was achieved. If that game did what it was intended to do, there will be several additional pairs of corduroys lockered in the training quarters between the hours 4:30 and 6 p. m. this week. Thanks.

## Sophs Victors Class Battle

Wednesday afternoon the freshmen and sophomore football teams clashed on Mackay field in a hard fought struggle that resulted in a victory for the sophs by a score of 3-0.

Throughout the game the freshmen fought the sophomores to a standstill and the second year men have nothing to boast of in the narrow margin of victory. Eleven of the '16 freshmen team were in the game, while only four of the '17 team had ever handled a football before. The freshman class is composed of that fighting stuff that Nevada needs for a winning varsity team.

The first half passed off uneventfully, as neither side scored. In the second half the sophomores seemed to realize the ignomy of defeat by an inexperienced team and began to push the ball into freshmen territory, which resulted in a dribbling rush that carried the ball across the freshman line for a try, which the sophomores failed to convert. Score 3-0. The balance of the half passed with the ball in freshmen territory.

Dear Student:

You are about to enter upon the studies for this semester, and it is of the greatest importance that you should be in best of condition to meet the many duties which require your full attention. To be able to cope with your fellow student it is essential that your physical condition is up to the highest standard, and every loss of vitality be wisely avoided. An unconscious waste through "EYE STRAIN" may cause you unnecessary trouble. I would be pleased to have you call and get a thorough scientific examination of your eyes FREE of charge. If you DO NOT need glasses I will frankly tell you so. I am a registered Optometrist, and passed the examination of the California State Board of Optometry, am a graduate with the highest honors of the Philadelphia Optical College, also of San Francisco and Los Angeles. You will get the benefit of my thirty years of experience in the Optical profession. All my work will be warranted and glasses furnished at most reasonable rates. I can duplicate any lens at short notice. Assuring you of a fair deal, permit me to remain,

Yours respectfully,

JOHN B. KOCH, O. D.  
With R. Herz & Bro., Inc.

### CHANGE IT

The applause which greeted the reading of the report of the committee on a new form of student government in the student body meeting last Friday morning was gratifying to the committee. The Sagebrush has been closely involved in the making of that report and has supported the student council plan because it believes that plan a good one and for the bettering of conditions upon the hill. In the interest of fairness it offers its columns to those who believe in letting things go as they are.

The meeting in the gym Friday was a typical student body meeting. It was a failure. There is no fault to be found in the people there assembled. Any body of people in the world gathered together under the

same conditions would have done as we did—made a failure. The fault is with the system.

There is a whole lot of talk about "getting together" here at Nevada. The student body meeting is the place we should "get together" first of all. **WE DON'T DO IT.**

One entering one of our student body meetings can not help but be impressed with the lack of unity there displayed. Classes are separated; a few do all the talking; those in the rear cannot hear; the girls sit silent and bored; no one ever seems to know whether questions be settled by the whole body or by executive committee. Take a look outside—the library, the streets leading to the campus, are lined with non-interested A. S. U. N. members going home. They can't be blamed—it's the system. Change it.

## Summer School Last Session

(Continued from Page One.)

lic school teacher and with the exception of one or two subjects all that could be of use and benefit to the teachers in the grades.

In addition to the regular lectures and class work persons eminent for work done in special lines of education were brought to the university to deliver a series of lectures. Prof. J. B. Sears of Stanford delivered a series of three lectures on rural sociology. Prof. L. W. Terman gave a series of five lectures on school hygiene and the abnormal child. Mrs. Gains of Stockton spent three days at the university and talked on composition in the grades.

A. B. Lightfoot delivered a series of two lectures on school law.

A. Montgomery, the artist, spoke on art and education.

Besides the above series a number of interesting talks were given at assembly by prominent persons of the state. Among these were: Supt. J. E. Bray, Attorney Huskey, Dr. Walker, Supt. D. R. Billingham, President Stubbs and Robert Levers.

The faculty consisted of the following named persons, who are expert in their line:

Miss Clara M. Hetchel, head of the department of art, Chico normal; Miss Agnes Howe, head of department of history, San Jose normal; Miss Lida Lennon, head of department of music, Chico normal; Miss Rosalie Pollock, supervisor of schools, Oklahoma City; Dr. George Ordahl, professor of

education and psychology, U. of N.; Miss Roush, Reno schools, teacher of the model school. Mrs. Louise E. Ordahl, instructor in play and folk dancing; Mr. Henderson, physical director of the Y. M. C. A., instructor in physical education.

