Japanese Students to Tour United States

NEW YORK (NSFA).—A group of three students from leading universities of Japan are starting this month on a good will tour that will take them to prominent cities and university centers from the Pacific to the Atlantic seaboard, according to Roger A. Pfaff, author and lecturer, who will act as adviser to the group. This is the first time in the history of Japan that university students ever attempted an English public speaking tour abroad. It is prompted by a desire to return various good will visits of American university students to Japan, and to foster better understanding between the American and Japanese people.

Bricks and Boquets

By OBSERVER

Due to the lack of space... this column has to be written... this way... in order to be conservative... we mean in space... not content. Of course... we could use these... but then a dot is by far the best... To get on with our work... we see that Nell the Kill-pat... is back... with her hair still looking funny... but better... that Mariani acres around another new woman... that Gene Salet fell for a married woman... and was all broken up about it... when the sad news was given to him... that Higgie's news writing class has to dress up... coats and ties... they always did wear the rest... that Hartung has a new suit... must be getting ready for that long heralded marriage... just another lottery for him... that the Thetas haven't yet lost their best guzzler... she being back for the first two weeks of the semester... and still going strong... that Ellen the Mack has left for parts unknown... the latest report being that she has enrolled at Chico State... that the worst liquor in town as at the Tavern... for those who drink it... the lovely stuff... that all these sorority women are polite to each other again... it being rushing season... but wait until after bid day... and watch the tearing of hair... and calling of names... those dirty so-and-sos... that Joe the Jaxon

still covets around the town... this time with Hunter... late of John Griffin fame... that Chunky Emerson and Roy Bankoffler are hotcha-hotcha... or maybe hey nonnie nonnie... that Stephen the Comish is still the Theta house pappy... and whataman... that Phil the Mann dusts out the Tri-Delt front room too... wrestling around the floor with Jerry... that Menente still can be seen at Reno Hi... among those people who knew him when... his success having not gone to his head... but give him time, give him time... that Gwen and Rowan are now at home to their friends... in Los Angeles... as Mr. and Mrs... that the snow on the sidewalks goes hard on people... especially when it comes up and hits them right on the back of their lap... like it did to Patty McCullough... that Slavin still has a hard time keeping track of Guffrey... he being so sylphlike that she has a hard time seeing him when he is around... that Lena no longer has the charm on Blundell... but is making Hosies nights more enjoyable... while Blundell sees that Harbert doesn't get lonesome... what a triangle... that "angle" no longer has a meaning to Margaret...

that Slavin and Clark still have their Friday night orgies... by going to the show... she being the last one to come in that night... after last going "for a ride"... that this is going to stop right now...

Chris Koontas has reentered the university this semester. Due to football injuries, he was forced to withdraw early last term. Koontas is affiliated with Sigma Alpha Epsilon.

TRYING TIMES

This week's issue of the Sagebrush again appears in the pony size and every effort has and will continue to be made to make the publication of the official university weekly of the financial university weekly possible.

The editor and business manager have both sacrificed salaries and have put every spare minute toward solving the present financial difficulties. Bids for printing the paper will be submitted next Tuesday in an effort to cut costs and the plant that gives the most economical service will be assured publishing the paper for the remaining fifteen issues.

Any criticism that has arisen because of the reduction of the size and content of the Sagebrush should be well thought out before being spread about the campus.

The spirit of cooperation should be manifest throughout these trying times, and if such an attitude is maintained by every one connected with this publication and the entire A. S. U. N. membership then the Sagebrush will continue publication.

Verse Speaking Class Makes Plans

Groups to Be Entertained by Campus Speaking Choir

Holding the second meeting of the semester, the campus verse speaking choir, under the direction of Lionel "Bob" Scott, met in the Education Building last week and discussed plans for presentations in the future, at a number of different functions.

A number of fraternal city organizations will be entertained by this campus speaking choir, during their particular luncheon hours. Some of the organizations at which Scott intends to entertain will be the Lions club, Elks club and Kiwanis club, all of Reno. Also, he will have his group perform before some of the student body meetings.

Scott said that in this club everything in the line of speech will be encouraged, and smoking is prohibited while writing will be very scarce. In other words, improving your voice through a pleasure method is the main aim of this group.

The meeting consisted in reading for expression, "The Bells" by Edgar Allen Poe and "Out Where the West Begins." Also, as one of the poems to be given for entertainment, the group read "The House That Jack Built," in a quartet formation.

Those who have signified their intentions of becoming members are Adelyn Rotholtz, Dorothy Shogren and Mr. and Mrs. Blaine Menke. Others are expected to join later one, and all new members are more than welcome, according to Scott.

