No. 28

## LARGEST CLASS TO LEAVE IN MAY

### Coffin and Keys Holds Yearly Running on Campus

#### WHISKERINO NOW DEAD TRADITION; JUNIORS BANISH BEARD CONTEST

#### Junior Week Will End With Roaring Old Time '49'er

ORIGINATED IN '24  
Lack Of Interest Is Reason Of Change In Plans

Whiskers are to be abolished, and in place of the annual Whiskerino which was to be held on April 10, a gigantic dancing carnival depicting the days of '49 will take place in the Gymnasium as the culmination of Junior week, according to the decision reached by the Whiskerino committee at a meeting held Tuesday night. Such action was taken by the committee when it was seen that the campus would not be able to support the traditional whisker contest. Many of the leading contestants were members of the Glee club, and could not let their whiskers grow; the Frosh Glee this week promised to lessen the remaining number of beards; and with Easter, and other social activities slated during the intervening time between now and Junior Week, there was little hope of having a good turnout. The fraternity and sorority forms were blamed by the committee as being the greatest handicap to the whisker growers.

#### Big Show In Gym

The '49 program as roughly outlined by Robert Stewart, chairman of the committee, will give the Hill the biggest show of its kind that has been attempted up to the present time. The Gymnasium will be decorated accordingly, and many "atmospheric" trimmings are to be brought into play to produce a realistic scene. "The days of old, and the days of gold." Prizes which were to be given for the longest crop of whiskers will be given instead to the best make-up, or costume of the boom-camp days. Several handsome prizes have been already selected for the winners.

#### Surprise To Come

In addition to the plans that are being made public, more detailed arrangements are being worked out in secrecy by the committee. Among those that are to be kept under cover is one that is to effect the entire program of events. It will be announced the week before the show takes place. The introduction of this idea on the Campus is to add to the smoldering realism of the old West when the cowboys, dusty and weary, rolled unending cigarettes by the light of the western, summer moon, and listened lazily to the restful strain of music from the ranchos, and the click of castanets.

With the abolishment of the Whiskerino, all students growing whiskers, except seniors, will be turned over to, and dealt with by the upperclass committee.

#### SAYINGS OF SORORITY SUE

"Just because they call it the 'Frosh Glee' is not saying that it is any laughing matter."

#### LOVE IS ODD ANIMAL ACCORDING TO LATEST FROM PSYCH 10 CLASS

According to the various definitions turned in by Professor J. R. Young's class in Psychology 10, students seem to vary greatly in the conception of "love." Poets, philosophers, sentimentalists, humorists, and critics looked puzzled, scratched their heads, and wrote: "Love is a mystic force which draws some of the queerest couples that you have ever seen together." "Love is something which causes a lump in your throat." "Love is a force that makes your head whirl and your heart pound." "When you can't sleep, and you can't eat, that is love." "Love is a magnet which draws people of the two sexes together." And one youth of experience wrote: "Love was something that caused me to flunk out of college my first semester."

#### WOMEN PREPARE FOR DELTA JINX CARNIVAL NIGHT

#### Concessions At Annual Event Rapidly Going

Preparations are now underway for the annual Delta Jinx, which is to be held April 9. This year the Jinx is to follow the carnival idea with the various concessions, trained animals, pink lemonade, popcorn, and other things commonly associated with this type of revelry.

#### PLANS FOR GLEE SATURDAY NIGHT HELD IN SECRET

#### Novel Decorations And Entertainment Promised

Plans for the Frosh Glee, which talk of the campus says will be "one of the best dances ever held on the Hill," are shrouded in deep mystery. With maddening complacency Hoyt Martin, chairman of the committee, sits back and refuses to divulge any secrets to those inquisitive ones who are inquiring how, when, and wherefore of tomorrow night's dance.

#### MICHAEL PUPIN TO VISIT HILL

Michael Idvorsky Pupin, professor of electro-mechanics at Columbia University, noted author and physicist, will visit the University Sunday, March 28 at the request of Clarence H. Mackay, Nevada benefactor. Professor Pupin will stop here on his return trip east from the University of California where he is to speak. Arrangements are being made where members of the Nevada faculty may meet the distinguished scientist, according to President Walter E. Clark. Pupin, who is a personal friend of Mr. Mackay, is the author of "From Immigrant to Inventor," one of the most widely read autobiographies of recent times.

#### PALMER IS BACK FROM TRIP AFTER SEEING MILLS IN CANADA, MEXICO

#### Mines Paper Presented At Engineers Meet In New York

#### VISITED C. MACKAY Observed Practice Of Treating Zinc, Lead Ores

Walter S. Palmer, professor of metallurgy, returned last week from a trip of about 8,500 miles which took him into Canada and Mexico and on which he visited mining schools, smelters, mills and industrial plants. Jack Thompson, '98, engineer for the Callow Flotation company, escorted Professor Palmer through several of the most modern plants near Salt Lake City, among which were the mine, mills and smelter of the Utah Copper company, which is operating the largest copper mine in the United States.

#### Tours Big Plant

J. Walter Scott, '23, was guide in Professor Palmer's tour through the Western Electric company's plant in Chicago. This plant manufactures all the telephones used by the American Telephone and Telegraph company.

#### Visits Canada

Harper Neeld, '15, superintendent of the Carborundum company of Canada, and Charles Masters, '17, assistant superintendent of the same company, guided Professor Palmer through a large carbide plant, paper mill, electric power station, and carborundum plant at Shawinigan Falls, Canada.

#### Stops at Pittsburg

Then he went on to Pittsburg where he visited the Carnegie Institute of Technology, the University of Pittsburg, and the Mellon Institute. At Carnegie Institute the professor of mining is Captain Edward Steidle, who was in charge of the first mine rescue crew stationed at the University of Nevada.

#### Visits Mine Station

At Columbus, Ohio, he visited the Ceramic station of the bureau of mines. His purpose was to collect information on their methods of testing clays. Other points in Palmer's itinerary were the School of Mines at Rollo, Missouri; the Texas school of mines at El Paso, Texas; the Arizona school of mines at Tucson; and the mining departments of Stanford University and the University of California. Professor Palmer crossed the border of Mexico south of Douglas to Agua Prieta and discovered nothing but some adobe shacks. In his trip Palmer crossed 22 states and two international boundaries.

#### EXHIBITS, SKITS SHOWN HILL BY ENGINEER BODIES ON ANNUAL DAY

#### All Laboratories Run Full Blast For Yearly Banquet

#### Stunts On Quad Form Takeoff On Hill Celebration

From the parade sponsored by the Automobile Dealers' association on Friday until the final strains of the Engineer's Hop Saturday night, the Campus was turned over to exhibitions and stunts depicting every field of engineering. Over one hundred and twenty-five members of the Associated Engineers, together with their guests, gathered at a banquet held at the Century club hall Friday evening. Several well-known engineers gave short talks which were followed by songs and stunts.

#### Clever Exhibits

The electrical engineers had a number of cleverly enacted experiments in the Electrical building. A million volt Tesla coil shot out 24-inch sparks, a mysterious teapot poured an endless stream of water which visibly seemed to come from nowhere, a headless body startled visitors at the electrical exhibits. Over in the Mechanical building milling machines shaved steel ribbons and drill presses ground other steel into tiny grains. Miners and chemists took up the School of Mines building, the chemicals demonstrating the distillation of coal and oil with by-products. Miners showed off the mill and seismograph.

#### Model Library

"Daddy" Layman and his library formed the setting for the mechanical stunt, the role of librarian being carried off to perfection by Stegatz, '29.

#### MINE STUDENTS HEAR B. PICKARD

Byron O. Pickard, district engineer of the Berkeley bureau of mines experiment station has been in Reno since Wednesday. He is delivering a series of lectures to the seniors in Mining 72 on mining ventilation, the last of which is tonight.

#### FROSH PADDED FOR BAD BREAKS

Sounds of a blunt heavy object falling in regular routine upon a resisting surface rang once more upon the campus last Friday. What did it mean? Just the fact that several frosh had been called to account for breaking-campus traditions. The sophomores and upperclassmen punished the culprits by the usual means of "padding."

