

The U of N Sagebrush

Published by the A. S. U. N.—Founded October 19, 1893. Official publication of the Associated Students of the University of Nevada, at Reno, Published at 4 P. M. every Friday of the college year.

Editor: JAMES HAMMOND. Office telephone, Dial 3500—Residence telephone, Dial 4763. Senior Editors: Howard Sheerin, Harvey Dondero, Sport's Editor: Bill Herbert, Women's Editor: Marjorie Blewett, Cartoonist: Wilma Fitzgerald.

Business Manager: MARSHALL GUSTI. Office telephone, Dial 3500—Residence telephone, Dial 7422. Junior Managers: Harry Lipparelli, Nick Basta, Raymond Poncia.

LAST WEEK'S proposal by the Constitution Amendment committee that two under-secretaries be placed on the election ballot along with the other student electives officers appears on the face a bit pernicious to campus government workability.

There is, also, a high degree of probability that the female candidates would be elected on a pure basis of pulchritude rather than on ability in outstanding secretarial production.

THROUGH THE courtesy of Tom Wilson the Sagebrush has been given a tabulation of all campus organizations, as to number, duplicate membership, etc.

CRAWL INTO The assumption is made in the tabulated "treatise", A DEEP HOLE and quite correctly, that there are nearly "90 organizations on the Nevada Campus taking the time of the students enrolled."

TESTING FOR the first time the idea of no-favor formal the sorority formal season will open this evening. With this beginning in a sane attempt to cut this needless extravagance it is hoped that the organizations will follow up with many other cuts in expenses, and not attempt to outdo each other in presenting their dances in gorgeous, but nevertheless expensive, settings.

TESTING FOR the first time the idea of no-favor formal the sorority formal season will open this evening. With this beginning in a sane attempt to cut this needless extravagance it is hoped that the organizations will follow up with many other cuts in expenses, and not attempt to outdo each other in presenting their dances in gorgeous, but nevertheless expensive, settings.

How We Love Our College

CHAPTER VI. Diving down into the mud, Jack grasped the girl by her hair, and dragged her to the surface. Swimming with long, easy strokes (one of our analysts, and two of appoplexy) he dragged her to the shore. Hope ran high in his heart, as he scraped the mud from her features, only to be dashed. The girl was not Pat.

"Who are you?" asked Jack. "I am a Phi Phi," came the answer, and it seemed sufficient.

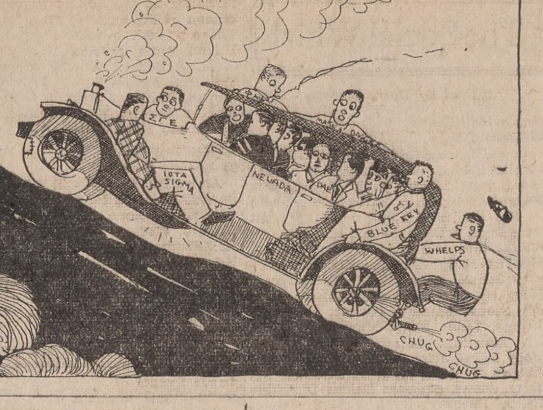

"Do you think we should ask the police about this?" asked the Inspector, rudely breaking Jack's reverie. "It wouldn't do any good. They're too busy collecting fines for parking in front of the Granada."

THROUGH THE courtesy of Tom Wilson the Sagebrush has been given a tabulation of all campus organizations, as to number, duplicate membership, etc.

WOLF FLURRY. RED-LETTER DAY. STEWART HALL PERCHERS. AGAIN there is a flurry. The Desert Wolf sees publication and distribution. Comments, many of them, are bantled between students.

TESTING FOR the first time the idea of no-favor formal the sorority formal season will open this evening. With this beginning in a sane attempt to cut this needless extravagance it is hoped that the organizations will follow up with many other cuts in expenses, and not attempt to outdo each other in presenting their dances in gorgeous, but nevertheless expensive, settings.

Cross Says:

Members of the sophomore class, eager to inflict new rules on freshmen, evidently are unable to enforce the rules which are now in existence.

Cigarette butts are thrown in the most convenient direction.

Portions of the lawn, particularly near the bulletin board, are being trampled into oblivion.

Perhaps the recent modification of traditions has resulted in the breeding of disrespect for all traditions. If we wish to keep the control of our affairs in our own hands, and make faculty or regents intervention unnecessary, all students must co-operate in observing the rules, particularly those which apply to smoking and "cutting campus."

