

## Engineers' Fete Approved by Clark As Variety Show

### Plan To Be Tried for Two Years; Date Is Set By Students

### Groups to Continue Yearly Participation in General Homecoming

President Walter E. Clark this week gave his approval to the request of the Associated Engineers that one Saturday during the spring semester be known as Engineers' Day, on which a variety of exhibits and entertainment will be presented. This action came after a petition, signed by a large majority of the engineering students and faculty, was submitted to the president earlier in the week.

The new plan will be tried for two years, with March 14 set as the tentative date for the occasion.

Committees to take charge of the day will be appointed soon, Bob Butler, president of the Associated Engineers, announced at an engineering meeting Wednesday night. Stunts, novel exhibits, contests and a luncheon are planned. A night session with a lecture and a spectacular electrical display are being considered as additional features. The dances and parades which were a part of former entertainments will not be attempted this year, Butler said.

### First in Ten Years

This will be the first Engineers' Day in ten years, the last one having been held in 1925. The original Engineers' Day was begun in 1915, but was discontinued in 1925 because it was believed there were definite advantages to be gained by combining it with Homecoming Day.

The Associated Engineers will continue to enter a float in the Homecoming Day parade and the engineering laboratories will be open for inspection, although the former extensive exhibits will not be shown.

Attendance at the displays set up by the engineers for Homecoming Day has not justified the amount of work and planning necessary for them, according to the petition.

Carl Dodge, A. S. U. N. president, believes that the engineers deserve this chance, although he feels that there will be a hole left in the Homecoming Day celebration by the withdrawal of the engineering exhibits and contests.

## Education Talks Are Discontinued

The public adult education lectures scheduled for this semester have been canceled because of lack of interest, Professor Jay A. Carpenter, acting chairman of the committee in charge, announced this week.

The lectures, designed for the general public, were attended last semester by only a small group of faculty members and students. The first lecture given this semester was also received with the same lack of interest, though given considerable publicity.

"It has been decided to discontinue the lectures, at least for this semester, as they were evidently not accomplishing the purpose for which they were planned," Professor Carpenter said in canceling the series.

Lectures of a similar type are given on the second and fourth Thursdays of each month at the faculty science meetings.

## Sandorf Conducts Radio Code Class

Professor I. J. Sandorf of the engineering department is conducting a continental code class that meets Thursday at 4 p. m. in the Electric Engineering building. The class first met yesterday.

The code to be taught is used by amateur radio operators to communicate with one another all over the world. The code class is a preparatory course for the passing of an examination to obtain an amateur radio license.

No previous experience in the knowledge of radio is necessary for the course. All interested are urged to attend. The course was also given during the second semester of last year.

### CAP AND SCROLL TO DISCUSS MANNER OF RAISING FUNDS

Ways for making money at the annual tea dance to be held senior week will be discussed by members of Cap and Scroll, women's honorary society, at a supper meeting to be held February 6, Alice Coreock, president, stated yesterday.

Previously, Coffin and Keys, men's honorary society, has cooperated with the women on the dance.

## Museum Exhibits Welding Samples Given by Kehoe

An exhibit showing the welds made on pipe being used in Boulder dam with test pieces of the pipe illustrating bend tests, tension tests and other tests performed on the pipe, together with several films giving the results of X-ray examination of the pipe, were received this week by the museum of the Mackay school of mines, the gift of Basil Kehoe, superintendent in charge of the Babcock Wilcox company at Boulder dam.

Seventy-five miles of film have been used in X-raying pipe which is being used in the dam. This is more X-ray film than has ever before been used in industry. All welds are X-rayed, and the film must pass inspection before the pipe is installed in the dam structure.

It is now possible to X-ray widths of steel up to 4 inches, although 3 inches is the common width X-rayed at Boulder dam, according to members of the engineering faculty.

## Committees Named For Senior Week

### Bowrin To Head Major Group; MacGillivray Leads Gift Committee

With exactly 95 days to go until they have handed their diplomas, 60 out of Nevada's 84 seniors met last Wednesday afternoon in the Education building and appointed committees for senior week and the various senior activities that will occur during the remaining three months of school.

Tom Prunty, senior class president, outlined the plans suggested for senior week, and Walter Bowrin, Artemisia editor, was appointed chairman of the senior week committee, with Dorothy Roseberry, Winifred Walsh, Orva Selderkirk, Ray Armstrong, Catherine Dondero, Darrel Cain, Frank Sullivan, Bob Stoker and Catherine Armstrong assisting him. Dondero was selected to arrange the annual senior pilgrimage, Winifred Walsh was chosen to select the senior announcements and Frank Sullivan was appointed publicity director.

Inez MacGillivray, chairman of the senior gift committee, with Hugh Rossole, Lura Gamble, Paul Walker, Alice Lundberg, Bert Cummings, John Franklin, Arlene Boerlin, Andrew Morby and John Benson were chosen to aid in selecting appropriate gifts.

Robert Stoker and a committee appointed by him will arrange the annual faculty-senior baseball game which will be held during senior week.

A senior picnic and the grand finale at the annual senior ball will be held before the class of '36 receives its diplomas.

## Varsity Gridder Hurt in Tumbling

Kenny Powell, varsity football half-back, suffered a dislocated vertebrae in his neck Tuesday afternoon while performing in the tumbling class in the university gymnasium. Powell was immediately rushed by ambulance to the Washoe General hospital, where he was treated by Dr. Hood, university physician.

Powell will be released from the hospital within a few days, but will be compelled to wear a cast for several weeks. He was attempting a "back flip" at the time of the accident, and landed on the back of his head instead of completing the circle.

Powell is affiliated with Lambda Chi Alpha fraternity, and is a member of the student senate. He is a sophomore student, holding the office of manager of the freshman class last year. Powell is registered at Nevada from Las Vegas.

## Military Honorary Initiates Fourteen

Scabbard and Blade, national honorary military fraternity, initiated three honorary members and eleven active members in ceremonies held Sunday night at the Student Union building.

O. T. C. department at the University of Nevada; Captain Ernest Brown, district attorney of Washoe county, and Ensign Horace C. Ayres, instructor of mathematics at the University of Nevada, were given honorary memberships.

Charles Allen, Joe Lommori, Jack Richardson, Craig Moore, Guy Morris, Richard Sauer, Frederick Wood, John Carr and Wayne Kennedy, all first lieutenants, were taken in as active members.

The initiation was under the supervision of the senior members of the organization. A short business meeting followed the ceremonies.

## Summer Sessions May Be Restored At U. N. This Year

### Prof. F. W. Traner Discusses Possibility of Opening Ed. Department

### Arrangements Will Be Made If Enough State Teachers Desire Training

Possibility of restoring the summer session of the University of Nevada this year is being considered by the department of education, according to a statement by Professor F. W. Traner in the January issue of the Nevada Educational Bulletin.

The department of education is ready to consider the necessary arrangements if evidence can be obtained that there is a sufficient number of teachers or others who desire summer work. According to Traner, and those interested were urged to communicate at once with Dean John W. Hall.

### Plan Is Similar

If a summer session is to be maintained this year it will be conducted on much the same plan as in previous years, offering courses primarily of interest to elementary teachers, although possibly some work in education for high school teachers may be made available. There is also some possibility of one or two courses for students, Traner said.

Tuition is expected to bear most of the burden of the expense if the school is held this year, being raised from the former \$20 to \$25. Maximum number of hours of credit obtainable during this time will be six or seven.

The summer session is primarily intended for those who wish their teaching certificates renewed. Also, in some places, bonuses are given to teachers who have completed summer courses.

### Last in 1931

The last of these sessions was given in 1931, at which time the attendance was 149. This was an increase over former years, due to the fact that it had been previously announced as the last session. Lack of university funds was given as the reason for discontinuation and is the cause for this year's raise in tuition.

## Ward Recovering From Head Wound

### Hurt in Motorcycle Accident Saturday, Student Leader Improves Rapidly

Leland Ward, popular senior student injured in a motorcycle accident Saturday afternoon, is well on the way to recovery, his attending physician reported yesterday.

The accident occurred when Ward was riding on a motorcycle belonging to Bob Defosset, his fraternity brother. While going west on University terrace the machine went out of control and struck a retaining wall in front of the home of Prof. and Mrs. Jay Carpenter. Ward was thrown to the sidewalk, receiving a fractured skull and a broken hand.

Ward is very well known on the campus. He is president of the Interfraternity council and the Blue Key society, past house manager of Lambda Chi Alpha and a member of the Block N society, receiving his letter for track two years ago. He is a graduate of Las Vegas high school, where he served as student body president.

