

# Enrollment Totals of Final Semester Is Announced

**Registration Shows All Nevada Counties Represented, 31 in California**

**Over 50 Per Cent of Students Are Residents of Washoe County**

Final fall semester enrollment at the University is 944 students second highest in the history of the University, it was announced yesterday by President Walter E. Clark. Last year's first semester enrollment of 969 is the only registration to exceed this year's figures.

Every county in Nevada, thirty-one counties in California, fourteen other states in addition, and two other countries, Greece and the Phillipine Islands, are represented in the enrollment. Of the 944 students 500 are men and 384 women, and over 50 per cent of the students are residents of Washoe county.

**643 in Arts and Science**

The college of arts and science, combined with the normal school, is the largest division of the University, having 643 students out of the total 944. The college of engineering is the second highest division with 215, while the college of agriculture has 95.

Last year's enrollment was larger because thirteen more teachers of public schools were taking hours at the University. This makes a shortage of only 12 students as a difference between the two enrollments.

**Enrollments Increase**

The enrollments of the past three years have been the largest the University has had since 1926, when 869 students were enrolled.

## RECORD CROWD EXPECTED AT HOMECOMING

All means of communication are being used by the Alumnae Association to reach the old grads with the appeal to answer roll call at the campus on October 24. Reports received to date indicate that there may be a record-breaking crowd for Homecoming this year.

Professor Carpenter, chairman of the Homecoming Day Committee, has spent the week getting in touch with the old football players, but as yet the probable number of returning alumnae cannot be determined.

## Announcements

When Wolves Frolic rehearsals start at the Granada theatre next week, no one will be admitted to the theatre without a stage-door pass. There will be positively no exceptions to these rules.  
(Signed) PAUL HARWOOD, Director.

All women out for inter-class hockey attend practice Tuesday, October 13, as inter-class captains will be elected at this time. Games will begin October 27 and will close with the tennis-hockey banquet, October 30.

Organization wishing to enter the women's intermural tennis matches will enter their contestants by October 20. Games begin on October 21.

Women's inter-class tennis matches will begin on October 27 and continue throughout the week.

All A. W. S. and Y. W. C. A. members invited to "Asilomar Supper Party" Wednesday, October 14 at 6:15 in the Women's Union room in Artier Hall. Twenty-five cents.

Due to a misunderstanding the Sagebrush last week stated that those men who were initiated into the Lincoln Hall association recently had received no bid from fraternities. This was erroneous. The men initiated had not accepted bids from Greek Letter organizations.

Regular Home Economics meeting will be held Wednesday night at 7 o'clock of next week. All members are urged to attend. The meeting will be in the Home Economics rooms of the Aggie building.

All organizations and societies planning to enter a float in the Homecoming day parade please communicate with Harland Stuart, marshal of the parade, on or before October 14. This must be done to determine the order of the parade.

## Resolution Passed Expressing Regret By Phi Kappa Phi

### Late Dean Haseman Honored By National Honor Society

At a recent meeting of the Nevada chapter of Phi Kappa Phi, national scholastic honor society, a resolution was passed expressing the deep regret of the members at the death of the late Dean Charles Haseman.

The resolution read as follows: "On July 9, 1931, at his home near Linton, Indiana, death came to one of the best loved members of the Nevada chapter of Phi Kappa Phi, Dr. Charles Haseman."

"Dr. Haseman was largely instrumental in securing the establishment of this chapter in the University and was one of the original charter members. He was its second president. For a number of years he was one of the most active and efficient of those who served on the membership committee. He had a marked influence on the setting up and maintenance of high standards of scholarship for the society. To the end of his life he labored for it wisely and generously."

This chapter records its deep sorrow and keen sense of loss in the passing of this stalwart friend and able counselor, whose strong sense of justice and whose devotion to fine ideals were ever an inspiration to its members."

### Samples of Thirty-One Minerals to Be Sent to High Schools

Mineral trays, containing thirty-one different minerals have been assembled and are ready for distribution to all the high schools in the state, Director John Fulton of the Mackay School of Mines announced last Wednesday.

"The trays are ready to send out as fast as we can find someone to deliver them to the high schools. Because of high express charges, we would appreciate it very much if anyone making out-of-town trips would take a tray along and deliver it to some one of the high schools. Any person willing to help with the distribution will please get in touch with the School of Mines, who is the gist of Fulton's announcement. The trays are two feet long and fifteen inches high. Each box contains minerals, each of which are numbered and described.

George Wingfield, President  
W. E. Zoebel, Secretary-Treasurer

## New Registration Policy Has Proven Itself A Success

### Dean Adams Says That New Method Saves Both Time And Expense

### Registration May Be Completed In One Day Under New Plan

Changes in the registration policy of the University have worked out satisfactorily, according to a statement issued by Dean Maxwell Adams yesterday, who says that the new method is not only faster and more economical, but the same amount of attention, as to expenditure of time, can be given to each student which heretofore has been impossible.

"That more students can be registered in a shorter time and with less fatigue than previously is quite evident," stated Adams, "for a steady stream of entrees came into my office, with little break, the entire two days of registration."

There will be no change, if any, in the new method of registration for the spring semester, but because of the swiftness with which students can be registered Dean Adams will recommend to faculty members the advisibility of completing registration in one day. There is a possibility of this for the second semester due to the fact that many students do not return to school and registration figures drop considerably.

In time, when the new system is worked up to a higher degree of thoroughness, it is possible that registration in the fall semester can also be carried through in one day, Adams will advocate this idea to the committee on registration and advise them as to the feasibility of its adoption.

No other changes will be made in registration this year because the method has not been given a thorough trial, as yet.

As a quicker and easier way of transferring books from one floor to the other, an electrically run elevator has been installed in the library. This is designed to save time both for the library staff and for the students requesting books.

According to Thea Thompson, librarian, conduct of freshmen in the library has been at an unusually high standard this year, the list of people subject to dismissal including only the following upperclassmen: Mervin White, Lionel Jasper, and Fred Wilson.

## "DISARM!" CRIES DEMOCRACY LEAGUE

The League for Industrial Democracy has just published an emergency magazine, called "Disarm! Disarm!" This aims to be a sweeping, graphic assault on war, on war psychology, on the causes of war. Not merely negative, "Disarm!" indicates various ways for affirmative action. As was true of "The Unemployed," (which had a circulation of 315,000 for three issues) "Disarm!" is an example of collaboration of writers and artists who now contribute their work as a united effort against the social horror of war.

Norman Thomas, Heywood Brown, Paul Blanshard, Dorothy Detzer, Kirby Page, John Nevin Sayre, aHarriot Stanton Blatch, A. J. Muste, McAlister Coleman, Oscar Ameringer and Harry F. Ward, are among the writers. Olive Weed, Reginald Marsh, Art Young, Fitzpatrick, are a few of the cartoonists.

Copies of this magazine may be obtained from the League for Industrial Democracy, 112 East 19th Street, New York city.

The Nevada chapter of Phi Kappa Phi, national scholastic honor society, announced the election of Margaret Fuller and Bruce Thompson, University of Nevada seniors, at its meeting Tuesday.

Both students are graduates of the Reno high school and are enrolled in the college of arts and science. Both have attained a very high scholastic average in their three years' work, Margaret Fuller having been named on the honor roll six times and Bruce Thompson five.

## U. N. STUDENTS ARE RELIGIOUS, REGISTRATION FIGURES SHOW

Are University of Nevada students becoming more religious?

