VOL. XXV UNIVERSITY OF NEVADA—RENO, TUESDAY, JANUARY 29, 1918 No. 18

ST. IGNATIUS NEXT VICTIMS SATURDAY

STUDENT BODY ADOPTS TWO NEW AMENDMENTS

Women's League Asks for Apportionment of Twenty-Five Cents From Each Four Dollar Athletic Fee.

At a regular meeting of the A. S. U. N. held in the gym Friday morning it was voted to amend Art. IV, Section 2, to read as follows:

"The Vice President shall have the same qualifications for the office as the President. He shall in the absence of the President perform the duties assigned to that office, and in case of vacancy caused by the President's leaving school or otherwise, he shall automatically fill the position for the remainder of the term, and an election shall be called not later than two weeks afterwards for the purpose of electing a new Vice-President. The Vice-President shall be a member of the Executive Committee."

It was also voted to amend Art. XIII, Section 3, to read as follows:

"Not later than thirty days after they take office the Treasurer of the A. S. U. N. and the Business Manager of the Sagebrush shall each furnish a bond of \$200 as a guarantee for the faithful performance of their duties. This bond shall be approved by the Executive Committee. The expense of securing the bond shall be met by the association."

It is the purpose of the last amendment to make it possible to obey the constitution, for as it stood before no attention has been paid to it in former years.

A movement was also started to give the Women's League 25 cents from the four dollars that each girl pays to the association as athletic dues, the dollar paid as class dues and Sagebrush subscription to remain untouched. This movement will be put in the form of an amendment and posted later.

Manager Gooding gave a short talk on the basketball prospects for the coming season, and this, together with several other "peppy" speeches, inspired the crowd present with lots of "jazz" and partly accounted for the loyal support given the team Saturday night.

COACH WHISMAN CONFINED TO HOME WITH TONSILLITIS

Coach Whisman has been ill the last few days with a rather severe attack of tonsillitis. He is improving however and will be on the job again within a day or so.

Will Odbert is in the hospital with a case of chicken-pox. He expects to be out the end of this week.

NOTICE

Miss Sissa desires all students who pledged money to the Students' Friendship Loan fund to call and fulfill the pledge. These pledges were to have been paid January 1 and there is still a considerable sum outstanding.

STEPHENS AND PARGELLIS WIN DEBATE TRY-OUTS

Two Members of Team to Represent Nevada Against Brigham Young College Chosen.

The preliminary tryout for the purpose of selecting men to represent Nevada in debating were held last Wednesday night in Morrill hall. Harry Stephens and Stanley Pargellis were the successful debaters, and John Douglas and Howard Brown ranked next and will serve as alternates.

The question: Resolved, that the United States should adopt a system of compulsory arbitration in all industrial disputes, constitutionality granted, was hotly contested, and it was only after much deliberation that the judges were able to arrive at a conclusion. The judges were Professors H. W. Hill, R. C. Thompson, and C. W. Spencer. The other contestants were Harry Davis, Morris Badt, and Chas. Miller.

While the judges were conferring Mary Browder, Chas. Bowen and Ira Redfern entertained the audience with a recitation and talks upon government conservation.

The side that Nevada will take against Brigham Young has not yet been decided, but as the choice rests with the Nevada team it will probably be the negative, as it was upon that side that the successful debaters argued. This debate will be held on the campus some time in March.

Mr. R. A. Allen has been recommended to the Adjutant General's office in Washington for a commission, which will probably be issued in the next few days.

Savage

MANZANITA GIRLS AFTER RED CROSS WORK RECORD

Fold 3,071 Gauze Compresses the Last Month and Will Do Even Better Next Month.

The Manzanita Red Cross auxiliary is still doing its duty, as is shown by last month's report, and is daily increasing in efficiency. From December 17th to January 17th 2,571 four by four gauze compresses were made and 500 nine by nine, making a total of 3,071. The 3,071 dressings surpass the record for any month previous. The largest total previous to this was 3,012, made from September 17th to October 17th. This last week 900 bandages have been made by the girls. This is the largest number that has ever been made in one week. The demand for these dressings is always larger than the supply, so it is impossible to make too many.

Indiana—More than three hundred Christmas boxes for the soldiers overseas were packed and dispatched last week by women students at the University of Indiana. Fruit cake, rock candy, and innumerable personal gifts comprised the contents of most of the packages.

NEVADA BASKET SHOOTERS TRIM PACIFIC UNIVERSITY

SPEED AND SUPERIOR TEAM WORK PUTS NEVADA ON BIG END OF SCORE, WHILE PACIFIC APPEARS HELPLESS AND IS EASY PICKINGS.

