No. 29

Military Ball Will Be Held Saturday

All Is Ready For Big Prom

PLANS HAVE BEEN COMPLETED FOR TRADITIONAL MILITARY AFFAIR—UNIFORMS AND FULL DRESS TO BE IN VOGUE

Saturday evening at nine o'clock in the University gym a tradition that was dropped during the war will be re-established. The committee has planned this year to make the military ball bigger and better in every way than ever before. True, the natty blue uniforms that the cadets used to wear have been replaced by the familiar O. D., but this should add rather than detract from the dance. The wearer of the O. D. three years ago was a man both feared and respected the world over and it will be a long time before the world forgets that fact.

As has been the custom in the past, University cadets are requested and expected to attend the dance in full uniform. What if your blouse is a size too large or a size too small? Half-a-dollar spent at a tailor shop or a few minutes with needle and thread should remedy that. Get busy now—shine up the "russets," clean the "spirals," press the uniform and then wear them to the ball. It won't be very "military" if only a few men wear their uniforms, a few more "full D's" and the remainder come any old way.

And ex-service men, you're expected to be there in uniform too. Dig your "old issue" out of the moth balls, pin on your victory medal, get a "date" and "fall in." If you have only part of your uniform left then there is but one alternative, you'll have to wear a "full D."

Word has been received from the Governor and Lieutenant Governor that they will be here Saturday night if business will permit, so you see it is up to you to make the dance a success. To do so you must do three things: Go to the dance, wear your uniform, and don't "stag it."

WAITE OFFERED JOB AS COACH AT FALLON

Noble Waite, Varsity hoop captain for the 1921 season, has been offered a place on the faculty of the Fallon High school for the coming fall term as professor and coach of athletics, and in all probability he will accept. Waite is an agricultural student, and should he not take the position in the Fallon schools will graduate at Christmas.

Scrugham Talks To A.S.U.N. Fri.

STATE ENGINEER AND FORMER DEAN AT UNIVERSITY WILL ADDRESS STUDENTS AT REGULAR MEETING

State Engineer J. G. Scrugham, former dean of the College of Engineering at the University of Nevada, will give a short talk to the Associated Students at a regular meeting of the A. S. U. N. this Friday morning. While the subject of his talk is not as yet known, no doubt it will be well worth hearing, as have been all the addresses and talks given in the past to the students. J. C. Scrugham was formerly dean of the College of Engineering at the University for many years, but at the time of the entrance of the United States into the Great World War, Dean Scrugham resigned to enter engineering work for the government in the east. He was later given a colonelcy in the engineers and was put on important work for the ordnance department of the army, which position he held until the end of the war.

Many important subjects will be brought up at this regular meeting of the Associated Students, and a large attendance is imperative. Mackay Day plans will be completed, and other subjects of importance will be taken up.

SOPH TEAM WINNER OF BASKET TOURNEY

By virtue of the defeat of the Senior class team, the Sophomore women won the women's interclass basketball championship of the University last week and are now privileged to have the class numerals engraved on the silver cup which stands in a prominent place in the library. The first game played some time ago between the two teams resulted in a victory for the Seniors, who won with a 40 to 35 score. Under the conditions of the tournament, the second year team was privileged to challenge the Seniors again, and this they did. The final contests were played last week and proved to be the closest and most exciting of the entire series. Both games were won by the Sophomores by a margin of only two points each, after battles in which first one side would forge ahead and then the other, with the final result in doubt until the final whistle.

CRAP SHOOTERS AT U. S. C. SUSPENDED

Southwestern Intercollegiate Press. Univ. Southern California, Mar. 31. Caught shooting craps on the university campus, seven U. S. C. students were suspended for the rest of the semester on Friday, March 18, the day before spring vacation. The sentence was suspended in the case of one student, pending good behavior. Commenting on the matter, Registrar Montgomery said:

"This decision was made by the Faculty Student Welfare Committee after serious deliberation. It will teach the boys a lesson, and we hope that the faculty decision will bring them to see their wrongdoing."

Changes Made For Engineers

PRESCRIBED STUDY COURSES LAID DOWN FOR ENGINEERS BY FACULTY COMMITTEE OF UNIVERSITY—FEW OPTIONS

A number of important changes in requirements for graduation in the various colleges of engineering of the University have been made and the final approval of the faculty granted this week so that with the publication of the new catalog which is now under way, a large number of additions and omissions in the course of study prescribed for engineers, will be noted. A complete revision of the technical courses offered at Nevada has been in progress for some time, but it was not until this week that a definite outline was adopted. The essential points of interest are as follows:

The courses of the School of Mechanical and Electrical Engineering, which at the present time are grouped under one head, will now become two separate and distinct schools. Each will have its own prescribed course of study, which will differ materially from that given in the past, and allow the students following the electrical branch to specialize more in its kindred subjects than has been possible heretofore, and the same will be true for the mechanical engineer. Electives will be somewhat at a premium in both colleges with the electricals having the greater leeway in choice. As given this year, students in M. E. and E. E. have thirteen elective units during the four years, while in the course as outlined for next year, seventeen elective hours will be available for the E. E. students, and six hours for the M. E. men. Greater stress will be laid upon some subjects not strictly technical, such as economics, psychology, and others which are known to be important to the engineer. During the fresh-

(Continued on Page 8.)

"BRUSH" TO GET RADIO PRESS NEWS

If the necessary arrangements can be made for a few more pieces of wireless apparatus, the wireless press reports sent out by the University of Utah, University of Washington and other colleges and universities that are members of the Southwest and Pacific Intercollegiate Press Associations, will be received by the Sagebrush. For some days past, Willis Pressel, a student on the Hill, has been receiving these dispatches over his set, and if the necessary pieces of apparatus can be gotten in time he will receive these dispatches for the Sagebrush. The Utah press news is sent out by an amateur operator at about nine o'clock each night, and starts first with the weather conditions in Utah. Regular press dispatches are then sent out, and ending with the time signals, similar to those sent out by the U. S. government stations over the country. Plans are being pushed to run these dispatches in the Sagebrush in the remaining few issues of the semester, and if everything turns out as it should, the service will be instituted. Willis Pressel will be in charge.

B. M. Works On Gem Coloring

FEDERAL BUREAU MINES MEN AT UNIVERSITY WORKING ON COLORING OF GEMS AND MINERALS BY RADIUM RAYS

Work has been carried on lately by Dr. S. C. Lind, director of the Experiment Station of the U. S. Bureau of Mines at the University on the subject of the coloring of minerals and gems by radium emanations. This subject while not a new discovery, is intensely interesting and of no small importance. Many minerals when exposed to the rays given off by radium and radium salts are effected differently, some of them being given fluorescence in varying degrees, some not being changed at all as far as can be determined, and some being colored, the shades being in various degrees.

The Experiment station at the University has a little over 500 milligrams of salts of radium, mostly in the form of radium chloride and radium bromide, together with about 30 milligrams of the salt of the rare mineral mesothorium, and it is with these rare salts that the experiments are being carried on by Dr. Lind. Many minerals have been exposed to the radium rays, and the effect has been studied. Minerals that have been exposed to the rays have been slowly heated up to varying degrees of temperature and their gain or loss in color and fluorescence also noted. Some of the results are very interesting. The radium salts are kept in sealed glass tubes an inch or more in length and probably quarter of an inch or less in diameter. These tubes, of which there are five or six are placed around the minerals to be tested, in a small cotton lined lead box, and left for varying lengths of time of an hour to a week or more, and upon being examined at the end of this time many of the minerals are found to have been effected. Rock salt crystals take on a yellow shade

(Continued on Page 8.)