#### RARIN' BULL AND TOREADORS GIVE CAMPUS THRILLS GALORE IN FIGHT

#### Tram Lawn Is Scene Of Coffin and Keys Initiation

#### THIRTEEN CHOSEN Big Crowd Congregates To Watch Colorful Presentation

In full view of hundreds of students gathered on the lawn by the Tram, 13 Coffin and Keys initiates gave their interpretation of a Spanish Bull fight during the 11:25 period this morning. As the 9:30 bell tolled the end of second class of the day, a hectic roar and thunder of bombardment drew students from every building on the Hill to the Quad where a handful of "peons" were defending a box barricade from the invasion of another group of gayly dressed men and a bull a few rods down the green. The handful was vanquished, but the Campus was informed that the Coffin and Keys initiation was to take place this morning.

#### Bully Parade

At the end of the next period the entire group, marching in single file with a flute and a bass horn playing a weird march in the lead, came forth from the neighborhood of the Gym, and began their parade of the Campus. Beginning with the Mackay School of Mines building, they invaded each class room on the Campus. Painted by the oriental tins and the bull, they respected no principle of classroom discipline.

At the appointed hour the students swarmed to the Tram to see the alleged bull fight. When a crowd gathered that hid the Tram and spread itself over the green, the newly elected members made their triumphant march into the natural bowl. The fight was on. The bull and the torero shook hands, but a moment later the fighter was carried off the field and buried to the tune of flute and bass and a booming salute. Two more toreros tried their hands at murdering the vicious brute from Nevada's deserts, but even the best of the troupe failed in the second round. The flute playing "matador" was not to be forgotten. He approached the animal, charmed it, and worried it to death with his trusty tune amid the applause of the spectators.

#### Bucking Contest

With the finish of the bull fight, the two mountain "vaqueros" who were members of the parade were brought into play and short bucking contest was given. It failed to continue when the burros took to the pavements instead of the lawn.

#### SENIOR CAST IS NOW REHEARSING

Rehearsals for the senior play, "Adam and Eva," which is to be given at the Rialto theatre on April 14, are being held daily under the direction of Miss Luethel Austin. According to Miss Austin, Harrison Gardner and Phyllis Poulin are showing up well in their respective roles of leading man and leading lady, while Harold Coffin and Mildred Leavitt make a fine newly-wed couple, both of these roles being different from those which Coffin and Leavitt have ever portrayed before. Rena Semenza has been chosen as Corinthia, the maid, and George Sears as the family doctor. "Bill" Gutteron is a typical uncle, while Maribel Holland has the part of the efficient aunt, and Don Robinson that of the father.

#### Delink List Improves Over Previous Record

Fewer students were on the delinquent list this semester than last and a smaller percentage will be placed on probation, according to Dean Adams. In the college of arts and science, 52 students received delinquency. The work of these students is unsatisfactory due either to illness or lack of interest. Those receiving two delinquencies met with their dean, while those who had three delinquencies met with the scholarship committee this week, and some were disqualified.

#### UCSB WILL ACT AS HOSTESS TO AWS DELEGATES

#### Nominations made at the Associated Women Students meeting this morning were: Ada Moore, '27, and Grace Moran, '27 for president; Lucille Summerfield, '28, for vice-president, and Ellen Harrington, '29, for secretary. Other nominations can be made up until the meeting to be held Tuesday. The president-elect will make the trip to the convention as the delegate from Nevada.

#### UNIVERSITY OF CALIFORNIA Southern Branch, March 18.—(PIP)—The University of California, Southern Branch will act as hostess to twenty-six colleges which will be represented at the biennial conference of Associated Women Students, western division, taking place in Los Angeles from April 14 to 18. Plans are being carefully made to provide an enjoyable time for the guests during their stay.

The colleges to be represented at the conference are: Stanford University, Colorado Agricultural College, Montana State College, Occidental College, Brigham Young University of Utah, College of the Pacific, Mills College, Oregon Agricultural College, Pomona College, University of Arizona, University of California, University of Colorado, University of Idaho, University of Montana, University of Nevada, University of Southern California, University of Utah, University of Washington, University of Wyoming, Utah Agricultural College, Washington State College, Whitman College, University of Oregon, Colorado State Teachers College, Redlands University, and University of California, Southern Branch. Nominations for delegates to represent Nevada are to be made today.

#### CLUB HEARS OF WINDOW DISPLAY

"The window display and its value in business" was the subject of a talk given before the Commerce Club Wednesday night, in the Education building. F. E. Robinson, the speaker has had a number of years experience in the window display game and gave a number of ideas he has gained. The second issue of the monthly Commerce club bulletin giving details of the organization and touching on highlights of the University activities will be sent out this week to the alumni of the commerce school. The club has nearly completed the compilation of a business alumni directory which will show records of all business alumni and will be kept in the office of the commerce department. "Laddie" Miller, '28, was initiated into the organization.

#### WORLDISTS HOLD SOCIAL MEETING AT DEAN'S HOME

Twenty-three members of the Cosmopolitan club, representing twelve countries met at the home of Dean and Mrs. Maxwell Adams last evening. Professor R. H. Leach gave a short talk explaining a visit to International House, New York City. Singing of the national anthems of the various countries represented by members, and of various college songs, piano solos by Florence Billingshurst, '27, and cello solos by Greg Adams, '28, provided entertainment. Plans were made for a business meeting to be held in two weeks.

WHO  
has a spare baseball field in any shape, size, or form. Enter your back yard, anything. What have YOU

#### NINETY SENIORS NOW POSTED TO GET DEGREES AT COMMENCEMENT

#### Arts Will Rank First in Number of Skins To Be Given

#### MEN IN MAJORITY Final List Is Not Yet Compiled By Office Of Registrar

Commencement with its accompanying heart-throbs, fond parents, flowers, blasted and budding romances and life long friendships will witness the graduation of the largest class ever to leave the University of Nevada at one time. The names of ninety men and women have been posted by Louise M. Sissa, registrar, as the prospective list of eligible graduates. Changes are being made daily, names are being added—others removed. Of the tentative list of candidates for degrees 46 are men and 44 are women. Eighty-eight persons are scheduled to receive the degree of Bachelor of Arts, ten the Bachelor of Science, two B. S. in Electrical Engineering and the remaining 20 failed to signify, or there is some doubt as to which degree they will receive. The following list is but a partially complete notation of those who may be graduated:

- William Harper Anderson, A. B.
- James Chester Atcheson.
- Jasper C. Atkinson, B. S.
- Lawrence C. Baker, A. B.
- Elizabeth M. Barndt, A. B.
- Florence M. Benoit, A. B.
- Stephen L. Berdalis, B. S.
- John Bonner.
- Wilma Blattner, A. B.
- Lois Bratton.
- Alison P. Brizard, A. B.
- Roscoe I. Brown, A. B.
- John F. Cahlan, A. B.
- Edward R. Chittenden, B. S.
- Donald E. Church, A. B.
- Robert Marion Clawson, B. S. in Agriculture.
- Harold P. Coffin, A. B.
- Muriel B. Conway, A. B.
- George V. Cooley, A. B.
- Dorothy Crandall, A. B.
- Clarice Craner, A. B.
- Lloyd E. Crosby.
- Mary Cupples, A. B.
- Ruth C. Curtis, A. B.
- Foster W. Curtis.
- Louise Davies, A. B.
- Lena M. DeRoemer, A. B.
- Olga C. Dotta, A. B.
- Harry C. Duran, A. B.
- Harold F. Dwyer.
- Ruth Eaton, A. B.
- Willis L. Edwards.
- Courtland B. Frain.
- Silvia F. Genacis, A. B.
- Charlotte J. Gibson, A. B.
- John R. Gillberg, A. B.
- William A. Goodale, B. S. in Agriculture.
- Bernice Gruber, A. B.
- Ruth L. Gunter, B. S. in Home Economics.
- Everett W. Harris.
- Frances L. Harrison, B. S. in Home Economics.
- Vera M. Haviland, A. B.
- Frances M. Humphrey, A. B.
- Frances M. Humphrey, A. B.
- Frieda Humphrey, A. B.
- Alberta R. Jones, A. B.
- John B. Kalin, B. S.
- Chauncey L. King, A. B.
- Frank R. King, A. B.
- Mildred Klaus, A. B.
- Lawton B. Kline, A. B.
- Jane Lang, AB.
- Philip Lawton, A. B.
- Mildred E. Leavitt, A. B.
- Harold E. Lohlein, A. B.
- Allan L. Lund, A. B.
- Charles K. McClelland.
- Gwendolyn McLeod, A. B.
- Margaret E. Murphy, A. B.
- Evelyn M. Nelson, A. B.
- Thelma M. Ninnis, A. B.
- Ruth Olmstead, A. B.
- Katherine O'Sullivan, A. B.
- Phyllis I. Poulin, A. B.
- Zelda C. Reed, A. B.
- Marjorie C. Roach, B. S.
- Thomas M. Roach.
- Donald A. Robinson, A. B.
- Fred A. Roemer.
- Charles H. Russell, A. B.
- Katharine T. Ryan, A. B.
- Reno Semenza, AB.
- Raemon C. Samuels.
- George W. Sears, A. B.
- Neil B. Shaber.
- Lloyd A. Shellabarger.
- Merle W. Smith, A. B.
- Rocco L. Spina.
- Rene B. Semenza, A. B.

