

Large Enrollment; Record Freshman Class Responsible

New All-Year Record Is Predicted By Dr. Walter Clark

An all-time record freshman class of 511, with the final registration date still nine days ahead, is responsible for the increase in the total enrollment of the university, President Walter Clark stated last night.

At the same time last year 448 freshmen had turned in their "railroad tickets."

Closing time last night found 1012 out of 1059 cards completed, with men outnumbering co-eds 619 to 393.

This year's freshman class has set an all-time record in the history of the university, exceeding that of 1936-37 freshman enrollment figure by nearly 65.

The sophomore class of 226, junior with 118 registered, and the senior with 73, have maintained practically the same level as that of the last tenorment of the same period when 211 sophomores, 141 juniors, 67 seniors were recorded.

Graduates last year outnumbered this year's enrollment of 27 by seven students, unclassified figures, with 43 enrolled, show an increase of 30 students over last year, while special students number 14.

TEACHERS ENROLL

Registration will close September 13 with an exception granted for teachers who can enroll up to the 18th of this month without fees.

Previous years have shown as many as 40 teachers enrolling after the date set for student registration.

The total yearly average for both fall and spring semesters is expected to go well above the 1150 mark, President Clark said.

During the 1930-31 school year, figures showed an average yearly enrollment of 1105, the record average to date.

The small number of seniors, said President Clark, is accounted for by the fact that a large number are classed as lower classmen due to credit technicalities.

Number of actual freshmen is estimated at approximately 450 by Dr. Clark.

University Chapel Has New Chaplain

The Reverend Henry B. Thomas will officiate as chaplain of St. Stephen's university chapel, succeeding the Reverend Austin J. T. Ecker, it was announced.

The Reverend Ecker received a scholarship from the University of Cincinnati in the department of theology last spring.

A westerner, having lived most of his life in Berkeley, California, Father Thomas moved to Baltimore, and later became chaplain at Princeton University. He brings with him a family of three, a son and daughter, who will attend the local schools.

The Reverend Thomas announced that services for members of the university would be held each Sunday at 7:15 a. m. and a song service at 10:30. Members of the university are cordially welcome to St. Stephen's House Sunday afternoons and evenings, he said.

Rock, Mineral Club Shows Pictures At Meet

Three sets of pictures were shown on Tuesday by the Nevada Rock and Mineral club, of which Miss Echo Loder is president.

A sound picture was shown illustrating the internal combustion engine at 1:15, and at 7:30 pictures of petroleum geology and the extinct volcanoes in northern Death Valley were shown.

Changes which have taken place in the earth's physiography in North America, since the earliest fossil-bearing sediments, which occurred more than 500 million years ago, were shown by diagrammatic cross-sections, were shown in the picture on petroleum geology.

The picture on Death Valley was in the form of a travelogue, in full color, showing the weird natural wonder of Death Valley and was of special interest to residents in this section of the country. The formative stages of the area, the building up of block mountain structures, was shown by color animation and models through the courtesy of the Union Oil Company.

The Rocks and Minerals club meets on the first and third Wednesdays of each month and numerous professors, townspeople, and students attend.

Artemisia Heads Begin Activities

Activities of the Artemisia, University of Nevada yearbook are well under way, Sam Wilson, editor, and Ted Olds, business manager, announced today.

Tryouts for both the editorial and business staffs will probably be held sometime next week, as well as tryouts for the stenographical staff. The number of staff members will be about the same as the number last year.

Budget for 1937 was submitted to the Finance Control committee today, and bids for the photography, engraving, printing, and binding are to be submitted this week.

The book will generally be patterned after last year's book. There will be a little more personal accent on what the University of Nevada means to the State, and what it does for the students who come here to college.

A great deal of work is being done in an effort to turn the book out on time this year, both heads said.

Eric Young, son of Prof. J. R. Young and a former student of the University, is visiting his parents, Young is at present enrolled at Annapolis. While on the Nevada campus, he was affiliated with the Sigma Nu fraternity.

Taus Still Tops In Pledge Derby

Beta Kappa Follows Close Second With 27 Men

Pledge list of 28 men turned in by Alpha Tau Omega at the end of the first week of rushing is still "tops" in the fraternity pledge derby.

Close on the Taus' heels, however, is Beta Kappa, which added seven names to its pledge roll during the last week to bring its total to 27.

Still in third spot, with 22 pins out, is Sigma Alpha Epsilon, whose 29 topped the standings last year. At that time, the Taus were runners-up with 19, followed by Sigma Phi Sigma with 18 and Phi Sigma Kappa with 17.