Officers of the athletic manager, the news bureau, the executive officers, and publications editors and business managers are now centrally located on the third floor of Stewart hall.

Here and There

U. of Detroit has the largest class in aeronautical engineering in the world.

The 1930 varsity football squad of U. S. C. will have no captain.

When twenty U. of Missouri co-eds appeared on snowy streets in their pajamas recently the bystanders thought a new fad, or perhaps initiation was going on.

Calvin Hendricks, blind student from U. S. C. won second place in the Atwater Kent radio contest.

The Tri Deltas and the Kappa Sigs at the U. of Minnesota had a snowball fight.

Chaffey Junior College women have been conducting a shoe shining contest.

Connie Co-ed

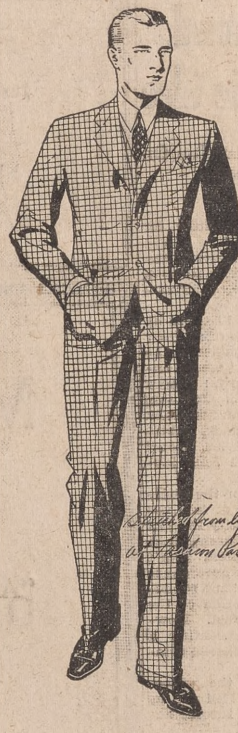

It's a wise person who knows how far to go.

Mackay Museum Gets Blue Earth Samples

A gift of three specimens of blue ground have been sent to the Mackay Museum from the De Beers Consolidated Company, owners of all the diamond mines in the Kimberly district, at Cape Colony, South Africa.

Several other specimens of the country rock surrounding the volcanic crater, were also sent.

Strong Teams Will Enter Tournament

Virginia City Five Seen As Dark Horse In State Prep Tourney

With the basketball season drawing to a close among high school teams throughout the state it is easy to forecast the teams which will offer the strongest competition in the forthcoming tournament to be held in the University gymnasium March 4, 5, 6 and 7.

In the southern part of the state the Muckers of Tonopah seem to have a team so outstanding as to make comparison with rivals unnecessary. The state champions have won eight victories to date by large scores.

Panaca Strong
Panaca seems to be assured of a place from the eastern section and in all probability is the strongest eastern representative although there is little upon which to base an opinion.

The championship should, according to the dope, rest upon the shoulders of one of four teams: Tonopah, Stewart, Carson or Reno. Virginia City is the dark horse of the tournament and may surprise the fans by coming down the stretch in front of the field.

Carson, Reno Ahead
Carson and Reno have had little trouble with any team in this part of the state with the exception of the Indians from Stewart. The Redmen trounced both the Senators and the Truckeetes in games this season and look to have a contending team.

A good lineup on the west's chance against the Tonopah quintet will be afforded in the game to be played in Carson this week-end when Reno travels to the capital city for a one game engagement. One of these teams is practically certain to reach the semi-finals, and one or the other may be the team to haul down the bunting when the final whistle blows.

Barbara Horton is now the proud wearer of a fraternity pin. Victim: John Hutchinson; house, Sigma Phi Sigma. This makes fifteen pounds of candy that Barbara has brought the Gamma Phis. It is interesting to note, also, that Hutchinson is in the hospital.

Sport Sallies

Butch Lawlor will be back in the lineup tomorrow and Saturday nights for the Pacific clash. His weight and coolness in emergencies will be a big aid to the Paak.

When Wolf meets Tiger, fur is bound to fly. Tonight more fur will fly than usual, because the Wolf is leading the conference and the Bengal is right hot on his trail.

Tonight, also, Nevada's leather pushers will go into their baptismal battle against the California Aggies. From the looks of things, the inexperienced Nevadans have more than an even chance to come out on the long end of the score.

If Dick Wallace's glovemen bring home the well-known bacon from the Mustangs, things will look good for a winning year in pugilistic circles. If, on the other hand, they are set down it will be no reflection on the men or on their coach.

Art Levy and Wally Rusk went four practice rounds the other night, and both boys look good. Both are aggressive, but cool, and this is one big factor in winning boxing matches.

Clifford "Bat" Devine is probably realizing a life's ambition when he steps through the ropes this evening. "The Bat" has been pushing the gloves around at one time or another since his dad could find gloves small enough to fit his hands. He has a hard chin, and plenty of intestinal fortitude, and will make it hot for his opponent.

