UNIVERSITY OF NEVADA RENO, NEVADA, FEBRUARY 22, 1916

NUMBER 19

CALIFORNIA TRIP IS DISASTROUS TO NEVADA LEAGUE STANDING

OUT OF THREE GAMES IN AS MANY DAYS, NEVADA QUINTET WINS ONE, LOSING TO STRONG CALIFORNIA AND ST. MARY'S FIVES BY 27-25 AND 36-16 SCORES

McCUBBIN HITS STRIDE

REVERSAL OF FORM SHOWN BY EVERY TEAM IN LEAGUE; PACIFIC LOSE TO ST. MARY'S BY 1 POINT, AFTER LOSING TO NEVADA BY MARGIN OF 35

The god of luck failed to accompany the varsity five on the trip below last week. Handicapped by strange floors and a series of three games in as many days the team failed to hit their usual stride until Saturday night when they started with a rush and fairly swamped the strong Stanford team, scoring nearly two points for every one the Palo Alto men could score.

In the California game on Thursday evening the varsity's play was somewhat handicapped by the small floor in Harmon Gym, the court being only about half the size of the home gymnasium. At the end of the first half Nevada held the lead by a small margin. A shift in the blue and gold team caused trouble in the second half and California in the last few minutes of play staged a desperate rally, winning the game by the narrow margin of two points. The final score was 27-25. McCubbin was easily the star of the game, shooting goals from all angles of the floor and blocking the Bear's team work on numerous occasions.

On Friday night the team tangled with the St. Mary's quintet in the

Oakland gymnasium. Contrary to expectations the crimson team proved unusually strong and aided by a lack of form on Nevada's part they ran up a score of 36 to Nevada's 16. St. Mary's played a rough style of game and their play puzzled the varsity until they allowed their opponents to score consistently.

Stung by their defeat in the St. Mary's game the team was aroused to its full strength on Saturday night and altho the dope sheet gave Stanford an excellent chance to win they did not have a look-in from the start. Coach Wentworth made a shift in the team sending McCubbin in at guard and Buckman to the forward position. The Stanford forwards made a total of eight points on field goals so close was the Nevada guarding, while Captain Henningsen, McKenzie and Buckman rang the basket for a total of 42 points. Stanford's final score was 23.

Aside from the shift in the Stanford game the regular line-up was used throughout the trip except that Cessna played during the last few minutes in the St. Mary's game.

IRELAND'S HOLIDAY TO BE CELEBRATED BY ENGINEERS

BIG CELEBRATION TO INCLUDE PARADE, BALL GAME AND DANCE

St. Patrick's Day, March 17th, has been annexed by the Engineers' Club for a big parade and celebration which will begin early in the afternoon and continue in the evening as long as anybody cares to dance. A parade will open the day's festivities and will consist of a series of floats, an imitation Irishman kissing an imitation blarney stone and take-offs on the other parts of the school including the Aggies.

After the parade a baseball game will be staged between the Aggies and the Engineers. Rivalry is already keen and Dean Knight will begin shortly to warm his trusty southpaw in order that the Engineers may wait the afternoon breezes instead of the curves which he will serve.

Along with the dance in the evening a number of unique demonstrations have been arranged including the showing of motion pictures of the Panama Canal and demonstrations of cooking by electricity. Another feature will be the display of a miniature stamp mill in full running order. The machine was made by the engineering students and is run by electricity. The celebration will be open to the public.

The following committees are attending to the various details: Dance, Engle, Melarkey and Meyn; decorations, Able, Scheerer, Pearson, Wolford; ball game, Dean Knight, Louis Meyers and Moore; refreshments, Miss Bardenwerper; publicity, Pearson, Melarkey.

QUESTION OF BASEBALL REFERRED TO A. S. U. N.

TEAMS WIN A MAJORITY OF THE GAMES BUT ARE NOT A SUCCESS FINANCIALLY

The fate of intercollegiate baseball this spring is still to be decided. While a majority of the games were won last year and the return of Earl Holtham, last year's star pitcher, together with the addition of several promising performers from the freshmen class make this year's prospects look anything but dull, further hindrances to a varsity baseball team still exist. Financially the game is not a success. A deficit still exists against the account of last year's season and unless the prospects for this year promise to remove this deficit and pay the additional expenses funds appropriated by the budget to other branches of athletics will have to be transferred to the baseball fund to cover the debt.

