UNIVERSITY OF NEVADA RENO, NEVADA, FEB. 9, 1915

Number 24

BASKETBALL--STANFORD VS. NEVADA--SATURDAY

Advances In State Welfare Theme Two Days Conference

MANY PROMINENT MEN TAKE ACTIVE PARTS IN PROGRAM AT UNIVERSITY--DEMONSTRATIONS OF METHODS FOR DEVELOPMENT DISCUSSED

IRRIGATION AND SHEEP RAISING ARE MADE THE FEATURES

BANQUET IN GYMNASIUM ATTENDED BY FOUR HUNDRED GUESTS--STATE LAW MAKERS ENJOY HOSPITALITY OF UNIVERSITY

When the morning session ended, about 12 o'clock, the crowd was taken to the plant of the Nevada Packing company, where several addresses were made, and later, a bounteous buffet lunch was provided. Meat cutting demonstrations were given by Mr. Charles Madison; Governor Boyle addressed the assemblage, and later Ex-Governor Oddie thanked U. M. Slater for the courtesies extended to the visitors.

The crowd reassembled at theym about one o'clock to witness a sheep shearing demonstration by W. T. Ritch, the Australian wool expert.

This was followed by the afternoon session of the general welfare conference, and by demonstrations in the mechanical and electrical departments, the dairying department where a luncheon of ice cream, crackers and cheese and other dairy products was served, and the home economics laboratory, where Parker house rolls the coffee were served under the direction of Associate Professor Kate Bardenwerper.

Dean J. G. Scrugham of the engineering department of the university, called the afternoon meeting of the welfare conference together, and introduced former Governor Oddie as presiding officer. Hon. A. J. Stinson of Reno and Hon. Martin Scanlan of Tonopah occupied places as honorary presiding officers.

A paper on the Preservation of the Industrial Safety Movement, was read by Hon. W. E. Wallace of the Brotherhood of Railway Trainmen.

C. V. Jenkins, business manager of the Nevada Consolidated Copper company at Ely, gave an interesting address on the Welfare Work of the Nevada Consolidated Copper company, which has received the hearty cooperation of the employees of the company and played an important part in the cordial relations between employer and employee, and added much to the safety and welfare of the men and to the general efficiency of the organization.

Accident claims were discussed by Neil McGee, of the Western Federa-

Continued on Page Six

What has probably proved the most interesting series of lectures and demonstrations ever given by the State university, came to a close Saturday evening, when all the representatives of the varied trades and industries, throughout the state, attended the banquet in the gymnasium.

The program served a double purpose, for it not only imparted valuable information to the audience, but also showed the desire of the speakers to aid, in every way possible, in promoting the interests of the state.

President Archer W. Hendrick presided at the first meeting, which was called to order at 10 o'clock. The gym was crowded with a representative gathering of farmers, miners, stockmen and business men as well as others who had followed with interest the development of the conference from the beginning.

In introducing Governor Emmet D. Boyle, as presiding officer, President Hendrick expressed the pride and well wishes of the university in having one of its graduates as governor. A gavel, made from Comstock mine timber, was presented to the governor, after which he relinquished the presiding chair in order to attend a board of regents meeting, which was awaiting him. In a short speech, Gov. Boyle expressed his pleasure at the whole-hearted way the people of the state had responded to the call for the general welfare of the state.

Hon. J. H. Fulmer of East Ely, took the gavel when Governor Boyle retired, and introduced the speakers following.

Prof. Maxwell Adams spoke on industrial chemistry possibilities, suggesting a profitable use for the many dry lake beds in the state.

H. A. Lemmon, commercial agent of the Truckee River General Electric company, next gave a convincing talk on irrigation possibilities.

Tom Edwards of Winnemucca, then gave a detailed account of the irrigation difficulties he had encountered and their successful solutions. Costs of various drilling machines for all depths, and the difficulty in obtaining a satisfactory percolating area for the pumps employed, were explained in an interesting manner.

B. G. McBride, manager of the Elko Lamolite Power company, discussed Elko county, the second richest county in the United States; Hon. Peter Buol gave facts and figures regarding Clark county, which surprised everyone. The temperature of the artesian water in that vicinity is between 73 and 80 degrees, so that ripe almonds, peaches and pears are expected by March 15.

