THE STUDENT NEWSPAPER OF THE UNIVERSITY OF NEVADA

UNIVERSITY OF NEVADA—RENO, NEVADA, FRIDAY, NOVEMBER 9, 1928

PRICE FIVE CENTS

## SOCIAL FUNCTIONS FOR WEEKEND POSTPONED BECAUSE OF ILLNESS

LARGE NUMBER OF CASES REPORTED INDICATES TRUE  
SERIOUSNESS OF EPIDEMIC

All social functions scheduled for this weekend have been canceled due to the fact that there are so many cases of influenza at the present time on the campus. This step was taken by the university officials as a safeguard against further outbreaks of the sickness.

### Brawl Postponed

The Inter-Greek Brawl, to have been given this Saturday night by the combined forces of all the Greek letter fraternities under the sanction of the Inter-fraternity council has been indefinitely postponed under the edict. Several of the fraternities and sororities which were planning for house parties on Friday night have also postponed their dances to a later date.

### Halls Confined

The epidemic started about a week ago and although the cases are not as serious as they were several years ago there are many students confined to the hospital, Manzanita, Artemesia and Lincoln halls and at the various fraternal and sorority houses. The hospital has been full for the past few days, as soon as one student recovers another being added to the sick list.

### All Swimming Classes were Scheduled

to meet on the campus this week, instead of being held downtown at the Y. W. C. A. and attendance at regular classes was about half of the usual number. There has also been an unusual number of leaves of absence taken out from the registrar's office, most of them being for a week.

## POP OFF VALVE

### Fraternities

One of the greatest evils on the Nevada campus is the present system of fraternities and fraternity pledging. The greater Nevada is entirely forgotten in the selfish struggle for greater fraternities. It could be truthfully said that, if a crisis appeared, the average fraternity man on the University of Nevada campus would choose to work for his fraternity rather than for his university.

Part of this evil could be overcome either by second semester or second year pledging. To do this a new dormitory large enough to house the freshmen boys would have to be built. If such a dormitory were possible, then all the freshmen boys living together for a year or semester would become more interested in their class and in school work, and work for the university rather than for the furthering of fraternity interests. Another and still more important phase is that a newcomer would have a chance to look over fraternities and find out what they were about, before being pledged, and consequently could make a better choice for his own needs. The average freshman boy has probably heard of fraternities, but as to their workings and meanings he probably knows very little, if anything at all. It is well known that in several instances various promising men have quit Nevada because of hasty choice in fraternities. Because later they found that they had nothing in common with the groups with which they had become allied.

Fraternities if put to good purposes are splendid things, but when they result in petty rivalries, small acts and a general lack of school spirit they are more harm than good. So far, at Nevada, the fraternities have shown little progressive work, and many worthwhile activities are being continually ruined by petty fraternity rivalries. This year, however, students have realized the trouble with the present system and are trying to bring the fraternities together for better working conditions on the campus, but there still remains a long way to go.

## Monday, Nov. 11, Campus Holiday

President Walter E. Clark has announced that Monday, Nov. 12th, will be a university holiday in accordance with the proclamation by Governor Balzar, observing the 12th as Armistice Day as the 11th falls on Sunday.

As usual the local post of the American Legion will give their annual dance on the evening of Saturday, Nov. 10th.

## WOMEN SAID "CLOSE" AT PAN-HELL DANCE

Rumor has it the women "pulled the wool" a bit by being (or playing) sick the night of the Pan-Hell dance. Not a few of the all too expectant men were given "the gate" at a very late hour, causing many campus men to believe that the sick excuse was a bit overworked.

The women may have been charming hostesses at the dance but "cherry-boy" were they tight. Some forgot their purses, others feigned ignorance of the usual after-dance feed, while the more brazen took their men to the place of food after which, in a very nonchalant manner left the men to pay the bill.

The more discreet of the men said they wished for more of this sort of dancing, that is, if they would only not be so domineering.

## BLUE KEY FRAT TAKES ELEVEN NEW MEMBERS

INITIATION WILL BE HELD  
WITHIN THE NEXT  
TWO WEEKS

Ten regular men and one honorary man were elected to the Blue Key fraternity in its election held Wednesday night. Blue Key is a national honorary service fraternity, having 34 chapters in universities all over the country. The local chapter was established in April, 1926.

Men to be initiated are Edwin Duer, honorary; Loran Pease '29, Ralph Addison '30, Stanley Leahy '30, Tom Wilson '29, Allen Crawford '29, Jim Hammond '30, Don Bernstein '29, Herb Jacobs '29, Dan Senseny '30 and Lee Burge '30.

A man must have upperclass standing before he is eligible to the organization. However, sophomores are sometimes taken in during the latter part of the second semester of a school year.

The initiation date has not definitely been set, but the event is expected to occur some time within the next two weeks.

### 30 Limit Set

With the initiation of this group of men the total membership will be 29, making it very close to the limit set, which is not more than 30 members.

Each fall Blue Key manages the annual Wolves Frolic, the returns of which are taken to pay the salary of the assistant football coach at Nevada, making it possible for the Wolf Pack to have an assistant mentor to the regular coach employed by the university. In the past the fraternity has in the spring undertaken the "putting over" of the senior play, which is given the latter part of April.

## CELEBRITIES OF CAMPUS CHOSEN TO FILL OFFICES

PRESIDENT CLARK WILL  
DECIDE TIER OF  
CANDIDATES

"Let your conscience be your guide," but it is not a good citizen—vote. Thus proclaimed the bright boys of green, pink and white papers floating around the campus early Tuesday morning the shape of sample ballots.

The ballot offered a wide range of supermen for the positions and great difficulty was had in casting the votes. Who could choose between two such students as Pat Smith and Ed Caplin for mayor of Sparks? And as many a student was experienced by great in their choice of street sweeper, Herb Hoover or A. J. Smith. These men all tied for the positions and are now waiting prey's return to cast the deciding vote.

The Knights of the Keyhole were elected by an overwhelming majority (vote for three), "Maggie" Mack, Lou Sissa and Dick Layman. But the election committee are as yet undecided whether W. E. Clark or A. E. Hill is the chief "Toro Tossler," or Knight of the Bull.

Gus Newman, Allen Crawford and Tom Wilson panted dismally in the rear as Si Peomster was elected in a smashing victory as a member of the Klotz Club.

Women Not Neglected

But the women were not neglected in this election, oh, my no. Ma Hall emerged triumphant in sixty votes ahead of her nearest competitor, Jennie Weir, as administrative informer. Maxie Adams and Rube Thompson ate the dust of these two ladies as the election zipped its way over the campus.

Who held the sack? A false report circulated early in the day and Eddie Duer thought he was elected, but later and more authentic reports indicate that this is not so. Bob Adams was elected or will be when his various election pranks (miss-spelling, should be planks) are discovered.

Paul Harwood, due to his long English training with the merry wines and roast beef of old England, emerged triumphantly the victor as killer of the jug, leaving Carl Feuch as a mere babe playing with light wines and beer. Herb Jacobs, W. R. Blackler and Dan Senseny didn't rate at all.

### Successful Vote

Last but not least, Carol Cross came crawling industriously in as the ant, with Don Budge and Duke Overlin not receiving a single vote. This election was concluded as one of the most successful ever held at the University of Nevada, with a spirit that was astounding. Everyone voted for his favorite candidate as many as five or six times.

## 3 Recommended By Scholarship Committee for Rhodes Choice

Clover, Cantlon and  
Anderson Named by  
Local Men

Final Choice of One of  
Three Men to Be  
Made Dec. 8

The local Rhodes scholarship committee, after meeting the first part of the week, has recommended three men, Fred Anderson, Vernon Cantlon and Leslie Clover, all of last year's graduating class, for the Oxford scholarship.

There were a large number of undergraduates and graduates who tried out for the scholarship. The committee hesitated to select anyone who was not or would not be a graduate before the appointments take effect in October, 1929.