Another argument against baseball is the lack of competition and the consequent failure of the gate receipts to meet the expense. Games are few and the season is short.

The matter has been referred to the student body by the executive committee and may be considered by the Block N. Society in the near future. It will be a subject of discussion at the next student body meeting. A decision will have to be reached soon in order that the graduate manager may enter into arrangements for a schedule providing a favorable decision is made.

ASSEMBLY EXTENDS VISITORS WELCOME

SPECIAL SPEAKERS EMPHASIZE VALUE OF AGRICULTURAL DEVELOPMENT

A special assembly was convened on Monday morning in order that the student body and faculty might extend a welcome to the incoming farmers who are the guests of the University during Farmers' Week. President Hendrick presided and introduced Governor Boyle, who made a special trip from Carson City to be present, as the first speaker. The governor emphasized the growing importance of agriculture to the state's welfare and showed that the permanent and lasting basis of the prosperity of the commonwealth must be placed in large part on the development of agricultural wealth. He presented some illuminating statistics to show the rapid growth of agriculture as an industry in the state. In 1860 when the entire attention of the state was turned to mining there were 91 farmers with an acreage totalling 56,000 acres and a value of \$102,000. In 1870 this had increased to 1,036 farms covering 208,000 acres and valued at \$1,485,000 dollars. Twenty years later, in 1890, the number of farms totalled 1,277, comprising 1,165,000 acres, and a value of \$12,339,000. In 1910 the number of farms had doubled, approximating 2,690 in number, and covering an area of 2,714,000 acres, with a value of \$39,609,000. This does not include the value of livestock which totals \$19,200,000. Governor Boyle added that the state government was in hearty sympathy with the movement to extend the aid of the University to the farmer and promised that every means would be taken to aid the agricultural interests.

Following Governor Boyle Regent Codd welcomed the farmers on behalf of the board of regents. Altho a mining man with interests largely in the mining industries Mr. Codd also recognized the growing need of agricultural development. He spoke particularly of the effort to ascertain the ranges of the state and to control their development by planting and fostering suitable forage grasses. This work has but recently been started but the regents are hopeful of large results thru the work of men specially prepared in range development work.

President Hendrick extended a welcome to the visitors on behalf of the University. The original grant which started the University, the president stated, was for the purpose of founding an institution to instruct in agriculture and the mechanic arts. Because of the rapid and well-nigh exclusive development of the state along mining lines the agricultural side of the University received little attention for many years. Agriculture developed slowly because of unusual land conditions which made it impossible to homestead and patent land rights according to the federal laws. All the land with the exception of a small arid section was secured thru the University land grant or from the territory originally granted to the railroads. Because of this difficulty in patenting land and because of unusually small percentage of federal land granted to the state the present effort to secure an additional grant of 7,000,000 acres is being made.

Following the president Mr. Regan, the professor of dairying, made his initial appearance before the assembly. Interspersing his remarks with a few humorous anecdotes, he emphasized the importance of dairying in any scheme of agricultural growth. The dairy cow not only furnished an indispensable unit of food but provided a way of converting forage and hay into valuable food products. Mr. Regan's remarks closed the assembly.

The afternoon session was devoted exclusively to the potato industry. C. M. Henningsen of Gardnerville presided at the afternoon session. Edmund Dietz, a successful potato raiser of Northam, gave an interesting dis-

CLASS '19 CELEBRATE FRESHIE GLEE MARCH 3

FIRST YEAR MEN PLANNING ON BEST AFFAIR OF YEAR FOR MARCH 3

The Freshmen are actively at work with their plans to make the coming Freshman Glee on March 3d the biggest and best social event of the year. They have been at work for two weeks in an endeavor to outdo their predecessors of last year and elaborate plans have been made for decorations, refreshments and all the accessories to a good time. Special music is being arranged for and plenty of punch has been ordered. The committee in charge of all arrangements is: Alexander Cotter, Chairman; Clem. Caffey, John Woods, Beatrice Langwith, Freda Daoust, Isabelle Slavin, Georgia Damm.

