## Electric Com. Being Formed

mission of Twelve For Safety

RESULT OF CONFERENCE University of Nevada Will Lead State in "Safety First"

On Tuesday afternoon a week ago, the last day of the Nevada Industrial Safety conference, John J. Mullen, secretary for the state industrial insurance committee, submitted a plan for a Nevada chapter of the National Council for Industrial Safety, and this work, according to the plan, is to be carried out by a committee of nine, headed by the governor of Nevada, Mr. Mullen, also, will be ex-officio a member of this committee. This committee will be permanent in its character and, according to advices, received Saturday, will be appointed by Governor Oddie within the next week

The Nevada chapter of the national council for industrial safety is not the only organized movement in the direction of safety which has resulted from the first Nevada safety first meeting. Prof. J. G. Scrugham has given out that a committee is already at work for the creation of an executive committee to look out for the safety of men employed in electrical trades in this state. The men active in the formation of this executive committee represent the largest electric power corporations in Nevada: they are: Fred Mechling, of the Nevada-California Power company of Goldfield; E .D .Brown, superintendent of the Truckee River General Electric company and the Reno Power, Light and Water company; and F. O .Broili, superintendent of the Elko-Lamoille Power company. According Department of Physics ..... 5.00 to the plans of these three men, a J. R. Bradley Co. commission of twelve men will be formed. This commission will probably represent the electric trades as follows: four members representing companies or individuals consuming electric power; and four members representing the allied interests, the contractors for wiring, etc.

Steps will immediately be taken to get these twelve men representing these different interests together for take up any such jerseys. the purpose of perfecting the details

## Boosting For Utah Debate

Starting a New Activity

NEVADA IS PROGRESSING the cantata, "The Rose Maiden." The Social Advancement to Come Within Scope of New

> Society By T. L. WITHERS

The progressive element in the university was greatly disappointed last term at the defeat of the Student Council which would have been a step toward putting our university on a plane with the great American universities. Again an effort has been made to adopt a feature long since a part of university life in all these great institutions and it has won. We have now a real live Debating society.

Through Professor Turner's efforts, Nevada will probably have a debate with the Brigham Young university of Provo, Utah, on April 19, in Reno. The signing of the contract is all that remains to be done. This contract specifies that the team from Utah shall pay its travelling and hotel expenses this year while Nevada is to lay all the local expenses which include the cost of procuring judges. Next year Nevada is to send a team to Provo, the expense conditions being reversed.

At a meeting held last Monday night the University of Nevada Debating so lety adopted a constitution and elected its officers for the balance of the semester. Professor Turner was unanimously elected director.

This society was founded to foster the art of debating and social advancement. All forms of literary and dramatic work being included under the head of Social Advancement.

Professor Turner indeed deserves praise and the commendation of the student body and faculty for making his scheme a success. We have all kinds of sports and have several athletic teams, yet hitherto there has been no organization to arouse the scholastic interest of the students. If, by hard work, Nevada produces good debating team composed of two men or women who have the ability to argue logically, the facility of public speech; who can investigate a subject and grasp its salient points and who can present these points in an at-

#### EDITORIAL

#### ATHLETIC INCONSISTENCIES

Out of a total of 252 registered students in this university 140 have paid their athletic fees. College spirit is lacking when but a few over half of the students of a college deem its student organization worth belonging to This is a matter for classes, fraternities, upperclassmen to take a hand in. It carries us back to the old by-word, "PEP."

Plain figures furnish the strongest argument for the prompt payment of these dues. One hundred and forty athletic cards sold means a total of \$560. The Stockton Mercury basket ball game gate receipts amounted to \$11.75, of this gross amount \$9 was spent for music leaving a net of \$2.75 to pay a guarantee of \$50. That game cost the people who have paid their athletic dues \$47.75 in cold cash. The Davis game drew a little better crowd but even that game brought in less than half of the \$50 guarantee. There is a remedy for the failure of these games to pay expenses and it consists in the students getting out and selling tickets but that is aside from the purpose of this editorial. question we are concerned with here is the need for the money due and the injustice to those who have paid resulting from the failure of the oth-

## '17 Jolly Glee On Aprl 17

Dance of all the College Year

The plans for the Freshmen Glee are still in their infancy. But such plans! The Freshies are certain that this glee will put it all over anything of the kind ever held on the hill. Last Friday afternoon a meeting was held and April-17 was decided upon as an appropriate date for the class of '17 to do the honors. The meeting was well attended and much enthusiasm shown. The bright suggestion that all college students would have to produce their A. S. U. N. card at the door before being admitted met with approval. So be ready with that card. It will admit you to the most wonderful sight—the gym is going to be a wonderland you won't recognize it. But just come and see for yourself. Management of affairs have been put in the hands of the following commit-

Orchestra-Ed. Neasham, Irving Rivett. Henry Hart.

