## LABOR DAY MEET MACKAY FIELD STUDENT BODY MEETING FRIDAY

Yell Practice on the Bleachers Friday Afternoon at 4:30-Be There

### Debating Club Holds Meeting

First Gathering of Popular Club Discusses and Views Plans For Ensuing Year

### PROFESSOR TURNER TALKS Individual Effort to Be Watchword For a Lively Year

Debating activities at the University opened on Monday night with a small but enthusiastic meeting in room six of Morrill Hall. President Withers called the meeting to order and the names of those present were listed by the business manager as the first members for the coming year. All officers were present but the minutes were not obtainable and new business only was considered.

Mr. Turner was called upon to give suggestions and outline the work for the coming year. He first discussed preparation for the coming debate in the spring with Brigham Young University. A joint debate between members picked from the debating society was proposed. Mr. Turner stated that Brigham Young University being a good distance away there was little danger of betraying our arguments and methods. Such a debate would furnish a splendid tryout, arouse interest and enthusiasm and provide a means of raising much needed money.

Personal activity is needed among the members of the society. They have succeeded in giving entertainment of a lighter sort such as songs, reciting, etc. But the prime object of a debating society is to teach its members to express ideas of their own in a clear, concise way. If this is not attained the effort fails. Mr. Turner laid stress upon the necessity of each member of the society taking a part in the speaking and learning to think on their feet. So far only a few of the members have made an effort at extended public speaking. These few must needs be increased to include all the membership.

The debating society furnishes an outlet for the interest and energy of those students who do not incline toward athletics. The accusation has been made that the students devote their attention to athletics to the exclusion of other forms of student effort. Here is a line of exertion for those who feel that way. It is not true that too much emphasis is laid upon athletics, but it is true that too little emphasis and attention is given by students to other lines of activity. The ideal situation is where all things receive due attention.

President Withers closed with a short talk for the good of the society. He laid especial stress on conceiving plans for meeting future expenses. The society in sending a team to Utah will incur an expense of about \$150. Some way of meeting this expenditure must be found. He also laid emphasis on the need of increasing the membership of the society.

Attention is called to the scholarships or prizes announced by the board of regents in connection with debating.

## Buy An A. S. U. N. Card

If you haven't bought an A. S. U. N. card from treasurer Ogilvie making you a member in good standing, of the Associated Students, find him at once and buy your card.

It will cost you \$4.00 and its worth more to you.

It will admit you to all the Basketball, Football, Baseball games and to the Track Meets. It will give you a vote in the Studentbody, and a vote in the student affairs at the U. of N. If you do not care for these, buy a card and show that you appreciate the fact that you are able to obtain the best of an education, absolutely without cost, at our institution.

George Ogilvie, the treasurer, can be found in the registrar's office every day.

### Engineers Club Manages Contest

First Mine Rescue Contest of State to be Held on Mackay Field

### 17 TEAMS ARE ENTERED Interest in Event Is Statewide Teams Are Practicing Daily

Monday, September 7, 1914 may well be marked a red letter day in the history of the University of Nevada, for at that time the first state field meet and mine rescue contest will be held on the athletic field. The meet is to be held under the auspices of the Engineer's club, the Central Trades and Labor Council and the United States Bureau of Mines, the American Red Cross Society and the Nevada Industrial Safety Association. The program will include first aid contests and mine rescue contests, field events, the first football game of the University of Nevada and a dinner by the Engineer's club to the visiting teams and their directors and officials of the meet and members of the press. There will be a band concert on the colonnade, beginning at 1:30 p. m., and lasting throughout the afternoon. The committee in charge wish it distinctly understood that no admission fee of any kind will be charged, either for the events of the morning and afternoon or for the dinner in the evening.

The contest bids fair to attract many visitors to Reno as already reduced rates have been announced for the day on all the railroads into Reno.

The personnel of the teams that will be seen on Mackay field on Labor day are as follows:

West End Consolidated Mining company, Tonopah—E. P. Allen, captain; Claude Kenner, L. F. Puncocchar, Ray W. Richey, Bob White, E. M. Bateman, substitute.

Tonopah Extension Mining company, Tonopah—D. A. McLeod, captain; James Spitzer, Alvin Adamson, Gus Anderson, D. N. Nolan, William Anderson, substitute.

Tonopah Belmont Development company, Belmont—J. Burkhardt, E. Cole, two others yet to be chosen.

Tonopah Mining company of Nevada, Tonopah—G. C. Spitzer, captain; W. J. Green, A. G. Nottle, W. Wood, one to be chosen.

Nevada Consolidated Copper company, Copper Flat—John C. Metcalf, captain; P. Friel, W. J. Murphy, J. Hyland, D. Johnson.

Nevada Consolidated Copper company, McGill—L. A. Nink, captain; E. D. Leveridge, A. Robertson, D. D. Duval, H. James.

Goldfield Consolidated Mines company, Goldfield—C. C. Cowan, captain; Dennis Vilos, Ed Walsh, Ernest Skewes, Joseph Carmody, Can Harrington, substitute.

Virginia and Truckee railway Cliff O. W. Dresser, Charles Brulin, William Surbaugh.