They are, if statistics regarding church preferences collected in the recent registration are any riterion. For the first time in years the number of students who have some church preference exceeds that which have none. The numbers are 555 with preference to approximately 459 with none. With nine different denominations represented by student churchgoers on the Nevada campus, the Catholic church heads the list with the largest number of followers. It also has the most members in ratio with those who merely prefer; the ratio being 146 to 5, while in one other church it is 70 to 40, a showing of more than half on the preference list.

The Lutheran and Latter Day Saints churches and the Temple Emanuel, however, are represented by full memberships, no students having asserted preferences.

The churches with their memberships and preferences are: Catholic

church members 146, preference 5; Methodist church members 70; preference 40; Episcopal church members 70, preference 18; Baptist church members 48, preference 37; Congregational-Presbyterian church members 44, preference 22; Christian Science church members 24, preference 10; Latter Day Saints members 15; Lutheran church members 14; Temple Emanuel members 2.

Mr. and Mrs. Tip Whitehead are living in Fernley, where Whitehead is coach of the athletic teams.

Jim Bailey, '38, former football captain, is now playing football for the Olympic club at San Francisco.

Women's Christian Association Holds Recognition Fete

Campus Women Participate in Candle-Light Service Tuesday

Forty-three women participated in the Y. W. C. A. candle-light recognition service, Tuesday evening at 7 in the St. Stephen's Student Chapel.

The ceremony was conducted in the dim lighted chapel by Marion Nichols and her cabinet. The older girl's welcome was given by Fesse Gulling, while the new girl's response was given by Frances Kramer.

Editorial Staff of Artemisia Will Work Next Month

Advance Payment on Panels is Necessary Before Year Book is Printed

Actual work on the editorial staff of Artemisia will not be begun until next month, it was announced by the editor, Elbert Walker.

There are thirty-nine tries, and those who have shown ability and willingness to work and co-operate with the editors will be chosen early next semester for the regular staff.

All organizations desiring panels in Artemisia are requested to see the editor or the business manager by October 24. It was authorized by the finance control committee that these organizations would have to pay for their panels in advance.

Students who do not have their pictures taken at the stipulated time will not be allowed to have them taken at all.

October 9 and 10—Beta Delta. October 12 and 13—Beta Sigma Omicron. October 14, 15, 16—Delta Delta Delta. October 17, 19, 20—Gamma Phi Beta. October 21, 22, 23—Kappa Alpha Theta. October 26, 27—Pi Beta Phi.

Revise Constitution Committee Selected

Members of the A. W. S. met this morning in the University auditorium for the second regular meeting of the semester. Freshman roll was taken and it was ascertained that about a third of the women in the class were present.

Helen Montrose was appointed to be chairman of the constitution revision committee, the other members of which are Margaret Fuller, Jan Harcourt, Emily Gracey, Mildred DeWitt, and Cora Bryant.

W. A. A. Members Open Hike Season

W. A. A. opened the hiking season Sunday with a trip to Hunter Creek. The hikers rode halfway in cars and hiked the remainder of the distance to Hunter Springs.

This hike serves as a preliminary to the Mount Rose hike which concludes the season. Because of the distance and steep climbing it has been necessary in former years to go on two hikes in order to qualify for the Mount Rose climb, but as the new trail, which ascends the mountain will be used, women may sign up without these qualifications.

Announcements will be posted in the gymnasium and women interested are urged to sign up.

Second Hall Dance Committee Chosen

The members of Lincoln Hall association are making preparations for their second Hall dance of the semester, according to Fred Fader, mayor of the Hall group.

The dance will be held on the 16th of October at the hall. A committee to have charge of the dance, composed of Herb Beck, chairman, Louie Gardella, Lee Laity, and Dick Clewett, has been appointed.

GYM CLASSES OPEN TO ALL

Miss Elsa Sameth, women's physical education director, announced this week that the usual physical education classes will be held open to any woman who wished to enroll whether for credit or not.

Classes in organized games, dancing, tumbling and drill work which have heretofore been open only to those who registered at the beginning of the semester are now available to anyone interested. It is not necessary to enroll in these classes for special credit and obtain a final grade.

Delta Delta Delta Holds International Meeting in Canada

Holding its first international and sixteenth national convention at the Chateau Frontenac at Quebec, over 450 delegates from the eighty active chapters and 67 alumni chapters of Delta Delta Delta sorority gathered in Canada on June 22nd for a five day program.

The first few days were concerned with meetings and lectures given by active and alumni members of the sorority. Among the speakers was Miss Mae Pershing, sister of the famous General John J. Pershing.

The delegates were shown through the city by members of the two Tri Delta chapters in Canada and trips were made to the famous Sainte Anne de Beaupre, the Catholic healing shrine and aboard the "Empress of Britain," England's new flagship, which was making its second voyage across the Atlantic.

After the convention many of the delegates sailed on the Duchess of Atholl for a post-convention tour of Europe.

Mary Baird, president of the Theta Theta chapter of Delta Delta Delta on this campus, and Evelyn Nelson, a graduate of this university were the delegates from the local chapter. After the convention Miss Baird and Miss Nelson went to Boston, and from there sailed to New York where they spent several days. From there they went to Washington, where Miss Nelson stayed with relatives and Miss Baird went on to Richmond, Virginia, to visit friends.

Aggie Club Plans No Exhibits for Homecoming Day

Leasing of University Farm Makes Aggie Displays Impossible

Celebration to Feel Absence of Annual Agriculture Attractions

The Homecoming day celebration this year will feel the absence of the Agricultural Club's exhibits for the first time since 1909. It was learned this week when members of that group announced that they would make no attempt at an exhibit, and that their activities in the annual two-day festivities would be curtailed to the entry of a float in the parade on Saturday morning.

Aggie day has been long heralded as one of the biggest attractions of the entire celebration, with its display of farm products, apples, and stock, adding much color to the University's welcome to its returning alumni. The decision of the club to take no part this year will, it is believed, put a decided crimp in the activities of the Homecoming day committee.

The possibility that President Clark, because of this action, would limit the celebration to one day has been expressed, but the president's final decision in this matter has not as yet been made.

The decision to abandon the Aggie day exhibits this year came after the staging of a show was found to be practically an impossibility. With the Nevada Livestock Farm leased and much of the stock sold there is no material at hand with which to put on an exhibition.

Whether or not the Aggie day exhibits will be permanently abandoned has not been decided, but it is believed that with the reopening of the farm the show will become regular feature of the Homecoming celebration once more.

Home Ec. Department Plans Cafeteria to Learn Meal Service

In order to obtain practice in meal service, Mrs. Ingram's class in the home economics department is serving a cafeteria lunch at the minimum cost of the food. The three-course meal is served at 12 p. m. on Tuesday and Thursday in the home economics laboratory of the Agriculture building.

WOMEN Thirteen Delegates Represent A. W. S. at Club Convention

Thirteen members of the Associated Women Students represented the University of Nevada women at the Nevada Federation of Women's Clubs. The convention was composed of representatives from different clubs in the state of Nevada, who met in Reno, October 1, 2, and 3.

The delegates invited were Margaret Wails, Margaret Ede, Marion Nichols, Jean McIntyre, Nell Lozano, Abigail Hackett, Melva Fowler, Marjorie Ligon, Myra Sauer, Helen Peterson, and Alice Gottschalk. Miss Mack also attended.

The delegates attended a luncheon at the Methodist church. During the luncheon Margaret Ede gave a toast, "The Juniors, an Asset to the Federation."

