Average Nevada Man Excels In Strength And Endurance Tests

RECORDS KEPT BY DIRECTOR GLASSCOCK PROVE THE SUPERIORITY OF UNIVERSITY AS A WHOLE IN ALL AROUND DEVELOPMENT OF MEN—OGILVIE'S RECORD BETTERS EASTERN CHAMP'S.

That the average University of Nevada man is considerably stronger than the average man from other universities is proved conclusively by records of strength tests just issued by Physical Director Jack Glasscock.

The average strength test of 128 men taken up to date is 1634.6, which is nearly 100 points higher than the average in neighboring universities.

Only nine failed to pass the normal mark of 1320, which is the standard set by most colleges for men who wish to enter inter-collegiate competition.

Of the ten best records made, George Francis Ogilvie leads all the rest, with a total of 2665, obtained as follows:

Back pull	767
Legs	1100
Dip	14
Chin	17
Right forearm	165
Left forearm	154
Weight	155.1
Height	5 ft. 11 6-10 in.
Lung capacity	358cc

This exceeds the strong-man record of Michigan by 332 points, held by F. C. Everts of Fresno, Cal. It exceeds the best year's record of the Yale record holder by 32 points.

The next best record for Nevada is held by Edwin F. Faber, who made a truly remarkable showing when his weight, 129.8 pounds, is taken into consideration. His itemized record follows:

Back	664.4
Legs	902
Dip	19
Chin	29
Right forearm	169.4
Left forearm	138.6
Height	5 ft. 4 1-10 in.
Weight	129.8

Next in order is Henningsen, 2307.8 Borchert 2300.1, Heward 2258.8; Abbott 2235.2, Sheehy 2147.2, Able, 2116.4; Robinson 2090, King 2085.6.

The strength tests are made by means of various spring devices, which register the compression produced by the muscular effort. In the back pull there is a footboard, to which is attached a spring and a dial face. A chain attached to the steel springs allows adjustment of the wooden handle to any height desired. The back pull is made from a slightly stooping position, giving the back the entire stress. The leg pull is obtained by bracing the cross bar just above the knees, which are bent slightly, and then pulling vertically upward.

The dip is done on the parallel bars, and consists in raising and lowering the body to the height of the chin by means of the arms while the body is swinging free. The "chinning" is somewhat similar, being done from one bar, however, instead of two. One-tenth of the weight of the man is multiplied by the number of times he chins or dips, and the result is added to the total. By this method the large and small man have equal opportunities.

Nevada Defeats Stanford Team With Ease

EXCITING BASKET BALL GAME RESULTS IN 47-29 VICTORY FOR NEVADA QUINTETTE

GOOD TEAM WORK DISPLAYED

LONG SHOTS BY STEWART AND McCUBBIN AID IN DEFEAT OF PENANT CONTENDERS

In one of the hardest battles of the season the Varsity basketball team won from Stanford last Saturday night by the score of 47-29. The long and arduous training which the Nevada quintette has undergone proved its worth throughout the game, by the total absence of ragged work on offensive and defensive, and the cool and methodical way in which the ball was passed in the previously worked out plays.

The game was clean and well played throughout, with fast, accurate passing and good basket shooting keeping the crowd in an uproar. Stewart of Nevada, undoubtedly was the star of the game, making sixteen points for Nevada from the most difficult kinds of shots. McCubbin showed his natural aptitude at guard, from which position he dropped in several baskets from near the center line.

At center Henningsen only lost the ball twice throughout the entire game placing the ball at ease against his all-coast opponent. The best part of it all was the fact that when the ball was placed in a certain part of the field from center, the right man was always there to get it; in other words every man played a star game.

At half time the score stood 17 to 11, with Nevada on the long end. This was the closest the score stood throughout the game, for Nevada,

Nevada Delegation Enjoys Mills College Conference

UNIVERSITY Y. W. C. A. SENDS SEVEN GIRLS TO COAST MEETING OF ASSOCIATION—DESCRIPTION OF COLLEGE TRIP SHOWS INTERESTING EXPERIENCES.

(By MARY RAITT, '16)

Until you have experienced a conference it is always a vague sort of undefinable thing, but after even a short one, such as that of Mills college, you get a very definite and a very wonderful idea of it all.