The reason is that men who are not college graduates have to take an examination in Latin as an entrance requirement at Oxford. One should have six years' work in Latin for the examination is generally a severe one. In the event that a student failed to pass this examination, considerable time and money would be wasted, for the expenses would not be less than \$500. Should a candidate fail in this examination Nevada would not be represented at Oxford.

Three Make Excellent Records

The three men who were recommended made excellent records while in college. Vernon Cantlon and Fred Anderson were both graduates of the college of arts and science, while Leslie Clover received his degree in the college of electrical engineering. The three men took prominent part in campus life and were leaders in their fields.

The final selection of one of these candidates will be made on December 8. The names of the present candidates will be submitted to the state committee, which will make the final selection.

The state committee is composed of Dr. Walter E. Clark, chairman; Dr. Church, Hon. George Whiteley and two former Rhodes scholars from California.

## Noted Lecturer Speaks Dec. 8th

FULTON FOUNDATION TO  
BRING NEVADA U.

Ruth Bryan Owen, daughter of William Jennings Bryan, who has just been elected as a representative to congress, from Florida, will speak in Reno in the Education auditorium December 8 on the subject of "Modern Arabian Knight."

Sidney Bryan Landin will lecture on "Character Studies of Great Literary Men," January 25.

February 20 Edward Tomlinson will address the students on "What South America Means to Us."

Arrangements for the Fulton lecture series will be completed when Dr. Walter E. Clark returns from his trip to Washington, D. C.

## HOSPITAL HOLDS MANY STUDENTS

INFIRMARY EMPLOYS TWO  
NURSES AND ONE  
DOCTOR

"Flu" has kept the doctor and two nurses at the University hospital busy since Thursday of last week. The infirmary has had eight or ten patients for the past week, besides several, who are confined to their beds at Lincoln and Manzanita halls. A room at Manzanita has been turned into a sick ward and a special nurse is in charge. Many students are ill at the sorority houses and the university, where Dr. M. A. Robison, of the university, has been calling every day.

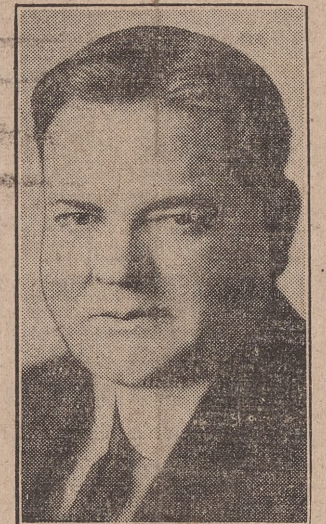

A number of students have been forced to withdraw from school because of this epidemic. Though none of the schools in this state have been compelled to close on account of the "flu," it is similar to the epidemic that was so severe six or seven years ago.

## Alumni List To Be Printed Soon

The first Alumni Directory to be published since 1922 will soon be off the press. The names of all the alumni and important data about each, including residence and occupation, will be given in the directory, which is published by the University of Nevada.

Such a directory is of great value to former students as well as the university itself.

## VICTOR

Hoover in the recent election gave the biggest electoral vote ever given a candidate, and carried the popular vote of the country by a very comfortable majority.

## HILL INTEREST HIGH AS 'HERB' WINS NATIONAL ELECTION VOTE

PITTMAN'S EASY VICTORY  
SURPRISE TO MANY  
STATE VOTERS

CAMPUS AGAIN SETTLED  
DOWN TO NORMAL  
SELF

Bearing out the results of the Pacific Intercollegiate Press Association coast-wide straw vote, the national presidential contest was recorded as an overwhelming victory for President-elect Herbert Hoover.

Interest of Nevada students ran high early Tuesday afternoon and evening when the national vote was still in doubt. As Hoover rapidly piled up his lead between Pittman and Platt and continued so late into the evening.

When it was finally decided that the Republican nominee would be elected many turned their wonder to the exact results of particular sections of the country, especially New York state. While Governor Smith carried the city of New York by a narrow margin, he state New York, who received a net lead of nearly 100,000 votes.

Hoover's popular vote was nearly six million ahead of that of the Democratic candidate out of a total vote cast of over 30 million ballots. In way of electoral college majority President Hoover's lead was even more marked, having been awarded nearly 444 votes to a scant 87 of Gov. Alfred E. Smith.

In the state election Senator Key Pittman, who has served Nevada for sixteen years, scored nearly six thousand votes more than his opponent, Samuel Platt. The election of Pittman will mean that he will hold his place in the senate for another six years without having to appear for re-election.

Again the campus has settled down to its normal self with the exception of a few Smith supporters replying to digs by student Republicans that "justice has been defeated" and "the majority is always wrong" men and women alike accepted the nation's ultimatum as final.

## American Legion Parade Includes Campus R. O. T. C.

Local Unit Will Form  
Opposite Stewart  
Hall Monday

The R. O. T. C. of the University of Nevada will participate in the annual Armistice Day parade of the American Legion on Monday, November 12, at 10 o'clock, which has been set aside by Governor Fred Balzar as a state holiday to commemorate the signing of the armistice.

Commanded by Cadet Major Elmer Lyon and headed by the university band, the company will form opposite Stewart hall at 9:30 o'clock and will march down town to Mill street, where the parade is to form. Here they will join with the Reno High cadets, the Veterans of Foreign Wars and the American Legion. With the R. O. T. C. at its head, the parade will march up Center street to Commercial row, east to Virginia street and down Virginia to the Riverside hotel, where it will disperse.

Due to the fact that Governor Balzar has set this day aside as a state holiday the university classes will be discontinued for that day.

## 'He Who Gets Slapped' Is to Be Elaborately Costumed Play

Circus Room in France  
Will Be Setting  
of Drama

Play Production Class  
to Take Charge of  
Production

According to those in charge "He Who Gets Slapped" is going to be one of the most elaborately costumed and one of the most expensive plays ever produced in Nevada. Costume plates are being designed by Tom Wilson '29 and Genevieve Leonard '30. All costumes are to be made by the home economics department under the supervision of Miss Jessie Pope. "He" alone will have four costumes; Manichino, lead, two elaborate ones; Mancini, three; two for Briquet, and twenty others for circus characters of Continental character. This is the first step toward the making of a permanent wardrobe for the players. About a hundred dollars is to be spent for costumes alone.

The setting is a circus room room of France, designed by Tom Wilson, modeled after the original setting used by the Theatre Guild of New York when they produced this play.

The play production class and the campus players' managers are going to construct the entire setting, which will be the first made completely on this campus.

## Brush Announces Writing Contest

Unsurpassed Prizes To  
Be Awarded Lucky  
Author

Starting with next week's issue of the University of Nevada Sagebrush a "Best Story" contest will be held. The two best stories will be selected each week by the editorial staff. Record of the winners will be kept and posted each week on the bulletin board in the Brush office. The student having the greatest number of best stories by the Christmas holiday will receive the first prize. Two other prizes will also be presented. The nature of the gifts will be made known later.

The quality of writing, the way the story is handled, and the journalistic style rather than the length will be the determining factors in choosing the prize winning stories. Every member of the staff is eligible and should try out for one of the prizes.

## U. OF N. DEBATE SQUAD TO TOUR

WOMEN'S DEBATE SQUAD  
AND FRESHMAN TEAM  
MAKE PLANS

The University of Nevada debate squad is planning an extended tour of southern California, to include forecasts clashes with the University of Southern California, University of California at Los Angeles, Occidental college and several other institutions in that part of the state. Plans are also being made for debates with College of the Pacific, Fresno State and some bay college. The women's debate squad is attempting to interest the University of Utah in a contest, while the freshman debaters are anxious for practice against the various high schools of the state.

The squads have been meeting each Tuesday and Thursday to work on the Pacific Forensic League question: Resolved, that the Russian plan of disarmament, as proposed at the Geneva peace conference, should be adopted by all nations. The women's squad is working on the question: Resolved, that fraternities and sororities in schools and colleges throughout the United States are undesirable.

