## Big Send off Rally Thursday Evening at 7:30 "Frolics of 1915" Friday Evening at Majestic

### Track and Tennis Teams Chosen; Both Leave for Berkeley Thursday

#### MEN IN PERFECT CONDITION FOR FINAL TEST ON BERKELEY OVAL

From the present outlook, the chances of Nevada's winning out in the five-cornered track meet next Saturday seem exceedingly bright. All the Nevada entries have rounded into form in good shape; only one injury of any importance has befallen the track team—throughout the season. Genty, the sophomore hurdler, injured a knee considerably in a bad fall while running the high sticks. The knee is still stiff, which will lose the gritty hurdler his chance in the big meet.

Nevada is admittedly weak in only one department. The shot-putters have so far failed to materialize, at least in any form comparable with the U. C. freshmen, who have several men who are heaving the lead over forty feet.

According to Coach Glasscock, who witnessed the recent intercollegiate meet at Berkeley, the freshmen will be Nevada's strongest opponents. In Claudius, California has a consistent :10.2 man for the 100 yards.

The hurdles are perhaps the strongest points in the whole U. C. team. In the 120 hurdles, Kessig is doing :15.2 and Wright is making :16. In the low hurdles Wright again stars with a mark of :25, with Kessig a good second.

Gibbons and Lawton are the babies' best in the 440, being credited with :51 flat.

Beebe, the point winner in the intercollegiate, has done the half in 1:58. He seems to have slowed down considerably since his advent into college, which may, however, only be temporary.

Beebe and "Red" MacDonald are the best milers the freshmen have produced this year. Beebe is credited with 4:30 and MacDonald with 4:53.

Liversedge is conceded the shot put, with a heave of 46.2½ feet to his credit. Others are doing over forty feet.

The 220 seems to be a weak point in the '18 armor. The best time so far is :23 flat, with no one in sight to develop. The best height attained so far

Continued on page eight

#### TENNIS TEAM CHOSEN; WITHERS AND PARKS TO MEET CALIFORNIA FRESHMEN

As a result of the various tournaments and elimination matches which have taken place during the past two weeks, T. L. Withers and R. M. Parks have been chosen to represent Nevada next Saturday at Berkeley.

Withers experienced little trouble in holding his place at the top of the list, but there was doubt until the last minute as to the second man. Parks, who had been holding second place, was defeated by North in a match which went to the full five sets. Neeld, after defeating Parks in a five-set match, went down before North, who took three sets after Neeld had won the first two.

North was in-line for second place, but could not get permission to make the trip. Neeld and Parks then met and Parks made the team by defeating Neeld, three sets to one.

Last week the Nevada tennis men played the Century club another series of matches and met with very little success, most of the matches going to the clubmen. However, the big hold-back seemed to be lack of condition and this will be remedied before the California tournament.

### Girls' Glee Club To Give Recital

#### DANCE TO FOLLOW EVENING OF MUSIC NOW BEING PREPARED BY DIRECTOR DENNY

On Friday evening, April 30, at 8 p. m., the Girls' Glee Club is to present a recital in the gym, for the benefit of the Student Loan fund. Miss Denny, musical director for the club, is training the members conscientiously in solo and harmony work, so that an evening of good music is assured all who attend. Miss Dorothy Blaney is to officiate at the piano.

After the recital, an informal dance is to be held till close to the midnight hour. Everyone, students, faculty, and townsfolk, are cordially invited to attend.

### Senior Play Due Next Friday Eve

#### REALISTIC ACTING PROMISED BY CAMPUS ACTORS IN PLAY OF TRUE NEVADA LIFE

Next Friday night the senior class will present the "Frolics of 1915" at the Majestic. This is the first play to be given by the university students for three years and it is expected that it will make a showing that will encourage the present juniors and others to put on a play every year.

The members of the class have rehearsed faithfully for the production, and, with three days more to polish their parts, they will present the best amateur show yet given at a local theater.

J. B. O'Sullivan, director of the play, has directed many other university shows and he places the present one in a class by itself. The plot centered around the university, makes the acting of the various parts more natural and the characters, except in a few cases, act their own names.

The following is the complete program and the cast of characters:

Place—University of Nevada.  
Time—Any four years between 1897 and 1911.

ACT I  
Sheehy's room in Lincoln Hall  
Characters—Monk Ferris, Husky Siani, Rich Sheehy, Earl Swain, Frank Bannigan, Glen Engle, Tom Walker.  
Impersonations  
Mal, a Freshman... George McCreery  
Porf. Gray, Master of Lincoln Hall... Phil Raymond

ACT II  
One year later, during football season  
Scene—The Dining Hall.

Characters—Same as Act I, with following additional impersonations  
Mrs. Jay, Matron of Manzanita Hall... Mrs. Preston  
Miss Scissors, the Registrar... Miss Josephine Williams  
Tillie Minden, a Sophomore... Miss Carna Damm  
Sibil, Queen of the Campus... Miss Jessie Hilton  
Miss Dickey, in love with Monk... Miss Veronica Dickey  
A. W. Whitsinger from New York... Albert Jackson

ACT III  
One year later

Continued on page eight

### Last Appearance Varsity Glee Club

#### CONCERT TO BE GIVEN IN MAY IS FAREWELL APPEARANCE OF SEVERAL MEMBERS

After several weeks' rest, the Men's Glee club has resumed practice for the final concert of the season, to be given in May in the Majestic theater. Professor Haseman is arranging a new and special program for the Reno audience. Tom Walker, and "Monk" Ferris will appear for the last time as members of the club. Both complete their work at the university this May. They will, no doubt, give some excellent solo work on the concert night, so that they will long be remembered.

Another stunt that the club will provide this spring, will be the "Serenade to Manzanita." On a date to be announced later, the club will entertain the Manzanita girls and the general public, with pretty love songs, accompanied by silver-toned mandolins. A large raft will be constructed and launched on Manzanita lake, then, when the moon comes up and the setting is sweetly romantic, the club will anchor their barge in the middle of the lake and sing until everyone is satisfied. Hereafter the serenade will be made an annual event at commencement time.

This past week the old members of the club have appeared wearing the new Glee club pin. The pin is in the shape of a lyre, with a pearl for every year the man has been a member of the organization. The new members will receive their pins at the annual banquet of the club during commencement week.

### Class of 18 Wins Over R. H. S. Rivals

#### 90½ TO 22 IS FINAL SCORE OF CLOSELY CONTESTED MEET; CONTESTS HARD FOUGHT

The freshmen, winners of the inter class meet, had little trouble in beating the track team of Reno high school on Mackay field last Saturday afternoon. The score was 90½ to 22.

