The majority of students who change their residences during the year never think of dropping into the registrar's office and leaving their new street number and changed telephone. To do this would save campus officials a great deal of time and trouble and may assist in the rendering of immediate contact with the students themselves should such a thing be necessary.

No student, however unpopular, or uninterested, can escape being called for some reason some time during the year. There are times when every one must be reached. Sometime someone may want to find him badly. Moments may be precious, and if the student's correct address is not available, the results may be disastrous.

Thus, it behooves every student to reveal his correct address if he has not given his proper one, and it will be of material benefit to him to make known any change which he might have made in address or telephone since the beginning of the semester.

#### A COMMITTEE FUNCTIONS

The Student Affairs Committee meets at its regular hour intent on clearing up cases of student wrong-doing. Students who have wandered from the path are summoned before the body.

Those whose cases are mild, but nevertheless needing attention, are severely reprimanded, and warned of the consequences should they repeat their offenses.

But those whose violations of the good discipline and conduct becoming to a college student body brand them as unworthy of the privilege of attending the University of Nevada are quietly and sternly suspended.

Just as quietly as they have been told that they are no longer needed they pack up and leave behind them the school at which they might have been better men and

Their student friends miss them. The friends are better off without them.

Their instructors know what has happened. A little white slip tells them. The guilty ones themselves are better off away from the

pitfalls into which they have fallen. Reports of the disposal of such cases are grossly exaggerated on the campus.

Some people know too much-others listen to hear a bit of scandal, and to spread it.

Thus, quietly, effectively and considerately, the Student Affairs Committee meets, disposes of its business and adjourns.

### G-E Floodlighting Wins Favor for Football - Hockey - Track - Baseball - Tennis

G-E floodlighting equipment has a winning record. Its victories are counted in terms of pleased spectators, increased attendance, satisfied coaches and players.

The development of G-E athletic-field floodlighting equipment was planned with every consideration for the fundamental and special playing conditions it must meet. That is why the big Novalux projectors give ample and evenly diffused light over the entire playing area.

The development of General Electric floodlighting equipment has largely been the work of college-trained men in the G-E organization —other college-trained men are largely responsible for the continuing leadership of General Electric in furnishing the many other products which bear the G-E monogram.

The most promising thing about the football situation at Nevada this year, the factor which has this year, the factor which has raised the hopes of Wolf supporters to the highest point they have reached in recent seasons, is the reserve strength which the Pack has exhibited. Coach George Philbrook has capable substitutes to take over the work of the regulars.

Hen. The same is true of Speed Weaver, who will be remembered as a star of last year's goof team. It is to be regretted that Clem Sultenfuss is out with a broken leg and will be unable to report until after Christmas.

Bledsoe, the only frosh to make take over the work of the regulars. Bledsoe, the only frosh to make in any position on the team a conin any position on the team, a condition of affairs which is without school after Christmas. It is also precedent in the history of football understood that former Captain at this university.