Nevada Northern railway company, East Ely—Wm. Springer, R. E. Miller, J. S. Watson, J. Bookley, P. August. Southern Pacific company, Sparks—A. M. Finn, captain; E. W. Jones.

Continued on Page Six

### Miners Offered New Subject

#### NEW APPARATUS PERMITS ADVANCED SUBJECT TO BE TAUGHT

A new piece of equipment in the already up-to-date laboratories of the Mackay School of Mines affords an opportunity for the miners to take a course that as yet is little taught throughout the mining schools of the country. The instrument is known as a metallagraphic microscope and was imported from Germany. The essential features of the machine are: An electric arc with carbons fitted at right angles, an arrangement of lenses and focusing devices. The machine will be used in the study of opaque ores. There has been little attention paid as yet to this important branch of the study of mining and Professor Lincoln intends to make full use of his machine at Nevada. An instance of the value of this machine may be had from the fact that the best process of the cyanidization of auriferous ores may be determined by a study of the ore under the metallagraphic microscope. The size of the gold and character of the ores are easily determined.

Another interesting use that may be mentioned is the determination of the amount of carbon in the various steels. The steel to be examined is placed on the plate, the light is adjusted and the various glasses inserted. Then the carbon in the steel shows up in the field in strands colored different from the rest of the field. The course under Prof. Lincoln will doubtless attract much attention for already two graduate students, one professor and two seniors are registered for the work.

In the interest of Nevada agriculture, Prof. C. S. Knight, dean of the agriculture college, toured the state and interested the farmers in the university extension work.

Miss Elizabeth Evans of the class of '02, teacher of history in the Reno high school, was married on June 17th to Dr. J. LaRue Robinson. They will live in Reno.

### Students Hear Old Traditions

#### PRESIDENT AND PROMINENT OF A. S. U. N. TELL WHAT IS EXPECTED

Newly registered men and women met in the gym last Friday morning to meet a few of the more prominent upper class people, and to join in a general discussion of student affairs and responsibilities. The meeting was held under the auspices of the the A. S. U. N.

Many topics of real live interest to all the students were brought up and for the benefit of those who were not invited a short recital of the proceedings may not be amiss.

After a short introductory talk by President Walker of the Association, Dutch Dessor made a short talk on College Spirit. From the wealth of his experience as a live student Dutch

### Punch the Clock In Mechanic Arts

#### AL PRESTON HAS TIME CLOCK INSTALLED—AID IN KEEPING TRACK OF MECHANICS

One of the improvements to catch the eye of the students returning to Nevada is the clock system installed in the mechanical engineering, forge and wood shop class. The timekeeper is an international time recording clock and is of the same model as is used in the large manufacturing plants of the country. The system is called the two-case plan. On the left hand side of the clock is a case which holds the card and number of every student taking the courses. Before the laboratory opens the case is unlocked. As the students come in they remove their cards from the left hand case, put them in the clock and punch them, thereby recording the month, day and hour. The cards are then placed according to their numbers in a clock on the right hand side. When the laboratory period is over the students reverse the operation beginning at the right hand case.

By this plan the instructor is able to save much time, a glance at the cases gives him a record of the attendance and the punctuality of the workers. As the shop has fifty-four students on Saturday morning, the efficiency and economy of the system has a good opportunity to be demonstrated.

#### MOVEMENT FOR ANOTHER MUSICAL ORGANIZATION IS STARTED

A movement is on foot to form an orchestra of Nevada students. It has been some years since the university boasted a musical organization other than the bard and glee clubs. A number of musicians are registered on the hill, and they are hereby requested to send in their names to Claude Wheeler. Should the plan of the orchestra mature an effort will be made to have them play at the college dances, besides giving a few entertainments of their own or in connection with the glee clubs.

## EDITORIAL

"Now is the time for all good men to come to the aid of the party." This old practice line for the neophyte at the typewriter contains a summons that may well be heard by all Nevada men. Changing the text a bit: "Now is the time for all good men to come to the aid of the team." It is your team and the Nevada team. To many people the progress and worth of an institution is judged to a great extent by the athletic ability of its teams. Now is the time, the ability is here. It is literally "up" to every man of size in the university

to get out and play football. If you are not of sufficient size to play the game you are big enough to watch it. If you fall in the latter classification it is your duty to be present on the side lines every night and by your words and activity encourage the fellows in the suits.

We have a good coach who is entitled to the individual support of the whole college. Without it he can do nothing; with it, a winning team can be developed. "Now is the time for all good men to come to the aid of the party."

## Nevada Relics For State Exhibit

PEOPLE CAUTIONED TO USE CARE IN SENDING HISTORICAL ARTICLES FROM STATE

The Nevada Historical Society notes with some anxiety that the curator of the Golden Gate Park museum is in Nevada to gather additional specimens for the Nevada collection at that place. It is understood that the exhibits to be collected will form part of a permanent exhibit and will also be shown at the Panama Exposition.

