

FARMERS CLUB HOLDS MEETING

PLANS ARE DISCUSSED AND OUTLINED FOR THE COMING AGRICULTURAL WEEK

The Agricultural Club began the semester's activities with a decidedly successful meeting last Wednesday evening in the dairy building. The chief feature of the evening was the showing on the screen of a part of the two hundred new slides which have recently been received. These slides consist of pictures of pure-bred stock, including horses, hogs and cattle.

The early part of the evening was spent in viewing various slides—those of horses and beef cattle being explained by Prof. Wilson; dairy cattle by Mr. W. M. Regan and swine by Mr. C. A. Norcross, director of agricultural extension. These gentlemen were assisted by Mr. W. A. Scott and Dr. Lockett.

After the slides were shown the meeting was called to order by President Abel. The reports of the secretary and treasurer were received. In order that new members might know the aims of the club President Abel gave a brief outline of the work and appealed for better support this semester. Upon motion assessment of 25 cents was levied to provide for a page cut in the *Artemisia*.

Dean Knight was called upon and spoke in part as follows: "When this club was organized some years ago it was for the benefit of the men, both socially and educationally. Every aggie student should be interested enough to become a member. This organization has failed to accomplish anything of importance and little interest has been shown. If the methods used are wrong they should be changed. I think this organization with some 48 members available can be made, and should be, one of the strongest clubs on the hill. I want to feel that I am a member of this organization. If being held twice a month is too often, let's change it. When we do meet we want a live meeting. Let's make it a smoker and have open discussions on current agricultural topics and practices. We are here at the University to get more than the text book offers. We are here to broaden ourselves and that can only be done by meeting others. We instructors should know all of our students and we want them to know us. Here is where we should get acquainted with one another. We must work together, the individual cannot do as much as the whole, working as a unit. I do not want to run you out to meetings but if we are going to have a club let's make it a benefit and worth while. As a member I will give it my hearty support."

Mr. W. M. Regan then spoke in part as follows:

"I am a new man here. I am glad I was invited to attend your meeting. I want to second what Dean Knight has said about getting together. The fact that we go to the University for four years does not make us farmers. We have other things of vital importance to learn—but not from text books. A man must learn to get along with people. When a man gets out into extension or other actual field work he is going among strangers and he must be able to get along with people until he can show his worth. The place to get this confidence is from the student activities." Mr. Regan then gave an outline of what

(Continued on Page 6)

NATION'S GREATEST ARE INTERESTED IN PLAN

NEED OF GOVERNMENTAL INSTITUTE IN ENCOURAGING RESEARCH OUTLINED

BASIS OF PREPAREDNESS

PROF. C. A. JACOBSON DELUGED WITH LETTERS AS RESULT OF RECENT ARTICLE

The *Journal of Industrial and Engineering Chemistry*, in a recent number, carried an interesting and instructive article by Prof. C. Alfred Jacobson of the University of Nevada, which was reproduced practically in full in the *New York Evening Sun* and the *Journal of Finance and Commerce*.

Prof. Jacobson suggests the immediate construction of a great institution devoted to the development of the science of chemistry, a science upon which he claims the very life of the nation rests.

The proposal has been endorsed by Secretary of War Garrison, Secretary of the Navy Daniels, Major General Leonard Wood and many other authorities.

Amongst the flood of letters which Prof. Jacobson is daily receiving, notes from Secretary Houston, at the request of President Wilson, and from ex-President Roosevelt, show the high esteem in which the plan is held amongst the great minds of the nation.

Lack of space prevents the full statement of Prof. Jacobson's project. The basic idea, however, is the establishment of a governmental institute for the development of fundamental sciences. Chemical research, in which this nation is so backward, would be only one of the branches of scientific work which this institute would delve into. It would be the means of gathering the best brains of the nation together, to co-ordinate the various bits of knowledge concerning important scientific and industrial problems, and to direct the mental energies of the nation's genius, in the right direction.

The following is an extract from Prof. Jacobson's original pamphlet:

"Enough has been said to start the refrain if the idea possesses some intrinsic value. This lump of earth after being sifted through the press and cupelled by our leading chemists might leave a residue, which, when alloyed with the proper elements, and then passed through the legislative machines, might produce a filament that will glow and sparkle when a current of American energy and patriotism is passed through it, shedding light into all the world."