Tony Poloni, erstwhile pugilist, basketball player and all-around athlete, has been declared ineligible, and this should make Levy fight all the harder to take his place. Poloni has been working out in the gym every night

READY FOR TIGER BATTLE TONIGHT

Three members of the University of Nevada basketball squad who will oppose the College of Pacific at the university tonight in the first of a series of two games. A victory in the series will give Nevada undisputed title to the Far Western conference basketball crown. Walter Clark Jr., son of President Walter E. Clark of the University of Nevada, is on the left. He is a substitute forward, Joe De Reemer, a guard, is in the center, Edwin ("Tip") Whitehead, a forward, is on the right.

with the rest of the team and will be in great shape for next year.

Fritz Wilson has been taking daily workouts on the oval each afternoon preparatory to coming track meets. Fritz should be in great shape by the time that first meet rolls around and should be a sure point-getter for the Wolves.

Spring football practice is scheduled to begin soon. The men of the

moleskins will go through fundamentals and do some signal work to prepare them for a big season next fall.

The Goofs, after getting scant mention so far this year, up and beat three teams from Westwood last week. They broke the Sabbath to win the last game, but they won.

Walt Linnehan has turned out to be the big thing when it comes to athletes. He will be football captain next

fall, and has turned to pugilistic play-acting to amuse himself in the meantime.

When it comes to shot-putting, Melkey Gorse should show the boys on the coast something when spring rolls around. The other day in practice he picked up the iron ball, tossed it exactly 43 feet, and then went down to the other end of the pit and repeated the feat. For this early in the season, the mark is plenty remarkable.

Goofs Take Three Tilts In Westwood

Blakely Stars As Mates Pile Up Huge Scores In Series of Hoop Clashes

On its first trip of the season the Nevada Goof team journeyed to Westwood, Calif., last week end, where it met and defeated three basketball teams in that section.

Friday night the Goofs, led by Bill Blakely, diminutive forward, outplayed the Westwood Hoop-hoos, winning 2-22. Blakely scored 14 points during the game. The Hoop-hoos were not able to hit the basket in the style the Goofs displayed, and were only fair on defense. Cole, their center, played their best game.

Saturday night the Goofs met the Susanville 20-30 club team on the Westwood floor, and proceeded to overwhelm their opponents, 44-12. Blakely was again star of the game scoring nine baskets for the Goofs, totaling 18 of his team's 44 points. Bankofier and Mack played well at the guard positions. The Goofs' big men, Bob and Roy Bankofier and "Speed" Weaver were instrumental in the fine showing the Goofs made in these two games.

Sunday afternoon the Nevadans faced much stiffer competition than they had in the former games. A mixed team, composed of some of the Westwood high school players, and some town men, came close to defeating the Goofs but were finally defeated 29-25.

Duane Mack, Bill Blakely, Speed Weaver, Red Austin, Frankie Stewart, Bob and Roy Bankofier made the trip with the Goof team.

Whelps Entertain C. of A. Basketeers

Nevada Whelps will perform their first duty of this semester tomorrow morning when they meet the visiting College of Pacific basketball team at the train. They will guide the team around the Campus and town during the day and see that they are provided with transportation to and from the games.

Plans for a Whelp's banquet are being drawn up by the members. The dinner will probably take place in a week or two.

Coeds were taken back a bit when they discovered tags on their cars last week. As a result Cecelia Hawkins had to make a special trip to the downtown police court, and Bernice Blair was asked to kindly refrain from parking her car in the police court driveway.

Former Grid Coach Hurt In Accident

Charles Erb, head football coach at the University of Nevada in 1925, figured recently in an automobile collision when his small car crashed into a ten-ton oil truck near Grant's Pass, Oregon.

He was driving from California to his home in Olympia, Wash., when the collision occurred, telescoping his car and crumpling him in the tonneau. First reports indicated that his spine

had been broken, but attending physicians later discovered that the injuries were not as severe as first thought.

Frank Hope, of Roseburg, Ore., driver of the truck, stopped and gave Erb first aid. The former football star was taken to a hospital at Grant's Pass where he is doing well.

Jack Lindly has taken out a week's leave of absence and has returned to his home in Stewart, where he will undergo a minor throat operation.

Musical Comedy To Be Shown April 3

Glee Clubs, Campus Players Combine Under Legion Auspices

In a meeting with representatives of the American Legion February 10 Dallas Blankenship interested in the latter to the extent of sponsoring a musical comedy which is to be given by the two glee clubs on April 3.