On the evening of February 4, six Nevada delegates left for San Francisco—the first step in the conference activities. Perhaps it would be well to tell who the six people were—Miss Wygal, Dorothy Bird, Dorothy Mahan, Carina Damm, Vera Lemon and Mary Raitt. At San Francisco they were met by Helen Fulton, and the delegation was swelled to seven. Through the influence of the Y. W. C. A. officials, passes were secured to the exposition grounds, and the wildest of dreams could never conceive such wonders as the girls saw that afternoon and they saw only a tiny portion of the marvels. Various routes were taken through the grounds, but five girls met, quite accidentally, at the Nevada building, which overlooks the bay, and felt loyal and proud, indeed.

Five o'clock found the various delegations registering at Mills college, where all manners of plans had been made for the Northern Californians and Nevadans. At the evening meeting, at which Miss Bentley, whom our campus entertained not long ago, presided. Carina Damm conducted the responses of delegations. Each delegation leader was to respond with a line of Scripture, relative to the theme of the conference, "For the sake of the Name they went forth," and to state how many were in her delegation. Dorothy Bird responded for Nevada, and when she stated that "We are seven," there was greater applause than if a speech had been made, for

to the minds of the California girls, who live so near to Mills, a delegation of seven from "far-off Nevada" was a marvelous thing. This meeting was the beginning of several of the most instructive and interesting sessions ever. Big truths and big questions were brought to the many, many girls who were there, from which inspirations and aspirations were bound to come.

On Saturday afternoon the delegates were given a rare treat in the form of an organ recital on the wonderful pipe organ at Mills. The artist was Mr. Uda Waldrop, and, as one of the girls said, his work was a sermon. Music is always hard to describe, so to say that it was wonderful will have to suffice. And this was not the only splendid music to which the visitors listened. The Mills choir is very fine, and it was especially generous with its band of beautiful voices. Saturday evening the Mills girls were hostesses at a banquet, at which college songs worked the poor Nevada delegation into a state of stage fright, for, after Stanford's forty odd voices had sung their songs, and California's thirty and more had answered with theirs, it was no easy matter for Nevada's seven to attempt either of theirs. But they did.

And so Saturday and Sunday passed, both full of great things, all, even a few of which can not be told here. There were, for amusement, basketball and baseball and hikes over the beautiful country about Mills; and meeting the clever, wonderful people and taken from the splendid ideas was of more advantage and worth than one can guess. The only drawback is the fact that more of the Nevada Y. W. C. A. girls could not enjoy it all.

Power Project Is Approved

HYDRO-ELECTRIC PLANT PLANS EXAMINED BY ENGINEERS DEPARTMENT U. OF N.

Mr. Ira McFarland, representative from Clark county, spent Friday afternoon in the university engineering department, going over details of a proposed hydro-electric installation in the Charleston mountains, near Las Vegas. The plans were approved by the department, as being of exceptional worth in advancing the interests and developing the southern counties.

Track Schedule Announces Meet

FIVE CORNERED CONTEST ARRANGED WITH U. C. FRESHMEN, SANTA CLARA, DAVIS AND ST. MARY'S

A track meet which has aroused more than the usual amount of interest has been arranged for April 24, on the University of California oval. It will be a five cornered meet, with Nevada contesting the California freshmen, Santa Clara, St. Mary's and Davis.

This contest should justify its innovation among the schools interested, for the reason that up to the present no intercollegiate meets of more than two schools have been held. Dual meets are of little value in proving the relative merits of five colleges of equal size, even if all meet at separate times in competition. For this reason the conference meet as planned should meet with general approval.

Half of the expenses of fifteen men, a trainer and graduate manager will be paid by the conference management, according to a letter received from Graduate Manager Stroud of California.

The date of the annual conference meet for all colleges, has been set for May 9, with the possibility that the mammoth exposition track will be used instead of the California oval.

Dean Scrugham and Prof. J. C. Jones are to leave for San Francisco Thursday night, to make final arrangements for the fair exhibits, and also arrange accommodations for the visiting legislators in San Francisco.

Fox-Trot Sundae 15c, at the Fountain, Dalton, Cliffords and Wilson Co.

