UNIVERSITY OF NEVADA—RENO, NEVADA, TUESDAY, FEBRUARY 11, 1919

No. 20

Santa Clara Comes Next Saturday

Men's and Women's Teams Prepare For Hard Games

Santa Clarans to Meet Men in Gym Saturday. Block "R" to Meet Women Tuesday at High School.

Basketball again holds the most prominent position in the affairs of the student body of the University of Nevada. Four games were played during the past week and three will be played this week ending in the first big game of the season when Santa Clara sends her team to do battle with Nevada. Of the games already played both men and women won and lost one game.

Nevada plays her first league game with Santa Clara on the home floor next Saturday night. The visitors are reported to have a strong team this year as is usually the case with them. They are reported to have several of their old stars back and unless the dope is wrong should give the varsity a good run for their money. The Santa Clarans have played two league games already this season and have not suffered from them. The first was with the College of Pacific and the second with Stanford. They won the first by a large score and lost the second by a small margin.

The varsity played two practice games with the speedy Northwestern team last week, and broke even with them, each team taking a game. The Athletic Club team is composed largely of former Reno High men and they showed a lot of speed and class.

The first half of the first game was rather slow but there were several spectacular baskets made. The period closed with the score at 11 to 10 in Nevada's favor. The second half started slow but a change in the Nevada line-up caused both teams to take a considerable jump in speed. Things went well for Nevada in the early part of the period but a few long shots by Williams and Heward of the club team took them out ahead at the close of the game.

The second game was played on Saturday night before a large crowd. There was nothing slow about the game at any point. The varsity was determined not to lose a second time and the club boys were just as determined to win a second victory. The first half ended with Nevada on the small end of a 6 to 11 score. It was not a promising showing but the second half went the other way. At the end of the second period the score was 14 to 19 in favor of Nevada. Both games were marked by low scores and

the second by a complete absence on long or spectacular baskets.

The line-up was as follows:
Nevada—Forwards, O'Brien, Luce and McKenzie; center, Egan, Davis, Hopkins and Savage; guards, Martin and Reed.

Northwestern Athletic Club—Forwards, Wilson and Heward; center, Williams; guards, McInnis and Codd. The varsity will have their second tussle with the Carson Indians next Wednesday night. The Bucks largely demolished the team in their first fracas and the boys hope to return the compliment. This will be the last scrimmage before the game with Santa Clara next Saturday.

The women of the University have been active in their section of the game and have played twice and have another scrimmage coming up on Tuesday night. The first game was with the Reno High Alumni team. The game was fast and close at all times. The final tally was 16 to 15 in favor of the alumni. In the return game the Nevada girls varsity met and defeated by a score of 23 to 4 the combined Alumni and Block R team of Reno High School. The game was fast and exciting although the University was ahead from the start. It was a good showing for the women as no real varsity team has been picked as yet.

The games showed some promising material for a real varsity and the coach, Miss Somers, regrets that the coast colleges are not playing intercollegiate games this season so that no big games can be scheduled. The line-up follows: Guards, Salome Riley and June Harriman; centers, Mildred Twomey and Grace Mills; forwards, Hallie Organ and Helen Fuss.

HOME ECONOMICS

CLUB MEETS

Rachel Sprague Becomes President After the Resignation of Evelyn La Kampe

The Sigma Sigma Sigma Society of the University of Nevada held a meeting in the Aggie building Tuesday evening. It was a very lively meeting and quite informal. Every member present added to its success by freely expressing her opinion of matters at hand. Because of the point system now in effect the president of the society, Evelyn La Kamp, was obliged to resign and the vacancy was filled by electing Rachel Sprague.

The society voted to broaden its activities to include the entertaining of distinguished home economics leaders who might be visiting in Reno, and inviting them to address the society. Sigma Sigma Sigma adopted the policy of availing itself of every opportunity to add to the interest and completeness of the home economics course.