Campus Players have offered their assistance to the Glee clubs in putting on this show. The musical comedy is a new field among the usual plays and concerts given by Campus Players and the Glee clubs, but it is felt that insofar as it is rather new to the Campus as well as to the city there should be a great demand for this type of entertainment. The finer details and members of the casts have not yet been chosen, but this will be completed within the next two or three weeks.

Legion Enthusiastic

There are 300 members of the American Legion in Reno and Sparks all of whom are very enthusiastic over the idea of sponsoring this show. Both clubs will start immediately to rehearse many of the songs which will be used.

The Reno Evening Gazette and The Nevada State Journal as well as K. O. H. are enthused over the plan and have promised any assistance which may be needed by the University students.

Mr. Gray of Gray, Reid and Wright offered to donate part of his radio hour each morning to advertise the musical comedy. Other leading merchants in Reno have offered their assistance.

Windows In Stewart Hall Found Broken

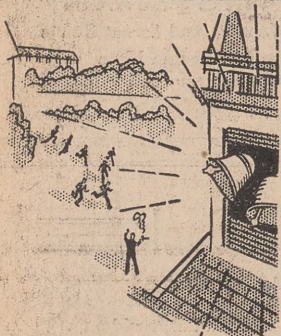

Last week-end the window of one of the front doors of Stewart hall was shattered by an unknown person. This is the second window broken in the building within the past three weeks. Previously one of the panes in the west end of the Desert Wolf office was smashed from the outside. The glass was found on the inside of the office, indicating the breaking force to have come from without.

The breaking of the door window was apparently from the outside, also, and in neither case was a missile found on the premises. Considerable puzzle has been evidenced by occupants of the building over the situation.

Book Nearing Completion

Work on the Artemisia is progressing rapidly. All organization pictures have been taken and only the military pictures remain in the group pictures. The covers are finished so there will be no delay on account of the covers not being ready as in the past. The senior panels have been sent to the engraver and all the art work has been completed. Some of the printing has been started for the color work.

"Is Zat So?"

To pipes, Men, to Pipes!

TRADITION has it that ye shall know the fellowship of pipes with seasoned, masculine, mellow men of every age and degree.

Some try to join this brotherhood, yet fail, and are absolved as born to pipeless lives. But honest effort is required—each man's own test with good tobacco in a good pipe.

That is the formula. Both pipe and tobacco must be good. The pipe must be pure of bowl, and the tobacco must be—

Well, Edgeworth, if you'll permit—good old Edgeworth, Class of '04. Tried Edgeworth yet? Now's your chance! Use the magic coupon, and we'll rush right back to you a free-for-nothing packet of genuine Edgeworth to fill your good pipe with.

Edgeworth is a careful blend of good tobaccos—selected especially for pipe-smoking. Its quality and flavor never change. Buy Edgeworth anywhere in two forms—"Ready Rubbed" and "Plug Slice"—15 pack or 25 pack to pound humid tin.

EDGEWORTH SMOKING TOBACCO

LETTERS & BRO. CO. 100 S. 2nd St., Richmond, Va. I'll try your Edgeworth. And I'll try it in a good pipe. Name _____ Street _____ Town and State _____ Now let the Edgeworth come! V

Brick Is Bought By Loyal Nevadan Across Continent

The A. W. S. "Buy a Brick" campaign has spread to the furthest corners of the earth. Clayton Byer, manager of the Desert Wolf, is in receipt of a letter from Frank Nelson '29, of Babylon, L. I., New York, requesting two issues of the next Desert Wolf, the women's number, and a brick for the Student Union Building. Enclosed was sufficient funds to cover his requests, which indicates that the slogan "Be a Brick and Buy a Brick," held true in this case.

Blanks to Deliver Dramatic Reading

Famed Play of John Drinkwater To Be Given In Auditorium Tonight

"Abraham Lincoln" by John Drinkwater, will be the subject for a dramatic reading to be given in the auditorium tonight by Professor A. F. Blanks, who gave a lecture recital of O. Henry's "American" before the A. S. U. N. this morning at the assembly hour. The contemporary English dramatist's famous play, "Abraham Lincoln," was not written with the purpose of a historical or a political philosopher, but from the dramatist's viewpoint of a personality of "wide and recent fame, who was an inspiring example of a man who handled a war nobly and with imagination."

Professor Blanks has had considerable experience which is reflected in his offerings. He was born in the South, and his residence in Japan, his travel in Europe as well as his study in his chosen field of literature enables him to speak with authority on many subjects.

