THE STUDENT NEWSPAPER OF THE UNIVERSITY OF NEVADA

VOL. XXVII.

UNIVERSITY OF NEVADA—RENO NEVADA, THURSDAY, APRIL 29, 1920

No. 32

## DUAL MEET ON SATURDAY

### A.S.U.N. ELECTS NEW OFFICERS

RECORD VOTE CAST IN BIG ANNUAL ELECTION FOR NEXT YEAR'S STUDENT BODY OFFICIALS

One of the largest and most hotly contested student body elections in the history of the university was held last Friday, and the officers for the coming year were elected. Out of a total of 295 students registered in the various courses, 255 cast their ballots, slightly over 86 per cent, and a far higher percentage of student votes being cast than in the other elections held this year.

Four offices were not contested, those of Treasurer, Men's Athletic Manager, Assistant Editor of Sagebrush and Assistant Business Manager of Sagebrush. Six of the other offices had two aspirants each, and one, that of Secretary, had three candidates.

The big office of the election, that of A. S. U. N. president was won by Dick Bryan by 119 votes, over Earl Wooster. According to a student body ruling, the defeated candidate for president, automatically becomes vice-president, and therefore Earl Wooster will fill this office the coming year. Both men have been prominent in student body affairs for years past, have held important offices, and should make the best of student body officers. The race for Secretary, between Gladys Dunkle, Helen Fuss and Thelma Braun was won by Gladys Dunkle by 88 votes over Helen Fuss who ran second. The office of Treasurer was won by Ernest Harker with no opposition, as was that of Men's Athletic Manager which was won by Coach Courtright. Hallie Organ defeated Lavina Shields for Women's Athletic Manager by 93 votes, and Ray Law, for the office of Assistant Editor of Sagebrush and Homer Johnson for that of Assistant Business Manager of the Sagebrush, were both unopposed. For the Editor of Artemisia, George Egan defeated Enola Badger by 48 votes. The Business Manager of Artemisia victory was won by Hugo Quilici over Bob Griffith by 16 votes and was the second closest race of the election. John Harrison defeated Jack Heward as Sophomore Representative for the executive committee by 46 votes.

The closest race of the election was that of Junior Representative and was (Continued on page eight)

### JUNIORS WIN CLASS MEET

The much heralded interclass track meet has been postponed from day to day ever since Mackay Day, was finally pulled off last Saturday afternoon and the Juniors ran true to the dope and won the meet handily with a total of sixty-six points. The Frosh were runners up with forty-one points while the Sophomores managed to gather sixteen points. Joe Hill and Al Reed, the lone representatives of the class of '20 accounted for twelve points between them and left the Seniors in fourth place.

The feature of the meet was undoubtedly the two mile race in which Perl Decker again broke the record in this event, this time by six seconds. Noble Waite was right behind him and he also ran under the record. However, as the conditions of this race were identical with those under which George Ogilvie broke the same record by seventeen seconds in 1917 it probably will not be granted officially.

Jimmy Bradshaw again demonstrated his right to the title of being the best all around athlete in college when he came out as high point man of the meet with firsts in the hundred, two twenty, and broad jump, second in the quarter and also one and a quarter points by virtue of being on the winning relay team. His total was nineteen and one-quarter points. Tom Buckman, captain of this year's varsity ran him a close second with firsts in the high jump, shot put and discus throw.

Hancock played in tough luck, and should have had a first in the low hurdles had he not fallen. He was far ahead of the field and stood a good chance of running under the record. Although the time in the quarter was comparatively slow Skip Hammond, (Continued on Page Six)

### THREE SIXES CAN BEAT PAIR SIXES

Senior Play "Officer 666" to Be Staged Saturday, May 8th, at the Rialto

Those students who want to see the outgoing Seniors in action and hear them speak for the last time (in Reno) had better begin to think about it. When they realize that those few who are going to thrust themselves upon their classes and have but a few examinations yet to take. They are spending their time now getting out the Senior Farce, which in reality, is not a farce at all. This year they are placing before the University and the rest of the world, a very well known and much liked comedy, "Officer 666". Little need be said about this play, except that it is going to be worth going a long way to see.

One of the leading features of the comedy comes forth in the person of Andrew Jackson Aikens, erstwhile president of the student body, all done up in a set of doll clothes acting the part of a gentleman "Raffles". John Belford, of tin soldier fame, wins the heart of his audience, as well as that of his lady by his effective manner of telling the old, old story.

Kenyon Olmstead and Al Cahlan put on the original "rough neck" stunt of the occasion, engaging in a "catch as catch can" wrestling match, wherein the hero is forcibly placed on the table and held until the brave captain comes to the rescue and allows him to regain his dignity again.

Can you girls imagine having a man's arms padlocked around you just as Auntie appears on the scene? What would you do? What would you say? But then, why let out all the thrills? Remember the date, May 8th, and the place, the Rialto Theatre, and come and see the big finale. It's bound to "get by."

### CARNIVAL IS BIG SUCCESS

WOMEN'S ATHLETIC SECTION AND GOTHIC N SCORE BIG SUCCESS WITH NOTABLE FEATURES

The carnival given jointly by the Gothic "N" and Women's Athletic Section and for the purpose of raising money for awards to the women athletes took place last Saturday night and turned out to be a huge success, socially and financially. The gym, which was decorated in regular carnival style, with booths hidden behind screens, flags and streamers soon began to fill up with students, faculty and town people, and in a very short time the place was in an uproar of laughter, music and barkers' voices. Many were the barkers, and the voices displayed by them would have done credit to a top sergeant in the regulars or perhaps an old sea captain. They were all good, from Frosh Harrison in his loud clothes to Caffrey with his musical voice and from Adele Armstrong, and her leather lungs to Geo. Smolak with his blatant bray, disrupting the atmosphere with his candy paddles. The Carnival was a huge success from start to finish, and those who came to visit only, stayed, spent their money, had a good time and, of course, went home broke. Many were the sells, and many a student spent far more than the cost of a box of candy for the pleasure of drawing the lucky paddle which won the two pound box of chocolates.

To a person first entering the gym, everything seemed to be in confusion, but as he got used to the racket he began to look around and take in the whole show. As the visitor entered the door he was met by Louise Meyer and his bunch of ruffians with the "For Men Only" stunt which still is clouded in mystery to everyone who did not bite. Next came Lincoln Hall's concession, the roulette wheel, Joe Hill of Susanville officiating. Each time the big wheel whirled, someone won a box of chocolates. No small packages, either, but big two-pound boxes. There was no sell to this, it was the (Continued on Page 2)

### HI TRACKSTERS MEET MAY 7-8

High School Students to Compete Here in Track, Tennis and Declamation Next Week

After a lapse of three years the Nevada Interscholastic League will again resume its annual events on May 7 and 8. The events will be Boys' Declamation contest Friday morning, preliminary track and tennis Friday afternoon, girls' Declamation contest Friday night, principals' meeting and tennis finals Saturday morning, and track finals Saturday afternoon. The Principals will have a get together meeting at a dinner in the Domestic Science rooms Friday evening. The city council has turned over the city tennis courts for the exclusive use of the tennis contestants on Friday afternoon and Saturday morning.

