THE STUDENT NEWSPAPER OF THE UNIVERSITY OF NEVADA

Vol. XXX.

UNIVERSITY OF NEVADA—RENO, NEVADA, THURSDAY, SEPT. 7, 1922

No. 1

Many New Names On Faculty Roll

Changes Total Twenty-One. Four Former Students of the University Included on Teaching Staff. Two Additional Men Obtained to Take Charge of Athletics. Course in Journalism Offered

Since the close of last semester, many changes have taken place on the personnel of the University faculty. Twenty-one new names appear on the faculty by roll, seven of which are in addition to last year's instructors, the remainder being those who have come to fill vacancies left by resignations.

"Prof. Gottardi"

In the Department of Modern Languages, Prof. Francis Clark Murgotten has come to take the place of Prof. Steinbrunn, and Prof. Gottardi has been added to the staff of that department to take care of the increasing enrollment in language courses. Prof. Murgotten is a graduate of Stanford University. Prof. Gottardi is a member of the Class of '21 of this university.

Prof. Lehenbauer, who taught in this university from 1914 to 1917, and has since been at the University of Illinois, has returned and will assume duties as Associate Professor of Biology. Prof. Lehenbauer takes the place of Prof. Harris.

Other Eminent Locals

Miss Laura Ambler, a graduate of Nevada and Columbia Universities will instruct in the English Department, giving special attention to the new courses in Journalism.

Miss Ruth Billinghamurst, a former Nevada student, and graduate of Ohio Wesleyan University, will teach in the Chemistry Department. As a teaching fellow in Chemistry, Miss Hazel Murray will devote part time to instruction, and part time to graduate work in that department.

The place vacated at the death of Robert Lewers, former Vice-President of the University, in the department of Economics and Business has been filled by Professor John H. Morse, who will conduct the courses in Business Administration.

Prof. H. L. Shirley from Indiana University will conduct the classes scheduled for Prof. Nyswander who is on leave of absence.

In the Department of History, Prof. Raymond H. Leach takes the place of Prof. Jones who resigned at the close of last semester.

Prof. Edward H. Roberts, Assistant Superintendent of Schools of Cincinnati, Ohio, has come to the University to take the place of Prof. Traner during the latter's absence this semester in attendance in the University of California in the pursuance of graduate work.

Bixby Changes Status

In the Engineering Department, Prof. F. L. Bixby will assume full charge in the place of C. R. Hill. Prof. Bixby has been transferred from Federal Service to this position in the University. Prof. Henry E. Higgins, formerly part-time instructor and analyst in the State Mining Laboratory, will be an Instructor in Mineralogy. Another addition to the faculty is Prof. Rollin H. McCarthy, of Cornell University, who will instruct in the Department of Electrical Engineering.

Mrs. Louise K. Hammond from Oregon Agricultural College has been added to the staff of the Home Economics Department.

(Continued on Page Eight)

NEW RULING MADE ON POSTER FIGHT BY UPPERCLASSMEN

Now that the semester is under way, the campus will soon be ringing with the battle cries of opposing underclassmen. One of the oldest traditions on the Hill is the poster rush. This is the first test of strength between the two classes and is the opening of hostilities which cease only when the freshman class has acquired that lowly mein characteristic of all first-year men after they have been properly disciplined.

In the past, it has been the custom of the sophomores and the frosh to disfigure the buildings of the campus by plastering posters on the windows, the doors and even the ceilings. The idea of the poster fight is for the sophomores to put out their posters and keep them out until morning. If the freshmen are able to cover the second year men's posters or tear them down, they win the rush.

When a class or members of a class crawl into a building and paste posters on the inside of a third story window they are not giving their opponents a fair show. The fight is a test of strength and not a battle of wits for neither class is credited with possessing any of the latter.

Several years ago a move was made by the upperclassmen to have the posters confined to the sidewalks and poles on the campus. Somehow the plan miscarried and while one side lived up to the agreement the other did not.

This year the upperclassmen will see that the campus buildings are not disfigured by posters. To this end, Mel Sanders, president of the student body, has issued a proclamation that can be found on the bulletin board in Morrill Hall.

LIBRARY DOORS NOT OPEN UNTIL MONDAY

The University Library will not be open to students until Monday, September eleventh. There has been a change in the library staff due to the resignation of Miss Johnson. The place of assistant librarian will be taken by Miss Marie Taylor who comes to the University from Los Angeles where she has been engaged in the same line of work.

NATIONAL SORORITY GRANTS CHARTER TO LOCAL ORGANIZATION

Beta Mu chapter of Kappa Alpha Theta, one of the leading college sororities of the country, will be installed at the University of Nevada this fall. The local organization of D K T was granted a chapter at the Theta national convention held in New York June 24.

Installation will be held within a month, the exact date not having been set, and will last four days. National officers from the East and members of the University of California and Stanford chapters, about fifteen in all, will visit this university soon for the purpose of officiating at that time.

A large number of college groups presented petitions for a chapter in Kappa Alpha Theta upon the occasion of its convention, but Nevada was the only successful one among them. It was the first time that a petition from this university had been presented. President Clark considers it one of the year's achievements of the university that a sorority of the standing of Kappa Alpha Theta has recognized Nevada's worth as a field for one of its chapters.

The active members of Beta Mu chapter will be Marion Muth, Leona Bergman, Genevieve Chatfield, Marion Lothrop, Janet Marshall, Eleanor Ahlers, Hester Mills, Alva Quilici, Eleanor Westervelt, and Helen Halley. Resident alumnae members of Kappa Alpha Theta are Mrs. Walter E. Clark, Mrs. Robert M. Price, Mrs. Lester Summerfield and Mrs. R. O. Courtright.

D. K. T. was organized in 1917 and since that time has taken an active part in college affairs.

INFANTS MAKE FIRST ATTEMPT TO ORGANIZE

At the first meeting of the Freshmen Class held last Wednesday and attended by approximately 125 new students, the opening arrangements were completed for the poster and cane rushes. The showing was much smaller than expected, but the spirit evidenced was particularly commendable.

Chris Sheerin, Junior Class president, was in charge of the assembly. He first called on Jack Ross, editor of the Sagebrush, who gave a spirited talk on the school paper and the possibilities of new students working with the "Brush" staff. All those interested in this line of work were advised to leave their names after the meeting.

Sheerin then reviewed the school's traditions, explaining the procedure in the rushes, and told the new men what would be expected of them. Nominations were then held for a fight captain to lead the class thru the rushes. Lee Harrison, a Reno man familiar with class fights, was chosen to head his class. Definite plans were then made for the printing of counter-posters, the meeting of the class for the evening festivities, and the most strategic procedure for its conduction. The meeting closed with the characteristic college snap, and the upperclassmen present felt assured that the new class was of the same calibre as those which have gone before it.

By way of getting the students acquainted an informal dance will be held in the Gymnasium at 8:30 Saturday night. All Students invited to attend.

Wolf Pack to Meet Finest Coast Teams

Nevada Varsity Will Carry the Heaviest Football Schedule in the History of the School. California, Stanford, and U. S. C. to Be Played on their Home Grid. Good Material Among Freshmen

Even tho the University has lost some good men due to graduation Coach Courtright expects to turn out a team worthy of Nevada's traditions; one that will fight from start to finish and uphold the reputation of former Wolf packs.

"Corky" will be ably assisted by Lawrence Shaw, tackle on the famous Notre Dame eleven for the past four years. Mr. Shaw will develop the line into a formidable and fast bunch of forwards while Courtright will give his attention to the back field in which he is a master. From indications Corky has men from last season who will be able to fill the places left vacant by

the nimble Bradshaw, the flashy Reed and steam roller "Windy" Johnson and Captain Martin.

Other letter men who will in all probability not be back are "Bevo" Colwell, the huge guard who gave such a good account of himself last year; Tom Middleton, the hard-hitting back and Reynolds who filled a hole in the line.

The University is fortunate in securing the services of Dr. Clough as conditioner and trainer for the squad. Dr. Clough comes to Nevada with high recommendations and with his assistance the Wolves should be fit and ready when the first whistle of the season blows.