Varsity Team To Leave Reno Wednesday

CALIFORNIA RIVALS TO BE PLAYED ON HOME COURTS; HARDEST GAME OF SERIES WITH CALIFORNIA

FIRST GAME MOST IMPORTANT

THREE GAMES IN AS MANY DAYS WILL DECIDE THE CHAMPIONSHIP

Next Wednesday night the Nevada Varsity basket ball team will leave for the coast to play the last games of the intercollegiate series. So far Nevada has had an easy time, getting away with most of the games by a good margin. The players taking the trip are Stewart and Sheehy, forwards; Henningsen, center; Captain Painter and McCubbin, guards; Substitutes Ferris and Trabert. Graduate Manager Si Ross and Phil Wentworth, Nevada's umpire, will make up the rest of the party of nine allowed.

The first and hardest game of the series will be played Thursday night, in Harmon gym, against the Berkeley five. The winners of this game may be assured of the championship.

Friday night the Varsity will play St. Ignatius on the Rice Institute floor. Not much trouble is anticipated in winning from the San Francisco collegians, since they now rest near the cellar.

Saturday night College of Pacific will be played at San Jose. Pacific has been playing good ball this season, and is expected to put up quite a good game in her home town.

Since there is school Monday the team will return Sunday night.

Indoor Athletes Develop Fast

WRESTLING AND BOXING CLASSES HELD TWICE WEEKLY IN Y. M. C. A.

Indoor athletics now holds sway, with no chance for losing popularity till the sun regains its lost warmth. Wrestling is probably the most popular sport, with about eighteen men learning the grips, toe-holds, and various time-locks under the supervision of Director Jack Glasscock.

Several of the men have developed wonderfully in the short time spent so far in the mat game. Several have been forced to buy new collars a size larger because of the development of the neck muscles.

If a suitable team can be selected consisting of three men, they will be entered in the Pacific coast championship tryouts, which will be held on March 17. The team will have to pay their own expenses, however, which will not add to the popularity of the idea.

In the boxing division ten men are being instructed in the manly art by Wilson Malone, '17. The Y. M. C. A. is being used at present for all the indoor work, because of its accessibility and perfect equipment.

All the swimming classes, which were being held at Moana springs, have been suspended until warmer weather. The temperature of the big tank is not much over 60 degrees, which makes swimming a little too chilly business. By March 1, however, the water should be warm enough to resume the aquatic training.

Fox-Trot Sundae 15c, at the Fountain, Dalton, Cliffords and Wilson Co.

Military Ball Next Friday

BIG DANCE OF SOCIAL SEASON TO BE ATTENDED BY GOVERNOR BOYLE AND STATE OFFICIALS

The Military Ball, the one big dance of the college year where the military prevails, is to be held next Friday evening. Captain H. L. Applewhite, U. S. A. retired, has appointed his committees in preparation for the big event, so that everything is in readiness for the crowds to assemble.

Governor and Mrs. Emmet D. Boyle will lead the grand march, followed by the governor's staff, state officials, members of the legislature and the university company in dress uniform. The band is manufacturing quite a choice brand of harmony nowadays, in preparation for their initial debut.

All in all, this year's Military Ball promises to be the social event of the season in hill circles.

AGGIE EXTENSION CHIEF TO VISIT NEVADA

Mr. E. W. Working, field agriculturist for the bureau of plant industry at Washington, D. C., will spend Wednesday and Thursday of this week with Dean C. S. Knight at the aggie department. Mr. Working is in charge of the agricultural extension work in the western states, and will discuss the past work and future plans of the University of Nevada in rural extension work.

DEBATE

Next Saturday night the debating society of the university is to give a dance for the purpose of raising money for the debating team's Utah trip. If the team was bound for an athletic contest, they would get all the support necessary, but the forensic contests does not seem, for some reason, to draw the same attention. A win in this debate means more for Nevada than any number of athletic contests, so get busy and help with your presence Saturday.

A. S. U. N. DUES

Last Saturday the names of some forty Nevada students were posted for failure to pay their athletic dues. Some gave excuses, while others had none.

The loss of this money from the A. S. U. N. treasury is serious enough, but the certain loss of the moral backing of the same forty is more serious. In the ideal university everyone works for the common good, with mind and body.