"Costs of Electrical Irrigation Pumping," were discussed by F. B. Mechling, manager of the Nevada-California Power company, followed by "Irrigation Pumping in Washoe Valley," by Hon. P. L. Flannigan, and a formal discussion by L. W. Crehore, city engineer of Fallon.

Dairymen Meet
At a meeting of the dairymen, just before the conference afternoon session, a meeting of the dairymen was held. C. J. Heisey, L. E. Cline, and H. F. Dangberg, of Minden, explained how to improve the breed of dairy cows, to the interested farmers present. Cooperation is the watchword in

Stanford Leads In Collegiate Basketball

NEVADA AND CALIFORNIA TIED FOR SECOND PLACE; ST. IGNATIUS IN CELLAR

Clubs—	Won.	Lost.	Pct.
Stanford	2	0	1000
Nevada	1	0	1000
California	1	0	1000
St. Mary's	1	1	.500
College of Pacific	1	2	.333
St. Ignatius	0	3	.000

Stanford is now in the lead in the Intercollegiate basketball series, having won her two games played and lost none. Last Saturday night Stanford defeated the University of St. Ignatius team by a score of 24 to 19, after a hard battle. The absence of Heine Flood from the St. Ignatius lineup was a handicap. At the end of the first half Stanford was behind, but forged ahead by good team work.

The line-up:—
Stanford Positions St. Ignatius
Blodgett Forward .. Campana
Worthy Forward .. Larracon
Reynolds Center Evens
Wallace Guard Cohen
Dolan Guard Boyle

St. Mary's College won from the College of Pacific team in Oakland by the score of 43 to 21. The game was closest during the first period, which ended with Pacific on the short end of the 23 to 15 score. Carberry and Moy were the stars of the game for St. Mary's. Nevada's win over St. Mary's places the Sagebrushers in a position as likely pennant winners. St. Mary's Positions Pacific
Moy Forward Ham
Chapdelaine .. Forward .. Weidemann
Carberry Center ... Hoffman
Prentice Guard Meisse
Quinn Guard Wells
Tuesday night St. Mary's College and California will meet for the first time on the St. Mary's court. Next Saturday night St. Ignatius and St. Mary's are to play on the St. Ignatius court.

Stanford Is Next Rival

LEADERSHIP IN THE PENNANT RACE DEPENDS ON SATURDAY'S GAME

Next Saturday night, the Nevada Varsity basketball team will meet the crack Stanford team, in the second game of the tournament. At present the Nevada men have a clear record in their P. A. A. standing, having won the only game played so far from St. Mary's college.

The Stanford team has a 1000 per cent record and are at present considered in the lead in the pennant race, having won two games.

Hungry Henningsen will be in form to play Saturday and will add much to the team work of the quintet. Sheehy has recovered from his injuries received in the St. Mary's game and will be in the forward division.

With two strong subs, in Ferris and Stewart, the Nevada team will take the floor, stronger than any time in the history of the school, and will give the Stanford five some lively competition.

The report published in the San Francisco papers, that the manager of the St. Mary's team would protest Nevada's victory last week, because of unsatisfactory rulings of the referee, has not yet materialized and it is quite probable that the manager has seen fit to change his mind.

Military Ball Date Announced

BIG ANNUAL EVENT TO BE GIVEN FEBRUARY 19.—STATE OFFICIALS TO ATTEND

The date of the big annual event in military, as well as social circles—the Military Ball—has been announced by Captain H. L. Applewhite as Friday evening, February 19. As has been the custom in years gone by, the Governor and his staff, in full military regalia, together with the members of the legislature, will attend, and enjoy the hospitality of the university. All university cadets are expected to wear the blue parade uniform, and in order to carry out the military nature of the event.

This will be the first of the big dances for the spring semester; in the following month the Freshmen Glee will be the social event to look forward to. Rumors of another big dance, under the sanction of the university authorities, have been heard, but nothing of a definite nature has been announced.

The committees appointed by Capt. Applewhite, to arrange details of the Military Ball, are as follows:

Invitations and Programs, — Geo. Latapie, R. A. Allen, Harold McQuiston and Frank Banigan.

Decorations; — Earl Swain, Chairman.

Refreshments;—Harry Hovey.

Music;—Mr. Davis.

Reception;—George Latapie.

Debaters Dance Next Friday Eve.

ALL ARE INVITED TO ATTEND FIRST APPEARANCE OF FORENSIC SOCIETY

Next Friday evening a dance is to be given in the gym by the Debating society for the purpose of boosting the club finances. The expenses entailed in sending the debating team to Utah will be quite heavy, so that a big attendance is hoped for.