MISSIONITES PLAY NEVADA SATURDAY

HARD GAME EXPECTED WHEN SANTA CLARA AND NEVADA FIVES MEET

Next Saturday the Mission team from Santa Clara town plans a victorious invasion of the Nevada stronghold. So far the Missionites have had fair success in winning their games, recently defeating the strong St. Ignatius five in a hard-fought game, by the score of 33 to 28.

The new game is said to fit the style of play adopted by the Saints, making their teamwork particularly effective. Long dribbling runs by the guards are said to be a feature of their play, so that Coach Wentworth is preparing his men in an effective defense.

The shift in the team before the Stanford game, with the resultant victory, will probably mean the retention of the same lineup for the remaining games. At running guard McCubbin is at his best, for he has the long range scoring ability, and also the knack of effectively muzzing up the opposition's scoring combinations.

At forward McKenzie and Buckman supply the necessary speed and accuracy of aim to ring up the points. With Captain Henningsen in the center position, and Trabert in the other guard position, the varsity should give the Saints a hard run for the money.

The game is to be played in the University gym at eight o'clock Saturday evening. A large attendance is expected, as the hardest kind of a game is certain. After the game the Block N Society will entertain the visitors with an informal dance.

SPECIAL MEETING OF FARMERS CLUB

AGGIE STUDENTS TO WEAR DISTINGUISHING GREEN BADGE THIS WEEK

The Agricultural club held a special meeting last Thursday afternoon to add the finishing touches to the plans for Farmers' Week. In order that the visiting farmers might know their hosts it was decided that all aggie students would wear a green badge during the week and thus promote a ready acquaintance with their guests. The offices of vice president and treasurer being vacant, Linford Riley and Frank Harriman, respectively, were elected to fill the vacancies. Classes in the aggie college will be secondary to the conferences and lectures by the visiting speakers during this week and classes at times will be adjourned in favor of the visiting lecturers.

BRIGHAM YOUNG TO DEBATE ON MAR. 31

FRESHMEN AND SOPHOMORES TO MEET ON THURSDAY EVENING

The date for the intercollegiate debate with Brigham Young University has been designated as March 31, the last Friday in the month. Thomas Edsall and John Heard have been selected to represent Nevada in this biggest debating event of the year, and the team is hard at work in preparation for the contest. The question at issue is whether the United States will abandon or adhere to the Monroe doctrine. Nevada is to defend the negative. It has been decided that an admission of 25 cents will be charged and the debating manager hopes to fill the gymnasium with students and townspeople. Judges and a presiding officer will be selected from a list to be submitted shortly by Brigham Young.

On Thursday evening the freshmen and sophomore debating teams will clash in the semi-finals of the interclass debates. The freshman team, consisting of Paul Hornaday and H. W. Stevens, will contest the affirmative of the Monroe Doctrine question and Everett Layman will contest the negative. Unusual interest in debate has been evinced by the underclassmen this year and some strong material has been developed.

An effort is being made to secure the sanction of the university senate to the holding of the interclass finals at assembly in the gymnasium. The junior and senior debating teams will meet in the near future and it is planned to have the winners meet the winning team of the freshmen-sophomore contest before the entire student body.

Patrick New Assistant

Lloyd B. Patrick, '13, of Reno, who was in charge of the Nevada state exhibit as well as the agricultural exhibit at the Panama-Pacific Exposition, has been chosen as assistant secretary to G. A. Raymer, the new secretary of the Reno Commercial Club.

BASEBALL

With the approach of spring, and a consequent longing on the parts of the baseball fans to once more trod the turfed diamond, comes the question of whether or not Nevada should again support a baseball team.

We believe that the A. S. U. N. should select either baseball or track work, and specialize on one or the other. The reasons are manifold. To turn out a good baseball team, plenty of competition is essential. At present such competition is impossible. Since games are lacking, financial support is also weak. One game a week would go far toward supporting a team. Nevada cannot play Sunday ball and California teams are out of the question as frequent competitors, because of the cost of transportation. Under present conditions, two or possibly three games for the entire season will fill the schedule.

By concentrating on track work, mediocre baseball aspirants may be trained into good track men. While competition is also desirable in track work it is not so necessary as in baseball, and two or three track meets, with the annual inter-class meets, will serve the purpose.