(Continued on Page 2)

# CLARK, ADAMS TO PRESENT TALKS, FOOTBALL GAME ON MACKAY DAY

## Morning Cleanup Will Be Followed By Luncheon

### MACKAY INVITED

## W. A. A. Gives Awards; Big Dance In Evening

Campus cleanup, a student body luncheon, a football game, and a dance in the evening to wind up the day are to be the main events of the Mackay Day celebration on the campus according to the committee in charge at the conclusion of their meeting Wednesday.

At the luncheon, President Walter E. Clark, Reverend Brewster Adams, and Coach J. E. Martie will be the principal speakers. Music and stunts have also been arranged. Marjorie Roach, 26, of the home economics department, will act as toastmistress. Freshman women will have the task of serving the luncheon.

After the luncheon the Women's Athletic association will award numerals, and sweaters to those who have earned sufficient points in athletic activities.

### Officers Nominated

This will be followed by a student body meeting at which officers for the coming year will be nominated. Many names have been mentioned as possible candidates for A. S. U. N. officers.

Following the assembly, the afternoon will be taken up by a football game instead of the usual track meet.

The Artemisia, which has been printed and is now in Sacramento being bound, will be distributed after the luncheon. It will be given out at four desks arranged alphabetically from A to Z.

### PROMOTIONS ARE MADE IN R. O. T. C.

Promotions in the Cadet corps of the University have been approved by President W. E. Clark and the following men have been given their commissions. Promoted to the rank of major, Captain G. B. Cooley, '26, to the rank of captain, second lieutenants Ernest S. Brown, '26, W. J. Gritton, '27, John R. Bonner, '26, to the rank of first lieutenant, second lieutenants W. K. Scott, '27, F. M. Ball, '27, F. W. Hargmeyer, '27, E. M. Clays, '27, J. C. Molina, '27, L. V. Skinner, '27, and J. R. Coleman, '27.

### SCIENTIST TESTS LAHONTAN POINT

One of the chief criticisms that paleontologists have directed against Professor J. Claude Jones' theory that Lake Lahontan existed in comparatively recent times has been partially disproved.

It has been argued that the fossils found there are of extinct animals, therefore the lake must be very old. A recent discovery has proved that all fossils are not of extinct animals.

Three or four years ago two prospectors picked up a lime coated skull. Jones sent it to Dr. Chester Stock, expert at the University of California.

This week Professor Jones received a letter stating that the skull is of a big horn sheep. These sheep inhabit the Lahontan country at the present time.

### STUDENTS' LOOSE FAILING FATHER

S. H. Wells, father of Helen Wells, '26, and Katherine Wells, '29, died at his home in Logandale, Nevada a few days ago after a prolonged illness. Both daughters were at the bedside of their father at the time.

Wells was a prominent rancher in the southern county for many years. He is survived by his wife, five daughters, and two sons.

### DECATUR TO SPEAK

James D. Decatur, commercial agent of the Western Union Telegraph company at San Francisco will give a descriptive talk on the telegraph at the University next Monday afternoon at 4 o'clock, according to C. C. Hawcroft, manager of the local Western Union, who has secured his services.

### MISS WIER ON RADIO

Professor Jeanne E. Wier, of the history department of the University of Nevada, will speak over radio station KGO March 23, in connection with a series of addresses on good reading and good citizenship through better homes. The General Federation of Women's Clubs is sponsoring this course which will cover six weeks.

Why Write? Send The 'Brush

## Scandal Show Will Give Hill Rakeover

The most widely feared and most scathing event of the year, the Scandal Show of Delta Alpha Epsilon, will be presented by neophytes of the English honor society on March 26 at the 11:25 assembly period. Besides those who were bid to the organization this semester, the cast will include two senior women, Esther Summerfield and Lena DeReemer who were pledged last semester.

In addition to the Scandal Show, the new members will put on an original Shakespearean farce. A committee of the pledges is busy working on the burlesque which promises to be especially interesting and original.

Flags for the show will be on sale next week.

## PLAYS WILL BE STAGED BY CLUB IN ED. BUILDING

Normal club members are working hard on their plays which are to be given April 8, in the auditorium of the Education building.

Dorothy Jane Larson, '29, is directing the two-act play, "Patsy," in which Thelma Weeks has the leading role. The cast includes Rose Patterson, '27, Opal Curieux, '29, Mary Guthrie, '29, Theo Morgan, '28, Evelyn Fayhin, '29, Helen Fowler, '29, Estelle Ede, '29, and Ruth Glascock, '29.

Evelyn Boudette, '29, has written a one-act musical comedy and is directing West, '29, Flora Jones, '29, Mayling it herself. The cast includes Gold-Mills, '28; Margery Neubaumer, '29; Violet Palsgrove, '28; Dorothy Larson, '29; Mary Guthrie, '29, and Opal Curieux, '29.

The original purpose of the play was to bring out the dramatic and musical talent in the Normal club. Campus entertainment is the object in view now.

## Normal Students Act, Direct Original Productions

### THUGS ATTEMPT TO RO BSTUDENT

Attacked by thugs at midnight last Sunday, Everett Morrissey, '27, was knocked down and robbed.

Morrissey was walking along Sixth street, between Virginia and Sierra streets when two masked men jumped out of the alley. They searched their victim for valuables but obtained nothing more than a check book. Morrissey sustained a few bruises, but otherwise was uninjured.

### THUGS ATTEMPT TO RO BSTUDENT

Attacked by thugs at midnight last Sunday, Everett Morrissey, '27, was knocked down and robbed.

Morrissey was walking along Sixth street, between Virginia and Sierra streets when two masked men jumped out of the alley. They searched their victim for valuables but obtained nothing more than a check book. Morrissey sustained a few bruises, but otherwise was uninjured.

Promotions in the Cadet corps of the University have been approved by President W. E. Clark and the following men have been given their commissions. Promoted to the rank of major, Captain G. B. Cooley, '26, to the rank of captain, second lieutenants Ernest S. Brown, '26, W. J. Gritton, '27, John R. Bonner, '26, to the rank of first lieutenant, second lieutenants W. K. Scott, '27, F. M. Ball, '27, F. W. Hargmeyer, '27, E. M. Clays, '27, J. C. Molina, '27, L. V. Skinner, '27, and J. R. Coleman, '27.

### SIESMOGRAPH ATTRACTS CROWD ENGINEER'S DAY

J. Claude Jones, professor of geology, expressed his surprise at "the tremendous interest shown in the exhibition of the seismograph on engineer's day."

"The thing that drew most of the interest was the extreme delicacy of the machine," he said. "Many of them, not content with my demonstration, proved to be from Missouri and had to be shown how susceptible the instrument is to the slightest tremor."

### BUREAU OF MINES HEAD TO VISIT RENO STATION

Oliver C. Ralston, assistant chief metallurgist of the United States bureau of mines, will be in Reno to visit the Nevada branch experiment station soon. He is in charge of the Berkeley bureau of mines.

## DATE CALENDAR ANNOUNCED FOR ENSUING WEEKS

### Many Formals Planned During Busy Social Season

With the semester more than half over, the revised social calendar for the remainder of the year has just been released. Every week-end has been spoken for, while many mid-week dates will be utilized. On two consecutive Friday nights there will be three formals dances, while there will be eleven formals all told before the close of college in May.

