

### Snow Survey is Investigated By Reclamation Head

Survey Method Originated by Dr. Church Considered for Colorado Basin

With the view of applying the snow survey method originated by Dr. J. E. Church to determine the run off of the snow in the Colorado river basin above Boulder Dam, the acting chief engineer of the United States Reclamation Service, with offices in Denver, has written him desiring information on the snow surveys which he conducts on the summit of Mount Rose every year.

The acting chief engineer desires this information in order that he may determine the amount of water in the snow and thus calculate the run off from the surrounding territory into the river, which will be a valuable service in conjunction with the dam project.

The committee that annually conducts the snow survey on the summit of Mount Rose has not yet decided anything definite on this year's plans; however, it expects to do so in the near future. The cabin that is used has been repaired, and sufficient wood has been stored to take care of the party when it starts on the survey.

### News Bureau Sends Daily Dispatches

Size of Staff to be Cut Down Before Press Mardi Gras

Entering upon its announced policy the A.S.U.N. News Bureau, under the direction of Julian Epperson, has been busy the past week pushing out news dispatches to the state papers every day. Formerly news items were sent out weekly and then twice a week, starting this semester, but now reporters send them out every day covering the news of that day.

Two new reporters have recently been added to the staff. They are Jerry Bingham and John Brooks. The size of the staff will be cut down before the Mardi Gras, annual publications dance, if one is staged, Epperson stated.

### Reduced Golf Fees Offered Students

Warm, summerlike weather which has prevailed for the past week has caused a great number of University students to become infected with the golf bug, and a resultant rising influx at the Reno Country Club.

Both greens and fairways are in excellent condition for this time of year but early scores turned in by the varsity players show that no little rust has collected on the mashies, midirons and puttees since their last venture over the course.

The management of the Country Club has reduced the fees for students from \$1.00 to 50 cents on week days. The fee on Saturdays, Sundays and holidays is still a dollar.

### Remodeling is Done By Bureau of Mines

Reno station of the United States Bureau of Mines is actively engaged in remodeling one of the old buildings on the campus formerly used by the War Department. New equipment for research work in the reduction of zinc with natural gas is being installed. The work is being done under the direction of J. S. Leaver.

Some of the laboratory work in this investigation has been done by H. A. Doernre, associate chemist, at the Berkeley station of the Bureau of Mines.

### Announcements

The Interfraternity Council meets at 4 o'clock Monday the 2nd of February.

Home Economics students, attention! The last day for the members of the Home Economics Club to have their pictures taken for the Artemisia is February 5th. After that date \$1.00 will be charged.

Through an error a special charge of \$4.00 for Artemisia was paid by a number of students at the January registration. All those who paid this special charge please call at the comptroller's office for refund.

W.A.A. regular meeting Tuesday at 8:45 in the Education Building.

D.A.E. meets Thursday at the Theta house.

Sundowners hold their meeting Tuesday at 4 in Prof. Jones' office.

Women's intramural board meeting is Monday at 8:45 in the gym.

### Ten Women Punished for Two Violations

The Women's Executive Committee punished women offenders at student body meeting held Friday, January 30. The women who were punished for cutting campus last semester are the following: Josephine Murphy, Amy Yarrington, Ruth Fish, Lowene Cramer, Betty Donahue, Florence Frohman, Anna Belle Cairns, Doris Welch apologized for sitting on the senior bench. Mary Ruth Seamon and Jessie Hartley were also punished for the same offense and this is the second offense for the former. Those who do not appear for this punishment must forfeit their student body privileges.

### Practice Teachers Assigned Positions

About forty practice teachers began work yesterday. Some will teach in Reno high school, some in the E. D. Bingham junior high, others at the North Side junior high, and the remainder will work at the Sparks High School.

The elementary practice teachers began teaching the first of the week.

### San Jose College Head Here

Dr. P. Victor Peterson, head of the Natural Science Department at San Jose State College, will be on the campus tomorrow to look over the new Science Hall for the purpose of gaining knowledge before the construction of a similar structure at the school which he represents.

### Davis Recovering at Hospital

C. W. Davis, associate chemist of the Reno station of the United States Bureau of Mines, is reported as rapidly recovering for a recent operation. He is at Stanford Hospital.

### Harold Hale Dies In Elko Hospital

Harold P. Hale, editor and publisher of the Elko Independent and former student at the University of Nevada, died suddenly at the Elko hospital Sunday morning.