BUCKMAN STARTS AS COUNTY AGENT

Tom Buckman, athletic manager and stellar athlete of the University, left tonight for Yerington to enter upon the duties of county agent to which position he has just been appointed. Buckman, who has completed his course in agriculture six weeks before commencement, will return to Reno to receive his degree. His appointment is to the position of County Agent of the University Extension Bureau for Lyon County, and his headquarters will probably be in Yerington, though from time to time his work will bring him to the University. During his course on the Hill, Buckman was one of Nevada's most famous athletes, winning his letter year after year, not only in football and basketball, but in track. Buck was a member of last fall's football squad that made the trip to Honolulu, and center on the basket varsity that entered the A. A. U. tournament at Kansas City. He is a member of Alpha Tau Omega and Coffin and Keys fraternities, and the Block N society.

"Under Cover" To Be '21 Play

SENIORS TO PRESENT PLAY IN WHICH PEARL SMUGGLER TAKES LEADING PART—MANY COMPLICATIONS ARISE

The try-outs for the Senior class play "Under Cover" have been held and the members of the cast have been selected. Those who will be in the play are:

Duncan.....	John Knight
Gibbs.....	John Douglas
Taylor.....	Arthur Harms
Michael.....	M. T. Smith
Denby.....	Earl Wooster
Monty.....	John Gottardi
Sarah.....	Helen Fuss
Ethel.....	Enola Badger
Amy.....	Emily Burke
Alice.....	Gladys Dunkle
Nora.....	Lulu Hawkins

Practice will begin immediately, and much hard work will be necessary so that the play can be put on before Commencement.

The story of "Under Cover" deals with a smuggler named Denby. He leaves Paris with a pearl necklace of great value and succeeds in passing the customs officials in this country. He goes to visit his friends, the Harringtons, who have assisted him in bringing the necklace to this country. It is on this visit that complications arise, with the unraveling of the plot. As most stories end, with "they lived happily ever after," so does this one.

SENIORS HOLD CLASS MEETING

At a meeting of the Senior class held this afternoon, much business was brought up and discussed regarding commencement and other matters of importance. The class discussed the coming Senior play "Under Cover" which will be presented at the Rialto theatre under the direction of Professor A. E. Turner of the English department. Mr. Turner has coached a great number of plays in the past two years, among them, "A Pair of Sixes," "Officer 666," "Bunker Bean," and others, all of which have been enthusiastically received and scored great hits, so the play this year will be looked forward to with a great degree of pleasure by all.

Commencement invitations will be ordered within the next few days and

Sport Paragraphs

(By DOPIE)

Washington-California Regatta Apr. 9
The University of Washington varsity and freshmen crews left Seattle Tuesday for San Francisco where they will meet the California eights in the big regatta which will be held on the Oakland estuary April 9.

"Cards" Trim Olympics in Track
Stanford defeated the Olympic Club track artists at Stanford last Saturday in a dual track meet by the narrow margin of one point, the Cardinal score being 66 to the Olympics 65. Ollie Snedeker of the Olympics staged the sensation of the day by winning the shotput, discus, and placing second in the javelin. Norton, also of the Olympics, took both hurdle races, while Kirksey of Stanford took both the 220 and 100 yard dashes easily.

Water Polo Team Journeys East
The Olympic Club water polo team is on its way to Chicago where they will meet the famous Illinois Athletic Club team of Chicago, reputed to be one of the fastest water polo teams in the world. The winged "O" team is the present National champions, and sport writers have picked them to successfully defend their title for another season. This national championship game will be played on April 7.

Tank Contest On at Utah
The Intermountain championship swimming meet will be held at Salt Lake this Friday and Saturday, and strong teams are entered from practically every college and university in the intermountain region. Besides the numerous male stars entered, there are several women tank artists who will compete. Pearl Kimball, 50-yard state champion, Emma Johnson, Kathleen Harms, and Josephine Riter are among the women entered.

Athlete Injured at Davis Meet
Jack Merchant, member of one of the U. S. teams competing in the Olympic games at Antwerp last summer received a fractured arm from the blow of a thrown javeline at Davis Farm this week. Besides being a javelin man, Merchant is a hurdler and sprinter. His injury will no doubt keep him out of any meets for the remainder of the season.

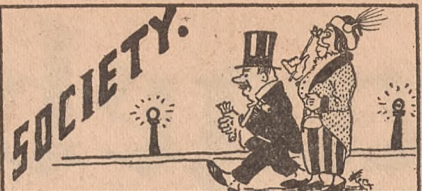

220 Yard Sprint Record Broken
When Charley Paddock clipped two-fifths of a second off of the world's record time of 21 1-5 seconds for the 220 yard dash he broke a record that has stood for twenty-five years. This record of 21 1-5 seconds was made in 1896 first by B. J. Wefers, and since then has been tied by four men. Paddock's official time of 20 4-5 seconds now stands for the new world's record, and it probably will be a good many years before this is broken. Earlier in the meet, Paddock tied the world's record of 9 3-5 seconds for the 100 yard dash. California won the meet by a good margin over the U. S. C. teams, but the new records established by the Trojan sprinter far overshadowed the defeat in the meet.

High Jump Record Broken at Illinois
Alberts of Illinois broke the high jump record of 6 feet 1/2 inch a short time ago in a triangular indoor meet with Michigan and Wisconsin, when he topped the bar at 6 feet 4 1/2 inches.

Football Practice at Texas
The University of Texas began their spring football practice Monday when a large squad of men appeared on the field. Practically all of last fall's varsity, freshmen and class teams appeared, and all will be given a thorough training in the fundamentals of the pigskin game.

Bruin Nine Again Victors
The California baseball varsity again defeated the Olympic club team last Saturday by a score of 12 to 4. "Shad" Rowe of the Bruin squad knocked two homers during the game as did also Radebaugh of the Bruins and Varni and Morrisey of Olympics.

REDLANDS SELECTS ZANJA FIESTA PLAY
By Southwest Intercollegiate Press Univ. of Redlands, Calif., Mar. 31.—The student body of the University of Redlands has selected "Chimes of Normandy" for the annual Zanja Fiesta play. This is to be given as the last event before Commencement week.

ENGAGEMENT ANNOUNCED
An announcement has been received of the engagement of Miss Margaret McMasters to Mr. John V. Mueller, both former students at the University. Miss McMasters was a very popular student while on the Hill and a member of Pi Beta Phi sorority. Mr. Mueller was a lieutenant in the 91st division and saw service overseas. He was a member of Sigma Nu fraternity and a very active student while attending the University here.

Emil Peterson and his bride, formerly Miss Maurice Allen, have returned to Reno after a short honeymoon spent on the Coast where the couple were married. They will probably make their home here.

Saturday evening Misses Verda Luce and Letitia Sawle were hostesses to a number of their friends at a midnight supper. Their room at Manzanita Hall was ingeniously decorated in red and white and red ribbons suspended from a basket of Easter eggs led to dainty place cards. During the meal Vera Smith entertained with selections on the steel guitar and Dorothy Harrington with vocal solos. Those present were Misses Dorothy Harrington, Clementine Shurtleff, Vera Smith, Margaret Owens, Catherine Ramelli, Justine Badt, Allene Wright, Thres Haughney, Hortense Haughney, Georgie Money, Letitia Sawle and Verda Luce.

