

## NEVADA PLAYS ST. MARY'S SATURDAY FIRST GAME TO BE PLAYED WITH P. A. A. IN NEVADA GYM

### Special Lectures Farmers' Week

AGGIE SHORT COURSE WILL BE AIDED BY FOREMOST DEVELOPMENT WORKERS.

During farmers' week from February 2 to 6, various prominent specialists are to lecture. Among these, E. P. Hobson, of the United States reclamation service, department of irrigation for western projects, is to deliver lectures which will be accompanied by views of his work in irrigating arid lands in Nevada. He has carefully studied the Truckee-Carson project, and has excellent ideas for the many settlers of arid lands.

On Friday, from 1 to 2:30, and from 5 to 6 Saturday, Mr. W. T. Rich, an Australian wool specialist, is to give lectures and demonstrations on sheep shearing and the scientific preparation of wool from the expert's standpoint.

I. D. O'Donnell, a successful irrigation farmer from Billings, Mont., now employed by the United States reclamation service, is to explain the best irrigation practice, as in use in Montana, which so greatly resembles Nevada in its general conditions. He is a good livestock man, and is up-to-date in all his ideas.

Home economic demonstrations are to be given in the basement of Stewart hall on Wednesday, from 2 to 4:30, by Prof. Bardenwerper. Various articles of diet and their value in the diet will be discussed Thursday, 2 to 4:30; on Friday, from 10 to 11, ending Saturday in a demonstration of scientific house management. It is to be hoped our co-eds attend this session.

### Gold Pins For Block "N" Men

At the last meeting of the Block N society, the treasurer was ordered to procure gold block "N" pins for all members of the society in good standing. The pins are to be about three-eighths of an inch square, polished, and is guaranteed to make the vest pocket of the wearer the most attractive part of his wardrobe. In years past the watch fob and sweater were the only means of distinguishing the point-winners from the also-rans; in the future the neat gold pins will serve the purpose.

### Dean Knight Is Aggie Booster

VALUE OF FARMING AND UNIVERSITY TRAINING IS SUBJECT OF TALK.

In an address by Dean C. S. Knight, of the aggie department, delivered at the Y. M. C. A., the work the University of Nevada has accomplished in the past and is planning for the future along the lines of agricultural development in the state, were treated in a manner that explains the rapid development of this department in the university. The possibilities of the use of expert knowledge of this oldest of occupations, and the removal of prejudice against farming by young men, were the keynotes of the entire address.

Some forty young men interested in agricultural work made up the audience, and after the address asked for further particulars regarding the courses to be given. Extracts from the address, as reported in The Journal, may be of interest to prospective Nevada students, who contemplate taking up aggie work.

**Why Study Agriculture at Nevada**  
"There are many reasons why our boys and girls should study agriculture at Nevada, and the most important may be enumerated as follows:

"In order to be at or near one's own home while taking a college course in agriculture. The agricultural course which can immediately worked out on a home farm is most profitable to all concerned.

"To take advantage of the opportunity of combining both liberal and vocational training in one's college course.

"To show local and loyal appreciation of an agricultural course that is not surpassed elsewhere.

**An Intensely Practical Course**  
It should be understood that the work in the college of agriculture, at the University of Nevada, is intensely practical in its nature. The university farm and other large farms within easy reach of the campus are drawn upon for illustrations of the practical application of agricultural principles. A plan has been adopted whereby no student will be graduated from the four-year university course in agriculture who shall not have demonstrated his ability to do all kinds of ordinary farm work.

**Two-Year Special Course**

"Only a small percentage of the boys and girls of the rural districts find it possible to come to the university and take the four-year course in agriculture and home economics. The college of agriculture is therefore preparing a two-year special course in each of these subjects. These courses will run from four to six months each year and will accommodate the larger class of young people who desire training in agriculture. These courses will not cover the more technical phases of agriculture but will treat chiefly on the practical application of agriculture to the farm and home."

Sale Seaman, Pacific coast secretary of the Y. M. C. A., and Dr. Exner, are to speak at assembly January 29. After the talks a meeting will be held to further the interests of the Y. M. C. A. in the university.

Our old friend, "Squeak" Harriman, is once again in our midst. He is registering in advanced aggie work, and expressed himself as much pleased with the rapid progress in the farmers' department.

Try the new fox-trot Sundae. D. C. & W. Co.

### Mono-Rail Car Given Try-out

CAMPUS IS SCENE OF STRANGE TRIP OF SINGLE-TRACK TRAVELLER

Two exhibits that promise to be a drawing card during the welfare and development conference February 5 and 6, are being tried out by the engineering students in order to be in perfect condition for the final exhibition. The Brennan mono-rail car, which operates on the gyroscopic principle, arrived Saturday, and was given the first try out Monday afternoon. The car complete weighs about three hundred pounds, and consists simply of a truck about four feet long on which the heavy leaden gyroscopes are geared to a crank turned by hand.