Steele Houx '35 has reentered the university this semester, after withdrawing last term. Houx is affiliated with Sigma Alpha Epsilon.

NIGHT EDITOR APPOINTED

John Lee '33, night editor of the University of Nevada Sagebrush, is working on the staff of the Sacramento Bee. His position on the Brush has been filled by John McNamara, senior journalism student.

DUKE University SCHOOL OF MEDICINE DURHAM, N. C.

Four terms of these weeks are given each year. These may be taken consecutively (M.D. in three years) or three terms may be taken each year (M.D. in four years). The entrance requirements are intelligence, character and at least two years of college work, including the subjects specified for Grade A Medical Schools. Catalogues and application forms may be obtained from the Dean.

J. V. Basketball Quintets Selected

Weaver and Bailey Appointed Coaches of Junior Varsity

The call for junior varsity basketball players last week was answered by some thirty aspirants to fame on the hardwood.

This year the "Jay Vees" are being divided into two groups, the Blues and Whites. The Blues are being coached by "Jim" Bailey, former Nevada basketball and football star. The Whites are under the tutelage of "Speed" Weaver, also a former Nevada athlete. The teams are supposedly equally divided, as concerning the merit of the players. Men have been recruited from the P. E. classes, the varsity and from general basketball enthusiasts on the campus. Both teams will be entered in the city league, and in the same section, and so will have an opportunity to meet at least once during the current season to determine which has developed the greater ability.

Coach Bailey's Blues, the larger of the two squads, consists of Elliott and Kibby, centers; Salet, Calahan, Harris, Warren, Boland, Gibson, Dukes and Hawkins, guards; Rhodes, Williams, Nelligan, K. Johnson and Dennison, forwards.

Coach Weaver's roster so far consists of Paul Leonard, center; Cashill, Smith, Blakely, Byrd, Mack and Squires, guards; Frank Leonard, Brinkerhoff, Urruita, Clewett and Reynolds, forwards.

The practice schedule for the Blues is as follows: Monday, 9 to 10; Tuesday, 7:30 to 8; Wednesday, 8 to 9; Thursday, 8:30 to 9, and Friday 5:15 to 6.

The Whites practice on Monday from 8 to 9, on Tuesday 7 to 7:30, Wednesday 9 to 10, Thursday 8 to 8:30 and Friday from 4:30 to 5:15.

Personality Is Prime Factor in Woman's Success

LOS ANGELES.—Personality, evanescent though it may be, is a prime factor in the success of the modern working girl, according to Dean Helen Mathewson Laughlin of the University of California at Los Angeles, who is holding a current series of seminars on modern training for modern occupations.

"Know thyself," the admonition of Socrates, is still the best advice to give to young women who are training themselves for places in the business or professional world, according to Dean Laughlin, who told a group of coeds who met for this week's seminar of the many elements which have gone into the makeup of the careers of well known professional women today.

"The average working woman in the United States works at unskilled labor, according to governmental statistics. But the average woman and the college woman occupy entirely different spheres. The average college woman is found by the latest surveys to be enrolled in remunerative fields, including those of the arts, science, business and teaching. The college girl, while she is still a student, must analyze the various professions, analyze her own fitness to enter one of them, and then use the best means at hand to achieve personal success in her chosen line," declares the dean.

In order to familiarize U. C. L. A. coeds with opportunities in various professional and business fields, Dean Laughlin has established an occupational library in her offices, with current books and magazines featured which will help in the choice of life-work.

From time to time the dean is bringing to the campus women prominent in various business and professional lines, who will address the seminars and advise the coeds who attend.

Campus Club Hears Address by Ross on 'Dream Come True'

The Campus club of the Federated Church was addressed at its regular Sunday dinner meeting by Silas E. Ross on the subject, "A Dream Come True."

Mr. Ross brought out the significance of his topic by the story of the founding and growth of the "Highlander" movement in Denver. The organization is similar in many respects to that of the Boy Scouts and was founded by a man named Owenger, whose purpose was to provide well guided activity for boys between the ages of 9 and 14.

In order to be qualified for the Highlanders a boy must pass a physical and mental examination and maintain a minimum average of 75 per cent in all his studies. The parents of the child are also required to pass an examination, given at the conclusion of a course in which they must enroll, before their sons are eligible. The boys must attend a Sunday school of their own choice, and once a year attend a church sermon with their parents.