SCORE 52 TO 12

COACH WHISMAN'S JUDGMENT IN PICKING RIGHT COMBINATION JUSTIFIED BY WORK OF NEVADA TEAM IN FIRST GAME OF THE BASKETBALL SEASON. NEVADA WILL BE A STRONG CONTENDER FOR CHAMPIONSHIP.

Nevada started her basketball season with her old time scrap and spirit by overwhelming the College of Pacific last Saturday. The Pacific team showed themselves to be good sports but they lacked the ability to dampen the sagebrush fighting spirit which was present. The gym was filled, many of the townspeople attending, and an enjoyable dance was held after the game.

Before Saturday's game had been underway a minute the idea that Nevada would have no chance this year was forgotten. Any dissatisfaction which was held because of the placing of the men was soon proved erroneous. Though the visitors made the first point, it was several minutes before there was much danger of them making any more. The first half of the game is a simple story. Nevada, though lacking somewhat in shooting ability and team work, had a considerable amount of fight and steam, while the Pacific men were pacific. The visitors scored but one goal and two fouls, and the half ended with the score at 31 to 4 in Nevada's favor.

The second half opened with the line-ups unchanged, but there was a change in the playing of both teams. The visitors tightened up and played a stronger game while Nevada seemed to ease up, but succeeded in changing some of her snap for a little team work. About the middle of the half Coach Whisman changed practically the whole line-up. Some changes were also made in the Pacific line-up, and for a few moments it was doubtful what the result of the changes would be. The question did not last long, however, for again the Methodists showed a surprising lack of methods and showed that they were no match for Nevada's "home guards." The Pacific team made but two goals the second half and the period closed with the score standing 54 to 12 in Nevada's favor.

NEVADA MAN APPOINTED TO \$6,000 POSITION

W. F. Doherty, ex '11, has landed a big job as an electrical engineer. He has been appointed chief engineer of the Tata Hydro Electric Company, Bombay, India, at a salary of \$6,000 a year. Doherty took the Mechanical and Electrical course in the University.

B. G. McBride, '06, and Ward Lusk, '14, have been commissioned in the ordnance department and are now at work on important military assignments.

It has been many years since Nevada has lost a league game on the home court, and hopes of adding another year to the list were far from being shattered by the team's showing in this first game. Every man on the floor possessed the necessary fight that goes to make a winning team. Individual starrng was slight, and there was also only a small amount of team work, which was due to the lack of good competition. Coach Whisman will put the team through heavy practice during the coming week in order to eliminate the deficiency so that a well rounded team will meet St. Ignatius boys when they arrive.

St. Ignatius comes next week with a somewhat better record for the year than Pacific. They were beaten by University of California last Saturday by a score of 24 to 19, after holding the Bears for most of the game. There is honor in such a defeat, for it is practically no defeat at all.

Nevada started the game with the following line-up: Savage, center; Lattin and Martin, guards; Waite and O'Brien, forwards. After the change in the second half the team lined up as follows: Cessna, center; Martin and Corbett, guards; Pargellis and Gooding, forwards. The Pacific line-up was as follows: Tidmard, center; Sheperd, Wright and Rowe, forwards; Hayes, Refass, Crisse and Cowger, guards. The game was refereed by Phil Wentworth.

The game was attended by a real old time crowd. President and Mrs. Clark were present, and many people came from town. Every seat in the gym was taken and the balcony overflowed with enthusiasm. The game was followed by a very enjoyable dance.

Next Saturday will see the last game in Reno this season. Everyone should boost the game and defeat the largest possible crowd to help defeat St. Ignatius. The game will be followed by another Block N dance.

MR. AND MRS. TOM WALKER BOTH IN WAR SERVICE

Word has been received that Lieutenant Tom Walker, '15, is now in France serving as second lieutenant in the signal corps of the American Expeditionary forces. He was commissioned in the second officers' reserve training camp.

Mrs. Walker, formerly Miss Ruth Pyle, '17, is engaged in war work as an organizer of the Girls' Patriotic League, with headquarters in New York City.

EXECUTIVE COMMITTEE HEARS FINANCE REPORTS

Treasurer's Report Shows Finances of A. S. U. N. to Be in a Healthy State.

At a special meeting of the Executive Committee held Wednesday night Treasurer W. H. Stickney submitted the following report of the financial condition of the A. S. U. N. for last semester.

Total collections.....\$1,554.96
Total paid out.....1,532.23

Balance in bank ending Dec. 22nd, 1917.....\$ 22.73

A report of the condition of the Sagebrush was submitted by Manager Stephens and read to the committee. It showed a business of \$567.90 taken in by the management in the last semester.

Several small bills were ordered paid and \$75.00 allowed Manager Gooding to cover the costs of the University of Pacific basketball game. Under the existing contracts which were arranged for Nevada, while we are to receive \$50.00 and expenses for each game played in California.

