## Five Receive Bids To Phi Kappa Phi

### Formal Initiation Will Take Place Sunday Morning

#### President Clark to Deliver Address at Breakfast Ceremony

#### Students Are Outstanding in Scholastic Work on Campus

Four senior students and one member of the faculty were recognized for their outstanding scholastic work this week by election into Phi Kappa Phi, national scholastic honorary society. The election took place at a meeting of the Nevada chapter of the group early this week.

Those receiving bids are Dr. Fredrick L. Wood, head of the mathematics department, Paul Bohlke, Florence Gulling, Andrew Morby and Margaret Traner.

Initiation ceremonies will be held Sunday at Manzanita hall, with breakfast in honor of the initiates to be held immediately.

Dr. Charles Roger Hicks, president of the organization, will formally welcome the initiates into the society, while Dr. Walter E. Clark, president of the university, will deliver the principal address. Miss Gulling will give the response for the initiates.

Elections into Phi Kappa Phi are held twice yearly, once during the fall semester, and once during the spring semester. Election in the fall semester is considered as special recognition for scholastic work, with only the most outstanding members of the senior class being given bids, thus giving special recognition to outstanding scholars.

Dr. Wood, the only member of the faculty to be elected to membership this time, has been head of the mathematics department for three years, and is a graduate of the University of Wisconsin. He received his Bachelor of Arts degree in 1915, his Master of Arts in 1916, and his Doctor of Philosophy degree in 1923 there. He is also a member of Sigma Xi, Gamma Alpha and Scabbard and Blade.

Bohlke is a senior student in the School of Electrical Engineering, and is a member of Nu Eta Epsilon, honorary engineering society, the American Institute of Electrical Engineering and the Associated Engineers. He is an independent student, and is a graduate of Reno high school. He is the son of Mr. and Mrs. Paul Bohlke of 1127 Seminary avenue, Reno.

Miss Gulling is registered in the College of Arts and Sciences, and is a member of the Delta Delta Delta sorority. She is also president of Chi Delta Phi, national literary honorary society for women, and is president of Le Cercle Francais, French social organization. She is also a graduate of Reno high school, and is the daughter of Mr. and Mrs. Lawrence A. Gulling of Reno. She is also a member of the newly formed Math club and is historian for the Associated Students.

Miss Traner is the daughter of Prof. and Mrs. F. W. Traner of the education department, and is a member of Pi Beta Phi sorority. She is also active in the music department, and is a member of the Campus club of the Federated church. She is registered in the College of Arts and Sciences.

Morby is the son of Mr. and Mrs. J. C. Morby of Sparks, and is registered in the College of Arts and Science. He is a member of Lambda Chi Alpha fraternity, is secretary-treasurer of Le Cercle Francais, and captain of the university tumbling team, acting as director of the sport last year. He is a graduate of Ogden high school.

All four students have maintained consistently high scholarship averages, being named to the honor roll for six consecutive times.

## Faculty, Students Dance at Social

With members of the faculty present as guests of honor, a social hour was held by the Blue Key Wednesday night in the gymnasium. A good representation of faculty members were present.

The purpose of the dance was to get a better cooperative spirit between the faculty members and the students, and to give the faculty members a chance to take an active part in student affairs," according to Leland Ward, president of the organization.

Because the turnout for the weekly socials have been so large, they will be continued until the beginning of varsity basketball practice, Ward said. It had previously been decided by the society to discontinue the socials in order not to conflict with the interfraternity basketball sessions.

## Four-Point Deer Killed by Students

A 240-pound, four-point deer was bagged last week by Clayton Phillips and Forrest Rhodes, senior students, ten miles north of Reno.

The deer is claimed to be one of the largest killed this season. The large buck was running with a small herd when he was brought down by the students. The animal was so heavy that the two required assistance to bring in their kill.

## Homecoming Dance Plans Are Made

### Aggie Club to Sponsor Annual Grad Dance Ending Celebration

Climaxing a three-day celebration, the sixteenth annual Homecoming Day Dance will be held Saturday night, October 26, at nine o'clock in the state building, according to Tony Primeaux, president of the Aggie club which sponsors the affair.

Awarding of the prizes won during the three-day competition will be the highlight of the evening. Several cups, including best fraternity decoration, best sorority decoration, best campus organization float, best fraternity float, and best sorority float, will be given that night.

A cup which will be given to the fraternity and sorority that has the largest alumni representation at the dance, is expected to result in keen competition between the houses for alumni attendance to the dance.

This dance, traditionally, is the final affair of the annual celebration and interest is usually at its peak. Last year some 500 people attended.

Ember Raiford's campus band, which will play in the Wolves' Frolic, will furnish music for the occasion.

Tickets for the dance are on sale at Hill's Drug store, Southworth Tobacco store, and Riverside hotel.

Tony Primeaux and Nece Jones are in charge of making arrangements.

## Phi Sigs Schedule Traditional Dance

### Homecoming Day Event Will Be Held Next Thursday

The annual street dance given by Phi Sigma Kappa fraternity will be held in front of the chapter house at 737 Lake Street following the rally and fireworks Thursday night.

Elaborate plans are being made for the affair by a committee headed by Robert Stoker and William Cockrell. The trees bordering the street will be strung with vari-colored lights, and it is planned to have a five-piece orchestra for the affair.

Included in the improvements planned for the occasion will be a raised platform for the orchestra, which will make the music more audible to the crowd.

Refreshments will be provided for those attending the dance.

## Homecoming Cups Are Valued at \$100

One hundred dollars worth of trophies will be donated by Reno businessmen for Homecoming.

The donors and their trophies are as follows: Herz trophy for the best sorority float; Dr. Walter E. Clark trophy for the best fraternity float; Ginsberg Jewelry store trophy for the best organization float; J. C. Penney Co. cup for the best decorated fraternity house; the Wonder trophy for the best decorated sorority house; Tiny's Waffle shop trophy for the sorority which has the most alumnae present; Herd and Short for the fraternity with the most alumni present; and Sunderland trophy for the engineers' efficiency contest.

The trophies will be presented by Elwin Jeffers, chairman of the Homecoming Day committee, at the dance Saturday night.

### NOTICE

To avoid conflict with the Alumni banquet, Saturday evening at 7 o'clock, October 26, sororities and fraternities are courteously requested not to give suppers for their alumni.

House decorations will be judged by a committee of Reno artists and university professors at 9:30 o'clock Saturday morning.

## President Clark Welcomes Grads In Radio Speech

### Large Number of Graduates Expected to Attend Homecoming

#### Invitation Given Townspeople To Inspect Equipment At University

Delivering a welcome to homecoming graduates, and an invitation to townspeople to visit the Nevada campus during the Homecoming celebration next week-end, President Walter E. Clark spoke over radio station KOH Tuesday night.

Future radio talks by members of the university faculty will be heard at that time instead of from 7:15 to 7:30 Friday nights as formerly. It was announced this week by Professor Stanley Palmer, chairman of the committee arranging these lectures. Dr. Jeanne Wier will speak next week on the history of Nevada.

### Letters Mailed

The celebration next week will be the sixteenth Homecoming, President Clark declared, and it is confidently expected that there will be a greater return of alumni and former students than ever before. Welcoming letters have been sent to over 1600 graduates scattered over many states, and a special illuminated vellum invitation has been sent to Clarence H. Mackay requesting his attendance.

"It's a pity to live in Reno long years and never really know for yourself what the university campus offers for the training of Nevada's youth," President Clark said. "Here is your chance to see, and this is your sincere invitation. Why do more than 900 Nevada young men and women come to our campus acropolis year after year for training, and how is it that they can be so well prepared there for their after lives? You will find, at least in part, the answer to such wonderments if you will see for yourself the scores of well-fitted laboratories, the spacious, well lighted class rooms, the well-nigh perfect library with its nearly 100,000 volumes and pamphlets, the lecture rooms and auditoriums and the museums, the beautiful landscaped campus, and the gem of a playing field," he continued.

A discussion and outline of the complete Homecoming program was also given by President Clark, and also an announcement that the annual Alumni banquet will be held at the Century club Saturday evening, October 26, with Senator McCarran, a Nevada alumnus, as the principal speaker, and Mrs. Charles Sadler, president of the Alumni Association, in charge.

## New Math Society Formed This Week

### Charles Allen Elected Head of Latest Addition to U. N. Campus

A new organization made its appearance on the Nevada campus Tuesday night with the formation of a Mathematics club by students majoring and minoring in mathematics and others particularly interested in that subject.