It has frequently been found that articles submitted by private parties to great national and international expositions do not receive as much care and attention as they would were they shown under the name of a recognized club or association. The state of Nevada owns and maintains a Nevada Historical building for the preservation of articles dealing with Nevada's history and development. The people of our state have been urged to preserve articles and send word to the society where and how they might be secured. The benefits and good of a collection of Nevada relics is impossible to estimate so the loss of articles to the state is likewise unable to be computed. A plan has been suggested that would if followed, protect Nevada exhibits fully and at the same time permit their exhibition at other places than Nevada. It is to send Nevada exhibits to the Nevada Historical Society and let them there be registered and exhibited, then they may be loaned to other exhibitions. The value of the article and its history is not lost to the state and its return is guaranteed. People who have Nevada relics are

## Rescue Car For Nevada

MINING COMPANIES OF STATE INTERESTED IN HAVING NEW CAR SATIONED AT U. OF N.

During the summer when the Red Cross car and the Mine Rescue car which now occupies the siding in the railway yards, was quartered in the many mining camps of the state, regret was frequently expressed that the car could not be permanently located in Nevada.

Acting on the expressions of opinion and the evident need of such a car in Nevada many prominent mining companies and well known individuals petitioned the Department of the Interior to station the Mine Rescue Car that is in the course of construction in Nevada. The movement for the car for Nevada has been started and whenever it has been mentioned has secured the endorsement of all. At this time the files of the office of the secretary of the bureau of mines and the secretary of the interior hold telegrams and letters from Senators Newlands and Pittman and Congressman Roberts that urge Nevada as the base from which the new car should work. Reasons for the selection of Nevada are logical; first Nevada is a great mining state; second we are in the center of the mining section of the country; third, railroad connection both in the state and with other states are very easy with Reno as the headquarters. Should the Mine Rescue Car be stationed in Nevada, the University has assured officials that it urged to follow the plan outlined above if they permit the articles to leave the state.

## Delta Deltas Entertain Girls

THE BACON HOME ON VIRGINIA STREET IS SCENE OF CLEVER ENTERTAINMENT

Delta Delta Delta entertained Thursday evening at a party which departed from the usual style of evening affairs and took on an original an exceptionally clever note. It was a cabaret party and the Bacon on N. Virginia street was the scene. The guests upon arriving were met at the door by a dainty little girl who directed them upstairs where another wee miss removed wraps and performed a maid's duty to perfection. After chatting in the living room for a few moments, the cabaret "patrons" were ushered into the dining room where small tables were arranged, each having shaded candles, and menu cards. White capped and aproned waitresses with pad and pencil took orders and those ordering had not the slightest idea of what they were getting until it was brought to them. For who could tell that "Mixed Insertion," as it was printed on the menu card, meant a sandwich, or that "Spring's Offering" was mints? During the courses the entertainers, Dorris Taylor, Elsie Humphreys, Edith Mack, Ruth McKissick in fancy costumes, sang, danced and brought with them merriment and fun. Bon-bons were distributed by the dancers, and when these were pulled apart each girl donned the enclosed paper cap blew the whistles and made a general "racket" with the toys. Tri Delta's songs were sung, and all stood to "U. of N. so Gay." The evening was ended by a dance after which the following bid good night to "Tri Delta Cabaret": Adele Norcross, Vira Calhoun, Pauline Donlin, Belle McMillan, Dorothy Hempton, Emma Singer, Vivian Butler, Grace Cox Duffy, Eleanor James, Georgie Young, Phoebe King.

## Clark County High Notes

**WILL OPEN SEPT. 8, WITH ADDITIONAL TEACHERS AND NEW SUBJECTS**

Clark county High School will open September 8th, for what is hoped will be the most successful year of its existence. The board of education has taken great care in selecting a corps of instructors who are truly qualified to give the pupils the very best of training in the various branches of high school work. Some additional courses have been added so that this school can now offer great advantages in training the young.

Bernard Street, the principal, is from Ely, Nev., where he was in charge of the high school. He is splendidly adapted to the work. In addition to his work as principal, Prof. Street will conduct the classes in science, manual training, athletics, etc.

Evelyn M. Sinn, who made an excellent record in her work last year has been re-engaged. She will teach mathematics and history and will again have charge of the girls' dormitory.

Bertha E. Rich, originally from Sauk Center, Minn., but who was associated with Prof. Street in the Ely school, will have charge of the classes in German, Latin and sewing.

Irene Cunningham, of Bloomington, Ill., will teach the branches of English, cooking, physical culture and expression. She comes highly recommended.

J. F. Mayes, of Emporia, Kas., has been secured to take charge of the Commercial department. He will give instruction in bookkeeping, typewriting, shorthand and commercial law.

Considerable additional equipment has been purchased for the school this year, including four sewing machines for the sewing class, cooking equipment to accommodate twenty-four girls working in two divisions, and equipment for twenty-four boys in the manual training. It is the intention also to do something in the way of gymnasium equipment this season.

Field and track athletics will not be neglected. In this, Clark county has a decided advantage over the other schools of the state, owing to its excellent climate. It is clean living and quick thinking that makes real athletes and it is along these lines that Clark county hopes to win.

### CURRENT CHATTER

American shoes find ready sale in China.

Atesian water has been found and tapped in Tripoli.

Germany is growing 1,342,420 acres of sugar beets.

