## McCuiston Is Chosen to Head Women Big Vote Features Campus Elections

### Beemer Is Second, Feutsch Is Third In Women's Race

#### Pi Beta Phi Member to Take Office at Closing Meeting

#### New A. W. S. Prexy Is Active In Journalism and Government

Betty McCuiston was named A. W. S. president by a vote of 112, defeating her nearest competitor by a majority of 21 votes at the polls today. Evamee Beemer, Delta Delta Delta candidate, was second with a total of 91. Miss McCuiston is affiliated with Pi Beta Phi sorority.

Miss McCuiston, who is a resident of Reno, will assume the duties of her office at the last regular meeting of the student body this year, which will be held May 1.

As head of the women students she will preside at A. W. S. meetings, and take over the duties of the new Associ-

### Baseball Tourney Gets Under Way

Campus twirlers and bat-slingers went into action Monday as the annual intramural baseball tournament began on the university diamond and the municipal field in Idlewild park.

In the first two games Lambda Chi Alpha defeated Beta Kappa, 4-5, while Sigma Alpha Epsilon ran up a 13-5 victory over Sigma Phi Sigma. Tuesday the results were Lincoln hall 11, Independents 7, and Alpha Tau Omega 11, Sigma Nu 3.

Hurling for the Lambda Chi was Walter Cain, sophomore control artist, making his first appearance in interfraternity baseball circles. The opposing pitcher was Leland Tucker. The game was the closest of the early season battles, showing the potential of the two teams, rating them as among the strong contenders for the championship this year.

Orv Tregallas was on the mound for the SAE's. The Sigma Phi's ran in three hurlers, John Robb, Bill Crubbs and Duncan Dorsey, but could not stop the batting of the Evans avenue nine.

Pitching for the Lincoln hall association was Lee Guniach. The Barbs, with Jack Hellman hurling, had been favored in the pre-game dope but they could not hit their stride.

The Taus showed themselves as a surprisingly strong ball club Tuesday when, aided by the steady pitching of Jack Roguin, they swamped the Sigma Nu's. Don Leighton was on the mound for the losers.

The series will continue until April 28. Winners of the tournament last year was Phi Sigma Kappa. The Lake street team, though missing the pitching strength of Joe Jones, is strong again this season, especially in batting.

Lambda Chi, runners-up '35, are back just as powerful this year, with the race probably between them, SAE, PSK, ATO and Beta Kappa.

### Unruly Freshmen Will Be Punished

Breaking of traditions and misconduct while on the campus will be the cause of about one half of the freshmen class appearing before the men's upperclass committee to explain their actions, when the group meets Friday, according to Guy Morris, chairman.

Only 52 freshmen reported to paint the "N" Saturday, and those who did not show up will have a lot of explaining to do when they are "put on the spot." Whitewashing of the "N" by the freshmen is an old custom at the University of Nevada, and very few excuses are accepted for those who do not report for work.

All lowerclassmen who were caught throwing beans, rice and tableware during the Mackay day luncheon are also to be called before the upperclass committee to explain their conduct and will be severely dealt with.

The committee will meet Friday and those offenders who have to report at that time will be posted on the bulletin board. No excuses will be accepted for those failing to appear before the committee when they are told to do so.

A meeting of the Artemisia editorial staff will be held tomorrow afternoon in the Student Union building at 4 p. m. It is imperative that all members attend. Walter Bowrin.

A meeting of the Artemisia editorial staff will be held tomorrow afternoon in the Student Union building at 4 p. m. It is imperative that all members attend. Walter Bowrin.

### Publications Plan Granted Approval By U. N. Leaders

#### Proposal to Place Surplus Under Finance Control Favored

#### New Amendment Up for Vote At Closing Meeting On May 1

Preliminary steps were taken by the University of Nevada publications board last week to amend the constitution in regard to the recent surplus controversy.

The contemplated change provides that one-third of the surplus "shall revert to the central treasury to be set aside for use by the publications board, and may, thereafter, be requisitioned solely for the benefit of publications by the publications board with the approval of finance control committee. If any of this surplus should remain at the end of the school year, the remainder of the fund shall revert to the central treasury."

The proposed amendment was unanimously accepted by all members of the publications board and yesterday was approved for introduction to a general A. S. U. N. meeting by the student executive committee.

Board members said they believed that a central treasury system should prevail on the campus for all organizations and that the handling of publications board money in this manner would simplify bookkeeping.

The amendment will be presented to students tomorrow for a first reading. The proposed amendment follows: To amend article 7 to read:

Surplus funds of any publication shall be allotted as follows:

(1) One-third of any surplus shall revert to the central treasury and be credited to the general A. S. U. N. account.

(2) One-third shall revert to the central treasury to be set aside for use by the publications board, and may, thereafter, be requisitioned solely for the benefit of publications by the publications board with the approval of finance control committee. If any of this surplus should remain at the end of the school year, the remainder of the fund shall revert to the central treasury.

(3) One-third shall revert to the editor and business manager of the publication and be divided equally between them as a salary bonus.

Most student criticism seems to be in favor of the new amendment. Walter Bowrin, editor of the Artemisia, when asked his views on the amendment, said, "The main objection to it seems to be the old amendment was the fact that the central treasury could in no way control unwise expenditures by the publications board. This new amendment as submitted by the board gives the central treasury control of funds solely for the benefit of publications within a given period of time. In this way the rashness of unwise expenditures is tempered by the medium of finance control."

