

Frat Cinder Teams Battle Tomorrow On Mackay Oval

No Lettermen to be Allowed to Compete, as Eligibility List is Announced

Aspirants Have Been Training More than Two Weeks To Get in Condition

With track season at the University of Nevada now well started, the turf and cinder men will compete this Saturday in the annual inter-fraternity track and field meet to be held on Mackay field beginning at 2 p. m. tomorrow.

Considerable interest has been exhibited by the various fraternal groups in this annual competition, in which the rivalry always has been strong. Although the chief purpose of the meet is to give the members of the track team experience in competition to prepare them for inter-collegiate meets, this is not expected to detract from the fighting spirit of the men.

Some good times and distances were set by the men entered in the meet last week and with another week of training behind them, the aspirants are expected to fall into their mid-season stride in this battle.

Since letter men will not be allowed to compete in this meet, the races and field events are expected to bring some new material to the fore.

Only men who have been in training for at least two weeks or who have competed in the inter-class events, will be allowed to enter this contest, according to a report released yesterday by the athletic department. Dissatisfaction with the turnout at the meet last week was expressed by J. E. "Doc" Martie, head of the physical education department, and Coach "Brick" Mitchell.

A list of officials for the meet was released yesterday. They are Leslie Tomley, S. Ross, O. Bryan, C. Scranton, B. Hartung, W. Mitchell, J. E. Martie, Lieutenant Wilcox and Captain Johnson of the military training department, F. Oakburg, E. Perry, T. Ralford and W. Blackler.

The Sigma Phi Sigma fraternity has one outstanding man on the field this year in Harvey Hill, sprint star. However, the Sigma Phi and A. T. O.'s have the largest squads on the field, and may fight it out for the trophy which is being offered by the inter-fraternity council. S. A. E. is the dark horse.

Those entered in events are as follows:

- 100 yd. dash—H. Hill, Lukey, Holmes. 220 yd. dash—H. Hill, Lukey. 440 yd. dash—Blundell. 120 yd. hurdles—Guffrey, Johnson. Half mile—D. Hart, Seaborn. One mile—F. Leonard, P. Leonard, Lidell. Two mile—F. Leonard, P. Leonard. High jump—H. Hill, Boswell. Broad jump—Mills, Linehan, Johnson. Discus—C. Hart, Hanes, Stevens, Hooper, Cashill, Joseph. Shot put—Guffrey, Haynes, Griffin, Linehan. Javelin—Stowell.

Home Ec. Visitors Will Be Honored At Spring Festival

Visitors from throughout the various parts of Nevada who are competing in the state home economics contests here next week-end will be the guests at the annual spring festival April 23, it was announced by Miss Elsa Saethen, in charge of the festival.

General admission to the dances will be by invitations, which will be issued by the women participating in the event. There will be no charge and invitations are limited according to the seating capacity of the gymnasium.

One large rehearsal will be held on April 21 for the final performance and costume rehearsals will take place next week beginning Monday during the regular women's P. E. classes.

The Spring Festival this year will be of all elaborate lighting and scenery but will consist of many unique features, including the interpretations of the Mother Goose rymes, the travels of the Wonderland Flyer, and a Norwegian story written by Marithene Solares, '34.

During the past week, the members of the committee in charge of the costumes have been distributing the costumes and arranging the costumes for the various phases of the festival.

Honorary Major To Receive Saber Gift

Marian Stone, honorary major of the R. O. T. C. unit, will be presented with a miniature saber at the Scabbard and Blade dance Saturday night in recognition of her services to the military group.

Net Championship Won By Dave Clark

Gould Wins Interfraternity Cup; Loses to Clark 6-4, 6-5

Dave Clark is the best tennis player in the University of Nevada. Playing for the Independents, he won the inter-organization singles tournament Wednesday afternoon from Mike Gould in a desperately fought match. Gould, representing the A. T. O.'s, took the first set, 6-4, and ran the second set to match games, 6-5, when Clark rallied to take the next three games and the set, 8-6. Playing the same close, hard game, he took the deciding set, 6-3, and the match.

A. T. O. Win Cup The A. T. O.'s, however, will receive the inter-fraternity championship cup since Gould made the best record of any fraternity man.

In the semi-finals, Gould beat Gibson of Lincoln Hall, 6-2, 8-6, and Clark beat the Phi Sigs, 6-3, 6-2. All eight fraternities on the campus, Lincoln Hall and the Independents entered teams in the singles and the doubles tournament. Each team had two chances. If defeated in the upper bracket, it had another chance in the lower bracket.

The Independents, Clark and Frank Sam, appear to be the strongest in the doubles. They won their first match with the Sigma Phi Sigmans, 6-1, 6-0, took another match by default and face the Phi Sigs in the third round. So far, the Independents have not lost a match in either singles or doubles play and they bid fair to keep this record through the doubles tournament.

S. A. E. Strong The S. A. E.'s, John Chism and Victor Clyde, defeated the Beta Kappas, Dick Cooke and Angelo Granata, 6-1, 7-5, and the A. T. O.'s in a close match, 4-6, 8-6, 6-2, and will meet the winner of the Independent-Phi Sig match.

Either the Lambda Chis, S. A. E.'s or the A. T. O.'s are figured to win the inter-frat doubles championship here, with the strong Independent team second. The A. T. O.'s lost their match to the S. A. E. but easily beat the Delta Sigs in the lower bracket, 6-1, 6-3. The Lambda Chis, Russel Elliott, who was inter-frat singles champion last year, and Jack Williams, were beaten by the A. T. O.'s in the first round, 6-3, 6-3, but came back in the lower bracket, defeating the Beta Kappas, 6-4, 6-1, and Lincoln Hall, 6-3, 6-4, which places them ready to meet the winner of the S. A. E. match with the winner of the Independent-Phi Sig match.

Chapelle Speaks During Assembly On Pan-American

Pan-American Union Ideas Given by Head of Foreign Languages

That the Pan-American Union is the preventative medicine for international troubles was the keynote of a speech on "An American League of Nations" by Dr. Benjamin F. Chapelle of the University of Nevada in a celebration of Pan-American Day at an assembly in the Education auditorium this morning.

Dr. Chapelle stressed the necessity of good will among the students of the American universities and high schools as a step toward fostering a background of friendly relations. Pan-American Day as a distinct holiday was first inaugurated last year to celebrate the founding of the Pan-American Union on April 14, 1890, the Nevada professor stated. It has been declared a fixed holiday throughout the South American republic and in many states of this country.

Started Last Year Last year, week-long festivities marked the celebration in many southern universities, as well as in Mexico and other Latin American countries, according to one speaker; the assembly today is the first attempt to celebrate a day of this sort at the University of Nevada.

L. S. Rowe, director general of the Pan-American Union, sent greetings to the students of the University of Nevada through Dr. Chapelle. "In co-operating so effectively in the celebration of this significant day, you are contributing toward a closer understanding between the people of the United States and the nations of Latin America," Director General Rowe wrote.

"The future of our relations with the 20 growing nations to the south of us depends in a large measure on a clear appreciation by the students of our universities of the purposes, the ideals and the civilization of Latin America."

Director Rowe, colleague of Dr. Chapelle at the University of Pennsylvania, was instrumental in the development of the Pan-American Union and has by his understanding and diplomacy helped to foster the friendly relations which have existed between the United States and Latin American republics.

He has had wide experience with the economic problems of these countries, as well as having drawn up or helped to revise at some time or another the constitutions of practically all of these nations, Dr. Chapelle stated.

Professor Irving Sander of the university committee on assemblies and lectures, introduced the speaker. The women's glee club, under the direction of Professor Theodore H. Post, introduced the program with popular melodies.

Foresenic Tourney Most Successful In Recent Years

Reno High School Cops Play Contests; Sparks Second

The Nevada annual forensic tourney, which this year attracted more attention than any year before because of the improved rules allowing the smaller high schools of the state a greater opportunity to win, ended last Saturday night at the education auditorium of the university.

While no state champions were selected in any of the contests, Reno high school took more prizes than any other school, while Sparks was a close second. The awards were made by President Walter E. Clark of the University of Nevada at the conclusion of the finals in the one-act play contest between Sparks and Reno high schools Saturday night.

Reno captured first place in the one-act play division, which, next to the debate, is the principal prize of the entire tournament. The winning play was entitled "The Boy Comes Home," and was enacted by Gerrit Roelof, Helen Lewis, Mildred Murdoch, Ruth Lyons and James Arkell.

The Sparks team presented "Enter the Hero" and won second honors. The Sparks players were Albert Borghi, Marian Cross, Mary Tholl and Mary Casey. Both these schools were entered in the Class A division.

Panaca Wins Panaca high school was the victorious team in the Class B division, with the play "Pierrot and Pierrette." Agnes Cox, Mary Walters and Dan White represented Panaca.

The best actor of the state appeared in the play "The Message from Khufu" which won second place in the Class B division. He was Norman Romwall of the Pershing county high school. Other actors who won prizes were Dan White of Panaca, second, and James Arkell of Reno, third.

The prize for the most skillful actress was awarded to Vilma Gori of Wadsworth for her portrayal of the feminine role in the play "The Clod." Mary Casey and Agnes Cox of Panaca tied for second place.

Defeating Sparks in the finals of the Class A debates, Bruce Beckley and Calvin Corey of Las Vegas won the first honors. The Sparks team was composed of Robert Rice and Alita Day.

Orators Close The Class B debate contest was won by the Winnemucca orators, Jack St. Clair and Ernest Damon, with Wadsworth high school taking second. Harold Depaoli and Marjorie Howes represented the latter school.

The annual oration contest on the U. S. constitution drew considerable attention this year as it offered the greatest chance for a young orator to win glory for himself as well as a trip to Los Angeles where he would take part in the regional contests.

While the constitutional contest is not strictly a part of the forensic tourney, with the tournament since all the high school orators are gathered together at this time. This year's winner was Carl Dodge of Fallon. Don Brown of Reno took second place and Albert Borghi third.

Rhodes Wins Bryce Rhodes of Reno proved himself the best speaker at short notice in the state by running off with the honors in the extemporaneous speaking contest.

In this type of oratory, the speaker must prepare his speech in a short time after learning his subject. In this way, the orator is given a fine opportunity to test his powers of "thinking on his feet." Second and third places went to Mary Uhart of Carson and Leonard Wilson of Las Vegas.