Hong Kong last year sent \$1,632,213 worth of tin to the United States.

Fruit canning is being extensively undertaken in South Africa.

Calgary, Canada, is preparing to entertain 6,000 delegates to the convention of the Brotherhood of Locomotive Engineers and Firemen, to be held here in August.

### BY OUR STIFF POET

I went down town to get something to eat,

For I was hungry from my head to my feet.

I bolted a doughnut,

And scraped up the grease,

And handed the waiter a five cent piece.

### MOTOR WORLD WELCOMES MONOCAR

One of the latest inventions in the motor world of the United Kingdom is that of the monocar, or girocar, by Dr. Pierce Schilowsky, a Russian lawyer. The principle of the gyroscope has been applied to the ordinary motor chassis, especially adapted to carry heavy loads, and the success of recent demonstrations has occasioned a great deal of interest among motor owners. The gyroscope consists essentially of a heavy flywheel rotating on bearings within another wheel placed about midway of the length of the chassis.

The world's production of zinc last year, estimated at 1,103,359 tons, was the greatest on record, according to United States geological survey figures.

### MARK FOR GIRL SWIMMER

Philadelphia, Sept. 3.—Miss Louise Debus, a local high school girl, swimming under the auspices of the Philadelphia Turngemeinde broke the best authentic record of women over the five-mile course in the Schuylkill river. Miss Debus covered the distance which is in dead water, in two hours and forty-eight minutes.

Ten-year-old Florence McLaughlin swam nine and one-half miles in the Delaware river in 3:22:25.

### LIFE IS SWEET

A shady nook, a little miss,  
A moonlight stroll, a stolen kiss,  
A fond farewell and she is gone,  
Another girl,—and life goes on.

## Alumni Will Be Represented

**FORMER ALUMNI STUDENTS RETURN TO PARTICIPATE AND JUDGE EVENTS ON CAMPUS**

J. A. Carpenter, '07, mines, expects to be present for the field meet on Labor Day. Mr. Carpenter is the mill superintendent of the West End Consolidated at Onopah and will act as an official at the meet.

I. A. (Jap) Hart, '06, popular Nevada graduate will be in for the field meet and may take his old position in the football game. Hart was the captain of the first rugby team at Nevada and knows the game from end to end.

Emmett D. Boyle, '99, C. E., recently nominated on the democratic ticket for Governor of Nevada, will act as a judge in the mine rescue contest and will address the banqueters in the evening as an alumni.

R. A. Hardy, of the class of 1910, superintendent of the Nevada Hills Mining company will serve as a field official on Labor Day.

P. A. McCarran, '01, Justice of the Supreme Court, will act as speaker of the day and address the meeting in the dining hall.

United States annually consumes 350 pounds of wheat and wheat flour per capita.

Among the poorest paid workers in the whole of Europe are the Sicilian farm laborers, whose average weekly wage amounts to less than fifty cents.

Two cents is not sufficient to carry a letter to South America, although many correspondents make the error of supposing that this is the rate.

He looked at the nickel,  
And said, "Oh, Mister, can't you see?  
There's a hole in the nickel,  
And its clear through."  
Said I,  
"There's a hole in the doughnut too."

**NEVADA HORSES \$78 A HEAD**  
According to statistics of the United States department of agriculture, the average price of Nevada horses is \$78. There are 76,000 head in the state, aggregating a valuation of \$5,828,000.

### 504 AMERICAN TOURISTS ARRIVE NEW YORK PORT

NEW YORK, Sept. 2.—The Cunarder Carpathia with 504 passengers, nearly all of them American tourists, reached New York this afternoon from Malta, Messina and Naples.

At Naples the Carpathia was made over, so far as her passenger accommodations were concerned, all space being made into one class. Her funnel was painted lead color and other changes were made to disguise her appearance. By night, during the trip across the Atlantic, she traveled dark. The voyage was made without unusual incident.

## Students Hear Old Traditions

Continued from Page One

drew many a pointed moral. He showed clearly the meaning of College Spirit in the words service and loyalty, and differentiated between the outward sign—yelling and boisterousness, and the real worth of conscientious effort for Nevada's good.

Louis Rose spoke on the the students ability in advertising the university to outsiders. He demonstrated the work of the Glee Club and of individual students in their words throughout the state, and made an appeal for the right kind of advertising to the right kind of people. In a fatherly manner Rosie also pointed out the value of sane actions about town, in making the university well liked.

The women's case was plead by Dorothy Bird. Dot took up women's activities singly and separately and

made known to the smallest detail how a woman may make herself a real force in student affairs.

Harvey McPhail made an appeal for athletics. Football occupied the larger part of his talk, but Harvey made no bones about encouraging students to jump into all that they were in any way fitted for.

The subject of traditions was presented by Tom Walker. Those matters which no freshman can escape—such as wearing caps—painting the "N", etc., were merely mentioned. The sentiment of the student body in general against elaborate functions in the gym, the buying of flowers, and the use of taxis was presented. It was urged that the classes look well to their organization to keep it close and harmonious. An appeal for solid membership in A. S. U. N. was also made.

