Faculty, Students Discuss Changing Date of Meetings

Group Approves Suggestion To Spread Meets In Morning

A. S. U. N. to Meet Fridays; Women to Convene Thursdays

Thursday and Friday once a month, with hours for the meetings to be spread out over the forenoon, was unanimously favored as the best time for holding A. W. S. and A. S. U. N. meetings at a conference Thursday afternoon of the faculty schedule committee and a representative group of students headed by Carl Dodge, A. S. U. N. president.

The committees voted to present the plan for approval to the faculty and to the student body. Included was the stipulation that the A. S. U. N. president, the A. W. S. president and the president of the university meet at the first of each semester to arrange a definite calendar of the meetings for that term.

A tentative suggestion as a model ranged the women students' meetings on Thursday to fall progressively through the semester on the 8:40, 9:35, 10:30 and 11:25 periods. The general A. S. U. N. meetings would come on the same hours on one Friday each month.

It was felt that the instructors would not object to releasing classes one or twice each semester in order that this schedule could be adhered to.

With this plan, no class would bear a greater burden of cuts. Each hour during the morning would some time in the semester be devoted to student body meeting, and classes for that hour would be dismissed.

Another plan suggested involved a greater distribution of meeting dates over the days of the week as well as over the hours of the forenoon. It was felt that this arrangement would secure an even wider distribution among the classes of enforced dismission.

The new hours, those coming in the center of the forenoon, will probably be responsible for a greater attendance at the meetings. Under the present plan, many students choose to leave the campus at 11:25 instead of remaining for the meetings.

On the faculty committee were Dr. Jeanne E. Wier, Professor H. P. Boardman, Professor Frederick Wood, Professor G. W. Sears, Professor Philip A. Lehenbauer, Professor A. E. Hill, Professor J. W. Hall, Professor L. W. Hartman and Dean Robert Stewart.

Students were C. J. Libby, Genevieve Hansen, Margaret Fuetsch, Sherwin Garside, Silas Ross Jr., Catherine Dondero, Frank Sullivan, Robert Nelligan and Carl Dodge.

Sundowners Chase Chickens Today

Members of the six sororities on the campus may look forward to a chicken dinner tonight, the result of a genuine chicken catching contest staged by 12 pledges of the Sundowners on the campus this morning during the 11:25 period.

The contest was part of the preliminary initiation of the Sundowners and occurred before a large crowd of assembled students prepared for the event by handbills distributed around the campus yesterday.

The pledges who participated in the first degree this morning are Hollis McKinnon, Sam Basta, Jack Richardson, John Robb, Duncan Dorsey, Jerry Havens, Harry Bradley, Charles Turner, Jack Elliot, Adam Patterson, Theodore Barnes and Joe Cleary. John Gottardi, a faculty member, will be taken in as honorary member of this group. Bob Maher, a candidate last year, will be put through the final initiation which will be held Sunday at a meeting place not yet decided upon.

Theta Is Chosen As W. A. A. Prexy

Kappa Alpha Theta and Pi Beta Phi sororities today split honors in the four offices of the Women's Athletic Association.

Emily Tholl, sophomore member of Kappa Alpha Theta, was elected president. Miss Tholl, although an underclass woman and not a member of Gothic N society, was judged by a nominating committee as being outstanding in her interest to justify her nomination for president.

Frances Nichols, Kappa Alpha Theta sophomore, was elected vice president. Other officers were Gertrude Polander, freshman, Pi Beta Phi, and Mary Louise Carmody, junior, affiliated with Pi Beta Phi sorority.

The nominating committee consisted of Miriam Butler, Alice Lundberg, Katherine Dondero, Verla Champagne and Dorothy Roseberry.

Three Given Pins By Beta Kappa

Three men, Mel Dodson, Harold White and Claude Silverwood, were initiated by Beta Kappa fraternity on Monday night. These new members were pledged to the fraternity last semester.

The second of a series of Mothers' club card parties will be held this evening from 9 to 12 at the chapter house on University avenue.

Pi Beta Phi sorority will be guests of the fraternity at an exchange dinner Sunday evening.

Business Halts Mackay's Visit To Celebration

Greetings to the student body and regret that he is unable to join Nevadans in their annual Mackay Day celebration have been received here from Clarence H. Mackay.

Mackay Day committee chairman, John Franklin, Postal Telegraphed the following invitation to Nevada's beneficiary March 10:

New York City, New York.

Clarence H. Mackay:

The Mackay Day committee, in conjunction with the student body of the University of Nevada, extends to you a cordial invitation to attend our twenty-fourth annual Mackay Day celebration, to be held Saturday, March 28, 1936.

Very truly yours,

JOHN FRANKLIN,
Chairman of the Mackay Day Committee.

Mr. Mackay's answer, received here the following day, reads:

John Franklin, chairman Mackay Day committee, 746 N. Virginia, Reno, Nev.:

Your telegram inviting me to be present at the twenty-fourth annual Mackay Day celebration on Saturday, March 28, is only another reminder of the unflinching courtesy of the student body of the University of Nevada. It is, alas, with truly keen regret that again I cannot answer in the affirmative. Business engagements here positively prevent me from availing myself of what I know will be a most delightful occasion. My very hearty greetings to all my friends on the student body.

CLARENCE H. MACKAY.

Creps to Continue As Grad Manager For Coming Year

Robert Creps, who has served for the past year in the capacity of graduate manager for the student body, was reappointed to this position for the school year of 1936-37 by the finance control committee at its meeting Wednesday.

Aids Administration

Creps also will have an active part in athletics under the new setup which gives complete control to the university administration of varsity sports. He will become a member of the physical education department, with the duties of business assistant. He will act as general athletic manager, having direct charge of the Mackay training quarters and the gymnasium. Creps will also supervise the publication of programs for the football games next fall.

Work Divided

He told the committee that his work between the two jobs, which are closely related in duties, is about evenly divided in time and will amount to about eight hours a day.

The committee highly commended Creps for his efficient handling of the multiple duties as graduate manager over the past year.

Creps will be paid for ten months' work each year under both positions.

Shakespearian Play Rehearsals Begin

Rehearsals for the second Shakespearian play in four years began early this week after William C. Miller, director, selected the cast for "Much Ado About Nothing."

The cast includes Leo Doyle, Jim Hawkins, Jim Parkers, Dave Goldwater, Frank Stout, Willis Dalzell, Bob Montgomery, Morrison Beatty, Walter Christian, Marion Brooks, Bill Cockrell, Sherwin Garside, Bill Johnstone and Bill Tyrrell.

The women's parts are to be played by Jessie McClure, Ellen Creek, Naomi Starr and Kathleen Meeks. This year Miller is to have understudies for the female parts as preparation for dramatic productions later. The understudies are Betty West, Virginia Murgotten, Rita Winer and Evelyn Semenza.

The same productions staff will take charge of the technical end of producing the play, with Morgan Mills in charge.

No student director has been selected for this play, as Miller plans to direct this play without help of students.

Juniper Is Elected Math Club Prexy

Elizabeth Juniper, junior student majoring in mathematics and physics, was elected president of the Math club for the coming year at a meeting held last week. James Galvin was chosen vice president and Margaret Jensen was re-elected secretary-treasurer.

"Non-Euclidian Geometry" was the subject of a talk given by Emily Ross as a feature of the program at the meeting.

Discussion was held concerning new members and the possibilities of a scholarship next year to be open to underclass men.

Members of the group were also invited by Miss Ross to hold their last meeting of the semester at the Ross cabin at Lake Tahoe.

A committee composed by Lewellyn Young, Ben Morehouse, Clayton Carpenter, Florence Gulling, Margaret Piercy and James Galvin was appointed to arrange for this final gathering, which will be held the third Sunday in April.

Pre-Meds Elect Vice President

Robert Montgomery was elected vice president of Omega Mu Iota at a meeting held Tuesday night in the Agriculture building. At this meeting the society also planned a trip of observation to the insane asylum. They will have a banquet in the near future and will purchase a book to present to Dr. Frandsen, according to Fred Hartman, president.

A. S. U. N. Credited With \$56 Balance, Excluding Reserve

The Associated Students of the University of Nevada now have a balance of \$56.73, according to the financial statement of March 17, which was presented by Robert Creps, graduate manager, to the finance control committee at its meeting Wednesday. The report was approved by the committee.

Has Reserve

The balance mentioned in the financial report has no connection with a separate savings account of the A. S. U. N., which is continually drawing interest.

The total income for the semester was estimated at \$4886.25. Funds and obligations, which include allotments to publications and classes, budget balances, and reserve, amount to \$46,929.52. The budget balances are the amounts to the credit of the various campus activities and organizations. The reserve includes money saved for publication of new songbooks, new stationery and other items which may come up.

The latest audits of the Sagebrush and Artemisia were submitted and approved by the committee.

Discusses Plan

Frank Sullivan, editor of the Sagebrush, was present at the meeting and stated that he was opposed to the proposal that all stationery for A. S. U. N. activities be printed with standardized letterheads. He argued that he believed individual letterheads were absolutely necessary for the large amount of correspondence carried on by the business and editorial departments of the college paper.

Winifred Walsh, business manager of Artemisia, also attended the committee meeting and agreed with Sullivan that the publications need separate letterheads on their stationery. She said that in the business dealings of the Artemisia the new proposed standardized letterheads would not work so well.

Gives Consensus

Carl Dodge told the committee that while the consensus seemed to be that the forensic division, graduate manager's office and publications needed individual letterheads, all the minor activities and organizations favored the new proposal. Creps estimated that to have a standard head on all stationery, with a space left for printing in the name of each organization and activity, would decrease the cost of stationery almost 33 per cent.

Contract Let

Creps announced that the contract for publication of new A. S. U. N. songbooks for next year has been let to the Carlisle Printing company of Reno. The contract calls for payment of \$140 for printing of 1000 songbooks.

The committee decided that since it was relieved of athletic responsibility under the new setup and frequent meetings were no longer necessary, to meet about once a month for the rest of the semester.

The report of the junior prom committee was read and accepted. The prom committee announced a loss of \$77.54 in the junior class, as the expenses of \$139.54 exceeded the ticket sales of \$62.

Publications Officers Discuss Letterhead Proposal At Meet

The Associated Students of the University of Nevada now have a balance of \$56.73, according to the financial statement of March 17, which was presented by Robert Creps, graduate manager, to the finance control committee at its meeting Wednesday. The report was approved by the committee.

Has Reserve

At this meeting the society also planned a trip of observation to the insane asylum. They will have a banquet in the near future and will purchase a book to present to Dr. Frandsen, according to Fred Hartman, president.

Crew, Derrick Make Repairs To U. N. Gate

For lack of a horseshoe, a battle was lost, but because of short circuit in an electric wire seven men and a derrick were put to work on the campus Wednesday.

The granite gates, presented to the university as the class gift from the classes of 1920, 1921 and 1922, and located on the south side of the campus facing Lake street, were torn down this week to repair defective wiring for the globes topping the gift.

In order to repair the short circuit the gates had to be taken apart with the aid of the derrick and a large crew of men because of the weight of the stones, and then re-constructed after the wiring had been fixed.

Workers said that the gates would be "as good as new."

Schedule Changes For Coming Term Discussed by Prof

Freshmen registered in Saturday morning labs will no longer have first semester Saturday morning holidays as excused to cut classes, Dr. P. A. Lehenbauer, member of the committee in charge of revisions in the university class schedules, said today.

"Under the new setup no Saturday morning classes for freshmen will be held. Saturday classes for sophomores, juniors and seniors will continue," Dr. Lehenbauer said. "The new arrangement will enable freshmen to have Saturday morning jobs and to go home for weekends."

Orientation and hygiene classes for men and women will be held at 7:45 next year in order that freshmen can attend other classes scheduled for 8:40. Dr. Lehenbauer explained. The physical education classes scheduled for 3:15 p. m. instead of at 7:45 a. m. are open only to freshman men. No changes have been made in women's physical education classes.

"Better Foundation"

"Five hour courses in beginning French, German and Spanish will be offered," Dr. Lehenbauer said, "in order to give students a better language foundation." Freshmen registered for a scientific course will be expected to take three hours of German as required under the present system.

Courses Flexible

Morning and afternoon laboratory periods in botany, zoology and chemistry, in English, history and foreign language classes have been arranged merely to make the course of study more flexible, Dr. Lehenbauer said. No attempt will be made to segregate in these classes students registered for scientific courses from students taking arts and science courses. Students will register in classes which best suit their individual programs.