The entries are nearly all in and the meet promises to be the most successful ever held at the University of Nevada. The High School basketball tournament in March was so successful that a new enthusiasm was created in the high schools of the state for athletics.

All the organizations on the Hill are joining heartily in helping make the coming meet a complete success. It is planned that the contestants will not see a dull moment while in Reno. The Seniors have skillfully agreed to admit all the contestants to their play on Saturday night and before the curtain the medals and prizes will be given to the various winners.

### COFFIN AND KEYS ELECTS

SIX STUDENTS CHOSEN BY MEN'S UPPERCLASS HONOR SOCIETY STAGE ANNUAL RUNNING WITH BIG SUCCESS

Last Friday morning the campus was enlivened by the stunts put on by the newly elected member of the Coffin and Keys. About 10 o'clock an ancient mule drawing an even more ancient wagon appeared, being driven by a real old son of the sod, who proved to be Ray Bryan, hiding behind a hair mattress. Fat Harker hid his spacious form behind a gaudy Indian blanket, and made an ideal Indian squaw, with John Douglas appearing as the blind buck, he and Harker riding about with Farmer Bryan in the agricultural limousine. Bill Martin made a large splash when he appeared as a young boulevardier, attired in spotless white trousers, gray coat, silk shirt, and hectic sox. He added to the general excitement by taking various young ladies by the arm and escorting them to their classes, thereby breaking his lifelong habit of total abstinence from all women. "Tiny" Fairchild stalked about the campus bearing a large placard "Unfair to Organized Queeners," the idea being that by persistent picketing the faculty may be forced to accede to the demands of the chronic queeners. Eddie Reed was undoubtedly the hit of the day as the Hebrew peddler. He had the old line going with all its variations, and as the admiring co-eds crowded around the Senior bench to watch his work, he expanded like a flower in the sunshine and outdid himself. He carried a battered suit case, from which he exhumed everything from articles of women's clothing to "something for the children" and edibles in the shape of dried fish. After the crowd of the campus public had been sufficiently amused, (Continued on page eight)

### REGENTS SELECT NEW PROFESSORS

Dean of Agricultural College and Mechanical Department Head Are Chosen This Week

Dr. Robert Stewart, for the past five years, professor and head of the Department of Soils Fertility at the University of Illinois, has been secured as Dean of the College of Engineering, to succeed Dean Charles Knight who resigned some time ago to take the position of secretary of the Reno Chamber of Commerce. Dr. Stewart is a western man, and is thoroughly familiar with the agricultural situation of the inter-mountain section, being considered quite an authority and one of the foremost soil experts of the country. He will arrive in Reno about July 1.

Dr. Stewart is a graduate of the Utah Agricultural College, taking his B. S. in 1902. He took post graduate work in the University of Chicago and in the University of Illinois, taking a Ph. D. in agriculture there in 1909. For three years he was assistant chemist in the Utah Experiment Station, after which he became Assistant Professor. (Continued on Page Eight)

### FRESHMAN TENNIS TEAM BEATS SOPHS

In the women's interclass tennis tournament now under way, the Freshman team, consisting of Erma Hoskins and Mary Steninger, won the first contest when they defeated the Sophomore team on the city courts last week by scores of 6-4, 2-6, 6-2. The second year team was composed of Norma Brown and Ethel Steinheimer. The Frosh team will probably meet the Junior representatives, Hallie Organ and Helen Fuss, in the championship match this week for the class title.

### DAVIS AGGIES MEET NEVADA

LITTLE IS KNOWN OF CALIFORNIA CINDER ARTISTS WHO WILL PERFORM ON MACKAY FIELD.

Next Saturday Nevada's varsity track team will stage their first and only meet of the year when the Silver and Blue speedsters meet the athletes from California University Farm. This will be the only event in track this year as the five cornered meet which was to have been held at Berkeley was called off due to lack of entries. According to all the dope Nevada should win the meet and there is a good chance that a few university records will go. As this is the first and only athletic event to be held on the Hill this spring a good crowd is expected providing the god of weather smiles upon our fair campus.

Little is known of the strength of the Davis team except that they were badly beaten by the U. C. Frosh a couple of weeks ago although it was stated at the time that several of their star men failed to show up at the Berkeley oval to compete. However, this may be the chances are exceedingly bright that Nevada will send the farmers home beaten for the third time this year. The material as it showed up last Saturday at the interclass meet was excellent considering the fact that there has been no track season since the spring of 1916. Two new men have hshowed up this week and should add quite a little strength to the Varsity in their events. Fenana Lowrie is again attempting to show some class in the hundred and should make the Davis boys step to beat him. Welty, who up to this time has been unable to get out, stepped on the track Monday and has been grinding away all week in the hope that he may be able to get into condition in time to make the meet. If he can make it he will add a world of strength to that department and Nevada should take all three places in this event. Decker should be good for first in the two-mile, with a good chance that Waite will be good for third and possibly second. Here we should see the university record go for sure, as there will undoubtedly be three stop watches on him.

There is an exceedingly good chance that "Runt" Hancock will lower the mark in the low hurdles and the entire (Continued on Page Eight)

### CARNIVAL IS BIG SUCCESS

(Continued from page one)

real stuff, and in a short time a messenger had to be dispatched for more candy with which to keep the concession going. Next to the roulette wheel was the tent of Fatima, that shimmie artist of the orient, and in charge of the girls from Manzanita, who also sold ice-cream cones and sandwiches to the hungry ones. Next came the S. A. E. "Egyptian Wonder" concession. Here on a stage and behind the filmy screens appeared three Egyptian girls, Gardner, Middleton and Lar Rieu, in common life. These Egyptian girls dressed in the costume of the Turkish Harem danced and shimmied to the endless glee of the on-looker while Bogart in his costume of a wicked looking Turk or Arab furnished the wierd music for the dance. Here also, were to be seen the Pyramids; two relics of ancient Egypt, an Egyptian can and a bottle of Egyptian Ha Ha water bottled in bond, together with a recently discovered Ichtheosaur or amphibian of the early Jurassic age of Egypt. In another corner the D. K. T.'s sold flowers, confetti and serpentine, all of which added to the merriment of the evening. In other corner the Tri-Delts had a Japanese Tea Garden with Japanese Girls costumed in many colored Japanese P. J.'s, who besides serving tea and wafers to the hungry and thirsty, danced, smiled and vamped the onlookers. Another feature of this concession was a Hop-Head who silently reposed in a corner of the garden. Then the I. O. A. O Fishpond where various articles were hooked from behind a high screen. Further along was the candy booth of the I. O. A. O. where the sweet tooth of the visitor was appeased. The Pi Phi Noah's Ark came next. Here the famous fortune teller held sway and showed you a photo of your future husband or wife, all included in the price of admission, 10 cents, the one-tenth part of a dollar, one dime. To be sure several mistakes were made and a man's picture given to the seeker for a wife, but that was merely one of the minor details. The immense boa constrictor turned out to be a huge angle worm in a glass of water, and the vicious whale, one of the Gow House fish. Here also the Pi Phi monkey was to be seen, peering out from behind a small curtain. Further on the Phi Sigs had their Hawaiian Village, where Hartung as the Hula dancer shook his wicked hip. Here also the Hermit Gang furnished the latest Hawaiian airs on their banjos and ukes while the Hula dancer put on her show. Here the celebrated "Man-Eating Fish" was in captivity, and it has been said that for once M. T. Smith got enough to eat. "For Men Only" in this concessions consisted of a pair of suspenders, and the "White Mule" consisted of an empty glass, in which there was no kick. Here also Tiny Fairchild held forth in "Seen Her Before." At one end of the gym, "Twisty" Layman as judge held his court. His bought and paid for jury consisted of Paul Harwood and Forrest Frost, who were dolled up in the regalia of a bowery couple. Policemen flitted hither and yon about the gym, arresting suspicious characters, shimmie artists, queeners, and everyone on some pretext or other. Woe to the man who, when he was arrested did not have the correct change, for if a dollar was the smallest change he had, that was the amount of his fine. Morris Badt learned this to the amusement of the crowd who watched his trial, as did many other innocents. In the gallery of the gym the faculty had their shooting gallery, so arranged that it was impossible for anyone to win the stogies offered as prizes. For this concession, Little Jeff Boardman acted as barker, while Prof. Charley and Jimmy Nyswander took charge of the guns. Maxie Adams and J. Claude Jones took their turns at changing targets and reporting scores and dodging the bullets of the co-eds who came up to shoot. On the north side of the ground floor was the huge sign "Sooner." Now Sooner was good, he always is. After being conducted before a heavily guarded cage, the spectator was brought face to face with Sooner, a terrible denizen of the forests of Africa. Heavily chained, rolling his head from side to side, and mitting terrific roars of anguish he was a sight worth far more to see than the small pittance charged for admission. Rex Turner is now famous, and "Sooner" he will be till the present classes have graduated and departed from the U.