Charles Allen, junior mechanical engineering student, was elected president; Inez McGillivray, senior student majoring in mathematics and chemistry, was chosen secretary-treasurer.

A committee consisting of Betty Bowman, George Francis and Paul Bohlke was appointed to draw up a constitution providing for meeting times, name, dues, rules and other particulars for the club.

A feature of the meeting was a talk by Professor Ayres of the mathematics department, who spoke on "Homogeneous Coordinates" and on several types of geometry which may be applied to a line and to a plane.

Following the meeting refreshments were served and announcement was made that the next meeting would be held in two weeks in room 212 of the Mackay Science hall.

## Club to Discuss Ethiopian Crisis

"Will the United States be able to keep out of the Italian-Ethiopian conflict? This will be the subject discussed by members of the Campus Club at their meeting Sunday evening.

The round table talk will be directed by a guest speaker chosen from the university faculty, Fred Hartman, president of the group, announced this week.

Two students who are well-informed on the subject will help in leading the discussion.

The Campus club is composed of university students who are members of the Congregational church.

## No Barometer; Humidity Change Hard on Drums

Wanted—One good barometer by the University of Nevada music department. Instrument to be used to foretell wet and dry spells.

Such was the cry issued by Professor Theodore H. Post, head of the department, today. The varying weather that the campus has experienced this week has resulted in the breaking of two snare drum heads, which are very susceptible to humidity changes.

Friday it rained, the drum heads stretched and had to be tightened for use at the student body meeting and street rally. Saturday it was still wet, and the drums were tightened still further. Sunday it was warm and clear. The drums dried out. As a result, heads broke in their efforts to show the trend of the weather.

In the future, Professor Post says, the drums will be kept loosened and a barometer consulted before changes are made in the tension of the heads in an effort to prevent further breakage.

## Loss Is Sustained In Wolf-Don Game

### Program, Sagebrush Budgets Accepted by Finance Committee

A net loss of \$17.42 was sustained at the San Francisco-Nevada game last Saturday, Graduate Manager Robert Creps reported to the finance control committee at a meeting of that body held Wednesday afternoon.

The report as accepted by the committee showed that total ticket sales amounted to \$1,335.95 while the expenses added to \$35.37. This left a net income of \$982.58 to pay a guarantee of \$1000 to the San Francisco school.

Creps also reported that \$2500 has been received from St. Mary's and that \$1000 more is expected as soon as the final financial statement is completed by the California "school" early next week.

A financial report of the football programs sold at the game was accepted and showed a profit of \$107.10.

The frosh class will be responsible for all equipment which they borrow to paint the block "N" tomorrow it was decided by the committee.

Approval of the price of 75 cents for tickets to the Soph Hop was given and an audit of the books of the Sagebrush was accepted.

Awaiting a complete financial statement from the graduate manager, the meeting recessed until Monday afternoon when the financial standing of the A.S.U.N. will be determined.

## Military Society Gives Eleven Bids

The release of the names of eleven men who were elected to Scabbard and Blade, national honorary military society at their first meeting this month, was made this week according to Charles Nichols, captain of the society.

Initiation for the new members, who are Charles Allen, John Carr, Robert Davey, Wayne Kennedy, James McNeely, Craig Moore, Guy Morris, Joe Lommori, Jack Richardson, Dick Sauer, and Frederick Wood, will be held in the early part of the next semester. Nichols stated.

Plans for a banquet to be held on National Scabbard and Blade Day, October 27, which is President Theodore Roosevelt's birthday, were also discussed. A committee in charge of Bert Cummings and Bill Cockrell was appointed to handle the dinner plans, Nichols said. At present it is the plan of the committee for all honorary and alumni members to be invited to the dinner, he added.

The possibility of securing a national military orchestra for the annual military ball were also discussed at the meeting this week but nothing definite was decided upon.

## Applications Made For Rhodes Award

Seeking the approval of the University of Nevada Rhodes Scholarship committee, four students have filed applications with Dean Maxwell Adams, chairman.

The student selected by the university committee will go before the state committee bolstered by the recommendations of the University of Nevada. The committee will make its selection by November 2, when all applications must be on file with the State Secretary to Rhodes Scholars, Charles M. Chaffield.

## Frolic Progresses Rapidly as Date For Show Nears

### More Than 100 U. N. Students Participate in Annual Production

#### Twenty-One Novelty Numbers Included on Program Of Show

With more than 100 students participating in the fifteenth annual Wolves' Frolic, rehearsals are "shaping up in good style" in the next to last week of practice, it is declared by the production managers and William C. Miller, dramatics director.

21 Acts Planned  
This year's show is composed of a variety of twenty-one acts ranging from the burlesque to the classical, which it is believed will appeal to everyone. Many "surprise" acts are being included and the nature of these performances are being kept secret by the staff.

With the completion of this week's practices, all acts and routines are complete, with a few added "black-outs" and novelty skits. Miller stressed the fact that for the first time four complete sets of chorus costumes were secured from San Francisco by Miss Ruth Ryan. The routines, themselves, are "new and different" with two tap choruses and two regular routines.

Show Advertised  
The extravaganza has been well publicized with quarter cards appearing in all the down town business stores, hotels, and theaters, according to Willis Dalzell, advertising manager. Out-of-town publicity has been done through the News Bureau and distribution of quarter cards in the surrounding towns.

William Miller, chief director of the show, is being assisted by Lindsay Green, with Morgan Mills as stage manager.

Green named Darrel Cain his assistant, and Mary Millard and Dick Stoddard in charge of the publicity for the show.

## Whitewash Coat Given N' Saturday

### Upperclass Boards to Punish Frosh Failing to Help At Emblem

The Block "N" on Peavine Mountain will be the destination of three hundred freshmen who will leave Manzanita hall at eight o'clock tomorrow morning to give the Nevada emblem its annual coat of whitewash. All unexcused freshmen will be punished by the upperclass committee for absence or tardiness.

At a meeting of the class Friday, Herb Ward, freshman class manager, appointed Kelly Eccles, Bill Newman, and Bill Geyer on the work committee with Jim Sullivan chairman of the group. Margaret Hussman was made chairman of the food committee, and Clairhel Masterson, Maude Patterson and Mildred Woodward will work with her.

A water tank will be sent by Reno Hot Springs, and the committee expects to get hose from the Reno fire department again this year. If possible a truck will be borrowed from the Olsen Motor Company to take those people who cannot arrange for transportation and necessary supplies to the "N."

Freshmen who wish to be excused will make arrangements with Florence Kirkley and Vic Carroll, chairmen of the upperclass committees before Saturday. Those not excused who fail to help will be punished by the upperclass committees.

## Engineers to Hold Contests Friday

### Exhibit of Alloys Given to Museum

The annual Homecoming engineering contests, consisting of a drilling contest, chaining contest, sliderule contest, and machining contest will take place at 11:30 Friday morning, according to Elwin Jeffers, chairman of the Homecoming committee.

Each engineering department is entering six men, two in drilling, two in chaining, and one each in sliderule and machining, and the department scoring the greatest number of points in all of the contests will be awarded a silver cup donated by one of the down-town stores.

Preliminaries in drilling will be held in order that each department may choose a representative team. This system has been installed in order that each of the groups may have an equal chance to win.

Judges for the events will be the heads of the various engineering schools, and the committee is composed of the following men: George Anderson, chairman; Harold Westfall and Frank Kornmayer.

## Students Complete Homecoming Plans

### Church to Speak At Club Meeting

Doctor J. E. Church, head of the University of Nevada classics department, will speak to the Faculty Science Club next Thursday in the Aggie building on "Water Problems of the West."

Pictures taken by Doctor Church will be used to illustrate the lecture which he will give on the material he gathered from his trip throughout the Western states this summer.

## Thirty-Two Given Work on 'Brush

### Additions to Paper's Masthead Are Announced Today By Editor

Thirty-two students were added to the masthead of the Sagebrush this week by Frank Sullivan, editor, officially closing the trial period which has lasted for several weeks.

Regular assignments will be given those now included on the masthead of the paper, and tryouts for additional reporters will be continued throughout the semester, thus enabling students who did not reply to the first tryout call to work for positions on the staff.

Since the masthead is so large this year considerable "cutting" will be done during the remainder of the semester. Sullivan said, and reporters who fail to attend the regular staff meetings on Monday, unless excused, or who miss deadlines will be dropped.