DELTA DELTA DELTA
On Sunday, Delta Delta Delta entertained at an informal picnic up the river. The hostesses and guests spent the afternoon in true picnicking fashion, after which they indulged in a "wienie roast." Later in the evening the girls returned to the home of Mrs. C. V. Organ, and the evening was ended with a candy pull. The hostesses were: Gertrude Harris, Rose Harris, Hallie Organ, Rose Mitchell, Arvella Coffin, Thelma Braun, Editha Brown, Adele Clinton, Frankie Porter, Pryscylla Reynolds, Enola Badger, Marianne Gignoux, Wilma Readle, Dorothy Ross, Bonita Miles, Marie Campbell, Margaret Barnes, Lindall Adams, Helen Watkins, Agnes Lowry, Edna Salter and Josephine Williams. The guests included the Mesdames C. V. Organ, Clinton, Porter, and the Misses Emily Brown, Margaret Owen, Irene Frisch, Kathryn Ramelli and Irminna Stevenson.

The home of Eleanor Miller was the scene of a Comhelo initiation on Wednesday evening. After the initiation ceremonies the members were entertained with music and games. Later in the evening refreshments were served to the following: Initiates, Irene Dunn, Ruth Carter, Mildred Meis, Evelyn Pedrole, and Nenita Boyce; the members, Louise Cazier, Allene Wright, Ruby Spoon, Letitia Sawle, Evelyn Stock, Dorothy Farwell, Mabel Riddell, Clara Gibson, Luella Dilworth, Emma Diehm, Agnes Riddell, Vesta Bradshaw and Eleanor Miller.

GOTHIC "N" DANCE
The Gothic N dance on April 16th promises to be one of the most jazzy affairs of the season. Do not forget to make your date early!

The meeting for March 30 will be conducted by the World Outlook committee of which Rose Mitchell is the head. This committee conducted a meeting last semester which was one of the best meetings of the year and it is hoped that a large number of women will attend this one. Mrs. Howe, wife of the pastor of the Congregational church, will address the women on some phase of the work that the Y. W. C. A. is doing in the field of foreign missionary work. Her address will be very interesting to all as she will give some idea of the great amount of help that the organization is giving to the women of other countries.

After her address the slate of new officers will be presented to be voted upon. The nomination committee, consisting of Lois Smythe, chairman; Gladys Dunkle, Hallie Organ, Erma Easen and Adelaide Humphrey met and elected the following officers for the new semester beginning next September: President, June Harriman; vice-president, Rose Mitchell; treasurer, Vera Wickland; secretary, Beulah Booth; under-graduate field representative, Marianne Elsie. All of these officers were elected by the unanimous vote of the committee.

The names of all the women who have not paid their Associated Women Student assessment will have their names published in the next issue of the Sagebrush. The money must be in by the end of next week, so get busy and pay your assessment.

BIG TRACK SQUAD FOR LOGAN SCHOOL

Utah Agricultural College, Logan, Mar. 31.—All of last year's winners and many other stars are out every afternoon preparing for track work. About fifty men have signed up for the annual Aggie cross-country run which will take place this week. A big trip for the track athletes is highly probable. The athletic council has received an invitation from the University of Washington to send a team to a spring relay carnival to be held next month. The matter has been taken up with the athletic council and will be approved if the financial end of it can be satisfactorily arranged. In case of the team being sent, Aggie athletes will be entered in all track events and it will be a good chance to bring the U. A. C. into the limelight along with other large western institutions.

YOU HAVE WRITTEN POEMS!
Do you care to have them revised or constructively criticised by successful authors? If you do, then send us your manuscript (stories, articles or poems). We will criticize, and place them should they prove to be acceptable for publication.
There is no actual charge for our services. If, however, you have not previously enrolled with the advisory department of this association, we request that you enclose the initial fee of \$2, which we must ask of each new contributor. There is no additional expense, no future obligation.
It must be realized that we can only be of aid to those of serious intent. If you do mean to strive for literary success, we can help you in many ways. Our services are yours until we have actually succeeded in marketing at least one of your manuscripts. Send something today!
Please enclose return postage with your communications.

Walk-Over

The Duck-Bill Toe

A new shape by Walk-Over submitted to men who like the unusual. Notice that the narrow, square duck-bill toe is not overdone. The proportions are cleverly preserved. The Metz has what men of style seek—exclusiveness and smartness. You'll like the smooth fit and narrow-toe effect.

This pattern is well liked in the new brown shade. Also shown in black, with or without rubber heels.

CHEMIST DISCOVERS POWERFUL SOLVENT

A week's series of lectures on his discoveries of the new uses of selenium and tellurium was recently given at the University of Nebraska by Prof. Victor Lenher, of the department of chemistry of the University of Wisconsin, under the auspices of the University of Nebraska and of the Nebraska section of the American Chemical society.

Dr. Lenher, who is chairman of the committee of the National Research council on the uses of selenium and tellurium, is the discoverer of the great solvent properties of selenium oxychloride, a discovery which has brought him a thousand inquiries since his first announcement at the St. Louis meeting of the American Chemical society last April.

Selenium oxychloride is the most powerful solvent now known to science. It dissolves rubber, glue, enamels, hydrocarbons, and such products as remanol, bakelite, and condensite, which are used as substitutes for amber in making tobacco pipes and other industrial purposes and were formerly considered insoluble in all known solvents. Experimentation on the solvent has just begun, according to Dr. Lenher and the twenty-four graduate students who are working with him on this compound.

The raw material from which the compound is obtained was once a waste product from the electrolytic refining of copper. Until Dr. Lenher's discovery, selenium oxychloride was considered as merely a laboratory curiosity. The solvent, which is a heavy, golden-colored liquid, is rapidly finding its place in many industries.

NO "FLUNKED OUT" STUDENTS ENROLLED

Southwestern Intercollegiate Press. Univ. Southern California, Mar. 31. Large numbers of students flunked out at other institutions last semester stormed the U. S. C. registrar's office during the recent registration. They hailed from the southern branch of the University of California, Stanford, Arizona, Oregon and Oregon Agricultural, the majority being from California. The would-be transferred students presented lengthy alibis, but in vain. The university does not admit students flunked out elsewhere.

RENO Y. W. PLANS JOINT MEETING

Miss Jeanne C. Moore, one of the field secretaries of the organization, will visit the Reno "Y" in April from the 15th to 18th. The plans for her visit are extensive, among them being the plan for a joint meeting of the University "Y", the Reno High Girls' Club and the Reno "Y." This will take the form of an Asilomar meeting and will serve as an aid to get the girls all interested in the Asilomar camp. The camp is conducted every summer under the auspices of the Y. W. C. A. and the delegates are sent from each "Y" organization on the coast. There will be a dinner on the cafeteria plan. Each girl will bring her own "eats" and the "Y" will furnish the "drinks." It is planned that this meeting will take place on the 15th or the 18th, the exact date not yet being settled. All the women of the University are cordially invited to attend this "get-together" and learn something about the good times that everybody has at Asilomar. Watch for the date and then don't fail to be there.

HUGE SUM LOANED WISCONSIN STUDENTS

To aid needy students in earning their way through college, 207 loans, totalling \$11,141, were made last year by the regents of the University of Wisconsin from the loan funds and trust funds at their disposal. The loans averaged \$53 per person and many were made just in time to save students from giving up the struggle because of financial difficulties. Although every available dollar was used, many worthy students had to be refused because the funds were too small.

The university has twenty loan funds for this purpose. Fifteen of them, totalling \$15,000, may be loaned out entirely and then reloaned as the money is repaid by the recipients. Five of the loan funds, totalling \$20,454, are trust funds whose income only may be loaned out. One of these, the John A. Johnson fund, produced last year an income of \$885 for student loans.

Because of the increasing number of needy and worthy students who apply for small loans to aid in earning their way, the loan funds are at present far from adequate, and further funds are being sought from alumni and friends of the university to endow new funds or add to the principal of existing funds. Even small gifts, ranging from \$1 to \$10, are sought to enlarge the secretary's loan fund whose income is entirely used as small loans to students.