"We hope," Lehenbauer said, "that this new system will make it possible for students to have more equally arranged programs. Under our present system many students have mornings entirely full and have no afternoon classes."

Freshmen Will Not Register In Saturday Classes Under Plan

Freshmen registered in Saturday morning labs will no longer have first semester Saturday morning holidays as excused to cut classes, Dr. P. A. Lehenbauer, member of the committee in charge of revisions in the university class schedules, said today.

"Under the new setup no Saturday morning classes for freshmen will be held. Saturday classes for sophomores, juniors and seniors will continue," Dr. Lehenbauer said. "The new arrangement will enable freshmen to have Saturday morning jobs and to go home for weekends."

Orientation and hygiene classes for men and women will be held at 7:45 next year in order that freshmen can attend other classes scheduled for 8:40. Dr. Lehenbauer explained. The physical education classes scheduled for 3:15 p. m. instead of at 7:45 a. m. are open only to freshman men. No changes have been made in women's physical education classes.

Barbaric Rhythms Feature of Dances By Indian Children

Barbaric rhythm and colorful dress characterized the program presented by the Carson Indian agency of Stewart last night in the gymnasium, which consisted of 14 dances by the students and a lecture on Indian activities in Nevada by Miss Alida C. Bowler, superintendent of Carson Indian agency.

Outlines Conditions

Miss Bowler presented a brief outline of the present conditions prevailing among the American Indians, stressing the scarcity of land and resources. She described two projects now being carried out on the reservations, the Indian Botanical institute and the arts and crafts program, and commended the agriculture extension bureau for its cooperation.

In describing the work of the Carson Indian agency, Miss Bowler said, "We wish to provide enough land that the Indians may have at least minimum income supplemented by seasonal labor."

Given Encores

The dances were very well received by the unusually large audience and several of them were called back again by applause. The accompanying music for the first set of dances, before Miss Bowler's talk, was furnished by a trio of elderly Indians, among them Chief Winnemucca, blind favorite of the reservation.

The second group of dances, after the talk, was composed primarily of older pupils, who furnished their own music.

George Lemair, director of music and dramatics at Stewart Indian school, sang two tribal songs before the last dance. The selections, "Sunrise Song" and "Medicine Man's Song," were well received, as was the war dance which concluded the program.

Forty-six students composed the company, with ages varying from about 5 to 14. The dances were taken from the following tribes: Palute, Washoe, Teno and Shoshone-Bannock.

Dr. Clark Declines To Approve Plan

Dr. Walter E. Clark, president of the university, does not wish to approve a specific written agreement concerning athletic relations between the A. S. U. N. and the administration under the new setup, according to a report made by Carl Dodge at the finance control meeting Wednesday afternoon.

Dodge said that Dr. Clark believes that a general agreement would be more beneficial to all concerned, since it would be more flexible and of greater advantage to the regents in their handling of athletic affairs.

The finance control committee had requested an agreement to be made specifically so that the duties and control exercised by both the student body and the regents would not overlap.

"Yours is the responsibility to build up public opinion in your community and to educate the parents as well as your students, for a changing civilization," Mrs. Roy A. Pratt, third vice-president of the California Congress of Parents and Teachers, told prospective teachers in an informal class address given this week.

"The teachers in Nevada are doing splendid work," Mrs. Pratt said, "and in time your state, which is the only one in the Union without a statewide organization of parents and teachers, will be brought together under the national congress."

"You are not quite ready for it yet, but it is up to you young teachers to educate the parents to adopt it," she added.

Mrs. Pratt talked at some length about the founding of the Congress of Parents and Teachers, and stressed the importance of making the home as modern as the school. She believes that the introduction and development of the nursery school is a big step towards the socializing of children, and feels that the work in that direction has only begun.

As director of extension in California, Mrs. Pratt travels throughout the state helping to organize community groups who do not have parent-teacher organizations.

Regents Accept Athletic Wares; Inventory Taken

All athletic equipment, the former property of the student body, has been turned over to the board of regents, which will now retain it under the new athletic setup, according to Robert Creps, graduate manager.

An extensive inventory of all athletic property, which includes such items as suits and pads, balls, towels, scoreboards, suits and track equipment, was made under the direction of Creps, and a receipt has been obtained for the same.

**Carville to Speak
At Club Meeting**

Nu Eta Epsilon, honorary engineering society, will hold a banquet at the El Cortez hotel March 25, Professor F. L. Bixby, secretary-treasurer, said this week.

Judge E. P. Carville has been tentatively scheduled as speaker for the evening.

**Gianella to Talk
To Faculty Club**

The Faculty Science club will hold a meeting at 8 o'clock Thursday evening, March 26, in room 110 of the Agriculture building. Dr. Gianella of the mining department of the University of Nevada will be the main speaker of the evening. His topic will be "The Geology of the Comstock Region."

43 Tickets Sold In Two Days for Mackay Lunch

By 3:30 yesterday afternoon 43 tickets were sold for the annual Mackay Day luncheon to be held March 28 at the University of Nevada gymnasium. Kathryn Luke was the first student to buy a ticket.

Everyone is expected to come to the luncheon, one of the biggest events of the day's celebration, and the tickets must be purchased within March 18 to March 25 in order for students to attend the feast. No tickets will be sold after March 25 except to alumni.

No tickets will be sold at the door Mackay Day.

Prof. L. B. Loeb Will Speak Here For Honor Group

Professor Leonard B. Loeb, distinguished member of the physics department of the University of California, will deliver the annual Phi Kappa Phi day address on Friday, April 3, it was announced Thursday by Professor Harold N. Brown of the Education department and secretary of the Phi Kappa Phi society at the University of Nevada.

Professor Loeb is one of the most eminent physicists of the time and is internationally known for his work. He studied at the University of California, Columbia university and received his Ph.D. from the University of Chicago. His graduate work was done at Manchester university in England. He has served as assistant physicist with the United States bureau of standards, and is a member of the National Research Council, American Physical society; A. A. A. S., French Physical society, German Physical society and cooperating expert on International Critical Tables.

During the war Loeb served as a second lieutenant in the air service and was cited by the French ministry of war for his anti-machine gun mount for night defense. He is an associate member of the United States Naval Institute and Scabbard and Blade, national honorary military fraternity.

He is well known in the field of physics for his ability as an author. "The Kinetic Theory of Gases," "Development of Human Ideas Concerning the Physical World" and "Fundamentals Concerning Electricity and Magnetism" are some of his better known books.

Dr. Clark Declines To Approve Plan

Dr. Walter E. Clark, president of the university, does not wish to approve a specific written agreement concerning athletic relations between the A. S. U. N. and the administration under the new setup, according to a report made by Carl Dodge at the finance control meeting Wednesday afternoon.

Dodge said that Dr. Clark believes that a general agreement would be more beneficial to all concerned, since it would be more flexible and of greater advantage to the regents in their handling of athletic affairs.

The finance control committee had requested an agreement to be made specifically so that the duties and control exercised by both the student body and the regents would not overlap.

"Yours is the responsibility to build up public opinion in your community and to educate the parents as well as your students, for a changing civilization," Mrs. Roy A. "The teachers in Nevada are doing splendid work," Mrs. Pratt said, "and in time your state, which is the only one in the Union without a statewide organization of parents and teachers, will be brought together under the national congress."

"You are not quite ready for it yet, but it is up to you young teachers to educate the parents to adopt it," she added.

Mrs. Pratt talked at some length about the founding of the Congress of Parents and Teachers, and stressed the importance of making the home as modern as the school. She believes that the introduction and development of the nursery school is a big step towards the socializing of children, and feels that the work in that direction has only begun.

As director of extension in California, Mrs. Pratt travels throughout the state helping to organize community groups who do not have parent-teacher organizations.

P.-T. A. Speaker Addresses Class

"Yours is the responsibility to build up public opinion in your community and to educate the parents as well as your students, for a changing civilization," Mrs. Roy A. Pratt, third vice-president of the California Congress of Parents and Teachers, told prospective teachers in an informal class address given this week.

"The teachers in Nevada are doing splendid work," Mrs. Pratt said, "and in time your state, which is the only one in the Union without a statewide organization of parents and teachers, will be brought together under the national congress."

"You are not quite ready for it yet, but it is up to you young teachers to educate the parents to adopt it," she added.

Mrs. Pratt talked at some length about the founding of the Congress of Parents and Teachers, and stressed the importance of making the home as modern as the school. She believes that the introduction and development of the nursery school is a big step towards the socializing of children, and feels that the work in that direction has only begun.

As director of extension in California, Mrs. Pratt travels throughout the state helping to organize community groups who do not have parent-teacher organizations.

S. A. E. to Honor Seniors With Tea

Reviving an old tradition of a tea given by the Sigma Alpha Epsilon fraternity for the senior women only has been decided upon by the Senior Week committee, it was announced by Walter Bowrin, chairman, yesterday. The tea will be given Wednesday, May 6.

During the parade to the last A. S. U. N. meeting in caps and gowns, programs will be given to the seniors. The programs have just been received and have an embossed cover in silver. They will contain eight pages and will include several pictures of campus scenes where speeches will be given on the pilgrimage, the program for the Senior Week, the commencement and baccalaureate services and a list of the graduate seniors.

Board Completes Plans for Annual Mackay Day Fete

Plans for the celebration of Nevada's twenty-third annual Mackay Day will be completed this week, according to John Franklin, chairman of the Mackay Day committee.

The program, under the direction of Franklin and his committee, outlines the activities of the University of Nevada students who, on March 28, will honor Clarence H. Mackay and his mother and father, John and Marie Louise Mackay.

The Mackay Day queen, to be named next week, will be chosen by Cecil B. De Mille, Hollywood producer.

Starts at 7:30

At 7:30 Saturday morning the men will report to the gymnasium for work on the campus. The beards will be checked at that time by John Franklin and Cletus Libbey. Hugh Rossello and William Johnstone will check work attendance.

Work on whitewashing the N on Mackay Day is unprecedented, but this year the freshmen will be required to paint the N and will be under the direction of Herman Freudenberg, Lincoln Liston and Claude Hunter.

All freshmen will be checked by William Cashill, Douglas MacDay and John Benson, members of the Block N society. The whitewashers must be back by noon. Because it is necessary for the freshmen women to wait on the tables at the luncheon, they are not required to take part in the painting.

Work Divided

Work on the campus is divided up as follows: Sigma Nu and Alpha Tau Omega fraternities, under the direction of James Hart and Kenyon Richard, will work on the track at Mackay stadium. Cletus Libbey and Hugh Rossello will be in charge of work on the school baseball field and the field at Idlewild park. Phi Sigma Kappa and Sigma Phi Sigma will work at Idlewild, while Beta Kappa will work on the home field. The bleachers will be worked upon by the Lambda Chi Alpha and Sigma Alpha Epsilon fraternities, under the supervision of Sam Stark. Lincoln Hall, faculty members and Delta Sigma Lambda fraternity will go over the tennis courts, with Louis Weiner in charge.

At noon the Mackay Day luncheon will begin, and at this time the song contests of the fraternities and sororities will be staged, and prominent men of the state will speak. Morley Griswold, former governor, will be the speaker of the day. Other speakers include President Clark, Douglas Dashiell, University of Nevada football coach, and Hoyt Martin, president of the alumni association.

Mrs. Mae Simas, assistant professor of physical education, will present athletic awards to those earning them. Inez MacGillivray, president of the Panhellenic council, will give prizes to the winners of the intramural volleyball, basketball and rifle matches.

Officers Elected By Military Men

Guy Morris, chairman of the men's upperclass committee, was elected captain of C company, Scabbard and Blade, at an informal meeting held in Stewart hall last night.

James McNeely was named first lieutenant for the coming year and Joe Lommon second lieutenant. Jack Richardson will act as first sergeant for the year 1936-37.

Charles Nichols, present head of the company, announced that a banquet would be held on April 6, at which time the new officers will be installed. April 6 was chosen because it has been set aside as Army Day.

At the meeting the company also decided to accept the invitation to attend the "barracks get-together" at the Delta Delta Delta house honoring Eva-mae Beemer, honorary major, and the members of Scabbard and Blade, which is being held from 3 until 5 this afternoon.

Blue Key to Give Clock to Library Next Semester

Plans for the donating of an electric clock to the university to be placed over the east door of the library are being made by the Blue Key honorary service fraternity, according to Tom Morris, vice-president.