Despite the overwhelming score, the meet was far from uninteresting. Clifford broke the high jump record with a leap of 5 feet 9 inches and the high school team, heretofore considered to be without a chance in the coming academic meet, showed that it would have to be considered by the dopsters. In the mile, Snare of the high school uncorked a sprint in the last lap that brought him in a winner by twenty-five yards. Wilcox took second in the century and furlong and while he did not run in the best form, it is evident that he has the makings of a sprinter. "Big Man" Hancock, who is two inches higher than the hurdles, showed he will best his brother some day. Hardin starred for the freshmen, taking three first places. Below is a record of the events:

One hundred twenty yard hurdles—Greenwood (F) first, Hill (F) second, Henry (F) third. Time :17.4 seconds.

Mile run—Snare (H.S) first, Shindler (F) second, Belford (H S) third. Time, 5:09.

One hundred yard dash—Hardin (F) first, Wilcox (H S) second, Henry (F) third. Time, 10:3.

Broad jump—Hardin (F) first, Greenwood (F) second; Hill (F) third. Distance, 21 feet 11 inches.

Four-foot yard dash — Meyer (F) first, Jones (F) second, Cunningham (H S) third. Time, :55.4.

Pole vault—Clifford (F) and Watt (F) tied for first, Mills (F) and Sala tied for third. Height, 10 feet.

Two hundred twenty yard hurdles—Frandsen (H S) first, Hardin (F) second, Jones (F) third. Time 29.1.

Twelve-pound shot put—Hill (F) first, Layman (F) second, Hardin (F) third. Distance, 38 feet 5 inches.

Half mile—Martin (F) first, Welty (H S) second, Barnes (F) third. Time, 2.11.

High jump—Clifford (F) first, Har-

## Cadet Inspection Nevada May 6

LIST SHOWS ALL INSTITUTIONS TO BE VISITED BY W. T. MERRY OF THE GEN. STAFF

According to a notice recently received by Capt. H. L. Applewhite, commandant of cadets, Captain W. T. Merry, the official inspector of military drill, is due at Nevada on Thursday, May 6.

Captain Merry is well known and liked by acquaintances of former years in the Nevada cadet battalion. A highly gratifying report has been earned by Nevada in previous years, and it is expected that this year's standard of drill will be at least as high.

The ten schools receiving the highest standing in military drill in the country receive special honors from the military department of the United States. Graduates from these schools will receive special privileges in the army world, according to their official rank in the cadet battalion.

The complete itinerary of Captain Merry from the present date until the end of his present tour follows:

New Mexico College of Agriculture and State College, New Mexico, April 20; University of Arizona, Tucson, Arizona, April 22; The Harvard School, Los Angeles, Cal., April 26; The San Diego Army and Navy Academy, Pacific Beach, Cal., April 28; Utah Agricultural College, Logan, Utah, May 3; University of Nevada, Reno, Nevada, May 6; St. Mathew's Military School, Burlingame, Cal., May 10; University of California, Berkeley, Cal., May 11-12; Mt. Tamalpais Military Academy, San Rafael, Cal., May 13; Hitchcock Military Academy, San Rafael, Cal., May 14; Oregon Agricultural College, Corvallis, Ore., May 18-19; University of Washington, Seattle, Wash., May 25; State College of Washington, Pullman, Wash., May 27; University of Idaho, Moscow, Idaho, May 28; University of Wyoming, Laramie, Wyo., May 29; State Agricultural College of Colorado, Ft. Collins, Colo., May 31.

### THE SILVER BELT ROUTE

From Nenzel City to Rochester Town The line of Codd runs up and down; Ten miles long and three feet wide, It winds along the mountain side.

It hauls from there your golden ore. And express and passengers galore. Then, too, it handles all the freight, And charges for all the highest rate.

The railroad of the Silver Belt Has already made its presence felt, And the jitney auto will surely burst If it fights the Road of Service First

This road which runs by gas and steam Is the realization of Codd's pet dream; For every mile you pay ten cents, A dividend is the consequence.

When everything is said and done, And every word of praise is sung, You will agree this line of Codd Is the best that ever happened, by — J. Q. B., '15.

Regent Codd is to be congratulated for building such a railroad that the poets start to sing its praise. Judging from his reputation at Nevada, we'll take a chance and say "the line of Codd" is all O. K.

### NOVEL QUARTZ MILL BUILT BY CHINAMAN

The Chinese have the reputation of being without initiative, but the Mining Press tells of a Chinese miner working near Searchlight, who has shown great mechanical skill in the construction of a one-stamp quartz mill. The mill may be said to be made of junk, yet Sam Yet, the builder, claims that with it he can crush 800 pounds of ore a day and make a saving of 80 or 90 per cent. The cam is made from an old wagon wheel, the tappet is an old cog wheel, while the boss and shoe are made from the plunger of a pump. The mortar box is wood, with 40 mesh screens. A gasoline engine furnishes the motive power.

A Resemblance—Willis—"Eternity has neither beginning nor end, neither form nor shape, is so vast and complex that we can't understand, and yet at the same time is a void. There's nothing like it, is there?"

Gillis—"The only other thing I know of that answers the description is a moving-picture serial in a newspaper."—Puck.

Fox-Trot Sundae 15c, at the Fountain, Dalton, Cliffords and Wilson Co.

Lucky Victim—A "cub" reporter on a New York newspaper was sent to Paterson to write the story of the murder of a rich manufacturer by thieves. He spread himself on the details and naively concluded his account with this sentence:

"Fortunately for the deceased, he had deposited all of his money in the bank the day before, so he lost practically nothing but his life."—Harper's.

## EDITORIAL

DUES QUESTION

The vote taken last Thursday on the question of compulsory payment of athletic dues was doubtless an expression of the true sentiment of the A. S. U. N. Some surprise was expressed by a few, who believed that the real issue was thrust aside, and another substituted.

The payment of dues, we believe, should be made compulsory, providing the student could afford it. If he could not, no obstacle should be placed in his way toward a higher education.

There are always some few, and, luckily, they are in the minority, who attend a university with no thought of anything but their own advantage. They usually have liberal allowances, but, because they get no direct and tangible benefit from athletic contests, they refuse to pay for their maintenance. They do not realize that the best interests of the school depend to a great extent on suitable athletic activities, co-operating with the scholastic work to produce a well-developed medium. Selfishness has no place in the mind of the loyal Nevada man. The same one who loudly applauds the name of Mackay because of his benefactions for Nevada, may change his frame of mind when the time comes to pay his just share of the A. S. U. N. tax.

To build up a healthy sentiment against this minority seems to be the most logical remedy. It must be admitted that all the nays in last Thursday's vote did not come from delinquents. Payment of student money to a university controller seems to some a rather risky business, for a certain misgiving is felt concerning its accessibility. Whatever the causes or objection to the compulsory payment of dues, we surely should agree on one thing, and that is the unanimous support, voluntarily rather than forced, of our chosen activities.