The debaters have been working diligently on these subjects and should put a strong debate team into the field.

SECRETARY IS ILL

Miss Margaret Regan, secretary of Dean Stewart of the Agriculture department, is confined to her home with the "flu."

## NEVADA TO ENTER FIFTH GAME OF CONFERENCE AGAINST FRESNO

FRESNO TEACHERS' TEAM HAS FAILED TO WIN ANY  
FAR WESTERN CONFERENCE GAMES IN SEASON

By GUS NEWMAN

## 3 FROM NEVADA JOURNEY EAST TO CONVENTION

DR. CLARK, CREEL AND  
DOTEN REPRESENT  
THIS STATE

Nevada will have three representatives at the forty-second annual convention of the Association of Land Grant Colleges and Universities, held at Washington, D. C., November 20-22. President Walter E. Clark has already left, and Mr. S. B. Doten, director of the agricultural extension station, and Mr. C. W. Creel of the agricultural extension division are to leave in the near future.

This association, which was founded for the purpose of promoting interest among the different land grant colleges by their presidents and deans, meets every year.

There are various sections, such as agriculture, experimental station work and engineering. Mr. S. B. Doten of Nevada is the secretary of the agricultural division.

The general theme of this convention will be how the land grant colleges and universities have found themselves, and Secretary of Agriculture William M. Jardine will speak.

## 21 on Campus Are Signed in Aviation Class

THREE WOMEN ENROLLED  
IN AERONAUTICAL  
COURSE

Twenty-one persons from the University of Nevada have enrolled in the aviation course which is being offered at the campus by the Nevada school of aviation. Three women are included in those who have taken up the study in the aeronautical field.

The plane is being used on the baseball field below the dairy building, and the first exercises in the course have been confined to ground work. The old De Havilland 4, owned by the engineering department of the university, is being used for the preliminary work.

The people in charge wish to announce that those who still wish to enroll may do so by leaving their name with Wayne Buerer of the electrical engineering department sometime during the next week.

Actual flying will probably not be undertaken with this plane, under the regulations governing its gift by the government to the university, and in order that students may take the air as soon as possible arrangements are being made to secure a new plane of a well known make at an early date.

The early interest in the course has displayed the unusual interest which the students are showing in this new field of study. This is the first course of its kind ever given at Nevada and it will offer the local men and women some advantages which are being given at other universities, as most of the larger sized colleges pay considerable attention to the new role taken over by aviation.

## NEVADA DEFEATS CALIF. 7-6 IN 1903

Twenty-five years ago the Nevada Wolf warriors made merry at a Golden Bear feast served on the festive boards of the coast grid field. Nevada came out on the top of a 7 to 6 football victory.

A 75 yard run by a Nevada man gave the local university the edge in the score column. The contest was very close throughout, and the coast griders made four futile attempts to kick goals. The victory marks one of the many which Nevada made in that year, Stanford also falling victim to the prowess of the university men.

## MINES SCHOOL PROFS VISIT VIRGINIA CITY

John A. Fulton, director of Mackay School of Mines, and R. M. Oliver, curator of the Mackay museum, were in Virginia City, Silver City and Dayton in the quest for old pictures and relics of early days for the Mackay museum. They have not, as yet, acquired any antiques, but they are on the track of pictures of the old days.

Lafayette, Ind.—Harvey S. Olsen, captain and center of the Boilermaker grid squad, is the youngest captain in the Big Ten. Olsen still lacks five months of being 21 years old.

Before the curtain rolls down on the 1928 football season, twenty-two members of the Wolf Pack boarded the train last night and pulled out for far away Fresno, where they will battle with the Fresno State Teachers.

At last a tidal wave seems to have come in and raised the low ebb of the Nevada spirit back to normal again and the Pack left Reno full of more confidence in the way of victory than ever before. Fresno seems to be the one opportunity for the Wolves to cop a victory in their Far Western Conference campaign and since "opportunity knocks but once" the Pack is determined to take full advantage of it.

### Need Win

Two thoughts will be foremost in the mind of each Wolf Pack warrior when he takes the field at Fresno tomorrow. The first is the fact that so far this season Nevada hasn't won a game and is starting bottom place of the conference rating with Fresno. The second is the sting of a 10 to 7 defeat handed the Wolves by the Bulldogs last year. When the final whistle blows tomorrow ending the game somebody is still going to be last in the conference rating and the Nevada Wolf Pack is certain it is not going to be listed there. As for the 19 to 7 trouncing of last year, the Silver and Blue grid warriors have decided to repay the Fresno Bulldogs with plenty of interest.

### Fresno Unknown

Little has been learned about Fresno this season except that it has won only one game and that was their first start against Modesto Junior college. St. Ignace and College of Pacific have kicked goal away to a 13 to 0 victory last Saturday with little difficulty at all. The Tigers were plenty lucky to capture a 7-6 win from Nevada, so it looks as though the Pack has a little advantage in tomorrow's game.

The Wolves will again be minus the services of Captain Jim Bailey and Nig Newton in the Fresno encounter. Although both of these men have been reinstated by Buck Shaw, neither one of them will get to play until the California game. Bailey and Newton have both been working out nightly during the last week and have been getting back into shape so when November 17 rolls around they will be able to be on hand and pull a little hair from the shaggy back of the California Bear. The twenty-two men making the trip to Fresno are the same bunch that journeyed to Sacramento last week to meet the Cal Aggies. Shaw is taking plenty of reserve material along in case he is forced to call on any of his second stringers. Five halfbacks are making the trip and it is possible that all of them will see action against the Bulldogs.

All the tentative line picked by Shaw to oppose Fresno on the kickoff will see Jack Walthers at center, Chris Stockton and Walt Linehan at guards, Jake Lawlor and Bill Kinnon at tackles, Milt Taylor and Orville Hayes at ends, Hal Overlin at quarter, Spid Murphy and Dean Ambrose at fullbacks and Tommy Towle at full. As center material Shaw has McCullom at center, Kline and Brewster at guards, Oliver at tackle, Tomley and Baldini at ends, Whitehead at quarter, Sullivan, Tupper and Ford at halfback positions and Scott at fullback.

Last week the flu hit the team pretty hard and was one of the foremost reasons why the Pack fell before the Cal Aggies. With the exception of a very few, every man on the team had a cold and several of the first string players had to get up from sick beds to make the trip. It seems the flu has passed pretty well this week and the bunch ought not to feel the strain exerted on their wind.

The unexpected defeat at the hands of the Cal Aggies has served only to put that much more fight in the Silver and Blue warriors and it wouldn't be surprising to see them run away from the Fresno Teachers. Such things have been done, and done many times, by the Pack in past seasons. The Wolves are entering the game tomorrow in a desperate frame of mind. It is practically their last chance for a win. Fresno feels the same way about the situation since the Bulldogs have been subjected to the same treatment that Nevada has gotten this season. As a result the game tomorrow afternoon should prove to be hard fought and interesting throughout. It is a Far Western Conference struggle in itself with each team trying to keep out of last place in the conference rating.

### Weak Offense

So far this season Nevada has been particularly noticeable on account of its weak offensive drives. Hardly a team that the Wolves have met has been able to gain consistently through the Nevada line and those that did score were forced to do so via the air. Time and again Nevada has stopped.

(Continued on Page 3)

## ATTENTION

The following articles have been found and may be claimed by calling at Miss Sissa's office:  
Three fountain pens.  
One Eversharp pencil.  
One pair light-rimmed glasses.  
One brown leather purse, containing green fountain pen.

### COLLEGE SAILS FOR A TOUR OF WORLD BY WAY OF CANAL ZONE

#### Men of Professional Rank Compose the Faculty

#### Classes Will Be Held on Board Ship and in Hotels

Last week the Floating University set sail for its Panama canal cruise, by way of the Panama canal. For two years a cruise of this sort has been contemplated, but this is the first time a floating university has actually been launched on the water since the world tour of the Ryndam two years ago.