This "Dream Come True" was started by an orphan who was so appreciative of the counsel given him by an older man that he determined to found

SOCIETY

Recent Bride Entertained

In honor of Clara Beemer Whitney, recent bride, a miscellaneous shower was given Saturday afternoon by the Misses Blanche Radcliffe, Alice Parman, Verna Selmer, and Mrs. Billie Lee Powles at the home of Mrs. Frank Walker on Humboldt street. The rooms were gayly decorated with spring flowers, carrying out a scheme of green, orchid and pink. Mrs. Whitney was the recipient of many gifts. Each guest was presented with a favor, a small shower umbrella.

After several games of bridge, prizes were awarded to Misses Ruth Sauer, Helen Dunn and Olga Laiolo. At the close of the afternoon refreshments an organization that would give the benefit of wise counsel to all those boys who might seek it.

Lloyd Leonard ex-95 is connected with lumber interests in Klamath Falls.

were served to Mesdames Clara Whitney, Alice Priest, Vera Sauer, Billie Lee Powles; Misses Ruth Sauer, Lois Barber, Blanche Radcliffe, Mary Nay, Isabelle Baker, Helen Records, Juana Barber, Alice Parman, Ruth Halliday, Lucile Berg, Lucile Hook, Elizabeth Barnes, Mae Parman, Velma Ramelli, Helen Dunn, Martha Huber, Olga Laiolo, Verna Selmer and Edna Ericson.

Beta Sig Alums Held Meeting

Members of the Beta Sigma Omicron Alumnae Association were entertained

by Mesdames G. O. Wells and Douglas Stackhouse at a regular monthly meeting which was held Saturday at the sorority house.

After the business meeting cards were played, prizes being awarded to Mrs. Robert Baker and Miss Ellen Russell. Among those who attended were Mesdames Lois Albright, Robert Baker, William Norton, Kent Wallace, Harold Olsen, Douglas Stackhouse, George Wells; Misses Louise Jones, Marian Jones, Mabel Flournoy, Ellenn Russell, Melva Fowler, Merle Kirchner and Eva Edwards.

ENGINEER GRAD VISITS CAMPUS

Ray H. Misener, a graduate of the Mackay school of mines of the University of Nevada with the class of 1929, recently returned to visit here after a three year stay in the copper mining region of Chile.

Misener was in the employ of the Braden Copper company of Chile. He spoke before the university Crucible club, student mining engineering group, last week.

Misener discussed the system of mining used on that property and gave details on the handling of Chilean labor.

He told of an interesting incident in his stay in Chile. Before he left, the first of many revolutions there had taken place and the desire for American dollars was such that the rate of exchange dropped from sixteen pesos to the dollar to sixty-two pesos for an American dollar.

Despite the unusually unstable condition of the currency, prices dropped instead of taking a rise. Misener stayed for three weeks in a luxurious hotel in Santiago, Chile, ate fine meals and had personal valet service for the modest sum of \$5 in American money, which was approximately 300 pesos.

★★★★
HOUDINI'S
MILK CAN
ESCAPE
★★★★

IT'S FUN TO BE FOOLED

...IT'S MORE FUN TO KNOW

ILLUSION:

One of Houdini's most spectacular escape feats was performed with a huge milk can filled with water. He invited persons of the audience to bring padlocks and lock him into the can. He got into the can, the lid was put on and fastened with several padlocks. A screen was placed in front of the can. Assistants stood by with stop watches and fire axes to save him from drowning after a certain time. About a minute later, the screen was removed, Houdini was seen panting and dripping... the padlocks remaining intact!

EXPLANATION:

The usual method of escaping from a milk can is as follows: The lid of the can is apparently securely padlocked to the lower portion, but actually the metal band to which the staples are attached is the top of a short inner lining. The performer, after being locked into the can, pushes the lid upward with his head and the short inner lining is forced out of place, permitting his escape. The screen is then removed.

What exciting magic there is in cigarette advertising!

Let's look at one of its greatest illusions...that cigarettes can be mysteriously given superior "FLAVOR."

THE EXPLANATION: Just three factors control the flavor of a cigarette. The addition of artificial flavoring...the blending of various tobaccos...and the quality of the tobaccos themselves. Quality is the most important. Artificial flavoring can never wholly disguise the poor flavor of cheap tobaccos.

The blending of several cheap, raw tobaccos cannot improve the flavor of any of them. A fine cigarette is a cigarette blended from costly, ripe tobaccos.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

This is why the Camel flavor has never been rivaled... why Camels have given more pleasure to more people than any other cigarette ever made.

In more costly tobaccos lies the secret of Camels' delicate "bouquet"...of their rich, cool flavor--of their non-irritating mildness.