W. A. A. Discusses New Constitution at General Meeting

Waa-Neva Lodge Directorship Assigned For Year; New Sport to Open

That Manzanita Hall and each sorority house select a member for representation on the intra-mural board has been proposed as a change in the W. A. A. constitution and was discussed during the meeting of that group held during the gymnasium.

Beatrice Bolschweiler, '33, and Margaret Waymire, '33, were appointed to take care of Waa-Neva lodge, recreational lodge, and to arrange the W. A. A. calendar for the year.

Helen Olmstead will manage the new game, Badminton, which is to start as soon as all of the equipment has arrived. The game is a mixture of volleyball and tennis and serves as excellent practice for beginners in tennis.

The equipment per player consists of a racket and shuttlecock and sufficient material has been ordered to permit 16 players to indulge. Badminton starts September 21 and is to be held on Mondays and Wednesdays at 3:45.

Mrs. Simas has requested that anyone interested in swimming sign up for it as soon as possible at the gym and then get in touch with Ida Rogers, who is in charge of that sport.

Efforts are underway by the Men's Glee Club of the University to organize an Associated Glee Clubs society on the Pacific coast to which the Nevada group will be affiliated. The officers include Fred Nagel, president; Al Bernes, manager, and Don Butler, accompanist.

The glee club picnic which was postponed in the rush of events last spring, will probably be held early this fall.

# High School Coaches Meet to Make Out Football Schedule

**Nine Coaches Make Schedule Of 30 Games For 1931 Football Season**  
**Reno, Fallon and Stewart Are Conceded Strongest of Nevada Teams**

By BILL McMENAMIN  
Nevada high school football coaches of the Far Western Conference met with the Block N Society last week in the Mackay Athletic Building and decided upon a schedule for the coming gridiron season.

Nine coaches were present at the meeting and they determined upon a schedule after two hours of careful planning that should keep the followers of gridiron warfare in this section of the state satisfied for the season.

Six teams will take the field to open hostilities on September 26 and the battle for the conference championship will be kept going at a high tempo until the Reno-Sparks Turkey Day game officially concludes the season.

**Team Strength Indefinite**  
Little can be said of the ability of the various teams but it is anticipated that Reno and Fallon High Schools and Stewart Indian School will have three of the strongest teams in the state. Stewart is said to have lost only one or two of the men who made its team a menace to many a school's bid for the championship last year.

The coaches who were present at the meeting to schedule games for their squads were Herbert Foster of Reno, Proctor Hug of Sparks, John Gilmartin of Virginia City, J. McElroy of Carson City, Donald Robertson of Fallon, Harold Bailey of Yerington, Dave Moore of Stewart Indian School, F. M. Goodwin of Lovelock and Earl Walther of the Reno Antlers Club.

**Schedule**  
The tentative schedule agreed upon at the meeting is as follows:

September 26—Reno vs. Antlers Club, at Reno; Lovelock at Winnemucca and Stewart Indian School vs. University of Nevada Freshmen at Reno.

October 3—Fallon at Reno, Sparks at Stewart and Yerington at Lovelock.

October 10—Stewart Indian School at Reno, Carson at Sparks and Fallon at Yerington.

October 17—Reno at Susanville, Cal., Yerington at Sparks, Lovelock at Stewart Indian School and University of Nevada Freshmen at Fallon.

October 24—Reno vs. University of Nevada Freshmen at Reno, Carson at Stewart Indian School, Fallon at Lovelock and Winnemucca at Sparks.

October 31—Lovelock at Reno, Carson City at Yerington, Sparks at Westwood, Cal., and Bishop, Cal. at Stewart Indian School.

November 7—Reno at Yerington, Lovelock at Sparks, Stewart Indian School at Fallon, and Antlers Club vs. University of Freshmen at Reno.

November 14—Reno at Las Vegas, Sparks at Fallon, Carson City at Lovelock and Yerington at Stewart Indian School.

November 21—Reno at Fallon.  
November 26—Sparks at Reno.

J. McElroy, coach of the Carson City High School team, stated that the games scheduled for his team were merely tentative due to the fact that he had not, as yet, enough men out to make a full team.

Games scheduled for the same day as the home contests of the University of Nevada varsity will be played as a preliminary to the Wolf Pack's game.

The coaches reported a large amount of interest among the people in the various towns of the state in high school football this year and a large turnout of fans is expected for the games.

## Stringent Rules Made For Dorms., Houses This Year

**Frat. Formal Not Recognized For 1:30 Night Privilege in New Regulations**

The dean of women, presidents of all the sororities, and the presidents of the two halls, have found it advisable this semester to renew the dormitory rules, add a few new ones, and make them applicable and enforceable at the sorority houses. The new regulations as they stand are as follows:

**Rules Governing Women's Residence Halls or Dormitories**

- 1. All women, student residents of dormitories or houses unless granted a later privilege must be in by 8 p. m.
- 2. Library privileges may be taken by any student at any time the library is open with the understanding that she return directly to the hall upon leaving the library unless she wishes the night to be counted a late night.
- 3. Graduate, Senior and Junior students, may be absent from the hall:
  - (a) Any night until 11 o'clock.
  - (b) Saturday and Sunday nights until 12 o'clock.
- 4. Sophomores may be absent from the hall:
  - (a) Friday and Sunday and two school nights per week until 11 o'clock.
  - (b) Saturday night until 12 o'clock.
- 5. Freshmen may be absent from the hall:
  - (a) Friday, Sunday and one school night per week until 11 o'clock.
  - (b) Saturday night until 12 o'clock.
- (c) Freshmen are required to secure permission from the Dean of Women, the Matron of the Hall, or the House Mother for the late school night.
- 6. One o'clock privilege may be taken by any student attending an approved dance.
- 7. One-thirty o'clock privilege may be taken by any student attending an approved campus formal dance—not fraternity formal.
- 8. Approved dances, picnics, etc., will be listed on the bulletin board in each dormitory. A copy of approved social affairs will be sent to each sorority every Thursday, by the Dean of

## SOPHOMORES TO ENFORCE ALL TRADITIONS

Determined not to "let the frosh get away with anything" the sophomore vigilance committee is constantly on guard for an erring first-year men, according to members of the committee.

All sophomores were asked to report miscreants, when at the class meeting last week Jim Wallace, class president and member of the vigilance committee, stated that the freshmen must be watched.

No special meetings have been held on the subject recently, according to Ed Martinez, chairman, but the committee is on the alert.

## Feemster, Lough Get Absence Leaves For Advanced Work

Two well known instructors at the University of Nevada have been granted leaves of absence this year to continue work toward their doctor's degrees.

After thirteen years of continuous instruction in the History and Political Science department at Nevada, Associate Professor S. C. Feemster will finish his thesis, "War Responsibility—The Causes and Origin of the World War." He is doing the work at the University of Nebraska.

Feemster received his A. B. from Drury College in 1907. As an instructor of Latin and History at York College from 1907 until 1910 he prepared to go on with his work for a Master's degree. After two years further study at the University of Nebraska, he received his Master's degree in History in 1912.

S. Alan Lough, assistant professor in the Chemistry department, also was granted a one year's leave of absence to work for his Doctor of Philosophy degree at the University of Michigan. Lough, after teaching organic chemistry at the University of Denver Dental College for two years, received his A. B. degree there. In the capacity of research assistant in the Physiological chemistry department at the University of Michigan he continued the work for his Master's degree in Science which he received in 1927. He has been teaching at the University of Nevada since that time.