The faculty of the Floating University numbers ten, most of them being men of professional rank in American colleges, while the student enrollment consists of fifty men and the same number of women.

During the whole trip college classes will be maintained both on ship board and in the hotels which become the college headquarters of the cruise. Every student is expected to earn at least fifteen hours of college credit, corresponding to one semester of work on land; and a number are expected to cover a year's requirements in their home institutions. The curriculum consists of a selection from the college courses which are usually offered in colleges and universities, and which may be studied to particular advantage while traveling, such as advances in history, government, sociology, general literature, philosophy and comparative religion.

These courses are supplemented with some which are original with the Floating University, and which deal particularly with various phases of Oriental culture.

The Floating University is strictly co-educational, there being an equal number of men and women students.

President Sydney Greenbie believes that the only possible way of managing a floating college is to have it co-educational, with an equal number of both sexes. "You cannot derive human beings of social life for eight months," he said today to a reporter who accosted him on the docks of the Dollar Line in Jersey City, "without demoralizing them. Rather than run the risk of having the students pick up acquaintances in foreign ports whom we have no means of judging or controlling, we prefer to carry adequate opportunities for social intercourse with us. American girls are better off in the company of American boys of their own age, at sea and on shore, than in casual contact with such men as they might meet here and there. American boys are better off for the company of their own sisters

### SAE'S WIN FINAL DOUBLES MATCH

The Interfraternity Tennis tourney which has been in progress for the last few weeks has ended, so far as the doubles are concerned. The singles play-off is not completed due to adverse weather conditions. In the doubles, Frank Stewart and Ted Brown, playing for the Phi Sigs, were defeated by Al Lombardi and Elmer Rice, S. A. E. team. The scores for this game were 6-2, 8-10, 6-2. The singles, which will be finished as soon as possible, are between Hoyt Martin, Sigma Nu, and Doug Busey, A. T. O. The winners in each section will be presented with a cup by the Interfraternity council.

The Nevada team will have but one match this fall. On the morning of the Cal-Nevada game, they will meet San Mateo on the Berkeley courts.

### POP OFF VALVE

What is the matter with the women on this campus? Why are they not organized as are the women of other colleges? Since when has it become a college for the coeds to leave all enthusiasm and constructive work up to the men? And that is just what seems to have happened here on the Hill. No one can say that we lack the ability and brains, for anyone observing the work of the individual organizations can readily see that there is plenty of energy and output of ideas being displayed among the various units on the Hill. However, that is not organization the way it should be on such a small campus as ours.

To the average Nevada woman student A. W. S. is merely a name. They even forget that it exists, and as if going to meetings, it just isn't done. If there happens to be something more interesting going on. As if anything should be more interesting to the coed than her place on the campus and her part in its activities!

The same is true of the classes. Why bother with a meeting, seems to be an established saying. For example, a

or of other girls of their own age and background. However well the segregated college may work on land where proper social contacts are available on occasion, it is absolutely impossible in traveling.

### DINING STUDENTS SING AND CHEER

College spirit is displayed every Friday night at the dining hall when each class gives its yell, these usually followed by various organization yells and then a song, sung by all the men and women present.

It has been a tradition that the seniors give the first yell and are the song leaders. This custom is one enjoyed by all the participating students as well as faculty members usually present.

meeting for sophomore women was called on a day when there was nothing to interfere. Its purpose was the election of delegates to the A. W. S. convention at Fallon. How many were present? About five. Now how can the class officers accomplish anything when that is the kind of backing they get?

We talk about college spirit, but evidently the women are not a part of it. For instance, several women have been heard to say that they would like to have a women's rooting section at one of the games. As a result, a rally was called for this very purpose. The idea was to have a rooting section at the Homecoming Day game. Again about five coeds attended the meeting. They all profess interest in the game but are too selfishly wrapped up in their own interests to turn out and show a little real organization and pep.

And then the downtown rallies. Several sorority women have been heard to say that "only Manzanita Mazies" were going through the streets. It just isn't being done. Now why shouldn't it be done? What's the matter with it? And why discourage the few women who do enjoy those rallies by making such remarks? Why shouldn't the sorority women join the downtown rallies? It is generally understood that sororities are to develop leadership and college spirit.

But not only in yelling and similar demonstrations. In one way, that sort of thing may seem to be unnecessary.

### On the other hand what about student body meetings? It is more often than seldom said by a coed, "I only go to meetings because I'll be fined if I don't." The A. S. U. N. President brings up several questions that other colleges are thinking about and questions which should be of vital importance to the women as well as to the men. He asks for discussion and suggestions as to these matters and does he get 1? No. They just can't be bothered. Yet, now and then in a bullsession we hear them bemoaning the state of affairs. Why don't they try to go about changing them in the right way? Even an attempt would be welcomed. It seems that the person who said that Nevada was perfectly satisfied in standing pat knew what he was talking about.

We have the material and a campus of an ideal size. We should be a well-organized group of women students. We should accomplish a great deal since we do know each other, and should know our campus problems so intimately. But like other things, it isn't being done! We are friendly enough and easy going. That's just the trouble. We are too easy going. We leave all the thinking and responsibility to anyone, and usually a very few, who will take the burden instead of using our own brains along constructive lines of thought.

In keeping with the progress at the University of Nevada is the announcement of the actual construction of the proposed Mackay Hall of Science on the university campus. Surpassing all campus buildings in size and architecture, the new structure will be symbolic of the advancement which has increased yearly at Nevada and today gives to the institution an enviable reputation in educational circles in the western United States.

What a man, this Mackay, who has almost alone built up a great university, in gratitude to a state which made his father wealthy. The donor of enormous sums of money, he gives without thought of a return, without the greed of the investor. Clarence H. Mackay will forever be known to Nevadans as the man who made the modern University of Nevada a reality. Without his aid, the school of mines with its justly noted record in all parts of the United States would have been impossible. The football field, the training quarters, the quadrangle, all the gifts of Clarence Mackay, are integral parts of the university without which Nevada could not claim the beautiful campus it has today.

Nevada should and will be forever

# NEVADA FROSH WHIPPED 13 TO 0 BY SACRAMENTO

## MOST OF GAME PLAYED ON YEARLINGS' END OF FIELD

Playing in a drizzling rain before a handful of half-frozen spectators, the Nevada frosh were beaten 13-0 by the Sacramento Junior College eleven in a sloppy game of football on Mackay field last Saturday.

The playing of the babe squad was marked by its inconsistency. They would show up like a varsity eleven on one play, only to look like a bunch of kids playing tag-tackle on the next. On defense, the line would break through to smear the Sacramento backs for a loss, then open up like a barn door to let the attack through for a gain.

The frosh attack was powerful enough when it worked, but that was only about half the time. Nearly the entire game was played on the freshmen's end of the field.

Sullivan of the visitors was the outstanding player on the field. He scored both touchdowns, one after receiving a pass well back of the defense, and the other by a run through a broken field from the thirty yard line.

Bull Mohorovich played good ball for the frosh and was particularly valuable back of the line on defense. Mitchell, babe quarterback, shows ability packing the ball and should be heard from in the future. Handley, frosh half, got off some good runs for yardage.

## Tickets on Sale For Dec. Game

### Southern California Vs. Notre Dame Game Popular

Los Angeles.—The final scramble for tickets to the University of Southern California-Notre Dame grid game to be played December 1 at the Los Angeles Coliseum will start Monday, November 12, when the pasteboards not used in filling mail orders will be placed on public sale.

Fans may obtain these public sale tickets at the University of Southern California Student Book store or at the University's downtown ticket office. According to Arnold Eddy, assistant general manager of the Associated Students, who is in charge of ticket sales, no more mail orders for tickets are being received.

As in the first Southern California-Notre Dame game played here in 1926, it is expected that the Coliseum will be completely sold out long before the day of the contest.