NEW FACULTY MEMBER

A new assistant in the department of animal husbandry has joined the ranks of the aggie faculty. Prof. Wilson announces that he has a lusty, healthy infant well-suited to a farmer's life and that in spite of his age of two weeks he has centered his stock judging proclivities on the cat of the household.

Tangoe Sundae—made from Orange Pudding, D. C. & W. Co.

VARSITY OUTPLAYS COLLEGE OF PACIFIC

IN FAST GAME, NEVADA WINS BY OVERWHELMING SCORE OF 53 TO 18

Nevada opened the basketball season propitiously last night with an overwhelming victory over the College of the Pacific, thus taking a position of first rank in the basketball league. When the final whistle sounded the varsity five was on the long end of a 53 to 18 score. The visiting team fought gamely until the end but they were outclassed from start to finish.

College of the Pacific secured the first point on a free throw but Captain Henningsen retaliated soon after with a field goal. Nevada scored consistently and at times with ease. The newly developed trick plays were used with good results and the shifting of players often puzzled the visiting five.

Coach Wentworth apparently adopted a new style of attack in this game. Most of the play was near Nevada's goal and Trabert was the only man to play a purely guarding game. At that he managed to slip up and make a basket in the second half. Buckman while nominally a guard played a forward game a good part of the time and threw five field goals. Ballis was shifted from guard to forward and played a fast, snappy game, securing five baskets. McKenzie, starting his first varsity game, was the star of the evening. He was fast on the floor, rang up five field goals and secured eight points on free throws.

Captain Henningsen, showing greatly improved form over his work of two weeks ago, made the highest number of field goals, ringing the basket for a total of fourteen points. Stewart entered the game during the last few minutes of play, taking Ballis' place, but he did not have time to show whether he had rounded into last year's form or not.

There was an absence of long spectacular baskets due possibly to McCubbins' absence from the game. Captain Meise of the visiting five made the only startling basket of the evening. The varsity's teamwork was much better than in the previous games and the team fed the ball to one another in good style.

For the visitors Beckstrom, playing at forward, and Captain Meise, playing at guard, played well. Meise secured two field goals and Beckstrom was accurate on the field throws, converting seven out of nine chances.

There was a considerable amount of fouling in the game and several players and the referee expressed their dissatisfaction with the new rules.

The line-ups follow:
Nevada—Center, Henningsen (captain); forwards, McKenzie, Ballis, Stewart; guards, Buckman, Trabert.

College of Pacific—Centers, Tidmarsh, Kiest; forwards, Ham, Beckstrom, Rowe; guards, Marriott, Meise (captain), Fernish.

The score:
Field goals: Henningsen, 7; McKenzie, 5; Trabert, 1; Buckman, 5; Ballis, 5; Tidmarsh, 2; Meise, 2; Beckstrom, 1.

Free throws: McKenzie, 7; Ham, 2; Beckstrom, 7.

Officials—Referee, Henderson; umpire, Bridges; timer, Glass; scorer, Hovey.

The Home of Orange Budding. D. C. & W. Co.

VARSITY QUINTET SLATED TO PLAY CLUB TEAMS

LOCAL Y. M. C. A. TO PLAY RETURN GAME SATURDAY EVENING

SANTA CLARA GAME FEB. 26

RED BLUFF CLUB TEAM, CHAMPS OF NORTHERN CALIFORNIA, TO PLAY FRIDAY

Next Friday evening the Nevada Varsity five and the Red Bluff, Cal., club team, will furnish the followers of the court game a fast contest, according to graduate manager Ross. The Red Bluff club men claim the championship of northern California, and are said to put up a brand of game that will force the Varsity to step right lively to overcome.

Unless McCubbins fractures the training rules again, he will probably be seen in his position at forward. McKenzie, Henningsen and Buckman are reasonably certain of places on the team, with Ballis and Stewart to fill the last position.

Saturday night the local Y. M. C. A. will again try their luck with the Varsity. Since the trouncing they received in their first game with the Varsity, they have been practicing faithfully, and should put up a much improved game.

The time for the Santa Clara game has at last been definitely fixed for Saturday, February 26, in Reno. The Missionites are going great guns on their own sand lots, but a reversal of form is looked for during their Reno engagement.