Under this last heading came the opportunity to profit by viewing a film at the Grand Theater. The Hürst brothers, who advertise in the "Sagebrush" very kindly ran a film Saturday morning entitled "The Passing of the Broom." The picture contrasted the variety of labor-saving devices that men use daily in their offices with the dust-raising broom and inefficient cleaning equipment with which women struggle. The film included demonstrations in the use of the best modern labor-saving devices that can be used easily, quickly and effectively in the home.

REGENTS BIENNIAL REPORT APPEARS

President's Report Calls for the First Units of a Heavy Building Program

President Clark in his biennial report has outlined his future building program and made his requests for the coming two years. The plan calls for many new buildings in the next few years and for two to be begun soon. The section of the report here follows:

"All signs point to the likelihood of an unusually heavy enrollment for the University year beginning September, 1919. In the intervening months every preparation should be made to make the University fit in instructional personnel and in buildings and equipment to discharge its full duties to the state. Specifically this means:

First—That the whole plant should be put in good repair.

Second—That needed additions to departmental equipment should be made.

Third—That the salary budget should cover not only the present salaries of all now on the active instructional list and of all those who are to return from their leaves of absence for the duration of the war, but it should cover the salaries of additional instructors if the University is to answer the call steadily to widen its service.

Fourth—That the salary budget must also, in barest justice, be ample to enable the Board of Regents appreciably to raise the standard of instructional pay.

Fifth—That special appropriations should be made for at least one new building and that conditional appropriations should be made for buildings for mining experimentation and for engineering experimentation.

Sixth—That arrangements should be made as soon as possible to take advantage of the Smith-Hughes Federal Fund and place such secondary mining schools as may be maintained in the state, under city or county high schools, thus relieving the Board of Regents and placing this important secondary development under the proper local auspices.

Something has been said earlier in this report on each of the first four propositions above. The sixth proposition does not need further amplification in this brief report. It is proper here that the fifth proposition should be briefly discussed.

The University stands greatly in need of a new general science hall; its important Departments of Chemistry and of Physics are wholly inadequately housed. It needs a new Library Building. In modern University life the library is the essential laboratory for many of the departments, and has supplemental laboratory value for all departments. This building should, therefore, be one of the largest and best appointed buildings on the Campus. The present Library Building is at the best a cramped makeshift. The University needs a new college hall. The Departments of the College of Arts and Science should have such a hall in place of Stewart Hall, which has served so long and so well that it is entitled to an honorable discharge. The University imperatively needs a new Administration Building with a great auditorium and lesser lecture halls. There is at present no place on the Campus where students and citizens in any number can foregather, except in the gymnasium. The social life and much of the broader cultural life of any University revolve about a rightly appointed auditorium. If a new gymnasium is not to be built, at least the old one, so redolent of memories of alumni sacrifice and service and of University victories, must

(Continued on page 3)

R. O. T. C. OFFERS LARGER INDUCEMENTS

The Revived Organization Makes a Stronger Bid for Members

The R. O. T. C. is making a stronger bid for members of both upper and lower divisions. As an inducement to upper division men they "Expect to allow full and liberal credit towards advanced standing in the R. O. T. C. for all forms of active military service."

In the Senior Division each man will receive (actual cost value):

1 coat wool O. D.	\$ 9.79
1 breeches wool O. D.	6.32
1 shoes russet or marching	4.65
1 shirt wool O. D.	3.50
1 overcoat O. D. short	13.56
1 leggins pair canvas	1.05
1 hat service	2.00
2 collar ornaments	.07
1 hat cord	.09
1 belt	.23
Chevrons	.57

Per Year \$41.83

Additional for those attending summer camp:

2 breeches cotton O. D.	\$ 3.38
1 shoes russet or marching	4.65
1 shirt wool O. D.	3.50
1 leggins pair canvas	1.05
1 hat additional	2.00
1 hat cord	.09

\$14.67

Each man will receive in four years, property valued at

4x\$41.83 \$167.32

Each man will receive in three summers property valued at

3x\$14.07 44.01

Each man recommended will receive commutation of subsistence, two years, or 590 days, at 40c per day

236.00

Each man may receive commutation of subsistence in kind (not paid in cash) three summers, 135 days at 40c per day

54.00

Transportation average 1000 miles per summer, or 3000 miles for three summers at 4c

120.00

\$621.33

Average for each of the four years in university course

135.33

Besides the items mentioned above, equipment issued for each student amounts to at least

50.00

The privilege of buying extra uniform at the above mentioned prices from the Quartermaster Department, which will have an additional saving value to those who take advantage of it.