### COLLEGE FLYING CLUBS ORGANIZED IN CALIFORNIA

Col. Wilfred Bovey of McGill university has suggested that the government of Canada support the formation of a University Airplane Club in each province, in order to bring the universities into line with modern aeronautics. Each club will be given two planes and a promise of a third, if the club purchases one. A course in aerodynamics will be given.

The Memorial tower at the University of Missouri has recently been opened for use.

# FOOTBALL FODDER

Captain "Jim" Bailey and "Nig" Newton have been reinstated by Coach "Buck" Shaw after a week's suspension for having broken training rules and have been working out with the squad each night during the last week. Neither Bailey nor Newton will make the Fresno trip, Shaw said, but both of them will be eligible for the California game on November 17.

Results so far this season in the way of football scores show that Nevada has only scored a total of 19 points against its opponents' 98. The Pack has been blanked three times and has only been able to score once in each game of the remaining three. However, in no game has the Nevada aggregation been overwhelmingly beaten. Utah accounted for the largest score when the Crimson warriors copped the second game of the season from the aPck 32 to 7.

Utah, by the way, practically cinched its claim to the 1928 Rocky Mountain Conference football title by defeating Colorado, its only dangerous opponent, last Saturday.

Fresno State Teachers chalked up their first grid victory over Nevada last year when they downed the Pack 10 to 7. The Wolves completely outplayed their opponents throughout the game, making 16 first downs to Fresno's 6, but seemed to lack the punch to put over much needed touchdowns. The Teachers were quick to take advantage of the breaks and succeeded in overcoming a 7 to 0 lead gained by Nevada in the first quarter and then brought their total to 10 with a beautiful field goal in the closing minutes of play.

Fresno appears as Nevada's last chance for a victory this year and the Wolves are determined not to let this chance slip by. Watch them go tomorrow.

The much coveted Far Western Conference football title again went to St. Mary's when the Gaels whipped St. Ignatius into submission to the tune of 13 to 0. St. Mary's is the only team to go through the conference undefeated.

Nevada's last game will be with the University of California on November 17 and will precede the "big game" between California and Stanford by one week.

The Fresno game will not be a letter game for the Nevada grid men, but the University of California encounter will give the Wolf Pack warriors a chance to fill out their 65 minutes of playing to make them eligible for a letter. Games designated by the Block N Society as letter contests this season were St. Mary's, St. Ignatius, College of Pacific and University of California.

Ohio State University leads all schools in intermural sports competition with a total of 4513 students participating on the various teams last year.

# ST. MARY'S WINS FROM IGNATIUS

## VICTORY MEANS GAELS WESTERN CONFERENCE WINNING

Before a crowd estimated at 10,000 the "Galloping Gaels" of St. Mary's swept St. Ignatius in front of them and downed the Gray Fog under a 13 to 0 score at Kezar stadium last Saturday. With that victory the Gaels also took the 1928 Far Western Conference football championship, making the third successive year that they have captured it.

Despite the 13 points difference between the two aggregations the game was a hotly contested one from start to finish. St. Mary's scored the first touchdown of the game in the first five minutes of play when it took the ball the whole length of the field from its own 28 yard line on a series of line bucks. Merrick crashed over for the tally, but failed to add the extra point.

The final score of the game came in the second period when, after an exchange of punts, the Gaels took possession of the ball on the St. Ignatius 25 yard line. Three plunges netted twelve yards and on the following two plays Merrick made seven yards and Stennet went the remaining distance off left tackle for the score. Merrick converted for the extra point. From that point on the game was fairly even, with the ball see-sawing back and forth in mid-field for the most part. The Gray Fog opened up with a dazzling aerial attack several times during the game and although these tactics netted them plenty of yards failed to put them in the scoring column.

# HUGE POTATO IS SHOWN AT RENO

One of the biggest spuds ever to be grown in Nevada and one which would be a pride to any state was exhibited at the Nevada Potato, Apple and Livestock show held last week at the University of Nevada.

Measuring a foot in length by 5 1-2 inches in width and weighing four pounds, the potato would furnish the vegetable portion of a meal for a good sized family. It is by far the largest potato to have been exhibited at the showing during the six years of its existence.

H. H. Springmeyer and Frank Quillic produced the spud on their ranch in Carson Valley. Of the Wisconsin Prize variety, it is true to shape for size.

# NEB. GRID STARS WELL NOURISHED

## 40 PINTS OF MILK ARE CONSUMED A DAY BY MEN OF SQUAD

It is a well known fact that underfed children are given milk. But it is not so well known that great big huskies on a football squad are given milk with other nourishing properties added. That is just what is being done in the University of Nebraska.

Every afternoon, from Wednesday until the end of the season, forty pints of milk are brought into the stadium from the dairy department of the college of agriculture. Mixed with each pint of milk is one egg chocolate and sugar for flavoring, and some malted milk powder. The mixture is distributed to the players as they come in from practice. Every man among the squad of varsity candidates receives his pint. The nourishment content of the concoction is enormous. At the same time, a pint of liquid is not enough to dull a football man's appetite for dinner. It is sufficient, however, to strengthen him in his fight against the temptation of a wayside fruit store, hamburger shop or any other institution offering edibles.

That, according to Herbert D. Gish, director of athletics, is one of the purposes of giving the team egg malted milks. In addition to the fact that the player does not lose his appetite the drink is valuable in replacing the large amount of food energy lost during practices.

The plan of giving this food to the squad is now in its third successful year. It is practically the only method of keeping the football man's stomach in the best condition, and that is important, says Mr. Gish. "For just as an army fights on its stomach," so a football team "plays on its stomach."

# Nevada to Enter

(Continued from Page 1)

the threatening drives of opposing teams, only to be forced to kick after losing the ball on downs. This week Scranton and Shaw have spent most of their time drilling the Silver and Blue warriors on different methods of offensive attacks. A few new plays have been injected into the repertoire which the Pack is now using and if these are performed with as much success as they have been used in practice scrimmage Nevada's side of the scoreboard ought to get top-heavy.

**Second String In**  
Should the Fresno Bulldogs not prove too tough for the Nevada first string it is Shaw's intention to inject his second string into the fray to give the boys a little experience under fire. Many of them haven't seen action in any varsity games although they have performed nobly in scrimmage. Many of the second stringers will be depended upon as the nucleus for next year's string and it is Shaw's plan to give them a little experience toward that end.

The sophomore men at the University of Oregon have adopted a new fad of wearing dungaree pants until they are able to obtain moleskins, their official garb.

## SOME PRAISE DESERVED

Nevada's football season of 1928 is almost over and the Wolves have yet to break into the win column. Lack of material and injuries have all played their part in a poor season, but the lack of outside support has played a still greater part in making the season seem such a dull one.

Nevada played excellent football against Santa Clara and St. Mary's, two of the strongest college teams on the coast, and lost to them only because of a lack of material and injuries, yet not a state paper and not a coast paper gave them a single bit of favorable comment. It seems like the old game of everyone picking on the underdog. Last week St. Mary's beat St. Ignatius by a 13 to 0 score, and nearly all the papers on the coast complimented the Gray Fog on keeping the score so low. At Nevada the Gaels were put to their best efforts to finally win in the last seven minutes of play, after the strong parts of the Nevada team were put out with injuries. They claim that Stennett, Gael back, has yet to meet his equal in the punting game, yet when the Saints played the Wolves, Towle and Bailey both outkicked him. They say Nevada lacks fight, yet in the Saint game fight alone gave Nevada the game they played, not a multitude of substitutes on the bench.

Nevada has lost all of its games so far, yet the season can't be judged entirely by wins, although a winning team is the goal of all schools; but some parts of Nevada games and the work of individual players have stood out and can be compared with the play of some of the best teams and players on the coast. And last but not least is the wholehearted and undiminished support given by the student body to the team.