The games Friday and Saturday nights are to start promptly at eight o'clock.

STUDENT BODY HOLDS MEETING

FRANK FAKE, JOE HILL AND BASEL CROWLEY APPOINTED ON FOOTBALL COMMITTEE

Important matters were considered at the A. S. U. N. meeting last Friday. The amendments regarding the granting of the circle N for swimming, tennis, wrestling and rifle-shooting, were introduced with the endorsement of the Block N Society and a motion to adopt was carried. Notice of these amendments was published last semester. Resolutions to the effect that recipients of the Block N for the various major sports should wear only the sweater which is given for the sport were read and passed. A second set of resolutions providing the conditions under which track and field records are to be made and accepted was also introduced and passed.

The appropriation for women's athletics was next considered. Miss Walker, women's athletic manager, spoke for approximately eighteen per cent of the sum due the treasury from athletic dues. Such an amount would amount to about four hundred dollars. However it was pointed out that only a part of the student body had paid dues and that from the amount paid, up to the present time, the women would be entitled only to an amount slightly under three hundred dollars. Henry Wolfson called the attention

(Continued on Page 2)

FRESHMEN SELECT DEBATING TEAM

PAUL HORNADAY AND H. W. STEVENS SELECTED TO MEET THE SOPHOMORES

At the tryouts last Thursday evening Paul Hornaday and H. W. Stevens were selected from the Freshmen class to contest with the Sophomores in the semi-finals of the interclass debates. The competition for the places on the team was keen and the judges debated for some time before deciding on the winners. Stevens, who was the first man selected, chose the negative, while Hornaday spoke on the affirmative of the Monroe Doctrine question. The other contestants contended for the negative side of the question thus securing a well-rounded discussion.

The finals between the first and second year men will be held in the near future and some lively debating is looked for when the two teams clash. The Freshmen will contend for the affirmative while the Sophomores will take the negative.

The tryouts for the team which is to debate Brigham Young University will be held next Thursday. The team selected will have nearly two months to develop their brief and should put forth a strong argument. The tryouts will consist of six-minute speeches on some phase of the Monroe Doctrine.

AGGIE REGISTRATION

The registration in the College of Agriculture is growing faster than that of any other branch of the University. This year is marked by a growth from 45 men students to 59, or an increase of nearly thirty-three per cent. Growth at this rate will soon place the farmers in a majority.

NOTICE

All members of the Sagebrush staff, both business and editorial, are requested to meet at the training quarters Wednesday afternoon at 4:30. The *Artemisia* picture is to be taken at that time and all are urgently requested to appear.

EDITORIAL

CONCERNING THE COMMITTEE

To those acquainted with activities on the hill, the personnel of the committee, with one exception, appointed to investigate the facts in the football election of last semester, is the last straw on the camel's already concave spine. The men appointed on the committee are admittedly prejudiced. President Hovey was well aware of that. Why he appointed men he knew were prejudiced is quite a serious question, when the honor and justice of the office of A. S. U. N. president is considered.

We await with pleasure the complete justification of the committee's acts. If they do not uphold their own actions, we all will be sadly mistaken.

PREPAREDNESS

From out of the west comes the voice of a Nevadan in practical aid of a national problem. Prof. C. A. Jacobson has lived on the Nevada campus for years. As head of the Chem. Department, he worked out many tiny details of much worth in connection with his chosen field.

The instant attention his plan, outlined in another column, has received, stamps it as the work of the genius. Many men and many minds have lost their trend of thought in futile effort to conceive a proper solution. When finally the problem is solved all credit is due the one who gathers the tangled woof of thought and weaves the finished product.

To Professor Jacobson we credit the advanced thought which distinguishes the deep thinker from the ordinary human.

STUDENT OPINION

We are discussing in the editorial columns questions which are vital to the student life of the University. It is quite possible that we do not see all sides of a question. It is sometimes hard for one or two men to view a problem in the proper light. Therefore we wish to reiterate the statement made last semester that the editorial columns of the paper are open to any student in the University.

ART. E. MISIA STARTS CAMPUS QUEEN CONTEST YEAR BOOK EDITOR OFFERS PRIZE FOR THE MOST POPULAR LADY

Who is to be the Artemisia queen? The answer is, the most popular girl on the campus. The Artemisia staff has decided who this girl is. For this purpose the greatest campaign in the history of the University is about to be launched.