On the bottom of the truck wheels are mounted so that they may operate on a single track. When the lead fly wheels are cranked up to a sufficient speed, the car will maintain equilibrium on a track, slack wire, or any object which will not interfere with its free working.

A long steel wire was stretched across the quad, Monday afternoon, and the car started its downward trip. It was safely accomplished, a certain prof. swore he saw a mono-plane sailing smoothly along the air-lanes, so smoothly did the gyroscope work.

The other exhibit which is sure to arouse interest is an electric pump, suitable for common irrigation uses, which may be adjusted to keep water at a given level or pressure, by means of electric devices. The value of a constant level in irrigation work is well recognized, and it is said by those in a position to know, that this pump is extremely practical. It does away with the need of constant watching, which the average pump demands, and gives an even and well regulated flow of water at the will of the operator. As the machine now stands, it is quite a bulky piece of apparatus, and will offer quite a chance to the engineering students to put it in the best working shape.

### Varied Program Is Now Assured

EACH SPEAKER HAS TIME ALLOTTED IN ORDER TO HEAR ALL IDEAS.

Quite a notable addition to the program already published for the efficiency and general welfare congress to be held at the university February 5 and 6 has been announced by Dear J. G. Schrugham.

Senator Key Pittman is slated to present an address on a subject which at the present time concerns the state of Nevada very intimately. Quite recently Senator Pittman introduced a bill in the United States senate, which, if passed, will aid in developing the waste places of the entire state, and also provide additional funds for the University of Nevada. One-third of all funds derived from the proceeds of land developed by this legislation will be diverted to the University of Nevada extension.

Mr. C. V. Jenkins, general manager of the Nevada Consolidated Copper company and the Steptoe Valley Mining and Smelting company, will attend the meeting and give a paper on "Welfare Work in Nevada." The general efficiency of the Ely mining practice is well-known, so that the paper by this authority should be interesting.

H. C. Nutt, general manager of the Salt Lake, San Pedro & Los Angeles railway, is programed to talk on the development of Southern Nevada. Since the railroads, indirectly, are the greatest factor in developing any section, this address should give an insight into the general needs and methods used in promoting the best interests of the state.

All speakers are to be kept rigidly to a 15-minute talk; all breaking this rule will be immediately notified. This seems rather stringent, but is necessitated by the large number of speakers on the program. The general idea of the whole conference is to hear the ideas of many men from varied fields of industry, rather than the specific ideas of a few men, however good they may be. Compliance with this rule will aid the conference management greatly.

### Senior Play Is Planned by '15

OLD CUSTOM REVIVED; COMEDY IS WORK OF CLASS MEMBERS.

At the last meeting of the senior class, steps were taken to revive the old custom of giving a senior play. Due to the prevailing sentiment of "safety first" last year, no attempt was made to stage the annual tragedy, but the class of '15, overflowing with pep and talent (as they themselves admit) are tramping right along where last year's angels feared to tread.

Mr. John Sinai was appointed to select a fitting drama, but reports have it that he favored flitting chorus maidens in various parts, so that an original four-act comedy, written by Miss Dorothy Bird, Laurena Marzen and Tom Walker has been selected. Plenty of thrills and hair-breath escapes are promised; Jack O'Sullivan is to coach the actors, so that a creditable production is assured.

Miss Minnie Frankovitch, who has been quite ill for the past fortnight, is in much better health, and expects to resume her studies in a short time.

### Practice Game Lost to S. A. C.

NEVADA ONE POINT BEHIND AT END OF GAME; SCORE 30 TO 29

In one of the fastest and hardest fought basket ball games ever played before a Nevada audience, the Sacramento athletic club team nosed out a 30 to 29 victory over the Nevada Varsity. Sacramento played a consistent game throughout, while Nevada displayed her true playing ability only in spots. One thing is certain—though the personnel of the team this year is the same as last, the standard of play is considerably lower. While the Sacramento basketers made their points through good, clean throws, fate seemed to rule that Nevada's tries should simply hit the iron ring, balance a moment, undecidedly, and then fall the wrong way.

At the start of the game, Sacramento jumped into the lead, making four baskets in quick succession. Nevada came back strong, however, with Sheehy and Henningsen doing most of the scoring. DeVeltrup, the burly center for the visitors, showed up well throughout the game using his height and strength to great advantage.

At the end of the first half the score stood 18 to 15 in favor of Sacramento. During half time Nevada changed from the blue and white uppers, which were almost identically the same as those of Sacramento, to the gray usually worn by the second teams. Quite an improvement in the play was noticed after the change, since the players were not forced to study the countenance of a man before throwing the ball to him.