The dramatic interpretations contest was won by Alice Sauer of Reno, with the selection "Sparkin'." Gloria Workman of Carson was second and Eva Mae Beemer of Sparks was third.

Scene three of the fourth act of "The Taming of the Shrew" was presented by Reno high school to such good effect that it was given first place in the Shakespearean scene contest. Sparks won second place.

Miles Will Head Honorary Society

Performance With Shrine Show To be Repeated Tomorrow

Having scored a success in its appearance with the Reno Shriners' minstrel show, presented in the Granada theater last Wednesday and Thursday evenings, the University of Nevada Men's Glee Club will repeat its appearance in assisting the Shriners in restaging the minstrel show in Fallon tomorrow night, April 16. This date will mark Fallon's first annual Shrine Day celebration.

The entire group will appear in the chorus of 60 voices. Fred La Marsna, as an end man, will render his black-face version of "Sleepy Time Down South."

Professor and Mrs. Post will sing a duet, "Only A Rose," beside singing solo numbers, "Beautiful Lady" and "Song O' My Heart," while Leona Clark will present a dance specialty number.

Final Appearance This will mark the final appearance of the Men's Glee Club before traveling to San Francisco to participate in the Associated Glee Clubs of America concert to be presented in the San Francisco Civic Auditorium on Saturday evening, April 23.

W. A. A. SUFFERS THIRD ROBBERY IN THREE WEEKS

The baseball season is on! So is the depression. The combined results of these situations may have been the cause for the third break into the quarters of the Women's Athletic Association a few days ago.

At any rate, 11 baseball gloves, a dozen baseballs, one catcher's mask, five bats and one pair of catcher's leg guards have been taken.

Whoever broke into the athletic goods was particular. He (or they) took nothing but baseball supplies. Mrs. Harry Simas, women's physical director, reported the loss to the police Tuesday afternoon. Two small boys were arrested by police officers several weeks ago and they admitted having broken into the place previously. Their case was turned over to the county probation officer.

While there is no indication that the robbery was committed by boys, there is a possibility that somewhere in the vicinity of Reno, someone may be having a "regular baseball game." Stolen equipment may or may not trouble his young conscience, but no doubt it works quite as well as it would if it had been paid for.

Glee Club To Sing At Coast Festival

Nevada Group Joins with Four Major Colleges on Coast

The men's glee club of the University of Nevada will join with four other Pacific coast colleges on April 23 in a "friendly festival" to be held at the Civic Auditorium in San Francisco.

This is a first attempt of California and Nevada colleges to form an association of glee clubs for this territory, under the auspices of the Associated Glee Clubs of America. Stanford, California, the University of San Francisco, the California Aggies and Nevada will be represented at this initial convention, which will not be competitive.

At present there are over 6,000 college men of the United States enrolled in the Associated Glee Clubs of America. Contests are held in each district and one winning member is sent to a national audition, which is held annually in Chicago.

During these national contests, phonograph records are made of the joint singing of contestants and Professor Theodore Post has a number of these in his department, some of them having been produced by as many as 2,500 voices.

Leave Next Week The Nevada men will leave Friday morning, April 23, on the 7:30 train. Rehearsal will be held Saturday morning and the audition Saturday afternoon.

Each glee club, which is not to consist of more than 30 members, will sing two songs. Two sea chanteys by Bartholomew, "Away to Rio" and "Eight Bells," will be Nevada's presentation. All clubs will then join in a chorus of five songs, the director from each college directing one. "Invictus," by Huhn will be lead by Professor Post. The other ensemble numbers are: "Prayer of Thanksgiving," Kremsler; "Friendship," Haesche; "Bells of St. Marys," Adam; "Winter Song," Bullard.

On Sunday, April 24, these five joint numbers will be broadcast over the National Broadcasting company's network by a chorus of approximately 200 voices.

The Nevada glee club is developing a fund to cover expenses for the trip by assisting the Shriners in a two-day show to be held at the Granada next week and will go to Fallon April 16 for this organization.

Fraternity houses near San Francisco probably will furnish accommodations for Nevada delegates, who expect to return Monday morning.

Men's Glee Club To Sing In Fallon

Performance With Shrine Show To be Repeated Tomorrow

Mildred Huber Named to Lead Club Activities for Coming Year

Mildred Huber was elected president of the Home Economics Club at the annual banquet and election held Wednesday night at the Agriculture building.

Other officers who were elected were Mildred Goble, vice president; Clara Beemer, secretary; Esthr Ronzone, treasurer; Katherine Wright, press agent; Jean Sauer, historian.

Mrs. Grace Foster and Dorothy Kaltenback, senior students, were chosen for membership to the Sigma Sigma local honorary sorority.

Tentative plans were made by the club to give a scholarship to a Home Economics major next year. The amount that the scholarship will be and the requirements for winning it have not yet been decided upon.

After the business meeting, the seniors presented their annual stunt. Margaret Walker gave a tap dance and Clara Beemer an impersonation.

Nevada Debaters Meet Two Teams, Lose One Contest

Industry, Politics Are Topics For Arguments of Orators

Debate teams at the University of Nevada engaged in two contests last week, one of which resulted in no decision between Nevada and the University of Southern California, and the second of which brought defeat to the Nevada debaters at the hands of a team from the College of the Pacific.

Last Thursday Keith Lee and Vincent Casey, members of Nevada's team, met the Southern California debaters in the auditorium of the Washington County Library building, debating the question: Resolved, that the Democratic Party should be returned to power in 1932.

The contest with the College of the Pacific was held in the auditorium of the Education building Friday afternoon at the University. Dan Trevitt and Granville Fletcher upheld the question: Resolved, that Congress should enact legislation for the centralized control of industry.

In his arguments for the affirmative of the political question, Keith Lee attacked the last three Republican administrations, and held them responsible for the present unemployment situation, the depression, and the stock market crash of 1929.

Vincent Casey, other Nevada debater, declared that President Hoover had not fulfilled his promises made before he took office. He blamed the protective tariff as a cause of the present depression.

However, Crawford, first speaker of Southern California's negative, declared that the Democrats have absolutely no constructive program to substitute for the one now in practice by the Republicans. During his defense, Crawford made clever humorous applications, and stated that the Democrats themselves control big business through their great financier, Jacob Raskob.

Jones, the second Southern Californian, gave as his opinion that President Hoover will be returned to office in 1932, and seemed satisfied that it should be so. He said that plans of the Democrats are useless, because under present conditions there is no help for the unemployed.

In their arguments for the centralized control of industry Friday afternoon, Fletcher and Trevitt gave a sound plan for the proposed basis of government ownership and seemed convinced that this plan presents to possibility of most effective relief of the present situation. Robert Wright and C. Wood, students from the College of the Pacific, showed themselves debaters of longer experience than Fletcher and Trevitt, although the decision was close.

A.S.U.N. Heads To Visit U.C.L.A.

Lee, Cantlon to Represent U. of Nevada at Student Prexy Meeting

The Pacific Student Presidents' Association will meet at Los Angeles as guests of U. C. L. A. during the middle part of May. Nevada will be represented by Past A. S. U. N. President Cantlon and Keith Lee, president-elect.

These men will go prepared to discuss various student body problems of both the large and small Pacific coast institutions.

Conferences Valuable These conferences are of considerable value to schools like Nevada because the student executives are enabled to obtain vital information on various problems that are apt to confront them.

Last year, Nevada was represented by Jack Walther, Ed Cantlon and Bernard Hartung, who made the trip to Tucson, Arizona. It was the contention of all three that the benefits derived from the conference were well worth the expense involved.

President Elected By Home Ec Group

Mildred Huber Named to Lead Club Activities for Coming Year

Mildred Huber was elected president of the Home Economics Club at the annual banquet and election held Wednesday night at the Agriculture building.

Other officers who were elected were Mildred Goble, vice president; Clara Beemer, secretary; Esthr Ronzone, treasurer; Katherine Wright, press agent; Jean Sauer, historian.

Mrs. Grace Foster and Dorothy Kaltenback, senior students, were chosen for membership to the Sigma Sigma local honorary sorority.

Tentative plans were made by the club to give a scholarship to a Home Economics major next year. The amount that the scholarship will be and the requirements for winning it have not yet been decided upon.

After the business meeting, the seniors presented their annual stunt. Margaret Walker gave a tap dance and Clara Beemer an impersonation.

Home Ec. Contest Starts Next Week

Thirteen Schools Represented In Annual Girls Meet

The eighth annual home economics contest, under the direction of Miss Bertha Aiken, state supervisor of home economics and university instructor, will be held on the campus from April 21 to 23.

Exhibits which will be on display in the agricultural building are under the supervision of Miss Doris Nesbit of Las Vegas and Miss Margaret Thompson of Wells, Nevada.

Miss Margaret Griffin of Sparks will have charge of the program. The following 13 schools will be represented: Carson, Douglas County, Yerington, Tonopah, Las Vegas, Overton, Bunkerville, Panaca, Wells, Battle Mountain, Sparks, Lovelock and Winnemucca.

One of the features of the program is a meal service contest. For this contest, each entrant will prepare and serve a luncheon. The price of the food, its preparation, the setting of the table and service will be factors considered in judging the winner.

Demonstration events will be held which will include most of the common household tasks. Exhibits of school, party and traveling outfits made by contestants will be on display.

Following is the program of contests: First year students: 1. Feature division—School outfit and meal service. 2. Judging division—Clothing judging; house and home and related art. 3. Demonstration—Health or first aid and related science.

Second year students: 1. Feature division—Special occasion costume and travel outfit. 2. Judging division—Clothing judging and related art. 3. Demonstrations—Home nursing and child care.

A banquet planned by Miss Lillian Brown of Gardnerville and Miss Mildred Bates of Yerington will formally close the event.

Clarence Mackay Thanks Students For Their Message

Sends Greetings, Appreciation For A.S.U.N. Telegram During Illness

That Clarence H. Mackay, University of Nevada benefactor, who has been seriously ill, is now well on the road to recovery was conveyed to the Associated Students in a recent dispatch from him at his home on 67 Broad street, New York city.

Edwin Cantlon, president of the Associated Students, sent the following message: "Mr. Clarence Hungerford Mackay, Esquire, 67 Broad street, New York city.

"The Associated Students of the University of Nevada extend their sincere wishes for a speedy recovery." (Signed) Edwin Cantlon, president.

A Postal telegram dated April 14, 1932, contained Mr. Mackay's reply: "Edwin Cantlon, President, Associated Students, University of Nevada, Reno, Nevada.

