

Student Prexies Welcome Frosh To U. N. Campus

The A. S. U. N. welcomes all new students to a campus who are ready and determined to make this school year the finest in the history of the university. It is our greatest desire that you will enter into student life on the campus with enthusiasm and lend your full support to all the activities of the student body.

Nevada's greatest opportunity for progress is at hand and it is our resolve to see that opportunity shall not pass unchallenged. We are prepared to enlist the aid of every student and every organization in a concerted drive to successfully meet student problems.

Naturally, the primary consideration of the fall semester is football and its affiliated activities. The excellent spirit shown by students, players and coaches gives every promise of a fighting spirited team and that sort of team is the finest asset of any student body.

Credit must be given to the prompt organization of the band an act that insures students a capable and efficient entertainment unit.

Thus we have the component factors necessary for achieving our first goal—a successful football season. With the unwavering and loyal support of all students there can be but on result; 1936 is Nevada's year.

WM. CASHILL, President.

Greetings, Freshmen:

The Association of Women Students at Nevada cordially welcomes the new women to the campus this year, and we sincerely hope that each of you may find your place among us. Probably more than anything else, the older students anxiously await the incoming class of freshmen because the addition of new and enthusiastic individuals always serves to add zest to university life.

Friendliness and democracy are what may be termed "traditions" at the University of Nevada, and we know that you will meet us more than half-way in the business of getting acquainted with each other.

The older students on the campus are anxious to welcome you freshman women into the A. W. S., and we shall attempt to aid you as much as possible. One of the surest ways to secure happiness and attain your individual goals while attending the university is to cooperate. You who are new here will find that you can only achieve success for yourselves by doing all in your power to work with your sister students.

Again we say, "Welcome to Nevada," and we are sure you will find success, happiness and friendships here during your four years among us. BETTY MCQUISTON.

SAE, A.T.O. Lead In Pledge Derby

Maintaining a lead set early in the week, Sigma Alpha Epsilon fraternity with 18 pledges continued to hold first place in the annual pledge derby.

Alpha Tau Omega, with seventeen men wearing the insignia of the order, runs a close second, while Phi Sigma Kappa is third with fourteen new men.

Next in line is Sigma Nu with 11 pledge buttons distributed among the newcomers. Beta Kappa pledged 9, while Sigma Phi Sigma added 8, and Lambda Chi Alpha 4 men.

Pledge lists as turned in to date by the houses are as follows:

Sigma Alpha Epsilon—Ross Ashley, Lawson Sullivan, Francis Menante, Tom Horgan, Bill Yoe, Charles Calhoun, Robert Ferguson, Clifford Malone, Bill Byington, Jonas Ross Moore, William Pasutti, Glenn Ranson, Wallace Smith, Lewis Denton, Lincoln Liston, Roger Barrowman, James Patterson and Hugh Widaman.

Alpha Tau Omega—Fred Steen, Carlyle Pribbenow, Tillie Botti, Earl Smith, John Brackett, Harry Ackerman, Peter Kelley, Walter Christensen, Ray Waldren, Jack Good, Leon Etchemendy, Edward Beaupere, Charles Tibbs, Gordon Thompson, Milton Mapes, Bill Saxton, Charles Spann.

Phi Sigma Kappa—Ed Hughes, Ted Wise, Stan Guinan, Fred Snyder, Robert McLeod, Randy Booth, Henry Maher, George Ross, Lowell Hillygus, John Gioni, Frank Roylance, Loyal Willis, Lawrence Strong, Joseph Wald.

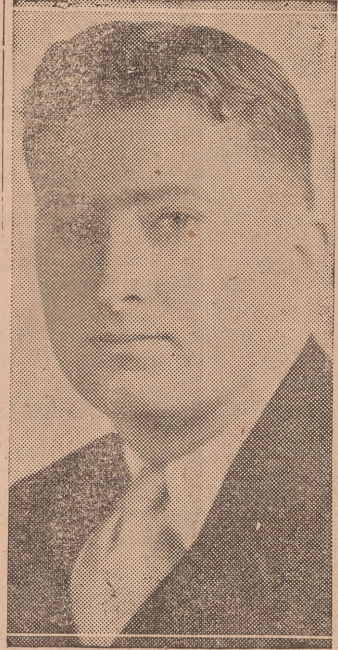

Sigma Nu—Harley Johnson, Robert Cameron, Frank Beloso, William Marks, Andrew Fabbi, Ward Willis, Robert Herz, Jack Layson, Olinto Barsanti, Albert Caton, Louis Carpenter.

Beta Kappa—George Smith, Henry Wilk, William McGee, Nye Tognoni, Robert Parker, Milton Parker, Jack Smith, Forrest Kellogg.

Sigma Phi Sigma—Don Brandon, Lawrence Long, Al Wood, Ed Olson, Robert Severson, George Straun, Byron Hardie, Ben Moore.

Lambda Chi Alpha—John Sala, Tony Yerberry, Leonard Carpenter, John Jensen.

A. S. U. N. Senate To Meet Tuesday

New Senators To Be Sworn In Before Group Chooses Nominating Committee

Meeting to appoint new committees for the fall semester, the A. S. U. N. Senate will convene next Tuesday evening at 7 o'clock in the new Senate chambers in the student building, Bill Cashill, president of the group, announced early today.

All new senators from Greek letter houses and the men's and women's dormitories will be sworn in before any new business will be taken up by the group.

The first committee will be the nominating committee which will be presented by Chairman Cashill and will be approved by the members of the Senate before the committee will draw up the panels for the remaining committees.

The committees to be presented include two members, a man and a woman, to the finance control committee; three members from the student body at large to the publication board, three members to the executive committee, new members of the men's and women's upperclass committees, and members of the Homecoming committee.

It will also be necessary for the Senate to confirm the appointment of Louis Weiner as yell leader.

Thursday Is Set For U. N. Meet

Meeting for the first time on Thursday, September 3, the A. S. U. N. will convene in the auditorium of the Education building at 11:25 with William Cashill presiding for the first time as head of the organization.

The new manager of the freshman class will be sworn in at this meeting by President Cashill.

After the committee appointments have been announced to the student body by the chairman of the nominating committee of the Senate, a short program will be held. Coach Doug Dashiell will address the students at this time.

Cal Tech Award Given to Francis

A scholarship to attend California Technical school at Pasadena has been awarded to George Francis who was a member of the 1936 graduating class.

Francis was an electrical engineer and was prominent in the Associated Engineers. He is a member of Nu Eta Epsilon, honorary engineering society, and Phi Kappa Phi, honorary scholastic group. He will take advanced work in mathematics and physics, doing a portion of his work under Professor Millikan.

Alden K. Sibley Is Named Expert On Cosmic Rays

Former U. N. Student Awarded B.S.C. Degree at Oxford During Summer Term

Alden K. Sibley, a former University of Nevada student and one of the three leading authorities on cosmic rays, received his B.S.C. degree at Oxford University in England during the summer, it was learned by friends here recently.

Sibley, who is the son of Prof. and Mrs. F. H. Sibley, received an appointment to West Point from the university.

Shortly after his graduation from the military academy Sibley was named the Rhodes scholar from this district and left for Oxford in October, 1933.

The Nevada's thesis paper, which he submitted for his degree, concerned cosmic rays. He made a study of his subject in the islands of the Pacific, and also took notes on a trip around the world.

Officials at Oxford said that if Sibley had been able to devote an additional two terms to his studies he could have secured a Ph.D. degree.

Student Leaders Address Freshmen

Major Activity Objectives Stressed by Speakers at Class Meeting

Opening the university orientation course for the semester, Bill Cashill, president of the A. S. U. N.; John Carr, editor of the Sagebrush; Robert Cress, graduate manager; Guy Morris, chairman of the upperclass committee, and Christie Finn, president of the Y. W. C. A., presented to the freshmen the relation of extra-curriculum activities to school work.

Each year at the first meeting of the orientation class the heads of the various campus organizations explain to the "frosh" the objective of student activities.

On September 10, Prof. Jay Carpenter, Clayton Phillips, president of Block N society, and Evamae Beemer, president of Cap and Scroll, will talk upon academic awards and honors.

The remainder of the semester will be devoted to lectures upon effective study and orientation to a vocational future.

The purpose of this course, which is required of all freshmen, is to give a thorough idea of campus life, and to acquaint them with the heads of the various departments in the university.

Journalism Grad Publishes Stories

Elwin L. Jeffers, 1936 journalism graduate, was the author this summer of two mining feature articles which were published in July in magazines of national circulation.