## Anything That's Right

By THE EDITOR  
THE EDITOR WROTE THE ARTICLE APPEARING IN THIS COLUMN LAST WEEK CONCERNING THE ACTIVITIES OF TWO FOOTBALL PLAYERS WHO FAILED TO KEEP DISCIPLINE. OTHER MEMBERS OF THE STAFF HAVE RECEIVED MISPLACED BLAME BECAUSE OF THE ARTICLE, AND THE SITUATION DEMANDS A WORD OF EXPLANATION. THOSE DEMANDING THE EXPLANATION WILL PLEASE ASK THE EDITOR ABOUT IT, AND NOT ACCUSE MEMBERS OF THE STAFF FOR SOMETHING IN WHICH THEY HAD NO HAND.

IT IS THE EDITOR WHO DIRECTS THE POLICY OF THE PAPER, AND WHO SHOULD TAKE "THE RAP" FOR THAT MATERIAL. STAFF MEMBERS WORK ON ORDERS ONLY FROM THE EDITOR AND HAVE NO AUTHORITY TO CUT ARTICLES FROM THE COPY WITHOUT THE EDITOR'S PERMISSION. SO MAKE YOUR MOAN TO THE EDITOR IN THE FUTURE, PLEASE.

The Sigma Nu's refuse to sanction the giving of cups for intramural games. Probably because they have so many now that if they get anymore they will have to buy a new cupboard to put them in. Other tongs have consented to buy them the new cupboard—if they win.

- Women.**
- 9. Special arrangements must be made in advance with the Dean of Women or house mother for:
    - (a) Out of town trips.
    - (b) Absence from the residence over night.
    - (c) Permission to attend social affairs not listed on the bulletin board.
  - 10. All students must sign up:
    - (a) When going out for the evening.
    - (b) For all-day or week-end trips; and must check off upon returning.

## WOLF HOWLS

Dear Editor:  
All colleges and universities have some traditions that have been followed throughout the years. Some have been broken and others have been maintained by the students because they have enjoyed the tradition for itself and not because it has been forced upon them.

This year no somberos have been worn by the seniors. After four years spent in learning the art of sophistication, they have decided that the wearing of the traditional felt will harm their social prestige. There is another way of looking at the problem. It has certainly gone too far when the frosh are lured for failure to wear the dink and the senior parade around the campus minus their marks of distinction.

But there is always a good alibi which will excuse such errors. The seniors are so big headed they can't buy or have hats made to fit them unless they patronize a firm that specializes in making circus tents or box cars.

The situation of the frosh is different. All dinks can be made the same size and will still fit the frosh dome. This is probably due to the fact that putty is so easily moulded. The question remains. How soon will the high and mighty hill campers wake up and realize that there are other people on the campus besides themselves and conform to traditions?

Anxiously,  
AN ONLOOKER

Dear Editor:  
I think your choice of "What-a-Man" is absolutely terrible. I ask you, do you know by what qualifications a man is judged by discerning co-eds? If not just ask one of them, and don't blush when she tells you.

As a girl of wide experience among the University of Nevada male students, I believe I am well qualified to judge you are the "what-a-man." Those men to whom you have already given the honor ought to be hung, and well, too. At the present time they are not, as a matter of fact they are very much alive. See about this, will you?  
Cincerly,  
MANZANITA MAZIE  
Sausalito, Calif.

Dear Editor:  
A copy of your Sagebrush, under date of October 2, just received, and naturally I was interested in your editorial about my novel, "The Whirlpool of Reno."

It is true, I did frequent the various resorts in and about Reno, not only last year, but the year before, and in fact nearly every time I have been in Reno I went the rounds. And—no matter what the resort, University students, both male and female, were pointed out to me!

Now, "Whirlpool of Reno" is fiction, and the collegiate parties therein described are fictitious—but I talked to several men and women who attended your institution no later than last year and had I used the tales they told me about college parties, and I have no reason to doubt their authenticity, the book would have been taboo even in this age of free and easy "literature."

If you will note, I had no scenes on the campus, nor in sorority or fraternity houses connected with the University.

of Nevada. Nor did I specify that these affairs were typical of U. of N. life, for I know they are not.

But when I listen to parents discussing the advantages of various colleges, parents who have children applied throughout the years. Some have been broken and others have been maintained by the students because they have enjoyed the tradition for itself and not because it has been forced upon them.

Indeed there is need for some drastic action to be taken. But when your governor and your mayor broadcast invitations to the world to come to Nevada and Reno where there are so few laws to be broken, when the newspapers are filled with glaring headlines and feature stories about the gambling dives, the de luxe roadhouses, the weekly washday when the decrees are ground out by the scores, why shouldn't the world be curious to read about the "Biggest Little City in the World"?

So, instead of attempting to boycott stories published about your community, why don't you go to the root of the evil, and complain to your civic authorities that your University is being tarred by "muck-raking" legislators, not "would-be" authors?

You state that neither Reno nor the University wants publicity of the unwarranted type. Of course the University doesn't—but if Reno doesn't warrant every line of notoriety circulated about it, then it's your turn to talk!

The town is reaping precisely what it is sowing, and has no grounds to howl

because others turn back upon it the fruits of its own planting.

My idea was not to "hit" at the University nor its students, but to show up conditions as they existed when I was there and as they exist today. And just so long as Nevada's laws are so lax, just so long will Reno and Nevada, the University as well, be the target for "warranted" publicity.

So, instead of boycotting all such "literature," why don't you bundle up a fair sample and submit it to your legislature next time it convenes. Ask 'em if that's the kind of free advertising the state wants? Ask 'em if the reward cases, prize fights, pony racing, etc., is sufficient to counterbalance the stigma placed upon your towns as a University community?

Well, I didn't intend to ramble on like this—but I've always loved Reno; the happiest of my younger days were spent there. I have great respect for the bonafide residents, as you will undoubtedly gather in my novel. But as long as writing is my business, and

reno flagrantly invites publicity, I accepted the invitation and wrote "Whirlpool of Reno."

Very truly yours,  
JOHN HAMLIN.

To the Editor:  
Has it ever occurred to any members of the student body that our class government as it exists at present, and has existed for years, is an absolute farce? It is certainly an apparent fact that all work connected with class functions is

borne by the president and whatever committee chairman, he may appoint. Why not then discard the offices of class vice-president, secretary and treasurer, and carry on our class government under a class manager? Under such a system I am sure we will find our class functions carried out in a much more efficient and business-like manner than they are under our present irresponsible type of government. Let's think it over.  
Yours truly,  
T. M.

## No wonder men smoke PIPES!

EVERY PIPE SMOKER has the satisfaction of knowing he has one masculine right that the women won't take away from him. They do leave our pipes alone.

And though the girls may not know it, they're leaving us one of the finest smokes a man can have.

There's something calm and soothing about a pipe and good tobacco. It leads to clear-headed thinking. Perhaps that's why the leaders—the real men of the world—are pipe smokers.

Collegiate men like a pipe—packed with cool, slow-burning Edgeworth, the favorite pipe tobacco in 42 out of 54 colleges. It's cut especially for pipes, to give a cooler, drier smoke. You can buy Edgeworth wherever good tobacco is sold. Or for a special sample packet, write to Larus & Bro. Co., 105 S. 22d St., Richmond, Va.