Nevada is closer to that ideal than the majority of other universities; don't let your action lower the standard.

CO-OPERATIVE WORK

The University of Nevada, through the engineering department, is arranging for co-operative work in investigations and on pumping plants with the bureau of investigation at Washington.

ASSEMBLY

Last Friday morning, the regular Assembly of the faculty and students of the university was held in the gym. The Men's Quartette led off with a harmonious selection after which Dean C. S. Knight of the College of Agriculture, explained the purpose of the meeting as being dedicated to Abraham Lincoln, and introduced Prof. S. B. Doten as the principal speaker. Before settling down to the subject of his address, Prof. Doten gave a few side lights on the preparation of his address which added considerable to the enjoyment of the talk when it was finally presented.

The Girls' Glee Club ended the hour with some good selections, after which the meeting disbanded.

SENIORS' NOTICE

There will be a regular business meeting of the Senior Class in the Math. room, Friday, February 19th at 4:30. Jack O'Sullivan will present some ideas on the Senior play and definite arrangements for giving the play will be made. Also other important business.

PROPOSED AMENDMENT TO THE CONSTITUTION OF A. S. U. N.

An amendment to Article VII, Section 2, by addition of Paragraph 8, as follows:

8. The names of all nominees or candidates for any office in the A. S. U. N. excepting the office of Graduate Manager, shall be submitted to the Scholarship Committee of the University for their approval in scholarship. If any candidate fails to receive the approval of the Scholarship Committee, his or her name shall not be placed on the official ballot. In such cases as those covered in Article XII, Section 2, the candidate shall have the same qualifications as a candidate at a regular election. When appointing men or women to any office in the A. S. U. N. the Executive Committee, shall submit all proposed names to the Scholarship Committee, for its approval in scholarship before making any selection. The Executive Committee of the A. S. U. N. shall be empowered to carry out the provisions of the above article.

The transformation of the recently purchased land behind the Dairy building into a baseball diamond for practice work is being planned by Manager Ross. The use of Mackay Field for baseball is injurious to the turf, and also interrupts the workouts of the track men on the oval surrounding it. It is hoped to arrange the new diamond so that a minimum expense will supply a suitable substitute for baseball workouts. As soon as the weather permits, practice is to start as a game is already scheduled with Sparks for February 27.

Watch for the Zudora sundae to appear soon. D. C. & W. Co.

Denver University Offers Nevada Debate

CONTESTS WITH D. U. AND UNIVERSITY OF PACIFIC TO BE DECIDED ON TUESDAY.

Last Tuesday, at 7:30, the regular meeting of the University of Nevada Debating society was held in room 202, Morrill hall. Under old business came the report of the chairman of the entertainment committee. After much deliberation on the part of this committee and the directors, it was decided to give this entertainment on Friday evening, February 12. However, at the last moment it was postponed until Saturday evening, February 20. A very good program has been arranged, which will be followed by a dance. It begins promptly at 8 o'clock.

Denver university has challenged the Nevada Debating society for a debate to be held in Reno sometime in March. No action has as yet been taken on the offer, as the University of Pacific will probably be debated about the time proposed.

As yet there has been nothing definitely settled regarding a debate with the University of Pacific, though the business manager expects an answer from that college before the next meeting.

LOCALS

Several Nevada aggie students are contemplating a trip to Australia to study the improved Australian methods of handling wool. They have become very much interested in the industry through the lectures and demonstrations of Mr. W. T. Ritch, wool specialist, of Australia.

Added Lectures For Short Course

MINING DEPARTMENT GIVING PARTICULAR INSTRUCTIONS TO PROSPECTORS AND MINERS

Twenty-five men registered at the Mackay school of mines for the short course in prospecting which extends through the month of February. Of these men ten registered as prospectors and four as miners so the registration shows that the majority of those entering the course belong to the class of men for which it was intended. Most of the remaining men intend to engage in prospecting only a few entering the course because of general interest in mining. Three enrolled as students and the remaining eight gave their occupations as follows: Home-steader, office manager, advertising man, civil engineer, mine manager, mine operator, minister and retired banker.