The social calendar is as follows:

- March 19—Pi Beta Phi formal.
- March 20—Frosh Glee.
- March 24—Glee Club Concert.
- March 24 and 25—State High school Declamation contest.
- March 26—Sigma Nu formal.
- March 27—Mackay Day.
- April 1—Alpha Tau Omega formal.
- April 2—Easter Recross.
- April 8—Normal School Party.
- April 9—She-Jinx.
- April 10—49 Dance.
- April 16—Delta Sigma Lambda formal; Beta Delta formal; Sigma Alpha Epsilon formal.
- April 17—Delta Delta Delta Jazz-ino.
- April 23—Sigma Phi Sigma formal; Kappa Lambda formal.
- April 24—Sophomore Derby Dance.
- April 30—Women's Glee Club concert.
- May 1—Senior Ball.
- May 8—Delta Alpha Epsilon Banquet.
- May 9—Baccalaureate Services.
- May 10—Commencement.

### THUGS ATTEMPT TO RO BSTUDENT

Attacked by thugs at midnight last Sunday, Everett Morrissey, '27, was knocked down and robbed.

Morrissey was walking along Sixth street, between Virginia and Sierra streets when two masked men jumped out of the alley. They searched their victim for valuables but obtained nothing more than a check book. Morrissey sustained a few bruises, but otherwise was uninjured.

### BUREAU OF MINES HEAD TO VISIT RENO STATION

Oliver C. Ralston, assistant chief metallurgist of the United States bureau of mines, will be in Reno to visit the Nevada branch experiment station soon. He is in charge of the Berkeley bureau of mines.

## ESSAY WINNERS IN CHEM PRIZE CONTEST NAMED

Names of the winners in the American Chemical Society essay contest have been received by Dean Adams, chairman of the Nevada state committee who submitted several essays to the national committee several weeks ago. Most of the high schools of the state competed in this essay contest.

W. Harland Stuart of Churchill county high school won first prize on his essay "The Relation of Chemistry to Health and Disease."

The first prize on the essay entitled "The Relation of Chemistry to the Enrichment of Life" was awarded to Morris A. Newcomb of Reno high and Euphemia Clark, also of Reno high was given the first prize for her story on "The Relation of Chemistry to Agriculture or Forestry."

"The Relation of Chemistry to National Defense" essay first prize was awarded to Beatrice Bollscheuler of Wells high school.

### Why Write? Send The 'Brush

Helen Kay Reed of Goldfield high school took first prize for her essay on "The Relation of Chemistry to the Home," and Lois Carman, also of Goldfield high school was given first prize for her essay "The Relation of Chemistry to Industry."

The above is a correction to the Sagebrush issue of March 5 which announced student who had entered essays in the chemistry contest as prize winners. The contest will be held in May.

### Why Write? Send The 'Brush

Cleveland and Secretary of War under President Wilson, is being considered for the presidency of Ohio State University.

## ENGINEERS HEAR OF "ARRESTERS"

W. C. Smith, of the General Electric company, delivered a talk on "Meters and Lightning Arresters" before the Nevada branch of the American institute of electrical engineers Wednesday night. His discussion was illustrated with lantern slides and followed by a moving picture entitled "The Benefactor" which gave a story of Edison's life, together with the development of some of his great inventions.

### DEBATE CONTEST FOR STATE HIGH SCHOOLS COMING

#### Campus To Act As Host To Declaimers Also Next Week

Nine state high schools up to the present time, have signified intentions of sending both boys' and girls' teams to the declamation and extemporaneous speaking contest to be held on the Campus next week, according to H. P. Miller, debate coach. The contest will be opened with debates, Thursday morning, March 25, in the Education building. Only two final debates, which will be held Saturday evening are open to students and faculty. Thursday afternoon the oratorical contests will be held. Finals for this contest will be held the same evening in the Education building. Girls' Reading Contest. Girls' dramatic reading contest will be held in the Education building at 1:15 Friday. The two winners of each of these contests will meet in the finals Friday evening at 7:30. The extemporaneous speaking contest will be held Friday evening immediately after the final dramatic reading contest. All high schools that were expected to have not entered teams. Those who are signed up are: Carson, Moapa Valley, Lovelock, Mineral county, Las Vegas, Elko, Reno and Tonopah. Trophies To Be Given. All contests are under the auspices of Clontia and Caneus debating societies. Both organizations will present trophies to winning teams. Associated Women Students will present the girl winner of the declamation contest with a loving cup. Arrangements have been made to house the girl contestants at Manzanita Hall. NEV.

### NEVADA SELECTS SCHOLAR IN '26

#### Rhodes Award made on Basis Of Ability To Lead

Nevada is one of the states in which elections to Oxford will be held in 1926. The recipient of the scholarship, to be determined on December 11, 1926, will enter Oxford in October, 1927. A candidate, to be eligible for election must be a male citizen of the United States, unmarried and between the ages of 19 and 25 on October 1, 1927. He must have completed at least his sophomore year in college. Furthermore the candidate must apply either in the state in which he resides or in the one in which he has received at least two years of his college education. A Rhodes scholar is liable for three years and no restriction is placed upon a Rhodes scholar's choice of studies. The award is made without examination on the basis of the record in school and college of the recipient. The qualities which will be considered in making the selection are qualities of mind, character, public spirit, leadership, literary and scientific ability, attainments, and physical ability. Dr. J. E. Church, secretary of the committee of selection in this state or Dean Adams will give further information on the matter to those interested. NEV.

### ORE STUDY BOOK SOON TO APPEAR

Material for a book entitled "Microscopic Study of Ores" has been gathered and worked into form by E. E. Fairbanks, junior mineralogist of the United States bureau of Mines. "I expect the book to appear the latter part of this year," Fairbanks said. Waldemar Lindgren will write the historical introduction to the book. Professor Chamot of Cornell university, Dr. Davy of the General Electric company, Dr. Trivelli of the Eastman Kodak company, Professor Taylor of Princeton university and J. Claude Jones of the Mackay school of mines, are among the 17 contributors. Dr. K. Schlessman, one of the foremost German authorities on ore microscopy, has written Fairbanks asking permission to translate his book into German. NEV.

### CAMPUS BRIEFS

Frank Blasingame, ex-'26, arrived in Reno this morning to spend a few days with friends. Ernest Lee Williams, grand secretary of the Sigma Nu fraternity, was a guest of the Delta Zeta chapter house here last week. John Babcock, '28, spent the week end in San Francisco with his parents. Dorothy Middleton, '25, has been the guest of various friends in Reno for the past week. Wyman Sexsmith, '28, spent Saturday and Sunday in Virginia City. Luethel Austin, '24, instructor in English, spent the week end in San Francisco. Mr. and Mrs. Edward Patterson, now residents of Carson City, spent the week end in Reno. Mrs. Patterson, who was formerly Eloise Ferguson, '28, was the guest of Gertrude Coddington and Helen Hibbert, '28, at the Pi Beta Phi house. Patterson, also '28, was a member of Alpha Tau Omega and was the guest of William Goodale, '26. Frances Shughnessy, '28, was also a guest at the Pi Beta Phi house. Alice Halley, '29, spent last Sunday visiting relatives in Virginia City. Helen Clancy, '29, and Adelaide Hawks, '29, returned Sunday night from San Francisco where they had been visiting since Thursday. Edith Frandsen, '26, is ill at the Reno hospital. Lawrence Baker, '26, returned Monday from the S. A. E. Province convention held in Los Angeles. Grace Costello, '27, and Muriel Conway, '26 motored to Yerington Saturday. Wayne Hinckley, '27, is a guest at the Pi Sigma Kappa house this week. Louise Von Roeder left Monday night for her home in New York City. Helen Coverston, '29, and Isabel Loring, '28, returned Sunday evening from their homes in Fallon, where they had been since Friday. Mrs. James Leonard spent Monday in Reno as the guest of her daughter, Jessie Leonard, '29. Golden West, '29, visited Saturday and Sunday with Evelyn Boudette, '29, at her home in Yerington. Elizabeth Johnston, '29, and Genevieve Williams, '29, spent the week-end at their homes in Fallon. Fred Hagmeyer, '27, and Leon Haliner, '28, spent Sunday in Carson City with the former's parents. Earl Worden, '26, spent Thursday in Sacramento on business. William Nesbit, '29, was visited by his mother and sister from Roseville, California, during the last week. Mr. and Mrs. Frank H. Manson of Arizona are visiting their daughter Ruth Manson, '25. James Bailey, '25, spent the week-end in Fallon. NEV.