#### Three Hour Tests

Laughton's Springs and lasted from 9 Nevada, and Frank Ingram of Sparks of Locomotive firemen, read a paper before the conference, advocating the higher power arc lamps.

As he was leaving for Carson at ncen Wednesday, Mr. Wallace said that all the representatives of the locomotive firemen and engineers were in favor of the new nitrogen lamp for

#### Results of Tests

Engine 3015, equipped with a nitrogen lamp and engine 2320, equipped with an arc lamp, were used in the tests. In the standing test, the obstruction (three men dressed in black clothing), were picked up at 1160 feet with the aid of the arc lamp. The nitrogen lamp picked the three men up at a distance of 1900 feet.

In one running test the arc lamp picked up the obstruction at 674 feet while the nitrogen lamp picked up the object at 1508 feet. In the other runobject at 860 feet and the nitrogen 'amp at 1606 feet.

A running engine can be stopped in 600 to 700 feet.

Dr. Church and Charles Wheeler, formerly a guide in the Adirondacks but now of Fernley, Nevada, will the snows of the Lake Tahoe region. They will carry in supplies for Arthur winter's work.

## Class Of '14 Gives Honors

Committees Appointed For Happiest Seniors Will Give Classy Play Befort Semester Ends

> The Class of '14 met in room six last Thursday evening and discussed important matters relative to their last semester in college. The committee on a Senior Farce reported that they had considered many plays and recommended one, the name of which is for the present withheld, and it is probable that the class will act on the recommendation of this committee. Jack O'Sullivan, a former student of the university of Nevada, has consented to coach the class for the produc-

> In addition to the play, the subject of a class pin was taken up and acted upon. It was decided almost unanimously to depart from the old custom of the U. N. monogram senior pin and a pin in the form of a gold nugget bearing the seal of the university and the raised numerals "'14" was chosen as the official class insignia. The matter of leaving something for the university that the college can use and value was also discussed.

At the conclusion of this business the last officers to serve the class of 1914, University of Nevada, were chosen. The following are those given this honor: President, Miss Myrtle Neasham; vice-president, Neil Barber; Secretary, Miss Anne Cazzallio; treasurer, Lester P. Harriman.

#### ENGINEER'S CLUB

President P. E. Raymond of the Nevada Engineers' club has scheduled J. R. Clancy, assistant general manager of the Southern Pacific company, who entertained all those present at the "Safety First" banquet last Tuesday night with an after dinner talk, for an address before the members of that organization to take place at an early date. Mr. Clancy's subject will he "Government Ownership of Rail roads.

S. G. Down, vice president of the Westinghouse Air Brake company, and also a San Francisco man and a visitor at the University during the conference, will address sometime in March.

Hot coffee, hot chocolate, beef boulion, at the Fountain, opposite the

## Dallas Show On The Road

Knight and Clark to Demonstrate 1914 Dance Set For the Friday Even-Nevada Exhibit

C. S. Knight, agronomist of the University of Nevada, and Theodore W. Clark, assistant agronomist and superintendent of field experiments, left Saturday evening for Dallas, Texas, to represent Nevada and the university at the National Corn exposition. The exhibit they will show was sent this morning. Included are two large irrigation exhibits, each five by nine feet; three evaporation experiment exhibits and one exhibit on sugar beets from the Truckee-Carson project. There also are grains from the state dry farm, which are to be entered in the competition for cash prizes. Prof. Knight is to be judge of western

I. H. Kent of Fallon and J. I. Cazier of Elko are two of the 20 or more Nevadans appointed to attend the exposition as delegates who have accepted the appointment and will attend. The exposition will last from February 10 to February 20, and the Nevada delegates expect to reach Reno again by February 24.

The Nevada exhibits are being transported to Dallas free of charge by the Southern Pacific company, being checked as baggage. Six men worked all day Friday to pack them for shipment this Saturday.