However, the gift will not be given until next

Nevada Dancers Will Enter Fete At Mills College

Five Chosen to Accompany Miss Sameth to Bay Campus

Women to Present Ancient French Court Dance In Festival

A group of women from the dancing classes of the university will take part in the annual symposium on the Pacific coast Saturday, March 28, Miss Elsa Sameth, head of the women's physical education department, announced this week.

The symposium will be held at Mills college this year and most of the universities in the bay region have accepted the invitation to attend.

The representatives from Nevada will present the dance, gavotte, which will be done as nearly as possible like the original of the court of Louis XIV. The dance will be in the costume of the same period and will be done to the accompaniment of "Amaryllis." The gavotte was the most popular French court dance and is of the minuet type.

Miss Tina Flade, who gave a concert of the modern dance to Reno audiences last month, will conduct a morning of dance to all the representatives.

The purpose of the symposium is to acquaint the women of the different colleges with innovations in dancing and to hold a discussion for the representatives.

Janet Parrish, Elizabeth Best, Georgianna Harriman, Frances Nichols and Ruth Brown will present the dance at the symposium. They will be accompanied by Miss Sameth.

Animals of State Listed by Brown

Listing the chief fur bearing and game animals of the state and their habits and habitats, Charles L. Brown, assistant professor of biology at the University of Nevada, Tuesday night gave the fourth in a series of eight lectures by faculty members over radio station KOH.

"The mule deer is by far the most important game animal in respect to its size, numbers and availability," said Brown. The northwestern part of Washoe county is the area in which are found the largest and best specimens of the deer.

Elk and antelope are found, though protected, in the Ely and Elko regions of the state. Mountain sheep are confined largely to southern Nevada and due to poaching it is doubtful whether they will ever become more numerous than at present, said Brown.

Of the fur bearing animals, only the coyote at present merits special attention, he said, though the muskrat a few years ago abounded in Washoe lake and is still a common sight around Reno.

Bobcats are widely spread over the state, but the mink, otter, gray fox and raccoon are almost entirely confined to the western part of Nevada, where forest, vegetation and abundance of water constitute a better environment for these animals.

The varied topography of the state is responsible for Nevada's large representation of the rodents. The desert areas give rise to a type of rodent particularly fitted to its environment, as do the mountainous parts of the state, said Professor Brown. Many of the rodents of the valleys are harmful to crops and the biological survey has directed its efforts to keeping this type in check.

When X-rays were discovered X-ray proof clothes were advertised.

Coed Sponsored Scout Societies Plan Ceremonies

With approximately 60 girls having passed their tenderfoot test, plans are being made for investiture ceremonies in the various Girl Scout troops in Reno and Sparks.

The troop at the Northside junior high school, consisting of seventh grade girls, are planning to give a tea for their mothers during the first week in April. Louise Emminger, Jean Horning and Kennedy Walker are in charge of this group.

The other troop at the junior high school, headed by Ellen Ernst and Betty McCullough, has only four girls at present but plans are being made to increase the membership.

Mary Pappas and Alma Schiappacasse are in charge of the group of Girl Scouts at the Catholic school. This troop is raising money in order to buy uniforms and have held a candy sale and are planning various other sales.

The two Sparks troops, with Alice Lundberg and Mrs. D. Dilts as captains and Verla Champagne, Frances Smith and Eleanor Bateman as lieutenants, will hold a joint investiture ceremony for the members who have earned their tenderfoot badges.

Miss Lam Writes In Far East Class

The Far East history class becomes a session in Chinese writing when Bernice Lam demonstrates by drawing Chinese characters on the blackboard for the benefit of students who speak but one language and butcher that.

Marriage, numbers and Miss Lam's own name were some of the characters requested by the class and written on the board. Notebooks flew open, and for the first time this semester even the sophisticates took a few notes on how to say "it" in Chinese.

Miss Lam, senior Chinese student at the University of Nevada, also added some interesting sidelights on the school system and customs in the Orient. She is a graduate of the True Spirit school, a private institution, in Canton, China, which is the equivalent to our high schools. As a major in home economics, Miss Lam will graduate from the university this May.

FATHER DIES

John F. Murphy, father of Mary Murphy, senior student, died in Reno March 16, with interment taking place Wednesday. Miss Murphy has been active in student government and the Independent association, and has been a member of several student committees.

U. N. Rifle Team Picked by Hustis

Frank Inman, Ralph Ball, Richard Sauer, Leland Hazeltine and Garnett Freeman were picked this week by Sergeant Grant Hustis, marksmanship instructor at the University of Nevada, to represent the university in the annual William Randolph Hearst trophy rifle matches.

This is one of the most important rifle competitions engaged in by the universities and colleges throughout the United States.

The matches are held under the supervision of the R. O. T. C. departments of the various schools. The United States is divided by the army into nine corps areas. Each corps area will decide its champion and the highest team of the winners will be awarded the national championship.

The University of Nevada competes in the ninth corps area with teams from the Pacific coast and the intermountain region. Winners in the corps area will receive a perpetual trophy and a medal for each man on the team.

Special targets, conforming to official National Rifle association specifications, will be used. Each man is given only four targets and shoots five rounds in each of the following positions: Kneeling, standing, prone and sitting. The range is 50 feet and only five minutes are allowed on each target. The maximum possible score on each target is 50.

English Honorary Distributes Pins

Chi Delta Phi pins were distributed this week to the twelve new members of the English honor society for women by Kay Norrid, former secretary-treasurer.

Under the direction of Anne Gibbs, recently elected president, the last meeting of the semester will be in honor of the graduating members of the organization. Entertainment will be provided by the other members of the club.

Eleanor Barry, new editor of The Pentacle, the annual magazine of Chi Delta Phi, has already made extensive plans for its publication. Contributions for the magazine will be collected by Miss Barry during the summer.

Jeanne Cardinal and Ruth Atcheson, former students, visited Reno last weekend.

Blue Key Resumes Wednesday Dances

Blue Key, honorary service fraternity, Wednesday night resumed its weekly social hours, with a one hour dance being held in the university gymnasium. The dances are a regular activity of the group and were held weekly last semester, being temporarily dropped until the end of the basketball season.

The dances will be held each Wednesday night, according to Silas Ross, chairman of the committee in charge, and will start at 7 p. m., ending promptly at 8 p. m.

The committee in charge of the arrangements consists of Ross, Jack Quaid, Hugh Rossolo and George A. Southworth Jr.

Practices Begin In W.A.A. Sport

With a large turnout of University of Nevada women, the comparatively new sport of badminton started officially this week.

This is only the second spring that the sport has been played at the university. It took the place of baseball a year ago, when more women turned out for it instead of the traditional spring sport.

This year, for the first time, cups will be awarded to the winners of the singles and doubles competition in the intramural matches and persons competing in the singles cannot play in the doubles and vice versa. Emmae Beemer, manager, announced this week.

No contestants will be required to practice in order to enter the matches, but practices are open for anyone at the university gymnasium.

Mary Handley spent the week-end in Sparks.

Wolf Debate Duo Wins S. F. Meet

By a unanimous vote of three to nothing, the University of Nevada debate team, composed of Emile Gezelein and Lewis Pulsipher, last Saturday defeated Jack Werchick and Robert Van Houte, debating for the San Francisco State college, in an intercollegiate match held in the Education auditorium.

Nevada upheld the negative side of the question, "Resolved, That congress should have power by two-thirds vote to overrule any ruling of the supreme court declaring congressional acts unconstitutional."

This was Gezelein's and Pulsipher's first appearance in intercollegiate competition. They were chosen by Coach Robert Griffin to compete in the match on the record that the pair has made in the intramural debate contests.

The San Francisco speakers were veteran debaters, having appeared in over 100 intercollegiate matches.

Judges of the debate were Douglas Busey, Grant Bowen and Harry Dunseath. Bert Goldwater acted as chairman.

DASHIELL SPEAKS

Coach Doug Dashiell was the principal speaker at a meeting of the Sparks Lions club this week, with the program also including musical numbers by Richard Hillman, graduate of the university. The Sparks high school basketball team also attended the meeting.

Orva Selkirk spent last weekend at her home in Gardnerville.

Frosh Obey Rules Of Upperclass Men

First-year men will be requested to report to the university gymnasium to set up the tables for the Mackay Day luncheon, Guy Morris, chairman of the upperclass committee, said this week. They must report by 3 o'clock Friday afternoon.

Freshmen who have been scheduled for work at Mackay stadium have been reporting regularly, as no lists of those who failed to report have been turned in to the committee. One list of offenders on the track work was posted last week, but since then the managers in charge of the work have registered no complaints.

Beardless men who had failed to observe the whisker growing tradition because of downtown jobs or inability to raise the bristles, have been excused by the committee, and no list of those men who have not grown beards and presented no excuse has been compiled.

Plans for the painting of the N on Peavine mountain the morning of

Mackay Day have been completed under supervision of the upperclass men. Committees on transportation, food and work are attending to details.

Margery Hiskey, freshman student, spent last weekend at her home in Austin.

For Digestion's sake—smoke Camels

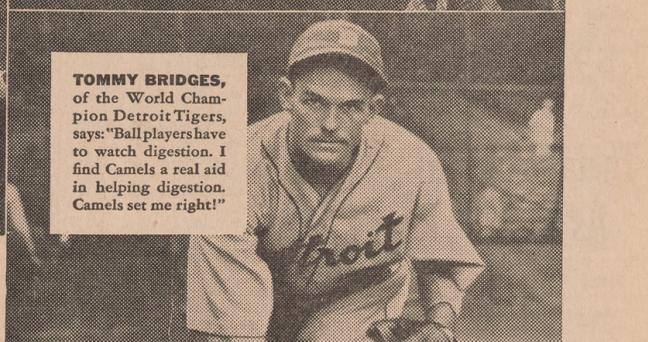

Smoking Camels eases tension—stimulates digestion—and fosters a feeling of well-being!

Again and again, we make up for lost time by eating in a hurry. Digestion must meet the strain. How fortunate that smoking Camels during and after meals definitely stimulates digestion and helps to ward off the effects of our hurried, nerve-racking life—by aiding and restoring the natural flow of the digestive fluids. Today, Camels are being everywhere recognized as a healthful part of the art of dining. Camels are incomparably mild—never get on your nerves or tire your taste. Enjoy Camels with meals and the whole day through, for their matchless blend of costlier tobaccos—for their energizing "lift"—for the welcome feeling of well-being they bring you. Camels set you right!

L'AIGLON, IN CHICAGO, RENOWNED FOR ITS CONTINENTAL CHARM AND CUISINE. "Teddy," genial host to the lively crowd you see in the picture above, is an internationally famous *maitre d'hôtel*. "We find our patrons know not only good cooking," he says, "they know good tobacco. There is no question but that Camels are the most popular cigarette."

Forty-seven Coeds Write Copy, Ads For Mackay Day

Women's Edition of Sagebrush To Make Appearance March 27

Special Section Is Dedicated To Mackay; Features Planned

Again the women take the helm. Next week a staff of 47 women will publish the University of Nevada Sagebrush, under the direction of Eleanor Doan and Virginia Crosby, women's editor and business manager.

Work on the annual women's edition, which traditionally appears on Mackay Day, was started this week with 40 reporters writing "stories" and seven women "chasing ads," and completely taking control of the paper, with the work to reach its peak next week, when all men will be barred from the Sagebrush offices.

Large Edition "The paper will be one of the largest women's editions ever published and will include many new features, particularly in the Mackay section," according to Miss Doan, who is directing work on the edition.

"Not only will Mackay be honored as Nevada's chief benefactor but all benefactors of the university will be recognized in a special section this year," she stated.

The reportorial staff has been meeting weekly for the past month in preparation for the Mackay Day issue, and work on the setting of material for the paper has already started, and novel pictures concerning student activities and the university in general will be published.

Keeps Secret Miss Doan has refused to announce any of her plans definitely, preferring to keep her material secret until the date of publication.

"There will be plenty of 'razzing' for men working the Sagebrush," she announced, however, "with the Bulletin, which has been abandoned this year, to be published for the final time."

Staffs working on the paper are as follows: Editor, Eleanor Doan.