### MOTION PICTURE SHOWS HISTORY OF OIL INDUSTRY

#### Petroleum In Evidence In Earliest Times Of World

Presented by the American Legion, a seven-reel motion picture entitled "The World Struggle for Oil" was given in the Education auditorium Tuesday night. The picture related the history of the petroleum industry, and showed the first derricks used in oil drilling, and the advance by gradual stages to the graphic scenes of the most modern methods. The first reel was entirely historical, and showed mentioned of bitumen in the Bible, and in ancient writings. It was illustrated by the building of Noah's ark, by the use of pitch in war fare, and by the use of oil in religious ceremonies. Earlier conditions, means of petroleum transportation, distillation, and contrasting statistics from various angles of consumption and uses were shown. The film demonstrated that the total amount of petroleum consumed in 1922 would comprise a train of tank cars of 10,000 gallons capacity which would circle the equator nine times. The high point of the film came with the question of what country is to control the future supplies of petroleum. NEV.

### SCHOLARSHIP IS HARVARD'S GIFT FOR SENIOR MEN

#### Fellowships Offered for Foreign Work By Colleges

A one thousand dollar scholarship, offered by the Harvard Engineering school at Harvard for engineering students in other colleges of the senior year for 1926 and 1927, is the foremost item on a list of scholarships and fellowships recently received by Dean Maxwell Adams. Among others is the fellowship in Czechoslovakia and another in Hungary for any student qualifying in those languages. Summer courses are offered for the University of Berlin as well as for a summer school course for American students at Trinity college, Dublin, in 1926. Applications may be made for study in Scandinavian countries under the American Scandinavian Foundation. Such applications may be made from this University through Dean Adams. NEV.

### PICNIC PLANNED BY AGGIE GROUP

Box lunches, old-fashioned games, including a potato race, a fat-man's race, and barnyard golf, are listed as entertainments at the annual Aggie club picnic to be held April 11 or 15, the exact date depending on the weather. The place where the picnic is to be held has not been definitely decided upon yet.

### GREAT UNWASHED TO BE THING OF PAST IF NEW TRADITION WORKS OUT

"All men must wear clean cords," so states the committee in charge of the junior and senior dance at University of California, Southern Branch. The purpose of the informal "scud" is to create a closer feeling of friendliness between the two upper classes. Besides promoting this feeling it will afford an opportunity for all upperclassmen to have their cords washed. It is expected that an annual affair shall become a tradition among the upperclassmen which marks the time for cleaning the worn cords or replacing them with new ones. Women are advised that sport clothes will be the order of the evening. NEV. Send The Sagebrush Home.

### BUTTER MAKERS TO VISIT PLANTS

The Crescent Creamery and the Nevada Packing Company have offered the use of their plants for the University class in butter making. The visits and work by the class will start next Tuesday.

### DOUGHNUT FUND GROWS AT CALIFORNIA AUCTION

UNIVERSITY OF CALIFORNIA, March 18.—(UPI)—Bargain-hungry students gave \$150.03 in exchange for a year's accumulation of lost and found articles at the annual auction sale last Friday. The proceeds of the sale are to be used toward the purchase of a doughnut machine to be installed in the student co-operative store.

# STUDENTS ADMIT THAT CAMPUS IS OVER-ORGANIZED

## Dr. Young Tells What 68 Men and Women Think of Idea

Discussion of the question "Is the campus over-organized?" combined with a St. Patrick's program, featured the Y. W. C. A. meeting last Wednesday in Mazanita hall.

Dr. J. R. Young, professor of psychology, gave a short resume of facts he had gathered from a questionnaire answered by sixty-eight students in three of his classes. The questionnaire consisted of four questions: "How many organizations do you belong to?" "Do you consider the campus over-organized?" "If so, what remedy do you suggest?" "How many hours a week do you devote to organizations?"

Approximately three-fourths of those questioned considered the campus over-organized. Two out of sixty-eight belonged to no group, while one person confessed seven. The mathematical average was three and a half organizations to each student. The greatest number of hours devoted to extra curriculum activities was eleven. Various remedies for the situation were suggested, such as limiting the

# Weeping Willow Wears Saint Patrick's Green

"Where the river Shannon flows," down by the Ome ditch, even the weeping willow tree wore an ethereal frock of green on the Irish patron saint's day, March 17. The wearing of the green, in all shades and tints, was flashing from all corners of the Campus on Ireland's national holiday. Irish songs, ditties were hummed, or whistled, or loudly sung to the whole world. Snatches of Irish songs heard about the Campus on St. Patrick's day ran something like this:

"Paddy, dear, and did you hear, the news that's going round?" "Just a little bit of Heaven fell from out the sky one day and the angels saw it lyin' there and thought it looked so gay." "When Irish eyes are smilin' sure 'tis like a morn' in spring in the illt of Irish laughter you can hear the angels sing." But, "Did you ever go into an Irishman's shanty, where money is scarce and the whiskey is plenty; with a three-legged stool and a table to match and the door of the shanty, it shut with a fatch?"

# CAUCUS, CLONIA PUT ON HUMOROUS DEBATE FOR SOCIAL MEET WEDNESDAY

"Resolved: That this house should pity its grandchildren" was the subject of debate when Clona entertained Caucus at a social meeting Wednesday night in the music room of the Education building.

Caucus was represented by Forest Holdcamp, '23, and Warren Monroe, '23, Louis Carvalhi, '23, and William Clawson, '23, debated the question for Clona. Arguments elucidating the nature of the Martian man and the development of family trees were flung from the opposing sides. No decision was declared.

Gertrude Reilly, '23, and LaVerne LeMaire, '23, gave several piano jazz selections.

# NORMAL STUDENTS NOW TEACH NEW DEPARTMENTS

The 25 normal school women who are practice teachers this semester have now begun their work in new departments. They teach in two different positions each semester.

number of organizations one student might participate in, and whole-sale slushing of overlapping or dead organizations.

Following Dr. Young's talk, an open discussion on the subject was led by Esther Summerfield, '26.

The main feature of the St. Patrick's program was an original playlet, "The Leprechaun," read by the author, Zella Reed, '26. Natalie Holley sang two Irish selections, Dorothy Larsen, '23, recited some Irish poetry, and Margaret Fuller and Evelyn Anderson, both '23, sang an Irish duet.

# PREP CAGERS TO MAKE TRIP EAST

Reno high, state basketball champions, have accepted the invitation to enter the National basketball tournament to be held in Chicago during the last week of March. They will leave some time next week, it was announced today.

Ten men will make the trip and to be in top form they will resume practice and training immediately. To acquaint themselves with large court they will practice on the University floor, which is as large if not larger than the tourney floor in Chicago. The Reno high team was not able to go last year due to the lack of financial support. But the finances necessary for this year's trip have been raised by the Reno business men and a sufficient amount is assured.

"Should Show Good"

Tonopah went to Chicago last year but failed to place, so that Reno is facing a rather bad position in the east. With two all state men and enough good men to make an exceptional team they should show well unless the effects of the hard trip crop out. If the Reno team makes the showing they did in the state tourney they should run well into the tournament.

The team will probably be gone a full two weeks or longer and will have an excellent opportunity to see the Middle West and the Lake country.

# AMENDMENT TO 'BE VOTED UPON

Publication of an amendment to the constitution was authorized by the executive committee at their last meeting. It will be voted on at the student body meeting Mackay Day. It reads:

"The third paragraph of article IX, section 2, to read: Basketball—A blue jacket sweater with a white six by six block "N" on the left side, and a one-half inch white stripe above the elbow on the left sleeve for each letter won in this sport and a white star directly above the cuff for a captain."

LEADERSHIP IN ANIMALS SAME QUALITY AS SEEN IN MEN SAYS PROFESSOR

ITHACA, N. Y., March 18.—Modern leaders in government are elected in fundamentally the same way as animals select their leaders, according to Professor James C. Neelam of the state college of agriculture, in a recent talk here.

"In both animals and human beings leadership depends upon character," said Dr. Neelam. "Animals have a sense of group solidarity and of dependence on leaders much the same as have humans, and they also have a code of proper conduct and duty toward others, which is at the bottom of all governments.