### Y. W. C. A.

Clara Smith Will Lead This Week's Meeting of the Association

Four of the delegates to the Y. W. conference at Asilomar last August registered in a course given by Professor Rue of the University of California. The course consisted in a series of lectures on the "Interpretation of the Book of John." Clara Smith who was a member of this class will lead the meeting this week and will give, with the assistance of two other delegates, a summary of the course. The talks will be given from notes also be a sole by Lysle Rushby. The meeting is at 4:30 on Wednesday in Cce, also of the band. room 6. Everyone is invited.

Entertainment

The Association News committee that has apparently been sleeping all this year, has something special planned for all. ## Military Ball February 20

ing Preceeding Washington's Birthday

February 20, the Friday evening before Washington's birthday, has been set aside by the cadet battalion of the university for its annual military ball. For people who do not belong to the university this is the big dance of the year. It is Nevada's on really formal party but, if formality and a go-as-you-please good time are consistent, the Military Ball isn't formal either. For many years the batalion has chosen the evening preceding Washington's birthday for this event but this year that anniversary falls on a Sunday and (since the giving of the dance on the evening of February 21 would necessitate the closing of the dance at midnightsomething contrary to all the traditions of a military ball-to avoid dancing upon Sunday), the battalion, therefore, decided upon the Friday evening preceeding.

Captain Applewhite, commandant of cadets, is throwing himself into the work of making the 1914 affair a ance up to the standard and he is being backed by Major Harriman, his officers and men. Of course Governor Oddie will lead the grand march and his staff will be there in all their gold lace and trimmings. Captain Claflin's augmented military band will furnish music dreamy, lively and tangoey. The band practice since the first of the semester has been devoted to the new and snappy music of the day just in preparation for this dance

The decorations will be in the hands of a committee headed by Webster and McKinley and something pretty "nifty" is promised. The gym on the evening of a military ball is always resplendent in the stars and stripes while rifles, swords and other munitions of war give to the old place an atmosphere martial. Tents, log fires and colored lights also reflect the spirit of army life on these occasions.

Refreshments are to be served at the 1914 Military ball and for them a committee consisting of William I. Smyth and Harvey F. McPhaill can be held responsible. The music and the programs (the latter to be dainty taken curing the classes. There will and original) are being looked after by Leader Claflin of the band and Gei

All American Track Teams Selected By Amateur Athletic

Union

NEW YORK, Jan. 16 .- The All-American track teams, selected at the end of each athletic season by James E. Sullivan, secretary of the Amateur Athletic union, were announced here

Ffity-eight athletes appear in the composition of the three teams, there being several duplications in the All-American and the All-College teams. The eastern clubs, colleges and schools placed 37 athletes to the west's 21. but the margin is less this year than heretofore, bearing out the assertion that the standard of track and field athletics is improving more rapidly in the west than in the east.

Secretary Sullivan said that in selecting his 1913 American, college and scholastic teams, he had named a different athlete for each event, not because in several cases one man was not capable of winning two events, but in order that such a combination might be procured as would permit the entry of at least three men in each event, were these all-American teams required to meet similar combinations in national or international competi-The selections follow:

All-American team: 100-yards run: H. H. Drew, Springfield. Mass.

220-yards run: D. F. Lippincott, University of Pennsylvania.

Irish-American Athletic club. 440-yards run: C .B. Haff, Chicago

Athletic association. 600-yards run: T. J. Halpin, Boston

Athletic association 880-yards run: J.E. Meredith, Uniersity of Pennsylvania.

1,000-yard run: A. B. Kiviat, Irish-American Athletic club.

One mile run: J. P .Jones, Cornell University. Two miles run: W. J. Kramer, Long

Island Athletic club. Five miles run: H. Kolehmainen,

Irish-American Athletic club. 120-yards hurdles: F. W. Kelly, University of Southern California.

220-yards hurdles: J .I. Wendell, New York Athletic club. Running broad jump: D. Dawson,

Stanford University. Running high jump: A .W. Rich-

rds, Provo, Utah. Throwing the discus: E. Muller,

rish-American Athletic club. Standing high jump: Leo Goehring, Mohawk Athletic club

Standing broad jump: Platt Adams, New York Athletic club.

Three standing broad jumps: Edward L .Emes, Bronx Church House. Running, hop, step and jump: D. J Ahearn, Illinois Athletic club.

One mile walk: R. B. Gifford, Mc-

Cadden Lyceum. Three miles walk: Edward Renz.

Mohawk Athletic club. Seven miles walk: F. H. Kaiser, New York Athletic club.