The privilege of special technical training in various fields without any tuition charges.

An opportunity to obtain a commission as second lieutenant of the regular army for a period not exceeding six months, with allowances for that grade, and with pay at the rate of \$100.00 per month.

The members of Junior Division are on the same basis in respect to the above items as the Senior Division, except that no commutation of subsistence, other than in the summer, will be granted. However, credit will be given for work done in the Junior Division toward advanced military standing so that a member of the Junior Division who has done substantially the same work as that given for the first two years of the Senior Division may be given advanced standing which will entitle him to commutation of subsistence the first year he enters college.

POP BOTTLE SAYS

"Many a feller that knows the geography of the world can't tell you the streets in his own town."

A. S. U. N. IS STRONG FOR ATHLETICS

Students Decide That Life of Athletics Depend on a Coach

One of the peppiest A. S. U. N. meetings pulled off this year was held Friday morning in the Aggie building.

Before the meeting was called to order Dean Knight made a few remarks about the new chairs being decorated with initials. He asked that the practice be discontinued as the chairs look better unadorned. He also announced that there would be a movie on Modern Housekeeping Methods and urged all the girls to attend.

After the meeting was called to order the report of the constitution committee was heard and approved.

"Deacon" brought up a plan whereby the enrollment of U. N. could be greatly increased. He favored sending pamphlets and personal letters to all students eligible for college. There was great discussion as to whether the plans be limited to pamphlets and so it was decided to have a committee interview the president and find out what he thought of the matter.

The next subject introduced concerned athletics. Brow Gooding gave the report of the committee which spoke to the president and said that the president was in favor of a physical director, who could make coaching a secondary matter. This was very unfavorably received, and several men spoke of the necessity of a good football coach. Lieut. Malone was asked to express his views and said that, in his opinion, anyone could be a physical director, but what U. N. needs is a good coach. He spoke of several men who might be secured and of the necessity of getting a good coach immediately. He looks for a large enrollment of men next year and there will probably be good athletes among them. He said the boys should decide whether they wanted to play high schools or college and that the worth of a college was determined by its athletics.

After some more discussion it was decided to have a committee interview the president and try to get a football coach immediately.

After a little more discussion on various topics the meeting adjourned at 12:10.

NO NOVELTY

"History repeats itself—" began the purveyor of pithless platitudes.

"So do all the rest of the bores!" snarled old Festus Pester.

THE FIRST GAME

Santa Clara College sends her crack basketball team to Nevada next Saturday to meet us in our first league game. The visitors have had more or less experience with college teams this year and will be in shape for a hard game. This is not the case with Nevada and we stand a real chance of spoiling our record of ten years playing without defeat on the home floor by a university. The team will do what it can but you students of Nevada must do your part also. Remember that at any time the game hangs in the balance the rooting section can do as much as the team in turning the tide for the U. of N. and a lack of spirit on the part of the rooting section will have a corresponding effect on the team. Come out and show that you want the team to win.

AN APPEAL FOR WOMEN TO TAKE UP NURSING

January 23, 1919.

To the Editor:

In these times of new opportunity for the reconstruction of our social life, the desire is called forth in everyone to contribute strength and talent to the future of the country. It is safe to say that no young woman is following her college work this year without considering for what service she is preparing herself, and for this reason I am venturing to lay before you the demand in reconstruction programs for many more public health nurses in the hope that you will feel you can present the situation to the students in your college.

Secretary of Labor Wilson stated recently "Labor's reconstruction program must include a carefully formulated plan for repairing the physical waste and destruction of war by the conservation and renewal of national health. Public health nurses enter into such a program in many ways, in industrial, visiting and infant welfare service. To bring to every worker in our country this skilled care many more public health nurses must be put to work in the community."

The United States Public Health Service is planning a development of its work which, according to Surgeon General Rupert Blue, will call for at least one nurse in every county.