"Greatly appreciate the thoughtful message from the Associated Students, whose loyalty is never failing. Am well on the road to recovery. My hearty greetings to all of you and good luck." (Signed) Clarence H. Mackay.

R. O. T. C. Commander To Inspect Local Unit

Colonel Jerome Pillow, United States Army, will conduct an administration inspection of the University of Nevada R. O. T. C. unit Monday and Tuesday mornings, April 18 and 19.

As commanding R. O. T. C. officer of the Ninth Corps Area, Colonel Pillow will inspect government property and equipment issued to the Nevada unit.

This inspection is a forerunner of the general inspection to be held Wednesday, April 27, Colonel Brambilla, commanding officer of the Nevada unit, is anxious that a good showing be made in both of these inspections and has ordered extensive drill in preparation for the general inspection.

SPRING CONCERT REVIEWED BEFORE APPRECIATIVE GROUP

By FIFFE LIPPMAN

A large and very appreciative crowd attended the fifth annual spring concert of the university music organizations at the Century club Thursday night. The audience had the double pleasure of viewing a large art exhibit now on display in the club rooms, as well as the offerings of Professor Theodore H. Post, director of the university music department, and his glee clubs and orchestra.

The University-Community orchestra gave a splendid rendition of the well known Bizet suite, "L'Arlesienne," consisting of "Prelude, Minuetto, Adagio and Carillon." In the orchestra were 12 violins, two violas, three cellos, two flutes, clarinet, baritone saxophone, drums, two trombones, two trumpets, two French horns and piano.

The balance of the instruments is the best in the history of the organization. The orchestra also contributed two German dances and the "Adoration" by Borawski.

There were charming numbers by the men's and women's Glee clubs, the "Invictus" and "Swing Low" the latter with a solo by Dorothy B. Post, being outstanding of the women's numbers. The most interesting number was "The Last Lullaby" in music composed by Professor Post.

The Louise Zimmer ensemble, consisting of violins, cello and flute, was excellent, playing "Trees" by Rasbach and "La Ningana" by Bohm.

Senior Committee Completes Plans For Class Present

70 Students Sign Petition to Donate Remainder of Deposit

Fund Will Probably go Toward Buying Furniture for Student Union

Work of the senior memorial committee of the class of '32 at the University of Nevada has been concluded, according to Chairman Nick Basta, with the result that the petition drawn up by the class and signed by 70 senior students, who have agreed to donate the balance of their blanket deposits, has been turned over to President Walter E. Clark.

President Clark will present the petition to the Board of Regents, who will make provision for the appropriation of the funds through the comptroller's office.

\$400 Appropriated About four hundred dollars has been appropriated to the fund by the students contributing, and it is planned that this money shall be used to buy furnishings for the Student Union building, which is in process of rehabilitation for temporary use by the student body, and which was formerly the headquarters of the Nevada State Historical Society.

The purchase of the furniture for the Student Union building will be in the hands of a standing committee to be appointed by the class president, Robert Bankofer. Members of this committee are to be students who intend to reside in Reno for some time after their graduation from the University.

It has been a tradition at the University of Nevada for some years that the graduating class leave some memorial to the school.

The two members of this year's senior memorial committee are Nick Basta, chairman, and Josephine Bernard. They have been circulating the memorial petition among members of the class for about six weeks, which time, in the opinion of Basta, has been sufficient to obtain signatures of all those wishing to contribute.

Standards Of Bar Association Met In Legal Course

Leading Law Schools Prefer a Four Year Course of College Work

That the courses offered by the University of Nevada to pre-legal students meet the standards of the American Bar Association's committee on legal education and admissions to the bar is evidenced by a recent report to President Walter E. Clark.

The leading law schools prefer that their students shall have completed four years of college work before entrance. Some, however, admit students upon completion of three years of college work, in accordance with the standards set down by the American Bar association.

The University of Nevada will confer the degree of Bachelor of Arts upon any student of high rank who, after completing three years of approved work in this university, shall enter a law school of approved standing and shall complete worthily one year's work in such law school. This coincides with the requirements for admission to the bar as advocated by the American Bar association.

In 1921, no state required of candidates for admission to the bar more than a high school education; at the present time, there are 19 states where, either presently or prospectively, substantially all applicants for a lawyer's license must have at least two years of college education or its equivalent.

"The continued growth of the movement is assured and law students who do not have this qualification will find themselves in a decreasing minority as time goes on," the report stated.

SPRING CONCERT REVIEWED BEFORE APPRECIATIVE GROUP

By FIFFE LIPPMAN

A large and very appreciative crowd attended the fifth annual spring concert of the university music organizations at the Century club Thursday night. The audience had the double pleasure of viewing a large art exhibit now on display in the club rooms, as well as the offerings of Professor Theodore H. Post, director of the university music department, and his glee clubs and orchestra.

The University-Community orchestra gave a splendid rendition of the well known Bizet suite, "L'Arlesienne," consisting of "Prelude, Minuetto, Adagio and Carillon." In the orchestra were 12 violins, two violas, three cellos, two flutes, clarinet, baritone saxophone, drums, two trombones, two trumpets, two French horns and piano.

The balance of the instruments is the best in the history of the organization. The orchestra also contributed two German dances and the "Adoration" by Borawski.

There were charming numbers by the men's and women's Glee clubs, the "Invictus" and "Swing Low" the latter with a solo by Dorothy B. Post, being outstanding of the women's numbers. The most interesting number was "The Last Lullaby" in music composed by Professor Post.

The Louise Zimmer ensemble, consisting of violins, cello and flute, was excellent, playing "Trees" by Rasbach and "La Ningana" by Bohm.

As guest soloist, Ralph Freese, tenor, gave his many Reno admirers the pleasure of hearing

Lighting Apparatus Is Shown By Expert Before Engineers

If any of the university departments begin missing their lights, reflectors or other electric lighting accessories in the near future, they probably will find them over in the electrical building being tested.

L. G. Gianini, illuminating engineering expert of the General Electric company, was here Wednesday, showing the electrical department and students how to install the vast amount of illuminating engineering equipment that it recently acquired, and several of the students are getting anxious to experiment with it.

Light Quality Tested
Since the equipment is used to test both the efficiency of all types of lighting fixtures and the quality of light emitted by them, the students are beginning to cast long glances at the lights used by other departments.

Those used in the study hall of the library will be the first to be tested if several students, who expect their efficiency and light quality to be about nil, have their way.

In the evening Gianini gave a talk on illumination before the Nevada branch of the American Institute of Electrical Engineers, in which he stressed the great importance of proper electric lighting.

He said the time soon was coming when even the highways would be lighted in much the same manner that city streets are today, and that factories will be built absolutely windowless, illumination and ventilation being accomplished entirely by artificial means. Even now, there are several such factories in existence, he said.

Bill Daniels Hurt In Machine Wreck

While driving from Truckee last week, William Daniels, former University of Nevada student, smashed into a tree. He was taken to the St. Mary's hospital where x-rays are being taken to determine whether his skull has been fractured.

Daniels attended the University last year and is a Sigma Nu pledge. He is employed at the Lincoln garage and was driving a wrecking car and towing another machine when he hit the tree.

Pre-Medical Club Elects New Prexy

Officers for the ensuing year were elected by Omega Nu Iota, local pre-medical club, at a meeting Wednesday night. David Clark was elected president, Leo Nannini, vice president, and Marcelle Barclay, secretary-treasurer.

The club will stage a banquet some time this month and Dr. Records, research professor of veterinary science, gave a talk on "The History of Rabies in Nevada," following the meeting.

W.A.A. Executives Leave For Coast

Ruth Stewart, president of W.A.A., and Mary Trudelle, president-elect, left Thursday for the three-day athletic conference of American College Women, which is being held at the University of Southern California this week-end.

The main purpose of this far-western conference is to discuss the advisability of college women entering the Olympic games to be held in Los Angeles this July.

Civil Engineers Elect Officers

At a meeting of the Civil Engineer's society Wednesday evening, Walter Reid of Reno was elected president for the coming school year, John Smith was elected vice president, and William Squires was made secretary-treasurer. Installation of officers will take place next Thursday evening at a banquet to be given at El Cortez hotel.

EXCHANGES

The only freshman to escape hazing at the Detroit College of Law was John Eckler, 75 years old.

Lodi, the bear cub mascot of the University of California, will be sent to join his predecessor, Oski, at a ranch in California. It costs 75 cents a day to feed Lodi, and he is getting so big that the students are afraid to play with him.

President Juan E. Montero of Chile plans to resume his professorship at the University of Chile if his official duties will allow him to take the time.

A new "I Gotta Mop" fraternity has been established at Emory university. The membership is restricted to janitors on the campus.

Here is what the well dressed man will wear this spring—anything that he had a couple of years ago. (Style note from the Olio of Marietta college.)

At the University of Berlin, students choose their own professors. Six weeks are allowed before the official opening of the new semester, during which time students may study and analyze the various professors offering each course.

The university of the future will consist of a stadium for entertainment and a library where the students may go to satisfy their curiosity, says the Ottawa Campus. We wonder if it will be carried out in a modernistic effect.

Students at the University of North Carolina will participate in a national tournament for marble shooters. Oh, goody!

"Avoid falling in love as long as possible," was the message of the dean to the members of the freshman class at Syracuse.

Glee Club Travels To Carson City for Concert, Supper

Twenty-five members of the men's University Glee Club chartered a bus recently and traveled to Carson City to present a program before the Eastern Star organization of that city.

The performance was arranged by George Pettigrew, '29, former member of the University band, and was held in the Masonic hall.

Miss Mary Adeline Thompson played the accompaniments, and Mrs. Theodore Post favored the audience with a solo. Following an hour and a half of music the club were guests of the lodge at supper.

In addition to sufficient money to cover expenses for the trip, the men netted a little surplus which will go as an initial deposit in a fund to be accumulated for a trip to San Francisco.

Coffee Growing Showed By Club

The Chemistry Club showed four very interesting reels on "The Production of Coffee" on a recent night. The reels were obtained from the Hills Bros. Coffee company, and showed every step in coffee production from the planting of the seeds to the finished product ready for shipping.

The coffee is grown in the Central and South American countries and is then shipped to the United States for roasting and canning. All coffee, whether good or bad, reacts the same to chemical tests, and therefore the company employs nine "samplers"—men who do nothing else all day long but taste samples of the coffee.