Two of the prospectors had no home address, the remaining students giving addresses as follows: Reno 8, Rochester 3, Winnemucca 2, Goldfield 1, Sulphur 1, Dyke 1, Gardnerville 1, Fallon 1, Amadee, Cal., 1, Los Angeles 1, West Medford, Mass., 1. It is thus seen that although the course is given in Reno, the great majority of the students came from outside that city, and that some even came from outside the state.

The regular exercises of the course consist of 12 lectures and 6 laboratory periods each week. The subjects covered are chemistry, mineralogy, geology, prospecting, assaying, gas engines, first aid to the injured and mining law.

On Wednesday evenings special lectures illustrated by lantern slides are given, other special lectures being given during the day time. These include lectures on the geology of Nevada, prospecting in South America and mine rescue work by Profs. Jones, Lincoln and Palmer. The course as a whole appears to be highly appreciated by the students, several of whom have expressed their desire to take it over again the coming year, while others have stated that they felt sure when their friends heard about it they would come, increasing the attendance another year to several times that for the present.

Special lectures on subjects of interest to the short term students are being given as often as possible. Last Wednesday Prof. J. C. Jones of the geology department gave a lecture on Lahontan and its history, on which subject he is recognized as an authority.

Next Wednesday night Director F. C. Lincoln is to lecture on "Tin Mining in Bolivia," in the Mackay lecture room, at 8 o'clock. All are invited to attend.

FAIR CHAPERONES

California's Pan-Hellenic has issued a decree forbidding undergraduate women from attending the Panama-Pacific exposition without chaperones, whether with male escorts or not. Severe penalties are attached to any breach of the decree by any member of the university organizations concerned.

STANFORD HOLDS MEET

Stanford has already held an informal track meet on the Stanford oval, preliminary to actual track work. Good times were made in all the runs, which were shortened somewhat to allow for the lack of condition of those participating.

Nevada Alumni District Chief

INTERMOUNTAIN DISTRICT ENGINEER, FORMER U. OF N. STUDENT, VISITS ON ENGINEERING MISSION

Mr. E. A. Porter, ex-'07, a former Nevada engineering student, now district engineer for the United States geological survey, is now at the university for the purpose of arranging a co-operative agreement between the University of Nevada and his department. He hopes to form with the aid of Dean Scrugham of the engineering department, a department to help in the investigation and development of the underground water resources of the state. Mr. Porter has charge of all the engineering work of the intermountain regions for the United States geological survey, so that he may help materially.

Monday morning President Hendrick, Mr. E. A. Porter and Dean Scrugham went to Carson City to confer with the state engineer, and the various legislative committees interested in the state development work.

HER REVELATION.

A little girl traveling in a sleeping car with her parents greatly objected to being put in an upper berth. She was assured that papa, mamma and God would watch over her. She was settled in the berth at last and the passengers were quiet for the night. When a small voice piped:

"Mamma!"

"Yes, I'm here. Now go to sleep."

"Papa, you there?"

"Yes, I'm here. Go to sleep like a good little girl."

This continued at intervals for some time until a fellow passenger lost patience and called:

"We're all here! Your father and mother and brothers and sisters and uncles and aunts and first cousins. All here. Now go to sleep!"

There was a brief pause after this explosion. Then the tiny voice piped up again, but very softly:

"Mama!"

"Well."

"Was that God?"—Kansas City Star.

**Annual He-Jinks
To Be Staged**

**HAIR-RAISING STUNTS BY THE
BALD-HEADED—LEGAL PRO-
CEEDINGS TO TRY GUILTY.**

Thursday, February 25, is the date set for the annual He Jinks. The place is the gym. The events? Well, that comes later. You will all hear of them later.

The He Jinks keeps alive one of the oldest traditions of the University of Nevada. It dates back so far that the oldest prof. doesn't even know when it started. Therefore, take notice right now that every college man is supposed to be at the gym on the above date.

What's the admission? A very small item; only fifteen cents. There are going to be prizes more original and hair-raising stunts than you ever heard of before. However, if there are some real good stunts that can be worked up the committee in charge will gladly consider them. See Tom Walker, Archie Trabert or Glenn Engle.

The admission also entitles you to all the eats you can hold. There will be plenty. All the male students and faculty are expected to put in an appearance. Justice P. A. McCarren will be there; also a number of other alumni.