## SOCIAL

### IN SPARKS

Thursday evening Miss Lelia White and Miss Mary Raitt entertained Delta Delta Delta sorority and her friends at a lawn party at the home of the latter in Sparks. There was dancing throughout the evening, but for those few whom the "light fantastic" failed to charm cards and other games were provided. Pillows were everywhere and arranged with no eye for the artistic. Long before the last car whistled refreshments had been served, and the merry crowd was still singing every popular song available when the warning whistle sounded. Those present at this jolly affair were: Maude Price, Vera Lemmon, Dorothy Bird, Bernie de Hart, Margaret Hazlett, Josephine Williams, Elsie Heward, Lois Benton, Elsie Humphrey, Lucile Gallagher, Doris Taylor, Marion Weck, Agnes Constable, Ruth Pyle, Gladys Hofer, Mabel Larcombe, Clara Smith, Mary Raitt, Lelia White, Walter Bowler, Walter Jepson, Claude Wheeler, Lester Withers, Harry Noyes, James High, Reg Meeker, Clarke Webster, Elmore Abbot, Bill Melarkey, Sol Cazier, Tom Gibson, Waldo Duddleson, Tom Walker, Louis Sommers, Peter McKinley, Alma Quigley, Coin Cazier, John Delahide.

## UNIVERSITY TO EXHIBIT AT FAIR

Sixty thoroughbred race horses are in the stalls in the fair grounds stables and everything is in readiness for the Nevada state fair which will be opened on Monday next for one week.

Yesterday the pavilion at Belle Isle, where exhibits from the various counties in the state will be shown, was opened for the reception of displays,

and today a number of specimens, agricultural and mineral, from various parts of the state are expected.

Livestock will be shown at the fair grounds, and there will be harness and running races daily.

The exhibit of the University of Nevada is expected to be a chief attraction, and will include agricultural products, as well as livestock.

A 'SQUARE DEAL' for everybody is the "Spalding Policy." We guarantee each buyer of an article bearing the Spalding Trade-Mark that such article will give satisfaction and a reasonable amount of service.

A. G. SPALDING & BROS.

## Freshie Party Sad and Glad

(Continued from page 1)

little farther and another stream struck them. What could the little darlings do against such an onslaught? Throw green apples, eggs and tomatoes, of course. This they did but with such an unsteady aim that very few sophs were struck. The second wagon which came by some 30 minutes later underwent a similar ordeal. Now it was up to the sophs in the autos to complete the job and get the cats since the water men had done their work well and had secured a couple of boxes of sandwiches. They did their best but the freshmen were "peeved" and no missile was too hard to throw. As the sophs would speed by the wagons squirting seltzer and throwing eggs, the freshmen threw their rocks, apples or anything that they could get. As a result some few sophs are obliged to buy a windshield for the auto they hired.

In due time the dancers reached the hall to find the lamps hidden and filled with water, and the fragrant odor of asafetida issuing from within. However, the lamps were found, coal-oil secured and the hall aired. Then the dance began and a good time was enjoyed by all except the freshmen, who were tired and worn out, until one in the morning, when the weary ones returned to Reno.

### STUDENT BODY MEETING

Last Friday morning at 11 o'clock in the gym the A. S. U. N. met for the first meeting this term. President Sol Cazier took the chair and was greeted enthusiastically by his supporters for this year.

Under the head of old business, Chairman Henry Wolfson on the committee on a new mode of student government, arose and read the report of that committee, which was filed during the latter part of last term. Enthusiastic applause greeted the reading of the report of the committee. After some of the passages in the report had been explained and discussed, Louis Somers, of the class of '15, arose and asked that the action on the report be postponed until the new members of A. S. U. N. should have time to become more in touch with the situation and therefore moved that the report be tabled. The motion carried.

The only other important action to be taken at this initial meeting was the passage of a resolution making all alumni of the university honorary members of its student body and thereby giving them cordial permission to use tennis courts and other athletic equipment.

Consult Dr. John B. Koch, the registered optometrist, for your eyes.