Tyrus Cobb, assistant editor of the Sagebrush, says, "The chief objective to be secured by the new change, it seems to me, is only to make it more difficult for the publications to get necessary money for their unexpected expenses. It just means added 'red tape'."

President of the Associated Women Students, Catherine Dondero, believes, "Publications as well as all other organizations should be under the central treasury. Students should derive benefits from surplus of publications."

Eleanor Barry, secretary to the associated students, replied, "As I see it, this amendment will not deprive publications of any of the surplus they earn, but it will mean that the surplus money will have to be spent wisely. It is not to be expected that finance control will approve the expenditure of a large sum for the yearly banquet given by the publications board, but expenditures for cameras, typewriters and other necessary equipment would be readily approved."

### Barnes to Play For Colfax Lions

Ted Barnes, student at the university, has signed to play baseball with the Colfax Lions this summer in the Placer-Nevada league in California. Barnes is rated as one of the outstanding outfield men in the league, which is non-professional. He is catcher for the Sigma Alpha Epsilon intra-mural baseball team on the campus, and is also on the football squad.

### Clark Releases Welcome News In 'Brush Story

"No school next week," Dr. Walter E. Clark, president of the university, announced today in an exclusive interview for the Sagebrush. "The board of regents, at their last meeting, decided unanimously that the students at the university are being required to do too much work, and no member of the faculty will be allowed to require students to do any work over the week."

Clark's announcement comes as a welcome relief to the entire senior class, which has but one more month in which to complete their studies.

When asked if the week's vacation would become an annual affair, Clark replied, "Fiddlesticks." (April fool).

### 14 Prep Schools Enter Forensic Meet Tomorrow

Fourteen high schools have definitely entered the state forensic tournament, to be held on the campus April 2, 3 and 4. Professor Robert S. Griffin, supervisor of the contest, said yesterday.

The schools that have appeared have been classed in two groups according to enrollment, in order to equalize opportunity. Duplicate awards will be given for the two divisions, Griffin stated.

According to this system of grouping, class A will consist of Winnemucca, Las Vegas, Fallon, Reno and Sparks, while class B will be composed of Fernley, Carson, Yerington, Virginia City, Panaca, Hawthorne, Wadsworth, Battle Mountain and Lovelock.

The six divisions of the tournament will be given to both sections under the headings of debate, one-act play, Shakespearean scene, oratory, extemporaneous speaking and dramatic interpretation.

Winning one-act plays will be presented to the public Saturday night, April 5. At this time awards for the entire tournament will be made.

Tentative plans have been made to have President Walter E. Clark present these prizes.

Griffin has not yet chosen a committee to help him in managing the contest. The judges alone will probably number around 100.

Approximately 60 students are expected to attend the tournament, which is absolutely self-sufficient financially. Each high school pays the expenses of its representative students and arranges for their entertainment. The number of students from each school varies, according to Griffin, with some sending as few as one, while others send as many as five or more.

"From all indications this will be one of the biggest contests ever held on the hill," Griffin said. "More and better prizes will be awarded in all contests."

In the "A" division Reno has signified intentions of entering class "A" debate, dramatic interpretation, Shakespearean scenes, oratory, extemporaneous speaking and one-act plays. Don Harvey Bell, Dr. Effie Mack, Randall Ross, Beulah Singleton are coaches of the different events.

Headed by the newly appointed head football coach of the university, Douglas Dashiell, the Las Vegas high school team will be prepared to defend extemporaneous speaking and dramatic interpretation titles annexed last year, and attempt to regain its supremacy in the class "A" debating which it held for four years when it was taken from them last year by Reno.

Sparks, with Richard Hillman as (Continued on Page Four)

### Tri-Delts Install Officers Monday

Delta Delta Delta had its installation of officers on Monday evening at an informal meeting. The new officers took over the business of a formal meeting which was held later that evening.

New officers are: Mary Millard president, Elizabeth Juniper vice-president, Kathryn Luke secretary, Margaret Jensen treasurer, Georgene Roberts corresponding secretary, Mary Casey rush captain, Janet Parish chaplain, Charlotte Michael historian, Gladys Blair librarian, Gwen Erickson social chairman, Alice Sauer house manager, Ruth Hansen Smith social alumnae advisor, and Blythe Bulmer alumnae advisor.

### Honorary Society To Elect Pledges At Friday Meet

#### Initiation of New Members By Phi Kappa Phi Is Planned

#### Dr. Leonard B. Loeb of U. C. Is Principal Speaker For Fete

The names of students given bids to Phi Kappa Phi, national scholastic honorary society, in recognition for outstanding scholarship records, will be announced Friday morning at 11:25 a. m. in the Education auditorium, Professor Harold N. Brown of the education department and secretary of the local society said Tuesday.

Friday will be Phi Kappa Phi day on the University of Nevada campus and in addition to the announcing of new members, initiation and recognition ceremonies will take place during the day.

Is Honor Election into Phi Kappa Phi is the highest honor scholastically that a student can obtain at the University of Nevada with the exception of winning the gold medal award for the best four year scholarship average.

At the same time that the bids are announced, Professor Leonard B. Loeb, internationally known physicist from the University of California, will speak on "Effective Scholarship."

Friday evening initiation services for the new members will take place in the home economic rooms and Professor Loeb will speak on the "Life of Lord Kelvin," a renowned physicist.

Elections to Phi Kappa Phi are held once each semester and at the last initiation in October, Paul Bohlike, Florence Gulling, Andrew Morby and Margaret Traner, senior students, were taken into the society. Dr. Frederick L. Wood of the mathematics department was taken in at that time as an honorary member.