### SPIRIT

After an arduous season of training, of self-denial of all the petty joys of dancing and other social pursuits, some fifteen husky wearers of the Blue and White will board the train Thursday evening for Berkeley. There they will put forth one last supreme effort to win for their alma mater what fame and honors they may.

A pause for a moment, a thought of the general ideals typified by such a body, may help the outsider to realize the true meaning of Nevada spirit. The men are little different physically from others of the same age. But take any similar number from any one of our rival institutions, consider the comparative size, and then watch them in competition! When you feel the thrills starting to creep up your spine, when your hat involuntarily goes up in the air, and you find yourself rooting body and soul for the fellow with the smaller body but the greater fight, you begin to feel like a true Nevadan. Thought of self seems to vanish like a mist, and a wild desire to get out and do your part controls you.

Which explains, to a great extent, the reason such a large percentage of the A. S. U. N. turns out for teams, and gives Nevada her present position.

## Ellsworth Bennett To be Principle

NEW TONOPAH PREP SCHOOL OF MINES TO BE MANAGED BY NEVADA M. E. OF CLASS '11

In accordance with the power vested in the board of regents by law, Ellsworth Bennett, '11, has been appointed principal of the new Tonopah school of mines, situated at Tonopah, Nev. Because of the size of the registration and also the appropriation for the school's support, Mr. Bennett will be the only instructor.

While at Nevada, Bennett was coach of the rugby team, assistant in the pure food and drug control, and deputy sealer in the department of weights and measures. For the last three years he has held an important position with the Seven Troughs Coalition Mining company.

Prof. Lincoln has reported on the Tonopah outlook to the state board of education. The state board supervises the Virginia City school, but the president and regents of the university control the new Tonopah school.

At present there are about twenty-five prospective students signed up for the mining instruction, with the probability that the number will increase to 40 when the actual work begins. Some trouble has been experienced in accommodating the men on different shifts, but day and night classes have been the solution of the problem.

### NEVADA APPOINTEES TAKING ANNAPOLIS EXAMS TODAY

Darrell Dunkle, formerly a member of the class of '18, returned yesterday from San Francisco, where he has been studying for the Annapolis exams for the past few weeks.

Both Dunkle and Clinton Melarkey, another Nevada freshman, are taking the final examinations today. Melarkey is taking his in San Francisco, while Dunkle is working under the supervision of Captain H. L. Applewhite, the commandant of Nevada cadets.

Both men were prominent in athletics, Melarkey making sub on the varsity rugby team, and Dunkle making his class and second varsity teams. He was slated for a second base position on the varsity baseball team, but was forced to leave school to study for his Annapolis exams. Both men are members of Sigma Alpha fraternity.

A little switch—a curl or two to take your tresses out will do—but look not like a baker's shop, with doughnuts, twists and rolls on top.—Minneapolis Tribune.

## Spring Festival To be Held May 7

UNDER DIRECTION OF MISS ELSIE SAMETH, CIRCUS TO BE STAGED ON MACKAY FIELD

Plans for the Spring Festival to be held on the Mackay Field May 7, are rapidly nearing completion. From 90 to 123 actors, from the kindergarten up to the university age, are to participate in the event, which is promised to be the best and biggest thing of its kind yet attempted.

On Thursday evening a dance for the members of the physical education department and their escorts only will be held in the University gym. It is to begin at 8 and end at 10:30, and is to be a strictly suffragist affair, in that the ladies must take the initiative and bid their masculine partners. Miss Elsie Sameth, director of physical education for women, has charge of the affair, and promises a jolly time for all who attend.

On the following day, beginning at 2 o'clock, the circus proper will start. All the birds and the beasts, the clowns and the dancers will mingle their acts in the setting of green-sward, making a show that will long be remembered.

A May pole dance, participated in by girls from the high school and university gym classes, will conclude the festival.

Throughout the afternoon the Y. W. C. A. girls will sell the traditional peanuts, popcorn, and chewing gum, etc. The proceeds will be donated either to the Y. W. or the student loan fund or both.

Admission is to be free to all students. Town folk will be charged a small sum.

### HARRY BULMER APPOINTED PURE FOOD INSPECTOR

In order to strengthen the working force of the food and rug department, Mr. Harry Bulmer, M. E., '05, has been appointed an inspector. Prof. S. C. Dinsmore, director of the department, will thus be enabled to give his individual attention to analytical work.

Since graduating in 1905 Mr. Bulmer has been engaged in mining enterprises in Virginia City. He only recently returned to Reno and was offered his present position shortly after.

Fifteen hundred arrests for bribery in the Japanese election show that Nippon is rapidly emerging from the gloom of despotism into the full light of self-government.—Boston Transcript.

## Reno High Notes

Friday evening a dance was given to the students of the high school by the junior class. A large crowd attended the dance, and everyone pronounced it a huge success.

On Saturday afternoon the track team of the high school met the U. of N. freshmen at the Mackay field in a dual meet. It was an easy victory for the freshmen, but the trackmen of the high school showed up in wonderful form, especially Cunningham in the quarter and Wilcox in the 220.

The date for the academic meet is fast drawing near and everything indicates a victory for Reno high. It will not be an easy victory though, as schools from outside points have good material and will send in the best teams that can be produced.

E. O'NEILL, 1915.

Two hundred cadets from South Dakota State college will journey to the Panama-Pacific exposition on a special train. It is planned to make the trip as a military organization and to camp for two weeks on the exposition grounds.

## A. G. Spalding & Bros.

## Graduate Manager Reports Finances; Baseball Season Leaves Deficit

According to the report of Graduate Manager Ross, the season just closed was rather unsatisfactory from a financial standpoint. Though he reports a deficit of \$99.35 resulting from the short schedule, this sum is more than covered by a private subscription list circulated by Phlaging, before the California baseball trip was assured. The report:

Executive Committee, A. S. U. N.

I herewith submit my report for the baseball season, 1915:

EXPENDITURES	
Guarantee to Davis Team.....	\$ 75.00
Guarantee to California Freshmen.....	35.90
Loam for Baseball Diamond.....	12.50
Eats.....	2.50
Bases.....	1.25
Lumber for Backstop.....	2.30
Wire for Backstop.....	3.00
Iron Pins for Basebags.....	2.00
Score Book.....	7.00
3 Dozen Baseballs.....	36.00
1 Baseball Mask.....	4.25
Advertising and Tickets for Games.....	10.50
Telegrams.....	2.35
Transportation to San Francisco and return and from San Francisco and return.....	184.00
Berths.....	6.00
Subsistence.....	8.00
Streetcar Fare.....	.90
Bandages, Rubdown, Tape, Etc.....	2.50
<b>Total Expenditures.....</b>	<b>\$439.65</b>

RECEIPTS	
Allowed by Executive Committee.....	\$200.00
Gate Receipts Davis Farm Game.....	16.25
Gate Receipts Freshmen Game.....	34.05
Cash from Modesto.....	40.00
Cash from California.....	50.00
<b>Total Receipts.....</b>	<b>\$340.30</b>

**TOTAL DEFICIT ON SEASON..... \$99.35**

This deficit, before being contracted, was insured by private subscription list. This list has not as yet been collected but I am advised that same will be done within the next day or two.