The freshmen and beginners will be coached by former Captain Edward Reed. With this plan Courtright will be able to devote his entire attention to his first string men.

As the Sagebrush goes to press before the bulk of students return it is hardly possible to forecast what the prospects are in regard to new material for the team, but thirty men had signed by Tuesday afternoon.

At the present time at least five Reno High men are expected to register and be on hand for the initial practice. A number of other High School men are expected to register and it is quite probable that the U of N will receive some men from other colleges.

Fran Martin Returns

While every student on the Hill knows Bill Martin but few of them have heard of or remember his older brother and predecessor, Fran. Fran Martin like his brother was captain of the 'varsity in 16. Like our own "Wild Bill" Fran was a slashing and clever player. The old timers will never forget the game with California Varsity when, with a shut out in sight for the Silver and Blue, the Sagebrush skipper plucked the pigskin out of the air on a forward pass and ran eighty yards thru the entire team of the Golden Bear. Leaving the University at the call of his country Martin went overseas and after the war distinguished himself as quarter on the team that won the A.E. F. championship. Martin has been putting in his time on a farm and is returning bronzed and husky for another try at the gridiron.

IMPORTANT CHANGES MADE ON CAMPUS

The beginning of the fall semester marks the near completion of the improvement work on the campus which has been in progress thru-out the summer. Several much needed additions have been made to a few of the buildings, which will provide more commodious facilities for the increasing size of the classes. These alterations and improvements have been under the direction of Joe Lynch, superintendent of the University grounds. All possible credit for the fine shape which the lawns are in and the splendid appearance of the campus in general should be given to Superintendent Lynch, under whose careful supervision the summer work has been carried on.

The more important changes include the addition of two rooms in the Electrical Building, the construction of an extension for the gymnasium together with remodeling of the interior, construction of an asphalt roadway from the bridge to the gymnasium, several improvements about the tennis courts, and the rejuvenation of both of the dormitories and the dining hall.

Gymnasium Remodeled

A thirty foot extension, two stories high, has been added to the west end of the gymnasium, the new section to be turned over to the men. This extension is sixty feet wide, the entire width of the gym, and will amply accommodate the number of men who will use the gym. The downstairs space contains three rooms, one large room for exercise work, a shower room, and a lavatory.

The big room is thirty by forty feet, and fourteen feet high, and is to be used by all regular classes in gymnasium work instead of the big gym floor. By using this new room, at least two classes may be scheduled for the same hour, or gym work may be carried on while basketball practice is in progress. It is probable that all advanced exercise work will be held in this room.

The upstairs contains five rooms and the stairway. There is a locker room directly over the big room downstairs, and measures thirty feet square. The rest of the space is divided into two offices, an inspectors room, a towel room, and the landing space from the stairway.

The other end of the gymnasium, the upstairs of which was devoted to the men, has been completely remodeled, and the entire end, both up and downstairs, given to the women. The rooms have not been altered downstairs, but the upstairs has been partitioned off so that there are two office rooms, a shower, and a class room. The class room is in the northeast corner, and will be used for the women's physical education and dancing classes.

The main gymnasium has also received a few improvements. Eight windows, four on each side, have been cut in the brick wall, and will provide better light and ventilation on the floor. A door has been cut in the west end to provide admittance to the new addition, and upstairs one of the large windows has been cut to the floor to provide another door. This last door opens directly onto the stairway leading outdoors, and will be used as a fire exit, and for no other purpose.

A small fire proof room is being built on the north side of the addition, and

a furnace installed. This furnace is to provide hot water for the shower rooms. Also on the north side, a platform is to be built as an extension to the store room. This will have steps at both ends, and a movable iron railing running the length of it. It will provide a loading platform for the gymnasium, and also a fire escape for that side. Large doors swinging outward are to be built in the store room, which will open directly onto this platform.

This new work, when completed, will provide a setting where it will be possible to carry on a much larger program in physical education. Many new lockers have been ordered, some of which have already arrived.

Rooms Added In E. E. Building

The class room space in the electrical engineering building has been considerably enlarged by the construction of two new rooms on the second floor. One room is placed at each end of the laboratory on a level with, and opening onto, the balcony. The room at the north end is twenty-four by sixteen feet, and extends across the balcony. The other room is twenty-one feet square, and does not cover the balcony. This latter room is to be used as a mechanical drawing room operating in conjunction with the old drafting room. The north room will probably be used as a lecture room for the civil engineering department. These rooms, while they cut out a portion of the light from the skylight, do not darken the main laboratory downstairs an appreciable amount. Two windows have been placed in each new room opening into the big laboratory, and one window has been cut thru the rear wall, giving light and air from outside.

The long room in the front of the building upstairs has been subdivided into an office and a long room. The latter will be fixed up as a library and study room for the engineering students.

Dormitories Renovated

All the rooms of Lincoln Hall have been thoroughly cleaned and placed in good condition. In Manzanita Hall, about fifteen rooms, most of which are on the third floor, have been repapered, and the remaining rooms put in good shape. The dormitory is further enriched by the purchase of a new rug for the main reception room.

In the dining hall, a new range has been installed in the kitchen. This range is to burn oil and will take the place of the old coal burning stove which was formerly there. It is expected that the new equipment will prove much more economical than the old, and certainly more convenient.

Tennis Courts Receive Attention

The University tennis courts have also received attention. The back stops were in such poor condition that they offered no impediment at all to the balls. All this has been remedied by the construction of new backstops around the court. The posts and framework have been painted a dark green which gives a background against which it is easier for the eye to follow a moving ball.

The ground just north of the tennis courts has been leveled during the summer, and the area planted in grass.

—As They Say In Manzanita—

Merle: "I was so tired after spending the whole evening swinging dumbbells."

Miss Shade: "Why Merle you know you shouldn't take calisthenics before going to bed."

Merle: "Oh, I meant that I was at the Frosh Glee."

SOPHOMORES AND FROSH WILL MEET SATURDAY

Saturday afternoon at two o'clock will see the end of hostilities between the lower classes when they meet on Mackay Field in the annual cane rush. This class struggle is the aftermath of the poster fight and other night battles.

Since the class of '25 stole a march on their greener brothers and planted their feeble exhibition of second year wit in a most unsportsman like manner, Saturday's conflict promises gobs of gore and a titanic scrap. The Frosh are out for blood and the Sophs are planning to sneak up on them again.

The idea of the cane rush is for the second year men to carry a stout oaken cudgel from the north goal posts to the south goal in a limited time. Five minutes before the final whistle the Sophomores are permitted to hide the cane in their ranks and the frosh have to guess the strategy of the day.

At the report of a gun, held by some upperclassman, the opposing hordes rush together and meet with a clash that may last for twenty minutes unless the second year men are clever enough to outwit the incoming class and plant the piece of wood on the other side of the white line.

The class winning both of its cane rushes, that is, the one their freshman year as well as their sophomore year, is permitted to wear a white vest and carry a cane. The present sophomore class can not achieve this honor because of their losing the first year rush. There is, however, a possibility that the incoming Class of '26 may do so.

IN MEMORIAM

I.

Gentle was she, and calm; a happy friend,
Clear visioned and unchanging; kind and wise,
Her heart seemed all a summer without end.
The keen thought hid not the laughter in her eyes.

II.

And summer sped. She could not wait the fall,
Nor risk of sorrow, bitterness or tears.
She left her books, her thoughts, and all
The risk of weariness brought by the years.

III.

Yet still to see her smiling on the Hill,
I'll mock strong Death with timeless memories;
Recalling the friendly hour: until
I see her sunny head beneath the trees.
'22.

ADVANCE WORK TO BE ENCOURAGED BY NEW FELLOWSHIPS

A number of undergraduate scholarships have existed for some time on the Hill, but this year will see the first graduate awards. They were finally obtained through the tireless efforts of Dr. Adams. The main purpose of these fellowships is to furnish the expenses so the students may be able to pursue advance work. These classes of scholarships are customary in our leading universities.