Engineering Group Elects New Members

Nu Eta Epsilon honorary engineering fraternity, elected three men, Leroy Russel, Harry Dunseath and Erl Seaborn to membership during their last regular meeting.

Nu Eta Epsilon is a local honorary engineering fraternity established in 1923, and stands for "Nevada Honor Engineers."

Elections are held each semester. During the fall semester the upper eighth of the entire senior class in scholarship are elected, while during the spring semester the upper eighth of the junior engineers are elected.

A banquet will be held next week.

Nedillship Breaks Club Sprint Record

Ed Nedillship, ex-'34, recently broke the Long Beach Athletic Club 100 yard dash record, winning his race in the fast time of 9.8 seconds.

Nedillship was a member of the 1931 varsity track squad last season until taken down with a severe case of pneumonia. At that time, he gave evidence of becoming one of Nevada's premiere sprinters.

From word received in Los Angeles, he is expected to be back in school next semester. He is affiliated with Sigma Alpha Epsilon.

She prefers A PIPE (For you)

HER name is Ruth. She's a popular co-ed on a famous campus. Yes, she'll have a cigarette, thank you (and smoke it very prettily). But for you she likes a pipe.

That's one smoke that's still a man's smoke. (And that's why she likes to see YOU smoke a pipe.)

There's something companionable about a pipe. Friendly, cool, mellow... it clears your mind, puts a keen edge on your thinking.

And you sound the depths of true smoking satisfaction when you fill up its bowl with Edgeworth.

There, men, is a REAL smoke. Choice mellow burleys, cut especially for pipes—blended for the man who knows his fine tobaccos. It's cool, dry, satisfying—and you'll find it first in sales, first choice of smokers, in 42 out of 54 leading colleges.

We'd like nothing better than to drop in tonight and toss our own private tin across your study table. But since that can't be, just remember that you can get Edgeworth at your dealer's—or send for free sample if you wish. Address Larus & Bro. Co., 105 S. 22d St., Richmond, Va.

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive and exclusive eleven-step process. Buy Edgeworth anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes, 15¢ pocket package to \$1.50 pound humidior tin.

Nevada Graduate Tells Engineers Of Power Plants

Harvey Luce States Students Should Decide Early What Field They Want

Electrical engineering students obtained first hand information on the management of power companies, when Harvey Luce, electrical engineering student of the class of '28 addressed them.

"A student should decide early in his course what field of electrical engineering he is most interested in and then prepare himself for that field. He should not take any job that happens to come along, but should make every effort to get into his chosen field, if he is to enjoy his work," Luce advised them.

Mr. Luce chose to enter the light and power industry, and upon graduating, obtained a position with the Stone and Webster corporation through the local power company, and worked his way up in the business department.

Going into detail on the management of the power companies, he told how corporations were formed, of the various kinds of stocks issued to finance them, and how large development and improvement programs were financed and carried out.

He also stated that now there is a larger field in the business department than in any other, for the engineer, and that more and more of the important business positions are being filled by engineers because of their engineering experience they can manage the company more intelligently.

Two students at the University of Missouri were in active service in the United States Marine Corps before they entered college. Evidently the boys believe in duty, first to their country and then to their alma mater.

Jasper Captures Rare Water Fowl

Performing a feat heretofore unheard of, Lionel Jasper, erstwhile university naturalist, captured, single-handed, a live Western Grebe, a rare species of water fowl, early this week while roaming the wilds surrounding the state insane asylum.

While promenading the terrain in search of animal life, Jasper suddenly came face to face with the Grebe, and, after a terrific struggle, calmed it into submission, brought it to the campus, and deposited it in Manzanita Lake.

The fowl is quite happy in its new home, according to latest reports, and is thriving well on the numerous fish and other water denizens that abound in the waters of the lake.

Naturalist Jasper next week hopes to capture a muskrat which, he claims, eluded him on his last adventure in wild animal hunting.

Basta Rides In Car Which Makes Record

Nick E. Basta, '32, employe of the Nevada State Journal, was one of the official witnesses to ride in the car which made a demonstration of power and hill climbing ability, when it ascended the Geiger Grade in high gear.

Foreign Relations Club Is Organized

Dan Trevitt Elected President; Constitution Limits the Members to 30

Completing initial stages of organization, students who are forming an International Relations club met last Monday to elect officers, draw up a constitution and finish the preparatory work in order to carry out the designated project of study of international problems.

The organization was founded a number of years ago by the Carnegie Institute and now has 500 such clubs in various parts of the world, all of which are supplied with the newest and most authoritative books on international subjects by the Carnegie endowment for international peace.

The new officers who will take over the problem of getting into the hands of interested students current books and material on international subjects are Dan Trevitt, president; Mary Sourwine, vice president; Katherine McCormack, secretary; Frances Fuller, librarian; Dwight Levitt, assistant librarian; Vernon Lovridge, treasurer; M. J. Webster, adviser.

Among other provisions in the constitution which was drawn up and will be submitted to the executive committee for approval was the limitation of total membership to 30 and plans for meetings on the first and third Tuesday and Thursday of each month.

The highlight of last week's material sent by the Carnegie Foundation was a map of the Chinese war zone printed during the recent conflict, showing planned campaigns. It was sent here from the offices of the Hanchow Press.

Other books recently received, and available for use of members are: "Ten Years of World Cooperation," by Sir Eric Drummond; "Disarmament," by Salvador de Madriaga; "Humanity Uprooted," by Hindus; "Social Economic Planning the Union Soviet Social Republic," by Ossinsky.

Lower Class Fetes Sigma Phi House

Dinner Party Held When Frosh And Sophs Get Too Many Cinch Notices

The underclass members of the Sigma Phi Sigma fraternity entertained the upperclass group of their house with an Italian dinner at the Colombo hotel on a recent night as the result of a wager pertaining to cinches made between the two groups. The group section receiving the greater number of delinquent notices was obliged to treat the other group to a dinner.

The affair was attended by 35 members of the fraternity and honored guests. After a brief communication from the Mother's Club by the president, Mrs. W. E. Fuhrman, Pat Sanford, the president of the house, offered suggestions for further competition among the various groups in the fraternity.

Pledge President Tom Cashill introduced the alumni sponsor, Charles Carter, who presented a huge loving cup to be awarded to the fraternity when it has placed among the first three highest in the scholarship ranking among the fraternities at the University of Nevada. The cup is of graceful simplified modern design with a statuette of "Winged Victory" as the top-piece.

Tri Deltas Install Chapter At Utah

Mary Baird and Enid Harris returned last week from Salt Lake City where they assisted in the installation of the Theta Phi chapter of Delta Delta Delta at the University of Utah.

The new chapter was formerly Delta Epsilon, a local which was established in 1914 with the purpose of later becoming a chapter of Tri-Delta.

"I noticed particularly the friendly spirit existing on the campus among the fraternities," said Mary Baird. Every fraternity on the Utah campus sent flowers to the new national.

The Theta Phi chapter of Delta Delta Delta gave a banquet at the Hotel Utah Friday night and was later entertained by the Pi Phis at a tea.

Desert Wolf To Come Out April

The last issue of Nevada's comic magazine, the "Desert Wolf," will make its final appearance sometime during the latter part of April, according to an announcement made by Editor John Mariani.

Every effort is being made by those working on the book to make it the best one yet to be published and it gives promise of surpassing all previous issues. The cover design is unique, and the book is featuring a number of high lights.

Among the interesting features of this issue will be a two-page picture section devoted to the outstanding men of the campus, a feature story by Fred Wilson, one of the stories contributed in the short-story contest, and selected short subjects and humor.

Merriman Receives U. C. Fellowship

Robert Merriman, business administration major and present business manager of the Sagebrush, was awarded a teaching fellowship in economics at the University of California starting with the fall semester of 1932. Merriman was one of the four successful applicants to receive this teaching award and also will work for higher degrees in his academic field.

Formal Tea Given For Y.W.C.A. Head

Miss Annie Guthrie, continental secretary of the Young Women's Christian Association for South America, was a guest of honor at the formal tea given by the campus Y. W. C. A. cabinet at the home of Dr. and Mrs. S. K. Morrison in Elm Court. A musical program was given, including instrumental numbers by Miss Florence Diskin and Miss Mary A. Thompson, songs by Mr. L. Carter and entertainment by Miss Madge Evans. Miss Guthrie contributed to the afternoon's entertainment by telling of various interesting customs of the South American people.

The tea table was attractive with a centerpiece of yellow jonquils and green tapers. Mrs. S. K. Morrison, Mrs. F. W. Trauer and Mrs. R. L. Morris poured.

Old Arrangement Tells Of Departed Campus Professors

Many Changes Noted in Old Class Schedule in Morrill Hall; Some Are Here

Old names whose praises or condemnations have not rung through the corridors of their various departments for a good many years at Nevada will be recalled by those old college chums or students who encounter the old schedule board in Morrill Hall.

On this board are the names of the professors of long ago who worked, fretted and argued with the students to absorb some learning, even as they do now. Where these professors have gone, the average person does not know, although some of them are still here. Perhaps they have advanced to even higher education in other institutions, perhaps they gave their lives in service to Nevada university, but whatever they have done, their names are only so many cards left in an old schedule lay-out when that practice was discontinued.

The names of Maxwell Adams, H. P. Boardman, A. E. Hill, J. E. Church, Miss Katherine Lewers, R. M. Brambilla, and Peter Frandsen are still in the antedated rack, although the latter was then including psychology in his course of teaching.

Those who have dropped out of sight to be found only in old catalogues or in some cases, the Phi Kappa Phi roll are Romanze Adams, education instructor; Miss Berry, English teacher; Miss de Laguna, instructor in French; Gough, who held classes in drawing and mechanical engineering; Howe, math instructor; Mrs. Layton, the nature of whose instruction is not known and Dean Lewers who evidently taught law, and also held classes in stenography and typewriting.

Perhaps some new generation will find the names of present professors stuck around in some such dusty, forgotten corner, meaning no more than do the names of those who are now gone.

English Club Plans To Honor Founders At Formal Banquet

The annual Chi Delta Phi founders' day will be observed by the Nevada chapter on April 25 with a formal banquet. It was decided at a regular meeting of the fraternity held last Thursday night at the Pi Beta Phi house.

Last year the Riverside Hotel dining hall was engaged for the banquet, but as yet it is not known where the dinner will be held this year. A special meeting was held last night.