Owing to the fact that the last game which will be played with California will probably be the big game of the season, and also that the worth of the men will be fully determined by that time, the game with California was made the "letter" game in basketball for the coming season.

"The Irishman"

FROSH CLASS LAY PLANS FOR FRESHMAN GLEE

Officers Chosen for This Semester and Committees Appointed to Handle Annual Frolic.

At a regular meeting of the freshman class held last week, officers were elected for the ensuing year, and an early date was set to hold the Glee.

The officers elected were: John Douglas, president; Lavina Shields, vice-president; Helen Fuss, secretary; and Don Warren, treasurer. It was decided by the class to hold the Freshman Glee February 8th, and the following committees were appointed: Bowen, Egan and Quilici, floor managers; Warren, Griffith and Douglas, finance; Sanders, Sewell and Carter, refreshment; Misses Hall, Shields and Fuss will attend to the decorations. An effort is being made to obtain Parker's harp orchestra to furnish the music for the occasion.

Quilici don't step often but when he does he surely is attractive. He remained by her side during one whole half of the game Saturday night, until he was discovered by friends (?) below.

BONUS SYSTEM TO BE PUT IN OPERATION

Faculty Revives Old Rule Adopted and Students Will Receive Credits for Excellency in Scholarship.

The faculty senate met Thursday and put the bonus system on a working basis so that the students can automatically receive extra credits for excellency in scholarship.

The bonus system was inaugurated at the same time as the regrading system but has never been sufficiently understood by the students so that they could ask for the bonus credits. It seems that it has until this time been only an emergency measure for students who have lacked enough credits to graduate but have done good work in a few subjects. Very few have taken advantage of it.

This is the way the bonuses are given: For every grade above 90 per cent the student will receive a bonus of 15 per cent more credits in that course and for every grade above 85 per cent and below 90 per cent he will receive a bonus of five per cent of the number of hours. Thus if a student is taking a three-hour course and attains a grade of 90 he will be granted 15 per cent credits more than the three hours and will total 3.45 hours in the course. If he makes 85 he will get five per cent more, or 3.15 hours. In this way a student taking only 15 hours of work and getting an average of 90 in all his work will receive credit for 17.25 hours.

Since the system has been adopted for two years, although not enforced in that time, there will be four semesters' work to be taken into consideration. The Dean of Arts and Science is the faculty member responsible for going over the grades and giving credits where they are earned.

Seniors and juniors may expect some material bonuses, and in some cases six or eight additional units will be granted. Students in the engineering courses, however, can receive little benefit because the required work practically fills up the allotment of units.

As viewed by the faculty, the bonus system has two advantages to recommend it. It places a premium upon good scholarship, and it enables the student to take fewer hours and concentrate upon them.

There is also a provision that has the opposite effect, and decreases rather than increases student's credits. This provision provides that if a student does not pass above 75 per cent in three-fourths of his work that he cannot graduate. In other words, a student cannot have 124 hours and get below 75 in more than 31 of those hours. If he does that he must take extra hours to make up the deficiency. This will not effect any of this year's graduating class, as all have a clean record on that score.

COLLEGE OF PACIFIC HAS HONOR ROLL FOR KNITTERS

College of Pacific has also deemed it an honor worth mentioning to knit for the soldiers. While other colleges have honor rolls for the men in the service, Pacific has an honor roll for the knitters.

EDITORIAL

CONGRATULATIONS

The elixir of victory is a great drink, and its potency can be vouched for by the enthusiasm that reigned last Saturday night when we took Pacific into camp. A light and entirely inexperienced Nevada five came across with the goods and faithfully upheld the record of previous Nevada teams of never being defeated on the home court. It was a regular old time night of which the old undergraduates love to tell. A record crowd was there, a good time followed, and, best of all, we won. May the story be the same next Saturday night against St. Ignatius. The signs in the heavens are favorable.

MAKE THEM SMILE

This week is designated by Governor Boyle as "Smileage Week," and we have another opportunity to help the Nevada men at the front and in the training camps. The government has appropriated money to build a theater in each military cantonment to furnish amusement to the soldiers. Leading actors and musicians have volunteered to supply entertainment at a very nominal cost and some money will be needed. Therefore a small admission will be charged and the tickets will be sold to the soldiers and public in books of twenty tickets for \$1.00.

Secretary Baker has appointed Hon. N. E. Wilson of Reno to manage the campaign week of selling tickets to civilians, which will be sent on to needy soldiers. A campaign will be made on the Hill, so buy a book and send it to one of the stars on the Service Flag.

A faculty committee is at work on the task of compiling the 1917-1918 catalogue. An effort is being made to thoroughly revise and correct the contents of previous catalogues. To this end a circular letter has been sent to the students and faculty members for suggestions. If you have found trouble in interpreting any section of the catalogue now is the time to clear it up for the next one.