For the ultimate good of the University and all its athletic activities, the Sagebrush advocates the elimination of baseball as an intercollegiate sport.

BASKETBALL

Next Saturday the varsity basketball team is to meet the strongest team, from all indications, in the Nevada-California league. Nevada has been defeated twice, and is considered by many as out of the pennant race entirely. Lest a few loose spirit and interest, because of defeat, remember that the team needs every bit of backing you can give. Basketball is probably the one game most dependent on the mental stamina of the players. With a frenzied desire to win, backed by a loyal rooting section, a team plays a thousand per cent better game. Remember that next Saturday, and do your part in winning this game.

Y. W. C. A.

The first meeting of the jubilee took the form of a rally. Last Wednesday instead of the regular meeting on the campus all the members were asked to bring lunch and come to Mrs. Layman's home at five o'clock. At the door every member was given a small blue button with the years 1866-1916 printed on them in white. These are the jubilee buttons and are to be worn by all members of Y. W. C. A. throughout the jubilee month.

About half past five everybody was asked to sit down any place they could and lunch began. The girls were given a surprise for aside from their own lunches the Advisory Board served potato salad, doughnuts and coffee which was almost a lunch in itself. After the "eats" the girls crowded round the fireplace to toast marshmallows.

The program opened with a few remarks by the President, Vera Lemmon, explaining the purpose of the jubilee. The roll was called, those present answered by the word "jubilee." Then several girls representing the five decades of the association's life told of the progress of the association had made. Each was dressed in the dress of the decade which she represented. Adele Norcross, first decade; Margaret Fulton, second decade; Constance Watson, third decade; Eva Hale, fourth decade; Helema Shade, fifth decade. After this the lights were turned off while Ruth McKissick, Elsie Farrar and Agnes Constable danced two very pretty classic dances. "The Moment Musicale" and "The June Eug" in front of the open fire.

Eva Walker sang a very pretty hymn which was the "Conference Hymn" at Asilomar last summer.

The party concluded with the singing of several of the favorite hymns.

MILITARY BALL IS BRILLIANT AFFAIR

NATIONAL COLORS AND CADET UNIFORMS ADD DASH TO ANNUAL ARMY EVENT

Friday evening the annual Military Ball took place in the Gym which was gay in the national colors and striking decorations so suggestive of military life. As in previous years, the members of the cadet battalion distinguished themselves as splendid hosts, and there was lacking none of the military atmosphere necessary for a dance given by soldiers. The usual brilliancy and dash which is not attained by any other party of the whole year, was present. The grand march was led by Governor and Mrs. Boyle, and a long line followed in which uniforms of the cadets and the members of the governor's staff gave a touch of color mingling well with the varied colored gowns. From a platform surrounded by formidable bayonets, the cadet band furnished music that was especially good, and in the room off the gym delicious punch and wafers were served and mints in the tri-colors emphasized the color scheme. For those who tired of dancing there were card tables in the gallery, but dancing did not seem to lose its charm to any great extent. The dances were encored again and again, but at last it had to end and "Home Sweet Home" was danced with the feeling that the Military of Nineteen Sixteen had indeed been an event to be remembered, and that to Commandant Applewhite and his committee great credit was due.

HOME ECONOMICS LECTURES PLANNED

HOUSEWIVES TO RECEIVE FAIR SHARE OF ATTENTION DURING WEEK

The department of home economics of the University of Nevada has arranged for a series of lectures on subjects of special interest to housewives to be given during "Farmers' Week," which opened on February 21.

The first of these lectures will be given in the rooms of the department of home economics in the basement of Stewart Hall at 2 o'clock on Wednesday afternoon. Miss Zilla Mills, instructor in home economics, will be the speaker and will take as her subject, "Color and Design in Dress."

On Thursday afternoon at 2 o'clock and in the same place, Associate Professor Kate Bardenwerper will discuss a topic of moment to housewives, "Some Modern Aids to Successful Management as Applied to the Home."

Friday afternoon the third and last lecture of the series will be given by Miss Bardenwerper on "Sugars, Their Place in the Dietary." During the course of the lecture some recipes for wholesome sweets will be demonstrated.

Every afternoon following the lectures an informal reception will be held at which Parkerhouse rolls will be demonstrated and served.