FIVE TRACK STARS ON PROBATION LIST

By Southwest Intercollegiate Press. Univ. Southern California, Mar. 31. Thirty students were flunked out of U. S. C. at the close of the last semester. An equal number were placed on probation. The number is regarded as surprisingly small in view of the recent raising of the scholarship requirements. Among those flunked out were a number of athletes and the editor of a student publication. Five track stars are on probation at present. They cannot represent the university in a contest until they have made up their incompletes.

TENNIS CLUB IS ORGANIZED

The Reno Tennis Club which has recently been organized has a particular interest for University students. The main purposes of the club are to provide new courts for the members, to hold a tournament beginning about April 15th in which all students are urged to participate, and to secure rules by which the time will be regulated on the courts so that the members will be able to use the city courts until new ones can be made. The organizers plan to have champion players come and give exhibition tennis games.

The dues are to be \$2 a year and in order to accomplish all the things planned it will be necessary to have as many as possible join the club, and University students are especially urged to join.

The officers are: Professor Nyswander, president; Hallie Organ, treasurer; Harry Scheeline, vice-president; Leah Regan, secretary.

Five other members who form a committee to work with the executive body are: Miss Somers, Professor Franzden, Benjamin Henly, Christopher Nixon, and Philip Wentworth.

FORMER NEV. MAN GETS PROMOTION

News has been received lately that Lieut. Newton N. Jacobs, a former University of Nevada man, has been promoted to the rank of first lieutenant in the army. Lieut. Jacobs left the University some years ago, going to West Point where he graduated in 1920. Since that time he has been stationed at Camp Benning, Georgia, with about 1000 other officers. Lieut. Jacobs is a member of a pistol shooting team which will compete in the big annual meet to be held at Camp Perry, Ohio, in the near future.

U. S. C. PRESS CLUB TO START NATIONAL

Southwestern Intercollegiate Press. Univ. Southern California, Mar. 31. Plans for forming a national collegiate journalistic fraternity for both men and women are under way by the U. S. C. Press Club. If the fraternity is formed the club will form the mother chapter. The invitation was issued from the University of Nevada, following tentative discussions held during the last year.

This fraternity would in no sense be established in rivalry of either Sigma Delta Chi and Pi Delta Epsilon, the men's honorary journalistic fraternities, or Theta Sigma Chi, the women's national organization, but would be a pioneer movement in an entirely new field of a fraternity for both men and women.

WOMEN PLAY BASEBALL

Baseball is the sport which is now attracting a great deal of attention among the women students and several good practices have already been held. Later an upperclass team will compete with an underclass team and all who are interested in athletics are urged to come out and take part. On Monday, Wednesday and Friday practices will be held on Mackay Field at 4:30.

MEN-COED VERSION

These men are very simple folk
I like 'em.
They take me out until quite broke,
I like 'em.
I like 'em naughty, tall and lean,
And slim or fat or good or green
Or men with bald spots on their bean
I like 'em.

They take me to a formal hop
I like 'em.
And take me to a candy shop
I like 'em.
But when they show that they don't care,
And treat me roughly, like a bear,
And crack my ribs, and muss my hair,
Oh, Man!
I love 'em.

Thirty men from the Madison vocational school gets training in evening classes in the carpenter shops of the University of Wisconsin.

Member Southwestern Intercollegiate Press Association. Member Pacific Intercollegiate Press Association

RENO, NEVADA, THURSDAY, MARCH 31, 1921

NEWS BY WIRELESS

Another step in the forward direction will soon be made by the Sagebrush, unless plans now under way miscarry. With the formation of the Southwest Intercollegiate Press Association and admission to the Pacific Intercollegiate Press Association, the Sagebrush is now in direct connection with practically all of the leading college newspapers of the southwest and Pacific coast states and receives news dispatches on regular schedule from these institutions.

CHANGE IN REQUIREMENTS

The contemplated change in requirements, while of practical importance to 1925 and subsequent classes only, is interesting to everyone. By this new plan the entering Freshman will be brought face to face with some good solid subjects chosen from important, yet, dissimilar departments. Chemistry, Physics, Zoology, and English will all claim a share of his time.

Furthermore, few students have had sufficient experience to justify a final decision as to their specific line of specialization. The general nature of the courses to be taken hereafter by Arts and Science students during the first two years will result in giving them a wider experience from which to make their choice.

Few students in the University have taken the wide range of subjects which are now prescribed for the largest college, Arts and Science. Of the few that have been characterized by variety of choice, the majority have done so through indecision and changing of colleges rather than through unity of purpose.

PROMOTING INTERCLASS BASKETBALL

For several years Block N and Gothic N have been fostering interclass basketball. Their efforts are good but the benefits from them are shortlived. In each case interest has flickered up for three fitful games and then died away because the champions complacently refused to play any more.

Now a new movement is on foot: the winner of the women's interclass games no longer has a death grip on the championship. As long as the opposition is active and continues to challenge the winner's right to the cup, the winning class must demonstrate that it has a real right to victory, that it was not won on a fluke but on account of superior ability.

three classes are satisfied with the unmistakable superiority of the title-holders will contention for the cup cease.

This system should keep up interest, prevent the losers from offering excuses, and give opportunity for the development of real class teams, teams that really include the best material in the class.

This plan of competition has been adopted by the women; the men's basketball teams still have to win but two games to be declared interclass champs. Block N Society should adopt a similar plan for men; basketball games to start in the late fall upon the initiative of the classes: games to be played continuously in response to every challenge, and the final winner to be declared on Mackay Day.

With the College Scribes

A NEW GERMAN GAS ATTACK

The war is won and the German dream of dominance of the world is supposedly crushed forever, but even as we rest confident in our success, a new form of danger menaces the victorious allies.

At the Peace Conference, a certain sum was set as reparation to be paid by Germany. Now that the hot anger of the conflict has cooled, Germany pitifully pleads with the Supreme Council to have this burden lightened by reduction of the amount to a mere fraction of the first settlement.

That the proposal was even tolerated is the cause of unlimited amazement among keen thinkers, but it gives evidence of a new form of German propaganda among the people of the world.

Germany today is flooding the world with pro-German propaganda in the shape of sympathy for Germany in the carrying of the burden which she brought upon herself. That it has been successful is proved by the favorable reaction to Germany's recent proposal, in this country.

This sentiment toward the late scourge of civilization must be stopped and in this awakening, the American college student must do his part. At every opportunity, converted Americans must be made to see and understand the hold which the propaganda has on our country, and every pro-German tongue silenced.

It is a great opportunity for college students and one which is of as real necessity to their country as their actual service in the recent conflict.—Cub Californian.

GROW UP!

In the dark ages when college students wore long hair and Gates Ajar collars, it was customary for the carefree undergraduate to decorate his room with signs, obtained under cover of darkness from the helpless natives. Now the good old custom has been passed along to the beardless neophytes of the grammar and high schools.

Pelly feels that in no other college city in this country do such friendly relations exist between the local police and the majority of the students as in Berkeley. This may be due to the fact that over one-third of the Berkeley police force are college men, and disposed to take a broad-minded view of the minor failings of the undergraduates.

The Old Bird feels that those who make away with signs, especially at their present high price, are in the same class with those who take pennies from a blind man's cup.—The California Pelican.

Bursts of Humor from the College Wits

In the sweet silence of the twilight they honeyspooned upon the beach.

"Dearest," she murmured tremblingly, "now that we are married, I—I have a secret to tell you."

"What is it, sweetheart?" he asked softly.