"In men, as well as in animals," he said, "this is a result of the instinct of race preservation, which causes the love of mates and of offspring, and love of others of the same species. This is the better and unselfish side of organic evolution.

"The organization of persons in society is similar to the organization of cells in the body. The human body is an aggregate of cells, which form a unit of a higher order than the individual cells; society is a unit of a higher order, composed of persons.

"Mutual dependence is the strong bond of union. When individuals have need for each other, they organize, for more efficient operation."

# FROSH TO PAINT 'N' ON SATURDAY

In order to give the freshmen a chance to try their hands at cleaning up the Campus on Mackay Day with the rest of the men students of the University, a change was made in the date set aside for that class to give the "N" on the front outside its Easter cleaning. It will be whitewashed tomorrow morning.

Each semester the "N" is whitened, but last spring the class of '23 went on their work-picnic on Mackay Day with the result that there was a shortage of men on the Campus for the work allotted to them. The notice of the change of dates appeared on the bulletin board this morning.

# Engineers Give Annual Dance

Under shaded lights the engineers entertained the Campus Saturday evening at their annual engineers' dance in the Gymnasium. Punch and coffee were served during the evening while a college orchestra played.

Dean and Mrs. Maxwell Adams and Professor and Mrs. F. H. Sibley were chaperones.

# House Mother Entertained

Delta Delta Delta entertained Monday night in honor of their house-mother, Mrs. Marguerite Stoddard. All active members of the sorority acted as hostesses to the guests including Dr. and Mrs. H. W. Hill, Mr. and Mrs. H. J. Gosse, Mrs. J. H. Clemons, and Mrs. H. E. Reid.

In the course of the evening, entertainment was presented, punctuated with dainty refreshments.

# Sigma Nu's Entertain Mothers

Sigma Nu fraternity held Mothers' night at their chapter house last Monday evening.

A program of instrumental selections and songs was given, after which ice cream, cake and coffee were served to Mesdames A. M. Smith, L. T. Brockbank, W. J. Harris, Spencer, L. Green, W. Cann, C. Hicks, F. W. Wilson, H. M. Martin, Robertson, G. Simpson, Robison, and Misses G. Spencer, G. McNeil, and J. Robison.

# Fraternity Has St. Patrick Dinner

Shamrocks and green pipes pointed to dainty maids and men in green which marked the places of guests at a dinner party given by Sigma Phi Sigma members at the chapter house on North Virginia street Sunday. Gentlemen wore white carnations and green and white paper decorations were on the table.

After dinner, singing and dancing were participated in. The guests included: Lulu Hawkins, Helen Fraser, Beverly Bulmer, Amy Goodman, Dorothy McGee, Ruth Brewer, Norma Gardella, Jimmy Brown, Alta Rouse, and Lucille Blake.

# Hillman-Thornton Marry

Gertrude Hillman, ex-'23, became the bride of Melvin Thornton Sunday evening, Reverend Brewster Adams officiating.

Mrs. Thornton, a member of Delta Delta Delta sorority has been employed by the Bank of Sparks since leaving college.

Thornton is employed by the Standard Oil Company at present.

After a short honeymoon the couple will make their home in Reno.

# Phi Sigma Kappa Formal Friday

Members and pledges of Phi Sigma Kappa entertained with a formal dance at the Century club last Friday evening. During the seventh dance Bill Clinch sang.

Chaperoning the dance were: Messrs. and Mesdames A. E. Hill, Lawrence Shaw, E. G. Sutherland, and Mrs. M. Howell.

Dorothy Middleton, ex-'25, and Hortense Valleau, ex-'27, were dinner

# Senior Women Breakfast

Fifteen senior women gathered at the Y. W. C. A. last Sunday morning for a waffle breakfast, after which they attended church services. Seniors attending were: Ruth Oimsted, Dorothy Ward, Charlotte Gibson, Evelyn Nelson, Mildred Klaus, Ruth Eaton, Silvia Genasci, Muriel Holland, Vera Haviland, Blanche Wyckoff, Freda Humphrey, Ruth Curtis, and Esther Summerfield.

# Pi Beta Phi Initiates

Mabel Mariani, Renee Duque, Margaret Ernst, Jeanette Brown, Tillie Evansen, May Abbott, Alice Lunsford and Patricia Harding were formally initiated into Pi Beta Phi last Saturday evening at the chapter house on Liberty street.

Following the ceremony the new initiates, active and alumnae members attended a banquet at the Golden Hotel.

# Fraternity Has Informal Dance

Kappa Lambda fraternity members entertained with an informal dance last Friday evening at their home on University terrace. Programs and refreshments were carried out in the shape of devils, with a feature dance for which every one found a partner by matching playing cards.

Coach and Mrs. J. E. Martie and Professor and Mrs. R. H. Leach were included among the guests.

# Miss Lewis Is Hostess

Miss Sarah L. Lewis, head of the Home Economics Department, entertained the senior home economic women at a waffle breakfast in her

# CLOCK CHECKING SYSTEM EXPLAINED IN ARTICLE

Professor Alfred W. Preston, three years ago assistant professor of mechanical engineering on the campus, and now holding a similar position on the faculty of the University of North Dakota, has published an article in the North Dakota Engineer concerned with the clock system of checking.

This system which Professor Preston has installed in the engineering department there, is the same one which he started here. In his article he states that the college shop is a good place to introduce a system of instruction that will acquaint the student with the actual operation in commercial organizations. Considering the importance of accurate keeping of time work in commercial plants, it is necessary to insure the desired accuracy.

This may be done by having the workman's time mechanically recorded on an automatic time recorder.

# Beta Delta Entertains

Beta Delta members and pledges held a social evening for the members Monday evening at the home of Alberta Jones on Lake street. After a program, refreshments were served.

# Challup-Larue Marry

Announcement has been received of the marriage, February 20, of Alice Challup, ex-'26, and James Larue, ex-'27, at Fresno, Calif.

# Dinner Guests Thursday

Participants in sorority exchange dinners Thursday were: Helen Clancy and Mae Bernasconi to Delta Delta Delta; Tess Chambers and Mabel Mariani to Beta Delta; Katherine Griffin and Katherine Curieux to Sigma Alpha Omega; Lois Ruth Parker and Louise Jones to Kappa Alpha Theta; and Altha Pierson and Wilma Pruett to Pi Beta Phi.

## RECORD HOLDERS ARE PROMINENT AMONG TRACKME

### Pack Enters Several Meets On Coast This Year

### FRAT APRIL 13 Interclass Meet On Schedule For April 6

With a fairly successful basketball season behind and a rosy track season ahead, the cinder path artists have once more donned spikes and are daily working out on Mackay Field. For years Nevada has had a poor track team, a team that hinged its success or failure on a single meet. This year it will be different and for the first time for many years the Wolves will growl out their defiance to several adversaries on the cinder track as well as the gridiron or basketball court.

The first meet of the season will take place on April 6 when the different fraternities will tear at each other's throat for the intra-mural championship. Outside of determining the championship the meet will be one of the most interesting of the year, not from a competitive standpoint, but from the standpoint that it will give the fans a chance to look the new men over. The next contest will be the annual inter-class meet which will bring the four classes together on April 13 in a test for the supremacy of the Campus. From the present outlook it appears that the freshmen may walk away with this meet as the number of new men out is astounding.

**Season Opens April 17**

The inter-collegiate season will open on April 17 when the Modesto tracksters will invade the Wolf stronghold. The Modesto boys have always had a good team and should press the Nevada men to the limit and make them show what they can do. With the preceding meets under their belt the Wolves should be in good form for the Olympic club meet on April 24. The Clubmen can be classed with the cream of the coast and should make the Pack work for all they can get. In last year's meet they walked off with the honors by a considerable margin so that track fans will probably be treated to a rare spectacle when the two teams meet.

In the last meet of the season on May 1 the pack will journey to Stockton and take part in the Far Western Conference meet. Nevada lost the championship in football and basketball by narrow margins this year but is out to make up for lost time in track. When the five teams do tangle, the Wolves have an excellent chance to emerge victorious.

**Five Letter Men**

With five letter men eligible this year and a host of last year's men and "unknowns" to participate, a well balanced team should result.