Everybody is urgently invited to attend the lectures and receptions, for, although primarily intended for housewives, it is hoped by the home economics department that men will show interest in these live topics.

DEAN JAMES LEAVES ON BUSINESS TRIP

MATTERS IMPORTANT TO THE UNIVERSITY TO BE TRANSACTED ON JOURNEY

Dean George Francis James left on an eastern trip last week and expects to be gone several weeks. His first stop will be at the University of Utah where he expects to arrange with several members of the faculty regarding services for the coming summer session to be held at the University. Dean James will address the Utah student and faculty assembly during his visit to Salt Lake City. Following the visit to Utah he will continue his trip to several of the large eastern cities on University business. A visit will be made to Washington, D. C., where Dean James will confer with several authorities relative to matters important to the University.

NEW GONIOMETER RECENTLY RECEIVED

**INSTRUMENT ARRIVES AFTER
TWO YEARS DELAY DUE
TO WAR**

Professor Jones has recently received a goniometer which has quite a history behind it. The instrument, which is used in measuring the angles of crystal minerals, was shipped from Germany on July 25, 1914, and for nearly two years has been buffeted about by the war conditions, coming to its final destination more by chance than intent.

The instrument consists of an ordinary electric light which furnishes rays thrown on the crystal and a pair of lens marked with cross lines. The lenses are focused and the mineral adjusted so that the cross lines and an edge of the crystal coincide and a reflection then indicates the supplement of the crystal angle. Any mineral can be determined when its crystal formation is known. Prof. Jones plans to institute a course in the mineralogy department which will consist in the study and measurement of crystal minerals by the use of this goniometer.

ACADEMIC LEAGUE MEET TO BE HELD MAY 12-13

**BLOCK N SOCIETY TO TAKE
CHARGE OF ALL DETAILS
OF WORK**

EXPENSES ALLOWED

**QUALIFICATIONS FOR ENTRIES
MEET ANNOUNCED BY BOARD
OF CONTROL**

The annual field and track meet, the declamation contest and the tennis tournament of the Nevada Interscholastic league will be held at the University of Nevada on May 12 and 13, 1916. Following is the program: Friday, May 12, 9 a. m., boys' declamation contest and girls' preliminary tennis matches; Friday, 2 p. m., try-outs in the field and track events; Friday, 8 p. m., girls' declamation contest; Saturday, May 13, 9 a. m., annual meeting of the league (board of control, principals and track captains) in the Mackay training quarters, and finals in the tennis tournament; Saturday, 2:30 p. m., finals in the track and field meet.

To Allow Expenses

All contestants and faculty members accompanying them will be entertained at the University dormitories and dining hall during the meet, and part railroad expenses, if not to exceed eight persons, including accompanying faculty members, will be allowed for distances exceeding 125 miles. Reduced railroad fares may be secured upon early application to the state superintendent of public instruction. Any contestant who does not compete, although he is entered, will not be allowed expenses.

A medal will be awarded each point winner in the track or field meet, no one to receive more than one medal. Any one breaking a Nevada Interscholastic league record will receive a special gold medal instead of the usual badge. A memento will be given every contestant qualifying to enter the meet who does not receive one of these badges. A trophy cup will be awarded the team winning the meet for two consecutive years.

Events are scored five points to the winner, three to second place and one for third place. This shall include the relay race and the hammer throw.

Enormous Growth of League

Due to the fact that the league has grown enormously during the past two years, the board of control deems it necessary to follow the precepts set by most interscholastic leagues of the United States and set a certain lenient qualifications for contestants in the field and track events. In order to qualify to enter the meet a contestant must be able to equal or better the record set below in any one or more of the following events.

Fifty yard dash, 6 seconds; 100 yard dash, 11 seconds; 880 yard run, 2 minutes, 25 seconds; mile run, 5 minutes, 45 seconds; 220 yard hurdles, 35 second; 120 yard hurdles, 21 seconds; shotput, 30 feet; hammer throw, 75 feet; high jump, 4 feet, 10 inches; broad jump, 18 feet; pole vault, 9 feet.

The Block N Society of the University of Nevada will conduct the meet. In the declamation contest the ten-

minute rule will be strictly adhered to this year.