## Oaths To Be Taken By New Senators

With the swearing-in of new members as the principal issue of business, the A. S. U. N. senate will hold its first regular meeting of the spring semester February 6, just prior to the regular student body meeting scheduled for February 7, according to a statement from Carl Dodge, A. S. U. N. president.

At this time the president will also appoint a new nominating committee from within the senate consisting of three fraternity or sorority members and two non-fraternity or non-sorority members.

It is the duty of this committee to draw up and present to the senate for approval a separate panel for each student body committee. Election of a chairman from within the committee to serve as its spokesman in the senate will also be held at this time.

### SOCIAL CALENDAR

Friday, January 24—Alpha Delta Theta.  
Saturday, January 25—Sigma Alpha Epsilon.  
Friday, January 31—Publications banquet.

## Col. Stoopnagle Slays Students With Silly Stuff

"Colonel Lemuel Q. Stoopnagle," world-famous radio comedian, kept members of the university student body convulsed with gales of laughter for a half-hour today, at a special program sponsored by the Blue Key society in the Education building.

The "Colonel's" droll wit and quaint inventions were mingled with a serious discussion of modern radio programs and famous stars. His fanciful inventions, in particular, hit the fancy of the Nevada students, who gave the entertainer an enthusiastic ovation at the conclusion of his talk.

Here are some of the colonel's inventions, as he explained them to the student body: Roller skates without roller wheels so that people wouldn't fall down while learning how to skate; an alarm clock with half a bell so that when two people are sleeping in the same room only one would be woken up; a stepless stapler used down in the cellar when washing windows; a bookless hook for not hanging up your mother-in-law's picture on; pink ink for business institutions that are not losing very much money.

In more serious moments the colonel, who explained that he is in Reno for a divorce, told how he and his renowned partner "Bud" got their start in radio. He said they were working for a Buffalo radio station and were suddenly called on to put on an impromptu program for a quarter-hour when the station was suddenly caught in an emergency without a substitute act. For fifteen minutes the colonel and Bud poured their nonsense into the microphone, and at the same time introduced their famous theme song on the "gas-pipe organ." The act proved a tremendous success and the comedians' future was assured.

The colonel said that he and Bud had more fun when they were putting on spontaneous humor than when reading script, as their sponsors now compel them to do. He said he believed that the greatest comedians today are at their best when they are not trying hard, as humor should be natural.

He told how the creation of two imaginary characters, a person who makes Pullman car windows hard to open and an engineer who throws passengers out of their berths by remote control, got the comedy pair in trouble with a great railroad company.

The colonel concluded his address with explaining how he got his middle initial, "Q." He said that when he was born his father took one look at him and said to his mother, "Let's call it 'Quits'."

## Ayres Addresses Mathematics Club

### Lecture on 'Space Curves' Illustrated by Device Shown at Fair

Dr. H. C. Ayres of the mathematics department was the principal speaker at the meeting of the Math club last Thursday, giving an interesting lecture on "Space Curves."

The talk was illustrated by means of an apparatus devised twelve years ago by Professor Pollock of the University of Illinois. By use of this apparatus curves of the eighth order were formed by intersecting a quadric cone of light with a quadric cylinder. Curves of the third, fourth and sixth order were similarly demonstrated, and it was also explained by Dr. Ayres how curves of much higher order could be formed by use of the proper equipment.

A demonstration illustrating the same device was shown at the Chicago World's fair in 1933 and 1934.

Another feature of the meeting was a brief extemporaneous talk by A. L. Kistelman, who spoke of his solution of Newton's "Three Body" problem and on several other interesting observations he had made in connection with its solution.

Refreshments were served by a committee composed of Charles Allen, Margaret Jensen and Inez MacGillivray.

## Four Are Chosen To Attend S. F. Baby Beef Show

Vernon Tapogna, Antoine Primeaux, Paul Walker and Mark Yori were chosen by the Aggie club, at their last regular meeting, to attend the Baby Beef show to be held in San Francisco from April 15 to April 21.

This team was originally chosen to go to the stock judging contest in Ogden during the first week of January, but as it was impossible for them to go they were again chosen as representatives to this show.

## Honorary Major Candidates' Tea Opens Yearly Ball

### Committees Start Work on High Spot Function Of Calendar

### Manzanita Hall To Be Scene Of Formal Selection Tea Thursday

Definite plans were under way on the annual "high spot" on the campus social calendar as the committees appointed for the Military Ball began their work this week under the direction of Cadet Captain Nichols.

Nichols said, "The committees have begun to work already, and we hope to make this the finest military ball in years."

The traditional tea given by the local Scabbard and Blade society has been set for Tuesday afternoon between 9:30 and 6 o'clock by Guy Morris, chairman of the tea committee.

The tea will be held at Manzanita hall, with invitations to be tendered to the sorority nominees, house presidents, members of Scabbard and Blade and Dean Margaret Mack.

Manzanita hall yesterday appointed Jean Horning as their representative. Other nominees announced earlier in the week are as follows: Pi Beta Phi, Rita Jepson; Delta Delta Delta, Evamae Beemer; Kappa Alpha Theta, Ellen Creek; Gamma Phi Beta, Frankie Burke; Alpha Delta Theta, Isabel Scossa; Beta Sigma Omicron, Marireba De Armond.

Novel decorations depicting some form of military activity have been planned by the decoration committee headed by Walter Bowrin, to be assisted by Irvin Wanke, Tom Prunty, William Cockrell, Jim McNeely and Wayne Kennedy.

Publicity will be in the hands of Charles Allen, and the music taken care of by a committee headed by Tom Morris and assisted by John Carr.

The house committee announced this week that the dance will be held in the State building February 22 at 9:00.

Reuben Tuttle's eight piece orchestra will furnish the music. The grand march will begin at 9:30.

## Records, Vawter Attend Convention

### Nevada Veterinarians Tell of Deadly Horse Disease At Meetings

"Equine Encephalomyelitis," a deadly horse disease, which acts like sleeping sickness, and threatened to kill off all the wild horses in Nevada a few years ago, was the subject discussed by Dr. Edward Records and Dr. Lyman R. Vawter, University of Nevada veterinarians, at conventions which they attended the first two weeks in January.

Dr. Records spoke at the session of the Minnesota state veterinary society at Minneapolis January 4, 5 and 6, and also at a meeting of the Wisconsin veterinary medical association at Madison, January 8, 9 and 10.

Dr. Vawter attended the Intermountain veterinary meet which was held in Ogden, January 16, 17 and 18. It is the opinion of both men that great progress is being made in combating serious diseases among domesticated animals as evidenced by the reports given at the conventions.

## Lucas Appointed School Principal

Arthur Lucas, graduate with the class of 1932, this week was appointed principal at Wadsworth high school, replacing Byron Stetler, who has accepted the principalship at Battle Mountain. The appointment of Lucas to the Wadsworth school came as a result of transfers made during the past month when Earl Wooster, formerly of Winnemucca, was appointed Reno high school principal.

Lucas while attending university was active in student affairs, and was a member of the debate squad. He is a member of the Lambda Chi Alpha fraternity. Following graduation, he taught at Gerlach for two years, and in 1934 was employed at Fernley. Last year he was given a position in the Churchill County school. Stetler, former principal at the school, is a graduate with the class of 1929, and has been stationed at Wadsworth since that time.

### HARRIMAN CRACKS ANKLE

Georgianna Harriman cracked an ankle bone during a basketball game Thursday afternoon. The injury was treated at the university hospital, and Miss Harriman is now confined to the Gamma Phi Beta sorority house. She is a junior student at the university.

## Omega Mu Iota Plans Ceremonies For Pre-Meds

Initiation ceremonies will be held Saturday at midnight for nine medical students who will become members of Omega Mu Iota medical fraternity at that time.

The initiatory rites will be held in the Agricultural building. S. Allan Lough, associate professor of chemistry, will give an address after the ceremonies. Refreshments will be served to the members soon after the initiation takes place.

The medical students to be made members, according to Fred Hartman, president, are as follows:

Eleanor Risser, Jack Palmer, Morgan Jarvis, Richard Summerbell, Margaret Gorman, Mary Catherine Blakeley, Malcolm Nobs, Herbert Jacobs and Helene Fulton.

## Cast Is Selected For Campus Play

### 'Hell Bent for Heaven' To Be Presented by Dramatics Department

The cast for "Hell Bent for Heaven," first spring presentation of the University Play Productions department, has been selected by William C. Miller, director.

Tryouts were held on Monday and Tuesday afternoons of this week to determine if there was enough talent among the university students to make it possible to cast the play. The play, which was selected as the Pulitzer prize winning play for 1933, was tentatively selected last year by Miller for production, but the lack of material made such an endeavor impossible.