Very truly yours,  
S. E. ROSS, Graduate Manager.

## Varsity to Play Westwood Nine

### BASEBALL MEN TO PLAY FINAL GAME OF SEASON WITH AMATEUR NINE MAY FIRST

A post-season baseball game has been arranged with the Westwood nine, to take place Saturday, May 1. The Nevada Varsity, though it has had little practice after the return from the California trip, will need little conditioning to return to their former gait.

Westwood has been seeking a game with Nevada for some time, and redoubled their efforts when they heard of the brand of ball they were playing. Some thirty-five hundred population makes up the town, which is little more than a year old.

Si Ross has issued a call for students to contribute machines for the

trip. All expenses of machines and drivers will be paid, and a good time guaranteed to those going.

The Glee Club was also invited to give a show the night of the baseball game, but owing to lack of time and the number of engagements around the end of the month, they were forced to refuse.

The same lineup that played California will probably be taken to Westwood. Holtham, Ferris and Talmage will be the batteries.

### To Visit Exposition in Box Car

A fraternity group at the Colorado College, finding their funds too low for the usual means of transportation decided to visit the exposition in a box car this summer, but as they could not be classed as live stock the railroad company would not allow this. They now plan to ship their pet goat and about half the club will have to go along to take care of it.

## High School Team Prepares for Meet

### COUNTY MEETS HELD IN EASTERN PART OF STATE; INTEREST GROWING FAST

From all parts of the state come reports of consistent training by members of the various high school teams in preparation for the big interscholastic track and field meet May 8 on the Mackay field. Goodly numbers of students are competing for places on every team, so that the final competition on Mackay field should result in several broken records.

Preliminary meets are being held regularly in the eastern part of the state, Elko and Winnemucca especially showing the greatest interest. A county track meet, to be held in Elko the last part of this week, is to be the last before coming to Reno. It will probably be the first county meet to be held in the state, and some good times should result. Some fifty students are already entered, with prospects for more as the time for the meet draws near.

Another contest that is attracting attention among the girls is that of cooking and candy making. Fourteen girls from various parts of the county, who are members of cooking clubs that have been organized this year by Miss Davis of the University of Nevada, are to be there, entered in a soup and candy tussle. There will be a board of ladies appointed to act as judges, while five cents will be charged the hungry for a plate of soup or a chew of sweetmeats. Local merchants have kindly contributed suitable vessels as prizes.

A still further contest will be that of the declamatory, open to both boys and girls.

For all these events prizes in the shape of silver medals have been provided. These bear the insignia of the athlete and will be engraved with the winners' names and dates, etc.

From Ely comes reports of the good performances of their various stars. Alvin Peters is said to be as speedy as ever, which should make the 50 and 100-yard dashes Ely events.

Susanville is to send her usual strong team this year, with the hopes of winning the meet in her old-time form.

Reno high, it must be admitted, looks like the most dangerous contender for first honors. Snare, Welty and Cunningham all look good for points in their respective events, and should keep their team close to the top of the score column.

In order to entertain the visitors fittingly, elaborate plans are being laid to chase away every dull moment from the short time the preps stay on the Nevada campus. The Glee Club is planning a show. Miss Elsie Sameth has a May festival series of dances in course of preparation, and a dance and tours of inspection around the interesting points of the town will keep the hours full.

The following are the committees from the Block N society who are to take charge of the general arrangement of the meet:

- ENTERTAINMENT**  
Walker, Haseman, Healy, Kent.
- PREPARATION OF GROUNDS**  
Earlton, Fake, Henningsen, Hill.
- PUBLICITY**  
Joe MacDonald.
- ON OFFICIALS**  
Scrugham, Ogilvie, Hovey, Sheehy.
- Root appointed to confer with Chief Hillhouse to secure aid in handling crowd.

A little Colgate's now and then is pretty Jake with most of men; but don't the privilege overdo and fix it so we can't see through.—Evergreen.

## Tuskagee Quartet Sing at Assembly

### WORK OF INSTITUTE FOUNDED BY BOOKER T. WASHINGTON EXPLAINED BY VISITORS

At assembly in the gym last Thursday the five negro singers from the Tuskegee Institute made extremely favorable impression. The quaint old negro melodies were well rendered to a large audience composed about equally of students and townfolk.

The work of Booker T. Washington in founding the institute was explained. At present there are about 1800 students enrolled in the courses, which mix the theoretical work with the practical. Of the several thousand graduates, only three have been jailed for any offense, which speaks well for the uplift work.

After the concert, the custom of taking a collection, instead of charging admission, was carried out.

## MACKAY MINES MEN SECURED EMPLOYMENT

In order to aid the students in the mining department in finding summer work, Director Lincoln has ascertained the work desired by each member of his department, and has written to the various mining camps of the state, where he is acquainted with mine managers.

Out of a partial list of 24 names, 13 want work of a mining nature, 2 do not want any work and 9 already have the positions they want. It is expected to place the entire number before commencement time arrives.

**Higher Efficiency** — Demosthenes was about to go down to the seashore and perform his customary stunt of talking with his mouth full of pebbles to improve his enunciation. On the way an idea assailed him.

"What's the use of fussing with a lot of bilgy pebbles," he growled, "when I can get the same effect out of the Galician battle-fields?" And he said Suzlysmzehrgrl six times in rapid succession.—Cleveland Plain Dealer.

## William Faversham

Famous Actor, says

"A pipe of Tuxedo keeps me feeling physically fit and in good spirits, and, because it is mild and doesn't bite, it is pleasant to the throat and keeps my voice in good tone."

*William Faversham*

### Tuxedo Keeps You Physically Fit

Every playgoer has remarked the virility and clean-cut vigor of William Faversham, both as an actor and as a man. No matter what part he is playing, he always presents a figure of alert strength and keen wits. His voice is especially engaging, clear, carrying and sonorous.

For Tuxedo tobacco to gain a testimonial from such a man, stating that it helps to keep him "physically fit and in good spirits" and keeps his voice "in good tone" goes far toward convincing you of Tuxedo's wholesome, all-round value to you.

# Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Tuxedo will put snap and vim into your daily work. It's an inspiring tobacco that will keep you fit as a fiddle, full of zest, hearty and happy and hale. You can smoke it all day long, and each succeeding pipeful will glow with greater cheer.

The original, exclusive "Tuxedo Process" has many imitators—but no equal.

Try Tuxedo for a week, and you'll like it forever.

## Aggie Student To Harvest Crop

**POPULAR SOPHOMORE FORCED TO LEAVE SCHOOL IN ORDER TO CARE FOR PROPERTY**

In order to harvest a crop of barley which he planted the first of this semester, Louis S. Vogt, '17, is forced to take a leave of absence and return to his Imperial Valley ranch.

Vogt has some 320 acres sown, and plans to harvest his grain, beginning next week. For the last ten days he has been somewhat busy securing pictures of familiar scenes and characters around the campus, preparatory to starting an art gallery in the old Mexican town of San Diego.

Vogt was host at a dinner given Wednesday evening to the members of his fraternity, Sigma Alpha. He plans to see the conference meet next Saturday, and then proceed by the inland route to his Imperial Valley home.

## Seniors Are Guests At Class Banquet

**RIVERSIDE IS SCENE OF MERRY GATHERING; PRES. AND MRS. HENDRICK RESPONSIBLE**

The graduating class of '15 were the guests of President and Mrs. A. W. Hendrick last Friday evening at a sumptuous banquet on the Riverside veranda. As the last social gathering of their university career, the class of fifteen declares it the jolliest and prettiest class function they have known during their four years at the U. of N. Each senior face was depicted on his or her own place card, while a dainty verse or motto, rolled up, diploma style, was tied in one corner with the class colors. The decorations on the walls and the carnations and candy on the table were all in crimson and white. At the end of the dinner a wonderful cake was brought in, which told the future of the members of the class. In Mr. Pflaging's piece of cake there was a ring, which meant that he would be the first of the class to be married. In Lelia White's portion, was a dime, meaning she would be the first to become rich. Ira Kent drew the collar button, meaning it is destined that he live a bachelor's life. Harper Neeld drew a thimble, so there will be no "old maids," but two bachelors in fifteen's class.

It was decided that in order to know where each classmate was and what each one was doing after graduation, that a year from that night and every year about that date, each member would write a letter to, President Hendrick. He is to bunch them together and start them around so each member can read the "doings" of the class mates.

Seated at the banquet board were: President and Mrs. Hendrick, Dear Lewers, Prof. Charles Haseman, Miss Carna Damm, Miss Lysle Rushby, Miss Laurena Marzen, Miss Veronica Dickey, Miss Marjorie Mead, Miss Dorothy Bird, Miss Pearl Stinson, Miss Leila White, Miss Jessie Hylton, Miss Gertrude Shade, Miss Ruth Aiken, Miss Josephine Williams, Mrs. A. W. Preston and Messrs. Ira Kent, George Latapie, Tom Walker, Earl Swain, George Ogilvie, Joe McDonald, Harper Neeld, Elmore Abbott, Frank Bannigan, Adelbert Pflaging, Richard Sheehy, Lister Withers, Sol Cazier, Gei Coe and Phillip Cowgill.

### ENGAGEMENT OF NEVADA GRAD ANNOUNCED LAST SATURDAY

The engagement of Miss Vera Hash, a graduate of the University of Nevada to Bud Holcomb, a wealthy rancher, was announced Saturday afternoon at a reception at her home on the South Virginia road.

After graduating from Nevada Miss Hash attended Smith college, Northampton, Mass., where she did post-graduate work. After her return she taught school in the Huffaker district.

### Helping Reform

He—Miss Prettyface, I have been converted, and I want to make restitution for any wrong I have done. I stole some kisses from you, and I would like to give them back.

She—Well, Mr. Smith, of course I don't want to put any obstacle in the way of your doing what you think is right.—New York Sun.

The "yellow peril" bears a new face in view of the winning of the Yale oratorical prize by a Chinese student and the "spelling down" of a casis of erudite Oregonians by a Japanese girl.—Seattle Post-Intelligencer.

### UNIVERSITY OF ILLINOIS.

According to statistics compiled at the University of Illinois in regard to the number of flunks, five hundred and eighty-eight were noted in the count in the names up to the N's. Over one thousand students failed during the last semester.

## Browne Loses Bout To New York Champ

**LACK OF EXPERIENCE AND AGE HANDICAPS CONTENDER IN 108-POUND CLASS**

Having to tackle a man who is generally conceded to be the best in the country, Howard Browne, '18, the Pacific association entrant from Nevada, lost his chance last Saturday for the American wrestling championship.

The other two entrants for this division were Richard Goudie, from the Lima, Ohio, Y. M. C. A. of the Central association, and Earl Benson from the Swedish-American Athletic club of Brooklyn, N. Y., of the Metropolitan association.

Benson and Browne wrestled for the right to challenge Goudie, who is the present holder. Nine minutes elapsed before Browne became entangled in a hold he had never heard of before, and his shoulders were pinned down for the one fall necessary.

According to Coach Glasscock, all that Browne needs is a little more experience and years, and he will equal the best. He is only 17 years old, and has wrestled only three months. Benson is 26 years old and Goudie is 31. Lack of competition also militated against Browne's chances for success, for most of the holds he encountered were new to him.

The A. S. U. N. paid all of Browne's expenses on his trip in accordance with the action taken in the last student body meeting.

## NOMINEES

Below is a list of all nominated to date for student offices:

**FOR PRESIDENT—**  
Harry Hovey.  
Frank Fake.

**FOR VICE-PRESIDENT—**  
Louis Rose.  
George Henneingsen.

**FOR SECRETARY—**  
Leslie Johnson.  
Mary Raitt.

**FOR TREASURER—**  
Ruth Pyle.  
Earl Borchert.

**FOR WOMEN'S ATHLETIC MANAGER—**  
John Quigley.  
Miss Gallagher.

**FOR REPRESENTATIVE OF THE EXECUTIVE COMMITTEE FROM THE NEXT YEAR'S JUNIOR CLASS—**  
Miss Walker.

**FOR REPRESENTATIVE OF THE EXECUTIVE COMMITTEE FROM THE NEXT YEAR'S SOPHOMORE CLASS—**  
Harry Moore.  
Bill Melarkey.  
Frank Goodin.