### Coed's Dorm. Self Governed

(Continued from Page One)

ment do for the hall?" Self government will give the girls an attitude of self reliance and democracy which every college woman should possess. It is to be simply putting into action the fundamental American idea that an intelligent people are able to decide the things which are for the greatest good of the largest number.

All of the girls are new in self government and ask the university to criticize gently at first. The problem must be worked out with the co-operation of everyone whether they are dormitory residents or not. We are children in student control but with the hope ahead that the movement may prosper through all the years that follow. We particularly ask you to help us through the stage of transition to the point where we can carry self government easily and go happily on in the realization of work well done.

Dr. John B. Koch, the students' optometrist, fits glasses right. Prices are right. Service is good. Reno Quick Lunch. Slatts.

Meet me at the FOUNTAIN. Opposite the postoffice.

## Seniors Have Soccer Honors

(Continued from page 1)

significant you can appear in the have been a ? after that statement.

"The business just mentioned is typified in a game of soccer, and the process of showing up is to be done by a picked team that may contain juniors, sophomores or freshmen, just so each man has a rep as a football star to his credit."

It was just such a team that attempted the humiliation of the faculty at 3:15 on Saturday afternoon.

The play was brisk. The ball surged from one end of the field to the other, defying all the wiles of the pros to make it obey the law of simple harmonic motion. The men played like demons. With the ball were always Doc Kennedy, Prof. Haseman and Les Hancock. There was not a moment but what some foot did not have control of the ball. The coach looked all the time like he would give the Mackay statue for a chance to fall on it, and Scrugham, that man who can handle a kilowatt as naturally as he can a breath of air, could only stick his head in the way.

Prof. Knight, the fellow with the broadside appearance, proved just the man to cover all the space between the goal posts. Two scores are said to have passed him. There should have been a after that statement.

For the seniors Menardi and McPhail proved the strong points. They are fast men, and can use their heads. The start at one stage of the game caused the faculty to laugh with such vim as to nearly gain a score for the seniors.

The ending was an unhappy one. The seniors were allowed a free kick at the faculty goal, and just as Menardi kicked for a goal Prof. Charles inadvertently stuck his hand out. Now to many of us unversed in the game called soccer, that seemed a rational play. Reay Mackay should know, however, for he is an alumnus of U. of N., and he called it a senior goal. This contest is one that bears repeating.

The line-up was as follows:

Faculty—M. Kennedy, Haseman, Scott, Jones, Scrugham, Knight, Thompson, Powers, Boardman, Ross, Elliott.

Seniors—Menardi, McPhail, Milentz, Hamilton, Cazier, Hancock, Phlaging, Cowgill.

Referee—Reay Mackay.

Timekeeper—Dr. Stubbs.

### COLLEGE COUPLE HERE

Mr. and Mrs. R. B. Layman, who are both graduates of this university and members of the class of '11, have been visiting for the past several weeks with friends and relatives in Reno. Mr. Layman is better known on the campus and about town as "Jimmie" and is at present employed at Tonopah where he is in charge of the sub-station. It is a peculiar fact that this same sub-station burned twice before Mr. Layman took charge and since he has been there there have been no fires. Mrs. Layman was formerly Miss Gertrude Pike and is very well known on the campus. They will return to Tonopah next week.

### SOME ASSEMBLY NEXT MONDAY

President Stubbs has secured the services of Charles B. Hanford of Washington, D. C., to deliver a lecture to the students, faculty and friends of this university in the gym next Monday morning at 11 o'clock. On account of Mr. Hanford and the pictures he will present at the Majestic theater appears elsewhere in this paper. Mr. Hanford was chosen by the British government to present these pictures of the Scott expedition and those who attend general assembly next Monday morning may expect to hear something very good.

Reno Quick Lunch open from 6 a. m. to 10 p. m. Special dinner from 11 a. m. to 8 p. m. Slatts, Prop.