The prime object of Phi Kappa Phi is to emphasize scholarship in the minds of college students and to try and hold closely to the original purposes for which institutions of learning were founded.

### 47 Chapters

There are 47 chapters of the society and approximately 25,000 members throughout the United States. The University of Nevada Society was founded in 1912 and since that time more than 400 members have been elected.

The address by Professor Loeb at 11:25 a. m. Friday morning is open to all. The initiation ceremonies, however, will be open only to invited guests of the members, parents of the initiates, alumni and faculty members and their wives.

### Today Is Deadline For Senior Card, Insignia Orders

According to Tom Prunty, senior class manager, only about one-half of the seniors have ordered their announcements as yet.

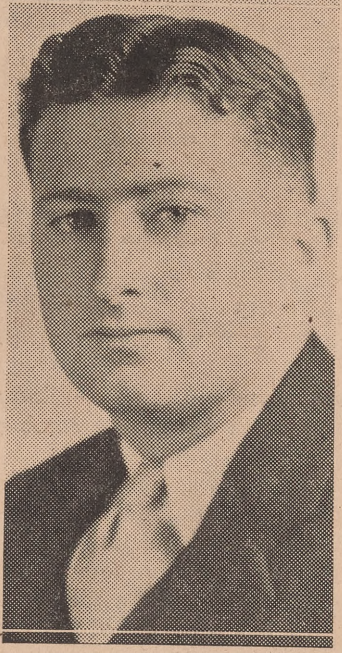

The announcements are being ordered through the Reno Printing company and the seniors should receive them in about three weeks. A notice has been posted by Prunty with the names of all those who have not ordered their announcements. Today is the last day that orders will be taken.

Caps and gowns for the graduating class are being ordered through Miss Thea Thompson, from the Cap and Gown company of Los Angeles. Up to date 90 have been ordered, and today is the last day that orders will be taken for the insignias. The caps and gowns will arrive here about one week before commencement.

### Reno Physician Speaks at Meet Of Pre-Medicals

Dr. J. LaRue Robinson gave an address Tuesday in the Agricultural building on eye magnetism. He illustrated his talk with various apparatuses used in drawing a piece of steel out of the eye.

Next week Dr. Piersall will speak on the development of radiology. These speeches made by local doctors are being sponsored by Omega Mu Iota, pre-medical society, and are open to the public.

### Richard, States Refuse Nomination

#### Withdrawals Leave Field Open For Decisive Vote At Polls Today

Two prominent students, who were included in the panel for A. S. U. N. president presented by the nominating committee of the senate Mackay Day, formally declined their nominations Monday.

Kenyon Richard, who is very active in student affairs at the present time, declined his nomination, saying: "I do not feel that I would be capable of meeting the obligations which would be entailed by the proper administration of the duties of the office."

Richard is now president of the interfraternity council; a mainstay of the varsity track team, holding the university and conference broad jump records; president of his fraternity, Sigma Nu; vice president of Nu Eta Epsilon; secretary of Block N society; an honor roll student, and a member of Associated Engineers, Crucible club and Sagers.

"In the words of the late President Coolidge, 'I do not choose to run,' was the brief statement made by Walter States, junior business manager of the Sagebrush, in declining his nomination.

In addition to his duties on the paper, States is occupied with the management of the junior class, as well as membership in Lambda Chi Alpha, Blue Key and Press club. He is a former member of the senate, Sagers, Artemisia staff and has served on various committees. At present he is the Lambda Chi representative to the interfraternity council.

### 'M. C.' Is Planned For Social Hour By Honor Group

Election of officers and new members to the Blue Key honorary fraternity will be held Tuesday, according to Tom Morris, acting president. Many of the new members will probably be chosen from the Sager's pep organization, Morris said.

The weekly Wednesday night socials will continue to the end of the semester. However to stimulate more interest and to decrease the "stag lines" a new plan is being followed. This consists of having a master of ceremonies to preside over the social and to have such feature dances as woman's choice, dances, tag dances and woman's tag dances. Sam Ackerman will be the master of ceremonies for tonight's social.

### Choral Clubs Plan Evening of Song

Tentative plans were made Wednesday afternoon by the combined Choral clubs for an evening of song in the near future. The selections will all be taken from the Campus song book, and the concert will be given in the open.

Refreshments of some sort will be served to the group. This concert will be open to all campus people and to the general public.

### Silas Ross Loses Race By 16 Votes With Morris Third

#### Tight Election Is Featured By Spirited Voting For Nominees

#### Candidates Run 'Neck to Neck' Throughout the Vote Tabulation

William Cashill, Sigma Phi Sigma, was elected to the post of A. S. U. N. president by a vote of 269 in the student body elections held at the Student Union building today.

Cashill defeated his nearest competitor, Silas Ross Jr., by a majority of 16 votes. A total of 615 votes were cast for the highest office of the student body today.

Both Cashill and Miss McCuiston will assume their respective offices at the last regular student body meeting of the year, which will be May 1, 1936.

The election today closed one of the quietest voting days in years. Coming within a few days of the opening of nominations, candidates for the offices

Upon learning of his election, President-elect Cashill today issued the following statement to the Sagebrush: "I fully realize the honor and privilege that have been accorded me. I realize, too, the opportunity for real service has been granted, and I intend, to the extent of my ability, to take full advantage of that opportunity."

had little time in which to prepare campaign literature or in which to state their platforms. Election cards, however, appeared on the campus this morning, setting forth the capabilities of the nominees.