It's the tobacco that counts.

All the natural goodness of Camel's tobacco is kept fresh and rich for you by the air-tight, welded Humidor Pack. Don't remove it. Its moisture-proof cellophane also protects your Camels from dust and germs. Put a pack in your pocket today.

Yearlings Lose Opening Contest To Lovelock High

Freshman Team Defeated in Fast Season Opener at Lovelock

Wolf Cubs Outplayed in Last Half After Holding First Quarter Lead

Traveling in cars to Lovelock last Saturday, the University of Nevada Wolf Cubs met the strong Lovelock high school basketball team in the season opener, and were trounced by a score of 32 to 21.

Seemingly unable to adapt themselves to the small court, the Cubs played mediocre ball throughout the contest.

Led by Quillici, who made 17 points, to become high point man of the game, the Lovelock quintet played aggressive ball throughout the game.

Frosh Lead
Opening with a rush, the Frosh led at the end of the first quarter 4 to 3, but the Pershing boys opened the next quarter with a barrage of baskets and were soon out in front. The Cubs came back and, in the last two minutes, dropped in two field goals to tie the score at 10 to 10 when the half ended.

Cameron Stars
In the third quarter, Lovelock pulled steadily ahead to lead at the end of that period, 19 to 12. In the fourth quarter they continued hitting the hoop with regularity, and when the gun sounded the score stood at 32 to 21.

Cameron, forward, was high point man for the Wolf Cubs with 7 points. The freshman starting lineup was composed of Eisenman and Hadin, forwards; Tannahill, center; Tapogna and Lanson, guards. Substitutes were Cameron and Johnson, forwards, and Benson, guard.

Recognition Test Planned by Post For Music Class

Acting on the theory that familiarity is the best foundation of appreciation, the work of the music appreciation class is including tests in memory and recognition of great themes in music.

The course, which takes in the "high spots" of musical literature from the beginning of musical composition down through representative pieces of the modernists, is designed to give students a working basis for further exploration in the appreciation of music.

By the conclusion of these drills, says Post, students will be able to recognize a number of themes, which have been taken up as class work in chronological order and period, the nationality of the music, characteristic style of the composers.

Fencing Offered Co-Eds by W.A.A.

For the first time in three years, fencing will be offered to men as well as a W. A. A. sport, under the direction of Sergeant Grant Hustis. The course was discontinued three years ago because of the expense of the equipment. The interest in the sport was very keen, however, and the W. A. A. executive committee this year has arranged to offer it at a much lower cost. Fencing will count toward W. A. A. membership.

Other sports offered in the W. A. A. program this semester are swimming, riding, rifle, volleyball and baseball. Tennis will be included if the weather permits.

Miss Eva Edwards spent the holidays at her home in Panaca.

Abandoning Football Experiment Successful

Higher Scholarship and Better Sustained at Westminster as Result

NEW YORK, N. Y. (NSFA)—According to a report recently published by the authorities of Westminster college, Fulton, Mo., the results of abandoning football this year for the first time have been in almost every case favorable.

Having finished last season with an undefeated team and having a coach of outstanding ability and a wealth of letter men returning, the college board of trustees and the faculty nevertheless decided to abandon the sport. It was felt that football was being unduly emphasized and that there was a tendency in college athletics in general to raise them from their rightful place to the point of folly. It was thought that football had even a somewhat demoralizing effect on the student body, and it was certain that the cost of the sport, especially during the depression, was quite out of proportion to the resources of the college, according to the report.

In spite of the fact that the action raised a storm of protest, the enrollment this year indicates no drop resulting from it. The same percentage as last year returned as seniors, a larger number of juniors, and, although a few sophomores dropped out, this was directly traceable in each case to financial conditions. Although there was a drop of 25 per cent in the size of the entering freshman class, other Missouri colleges showed a loss of from 35 to 50 per cent. Scholarship was unusually high, while many entering students had been high school football players.

Regarding college spirit the report says, "It was deemed impossible to have an undergraduate body enthuse over the college without the inspiration of a winning eleven. But faculty and upperclass men are practically of one opinion, that there is a better spirit on the campus, a more enthusiastic tone among the students than has been noted for years. Possibly the reason is because every one of the approximately 300 men is himself actively interested in some sport, as compared with former times, when about forty

San Jose Players Honor Nevada Men

Five Nevada men were selected on a San Jose State college players all-opponents' eleven announced last weekend. The selection is as follows:

- Ends—Harvey, Sacramento Junior college; Austin, Nevada.
- Tackles—Theis, Nevada; Kaufman, Fresno.
- Guards—Beemer, Nevada; Feichtmiller, Fresno.
- Center—Cashill, Nevada.
- Quarterback—Wolfe, Aggies.
- Halves—Hamilton and Wilson, of Pacific.
- Fullback—Carroll, Nevada.