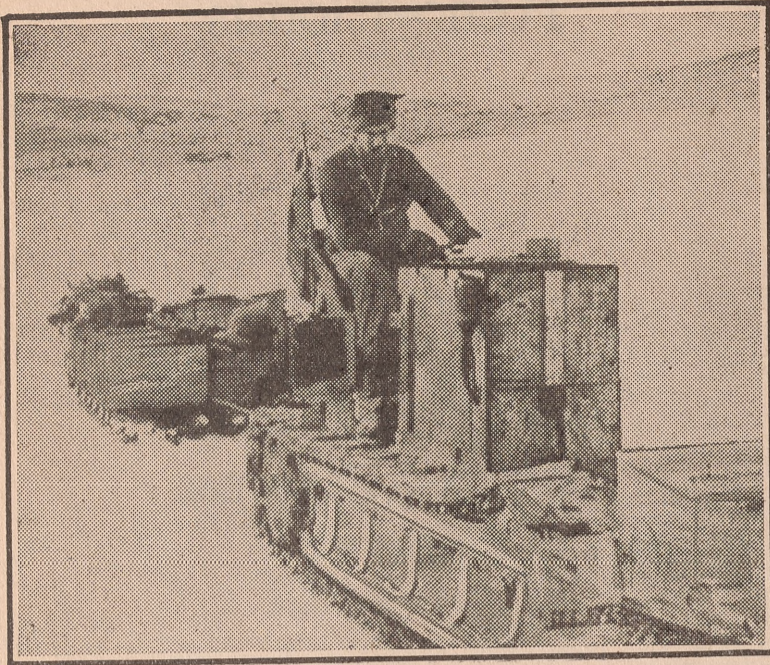

Have you paid your athletic fee?

BOARD OF REGENTS

# Motion Picture Diary Of Captain Scott At Majestic

By special arrangement with the agents of the British government the management of the Majestic theater will present on Monday, Tuesday and Wednesday evenings of next week and for Wednesday matinee the motion picture diary of Captain Scott's expedition to the south pole and motion picture studies of animal life in the Antarctic.

This wonderfully graphic and comprehensive cinematograph record of England's immortal hero, Captain Robert Falcon Scott, and his little band of intrepid south pole explorers, has been unanimously pronounced the greatest pictorial chronology of any polar expedition in history, and its educational value incalculable. Over 25,000 feet of film, together with some 2000 photographic plates and scenes of life in the uttermost southland were brought back to civilization. The accuracy of the all-conquering motion picture camera is but a glowing tribute to the genius of Mr. Herbert Ponting, F. R. G. S., official camera artist of the expedition, whom it may be stated was a British war correspondent of wide experience.

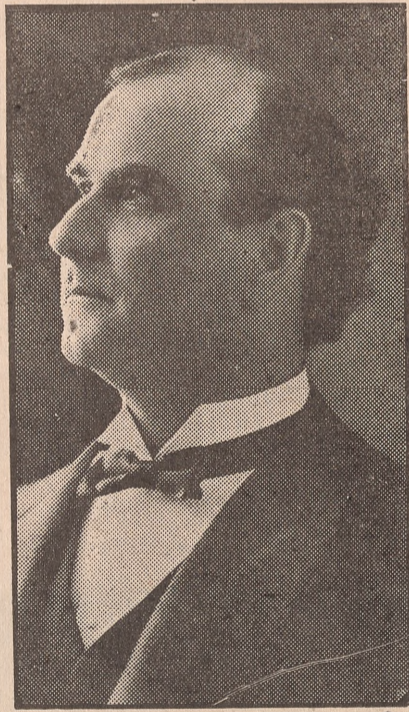

The first film to be obtained was that of the sturdy little "Noval Terra," the vessel on which the party sailed from New Zealand braving a storm at sea. The waves (accurately measured) were 50 feet in height, which height has never before nor since been legitimately recorded. During this terrible storm the crew narrowly escaped perishing. Other parts of the films are no less thrilling. One depicts a school of ferocious killer whales attacking seals under the ice. These vicious wolves of the sea actually line up under the ice and through concerted action heave upwards, fracturing the ice for hundreds of yards and precipitating the helpless seals into their power. Another addition to the records of natural history is the life picture of a huge Weddell seal sawing the ice with his teeth, a scene for which Mr. Ponting waited nine hours continuously.

The most awe inspiring spectacle of the films is the eruption of Mt. Ere-

bus, the majestic volcano of the Antarctic 13,000 feet high. The films of Erebus belching forth fire and lava were obtained at great cost and perilous risk of life.

The tragic scene of the films is the leave taking of Captain Scott and his small band who made the dash to the pole and bade good-bye to their supporting party on the brink of the great ice barrier two degrees from the pole. This picture was filmed by the light of the midnight sun at 2 a. m. on the morning of November 11, 1911. They are shown wriggling into the frozen sleeping bags which were later to serve as their shrouds and before the same tent that was destined to become their tomb. Without doubt this is the most soul stirring picture ever flashed on the screen.