In the girls' tennis tournament only doubles will be played; one substitute will be allowed each team.

SPORT GOSSIP

With the unusually early warm weather loosening the muscles and warming the blood, the minds of the varsity track men are turning toward the cinder path and if the spring weather continues runners clad in running pants and spikes will be seen shortly on Mackay Field.

The prospects for a winning team are not extremely bright this year although some likely material exists which may be developed into possible point winners.

In the century and furlong Captain Root is the stand-by, and unless the injuries received in football have injured his running ability he will have to be considered in any race which he enters.

In the quarter Meyers is the most promising candidate. He ran under university colors for the first time and while he made no records showed that he had the possibilities of a first class quarter-miler.

Hovey and Chism, two consistent performers, will be available for the half-mile. Hovey holds the university record for the distance and Chism has improved steadily in the two years

he has run.

Bill Melarkey is the only miler who has a performance behind him to indicate his ability. Unless new material develops the duty of filling Olgive's shoes will fall on his shoulders.

The places in the hurdle races will have to be filled by new material. Jack Hampton, a freshman, has performed creditably in the east, taking a place at the Princeton interscholastic. Greenwood showed good form last year and may develop greater speed this spring.

In the weight events Wolford, Abel and Henningsen have some creditable performances to their credit. Clifford is the only present candidate for honors in the high jump and pole vault.

The freshmen class is an unknown source of material and possible point winners may be developed from the ranks of the first-year men. Hammond, who was the star of the academic meet last year, is handicapped by several months' severe illness, but he may recover sufficient strength to don his spikes. Allanbee, from whom big things were expected, has left school.

Unless bad weather drives the athletes indoors the long training season will give plenty of opportunity to develop all the available material and a consistently performing team should result.

ASSEMBLY EXTENDS VISITORS WELCOME

(Continued from page 1)

discussion of the selection of seed for potatoes and told how the Nevada industry had grown to large proportions in the past few years because the farmers were careful in their planting and the product was now famous all over the coast. E. H. Grubb, potato expert for the Southern Pacific, also praised the Nevada product and told how it could be made more profitable.

"The Potato Eelworm and Means of Prevention" was the theme of an instructive talk by Prof. Peter Frandsen. Prof. Frandsen has made a long and careful study of this destructive parasite and gave an instructive and interesting talk to the assembly. P. A. Lenbauer spoke on other potato diseases and their treatment and Dean Knight outlined the best method for irrigating land for good potato raising.

In the evening the poultry industry was discussed by men who have been connected with poultry raising. This meeting was also held in the gymnasium. J. W. Gorman of Reno, president of the Nevada Poultry Association, presided at the session. W. M. Regan of the University talked on improving poultry stock and R. W. Williams gave a demonstration on the care and treatment of poultry diseases.

INTERCOLLEGIATE

THE TRACK OUTLOOK AT CAL.

One hundred and nineteen track men were given a sendoff Tuesday afternoon at one of the largest and most enthusiastic track rallies ever held at the University of California.

MAHAN NOT TO HELP COACH CAL.

Contrary to repeated rumors, Mahan of Harvard is not signed up to help coach California's football team. Manager Stroud stated that he had approached Mahan upon the subject but had done nothing definite and California was not considering such an appointment.

UTAH TO RETAIN ATHLETICS

By an almost unanimous vote, the student body of the University of Utah decided to retain intercollegiate athletics and secure an athletic coach to succeed Coach Norgren. Lack of interest among the students to support athletics brought the question up and also caused the resignation of Coach Norgren.

CORNELL LOSES VALUABLE APPARATUS

Fire destroyed one of Cornell's valuable chemical laboratories filled with scientific equipment. The loss is estimated at \$300,000 and is partially covered by insurance. More than 2,500 students will be compelled to rearrange their schedules as every course except that of law requires the study of chemistry.

E. E. Cain, former students and prominent Elko lawyer, has announced his candidacy for congress in the coming election.

SOCIAL

After the Military Ball last Friday evening, Sigma Alpha fraternity served a buffet luncheon at their Virginia Street home. Several alumni members were present, including Governor Boyle, Surveyor-General J. B. O'Sullivan, Alex. Boyle and O. L. Hussman, as well as the dance partners and guests of honor, President Hendrick and Captain H. L. Applewhite, U. S. A. Pleasing viands served by the pledglings were enjoyed till an early hour.