Students who were not given positions on the staff this week and who still wish to work on the paper were requested by Sullivan to get in touch with him next Monday afternoon in the Sagebrush offices.

Those who were given positions are Jean Chism, Georgene Roberts, Virginia Riatt, Marguerite Rives, Jeanette Green, Loretta Collins, Mildred Dillard, Mary Handley, Lois Downs, Lois Miller, Ethel Graunke, Nina Boczkiewicz, Kathleen Hansen, Agnes Howell, Betty Kornmayer, Donald Kinkel, Richard Taylor, Lafe Leach, Frank Zadow, Barbara Smith, Pat Lannon, Martadel Cooper, Wilson Rebalcati, Alice Sauer, R. J. Scott, Ben Rotholtz, John Kenens, Margery Hiskey, Helen Shovlen, Dolores Saval, Rosalys Martinez, and Leo McCuddin.

## Football Program Sale Successful

### Plans Being Made for Annual Homecoming Edition By Editor

Because of the successful sale of football programs at the San Francisco-Nevada game last Saturday, the publications board plans to produce a larger book for next week.

Approximately 2000 copies of the program will be printed instead of 1100, according to Gerald Roberts, editor of the publication. The programs will probably be extended to 28 pages which will include the double page of pictures of each team, more features and less advertising.

Under the authority of the publications board, the book is being edited by Gerald Roberts, with the assistance of Max Jensen, and Charles Leavitt, who serves as business manager. Blue Key, service fraternity, and Press Club combined to help in the sale.

## Exhibit of Alloys Given to Museum

The Mackay museum, located at the Mackay School of Mines, was the recipient last week of a full case exhibit of ferro alloys used in the manufacture of special grades of steel.

The specimens are the gift of the Electro-Metallurgical company, which is a unit of Union Carbide company, and were secured through the courtesy of E. K. Smith, an engineer of the former company, who visited the museum this summer.

Included in the exhibit are samples of ferro manganese, silico manganese, ferro tungsten, spiegelisen, ferrochrome and ferromanganese, all products made with the electric furnace.

One of the most interesting pieces in the exhibit is a display of metallic silicon. The metal silicon is something rarely seen, although silicon ranks second in the list of elements making up the greater part of the earth's crust.

The display is located on the lower floor of the Mackay museum in the section along the west wall which is devoted to alloys.

## Return of Grads Starts Thursday With Annual Rally

### Students Will Honor Alumni Next Week at Yearly Celebration

#### Novel Features Are Planned To Make 1935 Event Best Ever

By RUTH GOLDSWORTHY

When, on Thursday night, the match is touched to the huge bonfire being constructed north of Mackay field, the sixteenth annual Homecoming celebration will begin. As the flames lick their way toward the sky, prominent students and townspeople will address what promises to be the largest crowd of alumni, students, and former students ever brought together for this occasion.

All the glamor of former celebrations will be combined with many new features to make this celebration a landmark in the lives of students and alumni.

### Fireworks Display

Beginning promptly at 7:30 p. m., the bonfire rally will feature a spectacular fireworks display, presented through the courtesy of Shell Oil Company. The feature of the display will be a set piece, 40 feet high, which will show a beautiful scene literally painted in colored fire. The subject chosen for the piece is being kept secret so that the display will come as a complete surprise.

Preceding the set piece will be a magnificent serial display of all the devices developed by the pyrotechnic art. Starting with aerial bombs, the exhibition will contain a "battle in the clouds," 360 shot illuminated sky batteries, dual break shells with vari-colored light, triple break shells, 360 prismatic fans, suspended chain rockets, suspended searchlight rockets, silver star shells, silver cloud comet shells, festoon garland rockets, prismatic rockets of colored stars, comet rider shells, flag bombs and many others. Arrangements for the display are being made by Chet Kluck, local Shell manager.

### Speakers Chosen

The rally is being planned by Emile Gezelin, yell leader. Gezelin will introduce the following speakers, Elwin Jeffers, chairman of the Homecoming committee; Carl Dodge, president of the Associated Students; Douglas Busey, city attorney; Harry Frost of the Reno Printing company and prominent alumnus; C. L. "Briek" Mitchell, head football coach; Dr. Walter E. Clark, president of the university; and Reverend Brewster Adams.

The speakers will have the advantage offered by use of a broadcasting system owned and operated by Standard Oil company. Freshmen students will be responsible for fuel for the bonfire, as each will be required to bring two boxes to Bill Goodin, who is in charge. Members of Sagers, service organization, will assist at the rally.

### Dance Set

Immediately after the rally, the Phi Sigma Kappa fraternity is having their annual street dance. Many features are being planned for the dance in charge of Robert Stoker and William Cockrell. Friday morning all alumni will be registering in the A.S.U.N. building. Nece Jones, senior student and member of the Homecoming committee, is in charge of registration.

### Exhibits Scheduled

Beginning in the morning and lasting all day, will be many fascinating exhibits prepared by the pre-medical and engineering students.

At 11:00 the engineering contests will begin. The contests will be chaining, drilling, and lathe and slide rule competition. To date sixteen students have signed to take part; this includes mechanical, mining, electrical, and civil engineers. To the group chalking up the greatest number of points will go the cup.

In the evening, what promises to be a sell out house, will get a glimpse of campus talent, when the Wolves' Frolic is staged under the direction of William Miller of the English department. The acts will probably last about two hours and will include singing, dancing, and skits. Miss Ruth Ryan is directing all chorus routines.

Saturday morning, alumni who arrive late may register in the A.S.U.N. building. At 9:00 all sorority and fraternity houses will be judged for the best house decoration. The cross country race, won last year by Alpha Tau Omega, will begin at 10:00 a. m. A large silver loving cup will be given the winning fraternity by the inter-fraternity council.

Parade on Saturday  
According to Jeffers, one of the most colorful parades in many years will be held at 11:00. Marshaled by members of Scabbard and Blade, honorary mili-

(Continued on Page Six)

### Gianella Discusses Meteors in Second Of Radio Talks

#### Shooting Stars Are Common in Upper Atmosphere, Is Report

#### Speaker Says Few Meteorites Known to Have Fallen in Nevada

Giving many interesting facts and figures about meteors and their occurrence, Professor Vincent P. Gianella spoke briefly over radio station KOH last Friday evening on the subject of "Meteorites," presenting at that time the second lecture in the series being presented by the faculty of the University of Nevada this semester.

Shooting stars, so often seen shooting across the earth's upper atmosphere, are meteors, and their light is caused by the partial to complete combustion of matter coming from distant outer space into the atmosphere of our earth, Gianella said. There are millions of these entering the atmosphere every day and night, traveling at a velocity averaging 40 miles per second, thus, in a head on collision with the earth, some meteors are traveling with a velocity 80 times greater than that of a high speed projectile, he stated.

Contrary to general belief, only a few of the meteors reaching the earth are too hot to be picked up immediately, Professor Gianella declared. The explanation of this according to him is that these bodies have been traveling through interplanetary and even interstellar space for an untold period of time and have been cooled down to a temperature of 450 degrees Fahrenheit below zero. The period of their heating in the atmosphere is so small to allow them to reach any high temperature, and their velocities, except in the cases of unusually large masses, are decreased to such an extent that the force of impact with the earth will have no appreciable heating effect on them.

Professor Gianella continued his talk, stating that of the many meteoric falls which have been witnessed, few actual meteorites are ever recovered as the result of such observations, most of the meteorites which have been found being discovered accidentally and probably were ones which fell many years ago.

Only two meteorites have been found in the state of Nevada, a condition due perhaps more to the sparse settling of the state rather than to the absence of meteorites within the state. According to the figures offered by Professor Gianella, Nevada should have been the target of a great many such missiles from outer spaces judging from the number of them which have been found in smaller states than our own. Meteorites have been found in greater quantities in the state east of the Rockies, but all of those weighing over one ton have been found in the western states and in Mexico. In Mexico, ten have been found, ranging in weights from one to 30 tons. The Quinn canyon iron from Nevada weighed 3100 pounds. Spectacular meteoric falls within modern times were witnessed in 1894, when the Quinn Canyon meteor fell in Nevada, and in 1908 when a great fire ball crossed Siberia.

Oscar Robinson, former student at the university and at present a student at Yale was on the campus recently.

### Free Art Forum Offered Every Wednesday Night

In an effort to establish an art colony in Reno, Miss Lucille Palmer, well known artist, is offering free forums every Wednesday night for students and townspeople interested in the arts.