William Cashill came to the university from Reno high school, where he was prominent in forensic activities. He has received partial training for the office of student body president through three years of intercollegiate competition as a member of the Nevada varsity debate squad. He plays guard and center on the football team, earning his letter last year, and membership in Block N society.

Cashill has had considerable experience in student affairs through work on the finance control committee, student senate and the senate nominating committee. Scholarship, as well as athletic and student affairs, is one of the qualifications of the new president, as he made the honor roll in his first year. Cashill is a Sundowner and a member of Sigma Phi Sigma fraternity, of which he is house manager.

### Cinders Ordered For U. N. Track

The Nevada track men now can really be called "cinder stars."

The Mackay field oval next week will receive a surface of genuine cinders for the first time in ten years.

The cinders were ordered from the Western Pacific company recently by Professor J. E. "Doc" Martie, head track coach. The new surfacing material will arrive, a whole carload, next week.

### Graduate of 1912 Dies in California

Raymond Spencer, graduate of the university with class of 1912, died Thursday at his home in Walnut Grove, Calif., where he had been engaged in business. He is survived by his wife, the former Isabelle Schuler, who is also a graduate of the university. While on the campus, he played four years of rugby football and was a member of T. H. P. O., now Sigma Alpha Epsilon fraternity.

### NOTICE

The full names of all members of the graduating class as they are to appear on the diplomas should be in the office of Miss Louise M. Sissa, registrar, before April 11.

### NOTICE

A meeting of the Artemisia editorial staff will be held tomorrow afternoon in the Student Union building at 4 p. m. It is imperative that all members attend. Walter Bowrin.

### CONGRATULATIONS

Today, the student body welcomes its newly elected A. S. U. N. and A. W. S. officials.

The Sagebrush extends congratulations to the new officers and wishes them every particle of success during the coming school year.

This year's election, without a doubt, was the most fair and cleanest election to be held in many years, and it is to be hoped that it may act as a model for coming elections.

But to do this, any taint of "politics" must be completely abolished. All appointments must be made with a view not as to fraternal or sorority membership but with one of finding the best possible man for the job.

The officials can do much in this line, but the real control will be exerted by the student senate. Only when the senate makes up its mind to be an active, impartial and representative group, working for the good of the university, can Nevada reach new heights.

### IT WAS THE 'NIGHT BEFORE'

... when all through the house not a creature was stirring except John, who was groaning and wishing he weren't stirring because it was now 3 a. m. and he had to keep on studying because there was a quiz at 9 in the morning and this was the first time he had cracked a book this semester.

This is a very old and a very sad story but it is being repeated again and again in the university because there is no group that desires or is able to do anything about it.

There are many objections to the present system of university examinations. There are so many good objections that it seems incredible that the system has been allowed to survive up to this date.

These are some of the objections:

(1) The system emphasizes accomplishment in terms of grades and does not encourage genuine scholarly curiosity which is its own reward.

(2) The time which professors should be giving to research or preparation of lectures or discussions with students is occupied by making out examinations, by giving them, and by correcting them.

(4) Since tests are constructed by the individual professors and since the student has become accustomed to studying in the manner which will produce the best grade, it is very often the case that students study for quizzes and write them with the single aim of satisfying a detected professorial bias.

(5) The method of giving examinations at regular intervals on sections of class work merely strengthens the present cramming system whereby the students' education is resolved into a series of night-befores.—U. C. L. A. Bruin.

### A GREAT NEED

With the track season already under way, it becomes impossible any longer to overlook the fact that the track, which circles the Mackay football field, is badly in need of repair.

The most casual observer cannot fail to note that the running surface is rocky and uneven, the straightaway is too soft for speedy work, and that the boards along the curves are warped and protruding, with corners sharp enough to cut the legs of passing runners.

Automobiles have been permitted to drive along the cinder path with the result that ruts have developed which are highly disastrous to a runner hitting a speedy clip down the straightaway, and the numerous injuries which have already manifested themselves within the team is ample testimony to the adverse conditions under which the men are working.

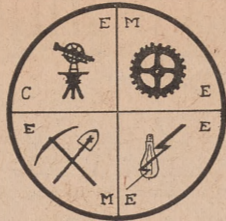

Nevada tracksters have, in the past, given a very creditable account of themselves in spite of inadequate training facilities. But that is no reason to handicap them year after year when a cinder surface, available with little cost, could put the track on an even basis with tracks of other schools represented in the Far Western conference.

Not only is the running surface in bad shape, but the shot-put pit is inadequate and the high jump and pole-vault standards are out-dated—handicaps both in training and in competition.

The blame for the conditions rests largely with the track managers of this and former years. With constant replenishment of equipment in both basketball and football taking place, it is not likely that track requests would have been utterly overlooked if the managers had taken measures to see that they were presented with sufficient force.

Why not give a hard-working group of boys cooperation through adequate training facilities.

## ENGINEERING SENATE MINUTES

March 28, 1936

The third regular meeting of the A. S. U. N. senate was called to order by Chairman Dodge at 10 o'clock Saturday morning. The minutes of the previous meeting were read and approved and rollcall was taken.

Under the head of committee reports Sherwin Garside reported that a representative of a jewelry firm was making a design of a proposed pin to be worn as the official insignia for senators. The design will be presented at the next meeting for the approval of the senate.

Silas Ross, chairman of the senate entertainment committee, reported that a picnic is being considered for the last senate meeting of the year.

Bob Nelligan, chairman of the nominating committee, presented the following panels for student body president, A. W. S. president and historian:

For student body president, Silas Ross, Bill Cashill, Tom Morris, Walter States and Kenyon Richard.