With five minutes to play, the score stood 19 to 25, with Sacramento on the big end. Sacramento was awarded a foul, and made the toss, so that the score stood 30 to 25. At this stage Nevada showed some of last season's form, carrying the ball like a whirlwind from one end of the floor to the other with short, snappy passes. Two baskets were made in quick succession, when a Sacramento man was injured, and time was taken to allow his recovery. Twenty seconds of play remained, and two points would win the game! Considerable excitement reigned; all but the cultivated voices were soon in the fog-horn class, when the whistle again starting play sounded. Three short passes, and Sheehy shot a goal; again the whistle sounded, and it was

## EDITORIAL

### COURTESY.

In assembly last Friday, the principal speaker emphasized the practical value to Nevadans, of whatever courtesy or consideration they may show to visitors during the coming conference. There are quite a few who feel the injunction unnecessary; any visitor to the campus in years past can testify as to that. More than mere courtesy, however, must be shown our inspectors during the short course week; every student should make it his personal business to show every stranger the true worthiness of our institution, and make him understand the particular way in which he may further our interests. Lack of appreciation, in the long run, has the same effect as open hostility; it is our duty to remove this lack of appreciation of the University of Nevada, and the chances presented by the coming conference are indeed rare. Make them count.

\* \* \*

Just as a gentle reminder to the powers that be, we have had no student body meeting yet this year.

## MILITARY

January 22, 1915.

Bulletin No. 3.

The following schedule of instruction for the week commencing Monday, January 25, is hereby announced: Monday, January 25—Battalion drill, close order, followed by company drill; blue uniforms. If weather does not permit drill out doors, instruction as announced for Tuesday will be held.

Tuesday, January 26—Juniors, problem in partolling as given last week. Sophomores, I. D. R., par. 456 to 494, inclusive. Freshmen, I. D. R., par. 119 to 158, inclusive.

Wednesday, January 27—Review and inspection; blue uniforms. If weather does not permit out door work, inspection will be held by company in armory.

Thursday, January 27—Juniors, F. S. R., par. 150 to 170, inclusive, Sophomores, I. D. R., par. 495 to 563, inclusive. Freshmen, I. D. R., par. 159 to 178, inclusive.

### TAKE WATER POWER.

Correspondence course prepared by leading hydro-electric specialist. No advance fees. Water Power Chronicle, Detroit, Mich. Wayne County Bang Building.

Fox-Trot Sundae 15c, at the Fountain, Dalton, Clifford and Wilson Co.

Saturday afternoon Delta Rho entertained at an informal tea for Mrs. Archer W. Hendrick of the University at the home of Miss Alice Hobbins, to meet the college girls. The sorority colors were ingeniously carried out in the decorations of the receiving room. Miss Margaret Mack and Miss Eunice Cagwin presided over the tea table. Throughout the afternoon Eva Walker, Aileen Gulling, Juanita Frey, Hilda Herz, Phoebe King and Emma Herz assisted in the musical entertainment.

The girls who assisted as hostesses were: Pearl Stimson, Ruth Pyle, Jessie Hylton, Laurena Marzen, Alice Hobbins, Eva Walker, Myrtle Cameron, Elsie Farrar, Elsie Herz, Faith Maris, Dorothy Morrison, Grace Cox, Hilda Herz, Phoebe King, Emma Herz, Gladys Jones, Dorothy Steinmetz, Lena Laden, Clara O'Neill, Juanita Frey, Margaret Kemper, Ada Hussman, Helen Fulton, Eunice Cagwin, Helen Cameron, Mrs. Smith, Dell Boyd, Queen Esden, Mrs. O'Sullivan, Mrs. Tranter, Mrs. Johnson.

We congratulate the Germans on the fact that in the preparation of defenses their soldiers are considerably more expert than their diplomats.—Boston Transcript.

As an evidence that the Germans have a highly developed sense of humor, there is the physician who told the kaiser to lead a quiet life.—Nashville Southern Lumberman.

When all the war correspondents get back, several high government officials will have stiff competition on the Chautauqua circuit.—Chicago Herald.

## Reno High School Notes

The past week has been taken up with the semeste examinations, but before settling down to serious business it was decided by the students that their annual "Loud Sox Day" would be held on Monday and consequently some very unique color schemes were presented for general approval.

The second semester of the school year will commence Monday, January 25, and a large enrollment of new students is expected.

Saturday night the girls' basketball team met the girls of the Lovelock high school in the high school gymnasium and were defeated in a well played game.

Monday afternoon Everett Layman, one of the most popular students of the school, received his diploma from Principal G. L. Allen. Everett was captain of this year's football team and also president of the senior class. The students are unanimous in their regret in losing "Prof." as a student of Reno high school.

—Edwin O'Neill.

Having got commission government. Niagara Falls now proposes to abolish all her saloons. Her citizens should remember the recent scientific prediction that Niagara Falls will be dry in 1000 years.—St. Louis Globe-Democrat.

## Tranter & Staley

Clothiers and Furnishers

# \$5 for every ad. published \$500 for the best!

The advertising profession is attracting many college men. Several universities recognizing this tendency have inaugurated special courses in the science of advertising.