The annual Y. W. C. A. day was celebrated Wednesday in the gymnasium by a luncheon and program. Tickets were distributed a week in advance, and for fifteen cents a person some hundred and fifty girls were served with tomatoes, sandwiches and coffee.

The program consisted in a number of stunts put on by the many committees of organization in the association. Seven committees each had an appropriate and amusing little skit prepared to typify the work of the committee. The committees were the Music Committee, the Extension Committee, the Conference and Conventions Committee, the Finance Committee, the Bible Study Committee, the World Outlook Committee, and the Membership Committee.

At the regular meeting in the afternoon of the same day the feature of the meeting was a talk by President W. E. Clark. It has been the annual custom to ask the president of the university to talk at this meeting on Y. W. C. A. day.

Speaking to the members, President Clark outlined the great opportunities open to college women, and in particular the women of Nevada, and pointed out the splendid surroundings under which the Nevada girls work. The president of the association, Joe Damm, presided, and Alice Kinkaid played an instrumental solo.

Brow and Bill Stickney report that they had a wonderful time at the reception the other night. Their idea of a good time must be plenty to eat, for with every change of servers they were on hand to claim another bit of ice cream.

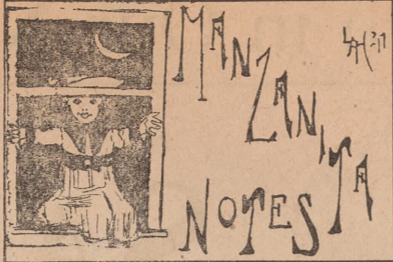

The Kampus Kat notices with horror the ever increasing tendency of our fair coeds to take the shortest path regardless of intervening plots of grass. As every live student should know, it is an established tradition of the University that they should keep to the straight and narrow paths provided by the Board of Real Gents. Many a sturdy lad has investigated the depths of the lake for this offense, and yet our young maidens are allowed to traverse the forbidden lawns unharmed. It would seem that although no punishment is held over their heads, loyalty to school tradition should compel them to follow where the brick walks lead.

Bill McMasters was learning to skate last Sunday, but her feet are so small she had a hard time skating on them.

Bowen can't seem to take a gentle hint; it just has to soak in. After one swim for failing to avoid the fair sex on the campus, he was at his best last Sunday, when he could be seen by the casual observer essaying to pilot two young ladies about the pond. The Kampus Kat warns: The sophs 'll get you if you don't watch out.

Expectant, would-be, and ought-to-be aviators are already practicing their art in Lincoln Hall and beginning with the Morse code and several loud and buzzy telegraph sets. They have strung wires over the corridors and at any time of night one may be awakened by an insistent buzzing in the next room. They say that the language used over the wires is not fit for a central to listen to. Something ought to be done alright.

Saturday night after the game Manzanita was invaded by a merry troupe of strangers. The Pi Phis who live in the hall were giving their downtown sisters a taste of Manzanita life. Eats, of course, were a big item in the "taste." We won't say what time they went to bed or how much they slept when they got there, but on Sunday morning they departed sleepy-eyed but happy, and satisfied that Manzanita is a pretty good place to live.

Red Cross work is going at full speed. Mrs. Spencer devotes her mornings to preparing materials, checking up the work and generally aiding the girls. She has been so helpful and has made the work so pleasant that the girls are willing helpers. This month we hope to double the usual number of bandages, and at the rate we are going will do it easily.

Friday afternoon it was junior tea day. The juniors were few in number but proved to be charming hostesses. Mrs. Boyle dropped in to sip the juniors' tea and meet the girls.

Helen Mace is spending a few days with Magdalena Bertschy during the absence of Mrs. Bertschy.

Florence Shirley spent several days at Manzanita prior to taking up her duties as a teacher in the Reno schools.

Clysta Van, who has been with us just a few weeks, is now residing with Mrs. Wentworth.

Verne Haywood left Friday to take a school near Winnemucca.

Leila Ogilvie was called home Saturday on account of the illness of her mother.

DELTA DELTA DELTA
The members of Delta Delta Delta sorority were hostesses Friday night at a reception given at the home of Mrs. Frank Lee in honor of President and Mrs. Clark. The guests were the faculty and students of the university. The guests were entertained with recitations and a musical program, and dainty refreshments were served, while a dance brought the evening to a most successful conclusion.

BLOCK N DANCE
According to custom, the Block N society held a dance after the basketball game Saturday evening. It was unusually well attended and the gym had quite the appearance of old times.