"Can you ever forgive me for deceiving you?" she sobbed. "My—my left eye is made of glass!"

"Never mind, lovebird," he whispered, gently, "so are the diamonds in your engagement ring."—Pelican.

Eyes and See Not!

Maiden wearing new tight skirt—

Steps were high—eyes were bold

Me—I looked the other way—

Darling, I am growing old!

—Record.

Bashful man to clerk in department store—"I would like to see some silk hosiery.

Clerk—"For your wife—or something better?"

—Puppet.

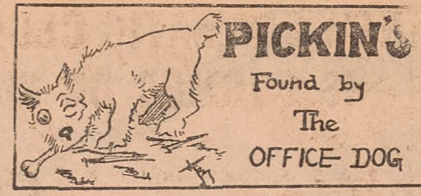

Why She Broke the Engagement

"There are six pretty little windows in my room," he meant to write—but he left the "n" out of "windows."

—Yale Record.

I saw her dress And laughed at it. For brevity's The soul of wit.

Porter—"Carry yo' bag, Boss? Never bus' a bottle yet.—Gargoyle.

According to a headline in the Winnipeg Telegram: MAN SHOOTS SELF IN BASEMENT—BLOWING OUT BRAINS

That starts me out again. Here I go: My mind it wandereth far, 'Tis spring! My mind's eye gazeth At the gap in the hedge! Yes, a hedge of pearl. The pearly teeth. My hero! He lacketh a tooth.

"Horse" tooth at that, I do believe.

Yep—and again: A silken circlet of colorful maze; A pink white surface of dimpled knee; Some maidens walking on a windy day;

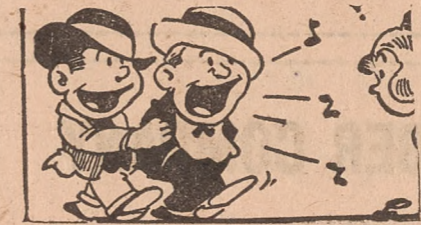

Some eyes are there, With which to see.

And "Willum" starts these little letters to me by "Darling Sagebrush."

Oh, boy! Willum is a Kampus Kitty she says.

Not long ago I met a Cow-eyed, Pug-nosed, Freckle-faced, Bow-legged, Co-ed. Weight 200 lbs. She showed me Her "hope chest." Believe me, She is An optimist! Gosh darn it, Women are Funny things! "Oh you are a Wonderful dancer!" She cooed to me, "I just love To dance With you!" And the Next breath, "Let's sit out This dance." I can't figure them. Can you?

The boys return after Easter vacation.

Did you know that Charley Gorman, a .333 bat artist of the Yakima team of the P. I. L. last year will shortstop for the Vernon team this year?

No, this is another Chas. Gorman.

An old grad, Louie Speller, has just been appointed Federal Revenue officer for Nevada.

Witness him in his first big catch.

Wish I could be a Revenue officer.

Emily Burke (at the Senior play try-out)—"I love you, dear." John Knight (same scene)—"I love you, too."

Emily—"Oh, we missed something."

What was it Emily. No one noticed it but you.

Art Harms needs no rehearsals nor practice in the love scenes. He is a finished and versatile actor. Must have had a lot of experience.

GOLD IS HANDED OUT BY DENVER BANK CASHIERS

Thus reads a local headline. Wish some of those cashiers would drift out to the Hill. I'll say we can use some of that gold.

One berry wants to know why poker chips are always red, white or blue.

Most common colors. But say, friend, honest, didn't you EVER get into a game where they use the yellow kind?

"Say Horse, where were you the other day?"

"Had a toothache."

"Has it stopped aching?"

"Dunno, the dentist kept it."

Guarded Like the favorite in the Sultan's harem; Hidden As securely as The sacred jewels Of a Hindu priest; Buried As softly As a pearl In the moon kissed waters Of a tropical Lagoon—

Are Women's Ears. Deprived of Power to hear They have become Expert Lip Readers. Watch your step!

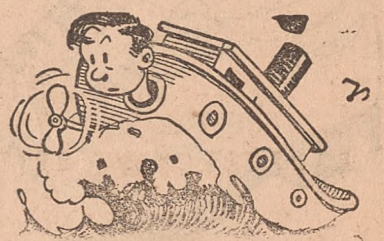

Converse Not with yourself.

—Reno.

And speaking of ears, modern girls ears should hear but not be seen.

There, little ear puff, Don't you cry, You'll be a bustle Bye and bye.

Mark Colwell is still relating incidents which occurred on the Hawaii football trip. Here's one of them—

I wish I was a little stude In class upon the Hill Not doing nothing much But just a sitting still I'd sleep a lot I'd eat a lot

And fool the livelong day And never never study But play and play and play.

Physics shark—I can't seem to get this magnetism thru my head.

Prof. Hartman—Well, bone is a non-conductor you know.

"Yer honor," explained the traffic cop, "he was burnin' up the pavement like the old nick himself."

"Guess that's right," agreed the humorous autoist, "you see I'm a regular speed devil."

"Fair enough," countered the judge. "Then I'll fine you twenty dollars for being in such a hell of a hurry."

This shows what's left in my head.

**NEW DRAMATIC CLUB
IS FORMED ON HILL**

Plans are now under way for the formation of a new Dramatic Society. Delta Alpha Epsilon and Clionia held a joint meeting Thursday evening for the purpose of forming such a society. It is planned that all D. A. E. members and all Clionia members who have taken part in plays will be eligible for charter membership. Membership in the new society will be determined by more rigid means than has heretofore marked the dramatic society membership requirements. Prospective members will have to prove their ability in the dramatic field and it is probable that they will have to take part in a one-act play which will be presented to the Dramatic Society before they will be eligible for a bid into the society. Another meeting will be held the latter part of next week and the plans will be definitely settled and completed. The new society will probably take up its duties at the beginning of next semester.

**NEVADA TO DEBATE
PACIFIC APRIL 22**

The next intercollegiate debate in which Nevada debaters will take part is to be held in San Jose on April 22. At that time the Nevada debating team composed of Carroll Wilson and John Harrison will meet the debating team of the College of the Pacific. The question for this debate is, "Resolved, that the Constitution of the United States should be amended to provide for the election of Presidential candidates by nation-wide direct primaries." This question is the same question that has been used in the interclass debates this year. This series of debates is not yet finished, although the remaining contests will come soon. The Sophomore team won from the Freshmen in the first debate in which the Sophomore had the negative side of the question. In the College of Pacific debate the C. O. P. team will have the affirmative side and Nevada the negative. This question is one of live interest with an abundance of material on both sides. Many good arguments have been set forth, both pro and con, and when the teams meet, the spectators will hear a very lively, interesting contest between the different speakers. The art of debating is one of the big things at C. O. P. It is fostered almost as much as athletics, and the team which represents that school will probably be made up of experienced debaters who know the tricks of the trade. Nevada is expecting hard competition in this debate and both Wilson and Harrison are working with that in view.

Wilson is a member of the Sophomore team which won over the Freshmen while arguing this same question. He thus has the experience of one debate on this question. Since the Sophomore-Freshmen debate he has secured a better knowledge of the question and should put forth a better argument at San Jose. Harrison, a member of the team which debated Brigham Young, is the other man who will debate for Nevada in this contest of words. He is well acquainted with the subject of this debate, and should do even better at San Jose than he did here.

U. of N.
Fifty-fifty
"Hear you've cut out gambling here," said the traveler to Arizona Pete. "Reform wave hit you, too?"
"Sort of, but mostly because everybody's plumb disgusted with the cheatin' that's been going on," returned Pete. "While ago a slick Easterner comes down here with a crooked deck and cleans everybody up. That disgusts all the natives. Then the Easterner discovers he ain't won nothing except counterfeit money. That disgusts him. So we decide to reform."
—American Legion Weekly.