The forum is to consist of lectures and illustrations of the different kinds of fine arts, followed by an open discussion of the works mentioned. Discussions will not include any technical terms, Miss Palmer said, enabling anyone to take part in it.

A new exhibit by famous artists will be hung in the Workshop Galleries every month, and students are urged to come and see them. Miss Palmer will engage artists to give lessons to anyone interested in arts and crafts, and she is offering a special price for students.

Lucille Palmer is a New York artist, having studied and presented her work in sculpture in the New York School of American Sculpture. She also studied at the University of Southern California, and is a member of the Grand Art Gallery, the Santa Monica Art Association, the Pacific Art Association, and the San Francisco Society of Women Artists.

### Edward W. Ralph Dies in California

Edward W. Ralph, former University of Nevada employe and well-known Reno resident, died at Long Beach, Calif., Monday, following a short illness. He went to Long Beach two weeks ago for his health, and failed to recover following an operation Monday. Seventy-one years old, Ralph was a native of Cornwall, England, and came to the United States when 21 years old. He was employed in Montana and was county clerk at Butte at one time, and was also employed by the Boston and Ely Consolidated Copper company in White Pine county for several years.

He came to Reno in 1915 as a contractor, and in recent years was a building superintendent at the university. He was active in lodge circles, being a past master of Reno lodge, No. 13, F. & A. M., and a member of the Scottish rite bodies, Kerak temple of the Mystic Shrine and Adah chapter of the Eastern Star.

### No Advance Sale Of Frolic Tickets

There will be no advance sale of tickets to the Wolves Frolic, Tom Morris, general manager, stated this week. Instead, tickets will be sold directly from the box office or through the mail, he said. The box office will open at the Granada theatre Monday, October 21 and will remain open daily until the show begins Friday evening, October 25.

Advertising for the Frolic is scheduled to begin next week with quarter cards being posted in down-town business stores and lobby cards in theatres and hotels. Willis Dalzell is the advertising manager.

Over one hundred students are participating in the show which will consist of twenty-one acts and will last one hour and forty minutes.

Chorus routine, under the direction of Miss Ruth Ryan, is being held nightly. Four complete sets of chorus costumes have been secured by Miss Ryan from San Francisco.

Rehearsals of the entire show will be held next week and dress rehearsal has been set for Friday afternoon, October 25.

As the Frolic is under the direction of the University play production department participation in the show will make students eligible for election to Campus Players, C. F. Lindsay Green, president of the group, said.

Darrell Cain has been appointed assistant manager, Lindsay Green general production manager, and Mary Millard and Dick Stoddard have been named publicity directors.

### Nevada Graduate Chosen to Head Farm Organization

George Ogilvie, Arts and Science graduate in the class of 1915, was elected acting president of the Nevada Farm Bureau. His appointment will be effective until the annual Farm Bureau meeting in Las Vegas, next spring.

The new president, who lives in Elko, was prominent during his days in the University of Nevada. He won letters for three years in track and participated in other major sports. On his graduation he received the bachelor of science degree. He is affiliated with Sigma Alpha Epsilon fraternity.

Ogilvie takes the place of the late J. D. Yeager.

### Letter to the Editor

Editor, The Sagebrush: I once thought I was a popular damsel but I soon found out that my popularity consisted of holding up the walls of the gym at the weekly "anything but social" hours.

The thing I like best is the way the would-be dashing young swains that pay a whole dime to stand in the gym for an hour, look over the over-expecting gals who would like to slide around the floor a bit, and I think that as long as Blue Key is a service organization, they ought to break down and dance

back so the gals could get some pointers on a new step.

What gets me is the way your best pal of Saturday night doesn't know you at the unsocial. Can it be so bad that these college dopes can't remember from Saturday to Wednesday?

All in all I would like to know if Blue Key would go down to Tony's and import some gigolos to show these kids how to twirl around a little.

I think the social hour should be conducted with small groups of students discussing Chaucer or Shakespeare, and I'll use my time for a good glass of you know what.

A SCORCHED DAME.

## "THEY DON'T GET YOUR WIND"

ATHLETES SAY

RIP COLLINS, of the St. Louis Cardinals: "Here's the best proof I know that Camels are mild—I can smoke them steadily, and they never get my wind or upset my nerves."

JENNIE ROONEY, famous circus aerialist, says: "Camels, being so mild, do not upset my nerves or get my wind. And Camels never give me any throat irritation."

YOU'LL LIKE THEIR MILDNESS TOO

CHAMPIONS APPROVE Camel's mildness. Consider what this means. Healthy nerves—physical fitness—sound wind—help to make life more enjoyable for you too. Enjoy Camel's mildness—smoke all you wish! For athletes have found that Camels don't get their wind . . . or jangle their nerves.

WILLIE MACFARLANE, former U. S. Open Champion, adds: "Camels are mild. They don't get my wind or make my nerves jittery. I'd walk a mile for a Camel!"

J. A. BROOKS, '32 and '33 All-American Lacrosse Team: "I have smoked Camels for 5 years. No matter how many I smoke, Camels never upset my nerves or my wind."

SO MILD YOU CAN SMOKE ALL YOU WANT

# Camels COSTLIER TOBACCOS!

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

### Literary Magazine To Be Published By Chi Delta Phi

Eleanor Doan Named Editor Of Publication by Society

Plans for Poetry Contests Are Made by Group at Meeting

Publication of a magazine, "The Pentacle," and the sponsoring of two poetry contests were among the activities tentatively planned for this year by Chi Delta Phi, honorary English society, at a meeting Wednesday night.

Florence Gulling, president of the group, said that according to the present plans the magazine will be edited by Eleanor Doan, woman's editor of the Sagebrush. The magazine, which is the first of its kind to be attempted by the organization, will probably appear on the campus just before the Christmas holidays, Miss Gulling said.

Chi Delta Phi will again hold a campus poetry contest this semester, it was decided. The contest, which was declared very successful last year by leaders of the group, will be open to all co-eds. It is scheduled for the month of November, and Ruth Atcheson, junior member of the honor society, is to be in charge.

It was definitely decided by the group Wednesday that no contestant would be eligible for two consecutive awards in the same division. The contestants will be divided into two groups, according to class status.

First prize for the upper division will be an honorary membership in the organization, while a cash prize of five dollars will be given the winner of the lower division contest.

Next semester the group will sponsor a poetry contest in the various high schools throughout the state. A similar contest was held last year in the Reno and Sparks junior high and high schools. According to Lois Midgley, who is in charge of this contest, extensive plans are being made to have students from each high school in the state enter their poetry.

### Nevada Graduates Employed in Reno

Several graduates of the School of Education who have not as yet secured teaching posts, have been placed in various secretarial positions in Reno and vicinity.

Carol Carmen, '35, is holding a stenographic position in the offices of the Nevada state highway department in Carson City.

Mable Armstrong has secured a secretarial position in the city clerk's office of Reno.

Madeline Miller is holding a stenographic position under the federal government in Reno.

Angelo Urrutia is employed with the Reno Printing Company.

### Five Given Pins By Theta House

The Kappa Alpha Theta chapter house was the scene for the final initiation on Sunday afternoon of five pledges.

The new members of the sorority are: Anne Gibbs, Jean Cameron, Aldene Branch, Lois Darrough, and Elizabeth Best. Genevieve Wakefield, house president, presided.

### SOCIETY

#### PI BETA PHI HONORS PLEDGES

The Pi Beta Phi sorority held an informal house dance last Friday evening at their sorority house on Sierra street in honor of their new pledges. The patrons and patronesses were Mrs. Ila Preston, Miss Lillian Esden, and Dr. and Mrs. Louis Lombardi.

#### GAMMA PHI'S HOLD HOUSE DANCE

Members of the Gamma Phi Beta sorority entertained with an informal dance at the chapter house on Sierra Street, Friday night, in honor of their pledges.

The chaperones were Mr. and Mrs. Neil Scott and Mrs. Adele Hammill. Music was furnished by Embree Raiford's campus orchestra.

#### HALL ASSOCIATION SCHEDULES DANCE

The first dance of the semester for Lincoln Hall association will be held tonight at the hall. Guy Morris, chairman for the dance, announced that it would be a barn dance. The chaperones for the dance will be Professor and Mrs. Paul Harwood and Professor and Mrs. Robert Griffin.