**FOR ASSISTANT EDITOR OF THE SAGEBRUSH—**  
Earl Holtham.  
Frank Harriman.

**FOR ASSISTANT BUSINESS MANAGER OF THE SAGEBRUSH—**  
Bob Donovan.  
Donald Stewart.  
Joe Hill.

**FOR GRADUATE MANAGER—**  
H. Layman.  
Talmage.  
Cy Young.

**FOR ASSISTANT EDITOR OF THE SAGEBRUSH—**  
Andy Hardin.  
Howard Browne.

**FOR ASSISTANT BUSINESS MANAGER OF THE SAGEBRUSH—**  
R. M. Parks.  
John Heard.

**FOR GRADUATE MANAGER—**  
Dana King.  
Miller.

**FOR GRADUATE MANAGER—**  
Menardi.  
Ross.  
Pflaging.

Elections are to be held the first week in May. Nominations may be made up to twenty-four hours before elections.

## All Coast Five Is Not Selected

**MANAGERS FAIL TO RECOMMEND THEIR CHOICE FOR THE HONOR TEAM OF LEAGUE**

Because of the failure of two teams in the Intercollegiate Basketball league to send in their nominations for places on the All-Coast five, none will be picked this year, according to a letter from Gerald Beaumont, secretary of the league. Those names that were sent in were so radically different that Beaumont threw up his hands and declined the honor of selecting a team from such a mixup.

Nevada, California and the College of the Pacific were the only teams to send in their list of players and these lists appear to be in variance. Manager Ross had picked Henningson of Nevada as center, McCubbin of Nevada and Mayo of Stanford as guards. Norton of California and Sheehy was picked by California. Consideration of the field goals for and against each player in the league were taken into consideration and the ability in passing and fielding the ball with the ability for high scores are the qualifications that were adhered to in judging from the aggregate.

### A MAN'S MOTHER.

Many a man is enjoying a fame which is really due to a self-effacing, sacrificing mother. People hurrah for the governor or mayor or congressman, but the real secret of his success is often tucked away in that little unknown, unappreciated, unheralded mother. His education and his chance to raise may have been due to her sacrifice.

It is a strange fact that our mothers, the molders of the world, should get so little credit and should be so seldom mentioned among the world's achievers. The world sees only the successful son, the mother is but a round in the laddered upon which he has climbed. Her fame or face is seldom seen in the papers, only her son is lauded and held up to our admiration. Yet it was that sweet, pathetic figure in the background that made his success possible.

There is no one in the average family, the value of whose services begins to compare with those of the mother, and yet there is no one who is more generally neglected or taken advantage of. She must remain at home evenings and look after the children when the others are out having a good time. Her cares never cease. She is responsible for the housework, for the preparation of meals; she has the children's clothes to make or mend, there is company to be entertained, darning to be done and a score of little duties which must often be attended to at odd moments snatched from her busy days, and she is often up working at night long after everyone else in the house is asleep.—Public Health.

### CLEAN FINANCES.

A number of student court trials last year revealed the act that the class accounting system then in force was by no means perfect. Class officers were frequently entirely ignorant of its requirements; there appeared to be no central responsible party to whom accounting could be made; the system seemed to have hardly more than a nominal existence. Appreciating these defects, the Conference recently adopted a new system of accounting which is now ready to be put into effect.

The system is simple and easily comprehended. It is to be administered by a salaried official which should insure its enforcement. There is no reason why this system should not result in a highly efficient conduct of student finances. Dishonesty and carelessness in the use of class funds should become a thing of the past.

It is unlikely that the student courts will in the future listen to any pleas of ignorance. Hence, it will be in the interest of everyone connected with the administration of class finances to inform themselves as to the requirements of the new system. At last we are to have clean and efficient conduct of class finances, thanks to student self-government!—The Daily Cardinal.

Defined—"I feel like a Chinese junk," remarked the guest at a Southern winter resort.

Politely we bit.

"I am boarded by pirates," he answered to our query.—Philadelphia Public Ledger.

## Nevada Grads Wed; U. N. Cupid Again

**ROMANCE OF COLLEGE DAYS ENDS HAPPILY, WITH MARRIAGE OF RECENT ALUMNI**

The nuptials of Raymond Gignoux, '12, son of Mrs. J. E. Gignoux, and Miss Frances Smith, '14, were celebrated last Thursday at the Congregational parsonage. The couple left Thursday night for San Francisco, where they will spend several weeks before going to their home in North Bend, Oregon.

Gignoux graduated from Nevada in 1912, after which he worked for some time in the G. E. shops in Schenectady. He was a popular member of T. H. P. O. fraternity.

The bride is well known in Nevada University circles, where she was prominent in all activities. She was a member of Tri-Delta sorority.

The couple plan to make their home in North Bend, Oregon, where Mr. Gignoux has a position with the Southern Pacific company.

### MURNE COWAN

News of the latest record breaker in the dairy world may be of interest to the aggie contingent. According to the Toledo Blade, Murne Cowan holds the record for the highest production of milk and butter fat for one year.

She is a five-year-old cow, a modest, unassuming Guernsey, who has been crowned queen of the dairy-world. To earn this exalted position, she produced, last year, twelve tons of milk. The average mind may not be able to grasp the meaning of milk in tons. This may help: According to the tests made by the dairy department of the Ohio State University the new queen's milk averaged 5 per cent but-

terfat, and during the year she produced 1,096 pounds of butter-fat, which churns into 1,400 pounds of butter. Anybody who buys butter of the grocer can grasp that. However, to understand better the remarkable production of this dairy-wonder, it may be added that the average production of butter-fat per cow in Ohio is 133 pounds.