## FLU SCORES

Old Man Flu has certainly been scoring point after point this week on the University of Nevada campus, with extra nurses in the hospital and in Manzanita hall, and over half of the school nursing colds and all social functions called off, he is certainly throwing Old Man Health back for a loss.

Even this world famed sheet has had its troubles, many of the outstanding reporters and some of the necessary evils that are found on the editorial mast-head have let the demon flu knock them for over fourteen counts. And when a newspaper man gives up the ship it is the final blow to the remaining survivors.

There is one little beam of sunlight filtering through, though, and that is the fact that every one isn't sick, and the results haven't been serious, only keeping the patients in the bed for a few days. Anyway, next week should see the wheels of industry grinding away and the cheerful faces of the students without handkerchiefs to their noses.

## DID YOU VOTE?

The election of Hoover to the presidency was entirely overshadowed by the elections held on the University of Nevada campus during the week. Tuesday morning found many little pink, green and white ballots distributed over various parts of the campus and to student living quarters. These ballots contained the names of many outstanding men on the campus with outstanding records, and really caused the voters much hard thinking before they stuffed the ballot boxes.

No definite figures are obtainable on the election so far, except that most of the favorites are leading. However, some time next year, when the Alaskan and Beowawee precincts' votes are counted the actual winners will be known.

## POP OFF VALVE

A little survey of school spirit, while rather out of place so late in the semester, is rather necessary in view of existing circumstances. Articles, written by so-called sport experts whose knowledge of the game is confined to what they may see from the bleachers, have appeared in our campus publications as well as in downtown newspapers. The team, while feeling that no defense of its playing and actions in past games is necessary, believes that it should comment upon the attitude taken by the students throughout the entire season.

Criticism is often unjust, especially if it is of the destructive variety so prevalent on our campus of late. A winning team need never fear it. A losing team is always subject to it, even if the circumstances surrounding those losses are beyond that team's control. Nevada, this year, has played poor football against poor teams and has played good football against better teams. As far as the student body is concerned Nevada has played poor football against all teams. It takes no notice of the fact that each individual on the Nevada team in every game played so far has been forced to play against at least two or three of the opposition. We challenge any man, whatever his condition, to play sixteen minutes of his hardest football under these conditions. The student body, in inferring that the team is in poor condition and does not train, also infers that the individuals on the team are fools. Any man is a fool that aspires to play football who, knowing that he must play sixty minutes of football because there is no adequate substitution for him, does not condition himself for that game. We appreciate the feelings of the student who witnesses the loss of a game. He must certainly feel bad because of the loss. Now we offer our case. We not only feel bad because of the loss, but must take our beating in the game together with the criticism of the town and students because we lost. Where is the element and spirit of fairness in that?

The general attitude of the student body is that, in order to demonstrate its school spirit, each individual in that student body must attend the rallies, games and meetings and make as much noise as possible. When he has done this he has carried the Nevada banner on high. In other words, he has obtained school spirit. While this is not a sermon, it remains to be said that the spirit of such a school must be measured in something besides noise. It involves a depth of understanding, a feeling of friendship, a spirit of de-

**SPEAKING OF SLEEP—I NEVER GOT SO MUCH AT ONE TIME IN ALL MY LIFE** (that is, ever since I passed Prof. Hicks's History I course) than I did the night the gals gave their Pan-Hell Dance. ANYWAY, I'm glad I didn't go after all 'cause I heard that they only had twelve and a half gallons of punch there.

The reason for the big crowd there Saturday nite has been attributed directly to the fact that the Pan-Hell Dance is the only chance some of the gals get to go to a dance.

These shoes were awarded the silver loving mug at the Panhellenic dance for having stepped on more coeds toes than any other pair. Phil Weber is rumored to have been the wearer of the above-mentioned shoes. At least Phil is making use of the shaving mug—beg pardon, the loving mug.

And when Oswald speaks of loving mugs in this here column he doesn't mean the faces on some of the Manzanita coeds.

Due to the limited number of Greeks in Reno a hurried call has been sent to the old country for more men to attend the All-Greek dance in the gym tomorrow night. Already Demetrapoulos Kellogg, Pappanolous Ligon, and Dimitro Lemkuhl have taken passage for this country in order to be on hand for the opening note from the orchestra.

At the request of Santos Murlilo, local Greek organizer, all restaurants will be closed Saturday nite in order that more Greeks can attend the dance.

While we're still on the subject of sports Oswald thought it would be appropriate to give the basketball fans a glimpse of the situation. Look hard everybody.

A play-by-play of the St. Mary's-Nevada game follows: St. Marys won the toss and elected to call time out. Tomley substituted for Taylor who was knocked out on this play. Lawlor kicked off and was taken from the game with a smashed foot (somebody put cement in the football). Stennett ran around Moyes' end on the first play and kicked it. Snow, St. Marys 2, Nevada 0. Towle punted from the bench, the ball traveling half the length of the field and back again (making a total of 42 yards) and lit in the water bucket. Nevada was penalized four yards when Newton threw a kiss at his girl in the bleachers; however both teams were offside and the penalty wasn't allowed. Ambrose crashed through to tackle himself behind the line of scrimmage as the half ended.

Merrick kicked off for St. Marys in the second half, the ball rolling to the 50 yard line. On a hidden ball play Overlin couldn't find the pigskin and St. Marys was allowed a free kick at Buck Farnsworth (Buck can't sit down yet). As the purple shadows stretched over the coliseum night fell with a crash and wrapped her soothing mantle about the players. Another Nevada victory had been lost.

This is the famed California bear. With these here windy days that are visiting this campus we got plenty of bare here too!

Final results of the straw ballot held Tuesday on the Campus gave Pat Smith a 2 to 1 victory over Ed Capitt for Mayor of Sparks. (However, Smith has appointed Capitt as constable of that city and so everything is O. K.) Prexy Clark, famed Spanish athlete, easily gained the office of Toro Tossler although Underwood offered considerable competition. Buetech and Harwood found little difficulty in killing the jug or rather gaining the position as killer of the jug. Layman lost out in a last minute rally for the office of

**Knight of the Keyhole**—(Layman claims somebody left the key in the hole and he couldn't see). Although his name was not on the ballot J. E. Martie polled enough votes to beat Hoover and Smith out for the position of street cleaner. Ma Hall was unanimously elected as Administrative Informer. Silas Peemster, who was running way ahead in the race for Klotz Klub member, tripped over his own feet and before he could regain equilibrium was passed by himself. Ed Duerr was elected as Royal Holder of the Sack, which position he has held for some time previous to the election. Someone from Manzanita voted for Duke Overlin as Ant and assured him of an overwhelming victory.

California claims to have big prunes in that State. Kind of looks like they shipped a bunch up here to Nevada to go to school.

If Buck Shaw needs any bench warmers he ought to get some of these hot sorority gals.

What could be more exasperating than squeezing one of these Artemisia lemons and getting juice in your eye.