DON'T FORGET YOUR 25c FOR THE Y. W. C. A. LUNCHEON ON APRIL 7.

**OVERTONES TO BE
PRODUCED AGAIN**

On April 22nd there will be a triple performance given by the Women's Glee Club, University Orchestra and D. A. E. Dramatic Society. The tickets will be handled by Miss Diehm, who is director of the Glee Club. D. A. E. will put on a play entitled "Overtones," which was produced at the Century Club two weeks ago and which was very well received. The play has an interesting subject and was very ably acted out, considering the small amount of time spent in rehearsing. There are only four members in the cast of the skit, which only takes about three quarters of an hour and the stage setting very effectively brings out the characters. Each participant belonging either to D. A. E., the Glee Club or the Orchestra, will be given one complimentary ticket. The other tickets will be 25 cents. This should enable a large number of University students to attend. The ushers will be the initiates to D. A. E. of which there will be a large number. Plans are under way for a trip to Carson with the show and the success of the performance in Reno will determine whether it can be taken to Carson.

Don't Forget the Military Ball Saturday Night

College News

MICHIGAN—According to an announcement made by Athletic Director Bartelme, no football game will be played between California and Michigan this Fall as no agreement could be reached upon a date.

CALIFORNIA—Charles W. Paddock, of the University of Southern California, smashed the world's record for the 220-yard dash and tied the record for the 100-yard dash, as his team went down to defeat before the California Varsity last Saturday afternoon by a score of 105 to 26. The 100-yard dash record was tied in the face of a stiff wind which leaves one to wonder what the time would have been with no wind to hinder the sprinter. A slight breeze favored the runners as they took their places at the start of the 220 but when the starter's pistol cracked the wind had temporarily died down. Hutchinson, California, got the start, but Paddock overtook him in the first 20 yards and from then on the race was his. He crossed the finish-line with a superhuman burst of speed, breaking the world's record, while Hutchinson, a few yards behind him, tied the world's record as he crossed the line. Although officials and coaches agree that the wind was negligible at the time of the 220 it is probable that Paddock's record will not stand because of the slight breeze which favored him.

Time for the old 220 record was: 21 1-5, Paddock's time was 20 4-5 seconds, Hutchinson tied the previous record.

Time for the 100 record is: 9 3-5 seconds, Paddock tied this and Hutchinson's time was 9 4-5 seconds.

STANFORD—The Varsity track team defeated the Olympic Club in their second meet of the season by a score of 66-55. The relay race decided the meet in Stanford's favor.

UNIV. OF TEXAS—The University Post of the American Legion will stage the "Battle of San Jacinto" in connection with the Varsity Circus on April 21st. The historical setting and details of the battle will be worked out in detail.

CALIFORNIA—Molly's Pete, four-months-old Davis Farm heifer, is now the "champion racing cow" of America, having defeated the former record holder, Molly, by two hours and ten minutes in the California cow derby, over the course from Davis to Berkeley. The time for the new record is 95 hours, 50 minutes and 12 seconds.

UNIV. OF PENNSYLVANIA—Major General Wood will accept the position of president of the university upon his return from a tour of investigation of the Philippines, during which he is to determine if the islands are qualified to receive their independence. It is understood that General Wood will receive a salary of \$25,000 a year as the head of the university, an amount far more than the highest salary paid in the army service.

UNIV. OF COLORADO—Twenty-six high schools have signified their intentions to enter the second annual all-west track and field meet to be held here on May 14th. Eight hundred dollars' worth of trophies will be given to the winners of the various events of the meet which is to be managed by the Boosters Club. Of the twenty-six schools entered, twenty-one are from other states.

Delta Chi Zeta, a local sorority, has been granted a charter in Kappa Alpha Theta, the oldest Greek letter sorority in the United States having been founded at DePaw University in 1870.

ARIZONA—Tau Delta Psi, a men's local fraternity, has been granted a charter by Sigma Chi, a national Greek letter fraternity. This makes the fourth national fraternity to be represented on the local campus.

U. S. NAVAL ACADEMY—Anapolis has recently received an appropriation of \$200,000 for the construction of a swimming pool. This pool will be one of the largest in the world, and will have a seating capacity of 3,000 people.

U. of N.—About 1210 Wisconsin physicians and health officers sent 36,981 bacteriological specimens to the State Laboratory of Hygiene, Madison, for analysis during the past two years.

HILL Y. W. C. A. DAY TO BE APRIL 7th

It has been decided that the date for Y. W. C. A. Day will be April 7. This falls on Thursday and the luncheon will be at noon in the Agricultural Building. The tickets are to be 25 cents each and no one will be admitted without a ticket. They can be procured from any one of the cabinet members and they must be procured by Tuesday before the day set for the lunch.

The organization has had a great disappointment in that Miss Babson will not be able to visit here this semester. It was hoped that she would be here to instruct the new cabinet in their duties and also to go over the work that the "Y" has done this year but on account of her schedule she will not be able to come. It is a very keen disappointment to all of the women but especially to the cabinet members as they had counted on her visit. The organization on the Hill has done excellent work all year, the more so because there has really been no secretary and the women have done all the work that a secretary does. They have carried the burden of the "Y" alone and have been successful in all that they have undertaken. They deserve a great deal of credit and their experience will be a very great help to the new cabinet when they take up their duties.

Next Wednesday the new cabinet will be installed at the regular meeting time. After the installation the old and the new cabinets will be the guests of Mrs. Clark at dinner at the president's house.

FORMER HILL MAN GIVEN HIGH OFFICE

Louis A. Speller, a student of the University some years ago, has recently received formal notification from President Harding of his appointment as United States Internal Revenue Collector for the District of Nevada. Speller will take the place which was left vacant upon the resignation of W. A. Kelly, and his appointment is to one of the big jobs of the state.

Louis Speller was a student on the Hill for four years, leaving the U. of N. in 1906. Since that time he has been in various positions, for the last few years being a member of the Gazette's sport and political staff. Last fall he was elected to the assembly from Washoe County, serving on the state legislature which has just closed.

Y. L. I. COED TEAM COAST CHAMPIONS

The Y. L. I. team of San Francisco has claimed the women's championship of the Pacific Coast by virtue of their victory some time ago over the University of Nevada Co-ed sextet. The Young Ladies Institute basketball team has not been defeated this season, and the victory over Nevada's strong team gave them the right to claim this championship which without doubt will be awarded them.

A record-breaking number of students are specializing in chemistry at the University of Wisconsin this year—about 2500 are taking one or more courses.

Correspondence courses in social science studies were pursued by 2293 of the 20,116 students enrolled by the University of Wisconsin Extension division last year.

ARTICLE BY SEARS APPEARS IN JOURNAL

An article by Professor G. W. Sears of the Chemistry department, occupied a prominent place in the last (March) issue of "The Journal of the American Chemical Society." The title of the article, "The Separation and Detection of Arsenate and Arsenite," is self-explanatory but the method used is too involved to give here. Professor Sears' classes in qualitative analysis have successfully used the method as a means of detecting arsenate and arsenite either alone or in the presence of each other.

U. of N.—WISCONSIN—A concert by the Men's Glee Club was heard by wireless operators within a radius of 1000 miles of Madison one night last week. As part of its experimental work, the wireless station of the physics department of the University of Wisconsin rigged up the apparatus to pick up the songs as the men sang them before a university audience in Music hall, and to carry them far across the country to listening operators. Other converts will be sent out by wireless later.