## EDGEWORTH SMOKING TOBACCO

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive and exclusive eleven-step process. Buy Edgeworth anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes, 1 1/2¢ per package to \$1.50 pound humid tin.

# First Inter-Mural Sport Is Volley Ball Tournament

## Cross Country Race Revived As Inter-frat Feature of Homecoming

Interfraternity volleyball was the first of the inter-mural sports to get under way this fall. It began on Monday, September 28, with the Lambda Chi meeting and conquering the Beta Kappas.

Following is a list of games so far played: September 29 the Sigma Nus were defeated by the Stray Greeks, and A.T.O. conquered the Sigma Alpha Epsilon. September 30: Sigma Phi Sigma and Lincoln hall won from Phi Sigma Kappa and the D.S.L., respectively. On October 1 the Lambda Chi and Stray Greeks were victors over Beta Kappa and the Independents. October 2 saw the defeat of S.A.E. and Phi Sigs at the hand of Sigma Phi Sigma and the Taus.

Beginning the second week of play Lambda Chi Alpha, on October 5, took the Sigma Nu's into camp and the following day saw the defeat of the Stray Greeks by the Sigma Phi Sigmas.

The annual inter-mural basketball tournament will swing into action on Monday, October 12. Each team is being allowed only two half-hour periods of practice preceding the tourney. This is due to the fact that so many organizations are entered herein. Eight fraternities, Lincoln Hall, the Stray Greeks, and the Independents will be represented. The tournament, as in previous years, will be conducted on a "round robin" basis.

About 35 men have so far reported for the cross-country race which will be converted into history on the morning of Homecoming Day. The course of the race is from the Sparks High School to Mackay field and around the track. It is approximately a four-mile trek.

Homecoming Day will also see the finals of the horseshoe tossing championship, the first round of which was played on Thursday, October 8. All organizations participating in other interfraternity sports will also be represented in horseshoe pitching. The faculty will also enter a team.

# Frosh Team Defeats Sparks High School In Practice Game

## Freshmen to Journey to Grass Valley to Play Town Team Oct. 17

Chet Scranton's wolves went over to Sparks Tuesday afternoon and defeated the High school, 28 to 0.

The frosh kicked off to Sparks, which returned the ball after a series of line bucks, and forward passes to the frosh seven-yard line, only to lose the ball on downs. Frutenberg kicked a beautiful spiral about 50 yards. The high school was unable to gain an inch in the next four plays. The ball automatically went to the Wolves, who after a series of spin plays and end runs, followed by a pass from Frutenberg to Carol, made the first touchdown. Carney made two touchdowns on line plunges and Frutenberg made the fourth. Frutenberg converted three times.

Sparks did not score all during the scrimmage, but played good ball, the frosh team proving heavier and more experienced.

The frosh team will play the Grass Valley town team Saturday, October 17, at the latter's field.

# Letter Games Are Named by Block N

## Fresno, California, Gray Fog Contest to Pay Dividends

Members of the 1931 football squad who play at least 65 minutes in letter games this coming season will be entitled to the block N award. Les Tomely, president, announced the following to be "letter" games.

Starting with the game tomorrow with Brigham Young University, the other "letter" games will be October 24 with Fresno State (Homecoming Day), October 31, with University of California, and November 21, with University of San Francisco. All these will be hard fought games and Coach Philbrook will be using the most promising men of his squad of 50.

**Constitution Requirements**  
The constitution of the Associated Students reads: "The candidates in football in order to be eligible for a block N award in football must play a total of an hour and five minutes in games which are designated by the Block N Society previous to the start of the season. The number so designated shall not exceed five."

# Football Ticket Sale Progresses

The Sager and Blue Key organizations on the University of Nevada campus are competing for honors as salesmen of season tickets and parking spaces for this season's football games. A final check on the ticket sales made by these two service organizations will probably show a total of from 250 to 300 tickets. About 60 have been sold by downtown agencies and between 30 and 40 were disposed of at last Saturday's game.

The majority of parking spaces have

# IGNORANCE OF RULES LOSES B. Y. U. GAME

Because they had failed to learn the rules, Nevada's gridmen tasted their first defeat of the season last Saturday when an obviously weaker team from Brigham Young University pushed over touchdowns in each of the first three periods for 18 points while the Wolves scored twice, once in the first few minutes of the game and once in the opening minutes of the third quarter for a total of 14 chalk marks.

Penalties cost Nevada 137 yards, or enough to win the game by a safe margin, and the failure of one halfback to look in the rule books for a definition of outside kicks gave an unwarranted, but winning touchdown to the Cougars when a Cougar end fell on the ball over the Nevada goal line in the opening kickoff of the second half.

**Defeat Unwarranted**  
Defensively and on the offense the Wolves were the superior team and the beating of last week was wholly inexcusable. Nevada outpassed, outcharged and outplayed the Cougars from all angles of the field, and made two more first downs, but this did not count in the final analysis, and the Pack's chances to go through the season without a defeat were forever wiped from the slate.

From the line of scrimmage Nevada's backs reeled off 244 yards and lost only 39, while B. Y. P. U.'s attack netted this team 153 yards in gains and 24 yards in losses. In average length of punts Nevada had an edge of ten yards, Jack Hill punting nine times at 41 yards a boot, and the Cougars kicking ten times at 31 yards each. Hill's beautiful eighty-yard punt is not included in this because one of his teammates was offside.

**Passes Gain Yardage**  
In the air, Nevada completed two passes out of the seven attempted. One of these was good for five yards, and the other for fifty yards and a touchdown. The Cougars completed two out of nine passes, excluding attempts at laterals. The Cougar's aerial attack netted 20 yards.

Plans are being made to create more parking space due to the large demand by the townspeople. By filling in the section on the lower end of the field a suitable location could be constructed. Action to this effect will be taken in the very near future.

already been sold. The remaining sections are on the left side of the field, and it is probable that they will be taken by next Saturday.

# OFFICIAL OLYMPIAD PROGRAM ANNOUNCED FOR 1932 GAMES

LOS ANGELES, Cal.—First announcement of the final and complete official program of the games of the tenth Olympiad to be held in Los Angeles from July 30 to August 14, 1932, was made by the Los Angeles organizing committee, following receipt of a cable of confirmation from Count de Baillet-Latour, president of the International Olympic Committee from Lausanne, Switzerland.

The program will open in Olympic stadium (Coliseum) on Saturday afternoon, July 30, with the historic opening ceremony, a part of which will be the impressive Parade of Nations, in which 2,000 sons and daughters of 35 nations, led by their respective national flags, will participate in the march past the Tribune of Honor.

### Beautiful Pageantry

One athlete will then step from the drawn-up ranks to take the Olympic oath for all the teams of the participating nations. As the oath is administered the Olympic flag will be raised; the Olympic torch will blaze forth atop the massive peristyle of the stadium and in the presence of representatives of foreign countries, world-wide Olympic organizations, and officials of state, the games of the tenth Olympiad will be declared officially opened.

Many other beautiful features of pageantry will mark the opening ceremony.

The Olympic games will bring to Los Angeles the greatest gathering of dignitaries ever to assemble on the Pacific coast. Members of royal houses from all parts of the world will attend the opening ceremony, as will official delegations from their governments. In accordance with Olympic traditions that the ruling head of the nation pronounce the games opened, President Hoover will be officially invited to open the games of the tenth Olympiad.

Something of the magnitude of the

program is suggested by the fact that during the 16 days the games are in progress, more than 135 distinct programs of competition from 15 branches of sports will be held mornings, afternoons and evenings at 9 or more stadiums, auditoriums or water courses.