To meet these demands there were at the beginning of the war six thousand public health nurses in this country, a number that has been decreased by war service. Yet, because the demand expresses a need of the people, a part of the effort toward a more perfect democracy, it must be met. The National Organization for Public

Health Nursing is doing two things to meet it.

To supply the immediate need as rapidly as possible, the organization has voted to raise a considerable fund of money for scholarships to be given to nurses leaving military service and to members of senior classes in hospital training schools, many of whom had pledged themselves to enter war service, to enable them to take post-graduate courses in public health work and enter at once this new field of national service.

To ensure a supply of nurses for the future, the National Organization, in co-operation with the National League of Nursing Education, is urging the revision of training courses in hospitals, in order to make room for public health work and to give credit for preparatory courses taken in colleges and universities.

The profession offers as much as it demands. It holds high adventure for those who follow it, often the lure of pioneering. It offers a position of influence in the community, and the opportunity for advancement. So quickly is the recognition of her importance growing in the public mind that the public health nurse promises soon to become a public official of the state.

It is, in short, a profession for the college-trained woman, and therefore we appeal to college students.

Very sincerely yours,
 ELLA PHILLIPS CRANDALL,
 Executive Secretary, National Organization for Public Health Nursing.

Breath is the most useful thing in the long run.

OUR COLLEGE CONTEMPORARIES

Chicago—The 1919 Prom at the University of Chicago will be held on the traditional date, February 21, but the affair is to be given off the campus for the first time in its history. The committee has just drawn up plans and the function will be given at the South Shore Country Club, instead of in the gymnasium, where the decoration had to necessarily entail much expense, if decorated at all suitable for the occasion.

Minnesota—The authorities of the University of Minnesota have the right idea. Recently the entire freshman class was placed under a heavy barrage of ignominy by being compelled to take a special psychological test to determine if they were mentally all right or only "partially."

Zealous professors, armed with pamphlets containing mystic circles, squares and triangles, artistically arranged and a series of amazingly twisted and incomprehensible sentences invaded the "frosh" corps and vollied and thundered their goods right and left. Simple mathematical problems were also used to good effect. The results were placed on file but were not published as, doubtless, future freshmen might be discouraged.

Illinois—The University of Illinois has a memorial committee at work and the following are types of memorial which have been suggested:

1. Utilitarian, such as a building for the general social life of students.
2. Purely artistic, or a memorial which, as a work of art, would be a constant inspiration to the members of the University.
3. A combination of the two, such as a students' building of the general character of Memorial Hall at Harvard.

California—Business at the Associated Students' Store of the University of California for the first week of the semester was better this year than last in spite of fewer students attending the University this term. Sales for the week were \$1624.14 more than for the same week last year.

Utah—Unless plans go amiss, the Commerce and Finance department of the University of Utah will have something unique to offer its students next year in the line of an advertising laboratory.

The laboratory will consist of examples of every kind of advertising medium known in this country, Europe and Asia. The students will conduct experiments with the different mediums, and then a psychological test will be taken to ascertain the appealing qualities of the students' work.

S. A. T. C. ELIGIBLE FOR \$50 BONUS

"As I understand the proposed amendment to the war revenue bill," said Capt. Henry G. Sebastian, R. O. T. C. commandant of the University of Illinois, "all enlisted men discharged since December 15 will receive a \$50 bonus and according to official papers which I have been reading the men who were in the S. A. T. C. are eligible to receive the bonus if they were discharged after the given date.

An amendment to the war revenue bill providing for the payment of a bonus of \$50 to enlisted men and nurses and \$200 to officers of the army, navy and marine corps upon their discharge from service, which was agreed upon by the senate and house conferences brought forth this statement from Captain Sebastian.

As the local S. A. T. C. was not disbanded until after December 15 the above will apply to men of the U. of N. section if it passes in its present form.