The fellowships awarded this year consist of two part-time fellowships in the department of chemistry. One is a teaching fellowship in which the student will devote half of his time teaching and assisting in the laboratory. The other is a research fellowship in which the student will put half of his time in problems of research chemistry under the direction of Mr. Miller of the Department of Chemistry in the Agricultural Experiment Station. The remainder of the time the student will use in pursuit of those subjects in which he may be interested.

The work in these two fellowships will entitle the student to a recommendation for an advance degree. They are open to any graduate student of any college, and are held for one year. This year they were awarded respectively to Miss Hazel Murray and Marc Le Duc.

An effort is being made to have an additional fellowship in the Bureau of Mines Station. This will offer an exceptional opportunity to work under Dr. Lind, one of the leading authorities on radium in America.

LINCOLN HALL FILLED BEFORE REGISTRATION

Professor Turner, who guides the destinies of Lincoln Hall, has already welcomed enough men to fill every room. The hall, which houses about ninety men, serves as a rather accurate barometer of the school's attendance. For the last two years it has always been filled to overflowing the first week and there has already been received enough applications to make a full house.

According to the new registration system, that went into effect this year, every man desiring a room in the hall must send in his application and the first semesters' rent before the opening of the University. By the last of July Professor Turner had received sufficient applications, which, taken with old men who had signified their intentions of coming back to pass the ninety mark.

Considerable trouble has been caused by the older men clinging to the tradition that regardless of applications, their previous semesters give them priority. This system which worked out well enough when the student enrollment was three hundred has given endless trouble during the last two years. Now that the student body is nearing the thousand mark it is next to impossible for rooms to be given on the priority basis, that is, without the men first signifying their intention of returning by the sending in of an application.

There is a refund provision in the new ruling that should a man decide not to enter it will be possible for him to recover his entire rent by applying for it not later than Wednesday, the second day of registration. If application for refund is made between the second day of registration and the twenty-third of September one-half of the amount will be returned. No refund will be made after that date.

AN EVELESS EDEN

Pondering upon the vicissitudes of a long and apparently endless college career, dividing my thots about equally between the fine looking bunch of freshmen women and the possibilities of several alleged snap courses, I found myself wandering slowly out of town.

Away on the campus young hearts beat with glad excitement and sweet young things of both sexes ran anxiously about intent on the business of starting the greatest thing in life; a college career. I have seen that this was happening. I have seen it happen so many times; while at the same moment a number of sops were plotting darkly behind the Mining Building and a hard boiled junior was kicking Rex Turner down the steps of Lincoln Hall.

These things also, I knew, were always happenig. Presently the sweet gurgle of a mountain stream fell on my ear-hypertrophied and so often insulted by the insistent unpleasing voices of many professors. I wandered on. The hills grew closer, the fields greener, the grass longer. How strange

was life! First one was not here, then one was here, then one was not here again. How very remarkable! Peculiar even. How could one be surprised at college professors looking so worried with these great facts to ponder on. If life—

Suddenly I found myself on the steep brink of a foaming river and my thoughtful gaze encountered a surprising scene. My thots went back as far east as Old Greece and round towards the South Sea Islands! for 'twas a scene of Attica or far Papette. Below in a deep pool swimming, diving, leaping blithely or sitting in graceful attitudes on the pleasantly rounded stones of the river bed were a number of stalwart young men, personifications of health, masculine beauty and happy carelessness. What a picture as they shouted in the sun, backed by the green trees and the hazy mountains, smiled upon by the blue sky! How numerous they were; In fact the entire joint aggregation of S. A. E.'s and the Kappa Lambdas were out in the swimming hole above the dam. On the wire rope that spans the river the Apollo like and intelligent Leslie Bruce showed his form as an acrobat, while on the diving board several men lay calmly sleeping.

An idyllic scene, truly; for there was not so much as a bathing suit button among the entire party. I stripped and dived in. Splash!

Pendleton Will Open The Season With An Unusual Track Meet

A burlesque indoor track and field meet between the University of Nevada and Reno High will be the first social event of the season given by the Federated (Presbyterian and Congregational) Church at the social rooms on the corner of Virginia and Fifth, on Wednesday evening, Sept. 13, at 7:45 p. m. A special invitation is extended to students of the university. Refreshments will be served.

Coach Courtright will be ringmaster, assisted by Professors Hartman, Turner, Wilcox, Blair, Boardman, Feemster, A. E. Hill. The events follow:

1. Standing Broad Grin.
2. Peanut Hurdle.
3. Turn Coat Relay.
4. Marshmellow Hammer Throw.
5. One Hundred Pound Shot Put.
6. Caterpillar 25 Yard Dash.
7. Elimination Race.
8. Chain Tilting.
9. Doughnut High Jump.
10. Rubberneck Sand Put.
11. Long Winded 15 Yard Dash.
12. Match Box Relay.
13. Big Feet and Tiny Toes.

On Sunday night, Sept. 10, Mr. Pendleton will give a special address to students, "If I were a Freshman." He will also make a detailed announcement of the fifty dollar prize offered to students.

"What's the charge, officer?"
 "Vagrancy, your honor. He was loafing around a street corner."
 "Ah, impersonating an officer."—Puppet.

FOOTBALL DOPE FROM THE WEB-FOOT STATE

Cougar football prospects discussed by Hack Applequist and Doc Bohler:

"With a heavy schedule and the necessity of developing an entire new backfield, the Cougars have a stiff proposition this fall," says Hack Applequist, assistant football coach at the State College of Washington. He and Doc Bohler, in charge of athletics, are just back from Loon Lake where they have been since the close of summer session. Coach Gus Welch is also back from Maine, where he spent the summer in charge of a boys' camp.

"Work will begin Sept. 15, the opening day for all conference college teams, which gives the Cougar players just three weeks before the first game, that on Oct. 7 at Tacoma with the 9th Area Army Corps eleven at Camp Lewis.

"We have lost eight of our last year's team, and possibly nine," says Applequist. "If rumors are true, Moe Sax is planning to enter some other institution. Mike Moran is gone, and Frank Skadan, Pink Melver, Jenne, Winans, Earl Dunlap, George Bohannon and Harold Hanley."

When asked what football material of last year he would have as foundation to build his new team on, Dr. Bohler said:

"At ends we will have Loomis and Cook, not letter men; at tackle Capt. Dunton, Art. Hamilton and Lin Meeker, all W men. The guards are Leslie Durwachter, Bud McKay, Albert Davis and Hugh Huffman, all letter men; and for center Pete Kramer, a last year's sub, and Burks and Crew from the Freshmen team. The quarters are Griffiths and Jack Davis from the Freshman team, and Moe Max if he is back; and at half we have Zaeffel and Vernard Hickey, both letter men, and Triggvi and Hales from the Freshman aggregation. For tackles we have Frazer and Shannon, both of the Freshmen eleven of last year; and at ends two more Freshmen, Keller and Hughes."

The concensus of opinion seems to be that, though there are strong men on the squad, it will be difficult to mold them into a victorious fighting machine with so much new material.

NEVADA GRADUATES ACTIVE THRU STATE

Louis Myers, a graduate of the '20 class, and famous on the campus for his pinochle ability, is engineer at the Ruth mine for the Nevada Consolidated. He assumed the new responsibility this summer in addition to his marriage.

Dick Bryan, who completed a C.E. course at the University where he was

"I WISH I KNEW" RECORD At Emporium of Music 223 N. Virginia

Student Body president and editor of the Sagebrush has been connected with the State Highway Department since his graduation in '21. Mr. Bryan is now resident engineer at Ely.

Ray Bryan, the other of the Bryan twins, who also was editor of the Sagebrush, is employed as an engineer at Copper Basin, near Battle Mountain.

The famous 'Wild Bill' Martin who was reported to have accepted a school in California has been on the campus and denies the report. He will again handle the athletic activities of the Sparks High School.

Tony Zeni, another '21 man, has accepted a position as assistant principal at the Virginia High School.

John Gottardi, of the same class, will spend this year on the campus as the teacher of Romance languages.