The lecturer holds a Ph.D. degree from Stanford University and he has been a member of the faculties of Ohio Wesleyan University, Otterbein University, Colgate University, University of Southern California, Aoyama, Tokio, Japan, and is now at the University of California as associate professor of Public Speaking. The California University Extension division is scheduling a series of his lectures and readings while he is on a leave of absence. His dramatic reading tonight is open to the public free of charge.

Thelma Pedrolc spent the week-end at the Kappa Alpha Theta house on Stevenson street.

"Is Zat So?"

Stanford Boxers Will Meet Nevada

February 22 Is Date Scheduled By Finance Control Committee

Stanford University boxing team will meet the Nevada pugilists at Nevada February 22, according to a schedule agreed upon by the Finance Control Committee last Tuesday. The Stanford meet will be the first to be held at Nevada this year. On Saturday, February 14, the Nevada team will go to Davis to meet the California "Aggies," who will come to Nevada for a return meet March 1. On March 8, the University of California team is scheduled to come to Nevada.

The committee at the same meeting authorized the publication of 450 copies of the 1930 handbook, the "Frosh Bible," which are to be sold at the beginning of the fall term of 1930.

It was also decided that the athletic manager should employ a student who is to attend to the parking of cars at basketball games to relieve the traffic congestion that occurs at these events. The student is to be paid \$2 a night. It was also decided that the season tickets to the State High School basketball tournament will be sold to the general public as well as to students. The Sagebrush was voted \$300 as part of its allotted fund.

Seismograph Notes Five Earthquakes

Professor J. C. Jones, of Mackay School of Mines, reports that the seismograph located in that building has registered five earthquakes in four days. The unusual feature of these shake-ups is that they were all within fifty miles of Reno. Two of the quakes were registered on Tuesday. However, none of them have been strong enough to feel.

Frat Council Forms New Constitution

Following decisions reached at the last meeting of the now inactive Inter-Fraternity Council, the new constitution as formed this year is receiving its final rewriting, rewording, and amending, according to Dan Senseney, chairman of the constitution committee.

Due to the objections of one member of the council, the work has been held up for several weeks, but since all the houses now seem to agree on the constitution as it has been revised the final corrections will be made.

It is hoped that it may be submitted to the various houses for final ratification on February 24.

Superintendent Predicts Early Finishing of Work

With the pillars of the Mackay Science building completed work on the cupola and interior walls has begun.

The completion of the pillars was effected after several week's work. They are formed by large cylindrical blocks of stone being cemented together and are topped by slabs of stone which will support the portico when it has been laid. Along the outer edge of the walls of the building a rim of fluted tiles will be placed after the present preparatory work for their placing has been completed.

Plastering and lathing work will be started within the next week.

A statement has been made by the superintendent to the effect that the work is advancing so rapidly that the building will be easily completed within the date set for occupancy by the University.

Happy Tomlin visited with her parents in Hawthorne last week-end.

Museum Receives Copper Specimens

Through the courtesy of Mr. Frank Reber, the Mackay School of Mines has received a collection of copper ores from the Majuba mine in Pershing County, Nevada. Specimens of high grade native copper and copper oxide, rivaling the finest ores this country has produced, are in the group. The Majuba mine was a noted producer of high grade copper ores, as well as the only source in Nevada of vein tin ore during the world war period.

Young China Is Subject of Cosmopolitan Club Program

Professor Williams of the language department last night talked to the Cosmopolitan Club on the subject "Young China". Before the talk a short business meeting was held at which the plans for the Mardi Gras dance, to be held in March, and the Oriental Night Open House program for next Wednesday were discussed. Professor Hicks will talk on Japan at the next meeting.

LITTLE WALDORF
343 North Virginia Street

Research Library Nears Completion

At last, the Mackay School of Mines is a haven of peace and quiet. The reason for this miracle is the vacating of the A. S. U. N. office. The former occupants of the room have picked up their typewriter and sneaked away to Stewart hall. As far as the Mackay school is concerned, no one knows where the office has moved, but work is rapidly progressing on turning the room into a place of concentration and study—The Mackay Research Library.

Mines Bureau Completes Milling Research Process

The Reno station of the United States Bureau of Mines in co-operation with the University of Nevada has completed favorable research on the treatment of tailings from various milling plants. Under the present method the value of the metal recovered is usually under \$2.00 per ton. The present production plus the large tonnage now stored in the tailings dumps offer a venture for the recovery of a large gold waste.

Mable Aljets was a guest at the Delta Delta Delta house last week-end.