To the winner a page of the Artemisia will be dedicated on which appears her picture as Artemisia queen and she will be representative of the spirit of Nevada's Year Book.

Now is your chance, boys, to make that campus queen, whom you have always admired, famous. Now is your opportunity to secure an Artemisia by paying the small deposit of fifty cents on it and remember, every fifty cents counts so many votes towards the election of that girl. See all your friends and let's get busy.

These are the terms of the contest. Read them carefully:

NOMINATION

1. Any girl on the campus may be nominated.
2. Nominations may be made by placing name of girl on nomination blanks printed in the Sagebrush and depositing them in ballot-box in Morrill Hall. Nomination blanks are good for one hundred votes.
3. List of those nominated will be posted on bulletin board in Morrill Hall, Friday, February 11th.
4. Wednesday, February 16th, the number of candidates will be cut to five. These will be the five highest in the contest at that time.

VOTING

Each \$.50 deposit on Artemisia is good for 50 votes.
Each 1.00 deposit on Artemisia is good for 100 votes.
Each 1.50 deposit on Artemisia is good for 250 votes.
Each 2.00 deposit on Artemisia is good for 350 votes.

1. If you pay \$2.50 for your Artemisia now you receive 500 votes.
2. In each issue of Sagebrush will be published slips good for five votes. Fill out and put in ballot box.
3. All votes on nomination blanks must be placed in ballot-box in Morrill Hall.
4. Previous payments will count the same as new ones. To secure these votes, see the person to whom you paid your deposit.

Contest opens at once and closes March 15, 1916.
Each week standing of candidates will be published in Sagebrush and announced on bulletin board.

The deposits on Artemisia may be made to the following: Bart Hood, Moore, Agnes Constable, Elsie Farrer, Ruth Pyle, Kemper, Meyer, Gooding, or Miss Sissa.

Nomination Blank

Artemisia Queen

..... hereby nominated as a candidate for Artemisia Queen.
Good for one hundred (100) votes.

..... good for five (5) votes if handed in before February 12, 1916.

GOLDFIELD CON. SUBJECT OF TALK

NEXT MEETING OF CRUCIBLE CLUB WEDNESDAY EVENING IN MACKAY BUILDING

Next Wednesday evening the Crucible Club will hold the first regular meeting of the month in the Mining Building. The speakers for the evening will be Bourke Healy and Charles Mastes, who will talk on "The Milling Practice in the Goldfield Consolidated." The meeting is to start at 7:30 and all interested are invited to attend.

SOCIAL

R. O. CLUB

Saturday afternoon the members of the R. O. Club and their pledges enjoyed a theater party followed by initiation and a banquet at the home of Georgie Young. The new members are Adele Norcross, Vivian Engle and Edna Short. The others present at this affair were Vera Lemmon, Grace Leon, Zelma Francis, Mary Leon, Leonora Parry, Gladys Hofer, Georgie Young and Mary Raitt.

DELTA DELTA DELTA

Fourteen pledges of Delta Delta Delta were given Trident degree last Monday night at the home of Edith Mack. Those receiving the degree were Zelma Francis, Edith Harris, Lillian Gurin, Edith Taylor, Grace Harris, Constance Watson, Ruth Douglas, Elaine Harris, Bessie Markheim, Edna Greenough, Edith A. Harris, Dixie Coke, Donna Brandon and Fern Wright.

JUNIOR PROM

Friday evening the much postponed Prom was held in the gym and it was well worth the wait. The Juniors had made of the gym a winter scene where pine trees loaded with sparkling "snow," a ceiling of white, and a snow covered log cabin—which, incidentally, served as a cozy corner—lent an air of the realistic. At one end of the hall was a huge seventeen, and the programs, which were unusually neat and easy to handle, bore the class numerals. The grand march was led by Will Melarkey, class president, and Elsie Farrer, and then followed dances much too short and too soon finishing the party. During the dance punch and wafers were served, and mints in the class colors were tempting. The patronesses were Mrs. A. W. Hendrick, Miss Louise F. Brown, Miss Louise Sissa, Mrs. Turner, Mrs. Hood, and Mrs. Walker.