During the entire evening the Jimmy

Prof. Elliott Mitchell is back in the Hall after a long session in the hospital with the flu and various other ailments. Although he bears the signs of a hard spell of sickness, he says he thinks he will pull through now that the doctors are through with him for a while.

Judging from the smiles that Koehler is wearing and the oil stock nailed up on his wall, he must have had a lucky hunch and invested in the Fallon oil fields. We notice that he is following the oil reports pretty closely these days, with visions of being a capitalist in the near future.

It seems strange that we never hear Jock Aiken's phonograph any more since Lincoln Hall invested in one. Anyway, Jock is generous enough to bring his records down stairs once in a while and play them for our benefit.

Olmstead says he can stand the strain of leaving the Hall for good and leave everything behind except his bosom friend, Rex Turner. He says the parting will be so hard that he is trying to get Prof. Turner to give Rex to him for a graduation gift. Prof. still remains firm, saying that Rex shall never leave Lincoln Hall while he is in charge. And Rex doesn't care what becomes of him, so what's the difference.

Lawrence Quill says it wasn't so hard to win the box of apples at the track meet the other day, but that it is the hardest things in he world to keep his neighbors from eating them while he is away.

Last Monday night a certain gray Hudson car mysteriously disappeared from the drive in front of Lincoln Hall. When the owners came out and found their car gone, a search of the immediate vicinity, including the cemetery across the road, was made, and after some time the car was found standing by Manzanita Hall. The ladies who own the car are instituting a search to find out who took their car, and promise that the thieves will be prosecuted to the full extent of the law.

U. N.  
TRY THE MOVIES, DICK  
"How is it that I never see you at the theatre with Dick nowadays?"  
"Well, you see," replied Rose, "one evening it rained, and we sat in the parlor."  
"Yes?"  
"Well, ever since that we—oh, I don't know; but don't you think that theatres are an awful bore?"

U. N.  
THE POOR BIRDS  
Tommy to Mr. Siewert who is taking his phiz—"Yes, I would like a profile pose."  
Siewert—"Nothing doing today. I will have to take a bird's eye view of that nose."

U. N.  
Rhet. Prof.—"This sentence is all wrong. How could he drink in her loveliness?"  
Bright Stude—"Maybe he wore an eye-glass."

IMITATION  
The poor imitate the rich and get poorer; the rich imitate the poor and get richer.—Boston Transcript.

The Carnival is now a thing of the past, and while smaller than the famed Belle Isle Carnival of several years ago was fully as gay and hilarious a celebration. Nearly everyone was there and those who did not come missed the time of their lives. The women made the money they needed and everyone had a glorious, large time. Something over \$200 was taken in, and while there was considerable expense, sufficient money was cleaned up to cover all awards to the women athletes of the university. The Carnival is over, a huge success, financially and socially; the gym is once more cleaned up and the confetti swept out, but in years to come we may all think back and remember with a large smile, the carnival of 1920.

MORE FOOD LESS MONEY

Its Asilomar time again! Time to think of your vacation and of things not included in the course of study at college. What big things we get from college—all of us. But, in the big world away from here there lie many more things for us to learn about and to think about.

Asilomar! What big things that name calls up to the minds of all of those girls who have been lucky enough to attend a conference there or to those who have spent one whole summer there working as a "Stuck Up." It is simply wonderful! From the time you arrive on the little narrow gage train at the little out of the way station there are meetings, and meals and hikes and games and swims and sleep and parties and stunts and friendships filling up ten glorious days, days which are all too short at that little Y. W. C. A. camp beside the sea.

Girls you have never liked before, you learn to love there. Friendships, founded on true worth, rather than tinsel, make the days spent there the happiest of your life. Thought, which has scarcely held a place in the busy college days, finds time to crystallize as you lay on the sand dunes or sit watching the sun setting over the ocean. The biggest and the best of every one comes to the surface and enriches the life of the individual and all around her.

Come, all you Nevada girls, spend ten days of your vacation at Asilomar. Enrich your own life and bring back to old Nevada U. next fall all the biggest and the truest and the best that we may all grow and be of some service to all that we come in contact with.

Last week's Y. W. C. A. meeting was the Asilomar meeting. After some peppy Asilomar songs, the old Asilomar girls held a recruiting agency to inform all the girls about the why and the where of Asilomar. Margaret Barnes acted as the recruiting agent, assisted by other Asilomar delegates—Mildred Griswold, Lois Smythe, Anne Underwood, Helen Fuss and June Harriman.

Gladys Dunkle spoke about the wonderful Asilomar grounds and the "Spirit of Asilomar" which although far away still remains with all who have come in contact with it.

Y. W. C. A.

The last meeting of the Y. W. C. A. for this year was held Wednesday, April 28, at 4:30. Miss Gleason, who is doing settlement work in the Italian colonies of California, gave a very interesting talk on the opportunities which were open to college young women for all sorts of work, especially among the foreigners.

Helena Shade, who represented Nevada at the Cleveland convention, told of the convention and of some of the work done there. Membership in the Y. W. C. A. was voted to be on personal and not on church basis from now on.

A great deal of interest in the Industrial world was aroused and as the delegates consisted of women from the idle rich class as well as girls from the factories and shops, a more democratic feeling was created.

Nellie McWilliams rendered a selection on the piano.