For A. W. S. president, Marguerite

Nominations for next year's Associated Engineers' officers have been definitely scheduled for April 8, with elections and installation to be April 15 and 22, respectively, according to an announcement made by President Bob Butler this week.

Seven junior electrical students made a trip out to the Lahontan power plant, which supplies power to the Fallon district, recently, and were shown around by Mr. Couch, electrician of the plant.

The group arrived too late to see the power plant put into operation, but were able to watch one generator started and put into phase with the rest of the plant. Five meter radio tests made on the way out by Neville and Anderson between sets in two moving cars were reasonably successful, according to unverified reports.

Those making the trip were Davey, Hagadorn, Mills, Morris, Anderson, Carpenter, Neville and Professor Irving Sandorf.

Cecil H. Gay, E. E. graduate of University of Nevada and brother of Arthur W. Gay, who was instructor in mechanical drawing from 1928 to 1932 at Nevada, visited the campus recently. He addressed the C. E. 90, M. E. 56, and C. E. 91 classes on his experiences at Boulder Dam in designing penstock tubes, etc. Gay is an engineer with the Babcock Wilcox Company and has designed a large part of the steel work in the conduits for Boulder Dam.

Student associates of the A. I. M. E. and other junior and senior mining students are planning a trip to the Nevada Massachusetts Company tungsten mine at Mill City as guests of Ott Heiser, manager of the mine, next weekend.

Orrin Broberg, senior M. E., will present a paper on "Snow Surveying" at the A. S. M. E. student convention which will be held at the California Institute of Technology in Pasadena this week. His paper will be entered in the competition for the \$50 prize being offered for

the best paper prepared and presented by a student M. E.

Others planning to attend the meeting are Gene Wines, Eloise Lyon, Walter Fancher, Charles Allen and Dean Frederick Sibley. They plan an overnight stop at Las Vegas, leaving here Wednesday morning, and reaching Los Angeles in time for the convention meeting scheduled for Thursday night.

The program for the convention includes sessions Friday and Saturday, an excursion to the Mt. Wilson observatory, and an informal banquet and dance Friday night.

Allye Lawson, E. E. class of 1931, visited the campus the first of the week. Lawson is employed in Las Vegas and visited the campus the first of last telegraph service there.

## A. S. U. N. Candidates Named At Student Body Meet After Luncheon

By MAX JENSEN  
Saturday, packed with a varied program of attractions and contests, was dedicated by the University of Nevada students, faculty and alumni to the school's greatest benefactors, John W. Clarence H., and Louise Hungerford Mackay.

A dance attended by nearly four hundred people, most of whom were dressed in costumes in keeping with the spirit of the occasion, closed the day at 12:00 midnight Saturday in the university gymnasium.

### Queen Gives Prizes

Miss Rita Jepson, chosen from a photograph to preside as queen of the day by Cecil B. deMille, motion picture director, made awards at the dance for the beard, costume, song and chaining contests.

Miss Frances Slavin, with a complete colonial costume, was unanimously awarded the trophy for the best woman's costume. Don McMeekin as a "sky-pilot," won a close decision among four men for the best man's outfit.

Cups for the blackest, reddest and best beards went to Al Manhan, Bill Whiting and Thomas Prunty, respectively. Sorority and fraternity song contest winners were Kappa Alpha Theta and Alpha Tau Omega. Miss Jepson also presented cups to the electrical engineers as winners in the chaining contest, to Sigma Nu fraternity for having the greatest percentage of men present with beards, and to Lambda Chi Alpha for the most men out for work in the morning.

### Crowd Sees Game

In the afternoon a large crowd witnessed a full-time game between two spring football elevens with the team captained by John Robb taking the Mackay stadium tilt 13-0.

Track and field events were run off simultaneously with the football game in the annual inter-class meet. The juniors were leading the freshmen by one point for first place in the meet with the low and high hurdles yet to be run.

### Day's Schedule

The day opened Saturday morning at 7:30, when the university men reported to Mackay stadium to check in beards and work on the track, tennis courts, bleachers and baseball field.

While the sophomore, junior and senior men put in the morning on the campus, the first year men, under the supervision of Block "N" and upperclass committee men, "sloshed" the semi-

## Sameth to Attend Two Conferences

Miss Elsa Sameth, head of the women's physical education department, will attend two conventions in Long Beach, Calif., from April 1 to 5. She and Miss Gwen Wooley of Las Vegas will be the Nevada delegates to the sixth annual convention of the California association of health, physical education and recreation, and the third annual convention of the southwest district of the American Physical Association.

Speeches by different representatives on various phases of physical education and its possibilities of vocational prospects, training and the teaching technique in that field will be presented. Delegates will have opportunities to submit questions.

Miss Sameth will also attend the National Recreation Institute conference for the western division. This conference is being held to commemorate 30 years of service. The theme will be "Leisure, Living or Loafing."

Experts on recreational subjects and special problems will be at this conference for consultation and discussion. There will also be exhibits of recreational arts and crafts from the federal departments, states, counties, cities and school districts.

Katherine Dondero, senior physical education student, will take over Miss Sameth's classes in her absence.

annual coating of whitewash over the "N" on Peavine mountain. The custom of serving food to the painters by frosh women was abolished this semester.

### Candidates Named

At the traditional luncheon of the twenty-fourth Mackay day celebration held in the gymnasium, candidates for the offices of A. S. U. N. and A. W. S. president were announced.