Deadlocked for fourth are Lambda Chi Alpha and Sigma Nu with 15 each, with the Phi Sigs' 14 and the Sigma Phis' 12 closing the list.

New pledges announced by the various houses are: SIGMA ALPHA EPSILON: Bill Byington, Carl Tobiasen, Arthur Andersen and Mills Hoff.

BETA KAPPA: Preston Funkhauser, Kenneth Dedson, Harvey Foulkes, John Robinson, Cliff Lassen, Ernest McKenzie and John Rogers.

LAMBDA CHI ALPHA: Bill Bennett, Bill Wilson, Mitchel Coheaga, John Russell and R. P. Duncan.

SIGMA NU: Lyman Keele, John Potthoff, Felix Turrillas and Herb Winer.

SIGMA PHI SIGMA: Ed Gill and Charles McCarthy.

PHI SIGMA KAPPA: Fritz Arlang, Buzz Mechem, Roger Edwards, Berl Lydle and John Naughton.

HALL PLEDGES MEN Thirteen men were pledged by Lincoln Hall association. All these men live in the hall, and are not affiliated with other fraternities.

Men who are wearing pins are Ralph Isaac, George Dawson, William Richter, Ned Dickson, Jim Atkinson, Eddie Kullham, Grant Anderson, Harold Johnson, Bill Mitchell, Eddie Zarch, Bart Liana, Bill Francis and Jack Gardiner.

MEN ON KNEES NOT PRAYING; JUST ENGINEERS

Those 24 men you saw on the Quad Tuesday afternoon were not on their knees for any religious purposes, and they denied that they were looking for worms.

According to Prof. F. L. Bixby, of the civil engineering department, they are members of a class of approximately 50 first-semester students of the college of engineering.

They are being instructed in the uses of chains, levels and the many other gadgets that engineers must know about.

This year marks the thirtieth year the campus has been used as a proving ground for the engineering students.

"They have always kept the University on this side of the Truckee," Prof. Bixby said, and it still belongs to the State."

STUDENTS MARRIED

Eloise Perazzo and Milton Parker were married August 22 by the Reverend Henry B. Thomas at St. Stephens.

The bride was dressed in a semi-sports outfit and wore a corsage of rosebuds. The church was decorated with phlox.

Mrs. Parker, mother of the groom, played the wedding march and other music during the ceremony.

The young couple are both continuing their courses at the University, and are at home to their friends at their apartment on Ninth street.

Hall Makes Plans For Festivities

At the first meeting of the Lincoln Hall association held Monday night, plans for the annual stunt night, for an outing were drawn up, and committees were named to handle these affairs.

The annual stunt night consists of skits, musical selections and pokes presented by the new men residing in the hall. It has been customary to put all new men, through this form of initiation.

Elmer Issac will be chairman in charge of the affair, and will be assisted by Harry Dawson and Chester Estes.

Bud Owens, chairman, Robert Grening and Verrill Walker will be the committee in charge of the picnic. During the last few years the men residing in the hall have held their outing at a small ranch near the river about five or six miles west of Reno.

The affairs are strictly for the men living in the dormitory.

Labor Day Holiday Causes Sororities To Change Dates

Fast Parties To Be Given By Tri-Delts, Gamma Phi Friday

Silence Period Shortened Bids To Be Issued September 4

Rushing dates for the second week of rushing have been advanced several days to allow for the Labor Day holiday, Georgia Cooper, president of the Hellenic council, said this week.

Parties scheduled by Alpha Delta Theta for today were moved up to Tuesday. The remaining parties because of this change have been advanced another day, making the final parties by Delta Delta Delta and Gamma Phi Beta scheduled for September 11. Bids will be issued September 13th with pledging and preferential dinners by the sorority houses planned for that evening.

Silence will begin immediately after the final party next Saturday and continue until after bids are out Monday, 11. This means that freshman women will not be allowed to have dates for Friday, Saturday, and Sunday nights.

The revised dates now include:

September 7, 4-6, Alpha Delta Theta; 8, Kappa Alpha Theta.

September 8, 4-6, Pi Beta Phi; 6-8, Sigma Omicron.

September 9, 4-6, Beta Sigma Omicron; 8, Kappa Alpha Theta.

September 10, 4-6, Alpha Delta Theta; 8, Pi Beta Phi.

September 11, 4-6 Delta Delta Delta; 8, Gamma Phi Beta.

September 12, Silence.

September 13, Bids.

Annual YWCA Tea To Be Replaced By Show

Bridge Celebration Float Will Be Constructed By Group

A fashion show, instead of the annual tea in honor of freshmen women, is planned this year by Y.W.C.A., it was announced this week by Jean Smith, president.