DELTA DELTA DELTA
The home of Misses Grace and Elaine Harris was the scene of a most delightful party Monday evening. The alliance and active chapters at the regular business meeting installed Eva Hale as the new president, together with the other officers for the coming year. Alethea Hill house was pledged as a new member. After the conclusion of more serious affairs, a splendid musical program was given, with the best of eats as a climax to a happy evening.

PHI DELTA TAU BANQUET
At a banquet at the Riverside last night, the Phi Delta Tau fraternity entertained two new members and also a new pledge. The new members are Leslie Ballou and Lyle Kimmel and Bob Graham is the new pledge. Seated around the table were Harry Stephens, Lester Moody, Ira Redfern, Bob Carter, Chester Brennen, Howard Brennen, John Douglas, Lyle Kimmel, Bob Graham and Leslie Ballou.

NEVADA REPRESENTED AT SECURITY CONGRESS

President Clark Selects Frank Peterson to Represent Nevada at Meeting in Chicago.

As Nevada's representative to the Congress of National Service in Chicago, Frank Peterson has been appointed by President Clark. Peterson graduated from the Mechanical Engineering College of the University of Nevada in 1907 and at present is in charge of the instruction given in the Holt manufacturing plant for the motor section and other units of the army.

The Congress of National Service is called by the National Service League to bring about a solution of three problems: the existence of the republic, the success of democracy, and the preservation of the rights of man throughout the world. At the congress recognized authorities will discuss each of these questions.

MANZANITA HALL TEA

Mrs. Walter Clark and Mrs. Emmet Boyle were the guests of honor at the Manzanita Hall tea last Friday afternoon.

RESOLUTION ADOPTED BY STUDENT BODY

The student body of the University of Nevada records with keenest sorrow the death of Dr. Mack.

Called from the field of earthly labor when but in the prime of life, and when it would seem his best years of service were in the future, he leaves a record of achievement which is an enduring monument to his memory. Not only a recognized authority in the field of science, in which he became a specialist, by original research he added materially to the world's store of that knowledge which promotes the welfare and happiness of humanity.

Gentle in manner and unassuming, yet he impressed all who had the privilege of his acquaintance that he was a man, big in mind, and in heart and in soul. The memory of his example will ever be an inspiration to the noblest ideals of the student.

FRANK HARRIMAN,
A. S. U. N. President.
ADELE NORCROSS,
Secretary.

Imagine "Dean" Gassoway's chagrin when Bowen in a frightened tone yelled from across the campus: "Hey, Janitor, the bell is broken."

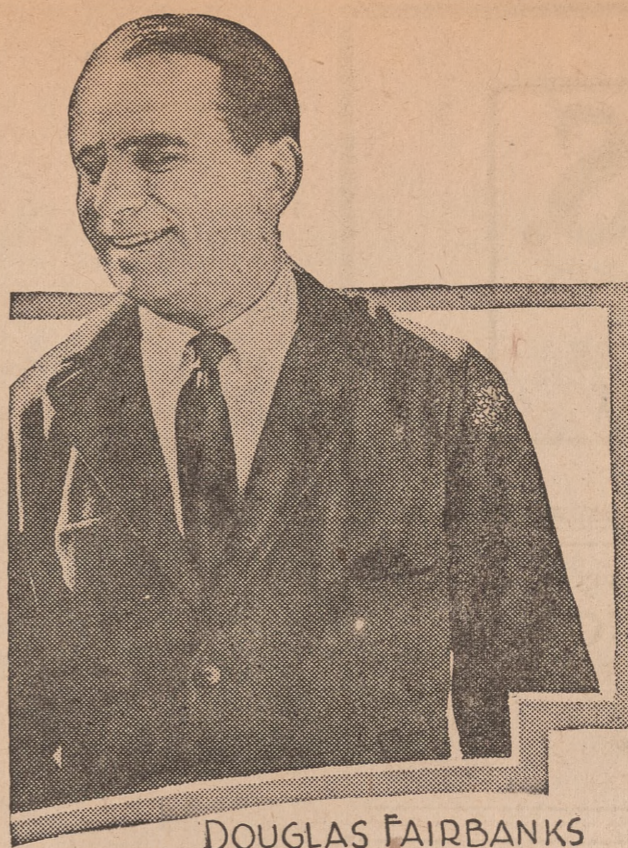

AT THE MAJESTIC

"It's quite true," said Edward Jose, who directed the production of "Her Silent Sacrifice," which will appear at the Majestic Theatre next Wednesday and Wednesday, "that there are no sluggards in the motion pictures; but even at that, Miss Brady can give cards and spades to most of the film actresses whom I have met. Where the average actress will often waste precious daylight hours making me go over the scenario with her, Miss Brady and I always hold these conferences in advance during the evenings at her house.