1922-1923

During the last week Reno witnessed the arrival of broncho fighters and college athletes, of cow-girls and college women. And yet under the chaps and khaki, the silk and serge, there lives the same Nevada spirit. It takes the same red blood to fight a mustang in the corral that it does to vanquish an opposing football team on Mackay Field. The puncher would rather lose his horse than pull leather and we would rather lose a game than win by unfair play.

The pioneers of the past and the pioneers of the future have been brought into forceful contrast—each in his separate world; the one the college, the other the range. One holds sacred the traditions of the trail; the other the traditions of the Campus.

Pulling leather has no place in the punchers' camp or the Nevada Campus. It is a sin unpardonable.

May this be a year of clean riding and fighting. Let us start out with the old Nevada war cry, 'let 'er buck' and ride thru the year without pulling leather.

1922-3! Turn 'er loose! Ride 'er cowboy?

SENIORS

Listed under Nevada's traditions are the words "Only Seniors wear the sombrero." Possibly they don't imply a command, but they do indicate an honor. Freshmen are forced to wear the "dink"—brandishing an axe over their heads is the only means of continuing this elevating costume,—but Seniors can not be forced into any crowning ornament. This freedom is the Senior's reward for the previous three years of partial restrictions,

during which period he is supposed to have absorbed the spirit of the school's traditions.

So the tradition merely states "Only Seniors wear the sombrero," and the matter of carrying it out is left solely to the individual. Well, why not carry it out? If sombreros aren't listed in the latest fashion plates, they are nevertheless no blot on any campus. Perhaps you don't think you would look well in one, or are you reluctant to change the style of headdress you've worn since the eighth grade? Drop the petty excuses and at least wear one for the rallies and football games—or are you to near the postmortem state to uphold a Nevada tradition?

U. of N.

"THE UNPARDONABLE SIN"

Where are the traditions of our youth? Some are forgotten. Perhaps some ought to be. Class Spirit? Yes! We have IT. But like some of our forgotten traditions IT seems to have been lost sight of by the Class of '25 in their mad scramble to beat the unorganized Frosh at the annual contest popularly known as the "Poster Rush".

"There is a time and a place for everything." Thus saith the prophet of old. But our sophomore friend forgot that during registration, at which time the new men are not even on the ground, let alone acquainted or organized, is NOT the time for the poster rush. By "sunrise of the third day after registration" is the time allotted for putting out of posters.

FAIR PLAY is the best advice for such breaches of tradition.

And the posters on the Senior Bench, besides being such a heinous offense on the part of those who should not even daign to cast their menial glances upon the seat of honor, serves well to show the lightness with which those of younger years view the sanctity of their elders.

U. of N.

ELECTION HOAX

Comes now the freshman election hoax, but this time with new variations. Nominations occurred and, as usual, were characterized by numerous resignations. One of the nominees, however, seems to have been an abstraction only and to possess no physical being at all.

Furthermore, this individual, with a name only, ran for the office of treasurer and was elected. Consequently the funds of the class of 1926 will probably be handled in a more or less mythical fashion.

On the face of it, the incident is extremely laughable. It has, though, a rather serious interpretation, and one which should be carefully considered in the light of whether or not freshmen should be allowed the franchise.

Dodge as much as we should like to, but we can never get away from the fact that freshman elections are a joke. The nominations ordinarily mean nothing more than that someone desires to put someone else to the trouble of having to decline. Once in a while there are some men nominated and elected with a sense of obligation toward the class but they are not given half a chance to make good because of the lightness in which freshman officers are considered.

But when approximately three hundred University students will walk into a booth and place an X after a name which represents absolutely nothing to them and the owner of which does not even exist, then we should take stock of ourselves.

Why should the freshmen be forced to choose a leader before they have had a chance to know at least a few of their classmates? It is easy to see why they can't take the matter seriously but they are helpless to remedy the situation. Why not postpone the election of their officers to a later date and entrust the administration of their affairs to a temporary officer appointed by the student body president?—Calif. Daily.

Dark Skin: "I wants fo' to buy a razah."
Obliging Clerk: "For shaving or social purposes?"
—Orange Owl.

Purple Sage

A PSYCHIC PROBLEM

Two powerful colored stevedores, who had had some sort of falling out, were engaged in unloading a vessel at a St. Louis dock. Uncomplimentary remarks and warnings of intended violence were exchanged whenever the two passed each other with their trucks.

"You jest keep on pesticatin' around wid me," declared one of the men, "an' you is gwine be able to settle a mighty big question for de sciumtific folks!"

"What questions dat?" asked the other.

"Kin de dead speak!"

U. of N.

WHO'S WHO

In a certain Chinese village, two rival doctors maintained the dignity of the medical profession. Dr. Hoo kept an office on the principal street. Several doors farther down was the establishment of Dr. Hooizi.

An American visitor, having suddenly become indisposed and seeing the sign, "English Spoken Here" on a physician's door, entered the office. He was greeted by a Chinese nurse in attendance. This is the conversation which ensued:

"Who is the doctor here?"

"Hoo is the doctor here."

"Who?"

"Hoo."

"That's what I asked. Who is he?"

"Not Hooizi; Hoo, is the doctor here."

"Well, who is the doctor, then?"

"But I told you Hoo is the doctor here."

"No you didn't. Now, who is the doctor who is here?"

"The Doctor Hoo is here."

"Yes, the doctor who is here."

"Say, who are you, anyway?"

U. of N.

THE STILLED SMALL VOICE

Judge Gray, down in Mississippi, was about to adjourn court when an old colored man of his acquaintance moseyed in, his countenance showing worryment.

"Jedge," he mumbled, "mah conscience done trouble me. Is yo' got a charge against me?"

"Why, no, uncle; I haven't any charge."

"No, uncle, I haven't; but, even if there were a couple gone, I wouldn't know it. I never count them."

"Don' nebber count 'em? Mah-h-h goodness. Mah conscience am appeased. Good-day, suh, good-day."—American Legion Weekly.

QUERY

She: "Have you ever kissed a girl?"

He: "Is that an invitation or are you merely gathering statistics?"—Juggler.

LA PURGATORIE

When our last term theme is written,
And we cork up our bottle of ink,
When the oldest senior has left us,
And also the youngest dink,
We shall rest and faith we shall need it—
Have peace for a fortnight or two,
Till the Dean of Arts and Science shall
set us to work anew.

And those who have slaved will be happy;
They shall get no less than a '3,'
And those who have 'lived' shall be sorry,
For every midnight spree.

They shall have the profs to blaspheme at,
They shall curse every Prof on the hill,
But the one who will do the most cursing
Is Dad—who has footed the bill.

U. of N.

SAVED

The velvety softness of the spacious divan enclosed the two as the rose petals close about their mates. No sound; nothing but the gentle softness of the subdued parlor lamp fell upon them to disturb this paradise.

He had never before kissed such a charming creature as she who now rested by his side. Her lips were as the exquisite touch of a spring zephyr; her eyes caressed him with mellow tenderness. All else was forgotten, time, work, home, all save the winsome angle before him.

Again their lips met in tenderness, and he drew her to him in a passionate embrace. Just then a sharp step sounded and he felt her muscles contract in fear. His heart leaped to his throat. What a fool he had been, and now her father had found them. A clink of empty bottles was heard, and she gasped:

"Thank God, it's only the milkman."
—Punch Bowl.

EMBARRASSED
"Sure embarrassed the other night. Made a break in front of my girl."
"Oh, chagrined?"
"No, she laughed!"—Annapolis Log.

U. of N.

John Gottardi, the star Spanish student of the University, while a member of the Nevada Expeditionary Force which recently invaded Mexico, had many weird and interesting experiences that he is very loath to speak of them.

It remains for John Philbin, his companion during the invasion, to supply such information as the other John refuses to divulge. Gottardi has retired behind a will of dignity, recently created by his becoming a Faculty member, and will not admit that he failed in any manner to create a strong impression on his chocolate colored brothers below the border.

Mr. Philbin is credited with two statements that serve to illustrate what a furor his companion caused in the sun baked land on the other side of the Rio Grande.