The first article, which was published and distributed by the Philadelphia Public Ledger syndicate, dealt with the many humorous instances in which hopeful prospectors and veteran miners had their dreams of wealth shattered by discovering that the discolored potatoes, tin cans, pieces of petrified wood, etc., that they turned in to be assayed were no more than iron pyrites, or "fool's gold," and optical illusions.

In the article which was accepted by the King Features syndicate of New York, Jeffers told of the unbelievably large number of women engaged in prospecting and active mining, both as a hobby and as a means of livelihood, in the state of Nevada.

Jeffers, who was chairman of the publications board and of the Mackay Day committee as a senior and prominent in other student activities, is at present employed by the state highway department, with headquarters at Winnemucca.

Math Club Picnic Will Be Sept. 13

With the close of the first week of the fall semester, the Mathematics club has planned a picnic at Lake Tahoe to begin its year's activities, Elizabeth Juniper, president, said this week. The outing will be held on September 13 and will be a get-together for all members of the organization and those students who are interested in mathematics.

The first regular business meeting of the group is scheduled for October 8, when the outline of the year's work will be given. Several speakers will be asked to talk during the year on topics of practical interest to college students, Miss Juniper added. It is hoped that students majoring in mathematics will present at least one talk and round table discussion.

U. N. SCIENTIST

—Courtesy Nevada State Journal
Dr. J. E. Church, U. N. teacher, who is recovering from illness in Moscow, Russia.

Prof. J. E. Church In Russian Hospital

World Famous Scientist Has Pneumonia Attack While on European Trip

"Dr. Church is better. We are standing by."

This was the cablegram received yesterday from Mr. and Mrs. Robert Merriman, Nevada graduates who are now in Moscow.

Merriman, a former student of Dr. Church, is now doing social service work in Russia on a fellowship from the University of California. His wife, Marian Stone '32, is doing newspaper work there.

Friends first became worried about the condition of the famed "snow man" when a cablegram was received from him the first of the week. Investigation by the state department revealed that Dr. Church had been ill with pneumonia but was recovering in a Moscow hospital.

Dr. J. E. Church, professor of classics at Nevada and first president of the International Commission of Snow, will receive worldwide recognition for his work in establishing an internationally known scientific process for measuring snow, at a meeting of that body to be held September 14 to 26 at Edinburgh, Scotland.

Church is now engaged in an intensive study of the watersheds of western Europe, where he is looking for ideas which will benefit farmers throughout the world. This work is a continuation of that started by Church last summer when he made a survey of the watershed of western United States.

While at the snow commission meeting, Church will speak on "Organization and Purposes of the International Commission of Snow" and "Snow Surveying: Its Principles and Possibilities."

Following the meeting, which delegates representing 25 countries will attend, Church will return to Nevada to resume his classes and experimental work early in October.

Snow surveying was developed by Church out of his love for the out of doors in Nevada some 40 years ago. He was instrumental in originating snow measurements to aid farmers in predicting irrigation resources in Nevada and other parts of the world.

As a result of his work, federal-state cooperative snow survey is now being carried on, and the interest in snow work has led to the establishment of the international commission, which is a product of the International Union of Geodesy and Geophysics.

University Grad Is Campus Doctor

Appointment of Dr. Vernon Cantlon '28 as campus physician was announced recently as successor to Dr. Dwight Hood. He began his duties with the opening of the fall semester this week.

Dr. Cantlon is a graduate of Sparks high school, the University of Nevada and Harvard medical. After receiving his degree at Harvard he spent two years as an interne in the Massachusetts general hospital and an internship of one year in the Long Island college hospital. This was followed by a one year resident position in the Queens general hospital in New York City.

He lives in Sparks and maintains offices in Reno with Dr. C. W. West in the Medico-Dental building. His office hours at the campus infirmary will be from 4:30 to 5:30 p. m.

NOTICE

Tryouts for positions on the editorial staff of the Sagebrush will be held in the editorial offices Monday, August 31, at 4 p. m. All new students wishing to try out are requested to report at that time.

Nevada Senator May Give Talk Constitution Day

Senator P. A. McCarran of Nevada will be the Constitution Day speaker when that occasion is celebrated on the campus September 17 if negotiations now being made by the committee on lectures and assemblies are successfully completed, Professor Harold N. Brown, chairman for the 1936-37 school year, announced yesterday.

Professor Brown said that he feels quite certain Senator McCarran will accept the invitation and will present an interesting and important discourse on the constitution. He expects definite word early next week.

The Constitution Day speaker will be the first of four or five famous and authoritative orators to be presented to the University of Nevada, student body and open to the downtown public during this semester.

A definite date has been set for the lecture to be given by Edgar C. Raine, who is considered the world's best authority on Alaska. He will present a travelogue of Alaska in natural colors on October 1 in the Education auditorium.

Raine, who is now on his twenty-third annual tour of the United States, will be the first paid lecturer to be brought to the campus, Brown said.

Get-Together Is Attended by 704

Semi-Annual Blue Key Dance Gains More Than \$200 for A. S. U. N. Gift

Seven hundred and four students crowded into the El Patio ballroom Tuesday night for the first semi-annual no-date get-together dance of the year. Four hundred and eighteen men attended, while 286 women paid admission. Blue Key service fraternity, which sponsors the affair, reports this the largest attendance in several years.

While approximately half the students were freshmen, the other classes were well represented as evidenced by the different colored class tags supplied each person upon entrance to the hall.

Over \$200 was cleared from the affair, 80 per cent of which will be turned over to the A. S. U. N. as a gift from Blue Key. The other 20 per cent will be used to help buy the clock which the service organization plans to install on the east side of the Library building.

The committee in charge of the affair as appointed by Cletus Libby, president of Blue Key, consisted of the following: Kirk Fairhurst, chairman; Walter States, Emile Gezelin, Emery Graunke, Charles Wheeler, Guy Morris and Jess Christensen.

The chaperones for the dance included Dean and Mrs. R. C. Thompson, Professor John Gottardi, Coach Douglas Dashiell, Coach J. Coleman and Professor J. E. "Doc" Martie. The music was furnished by Clarence Byrd's orchestra.

Sagers to Elect New Vice Prexy

Election of a vice-president and the ordering of sweaters will be the business transacted when the Sagers, underclass pep organization, meets for the first time this semester, on Tuesday night at 7:15.

With Bill Goodin, former president, failing to return to school, Charles Doherty, who filled the office of vice-president, automatically assumed Goodin's post this semester. A member will be elected to fill Doherty's place Tuesday.

Three new men will be elected the following week to fill the membership quota of 30. Application blanks for second semester freshmen, sophomores and first semester juniors who desire to become Sagers, will be on the campus Monday morning. They may be obtained from Doherty or Jim McNeely, secretary-treasurer.

Attendance at all games in a body, policing the grounds and meeting all visiting athletic teams at the train will be some of the activities of the group for the year. A banquet is also planned for the near future.

States to Name Staff Next Week

Because of the lack of positive organization in the business staff of the Sagebrush, the business masthead will be announced for the first time in next week's edition, Walter States, business manager, said this week.

States also announced that Willis Dazell has been the only junior manager appointed this year, with Georgia Cooper named women's manager.

NOTICE

All A. S. U. N. senators will please be present at the first senate meeting to be held in the A. S. U. N. building at 7 o'clock Tuesday, September 1. WILLIAM CASHILL, Chairman

Clark Anticipates Record Enrollment

President Clark Extends Greeting

To All Students, New and Old, Greetings and Cordial Welcome:

The most beautiful campus, the best plant and equipment and the most effective teaching staff of the university's history are all at your service for this new university year.

The destiny of the university for this year is in your hands. If, with intelligence, industry, enthusiasm and cooperative spirit you students make the most of your opportunity here and thereby grow steadily in mental vigor, in craftsmanship, in campus good citizenship and in spiritual power, you will surely make the coming year the greatest of all years for the university.

WALTER E. CLARK, President.

Chas. Allen Greet U. of N. Engineers

Plans for Semester of Large Group Will Center on 1937 Engineers' Day

One of the largest groups of engineers ever to enroll at the University of Nevada was welcomed to the campus this week by Charles Allen, Associated Engineers' president.

The east side of the campus, traditionally quieter than the west side, was filled with shouting and laughing men and a few stray women, as they greeted returning friends and welcomed new enrollees in the college of engineering.

The climax of the fall semester activities will be the Engineers' Brawl, to be given soon in the university gymnasium.