#### THETA'S TO ENTERTAIN AT DANCE TONIGHT

Kappa Alpha Theta will hold an informal pledge dance Friday night, October 18, at the chapter house on Sierra street. Embree Raiford and his orchestra will furnish the music. Patrons and Patronesses will be Mr. and Mrs. Duane Mack, Mrs. Frank Humphrey and Mrs. Walter L. Shafer.

Three universities in Chicago are sponsoring a university of the air.

### Intra-Mural Swim Practices Start

Practices for the intra-mural swimming meet to be held November 22 started this week in earnest, according to Betty Simpson, manager.

New pledges are to receive training at Moana today, and on November 8, 15 and 18, under the direction of Mrs. Mae Simas, assistant professor of physical education for women, and Miriam Butler, her assistant. Old members are also training, and it is predicted that this will be the best meet ever held. A new trophy will be awarded the winning team.

In order that the contestants may judge their ability by weekly improvements, a tabulation of last year's records has been posted in the gymnasium.

### Frosh Offenders Entertain Women

Upperclass Group to Punish Tradition Breakers at Meeting

Freshmen women tradition-breakers paid the penalty of their offenses this morning by entertaining the Associated Women Students' meeting, as decided by the women's upperclass committee Monday.

The girls were called before the committee Monday, and given an opportunity to explain their conduct. Sentences were then passed on the guilty and those with legitimate excuses were dismissed.

Failure to appear on the part of Catherine Booth, Elaine Cline, and Verla Mae Nelson was regarded as a second offense by the committee, and these girls will be summoned before the committee again next week.

The women's upperclass committee, as described by its chairman, Florence Kirkley, aims, "not to tear down but to build up spirit among the younger women. All members of the committee are seniors and have had three years of experience upon which to judge campus conduct." Of the freshmen women she says, "We are anxious to see them started off on the right foot."

Freshmen girls who are not present at the painting of the "N" tomorrow, will be called before the committee Wednesday.

Miss Kirkley asked that all excuses be submitted to Charlotte Robinson. Miss Robinson can be reached by phone either at the Delta Delta Delta chapter house or at 8223.

Skits, pantomimes, songs, and dancing were among the entertainment this morning. Those participating were: Fay Caple, Thelma Gillies, Doris Jackson, Isabel Jaynes, Eloise Lyon, Dorothy Marks, Charlotte Michaels, Gertrude Polander, Theodora Pulney, Clara Smith, Marie Varmon, Mary Venturino, Vivian Williams, Patricia Lannon, Helen Brown.

### Cap and Scroll Discusses Plans For School Year

Cap and Scroll, honorary women's upperclass society, held its first meeting of the year last night, with a dinner being held at the Columbo hotel.

The meeting was held in order to formulate the policy of the group for this year, and plans were discussed for the remainder of the semester. Projects on which the organization might work were also discussed.

Meetings for the remainder of the semester will be held regularly every other Thursday. Mary Corecco, president, announced.

### Indian Welfare Work Sponsored by Y.W.C.A.

The Social Service department of the Y.W.C.A. is again carrying out Indian welfare work with a meeting of all those interested in the welfare work being held last night at the Indian village. Miss Ethel Babb, a social service worker from the east gave a short talk at the meeting.

## Women The Hat of Sagebrush Women

### 430 Tags Sold As Brick Sale Ends

Agnes Howell Takes Prize, Lack of Cooperation to Bring Punishment

Selling "brick" tags to 430 students on the campus, members of the "Buy a Brick" campaign Thursday turned in a total of \$43 toward a new student union building, to the Associated Women Students.

Agnes Howell, Beta Sigma Omicron pledge, will be awarded the prize for selling most tags, making the second consecutive year that a member of the sorority has won. Georgia Cooper was the recipient of the award last year by selling over one hundred tags. Competition each year has been very keen, as freshmen women are judged for school spirit by the part each plays in activities which benefit the university.

One hundred fourteen freshman women co-operated with the committee in the sale. Twenty-four failed to respond to the call for salesmen, and are subject to upperclass punishment in the form of entertainment at the next A. S. U. N. meeting to be held November 1.

The committee had set as their goal 500 sales, but failed to realize it. More than half of the student body failed to buy a brick.

The added \$43 brings the total amount of the fund to \$158, a third of which was taken in during the 1934 campaign.

Members of the committee in charge were: Frances Burke, chairman; Florence Kirkley, chairman of Women's Upperclass Committee; Betty Simpson, president of Sagebrush pep organization; Rita Winer, Joyce Dodge, and Janet Parish.

### Gamma Phi Beta Sponsors Socials

The first of a series of social hours to be held by Gamma Phi Beta throughout the semester was held Friday afternoon from 4 to 6 at the Gamma Phi house. This tea was given for the pledges and active members of the sorority. Several of the members modeled appropriate campus outfits and the remainder of the afternoon was devoted to dancing. Eleanor Bateman and Norma Anderson were in charge of the affair.

These social hours will be held every Friday afternoon, and plans are being made to invite the various sororities and fraternities to one during the semester.

### VISITS IN SPARKS

Lorraine Johnson, former university student, returned to Sparks to visit relatives. Miss Johnson is attending business college in Sacramento.

### Back student activities.

Madella Beauty Salon 134 Sierra St. - Phone 3533

### Hot Dog Sales Clear \$40 Profit

A profit of \$40 was cleared by the sale of hot dogs at the football game last Saturday. Frances Nichols, in charge of the sales for W.A.A., stated that this amount is one of the largest profits ever made at a game.

The sale of ice cream by the Sagens, resulted in a profit of \$16.30. Cold weather made the popsicles and eskimo pies especially hard to sell.

Freshman women who did not report to sell at the game will be turned over to the women's upperclass committee for punishment.

### Pi Phi's Honor Pledges at Tea

Pi Beta Phi will honor its new pledges, Miss Katherine Priest, president of alumnae, Mrs. Ila J. Preston, the sorority's new house mother, and Eunice Caton, president of the house, at its annual presentation tea in the house tomorrow.

The tea will be held for the townspeople from 3 to 6 o'clock, and Mrs. Fred Balzar, Mrs. J. N. Gray, Mrs. E. G. Carville, Mrs. Hepburn Lunsford, Mrs. George Robinson, Mrs. Fay McCusiston, and Mrs. William Shipaugh will preside. Open house will be held for the campus from 7 to 9 o'clock.

The honored pledges are: Betty Brinkerhoff, Charlotte Caton, Doris Chesnut, Martadel Cooper, Dorothy Devore, Virginia Heany, Isobel Henderson, Betty Inda, Elna Jepson, Maxine Leonard, Eloise Lyon, Georgia McFadden, Martha Nelson, Gertrude Polander, Jean Rice, Nina Stinson and Gene Wines.

### BREAKFAST PLANNED

A communion breakfast will be held by the Newman club Sunday morning after the 8:00 o'clock mass. Lillian Guisti and Mary Louise Carmody are in charge of arrangements.

### Y. W. C. A. to Take Roll at Meeting

Roll call will be taken at the first regular meeting of the Y.W.C.A. to be held October 30, it was decided by the cabinet, last Tuesday night.

Although the membership drive closed officially on October 15, women can still join upon request, it was announced by Winifred Walsh, who is in charge of the drive.

The cabinet discussed tentative plans for a float in the Homecoming parade. The number of delegates to be sent to the Christmas convention at Asilomar, was also discussed. The meeting was held at the Mandarin Cafe.

### CARYL CARMAN RETURNS

Caryl Carman, '35, returned to the campus to visit over the week-end. Miss Carman is residing in Carson City where she is employed by the state highway department as a secretary. While in the university she was affiliated with Gamma Phi Beta sorority, and took an active part in publication work.

### "IS IT?"

"We recognize the fact that football has become the supreme purpose of higher education." This is the statement of Martin L. Davey, governor of Ohio, which was reported in press dispatches reaching Reno last week.

But we wonder, has it?  
In recent years this criticism of the American college system has been frequent, and there is little doubt but that a great majority of the people in this country are inclined to believe that this is the gospel truth.

But we wonder, again, is it the truth?  
The answer is a decided "No."  
Anyone who thus unqualifiedly makes a direct accusation of the college system is not fully acquainted with his subject, otherwise he could not possibly make it and still look himself in the face.

Football, it is true, has gained a position of prominence on campus all over the United States, and a good football game will inevitably draw a much larger crowd than a lecture on the Darwinian theory.

But is this the fault of the college or of higher education in general?