The following were present: Governor Emmet D. Boyle and wife, President A. W. Hendrick and wife, J. B. O'Sullivan and wife, Alex. Boyle and wife, Miss Louise Fargo Brown, the Misses eHlen Hobbins, Fern Wright, Fritzie Levy, Clara O'Neil, Ruth Douglas, Nell Brougher, Dorothy Morrison, Alice Boynton, Jean Mathews, Helen O'Neil, Elsie Farrar, Freda Daoust, and Ruth McDonald.

Messrs. F. L. Peterson, Jack Wright, and Lloyd Root, and the following members were also present: Bourke Healy, William Melarkey, Howard Candland, Charles Masters, John Williams, Clinton Melarkey, John Patterson, Charles Reilly, Chester Greenwood, Donald Stewart, Norris Schindler, Carl Kemper, John Smith, Jack Hampton, Oliver Layman, Bob Donovan and Fred Fernald.

St. Mary's Beats C. of P.

SAN JOSE, Feb. 19.—St. Mary's College quintet of Oakland won from College of the Pacific here tonight in an intercollegiate game by one point, 41 to 40. The Oaklanders staged a desperate rally in the last five minutes of play, overcame a big lead and just did manage to win. A big crowd saw the game. This was St. Mary's second victory in two nights. At the end of the first half the local team was ahead 25 to 20. Sperry refereed a good game. The line-ups:

St. Mary's—Curtis, Moy, forwards; Hanly, O'Connor, center; Quinn, Turnbull, Anderson, guards.

College of Pacific—Ham, Bergstrom, Furnish, forwards; Tilmarsch, center; Meese, Marriott, guards.

WOMEN'S BASKETBALL DISCONTINUED AS SPORT

VARIOUS MATTERS OF IMPORTANCE DISCUSSED BY EXECUTIVE COMMITTEE

Important matters were considered at the last meeting of the executive committee. The treasurer's report since February 1st, showing a balance on hand at the first of the month of \$402.14, receipts of \$121.65 and disbursements of \$91.20, leaving a balance of \$432.59, was read and accepted. A warrant of \$170 was drawn on the treasurer as an advance fund to defray the expenses of the basketball team on the California trip. A motion was carried to the effect that a certified bill for pictures taken be requested from the Artemesia photographer and the committee decided that it would interview the Artemesia manager relative to the insertion of the pictures into the year book without charge.

The question of intercollegiate baseball was next considered and the graduate manager showed that a cost large enough to render doubt as to the ability of the A. S. U. N. to pay the charges would be necessary in order to finance the season. It was decided to place the question before the next student body meeting.

The committee decided that the California game would be the contest in which letters would be awarded for the basketball season.

The salary of the graduate manager was fixed at \$30. per month for the remainder of the semester and he was empowered to select a suitable assistant.

At the request of the women's athletic manager the committee voted to discontinue women's intercollegiate basketball for this year. The reasons for this action include the lack of competition and the recognition of tennis as a minor sport.

The gas bill for the training quarters, which the Board of Regents has assumed in the past, having come to the treasurer on several different occasions, the secretary was instructed to petition the Regents relative to payment.

The secretary was also instructed to write to the president of the Block N Society advising him of the rules regarding the wearing of varsity

sweaters and socks. The meeting then adjourned.

California Defeated by Oregon Aggies

The Oregon "Aggies" came out victorious last night at Harmon Gym. over the University of California in the most exciting basketball struggle of the year, the visitors emerging victorious, 29 to 20, after the game had been tied in the last minute of play and an extra five minutes had been ordered.

At the end of the first half Oregon was in the lead 11 to 7, but in the second half California spurted and took the lead, maintaining it up to the last minute, when a well-directed shot from Forward Friedman of the northern team tied the count.

In the ensuing five minutes of play Friedman and Mix got by the California guards for nine points.

Sharp and Spencer of California starred for the Bears. Last night's game evened the series between the two teams and spoiled California's chance of cinching the Conference title.

The line-ups:

California—Sharp, Spencer, Smedburg, forwards; Foster, center; Penfield, Embury, guards.