Miller Takes Lead  
The part of Matt Hunt, an expounding, fanatic emissary from the Almighty, is to be played by Robert Miller. This will be the third major part that Miller has been cast for in university productions.

As William, shouting "What the hell kind of a night is this?" he made his entrance into campus dramatics, when "The Tavern" was presented last spring. In "Both Your Houses" he portrayed the old-fashioned politician who preferred his "likker" straight.

As Matt Hunt, Miller will take the part of a religious mountaineer who almost disrupts the ideals and beliefs of the Blue Ridge mountain folks. Although he poses as a religious man who has received his beliefs from God, a complicated action, including many amusing situations, reveals him to be the villain.

Jessie McClure, a sophomore student, has been selected as Meg Hunt, wife of the religious fanatic. The family circle is completed by two sons, Sid and Max, to be played by James Hawkins and James Parker. This will be the second play in which Jessie McClure and James Parker have been cast. They both had parts in "Double Door," presented last spring. This is the first campus play in which James Hawkins has appeared but he has had a great deal of high school experience and is a member of the Little Theater.

New Players in Cast  
The other members of the cast are Kathleen Meeks as Jude Lowry, Melville Wilder as Andy Lowry, and the part of Rufe Pryor will be played by Dave Goldwater. Both Goldwater and Miss Meeks are performing for the first time in a campus play. Wilder was a member of the cast of "Both Your Houses."

The University of Nevada band will make its first public appearance of the semester tonight when the campus musicians play for the Nevada-San Jose basketball game.

Under Professor Theodore H. Post, director, the band will present a program consisting principally of novelty numbers and popular jazz selections, arranged for the band by Reuben Tuttle, assistant director.

The organization will play at all of the home court games this term and will probably present a special public concert out of doors later in the semester.

## U. N. Postmaster Falls Ill at Work

Robert Prescott, for many years postmaster at the university station, was taken suddenly ill with hemorrhage from gastric ulcers late last week while at work and removed to his home, where he is being treated.

Mrs. Prescott, who is a trained nurse, is caring for her husband, who intends to return to work in a few days when his strength has fully returned.

Work at the university postoffice has been taken over temporarily by Ray Briggs until Prescott returns.

## San Jose 'Mites' Invade U. N. Court For 2-Game Series

### Fast-Breaking Spartan Team Boasts Strong Record For Season

### Injuries Cut Deep Into Wolf Varsity; Forward Pair At Peak

Small in stature, but excellent on the court, the "Mighty Mites" of San Jose State will invade Reno tonight and tomorrow to take on Nevada's husky cagers in a non-conference series.

### Upset Utah

The Spartans have, in height, one of the shortest teams on the coast, but their fast-breaking offense has been of sufficient strength to eke out victories over some of the most powerful teams in the bay region. The Spartans boast an upset over the barnstorming Utah university's highly-touted outfit.

The Mighty Mites, as they have been dubbed by San Jose sports writers, have lost games to U. C. L. A., St. Mary's, Utah State and Stanford, all famous teams, but turned in creditable performances while coming out on the short end of the score.

### Robb, Tregellas Injured

Nevada's "dead-eye" scoring pair of forwards, "Orv" Tregellas and John "Ham" Robb, will be slowed down by leg and foot injuries, and may not see much action. Coach J. E. Martie will probably depend on De La Mare, forward, and Clayton Phillips, veteran center, for his biggest offensive threats.

Robb and Tregellas went wild at Chico last week, sinking shots from all angles, and there is a possibility that this pair may go on another scoring spree if they get in the San Jose games.

Captain Larry Americh of the Spartans is their "big gun" on attack. This smooth-working cager leads his team in scoring with 59 points listed last week just before the return game with the Gaels.

Diminutive Dave Downs is another visitor who will provide Nevada's star guards, Al Lansdon and Vernon Tapogna, with considerable trouble this weekend. Downs has chalked up 47 points to date.

### Guards Strong

Nevada will probably have more scoring power in the guard positions than the visitors. Lansdon and Tapogna both tower around the 6 foot 2 inch mark and work well in Martie's "coffee mill" rotating offense. Gusovich, substitute guard who passes equally well with either hand, is like his teammates at the guard berth, a long shot artist.

Stan Smith, substitute center who started one of the Chico games but was forced out within five minutes with a sprained ankle, will be in shape this week for the clashes with the Spartans, according to Coach Martie.

Malcolm Jones, who also holds down a second string varsity forward post, looked better in practice this week than he has all season, and may break into the lineup. Other men Martie can draw upon for reserve strength are Don Leighton, Joe Kelley and Jack Roguin.

For tonight's game, the probable starting lineups will be:

Nevada—	—San Jose
De La Mare.....F.....	Wing
Tregellas.....F.....	Downs
Phillips.....C.....	Oleson
Lansdon.....G.....	Americh
Tapogna.....G.....	Drexel

## French Club Plans Picture, Lecture

A talking moving picture, "Student Life in France," will be shown on Monday evening at 8 o'clock in the Education building auditorium under the auspices of Le Cercle Francais. Madame Aline Caro-Delvalle, wife of a famous French painter, is to talk the same evening.

Mme. Caro-Delvalle's talk will be in French, while the picture will be in English. The talk will cover phases of French life as known only by a true Frenchman. Dr. E. F. Chappelle, head of the modern language department, will introduce the speaker, and will also make introductory remarks about the talking picture which is to be shown.

The public is invited.

## U. S. May Enlarge Bureau of Mines

The United States bureau of mines is proposing to enlarge its station which is situated at the University of Nevada and make it a special station for Nevada purposes, according to a telegram from Senator P. A. McCarran received in Reno recently.

It was at first thought that the proposed enlargement of the bureau of mines research and experiment station at Salt Lake City would do away with or make it necessary to decrease the Reno station.

### Plans Being Made To Send Church To Snow Conclave

#### University Professor Expected To Attend Meeting In Scotland

#### Nevadan Plays Important Role In Formation of Snow Commission

Plans to send Dr. J. E. Church, president of the International Commission of Snow, to the first meeting of the commission at Edinburgh, Scotland, September 15 to 26, are now in progress, and if financial arrangements are completed by that time he will attend the conference, Church stated today.

**U. S. Helps**  
The funds for the trip are to be raised by the United States division of irrigation, which has assisted Dr. Church in his study of the water problems on the watersheds in the western United States.

The snow commission, which was organized chiefly under the direction of Dr. Church at Lisbon several years ago, will meet to discuss the possibility of developing an international system for measuring snowfall and forecasting the water runoff of glaciers and watersheds.

Dr. Church hopes to leave early enough so that he may study snow conditions in the Alps, Pyrenees and in Bavaria and Poland. From there he will continue on to Leningrad and attend the snow and ice congress; then to Sweden and Norway and thence to Edinburgh for the meeting of the international commission.

Countries from all over the world will be represented at the conference and talks will be made on practically all subjects dealing with the science of snow surveying. Dr. Church will speak on the subject, "Snow Surveying: Its Principles and Possibilities."

**Is Meteorologist**  
Besides being a professor of classics at the University of Nevada, Dr. Church is a meteorologist in the experiment station and chairman of the committee on the hydrology of snow in the American Geophysical Union. His method of snow survey is now used by the United States government and foreign countries.

### Greek Pledging Draws to Close For Spring Term

Rushing and pledging reached its climax on the hill this week, with all of the fraternity houses pledging at least one new member for the term.

Due to the lack of eligible candidates, the rushing "season" is practically over for another semester.

S. A. E. is again high with six new pledges, to be followed by A. T. O. and Lambda Chi Alpha with three apiece. The remainder of the houses listed: Sigma Phi Sigma, two; Phi Sigma Kappa, Sigma Nu and Beta Kappa, one each.

Those students pledging are:  
S. A. E.—Clyde Healy, George Folsom, Bob Paille, Jack Starrite, Guy Brown and Bill Martinez; A. T. O.—Mike Ausich, George Dangberg and James Parker; Lambda Chi Alpha—William Arbanies, Walter Cain and Bill Ogle; Sigma Phi Sigma—Frank Hickey and Don Cole; Phi Sigma Kappa—Eddie Conlon; Beta Kappa—Jed Oxborrow; Sigma Nu—Robert Fulton.

### Frosh Hoopsters Continue to Win In Orioles Game

Continuing its winning streak, the University of Nevada freshman basketball team Saturday night won a 42 to 39 victory over the Grass Valley Orioles.

The game was fast and very close for the full 40 minutes, but the visitors could not overcome the lead the Wolf Cubs ran up in the early part of the game.

Walter Powers, former Sparks high school star, was high point man with a total of 17 points to his credit and was the outstanding player on the floor.

The Orioles were the best team the Frosh have faced this season, coming from California with a record of several wins over the leading teams of the Sierra Nevada region.