Here is a chance for you to prove whether YOU have talent for the new profession—with a possibility of winning \$500.

For the best original Fatima ad. submitted by a college man before June 1, 1915, we will pay \$500 in gold.

## Installment of students' ads. will be published next month.

Each month some of the ads. submitted will be published in college papers and magazines. With each ad. so published, if the writer permits, we will publish his name, year and photograph.

Every ad. published will be paid for at the rate of \$5 apiece. It must be understood, however, that the selection of an ad. for publication does not signify that it has any better chance to win the \$500 than the ads. not so chosen. There are no restrictions whatever as to the method you shall employ or the way you shall approach the subject—except that the ad. must be truthful.

It has been our experience that no man can strike the fire of conviction in any kind of salesmanship—written or personal—unless he believes in what he is selling. That's only a hint, however.

Don't wait until the last minute. Send in your copy and suggestions for illustration at once. If you get in early, even though you do not win the \$500 prize, you will still stand a better chance to have your ad. published and thereby earn one of the \$5 prizes. All ads. submitted will be judged strictly on their merits by three prominent professional advertising men.

Liggett & Myers Tobacco Co. 212 Fifth Ave., New York

ILLUSTRATE your ad. if you can, but if you can't draw, then use your kodak or describe your idea.

### Fatima Facts

Pure tobacco. No finer tobacco used than in Fatima. Simple, inexpensive package. The biggest selling 15c cigarette in America. Made famous by college men. The Turkish tobacco used in Fatima is specially selected by resident native buyers at Xanthi, Cavalla, Samsoun and Smyrna. Smokers of high priced Cigarettes who smoke a few packages of Fatimas are usually satisfied to "switch."

## Peg o' My Heart Majestic Theatre

"PEG O' MY HEART RETURNS TO MAJESTIC FOR TWO SHOWS."

Much local interest attaches itself to the forthcoming engagement of Oliver Morosco's Chicago Garrick theater production of "Peg O' My Heart" that is to appear here, with Peggy O'Neil, just as it ran for seven months in the Windy City. The same company will be brought here and it is doubtful if during several seasons past there has been a better balanced cast. While seven companies are presenting the charms of the dainty little Irish heroine the country over, local audiences will be having a shade the best of it, in getting the original company with an all-star cast.

The story concerns Peg, the daughter of an aristocratic mother, an English woman who has been made an outcast by her wealthy family by her marriage to an Irish socialist. At the birth of Peg, the mother passes away and the child is cared for by her father, a man who Peg terms as both mother and father to her. A man who knows more of motherhood than 50 per cent of the women on earth. Peg is simple, natural and impulsive and when, by the terms of an uncle's will, she is transplanted into a surface-living, affected family, relatives on her mother's side, there are complications of all sorts. The family name is Chichester, an ultra aristocratic family who have just lost their entire fortune through the failure of a bank, leaving practically nothing but the roof over their heads and an opportunity to fulfill the wishes of a rich uncle and take Peg in to educate and prepare for a social career. The family is envious of the girl's having received the fortune and find, with even as sweet a child as Peg, their duties irksome. They do not try to understand the child, and show her little or no human feeling. However, she proves her understanding to the world and turns every evil deed into a golden return and saves the family honor by detecting the elopement of the daughter of the household with a married man and in the end proves herself worthy of the love of her Prince Charming, Jerry, a nobleman with both position and riches.

### AS IT LOOKS—AS IT IS.

As it looks in the movies: Jack was spending his summer vacation in a beautiful little mountain hamlet. While walking down a shady lane, all fragrant with the odor of blossoms and sweet smelling grass, he chanced to meet a maid. A little sideways glance, a little smile, and then a little nod; the pair of summer doves walked on together, gaily talking.

The next scene shows Jack and Sue under an apple tree; he is picking her a rosy apple. Father approaches, Sue looks bashful, Jack hesitates, father looks stern. Then Jack asks him, Sue looks at Jack, they kiss, then there's bliss.

As it really was: John, a weary college "stude," walks hastily down a dry, dusty road, past a loudly humming and ill-smelling paper mill. A country girl passes. John smiles and stops, the girl walks by, looks back at John, then haughtily throws her head in the air and, with that cold, quick step that means indignation, hurries on. John shrugs his shoulders, mutters, "I should worry," and walks on down the hot and dusty road. The mill still hums, the dusty shoes pass on, as each pair lives in reality and not in movies.