All efforts of this and the spring semester will be pointed toward the second annual revival of Engineers' Day, scheduled for March 13.

The celebration last year, separated from the Mackay Day program for the first time in several years, proved an outstanding success.

In outlining plans for his term as A. E. president, Allen featured preparations for Engineers' Day in the following statement:

"The revival of Engineers' Day has created a new and different Associated Engineers. With an aroused interest and a larger enrollment, it can be expected that these engineers are planning a bigger program than ever before."

Nichols, Fontana Receive Training At Marine School

Two University of Nevada military graduates, Charles S. Nichols Jr. and Paul Fontana, are now enrolled in the basic school for marine corps officers in Philadelphia. Appointment to the school came early in July, because of high scholarship in military training.

Nichols, who received both his B.A. and M.A. degrees at commencement this spring, is the son of Mr. and Mrs. Charles S. Nichols of Reno. Before coming to Nevada he attended the Virginia Military Institute and is also a former student of the United States military academy at West Point.

Selected as the honor graduate of the military department this spring, Nichols was also cadet major of the R. O. T. C. battalion last year. He is a member of Sigma Alpha Epsilon fraternity and was prominent in student activities on the campus.

A graduate with the class of 1934, Fontana is the son of Mr. and Mrs. R. Fontana of Sparks. He is a member of Phi Kappa Phi scholastic fraternity and of Nu Eta Epsilon, honorary engineering society. Fontana was varsity yell leader, cadet major of the R. O. T. C. and a member of Blue Key service fraternity, Coffin and Keys, honorary men's upperclass group, and Alpha Tau Omega fraternity. Following his graduation he attended the army flying school at Randolph Field, Texas.

After an eight months' course in Philadelphia both men will be assigned to active duty with either the battle fleet, foreign service or a home station.

Engineers' Brawl Plans Under Way

A meeting of the Associated Engineers will be held next week, it was announced yesterday by Charles Allen, president of the organization.

A report will be given at the meeting of the number of engineers purchasing membership cards and stickers during the first week of school.

Plans will be started for the annual Engineers' Brawl which will be held early in the college "social whirl." Preliminary arrangements will be made at the meeting in order that the campus dance will include some novel features, Allen said.

Fourth Day Ends As 865 Students Close Registration

Largest First Year Class in U. N. History Draws Total of 410 Coupons by Thursday Night

Men Again Outnumber Women As Classes Open Doors for Fall Semester

By EDWARD CONNORS

More than one registration record will be broken this semester if the trend of enrollment follows that of former years until the end of registration on September 15, President Walter E. Clark said yesterday when giving out the figures for the end of the fourth day.

Already freshman students, totaling 410, who have completed their cards and are attending classes, have nullified last year's high record, which was set at 390 at the end of the three weeks' registration period. It is now the largest freshman class in the 50 year history of the University of Nevada, Dr. Clark stated, and it is expected that the ultimate total will reach an all-time record of 430 freshman students.

With 944 cards out and 865 completed yesterday, the total number of students entering the university this semester is far ahead of any previous single semester. At this time last year, 896 cards were taken out, with 819 completed, showing 45 ahead in the former case and 46 more in the latter.

If the "dribblings" keep on as they have in previous years, Dr. Clark said, it will be the first time in the history of the institution that enrollment figures will have passed the 1000 mark for the fall semester. With last year's total standing at 973 students attending classes, Dr. Clark feels confident that the final figure will set a record of well over a thousand students. The highest previous mark was made in 1932, when 975 students were daily going to classes.

Men Outnumber Women
The number of men and women students registered this year has followed the trend of previous years, with the men students outnumbering the women students. Yesterday 502 men had completed registration, while the figure for the opposite sex showed 463.

Divided as to classes the total number showed the following numbers of students registered for classes: freshmen 410, sophomores 193, juniors 132, seniors 63, unclassified 31, graduate 24 and special 12, making a total completed enrollment of 865 students.

Commenting yesterday on the unprecedented registration figures, Dr. Clark stated that since "already one record has been broken, in all probability the semester record will be broken also, and the university will have the largest semestral enrollment in its history."

Econ Professors Granted Leaves

Webster Returns to Campus After One Year's Absence From Classes

Alden J. Plumley, assistant professor in economics, has been granted a year's leave of absence from the university and will attend Northwestern university, where he will complete his studies for a doctor of philosophy degree, it was learned yesterday.

Professor and Mrs. Plumley will leave Tuesday, September 1, for the Illinois institution. Part of the time he will teach night school on the Chicago campus of the university in pursuance of the teaching fellowship he has been granted, and the rest of the time he will devote to working towards his degree, he said last night.

Fred Collins and Gordon Robertson, instructors in economics, and Professor Edward G. Sutherland, acting head of the department, will conduct the economics classes along with Professor Milan J. Webster, who is returning this semester after a year's leave of absence.

Assistant Professor William Blackler will also be absent from the economics department on a year's leave of absence, during which time he will attend New York university and teach in the City college there in preparation for his master's degree. Both professors will return to the campus next fall.

NOTICE

Dean Margaret E. Mack will meet with the social calendar committee Tuesday, September 1, at 4 p. m. in the big lecture room in the Agriculture building. All groups wishing to schedule dates are requested to send a representative.

Rushing Changes Made by Pan-Hell At Fall Meeting

Dating Restrictions Are Made More Liberal; 50 Cent Fee, Progressive Tea Cut

First Parties To Be Given by Pi Beta Phi and Alpha Deltas Saturday

Three changes were made in the recently adopted set of rushing rules issued by the Pan-Hellenic council last spring, Norma Jean Mills, president of the council, announced yesterday.

Liberalizing the dating restrictions set upon rushees was the most important change made. Rushees are not to accept dates from 8 o'clock, September 9, until after bids have been accepted September 11. The rule formerly stated that no rushee was to accept dates during the entire two weeks of rushing.

Abolition of the 50 cent fee that new women were to pay to the Pan-Hellenic council to signify their willingness to be rushed, and the canceling of the progressive tea to be given by all sorority houses on the Saturday before rushing started, were the other changes made.

The fee was abolished at a meeting of the council before school started. All the members felt that charging a fee cheapened rushing. The tea was canceled because of conflict with rushing parties held on that date. The tea will probably be resumed next year when a more suitable date can be found.

Second Meeting Set
The council will meet again after rushing to see if other changes are necessary to make the rules more efficient.

The complete set of rules governing rushing are:
Official rushing season shall cover a two weeks' period beginning Saturday, August 29, and ending Wednesday, September 9.

Each sorority shall give three parties, each lasting two hours, between 4 and 8 p. m.

Flowers for the table shall be the only decorations.

Entertainment shall be provided by chapter members only.

Any chapter is allowed the privilege of hiring one orchestra limited to three pieces.

A per rushee per party price limit of 25 cents shall be set to include flowers, orchestra and food, non-accumulative.

Rushees shall be responsible for their own conveyances to and from parties.

Each woman must be registered in at least 12 hours' work on the University of Nevada campus and must be an undergraduate to be eligible for rushing.

Uniform Invitations
Uniform invitations necessitating only the filling in of required blanks shall be provided each Greek letter chapter by Pan-Hellenic council.

All invitations must go through the office of the dean of women. The dean in turn shall notify rushees, who, at a stated period, shall call to accept or reject invitations. All acceptances or rejections shall be made on printed forms provided by Pan-Hellenic council and deposited in a locked box provided by each respective chapter.

There shall be no intercourse by telephone or by personal contact between sorority women and rushees off campus, in Manzanita hall or in Artemisia hall from 8:40 of Wednesday morning class assembly and lasting till the close of silence period.

Silence September 9-11
Silence shall begin 8 p. m. Wednesday, September 9, and close 3 p. m. Friday, September 11. During that time there shall be no contact between sorority women and rushees.

The Pan-Hellenic lawyer or her assistant shall inform rushees receiving bids as to hours and place of acceptance.

The Pan-Hellenic lawyer shall select an assistant to meet girls at the door and to usher them out after they have signified their choice.

Neither the lawyer nor her assistant shall be affiliated with chapters of sororities represented on the University of Nevada campus.

Pan-Hellenic office for bid day shall be off the campus.

A girl's decision at the lawyer's shall be binding.

These rules were published in booklet form by the Pan-Hellenic council this summer and contain besides the rules for rushing, the Pan-Hellenic creed, advice to new girls, rushing regulations, constitution and by-laws of the Pan-Hellenic association, and regulations governing women's residences.