The meeting Friday was an innovation. It is hoped that a precedent has been established, for too many capable, high spirited students fall in student affairs through being ill advised or misinformed.

## Y. W. C. A. In Conference

NEVADA DELEGATES TALK OF PLEASANT TIME AT CALIFORNIA RESORT

The second conference at Asilomar, the Y. M. C. A. grounds, was held from August 4 to 13th. The different colleges and universities of California and the University of Nevada were represented by delegations of from two to fifty. Nevada, we are proud to say, had a larger per cent of delegates according to members than any of the other universities. "We" were fourteen and were Ruth Miller, Dorothy Bird, Vera Lemon, Vivian White, Ethel Brown, Dorothy Morrison, Eva Wilker, Elsie Farrer, CCarna Damm, Josephine Williams and Gertrude Shade and Miss Winnifred Wygal, Y. W. C. A. secretary at Nevada, Miss Grace Day, Professor of Education and a member of the Association's Advisory Board, and Miss Helen Fulton, a member of the Field Committee.

The central theme of the conference this year was "Christian Ethics on the Campus." Through every part of the program, whether it was Bible Study Class, Technical Councils, where the young women talked over the activities and needs of their own universities, or the meeting with the leaders of the conference, people of wonderful personality and ability, the delegates received new interest and purpose for their coming college year.

The mornings were taken up in Bible and Mission study classes. The Bible study classes were taught by some of the prominent theologians of California, among whom were Rev. Ray C. Brooks of the Pacific Theological Seminary at Berkeley, Rev. Tully C. Knoles student pastor at the University of Southern California and Rev. Ryland Knight, pastor of the First Baptist Church at Clarksville, Tennessee, who has already been a most popular leader at the Y. M. C. A. conferences from North Carolina to Colorado. The mission study classes were conducted by women who are either in foreign or home missionary work, and consequently were full of vivid examples from their own experiences. Miss Margaret Mathew, who visited the Nevada Campus last year and whom many know gave an interesting account of her travels and work in Japan. A series of addresses were given by the Rev. Harris Ball, president of the Iliff School of Theology, Denver. In these talks, he certainly met the needs of the delegates as college students.

In the afternoon the delegates indulged in various recreations. There were a hundred and one things to do. The splendid location of the grounds made it possible to walk to Pacific Grove, only a mile away through the woods, to the Hotel Del Monte with its beautiful grounds, Point Pinos Lighthouse, Joe's Point and other haunts of Robert Louis Stevenson. Nevada's delegates saw most of these and more, too, for one afternoon they with other delegates enjoyed the Seventeen Mile Drive in the "rough and ready" automobile stage at Asilomar.

At dinner time, college songs and gay repartees went back and forth. "U. of N. So Gay" and "Rah Rah Nevada" were sung, full of spirit and loyalty. Then the Nevada delegation sang too, a song of their own to the popular tune of "Mandalay." "Asilomar, Asilomar, Nevada girls bring greetings from afar We thank you for your welcome here To your campus by the sea We're loyal to the silver and the blue Because we love our Sagebrush College true, so— Asilomar, Asilomar, Nevada says 'hello.'"

### COST OF UNLOADING REDUCED

The cost of unloading coal from vessels into elevated coal bunkers or storage piles has been reduced by the New York Edison company in New York City, from more than 25 cents a ton originally to a present cost of not more than 2 cents a ton, where trimming in the pile or bunker may be left out of the question. This according to George A. Orrok, M. E., is the result of an extensive study of the question of coal handling on piers and involves mechanical handling equipment properly designed for this purpose.—Power.

MARRIED—Mr. Carl Michael Horn to Miss Fannie Emma Lovett, at Hattiesburg, Miss., June 25, 1914.

## Lincoln Hall Selects Mayor

DORMITORY HEAD APPOINTS STAFF TO MANAGE THE HALL FOR 1914-15

At a meeting of the upper class men of Lincoln Hall, the mayor who will direct the hall for 1914-1915 was selected. The choice fell upon Elmer Wiley, a senior this year in the mechanical engineering. To assist him in solving questions of discipline, should they arise the mayor has appointed E. Bouchert, I. Van Dalsem, T. G. North, George McCreery and Glenn Engle. The iniation to held soon will be viewed for the first time by members of the hall only.

### DINNER STORIES

The Rev. James Hamilton of Liverpool, while on a holiday in Scotland, had a narrow escape from drowning. Accompanied by a boy, Mr. Hamilton was fishing for sea trout when he slipped on a stone, lost balance, and, being encumbered with heavy wading boots had great difficulty in keeping his head above water. Finally he managed to get back on the shore, although in a very exhausted state, and said to the boy:

"I noticed you never tried to help me."

"Na," was the deliberate response, "but I was thinkin' o't."

"Brown is financially weak, isn't he?"

"He hasn't much money, but he gives employment to a great many men."

"Who are they?"

"Other people's bill collectors."

The little boy was evidently a firm believer in the old adage, "Of two evils choose the least." Turning a corner at full speed he collided with the minister.

"Where are you running to, little man?" asked the minister, when he had regained his breath.

"Home!" panted the boy. "Ma's going to spank me."

"What!" gasped the astonished minister. "Are you so eager to have your mother spank you that you run home so fast?"