Following his graduation from the Reno high school with honors in 1910, he enrolled at the University of Nevada, and attended the institution for one year. He then entered the law offices of Leonard B. Fowler in Reno to study law and was admitted to the bar in a short time. He practiced in Elko until he purchased the Elko Independent twelve years ago.

He led an active life in politics and in the social life of Elko.

### Icy Waters Loom For Violators Of Campus Traditions

Marking the first upperclass tubing in over two years, three sophomore students at the University, all of them varsity letter men, will appear before the men's upperclass body next Thursday evening for an icy bath in some tub, as yet undesignated.

Ollie Theis, varsity football player, and heavyweight boxer, is the first of the offenders. He over stepped his sophomore privileges by wearing cords where moleskins should have been.

Wally Rusk also infringed sacred upperclass privileges by following the same procedure throughout most of last semester. The third man in bad standing is Howie Arthur, star hurdler, who has been wearing the cords since

he returned to school, the first of this semester.

Members of the Upperclass Committee say that the tubing Thursday evening will mark only the first step in their program of campus tradition enforcement. After a marked laxity all held paddings for freshman violators only at marked intervals, the committee will make stringent enforcement of all rules the order of the day.

## National Secretary Speaks to Y.W.C.A.

Miss Price Will be Entertained for Four Days by Local Ass'n Members

At a membership meeting of the Y.W.C.A., which will be held next Wednesday afternoon at 4 o'clock in the main reception room of Manzanita hall, Miss Helen Price of San Francisco will speak. All members are urged to attend this meeting for Miss Price is the national traveling secretary of the student Y.W.C.A., and is anxious to make as many contacts on the Nevada campus as possible.

The program planned for the meeting consists mainly in a pep rally for Asilomar where the student conference will be held in June. Old time "stuck-ups" will be on hand to share in the singing and relate anecdotes of their experiences at the Y.W.C.A. conference grounds on the Monterey peninsula.

### On Campus Four Days

Miss Price will be a guest of the campus Y.W.C.A. for four days and an extensive program has been arranged for her. Each day she will meet the various members of cabinet and advisory board and any members who wish in private conference. On Tuesday she will be the guest of Elizabeth Johnson of the Gamma Phi Beta house, on Wednesday afternoon she will be guest of honor at a membership meeting at Manzanita and on Thursday afternoon a trip to Carson and vicinity has been planned and a dinner in the evening as the guest of the present Y.W.C.A. cabinet from which she will catch her train for the Coast.

## "Spring Interlude" Is Spring Festival

A feature of the W.A.A. conference to be held here April 9 and 10, is the Spring Festival. It will be in two parts. The first part will be the "Spring Interlude," the music of which was written by Dorothy Crandal who was a student and instructor at this University at the time it was presented several years ago. Miss Crandal is now teaching school at Santa Maria Junior College.

The second part is entitled "Fire." Much research work has been done to secure the material for it. The chief source used was the Bureau of Ethnology reports on origin of fire and fire myths.

## Lost Bracelet, Keys Are Left at Registrar's Office

Miss Sissa has in her possession two articles of apparent value that have been found on the campus during the last week. One is a key container with several keys having the name of a Los Angeles manufacturer on the outside, the other article is a blue and silver bracelet.

It would be greatly appreciated if the owners would make their appearance at the registrar's office and claim the articles.

## Winter Sports at Lodge Enjoyed by University Co-eds

Tobogganing and skiing have been added to the list of girls' sports that can be enjoyed at the W.A.A. lodge on Galena Creek each week-end. The association has purchased some new skis and a new toboggan for the members and co-eds interested in sports.

A number of women sport lovers have been visiting the lodge each week-end for a number of weeks, but Sunday was the first time winter sports have been enjoyed by the girls.

Sunday morning a group, chaperoned by Mrs. Mae Simas, opened the tobogganing season and spent the entire day frolicking in the snow. A lunch was served at noon hour to the girls who participated.

## G. E. Representative To Visit Engineers

L. H. Means of the industrial service department of the General Electric Company will be in Reno next week from his headquarters in Schenectady, New York, to talk with University of Nevada engineering students about employment with the G.E. Company.

Each year a representative of several major manufacturing and construction companies comes to Nevada to seek promising material among the graduating seniors of the various departments of the engineering school. Mr. Means will be at the University on February 9 to talk to any students from the electrical department who would like to hear of the opportunities offered by the General Electric Company.