Moore, Cummings Win High Honors At Training Camp

Craig Moore and Bert Cummings, two of Nevada's ten representatives at the R. O. T. C. camp, Presidio of Monterey, Calif., qualified as sharpshooters in the rifle practice. Both men are seniors and, according to Captain Isbell, narrowly missed qualifying as experts.

There were to have been eleven Nevada men at the camp but due to an injury received while working in a field Joe Lommori was unable to attend. The other men were Charles Allen, John Carr, Robert Davey, James McNeely, Jack Richardson, Frederick Wood, Wayne Kennedy and Walter Bowrin.

Walter Christian, Lambda Chi Alpha, has been selected to teach in the Ferry schools this next year.

Austins Receive \$1,000,000 Offer For Rich Strike

Former Student Completes Compact to Keep Mine in Family Fifty Years

One of the richest mining strikes in recent Nevada history was developed this summer on the property of George Austin and family at Jungo, a small mining town in the northeastern part of Nevada.

Offers for whole or part ownership in the Austin strike have been made amounting to as high as \$1,000,000, but George Austin and his family have a 50 year compact not to sell any portion of the mine.

Under this compact Wilfred Austin ex-38, son of the Jungo general store proprietor who arranged the compact for his family, will have a large share in the proceeds from the mine. Wilfred is now working, with his father and brother, at the mine, and apparently does not intend to return to university this semester, though no definite word has been received by his Sigma Nu fraternity brothers. The other brother is Kenneth, a Nevada graduate and member of Delta Sigma Lambda.

The offers for the mine were refused because, Austin said, the sudden wealth would influence his family and because about half the purchase price would have to be paid to the government in taxes.

Publicity given the discovery has attracted hundreds to the Jungo region, making the former small railroad section station a thriving "boom" camp. Claims near the strike have been staked out, many by members of the Austin family. Arrangements are now being made to erect a modern Diesel-electric mill on the Austin property to replace the old-time stamp mill now used in extracting values from the ore.

New Hall Matrons Begin U. N. Duties

With the opening of this semester, two new matrons took over the duties in Manzanita halls, women's dormitories on the campus.

Replacing Miss Anita Becaas at Artemisia hall is Miss Echo Loder. Miss Loder is a former principal of the Northside junior high school and has been active in education work in Nevada for many years.

Miss Virginia Harger of Spokane, Wash., has taken over the duties of Miss Claire Beemis as matron of Manzanita hall and head of the university dining hall. Miss Harger is a graduate of Washington State college and spent a year in Harborview hospital in Seattle studying dietetics.

JOE LUNCH ILL

Joseph B. Lynch, superintendent of the university grounds, is ill and unable to supervise the ground work for the first two weeks of school.

Harry Sawyer was visiting in Reno early this week, before leaving for St. Louis where he will enter Washington University to complete his medical course. He graduated from the university in May and is a member of Sigma Alpha Epsilon.

Nevada Sororities Are Represented At Summer Meets

Calling delegates to Lake Tahoe, Colorado Springs, Chicago, Victoria and Glacier park, the six national sororities represented at Nevada held their biennial convents this summer.

The western province convention of Alpha Delta Theta was held at Chambers lodge, Lake Tahoe, on June 26 and 27. Chapters at Washington, U. C., U. S. C., U. C. L. A., Nebraska and Nebraska Wesleyan were guests of Chi chapter at Nevada. Avanel Manzoni, official delegate from Nevada, acted as hostess. Mrs. D. W. Priest represented the Nevada alumnae chapter and acted as convention chairman.

Evamae Beemer represented Delta Delta Delta at the eighteenth national and third international convention of the sorority at Colorado Springs. She was accompanied by Jeannette Green and Mary Casey, also members of Theta Theta chapter. The convention, which was held in the Broadmoor hotel at the foot of Pike's peak, lasted from June 28 to July 3, with 87 chapters represented.

As president of Alpha Epsilon chapter, Agnes De Armond attended the Beta Sigma Omicron convocate at the Palmer house in Chicago on June 29 and 30 and July 1. Florine Frank Maher represented the alumnae chapter at the convention, which was attended by representatives from 32 chapters.

Also convening at Chicago were 1200 delegates representing Pi Beta Phi chapters in the United States and Canada. Jessie McClure was the official delegate from Nevada, while Miss Katharine Riegelhuth and Dean Margaret E. Mack represented the alumnae. Also attending was Mary Louise Durkee, graduate with the 1935 class, who continued on to Gatlinburg, Tenn., where she will teach in the Pi Beta Phi settlement school.

The thirty-ninth convention of Gamma Phi Beta was held at the Empress hotel in Victoria, British Columbia, from June 27 to July 3. Virginia Johnson, Betty Simpson, Georgianna Harriman, Eethel Kent, Virginia Hearne, Jane Bell and Dorothy Nason attended the gathering. Miss Harriman represented Alpha Gamma active chapter and Miss Nason the alumnae.

Representing Kappa Alpha Theta for Nevada at Glacier park was Norma Jean Mills, president of the active chapter. She was accompanied by Laurada Jarvis, with Lucile Sanford representing the alumnae chapter. Approximately 300 women were in attendance.

Bryce Rhodes '35 is now working with the sales department of the Zellerbach Paper company in Sacramento.

Used-Book Shop, Operated by Y, Opens This Week

Y. W. C. A. Membership Drive Will Begin at September 1 Campus Meeting

The Y. W. C. A. book shop opened its doors to student trade today for the first time this semester. A meeting of the cabinet members, scheduled for September 1 will formally open the semester for the Y. W. C. A. group.

As announced by President Christie Finn, plans for the annual membership drive, to begin September 2, will be discussed in this meeting and arrangements made for the opening of the candy booth sometime next week.

These two enterprises, along with the book shop, are the organization's major sources for the funds upon which Y. W. C. A. activities for the year are budgeted.

Students' used books are sold on the commission basis by Y. W. C. A. members at the beginning of each semester in the book shop, located in the basement of Morrill hall.

Miss Finn announced that no list of salable books would be posted this semester but that all books would be accepted for sale in the book shop.

In the absence of Mary C. Blakely, chairman of the committee in charge of this activity, Miss Finn is supervising the book shop.

U. S. Flying Schools Face Limited Rolls

For the first time in years vacancies have been announced in the October and spring classes of army and navy aviation schools, it is reported by Captain Isbell of the military department.

These classes are open to men who have completed two years of college work or passed the official examination. After completing these courses, fliers are eligible for from one to three years active service on commissioned status with the possibility of receiving regular army commissions.

Five Scholarships Awarded by Board

Five board of regents' scholarships and the A. W. S. scholarship were awarded during the summer vacation, according to an announcement by President Walter E. Clark and J. A. Carpenter, chairman of the university committee on scholarships and prizes.

The regents' scholarships were awarded to those students having the highest rank in scholarship in their class in at least thirty hours of work for the year, and who had not previously been awarded a scholarship at commencement.

Chris Wogan of Reno and Ida De Nevi of Dayton, both arts and science students, won the junior class awards. Alternates were Ira La Rivers of Reno and Jean Cameron of Carson City.

Russell MacDonald of Reno and Alice Sauer of Carson City were awarded the sophomore scholarships. Both are arts and science students. Melya Lauritzen of Fernely and Dorrence Jameson of Fallon were named alternates.

Leading the freshman class with a 1.14 average in 35 hours, Herbert Jacobs won his class scholarship. George Sears of Reno was the alternate.

Awarded to the woman student who attains the highest average grade for the year in at least thirty hours, and who receives no other scholarship, the A. W. S. award went to Elizabeth D'Allessandro of Dayton. Jean Cameron of Carson City was named alternate.

Frances Graf '36 will teach commercial subjects, history, art and music at Wadsworth this year.

Dean of Women Makes Two Trips

Two trips covering most of the eastern and southern part of the United States were made by Dean Margaret E. Mack this summer.

Accompanied by Miss Katharine Riegelhuth, Miss Sarah Lewis, Miss Echo Loder and Miss Claire Beemis, Dean Mack drove to Boulder Dam. From there the party went to Zion National park, the north rim of the Colorado, Bryce canyon and Lehmann caves.

Later in the summer, Dean Mack drove to Los Angeles where she left her car. She met Miss Riegelhuth in Ogden. After spending a week in Chicago, they went to Tennessee and New York, where they spent a week. Coming home by way of the Panama Canal, they stopped off in Havana and Panama.

Dean Mack returned to her duties at the University shortly before school started and is now installed in her new office at 111 Agriculture building.

Alice Parman '36 will teach in the elementary school at Beatty, Nev., this year.