Scheduled for September 16, the show will be held on the lawn at Manzanita Hall, and will be the official beginning of the membership drive, which also was postponed this year due to the usual conflict with the rushing season. The drive is to last several weeks.

TO BUILD FLOAT

In addition to the tea, important immediate business planned by the organization includes construction of a float for the Bridge Celebration parade on Labor Day. Work on this project is under the direction of Aldene Branch, Girl Reserve supervisor. The theme planned is based on Girl Reserve activities.

Opening of the candy booth will be Monday, Eunice Beckley, chairman, announced. She is ordering candy this weekend with the aid of Ruth Rowe and Eloise Campbell, last year's heads of the committee.

Eloisa Van Sickle, bookshop head, reports that by last Tuesday \$96.50 had been taken in at the shop, with promise of much more to come, as it has only been functioning a little over a week.

Classes To Begin For Riding Group

Saddle and Spurs, women's riding group, is still open to those women who desire to ride.

Classes will begin next Wednesday at the Carnation stables.

Under the leadership of Beatrice Lansdon, this group meets twice a week for hour rides. So far only five women have signed for the group, which usually has 15 or more.

The new riding class will hold its first meeting next Wednesday at 4 o'clock.

Under the direction of Miss Marion Nichols, the first meetings will consist of lectures on care and schooling of the horse.

Riding will begin soon and continue through the semester. Approximately 12 women have signed up for this class, the first of its kind to be offered here.

Former Students Married Tuesday

Announcement was made this week of the marriage of Evalyn Isbell and Furman Byars at Lovelock Tuesday, August 31st.

Mrs. Byars was formerly a student at the university and affiliated with the Pi Beta Phi sorority. Mr. Byars has just returned from New York where he attended the Sigma Nu national convention. Neither of the couple will return to school, but will reside in Reno.

Elsie Seaborn and Louise Rawson have returned from the Hawaiian islands, where they attended summer school. Miss Seaborn has taken up her duties as a teacher in the Austin schools.

Normal Club Holds Picnic At Bowers

A picnic for Normal club students was held at Bowers' mansion Thursday afternoon with many old students from last year attending function.

Each student introduced himself and told his life history. Professor F. W. Tramer, Associate Professors H. N. Brown and Edith Ruebsam, and Dr. Puffinbarger each made a short speech to the students.

No president as yet has been elected for the club, but a meeting will be held some time next week to elect the president and to make plans for the year.

Former Student Is Resident Piano Teacher

Miss Dorothy Jones, former University of Nevada student, has accepted the position of resident piano teacher in the Canfield school in Los Angeles.

This offer came to her as the result of her fine work in music during the last several years. Her training in Reno was done under the direction of Margaret Ryan.

Miss Jones studied intensively with Olga Steeb in Los Angeles and Carmel over the summer. It was through Miss Steeb's recommendation that Miss Jones received the offer of this position in the Canfield school, where she will have exclusive charge of all piano students. At the same time she will continue and complete the two-year graduate course at the Olga Steeb piano school in Los Angeles. Miss Jones then expects to continue her work in music in New York City.

Her father was the late Prof. J. C. Jones, of the geology department of the University of Nevada, and one-time dean of men.

Golf Enthusiasts Schedule Activities

Women students who play golf are invited to join a new group which plans to play on Fridays from 1 to 3:15.

This group is for beginners as well as advance students. It is designed to further interest in golf as an activity. Those women who are interested may see Mrs. Mae Simas or Helen Brown, manager.

Support the local Business Houses.

NO FROSH COEDS ENROLL AS ENGINEERS

Members of the male sex, you may cease worry about your cherished occupation of engineering.

Although there have been two girls graduate from this college and two more enrolled at the present time, not one single freshman woman has ventured to register this year in this course, which most men would say is non-feminine.

The first woman to graduate in engineering, Jean Horning, came from Alaska, took the all-man course only in her senior year, and graduated in 1932.

Second on this list is Betty Bowman, who took the complete four-year course and graduated in 1936 with high honors.

BOTH ARE MINERS

At present, two members of the feminine sex are enrolled in this college, Gene Wines and Mrs. Crabtree. Miss Wines expects to graduate in 1938, while Mrs. Crabtree is taking a civil engineering course for her own personal interest.

W. A. A. Tennis Starts Wednesday

W. A. A. tennis will start next Wednesday at 3:15 under the direction of Marie Varnon, manager.

This sport will be conducted for those women who desire to play tennis mainly for the pleasure derived. Interclass and inter-mural competition will be provided.