STUDENT BODY HOLDS MEETING

(Continued from Page 1)

of the student body to the doubt and dissatisfaction surrounding the election of the football captain last semester and moved the appointment of a committee to investigate the proceedings of the election. The motion was carried. Later this committee was announced as Frank Fake, chairman, Joe Hill and Basil Crowley.

ALUMNI

University of Nevada Annex,
McGill, Nev., Feb. 4, 1916.

The editorial staff has decided that weekly news items of the University of Nevada Annex at McGill will be of interest to the Sagebrush reader and trust that the following notes will meet with their approval:

"Phat" Barton dumps a couple of quarts of oil on his overalls nightly, wipes it off on the machinery in the power house and ranks as assistant engineer on the payroll.

"Ted" Bacon unblushingly puts in most of his eight hours digging splinters out of his hands and shoulders in lieu of an honest shift's work as a wood butcher.

An animated bean pole of Polish descent draped in khaki and denim is daily seen wandering through the concentrator like a wrath of Kosciusko seeking dimension and outline of Steptoe concentrator for a future Polish copper company. He draws his check under the name of Felix Borzynski, although his intimate friends have sincere doubts of the genuineness of that lowly appellation.

"Tiny" Lintott is considerably worried because the officials of the smelter are contemplating the installation of a fifty-ton crane to take care of half of his daily entertainment and its success would mean the installation of a second crane which would entirely remove "Tiny's" source of ham and eggs, likewise the means of killing the monotony of daily ennui.

A miniature piece of humanity between times of daily wrestling with the flotation filtering plant pesters friends and acquaintances for information on the cost of living and the extent of the rent lists in Ely. Van Dalsem is evidently dissatisfied with his present accommodations and is considering starting a private boarding house in the neighboring city.

To a man up a tree the daily packages addressed to A. Brokway, McGill, Nev., signify that the subject is seriously contemplating plans that will be a repetition of Van Dalsem's malady. In the meantime a large share of the ore from the concentrator is a part of his daily repast in the assay office.

The center of the University of Nevada society for the propagation of refined crabbing is in our midst and is supported by the pleasing entertainment of crawling through the grease and slime of the Nordberg pumping plant which has rendered more extensive his abilities to maintain the present high standard of excellence as the official crab of the colony. Some of the rougher parts of his elocution have been eradicated by weekly contact with the fair sex in combination card and tea fights in McGill's upper 40. Borchert will serve as a shining example of refined objection to things as they are for the neophytes of the Krabba Krabbas when he returns to Reno.

"Bob" Graham desires to make an announcement through the columns of the Sagebrush that an epistle of an amorous nature would be welcome hailed by himself as recipient. We regret to state that "Bobby's" predisposition to mope is caused by some fair one's neglect and trust that this omission will be speedily rectified.

Earl Swain is by this time imitating the antics of a jumping jack to prevent the lodgment of Villa's leaden missiles in his chubby anatomy. Swain is assisting in the construction of a reverbratory furnace in Mexico. We will relate the success of his endeavor on his return in the near future and trust that we will not hear them from the smelly environs of a hospital ward.

RESOLUTIONS

The following resolutions and amendments were passed at the last A. S. U. N. meeting:

Resolved, That the Block N Society shall present the following resolutions to the A. S. U. N. of the University of Nevada:

Regulations governing the establishing of new track and field records at the U. N.

1. New records may be officially established in open competition only.

2. This competition may be intercollegiate, dual or inter-class contests.

3. The new record holder must be winner of the event in which his record is made, unless he has previously declared his intentions of establishing a new University of Nevada record.

4. The new record-holder must be a registered student at the University of Nevada and shall be governed by its rules and regulations of athletic

Get the Range of Smoking Satisfaction

Roll "Bull" Durham into a cigarette and you have a smoke with all the vim, vigor and dash of Uncle Sam's fighting men. That's why the American Army is an army of "Bull" Durham smokers. "Bull" Durham puts snap into their action and "punch" into their systems. For a virile, lively, manly smoke, "roll your own" with "Bull" Durham.

GENUINE "BULL" DURHAM SMOKING TOBACCO

"Bull" Durham is the mildest of all tobaccos. It has a unique aroma and a distinctive mellow-sweet flavor that no other tobacco can give you.

Made of the famous "bright" Virginia-North Carolina leaf, "Bull" Durham has been the great American smoke for three generations.