New File Cabinet For Brush Office

Included in the list of improvements made on the A. S. U. N. building during the summer is a new filing cabinet for storing copies of the Sagebrush during the year, Walter L. States, business manager, announced today.

Spaces have been arranged for filing from 15 to 20 copies of the paper a week and shelves built for filing national advertising cuts, States said. Papers will be filed from the first issue of August 28 until the last on May 14.

A.S.U.N. Building Is Reconditioned At Cost of \$850

Creps Plans Further Work Pending Finance Control Action on Project

Although approximately \$850 has been spent in renovating the Student Union building, an additional \$300 will be needed to complete remodeling, Robert Creps, graduate manager, said today.

Among the improvements are the new graduate manager's office and senate room. Previously, the graduate manager shared an office with the student body president, and the senate met in the lobby. The new offices are built of fireproof composition.

Three new windows which were cut in the north wall and two new existences in the rear and one in the north wall—complete the remodeling to date.

All upholstery and drapery were cleaned and new pieces of furniture purchased. Newly calomined walls in white make the building appear brighter.

WEDDING BELLS

More than sixty-four former University of Nevada students were married during the summer, reports Dan Cupid, after finishing a busy three months during which bridal showers were in the air and wedding bells rang almost constantly.

The first marriage after the official closing of school was solemnized on Commencement day when Ellen Ernst became the bride of Antoine "Tony" Primeaux at the Pi Beta Phi sorority house in the presence of a few close friends of the bride and groom.

One of the early summer weddings took place three days after graduation when Charlotte Robison became the bride of Edwin Bath. During May, Kathryn "Kay" Norrid, former assistant editor of the Sagebrush, was married to Bernard Mergen. Rita Gunter, also an assistant editor of the Sagebrush, became the bride of Rector Furman.

At a lovely home wedding, Ina Johnson became the bride of Royal Crowell of Carson. They were married at the home of the bride's parents, St. Thomas Aquinas cathedral was the scene of the large church wedding of Mildred Murdoch and Edwin Martinez.

June, the month dear to the hearts of all brides, saw many weddings. Margaret Kormmayer became the wife of Robert Millard at a smart church wedding in Reno. Alfred Teis and Meiba Wible were married at the home of Professor and Mrs. Theodore Post. Arthur Lucas, principal of the Wadsworth high school, and Frances Jones were married at St. Thomas Aquinas cathedral. Helen Per Lee and Edward Montgomery, both graduates with the class of 1935, were married at the home of the bride's parents in Reno. Allan Young, son of Professor J. R. Young, wed Miss Geraldine Brown at the

Frosh Engineers Prefer Mining For Vacations

The freshman enrollment of 20 students this semester in the University of Nevada school of mining engineering shows an approximate increase of 40 per cent over last year.

To date the total enrollment in the first year engineering class is 52, divided as follows: Mining 20, mechanicals 13, civils 11 and electricals 8.

The EEs had been the leaders until the last four years, according to Professor Jay Carpenter. The trend is in accordance with the gradual increase of mining in the state and the placing of all graduates in positions on completion of their university course, he believes.

Young home.

Ruth Foster and George McCullough chose St. Peter's Episcopal church in San Francisco for the scene of their wedding. Jean Rowe and Ernest G. Nelson were married at the home of Miss Rowe's parents in Reno. Mary Murphy and Junius Dixon were married at the home of the Rev. Brewster Adams, with a few intimate friends attending the wedding. Josephine Arlang and William Fisher were married at the Sacred Heart church in Ely.

Wilbur Brinkerhoff, formerly of Sparks, and LaVerne Stuart were married in Eiko. Richard Sauer and Lucille Hook, both of Reno, chose Eiko as the place of their marriage. Teddie Webb and Lionel Grundell were married at a quiet wedding at the home of Rev. Brewster Adams. At a large wedding at St. Luke's Lutheran church Anna Nelson became the bride of Ralph Smith Jr.

August proved another matrimonial month when five college students were married. Guilda Gray and Irma Niles were married August 2 at the home of the groom's parents. Jeanne Stoddard and William Gelder were married in Washington, D. C., where Gelder is employed. Neil W. Lamb, a member of the class of 1930, was married on August 1 to Florence D. Mason of South Bend, Ind. Virginia Cole and William Pedrollo chose August 23 as the day for their marriage. Melya Fowler and Merlyn Anderson were married on August 24.

During the four months of college vacation wedding bells rang for more than 37 couples, the majority of whom attended the university. Miss Margaret Gorman, class of '36, and Richard Heap were married in Reno. The bride is employed as a dietitian at the Washoe County hospital.

Roy Salsbury, former athletic star at the University of Nevada, and Miss Coby Van Beek, the home economics teacher in Tonopah, were married shortly after the close of the Tonopah schools in June. Virginia Wheeler and Harold Curran, both prominent students at the university when they were students, were married at the Baptist church on June 28.

Surprising many of their relatives and friends, Frances Fuller and Kerwin Foley were quietly married in Minden by Judge Taber.

Margaret Fuller, former gold medal student, became the bride of Edward Muth at a lovely home wedding which took place at the Kappa Alpha Theta house. Irene Taylor of Buffalo became

Miss Eva Adams Returns as Aide

Acting as assistant to Dean Margaret E. Mack and as a fellow in the English department, Miss Eva Adams returned to the campus this week. Miss Adams is a graduate of Nevada with the class of 1928, and has since been teaching English in Las Vegas high school. While in college she was a member of Phi Kappa Phi and woman's editor of the Sagebrush during her senior year.

She replaces Anita Becans in Dean Mack's office.

Engineering Grad Secures Patent

Andrew J. Aikens, graduate with the class of 1930 as an electrical engineer, recently secured a patent on an electrical device which may be of value to carrier systems, according to reports received here.

His device reduces the distributing voltage of electric circuits and eliminates disturbing voltage arising in communication circuits, according to the patent.

Aikens is connected with the Pacific Telephone and Telegraph company in New York City. After graduating from the university, which he left to enter the World war, he did advance work at Schenectady, and was also employed by the same company at Sacramento and San Francisco. He was later transferred to the company headquarters at New York, where he is now employed.

the bride of Eugene Salet on June 13 in Buffalo, N. Y., at a large church wedding.

Dorothy Scarlett, former student, selected San Francisco, home of the groom, for her wedding. She married Herbert J. Grellman at a church wedding in the bay city. St. Thomas Aquinas rectory was the scene of the marriage of Marthine Solares, former A. W. S. president, and Howard Galloway. Miss Ermyne Goodin and James Savage, both of Reno, were married at the Alpha Tau Omega fraternity house in the presence of members of the immediate family of the bride and groom.

During July, ten former students took the nuptial vows in the presence of relatives and friends. At a large church wedding Marvel Ranson became the bride of Marshall Gusti. Marguerite Miller and Daniel Harvey chose the parish house of the St. Thomas Aquinas cathedral for their marriage. The Episcopal University chapel was the scene of the marriage of June Shair and Keith Gregory.

Lowell Horschman and Alice Traynor were quietly married in Reno before going to Salt Lake for a two weeks' stay.

U. N. Summers

Winnie Hiltonen spent the summer working in the office of the county recorder of Esmeralda county.

Ty Cobb worked as a member of a railroad crew wrecking the famous old Crown Point bridge in Gold Hill, Nev.

Kenny Richard, president of Sigma Nu fraternity, accompanied the party of student mining engineers under the direction of Professor Wheeler in a trip through eastern Nevada and Utah.

Clyton Phillips, Stanley Smith, Oly Glusovich, Maurice Sheppard, Gaylen De Longchamps and Neil Campbell were employed by the forestry service in western Nevada and eastern California.

Elizabeth Juniper, senior student, spent several months on an extended tour in the east. While away she visited Yellowstone, Ohio and West Virginia.

Malcolm Jones was employed in the Reno brickyards during the summer.

Leslie Gray was engaged in agriculture work during the summer.

Donald Leighton was engaged in the warfare against crickets in eastern Nevada.

Ethel Kent, senior member of Gamma Phi Beta, attended the inter-state session of the U. of California at Berkeley and later the Gamma Phi national convention in Victoria, B. C.

Margaret Piercy, senior student, vacationed in Long Beach, Calif., for several weeks.

Barbara Ferron, affiliated with Delta Delta Delta, took an extended tour through the mid-western states.

John Burgess was employed in the mining industry in Melones, Calif.

Richard Laub spent the summer in Goldfield working for his father.

James Hart, junior student, was employed in mining at the Mary mine in Silver Peak, Nev.