"No," shouted the boy over his shoulder as he resumed his homeward flight, "but if I don't get there before pa he'll do it."

Mary, the domestic servant employed in a suburban household, the members whereof are not on the most amicable of terms, recently tendered her resignation, much to the distress of the lady of the house.

"So you are going to leave us?" asked the mistress sadly. "What's the matter, Mary?" Haven't we always treated you like one of the family?"

"Yes, ma'am," replied Mary; "indeed you have, and I've stood it as long as I'm going to."

### "BE A MAN LIKE FATHER"

In the Woman's Home Companion Mary Heaton Vorse, writing a story entitled "His Manly Dignity," comments as follows, on the practice of urging small boys "to be a man like father."

"From earliest infancy they implore their boy children to 'be a man.' That glorious goal is pointed out to a boy baby from the moment he can understand anything. He is not only told to 'be a man' but to 'be a man like father.' I often wonder how the fathers bear it; I often wonder how they can stand there, apparently so smug and contented, when this ideal of conduct is suggested to their innocent babies. Don't they really see themselves. I wonder? Arn't there some of them, at this, who have a sudden beneficent impulse to exterminate their own sons if the feat of growing up to be a man like father is all that awaits the innocent before them? How can they bear the adoring gaze that their little sons fasten upon them?"

"Some little boys have a trick of looking so much like real men with all the qualities that we love to think of as belonging to the most manly of men than than growing men do. I have seen them stamping down the street, still in skirts; and a man in the fullness of his powers couldn't have better exemplified finer masculine traits.

"No one tells little girls to hurry up and 'be a woman like mother.'"

If you break your eyeglasses, Dr. John B. Koch, the optician, will replace them, while you wait, at R. Herz Bro., the jewelers.—Advt.

## Sophomores Win Stratagic Battle

UNDERCLASSMEN CARRY CANE 100 YARDS IN ONE MINUTE —WIN PRIVILEGES.

Another simple little exhibition, showing the advantage of brains over brawn, was staged on Mackay field last Monday. At one end of the field the Sophs, only twenty-five strong, were bunched compactly together, waiting for the signal. At the other end were the Fresh; some were not very frightened (at least they said they weren't), as they strolled unconcernedly about, only seventy-five of their number being present. These odds apparently did not dishearten the Freshmen in the least; many of them ventured to say they thought they might win. A few more playful Fresh hunted for daises and played around like nice little children quite unaware of the guile that was about to be practiced upon them.

The pistol shot sounded, and both classes lined up; the cane was waved over the Sophs heads and dissapeared juts before the final gun sounded. Both classes charged; they met in mid field with a bump that dislocated the exhaust valve on the Mackay building seismograph and promptly proceeded to sit on each other. Frantic Freshmen rushed hither and yon, eluding Sophs, much as the papers tell us the Germans did the Irish at the battle of Pneecknucksl. The battle ended quickly, however. Rice, one of the Sophs, had received the cane after the gun sounded, and since he was dressed in ordinary street clothes, he was not molested as he ambled down the field. After sauntering calmly over the line with the cane, he readjusted his glasses, flected a mite of dust off his coat sleeve, and waved the cane languidly over his head. Only a minute had passed since the start of the combat; the Sophs were victorious and the Freshmen once more humbled. One of the babies averred it was a put-up job; why everybody on the field had canes, so how would he know which one to grab? Verily, it was a tough proposition. The Freshmen put up a good fight, but they were altogether outclassed by the strategy of their opponents.

A revolver which has been designed for the nervous woman to carry in her vanity bak is probably the smallest weapon of its kind in the world. From the tip of the hammer to the end of the barrel it measures about three inches, and it fires a steel bullet about twice the size of a pin's head.

The management of last year's Artemisia requests that students who ordered books last year see the business manager and pay up for them now. An early call will be appreciated.

If you don't want to be with the largest crowds, don't go to D. C. & W. Co's.—Advt.

## Death Visits Faculty Member

BELOVED FATHER OF MISS MACK IS CALLED BY THE ANGEL OF DEATH

During the past week the angel of death saw fit to remove from his activities, the father of Miss Margaret Mack, of the Hygiene department. Mr. Mack was one of the pioneers of Nevada as he came to this state when only nineteen years of age. Settling in Dayton, he followed his profession of civil engineering. Mr. Mack was a resident of Nevada during the period of the state's great mining excitement and saw many changes in the state's history. Mr. Mack was the father of Thomas, Arthur and Joseph Mack, all former students at Nevada. To Miss Mack and her brothers the Sagebrush extends the sympathy of the college.

Yell Leader Harry Hovey wishes to announce that yell practice will be held on the Mackay bleachers Friday afternoon at 4:30. Nevada men will attend. U. of N.

Much interest has been manifested by the students in the appointment of a president for our institution. Pending the decision by the regents, Prof. Lewers and Prof. Scragham have ably taken care of the work.

Dr. John B. Koch, the student optometrist and optician, at R. Herz & Bro., the jewelers. Lenses ground while you wait.—Advt.