Between dances various entertaining stunts will be staged, so that all, whether they enjoy the terpsichorean art or not, will be sufficiently entertained; absolutely no serious subjects will be allowed in the building, insuring a good time for all. The admission, 25 cents, admits the holder to all sideshows, so don't miss your opportunity.

Teams Selected For Two Debates

FOUR OUT OF EIGHT ON TWO TEAMS SELECTED FOR B. Y. U. AND U. P. DEBATES

The final try-outs for the two debating teams which will represent the University of Nevada in the seasons debates were held Tuesday night in Morrill hall. A formal debate was held; four contestants on each team debated the question, "Resolved, that a single tax should be substituted for the general property tax in cities of over ten thousand population." Miss Helen Heffernan, Willim Fife, Oscar Davis and C. P. Reilly advocated the question, with John Hurd, Sol Cazier, T. L. Withers and Morman Parks defending the present system of taxation. The arguments were for the most part clear and well presented; the negative won the decision, however, after the judges had conferred but a short time.

Those selected for the teams, in the order of excellence in debate are T. L. Withers, first; John Hurd, second; these two are to debate Brigham Young University at Provo, Utah, February 26th, on the same question used in the tryouts. They will then however, be on the affirmative side of the question.

R. M. Parks and C. P. Reilly finished third and fourth, respectively, and are to debate the University of Pacific at some date not yet decided upon.

Prof. A. E. Turner presided with Dean Watson, Attorney Lunsford and Attorney W. M. Gardiner acting as judges. While the judges were deliberating, Agnes Duffy, Phoebe King, and Prof. Turner entertained the crowd with well rendered selections.

A. S. U. N. Meeting Held Thursday

EXECUTIVE COMMITTEE WILL GRANT NUMERALS—BASKETERS WIN "N"

Since there were no classes Friday, the Associated Students held their regular meeting on Thursday. The amendment to the A. S. U. N. constitution, giving the executive committee the right to grant Freshmen numerals was presented and approved.

An amendment to Article 7, Section 2 giving the scholarship committee the right to withhold the name of any person who is a candi-

LET'S WIN AGAIN

Next Saturday Nevada will meet her strongest competitors for the Inter-collegiate basketball championship. Be on hand with the same brand of enthusiasm that was displayed at the last game, and help win this hardest game of the season. Stanford is now at the top of the league, with Nevada immediately below; let's help to reverse the order.

CONFERENCE

With all the hurry and bustle of Conference week over, we can glance back over proceedings, and reckon the various results. Undoubtedly, much as our pseudo friends hate to admit the University of Nevada has taken its place at the head of effective workers for the state's advancement.

Not long ago a newspaper not many miles away, editorially stated that as soon as the university had proved its worth, then would the paper and the state generally give it all the support desired. To the casual bystander it seems that time has arrived.

What a blow it would be to a certain class of newspaper parasites if two much discussed amendments failed to pass through the Senate.

An informal dance was held last Thursday evening at Mrs. Wilson's hall. The girls of the Omega Nu Sorority were hostesses. The occasion being the third anniversary of the chapter here. Punch and wafers were served during the evening. A few guests, the members of the Sorority, and the pledges and escorts were present.

* * *

The Phi Delta Tau fraternity entertained their friends and pledges at a dancing party in Maple Hall, Friday evening, February 5th. A light supper was served at eleven and then dancing was continued until twelve. The patronesses were Mrs. Painter and Mrs. Leon.

Those present were the Misses Zelma Francis, Edith Mack, Fern Wright Ruth Woods, Marion Young, Phoebe Taylor, Lena Laden, Adele Norcross, Mabel Nelson, Alice Hobbins, Cherrie Perkins, Belle McMillan, Gladys Kelly Elsie Farrar, Edna Brown, Katharine Skinner, Helen Briggs, Mary Leon, Lucille Gallagher, Vivian Engle, Lysle Rushby, Blanche Woods, Gertrude Shade.

Messrs Jack Pearson, Georges Ogilive, Archie Trabert, Elmer Wiley, Leon Mack, Paul Barker, Kniffen Ferris, Painter, Axt, VanDalsem, Hovey, L. Johnson, Young, Talmage, Barnes, Pflaging, Dondero, Moore, Clark, Brockway, Brenen, Inman, Holtham, Volmer, Hobbins, William Johnson.