Competitions will be held in the following world-wide sports: track and field athletics, boxing, cycling, equestrian sports, fencing, field hockey, gymnastics, modern pentathlon, shooting, rowing, swimming, diving and water polo, weight lifting, wrestling, yachting, national demonstration, international demonstration and fine arts.

### Coliseum to Be Used

Olympic stadium (Coliseum) in Olympic Park (Exposition Park) with a seating capacity for 105,000 persons, will

be the center of Olympic activity. In addition to the opening and closing ceremonies, the track and field athletics, gymnastics, field hockey semi-finals and finals, equestrian jumping events and the demonstrations of national and international sports.

John Thurston, '33, has returned from California, where he attended the wedding of his brother James to Miss Doris Hadley.

*"I'm older than you think I am..."*

"BUT I remember some of the things that I heard when I was younger.

"I was told to watch out for one of those so-called friends who is so mighty glad to see you today—almost going to hug you; and the next time you see her, is holding her head high up in the air and won't even speak to you.

"I was thinking about this while I was enjoying a CHESTERFIELD cigarette. You know, I have been smoking CHESTERFIELDS quite a long time, and they are not like some of our friends—one thing today and another thing tomorrow. They are *always* the same—always mild—always so pleasing in taste. They just satisfy all the time.

"By the way, that reminds me of something. I was playing bridge recently with a girl friend of mine and two men, and after we finished the game they began lambasting a whole lot of things and folks. Some of the talk was right funny, you couldn't help laughing; but, really, they pulled down a whole lot of things, and didn't build up anything.

"And that reminded me of a salesman who called to see me the other day to tell me something about CHESTERFIELD. The thing that pleased me more than anything else was that he didn't lambast and cuss out any other cigarette; but, of course, he thought that CHESTERFIELD was the best... And I rather agree with him. They do satisfy."

GOOD... they've got to be good!

EDITORIAL

The Wolf of Sagebrush

Published by the A. S. U. N.—Founded October 19, 1893
Editor—Joseph R. Jackson Business Manager—Robert H. Merriman

Official Publication of the Associated Students of the University of Nevada. Published Weekly During the College Year.

Address Box 9205, University Station, Reno, Nevada. Subscription rates, \$1.50 a year. Advertising Rates Upon Application.

Beneficial Action

Roy Kipp, in getting his walking papers from A.S.U.N., is receiving treatment which has not been meted out to any student here for some time, and for a reason which is unique in Nevada annals.

Throughout the whole stormy two months since Kipp's arrival here, he has steadfastly refused to see the student viewpoint in the matter.

Nevada publications and Nevada activities are not fly-by-night affairs—here this year, gone the next. They are steady, reliable, dependable institutions.

Yet Kipp has directly violated this fine ethical code which Nevada students so long have set for themselves. He has shown no interest in the future of Nevada.

Come Home, Grads

This is to the graduates. Others may read it if they wish, but the purpose of the article is to talk with that host of former students who once were a part of the Nevada atmosphere.

You who were once students here have gone out into the world. You are making your way, perhaps on what you learned here, certainly on what you gathered as you passed into the granite gates of the University.

Oftentimes, without a doubt, you pause in your occupation of the moment to think over things. Your thoughts wander to a green and beautiful campus. You wonder where they are, that small yet mighty host with whom you once spent the better part of your lives.

You see the old, old faces, and with them you recall the things you did, the deeds that you performed, the acts of service, the tasks that you accomplished.

You remember the green-bronze statue of John W. Mackay, the lake, with its tramway where perhaps you sat under the stars; Lincoln and Manzanita halls, and the quad.

Whistling Fools

Do you whistle through your nose? If so, you are a moron, and there is no help for you. But if you whistle through your throat, then you are one of the blessed, and may go on whistling without fear of being pounced upon and taken out to the state hospital west of Sparks.

Such is the opinion expressed by an eminent eastern professor, although he made no reference to the Nevada State Hospital for Mental Diseases. The professor did not say what people were morons for whistling, he said that whistlers were morons.

There is much to be said for his statement from this point of view, and this is probably the reason why print shops have rules forbidding whistling during working hours.

Then there is the problem of whistling in general. Did Adam whistle? There is every possibility that when he was ordered from the Garden of Eden he went away whistling to show his nonchalance, because he did not have a Murad.

Why do lonely travelers whistle? Are they afraid of the elements, and wish to cover up their fear by whistling? If so, they have been deprived of this one comfort in an otherwise dreary life.

But regardless of whether Adam whistled to show his nonchalance when he got his walking orders from Eden, or whether printers are mad because people whistle in their shop, or whether lonely travelers whistle to cover up their fears or whether people whistle to show their joy or sorrow, they will probably continue to whistle just the same.

Dormant Drifters

Two years ago Blue Key was about to be crushed beneath the heavy hand of the executive committee, but the members awakened and by a great effort stepped out from under in time to avoid being disbanded along with other deadwad organizations.

Today the society occupies precisely the same status as it did at that time. Because the members have nothing to do but sell tickets, they have no interest, and their job has grown so irksome to them that they do not perform it.

The duties of Blue Key once were to usher at football games, rouse student enthusiasm at rallies, stage the Wolves Frolic, and perform sundry other helpful tasks.

Last year, however, they allowed the Sagers to step in and seize the rally job from under their very noses. The Sagers have made a good job of it, it is true, but the function should have been performed by Blue Key.

When things have progressed to such an extent as this, there are only two things to left to do. Blue Key might become a dead organization, with meetings held only infrequently, and with the only business at hand being complimentary speeches among the membership.

ANYTHING THAT'S RIGHT

The cider at the Gamma Phi open house looked too realistic for words, and when the pledges poured the amber colored fluid from the gallon jugs a crowd of spectators and guests smacked their lips in anticipation.

While "Race Horse" Poncia was whiling away the hours in solitude last Sunday afternoon, his car was in the possession of his girl friend and Julian Epperson, who toured Reno and the surrounding country until nightfall.

A nerve system for energetic skyscrapers
Long before the huge bulk of a new skyscraper looms up, Bell System men have planned its nerve system—the maze of telephone cables and wires so vital to its business activities.
From the inception of a building design, telephone engineers work hand in hand with the architects. They determine the telephone needs of thousands of future tenants. Then they plan cable shafts rising from cellar to roof and the grid of under-floor ducts that will put telephones within easy reach of every occupant.
There's a real thrill in working out these plans, for without telephones the immense structures of today would hardly be practicable.

A NATION-WIDE SYSTEM OF INTER-CONNECTING TELEPHONES

**Hospital Had Busy Year According to Statistics Table**

**723 Students See Dr. Hood and His Staff During Fall Term Last Year**

That the University of Nevada Hospital was a busy place last year is indicated by a table of statistics released by that institution this week.

Last spring Dr. A. J. Hood and his staff were consulted 870 times, while 723 students came to see him during the fall term. There were the same number of minor operations during both semesters, the number being set down as 25 each, while the number of major operation the second semester more than doubled that of the first.