The infamous Bone Hunter, John P., says that when they returned to their native soil and were relating experiences about the trip someone asked Mr. Gottardi whether he had had any trouble with his Spanish while he was in Mexico and that Gottardi replied, "Oh, no, but the Mexicans did."

Furthermore an incident happened when the trio, composed of Gottardi, Philbin, and Zeni were climbing the pyramids at San Juan Teotihuacan, which throws an illuminating light on the human side of Gottardi.

Philbin and Zeni were in the lead when one of the beggars, who littered the vicinity like a flock of black birds, came whining up with outstretched hand saying, "A nickle, Senior. For the love of heaven, a nickle."

Philbin and Zeni hurried past the alm seeking cholo since they were bent on saving their pesos, so Gottardi received the sweeping and survilent bow that was meant for them. They turned to look back and saw Gottardi return the compliment. Soon the professional medicant and the budding professor were bowing and seraping like our old friends Alphonse and Gaston; gestulating wildly and disturbing the air with a flood of voluble Spanish from the Mexican and an equal deluge of English from John G. who was forced to recourse to his mother tongue in order to explain himself.

His two companions were forced to return and drag him to safety when the verbal battle had reached a deadlock and the southern blood of the Mexican was beginning to boil.

PIKE WINS HONORS AT TRAINING CAMP

The University of Nevada was well represented in military circles last summer, both at the R. O. T. C. Camp at the Presidio and the Citizens Training Camp at Ft. Douglas. Jack Pike, who was taking the Blue Course which qualifies one for a commission, made an enviable record by winning first place in marksmanship from a field of 800 students representing every state in the Union. He received the award given annually by the Military Training Camps Association for high merit and the Expert Rifleman's Badge from the United States Government. Though making the team for the rifle meet to be held at Camp Perry, Pike will be unable to attend as the meet takes place this month and would conflict with his studies. Quill and Finlayson were Nevada's representatives at the Presidio, San Francisco.

CUPID PLAYS HAVOC DURING THE SUMMER

Many marriages took place during the summer months between graduates of the University of Nevada and former students. Dan Cupid was very active in his own particular sphere and from the number of nuptials that were celebrated during vacation days the little God of Love must have broadcasted his darts.

Among the couples united were Miss Georgia Damm and Mr. Thomas Buckman. Both were well known in Reno where they graduated from the University and were prominent in student affairs. Mrs. Buckman graduated with the class of 1919 and taught in Reno High School where she directed the girls athletic activities. Previous to this she taught in the Fallon High School being in charge of Physical education. Mr. Thomas Buckman who completed his work in the school of Agriculture with the class of 1921 was very active in student affairs, having been track captain, basket ball captain, athletic manager for a year, and star member of the football team. He was one of the early members of what is now the Nevada chapter of the Alpha Tau Omega fraternity. At present Mr. Buckman is Agricultural Agent in Lyon county. The couple expect to make their home in Yerington.

Another college romance culminated during the summer when Miss Thelma Braun became the bride of Mr. Herbert Bruce at the home of the brides' parents in Dayton. The bride is a member of the Delta Delta Delta sorority at the University and prominent in the social life at college. Mr. Bruce who specialized in chemistry during his college work was awarded the coveted gold medal for scholarship upon graduation and the following year gained the Dupont Fellowship at Lafayette College, Pennsylvania, where he secured his master's degree. Mr. Bruce is a member of Sigma Alpha Epsilon fraternity. After a short stay at Lake Tahoe the couple departed for Fairbanks, Alaska, where Mr. Bruce will become Professor of Chemistry and Physics at the University of Alaska.

Surprising their friends in Reno and Sparks Miss Alma Wagner and Mr. R. L. Kimmel were quietly married in Oakland during the summer and after spending their honeymoon in the Bay cities returned to Susanville where Mr. Kimmel is secretary of the Lassen Chamber of Commerce.

Miss Wagner is the eldest daughter of Mr. and Mrs. William Wagner of Reno and took an active part in musical circles here, being a talented musician. Mr. Kimmel, while at the University, was a member of the football team and editor of the Sagebrush. He is a member of the Alpha Tau Omega fraternity. After his graduation from the University in 1918 he was connected with the editorial department of the Reno Evening Gazette for a year, leaving to become assistant secretary of the Lassen Chamber of Commerce.

The old Holcomb ranch was the scene of a pretty summer wedding when Miss Emily Bruke and Robert P. Farrar were united by the Rev. Edward Tanner Brown. Mrs. Farrar is a daughter of Mr. and Mrs. Charles Burke and graduated from the University of Nevada with the class of '21. She is a member of Gamma Phi Beta.

Mr. Farrar is also a graduate of the University having finished his college work with the class of '15. He is a member of the Sigma Alpha Epsilon fraternity. After a month in the Canadian Rockies the couple returned to Reno where they are making their home.

Vacation days also saw Miss Frankie Porter and Howard McKissick united in wedlock. Miss Porter is a member of the Tri Delt sorority and active in social affairs. The groom is a member of the Sigma Alpha Epsilon fraternity. The couple will make their home in Reno where McKissick is engaged in business.

During the summer cards were received in Reno announcing the marriage of Miss Alice Hobbins, daughter of Mr. Charles Hobbins of this city, to Mr.

NOTICE

A committee of five, the president of the Associated Students acting as chairman, together with four other active students, upperclassmen, shall be known as the Upperclass Committee. It is the duty of this committee to decide all disputes occurring among unruly students and to act as a courtmartial.—"Nevada's Traditions."

This committee shall consist of the following men:
Ed Reed,
Paul Harwood,
Jack Ross,
Herb Foster,
Mel Sanders, chairman.

Wesley Busby, of Evanston, Ill. Mrs. Busby graduated from the University with the class of 1918. She is a member of the Phi Beta Phi sorority and the Phi Kappa Phi honor society.

The couple will make their home in Evanston where Mr. Busby holds a responsible position.

Friends of Miss Maud Johnson of Sparks and Mr. Warner Graham, a mining engineer of Idaho, both former students of the University will be interested to learn that they were married during the summer.

Coming as a surprise to her friends in Reno Miss Adelaide Humphrey of the class of '21 was quietly married to Mr. Lewis Backover in Richmond, California. The young couple will make their home in the bay city where the groom has a municipal position.

Miss Mary Beemer a graduate of the University with the class of '22 was married during the summer to Mr. Ernest Harker who was also a member of the same class. Mr. Harker while at the University was student body treasurer, Mayor of Lincoln Hall and a member of Coffin and Keys, the student body honor society. Mr. Harker was also a member of the Crucible Club and took an active part in the School of Mines in which he was registered. The couple will make their home in San Francisco where the groom will be engaged in business.

The last month saw the marriage of Miss Rae Griswold, a popular member of the Gamma Phi Beta sorority to Mr. Jack Cunningham of Reno. The couple will make their home in Reno where Mr. Cunningham is connected with the Standard Oil Company.

Friends of Miss June Grant will be interested to learn that she was married to Dr. Wallace of Ely, Nevada. The couple will make their home in the latter city where Doctor Wallace is practicing.

During vacation days Miss Ruth Romwall and Mr. Alex Carter of Petaluma were married. Miss Romwall was a popular young lady on the Hill and took much interest in student affairs and social activities.

Miss Phyllis Brown, a graduate with the class of '20, was recently married to Prof. Morrison, athletic director of Virginia City High School, where Miss Brown was also teaching. While at the University Miss Brown was exceedingly active in all college affairs and prominent in social life. She was Manager of the Sagebrush, Vice-President of the Agricultural Club and Chairman of the Advisory Committee, besides being a member of the Gamma Phi Beta sorority.

1922 GRADUATE DIES DURING THE SUMMER

On August the seventeenth, following an illness of but a few days, Miss Marianne Adele Gignoux died in one of the local hospitals. Marianne Gignoux was the daughter of Mrs. May L. Gignoux, and had attended the University here, graduating with the class of 1922. She was a member of the Delta Delta Delta sorority and the Eastern Star.

The funeral was held two days later, the casket being born to the grave by former members of her class. An honorary escort, composed of members of Miss Gignoux's sorority and the Order of the Eastern Star, also accompanied the body.