Franklin Khoeler, Leonard Fox, Miriam Perry, Julia Baldini and Helen Smith were among those who visited their homes in Yerington last week-end.

## W.A.A. Enjoys Winter Sports

W.A.A. is featuring another week-end of sports for its members at Wavena lodge at Galena Creek. Skis and an eight-foot toboggan, furnished by W.A.A. were initiated last week. A good time was reported by the thirteen women making the trip. Plans for this week-end will be completed at a meeting at 4:30 today for those interested in going.

## Many Women Enroll In 1931 Basketball

## Sororities May Enter Teams in Intramural Contest if Desired

Girls' basketball is well under way, states Juanita Johnson, manager of the sport for 1931. A large number of girls have shown up for practice already and many more are expected after "brushing" season comes to an end. The freshman class has shown the largest representation.

The interclass and intramural games will not be played off until the latter part of February, but those sororities who wish to enter a team should bring their members for practice, the manager announced.

## Women's Rifle Team Defeated

Last week the women's rifle team competed against the Washington State team. This was the first match of the season and although the women did their best they were badly defeated. The women of the Washington State team each made 99 points.

# Pack Meets Aggies In 2-Game Series At Sacramento

## Martie Expected to Start Speedy Combination Tonight

Opening its third Far Western conference series tonight and Saturday at Sacramento, with the potentially strong California Aggie hoopers, Coach Doc Martie's fighting Wolf Pack is set to stage a come-back for conference honors with hopes of a double win in this series.

The Wolves left for the fair of the Aggies early this morning accompanied by Coach Martie and Basketball Manager Bruce Thompson. Those men who made the trip are Capt. Joe DeReemer, Al Lombardi, Jud Dakin, Willard Weaver, Dan Bledsoe, Stan Johnson, John Fulmis, Jack Hill, Roy Salsbury, Roy Bankofier, Edge Farnsworth, John Griffin and Oscar Prietrag.

**New Combination to Start**  
As to the men who made the trip, no definite lineup has been announced but from many sources it has been learned that Martie expects to start a new combination which would include Dakin and Lombardi, forwards, Bledsoe at center, and DeReemer and Salsbury at guards. This combination has been working out in practice and shows plenty of pep and scoring punch.

Little is known as to merits of the Cal. Aggie team this season, save from different sources that they are reported to be much stronger this season than last. Crip Toomey, coach of the Mustangs has assembled an all-around team this season that clicked to advantage last week-end, losing a tough series to the high-powered Fresno Staters. Neither Singleton and Jim James, lanky center, are lost to the Aggie squad, but stalwart reserves have made up for their loss.

**Griffin Returns**  
This series marks the return of Monk Griffin to the basketball court after a lay-off of two weeks due to a bad ankle injury. He is expected to see some action in both games, taking the place of Bob Bankofier, who is out of the game for about ten days due to a slight attack of chicken-pox.

## Sport Sallies

**HOLMES IS GOOD**  
By SPEC-TATER  
"Goldie" Holmes has received much favorable comment of late for his efficient broadside of basketball games over radio KOH. Never misses a play, and gives the fans who can't be here an accurate running account of the game. He is voted by popular accord the best announcer of Nevada athletic events.

The gymnasium has been packed for the games so far, and this indicates that the University may break a little better than even on the season gate receipts.

**FIGHTERS WARM UP**  
Wallace's slugging squad looked good in warm-ups this week, and should be ready to put in a good show tomorrow night. It will be a fine warming-up opportunity at any event, and will give Nevada's backers a chance to see what the mitt-men have to offer this season.

Nevada's boxing team is the only sport outfit the school boasts which can rate recognition in Pacific Coast recognition tournaments to anything at all. But sports in general up here in the sagebrush are being placed on a higher level, and some day no far day off, Nevada may crash the Coast conference where she belongs.

**GOLF GAMES LOOM**  
Weather conditions seemed to warrant tees, mid-irons, brassies and putters most of this week, and Jack Walter donned golf knickers Tuesday afternoon. The mild dose of spring will probably be over in a few days, but golf enthusiasts can still get in a few afternoon on the Reno course. It is rumored that the green fees have been reduced to fifty cents again.