	Fall Spring	Sem.	Sem.
Number membership	483	457	
Total number consultations	723	870	
No. of individuals consulting	174	292	
No. hospitalized	40	52	
No. hospitalization days	121	159	
Minor operations	25	25	
Major operations	3	3	
No. of emergency treatments	31	26	
Non-membership treatments	186	102	
Prescriptions, or med. disp'd	360	490	
<b>Classification of Ailments</b>			
Colds and influenza	182	242	
Tonsillitis	35	28	
Digestive disturbances	14	12

Pneumonia	2	9	
Typhoid	0	0	
Mumps	0	0	
Measles	0	0	
Scarlet fever	0	0	
Smallpox	0	0	
Chickenpox	0	0	
Other infections	0	5	
Accidents and injuries	73	59	
Nervous disturbances	15	4	
Undiagnosed	3	3	
Deaths	0	1	
Miscellaneous, (skin diseases, sprains, throat trouble, glands, tooth trouble, etc.)	75	56	

**COLD EPIDEMIC, GRID INJURIES FILL HOSPITAL**

Practically one-half of the campus is in the clutches of an epidemic of low-grade influenza, according to Mrs. Ethel Shurtliff, matron at the University hospital.

No really serious aces have been reported, she said, but numerous colds are being treated. In spite of this illness Miss Sissa, registrar, said she noticed no marked increase in the number of leaves of absences.

**Curbing, Sidewalks Installed at West Campus Entrances**

Contractors are completing the installation of paving, sidewalks, curbing, and gutter at the west entrances to the campus on North Virginia and East Ninth streets, near Lincoln Hall.

**Act of Legislature Authorizes Street Improvements For University**

The installation of the street improvements was authorized by an act of the legislature at its session last spring. The job consists of 4,000 square feet of sidewalk, 5,600 square feet of paving, and 300 linear feet of curbing and gutter.

**Invitation Comes for Clubs to Sing**

According to Prof. Post, this year promises to be an interesting one for the Glee Clubs. An invitation has been received from Virginia City requesting that the Glee Clubs give a concert there as soon as the necessary arrangements can be made.

**Dormitory Starts Singing Practice**

The men residing in Lincoln Hall are soon to burst into song, according to Fred Fader, mayor of the Lincoln Hall association.

**Board of Regents Approves Faculty Changes This Year**

**Prof. S. C. Feemster Is Given Leave of Absence to Complete Doctor Degree**

**Five Out of Seven New Faculty Members Former Nevada Students or Grads**

Meeting at a business session early this summer, the Board of Regents approved this year's faculty changes for the University of Nevada.

Scott Resigns  
Resignation of V. E. Scott, professor of dairying, was accepted. Professor Scott is now engaged as economist for the Nevada Agricultural Extension service.

Instructor in engineering, Arthur Gay, has tendered his resignation after a leave of absence in the east, where he is connected with the Gewart Manufacturing Company.

Miss Barbara Schmitt and Kelly Collonan were reelected fellows in English for another year.

Irving J. Sandorf was advanced in rank from instructor to assistant professor of electrical engineering.

Many Graduates  
Five out of the seven new members of the faculty are graduates or former students of the University of Nevada.

Colonel Robert M. Brambila has been appointed professor of military science and tactics to take the place of Colonel Standiford.

The new assistant chemist in the department of food and drugs is Kirby Stoddard.

While working for a master's degree, Walter E. Clark, Jr., is teaching one class in freshman English.

Miss Delphia M. Wood will be the new matron of Manzanita Hall and supervisor of the dining hall.

**HOMECOMING DESERT WOLF IS CHANGED**

Efforts are being made to have Robert E. Tally '99, President of the Mining Congress and Chairman of the United Verdi Mines, Jerome, Ariz., to come to Homecoming.

**Museum Receives First State Map Printed of Nevada**

**Boundaries Shown Changed to What is Shown on Map Of Nevada Now**

One of the first maps ever made of the state of Nevada was presented to the museum section of the Mackay School of Mines this week, according to Director John Fulton.

At the time the map was made the eastern boundary of Nevada was 110 degrees longitude, instead of 114 degrees as it is today.

The boundaries as shown are the ones that existed just before Nevada was taken into the union.

The state of California was responsible for the change in the western boundary line. Nevada at that time was just an unknown desert region, and California was able to get the boundary changed without any difficulty.

However, Nevada thought that the cut in territory was unfair and congress was petitioned for an adjustment. As a result, congress gave Nevada two more degrees on the east making the boundary line 114 degrees instead of 116 degrees longitude.

The map shows the old camel trails used in early days to carry the salt to Virginia City from the salt wells.

Another feature is that there is no Idaho territory and the state of Washington is shown east of Oregon.

Charles Eagan, the general manager of the Consolidated Virginia and Andes Co. Ltd., recently sent in a mining picture of the old Ophir Mill, together with a letter to Mr. Fulton explaining the picture.

The photograph shows the Patio process in operation as it was used in and around Virginia City. The ore was spread out over the ground. It was then mixed with copper sulphate, salt, and quick silver.

Lawrence Fuller, Nevada graduate in the class of 1927, and principal of the school at Gardnerville, was in Reno last week-end visiting friends and fraternity brothers at the Lambda Chi house.

**MARTIN VAN BUREN TURNER DIES AT HOME OF DAUGHTER**

The kindly, gray, weather-beaten face of one of the Campus' best known characters, will no longer be seen on the hill this year or in the years to come.

A native of Indiana, "Dad" was 38 years old, and for many years operated a ranch in Nebraska. For the past 20 years he had made his home in Reno and 12 of those years he spent in the employ of the University.

"Dad" Turner was the father of the late E. A. Turner, professor of oral English at the University. Professor Turner was also master of Lincoln Hall and he died there in 1923, following a severe heart attack.

Turner was well known to University students and always had a kind word and cheery "hello" for everyone. He will be remembered as the exuberant old gentleman who, on those cold winter mornings, always had the gymnasium in a glow of welcome warmth for P. E. students, and in early spring he could be seen setting out sprinklers or dabbling at shrubbery.

**Pep Organizations Lead Friday Rally**

Endeavoring to arouse student enthusiasm over the Nevada-Brigham Young game last Saturday, the Sagers and Sagens, pep organizations, sponsored a rally last Friday evening.

The procession, led by the Sagers and Sagens in a truck rented for the occasion, started from Manzanita Hall at 7:30 with a long following of cars. All traffic was suspended at the Virginia and Second street intersection while the students yelled and sang college songs.

The attendance at the rally was not as large as could be desired, according to Louise Castanega, a member of the Sagens, but considerable noise and enthusiasm was displayed by all who were present.

Harold D. "Speed" Vaughn, '30, is in Reno for a few days. At present he is with the B. & D. Quick Silver Mine.

### Western Nevada High School to Start Second Week

#### Reno and Stewart Favored to Win Western Honors This Season

Nevada inter-scholastic football goes into its second week tomorrow, with three conference games being played in the western section of the state. Reno and Stewart will play on Mackay field. Carson plays at Sparks, and Fallon will play in Yerington.

Coach Herb Foster's Reno eleven is making its usual strong bid for the western Nevada conference title. Last Saturday, in a non-conference game, the Red and Blue warriors showed what could be expected of them this season by battling the strong Fallon High school team to a 12-to-0 victory.

At Stewart last Saturday the veteran Indian team overcame a less experienced Sparks eleven by a score of 25 to 0. The railroaders were on the defensive most of the time, with the dusky pigskin toters hammering away at the line, and opening a bag full of deceptive plays which kept their opponents bewildered.

Stewart Scores Touchdown Andrews, flashy Indian halfback, was the outstanding ball totter of the game. In the third quarter a sensational 90 yard run by him scored the third touchdown for Stewart.