Miss Katherine Schnell, new physical education instructor, will coach the players during the later part of the hour.

John Jensen, sophomore student who has been ill for several months, is now recovering in Oakland.

Sophs To Eliminate Queen Contest For Dance

Elimination of the queen contest for the soph hop September 25 was decided upon by the sophomore class at a meeting Wednesday afternoon at which tentative plans were made for the dance.

It was felt by the members of the class that the queen contest created too much rivalry on the campus among the various organizations and that there was not enough publicity given the queen after her election; therefore some new tradition will be formed to be carried on in future years. A number of novelty skits are also being planned, including vocal numbers.

If possible, efforts will be made to obtain the state building and a 10 or 12 piece orchestra for the dance, eliminating decorations and adding that money to the hall and music expenses.

The committee appointed by Louis Peraldo, class manager, includes Tony Yrberry, chairman; Clifford Malone, Andrew Rosaschl, Bob Grenig, Gordon Thompson, Betty Nelson, Juanita Elcano, Betty Parish, Reveau Hansen and Sybil Furcher.

A meeting of the committee will be held in the ASUN building Tuesday afternoon at 4 o'clock to make definite plans for the hop.

Fine Arts Tryouts To Be Held Soon

Tryouts and definite activities of the Fine Arts club will not be planned until the rushing season is over, it was stated this week by Peggy Gill, president.

A group of pictures from New York by contemporary American artists will be included in the first exhibit to be held sometime in September. These pictures are sent around to universities all over the United States.

Tryouts for the Fine Arts club will have charge of the desk during either the evening or afternoon hours that the exhibit is open, Miss Gill said.

Alice Jane Chism, member of the Delta Delta sorority, will enter Cornell university this semester.

Robert Zadow, '37, is employed as engineer in charge of farm survey work in White Pine and Eureka Counties.

John Sala, Earnhart Thran, and Morris West spent the summer working in the Emma Mine at Kimberly.

SIGMA KAPPA ENTERTAIN PLEDGES

The Phi Sigma Kappa fraternity will give a hay ride in honor of its new pledges tonight. This is an annual affair and takes the place of the regular edge dance.

The chaperones are Mr. and Mrs. Harry Frost and Mr. and Mrs. Jack Van.

MANZANITA ASSOCIATION HELDS TEA FOR FROSH
An annual tea held in honor of the freshman girls who are members of the Manzanita association was held at Manzanita hall this afternoon from 4 to 5 p.m.

Mina Boczkiewicz, social chairman of the association, was in charge of the affair.

PHETA'S GUESTS AT BUFFET DINNER
Members of Kappa Alpha Theta were guests at a bon voyage buffet dinner honoring Mrs. Frank Humphrey given at the Century club Thursday night.

Emily Tholl, house president, and Lucille Sanford, representing the alumnae members, presented gifts from the groups.

Mrs. Humphrey will sail from San Francisco on a world cruise September 14. She will visit Australia, India and Europe, and plans on returning to Reno in May, 1938.

Play Day Date Set For Sept. 25
An intercollegiate play day will be held at the University of Nevada this year for the first time on September 25.

Guests of W. A. A. will include women from Sacramento, Lassen county, and Auburn Junior colleges.

Program for the day will include the following: Registration at 10 o'clock; chess, tennis, hockey, and volleyball on 10:30 to 12 o'clock; lunch at 12:30; creation and discussion in the afternoon, and a tea from 3 to 4 o'clock.

The chairman for the day will be Betty Kormmeyer.

The Revolutionary Pen That Won't Run Dry In a New and Superlative Model—the Speedline

It's not how much a person has in his pocket that determines whether or not he selects the new 1938 Parker Speedline Vacumatic—it's how much he has above his shoulders!

Some other pens cost as much as this revolutionary invention, yet no one having the "low down" on pens wants to pay these prices without getting these new-day advantages. For example:

A new all-time high in ink capacity, hence a Pen that never starts anything it cannot finish. A Pen that shows the ENTIRE ink supply—shows when to refill—hence one that never runs dry in classes or exams.

An utterly exclusive Style—laminated Pearl and Jet—now with slender Speedline shape—the most restful ever conceived. And not merely modern in Style, but wholly modern in mechanism, too. Its SACLESS and patented Diaphragm Filler radically departs from all earlier types, regardless of whether they have a rubber ink sac or not.

Be sure to see and try this pedigreed Beauty today at any good pen counter. The Parker Pen Co., Janesville, Wisconsin.

A GOOD SYSTEM

Probably one of the most orderly yet spirited of class officer elections in the history of the university took place this week at the first meeting of the freshman class.