The events, as tentatively arranged, are a "Kangaroo Kourt." This is to be the leading event with Justice McCarren presiding. Side shows and smokes will break the stiffness of the occasion.

When you pay your admission you will be given a card with a number on it. This number corresponds with a number on the floor of the gym. The floor will be marked out with squares and numbered, the holder of a number must locate that square and sit on it when court is called to order. Don't be alarmed, for you don't have to sit there through the evening. That will only be at certain intervals. There will also be a wheel of fortune; you must try your luck on it. There will be "cops" to preserve order, so don't be afraid of getting into a rough house that you can not stop. Boxing and wrestling matches are also on the program. The Glee and Mandolin clubs will be there to break the monotony of the proceedings. A strong man exhibition and a stunt by the faculty are also listed. The star event of the evening, a real big league act, is something that you don't want to miss. Ask some member of the committee what it is. It sure will be a winner.

Wear any costume you want. If you can not get one, wear your old clothes. The older and more ragged they are, the better time you'll have. The He Jinks is the "blue ribbon" event of the college year, so don't pass it up.

Executive Notes

The executive committee held a short meeting on the afternoon of the fourteenth. Several bills which will appear in the graduate manager's report the first of next month were passed on. So far our finances are in a very good condition. Mr. Ross stated that the cost of the basketball season up to date was only \$21.91. A warrant of \$150 was drawn on the treasury as a loan, for the expenses of the basketball team that goes to the coast this week. The graduate manager will return this loan with the money received from games played there as soon as they return.

A written report of both the graduate manager and and treasurer will appear as soon as the basketball season is over.

After considerable discussion concerning a baseball diamond, the meeting adjourned, without taking an definite action on the matter.

**CLASS REUNION OF NEVADA
GRADS HELD AT DOTEN HOME**

The home of Prof. S. B. Doten was the scene of a reunion last Thursday of the classes of '98 and '99 of the University of Nevada. Reminiscences of college days mingled with the general talk over a banquet set in honor of the guests. Those present were J. C. Libbey, S. I. James, Bert Frasier, A. G. Doten, George Schweiss and S. B. Doten.

All that's best—you know the rest.
D. C. & W. Co.

LECTURE ON LINCOLN

Next Wednesday evening at seven o'clock, Prof. Feemster is to discuss the character and work of Lincoln, from the standpoint of world history. This talk is part of a series that are being taken up in evening sessions, which deal with political problems, both past and present. The lecture room is on the first floor of Stewart Hall, in the history department.

At Yale the "dry cut" or half-cut system is used to cure the cutting evil. If a student is unprepared he may go to class, signify that he does not wish to recite, and be credited with one-half a cut. Thus he gets the benefit of the lecture and the recitation.
The system works satisfactorily and is desirable from both the instructors' and the students' point of view.—Daily Kansan.

Faculty Club Meets Thursday

DR. HARTMAN AND DEAN SCRUGHAM TO DEAL WITH ILLUMINATION; INTERESTING MACHINE TO BE USED.

An interesting meeting of the Faculty Science club is planned for next Thursday morning, when Dr. Hartman and Dean Scrugham will illuminate the audience on the general subject, "Illumination." Dr. Hartman is to deal with the theories and laws of lighting, with Dean Scrugham demonstrating the practical results, with the aid of multi-colored incandescent lights under proper control. What was averred to be the most attractive feature of one of the lighting machines has been ruled out by the board of censorship, owing to the injurious effect on the eyes of the spectator.

Y. W. C. A.

The regular meeting of the Y. W. C. A. will be held in room 6, Wednesday, at 4:30. Some of the seniors and juniors have planned to have ready an interesting and lively discussion on "If I Were a Freshman Again." There will also be special music.

IN LONDON.

"Waiter! Vienna steak, please!"
"Ush, sir; we calls 'em Petrograd

CO-ED BASEBALL.

Class teams for women's baseball will be chosen after another week's work-out. After the selection has been made, a class series will be played the winning teams playing in the finals on April 24. The rumor that a challenge has been sent to the women of the University of California is entirely without foundation. The class captains are the Misses Joyce Gardner, '15; Dorothy Simmons, '16; Dorothy Metz, '17, and Helen Westerman, '18.—Palo Alto.