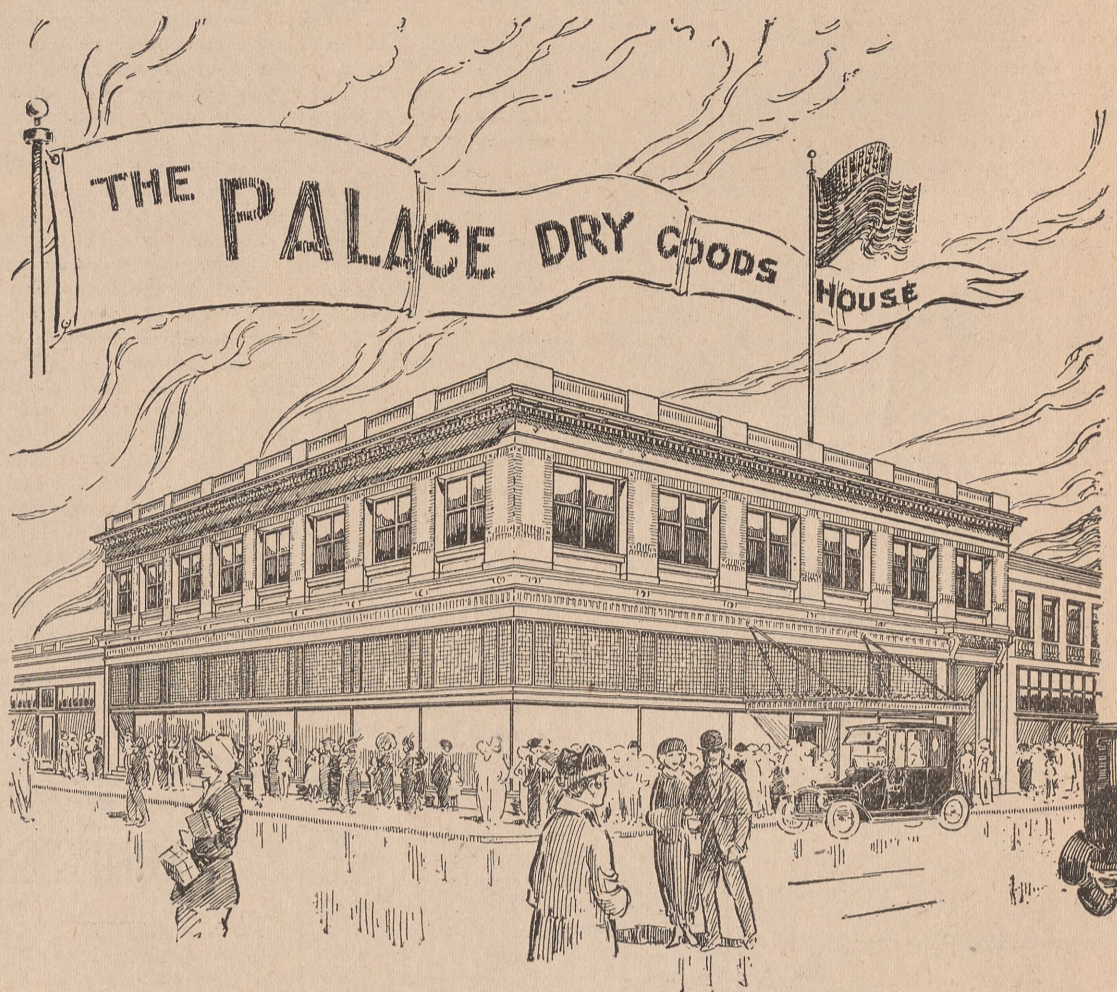

Murne Cowan doesn't have to low

at the gate for attention. She is pampered and patted and petted as Destiny selected her to rise above her befits her station. She doesn't have to burrow into the depths of a weather-beaten straw-stack for choice bits of grain that went with the chaff. Kind, to achieve great things, and she reaps daily the rewards of her achievement. Of course, the queen responds to the exceptional care she

receives. To Murne Cowan gratitude is butter-fat, and she expresses it in pounds.

No Cloture—"Why does the Senator keep talking in that rambling way? I don't know what he's aiming at; do you?"

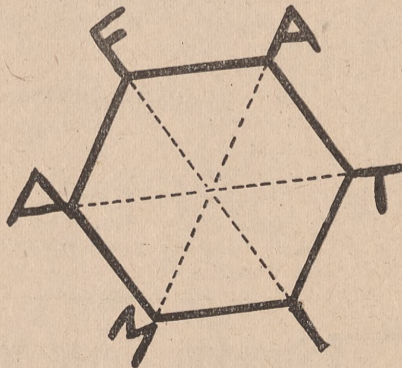

"Sure I do. He's filibustering to keep his daughter from singing."—Fuck.

**Pumping Sites Being Selected**

DEAN SCRUGHAM VISITING PROPOSED EXPERIMENTAL STATIONS FOR WELL BORING

During the last week Dean Scrugham of the Nevada engineering department, and E. P. Gibson of the General Electric company visited Elko for the purpose of inspecting a proposed pumping proposition at the State Detention home.

Inspection of proposed sites for irrigation pumping experiments was begun last week by Dean J. G. Scrugham and in company with Mr. Gibson he visited Lovelock, Winnemucca and Elko and this week will go to Fish Lake Valley and Las Vegas.

The last legislature made provision for the giving of competent advice to such persons as may contemplate the installing of pumping plants, and Dean Scrugham has already been called to pass upon the feasibility of several propositions.

Correspondence is invited from those persons owning land capable of development, by irrigation pumping who may desire to have an experimental plant located on their ground. It is expected that the owner of the land will put down the necessary well or wells, furnish the fuel or power for operating the pumps and board and lodge the man sent to operate the outfit. The university will loan, free of charge, the necessary pumping equipment, measuring devices, and the services of a man to operate the experimental plant until the feasibility of the project is determined. In general, it is proposed to investigate the practicability of irrigation pumping for any district in Nevada whose residents are willing to co-operate to the extent of putting down wells and paying actual operating expenses.

Winnemucca is to be the first town in the state to receive the benefit of the new pumping experiment stations which are being established throughout the state. Dean J. G. Scrugham returned Monday from a trip through the Elko and Winnemucca districts, and decided to begin taking data on numerous wells in these districts.

Junior and senior engineering students are to be employed, so far as is possible, during the vacation months. Costs of all the various items of work will be obtained in this most practical of ways, together with a knowledge of irrigation problems obtainable in no other way.

Dean Knight and Dean Scrugham expect to go together this week to the Fish Lake Valley, said to be one of the most fertile undeveloped valleys in the state. It has been under control of three pioneer families for years. Dean Scrugham will then go to the Armagossa, Las Vegas and Indian Springs districts to establish experiments.

Since the engineering experimental work in irrigation was first established, letters have been pouring in from all parts of the state asking that pumps be furnished and measurements made for water, but Dean Scrugham says the experiment stations have all been picked. It was necessary to keep in mind in the first series of experiments the question of accessibility through nearness to railroads.

**Prof. S. B. Doten Receives Praise for Experiment Work**

In an article in the Experiment Station Record, published by the United States department of agriculture, pays the Nevada experiment station a high compliment for its public service work, as evidenced by the public appreciation.

Prof. S. B. Doten says that the state is awakening to the advantages the department offers in the solution of farm problems. Bacteriology and veterinary science are especially popular subjects of inquiry, as evidenced by the amount of work done in both branches.

### Track and Tennis Teams Chosen

Continued from page one

in the pole vault is 11.6 feet. The high jump is stationed at 6 feet, though a few inches lower is probably nearer the mark.

In the broad jump 22 feet 5 inches has been covered. The hammer is being hurled 148 feet consistently by Gildersleeve, who is heralded as another varsity comer.

Of the other teams in the meet little is known, since they have had little or no competition this year. Santa Clara has Johnson, a Palo Alto high runner, and Hawkes, whom Nevadans remember as the Olympic's center three last year. Johnson is a fast TRACK.....

:10.1 man, while Hawkes is an easy :10.2 performer in the 100.