During conference week, J. F. Haworth, a meteorologist connected with the University of Pennsylvania, was a visitor on the Nevada campus. Mr. Haworth is a business man of Philadelphia, who is interested in the establishment of an international bureau of meteorology. Such an international system was in operation in European fields previous to the war, but is now of necessity discontinued.

Three other scientists with Mr. Haworth comprise a party which is to work in mapping in the topography of the Philippine islands, especially around the crater of Mount Kilauea. Plans for picturing the active volcano by means of cameras suspended on kites directly over the crater have been worked out, which promise the greatest accuracy in every detail.

During his brief stay in Reno, Mr. Haworth was the guest of Profs. Ferguson and Church, the local meteorologists.

A university budget is soon to be presented to a careful legislature. If that legislature sees fit, the university may continue its rapid growth and development; if not, only the standards of bygone years will be maintained.

Lectures Treat Of War Causes

CONDITIONS LEADING UP TO PRESENT WAR ARE DEALT WITH BY PROF. FEEMSTER

An interesting and timely series of lectures are being given by Prof. Feemster, dealing with the "Causes, Purposes and Possible Results of the present war. These talks, which are being presented by Prof. Feemster, expose conditions in Europe and Asia which have contributed to the present turmoil, and are largely attended.

On Tuesday evening the bogie of the "Yellow Peril" in the United States was compared with the German fear of the "Slav Peril," which is one of the fundamental reasons for the present war. This talk was practically a continuation of Thursday's; so many questions and problems were discovered during the course of that lecture that a continuation was deemed advisable.

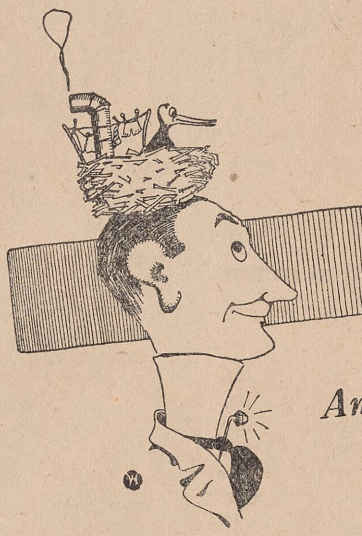

Students and the public generally are invited to attend these lectures, which are given in Stewart hall, at 7 o'clock.

THE OFFER OF THE COLLEGE

"To be at home in all lands and ages; to count nature a familiar acquaintance and art an intimate friend; to gain a standard for the appreciation of other men's work and the criticism of your own; to carry the keys of the world's library in your pocket, and feel it's resources behind you in whatever you undertake; to make hosts of friends among the men of your own age who are to be leaders in all walks of life; to lose yourself in generous enthusiasms and co-operate with others for common ends; to learn character under professors who are Christians—this is the offer of the college for the best four years of your life." —President Wm. DeWitt Hyde, Bowdoin college.

An infuriated Step-Ladder Defending Its Young

THERE is no sense to the above picture; neither is there any sense to the title; and yet both are fully as sensible as some of the things people do every day. For instance: Some people still smoke a cheap cigarette put up in a fancy package and pay twice what it is worth. Why not try a sensible smoke—FATIMA. No frills; just good, clean tobacco delightfully blended and put up in a sensible package.

20 for 15c.

The \$500 Prize

\$500 will be paid to the college student who sends to us the best original advertisement for Fatima Cigarettes before June 1, 1915. In the meantime for each ad. we publish we will pay the writer \$5. Illustrate your ad. if you can, but if you can't draw, then use your kodak or describe your idea.

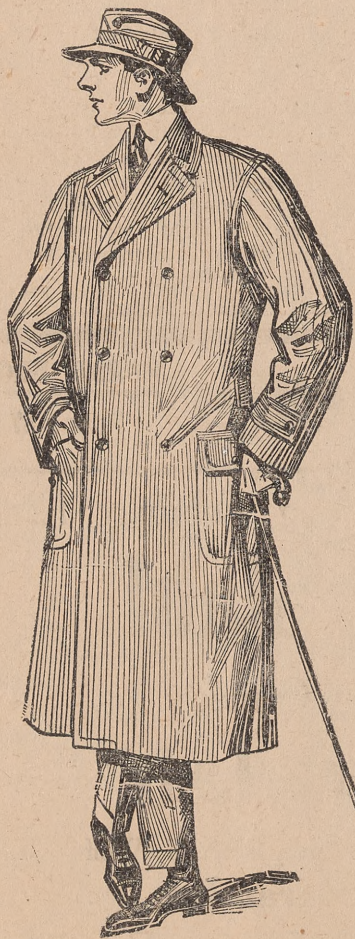

Prize will be awarded by a committee of three prominent advertising men L. B. Jones, Adm. Mgr. Eastman Kodak Co., F. R. Davis, Adm. Dept. General Electric Co., and J. George Frederick, Editor of Advertising and Selling.