O. A. C.—Friedman, Sieberts, forwards; Brogg, center; Johns, Mix, guards.

MINING COURSES CLOSE SATURDAY

LARGER REGISTRATION THAN HERETOFORE AND MORE ACTUAL PROSPECTORS

With only a week in which to finish their short course studies the visiting prospectors are making every effort to secure the most for their time spent at the University. The mining building is alive with practical miners, assaying and weighing and determining minerals. The registration is somewhat larger than that of last year, about twenty per cent more names being enrolled. A gratifying feature is the increase of actual prospectors and men who are actively interested and engaged in some phase of mining. These indications prove that the short courses are growing in usefulness and service.

If Smoking

interferes with your business don't give up either—it simply means that you're not smoking the right tobacco.

Now, Tuxedo is heavily charged with just the spunk, sparkle and pep you need to fit you to walk right up to your business cares and dispose of 'em like a curly wolf disposes of a lamb.

Tuxedo
The Perfect Tobacco for Pipe and Cigarette

Tuxedo is the right brand for the man who wants the full flavor and rich relish of Burley leaf—and that brisk, quick-step animation you puff through a pipe stem when "Tux" is in the bowl.

And it's the right brand for the man who wants to smoke oftener than once in a while. Go as far as you like with "Tux"—smoke it all day—the original "Tuxedo Process," used only in Tuxedo, takes all the bite and parch out of the leaf and leaves it mild, smooth and pleasant.

FARMERS WEEK STARTS WITH VIM

INTENSE INTEREST SHOWN BY VISITORS IN LECTURES BY EXPERTS

The second day of the Farmers' Week opened this morning in the Commercial Club rooms, with a large attendance of farmers and those generally interested in agricultural problems. Senator T. J. Bell of Berlin, presided over the morning session, and introduced the various speakers. J. E. Cosgriff, president of the Continental National Bank of Salt Lake City, was the principal speaker at the morning session. He has been actively engaged in the sheep industry for several years and spoke on "Improving Wool Produced on the Range."

J. H. Caizer, one of Nevada's most prominent cattlemen, talked on "Improving Live Stock on the Range." Senator A. W. Keddie of Fallon explained "The Range Sheep Problem During the Winter Months" and Director S. B. Doten of the agricultural experiment station at the University talked on the research work on the Nevada ranges which was recently started by his department. Charles E. Fleming, recently appointed head of the range work in the state, discussed "Improved Range Management," and Dr. W. B. Mack "Diseases of Range Live Stock."

The afternoon session will be held at the University gymnasium where Dr. Records and Dr. Jakeman will give a demonstration on hog cholera. In the evening the session will be devoted to farm management and irrigation. C. G. Swingle of Hazen will act as presiding officer at the session. H. F. Dangberg of Minden will talk on "Some Phases of Successful Farm Management." I. D. O'Donnell, supervisor of irrigation of the United States reclamation service will give a talk on irrigation and will tell how to make an irrigated farm profitable. C. A. Norcross, director of the agricultural extension services under the Smith-Lever fund, will speak on increasing profits, and J. M. Fulton, assistant general freight and passenger agent of the Southern Pacific will tell the farmers how to make their farm products pay by supplying the home market.

MR. NYSWANDER TO ADDRESS MATH CLUB

SOLAR SYSTEM TO BE SUBJECT OF ESPECIALLY PREPARED LECTURE

Mr. Nyswander will address the next meeting of the Mathematics Club on the subject "The Solar System." The meeting will be held on Wednesday evening in Morrill Hall.

Astronomy offers one of the greatest fields for the exercise of advanced mathematics and some of the problems encountered are yet to be solved. Mr. Nyswander has made a special study of astronomical mathematics and will outline some of the results of his study at the meeting on Wednesday evening. The faculty and students are invited to the lecture, which will begin at seven o'clock.

FIRST IN SAFETY

The Spring of 1916 is opening on what we firmly believe will be a banner year for Nevada, in Mining, in Agriculture and in Stock Raising.

The Southern Pacific Company, during the Exposition year, 1915, demonstrated its ability to handle expeditiously and satisfactorily the enormous volume of freight and passenger business it carried during that year, and is ready to repeat the performance during 1916.