Tonight and tomorrow night the Frosh will face another strong California team, the Hayward Alumni, who are the leaders of the Oakland City league. January 27 they will play an aggregation representing the Knapp Stores.

This is also a California outfit and the Frosh will have to play their best brand of ball against these teams if they expect to come out on top.

### Practice Debates End This Week

The second of a series of practice rounds in preparation for the intramural debate tournament which started a week ago was held Monday night in the university auditorium.

Joseph Dennis and John Robinson, representing Sigma Alpha Epsilon, upheld the affirmative, and Clovis Bull and Sidney Fox, Independents, defending the negative, discussed the question: Resolved, That Congress Should Have Power to Overrule by Two-thirds Vote, Decisions of the Supreme Court Declaring Legislation Unconstitutional.

The second debate, on the same resolution, which was scheduled to be held the same evening, was carried over until Wednesday night. Louis Wiener and Robert Miller, Lincoln hall representatives, upheld the affirmative and Norrison Beatty and Don Purdy of Lambda Chi Alpha took the negative.

Continuing the series next week, Lewis Pulsipher and Charles Doherty, a split team, will discuss the affirmative, with Clovis Bull and Sidney Fox taking the negative, on the same resolution, Monday night.

The winner will be decided in round-robin fashion, with every team meeting every other team, and the one with most wins will receive the prize.

The freshmen at the University of Holland must have their heads shaved and must enter the house by window, never by door.

### Mining Graduates Receive Positions In West, Tropics

"All the students who graduated from the Mackay school of mines in May have been placed," said John A. Fulton, director of the Mackay school of mines, recently.

"Carleton McCulloch is the junior engineer of the Lava Cap mine, Nevada City, Calif.; Phillip C. McQuire is an assayer of the Yellow Tiger mine, National, Nev.; Oliver Seymour is at the Minas de Matahambre, Pinar del Rio, Cuba; Antonio Chavez has been placed as an engineer in the Fresnillo company, Fresnillo, Zacatecas, Mexico; James Cazier, former A. S. U. N. president, is working in the geological department of the International Smelting company, Salt Lake City, Utah; Chandler Johnson is in the engineering department of the Walker mine, Spring Garden, Calif.; Ben Sheahan is one of the engineers on the Boulder dam project, Las Vegas, Nev.; Frank Sam is an assayer at the Vulture mine, Wilkesburg, Ariz.; John C. Curtis was recently placed as an engineer in the Mountain City Copper company, Mountain City, Nev."

**Engineering Talk Stresses Union**  
"What Engineers Can Expect After College" was foretold by William W. Leavers, architect, in his speech before a meeting of the Associated Engineering Students Wednesday night, when he advocated strong organization among the various branches of the engineering vocation in an effort to protect it against damaging engineering experiments.

Following the speaker, plans were made for the revival of the old-fashioned Engineers' Day this March. Also, possibilities of a field trip to Boulder dam during the Easter holidays were discussed.

Africa has snow within seven miles of the equator.

### Fresno Is First In Far Western Conference Games

Of the four Far Western conference basketball games played this season, Fresno alone remains undefeated and untied. However, California Aggies and College of Pacific have played no league games to date. The University of Nevada quintet places second on the list and that of Chico comes next.

A summary of the games to date includes a two-game series win by Fresno State over the five from Chico State, and a split dual series between Nevada and the Chico Staters.

In pre-season games the Cal Aggies aggregation was taken into camp in a two-game series by the San Francisco State five. By comparative scores, this should put Nevada a shade ahead of their conference rivals in Davis.

The College of Pacific basketball squad still remains an unknown quantity, but will unleash its fire this coming weekend.

Following is the comparative standing of the five teams in the Far Western conference:  
W L  
Fresno ..... 2 0  
University of Nevada ..... 1 1  
Chico State college ..... 1 3  
California Aggies and College of Pacific, no games to date.

#### WILSON TAKES TRIP

Professor Frederick W. Wilson, head of the department of animal husbandry, left Wednesday night on a short business trip to San Francisco. He is expected to return Sunday.

Back your activity leaders.

### Gezelin Is Elected French Club Chief

Election of new officers was the main business transacted at the meeting of Le Cercle Francais held on Tuesday, when the group met for the first time this semester in Dr. Chappelle's rooms in Stewart hall.

Those elected include: Emile Gezelin, president; Jean Horning, vice-president; Maureen Graf, secretary-treasurer; Rita Winer, Myrtle Cox, Virginia Crosby and Roberta Browne, directors.

Gezelin is a junior arts and science student majoring in French. He is a graduate of Reno high school and is a member of Sigma Phi Sigma fraternity.

Jean Horning is a senior mining engineering student. This is Miss Horning's first year at Nevada, having transferred from Alaska.

Maureen Graf is a senior student in arts and science. She is a member of Pi Beta Phi sorority and is a graduate of Reno high school.

### New Dictionary Is Placed in Libe

The latest edition of Webster's New International dictionary was placed last week in the library for use by the students.

This, the second edition of the Merriam-Webster dictionary, was published this year. The first copy was printed and sold in 1934.

One of the most complete and authoritative dictionaries, it tells the story of the rapid growth of the English language since the time Johnson, in the seventeenth century, began to collect and define the words of the English language.

The professors at the University of Columbia at a recent intelligence test proved they had an intelligence rating of 20 years.

### WHAT PEOPLE ARE SAYING... ABOUT CAMEL'S COSTLIER TOBACCOS!

EXECUTIVE - Frederic W. Watson

LESTER STOEFFEN - Tennis Star

COLLEGE GIRL - E. Cagney

JACK SHEA - Skating Champion

FRANK HAWKS - Famous Flyer

### CAMEL'S COSTLIER TOBACCOS

mean so much to others, we are sure you'll like them too! So—

Here's our "Try 10" Invitation!

When people try Camels, they like them. For Camels are made by recognized specialists in the use of finer, more expensive tobaccos.

Convincing evidence of choice tobaccos

Camels have given more people more pleasure than any other cigarette. And Camel smokers are frank in expressing their preference for Camel's costlier, non-irritating tobaccos. What they say is convincing evidence of Camel's appealing qualities. So now we ask you to make a test. See our money-back offer? You can't lose! Just give Camels a chance—and see if they don't open up a whole new world of smoking pleasure.

Money-Back Invitation to try Camels

Smoke 10 fragrant Camels. If you don't find them the mildest, best-flavored cigarettes you ever smoked, return the package with the rest of the cigarettes in it to us at any time within a month from this date, and we will refund your full purchase price, plus postage.

(Signed)

R. J. REYNOLDS TOBACCO COMPANY  
Winston-Salem, North Carolina

READ OUR OFFER TO YOU

### COSTLIER TOBACCOS!

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

### STICKS AND STUDENTS

Aesop, the ancient philosopher, one time said that "In unity there is strength," and this saying is not only applicable to the bundle of sticks used by the wise man as an example but also to the University of Nevada student body.

Unity, a small word, expresses much, in both denotation and connotation. It signifies a banding together, a spirit of cooperation, a single aim of activity and thought, but unity, in this sense, is lacking on the Nevada campus. There is little banding together, except in adverse cliques working for the selfish interests of one group or organization; the spirit of cooperation is lacking almost entirely, in spite of efforts of campus "pep" organizations to bring students closer together and, instead of a single aim, there are many.

But these are only secondary forces which underlie the existing spirit on the Nevada campus. The real reason lies in the fact that students, as individuals and groups, have failed to realize that it is their duty to be of service to their university.

Practically every social organization, either fraternity or sorority, stresses the need of service in their rituals, but—and this is one of the most serious criticisms of the fraternal system—members of the Greek letter organizations are continually placing the good of their group before the good of the whole.

How well this has been illustrated in the past in the so-called "combine" political activities of a number of houses. The "combine" did exist, and, in spite of protestations to the contrary, every particle of evidence indicates that it is still alive, stunned, it is true, by the withdrawal of several of its strongest members last year, but still alive. This year, however, will probably decide the ultimate fate of political maneuvering on the Nevada campus. If the few who still belong to system adhere to it, forgetting their obligations to their university, it will crawl back to a position of importance, but if the "combine" fails to work, there can be little doubt but that it will be killed.

But, the "combine" is only a part of evil, an expression of the primary root of selfishness, and Greek letter organizations must not be made to shoulder the entire blame. Independent students, departmental organizations and the hundred-and-one other student divisions on the campus are also at fault. Each of these, to be frank, is out for all it can get with as little effort as possible. And, as long as they are able to do so with the least possible trouble, they will continue to abide by the practice.