In constructing the stadium something distinctly original had to be conceived because of the fact that the ground upon which it is built is the loose sand surface of filled-in land. A layer of straw will be placed over the sand, then a layer of shavings, then comes a layer of crushed rock topped by a thin coat of clay, then coarse cinlers, and finally a mixture of clay and fine cinlers in the proportion of four parts cinlers to one of clay. The entire depth of these different parts will be nine inches.

"Rope King" Still Travels

"SCOTTY" VISITS OHIO U.

Sailor "Scotty" invaded this town last Friday night and visited the various fraternity houses where he proceeded to do his stunts in order to extract from his observers whatever pecuniary recompense they choose to contribute. His "chef d'oeuvre" was untying himself in a limited time after several of the "boys" had securely put him in the grip of his rope. He made good on all occasions and none showed the genius to tie him up so completely that he could not extricate himself in the allotted time. Besides his skill with the rope in tying puzzling knots and untying himself after being securely bound, he sang some Scottish songs in the native dialect.

He had come from Oxford, Ohio, and was visiting all the other college towns on his way to New York where he said that he expected to ship again on the "briny deep."—Green and White.

The above news item from the Ohio State university paper will bring back to the minds of many Nevadans of 1913-14, the visit of "Scotty, the Rope King," to the University of Nevada. After visiting Lincoln Hall, where he escaped from the most intricate rope tangles the fellows there would devise, he visited the various fraternity houses and repeated the program.

At that time he had just visited the University of California and Stanford, and said he was going to get back to the ocean as quickly as he could. From the Ohio story it seems that he has not yet changed his mind, or his story, at any rate.

Reno High School Notes

The Associated Student election of officers for the second semester of the school year took place Friday and the results are as follows:
David Bovee, president of last semester's assembly was reinstated by a large majority. Sheldon Crawford, treasurer; Theima Coffin, secretary and Dorothy Higgins as vice president.

The girls basket ball team defeated the basket ball team of the Lovelock high school at Lovelock by the score of 25 to 18, the game was fast and the work of the Reno high team showed up to good advantage.

A good deal of interest has been stirred up among the students by a rumor that a farce is to be staged, composed by talent from the high school. No definite date has been set as yet, but this is sure to be a success as there is much good material among the students, and a good deal of interest is always shown by people from the outside in any high school production.—Edwin O'Neill-'15.

Mandolin Club Is Organized

PLANS FOR FUTURE WORK INDEFINITE, BUT FIRST CLASS HARMONY ASSURED.

Another organization which is expected to add its share of enjoyment to college festivities is the Nevada Mandolin club which has recently been organized. From time to time in years past, mandolin clubs have flourished and died out; from the interest and pep displayed by the present members, a permanent organization seems assured. At the present time the membership list includes Engle, Masters, Van Dalsen, Prof. Haseman, Henriques, Inman, Mason, Wendell Jones, Earl Borchert, Phil Cowgill and Louis Rose.

Regular practice sessions are held three times a week and, judging from the harmony which is now being displayed, the Glee club will have to look to its laurels in the near future.

A. S. U. N. Meeting Held Thursday

(Continued from page one)

date for office in the Associated Students, if this person is delinquent in scholarship, was submitted and will be voted on at the next meeting.

A motion was carried that a basket ball score board be made and put up in the gym. Davis was appointed by the president to make the board and take charge of it during the next game.

The Student body ratified the action of the executive committee in making the basket ball game with California this season "N" game.

The treasurer asked that the time limit for students to pay their athletic dues be changed from Monday to Tuesday. The names of those who have not paid before Tuesday will be posted upon the bulletin board.

An announcement was made that the twenty-sixth of February would be set aside for University day in Carson. There will be a special train that day and all students desiring to do so may go and visit the legislature while it is in session.