 Apparatus: The ball shall not be less than 30 inches nor more than 32 inches in circumference. The rings shall be placed 10 feet above the ground. The inside of the ring shall be 6 inches from a rigid supporting surface. In case a special backboard must be supplied, it shall measure 6 feet horizontally and 4 feet vertically and extend not less than three feet above the top of the basket. Baskets must be rigidly supported. (Spaulding's Official Guide.)  
 Three points must be marked on the floor. Call them A, B, C. A is 15 feet directly in front of the goal; B and C are each 10 feet to the right and left, respectively of A, in a line perpendicular to the line from A to the goal. Thus B and C are approximately 18 feet from the goal.  
 1. Five throws from the knees from A (as when thrown after a foul); feet must remain on the floor until after ball strikes.  
 2. Five throws from the chest with one spring from the point A.  
 3. Five throws from the chest with one spring from the point B.  
 4. Five throws from the chest with one spring from the point C.  
 If the ball is not thrown properly in any of these trials the throw shall be forfeited.  
 Scoring: Every pupil receives 40 points for entering the contest and in addition three points for each basket thrown. Thus 100 is the maximum possible points for each student.  
 The totals for all students are added together and this number is divided by the number of boys in the school; zero is counted for each boy in the school who does not compete, unless said boy has been officially judged physically unable to compete. This quotient gives the average for the school. This average shall be mailed to the secretary of the board.  
**Rules for the Girls' Basketball Throwing Contest.**  
 The apparatus, rules and scoring are the same for the girls as for the boys, the difference in the contest being only in the location of the points A, B and C. A shall be fifteen feet directly in front of the goal. B and C are each ten feet from a point vertically under the goal in lines at 45 degrees with the back board, to the right and left respectively. The score for the girls shall be mailed to the secretary at the same time as the boys. The results of these contests will be published in the U. of N. "Sagebrush," in the first issue after they are in the hands of the secretary.  
 A telegram was recently received by Dean Scragham from Harris Weinstock, saying he might possibly be detained, but expects to arrive as scheduled.  
 An auto short course was inaugurated at the University of Illinois January 18, somewhat similar to our prospectors' and farmers' courses. Lectures on the case of autos will be given.

**Debate Tryouts  
Are Postponed**

FINAL CONTESTS TO BE HELD ON FEB. 2, WHEN TEAMS WILL BE SELECTED

On Tuesday evening, January 26, at 7:30, the second regular meeting of the University of Nevada Debating society will be held in room 262, Morrill hall. It will be merely a business meeting, since the last tryouts for the debate have been postponed until Tuesday, February 2, because of the illness of the director, Mr. Turner.

The question that is being debated is: "Resolved, That a tax on land values be substituted for the general property tax in American cities of over ten thousand population." It is a question of much importance to the taxpayer, since it places the burden of the taxes of the unearned increment of the land and not upon improvements or upon personal property. Thus the single tax tends to equalize the taxes and divide them more fairly among the property holders and citizens. It is a question that involves the economical question of high rents and poor equipments, since the tax on land values would encourage more and better buildings.

Single tax is not a new question. It has for years attracted the attention of many eminent men, among whom we might mention Henry George and F. B. Millbrown. It has also been tried and proven successful in Germany, Australia, Canada and in some of the cities of the United States.

**Prospectors Schedule  
For Short Course**

LECTURES BY MINING PROFESSORS BEGIN MONDAY, FEBRUARY 1.

Monday, 8 to 11, registration of prospectors in Morrill hall; 1 to 2, Prof. Lincoln, excavation of earth and rock prospecting, room 100, Mackay building; 3 to 4:30, Dr. Boyd, first aid, room 100, Mackay building.

Tuesday, 8 to 11, Asst. Prof. Campbell, gas engine, laboratory, Electrical building; 1 to 2, Prof. Lincoln, excavation of earth and rock prospecting, room 100, Mackay building; 2 to 3, Prof. Jones, mineralogy laboratory, room 202, Mackay building.

Wednesday, 9 to 10, Prof. Jones, geology, room 200, Mackay building; 10 to 11, public meeting in gymnasium; 1 to 2, Prof. Lincoln, excavation of earth and rock prospecting, room 100, Mackay building; 3 to 4:30, Mr. Price, mining law, room 202, Mackay building.

Thursday, 9 to 10, Prof. Jones, geology, room 200 Mackay building; 11 to 12, Prof. Adams, general chemistry, room 210, Chemical building; 1 to 2, Prof. Lincoln, excavation of earth and rock prospecting, room 100, Mackay building; 2 to 3, Prof. Jones, mineralogy laboratory.

Friday, 8 to 9, Prof. Palmer, lecture on assaying, room 100, Mackay building; 9 to 10, Prof. Jones, geology; 10 to 12, general welfare meeting in gymnasium; 1 to 2, Prof. Lincoln, excavation of earth and rock prospecting, room 200, Mackay building; 2 to 4:30, industrial safety meeting in gymnasium.

Saturday, 8 to 11, Asst. Prof. Palmer, assaying laboratory in assaying laboratory, Mackay building.

**LOOKED THE PART**

The governor's wife was telling Bridget about her husband. "My husband, Bridget," she said, proudly, "is the head of the state militia."