IN FLANDERS' FIELDS

In Flanders' fields the cannon boom
 And fitful flashes light the gloom,
 While up above, like eagles, fly
 The fierce destroyers of the sky;
 With stains the earth wherein you lie
 Is redder than the poppy bloom,
 In Flanders' fields.
 Sleep on, ye brave. The shrieking
 shell
 The quaking trench, the startled yell,
 The fury of the battle hell
 Shall wake you not, for all is well.
 Sleep peacefully, for all is well.
 Your flaming torch aloft we bear,
 With burning heart an oath we swear
 To keep the faith, to fight it thru,
 To crush the foe or sleep with you
 In Flanders' fields.

—C. B. Galbreath.

ON HIS FURLOUGH

A third grade teacher who was making an earnest effort to familiarize her class with military terms, was surprised when on asking what a furlough was, to receive this startling answer from a small girl:

"A furlough is a donkey."
 "Why, how did you ever get an idea like that in your head?" he inquired.
 "Because it says so in a book at home," was the answer.

Obedying the request to bring the book to school with her the next day, the little girl triumphantly turned to a picture of a soldier seated on a donkey, under which was printed: "Going home on his furlough."

STAGED IN AMERICA, 192—

She: Am I the first girl you ever kissed?

He: Gosh! no. Wasn't I in France the day the armistice was signed?

(Continued from page 1)

be thoroughly overhauled and equipped, and provisions must be made for a swimming pool and for more outdoor sport opportunities. There should be a new building for teacher training. There should be a new building for the Civil Engineering School. There should be buildings provided for mining experimentation and for engineering experimentation.

This is an ambitious and an expensive building program to contemplate, but every building mentioned above must be provided within the coming eight or ten years if the University is to be given opportunity to discharge its full duty to the people of the state.

Pressing and important as are all the building needs mentioned above, it is probably impossible for even this generous state to meet all these needs at one time. Therefore it is that I urge particularly appropriation by this legislature for the construction of one building only, and for conditional appropriations for mining and for engineering experimentation buildings. If the coming legislature will provide the University with a new building for a College of Teacher Training and will conditionally grant appropriations to house an Engineering Experiment Station and a Mining Experiment Station, it will, in two of the most important lines of the University's service possibilities, have made the University ready to do its full duty by the state in the new era and in the trying years of reconstruction which have already begun.

It is my judgment that the immediate building program to be financed by direct appropriations of state funds should include, then:

First—A building for the training of teachers;

Second—The conditional grant of appropriations for the housing of an Engineering Experiment Station and of a Mining Experiment Station in the likely case that the Federal Government will pledge funds to finance such stations in the University.

Negotiations have been under way with Washington authorities which may result in an offer of federal funds liberally to support a Mining Experiment Station at the University. Such a station would give added national significance to the University and, at the same time, would prepare the University to do important work for the Nevada mining industry. I, therefore, recommend that the legislature appropriate ample funds to build an adequate Mining Experiment Building, conditioning the appropriation upon the grant of federal funds permanently to finance such experimentation.

**SEVEN MEN FROM THE
SERVICE SHOW UP ON
THE UNIVERSITY HILL**

Last Week Saw Seven Old Nevadans Return to the Campus Either for Registration of a Visit

George Malone '18, is the first man to arrive from overseas. Mollie gained a commission in the artillery and though he spent considerable time in France he didn't get the joy of throwing a few over before the armistice was signed. Malone will probably register.

Ensigns O'Rourke '20 and Wilford '17 came up from San Francisco for the week-end. Pat spent seven weeks of service on the Atlantic but now has his discharge and is on his way home while Ted is returning and expects orders to sail soon.

Chet Greenwood '18 and Robert McPherson '19 showed up and expect to register soon. Both have gotten their discharges. Mac was radio instructor at the University of California and Chet was a flying instructor at Ellington Field, Houston, Texas.

Kay McKenzie '19 has registered and is again a student. He has been attending the naval officers' school at San Pedro for some time but now has his discharge.

Hecox ex-'17, was on the hill for a day on his way to Tonopah. He has been at Camp Lewis for some time where he was band sergeant.

"England must resign herself to carrying Ireland on her shoulders for many a long year," declares a politician. This is the wrong kind of a Pat on the back.