"But what is far more interesting and important is that Alice Brady's wonderful adaptability, versatility, and readiness to grasp the situation permits me to work with her in a speedy, frictionless, and efficient manner. Tedious repetitive rehearsals are unnecessary for this remarkable girl—for that's all she really is, a young, charming miss—we go over the action once and then proceed to film it. The uninterrupted development of the main character and the smooth unrolling of the story which result go far to explain the artistic finish of all of Miss Brady's productions."

Friday and Saturday a big patriotic picture of importance, "Over There," by courtesy of Geo. M. Cohan, whose song of the same title was the selected American war song. Chas. Richman and Anna Nilsson are the principals. It is one of the most consistent "slack-er" pictures offered to the screen, having received endorsement of the Boston Red Cross and eastern recruiting stations. Splendid vaudeville features are on the Wednesday change. The Brads, eccentric comedians; Elsie Schuyler in novel song numbers; Benton & King, musical diversions. Friday and Saturday Elsie Schuyler holds over for the week-end with "Our Bungalow" and "What the Clothes Line Told," with the Shanghai trio of jugglers, acrobats, and Phil Redmond, comedian. The "Gown of Destiny," with Alma Reubens, is the Sunday film feature. This gown is a creation of a French modiste who was physically unfit for the war and who designed the gown and derived money for his country. Hickson, the New York modiste, purchased the rights for the United States and sold the first stage rights to Triangle. The Palace Dry Goods house will show the gown in a model in one of the second street windows Thursday, Friday and Saturday before it is seen in the picture at the Majestic.

Give the Sagebrush your announcements and notices.

DOUGLAS FAIRBANKS
in "A Modern Musketeer"
AN ARTCRAFT PICTURE

THE GRAND

A unique theme is presented in "A Modern Musketeer," the Douglas Fairbanks production released by Artcraft, which will be shown at the Grand Theatre tonight, Wednesday and Thursday. The story deals with the chivalry of olden days brought up to date by the reincarnated D'Artagnan, the Dumas hero, whose spirit presumably lives in the character portrayed by Fairbanks.

Many Hopi and Navajo Indians take part in the production, which is a combination of thrills and humor. These scenes were taken in and around the Grand Canyon of Arizona. While the scenes were being filmed Frank Campeau, who plays an Indian part, joined

partnership with Fairbanks in a business deal.

It is the custom at the Canyon to pay an Indian one dollar to pose for a picture. One day Fairbanks corralled a party of twenty-seven at the El Tovar hotel and told them of a wonderful Hopi Indian chief who had just arrived from a distant reservation in his full regalia. Naturally every one in the party with a kodak asked to see him. Douglas took them a mile and a half down the trail. Twenty-seven cameras clicked, and a minute later as many dollars were collected by Campeau in his make-up. "A Modern Musketeer" is not one of the old Fairbanks reissues but a brand new Paramount picture and never shown before in Reno.

NOTICE TO ALUMNI

The list of the names on the Service Flag is almost complete, but a few are being reported every day, showing that there is still a big chance of omission or error. It is practically impossible to find information unless those who happen to have information will volunteer it. Some of the addresses and ranks are changing every

day and it is becoming increasingly difficult to keep track of the men. It is planned by Major Ryan to compile a service book containing complete information on each man in the service, and he is at work now gathering data. Anyone knowing of an error or omission should report it to either Major Ryan, Miss Sissa or one of the Sagebrush staff.

AVIATOR CADET WRITES ABOUT FIRST FLIGHT

Vernon Summerfield, ex-'19, Moved to Poetry by Thrills of First Trip Through the Clouds.

The following verse is from Vernon Summerfield, who is attending the aviation ground school at Berkeley and is well worth quoting. He has three weeks more work at Berkeley before being sent to San Diego to complete his training in actual flying practice.

"I donned my leather jacket
And stuffed a helmet on my dome,
I peered through dirty goggles
And gently thot of home.
I tripped o'er wires and wooden struts
And climbed into the seat,
The darned old thing was sticky
And I couldn't move my feet.
The engine started with a bang,
Threw water in my face.
The plane galloped across the ground
And started its deadly race.
The air did'st whistle all around,
My head felt rather queer,
The engine caughed spasmodically
And the oil got in my ear.
The gentle gusts of wind up high
Played tag with the old plane.
I cast a glance on the old earth
And loudly swore in vain.
I opened my mouth, the wind rushed in
And roughly puffed out my cheeks.
I tried to cough, and all I heard
Was several funny squeaks.
At last we did a nose dive down
A thousand feet or more,
And hit the ground in a speedy glide,
Gosh, but my ears were sore.
I sickly climbed from out the heap
And got on the good old ground;
And when I looked myself over
I had grease on me all around."