Lovelock scored a last minute win over Yerington last Saturday on the Lovelock gridiron. The two teams were deadlocked until the last few minutes of play, when a series of drives by Joe Oleata, halfback, put the pigskin across for the lone score of the game.

**Line-up Given**

The tentative line-up for the Reno-Stewart game is as follows:

Reno	Position	Stewart
Devencenzi		Sammariapa
Stoddard	R. E. L.	Williams
Gerow	R. T. L.	Horney
Toquero	R. G. L.	Stone
McQuigan	C.	Burns
Schoffield	L. G. R.	Little
Allard	L. E. R.	Whistle
Depaoli	L. T. R.	George
Ayers	Q.	Andrews
Castleman	R. H. L.	Parazoo
Robinson	R. H. L.	Christensen
	F.	

### Women Are Offenders of Rules in Library

The women of the University seem to be the chief offenders in the library if the list of dismissal for this week can be used as a standard of measure. Conditions in the library have improved somewhat this year, however. There are still a number of students who use the library as a social hall. This week's "Subject to Dismissal" list consists of Caryl Carman, Frances Cremer, Marjorie Cannon, Beth Cazier, Imogene Walker, Marthine Solares, Armina Fritz, Melba Wible, Stella Vucovich, Breton Donovan, Neva Clausen, Edna Jensen, Dorothy Nason and Helen Starke.

Lucille Sanford, who graduated from the University of Nevada, in 1929, is now teaching her second term at Fernley.

The Daily Kansan reports that 279 students have applied for part-time positions. Out of this number nine were placed.

### ALBERT MEMORY IS HONORED IN PAMPHLET

Honoring the memory of Dr. Henry Albert, formerly in charge of the University of Nevada state hygienic laboratory at Reno, who died at Des Moines, Iowa, in April, 1930, a pamphlet entitled "Prominent Men I Have Known—Dr. Henry Albert," by Dr. L. H. Pammel of the Iowa State College, is a recent addition to the University Library.

This pamphlet contains the life of Dr. Albert, who had long been connected with problems concerning public health in Iowa and Nevada, coming out to this state to serve as director of the hygienic laboratory. As a consequence he became interested in the study of hay fever, along with his numerous other duties of public health investigation. His article entitled "Hay Fever in Nevada" is included in the pamphlet.

### Science Club Will Start New Program

Members From All Departments to Speak at Meetings of Science Group

Meetings of the Faculty Science club will, from this time on, be of interest to the entire University faculty because of a new program inaugurated by S. G. Palmer, president of the club. The reports and talks at the meetings will not be confined to scientific subjects as formerly, and members of other departments will be called upon to report on new developments in their particular field.

Members of the science faculty felt that these outside subjects would be of more interest and insure larger attendance at the meetings, as well as keep the whole university faculty informed as to recent advances along various cultural lines aside from their own field.

Sutherland Speaks The first of the speakers of the new program was Professor Edward G. Sutherland of the economics department, speaking on the present economic depression at a meeting last week. Professors B. E. Spencer and Robert Stewart are preparing a paper to be given October 8. It will explain an experiment on which they have been working with soil phosphates.

The complete program for the year is rapidly being worked out, according to Palmer.

Art Brewster, '30, is employed in the management of the Standard oil company in Southern California.

Bob Merritt, who was a transfer at Nevada last year has gone to Cornell, where he will continue his medical course this year.

### Student Judges to Participate in Livestock Exhibit

#### Two Teams to Be Sent to Portland to Represent Nevada in Meet

#### Last Year's Team Won Several Honors in Cattle Judging

Six University of Nevada judges will participate in this year's Pacific International Livestock Exhibition to be held at Portland, Ore., in October. There will be two teams of three members each. One will judge dairy products and the other will judge general livestock.

Last year seven representatives from the University were present at the exhibition. Arnold Westlich, Arvin Boerlin, Attilio Genasoli, Fred Weeks and John Winters, accompanied by Marvin Humphrey as coach of the products judging team and Elwood Boerin as coach of the cattle judging team.

#### Nevada Wins Prizes

Though representatives from eight other states were present, the men from Nevada succeeded in winning an ample share of the prizes.

The cattle judging team came second in judging Ayreshires, third in judging Holsteins, and third in judging Guernseys. In individual placing Arnold Westlich placed first judging Guernseys and Fred Weeks third in judging Ayreshires and Jerseys. In judging all breeds, Westlich placed sixth and the team placed fourth.

Keith Lee attended the exhibition two years ago as a 4-H club member from Lincoln county and won first place in individual judging, competing with about fifty 4-H club members from other Western states.

Mary O'Neil, '30, is teaching in the McGill school for a second year.

George W. Lang, '30, is teaching in Las Vegas high school.

Duane Mack, '30, after completing one year in Stanford, is located in Minden.

### Stray Greeks Plan Social Activities, Sports, at Meeting

The University of Nevada's Stray Greek society, which was recently organized on the campus, held their second meeting of the semester last Monday night and plans for the rest of the year were thoroughly gone over. Basketball and volleyball were the two major sports discussed, and according to President Jack Smith interest was running high.

The social campaign for the "Greeks" was also outlined, and their first dance is to be held in the near future. Other social events were discussed, and many original ideas were presented by the members.

### Repairs Expected On Tennis Courts

Repairs on the University of Nevada tennis courts will be started in the near future providing that negotiations between the Associated Students and the Clark Henry Construction company are agreeable to both sides.

According to Bernard Hartung, graduate manager, the courts are badly in need of repairs, and because of this, many of the students are going elsewhere to play. Many of the students who play tennis are taking it for physical education credit, and it is necessary that the courts be repaired as soon as possible.

Dick Hillman, '30, is head of the music department in the Panaca school.

The University of Oklahoma has announced that students objecting to military drill on religious grounds will be exempt.

### Orientation Class Schedule Planned for Hard Schedule

#### Lectures Deal with Students in Relation to Campus Activities

Orientation speakers for the entire semester have been arranged for with a definite date set for each lecture, according to Dean Adams, vice-president of the University, and dean of the College of Arts and Science, who has charge of the course.

The topics will differ from those of last year and will deal with the orientation of the student to college life. The questions of fraternities, sororities and student conduct and social life will be discussed to some extent, Dean Adams says.

Textbook Changed The book, which has also been changed, is more segregated and more completely organized as to the orientation to school and its methods of study to the individual student.

The second half of the semester is to be devoted more to vocational guidance, the various departments of the University being explained more fully. Dr. Murgotten is the only additional speaker for this year. The rest have all addressed the Orientation class in the past.

### Debate Team Works for Hard Schedule

#### Preparations for this year's debate program are progressing slowly, states Bob Griffin, only tentative arrangements having been made up to the present time.

Griffin hopes to bring to Nevada the debate teams of Stanford, University of California, and the University of Southern California. Definite arrangements have been made to bring Fresno State College, although the exact date is not decided.

If finances permit, the women's team will be taken on a debate tour of the Northwestern universities. Special attempts will be made to arrange debates with the Universities of Oregon and Washington.

The debate questions this year will deal with social problems, avoiding heavy, technical subjects. At present the debate team is working the question: "Resolved that the tendency in the United States toward easy divorce constitutes a social menace."

A large number of experienced debaters are back this semester. Among them are Vernon Loveridge, Dudley Nix, Bruce Thompson, Keith Lee, Granville Fletcher, Kenneth Johnson, Dan Trevitt, Cliff De Vine, Bill Gilmartin, Pearl Romwall, and Emily Drake.