The remedy, however, is simple. It can be stated in that simple three-word slogan that formerly was a Nevada by-word but which has recently fallen into disrepute:

"Put Nevada first."

Weed out the old practices and, then, "Put Nevada first." Give your support to your student activities, dividing it with nothing else. Your loyalty is your university's for four short undergraduate years. This, and this alone, can improve student morale.

### A TEMPORARY FAILURE

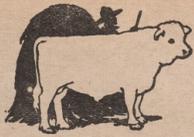

Announcement was made this week by university officials that the adult education lectures, instituted at the early part of last semester, will be abandoned. Poor attendance and lack of interest in the program were given as reasons for the move.

When the plan was instituted last fall, considerable comment in favor of the plan was made in Reno, and the university, anxious to be of service to the people of this district, believed that the plan, although comparatively new, would be successful. Many residents of western Nevada had asked for lectures which would be open to all, and plans for a system of lectures were outlined.

But, as is too often the way, interest soon died down. Attendance was hardly enough to make the continuance of the series worthwhile, and so it has been dropped.

The Sagebrush regrets this, feeling that much good could have been done by the move, but it is of no use to be too altruistic. If the proper backing has not been forthcoming, there is no reason why the lectures should be continued. It is to be hoped that the lectures will be resumed again and that better response is given.

### CAMPUS

### ITEN

There ought to be a law against such people as Fran Slavin and "Bunny" Underwood who go around giving other people indignation with their puns, card tricks, etc. Example: "After the ball was rover." Joke's over.

After the illustrations given in class, we have decided that Professor Hicks ought to write for some such magazine as "True Experiences"—what with his oriental background the title should read like this, "Teaching in the Orient, or How I Stayed Them."

We don't know if it's the influence of the numerous fraternity pins floating around in the Tri-Delt house or not, but something has happened which caused the gals to go fraternally minded on us—what with instituting masculine tactics, the old paddle is being put to good use on their fair pledges—but that isn't all—they are having a hell-day and all the rest of it—three cheers for the paddle—what these wenches need is discipline.

There are two ways of looking at it—they are still kids at heart or else they are in their second childhood—we mean the Cigmanuers, chicken-pox 'n' everything.

Things are pretty dead on this 'ere campus now that the seniors are going into training for sen' or week—they want to be sure and have a capacity for drinking tea at the Cap and Scroll social—that's what you think—or do you?

We'd like to know what's wrong with the seniors in the sororities that put up juniors for honorary major candidates—some of them must be pretty hard up for material.

Maybe the freshman women can teach some of the rest of you gals something about Leap Year tactics—we are referring to Lola Yvonne Stoddard and her quick way of snatching Leo McCuddin's brass-nice work we call it.

The Thetas again—they get a new radio and have to throw a dance to show it off—it's time they built a new addition so we'd have something new to talk about.

There are advantages as well as disadvantages when the furnace in the A. S. U. N. building blows up—it drove the Artemisians to warmer climes even though we of the Brush sit here and freeze while writing this column. No furnace also keeps people, especially the boys from two doors down, from coming into the building during dances. It will probably save a lot of wear and tear on the sofas.

Seeing as how the senior class is on the lookout for a novel senior gift, the good old column has a couple of suggestions to make. For instance, it might be—

- A beer bust.
- Pillows for every chair on the campus.
- A beer party.
- A canopy for the tram.
- A case of ale (maybe a couple of cases).
- A pass to the Dog House for all freshmen.
- A coke party for the student who doesn't imbibe.
- A mate for the swans.
- A private room for chaperons at campus dances.
- A gold plated thunder mug.
- Elevators in Morrill and Stewart hall.
- A deodorizer for the zoo classrooms.
- A subscription to Esquire for the libe.
- No gift at all.

### Strike May Hold Adams in Honolulu

Reports reaching here indicated that the Matson line S.S. Larline, on which Dean and Mrs. Maxwell Adams are believed to have sailed for Honolulu, will be tied up as a result of a longshoremen's strike.

Dean Adams is on a six months' leave of absence from his duties as dean of the college of arts and science and vice-president of the university. They expect to spend several months in the islands.

### Haying Season Stated as Cause Of Few Holidays

From time to time every student on the campus has been heard to complain about so few vacations. After hearing this story so long a detailed study of the files of the 'Brush was made and the reason was discovered.

Approximately 40 years ago both men and women students complained that the university session was held over too long in the summer. The men had to be home for haying, the women to prepare meals for the hay hands. So at that time a committee of students petitioned the president and board of regents to give up all of their vacations in order to be able to quit school earlier in the spring.

As this petition was the suggestion of the students and not the faculty the rule has existed for all of these years, and present students still give up all vacations during the year to be able to make hay.

### Ago This Week—

FROM THE FILES OF THE 'BRUSH

40 YEARS AGO  
Manager Everett is arranging games with the Berkeley and Stanford baseball teams, to take place in the spring. These games will be with the first nine and should be closely contested.

"Exams" will commence on January 24 and will continue for the week.

20 YEARS AGO  
Nevada will open the 1916 basketball season with a game against the Davis Aggies Saturday evening on the home court.

Due to the severity of the weather the Junior prom has been postponed to January 28.

10 YEARS AGO  
For the first time in the history of the publications of the University of Nevada, a dance is to be given to the members of the staffs of the Desert Wolf, Sagebrush, publicity bureau and the Artemisia, on February 5. It will be known as the Press Mardi Gras.

James Bradshaw '22, better known throughout the entire west as "Rabbit" since the days he sped over the grid-irons of the Pacific coast with Nevada's ball tucked under his arm, returned to Reno yesterday.

5 YEARS AGO  
Pi Beta Phi sorority this week announced the plans for its new house, the construction of which will begin early this spring.

1-YEAR AGO  
James Cazier, student body president, is ill with scarlet fever in Washoe County hospital.

### New Dictionaries Given to Dorms

Manzanita and Artemisia halls were given new dictionaries by the Manzanita Hall association at a recent meeting.

Stands for the dictionaries will be bought from funds of the organization early next semester, it was announced. Dean Margaret E. Mack was also presented with a gift by the association, in recognition of the service that she has rendered to the group this semester.

### Blue Key, Sagers Postpone Dance

The Blue Key and Sagers' dance scheduled to be held Saturday night, was postponed because of the illness of Lee Ward, Blue Key president, and Kenneth Powell, member of the Sagers, at a meeting of the Sagers held Tuesday night.

The Sagers' constitution, as revised by Blue Key, was accepted, and applications for new members to fill vacancies were passed out. Plans for an election to be held February 4 are now being made.

### Pi Beta Phi Honors Mothers at Buffet

The mothers of the members and patronesses of the Pi Beta Phi sorority were honored at a buffet supper given at the chapter house Sunday afternoon from 5 to 7 o'clock. The house was decorated for the occasion, and the table was attractively arranged with flowers and candles in the sorority colors. Entertainment included a skit by the pledges and a new Pi Beta Phi song composed by the pledge class.

### Gamma Phi Hold House Shower

Gamma Phi Beta sorority held its annual house shower, January 15, at the chapter house. A buffet supper was served to active, alumnae and pledge members. The chapter house was the recipient of many lovely gifts given by members.

### Oregon Gamma Phi Visits Here

Marcella Reavis, a Gamma Phi Beta from Chi chapter at Corvallis, Ore., is here visiting relatives and has been a guest at the Nevada chapter house. Miss Reavis is a journalism student and is employed at present by the Nevada State Journal.

Alpha Theta sorority last Friday evening, at the chapter house on Sierra street. Members of the sorority and their guests spent the evening dancing to radio music. Mrs. Shaeffer, the Theta house mother, acted as chaperon.

On the following Sunday evening, the Kappa Alpha Theta pledges met for an informal supper, to which each pledge invited a guest. Lois Downs was in charge of the supper.

### Theta Seniors To Entertain

Senior members of Kappa Alpha Theta sorority will entertain guests at a supper, Sunday night, in the chapter house.

Last Sunday, members of the freshman pledge class were hostesses at a similar supper. Afterwards, cards were enjoyed.

### Beta Kappa Club Has Card Party

Beta Kappa Mothers' club gave a card party Friday night at the chapter house on University avenue. About 75 people attended, including members and pledges of the fraternity.

Following the card games, refreshments were served by the hostesses.

### Chi Delta Phi Bids Seventeen Soph Women

New Pledges To Be Honored At Banquet After Initiation January 29

Seventeen women students were bid to Chi Delta Phi, national honorary English society, yesterday, it was announced by Florence Gulling, president of the organization.

Louise Emminger, winner of the upperclass division of the 1935 Chi Delta Phi poetry contest, the prize for which was membership in the organization, was among the 17 bid.

Early bidding was decided upon this year in order that the new members may have more time to become accustomed to the group.