U. N.

### A PASTORAL DREAM

Ah, fair one, with those dreamy eyes,  
That have the raven robbed  
Of all his darkened, mystic lustre,  
Heed now my sobs and sighs,  
Consider my plight  
This dreary night  
'Neath low'ring and blackening skies.

Why must I brave this threatening storm

That rumbling far away  
Comes closer to the near-at-hand,  
Foreboding grief and harm.  
Consider my plight

This dreary night  
And leave me to my fireside warm.  
She chews her cud with dainty jaw,  
As now I milk her, "saw cow, saw."

—JIGGITS & LESTER Inc.

U. N.

A burglar had entered a professor's house and was disturbed by the waking of the occupant of the room he was in. Drawing his revolver he said: "If you stir you are a dead man. I am hunting for money."

"Let me get up and strike a light," said the Urof, "and I will hunt with you."

### COMMUNICATED

The Sagebrush will publish communications on subjects of general interest when signed by the author, but does not necessarily foster any ideas expressed therein, and will not stand responsible for such ideas.

Editor of U. of N. Sagebrush:

I have noticed that at the dances given by the University Students and where the public was invited, there seems to be an unwritten law that all students must and will have their programs filled several days previous to the dance. For any of the faculty or citizens of the city that attend these dances there is no option left but to dance with their escorts or decorate the walls of the hall.

A short time ago a play was given in the city to bring the business interests and this institution into closer relationship. Can we accept their gratitude with a closed hand? (And it will continue to look as though we did not want their presence at our dances.) Several that I have spoken to in regard to this subject have said, "We always did it that way." A beautiful remark for a college man to make. If he carries his smallness through life I feel very sorry for him.

Therefore, at our next dance, why not wait until we arrive on the ball-room floor before filling our programs and show the citizens of the city we want their presence at our dances. Let us exemplify to them that we are gentlemen by the use of ball-room etiquette.

NEIL J. GILLIGAN.

To the Editor:

As the end of the semester and commencement draw near, the Seniors reflect with a touch of sadness that they must leave the old class and classmates behind, never more to return. Gentle reader, in dropping a tear at the parting of our noble Seniors, drop one also for that body of heroes, un-honored, unwept, unsung, the Sophomores (and others), who must also leave the old class, never to return. No, they are not graduating, but are being rudely thrust back home or more classes by the operation of the new student status rule. Many a husky throat that has barked the '22 yell will have to become accustomed to that of '23, for although the Class of '22 will pass across the boundary into the realms of upper class glory, its members remain behind.

"22."

### THE WAY OF LIFE (Dont Stutter)

I used to think I knew I knew  
But now I must confess,  
The more I know I know I know,  
I know I know the less.

U. N.

The young lady had been a great traveler in the West. "Been in California, Oregon, New Mexico and Duluth, I suppose," inquired the man. "Yes, indeed, I've seen most everything in the West," she vaunted. "Ever see the Cherokee Strip?" "N-no," with reddening face, "b-but they do almost."

### ABOUT SATURDAY'S MEET

Nevada meets Davis on the cinder path Saturday in the first inter-collegiate track meet the University has taken part in for a good many years. This branch of athletics is one in which the University has always shown up well, despite the handicaps of a short season and varying climatic conditions prevalent in this state, and though this will be the only meet for Nevada this spring, high hopes are held for a successful outcome.

The Silver and Blue has demonstrated its ability in all branches of sports this year, and will continue to do so just as long as the community and the University gives the proper support. There can be no criticism of the support given by the people of Reno and this state, who have shown in every way possible, their loyalty to this institution, and the same may be said of the University proper. However, unless the attendance at Saturday's meet exceeds by many fold that of the inter-class meet held last Saturday, there will be little encouragement for the track men participating to put forth any great effort in running up the points. The extremely poor showing last week in the number of spectators may have been due largely to the number of students busy in the gym preparing for the carnival, but it is hard to account for the majority of the missing ones. Outside interests seemed to have occupied most of their time.

If the students expect the Varsity to "come through," the Varsity has an equal right to expect the same of the students. Fill the bleachers and look happy and then watch the team smile.

They'll do it!

The big circus in town now has nothing on the Gothic N Carnival. It's a safe bet they have no attractions which will sell as well as the "Man-eating Fish," "Sooner," or the famous "Egyptian Ha Ha Water."

Start making plans for the big Interscholastic track meet which comes May 7 and 8. It is a big opportunity to boost the University of Nevada where it will do some good.

### EX-OFFICERS FOR REGULAR U. S. ARMY

The bill for the re-organization of the army which has just been passed by the House of Representatives, and is now being considered by the U. S. Senate, will undoubtedly create many vacancies, a proportion of which, by the terms of the law must be filled from those who held commissions as emergency officers during the war.

A copy of a circular from the War Department on appointments of officers to the regular has been received by Col. J. P. Ryan and is given below as it may be of interest to some of the students who held commissions during the war.

1. The War Department has on file a large number of approved applications submitted during demobilization, of officers who served during the emergency and who desire permanent appointment in the army under the provision of army re-organization legislation. No further action on the part of such applicants is necessary to insure consideration of their applications at the proper time.

2. Emergency officers or former emergency officers who have not now approved applications on file in the War Department and who desire to make applications, should do so with-

out delay. So much of paragraph 12, Circular No. 420, War Department, 1919 (Discharge of officers holding emergency commissions), and conflicts herewith is rescinded.

3. Applications will be submitted on Form 739, A. G. O., and for persons now in the military service will be forwarded to the Adjutant General of the army through military channels with recommendations. Applications of persons not in the military service will be mailed direct to the Adjutant General of the army.

4. Application blanks, Form No. 739, A. G. O., may be obtained upon request at the headquarters of any divisional camp, at the headquarters of each military department or from the Adjutant General of the army.

By order of the Secretary of War:  
**PEYTON C. MARCH,**  
General, Chief of Staff.

Forms for application may be obtained from the Military Department, University of Nevada.

—U. N.—

Scene: Lower Broadway after dark; a Salvation Army leader exhorting his audience; a Tank nearly Full nearby.

T. N. F.—Wash doin', ol' fella?

S. A. L.—My good man, I'm savin' women! Hallelujah!

T. N. F.—Well—shay—save me one for—next—Shaturday night, will yuh?

### AIN'T IT THE TRUTH

Jazz and the bunch jazz with you,  
Dance and you're by yourself.  
The mob thinks it "Jake"  
To shimmy and shake,  
For the old fashioned stuff's on the shelf.

Have a "case" and your friends will adore you,  
Have a thirst and they pass you by;  
For men want full measure  
Of all your treasure,

But never come 'round when you're dry.  
M.J.M.  
Daily Illini

Sounds like a "booze colyum" this week don't it? Let's try it again.

They do say that "A watched bottle never ferments."

Pretty poor that, but listen! Can you imagine the bird, who when the barber politely asked him "Witch Hazel, Sir?" came back with the answer, "Yes, please, and a chaser."

"Spring is here, and just as one thinks of the little birds, and warm days and green grass as belonging to spring, and just as he connects spring with cows and chickens and the country, so does he—"

Then continuing this little gem of verse, "Scoop" busts in with—"Think of bull in quiz sections."