Nevada has a few fair golfers running loose on the greens in the springtime, and maybe there could be a little publicity resultant from entrance into intercollegiate tournaments, if nobody were too greatly inconvenienced.

**GRIFFIN RECOVERS**  
John Griffin, the Tonopah tripod, is back on the hardwood once more, but is heavily tapped and may not return to form for some days yet. He was forced to the sidelines just before the San Jose series with a badly sprained ankle.

Griffin was missed badly in the past four games, and his return to the court will be welcomed by his cohorts, who have a tough time getting along without the fighting fifth. What with Gilmartin also lost.

**BANKOFIER LOOKS GOOD**  
Bob Bankofier, playing his first game of intercollegiate basketball in the Chico series, looked good in there. His height was valuable, and once he has learned to handle himself a little better he will prove a big asset to the Pack as a regular.

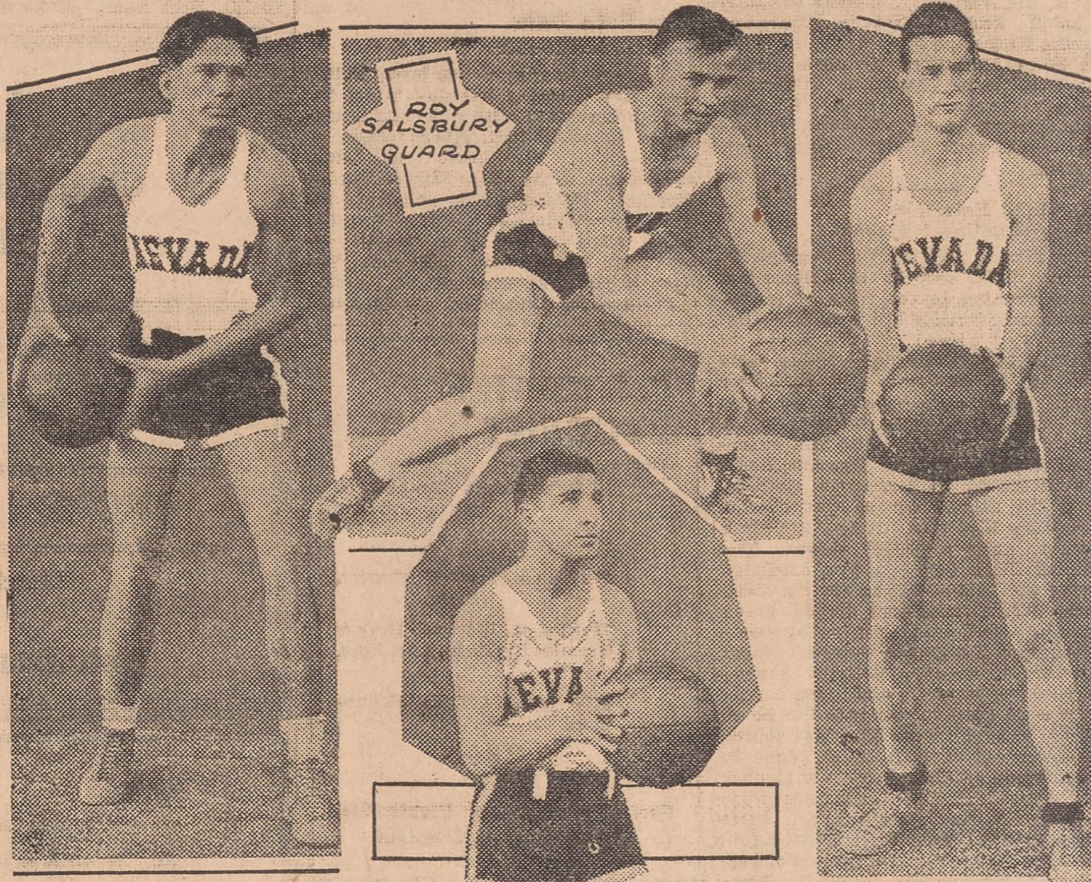

Bankofier is another "home town boy who made good." He hails from Winnemucca, playing there for Pusher Lowry for four years. He is a junior getting his first break, is six feet tall and has plenty of reach.

John Fulmis is another Packster who looks good, but looks better as an individual star than as a team-man. He handles himself with more smoothness than any man on the floor, but doesn't "grandstand" by so doing.

**Vanderburg Returns to Reno**  
W. O. Vanderburg, associate mining engineer of the Reno station of the Bureau of Mines, returned Tuesday from a field trip to Tonopah.