26 Freshman Football Players Receive Numerals

Freshman football men received their numerals the early part of this week from Chester Scranton, yearling football coach, and already several of the men have had their numerals sewed on their sweaters. The numerals are the number 36, which indicates the year the men graduate.

Men who played enough quarters to earn numerals were Harry Austin, Charles Adams, John Benson, Walter Bowrin, Victor Becaas, Ralph Birchard, Paul Bohke, William Cockrell, Bert Cummings, Vernon Eisenmann, Peter Gulisti, Yynn Gerow, Jack Horgan, George Hadlen, Maxwell Kepl, Tom Norris, Francis Mathews, Russel Poulson, Joseph Peters, John Stevens, Vernon Tapogna, Dan Toquero Irvin Wanke, Doyle Wakeling, Paul Walker and Francis Wise.

Temple Hoffman ex-34 has not returned to the University of Nevada this semester as he is working with his father in Los Angeles. He is a member of Delta Sigma Lambda.

Misses Marian Jones and Melya Fowler are doing graduate work at the university. Miss Jones was a graduate of the class of '30 and Miss Fowler completed her work last year. Both are members of Beta Sigma Omicron.

men were on the football field and the rest of the student body had little to do but complain."

Three Colleges In Rifle Match With Nevada

More than fifty co-eds are out for rifle, according to Myra Sauer, manager. Rifle is the only women's intercollegiate sport offered on the campus, and challenges have been sent out by Nevada to twenty-seven colleges. Nevada has received challenges to date from the universities of California, Idaho and South Dakota.

These challenges will be shot off in the spring and the scores compared as to national standing.

Rifle will also be offered as an intermural sport for the first time in January. Ten women will represent each organization and the scores of the five highest shots in each organization will be compared. So far, the Independents have the largest group out for practice.

Engineering Notes

M. B. Royer, graduate of the University of Pennsylvania and specialist in ferro-metallurgy, who has been with the Pittsburgh station of the U. S. Bureau of Mines, has been transferred to the Nevada station known as the experimental station of rare and precious metals and located at the University of Nevada. Charles W. Davis, former associate chemist at the Nevada bureau, has been temporarily transferred to the Pittsburgh station, according to Edmund S. Leaver, supervising engineer and metallurgist at the Nevada bureau.

Ida Mary Robinson returned to Stanford university, where she is technical assistant at the Stanford library, after spending the weekend with her parents in Reno. Miss Robinson received her master's degree from Nevada in '28 and was affiliated with Phi Kappa Phi and Beta Sigma Omicron.

STUDENTS' CRUISES

Magazine subscription scholarship workers and crew managers write immediately for very best student scholarship offers of leading publishers. Can be worked there now. Permanent positions if experienced; also summer crews for U. S. and foreign territory. For full details write The Collegiate Scholarship Institute, 219 Republic Building, Miami, Fla.—adv.

Many Women Sign Up for Volleyball

A large number of women students has signed up for volleyball, which started Tuesday, January 17.

The first games to be played will be practice games and following these, teams will be formed and interclass contests will begin.

Instead of elimination games, a system used in previous games and which decided which team would play in the intramural games, a round robin tournament will be held in which each class team will play the same number of games and the total of games won will be compared with the scores of the other teams.

The games will be held on Tuesday and Thursday from 3:15 to 5, and on Friday from 3:45 to 4:30. The teams

will be divided into two sections, so that the first section will begin at 3:45 and the second section at 4:30.

The games will be refereed by girls minoring in physical education.

Miss Martha Hansen, senior student of music at the College of Pacific, spent the Christmas holidays in Reno. While here she was the guest artist at a concert given by the Century Club. Miss Hansen was a student at Nevada for two years and a member of Beta Sigma Omicron.

"I'm working and Smoking overtime—

hence a *Milder Cigarette*

"WHEN I work hard, I usually smoke more; and when I smoke more, I usually work harder—and that's why I want a cigarette that's milder."

We use in Chesterfield Cigarettes mild, ripe Domestic and Turkish tobaccos which have been aged and re-aged.

These good tobaccos in Chesterfield are used in the right proportions—that's a very important matter.

These good tobaccos in Chesterfield are blended and cross-blended—welded together; that, too, helps to make a milder cigarette with better taste.

THEY'RE Milder — THEY TASTE BETTER