Louis Carpenter worked for Shenandoah-Dives Mining company in Silverton, Colo.

Stanford McNair was employed by the Eastern Exploration company in Goldfield, Nev.

Clarethel Masterson visited relatives in Berkeley, Calif.

Nelda Oppedyk was employed by the J. C. Penney company of Las Vegas.

Nina Boczkiewicz worked for the Carson Indian school during the summer.

Mary Millard spent several weeks vis-

Former Student Awarded Degree

After completing nine months' work at the University of California, Denton Turner, graduate of the class of 1933 from the University of Nevada, received his master's degree in petroleum engineering recently.

While studying at U. C. Denton was elected to Sigma Psi, honor fraternity, to which only those who have done original work on their own initiative are bid.

He is now at Bakersfield working on specifications for a machine to be used in oil well drilling. A member of Beta Kappa fraternity, Denton is a graduate of the Mackay school of mines.

iting in Los Angeles.

Mary Casey spent most of the summer in San Francisco and will reenter the University of Nevada after attending Dominican college in San Rafael last year.

Erma Kitchen, junior student, spent the summer in Goldfield, Nev.

Genevieve Hansen, editor of the Ardenia, vacationed in Halley, Ida.

Elaine Cline of Winnemucca has resumed her studies on the campus.

Beth Fredrickson, who withdrew for the second semester of last year, has again resumed her studies.

Mary and Nina Boczkiewicz, who have been employed at the Carson Indian school for the past summer, have both resumed their studies this fall.

Lotie Boulden, who was employed as a social worker for the Indian service for the past summer, has returned to finish her studies this year.

Josephine Little returned to the campus to resume her studies.

Marilyn Rhoades returned to the cam-

pus after an enjoyable vacation at her home in Las Vegas.

Avenell Manzone has returned to the campus for the fall semester.

Marian Uhart, president of the Manzanita Hall association, has resumed her studies for the fall semester.

Max Jensen is working for the United States coast and geodetic survey headquarters in the mountainous regions out of Spokane. He is expected to return to school sometime next week.

Emily Ross and Loretta Miller spent the summer touring in the Pacific northwest. On their trip they drove through Yellowstone National park, the Rocky Mountain National park, Grand Teton National park and into Canada to Lake Louise and Manf. Miss Ross is an instructor in the mathematics department and Miss Miller is assistant professor in the biology department.

Sailing June 19, Florence Kirkley and Betty Howell, graduates of the university, spent a month in Hawaii. They were accompanied by Miss Kirkley's sister, Roberta. Since returning Miss Kirkley has been employed by the Reno.

publican campaign committee.

Ellen MacFarland, former student at the university, and a member of Delta Delta Delta sorority, was seriously ill during the summer from complications resulting from an appendix operation.

Joseph T. McDonnell, former student and graduate manager of the University of Nevada, has been appointed assistant director of the youth program in Nevada.

OUR SAGEBRUSH

Tradition has it that every year the first issue of the Sagebrush shall carry in the editorial column an outline of the course it proposes to follow during the school year. This year, we hope, there will be no need to depart radically from the good standards of journalism set by previous editors in recent years.

The Brush will give credit wherever and whenever it is deserved, but it will not be backward in dealing with conditions which it considers to be against the best interests of the students and their university. It anticipates no violent campaigns, and it will not act as a detriment to the welfare of the majority.

So far as it is able to do so, the Brush will be constantly vigilant to remove "coloring" from its news columns, and will endeavor to confine editorial opinions and personalities to the editorial pages, where they belong.

It is only natural that readers will differ from the editorial policy of this paper, and it is their right to express themselves at any and all times. Therefore, the Sagebrush will welcome letters to the editor, and will print them, so long as the identity of the writers is known to the editor. No anonymous letters will be accepted for publication, but signatures will be kept in strictest confidence upon request.

The Sagebrush will take a definite stand upon all worthy issues that may appear from time to time; attempting always to uphold the best interests of this institution. It will never hold bull-headedly, however, to obsolete opinions whenever a complete review of available facts prove the editor to be in the wrong. This is not to be interpreted as a spineless apology for an inadequate editorial policy. The Brush will maintain its point of view so long as there is reason to believe that point of view is right.

NEVADA'S HERITAGE

Although registration in Nevada this fall has already exceeded that of former years, the university is still a small, compact school. Opportunities are open here which are found in no large institution—students and faculty meet on common ground. The instructor knows his classes personally, and has a chance to study and take an active interest in his students.

Students who go to Nevada are fortunate in having a tradition which is the envy of larger schools. Everybody here says "Hello." The new student may be a bit bewildered by the myriad of new faces with which he is confronted. There are not so many, however, and in a few days college will assume normal proportions as strangers become friends.

Should Nevada be destined to grow in point of number of students, it may still remain a small school in point of campus sociability. Let's get together and be friends.

A NEW SETUP

With the new coaching staff for football already in action, and with the administration taking in hand all major athletics, according to agreement with the student body, prospects are indeed bright for Nevada's athletic future. All that seems necessary now is the wholehearted cooperation of the students in backing Nevada's gladiators on the field.

We are reasonably sure that coaching difficulties have been straightened out, and that the athletic department of the university will function as a body. Gone is the uncertainty of authority which continually threw the coaching staff into turmoil in the past. In its place has been built an orthodox department, with a single head—J. E. "Doc" Martie—who must answer to the president of the success or failure of his seasons.

Nevada has obtained the services of Doug Dashiell as head football coach, and Jim Coleman as assistant. Both of these men have excellent records as coaches, both know their jobs, and in the short time that they have been in Reno, have gained for themselves a popularity with students and townfolk that should guarantee them cooperation and support.

The new schedule of football games at least offers Nevada a fair chance to show what Nevada's men can do. We are not, this year, outmatched, and we need not suffer overwhelming defeat at the sound of the opening gun.

Though the university may face opponents a little uncertainly, morale is high, and if student support is evident, the Sagebrush is willing to predict a successful athletic season.

A GOOD START

The remarkable improvement in the appearance of the A. S. U. N. building, which took place during the summer, constitutes an excellent start towards making this place a mecca for students. The work was done in answer to an urgent need for a gathering place, and although the building is far from finished as yet, money which the finance control committee authorized to be spent on this building has been used to advantage.

By the time next summer rolls around, perhaps there will be again enough money to go ahead on further improvements, such as the cutting of more windows and the renewal of office furniture. At any rate, the wheels are turning and we are under way.

Leland Fife to Enter Eastern Med Center

Leland Fife '36 will leave Wednesday for New Orleans, La., to begin four years of advanced medical work in the Louisiana State Medical Center.

A graduate of Eugene, Ore., high school, Fife has lived in Sparks for the last several years and is a member of Sigma Nu. The four years' work will consist of three years' study and one year interne duty.

Young Demo Club To Hold Revival

In an attempt to revive campus enthusiasm in the organization, the Young Democrats club will hold a rally September 1, George Southworth Jr., former Nevada student who is in charge of the affair, said today.

The rally will be held in the Odd Fellows hall, according to present plans. Refreshments will be served following the meeting.

The Pedagogue

The wheels have started to turn again and once more there is activity on the campus. The walks, steps and buildings that have been deserted for the past three months have taken on a new lease of life and things have begun to hum. The buildings have had their annual cleaning, the door hinges have been greased, steps repaired and everything put in order to welcome the students to the university. The spacious green lawns, the colorful beds of flowers and the improved appearance of the campus seem to have "made a hit" for everyone appears to be glad to be back at "the grind" again.

Along with the large student attendance at the get-together on Tuesday night, it was a rare pleasure to have members of the faculty present. There has always been a decided lack, heretofore, of faculty members present at college dances. Now that a start has been made, and you professors know that you are welcome, why not make it a habit. We're all hoping that the friendly spirit that existed at the dance this week will be the keynote of this college year.

The depression is over, and once again the campus is crowded with cars. New cars, old cars, big cars and little cars are to be seen everywhere. But with all of these additional automobiles comes the additional problem of finding a place to park the "family bus." By 8:30 the available parking space on Ninth street and University avenue is taken and late comers may as well leave the car at home. Since time immemorial the main campus has been chained off to keep students from parking on the university grounds. But the lower portion of the campus is open; there are only a few buildings where classes are being held in this vicinity, and two blocks of precious parking space is going to waste. Isn't there something we can do about it?

Nevada traditions are not all extinct. At least, this first week of college has proved that all good Nevadans haven't forgotten how to say "Hello" when on the campus. With nearly 400 freshmen registered already, it is going to keep the upperclass men busy saying "Howdy" if we propose to keep this tradition alive.