**Beverly Bulmer Honored**  
Amiscellaneous surprise shower was given in honor of Beverly Bulmer '28, Thursday evening, Oct. 31st, by Mrs. William Blackler and Mary Hancock '30 at the home of Miss Hancock. Miss Bulmer recently announced her engagement to Arthur Cox '28 and many affairs are being given in her honor. S. A. O.'s Hold Novel Dance

Last Friday evening, members of the Sigma Alpha Omega sorority were entertained by the pledges with an "apron and jean" dance held at Moana. The decorations were carried out in Halloween colors. Florence Shedd '31 and Dorothy Grover '31 gave a feature dance. Gamma Phi's Hold Dance

The Gamma Phi Beta sorority gave a Halloween dance last Friday evening in their chapter house. The decorations were in bright autumn shades. Dick Hillman and his orchestra played for the dancing. Luncheon Served

The meal service class under Miss Springer of the Home Economics department served a buffet luncheon Thursday, November 8th, for forty guests. This was the largest affair attempted by the class this year. It was given by Miss Sameth of the Physical Education department. Pi Phi's Hold "Tin Can Dance"

Friday night, the members of Pi Beta Phi entertained the pledges with an informal dance at the Masonic hall in Sparks. The idea was a "tin can dance" and the decorations consisted of cans of all varieties and the programs were also made of tin. Music was furnished by Jack Greer '31 and Art Graham '32 and the affair was chaperoned by Miss Mack and Miss Sissa.

moeracy and a love of school and its principles that does not need the combined efforts of the yell leaders and the flying squadron in order that a decent representation of the students be present at any student function. This has been demonstrated this season. The first football trip was attended by the greatest turnout and rally that the school has ever seen. The game was lost and the next rally was smaller. The next game was lost and still the next rally was smaller. Now the student body does not even take the trouble to appear at the train when the team leaves. There always has been and always will be a certain group of the students who always back the team and are always present with a handshake and a backslap. These fellows are sincere. They know it and the team knows it and thanks them for that sincerity. These fellows are backslappers. The rest are hypocrites who back the team to its face and then take the rest of the time out in criticism.

The football situation in this college is in a perilous position. The school goes behind every year in financing the football season. It cannot afford the trainer and the equipment necessary for a season as rigorous as the present one. And above all the student body has not reached that point where it can properly back a new coach. We realize that the financial situation is one that is no fault of the student body. We have had to make the trips the night before the game. In a spirit of fairness and realizing the reason why we had to leave at that time we offered no criticism of the

Since I first started to smoke, I have always smoked cigarettes. One day SHE said to me "Ed, dear, why don't you smoke a pipe. I think those long straight-stemmed pipes are so manly-looking." So, naturally, I had to buy a long-stemmed pipe and a can of well, we'll call it "Blubs Mixture tobacco." Immediately with a certain feeling of pride in my new pipe, I "lighted up" and proceeded to have my tongue bitten. I tried almost every brand I had ever heard of, but none satisfied me. Sadly, I had to confess to HER that as a pipe smoker I was a good dietitian.

## WOLF PACK IS DEFEATED 6 TO 0 BY DAVIS AGGIES LAST SATURDAY

### STRONG COMEBACK STAGED BY NEVADA MEN WITH BEGINNING OF SECOND PERIOD OF PLAY

Outplayed in the first half, the Nevada Pack made a strong comeback in the second, but were unable to overcome the 6 point advantage gained by the Davis Aggies and were defeated 6-0 in their fourth conference game at Sacramento last Saturday.

The Wolves went into the game severely handicapped by the absence of three veterans. With Bailey, Farnsworth and Newton out of the lineup, the Pack was greatly weakened both on offense and defense. The loss of any one of these men would have been keenly felt and with all three out it left Nevada unprepared.

#### Scores in Second Quarter

The only score of the game came early in the second quarter. With the ball in the possession of the Mustangs deep in Nevada's territory, Brett passed to Siemerling, who was downed on the two yard mark. Siemerling tried twice at the line, and on the second attempt went over for the score. Siemerling's place kick failed to add the extra point.

During the second half the Aggies were content to hold their lead and played defensive football. Several times Nevada advanced into Mustang territory, but with their lead threatened the Aggies would tighten up and keep the Wolves from scoring.

#### "Spud" Good Gainer

"Spud" Murphy at half proved the best ground gainer in the Nevada field. He also played a good defensive game, both in tackling runners and knocking down passes. Ambrose also gave a good account of himself, as did "Duke" Overlin, Wolf quarter.

De Haven of the home team proved a find for "Crip" Toomey, Mustang coach. He played his best game of the season and stole the honors from men rated as his superiors.

To Jake Lawlor must be given the credit of being the superior or at least equal of any man in either line. The tougher the going is the better Jake likes it and last Saturday was no exception. His only rival was "Flash" Yrigoyen, the Aggie's star guard.

#### Moyes Stars at End

Moyes at end turned in the kind of game Nevada rooters have learned to expect from him and Tomley at the other wing also played a bang-up game.

The game was played on a slow field and the warm weather tended to slow down both teams. The heat was particularly felt by the Nevada men, who are not accustomed to this climatic condition. A rain-wet ball made passing dangerous, and was accountable for poor kicking on both sides.

The result of Saturday's game has made the Farmers optimistic of their chance for a second place in conference standing. If they can get safely over Pacific and Fresno they will be tied for second place with St. Ignatius, which team administered the Aggies the only conference defeat of the season.

#### The Lineups

Score by periods: 1 2 3 4—  
Nevada ..... 0 0 0 0—  
Aggies ..... 0 6 0 0—6

NEVADA	Pos.	AGGIES
Taylor	LER	Schmidt
Lawlor	LTR	Robinson
McCollum	LGR	Yrigoyen
Walthers	C.	Staves
Stockton	REL	Eveleth
Kinnon	RFL	Phillips
Moyes	REL	Goodwin
Overlin	Q.	Brett
Murphy	RHL	Souza
Ambrose	LHR	De Haven
Towle	F.	Siemerling

Nevada substitutions—Tomley for Taylor, Linehan for Stockton, Whitehead for Overlin, Tupper for Ambrose, Scott for Towle, Towle for Scott.

Aggie substitutions—Conley Smith for Eveleth, Fairchild for Stever, Leathers for Yrigoyen, Borges for Phillips, Finn for Brett, Brett for Finn, Matzen for De Haven, Weir for Souza.

## Secret Football Passes Revoked

An announcement at the Stanford University Athletic field was made recently which certified that all secret football passes have been revoked. Fifty or more on-lookers, press correspondents, and sport writers who usually drift down to watch football practice were turned back at the gate in recent practice games.

The abolition of the traditional freshman-sophomore bag-rush is being discussed at the University of Wisconsin.

## FARNSWORTH IS OUT FOR SEASON

### BUCK FINISHES FOURTH YEAR ON NEVADA WOLF PACK

#### "Buck" Farnsworth

"BUCK" FARNSWORTH, WHO HAS PLAYED OUTSTANDING FOOTBALL AT CENTER THIS SEASON, HIS RECENT INJURY WILL BE A SERIOUS BLOW TO THE NEVADA WOLF PACK.

"Buck" Farnsworth, Nevada's stellar center, is definitely out of the Wolf Pack lineup for the remainder of the season as a result of the broken collar bone he received in the St. Mary's game on Homecoming Day.

Farnsworth has been one of the outstanding players for Nevada ever since he first donned a football suit for the Silver and Blue. During his first two years up here "Buck" spent his time working as substitute center. At that time Tom Roach, captain of the 1925 football squad, was handling the work of regular center. Farnsworth then missed a year of school and the following season Coach Shaw shifted him into the position of first string tackle, where he did some brilliant work. This year Farnsworth has been one of the mainstays of the Wolf Pack. Besides being an accurate passer from the center position and a great help on the offensive "Buck" has been invaluable in backing up the line on defense. Many of the strongest teams of the coast have found it hard to make any yards regularly through the center of the line and the main reason for this was "Buck" Farnsworth.

In all probability the St. Mary's game was the last one in which Farnsworth will ever appear for Nevada. This is his fourth year for the Wolf Pack and his final one, according to the regulations of the Far Western Conference. He will be greatly missed next year and it is only hoped that Nevada will be able to successfully fill the vacancy left by him.

#### WOMEN ANNUAL SECTION

Los Angeles.—As a special feature of the yearbook of the University of California at Los Angeles "The Southern Campus," a section of the annual will be devoted entirely to women and their activities.

## CAGE OUTLOOK IS OPTOMISTIC

### MARTIE'S VIEW

#### FOUR LETTERMEN BACK FROM LAST YEAR'S LINE-UP

With four lettermen from last year's varsity back, Doc Martie has an optimistic view of the basketball outlook. Jim Bailey, Jake Lawlor, Tip Whitehead and Goom Gilmartin are the four lettermen from last year's team that will report for practice.