The Antarctic pictures will be lectured by Mr. Charles B. Hanford, the eminent Shakespearian actor of Washington, D. C., who for 25 years has been a notable figure in the classic drama in America.

### MILITARY SCHEDULE

September 11, 1913

#### Memorandum No. 3

1. The following schedule of instruction will be observed in the military department for week commencing Monday, September 15:

Monday, September 15—Instruction in school of squad, without arms, for new cadets in each company will be pushed as rapidly as possible. Rifles will be issued just as soon as men become proficient in the school of the soldier and squad.

Tuesday, Wednesday, Thursday and Friday—Instruction same as for Monday.

Band will practice daily.

2. The commandant has a few copies of the infantry drill regulations. While cadets are not required to provide themselves with these books this semester, as this subject will be a part of the course next semester, it is recommended that all cadets supply themselves with these books at the present time, and they will also be of great assistance in the work which now being done.

3. The attention of all cadets is invited to the fact that the usual drill will be held on Friday, September 19. The general assembly announced for that date is to be held on Monday, September 22, at 11 a. m., hence the

necessity for the additional drill this week. By order of the  
COMMANDANT OF CADETS.

### EATS AND DECORATIONS

They say college girls are the cleverest people in the world, and "They" must be right for said college girls certainly have distinguished themselves, in this institution at least. For instance, take the progressive dinner party given by the Tri Deltas Saturday night. Wasn't it a dinner, though? The guests couldn't decide which was the better—the eats or the decorations.

First there was "Ambrosia" served in "Fairyland" among the singing birds, the pretty flowers and the jolly little fairies. From Fairyland the party progressed to a fearful place, concocted by a bold minded person and called "Hades." Next came "Dreamland," but from the reports gathered little dreaming was indulged in. After Dreamland came "Greenland" ('twould have been an ideal place for the frosh) and then "Iceland." The Arctic regions are too cold for discussion, so we will pass on to "Delta Land," where amid pantries and deltas the last course of this wonderful example of college originality was served. Think you not that college girls are clever?

### ASILOMAR MEETING AT Y. W. C. A. ROOM

Remember room 6 at at 4 o'clock this Wednesday. Come and you will hear Nevada's delegates tell of some interesting experiences at the last conference, and Lyle Rushby sing. Besides, recognition service will be held and everyone, those who expect to join and others, are cordially invited to be present. We want you.

Harry Skarry, a popular Reno boy who owns an automobile, is going to take Amos Elliott and Doc Milentz to Susanville next Thursday. The purpose of the trip is to get some of the boys who graduated from high school up there last spring to think about registering at the University of Nevada.

## M. S. M. Gets Fine Exhibits

Valuable Exhibits Used in National Case Presented U. N.

The following stipulation was received by Comptroller Gorman a few days ago which gives to the museum of the Mackay school of mines the valuable collection of rocks, specimens and other exhibits used in the celebrated National case which was tried in the U. S. district court at Carson City during the summer a year ago. Mr. Gorman will journey to Carson within the next few days for the purpose of getting the exhibits and bringing them to the university:

In the district court of the United States, in and for the district of Nevada.

National Mines Co. complainant, vs. Charleston Hill National Mining Syndicate, et al., respondents.

Stipulation for removal of exhibits. In equity.

Whereas the Mackay school of mines at Reno, Nevada, desires to place certain exhibits heretofore offered at the trial of the above entitled cause in the above entitled court in the said school of mines at Reno, Nevada, there to remain on exhibition, and

Whereas, such exhibits have served their purpose in the above entitled cause,

It is therefore stipulated and agreed between the parties hereto, through their respective counsel that all plats, maps, drawings, models, rock, specimens and samples now in the possession of the clerk of the above entitled court which were offered as exhibits in the above entitled cause, may be taken from said court to the said school of mines, there to remain on exhibition permanently.

It is stipulated that the above entitled court or the judge thereof may upon the presentation to it or him of this stipulation make such order or orders as are necessary or useful to carry out the letter and purpose of this stipulation.

Witness our hands this 14th day of April, A. D. 1913. Dickson & Ellis, George A. Bartlett, L. F. Campbell, E. S. McCord, attorneys for complainant.