Journalism Class To Have Movies

Members of Professor A. L. Higginbotham's journalism classes have arranged for a three reel movie, "The Making of a Great Newspaper," to be shown as part of the class work. The film will be exhibited Wednesday night, May 4, at 7:30. Members of the staffs of student publications are being invited, as well as the student journalists.

All phases of newspaper work will be shown, from the assignment and gathering of the news, through the writing, editing, typesetting, stereotyping, printing and the final distribution and delivery of the paper.

PHYSICS DEPARTMENT FEATURES T. A. EDISON IN SHOWCASE EXHIBIT

Have you been wondering if we are going to get a storm in the near future? If so, consult the barograph in the hall exhibit in the Mackay Science building. This instrument, which is the feature of the current exhibit, is a recording barometer. Its purpose is to keep a permanent record of the atmospheric pressure during each twenty-four hours.

A storm is usually preceded by dropping atmospheric pressure. The barograph traces this decrease on the record sheet. When the line starts to slant downward, as it did during the last storm, it is usually a good indication that the weather in the vicinity will be disturbed.

When the pressure starts to rise, it may mean that the storm is almost over. A rise in the pressure is accompanied by a drop in the temperature, if it occurs in the winter time.

Featured also in the exhibit, which is arranged by Dr. S. W. Leifson of the physics department, is the experiment showing the "lead tree." The name is given to the beautifully fragile formation of tiny lead crystals which gather when the chemical, lead acetate, is broken up by passing an electric current through the solution.

Gravity is apparently defied in an experiment where a blue solution of copper sulphate, which is four times as heavy as water, moves up through a quantity of water placed over the solution.

Cosmopolitan Club Members Speak At Weekly Luncheon

Nelson, Lakhanpal, and Penido Give Views on World Problems

Amar Lakhanpal, Dwight Nelson and Lucas Penido, university students, were the main speakers at the weekly Kwanan Club luncheon held recently at the Golden hotel. They were introduced by Dr. C. W. Hicks who was in charge of the program.

Dwight Nelson, president of the Cosmopolitan Club, spoke first on the purposes of the Cosmopolitan Club, stressing the importance of having such an organization so that foreign students could feel a spirit of friendliness with the students on the campus.

Lucas Penido told of his coming to the United States and to the University of Nevada. He said he desired a liberal education and a broader outlook on world affairs. He also stated that he is strongly in favor of furthering world peace.

Amar Lakhanpal discussed the major problem facing India today—that of British imperialistic domination. He told how it was necessary for him to come to the United States for an education, for if he graduated from a British institution he would not be able to secure an engineering position when he returned to India.

Penido and Lakhanpal pointed out the advantages Nevada offered a small school to foreign students who had difficulty in mastering the English language.

Over 26 miles of adhesive tape was used to bind up Stanford university football players last year.

This process is called diffusion. A piece of apparatus highly useful in the scientific world is the Westphal electric balance. An experimenter can very quickly find the weight of a unit volume of a liquid accurately to one-tenth-thousandth of a gram with this instrument by balancing the beam when the diver is submerged in the liquid.

Almost everyone thinks that 1500 volts is a lot of electricity, but a voltmeter shows conclusively that there are 1500 volts on the end of a hard rubber rod forming part of the exhibit. Yet Dr. Leifson declares that only a slight tingling sensation will be experienced if the rod is touched. This charge was induced by rubbing the rod vigorously with a piece of flannel. Yet so high is the potential that electricity is continually leaking off into the air.

Replicas of the first incandescent electric lamp are still a part of the exhibit. These are arranged in connection with the celebration of the invention of the lamp by Edison. Different stages of the development and manufacture of the lamp are depicted.

SOCIETY

Sigma Phi Sigma Mothers Entertain

The Sigma Phi Sigma fraternity mothers' club entertained nearly 150 guests at a card party Tuesday night at the fraternity house.

The affair was given to raise funds for the house scholarship which is presented to a deserving member of the fraternity each semester by the mothers' club.

The house was decorated with a profusion of spring flowers and special lighting effects were used to produce a singular impression throughout the rooms. Refreshments were served to the guests, all being the efforts of the mothers. During the evening, the members of the fraternity sang various school and fraternity songs as entertainment.

Phi Sigs Hold Spring Formal

The Phi Sigma Kappa fraternity entertained with its spring formal dinner-dance at the Century Club Friday night and it was one of the most delightful social affairs of the week. The honored guests were Dr. and Mrs. Walter Clark, Professor and Mrs. R. C. Thompson, Miss Blanche Wycoff and Chester Scranton. Those attending were Misses Ada Morrill, Frances Fuller, Teddie Webb, Frances Smith, Berry McAnally, Dorothy Phillips, Eileen Martin, Caryl Carman, Cathryn Slavin, Letty Bowman, Florence Kirkley, Elna Jensen, Nadine Fisher, Terry Glennon, Donna Wilson, Marie

McDermott, Mary Murphy, Louyne Anderson, Bobbie Hamlin, Adelaide Shogren, Kathryn Farr, Enid Harris, Leone Clarks, Mary Baird, Margaret Watkins, Ann O'Neil, Caroline Hunt, Mable Flournoy, Patricia Harrison, Elaine Hunter, Edith McLaughlin, Jean McIntyre, Betty Seeds, Dagmar Janelle, Beatrice Patterson, Gladys Morris, Josephine Knowles; Messrs. Harris, Kenneth Reese, Henry Rampoldi, Harold West, Edward Ryan, Oliver Seymour, Gomer Reese, Gordon Robertson, Irvin Ayer, Kerby Stockard, Jack Smith, Al Randolph, Walter Mitchell, John Winters, John Griffin, Pat Sanford, Lee Priest, Elmer Parry, Ernest Panelli, Delbert Ray, Joe McDonnell, Edward Brewer and Mr. and Mrs. Harry J. Frost.

Delta Sig Mothers Have Banquet

Delta Sigma Lambda entertained the Mothers' Club at the house Sunday, April 10. The mothers present at the annual banquet were Mrs. F. Vonsild, Mrs. C. J. Russell, Mrs. A. P. Nelson, Mrs. C. K. Bath, Mrs. H. M. Senseney, Mrs. F. Menante, Mrs. R. C. Majors, Mrs. E. Sundeen, Mrs. J. Wainwright, Mrs. T. Douglas, Mrs. B. Shogren, Mrs. H. C. Madsen, Mrs. W. G. Kline and guest, Miss Kate Reigelhuth.

Alpha Delta Theta Members Entertained

Members of Alpha Delta Theta were entertained Thursday evening by Miss Juana Barber and Helen Records at the Barber home. Backgammon, mah jong and other games were played, and a Mexican supper was enjoyed by those attending, who were Misses Ruth Sauer, Lois Barber, Leonora Gardella, Verna Selmer, Blanche Radcliffe, Mary Nay, Alice Parman, Isabel Baker, Edna Ericson, Martha Huber, Clara Beemer.

Senior Ball

With but \$25 left in the junior class treasury the prospects for a Senior Ball are very bleak. At a recent meeting of the class of '33 it was decided to do away with the ball for this year due to financial difficulties.

There seems to be but one way to promote the money necessary for the proposed upper-class annual formal. That is by having the Finance Control committee advance the necessary money to put on this dance slated for the last week-end of the present spring semester.

The Senior Ball committee could secure the ample funds, possibly by getting a loan for the class from the Finance Control, putting up as security a note on its class dues to be collected out of the \$10 student body fees for each semester of the 1932-33 school year. With at least 110 members of this present junior class returning next year and 50c being collected each semester from each class member will bring at least \$110 into the treasury from which to pay back Finance Control for the loan to promote the traditional function.

Something must be done about this matter right away for there are but three weeks of school left and plans must be formulated by the committee in charge. If this proposal is heeded then it is up to the Junior class as a whole to get behind the movement and exert the influence necessary to convince Finance Control of the feasibility of this plan by which the class of '33 may redeem itself and give the class of '32 that which it so much deserves, the best formal function of the 1931-32 school year.—K. F. J.

"Giggling Galleries"

"Red Appling" is gradually increasing to a hectic climax now that there are so few weeks of the University term remaining. But more prominent than the discreet afterclass chats with the professor, are the hilarious pitch to which the feminine "giggling galleries" are aspiring, being those who have advantageous seas in the classroom to laugh at the mild jokes which professors are fond of telling.

At the beginning of the semester, those women apparently think, whether one laughs particularly uproariously or not, makes little difference. But it is the last impression which counts, according to their attitude, for now their carefully cultivated giggles burst forth at the psychological moment, last for some length of time, and generally flatter instructors by their evident appreciation of his humor.

Spirit Shown

Just where, may we ask, was all of the school spirit that was supposed to be exhibited at this university when Coach "Brick" Mitchell was engaged, while the annual inter-class track meet was taking place last week? Certainly there was very little of it displayed at the meet. There were only two or three men entered in most of the events. A small handful of spectators, most of them townspeople, witnessed the meet. A perfectly good day was wasted on the most depressing track competition that this university has ever staged.

Despite the fact that interest in track is higher in the United States at the present time than ever before, the University of Nevada student body has shown itself to be practically devoid of spirit. So also have the men who have been our track for physical education and did not enter the meet. This situation is only the climax of an early practice season that has shown the students of this university to have little or no interest in upholding the name of this college in inter-collegiate athletics. During the entire practice season, fewer men than were expected that have been training have only been doing have been in evidence and many of the men their work half-heartedly. There have been fewer students at the practice sessions than an average high school has.

The attitude that this situation exhibits toward our new coach, "Brick" Mitchell, is discouraging. After having pledged him the full support of the students, we have disappointed him shamefully. He found last Saturday that there was practically no response to his call for students to enter competition. He was faced by the hardest problems that any coach has to face, an indifferent student body. This is exactly contrary to the seemingly whole-hearted promises of cooperation given him following his speech at the Mackay Day luncheon.

We feel that it is a decided breach of faith by the students of this University to fail to fulfill any of its promises to its new coach

and to the unspoken pledge of every college man to back his university.

It has been announced by the athletic department that any student who failed to enter the meet last week without having a proper excuse for being absent, who has been in training will not be allowed to compete in the inter-fraternity meet tomorrow. The necessity for doing this makes us wonder if this university has more fraternity spirit than school spirit. If fraternities get more men for them than for their classes, it shows that there is something radically wrong with the ethical code of our student body and it is time that this defect be corrected.