Cause of the orderliness—Student Body President Dick Taw. The manner in which Taw conducted the election didn't give the class of 1941 much of a chance to be other than orderly.

Instead of using ballots, Taw, with the aid of a group of upperclassmen acting as judges, took a standing vote on the men nominated for the manager's position.

Starting with a group of nine nominees, all but three were eliminated on the first ballot. On the next ballot, one man was elected by a decisive margin.

The simplicity of the system eliminates the necessity of counting numberless paper ballots (especially after the ballot box has been stuffed, as has happened in not a few frosh elections in the past); saves time; and generally facilitates the whole procedure.

It's a good system. The Sagebrush would like to see it used hereafter for all elections of this type.

GOOD EXPERIENCE

Value of the gifts of Nevada's newest benefactor, S. Frank Hunt, once more come into the limelight this week, as a group of mining students leave for a three day mining inspection trip.

The main value of the gifts given does not lie primarily in the amount given—although that total now approximates \$250,000—but in the experience it furnishes prospective mining engineers by allowing the mto take trips to examine different types of mines throughout this state and neighboring states.

The tour this weekend is only one of the many that has been made possible by the foundation. This summer, a group of students and professors made an extensive tour of the state, inspecting and prospecting mining properties. Last year, many small trips were taken by the miners.

That the trips have not been fruitless was evidenced this summer when the group discovered a ledge of gold-bearing ore, which was located, and is now being worked. Whether or not the claim proves to be a paying proposition is immaterial—the main thing is that practical experience in prospecting, under the supervision of trained engineers, is of irredeemable value to embryo mining engineers.

Nevada is indeed fortunate to have a benefactor like S. Frank Hunt.

JOIN—NOW!

An active membership drive is being started this week by Nevada's newest scholarship society—the "Buck of the Month Club."

The underlying purpose of the club is, as the founders have stated, to induce Nevada athletes to attend the University of Nevada.

And that in itself is a commendable purpose. In the past, many good native Nevada athletes have been lured to California and other schools, simply because they were offered good scholarships, while this state just had to sit back and watch them go, because it didn't have anything to offer them.

Although founded only a few weeks ago by three Nevada grads, three active chapters have already been established, and others are now being organized throughout the state.

Founders of the club, of which dues are, as the name implies, a buck a month, hope for a membership of 500 within a month.

A nice feature of the plan is that all officers serve without pay. All money that is taken in will be put in the scholarship fund.

A "Buck of the Month Club" or something of that type, has been needed for a long time.

Give it your support. You don't have to be a Nevada grad, or student to belong.

A complete copy of the purposes and aims of the club is printed below.

- 1—To induce Nevada athletes to attend the University of Nevada.
 - 2—Through the medium of monthly dues to establish scholarships for graduates of Nevada high schools who excel in athletics.
 - 3—To attempt to instill in our high schools and among our citizens high regard for the University of Nevada and a loyalty to that institution.
 - 4—To establish member clubs in all communities where there are persons interested in this movement.
- The clubs will be administered as follows:
- a. Dues will be \$1 (one buck) per month
 - b. The treasurer will send audits to all clubs at regular intervals.
 - c. Each member club will elect two directors to the State organization.
 - d. The State officers together with the directors will designate the expenditure of funds for scholarship awards.
 - e. No officer of the club will draw any salary and there will be no expense of administration.
 - f. Each member club will elect its own officers and directors.
 - g. Each member club will remit monthly dues to the State treasurer by the tenth of the month.
 - h. Each scholarship award will be established upon the premise that the student receiving such award will keep his grades at the University of Nevada up to the required standard.
 - i. No member may contribute more than one buck (\$1) per

month, but may pay dues in advance for any period desired. j. Any person interested may become a member of any club. Attendance at the University of Nevada will not be a prerequisite for membership.

k. The funds of this club and its administration will be entirely separate from any department at the University of Nevada and will be entirely to itself.

What with grandpa's roomatism twinging him, and having to shut the front door at night and yellow leaves under a tree here and there, seems we might have an early winter.

Miss Reigulhuth reports a strange noise on her front porch the other morning. Upon investigating the source, which she thought might be a cat, she found, instead, a quail, basking in the sunlight. It is early for quail to be coming in—another sign, alas, of winter.

Comes a wail from the seniors, "Won't someone please scrap the three layers of freshmen off the senior bench? For three years—three long years—we've sacrificed for the privilege of resting in dignity in front of the Hall of English. And now this symbol of seniority is so taken possession of every morning it can scarcely be seen, much less sat upon."