### I DON'T—?

He—Say Prof, do you think we ought to know this for the final?  
Prof.—I don't think I know.  
He—I don't think I know either.

Then speaking of the Honor System have you ever heard this:

"This exam will be conducted under the honor system. Please take seats three apart and in alternate rows."

And again it works.

Prof. Hill: "The final examination will be held next Wednesday. The questions are now in the hands of the printer. Are there any questions?"  
Johnny Lar Rieu—"Who is the printer?"

Arthur—Dat gal of mine sure does love some.

George—I'll say she does.  
Arthur—What's dat you say, man?  
George—I-I-I mean, does she?

### PERFECT BLISS INNA PACKARD

He—"Mmmmmmmmm"  
She—"mmmmmmmm"  
Both—"Gosh, the speedometer's busted."

Frosh (learning to waltz)—Is it hard to reverse?

Queen—"No, just take your foot off my right one and put it on my left."

### HERE I GO

The Office Dog may dig and think,  
Till the tips of his paws are sore;  
But some poor sap, every week will say,  
Bosh! I heard that one before.

Do you know that it is said by men who know, that "One third of the college students go to the devil; one-third are just average, and one-third rule the world."

### TELL AND REPEAT?

What's the difference between Tell and Repeat? That's easy, f'rinstance; If a fellow kisses a girl she doesn't want him to tell it—but is disappointed if he doesn't repeat it.

No my friends, a nude Moor and "Undressed Morocco" are two different things.

### SAGE—TEN

First She—"And he put his arms around me—and kissed me—and asked me to be his wife."

Second She—"Oh, the dear old-fashioned thing."—Life.

That there are "Plenty of Reasons" is borne out by the gist of this little conversation between two of our prominent Queens.

A—"Why the silk stockings today, my dear?"

S—"The gods see everywhere. Besides it's a windy day."

Have you heard the latest campus war cry? Here it is.

Who are, who are, who are we?  
We are the victims of petrography.

Rex Turner has fallen for the women. If you don't believe it, ask Rose Mitchell and Margaret Barnes.

Scotty-the-Rope and the other fellow were about to pass three girls while on the tram the other evening. Two of the Co-eds dropped behind to allow Scotty and his friend to pass. One girl continued on her way, and as The Rope came up behind her, she remarked: "Gee, isn't this wind cold on your legs?"

"Yes," he replied in an embarrassed bas voice, "It sure is."

Here we go! Never mind the light dear. I can find the bottle in the dark. Oh, I just love olives—

"OLD CROW."

—U. N.—

DEPARTMENT OF EDUCATION,  
UNIVERSITY OF NEVADA,  
RENO, NEVADA.

April 29, 1920.

To the Teachers of Nevada:  
Of course you are planning to attend the Summer Session of the University of Nevada.

Where else could you have such a happy profitable vacation amidst such delightful surroundings and with such pleasant people at so small a cost? Tuition, books, board, room and excursions will cost you but \$75, for the full six weeks.

High School teachers will find help and inspiration in Dr. Fisher's course in adolescent psychology, Mr. Aiton's history work, Prof. Goggio's Romanic language classes, Prof. Turner's English work and the course in Education 105 and 106, as well as in observing Miss Kidder's work with 7th and 8th grade children.

Recreation and new ideas may be obtained by taking games and folk dancing, art and music to say nothing of the good line of talks that are to be given in the general assembly periods.

Special emphasis has been laid on the offerings for the Elementary teachers. The Demonstration classes will be a gold mine of ideas for those who observe and take the method work covering the teaching of reading, composition, literature, history and the primary subjects with Miss Kidder and Miss Raymond. Prof. Traner is offering for them his most instructive courses in geography teaching, in School Law and Management, and in the Principles of Teaching. Prof. Mack will show them how to enliven the teaching of arithmetic, composition, geography, etc., by bringing into the class room out-of-door interests. She will also give a most interesting course in personal hygiene designed to show how one may live healthy, happy normal life. Prof. Nyswander will give a thorough course in the teaching of arithmetic besides offering an opportunity to make up some High School mathematics. Miss Duame's Commercial Subjects and Penmanship instruction will give splendid opportunity in this line.

Dr. Fisher has won for herself a na-

tional reputation and is recognized as one of the leading psychologists on the Pacific Coast. She has studied and received her three degrees from leading Universities, her Ph. D. degree was conferred upon her at Clark University where she majored in psychology under the famous Dr. G. Stanley Hall. Besides teaching in the Southern Branch of the University of California, Dr. Fisher is connected with the Psychological Clinic of the Los Angeles Public Schools.

Mr. Aiton is an Associate in the Department of History at the University of California, Berkeley, and has had exceptional training for his work, having studied extensively both in this country and France and having received degrees from several institutions.

The members of the regular University Staff are all skilled in their specific fields and are ready to give the students every possible assistance. Every student is expected to take part in the Saturday excursions and the Friday evening frolics. So come prepared to lay books aside and to play together on those occasions. The next week's work will go better if you do.

"Pack up your bedding and your books" and start for Reno where we hope to greet you on June 20th.

Cordially yours,  
ABBIE LOUISE DAY,  
Director of Summer Session.

## OFFICERS CHOSEN BY A. A. E. CHAPTER

The Engineer's Club, now known by the name of A. A. E. held their last meeting of the semester last Wednesday night, and closed probably the most successful year of its history.

Under the able guidance of Nels P. Carlsen, as president, the Engineers have had many highly interesting meetings, at which prominent engineers gave short talks on prominent questions of the day in the engineering line, and also at which several excellent films were shown. Probably the most notable achievement of the Engineers Club for the past year has been the organization of the A. A. E., the first chapter to be formed in the state. While this organization is still in its infancy, the work and possibilities of it are such that it is rapidly gaining in membership over the country and U. of N. is fortunate in obtain-

ing a local chapter. Plans for a still better year are already under way, and no doubt before the fall term opens, many of the harder films to obtain will be scheduled and the motion pictures which could not be shown before commencement will have been contracted for. At this last meeting the A. A. E. besides the regular order of business, an election was held for officers for next year. For next year the following men were elected:

President—Ray Bryan.  
Vice President—Chas. Chatfield.  
Secretary—Dewey Conrad.  
Treasurer—Russell Boardman.

### Executive Board

Mining—Ernest Harker.  
Civil—Dick Bryan.  
Electrical—Oliver Layman.  
Chemical—Marc LeDuc.

They will succeed the outgoing officers for this semester who were:

President—Nels P. Carlsen.  
Vice President—Oliver Layman.  
Secretary—Morris Badt.  
Treasurer—Chas. Chatfield.

### Executive Board

Electrical—Jack Aikins.  
Mining—Ray Bryan.  
Chemical—Chas. Chatfield.  
Civil—Don Warren.

Another successful stunt staged by the A. A. E. during this semester was Engineer's Day on which was given the Automobile Show. This day has been a success in the past and no doubt will continue a success in the future. The Automobile Show met with a great deal of favor from the town people and should be given each year, and it is to be hoped that next time, even more cars will be shown by the Reno dealers.