GIRLS PLAY POLITICS TAMMANY METHODS USED

DIOGENES DISCOVERED

Strong politics were played in frosh class and Tammany methods were used by the girls to bring in two dark horses last week.

The notice for a "REGULAR" meeting was posted by the "Prexy" for the election of officers. Then some political aspirants among the girls called a very secret meeting and twenty-nine responded. Here it was decided to place two of their number up for office and vote solid for their candidates. However, not feeling quite sure that their votes would bring the laurels home they hid themselves off to a telephone, called up a member of the opposite sex and requested him to meet them at a very secluded place for a very important conference. At this assemblage they made him a very alluring offer, whereby if he would lend them his influence and support they would throw their votes his way, which would carry him to a pinnacle of honor and glory in political achievements. But, "oh girls," here was a Diogenes, for he flatly refused to have anything to do with such rotten politics. Well, the girls were not to be daunted, for they ran their candidate, and the cub reporter who sleuth-footed and unearthed this deep plot was very confidentially informed that they were elected. All the facts and methods used could not be gleaned, but it has been said that some drastic methods were used to carry the day.

HOOVER SENDS MESSAGE TO COLLEGE WOMEN

To the Women of This Year's Graduating Classes:

The United States Food Administration calls you to its service; our need is so great that we appeal to you to prepare yourselves as best you can and to enlist for the great work that must be done. There will be diversity of tasks and therefore diversity of talent and training can be used. All our questions now center in food—its production, its distribution, its use, its conservation. The more you know about these things the more valuable you will be and the greater will be your service to humanity. If you have not already done so, we urge you to pursue studies dealing especially with food, but these should be reinforced by courses in chemistry, physiology, and economics. It will be well, too, if you have acquired the arts of public presentation of your knowledge to the people who so much need it. Fortunately most of our educational institutions now offer courses which give the necessary training for this work, but to the others an appeal is being sent to provide such instruction wherever possible. More detailed suggestions and directions will be published soon.

Today your country asks you to resolve to do what you can in this hour of extreme peril to the democratic peoples of the world.

HERBERT HOOVER.

"May I print a kiss upon your lips?" She nodded her sweet permission. They started to press and I rather guess They printed a full edition.

"But one edition is not enough," She said with a charming pout, So again in the press the forms they placed And got several extras out.

—Ex.

CO-ED BASKETBALLERS OUTCLASS RENO HIGH

Girls Will Make a Trip to the Coast in February, Although Definite Arrangements Are Still Pending.

Wednesday evening the girls' basketball team played the girls of the Reno high school, whom they defeated by a score of 33 to 2. At the end of the first half the score stood 17 to 0 in favor of the University girls. Rose Harris, Lavina Shields, Helen Fuss and Hallie Organ played the positions of forward; Lois Kimmel, Edna Clausen, Gladys Dunkle and Ruth Billinghurst, centers; Salome Riley, Nora Houghney and Lois Smythe, guards. Isabel Slavin, one of the university star guards, was unable to play.

The high school team lacked one of their best forwards, but the team as a whole was simply outclassed. The two points made in the second half were secured through free throws and they made no field goals whatever.

The girls' team is showing up well, and some of the positions are being hotly contested, especially those of forward and center.

There will probably be a game with Mills and California, although these colleges are very slow in making definite arrangements in regard to games, due perhaps to the fact that their respective faculties have to O. K. the proceedings.

The Nevada girls will probably go to the coast some time about the middle of February. The athletic manager hopes to have a game with the girls of the College of the Pacific on the home floor, but this has not been definitely decided upon.

NEW ENGINEERS CORPS WANTS COLLEGE MEN

Recruiting Started for 319 Engineers to be Stationed at Camp Fremont, Cal.

A drive among the colleges is on foot to recruit to full war strength the 319th Engineers. Under special regulations from Washington, applications for service will be received at Camp Fremont, Calif., or to Major J. A. Dorst, Room 1012, Sante Fe Building, San Francisco.

All kinds of skilled mechanics and trained men are needed, such as draftsmen, surveyors, miners, topographical sketchers, signal experts, motor car drivers, clerks, electricians and laborers. In addition men having experience with locomotives, gas engines, steam engines, and almost anything in the mechanical line will be needed.

Special efforts will be made to make the regiment a picked body of college men, and high moral and manly qualities are necessary to candidates. An opportunity will also be afforded men subject to draft to be accepted in advance of the draft call.

HIGH SCHOOLS TO HAVE ANNUAL ACADEMIC MEET

Board of Control Decides to Have the Regular Track Meet This Year

The board of control of the Academic Association met last week and discussed the advisability of calling the annual track meet of the high schools of the state as has been the custom every year except the last year. Those members present were Miss Sameth, Chairman Haseman, Coach Whisman, Frank Harriman, Lyle Kimmel, Charles Gooding, Coach Rossi of Reno High School and Prof. Mack of Reno. All were in favor of having the meet this year.