Might be nice to call to the attention of a few enterprising people who pin "books for sale" notes on the bulletin board the fact that the campus bookshop is open—has been open for two weeks nearly. Located in the basement of Morrill hall, the shop is managed by Y.W.C.A. and has hitherto received much support from students, who sacrifice but 10 cents on the dollar for the service.

Already ripples some enthusiasm for the coming Wolves Frolic. Let's talk it up. By beginning early it may be made an even greater success than in previous years. Any ideas, any rags, any gags?

The Senior girls in Home Ec have a course in Dietetics. They must keep an account of everything they eat for each week—including chocolate sodas—and count the calories.

It is a class problem, and the "calorie counters" weigh each week to note any differences, if any.

The girls find this very interesting work, and the whole idea is for the purpose of noticing the changes and planning a healthy, satisfactory diet for each individual girl.

This was found on the copy book. The writer is anonymous, but we suspect none other than our dashing executive secretary, Bob Creps:

"In answer to gripes, groans, and comments that have pervaded

SENATE MINUTES

September 2, 1937.

The regular monthly meeting of the Senate was called to order by Chairman Taw.

Minutes of the previous meeting were dispensed with; roll call was taken, new senators sworn in.

The chairman then presented the nominating committee panel, which was approved and passed by a 2-3 vote.

Those named on the panel included Ross Marris, chairman; Don Kinkel, Joe Lommori, Kathleen Meeks and Eleanor Gardella.

Suggestions were offered as to members of the men's upperclass and women's upperclass committees.

The Senate adjourned temporarily while the nominating committee went into session.

The following panels were submitted by the nominating committee and approved, voted upon and passed:

HOMECOMING COMMITTEE

Ross Morris, chairman; Maurice Sheppard, Louis Peraldo, Bill Goodin, Sarah Swett, Eleanor Gardella, Lawrence Strong, Ted Asworth, Leo McCuddin, Tony Yriberry,

even the most inconspicuous corners of the campus about the question of what is to be done about the mucky slimy scum on the lake. (It's scum slime to tell you what mucks it such a mess.)

"In the worst place, why deprive sixty million lovebugs of their happy resting places. What the campus needs is more lovebugs and more resting places. Can you imagine what the lake should look like if you let them lift the lousy looking larvae that has long lurked limpidly on the lovely lagoon. Well can you? No scum, no bugs, no crazy people to concoct stuff like this as I hardly ever think I was."

Nice, huh?

SUNDERLAND'S INC.

A FROSH COED SURVEYS FASHION TRENDS

The university has opened again, and everyone is gay, cheerful, and chic.

The fashion keynote this season is definitely towards the feminine. Gone are the days of tailored suits and severe lines. Everything is covered with frills and romantic fur-belows. Veils are everywhere. Not skimpy veils, but yards and yards of thin, sheer, flowing veils. And if that doesn't give a woman glamour, you don't know what a veil can do.

Once again the knees are coming out in public. The dresses are short—about thirteen inches from the ground. All have tricky hems—scalops, points, and what not. Little puffed sleeves, cunning jackets, and little bows are the rage.

And the shoes are magnificent. Sandals are big... but BIG. Straps in the funny places, toes peeping but no heels. And with them are worn the sheerest of stockings.

The hats are the cutest little jigs-

gers. Set back off the face with coquettish brims.

The hair worn in a Grecian rolled coiffure is the most popular style. Weavers are ready to burst anew with new forms of woollens and plaids, which will be worn this fall. Just wait and see the riot of colors in the new woollens. There is the darkest new shade called Myrtill of rich purplish blue, and a deep sunflower yellow for coat and suit materials.

You remember the fuzzy sweaters worn by the college boy? There will be none of that fuzz on the fall fabrics. Rather we have the gorgeous shades. Fine soft boucles, and the tweeds have the loveliest velvety finish.

Velvet hats and black satin dresses with shirrings and jewelled clips will make their devastating and ravishing appearances.

The new fashions are filled with thrills, so keep your eyes open, and your purse strings loose.

Helene Fulton, former Nevada student, has resumed her studies at Stanford Lane School of Nursing after spending some time with her family in Reno.

IN THE SPORTLIGHT

SHORTS ON SPORTS FROM FAR & NEAR

By DON KINKEL

Taking advantage of the first annual state amateur golf championship contest, which will be held at the Washoe county course on Labor day, will be several university athletes. Among others who will probably unofficially represent the Pack will be Doug Dashiell, Bob Cameron, Jack Rhoades, Bob Taylor and Whit De La Mare.