U. N.

L. A. to M. M.—"I love you because you are the sweetest girl in the world."

M. M.—"And I love you, dear, because you're so frank and truthful."

U. N.

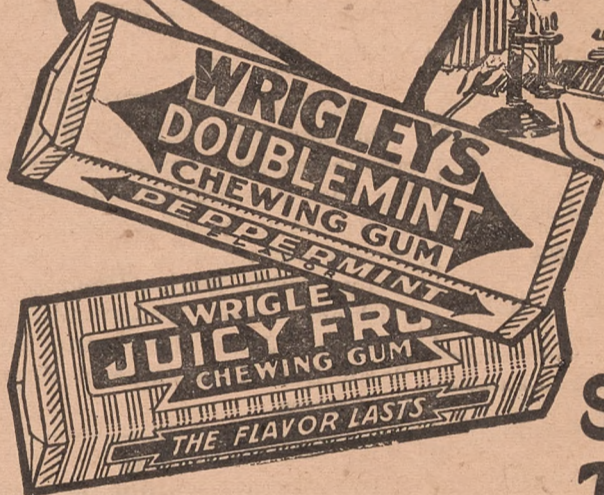

Officer (furiously)—What is the matter? Where are your shots going?  
Recruit (nervously)—Sure, I dunno, sir. They left 'ere all right.

### WHY THE RUSH?

Fan (late arrival, out of breath)—"What's the score?"  
Fan—"Nothing to nothing."  
Fan—"Good game, eh?"  
Fan—"I don't know. It hasn't started yet."

A love-lorn student, who was studying the approved methods of proposal, asked one of his bachelor friends if he thought that a young man should propose to a girl on his knees.  
"If he doesn't replied the friend, "the girl should get off."

Miss Anna R. Richardson, Assistant Director of Home Economics from Washington, D. C., spent last week in Nevada inspecting schools.

On Tuesday the Senior class in Home Economics served a luncheon in honor of Miss Richardson. The guests were Dr. and Mrs. Clark, Miss Mack, Dean Hall and Mr. Derr.

Miss Richardson and Prof. Sears left Tuesday night for Fallon to inspect schools there. From Fallon they went to Metropolis and Elko.

U. N.

D. K. T.

The members of the D. K. T. Sorority enjoyed a delightful picnic at Bower's Mansion last Sunday afternoon, given by the patronesses, Mrs. Frank Humphrey, Mrs. E. E. Warden and Mrs. Samuel Belford. The day was most pleasantly spent swimming and hiking. A delicious picnic luncheon was also an important feature of the day. Those enjoying the outing were: Mesdames Samuel Belford, E. E. Worden, Frank Humphrey, Elmer Heward, Misses Lois Smythe, Ann Davis, Evelyn Walker, Marion Muth, Gladys Smith, Ruth Pilkington, Helen Fuss, Avis Lothrop, Martha Ryan, Alma Boeke, Isabel Bertschy, Margaret Ryan, Alice Kincaid, Neva Clark and Esther Crump.

U. N.

**MISS POPE ENTERTAINS**

On Saturday afternoon Miss Pope entertained the members of her cooking class at a delightful dinner party at her home on Elm street. Those present were: Misses Louise Sullivan, Gladys Smith, Marion Gregory, Vera Wickland, Ann Underwood, Mary Beeman, June Harriman, Beulah Booth, Ethel Pope and Mrs. Pope and the hostess.

U. N.

I. O. A. O.

Miss Dorothy Harrington, popular member of the Freshmen class, was pledged to the I. O. A. O. sorority Monday night. Those present at the pledging ceremonies were Mrs. A. E. Turner, Dorothy Harrington, Mildred Griswold, Elvina Blevins, Emily Burke, Laura Shurtliff, Jimmie Odbert, Lavina Shields, Clementine Shurtliff, Margaret Black, Georgia Money, June Harriman, Norma Brown, Mary Broder, Phyllis Brown and Leila Sloan.

U. N.

**MRS. WRIGHT ENTERTAINS**

Mrs. Lewis H. Wright entertained the members of Pi Beta Phi at her home in the Meyers Apartments last week. Games and other diversions were enjoyed, and dainty refreshments were served. Those present were: Adele Armstrong, Rachel Sprague, Gladys Dunkle, Virginia Higgins, Hazel Hall, Edna Short, Miriam Fike, Marie Grubnau, Neal Sullivan, Nevis Sullivan, Marie Lamon, Elsie Farrar, Helen Hobbins, Ruth Miller, Miss Mack, Miss Reigelhuth; Mesdames Lewis H. Wright, Earl Ross, Prince A. Hawkins.

Shot Put—Buckman (J); distance 38 ft. 7 3-4 in.

High Jump—Buckman (J); height 5 ft. 6 in.

Javeline Throw—Heward (F); distance 146 ft. 4 in.

Discus Throw—Buckman (J); distance 107 ft. 3 ins.

Broad Jump—Bradshaw (J); distance 20 ft. 6 in.

Half Mile Relay—Won by the Juniors: Hancock, Conrad, Hammond and Bradshaw. Time 1:38 1-5.

**CLIONIA HOLDS LAST MEETING**

Last night Clionia held its final meeting of the semester in the assembly room of the Agricultural Building. During the course of the evening all the old business of the year was cleaned up, leaving only bright prospects for next year. An amendment to the constitution was passed, changing the terms of the officers to one semester, instead of one year, as was the former practice. Officers for next semester were elected as follows:

President—Gerry Eden.  
Vice President—Dorothy Harrington  
Secretary—Margaret Barnes.  
Treasurer—Jack Ross.  
Dramatic Manager—Earl Wooster.  
Debating Manager—Tony Zeni.  
Publicity—Edgar Miller.

Clionia has taken great steps forward this year, and looks forward to the accomplishment of bigger and better undertakings next year. Prof. Turner will, of course, retain his old post as faculty adviser. This year witnessed the production of Clionia's first play, which was successfully staged in Reno, Carson City and Fallon. Next year the society plans to put on a play which will be shown in at least five or six of the more important towns in the state.

Debating has also been very successful this year as held under the direction of the society. Next year a return debate with Brigham Young University will be held in Reno, and a debate with the College of the Pacific at San Jose is scheduled. In addition, there is a possibility that Nevada's debaters may meet a team from the University of Southern California, or some other coast college. The inter-class debates will be held as usual. There is much good debating material in the University, and next year, with the loss of John Belford, the star man of this year's contests, we are going to need all of it.

President-elect Eden says he will formulate plans during the summer by which Clionia will become one of the strongest student organizations on the Hill next semester.

U. N.

**SENIOR BALL TO BE APRIL 10TH**

Plans are rapidly being completed for the annual Senior ball, which will be held Monday evening, May 10, in the University gymnasium. This dance which is usually put on by some branch of the alumni association will be handled this year by the newly organized Reno branch of the alumni of the University of Nevada. This organization was recently formed by the graduates of the U. of N. who reside in Reno and they promise to put on some party for the graduates.

While in former years the majority of the undergraduates have usually left the university before this event has been staged, the alumni in charge of the affair this year decided to hold the dance earlier than usual hoping that by so doing they would encourage the student body to remain over and enjoy the final social event of the year. An eight piece orchestra has been secured for the occasion and a large time is assured.