The answer to this question is also a "No." And if any blame for this situation must be placed on anyone's shoulders, it belongs on the general public, not the students'. The lectures are there, but the public wants the blare of drums, the gymnastics of cheer leaders, the spectacle of hundreds of young voices yelling in unison, and the thrills that all go to make an inter-collegiate football game. They demand this, and student bodies all over the country do their best to satisfy them and at the same time to enjoy themselves. Both students and the public enjoy this "circus" atmosphere, otherwise it would not be prevalent.

But if anyone still believes that "football is the supreme purpose of higher education" after he has examined all the facts openly and with a fair mind, then let him ask any college student why he is in university.

The answer will be that he is there to further his education, and that football is just a side-line.

A little personal inquiry will show the fallacy in any statement similar to that of Governor Davey, and if the governor had made such an inquiry, he could not honestly cast such an aspersion on the college system of the United States.

### A GOLDEN OPPORTUNITY

An attempt to bring the faculty and student body into closer contact with each other is now being made, with the first Faculty-Student social hour being held Wednesday night, and plans for more such social hours and other events which will bring the students and their professors closer together expected to be made soon.

This move is entirely in keeping with the Nevada tradition of a close friendship between the faculty and the students, and every attempt should be made this year to make this feeling of good fellowship more prominent than ever before, and, to do this, not only the assistance of all the under-graduate pep organizations but every student and professor will be needed.

Nevada is a small college, and, in the past, there has been more than just the relationship of a teacher to his students between the faculty and the student body on the campus, but in recent years, this feeling has become less pronounced. Students, as much as they would like to, have had little to do with their professors outside of the classroom, and the faculty has less and less to do with student activities.

This drift has become so noticeable recently, that older graduates have commented on it, and have wondered what is the matter.

The blame for this lies on both the students and the faculty. The students, on their side, have failed to see that the faculty will do its best to advise them in their activities, and that members of the staff are human, having interests in common with the student body. A growing feeling among faculty members that students do not wish to have members of the faculty meddling in their affairs is also responsible for the widening drift to a marked degree.

The faculty is not entirely blameless, however. The professors have taken the attitude of a few as the attitude of the many, and they have lost all but a perfunctory interest in student affairs. They have failed to give student activities the much needed advice and direction which is necessary, if there

is to be a happy correlation between these activities and curricular life, and, instead of offering constructive criticism, have tended to blast student activities among themselves.

Of course, the Sagebrush realizes that there are many faculty members who still retain a whole-hearted interest in student activities, and who are not afraid to show that they are interested in the students, both in classrooms and in extra-curricular activities.

But this is not true of the great majority. Many professors are unknown outside of their classrooms, and, as far as this group is concerned, the many activities which go to make up a well-rounded collegiate life, have no value whatsoever, and any time spent in them is so much time lost.

It is not too late to remedy this, however, but it will take the combined efforts of both students and faculty. There is no doubt but that the student body and the faculty both will benefit from a closer association, and this cooperation will make Nevada not just a college, but a great college.

Large colleges in both the eastern and western parts of the United States recognize the fact that there must be a personal relationship between students and faculty members, but they cannot achieve it. We at Nevada can, but there has been little effort to do so.

Whether the opportunities opened by Blue Key's Faculty-Student social hour are to be taken advantage of remains up to the faculty and the students, but there is no time like the present. The chance should not be lost.

### PROPOSED AMENDMENT TO THE CONSTITUTION:

TO AMEND ARTICLE 7, SECTION 7, TO READ:

Surplus funds of any publication shall be allotted as follows:  
(1) One-half of any surplus shall revert to the central treasury and be credited to the general A.S.U.N. account from which fund, sums may be requisitioned by the Publications board with approval of the finance control committee.  
(2) One-fourth shall revert to the editor, and one-fourth to the business manager of the publication as salary bonuses.

### Ago This Week—

#### FROM THE FILES OF THE 'BRUSH

**40 YEARS AGO**  
Kate Reigelhuth was elected secretary of the junior class at a meeting held last week.

The University of Nevada social club has been formed to stimulate closer acquaintance between students.

Fall field day will be held Saturday at the fair grounds. The main events of the day will be contests between the sophomores and freshmen.

**30 YEARS AGO**  
Miss J. E. Weir returned this week from Lovelock where she has been investigating Indian material for the Bureau of Ethnology at Washington, D. C.

Sam Davis, famous Nevada humorist, will speak at the English club tomorrow evening.

A regular meeting of the University Press club will be held next Thursday evening.

**20 YEARS AGO**  
Secretary of the Treasury, W. G. McAdoo, was guest of honor at a special assembly meeting held in the gymnasium today.

A smoker and banquet was given by Lincoln Hall Association for members and guests last Saturday evening.

Delta Delta Delta sorority was entertained by their pledges at a social meeting held Monday evening.

### Wolf Howls

Things have come to a pretty pass when all the girls who go steady ditch their boy-friends for out-of-town dates. Maybe "Dear Hunting" Rhodes and Grizz O'Connell don't satisfy Theta's Arentz and Emminger, seeing as how they went for the San Francisco collich men in such a big way. All we can say is that what's good for the boose is plenty good enough for a don.

When a senior ducks a frosh frill that's news, but when the frill flips a senior, that's dirt. And that, dear readers, is why the great Carroll seems to be slipping. It seems that Cafferata skipped her date with Hill last Saturday to go out with Hellman—which brings to mind the old axiom that "the bigger they come, the harder they fall."

A dirt column without poetry is like an ostrich out of water, and, seeing as how our license hasn't been revoked, the Gift of the Week club brings you another smash hit in the drummer of college life.

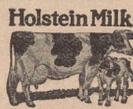

"Hand me down my bottle of corn, Oh hand me down my bottle of corn, Oh hand me down my walking cane, I'm leaving Manzanita the way I came, For all my sins are taken away." Were we surprised when this came in on the good old request hour, but did we fall over when they announced who it was for.

Ginia (if you please) Crosby tried very hard to look the sophisticated when the Pressed Clubbers gave their skit before the Associated students last Friday. Just a waste of talent we think, but she did try hard.

hand (pardon us if we grow sentimental) and things are progressing very nicely, thank you.

Good old Wolf Howls is getting plenty tired of having to depend on the all request hour for fifth, and from now on, only those who really deserve it will crash this column that way. But of course we gotta mention "Never Say Never Again Again" Lanson. He's getting his old appeal back again.

We don't like the lousy pun pulled at the football game last week, but beings as how it's Meek and Basta, or Basta and Meeks, it's worth a squib.

When the famous "Socks," pride of the Alpha Tau Omegas, tackled that guy, one of the campus wits announced "He wasn't very Meek about that," or words to that effect.

But never-the-less we do like the nice and refined way in which that couple got wrapped up in themselves and "rat race" all over the social.

# Pack Is Defeated By U. S. F. Dons By 27 to 7 Score

### 4000 Spectators Watch Wolves Bow to Determined Air Offense

### John Ohrt Crosses Goal Line To Score Nevada's Touchdown

Coach C. L. "Brick" Mitchell's fighting Wolf Pack, playing their first home game of the season, went down to a 27 to 7 defeat last week-end at the hands of the University of San Francisco Dons, the game being played before more than 4,000 spectators, one of the largest crowds ever to assemble in Mackay stadium.

The visitors were supported by a band, three cheer leaders and a rooting section of more than 100 students. The bands from both schools executed colorful drills before the contest and, during half-time, combined in band maneuvers.

### Fumbles Costly

Both teams displayed good football in spots, but numerous penalties and costly fumbles marred the contest. Despite the score, the game was thrilling and the two elevens were evenly matched.

Johnny Ohrt, Nevada quarterback, was the key man of the Wolf offense, accounting for the lone touchdown as well as several good gains. Caldwell, Showalter, Bradley and Smith were the bulwarks on the defense. Starring for the Californians were Peterson, whose long punts were one of the highlights of the game, Bacciarini and Pucci.

### Dons Cross Line

The Dons drew first blood midway in the first quarter. Showalter kicked off for Nevada and after the second exchange of punts the Dons began a sustained drive from the Nevada forty-four yard line with Peterson and Pucci doing all the heavy work. On the Nevada four yard line, Pucci fumbled and See-no, S.F.U. end, recovered over the goal line. Blawett converted giving the invaders a seven point advantage.