It is necessary that a woman have high sophomore standing and be majoring or minoring in English. She must have a general scholastic average not lower than 2.3, and an average of 2.0 in English.

### Y. W. Delegation Talks on Asilomar

The reports of three of the Y. W. C. A. delegates to the Asilomar conference held just after Christmas were given Tuesday night when the Y. W. C. A. cabinet held its regular weekly meeting.

The principal speaker of the conference was Dr. Bosley, who talked 45 minutes each morning. The topic which he used as a basis for his lectures and discussions was "The Quest of Life's Meaning."

### Coed Rifle Team To Be Chosen Soon

Nine women practicing for the women's rifle team have shown high scores, and a possibility of making the varsity team, which will be chosen next week, Elizabeth Osborn, manager, announced this week.

The women, shooting on an average of 90 or above have been practicing twice a week since the second semester began. They are Betty Inda, Jessie Sellman, Elizabeth Osborn, Eunice Beckly, Elizabeth Naismith, Catherine Dondero, Jean Horning, Gertrude Polander and Ruth Doolittle.

### WITH THE WOLFETTES

Mrs. Mary Jane Littlefield, Rocky mountain region director of Girl Scouts, was the guest of honor recently at a tea given by the W. A. A. in the Home Economics room in the Agriculture building.

All women's varsity teams, including badminton, hockey and volleyball chosen last semester will soon be "shot" for the Artemisia. Women are seen everywhere about the gymnasium making last minute repairs on suits so as to "look pretty" for the camera.

Meeting for the first time this semester, W. A. A. was called together yesterday to complete plans for a snow-hike to be held Sunday afternoon. Frances Smith, sophomore member of the organization, was placed in charge of transportation and refreshment plans.

Open defiance to old man winter has been evident in the past week, with coeds flocking to the numerous tennis courts clad in the recently adopted "shorts" garb to play the favorite of all net games—tennis.

Competition in interclass basketball for women will begin Thursday afternoon when the senior women meet the juniors and the sophomores clash with the freshmen.

Women enrolled in P. E. 60, a course in theory and practice of directing team and individual sports, have recently been seen refereeing local high school girls' basketball games.

### Education Class To Organize Four Girl Scout Troops

Plans are being made by the women in education 56 under the direction of Mrs. Mae Simas and Mrs. Mary Littlefield, Rocky mountain region director of the Girl Scouts of America, to organize active Girl Scout troops in three schools in Reno and one in Sparks, it was announced this week.

Education 56, which has previously been a class in Scoutcraft, meeting once a week with Mrs. Mae Simas as instructor, will be replaced by this new set-up. The women taking the class will meet together occasionally to talk over problems, but they will spend most of their time meeting with the girls in the various troops and carrying on a real Girl Scout program, it was stated.

The university women will act as lieutenants of the various troops, with some town woman who is interested in the Scout work acting as captain. Mrs. Simas said, adding that the plan, when completed, should be very beneficial to the women taking charge of the work and to the community. Final arrangements for organization will be made next week.

### Original Creations To Be Featured In Flade Recital

Presenting a program similar to that given at the Guild theater in New York City, Miss Tina Flade, exponent of the modern dance, will give a concert at the Civic auditorium on Thursday, February 6.

While in Paris, she attracted the attention of Eva La Gallienne, noted actress, who invited her to come to the United States for a debut concert in New York City. Miss Flade was widely acclaimed after the performance because of her forceful and vivid interpretations of the modern dance.

Miss Flade is now a member of the faculty of Mills college, California, giving instruction in the modern dance. She was invited last summer to teach in the summer sessions of Bennington college in Vermont, where the leading dancers of America and their groups held a summer school of the dance.

Several blocks of seats have been reserved for students and may be obtained from Emily Tholl, Catherine Dondero, Jessie Sellman, Chrissie Pinn or at Miss Sameth's office in the gymnasium.

The proceeds will be used to defray Miss Flade's expenses. Any profit will be turned over to the Women's Athletic association for scholarship use.

According to Miss Sameth, women physical education students will not be required to attend as was previously stated in the Sagebrush.

### NORMALS TO MEET

The Normal club will hold a meeting next Thursday, at which time they will elect a new treasurer, and plans for the semester will be discussed and outlined.

### BETA SIGS ELECT

Agnes De Armond has been elected president of Beta Sigma Omicron sorority, replacing Margaret Lyons, who will not return to school this semester.

### Women The U. of N. Sagebrush Women

#### Tri-Delt Pledges To Receive Pins

'Ideal Week' System Adopted By Sorority To Aid Ceremonies

Innovating something entirely new in sorority life on this campus, Delta Delta Delta has started an Ideal Week for their initiates. While this is the first time such a program has been instigated here, it is a custom followed on other campuses by Greek letter organizations.

The twelve candidates for initiation, with their sponsors, have been living at the chapter house since Sunday night. Functions and entertainment have been given in their honor for the purpose of further acquainting them with the ideals of the sorority.

The formal initiation tonight will conclude the week of inspiration. Those to receive the degree are Barbara Ferron, Betty Kormmayer, Catherine Booth, Lola Yvonne Stoddard, Wanda Shain, Jeannette Green, Gladys Blair, Margaret Pierson, Loretta Collins, Charlotte Michael and Georgene Roberts.

#### Coed Rule Group Concludes Term

Concluding a very active term, the women's upperclass committee will meet Monday afternoon. Appointment of the new committee is scheduled for the senate meeting to be held the first week in February.

Monday's meeting will be devoted to the trial of freshman tradition breakers and those who fail to sell at the basketball games tonight and tomorrow night.

Members of the Sagens are in charge of the sales and thus far have not had to report a single failure to sell. Chairman Florence Kirkley expressed appreciation for the cooperation she received from the freshman girls and the Sagens pep group last semester.

Virginia Kearns, junior student at the university, will spend the weekend in Sacramento. She is affiliated with Gamma Phi Beta sorority.

#### Pledge Grades Ordered Approved By Pan-Hellenic

Starting this semester, all grades filed in Miss Sissa's office of initiates into sororities must be approved by Pan-Hellenic council before they may be initiated, Inez MacGillivray, president of the council, announced this week.

The rule was passed two years ago by the council but has never been enforced until this year.

The annual Pan-Hellenic dance, scheduled for second semester, has been permanently canceled, Miss MacGillivray said. Instead of a dance each semester, there will be only one, given in the fall.

#### Beemer to Handle Coed Loan Fund

Evamae Beemer will again be in charge of the women's loan fund, Catherine Dondero, A. W. S. president, said today.

Women who desire loans should apply directly to Dean Mack, Miss Dondero said. Upon receiving the loan, the student is requested to sign a promissory note, payable in one month, Miss Dondero explained. Loans are limited to ten dollars, except in special cases, when the request is considered by Dean Mack and a committee from A. W. S. Nell Lozano, A. W. S. president last year, originated the loan fund. The original fund was made from a fashion show sponsored by A. W. S. last year. Proceeds from the fashion show held last semester were used to enlarge the fund.

Patronize Reno merchants.

#### Rush Season Ends; Two Women Bid

Tri Delt and Alpha Delt Tie in Mid-term Race With One Each

Spring rushing season closed Monday with two rushees accepted. Delta Delta Delta pledged Mildred Cliff, freshman student, and Doris Parmen, also a freshman, accepted an Alpha Delta Theta bid. Both were formally pledged Monday night.

Beta Sigma Omicron and Alpha Delta Theta were the only sororities to hold rushing parties last week. Pi Beta Phi and Kappa Alpha Theta canceled their parties at the beginning of the season, while Gamma Phi Beta and Delta Delta Theta held only one each.

Because of the lack of new women to be rushed at mid-year, the continuance of spring rushing will probably be discussed by Pan-Hellenic council when they meet to pass on an entirely new set of rushing rules.

The new rules, designed to do away with "dirty" rushing, are being drawn up by the council, and will be presented to sororities in the near future for approval.

#### Assignments Made For Mackay Edition

Assignments and staff appointments for the Mackay Day edition of the Sagebrush, the only edition edited exclusively by the women members of the staff, will be given out Wednesday by Eleanor Doan, who will act as editor of the paper.

Plans for the edition will be discussed and it is imperative that the following women attend the meeting which will be held at 3:30 in the A. S. U. N. building:

Rita Gunter, Lois Midgley, Ruthe Goldsworthy, Eleanor Barry, Kay Norrid, Margaret Turano, Norma Anderson, Winifred Hiltonen, Beverly Joyce, Lila Stoddard, Anne Gibbs, Betty Bowman, Verla Champagne, Elizabeth Juniper,

Mary Millard, Kathleen Meeks, Gladys Blair, Gwen Erickson, Eleanor Bateman, Evamae Beemer, Lois Miller, Nina Boczkiewicz, Alice Sauer, Helene Fulton and Jeanette Green.