WASHINGTON STATE—Dr. F. A. Golder, formerly of the history department of the State College of Washington, has found the lost library belonging to Professor Milliukov, the famous Russian historian, according to Mrs. W. G. Beach, who has been visiting in Pullman.

Professor Milliukov, who lost his library when he was banished from Russia by the Bolsheviks, promised Dr. Golder that he might have the library for Stanford University if he could find it.

"PINKEY" BROWNE IS STILL N. E. CHAMP

Howard E. Browne, a former student of the University of Nevada and now in attendance at Harvard University, recently defended his championship title in a series of wrestling bouts held at the Cambridge "Y." He told the amateur championship of New England in the 125 pound class and was entered in the contest by Harvard University. During the bouts he came up against all the best wrestling talent of the Eastern athletic clubs. While attending the University of Nevada he made an enviable record on the mat and carried off the amateur championship of the Pacific Coast. He qualified for the Harvard scholarship and is now studying law there.

Browne won his first bout from Malnate by using a wrist lock and half nelson and taking the fall in 43 seconds. Chickness of Providence was the second victim, his fall occurred in five minutes and some seconds, and was accomplished by a half nelson and arm hold. The final match was more trying but after wearing down his man Brown threw him with the same tactics, time 8 minutes 35 seconds.

His opponent in the finals was Uno E. Naponen, Hurja Club, Quincy. Browne was in fine condition having trained down from 136 to 125 within a week. He states that he was "on edge" and "had the boys from the time they hit the mat." John Belford '20, was present during the elimination contests and undoubtedly aided the champion materially by furnishing the necessary rooting section.

Notes
During the past week-end the Hall was extremely quiet, due to the fact that most of the women visited their homes during the Easter vacation, returning in time for school Tuesday morning.
Miss Margaret Mack spent Easter with relatives in San Francisco.
Nevada Cazier was the guest of her sister Louise during the past week.
Elizabeth Tinguely left the Hall Sunday for a two weeks' stay in Virginia City where she will teach in the public schools.
Eloise Ogilvie was in the hospital for a few days during the past week.
Virginia Stock spent a few days at the Hall visiting her sister, Evelyn.
Friday night Miss Dorothy Middleton was hostess to several of her friends at a feed in her rooms. Those present were: Merle LeMaire, Genevieve Morgan, Justine Badt, Bertha Joeger, Louise Grabau, Hortense Valleau and Dorothy Middleton.
Erma Hoskins and Marjorie Stauffer spent the Easter vacation at their homes in Winnemucca.

Artemisia

The Artemisia staff reports progress. The task of writing up the large amount of material is rapidly nearing completion. The covers are expected from the East any day, and after their arrival the work will move much faster.

The staff is still in need of photographs and jokes, and if you have any which you desire to see in this issue of the year book, kindly hand them in to the staff and they will be published. There are still a few members of the Junior-Senior classes who have not handed in their personal records, and if they will kindly place them in the box in Miss Sissa's office, it will be appreciated.

The tickets for this year's Artemisia may be procured from the editor, the business manager or any other member of the staff. They cost a dollar and a half, and the balance of \$3.50 can be paid when the book is completed.

H. S. TRACK MEET TO BE ABOLISHED

At a meeting of the board of control held recently, it was decided to abandon the annual Interscholastic track meet for this spring, and possibly do away with it for good. These meets have attracted a great deal of interest among the high schools of the state, and every year have been attended by a large number of the cinder enthusiasts from the prep schools. At the meet last year, approximately a dozen teams were represented and fast time made in several events.

The action of the board followed a thorough investigation made by the members regarding the meet planned for this May and it was finally decided best to drop the affair for this year, and the future at least while the present railroad rates are in effect. It was felt that the financial burden upon the high schools of the state was too heavy to be borne by them without hardship, especially considering the fact that the majority of the institutions of Nevada are annually represented in the State High School basketball tournament held usually only two months previous to the field meet.

It was decided to make the basketball meeting one big gathering of the year, and to make it even larger and more elaborate than it has been in the past. The tournament held this year was one of the most successful ever staged in the history of the university, approximately twenty-five teams, both boys and girls, being entered. The fact that the high school girls as well as the boys participate in these games was another factor largely responsible for the decision of the board to enlarge the one and abolish the other.

It is probable that the annual state declamatory and oratorical contests will be continued as before with the exception that they will be held at the time of the basketball meet rather than in connection with the track tournament as in the past.

Useless Change

A weebegone looking traveler in a small Georgia town approached the ancient colored man who opearted the one-oar ferry across a dinky stream, and accosted him with:
"Uncle, I'm broke and I got to get across the river. Will you trust me for it?"
"Fare's only three cents, boss."
"I know it, but I haven't got the three cents."
Uncle Mose placidly resumed his pipe.

"Boss," he decided, "ef yo ain't got three cents you won't be no better off on dat side de ribber dan yo' is on dis."—The American Legion Weekly.
—U. OF N.—

A Good Job
A convoy of troops was coming back on board the Baltic. The endless expanse of water had made them all apathetic, and assignment to the simplest details drew a vast amount of grumbling.

"See here, you," ejaculated the top sergeant disgustedly, eyeing the laziest man in the outfit. "You don't want to do this and you don't want to do that. Is there any job on earth you'd like to have?"
The youth ruminated. Then his eye brightened.
"Yes," he said, eyeing the broad surface of the sea uninterrupted as far as the horizon. "I'd like a job calling out stations on the White Star Line."

PAPER MUST NOT PRINT WORD 'DANCE'

Southwestern Intercollegiate Press.
Univ. Southern California, Mar. 31.
A former edict prohibiting the use of the word "dance" in the headlines over stories appearing in the Trojan, the student publication, having failed in its purpose, the word "dance," any of its synonyms, or any suggestion of the act, is absolutely taboo in the Trojan, as a result of the latest decision of the Student Publications committee. In accordance with the new ruling, dances will be known in the paper as "social reunions," and one organization will be said to have "entertained" another organization. Mention of the fact that an orchestra furnished music for the "social reunion" is forbidden on account of the suggestion conveyed. The ruling was put into effect in order to support the stand on dancing taken by the Methodist-Episcopal church, which sponsors the university.

ALARM CLOCKS AT U. S. C. WAKE CLASS

By Southwest Intercollegiate Press
Univ. Southern California, Mar. 31.
Eureka! At last a method of keeping students awake in Econ. has been discovered. Just a few days ago the students in an Econ. class were suddenly, and without warning, aroused from their slumbers by the violent alarm of a "Big Ben" located within a piano in the assembly hall. The clock was silenced, but the lecture did not progress very far before another alarm was heard, also from the piano. Shortly after another similarly located clock rang. At regular intervals, judiciously placed alarm clocks sang forth from various parts of the hall, interrupting the peace of the students for the remainder of the hour. The inventor of the scheme, being still unknown, has not been awarded due honors and distinction. Since the occurrence, it is said, that the members of a certain fraternity have been repeatedly late to their early classes.
—U. OF N.—

A Senior's Legacy

To Whom it May Concern: I cheerfully recommend my old girl to any undergraduate young man wanting a suitable dating companion for next year.
She is a good dancer physically and morally.
She is a good looker.
She is a good listener.
She isn't too good.
She is an excellent pedestrian; in fact, she will always say that she likes to walk, although she is not prejudiced against a car.
She is a fairly light eater except on Sunday. It is advisable to eat table d'hote on Sunday.
She is a woman of deep emotions whom only you will be able to thrill.
She has to the best of my knowledge absolutely no ideas of her own on any subject except you.
My sole and simple reason for quitting her is that I am leaving school. Treat her right. She likes to be treated.—Iowa Frivol.