The 1937 Wolf Pack will take its bow one week from today when Coach Doug Dashiell and his assistant, "Chet" Scranton, through conference rulings officially take the field. . . . Incidentally, the method followed by the coaching staff for the first time this year in taking part in the conditioning work of the team has been used for several years by other members of the far western conference.

Conditioning exercises for the Packmen will end during the first of next week, and the boys will gradually forego shorts for the regular practice equipment. . . . New game uniforms have been ordered. Rumor has it that they may be a surprise.

Four weeks from Saturday the Pack takes the field for the first time against the University of Wyoming. . . . Coach Dashiell will have his work out for him trying to develop a well-organized kicking combination.

"Doug" believes he has the answer to the mere booting problem in the way of four backs—Bennett, Smith, Metten or Robb. The main problem will be in developing a line strong enough to protect the backfield. With the exception of the end positions, the entire line will have to be rebuilt. . . . Basta and McKinnon held down the wing positions last year and should show even more improvement this year.

With several men up from last year's freshman squad and with some other promising prospects, competition is hot for the tackle berths. Gustafson, veteran Packman, seems to be heading the list through ability and experience. . . . Big John Radovich has been developing rapidly and though lacking in experience, would be hard to beat if he starts clicking in the position. . . . Stewart, another hefty candidate, packs plenty of fight and is fast on his feet. . . . John Sala has been shifted from the end spot which he played on the freshman squad and may be selected for the inside spot.

Only one letterman, Joe Lommori, will be back to compete for the guard spot. In either Barsanti or Brooks, Dashiell may find his speedy, full of fight guard to team up with Lommori. Clayton, Demosthenes and Hardie have all had some previous experience at the center spot.

It looks very much like the quartet of Powell, Robb, Eaton and Twombly will be elected to take care of the offensive ball throwing. . . . Nevertheless Bennett, Carpenter, Taylor, Deverell, McMichael and Powers will make these four work hard to keep their positions.

The frosh grid squad is larger than the varsity squad and is still growing. . . . According to members of the P. E. department, there is a large number of frosh players who have not yet taken the physical examinations required by the university regulations. . . . Cobeaga and Polish of the frosh seem to be the cream of the crop in the punting department including the varsity also.

Pat Eaton, veteran Pack backfield man from Compton J. C., has hit the national headlines twice already this year. . . . Pat's name was published in a latest edition of a leading sports guide as heading the national field in the art of kicking field goals. . . . During the middle of the summer he was mentioned in the national syndicated column of Eddie Brietz as follows: "Football coaches say Pat Eaton of the University of Nevada is one of the finest field goal kickers in the biz. Hasn't missed but one try in his college and junior college career. Coach Doug Dashiell hopes his 1937 team will pack enough power to get close enough to the goal for Pat to get a shot at it. . . ."

Inter-fraternity sports program will be outlined next week with horsehoes and volleyball probably heading the

New Uniforms Ordered For ROTC Officers

Advanced corps officers are this year to be even more attractive to the feminine eyes, according to an announcement made by Captain Isbell.

New uniforms are to be ordered in a few days and may prove to be competition for the Scabbard and Blade regalia.

Captain Isbell also made the announcement that the R. O. T. C. will march in the Labor day parade.

RETURN FROM CONCLAVE
Russ McDonald, who is president of the Sigma Alpha Epsilon here, and Don Kinkel, Sagebrush sports editor, returned Tuesday from Chicago, where they attended the national convention of the Sigma Alpha Epsilon fraternity.

Sagebrush Sports

40 Prep Stars Reporting Daily For Conditioning

Six Contests With Junior Colleges Included On 1937 Schedule

Polish, Acclaimed Greatest Prep Star Last Year; Now With Frosh

With 40 former high school stars reporting daily for practice, the University of Nevada Frosh football squad are practicing conditioning exercises with the varsity squad members.

A heavy schedule of six contests, including games with such teams as Compton Junior college, Menlo Junior college, and the Utah Branch Agricultural college, has been arranged for the Cubs.

For the first time in the history of the university, the Frosh will trek to Compton, Calif., where they will play the Compton Junior college eleven on November 20.

HIGH SCHOOL STARS

The present freshmen squad includes many of the foremost high school players of last year, and a number from California and neighboring states.

From Yerington hail such stars as John Polish, Joe Gioni, Jim DuPratt and John Strosider. Sport critics from all over the state acclaimed Polish as Nevada's greatest ball player during last year's season, when the husky back led Yerington to its first football championship.

Coming from Ely are such men as Ray Garamendi, John Lemick and Dunbun, who also gained a great deal of fame while playing prep school ball.

From the south come Jack Pothoff, all-around athlete from Las Vegas; Clive Brown, Artie Ham and Roger Foley.