Leaving Johnson out, Glasscock figures, Nevada should win the first two places in the 100, and a first in the 220 yard dash.

Meyers is figured for second place in the quarter, figuring the time he has made without competition as slower than his racing possibilities. In the half, a second and fourth place is being counted on for the Blue and White. Both Chism and Hovey are showing good speed over the two lap distance, and their times should be improved considerably on a firmer track.

Capt. Ogilvie is relied on for a first place in the mile, with his mark of 4:25 last year. He is going well this year, and should repeat his time with ease.

Kent is figured for a third place in the marathon race. Kent should negotiate the distance in close to 10 minutes.

Woford is figured to place in the hammer throw, with consistent throws of over 140 feet to his credit.

A second place is the conservative prediction in the high jump, though with Clifford and Hardin both jumping close to 5 feet 10 inches, chances seem good for two places.

First and second places are expected in the broad jump from Hardin and Root. Both men are good for over 22 feet, which should win easily.

The relay team will be possibly the strongest event for the Nevadans. Ogilvie, Hardin, Meyers, Jones, Martin and Hovey are eligible, and those making the best time will be selected.

The best time made so far by Hovey is :54 flat; Martin, :55.4; Jones, :57.1. In a tryout yesterday morning, Bill Melarkey paced the mile off in 5:02, without showing any great effects of the run. Melarkey should be good for a place next Saturday, as he is improving every day.

Those who are assured of their places on the team are—Ogilvie, Hardin, Root, Woford, Meyers, Melarkey, Chism, Hovey, Kent, Rose, Clifford Martin and Hancock.

From Greenwood, Clark, Watt and Hill the remainder of the team will be selected. Reservations have been made on No. 23 Thursday night for the track and tennis teams, who are to compete at the same time.

Coach Christie has announced the lineup of the '18 team as follows:

- 100-yard dash—Claudius and Clark.
- 220-yard dash—Claudius, Clark, Gibbons and Jackson.
- 440-yard dash—Gibbons, Lawton and Flack.
- 880-yard run—MacDonald, Gardner, and Beebe.
- Mile run—Beebe, MacDonald, Gardner and Lloyd.
- Two mile run—Hollister and Lloyd.
- 120 high hurdles—Kiessig, Wright and Wolcngiewicz.
- High jump—Jackson and Wolongiewicz.
- Broad jump—Austin and Morgan.
- Shot put—Liversedge and Richardson.
- Pole vault—MacMorrow.
- Hammer throw—Gildersleeve and Richardson.

#### Y. W. O. A.

Next Wednesday afternoon, in the Morrill hall Y. W. room, several of the Y. W. girls who recently visited the exposition will tell of the wonders of the big exposition and the prominent part the Y. W. C. A. plays in the big show. The association building was thoroughly inspected by the visitors, and the impressions gained will be told. Room 6, Morrill hall.

#### ENGLISH O.

Am she gone and are she went,  
Have she left I alone  
Can me never go to she?  
Can hed never come to me?  
It cannot was.

### Play to Be Given By English Club

GYM TO BE SCENE OF THEATRICALS PRODUCED UNDER DIRECTION OF PROF. TURNER

That the theatrical germ is roaming wild and untamed on the Nevada campus is proven by the latest news (exclusive, by the way) of another play to be given within the next fortnight.

The English club is the group responsible for this latest play. Only the hero and heroine have been selected up to date, but they are rehearsing faithfully each evening. The names of the entire cast will be announced later, together with the play, which has not yet been finally selected.

"The Mouse Trap" is being considered, but others of equal merit are also at hand. Prof. Turner is at present bending his best efforts toward the selection of a suitable cast for the play, which will reflect the good results of his tutoring.

### Class of 18 Wins Over R. H. S. Rivals

Continued from page one

din (F) second, Fransden (H S) third. Height 5 feet 9 inches.

Two hundred twenty yard dash—Henry (F) tied for second. Time 24.3. Henry (F) tied for second. Time 24.3.

Relay—Won by freshman team. Martin, Meyer, Greenwood, Hardin.

#### ACT IV

Scene—Rehearsal for Senior Farce at Majestic Theater. Songs, dances, etc.

Characters—Same as in former acts.

#### FIRST SUMMER TRIP

A rather interesting account of the first summer mining trip of the University of California geologists is contained in the Mining and Scientific Press, published March 27, 1875. Mt. Diablo and the country surrounding was selected as the field to be worked. The whole expedition was under the direction of Prof. Jos. Le Ponte.

Immediately adjoining this article is an explanation of the "district telegraph," assuring the public that this is no longer an experiment, but a public institution. Private policemen, firemen and messenger boys were all ready for service at any time the lever was turned on the signal box.

The Price—Jean longed for a kitten. When illness made it necessary for Jean to go to the hospital, her mother said:

"I will make a bargain with you, Jean. If you will be a brave little girl about your operation, you shall have the nicest kitten I can find."

Jean took the other, but later, as she came out from under the anesthetic, she realized how very wretched she felt. The nurse leaned over to catch her first spoken word.

"What a bum way to get a cat!" moaned the child.—Harper's Weekly.

A little make-up now and then is sanctioned by the best of men. But, girls, it is a great mistake to frost up like a wedding cake.—Youngstown Telegram.

A little make-up here and there will help to make you shapely where it's needed by girls like a rail; but don't use a whole cotton bale.—Houston Post.

Qualified—Billy Mooney, after running a barber-shop in Centerville for two or three years, decided to become a dentist. His uncle Si, upon hearing of this decision, dropt in to talk it over.

"Yes, Billy," said he, "dentistry is about the easiest new job you could tackle. You know how to work the chair already, so the rest ought to come easy enough."—Houston Chronicle.

### Speaker Selected For Commencement

DR. DAVID SNEDDEN TO DELIVER COMMENCEMENT ADDRESS FOR CLASS OF 1915

At the commencement exercises, to be held May 12, Dr. David Snedden is to deliver the principal address. Dr. Snedden is commissioner of education of Boston, Massachusetts, having held that position since 1909.

As commencement speaker, he is peculiarly adapted to his position. He holds the degrees of A. B., Stanford University, 1887; A. M., Columbia, 1901; Ph. D., 1907; member N. E. A., Phi Delta Kappa, Phi Beta Kappa.

He is a well known author of several articles on educational problems, among others the "Administration of Education for Juvenile Delinquents," "Educational Administration in the United States," and "School Reports and School Efficiency."

A little incense now and then may make a good impression when you hesitate about the floor; but girls—don't be a whole drug store.—Minnesota Daily.

A beauty spot or maybe two, will aid appearance it is true; but girls, there is a place to stop—don't be a walking beauty shop.—Iowa State Student.