You "roll your own" with "Bull" Durham and enjoy a real smoke.

FREE An Illustrated Booklet, showing correct way to "Roll Your Own" Cigarettes, and a package of cigarette papers, will both be mailed, free, to any address in U. S. on request. Address "Bull" Durham, Durham, N. C.

Ask for **FREE** package of "papers" with each 5c sack.

THE AMERICAN TOBACCO CO.

contests.

5. Field and track records shall be governed by the rules of the American Athletic Union.

Resolved, That the Block N Society shall present the following amendment to the constitution of the A. S. U. N.:

Article 9, section 1, Circle N shall be granted for the following sports: tennis, wrestling, swimming, and boxing, subject to the following regulations:

1. The Circle N shall be granted for intercollegiate contests designated by a two-thirds vote of the members of the Association.

2. In tennis, the Circle N shall be granted to the men competing in intercollegiate contests designated by the A. S. U. N.

3. In wrestling and boxing the Circle N shall be granted to the competitor winning the event.

4. In swimming the Circle N shall be granted to the competitor taking a point in his event.

5. Tennis, swimming, wrestling, and boxing shall be known as minor sports and shall not be supported financially by the A. S. U. N. unless special provision is made by a two-thirds vote of the members.

6. Competitors must be registered students of the University of Nevada and shall be governed by its rules and regulations of athletic contests.

To the A. S. U. N. of the University of Nevada, the Block N Society submits the following resolution:

Jerseys and sox for the following sports have been adopted by the Block N Society:

Basketball jersey shall consist of a blue jersey with a single four-inch white body stripe around the jersey.

with sox to match.

Football jersey shall be a blue jersey with one-inch white stripe on the sleeve and sox to match.

Track jersey shall consist of a blue jersey with a four-inch white stripe running diagonally across the jersey.

Be it further resolved, That any violator of any of the above regulations, as to the wearing of stripes representing the different forms of athletics, shall be dealt with by the Block N Society.

Men who have made their N in a respective sport shall be entitled to wear stripes corresponding to the sport only.

ANNAPOLIS EXAMINATIONS

Competitive examinations were given at the University during the last week for the appointments to the United States Naval Academy at Annapolis. Howard Brown, Clinton Melarkey and Elbert Porteous were the competitors. The examinations consisted of tests in arithmetic, algebra, geometry, grammar, geography and history.

DOWN THE ALLEY—THEY ALL KNOW

NEW T. & D. THEATRE OPENS THURSDAY WITH MOVIE MASTERPIECE "NE'ER DO WELL"

NE'ER-DO-WELL
SELIG PLAY
WRITTEN BY REX BEACH

The new T. & D. Theatre is by far the largest and grandest theatre in Nevada, having a seating capacity of 1,700, of which 1,050 is on the main floor. The equipment throughout this commodious place of amusement is of the finest and up-to-date in every detail. The chairs, which cost \$5.00 each, are upholstered in Spanish leather with comfortable spring cushion seats placed at a comfortable distance apart. A beautiful rest room for ladies and children is located just at the left of the entrance where parties may wait for their friends. The interior decorations are of a most pleasing nature; the aisles are wide and richly carpeted.

The Hope Jones Unit organ, which took the gold medal at the Mines Building at the P. P. I. Exposition, is a wonderful combination made by the brainiest organ builders in the world. This splendid instrument is so arranged that the player can give correct representations of the distant roar of cannon, the charge of cavalry, the rumbling of thunder, imitations of steamboats, tramping of horses and calls of birds, in fact anything necessary to bring realism in the film dreams. Aside from all this the player can give a concert like Sousa, consist-

ing of an exact instrumentation of an orchestra. The organ is capable of producing music equal to a 30-piece orchestra, not counting the beautiful chimes and the reproduction of voices. The instrument is not a church organ but so voiced as to give instrumental music the same as an orchestra. It is the intention of the management at a later date to give musical concerts between the hours of 1 and 2 in the afternoon.

The new theatre will be the exclusive exhibitor of Triangle plays, produced by three of the greatest producers in the world, D. W. Griffith, Thomas Ince and Mack Sennett.

It is the intention of the T. & D. people to bring their attractions direct from the Tivoli Opera House to Reno, which have been shown at larger prices and will be exhibited here in the new theatre at the popular prices of balcony 10 cents and lower floor 15 cents, with matinees daily at 10 cents all over the house.