Metson, Drew & McKenzie, Rufus C. Thayer, attorneys for respondents.

## New Swedish Oil Engine

The new crude oil engine recently received from Sweden for the mechanical laboratory has been tried out and apparently is very successful. Detailed tests will be made on it at an early date to determine its fuel oil consumption per brake horse-power. The machine resembles an ordinary gasoline engine in appearance, using crude oil instead of gasoline for fuel. It is what is known as a semi-Dissel type and has a record of successful operation in the Russian oil fields as well as in Sweden and Germany. It is probably the first of its kind imported to this country.

Dean Bradley, mines '06, has been spending the last few weeks in Reno. Bradley is following the C. E. profession at present and is engaged in some work in northern California. Mrs. Bradley and children will winter in Reno at their home on Liberty street.

### CLINTON SPARKS

Clinton Spark, mines '11, on his way to Tonopah after a month's sojourn in Mexico, figured out how he could spend a day in Reno and did it last Friday. Spark paid the campus a visit and was delighted with the improvements made. His visits to Reno have been rare since his graduation and Spark found a great deal of pleasure in greeting this year's seniors—they were the incoming freshmen in his senior year at college.

E. A. Pearson, E. E. '12, is visiting Reno again on a short vacation. Pearson is engineer for the Northwestern Electric company of Portland, Oregon, and has been engaged on the construction of a large hydro-electric plant recently installed to supply the city of Portland with power.

Frank Breeding, who is employed as assayer in Rawhide, has been a visitor in Reno for several days since the last issue of the Sagebrush and spent a considerable part of his time on the campus.

## Mrs. Fiske Plays "Tess" For Films

Another great actress has been added to the list of those appearing in motion picture drama, in the person of Mrs. Minnie Maddern Fiske, who will be seen in the role of "Tess" in the motion picture version of Thomas Hardy's sublime drama, "Tess of the D'Urbervilles," at the Majestic theater for three nights this week commencing Wednesday.

Mrs. Fiske, who will play an engagement in person at the Majestic late in the coming season, is without doubt America's most distinguished artist. The greatest distinctions and triumphs of the American stage and its noblest traditions surround her name. Her career may be divided into three periods, during which she has been a child actress, a popular girl star in sentimental domestic drama, and finally the most original and powerful emotional actress of her time.

By her portrayal of "Tess" in the silent drama she has recorded for all time her supreme art in the play in which she attained the loftiest heights of dramatic power and the greatest measure of public approval. The story of "Tess of the D'Urbervilles," the tender chronicle of a great misfortune, will live as long as human emotions control us.

The seat sale opens today. All seats will be reserved.

## "Ready Money" At Majestic

Coming almost direct from its extraordinary engagements in New York and Boston, "Ready Money," the comedy of love, romance and thrills, will be presented for an engagement at the Majestic theater for matinee and night Sunday, September 21, under the management of William A. Brady, Ltd.

The idea of the comedy is original and charming and full of romantic interest, quite apart from the sordid money interest that might be indicated by the title of the comedy. The honest and earnest efforts of the young man to get money, and get it quick, so that he might win the girl he loves are shown in a comedy thick with surprisingly funny situations, new and witty sayings about the power of money, and the love appeal, in spite of the comedy environment, is at times entrancing.

"Ready Money" comes with a record of eight months in New York, eight months in London, four months in Chicago and three months in Boston, and is played by a large company organized with Mr. Brady's well known care and discrimination.

### GOES TO CONFER WITH COAST MANUFACTURERS

Prof. S. C. Dinsmore, head of the pure food department of the agricultural college, left Tuesday for San Francisco where he has gone in the interests of the pure food exhibition the department is preparing to be shown at the state fair here, and also the Carson-Truckee fair at Fallon.

Following the receipt of communications from manufacturers and jobbers on the coast, Prof. Dinsmore became convinced that they were taking considerable interest in the matter and that their active co-operation could be secured looking to the compilation of a most comprehensive exhibit. He is expected back within a day or two.

Eddie Knemeyer, an old Nevanadan and a popular man on the campus, dropped off a train last Friday and spent about 24 hours in Reno. Ed is studying architecture at the University of Illinois and is headed in that direction. His home is in Mason Valley, Nevada.