Although students who did not appear at the interclass meet have made a mistake and have shown themselves to be devoid of spirit, they can change matters some by backing the inter-fraternity meet as never before and making it a success. If this spirit is started now and kept up for the remainder of the semester, we will change our opinion of the spirit of the students of this university.

Nevada Prep Stars

News of the past week carried accounts of the feats of former Nevada high school athletes who are now competing both in track and in spring football for rival Pacific Coast colleges.

Two former Winnemucca high school boys have gained prominence in track meets held last week in the Bay area and one Virginia City boy has been spoken of as being one of the most outstanding ends in Coast spring football practice.

Watts, ex-'34, and Hinch, ex-'33, are former students at the University of Nevada, and Branting was a Nevada prep star in both football and track. These men are now competing for Bay region colleges and are in direct competition with their former alma mater. All three of these boys were reared in this state and rightfully belong here instead of in California.

These three specific examples are not exceptions to the general rule, but are part of a program that has been in force during the past few years—the drawing of Nevada athletes out of the state to schools of higher learning that are in competition with Nevada. Other instances may be sighted such as Beckett, California's all-American football guard from Las Vegas; Tony Jurich of U.S.C. from Ely, and Davis, football captain of the University of Utah in 1930 from Panaca.

Summing up the entire situation, we here at Nevada must encourage all graduates of Nevada high school to come to our state university, for herein lies the salvation of Nevada's athletic glory.

With Coach "Brick" Mitchell at the helm in both track and football we may look forward to bigger years and this only can be made possible by keeping our Nevada prep school stars at home.

Mitchell will soon be making an extended trip throughout the entire state, talking with the present crop of high school seniors, as well as the entire Nevada high school student population. If he is given the desired support here at home, together with his own ideas and views to be presented to these students, then results may be expected that will prove themselves well worth the time and effort used in putting this system of keeping our prep athletes at home in force for all time.—K. F. J.

Wolf Howls

EDITOR OF WOLF HOWLS
Reno, Nevada,

Dear Editor:
From all appearances, traditions of our campus are becoming "has beens." One by one they have been dropped by the wayside by thoughtless students who have failed to realize the true significance and beauty of a tradition.

At present we are in danger of losing another tradition. And what is worse—student body officials, those who are most expected to lead in tradition observance, and the foremost offenders of the violation to which I am objecting.

I am referring to the giving and wearing of corsages at campus formal. It was rightfully decreed several semesters ago, that corsages should not be given nor worn at formal social functions.

Why, then, should those gentlemen who can afford to adorn their "dates" with costly posies, repeatedly humiliate those fellow students who cannot afford to do so? True, there are a few men on the hill who, though they could readily afford formal luxuries, are decent enough to abide by a given tradition and think of the other fellow, but there are still several men who might profit by a bit of loyal observance.

Yours for corsageless formals this spring. —E. S. M.

In The Know?

A cold, hard year is predicted next winter for publications on the campus with the possibility that they may be forced to house their offices in tents, pitched on the quad or some other suitable spot on the campus, due to the edict by President Clark that the old Historical building or new Student Union Building, one may prefer to call it, must be closed at 7:00 p. m., thus making it impossible for Nevada's journalists to occupy the structure under such conditions.

The invitation to use the dilapidated frame structure adjoining the Student Union building was refused by the publication board at a recent meeting since the blasts of wind that frequently blow through the house did not exactly appeal to their fancy. However, it might be considerably more comfortable than a tent.

It will be impossible to place the offices in the chemistry building where they reside at present since it is the intent of the administration to use the edifice for classes next semester. The A. S. U. N. officers are a little more fortunate in that their business does not confine them after seven o'clock and so next year will find them housed in the brick structure just below the campus.

Announcements

The March 11, March 25 and April 1 editions of the Sagebrush are missing from the files of the campus journalism department. The donation of these copies by some kind soul who has them in his possession will be greatly appreciated by Professor Higginbotham.

Y. W. C. A. invites the students to attend the annual Kamp Karnival in which they are taking part, at the Odd Fellows' Hall Saturday night. Dancing, entertainment will be provided.

A. W. S. Members are invited to attend the Y. W. C. A. Assiomer supper party in the "Y" room at Artemesia Hall Wednesday night at 8:15. Entertainment. Admission 25 cents.

SOCIAL CALENDAR
April 15th—Friday: Kappa Alpha Theta Formal; Pi Beta Phi Formal; Beta Kappa Formal.
April 16th—Saturday: Sigma Phi Sigma dance.
April 22nd—Friday: Gamma Phi Beta Formal; Lambda Chi Alpha Formal.

April 29th—Friday: Sigma Nu Formal; Delta Delta Delta.
April 30th—Saturday: Sigma Alpha Epsilon Formal.
May 2nd to 7th—Senior Week.
May 7th—Saturday: Phi Kappa Phi Banquet.
12 noon—End of the semester.
May 8th—Sunday: Baccalaureate.
May 9th—Commencement Day.

Margaret E. Mack Will Resume Work Following Injuries

Margaret E. Mack, dean of women at the University of Nevada, will resume her work April 25, according to reports from St. Mary's hospital, where she has been under treatment for back injuries during the past two weeks. Miss Mack has not been able to meet her classes since April 2 when she fell from the steps of Morrill Hall, which accident resulted in displacement of vertebrae that has necessitated a plaster cast for readjustment. Miss Mack has been allowed to receive company this week and her condition is reported as improved.

Delta Sigs Elect New House Officers

Delta Sigma Lambda fraternity held elections last Monday night for new officers of the fraternity for the coming semester. The new officers of the house for next year will be: J. D. Leavitt, President; L. J. Russell, Vice-President; G. A. Rice, Secretary; I. H. Christensen, Auditor; P. P. Small Jr., House Manager.

Anything that's O'right

Now comes the 'big scoop' of the very exclusive club that has long existed on University avenue but which, up until now, has been protected from the press. It is called the 21219 Club and is sponsored jointly by Caroline Hunt and Jerry Harbert, with the officers as follows: President, Oscar Bryan; Vice President, Fred Wilson; Secretary, George Adamson, and General Handiman, Kelly Colman. Members include Stanley Leigh, Wilbur Hanibal, Fred DeLongchamps, "Swede" Anderson, John Fulmis, Jerry Poncia, Joe Jackson, Fumy Dixon, Jimmie James, Gawk Horsemyer and Gene Salet. Members for next year had not been elected when this went to press.

The wounds caused by Cupids' bow seem to have healed very quickly for both in the Martin-Trevitt and Smith-Smith split-up. It looks as if all parties concerned would just as soon go around the way they are, although Tank has been seen with the old love more or less the past week.

Came the spring—John Griffin and Elaine Hunter picking wild flowers. Also, Howy Umber and Faye Lewis. For in the spring a young man's fancy—etc., etc.

When Crumleys' away, Gastanega will play. "Not so," says Newt. And so hangs his pin on her, just to make sure of the fact just before taking off to unknown spaces. Sometimes it works and sometimes—ho-hum!!

A couple of the 21219 boys from the Sigma Phi house have been seen frequenting the bower of a well known matron on Cheney street. And Fulmis wasn't one of them. (WELL, what of it!)

WHAT—Makes Stew Mayfield so nervous when anyone says "Come soon" when he is around?—Causes Handley to use stiff fronted tux shirts as a sleeping garment?—Does Coffin and Keys really do and what do they use as a basis for selecting them?—Is the secret of the success of Freddy Weeks with women; also, Poncia and Dixon?

John Harlan, who graduated with the Christmas class, is now working for his father in his law office in San Francisco. He is affiliated with Lambda Chi Alpha fraternity.

New members of the BIRD CLUB—John Brooks, Doc Myles, John Winters.

George Adamson, whose capers have upset the school for the past four years, now enters the teaching profession by accepting a job at Elko. What the famed former love champion will do with his charges only time will tell, but—

From all appearances, the Kislings-Bury-Betty ("Bangs") Howell love affair has gone by the boards. It seems that the Theta's "Little Egypt" insisted on dancing with every member of the stag line at the De Molay "rat-dance" last Friday night, whereupon the lanky Californian walked out in disgust, leaving his little playmate much alone and quite burnt.

Virg Adamson and Lover Wilson sure took it in the neck over the last week-end. Baird gave Wilson the gate to go to the ATO formal, but what Wilson did that night himself was nothing slow. Now comes the pay-off—Geraldine Harbert bet her roomy that she could get Adamson to take her to the ATO formal, and by the looks of things, she won. Yeah! but at what a price! According to rumor, what happened afterwards was nobodies business. She acted like a spoiled child, and if dear old Virg hadn't had his reputation of a gentleman to keep up, he would have taken her over his knees and given her a good, old-fashioned spanking. But there's an old saying about more fish in the sea—

One of the prize excuses offered to Coach Mitchell for not participating in the recent inter-class meet was o-

Next Frosh "Bible" Will Be Smaller

That next year's frosh "bible" will be smaller than those of previous years was the announcement made by Kenneth Johnson, chairman of the bible committee, after a meeting held last Monday afternoon. In essence, the "bible" will be no different than that of last year, except that all material included in the university catalogue will be omitted. Plans were formulated by which the expense of putting out the book will be greatly decreased and these will be submitted at the next current meeting of finance control for approval, Johnson said. The handbook committee consists of Kenneth Johnson, chairman; Myra Sauer, Charles Koerner and Merle Atcheson.

PHI SIGS HOLD ELECTIONS

Ray Hackett of Reno will take over the duties of house president for the Nevada chapter of Phi Sigma Kappa for the next school year as the result of elections held last Monday night. Red Ayers was elected president; Harold West, secretary, and Granville Fletcher, treasurer, while the remaining offices of the house will be filled by the men who held them last year.

EXCHANGES

A special telephone service between the men's and women's dormitories has been installed at Antioch college to promote more intimate social contact. The University of Washington officials announced their disapproval when a campus organization offered a prize to the man who appeared at a dance in the dirtiest of cords.

When the students of the University of Wyoming went on a strike last December, school officials placed a ban on all social events. This ban was lifted recently.

The only women who are eligible to pledge sororities at Occidental college are juniors and seniors.

ferred by one prominent underclassman who meekly told Mitchell that he had to spend his time Saturday afternoon getting ready for his fraternal formal that evening. Such hardy track men cannot afford to let down on their social position.

"Hello, Hawaii"

Bringing Hawaii within speaking distance of the United States is one of the latest achievements of the Bell System in its program of telephone service extension.