The panels were made up by the nominating committee of the student senate Saturday morning. William Cashill, Tom Morris, Silas Ross, Jr., Kenyon Richard and Walter States comprised the nominees for A. S. U. N. president but Richard and States withdrew.

Evamae Beemer, Marguerite Fuetsch and Betty McCuiston are candidates for A. W. S. president.

Morley Griswold, former lieutenant governor, Coach Douglass Dashiell and President Walter E. Clark were featured speakers at the luncheon. Rita Jepson, Mackay day queen, Neca Jones home economics club president and luncheon toastmistress, John Franklin, chairman of the Mackay day committee,

## Combined Colors Add Smartness

The smart set this season are boldly combining bright and varied colors, and with pleasant results. The more vivid of these combinations include ensembles and suits of green and orange, pink and purple, and raspberry and pink. The more subdued combinations take form in suits of one color with trimming of a lighter or darker shade of that color.

Dull outfits are made smart with bright blouses, trims and flowers. British tan is very popular combined with black, and tan is also artistically placed with blue for smartness and style.

One of the most popular color combinations of the season is beige and red, which is striking and chic.

No hesitation need be made in combining unusual colors. It is the vogue and those who follow it are spotted as the leaders in the fashion parade.

and Hoyt Martin, president of the alumni association were guests at the speaker's table.

### Rifle Awards

In the order of their ranking in the rifle competition the men who were awarded circle "N's" by Colonel William L. Reed are: Ralph Ball, Frank Inman, Leland Hazeltine, Richard Sauer, Walter Bowrin, Kenneth Day, Ben Morehouse, Thomas Prunty, Garnett Freeman and John Etchemendy. Women presented with circle "N's" for shooting were Gertrude Polander, Jessie Sellman, Bette Naismith, Elizabeth Osborne, Genevieve Hansen, Betty Inda, Mary Mathews, Eunice Beckley, Laurada Jarvis and Frances Smith.

Pi Beta Phi sorority was awarded a trophy as victors in the intra-mural rifle shooting competition.

Women's athletic awards were made by Mrs. Mae Simas of the women's

It costs us more to build a car like this

FORD quality goes far below the surface. It is built into every part of the car—in those things you see and those that are hidden. We say it with assurance—because it has been the experience of so many millions of drivers—that many months after your first ride you will still be saying—"I'm glad I bought a Ford."

The Ford Motor Company is not content with ordinary specifications for materials. Its own standards of quality for many important parts are considerably higher than usually accepted standards. Ford valves are an example of this extra value. They are made of a nickel-chrome alloy-steel that contains 13% chromium, 13% nickel and 2% silicon. This unusually high alloy content increases resistance to heat—insures more efficient, economical performance and longer life. Intake valves, as well as exhaust valves, are made of this more expensive steel in the Ford V-8. It is one of several good reasons why the Ford engine is singularly free of valve troubles.

It costs us more to build a car like this—yet the price of the Ford V-8 remains low. Ford manufacturing methods save many dollars for Ford owners—and bring fine-car quality within the reach of every one who drives.

## Bronze Plaques To Be Awarded in Poetry Contest

A bronze plaque of Shakespeare and a smaller plaque of a prominent author have been selected by Chi Delta Phi members as awards for winners of the first annual statewide poetry contest for high school students.

The awards will be given out at the forensic tournament this weekend by Anne Gibbs, president of the campus honor society.

The deadline on contributions has been set for April 1 and many poems

have been received by Lois Midgley, chairman of the contest. Judges for the contest will be Professor A. E. Hill and writers from downtown organizations.