Support the cheer leaders.

# Wolves, Wildcats Split League Tilts On Chico Court

### Nevada Drops From First-Half Lead; Chico Takes First Game

### Strong Pack Opens Offense To Win Return Match With Ease

The Nevada Wolf Pack returned Sunday from Chico, ready to go after splitting its first conference games of the season. Friday, the Wildcats eked out a win 37-32, coming back in the second half, while in the second game of the series the Wolves claimed an easy 36-28 victory.

#### Chico Tightens

Chico, entering the series the underdog, placed a strong scoring outfit on the floor and tightened up its defense during the second half to take the game. Nevada was leading 18-12 at half-time, and seemed well on the way to victory until Chico pulled one out of the bag when its man-to-man defense took hold.

It was the first game of the year played by Chico with this system, and before the second half was well under way they had closed the Wolf offense up pretty tightly, and had taken the lead.

Orval Tregellas, U. N. forward, was high point man of the game with 12 points, and led the Wolves in a last-minute attempt to take the game. With but five minutes to go, Tregellas rang the basket with a long shot, but Nevada could not close the Chico lead.

#### Holds Lead

The second game was Nevada's from the opening whistle, although Chico, in tuition is expected to bear most of a desperate opening spurt, tied the score four all during the first five minutes, but the Wolf Pack soon pulled into a strong lead.

Tregellas and John Robb, forwards, led the Nevadans in scoring honors, each with 13 points, while Riz, Chico forward, captured high point position for the game with 15.

#### Combination Right

Practically the entire Nevada team added points to the Wolf total, with all but one of the seven players scoring. Chico, however, played nine men in an attempt to find the right combination, but should not stave off defeat.

## Prep Hoop Ranks Undergo Shifts

One new school appeared among the leaders of the Western Nevada basketball zone and high ranking teams dropped into the second division as a result of the games last weekend.

Lovelock appeared in the upper flight for the first time by defeating Sparks, while Dayton, Carson and Smith Valley continued to win and kept in the first rank.

Sparks, unbeaten in forty-four previous starts, was drubbed by Lovelock Saturday night, and the loss shunted the Railroaders into second place along with Stewart and Reno.

The Reno-Sparks game should be one of the highlights of the weekend of play. Reno has hit a stride which might be hard for the Railroaders to stop. The game will be played Saturday night in the Sparks gym, which can be expected to be packed with a highly partisan crowd.

Conference standings up to date are as follows:

Carson	1,000
Dayton	1,000
Smith Valley	1,000
Lovelock	1,000
Sparks	.750
Reno	.750
Fallon	.400
Hawthorne	.333
Wadsworth	.333
Fernley	.000
Gardnerville	.000
Virginia City	.000
Yerington	.000

## VETERAN CAGERS

VERNON TAPOGNA, Guard

WHIT DE LA MARE, Forward

Playing his third season at the guard position, Vern Tapogna is going great guns this year. His ranginess and dependability cause opposing forwards no end of trouble. De La Mare, a junior playing his second year, is one of Martie's cleverest dribblers and passers.

San Jose flash: From all appearances "the men without a conference," or as they are fondly called in their own territory, "the Mighty Mites," should give the Wolf hoopers a busy weekend. The Spartans have given U. C. L. A., St. Mary's and Stanford all close games. In all of these games they were smothered in the first half only to come back and put the games in the balance. Against the University of Utah their second half really enabled them to squelch the barnstormers by a 6 point margin.

All of which warns the fans to keep their seats till the final gun if the score is at all close. Arnerich, veteran Spartan guard, has a reputation for dropping long shots with seconds to go.

Coach Martie came back from Chico with trouble on his hands. Three forwards are on the limping list and Manager Roy Gomm is down with the smallpox. Tregellas and Kelley have leg injuries, while Robb is hampered with a bad foot. All three men are expected to be in tip-top shape for tonight's game.

We have high hopes—finally, at last and hurray! Someone has become sufficiently aroused to institute an investigation into the scoreboard situation.

We can console ourselves. San Jose is in the same predicament, and has recommended to their officials the neat contraption used by College of Pacific, which is a large board, with transparent numbers, illuminated from behind. It also has a clock which keeps the spectators informed as to the time remaining in the contest. The electrical scoreboard is operated by control switches from the officials' desk on the floor of the gym.

We're not that hard to please, but

## Reporter Explains Skiing Contests To Sport Novices

### Series on Latest Collegiate Activity Is Planned By Sagebrush

### Skill, Speed Are Requirements For Winter Sporting Enthusiasts

By CHARLES DOHERTY

Much is being said and written about skiing these days. The vast popularity of the sport is evidenced by its tremendous growth during the past five years. In 1930 an estimated one million persons performed to some degree on skis, while in 1935 that amount had grown to some seven million people.

The University of Nevada occupies the unique position of having one of the few ski teams in the western colleges. The performance in the first meet entered by the Silver and Blue team gives promise of having one of the best college teams in the west.

The following story is dedicated to the enlightenment of students who have not even a speaking acquaintance with skiing. The type of contests held in most meets will be discussed this week with the turns, jumping classes and other interesting points to be covered in future issues.

According to the number one and number two men of the University of Nevada ski team, Wayne Poulsen and Ed Rose, the main skiing events are the cross country race, slalom race and the downhill race.

The cross country is a race over a trail previously marked with little red ribbons hung to the trees. The distance is five miles for intercollegiate meets, and ten miles for regular competition. The ground covered in the race is divided into three divisions. One-third downhill, one-third uphill and one-third on the level. This is one of the most strenuous races in the skiing competition. The entrants are started at intervals of two minutes.

Slalom race is the most difficult, requiring the most skiing skill and judgment. This race consists mainly of turns made through flags set at intervals on the hill. Good time on the slalom race is 50 to 60 seconds without penalties. Penalties are given for knocking down or missing the flags. A 10 second penalty is given for missing one flag and disqualification for missing two. Most of the turns known to a skier are used in this difficult race.

Whereas stamina and turn ability are demanded in the first two mentioned races, the event which requires all of the skill of the skier, including speed, is the downhill race. From the top of a high mountain the race goes down through two control flags, and from there on the skier is left to his own devices in picking a trail, just as long as he goes through the two finish flags. This race is usually from one to four miles in length, and the average speed is from 40 to 50 miles an hour.

O Allah, something we can read—that's all.

"The Independent Athletic association." A grandiose monicker but nonetheless an excellent idea. The Barbs have been known to have strong athletic aggregations in the past; if they had been eligible they would have annexed the basketball trophy this season. If they could get together they would be one of the strongest units on the campus. It has happened at other schools. At the University of Oregon the Independents have one of the strongest outfits on the campus.

### FLOYD HAND RECEIVES OREGON SCHOLARSHIP

Floyd Hand is leaving school some time this week to attend the University of Oregon, from which he received a scholarship, it was reported today. He is one of the strongest distance runners in Nevada, consistently ranking first in the annual Homecoming Day cross-country race. He is a member of Alpha Tau Omega fraternity, and resides in Hawthorne.

Patronize university backers.

## Reporter Skis, Decides Sport Has Drawbacks

(Editor's note: In view of the rising student interest in the varsity ski team the Brush sent a correspondent to report on the sport for its readers.)

Why I decided to go skiing was probably the result of a hard Friday night. At any rate, when I found myself high up on a hillside, and the elevator not yet installed, I left myself to the inevitability of the rapid descent on the flimsy pair of long wooden shoes which had been firmly lashed to my feet.

Ed Rose had pointed the way up, and Wayne Poulsen said hold your feet together and bend way down. That seemed very simple, so I went up, and when I stopped to look down I started going up again. Finally I came to the point where I couldn't look either up or down, so I decided to look straight out.

Two funny looking poles had been pressed into my hands. Later to my great surprise I learned that they were supposed to help in skiing. So I ordered a dozen.

My methodical and logical approach to the why of my being on the hill, suddenly turned into grievous misgivings of ever having gone up. The darned wooden skis started down the hill, and I had nothing to do but follow them. I managed somehow to keep my feet most of the way down hill and when I finally reached the bottom I had attained a too great rate of speed. I was afraid to fall down and more afraid to stand up. So I fell.

While the icy caress of the snow was not so bad, I didn't appreciate the sid which sprang up behind my back and kicked me in the head.

When I had sufficiently revived myself, I went into the club house resolving that the only virtue in skiing was in just being a good "ski-d."