Lee Hahnor, last year's varsity guard is also in school, but he may not be eligible to play this year. Lee was one of the mainstays of last year's team and it is hoped that he may play again this season.

Several men from last year's second team will make a strong bid for positions on the first team. Other men from last year's squad who will be out are: Bill Kinnon, Ed Ducker, Rod Baldini and Claude Hammond. These men have all had experience under Nevada's system and should prove valuable in filling positions left vacant by graduation.

A hard schedule has been arranged this year with most of the games played at home, January 11 and 12 will be the opening dates with the varsity meeting the San Jose State

Teachers at Reno. The following week, 17th and 18th, Nevada will play host to Chico State, and on the 26th the varsity will journey to San Francisco to meet the Olympic Club (tentative). February 1 and 2 the Wolves meet College of Pacific at Stockton and on the 8th and 9th St. Mary's will meet Nevada at home. On the 15th and 16th the varsity will meet the Fresno State Teachers at Fresno and on the following week, the 22nd and 23rd, St. Ignatius and Nevada will battle it out in San Francisco. Nevada will wind up the season with a two-game series against the California Aggies at Reno, March 1st and 2nd.

SMOOTHER AND BETTER—"NOT A COUGH IN A CARLOAD"

### Recent Critical Study of Iron System Related

#### Properties of Ferrous Oxide Obtained From Data

A recent critical study of the iron system points out the importance and necessity for work upon the preparation of ferrous oxide. Not only are ferrous oxide samples desired for determining physical and chemical properties such as specific heats and heats of formation but also information on the stability and behavior of this material is of considerable technical importance. Related problems where the properties of iron oxide are important have to do with the desulphurization of iron the formation and occurrence of magnetite in copper smelter slags and sulphur elimination in copper smelting. Iron oxide also has valuable catalytic properties.

Pure iron oxide has never been prepared in large enough quantities to furnish adequate chemical and physical data on its properties. Only two or three experiments have produced a fraction of a gram in a state approximating purity and have collected evidence that has been sufficient proof of their having done so.

**Impurities Present**

Up to about 1929 those who had endeavored to do so made no provision for rapid chilling so that although their product may have had the proper iron and oxygen ratio in reality it did not consist of pure iron oxide. This above reaction is reversible above 570 degrees c. magnetite and iron should recombine almost completely and should constitute a direct and easy method of preparation. The data however, was somewhat conflicting and the extent to which the reaction goes in either direction needed checking.

The present work is concerned chiefly with the results of repeated interaction between partly reduced magnetite and iron and the calculations which may be made from such results.

(Printed by permission of the Director U. S. Bureau of Mines. Not subject to copyright.)

### BAILEY, NEWTON STILL OFF TEAM

Contrary to the belief that Captain Jim Bailey and Nig Newton would soon be back in the game playing for Nevada, they are as yet off the squad and from all indications will not play tomorrow. The effect of their absence from the team was noticed in the game last Saturday against the California Aggies and fear has been expressed that the much weaker Fresno Teachers will find holes in Nevada's defense.

The game tomorrow is said by sports followers to be the last chance the Paek will have this season to win a game, but with two valuable men out of the play and a third badly injured Nevada's grid entries are given no more than an even break to carry home the bacon.

Unless Coach Buck Shaw sees fit to change his first intent Bailey and

### FRESHMEN PERFORM CIRCLING EXHIBIT

New Brunswick, N. J.—Freshmen at Rutgers University were subjected to more than the usual indignities in the pajama parade held recently. They were taken to the track and made to encircle it 32 times. Those who failed to comply were treated to a dose of hard wood applied where it would do the most good. Each year another lap is added on to the number that must be covered by the neophytes. Picture the class of '75 and above.

### Epidemic Causes Swim Dismissal

Due to the severe epidemic of influenza that there is at present, the women's swimming classes did not meet this week in the Y. M. C. A. pool. Instead written examinations and discussions on the various strokes and life-saving technique were given by the swimming instructors, Mae Bernasconi '28 and Sheila Parker '29.

Mae Bernasconi, who is in charge of the beginning class, reports that excellent progress is being made by the new swimmers. They have completed study on the American crawl, and have had some elementary and surface diving. The beginners are now working on the elementary back stroke and skull and will soon take up the side stroke.

The advanced swimmers, under the direction of Sheila Parker, are making fair progress in life-saving technique in preparation for the life-saving tests which will be given soon.

### Oak Planted in Memory of MaRae

A young oak tree is to be planted on the campus of McGill University on Armistice Day this year, in memory of the late Col. John MaRae, author of "In Flanders Fields." The oak is being sent from the State Teachers' College of the University of Georgia, Athens, Ga., where a companion oak will be planted at the same time.

A women's golf club on the campus of the University of Washington, Seattle, has recently been organized.

Newton will enter the game against California on the seventeenth, which will be the last game for them and the last contest of the season.

### More Effective Heat for the Same Current

with

**Anderson Pitts**

**Focalipse Electric Heater**

An entirely new principle of scientific construction makes these heaters two and three times as efficient as the ordinary heater. The element has ALL the hot wires facing the reflector. It is placed at the approximate focal point to secure complete radiation of all heat rays.

That's why you get much more effective heat radiation for the same current.

### Homecoming Day Prizes Given by Reno Merchants

#### Donors Should Have More Recognition It Is Said

Considerable belief has been expressed on the campus to the effect that recognition which was not sufficiently given to the donors of the cups awarded on Homecoming Day should be made now.

The cup for the best float entered in the parade by a fraternity was donated by the Wilson Drug Co., and is known as the Wilson trophy. Herz Bros. jewelry store donated the cup for the best sorority float entered in the parade, while Ginsberg jewelry company offered a cup for the best organization entry in the parade.

**Song Cups Given**

The Reno Sporting Goods through the kindness of Mr. German donated cups for the song contest between fraternities and the horseshoe doubles event. The latter cup was donated two years ago and must be won twice before it becomes the permanent property of any one team. The cup for the singles event in the horseshoe contest was donated by A. K. Barber, of Barber's jewelry store and is known as the Barber trophy. The inter-fraternity council donated the cup for the cross country race, while the Homecoming Day committee provided through their own generosity a cup for the sorority song contest, which was called off and the cup not awarded.

### DOCTOR DISCOVERS NEW WAY TO CURE DISEASE

Copenhagen—(UP)—Doctor Anders Friis, discoverer of a method which he claims will cure cancer in six months' time, was awarded a medical prize of \$1072 for his work. The discovery is a metal salt cure with which he said he already had cured rheumatism, lung inflammation, and tuberculosis.

### FRESHMEN PLAY SUSANVILLE MEN

Next Monday morning at 8 o'clock, the Frosh team will leave for Susanville to play a team composed of Junior college and town men. This eleven is a strong aggregation, and as the Babe eleven will be seriously handicapped by injuries, the outcome of the game is anything but certain.

The injuries received in the game last Saturday, together with the recent epidemic of influenza, have hit the freshman squad rather hard, but although Coach Gadda is not confident of outcome, it is certain that his charges will put up a real game.

The frosh, who looked like world-beaters during the early season, have been dogged by the same injury jinx that has harassed the varsity. Last Saturday, however, they put up a game against the strong Sacramento Junior College which seemed to bear out their pre-season promise.

Unless a change is made in the present plans, this will be the last game of their season. There is a possibility, however, that another game will be scheduled with some team on the coast.

### Rousing Sendoff Given at Depot

A rousing sendoff was given at the train Friday night for the varsity players when they left for Sacramento to play the California Aggies. Due to the prevalence of illness on the campus a very small representation of the student body was able to be out, but much spirit was shown in songs and yells among those present.

The team was met on its return Sunday by the Whelps' Service Club, who also greeted the members of the Sacramento Junior College team on their arrival Friday morning to play the Nevada Frosh.

Men enrolled at the University of Oklahoma outnumber the men two to one, according to the latest figures compiled.