"Ken" Robison, Nevada interscholastic titleholder has been classed by Coast authorities as one of the most promising sprinters ever developed on the Pacific coast. When the Olympic club was here last year they induced Robison to participate in the Western Championships where he made a wonderful showing but lost out due to inexperience. His high school record of 9.9 seconds exceeds the University record by one-tenth second and it is probable that he will cut that down before the end of the season.

In the quarter mile Nevada's chances also look good with several promising men trying out. Of these, Ferguson seems to be the most likely to win. "Fergy" is another high school title holder and it would be no surprise if he clipped the existing University record and ran close to 51 flat.

**Hartung Looks Good**

In the half mile Hartung looks as

## W. A. A. BEGINS ON TRACK SCHEDULE

Practice started Monday on W. A. A. sports for this season. Track is scheduled for 2:30 on Mondays, Wednesdays and Fridays, and baseball is divided into two sections, 3:30 and 4:30 on the same days.

So far this season about twenty have signed up for track and forty-six for baseball. More are expected to be out for both sports since the season has only begun, and the weather is now favorable for these out-of-door sports.

The track season is expected to end about the second week in April, and baseball is to be continued until the first of May. The final baseball games are scheduled for May day.

## MEN LOSE OUT IN RIFLE MATCH TO FEMININE STARS

### Women Again Defeated In Interstate Meets

Again the women's rifle team has defeated the men's team. They succeeded in this in a meet held last week in the Barracks. The final scores were 945 and 944. It was a close meet and the women just did hold up their honors.

In last week's matches the women's squad was defeated by the University of Michigan in the prone and sitting position with the score of 945-950 points out of a possible 1000. The University of South Dakota also won in the prone position with a scoring of 492-485 points out of a possible 500 points. No returns have been received yet from the University of West Virginia and the University of Cincinnati.

**Six Matches Won**

Throughout the rifle season out of twenty matches the women have won six and lost nine, with still five unheard from.

High scores made during the season in prone positions were: Isabel Loring, '28, holds the highest possible score-making 100 out of a possible 100; Naomi Ayers, '27, and Gilberta Turner, '26, making 99; and Anita Beacas, '28, and Edith Dowd, '28, 98. In the sitting positions Eva Adams, '28, and Gilberta Turner each scored 98 out of a possible 100.

## INTER-FRAT HAS SCHEDULE DRAWN

### Every Team To Have Three Chances At Finals

With the few lingering memories of the basketball season fast vanishing, definite plans for the annual inter-fraternity baseball tournament are rounding into shape, and present indications give promise of the best supported tournament yet. The continuance of the warm weather of the past few weeks has started practice in earnest and pairs of men "warming up" or knocking balls can be seen in front of the various fraternity houses most any hour of the day. The past two Sundays have witnessed practice on the various local diamonds and lots, between frats in impromptu games.

Drawing for bracket positions were held the first part of the week and dopetsters have already begun to go through regular routine of sizing things up. Lincoln Hall will cross bats with the S. A. E.'s on March 29. Delta Sigma Lambda plays the Independents on March 31.

**No Games Easter**

It is highly probable that games will not be played during Easter vacation and the following meets will be played on dates yet to be determined: Kappa Lambda vs. Beta Kappa; A. T. O.'s vs. Phi Sigs; Sigma Phi Sigma vs. the winner of the Delta Sigma Lambda-Independent game; Sigma Nu's vs. the winner of the A. T. O.-Phi Sig game.

Weather permitting, all games will begin at four p. m. each playing day. In the event of a team not appearing they will forfeit the game. With such an extensive schedule strict rulings have been made and must be enforced. Umpires will be decided on for each game on the day previous.

Mackay field will not be used this year for the games. Metal spikes tear up the grass and have necessitated a change of grounds. The space east of the bleachers in back of the tennis courts will be used. Some work

## PERMANENT RECORD TO BE KEPT BY WASHINGTON

UNIVERSITY OF WASHINGTON, Seattle, March 18.—(PIP)—A committee of seventeen has been appointed by the president of the student body to keep a permanent written and pictorial record of activities and events in the University of Washington. The committee will co-operate with the faculty committee on history, records, and traditions.

## WASHINGTON MAY MOVE PRESENT CREW COURSE

UNIVERSITY OF WASHINGTON, Seattle, March 18.—(PIP)—A change of the crew course on Lake Washington, which will enable spectators to follow the shells in an observation car, is looming. At present, crew fans can get only a glimpse of the shells from the shore of the lake, or from steamers following far behind the contestants.

and Professor V. E. Scott of the University, are planning a trip into Lyon county to assist Reed in this work.

Field Prospects Good

In the field events the chances look just as bright. Ross Crew will probably lead the pole vaulters as has been his custom for the last two years and should re-break the record he established while a freshman.

In the high jump "Archie" Watson will again hold sway and may raise the record he established last year. The lanky athlete was just getting the idea of things when the season closed last year and should start things off in great style this year. If he does this he will probably go over six feet and put the record where it will be safe for awhile.

The broad jump will bring forth another school record holder and also the probability of another broken record. While in high school Kline covered 22 feet 3 1/2 inches which is just 1/4 inch under the present University record. His progress has been noted by a substantial increase in distance each year and there is a chance that he may knock the record for a loop.

**Weight Events Weak**

The weight events will be Packs weakest link this year but with "Max" Allen on the shot and Bailey on the javelin things should turn out all right. As soon as Allen has mastered the form in shot putting he should turn out to be a second "Bud" Houser as he is built on the same lines.

In the javelin another record will probably fall before the efforts of another state record holder. "Jim" Bailey has tossed the spear over 160 feet while in high school which is way above the University record.

Rooting instructions form part of the regular routine of the R. O. T. C. at the University of Washington.

A handwriting that is almost the counterpart of the style invented by Thomas A. Edison, has been adopted by a school in New York City. Letters are formed separately and no flourishes are used.

WHEN the first ball game is here. And the heavy hitter cracks the ball shrieking into deep center for a home run—have a Camel!

For Camel adds the magic of its own fragrance to life's most festive days. Camels are of such choice tobaccos that they never tire the taste or leave a cigarette after-taste. You'll get more contentment, more pleasure out of Camels than any other cigarette.

So this fair spring day as a redoubtable batter lofts out one that seems will never stop flying—oh, then, taste the smoke that means completed enchantment.

Have a Camel!

Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and Domestic tobaccos. The most skillful blending. The most scientific packages. No other cigarette made is like Camels. No better cigarette can be made. Camels are the overwhelming choice of experienced smokers.

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

# LECTURES TRIED TO MAKE SPRING FOOTBALL CLEAR

Stiff Signal Practice As Conditioner Is Planned

MANY MEN OUT  
Backfield Looks Good With Veterans In Old Positions

Coaches Shaw and Phelan have been utilizing the last few days in practice and execution of the fundamentals of interfering and tackling following an illustrated lecture on them the first part of the week. A chalk talk Tuesday night stressing offensive and defensive has also been followed out.

These talks combine notes on coaching and on practical football and are outlined so that they can be easily learned. A set of rules and suggestions for each position have been made out and Coach Shaw intends to give an examination on each of these.

The backs have been going through a stiff workout in taking out ends a set of tactics beneficial to the ends as well as the backs.

**Stiff Signal Practice**  
Stiff signal practice has been introduced as a conditional, although only a few of the last year plays are being used. A variety of backs are on the field and are working in many different combinations behind an equally changeable line. The backs are the most promising as only Dunagan of the last year's backfield is gone. Jimmie Bailey the versatile left half of last year's squad is unable to be on the field due to a siege of boils and this leaves a great gap at his position. "Mike" Lawler has been working out at this half and as he is a triple threat man he should give Bailey a good run for the job as he has had more experience in the system.

**Three Full Backs**  
There are three good looking full-backs, Captain Allen, Stockton and Miesner. Stockton, a freshman from the California State Championship team of Bakersfield looks especially good for a beginner in college football as he passes well and runs good interference. Frost and Sullivan have been working at the right half position but as Frost has more experience he will probably have the breaks here. Quarterbacks are the most numerous with Lawson and Canton leading the string.

The ends are the weakest part of the squad as Bream is the only regular left from last season's team. Randall, Wright and Gadda are the other possible flank men.

Newton and Hansen of the last year's Varsity are bidding strong for the tackle positions with Walker and Taylor working hard behind them.