# BRUSH SPORTS

## FOUR OF NEVADA'S STARS

DAN BLEDSOE - CENTER - DeReemer, Salsbury, Lombardi, and Bledsoe have all seen action in the games so far, and will play important parts in helping Nevada win over the California Aggies this week-end.

## Yearlings Win Two Preliminary Games By Wide Margins

## Three Teams See Action as Opponents Show Little Strength

Play a preliminary game to the Nevada-Chico tussle the University of Nevada frosh defeated the strong Yerlington five in a rather one-sided affair last Saturday. The contest got off to a fast start with the yearlings sinking a basket from the tip off. From then on the frosh used the ball as they pleased and the winner was never in doubt.

Coach Seranton sent in his second team the second quarter and the Yerlington outfit then made three baskets. During the third stanza the third string went into action and just barely held its own with the high school team. The last few minutes of play the first string went into action and ran up a big lead as the gun ended the game with the score 35 to 16. Curran and Guffrey at guards took the ball away from the Yerlington team with ease while Leighton, Glusovich, Wayman, and Rose starred on the offense for

## Hoop Tourney To Be Staged March 5

Under the sponsorship of the Block N Society the all-state high school basketball tournament will be held this year the 4th, 5th, 6th and 7th of March.

At a meeting of the Interfraternity Council last Monday it was decided that the fraternities and Lincoln Hall would cooperate with the Block N Society in order to provide adequate housing facilities for the competing high school teams.

Following a custom that has endured now for three years, the high school student body presidents of the state will hold meetings at odd times during the basketball tournament.

The nature of these meetings is to bring the problems of student government in the high schools before the officers of the associated students of the University of Nevada so that better means of securing school spirit will be developed.

## Tumbling Class Is Started By Martie

A new diversion was inaugurated by J. E. "Doc" Martie in his physical education classes when he started a class in tumbling which will be known in the future as the "Gym Troupe." Al LeFebvre, former star tumbler of the Los Angeles Athletic Club, has been put in charge of instructing the beginners, and the class has been under way for two weeks. There are fifteen men working daily in this sport and under LeFebvre they have already learned the intricacies of the back somersault and the front flip.

Chet Seranton, assistant to Doc Martie, is one of the star pupils and he, along with Chesley Hart, Fred Foster, and David Clark, show great promise for Nevada's first tumbling team. LeFebvre is encountering trouble at the present time in getting his men together, but in the near future he plans to have a regular time schedule when all of the fifteen men can work together. With a few more weeks of training, ten men will be picked to constitute the gym team, and an exhibition is planned to show the public the progress that has been made.

Advertising is an investment of Reno business men. Let's invest in them.

## First Track Call Of Season Made By Coach This Week

## Captain Scott Leads Squad in Beginning Workout on Highway

Coach George Philbrook issued the first call for track men Tuesday afternoon, and some twenty-five candidates answered the call. Heading the list was Captain Neil Scott, Nevada's premier quarter-miler, broad jumper, and relay man.

Scott will lead the squad through the early season conditioning process which, according to Philbrook, will include a six mile jaunt on the Purdy highway each afternoon. Along with Scott other veterans from last year's squad include Wilson, Sultenfuss, Arthur, and Seaborn. Another man whom Nevada fans have seen perform, is Al LeFebvre, Nevada's most versatile athlete, who was ineligible for varsity competition last spring, but can add sure points in the broad jump, pole vault, javelin, or hurdles, this spring.

**Walts is Good**  
Another man whom Coach Philbrook will be banking on this spring will be Fred Walts, a freshman from Winnemucca high school, who scored some 20 points in the state track meet last spring, and ran the second fastest quarter mile in the interscholastics at Chicago. Walts should develop into one of the mainstays of Nevada's squad. The other candidates are of an unknown quality, but Philbrook will devote much of the early season training to the development of some distance men, with the hopes of offsetting the loss through graduation of Fred Lohse, who ran both the mile and two mile during past years.

"This school should have a reputation in distance running," were the words of Coach Philbrook to the squad Tuesday afternoon, which is indication enough of what he intends to do. Then he continued, "No other place in the United States is more favorable for the development of long distance runners, than right here at Nevada." And from the turnout the first day, it is expected that the squad list will increase to more than fifty by the end of the week.