Others from Nevada high schools are Jim Griswold, Elko; Elwin Trigero, Reno; Lyman Keele, Sparks, and Mitchel Cobeaga, Lovelock.

A large number of Californians are reporting for practice daily. Among the most prominent are Cyril Ham, Mills Hoff, Bob Robenet and Bill Roberts.

NOVELTIES WILL FEATURE FOOTBALL GAMES

To add zest to every football contest this season some stunt, idea or novelty will be presented at each game, Walter States, athletic public director, announced today.

At the first game, all students will be given a miniature megaphone. The megaphones will be silver with a large blue "N" on the side, and will help to represent a rousing spirit at the games, States said. A downtown business concern will donate the megaphones.

Later in the season, feathers of the same type sold last year will be sold again for a nominal fee. The feathers are blue with a silver "N" on the sides.

States declares that this policy will continue throughout the season in an effort to promote a higher interest in football.

Buck Of The Month Club Membership Is Increasing

Proceeds Will Be Used To Aid Needy Nevada Prep Athletes

With the prime purpose of aiding Nevada athletes to attend the University of Nevada, membership in the newly organized "Buck of the Month Club" is rapidly increasing, Bert Spencer, '26 State director of the group announced this week.

Organized in Carson City during the first part of August by Bert Spencer, Kerwin Foley, and Malcolm Maceachin, all Nevada graduates, chapters of the group are being formed in other towns through the State.

"We expect a total membership of approximately 500 within a month," Spencer said.

Chapters of the group have already been established in Reno and Gardnerville, while organization of groups in all other Nevada cities will be done this week.

TO BRANCH OUT

"When Nevada cities are completely organized," Spencer said, "we intend to establish chapters in Susanville, Los Angeles, and Washington."

Dues in the club are as the name implies, one dollar a month. None of the money collected will be used to pay salaries, the founders said, as the group will run on a non-profit basis, attempt-

BEGINNING

Starting his first season as Coach of the yearling gridmen, Jim Coleman has a tough job on his hand. For the first time in several

years, the Frosh have a schedule of six games—all of them with California Junior Colleges.

He is now putting his squad of almost 40 former high school stars through calisthenics and conditioning exercises with the varsity squad.

13 Frosh Trackmen Earn '40 Awards

Thirteen men from last year's freshman track squad earned sweaters with the superimposed numerals, Robert Creps, graduate manager, announced today.

Awarded numerals were five other men who showed an interest in the sport, but did not qualify for the sweaters.

Out of the thirteen who earned sweaters, eight had already received the award from either football or basketball, Creps said.

Men who received the award for the first time are James Betts, Robert Cameron, Ray Garamendi, Marvin Linson, and Tod Sorenson.

Receiving numerals were John Barber, Clarence Hackelthorn, Fred Laing, Earl Trousdale, and Mark Wallace.

Leonard Carpenter, George Deverell, Ned Dickson, John Gioni, Lowell Hillygus, John Sala, and Roy Shipp had earned sweaters in football, while Jack Rhoades had qualified in basketball.

Measurements for the new sweaters are being taken at Patterson's this week, Creps said.

Charles Matson will return at Christmas to resume his studies.

Loyal Willis and Joe Gioni visited in Yerington Sunday.

Prospects Are Good For Ski Team This Year

Although the season of snow and skiing is still several months away, U. of N. ski enthusiasts have already begun to take stock of Nevada's prospects for next winter.

Hopes for a successful year, badly hit by the loss of the number one Wolf ski artist, Wayne Poulsen, by graduation, have been greatly buoyed up by the registration at Nevada by two experienced skiers who are expected to bolster the squad for next winter's intercollegiate meets—Carl Bechdolt, Jr., last year's "one man ski team" from St. Marys University, and James Worden of the Lake Tahoe Ski Club.

John Rose of Reno, who, although a newcomer to collegiate ski competition, has had plenty of competitive experience against high-ranking skiers, is another valuable addition to the ranks of U. N. ski men.

Four men from last year's ski team, Earl Edmunds, Don Fanning, Martin Arrouge, and John Starrett, will also be available to round out the roster of the

squad. As a result of the success of the U. N. Ski team last year, and of the added incentive of minor sports awards to skiers under the amendment to the A.S. U.N. constitution granting minor sport recognition to skiing, Ski Club leaders expect a large turnout of students to take part in the activities of the club this year. No definite plans will be made until skiing season is actually at hand, however, according to Don McMeekin, president of the club.

Jack Cunningham, John Russel, and a Don Fryberger spent the summer working in U. S. Survey Camps.