USEFUL.

"What kind of work could you possibly do around an office?"
"I'm a kind o' all-round handy man, mister. I kin hold a door open, light a match for ye, look out an' see if it's rainin', call a taxi, drop a letter down the chute, an' tell folks yer out when ye ain't."—Life.

A REMEDY.

DAUBER—"I observe that you don't like my pictures, sir; but I can only paint things as I see them."
Critic—Then you shouldn't paint while you're seeing things like that.—Boston Transcript.

Nevada Team Defeats Stanford With Ease

(Continued from Page One)

after warming up in the second half, led off in good style, with no apparent opposition. Fouls were rather numerous, but they were for the most part unintentional, and caused by the speed of the play. Dutton of Stanford converted most of his free tries into baskets.

At one time Nevada had more than twice as many as her opponents, so that the substitutes were given a chance to workout. Trabert took Capt. Painter's place at guard, and Ferris substituted for Henningsen. The change in men affected the team work very little, though the number of free throws awarded Stanford did increase.

The final score of the game stood Nevada 47, Stanford 29.

Penhelma, of the San Francisco Olympic club refereed a perfect game with Phil Wentworth as umpire.

The crowd realized the importance of the game, and joined with the rooting section in making the old gym echo their enthusiasm.

By defeating Stanford and St. Mary's, Nevada has disposed of two of the three teams who are conceded the right to dispute the championship. Nevada's easy defeat of Stanford makes her chances seem bright indeed for a clean record throughout the series.

The line-up:

NEVADA:
Forwards; Stewart, Sheehy.
Center; Henningsen, Ferris.
Guards; McCubbin, Painter, Trabert.

STANFORD:
Forwards; Worthy, Blodgett.
Center; Dutton, Wallace.
Guards; Dolan, Reynolds.

MANZANITA GIRLS ENTERTAINED

Last Friday evening Mrs. Kaye entertained the girls of Manzanita hall at a delightful party. After the refreshments were served, some of the girls favored the rest with recitations. Among them were Veronica Dickey, Virginia Licking, Phoebe King and Adele Norcross. The party broke up after singing "U. of N. So Gay," and after giving a hearty "three cheers" to our hostess.

FARMERS INSTITUTE FOR YERINGTON FEB. 20-21

A farmers' institute is to be held next Friday and Saturday in Yerington under the auspices of the Walker River Producers' association. President Hendrick will speak on the educational plans being developed by the state, followed by Mr. Fulton, of the Southern Pacific company, Dr. W. E. Mack of the state hygienic laboratory and Dean C. S. Knight.

Dean Knight is preparing quite a complete program for the institute, dealing with extension work, irrigation and the value of improved seed grain. Agricultural instruction, in rural schools, and the advantages of advanced agricultural training will also be explained.

NO. 9009.

Here is a new Ford story we saw somewhere, but have forgotten just where: A man in California writes to the Ford company and tells them they should feel very much elated for the reason that the Ford is the only car mentioned in the Bible, and to prove it he cites them the passage in Isaiah which says: "We went up into heaven on high," and asks what other car but a Ford could do that?—Exchange.

George Randolph Chester

Famous Author, says:

"Why shouldn't a man be willing to recommend a tobacco which gives as cool, sweet and satisfying a smoke as Tuxedo?"

George Randolph Chester

For Mentally Alert Men—Tuxedo

George Randolph Chester's "Get-Rich-Quick Wallingford" stories have delighted thousands through the mental alertness, good humor and keen mind shown by the wily promoter.

When George Randolph Chester writes of things typically American he knows what he is talking about; and when he endorses Tuxedo—the typically American tobacco—his endorsement carries great weight with the keen-minded, alert and brainy smokers of this country.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

is made especially to maintain the American spirit of good humor. Its constant use benefits a man in mind and body, by keeping him happy and physically fit.

Tuxedo is the finest Kentucky Burley—the world's premier smoking-tobacco leaf—made absolutely non-biting by the original "Tuxedo Process" that has never been successfully imitated. Tuxedo is delightfully mild, fragrant, rich, and gives a cool and satisfying smoke. Tuxedo is in a class by itself.