### Ohrt Scores

The Wolves, playing heads-up ball in the second period, capitalized on Smith's recovery of Ward's fumble on the Nevada twelve-yard stripe, sending Ohrt through the center of the line for a touchdown. Caldwell converted for the extra point.

In the second half, with the score deadlocked, the Dons took to the air and found the Wolf pass defense ailing. Marching to the eighteen yard line Bacciarini passed to LeRoy for the score.

From there on, Nevada started playing a wide-open game in an endeavor to cut down the lead. On the next play Sauer took the kickoff, ran it back to the thirty-five and attempted a lateral to Ohrt which went over his head, bounding back to the Nevada twenty-two where it was recovered by Reid for the Californians. Pucci, after making it first down on the four, hit the center of the line for their third score.

### Intercepts Pass

The final S.F.U. score came in the fourth stanza with Passahisi, reserve center, intercepting Powell's pass and racing eighty-five yards down the far sideline to score standing up.

In the second half Nevada outgained the visitors, rolling up ninety-five yards as compared to eighty-eight for the Dons.

# Ely Scores Win Over Las Vegas

The Fallon and Sparks high school football teams emerged victorious in their conference clashes last week-end, although the biggest upset in Nevada high school competition occurred when Las Vegas was defeated by Ely.

Sparks defeated Lovelock on the latter's home field to the tune of 21 to 6, while Fallon journeyed to Yerington to

# C. of P. Bengals Aiming for Wolves

### Stagg's Team Rumored Strong Despite Gael, U. S. C. Defeats

Suffering defeats in their first two starts this season, the College of Pacific Tigers will be out to give the Wolf Pack a football lesson in their game here Homecoming Day.

Coached by Amos Alonzo Stagg, the "Grand Old Man of Football," the Tigers are still regarded as one of the leading teams in the Far Western conference, despite losing games to Southern California and St. Mary's.

### Stagg Willy

Stagg recently celebrated his seventy-third birthday and most of those years have been spent in teaching football, at the University of Chicago for almost fifty years and at the College of Pacific for the last three seasons. Many of the plays that Stagg is showing the Tigers this year were first tried almost half a century ago, but the "Old Man" says that that age of the plays will be of advantage, because they will have been forgotten by most of the coaches of the present time.

### Tricky Team

In all of the games played so far this year, the Pacific football team has shown a fast and tricky style of play, featuring a complicated pass attack and a number of deceptive spinner arrangements.

In the first game against U.S.C. Stagg's men held a one touchdown lead at half time, and the Trojans were reported to be a frightened lot of footballers when Coach Howard Jones took them out for half instructions. The Tiger attack in the first effect continued unabated in the second period, but the Trojans raised their standard of play and pushed over three touchdowns before the final gun sounded.

### Gaels Win

Sunday against the Galloping Gaels of St. Mary's the score showed a different story, ending 33-0 in favor of the Gaels. College of Pacific was not snowed under as far as the score indicates, however, and put up a strong fight for the full sixty minutes. Superior play and inability to make their own plays cleft as they should proved their downfall, and Stagg went back to Stockton Saturday night firmly resolved to correct these defects before the Tigers face San Jose tonight, and to further strengthen the attack before October 26, when they face the Nevada Wolf Pack on Mackay Field.

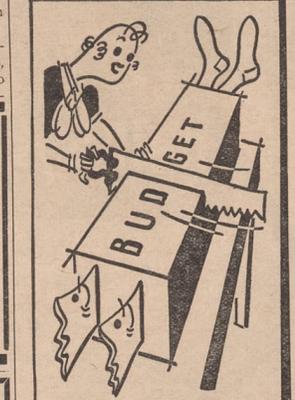

Defeats by St. Mary's is the only basis of comparing the strength of Nevada and College of Pacific. On the showing the teams each made against the Gaels, Nevada is two touchdowns better than Pacific. Whether comparative scores are a true indication of the ability of the Wolves to conquer the Tigers Homecoming day remains to be seen.

defeat them 33-0. These two teams are leading the high school conference race. Ely defeated Las Vegas by a score of 15-13.

Other week-end results include Reno's defeat in Auburn by a score of 19-0, and Stewart defeated Bishop, 20-6.

Two thousand twenty-one midshipmen will report at the Annapolis Naval Academy today for this year's enrollment, the largest since 1931.

# Statistics Show U. S. F., Wolves Evenly Matched

According to statistics for the Nevada-S.F.U. game, the two teams were fairly evenly matched. Although the Dons more than doubled the Wolves' yardage gained from scrimmage for the whole game, Nevada outgained them in the second half, advancing 95 yards as compared to their opponents' 88.

In the aerial department, Nevada completely outclassed the visitors, connecting four out of their nine passes for a net gain of 70 yards. S.F.U. gained only 30 yards via the air.

Statistics for the game were as follows:

	U.S.F.	U.N.
Total yards gained	300	230
Yards gained from running plays	182	81
Yards gained on passes	30	70
Passes attempted	8	9
Passes completed	2	4
Passes intercepted	2	2
Yards lost from scrimmage	22	12
Yards lost on penalties	65	10
Total first downs	10	4
Average length of punts and kickoffs	40	39

# Frosh Developing Into Fast Team For Lassen Tilt

University of Nevada freshman, after being upset in their first start, are working hard to get in shape for their second encounter with the Lassen Grizzlies to be played on Mackay field, November 2, as a preliminary to the Cal-Aggies game.

The Cubs, thirsty for revenge, are digging their cleats in the turf with determination to avenge the shellacking received in Susanville three weeks ago.

Up to date, the freshman have been practicing plays that Scout Beasley has obtained from opponents in the Nevada varsity, learning a different system each week. One system, to be used against Lassen, will probably be worked out to enable the team to master perfect timing and teamwork, which is lacking in the present set-up.

Although the Frosh squad is not as heavy as in previous years, it is a fast and shifty team which if given a break should go to town.

Emmiline Christensen, Gamma Phi Beta, worked at Lake Tahoe during the summer.

# U. C. L. A. Victory Marks Coast Play

Pacific coast football was marked by only one upset, while all the other favored teams came through as expected last week-end.

Scoring the major upset of the season, University of California at Los Angeles turned back the Stanford Indians last Saturday, 7-6.

Outgained in yardage, and outweighted, the Bruins held on to their slim lead, turning back attempt after attempt by Stanford to score.

Fullback Ted Key of the Uclans made the sole touchdown and conversion for them, while All-American Bobby Grayson made the only tally for the Redskins. Monk Mescrip, end, another member of Stanford's Rose Bowl team missed the conversion that would have tied the score.

The Golden Bears kept their slate clean by defeating Oregon in rainy weather 6-0 Saturday. This score came after an Oregon punt was blocked by Larry Lutz, the ball being taken by the bears on the two-yard line. Californian followers have great hopes for this year's team, already boosting it for the New Year's game in the Rose Bowl.

The once great Trojans took a trouncing at the hands of Illinois in the first inter-sectional game of the year 19-0. Little of the power shown by other Jones' teams was evident in the game played in Los Angeles, Saturday.

In the games played in the Bay region, St. Mary's walloped the Stagmen 33-0. The Galloping Gaels showed a wealth of power against the valiant stand of the College of Pacific Tigers. Pacific's passing attack was not in evidence as against U.S.C. the week before.

Equalling the score made by their larger brother, the varsity, against the same team, the California Ramblers defeated the California Aggies, 47-0.

The Broncos from Santa Clara valley took the measure of Fresno State in the Raisin City, 24-0. Only one drive was made by the Bulldogs netting them fifty yards on passes and end plays.

Richard Stoddard worked for the highway department at Fernley.

# Mitchell to Use New Formation In Wolf Attack

The style of plays of the U. of N. football squad this year is much different than those used in any previous season, and because of this the fans attending games this fall will probably be bewildered at first.

Coach "Brick" Mitchell's system being used this year embodies the principles of Nibs Price's single and double wing back formations. Brick has scheduled a fast and powerful offensive on the ground, with a lot of forward passing to help his running attack. Signals this year will be called by the quarterback instead of the center as was done last year.

For the information of the bleacher coaches a diagram of the formation used to start the double wing back plays is printed below. The play proposed is known as a "spinner reverse," and will be used by the Wolf Pack several times this season. Fans may complete the diagram according to directions listed below:

The circles represent opposition team, while the "X" team represents Nevada. The players' duties are:

Left end blocks right tackle. Left guard goes down field and blocks defensive center. Center passes ball and helps block guard. Right guard joins center in blocking opposing guard. Inside tackle blocks the other guard. Outside tackle goes down the field and blocks the opposing fullback. Right end blocks tackle. Fullback receives ball from center, fakes to left half coming around, spins and follows right half back through the center of the line. Quarterback runs out to block left end.