"O! t'ought as much, ma'am," said Bridget, cheerfully. "Ain't he got th' foine malicious look?"—Southern Woman's Magazine.

**THE PRINCIPAL ONE.**

"Are you familiar with the motives of Blink's new play?"

"Yes; he needed the money"—Philadelphia Public Ledger.

**A PUZZLER.**

The type of youth who indulges in loud clothes and a hat forced back over his ears dropped into the dental chair.

"I'm afraid to give him gas," said the dentist to his assistant.

"Why?"

"How can I tell when he's unconscious?"—Philadelphia Public Ledger.

**Seats Assigned  
For Assemblies**

PLANS FOR "FARMERS' WEEK" AND WELFARE CONFERENCE ANNOUNCED; CO-OPERATION DESIRED.

The new plan for charting the gym, so that every student will have a regular seat, was put into effect last Friday at the regular assembly hour. A grand rush ensued after the location of the chart was announced, with the result that few were able to discover their proper places. Next Friday, it was announced, all will be expected to find the seats assigned to them, so that absences may be noted.

Last Friday the Glee club started proceedings with a well rendered song and encore, after which Dean J. G. Scrugham held the platform for a short talk. The plans for the "Farmers' Week," immediately preceding the welfare conference, were gone into at length, and the co-operation of all the students in making the affair a memorable event was asked. A list of the various prominent men who are to attend was read and from the various fields of industry represented the great importance of the meeting can be understood.

Plans for supplying each visitor with a souvenir, made by students under the inspection of the final owner, were explained, and the various unique ideas which are being worked out were dwelt on. In closing his talk Dean Scrugham said that since the most prominent and influential men of the state are to be present, it might pay each student who expects to come in contact with these men after graduation to do their best in entertaining them.

The men's quartet ended this interesting session with a few well rendered selections, and the meeting ended hurriedly, since the gym was rather frigid.

**Joint Meeting  
of Educators**

HEADS OF SCHOOL DISTRICTS OF STATE ASSEMBLE FOR GENERAL DISCUSSION

Last Saturday the State Board of Education held quite a lengthy meeting in the office of President Hendrick. All the superintendents of the various districts were present, including Profs. Anderson of Elko, Abel of Winnemucca, Winfrey of Reno, and Mr. Billingham.

Various matters of importance to the state educational system were discussed until early evening. Governor Emmet D. Boyle is chairman of the board.

**Engineers Club  
Promised Treat**

PROMINENT ENGINEERS TO SPEAK BEFORE ORGANIZATION.

Several lectures have been arranged for future Engineer club meetings, according to Dean J. G. Scrugham of the engineering department. On February 25, J. L. Taylor is to lecture on "The Care and Handling of Explosives for American Railways." Previously this lecture had been slated for railway men only, and was to be given in Sparks, but that plan was changed in order to benefit the engineering students.

On March 8 and 9, Mr. Lindsay Duncan, engineer of the Nevada Consolidated Copper company, is to give two lectures before the club; the first on "Power Development in Nevada," and the second on "Mining and Milling Methods of the Nevada Consolidated Copper company of Ely." Mr. Duncan is recognized as an authority in his chosen field, so that the benefits to be derived from the lectures are obvious.

## STATE WELFARE AND DEVELOPMENT MEETING

Friday, February 5, 1915, 10 a. m.—Presiding officer, Governor E. D. Boyle; honorary presiding officers, Hon. J. H. Fulmer, East Ely, and Hon. W. P. Harrington, Carson City.

1. The manufacture of nitrates by electrical methods, Professor Maxwell Adams, University of Nevada.
2. Electrical irrigation pumping, H. A. Lemmon, commercial agent, Truckee River General Electrical company.
3. Irrigation pumping on the prison farm, Hon. D. S. Dickerson, ex-governor of Nevada.
4. Irrigation pumping opportunities in the Humboldt valley, B. G. McBride, manager Elko-Lamoille Power company.
5. Development of underground water supplies in Southern Nevada, Hon. Peter Buol, senator from Clark county.
6. Cost of irrigation pumping, F. B. Mechling, manager Nevada-California Power company.
7. Formal discussion, L. W. Crehore, city engineer, Fallon, Nevada.
8. Irrigation pumping in Washoe valley, Hon. P. L. Flanagan.
9. Co-operative work of the United States bureau of mines with the university, H. M. Wilson, chief engineer, United States bureau of mines.
10. Co-operation between state governments and state universities, F. L. Bishop, dean University of Pittsburg, Pittsburg, Pa.

Friday, February 5, 1915, 2 p. m.—Presiding officer, Hon. Tasker L. Odie; honorary presiding officers, Hon. Martin Scanlon, Tonopah, and Hon. A. J. Stinson, Carson City.