U. N.

**MACKAY BUILDING GIVEN CLEANING**

The Mackay School of Mines is being given a much needed cleaning up, and will shine forth bright and clean internally, for the fall semester. All the white plastered walls which had become a dingy gray have been or are being washed down and tinted a light shade which is easy on the eyes, does not glare in the sunlight and still makes the rooms and offices bright. It is to be hoped that students will refrain from scratching matches on the walls after they are finished, and will not leave their pencilled names on them, at least not in the conspicuous places where they have been. Other repairs to the building will probably be made during the summer.

U. N.

**FORMER GRADS AT CARNIVAL**

"Squeak" Harriman '19, and George Ogilvie '15, were on the Hill for several days during the past week, taking in the Carnival at the gym and visiting friends here. Ogilvie is in town on business for a few days, coming here from his ranch near Lee, and Harriman is undergoing medical treatment here for an injured knee.

# "Waldorf"

MILK SHAKES

R. M. PRESTON CHAS. MEYER

He—You are not interested in my  
welfare, then?  
She—No; but if the two syllables  
were transposed, I would be not only  
interested but enthusiastic.

A POEM  
Will in a fit insane  
Thrust his head underneath a train.  
All were surprised to find  
How it had broadened William's mind.

Once upon a time there was a student, who, before there was need of an organization called the Camels, liked his little snifter daily. No, he was by no means a boozier or even attempted to be one, but after a heavy day a craving for something stronger than ice water would come upon him and he would saunter down to the Waldorf, Mecca or one of those famous places where the clans were wont to gather. After the nation draped its bars in black and the prohibition law went in to effect this craving would still come upon him and of course, could never be satisfied. So, month after month, he would patronize the soft drink emporiums and give orders for the mixing of various evil looking but tempting concoctions, which Charley cheerfully mixed for him, in the hopes that some day he might hit upon the right combination. It was on one of these trips of his that he thought up an entirely new concoction, which Ole this time placed beneath the whirring mixer. A dash of grape juice, lemon, orange, a little Irish Moss were in the glass, then came celery phosphate, seltzer water, Tobasco sauce and finally Pep. At last the mixture was placed before him and with an eager look upon his face he sipped it. The fluid was hot. It burned, and upon arriving in his stomach seemed to grip him with almost the old time friendliness of Old Crow. Draining his glass, he placed it on the bar, removed his right foot from the rail, and strolled out to the sidewalk. A gentle warmth seemed to steal over his body and things began to look better. Perhaps—perhaps at last he had found the combination. And while he thought, he began to feel just a trifle dizzy; you know how it was. Then the people passing by appeared to sway; the electric globes in the store windows began to swing backwards and forwards. He was unsteady on his feet and attempting to walk, staggered. Suddenly his face lighted up and with a cry of joy, a paeon of victory, staggered into the bar once more and called to Charley. "Charley, quick. Mix me up a half dozen more of those same ones, and make up five gallons and I'll take it up to Waite and Eddie."  
Then the walls caved in upon him and ended his happy existence. It was merely an earthquake.

U. N.

### RESOLUTION ADOPTED BY THE STUDENT BODY

"Be it Resolved by the A. S. U. N. that no student, except those exempted by the special provisions of the resolution regarding ex-service men, shall acquire upperclass standing without first having attained within six credits of the required number of credits for full Junior standing."

### SUCH IS LIFE

Chick—"What became of that anti-slang society that you took so much interest in a few months ago."

Chock—"Oh, it's in the consomme. The president got nutty and imagined she was the only dent in the pan, so we gave her the razz and the hinky dink association shot the chutes."

U. N.

### DIDN'T PHASE HIM

She—"I'll marry you on one condition."

He—"That's all right, I entered college on four!"—Y. R.

U. N.

Jean—"I heard some one say that Vesta had a mouth like a rosebud."  
Jerry—"Rosebud nothing. Rosebuds are usually closed."

U. N.

K. M.

Cheesy—"I had an awful fright last night."

Sap—"Yes, I saw you out with her."

U. N.

### MODERISM

The motto of the girl of today is apparently "Eat, wink and be wary."—Ex.

U. N.

Caller—"Please don't bother to see me to the door."

Co-ed—"Really it's no bother at all."

U. N.

### THE FILTHY WEED

He—"Do you mind if I smoke?"  
She—"Yes. I just hate the taste of tobacco."

## SUMMER SURVEYING TO START MAY 13

The annual summer surveying and geology course will be instituted again this year after an absence of several years, due to the effects of the war. This course, which has in the past, been given for a month at one of the different mining camps over the state, will this year be carried out in the near vicinity of Reno. Members of the Senior and Junior classes in civil and mining engineering are required to complete this course before graduation.

The work this summer will consist largely of a topographical survey of the country to the north and northwest of Reno, including the vicinity of the big "N" on Peavine, plane table survey of a portion of the W. P. R. R. roads, mine prospects, etc. In addition considerable time will be spent on triangulation, and stadia transit work. About a week or ten days will be spent in underground surveying. This will be carried on either in the Wedekind district, north of Sparks, which is now under development again, or at the property of the Standard Metals Mining Co. at Poeville.

Work will also be done in the geology line, which will be handled by Prof. J. C. Jones. A considerable part of the time will be devoted to the study of geology of the country in connection with the surveying. Dean H. P. Boardman will be in charge of the surveying trip.

It is expected that there will be about ten men taking the work, which will begin probably on May 13, and last for one month. Any students who are contemplating entering the course should make it known to either Prof. Jones or Dean Boardman at once.

## A. S. U. N. ELECTS NEW OFFICERS

(Continued from Page One)

won by a scant 9 votes for Charles Reagan over Evelyn Walker. In counting the vote cast, the election board nearly had heart failure, for in this last office both candidates ran neck and neck till practically the last dozen ballots were reached, when Reagan slowly forged ahead and won by his scant 9 votes.

The students elected for next year's student body are each well fitted for their respective positions and under their guidance the student body should prosper and wax fat. With Ernest Harker as custodian, the student body monies should be safely guarded. Coach Courtright should handle the job as Athletic Manager in as able a way next year as he has done this semester, and with him as Coach and Manager, next year should be another banner year for Nevada in an athletic line. Ray Law, as Assistant Editor of Sagebrush for next year is predicted to be a success. He held a place on the Sagebrush staff this year and filled his job as reporter very ably, giving the play by play accounts of all athletic contests, besides writing each week many valuable articles. The famous "Windy" Johnson cannot help but make good in the Assistant Business Manager's job, for if he shows half the speed and jazz in a newspaper line that he did last fall on the football field, the financial end of the Sagebrush for the 1921-22 year should be no cause for worry.

Each and every one of the victorious candidates are well known on the hill, capable and well fitted for their respective offices. 1920-21 is bound to be another banner year. What more need be said?

The official result of the election is given below:

### President—

Dick Bryan, 185.  
Earl Wooster, 66.

### Secretary—

Gladys Dunkle, 152.  
Helen Fuss, 64.  
Thelma Braun, 33.

### Treasurer—

Ernest Harker, 222.

### Athletic Manager—

Coach R. O. Courtright, 219.