Donald, Irish-American Athletic club. Putting 56-pound weight for distance: M. McGrath, Irish-American Athletic club.

Throwing 16-pound hammer: P Ryan, Irish-American Athletic club. Throwing javelin: B. Brodd, Irish-

American Athletic club. All-around: Fred Thompson, New York Athletic club.

All-American college team: 100-yard run: D. Patterson, Uniersity of Pennsylvania.

220-yards run: D. Lippincott, Uniersity of Pennsylvania 440-yards run: C. B. Haff, Univer-

ity of Michigan. 80-yards run: C. E. Brown, Yale University.

One mile run: J. P. Jones, Cornell University.

Running broad jump: D. Dawson, Stanford University. Throwing 16-pound hammer: Karl

Shattuck, University of California. 120-vards hurdles: E. W. Kelly University of Southern California. 220-yards hurdles: J. I. Wendell, Wesleyan University.

Running high jump: Edward Beeson, University of California. Pole vault: S. B. Wagoner, Yale

University. Two miles run: William McCurdy University of Pennsylvania.

Putting 16-pound shot: D. A. Whitney, Dartmouth college.

## Few New Labs In U. S. Sports In Chem. Bd.

Upper Story of Chemistry Building Being Utilized For Laoratory Space For Several Courses

The second story of the chemistry building is still to a large extent in the hands of the carpenters but it is believed by those most interested that the work in progress will be completed within three weeks at most. The north exposure rooms are the ones being changed. The little room in the north-west corner, which was former y used by the department of food and drug control for a museum, is being equipped with lockers, desks etc and will henceforth be used as phys ical chemistry laoratory. This course s given by Dr. Jacobson.

The room adjoining it on the north side of the building is being outfitted with all the necessary equipment for a laboratory to be used by Prof. Si Ross in his courses in soil analysis and agricultural chemistry.

The next room is part of a suite of rooms formerly used by Dr. Maxwell Adams as part of his stock rooms This is being cleaned up and outfitted for a laboratory to be used by students in organic chemistry and the room adjoining, the room in the north-east corner of the building, is being fitted up especially for the use of students doing their thesis work in chemistry as a laboratory. A hood will be built in the wall between these two rooms so that it will be convenient to workers in either laboratory.

## niversity of Pennsylvania. 300-yards run: M. W. Sheppard. Dairy Building Will Be Ready

Prof. Scott Expects Dairymen From Widely Separated Districts To Visit the College

Prof. V. E. Scott, in charge of the dairy short course which will begin a week from Monday and will extend over a period of five weeks, said today that a satisfactory attendance at the course seems likely since 10 have signified their intention of taking the work. These have not formally signed up, but have said that they will be present. Six would be considered a fair dairy class.

Following the dairy course a week of general farm instruction will ensue, and it is expected that many will take advantage of the lectures of that

Statements of intention as to taking the dairy course have come from such widely separated points as Yerington, Fallon and Elko. Work is being rushed on the dairy building. The power is now in and during the coming week the interior work will be finished and Pole value: S .B. Wagoner, Missouri the machinery placed in working or-

## Some Banquet Of Engineers

Dinner At Dining Hall a Fitting Ending to a Great Conference

Employers, employes and business men who had been attending the Safety-First conference at the University of Nevada, met at the banquet board in the university dining hall at 6 o'clock last night. Representative ones among those present were called upon for addresses and with these after dinner remarks the formal program of the conference was brought to an end. Following the dinner, those delegates who held tickets took the special train that carried out the headlight tests.

In addition to a plentiful and varied menu with roast turkey as the central the then impending storms that later feature, those at the banquet enjoyed delayed delegates. during the dinner hour selections by the Glee club and the University of fact that railroad executives have Nevada college yells which came at been preaching safety for many years. intervals. The Glee club occupied one He then referred to the Southern Patable and the members of the Univer sity Engineers' club, whose annual meeting it was, were seated at another for automatic block signals; \$1,500, The room was filled with

#### Regent as Toastmaster

Dr. J. E. Stubbs opened the pro gram, calling attention to the fact that it called upon Regent C. B. Henderson to preside as toastmaster. Regent Henderson could not be present, how ever, and Regent A. A .Codd accept ably filled the position.

Mr. Codd declared the regents of the university have enjoyed the greatest possible co-operation from the students in endeavoring to build up of trackage, while another set of 2,286 the institution, and said he felt the Safety-First conference has been a connecting link between university and business interests. He asked the co-operation of business and professional men of the state in making the University of Nevada the greatest institution of its kind in the west.