Monday evening the Tri Delta Alliance was charmingly entertained by Mrs. Ben Cardinal at the home of her parents where the evening arrangements were made emblematic of St. Valentine's day. The rooms were strung with red hearts and pretty vases of red carnations completed the decorations. In the center of the table was a basket of flowers and dainty refreshments were served. The members are Mrs. L. L. Gilcrease, Miss Nan Coon, Miss Eva Hibbard, Mrs. J. G. Serugham, Mrs. Leslie Johnson, Mrs. Amos McKinley, Mrs. James Nyswander, Mrs. R. Meeker, Mrs. Bernice James, Miss Josephine Williams, Miss Mildred Bray, Miss Edith Harris, Miss Souchereau, and Miss Mila Coffin.

DELTA DELTA DELTA

The pledges of Tri-Delta fraternity entertained the active members and the Alliance with a most delightful party at the home of Mrs. Elda Gilcrease Monday evening.

After the business meeting the active members adjourned to the big sitting room where chairs were arranged in rows resembling a theater. Curtains separated the stage from the enthusiastic audience and after giving out the "pine-tree" programs the pledges produced an amusing and instructive show. After the show eats were served which were beyond description by mere words and after singing songs the members trudged home through the rain, feeling that in spite of the inclement weather, the party had been well worth venturing out for.

* * *

Mrs. Adele Bender, wife of Ensign Edwin Bender, is visiting her father and mother, Judge and Mrs. Frank Norcross, in Reno for a month. She is welcomed by her many friends on the "Hill."

MANZANITA NOTES

At the regular house meeting last Thursday it was decided to have a Manzanita scrap book. In this book will be kept records of all important events in the history of the Hill and pictures of all the Manzanita girls—snapshots taken on hikes, picnics, at games, etc.

Manzanita girls believe that if everyone takes as much pains about their looks when they go to be snapped for the Artemisia as the girls here do, the photographs will be a great success. Every day someone wants to know "What shall I wear?" and "How shall I fix my hair?" or "Do you really think this will look all right?" "I take an awful picture anyway," "Oh no, you don't you're always adorable," and "Well, I can doll up a little when I get down there." We suggest that those who have not had pictures taken, ask anyone from Manzanita just what they shall wear and how they shall look. Manzanita Board of Censors is very strict but when once you have passed their eagle eyes you may be sure that your picture will be a success.

BLOCK N SOCIETY

The Block N Society held their first meeting of the year Thursday night to elect officers for the balance of the year. Alec McKenzie was made president; Noble Waite, vice-president; Bill Martin, secretary; Dick Bryan, treasurer; Ed Reed, sergeant-at-arms.

The matter of giving the regular Block N. dances after the basketball games was discussed and it was decided to continue the custom. The first dance will be in the gym after the Santa Clara game.

**PARGELLIS IS DISCHARGED
AND HOLDS FORTH IN TOLEDO**

Stanley Pargellis writes that he has been discharged from the army and is now engaged in holding down a desk job with the Willys-Knight Company at Toledo, Ohio. He asks that his "Sagebrush" be sent to him so that he may keep in touch with college affairs and wishes he were back at the University once more. Stanley graduated with the class of 1918.

Mr. Justwed—This soup seems very thin. What did you use for stock?
His Bride—Why, you see, Mr. Hoover advises us to use the water food has been boiled in, so I used the broth from the boiled eggs.—Mich. Technic.

CLIONIA MEETS

Professor Turner Is Re-elected as Faculty Advisor

Last Thursday Clionia held its second regular meeting in room 201 Stewart Hall. The meeting was rather short on account of the basketball game, nevertheless, a good deal of business was transacted.

The organization is increasing in popularity as is shown by the steady increase in membership. The newest recruits are: Emily Burke, Adele Armstrong and Ira Redfern.

Professor Turner, one of the founders and an ardent worker of the society, was re-elected faculty adviser. Professor Turner's suggestion that a few moments of each meeting be devoted to the study of parliamentary law was met with great favor and readily accepted.

The committee on selecting a subject for the inter-class debates reported on three propositions. After considerable discussion the following was selected: Resolved that the Federal Government should own and control the railroads.