Five years ago the United States had telephone connection only with Canada, Cuba, and the Mexican border. Since then, Bell engineers have so developed radio telephony that handling calls to Europe, South America,

Australia, Bermuda, Samoa, and Hawaii is daily routine. Today more than 31,000,000 telephones can be reached—approximately 92% of all the telephones in the world!

Making the telephone practically worldwide in reach promotes understanding between nations. It has far reaching effects commercially and politically. That's what puts the thrill into such Bell System pioneering.

Nevada Varsity Cinder Team To Meet S. F. U. Soon

Dons Have Had Several Meets This Season and Should Be in Fine Form

First Opposition of Season to Be Met on Mackay Grid Next Week

By KEITH LEE

One week from tomorrow, the Nevada varsity track team will face the strong cinder artist team from the University of San Francisco in the first intercollegiate competition for the Wolf Pack men.

The meet, to be held on Mackay field, will find a green, inexperienced team flanked by four veterans, Bledsoe, Salsbury, Wilson and Scott, carrying the hopes of Nevada against an experienced and well-conditioned Don team which is coached by Charley Hunter of the Olympic club.

The Dons have already been in several meets this year and will be in first class condition for their invasion. On the other hand, the Nevada men, besides lacking experience, have been materially handicapped by poor weather conditions and undoubtedly will be forced to perform sensationally to stop the Dons from scoring an overwhelming victory.

As yet, no one has been uncovered to do the pole vaulting and hurdling for the Nevada team. Roy Bonkifier, however, is a potential candidate for both these events. He won the pole vault at 10 feet and stepped a 7/120 yard distance in the low hurdles in 17 flat last week to give promise of developing into a first class hurdler.

Salsbury Makes Good Time
Salsbury, in the mile and half-mile, has turned in good times for these events and will be favored to take first place in at least the half-mile. Seaborn and Seibold also will be available for these two events.

Harvey Hill and Dale Hart, in the sprints, are both new men who will be expected to come through with good times in these events. Neil Scott, last year's captain, also will be used in the 220 yard furlong as well as in the quarter mile. Wilson, in the quarter, should run next to Scott and will be counted on for points.

Bledsoe will be entered in the high jump, javelin and discus. His best event seems to be the high jump, in which he is expected to get over the bar at six feet. Harvey Hill and Boswell also will be used in the high jump.

Haynes To Toss Shot
In the shot, Haynes appears to be the best man Nevada has had for several years, but with Bob Kleckner putting the shot out over 49 feet, Haynes will be forced to content himself with second place. Kleckner scored over 49 feet in this event against Stanford last week and was forced to take third place.

Another weakness appears for Nevada in the discus. Hooper has shown the best form to date, but his best heave is around 120 feet, which is not good enough for first place.

Strong Relay Team
The feature race of the afternoon should result when Hill, Scott, Hart and Wilson step out for the mile relay. This quartet should give S. F. U. men plenty of racing before the oval is rounded for the fourth time and they may be expected to hang up a new Nevada record.

Nevada Boys Green
The coming meet will be the first test of the season and the outlook is none too promising. Coach Mitchell is faced with the problem of converting a green team into shape for a meet with the S. F. U. team that has shown promise of being one of the best teams on the coast. And with the loss of Wals, Lefebvre, O'Bryan, O'Hara, Brewster and others from last year's squad of point getters, it is going to be a hard meet for the Nevada men.

Tennis Teams To Be Chosen Next Week

The varsity tennis squad will be chosen as soon as the inter-fraternity tournament is completed this week. Preparations for the comin meet with the University of San Francisco Dons will then get under way. "Chet" Scranton, tennis coach, announced.

"Because of the slowness of the fraternities in running off the tournament, we haven't been able to pick men for singles and doubles," Scranton said. "As soon as the tournament is finished, the doubles teams will be picked from the teams which have been competing."

Scranton plans to pick his singles players and have them play an elimination tournament to determine the rank of each player. Those having the highest ranks will play in the meet.

"We have been handicapped in getting tennis started this semester by the weather," the coach declared. "The windstorms of last month prevented practice and kept us from getting a good start."

Nevada tennis players meet U. S. F. net Saturday in Reno at the time the track team competes with the Dons. It is not known how many men the visitors will bring with them. Nevada probably will send a team to the conference meet in May.

On S. F. U. Grid Team

Charles Hinch, ex-'33, former all-state basketball ace from Virginia City, was listed on the San Francisco University first string football team in recent spring practices. Hinch is expected to become one of the outstanding ends on the coast next season.

He is one of the three Virginia City high school boys who stared on the S. F. U. frosh basketball and football teams last season.

Senior Cinder Artists Swamp Lower Classes

Fair Showing Made by Men on Mackay Field Last Saturday

Johnson Wins High Point Score Taking a First, a Third And Two Seconds

Surprises and upsets were the keynote of last week's University of Nevada inter-class track and field meet last Saturday. The Senior turf men set good times and distances in nearly every event, to kick the dope pot off Mackay field and score a winning total of 62 points.

Little or no warning of the clean sweep scored by the class of '32 was given before the meet. According to all available dope, the freshmen were expected to take winning honors by a wide margin. They finished second with a total of 38½ points. The juniors were third with an 18 point tally, while the sophomores finished last, scoring 11½ points.

Seasoned by their four years of experience, the seniors, although comparatively few in number, entered all events and took first and second places in most of them. They took first places in the mile, the 440, the 220 low hurdles, the relay, the javelin toss, the pole vault, the high jump and the broad jump. This is the first season that letter men have been allowed to compete in the meet.

Harvey (Hill), sensational freshman sprint star, took the 100 yard dash in 11 seconds flat, but was beaten out in the 220 by Neil Scott, senior, who covered the ground in 22 seconds.

Johnson, a rangy, blond trackster, was high point man of the meet, taking second place in the mile and the high and low hurdles and scoring a first place in the broad jump and a third in the javelin throw.

Salsbury Shows Form
Roy Salsbury, one of the smoothest running members of the team, made the surprising early season time of 5 minutes 1 4-10 seconds in the mile and 2 minutes 6 1-10 seconds in the 880.

Mile—Salsbury first, Johnson second, time, 5 minutes 1 4-10 seconds.
100 yard dash—H. Hill first, Scott second, Lukey third, time, 11 seconds.
440 yard dash—Wilson first, Blundell second, time, 54 1-10 seconds.

High hurdles—Guffrey first, Johnson second, time, 10 1-10 second.
Two mile run—F. Leonard first, Hart second, Seaborn third, time, 11 minutes 52 seconds.

880 yard dash—Salsbury first, Hart second, Seaborn third, time, 2 minutes 6 1-10 seconds.
220 yard dash—Scott first, Hill second, Lukey third, time 22 seconds.

Low hurdles—Bankofer first, Johnson second, Lukey third, time, 17 seconds.
Relay: Seniors — Blundell, Wilson, Bankofer and Scott first; freshmen—Lukey, Mills, Hart and Hill second, time, 1 minute 36 seconds.

Javelin—Bledsoe first, Hart second, Johnson third, distance, 151 feet 6 inches.
Pole vault—Bankofer first, Caldwell second, Kottke third, height, 10 feet.

Shot put—Haynes first, Linehan second, Schilling third, distance, 39 feet 8½ inches.
Height jump—Bledsoe first, Hill second, Boswell and Kottke third, height, 5 feet 7 inches.

Discus—Hooper first, Hart second, Bledsoe third, distance, 117 feet 7½ inches.

Former Nevada High School Athletes Star To Aid Mitchell

Two former Nevada high school athletes who have distinguished themselves at other schools according to latest reports received by friends at the University of Nevada are Fred Waltz and Harry Branting.

Fred Waltz of Winnemucca, former student on this campus, running for the Olympic club of San Francisco, stepped off a 440 yard run in the record time of 48.9 seconds. Waltz was participating in a dual meet between the Olympic club and Stanford and by making the run in such good time, has made himself eligible for Olympic game tryouts.

Branting Stars
Branting, also a Winnemucca star in track and football, won the broad jump with a distance of 23 feet 5½ inches in a meet between the California frosh and a combined group of junior colleges. He also won the 100 yard dash, running it in 10 seconds flat.

Walter Christy, California track coach, under whom Branting is working, expects him to be able to jump over 24 feet before next year's track season.

Keep Studying

Take the Last Hurdle

Olympic Runner To Aid Mitchell

10,000 Meter Sprinter on 1928 U. S. Olympic Squad to Assist Nevada Coach

While in training for the coming Olympic games in Los Angeles the latter part of July, Harry Hooper, United States Olympic star, has volunteered to assist Coach "Brick" Mitchell in conditioning the Nevada cinder squad for the coming meets of the season.

Hooper took part in the 10,000 meter race for the American squad in the Olympics of 1928. He has had ten years of experience in running events, having run for the Olympic club of San Francisco. He is now training for the marathon in the hope of gaining a place in that event on the United States Olympic squad for this year.

In assisting Coach Mitchell, Hooper intends to point out the weaknesses of most inexperienced track men and give instruction to overcome these faults. He also will give short talks on errors he has made and what he has done to overcome them.

Sigma Phi Sigma Ball Club Leads Frat Conference

Sigma Nu Takes Two Defeats Since Friday to Lose First Place in League

League Standing	W	T	L	Pct
Sigma Phi Sigma	5	0	0	1.000
Lambda Chi	4	1	1	.800
A. T. O.	4	0	2	.667
Sigma Nu	3	0	2	.600
Phi Sigs	2	1	2	.500
Independents	2	0	3	.400
S. A. E.	0	2	3	.000
Delta Sigs	0	0	4	.000

With this week's play-off practically completed in the inter-fraternity baseball league, the Sigma Phi Sigma nine is out in front with a substantial lead. Since last Friday, the Sigma Nu dropped from the top of the list to fourth place.

Last Friday, the Sigma Nus fell before the A. T. O. team, 6 to 3, in one of the most exciting games of the season. Wednesday, a hard hitting Lambda

Chi outfit knocked another prop from under the first ranking Sigma Nus by defeating them 5 to 4. This win placed the Lambda Chis second only to the Sigma Phi Sigmans, who have consistently held down the league leadership.

S. A. E. Lose Tough Game
Wednesday, the S. A. E. fraternity nine gave the conference leading Sigma Phi Sigma team its hardest battle of the season. The Sigma Phi Sigmans won in the last inning when the heaviest hitting section of their lineup appeared before S. A. E. Pitcher Gaile Parsons to bring in the winning run. Although the S. A. E.'s have lost three games, they barely were nosed out in each game.