Mr. George Ferris of Reno was the architect of the new theatre.

The new house will be under the management of Mr. J. G. Hunter, who has served in the same capacity in other large T. & D. theatres.—Adv.

WEATHER DIRECTOR TALKS TO FACULTY

H. C. ALCIATORE GIVES ADDRESS
ON MEASUREMENT OF
EVAPORATION

H. C. Alciatore, director of the United States Weather Bureau for Arizona and Nevada, was the principle speaker at the meeting of the Faculty Science Club last Thursday. His subject was "The Measurement of Snow Evaporation" and he explained in detail the methods which are used to estimate the loss by evaporation of the moisture which falls in the form of snow and rain on the watersheds of the state. In the Tahoe district a series of pans have been installed in the timber and open places to catch the snow and an assistant has been appointed to measure the evaporation which takes place from these receptacles. A small reservoir has been built by the side of Lake Tahoe and instruments placed so that the evaporation from the surface of the lake can be ascertained. In the arid regions of the state pans have been placed at various points and these are kept filled with water. From these the amounts which are lost by evaporation are determined in order to ascertain the aridity of the climate. The first two methods are of importance to irrigation engineers because they enable them to secure a normal or average by which the irrigation waters of the year may be computed.

CHEMICAL CLUB HEARS ALFALFA TALK

At the last meeting of the Chemical Club Mr. F. W. Bower delivered a paper on The History of Alfalfa. Later he dealt with the many uses of the varied products and closed the evening by serving delicious refreshments made from alfalfa. A green alfalfa cake, two kinds of candy, ice cream with alfalfa syrup poured over it and an alfalfa drink resembling root beer, were enjoyed by those present numbering about forty.

INTERCOLLEGIATE

BASEBALL

That Stanford will be represented by a baseball team of no mean ability this season is the opinion of the fans. Captain Dent has been handling the squad in a commendable manner. He has the men divided into a varsity squad and freshman squad, and the four teams of the peanut league, from which the second varsity will be chosen. In the practice games with small club teams so far the team has shown up very well.

BASKETBALL

The basketball season opened the 29th at Stanford and resulted in two Stanford victories and one defeat. The Varsity cleaned up The College of the Pacific five with a score of 47 to 22, while the Freshmen lost to the Keystone Club of San Jose 32-38. Second varsity defeated Company L of Palo Alto 45-14.

In the game last Tuesday Washington beat Stanford in an easy victory by 39 to 19. It was a walk-away from start to finish and the northerners played sensational ball. Davidson of Washington was easily the star of the game, converting 27 points.

YALE ATHLETICS BANKRUPT

According to a statement made in the Yale Alumni Weekly, the athletic corporation has put the athletic authority in the hands of receivers, who are to act as advisors to the corporation until the disagreements between graduate advisors and the administration of the athletic affairs can be settled.

UTAH'S NEW PRESIDENT

Owing to the scandals connected with the freedom of speech at University of Utah last spring, President Joseph Kingsley resigned and his place has been taken by President John Widstru of Utah Agricultural College. This news was received with surprise by the Logan students because they are afraid of a consolidation of the two schools under one head. The rumor so far has not been established as a fact.

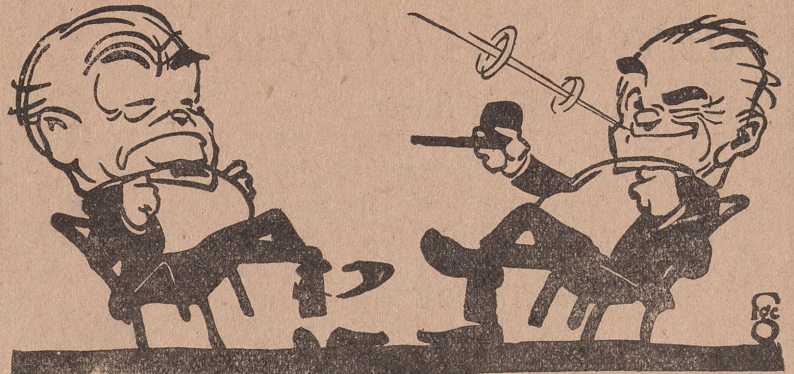

The Home of Orange Budding. D. C. & W. Co.