### Women's Athletic Manager—

Hallie Organ, 169.  
Lavina Shields, 76.

### Assistant Editor Sagebrush—

Ray Law, 222.

### Ass. Business Manager Sagebrush—

Homer Johnson, 214.

### Editor Artemisia—

George Egan, 145.  
Enola Badger, 97.

### Business Manager Artemisia—

Bob Griffith, 115.  
Hugo Quilici, 131.

### Junior Representative—

Charles Reagan, 128.  
Evelyn Walker, 119.

### Sophomore Representative—

John Harrison, 147.  
Jack Heward, 101.

U. N.

## NEW PYROSCOPE FOR MINES LAB.

The mining department has recently received a new type of pyrometer for use in the determination of high temperatures. This instrument, a Shore Pyroscope is a modification of Le Chatelier's Optical pyrometer and in a recent test made by Prof. Palmer and several students checks other methods of determining high temperatures within a few degrees. As a person looks through the eye piece, an image of an element of a comparison flame from a small oil lamp is seen in the center of the image of the source, the flame whose temperature is to be tested. By means of an iris diaphragm connected to a circular scale the image of the comparison is reduced until it is of the same color as that of the source. The temperature is then found on the circular scale. A technical description of this pyroscope is impossible at this time, but it will suffice to say that the Shore Pyroscope is one of the latest optical pyrometers, and is a valuable addition to the metallurgical department.

U. N.

"Your nephew is a college graduate, isn't he?"

"Yes, but in justice to the college. I'll own up that he had no sense beforehand."

1922 (busily writing letter)—Is there an "e" on the end of chaperon?

1920—No, but there are two "S's" in unnecessary.

## COFFIN AND KEYS ELECTS

(Continued from Page One)

the band of merry-makers visited various class-rooms, including those of Prof. Lincoln and Miss Weir, where a young riot almost ensued. After having exhausted the possibilities of the class-room, the gang rallied for the attack on the last stronghold, the Library Led by Ed Reed, they crowded into that sacred domain of silence, followed by as many students as could crowd within the narrow confines. Silent Joe Layman, surrounded in his own sanctum, stood speechless while the Jewish peddler exhibited all his wares with his choicest line of persuasion. Members of the Coffin and Keys, who supervised the running, had to take their initiates out of the library to save the librarian from a stroke of apoplexy.

Following initiation last evening, the new members were the guests of honor at a banquet held at the Hotel Golden by the society, at which a number of alumni were present. This year's elected members are all well known on the Hill and are prominent in student body affairs and general activities. They are Ed Reed, Mahlon Fairchild, Ray Bryan, John Douglas, Bill Martin and Ernest Harker.

U. N.

Little Mary told little Sarah what the latter termed a "little fib."

Sarah—"A fib is the same as a story, and a story is the same as a lie."

Mary—"No, it is not."

Sarah—"Yes it is, because my father said so, and my father is a professor at the University."

Mary—"I don't care if he is. My father is a real estate man, and he knows more about lying than your father does."

Scotty—"I'd like to eat her."

Buck—"What for? She's no chicken."

## DAVIS AGGIES MEET NEVADA

(Continued from page One)

student body is behind him in wishing him luck in the hope that he will break the mark which has stood in that event ever since Fisell made the present one in 1904.

Bradshaw is out to set a new mark in the two twenty and it is an even bet that he will make it, as he ran it in 23 2-5 seconds against the wind in practice one night last week. The Junior relay team negotiated the half mile in one minute 38 4-5 seconds, which is within 12-5 seconds of the record. With the addition of a man or so from the rest of the team who are speedier than those who ran the same lap for the Juniors, it is almost a cinch bet that the record will be broken.

In the high hurdles Al Reed, Havens and Church will in all probability be orky's entries and should be good for points. The quarter milers will likely be Bradshaw, and Hobbs with a possibility that Hammond may get back into the good graces of the faculty in time to hold up his end. The varsity will be deprived of a sure first place if Skip is held out, as he has been showing by far the best form of any of the men out for track this year. In the century Bradshaw, Lowrie and Hancock are the likely choices to go out and cop that event. The half-mile entries are Hobbs, Quill and Haviland, with Hobbs the only man who can be counted on for points with a good chance for first. Runnow, captain of the Sophomore crew last week will again be seen in action as he will probably be entered in the sprints. In the pole vault the varsity is woefully weak as there is no man out who can even come close to ten feet. Buckman looks good for first in the shot put with a possibility of either Hill or Egan squeezing into the money. apt. Buckman and Johnny Wall are good for points in the high jump with an even chance of a first place. Heward,

## REGENTS SELECT NEW PROFESSORS

(Continued from Page One)

professor of Chemistry in U. A. C. He remained at the Logan institution until 1915 as professor and head of the chemistry department, and station chemist, when he left to take up the professorship of soil fertility at Illinois.

Dr. Stewart is an active contributor to the literature of his field, and has published since 1908, bulletins and pamphlets under fifty titles, many of them concerned with soil conditions in the intermountain states. Eleven of them were put out in 1919. He is a veteran of the Spanish-American war and saw active service in the Philippines in 1898-99.

To be professor and head of the Department of Mechanical Engineering, the Regents chose Prof. F. H. Sibley, now holding a similar position at the University of Kansas, and a prominent engineer in the mechanical field. Mr. Sibley is a graduate of Brown University, obtaining his Ph. D. there in 1898, and later taking the M. E. degree from Case School of Applied Science in 1905. While attending Brown, he worked as a machinist in his spare time in some of the big en-

Hobbs and Egan are entered in the javelin and are liable to make a clean sweep in this event. The discus will be heaved around by Buckman, Heward and Egan but points in here are rather doubtful, as they are in the broad jump, in which the entries for the Silver and Blue consists of Bradshaw, Wall and Hill. The relay team has not as yet been chosen, but will doubtless be picked from the following men: Bradshaw, Hobbs, Hancock, Lowrie, Runnow, onrad and Hammond.

Let's see every member of the student body out there making lots of noise to help the boys make it a clean sweep of the Davis contests this year

gineering plants of Providence. For three years he remained in Providence doing draughting and engineering work for the city. He was with the Westinghouse Electric Co. for two years, going from their employ to the Lake Shore Railroad, where he remained until 1904 when he took up advanced engineering work at Case.

From 1907 until 1912 Mr. Sibley was professor of mechanical engineering at the University of Kansas, where he now is. For the past five years he has been head of that department there. He has lately done some notable consulting work, especially in the oil line. During the war he was in charge of the technical school for drafted soldiers at Kansas, having under his charge, twenty instructors who were teaching over 350 soldiers.

## FROSH CLASS ELECTS OFFICERS

The Freshman class held a meeting last Monday for the purpose of electing new officers for the Fall semester. The regular order of business was disposed of, nominations made and the following officers elected.

President—Willis Church.  
Secretary—Erma Hoskins.  
Secretary—Marie Grubnaeu.  
Treasurer—Herbert Foster.

The outgoing officers have done good work in their respective offices. They are given below:

President—John Harrison.  
Vice President—Rose Mitchell.  
Secretary—Dorothy Harrington.  
Treasurer—Frank Marketti.