On the twenty-sixth of this month the University debating team leaves for Utah. Some money will have to be raised before this time and the help of the whole Student Body is desired.

Locomotive to Be Exhibited

WORK OF ENGINEERING STUDENTS SECURED BY PRESIDENT SPROULE

While on a tour of inspection through the machine shops and foundry of the university during conference week, President Sproule was shown the miniature locomotive which was on exhibition for the visitors. He became greatly interested in it, especially when told that every part had been designed and turned out by engineering students, under the supervision of Instructor Al Preston.

A regulation size locomotive is to be on exhibition in the transportation building at the exposition and President Sproule asked permission to show the Nevada model beside it. The student manufacturers feel that their locomotive will not suffer by comparison, so the engine will be loaned.

It is now being given a new coat of paint, and will be shipped next Thursday.

INDIANA FAVORS MILITARY

Indiana university is the latest to petition for the establishment of a military department in the university. If 400 students, or enough to form a company of Indiana national guard, are enrolled, the movement may result in the building of an armory on the campus of the university, exclusively for the university company or companies.

The Eldorado Republican reports that it took two privates and a corporal, armed with chairs, to put down the latest Filipino rebellion.

Other nations will please not attack us before 1920; it will take us five years to get ready.

Advances In State Welfare Theme Two Days Conference

(Continued from Page One)

tion of Miners; the Relation of Organized Labor to the State University, by J. E. Taylor of the Central Trades and Labor Council; Arbitration and Conciliation, Samuel Bedford; Electric Headlight Legislation, open discussion; the Federal Government and the Industrial Safety Movement, H. M. Wilson, U. S. Bureau of Mines; Relation of Organized Labor to the Welfare of the State, Frank Ingram, president Brotherhood Locomotive Firemen and Engineers.

Lieutenant-Governor Maurice J. Sullivan presided at the evening meeting. Hon. Al Blundell of Sparks, Hon. A. J. Walsh of Goldfield, and Mayor Fred Shair of Reno being honorary presiding officers.

Motion pictures illustrating mining operations were shown by Prof. A. W. Preston of the university; an illustrated lecture was given by E. P. Hopson of the U. S. Reclamation service, and a demonstration of discharges of high potential electricity was conducted by Prof. L. W. Hartman of the university.

Reclamation problems furnished the opening topic at the welfare conference at the university gymnasium Saturday morning. I. H. Kent of Fallon presided, honorary presiding officers being Hon. A. W. Hesson of Elko and Hon. William Hussman of Gardnerville.

E. P. Hopson of the United States reclamation service, spoke at some length on irrigation problems, and was followed in discussion by E. P. Osgood, also of the reclamation service. Adjudication of water rights was discussed by Hon. William Kearney, state engineer. The agricultural opportunities in Nevada were ably set forth in a paper read by J. M. Fulton assistant general freight and passenger agent of the Southern Pacific.

The appreciation and financing the development of Southern Nevada opportunities was the subject of an interesting talk by H. C. Nutt, general manager of the San Pedro, Los Angeles & Salt Lake railway.

In the afternoon the speakers who were slated for the after-dinner talks held forth, since they had to leave for San Francisco at 7:30. President William T. Sproule, John S. Drum and Dean T. F. Hunt of the University of California, gave addresses, mostly pertaining to the securing and financing of settlers in Nevada.

President Sproule emphasized his personal well wishes for Nevada's welfare and stated that he would do everything in his power to aid Nevada develop her resources.

An elaborate banquet at 6:30 Sat-

(Continued from page one)

the Carson Valley, and Mr. Dangberg is a pioneer in the movement.

A feature not soon to be forgotten was the trip through the Nevada Packing company plant. A big feed was served late in the day at the Nevada Packing House, which was attended by some 300 hungry individuals.

Probably the most impressive feature on the entire program was the wool demonstration, by W. T. Ritch, the Australian wool specialist. Methods entirely unknown to American wool-growers, in grading, selecting and pricing their own wool, were disclosed by Mr. Ritch, in such a way that many prominent sheepmen of the state became greatly interested. The Australian method consists in cleaning the wool, choosing the better portions from the bulk, testing by the "vibration method," the exact carding possibilities of the wool in such a way that the grower does not have to speculate or haggle with the buyer, but sells for exactly what he knows it to be worth.