Marianne Gignoux's death has left a vacancy in university circles which will be keenly felt, and the members of the Faculty and Student Body present the bereaved mother, Mrs. Gignoux, with their sincerest condolences.

FORMER NEVADA STAR JOINS OLYMPIC CLUB

Football enthusiasts will be glad to learn that the Wolf Pack's nationally famous quarterback, "Rabbit" Bradshaw, has not "retired", but will be seen in action again this year with the Olympic Club of San Francisco. In addition to his duties as football coach at Sequoia High School, Redwood, California, "Jimmie" has contracted to fill the quarterback position with the Winged-O men for the 1922 season.

With Bradshaw giving signals and "Fat" Latham, former California center and captain, receiving them, Coast gridiron fans are predicting the development of a team that will cause others in the Bay City region a lot of worry.

UNIVERSITY BAND RECEIVES CREDIT

With the reopening of college, plans for the organization of the band for the coming year have been practically completed. Knowing that work in the band is well deserving of reward, both because of the advantage to the school, and because of the time involved, the faculty has decided to allow credit, amounting to one-half unit a semester, to be given the members of the band. This credit is the same as is awarded to members of the Glee Club and the University orchestra.

The band is under the direction of Professor Preston of the Mechanical department, and those playing instruments and who are desirous of further information should see Professor Preston in his office.

AN OLD CUSTOM TO BE REVIVED

Reviving a custom that has not been observed for the past year or two at the University, a general convocation of all students and members of the faculty will be held in the University gymnasium at 11:20 A. M. Friday morning. President Clark will preside at the meeting, and his address of welcome to the students will constitute the main feature of the program.

As this will be the first opportunity for all students and faculty members to assemble together this year, it is expected that the attendance will be large, and it is especially desired by the President for all new students to be present as he will have several announcements and messages of particular interest to them.

MANY PRIZES ARE AWARDED STUDENTS AT COMMENCEMENT

(Continued from page one.)

second best; and Freshmen—Alice Norcross, and Lucile Blake as alternate.

It is the custom of the Associated Women Students to award \$25 to the women obtaining the highest average grade, and was given this year to Lucile Blake, with Freda Fuetsch as alternate.

The J. H. Clemons scholarship of \$50, given to a sophomore in the College of Agriculture, went this year to Al Lowry, or Opal Underwood, the alternate.

The Alumni Scholarship of \$50 was divided equally between Bertha Standfast and Madge Shoemaker. No alternates were chosen.

The Ella S. Stubbs Scholarship awarded by the Women's Faculty Club, and amounting to \$100 was given to Noah Johnson, with Charles Brown as his alternate.

The Lewis D. Folsom Scholarship awarded alternately to a man and then a woman in the Junior class was given to Lyn Arnold, Don Finlayson being the alternate.

The Home Economics Scholarship of \$100 given by Professor Sarah L. Lewis of that department, was won by Jean Davis, with Ethel Zachringer as alternate.

The Rose Silger Mathews Scholarships were awarded to the following students: \$200 to Lawrence Mathews, \$100 to Ennis Kinsella, \$100 to Hester Mills, and \$50 to Frances Heward.

The Fitzgerald Scholarships for \$150 each, given by the Scottish Rite bodies of Masonry in Nevada went to Thomas Welsh and Claire Anderson, with George Fairbrother and Sarah Harrison as alternates.

A \$200 Scholarship given by the Reno Branch National Association of University women was won by Leona Bergman, Clementine Shurtleff being the alternate.

The Alice G. Clark Scholarship of \$250 is given alternately to a man and a woman, this year being won by Genevieve N. Chatfield, with Anna, E. Brown the alternate.

The Reno Lodge of Elks gives four scholarships amounting to \$300 dollars each, given to four students of athletic ability, and went to the following: Herbert Foster, George Hobbs, Chester Seranton, and Adele Clinton.

SORORITIES LEAD THE SCHOLARSHIP LIST DURING YEAR

With the Tri Delt sorority and the Kappa Lambda fraternity heading the scholarship lists of their respective groups, the scholarship report for last semester, the second semester of 1921-22, comes from the dean showing a very substantial increase in the general averages of the students.

The women of the University, true to form, led the men in the grading summaries by a considerable amount, .47 points. The women secured a grade of 2.25, an increase of .11 over the previous semester, while the average of all the men showed a grade of 2.72, with a corresponding increase of .21. From which it would appear that the men devoted themselves more diligently to the task of raising their marks, with the resulting increase of one tenth better than the women. The average for the whole school was 2.48.

The largest group increase, and perhaps the most significant, came in Manzanita Hall. The women's dormitory raised their average from 2.73 during the previous semester to 2.36 last semester, a most unexpected burst of energy. Lincoln Hall also showed betterment, altho in not so marked a fashion as the women, when their averages were pulled up from 2.52 to 2.7. Vocational men averaged 2.67.

When it came to determining the winner of the sorority honors, the D. K. T.'s and Tri Delt's were so close that Miss Sissa was almost forced to call in the students in advanced calculus, differential equations, and determinants, to pick the winner. It was reported in the Nevada papers in June that the D. K. T.'s occupied the top rung, but a re-check showed the Tri Delt's to have an edge of .005 points, which boosts them to first place. This correction makes the sororities stand in the same position which they occupied in the report of the first semester last year, except that the Pi Phi's have been beaten out of their coveted last position by the Sigma Alpha Omegas.

Among the fraternities, first honors are again given to the Pappa Lambda, the local founded last year. The A. T.

O.s come second on the list, and lead the nationals. The general positions of the fraternities are the same as in the first semester except that Sigma Phi Sigma has dropped from second to fourth place, and Sigma Nu has pulled up from fifth to third. The Phi Sigs are again standing rear guard.

Averages For Semester Ending May, 1922

Average of All Women.....	2.25
Average of All Men.....	2.72
Manzanita Hall.....	2.36
Lincoln Hall.....	2.70
Vocational Men.....	2.67

Sororities

Delta Delta Delta.....	2.010
D. K. T.....	2.015
Gamma Phi Beta.....	2.14
Pi Beta Phi.....	2.17
Sigma Alpha Omega.....	2.25

Fraternities

Kappa Lambda.....	2.28
Alpha Tau Omega.....	2.65
Sigma Nu.....	2.68
Sigma Phi Sigma.....	2.69
Sigma Alpha Epsilon.....	2.76
Phi Sigma Kappa.....	2.88

For those who wish to compare this report with that of the first semester's averages, the previous record is given:

Tri Delt.....	1.95
D. K. T.....	2.14
Gamma Phi.....	2.18
Pi Phi.....	2.31
Kappa Lambda.....	2.48
Links and Shields.....	2.61
A. T. O.....	2.78
S. A. E.....	2.81
Sigma Nu.....	2.93
Phi Sig.....	2.93

The above lists include only those who are regularly enrolled in the University and are taking at least ten hours.

Al Preston's Car Burns At Truckee

During the latter part of August Professor Al Preston's car which was stored in the garage adjacent to the Sierra Tavern of Truckee was totally destroyed in the fire which burned both the Tavern and the garage. Prof Preston and his wife were journeying homeward from a motor trip which had taken them into Southern California and had stopped overnight in Truckee intending to continue on into Reno the next day.

About three o'clock in the morning the alarm for fire was sounded thru the hotel, and while Mrs. Preston rescued their personal property, Prof rushed to the garage. Breaking the padlock with a bar of iron, he entered and attempted to make his way to the car, which was in the back end of the building. The smoke was so thick that he barely reached the center of the garage when a nearby gas tank exploded. Prof then decided that he had no real use for an automobile during the coming year. He retraced his steps hurriedly, being assisted doorward by the explosion of a few more ten gallon tanks of gasoline.

Once outside he joined forces with Buster Keaton, who was also staying in the Tavern, and together they dragged forth some emergency hose, attached it to a hydrant, unreeled it, and put on the nozzle. A typical Buster Keaton comedy was then enacted, for while the comedian directed the nozzle against the burning building, Prof attempted to turn the water on. After some seconds of expectant waiting during which time the fire did not abate appreciably, it became apparent to the two that the mains were bone-dry. They then lent their assistance to the S. P. fire car, but the building was beyond saving.