In responding to the first toast Governor Tasker L. Oddie expressed the hope that the safety-first movement inaugurated at the conference will grow and bear fruit. He referred to the university men who have climbed to high positions and said that safety first can be carried out largely through the engineering students of the university

Edward F. Lunsford, city attorney, spoke briefly on behalf of the Tpyographical union of Reno. He was foliowed by Jack Brennan, a graduate of positive terms to the trend of legislathe apprentice school at Sparks, who tion, opposing headlight, boiler and referred to the safety-first idea as the full-crew legislative projects as they noon, February 4, in the rooms of ideal of union men for many years. have been advocated. Particularly he He spoke of special legislation which condemned very high-power head- ics," Stewart Hall. he believes is needed.

#### Praises Prof. Scrugham

Prof. J. G. Ccrugham , moving spirit in started applause that lasted several minutes. He praised the university for having brought together the great power of those who employ and the great army of those employed. rought forward again the idea expressed during the conference Thomas M. Fagan, president of the Tonopah Miners' union, that it is not so much the laws which are in force as it is how they are obeyed, which promoted safety. He closed with a reference to the great opportunity for sity, who made acknowledgement for safety work opened up by the confer-

Southern Pacific Official Speaks R. J. Claney of San Francisco, as sistant general manager of the Southern Pacific company, expressed the regrets of his chief, W. R. Scott, who started for the conference, but turned back at Stockton on receipt of news of

Mr. Clancy called attention to the cific company's safety work and tremendous expenditures of \$3,400,000 000 for interlocking block signal plants; \$1,400,000 for crossing signal ystems and \$262,000,000 in 16 years for all purposes

Mr. Clancy referred to the right of eminent domain as a safeguard for the orporations.

Taking up the Harriman safety medal won by the Southern Pacific company, he said that 3,194 surprise tests in 1913 showed a safety percentage of 99.56 per cent over 6,300 miles tests showed 100 per cent perfect. These tests indicated, he said, that the Southern Pacific has the cream of the is no reason why the Debating society railroad employes of the country and should not be financially independent ought to be willing to pay well for

#### Public as Investors

He divided railroad investors into four classes: employes, general public, stockholders and bondholders. He de clared that the public has all the advantages of ownership without money investment or responsibilities and cught to reciprocate by being willing to give stockholders and bondholders a fair return on their investments.

William E. Wallace's work as member of the Nevada industrial commission was praised by the speaker.

Mr. Clancy paid his respects in very

than of safety. He also denied that the railroad tariffs are responsible vada supreme court, made an eloquent for the high cost of living, being very address in which he paid tribute to small when divided into parts proportional to each hat or pair of shoe the Safety-First conference, which transported. He declared that putting an end to wasteful extravagance and competition that forces the duplication in effort, and to return to the old system of growing hogs and cattle on individual small farms would reduce

the high cost of living. "All the railroads ask," said Mr. Clancy, "is a fair deal."

J. H. Linn of Topeka, Kan., representing the Santa Fe railroad, was the last speaker with the exception of Dr. J. E. Stubbs, president of the univerthe university of its gratification at the success of the Safety-First con-

#### BOOSTING FOR

UTAH DEBATE

tractive and convincing manner, will mark the birth of literary sucess among the students, and it will show Professor Turner, our president and the regents that the university appreciates their interest in student activity and broader development.

Debating is not a thing for a few to enter, it is something which will help a man all his life. The founders of this society, recognizing that the establishment of a literary organization would tend to help Nevada by its su cess, have put into its constitution tha every undergraduate student of the rublic, rather than as a privilege of university is eligible to membership We hope to make debating and liter ary work a success and in order t do so we must have the support the students and there must be a large number of candidates for the team.

The regents have signified their in tention of backing this society-ever financially if there be need of it. If however, the students will help, there he expressed the belief that the people Here is another chance for Nevada Spirit. Get in and work! Talk things up! Heave Nevada!

At the recent meeting of the De bating society the following officers were elected: Henry Wolfson, pres ident; "Sol" Cazier, vice-president Miss Jene Bartholemew, secretary Lyster Withers, business manager and Prof. Turner, director. There will be a special meeting of the society on Wednesday eve at 7 P. M. in room 6 Morrill Hall for the purpose of mak ing final arrangements for the Utah-Nevada debate.