The Cleaner Who Cleans

B. M. Works On Gem Coloring

(Continued from Page 1.)

in about 24 hours, and on being exposed to the sunlight for about twenty minutes fade back to their original colorless state. The color is discharged also by slowly heating the crystal, but during the discharge of the color, when the mineral is heated in a dark room, no light is given off. The mineral Kunzite when exposed to the rays acts differently. It changes from a salmon pink to an emerald green color, which at a low temperature gives off a yellow light. Flourspar gives off a blue white color on heating, some of the crystals going back to their original violet color, while some change to colorless. Upon further treatment by the radium rays these fluorite crystals show no change. Quartz changes to a smoky color, and amethyst when heated discharges its amethystine color and changes back to the smoky color. Utah Topaz under the rays of the tubes takes on a pale amber color, which upon further exposure to the rays changes to a deep amber brown. Glass also is effected by the rays, the color changing from colorless to varying shades of violet, depending on the length of time the glass is exposed to the rays. It is possible to make a banded effect on a glass plate by exposing different sections of the plate to the rays for varying lengths of time. Upon exposure to sunlight the colors however fade. Upon heating radiated glass to nearly 200 degrees, or near the softening point, the color disappears. Brown color when heated to this degree changes to violet. Many cut diamonds have been experimented with in order to determine if possible whether or not they could be given a permanent color through the action of the radium emanations. This mineral is probably the most difficult of all to color, but with several of the stones an increase in color has been noted. A pale yellow diamond took on a canary color which has appeared to be permanent. Upon heating, no light is given off. Sapphires are colored permanently a green or blue to canary yellow color.

Nearly all of these minerals when brought near a radium tube in a dark room glow with a soft fluorescent light and when the tube is removed continue to glow with a soft light for a considerable length of time.

Experimental work is still being carried on by Dr. Lind, and it is hoped that in the near future, even more interesting effects of radium action on minerals will be observed.

"MOLLY" MALONE JOINS BENEDICTS

George Wilson Malone, better known as "Molly" to his many friends on the Hill, entered the ranks of the Benedicts last Sunday afternoon, when at an impressive ceremony, he claimed for his bride, Miss Ruth Moslander of Yerington. The marriage was performed by the Rev. Brewster Adams at the home of Mr. and Mrs. Norman Brown, with only the relatives and a few intimate friends of the couple present. Immediately following the ceremony the couple left for the coast for a few weeks honeymoon, before making their home at Yerington.

Mrs. Malone is one of the most popular young women of Yerington, and is well known by many of the students on the Hill. "Molly" is a former student of the University and was one of the best known of Nevada's athletes, being a star on the football team three years, one of which he served as captain. He was also a member of the baseball team and held the captaincy of the Varsity nine the last year in which Nevada fostered the sport. He is a member of Sigma Alpha Epsilon and Coffin and Keys honor society.

U. of N.
The Complete Laborer

A stranger strolled into the office of a small-town paper.

"I wonder if you could put me in touch with the writer of this ad?" he said, handing the clerk a clipping which:

"Young man, industrious, reliable, wants work as chauffeur, cook, stenographer, painter, carpenter, clerk, night watchman, steamfitter, handy man or laborer. P. O. Box 13."

"Got a job for him?"

"No, but I'm a stranger in this burg and I want to meet up with an ex-Army man."

Changes Made For Engineers

(Continued from Page 1.)

man year, students in both departments will be required to take a course in personal hygiene, one hour each semester. This latter will be true of all the engineering departments as well. A similar requirement will be made for students of the College of Arts and Science.

The course offered by the School of Mines will not differ so materially as either M. E. or E. E., there being less changes of an important nature made. One noticeable feature of this school however, will be the fact that until the senior year, no elective subjects will be available, of all subjects being prescribed for the first three years. At present mining students are allowed thirteen units of elective, while next year but nine will be possible.

The School of Civil Engineering will have many new features. As in the other departments, less units will be open for election, though some will be available in each year. Thirteen hours will be the standard in the future while this year, twenty-four have been available. Probably the most important change is the substitution of courses in Physics 1 and 2, totaling eight hours in both semesters, for the present courses of Physics 3, 4, 5 and 6, totaling fourteen hours. "Strength of Materials" will also be given increased hours, being slated for five hours a week during the first semester. Both lecture and laboratory courses in surveying have been moved from the third year to the second year, thereby enabling the students to make practical use of the knowledge gained in these particular subjects, a year sooner than is possible at the present time. As in the other schools, more stress will be laid on economics, technical reports, and psychology, all of which will be required for graduation.

NOTED SPRINTER NOW PLAYWRIGHT

U. of N.
By Southwest Interscholastic Press Univ. Southern California, Mar. 31.

Not being content with consistently winning first place in the 100 and 200 yard dashes, editing the Trojan, and maintaining a high scholarship, Chas. Paddock, America's greatest point winner in the last Olympic contest, has found time to invade the field of playwriting with first honors. Of the plays written by Dr. Gaw's playwriting class, Paddock's dramatization of Dicken's "A Tale of Two Cities" was declared the most suitable for presentation, and will be accordingly presented in May by the Junior class. Paddock's play will be the first to be given in the auditorium of the new Bovard Administration building.

"Under Cover" To Be '21 Play

(Continued from Page 1.)

all Seniors will be asked to sign up definitely for the number they want on a list which will be left at the Registrar's office. The matter of caps and gowns is in charge of Earl Wooster, and all graduating Seniors who have not already made arrangements with them for their equipment, should do so at once.

NORCROSS TALKS TO FAC. AG. CLUB

U. of N.

At the last meeting of the University Faculty Agricultural Society, Mr. C. A. Norcross presented an interesting paper entitled, "What's the Matter With Nevada." Attention was called to the fact that Nevada is about the last state in which a large amount of land is yet government owned, that but about one ninth of the acreage of the state of Nevada is subject to taxation, and that further progress will be impeded until the remaining eight-ninths becomes productive of revenue.

In order to bring this large area to the aid of the state it will first be necessary for Congress to grant these lands to the state. With this area, much of which is grazing land, under state control, a sufficiently large income may be derived by charging grazing fees, the moneys so obtained being more than enough to initiate measures for the improvement of the range, such as the control of rodents, improvement of watering places, and carefully controlled grazing. In this way the now depleted ranges may be brought back to their former productivity and carrying capacity, which in turn will affect the income of the state as a whole.

It was also pointed out that increased income for the state may be obtained through a readjustment in taxation on the products of the mining industry.

The initiation of these features would undoubtedly give the state a great impetus and would be a starting point for greater state progress.

NOTICE TO WOMEN

U. of N.

The Associated Women Students have found it necessary to levy a tax of 25 cents upon each woman student in college in order to pay off the debt contracted last semester. It is very desirable that this money all be collected as soon as possible. There are still a large number of women who have not paid their assessment. Unless the money is all in by next week, a personal canvass will be necessary.

TRACK MEN

Track men are requested to turn out for track at once. The meet with Davis Farm is assured.

The meet will be held on April 23 at Davis, Calif.

The following meets will be held this track season:

Inter-frat-Lincoln Hall meet on April 2nd.

Inter-college meet April 9th.

Interclass meet, April 16th (Mackay Day).

Davis Farm at Davis, April 23rd.

The team to represent Nevada at Davis will be picked from the three meets preliminary to the Nevada-Davis meet.

Coach Courtwright will be on Mackay Field every day from 3:30 to 6 p. m. to give pointers to anyone who wants to turn out for the team.

Freshmen can substitute track work for gym classes.