Prof Preston returned several days later hoping to salvage a wrench or two and perhaps the engine, but found the intense heat had left the car unfit for even a decent burial.

MIDDLE WEST STAR TO ASSIST CORKY

"Buck" Shaw the star tackle for the last four years at Notre Dame is with us this year as line coach. This new man in our athletic department will fill a long felt want, as "Corky" has been in need of an assistant for some time. Nevada is growing and there are now so many out for the different forms of athletics, especially football, that one man is no longer able to handle all the team. Notre Dame has always been noted for fast play, in fact to-day she is the greatest exponent of the new style. With "Buck" Shaw and "Corky" to hammer this year's team into fighting shape Nevada will have a banner year on the Grid.

SORORITIES AND FRATERNITIES TO HAVE NEW HOMES

The housing condition at the University will be considerably relieved this year by the opening of several new houses by the fraternities and sororities. This growth of fraternity life is wonderful evidence of the progress that the school is making. It was only a few years back when there were only a couple of fraternity houses on the Hill. In spite of the scarcity of houses suited for that purpose there will be three or four new houses on the Hill this semester.

The sororities are leaving the protecting walls of old Manzanita and moving into houses of their own.

The Gamma Phi Beta's have taken the Twaddle House on 435 West Fifth Street. The house, which will accommodate twelve women with spacious quarters for the entertainment of their friends, was opened Sunday.

Dr. Clough and his wife will live at the house. Mrs. Clough acting as house mother.

The Delta Delta Delta sorority will retain the same house that they had last semester. It is located on the corner of West and Maple streets.

At the time the Sagebrush goes to press it is not possible to obtain data on the other houses but a complete list will be published at a later date.

The Sigma Nu's returned to find their former house mounted on piles and moved fifteen minutes closer to the University. They have moved into a new house on the corner of Lake and Sixth, opposite the Phi Sig house. The house was opened Sunday and will take care of eighteen or twenty men.

The Phi Sigma Kappas have the same house that they had last year, on the corner of Lake and Sixth. Most of their last semester house men have returned. The house was opened Wednesday.

The A. T. O. house on University Avenue has been showing signs of activity for the past week, with most of their old men returning early.

The house on 651 Elko once used by the Phi Sigs and later the A. T. O.'s will be the home of the Sigma Phi Sigmas this coming year. The house is admirably arranged for a fraternity having in it twelve rooms, hardwood floors and a modern heating system. It has been open since Sunday, housing twenty and boarding twenty-five.

The last report has it that the S. A. E.s have leased the Brown House almost opposite Manzanita on Virginia Street.

So far the Kappa Lambdas have no house and it is probable that they will be without one this year.

For Ready Reference

The following is the list of Student Body, Class, and Organization officers for the year 1922-23:

STUDENT BODY—

President—Mel Sanders.
Vice-President—Herbert Foster.
Secretary—Marcelline Kenny.
Treasurer—George Cann.

Women's Athletic Manager—Genevieve Morgan.

Junior Representative—Ned Martin.
Finance Control Committee—Eloise Harris, Chester Scranton.

CAPTAINS—

Football—George Hobbs.

PUBLICATIONS—

Editor Sagebrush—Jack Ross.
Manager Sagebrush—Laurence Quill.
Assistant Editor Sagebrush—Paul Harwood.

Assistant Manager Sagebrush—Arthur Shaver.

Editor Artemisia—Chris Sheerin.
Manager Artemisia—(To be elected.)
Assistant Editor Artemisia—Harlow North.

Assistant Manager Artemisia—Cecil Green.

JUNIOR CLASS—

President—Chris Sheerin.
Vice-President—Justine Badt.
Secretary—Verda Luce.
Treasurer—Harold Hughes.

SOPHOMORE CLASS—

President—Barney Keating.
Vice-President—Anna Maud Stearn.
Secretary—Ruth Manson.
Treasurer—Ray Fredricks.

ASSOCIATED WOMEN STUDENTS—

President—Rose Mitchell.
Vice-President—Justine Badt.
Secretary—Hester Mills.
Treasurer—Verda Luce.

BLOCK N SOCIETY—

President—Chester Scranton.
Vice-President—Ned Martin.

Secretary—Ernest Carlson.
Treasurer—George Hobbs.

GOTHIC N SOCIETY—

President—Erma Hoskins.
Vice-President—Adele Clinton.
Secretary—Gen Morgan.
Treasurer—Rose Mitchell.

Y. W. C. A.—

President—Genevieve Chatfield.
Vice-President—Lyndel Adams.
Secretary—Evelyn Hitchens.
Treasurer—Erma Eason.
Undergraduate Field Representative—Marcelline Kenny.

THE LAST SEMESTER HONOR ROLL SHOWS CONSIDERABLE GAIN

The honor roll for last semester contains the names of fifty students, as given out by the scholarship committee and the Dean of the College of Arts and Science. This honor roll includes all those who make an average grade of 1.75 or better, the marks being the average grade per credit hour.

Six more students came within the honor roll boundaries last semester than the preceding term, when forty-four names were listed. The number during the second semester of the 1920-1921 year, the term corresponding to last semester, was thirty-one. There are twenty-three names which appear on both of the semester honor rolls of last year. Only one student, Leslie Bruce of the graduating class, secured an average of a straight one for last semester.

For the benefit of new students unfamiliar with the Nevada system of grading, the following table of the decimal grades and the corresponding per cents is given:

- 1 equals 95% to 100%.
- 1.5 equals 90% to 94%.
- 2 equals 85% to 89%.
- 2.5 equals 80% to 84%.
- 3 equals 75% to 79%.
- 3.5 equals 70% to 74% (passing).
- 4 equals 60% to 69% (condition).
- 5 equals below 60% (failure).

Below is the complete honor roll for last semester with the hours each student was enrolled in:

Name	Av.	Hrs.
Leslie Bruce	1	11
Anna Chatham	1.17	17
Vernon Vrooman	1.19	13
Lyn Arnold	1.2	22
Nevada Semenza	1.23	18
Harold Keating	1.26	15
Lucile Blake	1.28	14
George Cann	1.28	16
Evelyn Hitchens	1.28	19
Ottway Peck	1.3	18
Eldon Witwer	1.3	20
Harvey Luce	1.36	15
Jean Davis	1.4	16
John Donovan	1.43	15
Mrs. Elsie Harris	1.44	18
Alice Norcross	1.46	14
Editha Brown	1.5	14
Robert Griffith	1.5	18
Scott Hill	1.5	18
Rose Mitchell	1.5	11
Mrs. Anna K. Rohn	1.5	14
Don. Walker	1.5	17
Anthony Zeni	1.5	12
Dorris Kane	1.53	13
Mildred Strain	1.53	13
Edgar Boardman	1.55	19

Norma Brown	1.58	12
Hester Mills	1.59	16
Ella Lewis	1.6	15
Genevieve Chatfield	1.61	19
Clinton Smith	1.61	18
Marian Gignoux	1.63	14
Mare Le Duc	1.63	11
Thomas Mullan	1.63	18
Luella Murray	1.63	18
Freda Fuetsch	1.64	17
Verda Luce	1.64	17
Evelyn Walker	1.64	17
Mildred Klaus	1.65	16
Claire Williams	1.65	16
Beulah Booth	1.66	12
Ralph Simon	1.66	18
Don Finlayson	1.67	17
Rowene R. Thompson	1.69	18
Marcelline Kenny	1.7	19
Gregory P. Chekalin	1.73	13
Erma Hoskins	1.73	15
Dorthea Farwell	1.75	14
Erica Broecker	1.75	20
Ethel Steinheimer	1.75	14

THREE NEVADA MEN ATTEND UNIVERSITY IN CITY OF MEXICO

Three Nevada men, John Gottardi, Anthony Zeni and John Philbin spent their vacation months in Mexico where they attended the summer courses given at the National University in Mexico City.