## Summer Trip Of the Engineers

STUDENTS OF CIVIL AND MINING  
ENGINEERING SPENT PROFITABLE, ENJOYABLE TIME

Immediately after the close of the spring semester, eight good men and true, representing the M. E. and C. E. departments of the University of Nevada, set out for the Bluestone mine, near Mason, Nevada, for their biennial summer school work. Leaving Reno on No. 24, the party arrived at Mason about 4:00 the next morn., after a somewhat sad and mournful trip. Nick and Painter spent all their time consoling each other, and were observed to brighten up considerably when the blond person nearby smiled. So much for Cupid.

Arriving at the Bluestone mine the following morning, a camp site was selected. The country in this vicinity is, to say the least, slightly rolling. The view was magnificent; for the first day only, however after the first day, instead of scenery, only geological formations appeared; the cliffs changed to outstanding faults with spoke its little sermon with startling accuracy. To the C. E. men the hills and gullies changed to mere twisting lines on a tiny map, showing the different elevations. Verily, concentration is a mighty scene shifter.

For the first few days only preliminary work was done. Under the guidance of Prof. J. C. Jones, and Prof. Boardman, the M. E. and C. E. parties covered the country to be examined and mapped. Over countless mountains Phillip Schuyler led the way, leaving scant time for the jack rabbits to side track before he passed, with his party in tow.

Then came the real grind. Every morning at six the breakfast bell rang. Everybody arrived shortly afterward minus a shoe possibly, but with a healthy appetite. A half hour later parties of three, each with a certain area to examine, were out in the field with canteen, maps and Brunton. From fossils found previously the age of three formations were easily determined, which made the other time determinations easy. Granovionite dikes protruded everywhere; some were connected with the ore deposits and therefore of importance in the reports which were made every night to the respective heads of each party. Errors were corrected, explanations made, and the territory to be covered the following day was outlined to each party. Then came the only pleasure of the long, hot day. The mine boarding house boasted of a first-class 1890 model graphophone, with a limited number of records. For a half hour or so after supper, haunting Italian airs with now and then "I Wonder Who's Kissing Her now" or some such other irreverent masterpiece thrilled the audience. Invariably the program ended up with a ragtime air and all left for their tents, with the squeaky throb of music still in each ear.

The next chapter in this sad little story treats a bit more of the physical anguish suffered by the bunch. How mosquitoes could get up those mountains three miles in the dark, too, is hard to understand. They surely did however, every night. That is, every night except one Saturday eve, when a dance in town claimed everyone's attention; they must have passed us on the road in their hurry to get to camp. Though the truth may be painful, it must prevail, hence the following: Those who queued in Reno added to their record in Mason. Many a farmer's daughter will remember those soulful dark eyes and long black hair of one; the light haired youth with the drawing speech and engaging manner. The farewells were doubtless touching.

## Y. W. C. A.

Wednesday at 4:30 will be the first meeting of the Y. W. C. A. An interesting program has been planned. Miss Day, La Lourette and Wygal will give short talks. Remember—everyone is invited.

Loyal to tradition the Y. W. C. A. gave its opening function to all college girls on Saturday afternoon.

Under the leadership of Miss Ethel Erann and her clever assistants a very novel party was planned. Manzanita's east veranda was transformed by ferns, rugs and pillows into an inviting reception room. Since the oriental idea was prominent, Japanese lanterns were used as the background for the Japanese girls who served real oriental tea, cakes candies and

Breakfast was served shortly after the tired dancers arrived home, and a holiday was proposed. It was passed by all present.

Rattlesnakes were numerous, and any one of the party would go out of his way to kill one. Let me emphasize the fact that he would go out of the snake's way also; in fact, several broad jumpers were developed in the M. E. and C. E. departments, who should make good material next spring. In fact, one of the best tents the party had was badly damaged while one of the fellows was practicing. He was just about to retire; in some way a purse, slipped out of a pocket and he sat on it. Thoughts of boa constrictors and deadly pythons filled his head, and he left the ground like a bird, stopping for a moment for the wall of the tent and then continuing on his way.

For about three weeks, until July 1st, the camp routine continued. About four square miles of country was mapped in surrounding the Bluestone mine; the underground workings were examined and surveyed, giving the men practical work obtainable in no other way.

Those taking the trip were Cowgill, Parsons, Neeld, Painter, Dondoro, McQuisten, Smythe and Healy with Prof. Jones in charge of the geological division and Prof. Boardman working with the surveyors.

nuts. About a hundred guests responded to the invitation and listened "enthralled" to the musical performance rendered by a concert company who for the first time appeared on this campus. The soulful antics of the director as well as of the great prima donna Mondette Denneskensi, were very contagious so that the full orchestra sawed and pounded with unusual enthusiasm and result. This program which, was so much enjoyed by all present follows:

- GRAND CONCERT.  
New York Symphony Orchestra led by

## Delta Rho Gives A Pleasant Party

HOME OF MISS RUTH MILLER  
ECHOED TO FUN OF MERRY  
VOICES AND LAUGHTER

On Saturday night the Faculty and the new girls of the University were welcomed at a reception in the Layman Home by Delta Rho. The rooms and halls were decorated with Golden glow and lavender asters, whose tints represented the colors of the Fraternity.