1. Preparation of the safety movement, Hon. W. E. Wallace, state industrial commissioner.
2. Welfare work of the Nevada Consolidated Copper company, C. V. Jenkins, business manager Nevada Consolidated Copper company.
3. The industrial insurance commission, J. J. Mullin, secretary of the commission.
4. The relation of organized labor to the state university, J. E. Taylor, Central Trades and Labor council.
5. Arbitration and conciliation, Samuel Belford, attorney at law.
6. Accident claims, Neil McGee, claim agent, industrial commission.
7. Electrical headlight legislation.
8. Relation of organized labor to the welfare of the state, Frank Ingram, president of the Brotherhood of Locomotive Firemen and Engineers.
9. Reports of secretary and treasurer Nevada industrial safety association.

Friday, February 5, 1915, 8 p. m.—Presiding officer, Lieutenant Governor Maurice Sullivan; honorary presiding officers, Hon. Al Blundell, Sparks, Hon. A. J. Walsh, Goldfield, and Mayor Fred Shair, Reno.

1. Motion pictures illustrating mining operations.
  2. Illustrated lecture, E. P. Hopson, engineer United States reclamation service.
  3. Demonstration of discharges of high potential electricity, Prof. L. W. Hartman, University of Nevada.
- Saturday, February 6, 1915, 10 a. m.—Presiding officer, Mr. I. H. Kent, Fallon; honorary presiding officers, Hon. A. W. Hesson, Elko and Hon. Wm. H. Hesson, Gardnerville.

1. The wool industry of Nevada, Mr. W. T. Ritch, Australian wool specialist.
2. Reclamation problems, E. P. Hopson and T. S. Osgood, United States reclamation service.
3. Adjudication of water rights, Hon. William Kearney, state engineer.
4. Agricultural opportunities of Nevada, J. N. Fulton, assistant general freight and passenger agent Southern Pacific company, Reno.
5. The development of Southern Nevada, H. C. Nutt, general manager San Pedro, Los Angeles & Salt Lake railroad.

Saturday, February 6, 1915, 2:30 p. m.—Presiding officer, Hon. A. G. McBride, speaker Nevada assembly; honorary presiding officers, Hon. N. L. Chapin, Ely, and Hon. Fred Balzar, Mina.

1. The state government, Hon. E. D. Boyle, governor of Nevada.
2. The commission form of government, Judge C. L. Harwood.
3. Relation of the state to national legislation, Hon. Key Pittman, United States senator from Nevada.
4. Rural credits, Hon. Harris Wein-

## FARMERS AND PROSPECTORS' MEETING

February 1, Monday, 9-11 a. m.—Registration prospectors, Mackay school of mines.

Feb. 3, Wednesday, 9-11 a. m.—Registration of farmers at gymnasium. 11-12, general assembly. Addresses, members of regents, president of university; dean of the college of agriculture. 2-4:30 p. m., demonstration of value of improved seed, grain and co-operative experiments by Dean C. S. Knight in agronomy laboratory, Stewart hall; demonstration on the nutritive value of milk by Associate Professor Kate Bardenwerper in home economics laboratory, Stewart hall, 8 p. m., lantern slide lecture on dairying by L. E. Cline, dairy specialist, Truckee-Carson project, in general lecture room, Mackay school of mines.

Feb. 4, Thursday, 8:30-10 a. m., meeting of Nevada bee keepers, agronomy lecture room. Presiding officer, C. G. Swingle, Fernley; honorary presiding officer, Harry Warren, Wabusko; addresses, G. W. Bower, Lamoille; B. S. Bechtel, Lovelock, E. G. Norton, Fallon. 10-12 a. m., livestock meeting, agronomy lecture room; presiding officer, Jay Clemmons, Reno; honorary presiding officer, H. L. Nichols, Reno; addresses, F. L. Washburn, San Francisco; Peter Anker, Lovelock; William Dangberg, Northam; Harry Cazier, Wells. 2-4:30 p. m., livestock demonstration at Nevada Packing company on East Fourth street, by Prof. F. W. Wilson, demonstration on the value of fats in foods, by Associate Professor Kate Bardenwerper in home economics laboratory, Stewart hall. 8 p. m., Hon. W. C. Pitt, presiding; Hon. Milton Lee, Pioche; Hon. George Sherman, Fallon; addresses, C. A. Norcross, commissioner of agriculture, irrigation and industry; I. P. O'Donnell, superintendent irrigation, U. S. R. R.; motion pictures, mining operations.

Feb. 5, Friday, 8:30 a. m., dairy meeting; presiding officer, Hon. J. W. Ferguson, Fallon; honorary presiding officer, C. H. Henningsen, Gardnerville; addresses, H. F. Dangberg, Minden; C. J. Heisey, Fallon; L. E. Cline, Fallon; 10 a. m., demonstration on meats by Associate Professor Bardenwerper in home economics laboratory, Stewart hall. 11 a. m.-2 p. m.—demonstration on meat cutting at Nevada Packing company by Charles Madison of the Washoe market; 1-2 p. m., wool demonstration by W. T. Ritch, Australian wool specialist, in the gymnasium. 4-6 p. m., shop and laboratory demonstrations, mechanical engineering building; domestic science demonstration, laboratory, Stewart hall; dairy demonstration, dairy building.