The doors of the library are turning once more. Again, the librarians will be busy fetching books and magazines for student use. The files are very complete, the librarians very courteous and new students should have no trouble finding all the material they need. In the past, some destructive, unintelligent students have seen fit to tear and mutilate the library property to the disadvantage and extreme displeasure of faculty, library officials and other students. We are all hoping that this year we can be a little more the college student and a little less the thoughtless juvenile.

Although Nevada will not be engaged in a football combat until October 2, the interest in this sport is running high this early in the season. It's this spirit that will stand behind those men on the gridiron and help produce a winning team. With the student body, the downtown merchants, the athletes and the coaches cooperating, we should have a big year. Good luck and lots of success, Coach Dashiell.

WILLIAM MOLL CASE

Pastor
Students Especially Welcome

Dedicated to the freshmen, this the first issue of the campus bulletin is respectfully submitted. This year all our efforts will be towards crusading for "clean dirt." Any effort on the part of the students to keep their private lives above reproach will be appreciated.

Well, well, little Orvie Tregellas starts out right by indulging in his favorite pastime. Some day, Trig, you are going to get spanked when your pugilistic tendencies overcome your better nature. By the way, who was the frosh?

What's this we hear about Gerald Robert's new phonograph record, "Don't mention love to me." Ain't you doin' right by our little Nell, Gerry?

Welcome back to our fair campus, Johnny Brackett. The maizies are a-waitin' patiently for your well remembered rush tactics.

Because we don't wish to disillusion the new students we will not go into the gory details of the number of blighted romances of famous campus couples. However, here are a few of the most notable "pin returns": Orphan Morgan to Jay Waite, Eunice Beckley to Harold Foremaster and Virginia Posvar to Russel Macdonald.

The newest campus romance began at Lake Tahoe this summer and now we see Eleanor Barry wearing Murray Moler's pin around and advising all her pals to "go steady."

Here is one of the saddest stories ever told. For years Frankie Burke and Clayton Phillips were that way

Frosh Possess Good Footwork For Army Life

"What a standing army," sighed the captain. "More than a dozen men wear size 11 shoes. Size 10 is the average. The top man of all proudly sports a 12 1/2 and the baby of the group can wear a size 6."

With 123 freshmen already signed up for military training, Captain H. W. Isbell of the university R. O. T. C. at last feels that he has an organization that can stand on its own feet.

"This year's freshman class is not only the largest from the standpoint of numbers in the history of the university but the men are also

the largest group physically that we have had to outfit," Captain Isbell said yesterday.

At a week's struggle with shoe stretchers and shoe horns, the captain and his staff proudly displayed a sheet of paper showing the above figures.

Forty Footballers Report to Field For First Tryout

McDow and Walker, Former Varsity Stars, Return for 1936 Season

Dashiell and Coleman Scheduled To Take Mackay Field on September 10

Hoping to be in the peak of condition when Head Coach Doug Dashiell and his assistant, James Coleman, take the field on September 10, forty-odd candidates reported yesterday for the first conditioning session of the season.

Letter men and new candidates alike reported to Frank Showalter, who was placed in charge of the men until the new trainer takes the field on September 1.

Twelve letter men were on the field, while five others have signified their intention of playing this year.

The ranks of the Wolf Pack have been greatly augmented by the return of Doug McDow, red-headed speedster, and Paul Walker, star tackle, who was removed from the list of active players by an injury sustained in the St. Mary's game in 1934.

However, several players have been on the sidelines by scholarship and injuries.

Kenny Powell, sparkplug half, will be lost this year because of a recent appendicitis operation. Ray Rodriguez, swivel hipped half from last year, is also among the missing, while Russell Byington and Richard Sauer will not report this year.

After spending Wednesday getting equipment and taking physical examinations, the squad spent Thursday engaged in calisthenics and exercises designed to familiarize them with the pigskin after a four months' layoff.

Among the difficult duties which Dashiell will have when he takes the field will be to juggle the players around into the vacated positions.

More than twenty promising sophomore and junior college men will crowd the veterans for the positions on the number one team. In the first turnout there were as many backfield men on Mackay field as linemen, promising a bitter contest for key positions.

Ceander Enters National Matches

Ellis Ceander, who graduated with the class of 1936, left last week for Camp Perry, Ohio, to compete in the national rifle meet being held there.

Ceander is representing the Nevada National Guard.

Competing in these matches are teams from the regular army, the R.O.T.C., the National Guard and other branches of organized military units.

Military Grad On Duty at S. F.

Lieut. R. N. Anderson, graduate from the University of Nevada with the class of 1934 and more recently army recruiting officer for Nevada, has joined the 30th infantry, Presidio in San Francisco.

While attending school Anderson took an active part in military affairs, being a member of Scabbard and Blade and adjutant in the R. O. T. C. battalion. Following his graduation he attended the army flying school in Texas.

Frat Bean Feed Probably Sept. 14

Trophy Awarding Affair Will Be in Fall for First Time, Council Decides

For the first time the annual interfraternity council bean feed will be held during the fall semester, council members decided yesterday as they tentatively set the date for September 14.

Final approval of the date on which members of all the houses will gather in the university dining hall and eat their fill of beans will depend upon the officials in charge of the hall.

Jimmy Hart, A. T. O., was appointed chairman of the event and will be assisted by Melvin Redhead, E. K., and Louis Welner, Lincoln Hall.

Originally planned for the spring semester, the bean feed was postponed until this fall because of conflicting dates in the spring. The feature of the feed will be the re-presentation of the Kinnear trophy for intramural athletic supremacy to Alpha Tau Omega, winners of the year-long contest in 1935-1936. Other minor sports trophies will also be presented.

A few short talks will be made during the evening, with President Kenyon Richard of the council selecting the speakers.

The date of the bean feed was set on a Monday night, the usual night of fraternity meetings, to enable house members to attend the banquet, starting probably at 6:30, then go to the fraternity meeting and if necessary back to work or studies early.

Other business at the short council meeting yesterday included approval of the new pledge cards printed during the summer and the reading of an article on fraternity financing by Dean of Men R. C. Thompson, faculty adviser.

Members of the council present were: Kenyon Richard, Sigma Nu; James Hart, Alpha Tau Omega; John Robinson, Sigma Alpha Epsilon; Melvin Redhead, Beta Kappa; Murray Moier, Lambda Chi Alpha; Richard Laub, Lincoln Hall; Clyde Keegle, Sigma Phi Sigma; and Jack McCrear, Phi Sigma Kappa.

Prunty Elected Athletic Coach In Prep School

Thomas Prunty, member of last year's graduating class, has been elected athletic coach and instructor in typing and Spanish in the Lander county high school in Battle Mountain, it was learned here during the summer.

Prunty was a staff member of the Artemisia last year and was active in advanced military classes. He is affiliated with Lambda Chi Alpha social fraternity.

Powell Is Released By Reno Hospital After Operation

Kenneth Powell, star halfback of the Wolf Pack, was among the students returning to "the hill" for the fall semester.

Powell was only recently dismissed from a local hospital where he underwent an operation for the removal of his appendix, marking the second time in the past year that he has been confined to bed. As a member of last year's tumbling squad he received painful neck injuries in practice and was forced to miss several weeks of school.

It is doubtful whether he will represent Nevada on the gridiron in the encounters scheduled for this season. Powell is affiliated with Lambda Chi Alpha fraternity and is a junior student registered from Las Vegas.

Francois Sullivan Fatally Injured

Francois "Sully" Sullivan, graduate of the University of Nevada in 1931 and member of the varsity football team for several years, was killed in an automobile accident near Pyramid lake August 18.

Besides being a graduate of the university, "Sully" was a friend of many of the students because of his connection with the Little Waldorf club, popular student meeting place. He also gained prominence after his graduation as a basketball referee, having been all over the state interscholastic courts in this capacity.

He was a member of Phi Sigma Kappa fraternity.

Also fatally injured in the accident was Mrs. Berta Koster, wife of Dr. J. A. Koster of the campus station of the United States bureau of mines.

Severely injured in the crash, which occurred about three miles from the lake as the six were on their way to a picnic, celebrating Sullivan's twenty-ninth birthday, were his widow, two children, and a four year old Koster girl.

The funeral was held last Saturday and was largely attended by many of his fraternity brothers and other friends from on and off the campus.

Joe E. Peters, former University of Nevada student, graduated from East Central State Teachers college at Ada, Okla., this summer.