## 'Mumps' Spreading In Phi Sig House

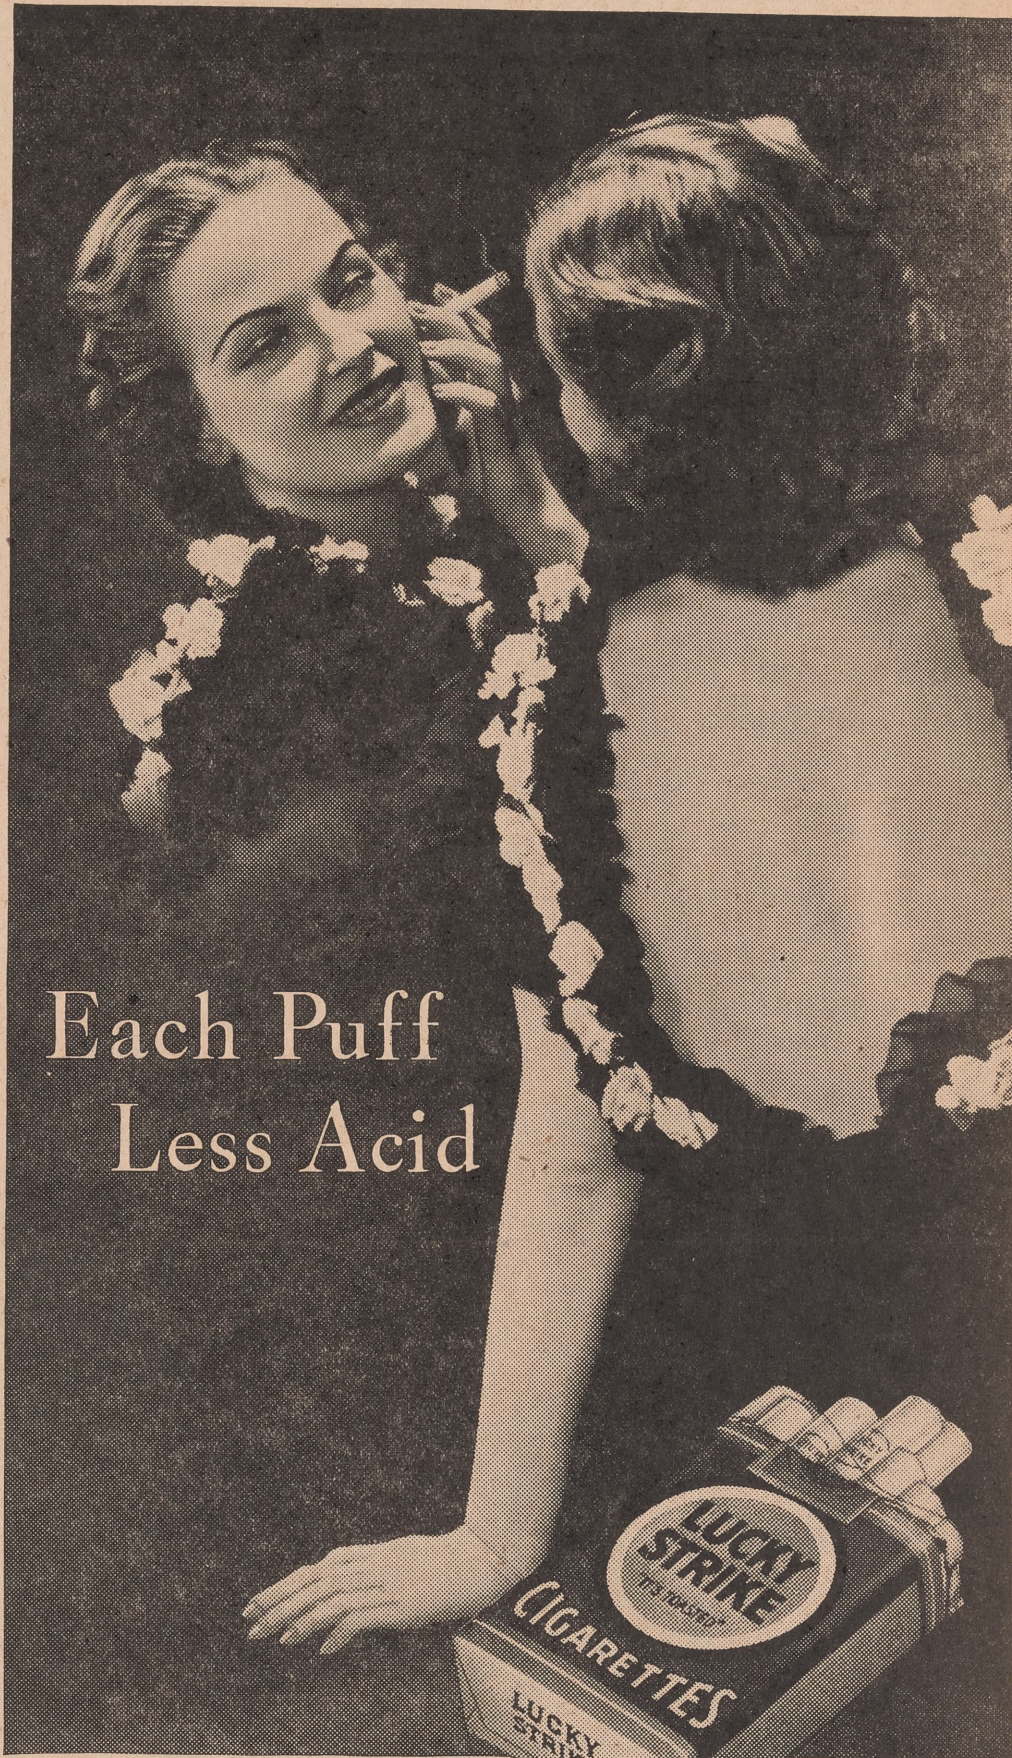

An epidemic of the mumps, which has been prevalent on the campus for the past month, seems to have settled with a vengeance on the Phi Sigma Kappa fraternity.

Three of the Phi Sig members were reported ill early last week, and the possibility of others contracting the mumps seemed inevitable.

**NEW ART BOOK IN LIBE**  
"Introduction to Chinese Art," by Arnold Silcock, a book on Oriental art, has been placed on the university library shelves this week for circulation. The book is profusely illustrated with sketches.

# Each Puff Less Acid

## A LIGHT SMOKE OF RICH, RIPE-BODIED TOBACCO

Although the constituents of cigarette paper are, in themselves, unsurpassed in purity and wholesomeness, it may, if crudely fabricated, contribute a marked degree of irritation to cigarette smoke. Cigarette paper not only envelops the tobacco in forming a cigarette, but through its physical properties may exercise a favorable or detrimental influence upon the products of combustion. Paper for Lucky Strike Cigarettes is made under our own supervision. Samples of each lot of cigarette paper manufactured are subjected to the most rigid analysis before it is used in making Lucky Strike Cigarettes.

### Shakespeare Cast Orders Costumes For Coming Play

#### Stage Crew Will Construct Set After Forensic Tournament

Costumes for the play "Much Ado About Nothing," to be presented at the university April 21, 22 and 23, have been ordered from San Francisco, William C. Miller, director of dramatics, said yesterday.

Properties for the play are very simple. Miller said the success of the play will depend mainly upon the quality of the acting.

Rehearsals began last week and will continue through the Forensic tournament. The stage crew, made up of Darrell Cain, Kenneth Tedford, Gordon MacDonald, George Dukas and Leo McCuddin will not begin construction on the set until after the Forensic contest.