### FROM THE SHOWER

Five hits, five runs, no errors! That's the stupendous record chalked up by the old Showers' department in predicting results of coast grid games with uncanny accuracy last week. All credit for this remarkable and colossal feat of soothsaying goes to Madame Getta Shower, successor to the Washoe Seeress.

This week the Madame takes another gander into the suds of the beer stein which serves her for a crystal, and comes up with the following forecasts: U.S.C.-Oregon State: the staggering Trojan will land his Sunday punch on the Beaver. Oregon-Idaho: the Web-foot to duck the Vandals. Washington-Washington State: the Huskies take the Cats' pajamas Saturday. U.S.F.-Gonzaga: Pucci will probably poosh the pigskin plenty, Dons winning by a big score. California-Santa Clara: The Madame's beer is getting flat, so we'll have to call this one a tie.

Stanford's aspirations for another Pacific Coast title went glimmering this week with the discovery that an eye injury has ended the gridiron career of Frank Alustiza, veteran punting and blocking star. Already staggered by the surprising beating handed them by the Uclans, the Indians will have a long up-hill climb from now on.

Says the Spartan Daily, of San Jose State: "—good luck to 'Brick' Mitchell's University of Nevada Wolf Pack against all their other opponents in the Far Western Conference. (Accent on OTHER)."

With the Greeks already engaging in practice sessions, interest on the campus is centered on the inter-fraternity bas-

# Light Scrimmage Set for Tomorrow By Wolf Mentor

### Men Recover from Injuries Received in U. S. F. Match

### Wolf Pack Gets Into Shape for Homecoming Tilt With C. O. P.

Enjoying the second open date on the schedule, the University of Nevada Wolves will hold a light scrimmage tomorrow in order to insure against injuries before the Homecoming day game with College of Pacific.

Men injured in the San Francisco game are almost fully recovered and will see service in the Pacific game.

#### Men in Shape

Among gridgers newly recovered is Gerald Dellano, who has not been able to play in any games because of an early season injury, but will now give the tackles in the present lineup a race for the starting call.

Minor injuries were received by Joe Cleary and Hollis McKinnon, ends, and George Tharp, half. However they will be in active practice by Monday. George Hadlen, guard, has his ribs in a cast but may be able to play by next Saturday.

The head injury received by Bud Showalter is not bothering him any more, and the heavy tackle will see plenty of action in next week's tussle. Due to the crippled players not being able to participate, many changes have been seen in the line-up during the past week, but practically the same starting line-up of the San Francisco game can be expected for the game with the Stagmen.

### Traner Addresses Prep Teachers

Dr. Fred W. Traner, professor of education at the University of Nevada, was one of the principal speakers at teachers' institutes held at Winnemucca and Elko this week.

Recognized as one of the leading authorities on education in the state, Dr. Traner spoke to the institute at Elko on the subjects of "The Teacher and the Problem of School Finance" and "Educational Leadership."

He addressed the teachers meeting in Winnemucca today, using the same subjects as his other talk.

### Noted Engineer Will Be Speaker At M. E. Banquet

Mechanical Engineers will play hosts to R. E. Flanders, president of the American Society of Mechanical Engineers, Wednesday night, when they will hold a banquet in his honor.

In the afternoon Flanders will speak to the Associated Engineers. His talk will begin at 3:30, and will last one hour.

Flanders is very popular in mechanical engineering circles, having drawn up the plans for the International Paper Box Machinery plant at Nashua, New Hampshire. For the past 23 years he has been connected with the Jones and Lamson Machine Co. of Springfield Illinois.

He has been a member of the council of the American Society of Mechanical Engineers since 1926.

### Marathon Runners Clocked for Race

Despite the recent cold spell, training of entrants in the intra-mural cross country marathon to be held Homecoming day is progressing steadily.

Most of the contestants have made practice runs over the course from Sparks high school to Mackay Field during the week. Short workouts have also been held with the fall track class when weather did not permit running over the longer distance.

Leading in the pre-race time trials is Floyd Hand, Alpha Tau Omega winner of the race last year, who ran the four miles Wednesday in 23:45. Other entrants who have been timed over the course this year include Marvin Moler, Lambda Chi Alpha second place winner last Homecoming with 25:10, Andrew Morby, Lambda Chi Alpha, 26:00, and Murray Moler, Lambda Chi Alpha, 24:10.

Six fraternities have signified their intentions of entering teams in the cross country this year. Judging from the interest shown by the contestants in practice, the race will be one of the closest in several years.

The present record of 21:34.2, made in 1928, is held by Fred Lohse.

#### UNDERGOES OPERATION

John Franklin, senior student, underwent an appendectomy at the Washoe General hospital Wednesday night, after being taken ill early this week. He is said to be improving.

### Lecture Is Given By Noted Chemist

### Michigan Professor Speaks to Large Audience in Auditorium

In an illustrated lecture on "The Chemist and the World's Food Supply," Professor Howard B. Lewis, head of the department of physiological chemistry at the University of Michigan, spoke last night to about four hundred people in the Education auditorium.

Professor Lewis stressed the part played by the chemist in keeping the production of the world's food on a par with its needs.

In releasing land for cultivation, the chemist has been important in the development of farm machinery which made the draft animal useless and consequently turned land heretofore used for grazing to food production, said Lewis.

The chemist still has many problems, the speaker stated, such as perfecting an insecticide which will kill the insects and not render the sprayed foods unfit for consumption.

He has done great work, continued Lewis, in plant breeding to secure a better grade of product as well as a greater quantity.

The work of the chemist in utilizing various by-products of industries has been far-reaching in its effect. He has perfected methods of preserving foods, he has actually created foods out of substances which had before been regarded as useless, and has been a dominant factor in the control and cure of nutritional diseases of all kinds, stated the lecturer.

The chemist is chiefly responsible for the high quality of the modern canned foods, which through processes recommended by the chemist are preserved now without destroying the factor in foods which prevents scurvy. The chemist has actually synthetically produced a substance which prevents the disease and is used on present day Arctic trips.

After tracing the part of the chemist in discovery of the cause and the cure for rickets, Professor Lewis closed by expressing his belief that the chemist and the agricultural industry will continue to work together despite unsound fears that the synthetic method of food production marked the end of agriculture.

### Groups to Exhibit Work of Stephens

### Plans Complete

The works of Richard Stephens will be featured in the Fine Arts club exhibit to be held from October 20 to November 1, with Peggy Gill in charge.

Japanese Prints will be exhibited following Stephens works from November 3 to 15. Doris Bath will conduct the exhibit.

The fourth exhibit of the year will show paintings by Maurice Logan, which will be on display from November 17 to 27 under the direction of Louise Emminger.

For twelve days beginning on December 1, the works of Louis Macouillard and Inento Gonzales will be on exhibition which will be in charge of Kathryn Luke.

Exhibits will be open every afternoon from Sunday through Friday between 2:30 and 5:30; Tuesday, Wednesday and Thursday evenings from 7:30 to 9 o'clock.

The club is providing for lighting effects, in order that the best possible results may be obtained.

The next regular meeting for members will be held Wednesday, October 23, at the Delta Delta Delta house.

Tryees can earn membership by "sitting" for exhibits. Arrangements can be made by consulting the girls in charge of the individual exhibits.

At 9:00 a. m. everyone is urged to

continue to work together despite unsound fears that the synthetic method of food production marked the end of agriculture.

Professor G. W. Sears, head of the University of Nevada chemistry department introduced the speaker and announced the date of the next lecture in the adult series as next Thursday at 7:30 p. m. in the Mackay Science hall, when Dean R. C. Thompson will speak on "Religion and the Problem of Evil."

Send the 'Brush home.

...but, after all is said and done, it's the cigarette itself that counts

...the question is, does it suit you?

Now, when it comes to a cigarette that will suit you... you want to think whether it's mild, you want to think about the taste

That Chesterfields are milder and taste better is no accident...

The farmer who grows the tobacco, the warehouseman who sells it at auction to the highest bidder, every man who knows about leaf tobacco will tell you that it takes mild, ripe tobaccos to make a good cigarette.

In making Chesterfields we use mild ripe home-grown and Turkish tobaccos.

Outstanding .. for mildness .. for better taste