U. N. Students Play in Reno's Softball League

Reno's first official softball season witnessed the appearance of many University of Nevada students on the field. Both men and women students and in many instances former grads were among those active in the sport.

Playing for the Young Democrats and Chisms were Gladys Blair, Ruth Goldsworthy, Patricia Turner, Kennedy Walker, Peggy Williams, Betty Wilt (Scruggs), Florence Koocher, Beatrice Landson, Lila Stoddard, Marie Varnum.

Among the men students taking part in the softball conference were Randy Booth, Clayton Phillips, Bill Cashill, Allen Lansdon, Bud Beasley, John Agrusa, Ed Olsen, Gordon Thompson, Bob Cameron.

Frosh to Elect Manager Sept. 2

The first meeting of the freshman class will be held next Wednesday, September 2, at 4 o'clock in the Education auditorium to elect a class manager, Bill Cashill, A. S. U. N. president, announced yesterday.

All members of the class are requested to be present so that the government of the student body may be explained by Cashill.

Junior C. of C. Starts Job Drive For U. N. Athletes

Local Business Men and NYA Will Be Asked to Aid in Finding Jobs

Setting its goal at thirty jobs in three weeks for the needy athletes of the University of Nevada, the Reno Junior Chamber of Commerce this week launched its "job drive" campaign among the local business houses in response to the request for aid by Robert Creps, university graduate manager.

The junior chamber, according to Creps, is planning to make the "job drive" an annual project. The plan, Creps said, was to have the Junior Chamber of Commerce, assisted by the National Youth Administration, secure the jobs which will be given to the university men from an application list kept by the graduate manager.

S. F. Hunt Fund Sends Students On Summer Trips

Eleven Miners and Professors Travel More Than 3000 Miles During Vacation

Trips Now Made Part of Regular University Schedule Open to Upperclass Men

Eleven faculty members and students of the Mackay school of mines traveled a total of more than three thousand miles during the past three months under the auspices of the S. F. Hunt foundation.

A party of eight, under the direction of Dr. Harry Wheeler, spent a month at Pioche, Nev., working on geologic and structural problems there. Following this the group visited Boulder dam, Zion National park, Cedar Breaks National monument, Bryce canyon, Grand Canyon and Salt Lake City. During their stay at Salt Lake City, inspection trips to the Utah Copper company operations at Bingham canyon, the reduction plant at Garfield, the International Smelting and Refining company plant at Toulou and Park City were made.

The next six weeks of the summer were spent prospecting near North Fork, in Elko county, working from a base camp established at Gold Creek ranger station. This work was under the direction of Prof. Jay A. Carpenter, who relieved Dr. Wheeler early in July.

The last week of the trip was spent with the members of the party visiting Gerlach, Jungo, Mountain City and various other mining camps. Director John Fulton was in charge of this part of the trip.

Those taking part were J. D. Stephens, John Stock, Jerry Dellanoy, Earl Stevenson, Eldridge Nash, Ralph Birchard, Kenyon Richard, Betty Bowman, Hjalmar Burrus, Dr. Harry Wheeler and Prof. Jay A. Carpenter.

The S. F. Hunt Geologic foundation was established a year ago when Samuel F. Hunt presented the university with stock in the Rio Tinto mine and Tybo Lead company, cash to cover the expenses of field trips during the year and during the summer vacations, a station wagon and a Ford coupe to provide transportation on field trips.

The summer field trip inaugurated this year is now listed in the university bulletin as part of the curriculum, and is open to junior and senior students and recent graduates of the Mackay school of mines. All expenses of students participating in this work are defrayed by the fund provided by Hunt.

Senior Engineer Killed at Work In Nevada Mill

George Anderson Fatally Injured After Two Weeks Employment in Midas Mine

The University of Nevada lost one of its most promising students this summer when George Anderson Jr. 37

was fatally injured while working in the Mill Circle gold and silver mine at Midas, Nev.

The son of Mr. and Mrs. George Anderson Sr. of Reno, Anderson was particularly prominent in student affairs during the three years he attended university.

An electrical engineer, he was nominated for Associated Engineers president last year. He was a member of Sigma Phi Sigma.

Anderson was a graduate of Reno high school.

Was Glee Prexy
He was president of the men's glee club last year, an organization to which he belonged for three years.

One of the sponsors of the project, Anderson was a member of the committee arranging the revival of Engineers' day last spring.

He was the cooperator with Julius Broili of the electrical engineers' public address system that had been used on many occasions for campus functions.

His father is the owner of one of the oldest printing shops in Reno.

Anderson had been working at the Midas mill for about two weeks when he was fatally injured. He was working on the night mill shift and had set a large three-foot wrench on a flywheel to tighten some of the machinery. The motor operating the flywheel was started and Anderson, not realizing the wrench was still on the wheel, accidentally walked into the path of the whirling steel.

He was not instantly killed, but died on the way to the hospital in Winnemucca.

His sister, Norma, is a junior journalism student at the university.

FIRE EQUIPMENT CALLED TO SIGMA NU HOUSE

There was a fire in the Sigma Nu house this summer.

Fire engines, with bells clanging and sirens creaking, raced up University avenue and pulled up to a stop in front of the Buckingham palace.

The fire ladders rushed in the house in search of the flames.

They found them—in the stove. The alarm had been turned in by a neighbor who saw billows of smoke issuing from the windows and doors of the fraternity house.

U. N. Vice-Prexy To Resume Duties

Dr. Maxwell Adams, vice president of the University of Nevada, and dean of the college of arts and science, has returned from a six months' leave of absence spent in Honolulu.

Dean and Mrs. Adams left Reno on January 17 and returned on July 1, for the dean's first leave of absence since 1914 when he traveled with his family in Europe.

During his absence this year, Dr. George Wallace Sears, head of the chemistry department, acted as dean, while Dean Robert Stewart, Dr. James Reed Young and Prof. Jay Carpenter took over other posts left vacant during Adams' leave.

Fred Hartman will leave soon for the University of Pennsylvania where he will continue his work in medicine. He was a member of the 1936 graduating class and is a member of Sigma Nu. He was president of Omega Mu Iota, pre-medical society, during his senior year.

Anderson was a graduate of Reno high school.

Was Glee Prexy
He was president of the men's glee club last year, an organization to which he belonged for three years.

One of the sponsors of the project, Anderson was a member of the committee arranging the revival of Engineers' day last spring.

He was the cooperator with Julius Broili of the electrical engineers' public address system that had been used on many occasions for campus functions.

His father is the owner of one of the oldest printing shops in Reno.

Anderson had been working at the Midas mill for about two weeks when he was fatally injured. He was working on the night mill shift and had set a large three-foot wrench on a flywheel to tighten some of the machinery. The motor operating the flywheel was started and Anderson, not realizing the wrench was still on the wheel, accidentally walked into the path of the whirling steel.

He was not instantly killed, but died on the way to the hospital in Winnemucca.

His sister, Norma, is a junior journalism student at the university.

Scholarship Race Trophies Are Won By Theta, L. C. A.

Women Down Men 2.258 to 2.5395 In Grade Tally for Student Body

Allen, Jensen Are Two-Three On Honor Roll Totaling Forty-five Names

Kappa Alpha Theta headed the sorority honor roll with an average grade of 2.1174 during the spring semester ending May 9. Miss Louise M. Sissa, registrar, reported during the summer, and Lambda Chi Alpha topped the fraternity list with an average of 2.2113.

Florence Gulling, class of '36, took individual honors with a perfect grade of 1.00 in 16 hours of regular academic work. Charles Allen with a grade of 1.05 and Margaret Jensen with a 1.12 average followed Miss Gulling.

The student body average for the semester was 2.4228, with the women having a better average than the men. Women students averaged 2.2581, while the men turned in a 2.5395 grade.

The complete honor roll is as follows:

Name	Avg.	No. Hrs.
Florence Gulling	1.00	16
Charles Allen	1.05	19

Margaret Jensen	1.12	18 1/2	Norma Anderson	1.50	16
Russel McDonald	1.15	20 1/2	Charles S. Nichols Jr.	1.50	16

Dean Thompson Attends Conclave

Dean Reuben C. Thompson, accompanied by Mrs. Thompson, spent part of the summer visiting in New York City with his daughter, Miss Doris Thompson, who is a dietitian in a hospital there.

While in the east, Dean Thompson represented Nevada at a national gathering of Kivans clubs in Washington, D. C. After a leisurely trip across the country Mr. and Mrs. Thompson returned to Reno about July 1.