It is planned that the first performance of the play, scheduled for the night of Professor Post's concert, will be for high school and junior high school students in order to avoid conflict with the musical.

"Much Ado About Nothing" will be presented by the following cast: Leo Doyle, Jim Hawkins, Jim Parker, Dave Goldwater, Frank Stout, Willis Dalzell, Bob Montgomery, Morrison Beatty, Walter Christian, Marion Brooks, Bill Cockrell, Sherwin Garside, Bill Johnstone, Bill Tyrrell, Jessie McClure, Ellen Creek, Naomi Starr and Kathleen Meeks.

### Talk To Be Given By Dr. Chappelle

Members of the Faculty Science club will hold their last meeting of the semester, April 23, at four o'clock, in the auditorium of the education building.

The speaker will be Dr. Chappelle, who will speak on "The Pelican." In connection with his talk, several reels depicting the pelicans at Pyramid lake, will be shown.

### S. A. E. Starts Informal Rites For Seven Men

Sigma Alpha Epsilon today started informal initiation of seven pledges under the direction of Willis Dalzell, pledge captain.

Being initiated this week are Russell Bailey, Guy Brown, Robert Paille, George Folsom, Bill Martinez, Jack Starett Anderson and Clyde Healey.

The informal ceremonies will conclude Sunday with the first formal degree at the chapter house on Evans avenue.

### Y. W. C. A. Holds Supper Meeting

A supper meeting of the Y. W. C. A. was held Tuesday night at 6 o'clock, with about 30 members attending.

Doris Bath announced that she had pamphlets on nursing that she had received from the National Nurses' association and that she would give them to anyone interested in nursing. It was also announced that the Easter pageant given by the Y. W. C. A. would be held this Sunday.

### Theta President To Visit Here

Mrs. Folger Athearn, district president of the west coast chapters of Kappa Alpha Theta sorority, is scheduled to arrive in Reno Monday, on her annual official visit to Beta Mu chapter at Nevada university.

Mrs. Athearn will be remembered to many on Nevada's campus to whom she was presented at a formal tea, given by the sorority last year.

### Manzanita Lake Singing Festival To Be Revived

A revival of the Manzanita lake spring festivals will take place under the sponsorship of Delta Delta Epsilon, honorary music fraternity.

According to plans now being made by the music department, under the direction of Theodore Post, the university glee clubs and band will hold a spring singing bee early next month. Campus service clubs will cooperate in the music groups in the festival.

Formerly the singers serenaded the audience from a raft anchored on Manzanita lake in the evening some time during the spring activities immediately preceding commencement.

Whether or not this year's festival will follow exactly the schedule of former years is not yet decided, but new University of Nevada songs composed since the discontinuance of the singing bees will be featured along with numbers formerly used in these programs.

#### CLUB MEETS

Mineralogy experiments will be demonstrated at the regular meeting of the Rocks and Minerals study club tonight when the organization meets in the Mackay School of Mines. Prof. Walter Palmer will conduct the meeting, with discussions to be held following the experiments.

### 14 Prep Schools

(Continued from Page One)

coach, will enter the six contests offered by the tournament officials. The forte of the railroad city is in the dramatic interpretation, Shakespearean scenes, and one-act plays.

Fallon will be represented in the one-act plays and class "A" debate under the direction of Herbert Peck and Superintendent McCracken.

Winnemucca will enter a team only in the debate. In 1934 Winnemucca won the runner-up honors in class "A" under their present coach, Mrs. Willie Hudson.

In class "B" debate Carson City, Yerington, Panaca, Lovelock and Tonopah have filed their official entries. Carson City is the defending champion.

#### Nine Enter

Nine class "B" schools have entered the one-act play contest in competition with the class "A" schools. Fernley, Carson City, Yerington, Virginia City, Panaca, Hawthorne, Alamo, Lovelock, Wadsworth and Tonopah fill the roster of the play entries.

Dramatic interpretations will be given by five class "B" schools including Virginia City, Carson City, Panaca, Hawthorne and Lovelock.

Two class "B" schools will enter the Shakespearean scenes contest Panaca,

under the direction of J. E. Theriot, and Lovelock coached by A. H. Bachelor will compete with the class "A" schools for presentation of the "Bard of Stratford on Avon's" works.

Virginia City, Panaca and Tonopah will bring contestants for the extemporaneous speaking contest.

Coaches of the teams were listed: Fernley, Millicent Johnson; Carson City, Dorothy Priest; Yerington, Ruth Bixby; Virginia City, Hawthorne, W. H. Tracy; Alamo, Earl C. Wilcox; Wadsworth, Marthene Solares; Tonopah, Helena Morris.

#### Griffin Director

The tourney is sponsored by the University of Nevada debate squad, the U. N. play productions staff, and the associated students. Robert Griffin, varsity debate coach, is director of the Nevada State High School Forensic league, with William C. Miller as his assistant, has charge of the tournament.

Douglas Dashiell is president of the league.

Members of the varsity debate squad will act as judges during the three-day competition, while judges for the finals will be enlisted from Reno townspeople.

Patronize university backers.

*I wouldn't give that for a cigarette that doesn't Satisfy . . . that doesn't give me what I want in a smoke*

I want my cigarette mild, of course—I hardly think anybody enjoys a strong cigarette. But deliver me from the flat, insipid kind.

I find a great deal of pleasure in Chesterfields. They're mild and yet they seem to have more taste and aroma. I enjoy them.

**They Satisfy. . just about all you could ask for**