Business manager, Virginia Crosby. Editorial staff—Lois Midley, Kay Norrid, Rita Gunter, associate editors; Mary Millard, Anne Gibbs, assistant editors; Ruth Goldsworthy, Mackay editor; Eleanor Barry, women's editor; Norma Anderson, Winifred Hiltonen, Margaret Turano, assistant women's editors; Betty Bowman, sports editor; Nina Boczkiewicz, society editor; Helene Fulton, morgue librarian.

Reporters—Eleanor Bateman, Verla Champagne, Evamae Beemer, Elizabeth Juniper, Gwen Erickson, Gladys Blair, Jeanette Green, Beverly Joyce, Kathleen Meeks, Lila Stoddard, Lois Miller, Loretta Collins, Jean Chism, Ethel Graunke, Mary Handley, Kathleen Hansen, Agnes Howell, Margaret Hussman, Betty Kormmayer, Virginia Raitt, Georgene Roberts, Pat Lannon, Margery Hiskey, Helen Shovlin.

Assistant business managers—Ethel Kent, Georgia Cooper. Staff—Bette Naismith, Agnes Howell, Lois Aldrich, Frances Cafferata, Hannah Jean Sullivan.

Secretaries—Alice Boland, Frances Slavin, Jessie Sellman, Betty McQuiston, Barbara Bryant, Catherine Armstrong, Mary Eleanor Underwood, Betty Jane McCullough, Virginia Raitt.

WITH THE WOLFETTES

Twelve women have been appointed to work with Betty Bowman to complete plans for the annual Faculty Playday March 24, sponsored by W. A. A. Those named on the committee were Verla Champagne, Dorothy Roseberry, Elizabeth Best, Chrissie Finn, Helen Traner, Ruth Rowe, Alice Lundberg, Miriam Butler, Betty Kormmayer, Ruth Goldsworthy, Bette Naismith and Georgianna Harriman.

April 15 is the date set for the selection of women students to sign the Associated Women Students' service roll for outstanding work and leadership during the school year. The committee selecting the women, on the merit of their work, consists of the president of the Associated Women Students, president of Sagens, chairman of the women's upperclass committee, president of the Women's Athletic association, president of Y. W. C. A. and a chosen representative of the freshman and sophomore class.

The usual \$5 fee will be required of all women participating in Saddle and Spurs, riding organization, according to Julia Sibley, manager. The fund thus derived will be used to defray all expenses of the group during the riding season.

The warm spring afternoons find Nevada coeds abandoning the more feminine sports to go bicycling along the concrete. Enthusiasm in the two-wheeled vehicle is running high among the women students.

Shrieks of excitement from the gymnasium filled the air Tuesday morning. An investigator, seeking the cause of the uproar, found the 10:30 organized games class playing a heated game of pinball, in which ten-pins are used for bases and a volleyball is kicked instead of batted as in baseball. A runner must score a homerun each time she comes

Coed Mermaids Will Do Stunts At Swim Match

May 11 and 18 will be two important dates for the University of Nevada mermaids, when for the first time a water pageant will be presented and the semi-annual intramural swimming meet will be held at Moana Hot Springs. The swimming meet, one of the highest spots in coed competition, will take place on one of these dates, although the definite date has not yet been set. Mrs. Mae Simas, assistant professor of physical education for women, announced this week.

The pageant, which will be given on the other of the two dates, will be a new and unique affair, to be staged by the women in the swimming classes. It will include as many as possible of the different designs and patterns of water pyramids.

In the Wednesday and Friday afternoon swimming classes the women are practicing for the pageant under the direction of Mrs. Simas and Emily Tholl, student in physical education 51, which is a class in teaching the methods of swimming.

Faculty, W. A. A. To Join in Games At 1936 Play Day

Classroom formality will be forgotten when members of the faculty and women students unite and become one fun-seeking, frolicking crowd Tuesday afternoon, March 24, at the third annual faculty play day, sponsored by the Women's Athletic association.

Seventy-five invitations to "spend the afternoon aboard the U. S. S. Carefree Capers in drydock at the gymnasium" have been issued, according to Betty Bowman, chairman. In addition all active members of W. A. A. will be present.

Dean R. C. Thompson will be asked to preside as commodore or master of ceremonies.

Features of the afternoon will be the basketball game, in which the women's varsity team will play a team composed of six men on the faculty. Girls' rules will be used, with six playing on each team, consisting of two forwards, two guards, a center and a side center. Georgianna Harriman, women's basketball manager, will be in charge of the game. Coach "Doc" Martie will be asked to referee the encounter.

Those who do not care to play basketball will have their choice of deck tennis, volleyball, badminton or outdoor horseshoes.

Two women have been assigned to each building on the campus to promote interest in attendance.

Grad Is Engaged To Irene Taylor

Eugene Salet, graduate with the class of 1934, and Irene Odele Taylor of Buffalo, N. Y., will be married in Buffalo this summer, it was announced this week.

Salet since his graduation has been employed in the Dayton schools, and while attending the university was active in athletics and is a member of Block N society. He is also a member of Sigma Alpha Epsilon fraternity and Coffin and Keys, honorary society.

Miss Taylor is the daughter of Mrs. Adele Taylor of Buffalo and visited in Reno recently.

Lottie Boulden spent Saturday at Stewart, where she visited Sup. Alida C. Bowler and other friends.

to bat. The game is one of the newer ones adopted by the women's physical education department.

Betty Bowman, junior mining engineering student, is working out twice each week at Moana Hot Springs in preparation for senior life saving tests which she will take within the next few weeks. Lila Stoddard, sophomore student, is acting as instructor.

Pi Beta Phi Wins Intergreek Shoot

Inda, Polander, Sellman Are Champs; Independents Are Second

Pi Beta Phi sorority won the inter-sorority rifle tournament, Elizabeth Osborne, manager, announced this week, with a score of 6470 out of a possible 6900. The winning team was composed of Gertrude Polander, Jessie Sellman and Betty Inda, captain.

Second, third and fourth places were taken by the Independents, shooting 6313, Kappa Alpha Theta with a score of 6276 and Gamma Phi Beta with 6259. Gertrude Polander, freshman student, took individual honors with a score of 2229 out of a possible score of 2300.

Bette Naismith of Gamma Phi Beta was second, shooting 2157, followed by Elizabeth Osborne, Kappa Alpha Theta. Other women ranked as follows: Genevieve Hansen, Jessie Sellman, Betty Inda, Mary Mathews, Eunice Beckley, Marilyn Rhodes, Jeanne Horning, Laura Jarvis and Frances Smith.

Returns from 15 colleges with which the university had matches show that the Nevada team has won 12 of them.

Among the universities which Nevada defeated were the University of Hawaii, Northwestern and Louisiana State. The three matches lost were to University of Washington, Carnegie and University of Vermont.

Nevada's scores were: University of Georgia 481; Nevada 496; Louisiana State 481, Nevada 496; University of Maryland 493, Nevada 493. In this match Nevada had a third high score and as Maryland sent in no other scores the match was given to Nevada.

Syracuse university 495, Nevada 493. This match was the same as that with Maryland; Nevada had a second high score and was conceded the match.

University of South Dakota 486, Nevada 494; University of Illinois 450, Nevada 494; Northwestern university 481, Nevada 495; University of Hawaii 486, Nevada 491; University of Missouri 945, Nevada 961; University of Montana 957, Nevada 961; University of Oklahoma 490, Nevada 493; University of Washington 499, Nevada 494; Carnegie 497, Nevada 493; University of Vermont 500, Nevada 494.

Beemer Will Lead Sagens Next Year

Voting by secret ballot, Sagens, women's pep organization, Wednesday night elected Evamae Beemer president for the year 1936-37. Jane Bell was chosen secretary-treasurer. At the same time four new members were designated to replace graduating seniors.

Jeanette Hutchins was selected to replace Catherine Dondero. Virginia Johnson and Eunice Beckley were named to replace Margaret Walker, senior, and Betty Simpson, retiring president, who will not return to Nevada next fall. Delta Delta Delta sorority will be represented by Betty Kormmayer, who will fill the place of Charlotte Robison.

The last meeting of the organization will be held April 16, when the senior women will be the guests of the active members and newly chosen representatives at a banquet to be held at the Colombo hotel. Evamae Beemer and Joyce Cooper were named on a committee to make arrangements for the dinner.

Tentative plans were made to hold a picnic April 4, with the senior women placed in charge of arrangements for refreshments and transportation.

Legion Quartet Sings at Meeting Of Faculty Club

Members of the University Women's Faculty club were entertained last week by the American Legion quartet. The occasion was the monthly luncheon meeting of the group.

Professor T. H. Post, Lehman Ferris, Vernon Armstrong and Roy Merrithew, members of the quartet, were accompanied at the piano by Mrs. T. H. Post, who also sang solo parts.

During the regular business meeting the ladies were addressed by Mrs. Erno, president of the Nevada Federation of Women's Clubs.

Mesdames Peter Frandsen, P. A. Lehnbauer, Fred W. Wilson, R. C. Thompson and T. E. Post were hostesses for the luncheon.

A "guest day" has been planned for the next meeting, April 14, at which Mrs. Paul Harwood will entertain in Lincoln hall. Each club member may bring one guest.

Upperclass Board To Query Fresh

Sixteen absences from last Friday's A. W. S. meeting will have to be satisfactorily explained to members of the women's upperclass committee or freshman absentees will take the consequences, according to Genevieve Hansen, chairman of the committee.

Rose Boggio, Louise Borsine, Frances Cafferata, Margaret Campbell, Margaret Cline, Loretta Collins, Mildred Dillard, Geneva-Beth Ellis, Katharine Harrington, Mildred Hayden, Gwen Meginniss, Gelica Moos, Martha Nelson, Clara Smith, Alma Twist and Geraldine Westfall failed to appear at the meeting when freshman rollcall was taken and will meet with the committee later this month.

To this list are to be added the names of those freshman women who fail to appear for painting of the N, along with those for the painting of the N, along with those girls who do not perform their traditional duties at the annual Mackay Day luncheon, said Miss Hansen. All offenders will be tried at a meeting of the committee, scheduled for the week following Mackay Day.

Miss Hansen announced that the committee would call a meeting of all freshman women next Friday, at which time they will be given their instructions for the luncheon.

Fine Arts Tea To Honor Kassel

Presenting Professor Meyer-Kassel, the Fine Arts group is holding a formal tea at the Kappa Alpha Theta sorority house on March 21, from 2 until 5 p. m., for the patronesses, who have each invited seven guests.

This tea is being given in order to finance the activities of the group for the rest of the semester.

Women's Averages Higher Than Men's

Students of Ten Years Ago Had Higher Grades Than Present

The well known adage "Beautiful but dumb," with reference to the fairer sex has been satisfactorily disproved for the past 14 years on the University of Nevada campus.

Records in the dean's office dating from 1922 through the spring semester of 1935 show the women students leading in scholarship average each year.

In the spring semester of 1934 the student body average reached a new high of 2.3886, with the women upholding their laurels with an average of 2.2798 as compared with the men's 2.4654 average.

The men hit a low with a 2.819 average in the fall semester of 1922, while again the women upheld the standards with a 2.237.

At no period in the past 14 years has the average of the Nevada student body fallen below 2.5507, the mark reached in 1934.

One thing is certain. When the women soared to their highest scholarship ranking with a 2.234 average in 1926, the men were stepping out with girl friends other than coeds for here the "stronger" sex managed to pull through with the meager average of 2.6824 average the same semester.

The records prove one more thing of importance. The student of ten years ago was somewhat brighter than the student of today. The student body of 1922 rated a 2.48 average, whereas the students of the class of 1935 rated only a 2.5278. Here, however, the men of the 1935 class fared much better than those of the class of 1922.

Committee to Pick Winner of Prize

Prof. A. E. Hill Heads Group To Present Senior \$100 in Books

Selection of the winner of the Armanko Senior Library prize must be made during the month of April, President Walter E. Clark announced.

Professor A. E. Hill, head of the department of English and chairman of the committee of judges, this week requested all seniors desiring to compete for the prize to register by April 1, either in person or by mail, to facilitate the selection of the winner.

The prize, which is to become an annual award, will be presented for the first time at commencement, this May. It is the award made by the Armanko Office Supply company.

Quality as well as the number of volumes is to be taken into account by the committee of judges in awarding this prize of \$100 worth of books. Consideration is also to be given to the circumstances under which the library was acquired.

All seniors of the 1935 fall and the 1935 spring graduating classes are eligible to submit their libraries for judgment.