The trio of Sagebrushers left El Paso early last June; joined an advance party of fellow students, headed by Professor Oscar G. Russell of the University of Utah; and proceeding directly south, reached Mexico City in three days. The Nevada members of the party report that quite a home-like welcome was accorded them by the sudden arrival of a half-brick thru the window of their coach as the train pulled into the capitol and this American atmosphere was further strengthened when they discovered that all convenient methods of cheap transportation were effectively tied up by a tramway strike.

At the University the students found a wide range of courses from which to choose: Spanish, Music, Art, and Literature being, of course, the "majors". In addition to the regular work, special lectures and excursions were arranged by the authorities and the visiting students were given every opportunity to observe Mexican life and conditions of living at close range.

Many places of historic interest were visited by the "Gringos" during their out-of-class moments. These included the numerous beautiful buildings, art galleries, and museums within the City as well as the neighboring Aztec temples and pyramids at Teotihuacan, the shrine of Guadalupe, the famous floating garden of Xochimilico, and the volcano of Popocatepetl.

A composite report of the Nevadans'

NOTICE

The committee on Student Affairs desires to be of the greatest service to the students and members of the faculty and wishes their full cooperation. This may be attained if:

(a) The departments and faculty will notify the committee as to their needs for student assistance;

(b) The students needing work to help finance their college course will make formal application on blanks furnished by the President's office;

(c) All classes and organizations desiring dates for social purposes will file their preferences at least two weeks in advance with the chairman of the Committee, Miss Mack. In order to avoid conflicts as far as possible it is understood that the date will not be considered definite until after its approval by the committee who will enter the approval dates on the official calendar in the President's office. It is desirable that the dates for the present semester be submitted before October first in order that the semester schedules can be arranged.

MISS MACK, Chairman,
A. E. TURNER,
J. C. JONES.

DURING THE SUMMER

Mining student at work underground gets into an argument with an old timer.

Mining Student—"I guess I know a little something. I went to school under Prof Jones for two years. Don't you think that I have brains?"

Old Timer—"Brains? Say, lad, if brains were dynamite you couldn't blow your hat off."

trip reveals the fact that the summer was one of many pleasures and few regrets. A practical exhibition of kindness that was well appreciated by all the "foreign" students was the provision made by the Mexican government whereby the visitors were carried for half-fare rates on the railroads.

WOLF PACK TO MEET FINEST COAST TEAMS

(Continued from Page One)

familiarly known as "Horse" is already in our midst with his usual grin. Like Coach Courtright he says nothing except to admit that the man who makes the team this year will have to fight for his chosen position.

"Horse" Hobbs came to Nevada with a wealth of high school experience behind him and added to that two seasons on the Varsity. He plays left end and is an adept at grabbing the forward pass from almost any position. Hobbs is a speedy man and was directly responsible for many of the yards gained by the Wolves last season.

Hobbs is a glutton for punishment and hard knocks and with the loyal support of the school and his teammates will without doubt pilot the Silver and Blue eleven through another successful season.

Experienced Men Who Have Returned

In the line there will be at least four letter men who will be backed up by last year's second string men. Pierson and Fisher at guard will be towers of strength. Both learned college football under the Andy Smith system and came to Nevada with a year's experience on the first squad of California. At center George Duborg will give a good account of himself since he was regularly played at that position. With a year of experience Duborg should have improved considerably and give the best of them a battle for his place.

Tackle will see "Man Mountain" Carlson, the giant from Eureka back. He weighs over two hundred and despite his size is a fast player.

At end Hobbs will perform and it will not surprise the followers of the gridiron sport if right end is taken care of by "Spud" Harrison who put up a good performance last year and startled fans by his playing against Cal varsity.

Providing Willis Church is able to put on a suit this year the U should not worry about a quarter. He showed plenty of stuff last year and with the three years' experience behind him will be a great asset to the back field.

Martin, already mentioned, will be a candidate at the back field position where he has qualified and won his N twice. At full back Scranton looks like the goods. The wares he peddled in '21 were of the best quality and he has returned heavier and more husky than before.

At half Herb Foster will make a strong bid. During the summer he had the misfortune to break his arm but will be able to get into the game later in the season.

Other Men With Experience

Altogether not a letter man Tiny Hugg is expected to show up in great style. Last year was his first on the gridiron but he demonstrated his ability before the end of the season and proved to be no small addition to the back-field.

Another powerful man and one who has consistently plugged away is Sam James. James has played in the line for three years and this year should make the others hump in order to get in the running.

Gus Faulbaum will be a candidate for the line. He played an aggressive game in the forward position last sea-

son and is a possibility with great promise for this year's team.

Al Lowry who played at full on the '21 scrub and Dick Gridley who showed form at tackle, although new men, are both back and may round into good players.

As far as the schedule is concerned Coach Courtright has been working hard and promises a goodly list of combats for his men. It is quite possible that the Olympic Club will be induced to take a trip over the "hump" for a game early in the season. In this case "The Rabbit" will again be seen in action on the Nevada field, since he is to play with the clubman this season. Another game that is a possibility is a mixup with the Agetion Club of San Francisco. They have been at work for the last few weeks and bid fair to put up a great battle. The first college game will be played with St. Marys on Mackay Field. The complete schedule will be announced later.

MANY NEW NAMES ON FACULTY ROLL

(Continued from Page One.)

Prof. Lewis E. Rowe, formerly of the University of Utah, will conduct the Music Department. Miss Benson, who was Professor of Music last year, has entered business in Oregon.

In the State Hygienic Laboratory, Dr. Henry Albert takes the place of Dr. Ruediger, with Miss Helen Gardiner as Assistant.

Robert G. Foster, in the Agricultural Extension Division, will have charge of Boys' Club Work, and be assistant director of that department. This place was formerly held by Mr. Collins.

Mrs. Louise Dow, will be the new clerk in Director Creel's office.

In the Department of Physical Education, the University has secured the services of Dr. Oscar L. Clough, who takes the place of Mr. Hilbish. Dr. Clough is a graduate of Maryland Medical College and will develop classes in Physical Education based upon the needs of the men.

Coach Lawrence Shaw, former All-American tackle, and Notre Dame football star, has been engaged by the Student Body to act as line coach of the football team, and as assistant to Coach Courtright.

With these additions to our faculty the University authorities are looking forward to another year, more successful than any in the past history of the school.

Friends of Louis Meyers will be surprised to learn of his recent marriage. The couple will make their home at Ely where Mr. Meyers is assistant to the chief engineer. Mr. Meyers while at school was a member of A. A. E., and the Block N Society.

BOOK SHOWING CAMPUS SCENES NEARLY READY

As an additional method of spreading Nevada's fame as an up-to-date as well as a beautiful institution of learning, a University view-book has been printed this summer and will be ready for distribution as soon as it returns from the binder's. The booklet is replete with photographs showing the various buildings on the campus as well as some particularly good football action pictures; in fact, there is scarcely a student activity that is not represented in its pages and it should do good work as a graphic advertisement of the University as it really is.

Reports from the President's office indicate that many tourists, passing through Reno this summer, were astounded to find such a beautiful university located here and the demand for catalogues was very great. The view-book, when placed in the hands of such visitors, will doubtless attract many new students to the campus.

CRUCIBLE CLUB PLANS AN ACTIVE CAMPAIGN

Realizing the advantage of an early start, the Crucible Club, mining society of the University, has already launched an active campaign for new members and every effort is being put forth by the nucleus of old members to keep the organization preeminent in the field of departmental clubs.

This organization, which was established at the University many years ago, and abandoned during the war period on account of the lack of mining students, was revived last year and immediately regained its former prestige. During the year the meetings were addressed by various mining and engineering men who had gained prominence in some phase of mining or metallurgical work, each of which was exceedingly entertaining as well as

highly instructive. Before the close of the year the organization was recognized by the American Institute of Mining Engineers as an affiliated student society.

Plans are already under way for a series of meetings during the coming year, and it is expected that even a greater variety of entertaining speakers will be obtained than were available last year.

Membership in the organization is limited to upper class mining and geology students, while a limited number of sophomores and special students in mining may be elected to membership.