STANFORD 31, ST. IGNATIUS 18

PALO ALTO, Feb. 5.—Stanford University defeated St. Ignatius College of San Francisco at basketball tonight, score 31 to 18. At half time the score was Stanford 22, St. Ignatius 8.

The line-up was:
Stanford—Righter, center; Peouze, forward; Blodgett, captain and forward; Dolan, guard; Caughey, guard; Farrar, substitute guard; Worthy, substitute guard; Lytle, substitute guard.
St. Ignatius—Connolly, forward; Dewey, forward; O'Neil, center; Flood, guard; Williamson, guard.
Referee—W. L. Seawright.

Captain Blodgett was the star for Stanford and Connolly played well for St. Ignatius.

Don't you arguefy

with the man who prides himself on smoking Tuxedo. He knows whereof he speaks when he talks of mildness, fragrance, flavor, sweet comfort and happy days.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

"Tux" has all the sweet, mellow flavor and rich relish you are looking for in a pipe tobacco—and that sound, solid, serene satisfaction that you get only from Burley leaf.

And you can smoke Tuxedo every time you happen to think of it—all day long, if you wish. The "Tuxedo Process" removes all the harshness, all the parch, all the bite—and this original process is used *only* in Tuxedo.

MEN'S GLEE CLUB IS ORGANIZED FOR SEASON

SEVERAL NEW VOICES ADDED TO MEMBERSHIP AND ACTIVE SEASON IS EXPECTED

The Men's Glee Club has been organized under the leadership of Prof. Haseman for the work of the coming semester. Several new voices have been added to the warblers' ranks and a full season with the usual trips over the state is expected.

Attendance upon practice is made strictly compulsory this year and a deposit, from which fines for infractions of rules are taken, must be made by each member.

The following men have been selected by director Prof. Haseman as members of the club: first tenors, R. Inman, Johnson, Hlebnikoff, Geneva; second tenors, Frazee, O. Layman, Meacham, Snare, Smith; first basses A. Layman, A. Inman, Barker, Engle, Austin; second basses, E. Caffery, C. Caffery, Wolford, Frank, Spencer, W. Wiley.

PRISON FARM TO DEVELOP CATTLE

MODERN DAIRY PLANT PLANNED FOR STATE INSTITUTION

Professor Regan of the dairying department made a trip to Carson last Friday to advise with the state prison authorities regarding certain improvements which are to be made in the near future on the prison farm. The farm consists of nearly eleven hundred acres and it is planned to install a modern dairy plant on the land and to develop a herd of about one hundred cows. A new barn will be built with an up-to-date creamery and separating room attached. The work will be done by the "trusties" of the prison. The butter fat will be sold in Minden and the skimmed milk used to fatten hogs and raise calves. There are at the present time on the farm some pure-bred hogs of several varieties and a number of pure-bred Percheron horses. It is planned to bring the farm to a high state of efficiency.

BLOCK N SOCIETY DISCUSSES MEET

OFFICIALS OF COMING INTER-SCHOLASTIC TO BE TRACK MEN OF THE UNIVERSITY

At a recent meeting of the Block N Society the matter of handling the coming interscholastic meet between the Nevada high schools was discussed. Due to the confusion resulting from so many spectators crowding the track it was decided to prohibit all persons from the running course except the officials. A motion was also passed to the effect that all officials of the meet should be track men who are members of the Block N Society.

Owing to the fact that Horace Barton left school a new secretary was necessary and William Melarkey was chosen to fill the position.

WOMEN'S FACULTY CLUB

The meeting of the Women's Faculty Club has been postponed to Wednesday, February 9th.

FARMERS' CLUB MEETING

(Continued from page 1)

other schools are doing in their agricultural clubs. The operation of a farmers' fair, originated at the Missouri Aggie College together with its possibilities were discussed at some length. In conclusion he said: "I want to be considered a member of this club and will do everything within my power to further its cause."

Mr. C. A. Norcross, director of agricultural extension, then spoke. In part he said: "I think the idea suggested by Mr. Regan very fine and believe the club should be active." He told of a county fair held at Carson City. This fair was very successful and is a concrete example from near by.

After the meeting adjourned the fellows partook of hot dogs and coffee. Smoking was indulged in during the evening and everyone enjoyed themselves to the limit.