Other members of the committee are Dean R. C. Thompson, Dean Margaret E. Mack, Professor Stanley G. Palmer, Professor Katharine Riegelhuth and Professor Paul Harwood.

'35 Mackay Queen Visits on Campus

Mrs. Bruce Gould, formerly Sally Fagan and the queen of last year's Mackay Day celebration, is now in Reno visiting friends.

Mrs. Gould married Bruce "Mike" Gould, a former Nevada student and a member of Alpha Tau Omega fraternity, on commencement day last May.

As a member of Kappa Alpha Theta sorority and numerous other campus organizations, Mrs. Gould was a prominent student while attending college. Her home is now in Los Angeles, where Gould is employed.

REGRETS

It is with the greatest regret that the Sagebrush prints that Clarence H. Mackay, Nevada's greatest benefactor and a true friend of the student body, will not be present on the campus next week to enjoy Mackay Day and to aid us in honoring his father, John W. Mackay.

Mr. Mackay is forced to remain in the east because of the press of business, but the entire student body knows that he will be in the center of activities in his heart and, although his presence would add tremendously to the celebration, every Nevadan will do his part in honoring the Mackay family.

It is to be hoped that Mr. Mackay will be able to visit the campus within a few years so that the student body will be able to show him personally what his interest in the University of Nevada has meant to us.

A REVIVED TRADITION

Engineers' Day, long a traditional celebration of students registered in the college of engineering, last week was revived following a period in which the former "big day" of the engineers was consolidated with the annual Homecoming celebration.

From all reports, last week's celebration was successful from every aspect. The program was carried out in detail, and more than 1500 students and townspeople crowded the campus to view the latest in scientific developments and the handiwork of several individual students. A speaking program, of special interest to Nevadans in that it brought feats of engineering home to students and townspeople and featured developments which are closely tied in with Nevada's natural resources, was also well received, and reflected much credit on the students sponsoring the celebration.

But engineering students should remember that they must not confine their activities solely to Engineers' Day. They should also take an active part in the Homecoming Day celebration and open their laboratories and classrooms to campus visitors at that time.

The engineers stress the fact that they will continue to do this, but it is too easy to let this all-important day of the fall semester slip by in preparation for what promises to be one of the biggest days of the spring semester in coming years.

The Sagebrush hopes that this never happens, and that Engineers' Day and Homecoming Day will continue to go hand in hand in future years so that the work done on the "east side" of the campus will gain more publicity and bring more credit to the University of Nevada.

GOOD LUCK

Years ago the women of the Sagebrush staff decided that they were not being given an ample opportunity to display their journalistic talents, so they asked to be allowed to edit and publish one issue a year.

The request was granted, and the result will appear on the campus next week when the women, working under the direction of Eleanor Doan, women's editor, publish the 1936 Mackay Day edition of the Sagebrush.

The women have worked for some time in preparation for this event, and they promise the campus that their paper will be one of the largest in the history of the school and that it will be filled to the column rules with lively news stories and interesting features.

The men on the staff always look forward to the women's edition with expectation and anticipation of a week's holiday from the hum-drum business of collecting news and working nightly on headlines that refuse to count just right.

Next week, however, things will be different. The women must work, and the men will have a chance to rest—and to catch up on the notebooks and studies which they have allowed to slip from week to week.

So, the male reporters of the Sagebrush wish "Good luck" to their female rivals, and hope that their Sagebrush will be successful and that it maintains a high standard of journalism.

A PLEDGE

During the past two months the Sagebrush has been criticized for "unnecessary pressure" on student organizations, the critics believing that it is not the right of the Sagebrush to criticize organizations for their laxness.

The Sagebrush, however, has the duty of doing its best to remedy situations on the campus that are deemed unworthy.

This will be done, as long as there is one single student or group of students that needs to be brought to life.

The Pedagogue

Here's a vote of thanks to the graduating class for the new scoreboards to be built in the gymnasium as a parting gift to the University of Nevada. We feel that it will be more than a relief to be rid of the obsolete wrecks which have been used to inform patrons of the basketball games of the relative scores of the opposing teams.

If the university is so short of funds that it is unable to purchase new flags as old ones become worn out by wind and weather, we would suggest that the flagpole in front of Stewart hall be left as barren as Mother Hubbard's cupboard rather than that from it should be draped a tattered wreck. The relic which is now in use serves the following purposes: an eyesore to passersby, a disgrace to the campus and an out and out insult to the United States of America.

The faculty has at last taken notice of the fact that the University of Nevada is a growing institution, and as a result it announced last week that changes in class schedules and the addition of new classes will be made next semester to keep the institution first rate and to benefit both the students and faculty by equalization of time.

This has been needed for some time, and since new equipment cannot be afforded at the present time it is only logical that the present equipment be utilized to a greater extent. It is foolish not to do this, since space and equipment that has been idle for four or five hours at a time is only wasted, and work cannot be done efficiently in the crowded afternoon laboratories.

Robert Creps, graduate with the class of 1935 and for the past year graduate manager of the Associated Students, will probably be rehired for the coming school year, from all indications. This is indeed a welcome move. Creps has done a good piece of work as graduate manager, and with a year of experience already to his credit he should be able to do much more next year.

Another orchid should go to the senate (of all places) for the reappointment of Professors Wilson and Harwood to the board of finance control. Prof. Wilson has done excellent work as chairman of the committee serving as "watchdog of the treasury," while Prof. Harwood, a Nevada graduate and still in close contact with the students, is also to be recognized for his sustained interest in student affairs. Finance control needs these two men, and the senate did well to reappoint them.

It is indeed sad that a custom, almost established as a tradition, should die. It is now understood that as a result of circumstances beyond their control the freshman class this year will be forced to paint the Block N, not on Saturday preceding Mackay Day but on Mackay Day itself. That the industry of the freshman class, so valuable when used in former years toward renovating the campus, should have to be expended on Peavine mountain is a blow, the other classes will realize, when they clean up the university grounds without the assistance of the yearlings.

All of which about ends this week's effort on the part of the Pedagogue. Next week the opinions herein expressed will be beyond "our" control. Especially addressed to the women: Best of luck, and take it away!

Hints on Courting Are Given to Men By Prof. Young

If college men would hold their girl friends, there are certain fundamental principles to be observed, according to Dr. J. R. Young. These principles as propounded to the class in marriage and divorce would include:

Leave off the cave-man tactics. Of course Gable can do it, but there are very few college men who are Gables. The girl friend really doesn't appreciate being knocked around by her big husky he-man boy friend.

Don't try to be a Don Juan type. Contrary to what you may believe, most coeds are not interested in how many women you have at your feet, but rather in the fact that for the present at least she is the only one.

A warning especially to the star football or basketball players, is found in the third principle. Don't boast of your achievements. She probably saw that wonderful run you made to win for old Nevada against St. Mary's, but more than likely she would rather not hear about it continually. If you must boast create a subtle system of doing it.

Don't have the critical attitude. Remember that common faults are what make others human. Overlook the faults and concentrate on the girl friend's good points.

If, by following this advice, you fail to have success in your romantic ventures, you may find solace in the knowledge that she wasn't your type anyway.

NOTICE

All seniors desiring announcements must place their order before April 1. Orders are being taken at the Artemisia office between 1:30 and 4 and at the Reno Printing company at any time. A deposit of one-half the bill is required.

MAN O' THE WEEK

Just plain J. D. Stephens—no first name, no second name.

A family tradition of the Stephens' dictates that no member of the clan shall be equipped with the conventional "handle," initials serving the purpose, and J. D. has kept up with it, through no fault of his.

J. D. came to Nevada from Fernsno, the "Garden Spot of the West," to study mining and for nothing else. But after he arrived here the gold in the local hills shone too brightly and he succeeded in digging up as much in the line of activities as he has in mining, his original game.

Football manager for the season '34 was a job which was ample to keep anyone busy and J. D. was no exception, but he carried out the duties of the office completely and satisfactorily. Before being elevated to the title of head manager, Stephens served as freshman and sophomore manager. After leaving office he was given the traditional manager's letter, and is now a member of the Block N society.

Athletics, other than managing, came in for a share of the much divided time of the Freshman in his first two years at Nevada. J. D. tried for positions on the freshman and sophomore track teams, but he could not throw the discus far enough other than to have his name mentioned in the notices of the track meets as "also participated."

Stephens has been S. A. E. house manager for three terms. Some of the undergrads say Stephens is a bum, and he really is—a member of Sundowners, campus "knights of the road" organization.

Membership in Blue Key, Sagers and Crucible club has also added to the total of the pictures of Stephens in the Artemisia, one of the largest totals of any member of the class of '36.

J. D. is a member of the class of '36. He wasn't so sure at the first of this semester so signed up for 2 3/4 hours of school work. Any particular danger of not donning a cap and gown in May was dispelled this week when J. D. took a special examination and received three hours' credit, reducing his schedule to 20 1/2. He still doesn't have much time to take part in off-campus affairs but he does get around.

Support Brush advertisers.

QUESTION BOX

Now that the "spinach" is in full blossom (in most cases) we have decided to "comb" the campus for comments on the question, Do whiskers bother you?

Some of our classmates were very frank and showed an encouraging desire to cooperate. Others blushed, stammered and then refused to be quoted.

Of course we recognize the right of privacy, and we have no serious objections to modesty, but we heartily condemn those who seized this opportunity to use this column as a means for boasting of their accomplishments.

How do you like these answers: James Parker—Not yet, but give them a chance.

Lois Midgley—Not the kind I'm familiar with now. There was a time—

Adam Patterson—I have a swell formula to make them grow. (May we suggest that you use it, Adam?)

Virginia Posvar—Life would be much smoother without them.

Mel Wilder—No. I'm mighty, mighty proud of my red "baseball team."

Fran Slavin—No!

Joe Kelley—Aw, you don't need whiskers to be popular.

Winnie Waits—Yes! (So brutally rank, Winny.)

Duke Rommel—They seem to strain the soup thoroughly.

Katie Meeks—Tremendously. I have bought three bottles of lotion and two

Letter to the Editor

Editor, The Sagebrush: It seems to me that the Sagebrush has been raising an awful big noise about the merits of a new gymnasium and a new Student Union building in the past few weeks, with the Pedagogue and the Showers writer having a private little feud.

When it comes right down to cases, both of these buildings could be used to great advantage, and there is much to be said for both sides.

But don't you think that the boys are crying "Wolf"? From all appearances, it is not likely that the present college generation will ever see either of the two on the campus, but then it might create an interest in our needs and finally, when our grandchildren are coming to university, they might have the buildings.

jars of cream since March 1. For the benefit of those who are having difficulty producing a "crop" we offer the following formula, which we have been assured will produce positive results: Take one part baking powder, two parts cigar ashes, the left wing of a

common house fly, a handful of rakings off your lawn, a small amount of gasoline and five parts of linseed oil. Mix this thoroughly until the entire mess is quite unbearable, then apply to the unproductive areas, and with a handful of C12-H22-O11, vigorously massage. When you are through we believe that you won't want whiskers any more. But here's hoping it does some good.

Hundreds Inspect Engineer Displays As Fete Revived

Students, Faculty and Visitors Declare Celebration Success

James Reed of Bridge Corps Is Principal Speaker Of Day

Hailed as a great success by campus leaders, the rejuvenated Engineers' Day, held last Saturday for the first time in ten years, met with the unanimous approval of those persons in charge of the celebration and the hundreds of visitors to the campus for that day.

Clark Speaks
President Walter B. Clark sounded the keynote of approval to the idea of not holding the celebration in conjunction with the annual Homecoming Day when he said, "If your successors, in the coming year, make anything like so notable a success, of the second spring Engineering Day, in this New Deal, there will then be clear justification for continuing this splendid March Engineering Day."

Fredrick Sibley, dean of the college of engineering, in giving the engineering faculty's viewpoint, said, "I feel that the success of the exhibits and other novel features were fully as good as they were ten or twelve years ago. And I also feel that the attendance this year was much better than any time when it was combined with Homecoming Day."

1500 Attend
Dean Sibley said that he had estimated the number in attendance at the several exhibits to be in the neighborhood of 1500 people.

Robert Butler, chairman of the Engineers' Day committee, said on behalf of the students, "It was a remarkable success, and I think that the members of next year's Associated Engineers can build it up into a still bigger success."

The program of the day which dates back to a celebration of St. Patrick's Day, was started with opening of the exhibits. An estimated 1500 people visited the displays in the different engineering departments to see the novel exhibits which the student engineers had constructed.