During the course of the evening the guests were entertained by Emma Herz, Ruth Miller, Golda Reilly, Ann Sunderland and Juanita Frey.

At a late hour delightful refreshments were served while Delta Rho songs were sung.

## Debating Club Holds Meeting

Continued from Page One

To the two persons making the team rewards of \$20 and \$35 will be made, respectively. This should be a means of drawing out a large number of candidates for the team. In addition the trip to Utah will be worth working for. Debating ought to have a good year in 1914-15. The ability is present without doubt, and the exercise of it is the only thing needed.

## Engineers Club Manages Contest

Continued from Page One

W. J. Eichelberger, H. L. Hawkins, J. E. Claunch.  
Reno Power, Light and Water company, Reno—Charles Brown, captain; Daniel Laughrin, James Hawkins, T. G. True, R. L. Morris.

Truckee River General Electric company, Reno—P. M. Wentworth, captain; F. H. Wilkie, W. H. McInnis, R. W. Shearer, G. B. Marble.

The following teams will represent the University of Nevada in the State Field meet on Mackay field, Labor day, Sept. 7, 1914.

First Aid Team No. 1.—D. Dessar, O. W. Layman, J. Pearson, La. A. Rose, G. Latapie.

Mine Rescue Team, No. 1.—W. S. Palmer, W. L. Smythe, W. Painter, F. Dondero, C. F. Masters.

First Aid Team No. 2.—P. G. McKinlay, A. Trabert, E. Wiley, E. H. Swain, E. S. Abbott.

Mine Rescue Team No. 2.—H. C. Neeld, W. H. Stickney, T. B. Healy, W. Parsons, L. L. Root.

### Other Events

The mine rescue and first aid contests while being the main events for the day will be preceded by other features of especial interest. The program as outlined opens with a meeting at the State Electrical Association at 9 o'clock in the electrical building. This will be attended by many of the leading electrical and power men of the state, who will present interesting and important papers bearing on those subjects. The transportation section of the Nevada industrial association will hold session at 9:30 o'clock and at 10 o'clock the sports on Mackay field begin under the direction of the Central Trades and Labor council. The first event of the mine rescue contest will be held at 2 o'clock.

At 3:30 a tug-of-war team representing the Building Trades council will pull against the representatives of other unions.

The first game of the University of Nevada football team will be held when they line up at 3:45 against the Alumnae team.

The events of the first aid contest for shop men and power plants will begin at 4:30 o'clock.

The contest between teams from mines in various parts of the state will begin at 5:15. The prize list for the various events will consist of medals and trophies and two silver trophy shields, electric lamps and lanterns, and subscriptions to several technical magazines.

Following the contests, the Engineers' club will be host at an entertainment and dinner in the dining hall at 6:30.

The prizes for the different events are as follows: The American Mine Safety Association offers five medals to the winning team in the mine rescue contest and medals to the winners of the first aid contest. The American Red Cross Society offers four medals and the Nevada Industrial Safety Association offers one medal to the aril-road and power plant first aid contest. The Nevada Industrial and Safety Association.

Officials and committees in charge of the exercises:

Athletic sports: Geo. Townsend, C. W. Farrington, J. Hrachovsky, A. W. Cahlan.

Mine Rescue and First Aid Contest: E. Steidle, H. P. Boardman, F. C. Lincoln, G. W. Riggs, J. C. Jones, J. G. Seingham.

Entertainment Committee: Chas. Haseman, N. K. Barber, G. Engle, G. H. Powers, A. E. Glass, I. Van Dalsem.

Field Arrangements Committee: S. E. Ross, H. McPhail, N. Melarkey, L. A. Rose, E. G. North.

Judges in Mine First Aid Contest: Dr. J. J. Sullivan, Dr. J. L. Robinson, Dr. W. L. Samuels, Dr. H. P. Hartzell, Dr. H. A. Brown, Dr. W. H. Wood, Dr. A. P. Lewis, Dr. M. Boyd.

Judges in Mine Rescue Contest: Ed. Ryan, E. D. Boyle, E. A. Julian, R. A. Hardy.

Judges of Athletic Sports: A. Ward, F. A. Meyer, O. A. Kinkel, M. E. Fonts, G. M. Gray, E. F. Lunsford.

General Arrangements Committee: R. A. Allen, C. H. Kemper, T. P. Walker, H. G. Moore, E. Bouchot.

Inspectors and Recorders: Gov. T. L. Oddie, W. E. Wallace, B. G. McBride, J. Lozaro, Lindsay Duncan, J. A. Carpenter.

Speaker for the Engineers at Banquet: E. D. Boyle, '06 Speaker for Alumni, P. A. McCarran.

You get **Cherrie Cardinal Sundaes** at D., C. & W. Co.'s.—Advt.

**PITCHBLENDIS DISCOVERED**  
The discovery of pithblende in the Columbia river valley near Golden, B. C., has been announced. Radium emanations in the water of a spring in that locality indicate the presence

of radioactive ore, and a deposit of radium is also thought to exist near Fort Steele, B. C. The Vancouver chamber of mines has proposed that a radium institute be founded in Vancouver.—The Pathfinder.