**Guards Promising**  
Guards are the most promising of the line-men as there are a good number of them out and working hard. Anderson of last year's Varsity, Larson of the freshman team, Carnaito and Etchebarren, look good for these positions. Anderson has had two years of varsity experience and should show a great deal of fire and work well in next year's machine. Etchebarren a former Reno high player, combines 210 pounds of solid weight with plenty of speed and seems an apt pupil of the game.

Fairbrother, last year's center is the most favorite of the three out although Castle and Graves will give him a good deal of competition.

**Game Mackay Day**  
The spring practice will end with a game on Mackay Day between two picked teams and this should add to the interest in spring session.

**RISING RESPECT IN INTELLECTUAL FIELD IS NOTED**  
Future Colleges Will Develop Varied Curricula

The interest of intellectual excellence, which is often associated with the pioneer spirit and which has prevailed in the United States for a century, is slowly disappearing. The credit for this is probably due in large part to the value of scientific research to industry, according to President Aydlotte of Swarthmore in the Philadelphia Public Ledger. This slowly increasing respect for intellectual work of the highest grade bids fair to be a tremendous asset to the colleges.

The college of the future will profit by this change in public feeling. It will emphasize quality rather than size. It will compute endowment needs as so much per student and will limit its enrollment.

The college of the future will modify the elective system in important respects. Students will have choices to make, but they will be fewer and more important choices.

The college of the future will not have so much the character of a secondary school. It will allow its students more freedom, will insist upon more serious work, will make larger demands upon the intellectual independence and initiative, and will demand relatively less docility. The signs of the times indicate that American colleges of the future will be more highly differentiated and less standardized than they are at present. There will be more interesting variations in the curriculum and fewer conventional attempts to teach every aspect of every subject.

**NEV**  
During the past 20 years, 1269 Rhodes scholars have entered Oxford University in England. Of this number 635 were from the dominions and colleges, and 630 from the United States.

# BRUSH SPORTS

## COMMITTEE HAS SUBSTITUTE FOR GIRL'S TOURNEY

Questionnaire Will Be Sent To State Schools

Questionnaires are being sent out to the various high schools to get their opinions on the new plan which has been proposed by the Physical Education department to handle the girls' tournament. Their plan is to combine the regular sports such as basketball, baseball and track, with dancing, debating and dramatics in one series of contests. They believe that this would eliminate the "attendant evils" of the usual tournament as it is now conducted.

The meet as planned would be held during the spring vacation in order to give the girls some time for preparation. The participants would be senior girls only and they suggest that in games where more girls are required than there are seniors in the school, that two or more schools should get together to form their team. Whether this would be possible or not has evently not been considered.

**Competition Limited**  
According to the regulations suggested, no school could compete in more than four events and no individual in more than one event which involves elimination by semi-finals. This would close competition to many girls who might be star athletes and would work a hardship on the smaller schools where good players are few, thus seeming to defeat their idea of giving more girls a chance to compete.

To finance this meet it is hoped that the communities will aid in raising funds. A part of the money will be raised by an admission charge and the deficit in some other manner upon which they have not decided as yet.

The questionnaires to be sent to the high schools of the state by Elsie Sameth, head of the department is as follows:

1. What do you think of this plan?
2. How many senior girls are you likely to have next year?
3. To what extent would your school or community help them to get to this meet?
4. In what events could your school participate?

**NEV**  
Malnourished children in schools in Cleveland, O., are gathered in special classes conducted by the nutrition clinics. They "graduate" when they attain the weight required for their age and height.

## BRUSH REPORTER SELECTS STATE BASKETBALLERS

Three Reno Boys Are Placed On First String

LINE-UP CHANGED  
Grandstand Players Not Considered In Picking

**By WALDEN KLINE**  
With the state tournament past and with Reno wearing the championship crown, the writer has undertaken to pick an all state team that would do justice to the players and teams alike. The selections are based upon the individuality and versatility of the men, instead of their appearance and scoring power. Some consideration is also placed upon the ability of the men to function like a machine as a grandstand player seldom reaches the heights desired for all state material. With these considerations in view The Sagebrush announces the following selections for all state teams:

First Team	Position	Second Team
Hayes, Reno	F.	Thacker, Stewart
Byrnes, Tonopah	F.	Mery, Reno
Leonard, Reno	C.	Gardner, Gardnerville
Caselli, Reno	G.	Goodwin, Las Vegas
Ronnow, Panaca	G.	Salisbury, Reno

While these teams may conflict with other all-state selections I feel sure that such men would give any team in the country a good run. Hayes and Byrnes at forwards are undoubtedly two of the best scorers ever developed in the state. Hayes has made the majority of Reno's points this year

and at the same time has displayed dazzling floor work and exceptionally clever dribbling. Byrnes is another clever floor man and this fact has been verified by the fact that this makes his third year on the all-state team.

**Leonard At Center**  
At center there is no better player for the position than Leonard. The lanky Reno man has starred all during the season and while in the tournament he really outdid himself. In the Tonopah game he was the undoubted star and the fact that he will be back next year places Reno in a very favorable position to repeat their victories of this season.

**Salisbury Is Good**  
At the guard positions two more exceptional players hold forth. Caselli is one of the flashiest running guards to ever appear on a Nevada court and certainly deserves the position. His work on the offense has been really spectacular while on the defense he was like a stone wall. The standing guard position was much harder to fill but it is finally placed by Ronnow of Panaca. While the southern guard did not get much chance to show his stuff he certainly made up for lost time in the two games in which he did appear. He showed the fastest pass of any man in the state and plays a wonderful back court game. He is a real star in the making and is good Varsity material.

**Second Team**  
On the second team the forward berths are given to Mery of Reno and Thacker from Stewart. Mery, while

not an exceptionally flashy player was one of the most consistent of the tournament. He is an exceptional floor man and a clever dribbler and was a real important cog in the smooth working Reno team. Thacker was the outstanding indian forward and was responsible for most of his team's points. He is a dead shot close to the basket and deserves the position.

At center Johnson of Gardnerville curbs the position on the second team. He was the outstanding player on the Douglas county team and was largely responsible for their wonderful showing. A great future is predicted for this man as he has two more years in high school to improve his playing.

**Records compiled at Stanford university show that women are 2.6 per cent more brilliant than men.**

## DUMERTIERITE IS RESEARCH TOPIC

At the request of E. E. Fairbanks, junior mineralogist of the United States bureau of mines, Dr. N. L. Bowden, of the geophysical laboratory, Washington, D. C., has made a heat study of dumortierite, a material used for making spark plugs, taken from the Rochester mining district.

Dr. Bowden has found that at 1200 degrees the ore is transformed into graphite, but he also noted the effects of various impurities. "Dr. Bowden's study indicates that a clean separation of dumortierite is necessary before it can be employed in the manufacture of spark plugs," Fairbanks said.

## BUREAU OF MINES ENGINEER SPEAKS

B. O. Pickard, district engineer of the Berkeley bureau of mines station, who is now visiting the Nevada Campus, said, "Five men from the Mackay School of Mines have gone to work under me in the safety service division."

"Only two remain now, but the other three all have good positions in that line of work. I found that the training these men received has admirably fitted them for bureau of mines safety work." Pickard went on to say "these men set such an example that I was very glad to come and lecture to students of the Mackay School of Mines."

IT'S THE CUT OF YOUR CLOTHES THAT COUNTS

# Spring Opening

Thursday  
March  
18th

Burke and Short announce their formal Spring 1926 Showing of Men's Apparel in the newest and smartest styles for fashionable Spring Wear. As in previous seasons.

**Society Brand Clothes**

will be featured exclusively at this opening. Our Opening Window Displays will show them in the newest models, colorings, and fabrics—Romleys, English Chevots, Glen Uruquart Plaids, Thorntex's, Dublin Twists, Scotch Tweeds, English Homespun, Farsley Stripes, and Piping Rock Flannels.

The NEW CUT FOR SPRING—a shoulder that is higher, broader, more square, with a concave effect. Lapels deep and wide, snug hips, with a slight tracing at the waist line. Trousers are wide. Double breasted continue in popularity—along with the usual selection of two and three button sacks. All are equally correct, if correctly cut. It's going to be a great season for special fabrics; and, as always, it's the cut of your clothes that counts. See them as displayed in Our Opening Windows.

**Burke and Short**  
151 North Virginia Street