Electricals Win
Robert Best and Paul Bohlke of the electrical engineers were awarded first place in the chaining contest.

Immediately following the chaining contest, the luncheon at the university dining hall was held. One hundred and ten people were on hand to hear Silas E. Ross, chairman of the board of regents, discuss the engineering profession. Following Ross, J. B. Van Law of the Como Mining company gave an interesting talk on "Transportation of Mining Equipment by Airplane in New Guinea." Van Law recounted the hardships found in getting mining equipment into the wilds of New Guinea.

Cars Crash
Climaxing the afternoon's activities two automobiles of ancient vintage were wrecked before a gathering of approximately 2000 townspeople.

Signaling an end to the days celebration, James Reed, general manager of the Golden Gate bridge, spoke to 300 people who filled the Education auditorium, on the construction of the bridge. The evening talk was illustrated by several reels of motion pictures.

Aggie Extension Gets New Offices

Vacating quarters that it has occupied since about 1915, the Agricultural Extension service began to move this week from the old dairy building behind the mechanical engineering building into the old chemistry hall. The work is being done by WPA workers and trucks.

The service will resume work in their new quarters on Monday or Tuesday, but they will not be completely settled until late in the spring, said C. W. Creel, director.

Resettlement administration workers, under Robert J. Bankoffler, '32, who have been in the old chemistry hall, have not been successful in obtaining space downtown, and will continue to occupy some of the second story offices temporarily.

The dairy building will undergo complete remodeling to accommodate the veterinary laboratories, now in the basement of the Agriculture building. The renovation will be completed about one week after commencement and the new home will be taken over by the veterinary labs before the fall semester begins.

Press Club Plans To Meet Monday

Lois Midgley, president of the Press club, announced that the next meeting of the group will be held on Monday, March 23, at which time the date will be set for the annual Press club picnic to be held next month. The location and other particulars will also be decided upon then.

During the meeting the election of new officers will be discussed, and the date set for their election. The matter of taking in new members will also be brought up for discussion. Miss Midgley asks that all members be present.

Group Discusses Effects of Nazis On Third Reich

Picturing present day conditions in Germany under the Hitler regime, J. Maack, local business man, spoke to members of the Economic Forum club last week in the economics department lecture room.

He discussed the economic, social and political conditions of the German people, dwelling largely on the effect the Nazi dictatorship under Hitler is having on the life of these people. He also compared the school systems of both Germany and the United States.

He said that German students are given intensive training in scientific subjects all through their school life. Mathematics is given an important part in the curricula of the schools. The number of years required to complete elementary and grade schools, he said, varies a little with those in the United States, but the school day lasts longer, the students attending school from 8 in the morning to 5 in the afternoon.

Maack has traveled extensively in Germany, getting a personal view of the conditions there for the last several years. He attended university in Germany when Hitler rose to power in 1932.

Many New Books Received by Libe

Among the books of special interest which have recently been added to the University of Nevada library is "My Country and My People," by Lin Yutang. Lin is Chinese, and his book, as the title suggests, is concerned with the history of China, its people and the traditions and problems that have influenced their life. From it the reader cannot help but feel aware of the close relationship that exists between all men. The New York Times describes "My Country and My People" as "a Chinese writer's fine interpretation of his country's ancient culture."

Another outstanding book is Anne Morrow Lindbergh's account of travel in "North to the Orient." Here one becomes mindful not only of the places and people visited but also the personality and character of the author herself.

In his "Woolcott Reader," Alexander Woolcott presents the works of seventeen authors in novels, full length biography, short stories, long stories, essays and plays. Eighteen original articles by Woolcott himself are included in the reader.

Clarence Day's "Life with Father," another recent novel, relates the carryings-on of a New York family of 1880, in a manner most enjoyable to the reader.

Highly acclaimed by many critics, "I Write as I Please," by Walter Duranty, is a simple adventure story of a newspaper reporter. It portrays the rich personality of its author, is refreshing and delightful.

Other noteworthy books now in the library are: A. J. Cronin's novel, "The Stars Look Down"; the biography, "Old Jules," by Mari Sandoz; "Mutiny on the Bounty," "Men Against the Sea," and "Pitcairn's Island," all stories of the "Bounty" by Charles Nordhoff and James Norman Hall.

Many New Classes Added by Faculty

The addition of approximately a dozen or more new courses to the university program was approved by the university faculty this week. Additions were as follows:

German 9 and 10, "Intermediate Pre-scientific German," is being offered to science students.

Education 38, "Teachings of Educational Social Studies," an elective for junior and senior students.

English 0, no credit, will be required of students showing an inability to carry English 1.

Mathematics 22, "Mathematics for Students of Agriculture and General Science," will be required of all agricultural and pre-medical students.

English 23-24, "Drama of Today," offered with two credits each semester.

Journalism Courses Revised

Revised courses in journalism are as follows: Journalism 56, "Advertising and Advertisement Copy Writing," a two-semester course with three credits each semester. "Advanced Editorial Practice" is now journalism 81-82. Honor courses for undergraduates will be offered under the numbers 93, 94, 95, 96.

These courses have been previously taught at the university but have been separated into individual courses.

Psychology 59, "Tests of Mentality, Personality and Vocational Aptitude," has been reinstated in the psychology department.

Engineering Changes

Two changes have been scheduled by the engineering department this year, according to Dean Fredrick Sibley.

Mechanical engineering 19-20, "Mechanical Engineering Literature," under Dean Sibley, will be offered to students interested in the study of current engineering magazines.

The second change is slated for the Mackay school of mines. Professor Vincent P. Gianella will offer geology 53, "Stratigraphical Paleontology," dealing with the laboratory study of hard parts of invertebrate groups.

In the college of agriculture three new courses, two in animal husbandry and one in botany will be offered farming students next year.

Animal husbandry 61-62, "Thesis Course," will deal with special problems in animal production and management.

Animal husbandry 60-60, "Animal Husbandry Literature," a seminar course in livestock information. This course is also offered to graduate students.

One addition in the botany department is botany 71, "Morphogenesis," given to the study of the form or structure of plants, with facts governing their development.

The smallest flashlight produced is three inches long and one-half inch in diameter.

Engineers Help Advertise Day By Sham Wreck

Crash!
Two cars, driven by university students, meet in fond caress on the corner of First and Center streets.

Harsh words and strident voices cut the clean air as the "scholars" attend to the miscellaneous task of minor manslaughter on each other.

The loud screech of the police sirens rings out, followed by the less shrill cry of the ambulance siren.

The battlers are jailed, the injured men are taken from the wreck to the hospital and the air is filled with loud "plugs" on the advantages of attending Engineers' Day on the university campus.

The realistic cross section of a wreck was portrayed by the engineering students as just one of the novel portions of the program presented during the celebration last Saturday.

Ellis Ceander and Wayne Kennedy enacted the parts of the angered drivers, while Clayton Carpenter and Hal Lang took the parts of the injured men.

Library Displays Safety Posters

Vivid portrayals of the tragedy that accompanies reckless driving and pictured injunctions to drive safety greeted students who entered the library this week in posters set up in the halls.

These posters are part of the annual safety campaign conducted by the Nevada department of highways in an attempt to make the students and people of Nevada "safety conscious."

"Bring them back alive" is a slogan below a picture of a mother and her children in a car. The results of fast, reckless driving are shown in a drawing of a wrecked car and a dying passenger, and explained by the term, "Speed, and sudden death."

DROPS SCHOOL
Dana Dodge, freshman student, has dropped school and returned to his home in Fallon. Dodge is affiliated with Alpha Tau Omega fraternity.

Budding Writers Study Journalism

Fourteen students are enrolled in the English 26 class in newspaper writing and reporting this semester, according to Prof. A. L. Higginbotham, professor in journalism.

The students are required to spend two laboratory periods weekly securing information and writing news stories for publication in the Sagebrush, other university publications and for Reno and other Nevada newspapers.

The students are Wilfred Austin, Winifred Hiltonen, Sherwin Garside, Charles Doherty, Margaret Turano, Beverly Joyce, Lila Stoddard, Murray Moler, Norma Anderson, Max Jensen, Jesse Christensen, Edward Connors, James Hart and Gladys Blair.

Advanced students in journalism are also working in special reporting classes for credit, writing on the staffs of the Reno Evening Gazette and Nevada State Journal.

RETURNS TO RENO
Forrest Bibb, former editor of the Sagebrush, has returned to Reno after visiting in the eastern part of the state. He was formerly editor of the Castroville News in Castroville, Calif.

Engineers' Day Brings Praise From Officials

The resurrection of Engineers' Day on the Nevada campus drew favorable comment from many quarters of the engineering and professional world.

Mayor John A. Cooper of Reno said, "Let me urge you to attend Engineers' Day at the state university, and see the work they are doing. It will be entertaining as well as instructive."

The following telegram was received from James D. Church, United States bureau of reclamation and assistant engineer of Boulder dam construction, "It's a (Boulder) dam good idea any way you look at it."

Excerpts from a letter recently received from C. H. Purcell, chief engineer of the San Francisco-Oakland bay bridge division, show the high regard which Engineers' Day is given in the bay city.

Carson Senators Win State Title In Hoop Tourney

Capital Team Downs Comstock Five in Final Game Of Year

Sparks Defeats Winnemucca, Captures Consolation Trophy

Carson City's high school Senators, with brilliant and consistent basketball throughout the season and in tournament play, stepped out as champions of the state to receive Saturday night the Nevada Interscholastic league trophy after having beaten Virginia City 35-18 in the tournament final.

Sparks, in the consolation finals which preceded the championship tilt, hit the scoring high for the meet by defeating Winnemucca 57-26.

With the awarding of the trophies by J. E. "Doc" Martie, longtime Nevada hoop coach, a weekend of fast basketball featuring the eight top teams of the state was climaxed. In making the awards, Martie complimented all the participants on the excellent type of game and sportsmanship, and expressed the hope that the University of Nevada would register many of the high school athletes next fall.

Saturday night's games were characterized by cautious play on the part of the quintets. With the championship at stake, Carson City and Virginia City, old rivals, settled down to serious basketball. Taking no chances, the teams had totaled only 7 points each at half-time.

Hitting a faster and surer stride in the second period, the Senators began to cut loose at the hoop with the precision which won them the title. Virginia City matched for a while the pace set by the Carson lads, but the improved guarding of Carson City and their increasing accuracy left the Comstockers in the rear.

Charles Boegle, Virginia City's captain, was presented the cup awarded by a local printing company for the runner-up position.

The scoring rampage of the Railroaders was more than the Winnemucca five could stop, and after the first quarter, in which the game stayed even, Fife and Sorenson of Sparks led their outfit for the remainder of the game with score after score.

Friday night had seen the upset defeat of the Reno Huskies, western zone champions, by a smooth playing crew of Comstockers, 24-18. Carson won its way to the finals the same night by nosing out an amazing club from Overton with a 29-28 score in an overtime game.

Sparks and Winnemucca played in the consolation finals by virtue of victories Friday afternoon over Montello and Ely.

The university gymnasium was packed every night of the tournament by supporters of the teams. The champion's backers crowded the floor after the Saturday night game congratulating the Carson team and celebrating the annexation of the state hoop title by the Senators after a lapse of thirteen years. Carson's last title was won in 1923.

Wheeler Speaks To Mineral Club

Dr. Harry E. Wheeler of the department of geology was the principal speaker at a meeting of the Rocks and Minerals Study club Wednesday night, speaking on the "Continental Drift." The address was given as part of the regular study program of the club and was open to the public.

Four Wolf Men Receive Mention On Fresno Team

Orv Tregellas, forward; Clayton Phillips, center; John Robb, forward, and Whitney De La Mare, guard, members of the University of Nevada basketball team, were given honorable mention on the all-conference team chosen last week by the sports staff of the Fresno State Collegian.

The first team selected by the paper consisted of two men from College of Pacific, two from Fresno and one from the California Aggies.

The second team had two men from Pacific and one each from Fresno, Chico and California Aggies.

First team—Hallberg, Pacific, forward; Cannon, Cal Aggies, forward; Warmerdam, Fresno, center; Kelley, Fresno, guard; Russell, Pacific, guard.

Second team—M. Parson, Pacific, forward; Pinson, Cal Aggies, forward; Rambo, Fresno, center; Schilling, Chico, guard; Singleton, Pacific, guard.