### MITCHELL OFFICIATES

"Brick" Mitchell, former University of Nevada football coach, recently officiated at the Knights of Columbus charity game in Kezar stadium, San Francisco, with the Green Bay Packers meeting the Pacific Coast all-Americans.

Georgianna Harriman, junior student, has been appointed senator from Gamma Phi Beta sorority to replace Margaret Piercy. She will assume her duties at the next regular senate meeting.

## Comstock Eagles Lead City League

### University Junior Varsities Are Strong Contenders For Honors

A fast and well organized team from Virginia City, the Eagles, is now in the lead for the title in the City League championship.

A recent win over the A. T. O. Alumni gave them a decided edge over the fifteen other teams enrolled in the scheduled league games. To date 23 games have been played, with 40 more games listed in the league schedule.

Placing prominently among the winning teams are the University of Nevada's Junior Varsity, Blues and Whites.

The City league schedule for the following week is as follows:

Tuesday, January 28, at university, 9 p. m.—Block N versus Bar JK.

Wednesday, January 29, at university, 8 p. m.—U. N. Blues versus Reno Printing.

Wednesday, January 29, at university, 9 p. m.—U. N. Whites versus Druids.

Wednesday, January 29, at Billingshurst, 7 p. m.—De Molay vs. Eagles.

Wednesday, January 29, at Billingshurst, 8 p. m.—Military Police vs. Paragon Cleaners.

Wednesday, January 29, at Billingshurst, 9 p. m.—Y. M. C. A. vs. Sons of Italy.

Thursday, January 30, at university, 8 p. m.—Com. Truckers vs. Y. M. C. A. Varsity.

Thursday, January 30, at university, 9 p. m.—A. T. O. Alumni vs. Reno Sporting Goods.

## Skiers Pictured For 1936 Annual

Taking advantage of the abundance of snow at the Sierra mountain winter resorts last weekend, the University of Nevada ski team continued its weekly workouts in preparation of the coming winter sports meet at Yosemite.

Last Sunday representatives of the Artemisia took action and "still shots" of the Wolf Pack stars for the page devoted to winter sports in the 1936 annual edition.

Wayne Poulsen, Ed Rose, Don Fanning, Jim Herz and Ray Waits performed before the collegiate camera-men.

Poulsen and Rose spent part of the day improving their jumping technique, while Herz, Waits and Fanning practiced in the difficult slalom race.

Poulsen and Rose are class B jumpers by virtue of performances in former meets.

Attend student body meetings.

### Conference Drops San Jose From Athletic Relations

#### Nevada Contract Games Will Be Played as Club Contests

#### Schools in Ring Suspending Games With Spartans Temporarily

San Jose State college, outspoken advocates of financial aid for football players, were severed completely from athletic relations with any of the Pacific Coast conference teams, according to Dr. Joseph C. Hinsey, Stanford faculty representative to the conference, in an announcement made this week.

In taking this stand, conference officials are following the lead of Far Western conference heads who also frowned on the announcement of Dr. Thomas MacQuarrie, president of the college, that athletes would be given board and room.

Following the announcement San Jose withdrew from the Far Western conference without awaiting action from the conference officials.

There have always been the friendliest relations between the Stanford Cardinals and the San Jose Spartans and a baseball game was to have been played between the two institutions this Saturday. A week later the Cardinal boxing team was to have squared off against the Spartans. Following the conference ruling both contests were called off.

San Jose was also reported to have had a tentative date of October 17 on the Cardinal football schedule, but Coach "Tiny" Thornhill of Stanford indicated yesterday that this date would be kept open to give his boys a "breathing spell."

The University of Nevada Wolves meet the Spartans in basketball Friday and Saturday nights, and these games may be the last between the two schools.

Prior to the announcement of the subsidy plan of San Jose, Nevada had signed contracts to play football and basketball against the California team.

Wolf athletic heads indicated that if the contests were played they would be classed as a contest with a club team and would have no bearing at all on the conference.

#### First Action of League

This is the first time that the Pacific Coast conference has taken any action directly against a team not a member of the conference, in regard to the aiding financially of athletes. This boycott against the Spartans will probably remain in force as long as they continue their policy of financial aid or until they join an approved conference or are willing to abide by the rules of the Pacific Coast conference.

Marlea Dodge, Dolores Saval and Tetha Kirn drove to their homes in Fallon last weekend.

### Faulty Furnace Fools Physicians Following Failure

#### WANTED—A furnace to end all furnaces; must carry a fifty year non-explosion, don't quit guarantee. Inquire at the office of the Executive Secretary, A. S. U. N. building, University of Nevada.

Attending diagnosticians yesterday reported that the faltering furnace of the A. S. U. N. building showed a definite trend toward improvement after its most recent attack Sunday, which left the A. S. U. N. building without heat for the early part of the week.

"The patient is resting easily and we can expect complete recovery very shortly. Of course it is not in our power to tell how long the patient will continue in good health, but it is definitely on the uptrend at present," was the cheery view of the attending groundskeeper on the now famous "furnace case" which has so long perplexed the residents of the University of Nevada citadel.

The case last year began when metabolism had completely disappeared, and furnace took a turn for the worse, emitting a black substance all over the building.

In order to prevent such recurrence an automatic control system was installed to watch the patient.

Last Sunday night, however, the automat didn't go to work, and the patient suffered a severe relapse.

Latest bulletins will be posted in the executive secretary's office to inform those interested in the patient's condition of further developments.

### Mitchell to Take Newspaper Job

Coach C. L. "Brick" Mitchell will quit the coaching game and become a newspaper man, according to a statement made by Prescott Sullivan in the San Francisco Examiner sport columns.

"His decision strips football of one of the game's really colorful figures," the coast paper stated.

After the expiration of his contract at Nevada, Mitchell made a trip east, where he considered two offers for coaching jobs.

### Upperclass Board To Meet Today

#### Strict Enforcement of Rulings Promised by Morris, Committee

Violators of campus laws and traditions will be put on the spot when the newly revamped men's upperclass committee holds its first meeting of the year today in a discussion of the punishment of known offenders.

Members of the committee have been on the lookout for the past week for offenders of traditions, and guilty students' names will be presented to the committee at the meeting, and will later be posted on the bulletin board to appear for their punishment.

A firm check will be made in the future, and all offenders will be promptly dealt with in the manner best fitted for the individual's purpose, according to Morris.

### Campus Scandal To Be Featured In Press Ruckus

Campus scandals old and new will be revealed at the annual Press club Ruckus this month, according to Charles Leavitt, president of the organization. This year's Ruckus is slated for Friday, January 31, and is in charge of Sam Ackerman. The admission will be 10 cents.

Only Press club members will take part in the production, and there is a wealth of material on hand which is at present being weeded out, in order to furnish the campus with the choicest bits, according to Ackerman.

The University of Wisconsin ran a nation wide contest last year to see if someone could write the worst sonnet.

WM. L. HOWELL, M.D.

Cheney Building

139 N. VIRGINIA STREET

### Local Attorney Explains Federal Pension Statute

In a critical evaluation and an explanation of the national social security legislation, Judge H. W. Edwards spoke to the Faculty Science club at 4 o'clock in room 110 of the Agriculture building on "National Security Legislation."

Judge Edwards explained the purpose of the social security act, and said that the administration points to the "general welfare" clause of the constitution and the sixteenth amendment for its authority for enactment.

After explaining the act thoroughly, Judge Edwards spoke of the effect of the act on Nevada.

"In order to participate in any benefits that may flow from the federal government, legislation must be enacted prior to January, 1937." Nevada has no unemployment insurance act at present.

### ENGINEERING

A. S. M. E., student mechanical engineers, met this morning at 11:25 in the Electrical building. Discussion was held concerning the speech delivered by Mr. Flanders, president of A. S. M. E., at the meeting held at the close of last semester. This was the first meeting of the group since they have instituted the new system of meeting one Friday of each month. Subjects will be discussed at these times which are of pertinent interest to the mechanical engineers. Meetings are planned for February 21 and March 19.

Engineers' Day will be held this year for the first time in ten years. This exhibit will mean concentrated

### Bookshop Will Be Open Afternoons

Contrary to a previous announcement, the Y. W. C. A. bookshop will remain open afternoons all next week, it was reported by Georgia Cole, chairman. This arrangement has been made in order that students may be given time to call for unsold books and profit from books disposed of.

The bookshop has had a comparatively unprofitable season this semester, with only \$13 cleared after last year's January profit of \$25. Miss Cole blamed this year's shortage on the fact that the shop did not open on the first day, at which time there is always a rush for books.

effort from all members of the Associated Engineers if the campus skeptics are to be "shown" what the engineers are able to accomplish.

We hear that Westfall and Francis were on Miss Thompson's "ejected" list at the library last week. The big sisters!