## Fraternities Will House High School Basketball Teams

At a meeting of the Interfraternity Council on Monday, each of the fraternities agreed to house one of the high school teams competing in the annual basketball tournament to be held shortly.

In an agreement with Mr. Griffin, head of the debate team, they decided not to house any debate team. Hereafter Lincoln Hall will send one delegate to the Interfraternity Council, who will on an equal footing with the rest of the members on all matters pertaining to Lincoln Hall.

## February 6 - 7 Will See Next Hoop Games

## Fresno State Teachers Will Be Next Opposition of Wolves

Nevada basketball fans will have the opportunity of seeing the Nevada five again in action on the home courts on February 6 and 7 when they will meet the Fresno State Teachers.

Fresno has defeated Chico and the California Aggies and at the present time is tied with the San Jose team in conference standing.

**Teams About Even**  
In last year's series Nevada and Fresno each emerged with one victory. Fresno this year has a veteran team with most of their men from last year back, and from all reports are going good.

Nevada can expect a tough battle, but with John Griffin, fighting guard of the Pack, again back in the ranks it may look for a double victory.

## Double Win Tallied By Wolves in Two Slow Encounters

## Bledsoe is High Point Man for Nevada Adding Eighteen Points to Score

Turning in a double win Friday and Saturday nights, Coach Doc Martie's basketball team turned back the Chico State Teachers to the tune of 25-24 and 25-20.

The games were featured by the let-down of the Nevada players in comparison with the form displayed in both the Montana and California contests. The winning of these two games put the Wolf Pack back in the running for Far Western conference honors.

**Put Up Fight**  
The Chico Teachers put up a game fight in both games but were greatly handicapped in size save for their mammoth captain, Dan Farmer. The Nevada aggregation were all over six feet and played a much flashier brand of ball.

Nevada exhibited its whirlwind finish in both games, tailing four points and five minutes to play, Martie's boys got their eyes on the hoop and looped four straight buckets to sew up the game 26-24. In the second encounter, the Pack trailed 14-15 at half time, but soon got underway and had the Chico aggregation completely outplayed in this stage of the game, winning 25-20.

**Stars Named**  
The stars of the series for the Chico Teachers were Captain Dan Farmer, Irwin and Garragan. These three men broke up Nevada's plays and were a strong offensive trio. For Nevada, Dan Bledsoe was high point man of the series with 18 points. Weaver was a tower of strength on both offense and defense and the stellar consistent play of Captain Joe DeReemer was a feature of the series.

Nevada used the elastic defense to smother Chico's offensive plays and to recover the ball off the backboard. The Chico style of play was loosely demonstrated and spectacular one-handed shots by Garragan and Stephens kept the crowd on edge throughout the games.

The conference standing is as follows:

Team	Won	Lost	Pct.
San Jose	4	0	1.000
Fresno	4	0	1.000
Nevada	2	2	.500
Cal. Aggies	0	2	.000
Pacific	0	2	.000
Chico	0	4	.000

### Engineers Shown Three Film Roles

Electrical engineering students who are members of the American Institute of Electrical Engineering Wednesday were shown three reels of motion pictures through the courtesy of Mr. J. E. Preston, district commercial manager of the Bell Telephone Company. Mr. Preston secured the films from the Sacramento office of the Bell company for the University.

#### Work Shown

Each reel presented a different phase of the experimental work carried on by the telephone company. Reel number one, entitled "I See You Calling Me," was a story of the first developments and trials of television, the wonder of the age. Herbert Hoover, who was at the time the Secretary of the Interior, was shown in one of the first practical demonstrations of television, talking from Washington to Mr. Gifford, president of the American Telephone and Telegraph Company in New York City.

The second reel gave a description of how pictures are transmitted by wire, as is done by up-to-date members of the Associated Press. Whole pages of printed matter can be transmitted as easily as pictures can, according to the movie. It takes but seven minutes to send a picture by wire.

#### Steps Traced

Film reel three entitled "A Principle Becomes a Practical Art" told the story of telephone transmission between distant points. It started out with a view of two people talking to each other, one from San Francisco and the other talking from Havana Cuba. The steps of development were retraced and each summing-up of the barrier distance was explained.

Director John Fulton of the Mackay School of Mines will speak next Wednesday to the A.E.E., it was announced at the meeting. His subject will be "The Relation of Electrical Engineering to Mining Engineering."