Honorable mention—Forwards, Nickels (F.), Tregellas (N.), Dobbins (C. A.), Reid (F.), H. Lewis (C.); centers, B. Parsons (P.), Phillips (U.); guards, Hawkins (F.), Evans (C.A.), De La Mare (N.).

Poulsen Wins Cal Ski Championship

U. N. Student Leaps 115 Feet For Auburn Ski Club In Meet

Wayne Poulsen, junior student and member of the University of Nevada ski team, Sunday won his way through to the California B jumping championship when he outleaped entries in the annual championship meet of the California Ski association.

Poulsen, wearing the colors of the Auburn Ski club, was given credit for two leaps of 115 and 113 feet.

The meet was held at Olympic hill at Tahoe City, and the outstanding jumpers and ski enthusiasts in California and Nevada participated. A huge crowd watched the affair, and at the close of the meet Poulsen and Martin Arrouge of Reno gave an exhibition of twin jumping.

The class A jumping title went to Sig Ulland of Mt. Shasta, with two leaps of 185 and 184 feet. The slalom and downhill racing events were won by Tom Souvleski of Yosemite.

The state trophy was presented to the Auburn Ski club following the meet, with second place going in a tie to the Yosemite Winter Sports club and the Mt. Shasta Showmen. The Mt. Lassen club and the Truckee Winter Sports club ranked next in order.

University Band To Give Concert At Sparks School

An hour's concert will be given by the university band in the Sparks high school auditorium April 25, during the music festival, Professor T. H. Post, director, said this week.

The concert will be given in place of the band leading the parade of high school bands from all over the state. The invitation was issued by Professor Kenneth L. Ball, supervisor of music for the Sparks schools.

The annual spring concert by the university band will be given some time after the concert in Sparks, Professor Post said.

The concert has been scheduled tentatively for the steps of the State building instead of on the campus, as it has been in the past.

The tourist trade at Niagara Falls is a larger financial item than the full power resources of the falls.

Reno Print Wins City League Title

Bearcats Defeat Tau Alumni 38-32 in Final Game Of Tourney

The Reno Printing company Bearcats Monday night won the Reno City league championship for 1936 by handing the Alpha Tau Omega Alumni five a 38-32 defeat in the final game of the playoff series.

The Bearcats opened the game with a scoring streak, and at half-time were leading 20-4. The Taus were unable to check the Printers' offense, while the Bearcats effectively blocked the Alumni's attempts to hit the basket.

The game picked up in the second half, with the fraternity team endeavoring to even the score, but in spite of their third quarter rally the fraternity men were unable to keep up the pace in the deciding minutes.

Humes and Hill, Bearcat mainstays, took scoring honors for the winners, each accounting for four field goals, to total 8 points apiece. Lee led the field in scoring, taking high point credit with a total of 10 points.

The game was packed with thrills, with interest reaching a high peak in the second half when the Alumni cut deep into the Bearcat lead.

All but two players in the game have been connected with the university, with the A. T. O. team being composed almost entirely of former students, while the Printers consist mainly of present students.

The lineups included: Bearcats—Humes, Barnes, Hill, Powers, Speers, Guffrey, T. Barnes and Dixon.

Alumni—Lee, Callahan, Beccas, Bledsoe, Busey, Byrd and Bankofier.

Vernon Tapogna and Clayton Phillips, members of the 1936 Wolf Pack, officiated for the game.

Greek Ball Teams Begin Practices

With interfraternity baseball looming over the horizon, several teams are beginning to stand out as decided threats to whoever thinks the baseball championship is "in the bag."

Phi Sigma Kappa, last year's baseball champs, have practically the same team that brought home the bacon, and which is considered one of the best ever assembled at the University of Nevada.

The Lambda Chis, despite the loss of three regular members of their last year's squad, Dumont, Stephens and Ward, are building up a new team and are rated very high. They have been practicing regularly the past two weeks and from advance information have a couple of dark horses in their lineup.

Alpha Tau Omega, Sigma Phi Sigma and Sigma Nu are classed among the topnotchers in the league and are expected to boost the competition to the limit.

The Independents, who up until this year have been on the outside looking in, are coming to the front with a bang. With such potentialities as Heilman, Roman and Cassinelli, the "Barbs," under the management of Henry Mayer, are running high, wide and handsome.

The baseball schedule has not been completed as yet, but the games are expected to get under way around April 1.

Back student activities.

Field Raked for Baseball Season

One fine March morning found all frosh and fraternity men industriously (and some not so industriously) raking and shoveling all the miscellaneous debris that had accumulated on the University of Nevada baseball field during the winter months.

It was general work day, and all the male members of the campus turned out and put the baseball field in condition for the coming season. Old shoes, boxes, bottles and various articles of strange origin were raked together and hauled away.

The field is now ready for action and various hopeful nines have been seen practicing there diligently every night.

Judging from the times and distances turned in by San Francisco State and Cal Aggies in their dual track meet held last week, Nevada should stand a good chance of defeating both of these schools in meets this year.

Chico State should have a good track team this year if meets are counted as experience and training, for they will enter a team in five meets and the Fresno relays. Chico expects to be stronger in field than in running events, which they excelled in last year, due to the loss of two fine runners, Hank Henry and Jimmy Haynes.

According to the way the spring footballers are tossing the onion about, Nevada should present a tricky offense next year. Laterals, shovel passes and forward passes will all be featured by Coach Dashiell. These should give the Pack an even break with larger school, which revert to more of a ground attack to gain yardage.

Fraternity baseball teams are getting the feel of the horsehide, as last week the S. A. E., A. T. O., Phi Sig and Sigma Phi Sigma engaged in contests, and judging from the hitting on all of the teams it will be a hard year for the pitchers in the interfraternity league.

This year, for the first time, another diamond will be used for the playing of baseball games in the league. The diamond located at Idelwild park will be used along with the university field in order to run off the contests in a speedier manner.

Most of the teams will want to play their games on the park diamond, because the hazards are too great on the university field. Each year various teams have suffered the loss of play-

S. A. E. Wins Title In Handball Play

First Place Points Split for Kinnear Trophy; Taus Third

By virtue of 21-17, 21-18, victories in the first two games played, the handball team of the S. A. E. fraternity house, composed of Harry Sawyer and George Ardans, defeated Charles Turner and Leland Tucker of the Beta Kappa, to win the handball doubles cup in the finals of the tourney held on Monday.

Sawyer of the Sig Alphas played a driving game throughout the contest and contributed many of the points through excellent serving.

The tabulated results of the percentages of the teams entered in the tournament are as follows:

	W	L	Pct
S. A. E.	7	1	.875
Beta Kappa	7	1	.875
A. T. O.	6	2	.750
Phi Sig	5	3	.625
Lambda Chi	4	4	.500
Sigma Nu	4	4	.500
Sigma Phi	2	6	.250
Lincoln Hall	1	7	.125
Independents	0	8	.000

ers due to ditches, tin cans, large boulders, tree roots and railroad ties which spot the field.

Another new hazard recently placed on the field is the geophysical prospecting equipment set up by the bureau of mines. This consists of a wire three feet off the ground, running from third base to the tennis courts. Teams will need a tightrope walker instead of an outfielder to play this side of the diamond.

If you have anything you want to build, drop or set up, use the baseball field, as it seems as if the university is crowded for space, with only about 20 acres back of Mackay field going to waste for lack of use. As it stands now the field would make a better golf course than a baseball diamond.

A pleasing mixture of track and basketball all rolled up in one man is "Iron Man" Dutch Warmerdam of Fresno State. He played six basketball games in nine days and took second place in the San Francisco track and field championship pole vault. He

Sagebrush Staff Picks All-State Hardwood Squad

With the state tourney over and the Carson City Senators crowned as Nevada champs, the Sagebrush staff has endeavored to pick a representative all-state squad.

This year owing to the fact that the players as well as teams were so evenly matched, it would be impossible, as well as an injustice, to the men competing to pick an all-state team of five men. Therefore, the staff thinks that it would be better to pick a squad of twelve men rather than a team of five.

This squad was chosen from the teams competing in the state tournament held here last week, and with due consideration we have selected the following men, in what we believe would make a team that could compete successfully with any high school team in the country.

Forwards—Fife, Sparks; Fulkerson, Overton; Hachquet, Carson; Hall, Reno. Centers—Hargrove, Reno; Leavitt, Overton; De Arrietta, Winnemucca. Guards—Boegle, Virginia City; Congdon, Carson; Sala, Ely; Sorenson, Sparks; Lencioni, Carson.

vaulted 13 feet 6 inches to finish second behind Earl Medows, the U. S. C. sensation, who cleared the bar at 13 feet 8 1/2 inches to cop the event.

Another breadwinner for the Staters is Elroy Robinson, who finished fourth behind Charley Hornbostel in the 1000 meter run in the National Collegiate

Martie Develops Wolf Track Squad In Daily Practice

Juniors Picked to Capture Interclass Trophy April 4

Date of First Varsity Meet With Davis Aggies Is Changed

With form and condition as the principal diet for his barriers, Coach J. E. "Doc" Martie is gradually bringing the University of Nevada tracksters into the best pre-season condition that a Wolf Pack squad has ever enjoyed.

Form in the field events and the development of stamina among the runners has been the keynote of each practice. Strenuous setting-up exercises and numerous jogs around the cinder path are the methods that Coach Martie has adopted in order to give Nevada one of the finest track teams it has had in recent years.

The ranks of the tracksters has been swelled to over 50, all of whom have adopted an optimistic attitude as to their chances in their respective events. The large turnout was partially due to the fact that all men participating in the interfraternity meet to be held April 4 were required to start practicing last Wednesday and continue to do so until the day of the meet. With so many participants entered, the competition among the Greek letter men should be the keenest in years.

Juniors Strong

At this early date the juniors are slated to capture first honors in the interclass affair because of the presence of a host of veteran performers in their ranks. The seniors, sophomores and freshmen all appear evenly matched and an interesting battle should ensue in determining the order in which they finish.

The superiority of the juniors is largely due to the fact that Doug McDow, ace Wolf Pack sprinter, will compete for them. Also helping the third-year men in the sprints will be Cliff Segerbloom.

In the 440 they will have Graunke, Richardson and Carpenter, a trio that should account for several points. The juniors will also be strong in the broad jump, with Kenny Richard, Jerry Havens and Lockley Maule competing for them. In the field events the juniors will have Carville in the pole vault, Raditich in the high jump and Roguin in the weights. They are also strongly fortified in the hurdles, with Johnstone and Maule competing for them in the timber topping events.

Seniors Lacking

The seniors will be lacking in numbers, but the few performers that they have in their ranks should register several points. Certain to score points for the fourth-year men is Paul Leonard, who should win the mile and two-mile events handsly. Other seniors that should figure in the scoring are Bert Cummings in the javelin and hurdles and Charles Leavitt in the quarter-mile.

The sophomores appear to be the biggest threat to the juniors' chances for first honors and they should score heavily in the field events and the distances. They will have Stan Smith and Louis Nash in the shot and discus and Clyde Healy in the javelin.

In the distance events they will have Murray and Marvin Moler, two boys who can run all day long and should not have much trouble garnering several points for the sophomores. In the other events Azarez should capture the pole vault, Wilson should score in the high jump and Waite will be up among the leaders in the hurdles.

Powers Factor

The freshmen are more or less an unknown quantity, but Powers should account for several points in the dashes. He ran the century in even time in high schools and will probably give McDow a good race in both sprint events. In the discus the frosh will have Roman, who should capture the event on the strength of a 130 foot heave in high school. Echimendi should be able to score a few points for the freshmen in the pole vault and Martinez might score in the distance events.

The varsity track meet with the California Aggies originally scheduled for Saturday, April 11, has been changed to Thursday, April 9, because of a conflict with the Easter holidays.

Due to Martie's training methods no statement can be made at this time as to the best times and distances of the various competitors. In the sprints McDow and the freshman, Powers, looked as though they will be able to do the century in better than even time, and Segerbloom should be right on their heels when he gets into shape.

In the quarter-mile Graunke and Carpenter have breezed through the one-lap event in convincing style and both should break into the point column in the forthcoming meets. In the distance events Leonard, Hartman and the Moler brothers have been faithfully toiling around the oval in an effort to get into winning shape for the coming meets. Leonard has shown very satisfactory early season form and he should show the way to most of the distance men in this conference.