Coach Whisman was elected secretary of the association. As a preliminary step it was decided to write letters to every high school in the league asking for information and opinions upon the matter. An effort will be made to ascertain how many high schools will send representatives and as soon as the information can be gathered a set of regulations and rules governing the meet will be adopted. The meet will be held the latter part of April.

RESULTS OF LAST WEEKS GAMES ON THE COAST

Ignatius Loses to Bears and Davis Loses to St. Mary's

The game between St. Ignatius and the California Bears was played last Friday night at California and St. Ignatius lost 24 to 19. The game was fast and furious and the score stood 11 all at the end of the first half. The second half was California's however, although St. Ignatius fought hard to the finish and put up a good game.

St. Mary's fast team brought home the bacon from Davis Farm in the other game Saturday night in a 30 to 17 score game. The game was fast with St. Mary setting the pace. Richie starred for the St. Mary's team at forward and Harper at center was Davis's high man.

Chicago—Only three members of the recently graduated class at the University of Chicago were found to be eligible for election to Phi Beta Kappa. Eight-eight degrees were conferred at the graduation ceremonies.

THE COLLEGE STUDENT AND THE GREAT WAR

By Herbert Hoover
United States Food Administrator.
(From the Patriotic News Service of the National Committee of Patriotic Societies, Washington, D. C.)

To the college men of America I address myself with confidence, a confidence born of unforgettable experience.

In the relief of Belgium most of the actual work of the commission in the occupied territory was done by young American collegians. Each time a call was made for volunteers many more than asked for offered their services. And those that were chosen performed their duties, not only effectively but with a spirit of devotion that made their service beyond praise. They combined idealism and efficiency. It is the combination that moves the world forward.

Today all the young college men of America face a special responsibility and duty. At no time in the world's history has the technically trained mind been at a higher premium. And this need for it and demand on it will continue after the war is over. He must ask himself: Is the immediate need of me by my country in my present stage of training greater than this need will be later, and when I have acquired a higher training? This is a question the clear answer to which cannot be indicated for all by a single formula, because the young men in college find themselves under varying circumstances. Yet an answer in general terms of some helpfulness may be made.

To the younger men, the lower classmen, only beginning their professional training, I say: Keep on with your college work. If the war lasts long you will be needed more later than now; and you will be better qualified to fill the need then. If the war ends soon, there will still be urgent need for your help in the necessary great work of reconstruction and rehabilitation. The more advanced your training, the more mature your judgment, the more valuable you will be. So try to possess yourself in patience and stick to your college work.

To the upper classmen I would say: Hold yourself ready to respond to your country's present need at any moment. Where you see your way clear to make your training useful, do not hesitate to follow the way. But you too should remember that every additional month or semester of training will make you a more effective helper to your country in this time of its emergency, ever growing more critical. So be willing and ready to go out, but go in no thoughtless hurry, nor merely to satisfy the natural restlessness of the moment.

Finally, to both lower and upper classmen, and to the great army of American college and university graduates, I would say: The country looks to you for justification of the advantages it has given or is now giving you. You are a privileged class. All special privilege brings special responsibility and special duty. Yours is the advantage of the expanded mind and the uplifted spirit. Your knowledge of the conditions and needs of your country, and your understanding of the real meaning of patriotism should be beyond those of the many denied your privilege. Therefore, your response to the call of your country's need should be quicker, more insistent, more persistent and more ready to adapt itself to any form of this need than that of the unprivileged many. You have already responded nobly to the call to the colors. But not all of you can now march to battle; not all of you should try to, but all who should not or cannot, and all who are sticking to their work of making themselves fitter for their future service can still serve, and serve now. There is very much that you can do right now.

I would call your attention to just one of the many ways in which you can help, and help importantly. It is the way to insuring the absolutely necessary food supply to ourselves and to our allies.

Especially must the matter of the food supply of our allies be stressed. The vital world problem of food is not generally understood. The popular view is too self-centered, too selfish—to use an ugly word. It does not look across the sea. The back-wash of Europe's misery does not carry to our shores. We do not know, and hence cannot feel, the pangs of hunger, and pain of hunger weakness that are everywhere in Europe. They are pains felt by our allies as well as by our foes. We must make this known to all our people, that all our people may understand the great and indispensable and immediate role they must play in this all-important part of the war situation. You who can readily understand must help.

You can impress on the people around you, and wherever you go, the fact that the critical phase of the world food problem is now, not the question of high or low prices, but the question of producing and saving and sending enough food to our allies to keep them alive and strong and steadfast in war. The critical question now in this war is the question of the actual physical strength of the fighting nations.