From the interest that is being taken these inter-class debates promise to be lively affairs. The debates are open to any one, whether or not they are members of the Clionia. Several attractive prizes are being offered, ten dollars going to the winning team, and ten dollars to the best speaker in the series of debates.

The Sophomore and Freshmen try-outs will be held at the next regular meeting. Every one interested in debating is requested to be there.

The past few days have surely brought forth bad weather for the Kat to be out but nevertheless our worthy feline cannot be outdone by the many owls which seem to be inhabiting these parts of late. It is rumored that the Mecca and the Grand have been the scenes of several little week-end parties of late.

If the demure little miss could only have seen her Harold.

Young Harker appeared very loath to leave his fair one at the game Saturday night—from what the Kat has experienced in the line of wet weather it believes that further hesitating might have dampened his spirits and cooled his passions.

The Kampus Kat wishes to notify all blackmailees that it will avail naught to send an infernal machine as all mail is opened by the editor first.

The following earfull was heard at the student body meeting Friday: "I ain't gonna sell no tickets for a lossin' team. We gotta get out an' do some ruttin if we're gonna have a win-in' team." It is advised that this Senior consult Prof. Hill.

The Kat thinks that Deacon's new method for enlarging the student body will require some little revision.

Red seems to be having a hard time with his harem for he is reported to have said: "I'm afraid if I eat at that table much longer I'll never get married."

Our friends "Tiny" Eden and "Nels" Carlson are said to have become most ardent rivals. The truth of the fact seemed to manifest itself on the eve of the departure of the Y. W. C. A. convention delegates for 'tis said that boxes of candy were plentiful. What's more, the size box that "Tiny" bestowed appears to have won the day for it was in keeping with his stature.

ENGINEERS' CLUB PLANS A GET-TOGETHER SMOKER

A short meeting of the Engineers' Club was held last Thursday to make arrangements for the first regular meeting of the year. It was decided to give a smoker some time within the next few weeks, at which outside engineers could be present and get in touch with what the University engineers are doing. While no definite plans for the smoker have been made as yet, however, the committee promises a big time, with lots going on besides smoke and hot air. Date and details will come later.

DATE OF FROSH

GLEE IS CHANGED

Babies Decide on March 21 as Date of the Big Dance

A special meeting of the class of '22 was held in Morrill Hall on Thursday, February 6, 1919. The class chose their class colors which are blue and gold. The date of the Freshman Glee was changed to March 21 and the dance is to be formal for ladies and informal for men. It will be held in the Wilsonian Hall.

KANSAS CITY SCHOOL MAKES THRIFT STAMP RECORD

During 1919 the Benton Ward School of Kansas City, Mo., with an enrollment of about a thousand, subscribed \$51,756.50 worth of War Savings Stamps, a per capita record which it is believed, eclipses the 1918 record of any primary school, college or university in the United States.

Information reaching the savings division of the treasury department daily from schools and other educational institutions throughout the country indicates that these institutions are co-operating heartily with the government in pushing through 1919 the sale of War Savings and Thrift Stamps.

ISABELLE SLAVIN SUFFERS MISFORTUNE IN LABORATORY

Last Tuesday, while attempting to light a gas oven which had been turned on some time, Isabelle Slavin was burned severely by the explosion

MILITARY BARRACKS TO REMAIN ON THE CAMPUS

Bids Offered For The Building Do Not Equal Its Value To The School and It Will Not Be Sold

The military barracks on which the University spent \$15,000 will remain as a part of the University property. Bids were advertised for a short time ago but nothing was submitted which more than equalled its value to the

school. The barracks are not in shape at this time to be put to much use but with some changes it can serve as an overflow for the different branches of school work while new buildings are being erected.

of the gas. Both her eyes were burned and as she fell she struck a bench, cutting a gash under her right eye. Although no permanent injury will result, it is necessary for her to keep her eyes bandaged for several days yet. It is hoped that she will be able to resume her studies within the next week.

REAL BAIT

Officer—So you captured a thousand Germans by just calling across No Man's Land. What did you do—promise them a square deal if they surrendered?

Yankee Private—No; I promised them a square meal.—Life.