In the field events Azarez, Carville and Drendel have shown some ability in the pole vault, and Cummings, Wilson and Raditich have been clearing the practice heights in the high jump with comparative ease.

In the weights, a host of strong men are working patiently on their form in the javelin, shotput and discus. Prominent among these athletes are Smith, Healy, Nash, Havens and Cummings. The board jump offers little cause for worry with Kenny Richard and Jerry Havens holding down the fort.

SOLDIERS 'SHOT'; RESULT IS ONLY SORE ARM

Eleven Nevada junior R. O. T. C. officers are half-shot.

The collegians this week completed the second of four inoculations against typhoid and smallpox, preparatory to going to summer military camps.

The "slapping-on-the-arm" greeters are not welcomed by the soldiers this week because the "shots" were made in the cadets' arms and the spots where the injections were placed are very tender.

The inoculations will be completed by April 1. Two of the injections are for typhoid, one for para-typhoid and one for smallpox.

Block N Awaits Coaches' Decision On Track Meet

Possibility that the Nevada high school track meet will be held two weeks later than has been the custom in previous years may prevent the Block N society from sponsoring the meet this spring, according to Clayton Phillips, president of the organization.

"The Block N has suffered a severe financial blow," stated Phillips, "because the society no longer conducts the state basketball tournament, from which the revenue was derived to carry on other prep school activities."

However, in case the Association of High School Coaches does decide to hold the meet at the usual time, plans for the meet will probably be completed late next week by the group, Phillips indicated.

Meanwhile plans are going forward to supervise the painting of the Block N by the freshmen on Mackay Day morning.

Dashiell Tells of Nevada's Chances

Telling of the Wolf Packs gridiron chances this fall, Doug Dashiell, head football coach, this afternoon was heard over radio station KGO in a 15 minute interview with Roy Cummings, sports editor of the San Francisco Call-Bulletin.

Cummings introduced Dashiell as one of the youngest head coaches in the profession, and predicted that Nevada would have a good season on the gridiron this year, and probably for many following years.

Dashiell outlined the Pack's fall schedule, starting with the October 2 game with University of Idaho, southern branch, and told of the material available at Nevada for the schedule, as shown during spring practice.

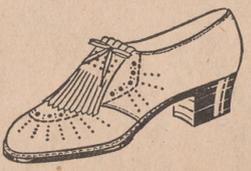

The Nevada mentor is in San Francisco inspecting the latest football equipment. Supplies for the university are purchased through Reno merchants but are ordered from San Francisco. He left last night and will return in time for practice Monday afternoon.

Poulsen to Enter Yosemite Tourney

Wayne Poulsen, Nevada's champion skier, will try for further honors for himself and the University of Nevada when he participates in the Yosemite tournament, which will be held on Saturday and Sunday, March 27 and 28.

Poulsen won the class B jumping championship last Sunday at Lake Tahoe when, as a contestant with the Auburn Ski club, he came in ahead of fourteen experts to capture the crown. He amassed a total of 215.7 points, with two jumps, one of 115 feet and the other 112 feet. The closest contender in this event was Leroy Teagarden of Auburn with 204.8 points, a little more than 9 points behind Poulsen.

Poulsen will go to Yosemite with another U. of N. skier, Jack Anderson Starret, a junior student with much skiing experience. Starret, who rides the slippery surface of the packed snow under the name of Jack Anderson, participated with Poulsen in Sunday's meet, but was unfortunately injured in the first event of the day, preventing him from competing in any of the other scheduled events.

Another ski tournament in which Nevada will be represented is the one to be held at Mt. Lassen, Calif., on Sunday, April 5. Starret will participate in this tournament, he said, but Poulsen is doubtful that he will be able to compete. If he is able to attend, Poulsen said, he will ride again for the Auburn Ski club.

Ed Rose, who has been participating with Poulsen in most of the early skiing tournaments, will not go to either tournament, he said this week.

R. O. T. C. Rifles Place Thirteenth

The University of Nevada R. O. T. C. rifle team finished thirteenth out of a field of 15 teams which competed in the recent Ninth corps area R. O. T. C. intercollegiate gallery rifle matches for 1936, according to word received this week by the military department.

The winner of the matches was University of California at Los Angeles, with a total score of 3708. University of Oregon was second and Washington State college was third.

These rifle matches are held annually between January 1 and February 25, and are participated in by every university and college which gives courses in military training.

Wolf Skier Hurt In Tahoe Tourney

The Nevada skiing trio just missed annexing another laurel in last Sunday's ski tournament at Lake Tahoe and a university skier narrowly escaped serious injury because of an accident that occurred when he was participating in the downhill race.

Jack Anderson Starret, junior student, was leading the field of approximately 50 competitors in the downhill race by a wide margin when he struck a tree.

Postmaster Prescott, who is now vacationing, will return to work next Tuesday. While taking his vacation at this time Prescott has not been entirely idle, for he is still looking for that elusive gold mine.

Lambda Chi Alpha Initiates Ten Men

Formal initiation of ten men into Lambda Chi Alpha was completed Sunday with a banquet at the Ey Cortez hotel.

Emerson Wilson '28 was toastmaster at the dinner and gave the newly initiated members their pins, assisted by Jerry Havens, Lambda Chi president.

Short talks were given by the initiates and the 16 members of the fraternity graduating this year. Initiation was in charge of Wayne Kennedy, sergeant at arms.

Each Puff Less Acid

LUCKY STRIKE CIGARETTES
"IT'S TOASTED"

Copyright 1936, The American Tobacco Company

A LIGHT SMOKE OF RICH, RIPE-BODIED TOBACCO

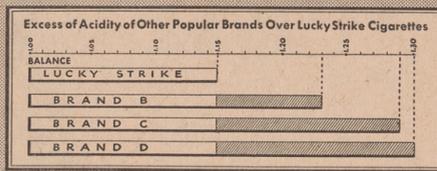

Luckies are less acid. For hundreds of years, tobaccos were selected—and gradations in flavor secured—by the roughest sort of rule of thumb methods. Hence, one of the most important innovations made by the Research Department was provision for chemical analysis of selected tobacco samples before purchase:

the resulting reports offer the professional buyer an accurate guide and reinforce his expert judgment based on the senses of sight, smell, and touch. Thus extreme variations toward acidity or alkalinity are precluded by such selection and subsequent blending.

Luckies—A LIGHT SMOKE—of rich, ripe-bodied tobacco!

Luckies are less acid

Recent chemical tests show that other popular brands have an excess of acidity over Lucky Strike of from 53% to 100%.

*RESULTS VERIFIED BY INDEPENDENT CHEMICAL LABORATORIES AND RESEARCH GROUPS

Your throat protection—against irritation—against cough

Herz, Joy Lose Debate to Pacific

Griffin Schedules Contests Next Month With U. S. C., St. Mary's

Homer Herz and Robert Joy, freshman students who debated for the University of Nevada in a contest against College of Pacific last Tuesday afternoon here, lost to the coast team by a 3 to 0 vote.

The Pacific speakers, Ernest Poletti and Louis Sandine, are experienced debaters, having three years of varsity training as a past record. Herz and Joy appeared for the first time in a varsity contest.

Pacific argued the affirmative side of the question, "Resolved, that congress should have power by two-thirds vote to overrule any ruling of the supreme court declaring congressional acts unconstitutional."

Judges in the debate were George Vargas, A. J. Maestretti and Clyde D. Souter. William Cashill acted as chairman.

In a debate held last Saturday, Lewis Pulsipher and Emile Gezelin, speaking for Nevada, defeated a team from San Francisco State college by a unanimous decision.

April 6 is the date that has been set for the next debate, which will be with St. Mary's. Nevada will have the negative of the above question in this contest. The last of the home contests will be April 7 when the U. of N. speakers will meet a team from the University of Southern California and will have the affirmative side of the question, "Resolved, that the several states should enact legislation providing a system of complete medical service available to all citizens at public expense."

RESUMES STUDIES

George Brown, who is affiliated with Sigma Nu fraternity, has resumed his studies after being confined to St. Mary's hospital for the past week.

VISITS HERE

John Brackett, former University of Nevada student, drove in from his home in Manhattan for a short visit last week.

WILLIAMS ILL

Joe Williams, member of Sigma Alpha Epsilon, is confined at the Washoe General hospital.

NOTICE

Miss Louise Sissa, registrar, requested today that all students intending to graduate get in touch with her in order to have their correct names on their diplomas. If any students have changed address, would they please see the registrar.

Students, Prof To Visit Comstock

A trip to Virginia City has been planned by Professor V. P. Gianella's geology classes, to take place the Saturday after Mackay day if possible.

All students in geology as well as the faculty of the university and several visitors are eligible for the trip, which will be the first this semester.

Gianella outlined the trip to his classes in advance in order that students will be aware of natural scenery along the way, analysis of which is the purpose of the outing.

ENGINEERING

A field trip open to all mining engineering students is planned by the Crucible club for tomorrow. Cars will leave the school of mines for Virginia City at 9 a. m. Steam shovel sampling operations on the lode outcrop by the Con Virginia company will be inspected under the guidance of the company engineer. Part of the afternoon will be spent underground in the reopened historic workings of the Ophir and Mexican mines and if time permits the new Crown Point mill will be visited also.

Judge E. P. Carville is the principal speaker scheduled for the Nu Eta Epsilon initiation banquet to be held Wednesday, March 25, at 6:30, in the El Cortez hotel. His topic will be the mutual relations existing between the legal and engineering professions. Other features of the program will be initiation of the six students recently elected to the organization and election of officers for next year.

An Associated Engineers' meeting will be held either April 1 or April 8 for the purpose of nominating officers and completing plans on the Boulder dam trip scheduled for Easter vacation, according to an announcement made this week by Bob Butler.

Dean Sibley, Gene Wines, Eloise Lyon, Orrin Broberg and Charles Allen plan to leave Thursday, April 2, to attend the A. S. M. E. convention being held in Pasadena on April 3, 4, 5.

The hills west of Carson and Virginia City were visited by the geology 70 class on its last field trip for the purpose of studying the regional geology. Other trips planned for the semester include one into the Washoe mountains and northward into Long valley to do some mapping and to study occurrences of the rare minerals, piemontite and thulite, which are found there, and trip north of town on the Susanville road on which, among other points, an occurrence of alaskite will be inspected.

C. Es. will elect officers for next year at a meeting to be held the

Annual to Feature Group of Seniors In Special Section

Because it has been generally believed that there hasn't been enough credit given to those seniors who have devoted a great deal of time and effort to the campus throughout their college careers, a special committee headed by Dean Thompson has chosen eight outstanding seniors of this year's graduating class. The committee consists of Miss Louise Sissa, the registrar, faculty members and a group of students not eligible for the award.

The eight chosen, four men and four women, are to be featured in the senior section of the yearbook. "No indication of the selections will be made known until after the appearance of the 1936 Artemisia," says Editor Bowrin.

This is the first time such a feature has ever been carried out and the committee has been working on it for approximately two months.

Qualifications were set up by the committee and to be eligible a student needs an all school average of 2.5 or better. The remainder of the requirements are similar to those used by the committee in choosing the graduating student for the Henry S. Albert senior service prize at commencement time.

Netherton Takes Position on Coast

Stanley Netherton, sophomore student in journalism, left Wednesday morning for San Francisco to accept a salesman's position with the Intertype company, manufacturers of typesetting machines for newspapers and other printing work.

On leaving Wednesday he said that he would probably work for this concern for a year or more, and that he would not return to school next fall.

second week in April, according to Irvin Wanke, head of the group. Plans for a banquet, which will be held the last of April, will also be drawn up at this time.

New State Flag To Be Presented Nevada R. O. T. C.

The military department of the University of Nevada will receive a new silk state flag within the next few weeks; it was announced Tuesday by Colonel William L. Reed, head of the department.

The banner will be donated through the services of the Nevadans and the Nevada State Flag association. It will be the only flag of the state of Nevada now owned by the University of Nevada and one of the few Nevada state flags in existence and will be used on commencement day and other ceremonial occasions.

It is the purpose of the newly formed Nevada State Flag association to make available such banners to the various schools throughout Nevada at a very nominal cost.

Gamma Phi Hold Weekly Coffee Hour

Gamma Phi Beta sorority entertained members of Alpha Delta Theta sorority at a coffee-mint hour at the local chapter house last Friday evening. Members of Lambda Chi Alpha fraternity will be the guests of Gamma Phi Beta tonight at a coffee-mint hour.