The several grades of wool were also explained, and reasons were given for the varying prices of the different grades.

Friday afternoon Mr. Ritch gave a demonstration of the proper way to handle the fleece on a specially prepared table. A wool classer, who must necessarily possess a great amount of technical knowledge, often makes as much as \$10,000 a year, by being paid half a cent a fleece for

urday evening closed the eventful week. About 300 representatives of progressive Nevada attended. All the legislators, their wives, the speakers during the week enjoyed the dinner and the speeches which followed.

The entertainment was furnished in the instrumental department by the Shriner's orchestra, and in the vocal by solos by J. B. O'Sullivan, and chorus singing by members of the young men's and young women's glee clubs. The speaking was done by Governor Boyle, C. L. Harwood, H. C. Nutt, general manager of the Salt Lake, San Pedro and Las Vegas railroad, E. A. Forbes, secretary of the California Devedopment board, J. F. Shaughnessy, commissioner of the Nevada tax commission, J. B. O'Donnell of the reclamation service, and Justice P. A. McCarren.

Many impressive details, which many a visitor will long remember, has of necessity been omitted. Suffice it to say, that through the university of Nevada, the state has been aroused to its own possibilities,

GRADS HEARD FROM

An interesting letter from Paul Schrapps, states that on account of the European war, there is a shortage of cyanide in South America, forcing a shutdown of all the cyanide mills, and throwing many men out of work. Schrapps is located at Guayaquil, with Mortimer Pratt, Jerome Higgins, Alex Boyle, (brother of the governor) and Leland Claflin, all of whom are Nevada alumni.

his work.

During the welfare conference at the university the interest of the women centered in the home economics department, Miss Bardenwerper, who is at the head of this department attracted and held the interest of all the housekeepers—present and prospective,—by her most instructive as well as interesting lectures and demonstrations. The women were not the only ones to reap benefit from these lectures,—many of the men men took advantage of them and attended regularly. Everyday the home economics rooms were crowded with listeners.

People, not alone from Reno, but many from the neighboring towns came especially to attend these lectures. The best yet is that those who were present the first day became so intensely interested that they realized they could not afford to miss any one of the lectures and their attendance became regular. The appetites of the Reno people surely appreciate what is good when you consider that during the two days when rolls were served, one thousand were consumed. The girls of this department assisted in the demonstrations. Miss Bardenwerper insists upon sharing the credit due her for her success of these days with the students. She says that the way the students assisted as well as the outside people was a credit to all concerned.

Sierras Scene Of Skiing Trips

TRIPS TAKEN TO FOOTHILLS TO PRACTICE WINTER SPORT

One of the latest sports taken up by Nevada outdoor enthusiasts is that of skiing. The only requirements so far noted which are needed for the proper enjoyment of this sport, are a paid up life insurance policy and a strong constitution. Last Sunday Messrs, Gassaway, Engle, Whittet,

Borchert, Root, Silvia and Wise made the trip up to Hunter creek, where the snow is sufficiently deep, and enjoyed a day of sport which they declare unrivalled. A convenient cabin was used as a resting place between trips up the mountain side, and also served as a stopping place for dinner. Future trips of a like nature are being planned for the next few weeks, and an increased number have signified their intention of joining their parties.

There never will be peace in Mexico until the movie men quit following the army of generals around.

Maurice Costello

Famous Moving Picture Actor,
says:

"The great thing about Tuxedo is the fact that it gives full fragrance and flavor together with extreme mildness. I find Tuxedo not only the height of pipe enjoyment but a distinct benefit because it gives just the proper degree of relaxation. Tuxedo is undoubtedly an exceptional tobacco."

Maurice Costello

"As Popular As The Movies"—TUXEDO

Tuxedo answers every smoke desire—every little palate craving, every longing for the one Perfect Pipe and Cigarette tobacco. No matter when or how you smoke Tuxedo it sends right into your heart a glimmer of Gladsome Sunshine. And you can just about hear the honeybees buzz in the far-off gardens.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Sings into your system a song of keen delight. It spreads real happiness and cheer because it's smokable, lovable, all day, all night—no matter how the weather fits. Tuxedo's flavor is so enticingly mild and delicately fragrant it will not irritate the most sensitive throat.

Simply the choicest mild leaves of grand old Kentucky Burley—ripe, rich, fragrant and mellow—made into delicious tobacco that smokes as smooth as cream. That's Tuxedo.