Feb. 6, Saturday, 8:30 a. m., farmers' meeting, Mackay school of mines, lecture room; presiding officer, Hon. F. O. Stickney, Yerington; honorary presiding officer, Hon. G. M. Bower, Lamoille; addresses, Edmond Dietz, Northam; E. Peterson, Metropolis; E. P. Hopson, engineer, U. E. R. S. 9 a. m., lecture and demonstration on the scientific management of the household, by Associate Professor Kate Bardenwerper in home economics laboratory, Stewart hall. 9 a. m., shop and laboratory demonstrations, mechanical and electrical building and Mackay mining building. 1-2:30 p. m., wool demonstration in gymnasium by W. T. Ritch. 4:30-6 p. m., home economics demonstrations, Stewart hall. 4:30-6 p. m., shop and laboratory demonstrations.

5. The control of public utilities, Hon. W. H. Simmons, state railroad commissioner.
6. Tax equalization, Hon. J. F. Shaughnessy, Chairman state tax commission.
7. Open discussion of addresses.

## Graduate Manager Submits Report

FINANCIAL REPORT.  
Reno, Nevada, Jan. 24, 1915.  
Executive Committee, Associated Students, U. of N.

As per article—constitution of the A. S. U. N., I beg to submit my report from December 1, 1914, to date:

| Receipts.  |         |
|--|---------|
| Dec. 1, 1914, balance on hand.                     | \$77.41 |
| Jan. 16, 1915, cash from Lovelock game             | 42.75   |
| Expenditures.                                      |         |
| Dec. 31, 1914, Graduate manager's salary, December | \$20.00 |
| Jan. 3, 1915, Expenses on athletic goods           | .50     |
| Jan. 14, 1915, stamps                              | 1.00    |
| Jan. 16, 1915, to A. S. U. N. treasurer            | 42.75   |

The following tentative schedule for athletic activities has been arranged:

- Basketball.**  
January 6. Sparks high school; no guarantee.  
Jan. 9. Reno high school; no guarantee.  
Jan. 11. Y. M. C. A.; no guarantee.  
Jan. 13. Reno high school; no guarantee.  
Jan. 15. Y. M. C. A.; no guarantee.  
Jan. 16. Lovelock, \$35.20.  
Jan. 23. Sacramento Ac. C., \$50.00.  
Jan. 30. St. Mary's college; expenses, less \$50.  
Feb. 6. Open date.  
Feb. 13. Stanford; expenses, less fifty dollars.  
Feb. 18. University of California; guarantee \$150, with hotel and subsistence.  
Feb. 19. St. Ignatious colleges; guarantee \$150, with hotel and subsistence.  
Feb. 20. College of Pacific; guarantee of \$150, with hotel and subsistence.  
Feb. 27. Davis Agricultural college; guarantee \$50.

### Track.

- March 6. Short distance tryout.  
March 13. Medium distance tryout.  
March 20. Distance and field tryout.  
April 3. Interclass meet.  
April 10. Davis Agricultural college on Mackay field.  
April 17. California freshmen at University of California.  
May 7 and 8. Conference meet at University of California.

### Baseball.

- March 6. Sparks.  
March 13. Reno.  
March 20. Lovelock.  
March 27. California freshmen at Reno.  
April 5. California varsity at University of California.  
April 7. Stanford varsity at Stanford.  
April 19. Davis Agricultural college at Reno.

### Tennis.

- April 17. California freshmen at University of California.

## The Time--Place--and the Shoe

You will find a Walk-Over Shoe for every occasion. It makes no difference what you want them for—whether a day's tramp on the campus—at the dance—or for general use, you will find an appropriate and reliable Walk-Over shoe for that particular occasion. Walk-Overs for Men and Women are priced from \$3.50 up.

# Elledge & Tait

## Reno Shoe Factory

## Aid Is Given Farm Projects

### EASTERN SECTION OF THE STATE VISITED BY UNIVERSITY WORKERS

During the past week President Hendrick and Deans Schrugham and Knight visited Elko, where quite a representative gathering of the stockmen of the surrounding districts, was addressed. The aims of the University in cooperating with all the industries of the state were explained, with particular reference to the agriculture division.

The Industrial School at Elko, which is soon to be completed, was also visited, and plans were tentatively drawn up to try out an electric pumping plant for irrigation purposes using the school as a station. If the experiments are successful, due to the ample electric power available from the Elko Power company, vast tracts of arid land in the vicinity will be made productive.

### Rifle Shooting.

Date to be arranged.  
The matter of guarantees and expenses is not settled as yet. Negotiations are pending with the respective managers now and this matter will be settled by the next official report.

S. E. ROSS,  
Graduate Manager.