Last Monday, the Lincoln Hall-Independent aggregation was taken into camp by the Phi Sigs, to put the Phi Sig team one notch higher in the league standing than their opponents. This afternoon, the Phi Sigs are scheduled to play Delta Sigma Lambda fraternity and although the latter team has four defeats, today's game is expected to be close.

Yesterday the ATO sluggers won an easy victory over the Beta Kappa nine. The game ended with a score of 9 to 2. The Beta Kappa nine made their only runs on a home run by Pitcher Walt Mitchell.

Former Nevada Star To Box In L. A. Meet

Art Levy, former Nevada student and All-Far Western conference football star of the U. C. L. A. at Los Angeles in a boxing bout Monday night. During the past three years, Levy played an active part in Nevada gridiron activities.

Recently he was a contestant in the semi-finals for the Pacific coast boxing championship at Portland.

Engineering Grads Return From Chile On Absence Leaves

South America Copper Mines Release Employees On Contract

The depression has hit South America, too, to judge from experiences of two Nevada graduates of the Mackay School of Mines. Laurence E. Fish, '29, and Norman E. Ericson, '30, went to Chuquicamata, Chile, to work in the employ of the Chile Copper company with three year and two year contracts, respectively, but have been given leaves of absence until their company resumes full operations.

At the same time, Maxwell Wright, who graduated with the class of '30, and who has since married Helen Duffy, '25, was allowed to remain on the company staff.

Whether Nevada mining graduates will be able to find positions in the near future is doubtful, in the opinion of Jay Carpenter, University of Nevada professor of mining, whom Fish and Ericson visited last week.

Nevada Men Employed
The assistant manager of the Chile Copper company, one of the largest copper producing mines in the world, is Lorin W. Kemp of the Mackay School of Mines. In past years, it has been his policy to employ as many Nevada graduates as possible.

This year, because of the general falling off of copper sales and the new competition of African copper mines, the Chile Copper company is now operating at only 25 per cent capacity. The fact that engineers with two and three years' experience, such as Fish and Ericson, are out of work, indicates an unpromising outlook, in the opinion of Professor Carpenter.

The Nevada men said that the mine at which they worked is in desert country which has a climate similar to Nevada's. Having enjoyed the work in Chile, they both say they "look forward to returning as soon as the mines again go on greater production."

Loaded Copper Ore
While in Chuquicamata, Fish worked on the operating end of the company staff. He was in charge of loading several thousand tons of copper ore per day by use of electric power shovels and electric trains, all machinery being manned by Chilean labor. Ericson worked with the engineering department on new construction work.

Professor Carpenter said that older members of the Nevada faculty remember Lorin Kemp, who is assistant manager of the Chile Copper company, and his wife, Isabelle Millar, Nevada graduate with the class of 1909.

Fish and Ericson will be honored guests of the Nevada Crucible club some time in the near future. Here, Professor Carpenter says, it is expected they will relate some of their personal experiences in South America.

Patronize university advertisers; they are considerate of us.

Frosh Sees Laking, Runs, Gets Paddled

The first signs of life of the class of '35 was shown yesterday noon at the weekly freshman prosecution day, when Murray English attempted to evade the penalty by running away.

English was standing on the eastern end of the tram, watching the proceedings, when he was spied by some of the vigilantes and pursued. English, heading over the tram like a March hare, was overtaken by the sophs after a short run.

His reason for not showing up at the laking was that he was suffering from an ear injury. The sophs, being human at heart, met the situation and gave the culprit 20 swats with the paddle instead of the laking.

Along with English, there were 11 other members of the frosh class that received reprimands.

'Quakes In Chile Are Nuisance To School Of Mines

The volcanos and earthquakes that lately have been breaking the monotony of life for people of South America in general, and Chile in particular, are becoming quite a nuisance to the Mackay School of Mines, at least as far as Professor Vincent Gianelli, mineralogy and geology professor, is concerned.

He has literally been deluged with telephone calls and always the question is the same:

"Have those earthquakes in South America been recorded on the seismograph at the university?"

And always his answer has been the same:

"No, none of them have been recorded."

After a moment of surprised silence, the dreaded question always comes:

"Well, then, why aren't they recorded?"

Now, in the first place, a complete answer to this question probably would fill many pages, and in the second place, geologists do not know, exactly, the answer. So about all he can do is to feel embarrassed and say: "I don't know," hang up, and pray that that will be the last phone call.

Nevada Woman Is Chosen President Of Stanford A. W. S.

Mary Katherine Morris of Fallon was elected to the highest position that a Stanford woman can hold when she was chosen president of the Associated Women Students of Stanford University at a campus election last week.

Miss Morris is well known in Nevada, having won the state declamation contest for Fallon high school several years ago. Since she has been attending Stanford, she has continued her debating work and won many honors in this line.

Ned R. Morehouse Is Best Rifle Shot In Nevada R.O.T.C.

Ned R. Morehouse, a sophomore in the college of engineering, is the best rifle shot in the University of Nevada R.O.T.C.

Competing in 24 matches with colleges all over the county, he made the highest average score on the University of Nevada rifle team, composed of the ten best shots of the R.O.T.C.

The ten men in the order of their respective standings are: Ned Morehouse, Arvin R. Boerlin, Wendell Duplantis, Robert N. Anderson, William H. Stuart, James Allen Young, George B. Steffans, William O. Hill, William E. Best, and Arthur D. Chloupek. They were awarded circle N's at the Mackay Day luncheon by Col. Robert M. Brambila, head of the military department.

The team had a very successful season, said Colonel Brambila, which closed with the Hearst Trophy Match, finishing March 12.

The women's rifle team has also completed its schedule, with the ten best shots in order, being Mary Sweet, Dorothy Gordon, Elizabeth Frey, Myra Sauer, Ellen Eckman, Marcelle Barkley, Wanda Morrill, Della Renfro, Grace Ammonette, Cora Hendrickson. They were also given circle N's at the Mackay Day luncheon by Colonel Brambila.

U. of N. Quartet To Sing April 22 In San Francisco

Having accepted an invitation extended by Craig Smith, advertising manager of the St. Francis hotel in San Francisco, the University of Nevada "Varsity" quartet will appear in the Embassy room of the St. Francis hotel on Friday night, April 22, in a group of songs.

As guests of the Laufner and Harris orchestra, the quartet, composed of Al Bernes, William Squires, Walter Linehan, and Fred LaMarsna, will sing two or three numbers.

Thompson Heads Mining Honorary

Charles Thompson of Pioche will head Sigma Gamma Epsilon, national mining and geological honorary fraternity, for the coming year. Ben Johnson of Alhambra, Calif., was elected vice president, and John White of Carmel, Calif., secretary-treasurer.

Elections were made at a meeting held at Professor Gianelli's residence Wednesday evening. Bernard York, who recently returned from a Sigma Gamma Epsilon convention in Pennsylvania, gave an interesting account of his trip and of conditions in other parts of the country.

More than 7,000 persons are killed each year in railroad accidents. Over 5,000 persons are killed, and 50,000 injured each year as a result of fires; 6,000 drown.

Clubs Abandon Idea Of Going Together

The contemplated union of the Cosmopolitan and International Relations clubs has definitely been abandoned.

The two clubs at first thought that their interests could best be served by combining the two groups, but after a conference of members of the clubs organizations, Dr. E. P. Chappelle, one of the Cosmopolitan Club directors, announced recently at a meeting of that organization.

"The International Relations Club," he said, "is an organization for the study of international economics, and so has few interests in common with us."

At this meeting Arvid Johnson and Howard Wong spoke on the various phases of Chinese life with which they are familiar. Plans were laid for a trip in the near future to several of the points of historic interest in Eagle and Carson valleys.

Work Started For Pre-Olympic Meet In Reno

Walter Rheinschild, a Los Angeles attorney, and Sig Nylander, who attended the University of Nevada in 1921, are making efforts to have a pre-Olympic meet at the university track field some time in June.

The proposed meet under the name of the Amateur Athletic Union will include only contests in the weight events, and the plan is to have the participants stop off in Reno on their way to the Olympic games.

In a correspondence with the promoters, Bernard Hartung, graduate manager, states that since the meet will take place the middle of June, the university will not be able to co-operate with them. If the townspeople, however, will give their support, the plan may go through.

Are you one of the doomed ones? 870,000 persons are under sentence of death by accident during the next 10 years.

One person in every nine meets with some form of accidental injury each year. One death in every 11 results from an accident.

Debate Season Brought To End

Climaxing one of the most successful debate seasons on record, Coach Robert Griffin's freshman debate team made up of Richard Bagley and Bernard Mergen last night met the Fresno State Teacher College in a non-decision contest.

The debate was held at the education building auditorium and questions under discussion was: "Resolved, That the United States should enact legislation for a centralized control of industry."

Fresno was represented by Alfred Thomas and Henry Wiems, who defended the negative side of this big economic question.

Mu Eta Epsilon Holds Banquet

Mu Eta Epsilon, honorary engineering fraternity, held their banquet at the El Cortez Hotel Tuesday, April 12. Students and Alumni members were present. Talks by Norman Annett, president of the society, Professor Gianelli and Colonel Scrugham were given during the course of the evening.

The new members present were Calvin Dodson, Chester Elliot, John Fant, Gerry Brumurd, Harry Dunsworth, Earl Seaborn and Leroy Russell.

The Pacific Student Presidents' As-

If you are ill, thing nothing of it, because 8,000,000 persons are sick every day in the United States and one-fifth of the population is sick all of the time.

Automobiles kill 20,000 people each year, which is at the rate of 54 every day. Fifty-seven automobile accidents occur every hour, accidents occurring 113 times as often as fires.

Dean Adams Attends Chemistry Meeting

A meeting of the Sacramento branch of the American Chemical Society was attended by Dean Maxwell Adams, head of the department of chemistry and chairman of the branch. These meetings are held monthly and he urged students to attend some of them.

He reported to the Chemistry Club that a very interesting talk was given on "Some Nutritive and Physiological Aspects of Fats" by Dr. Samuel Lopkovsky of the University of California. Fats have three uses, he said, namely, for beauty (within limits), for protection, and for a reserve food supply. Research has proven that fats differ materially with environment. Thus, the

fat in Eskimos, whose chief diet is fish, is materially different from that of white people who have a varied diet, he said.
