## Sweater Problem Still Unsettled; Matter Discussed

### Two Plans in Making Awards Are Proposed; Referred To Greek Houses

### Other Changes Made During Revision of A. S. U. N. Constitution

With the problem of sweater awards for football players or for any sport still undecided, the newly revised A. S. U. N. constitution was presented to a special meeting of the student senate for consideration last night. Dick Taw, student president, announced today.

At present two plans for awarding sweaters have been submitted to the constitution committee and the senate, but a unanimous decision on either has not been reached. Senators were urged last night to take both proposals back to their representative groups for consideration.

#### Limits Awards

The first plans submitted will limit, if passed, an athlete to one sweater in a sport. Each additional award in the same sport shall be in the form of a certificate. It a man becomes eligible for three awards in a single sport he may be awarded the official Nevada blanket.

The only exception to this would be a senior who has won a letter in any major sport and in at least one other sport may have his choice of a blue V-neck sweater, a white coat sweater or the official insignia.

#### Raises Requirements

The other plan submitted to the senate concerns raising the requirement of 25 per cent of the total number of minutes of the regularly scheduled games played to 30 per cent. Had such a provision been in the constitution this year only 17 players would have received a Block N sweater.

With but a final check-up by Professor Robert Griffin, forensic coach, necessary before presentation to the committee, the constitution as now revised has been divided into five main parts: General organization, publications, extracurricular activities, amendments and by-laws.

There have been few major changes in the structure or text of the revised edition, the principal rearrangement being made for compactness, unity and conciseness, it was stated by Clyde Keegal, chairman of the committee for revision.

Sports awards, it was recommended, should be regulated and controlled not only by the Block N society and recommendation of the coach but also by a senior committee composed of a representative of each sport and the approval of the executive committee.

#### Other Changes

Other proposed changes include the election of class managers at the general student election held in the spring with the exception of the manager for the freshman class. Amendments would be made by a two-thirds majority of the student body at a regular meeting with secret balloting, thus eliminating the chances of "railroading" an amendment as has been charged in the past, according to Chairman Keegal.

Reorganization of the rally committee, whose chairman will be selected from the student body at large rather than the yell leader, is proposed in the new constitution. By-laws may be amended by a three-fourths majority vote of the A. S. U. N. senate at any regular meeting and as heretofore provided in the constitution.

## David G. Clark Receives Award

David G. Clark, son of President Walter E. Clark, a graduate of the University of Nevada, has been awarded a residence scholarship of \$250 for the spring semester in the Columbia university school of medicine, New York City, it was announced by Dr. Willard C. Rappleye, dean of the institution.

Clark was graduated from Nevada with a bachelor of science degree in 1934 and will be graduated from the medical school on June 1. An honor student while attending Nevada, Clark majored in zoology.

## Crucible Club To Hold Meeting

With upperclass men arranging speeches on definite phases of mineralogy, geology and metals, the next meeting of the Crucible club will be held February 22 at 7:30 in the Mackay School of Mines, according to Dick Thormeyer, president.

Professor Gianella and Dick Thormeyer are in charge of this meeting.

## WHO ARE THE 8 OUTSTANDING MEMBERS OF SENIOR CLASS? ARTEMISIA SEEKING ANSWER

Who are the eight outstanding members of the senior class? The 1938 Artemisia will answer this question within the next two weeks by conducting a poll among the seniors at a meeting to be called soon, according to Sam Wilson, editor of the yearbook.

"Heretofore, the outstanding seniors have been selected by the various editors. We aim to have the seniors choose their own popular members," Wilson stated when interviewed Wednesday night.

#### Selection

They will be chosen on the basis of service to the university and its organizations; leadership in campus affairs; and popularity. The students chosen must have been on the campus for four years.

Instead of the former method of scattering the outstanding seniors' pictures through the regular cap and gown

pages, the new Artemisia will devote an entire page to informal shots of these seniors chosen for this honor, Wilson stated.

The vote will take place at the next senior meeting to be called for this special purpose within the next two weeks by Ben Morehouse, manager.

#### To Give Ballots

Ballots will be given to the seniors with instructions for voting and spaces for eight names on each.

It is hoped that this will establish a precedent so that each senior class may choose those members which it would like to honor after four years of close association.

Names of the winners of the contest will be withheld until the yearbook is out. The book is scheduled to make its appearance near Senior Week.

Votes will be counted by the Artemisia editor and Ben Morehouse, class manager.

## Faculty Considers Change to Three Hour Examinations

### Last Week of School Would Be Used for Tests; Vote Tuesday

### New Courses for Next Year Approved at Meeting This Week

Consideration of allotting a final week devoted exclusively to examinations will be the main business before a meeting of the general faculty next Tuesday afternoon, it was announced today by Dean Maxwell Adams, acting president of the university.

The meeting which has been scheduled for 4 o'clock in the Mackay Science building will consider approval of the changes suggested in the department courses of the arts and science and engineering faculty.

According to Dean Adams, the main problem before the faculty will be the proposal to devote an entire week of the semester to final examinations, so that from two to three hours could be devoted to tests in every course.

#### No Additional Week

In case the proposal is passed by the general faculty board, no additional week will be added to a semester, but the final week of each semester will probably be set aside for final examinations.

From data gathered by Dean Adams, it is seen that about two-thirds of the universities and colleges in the western section of the United States have the proposed system of final examinations while the other one-third have the same system of examination as has Nevada.

According to the majority of professors on the campus, students do not have time to adequately complete an examination of a course. However, in case the plan is passed by the faculty, the length of a final examination will depend entirely upon the examining teacher, although three hours will be set aside for tests in every course.

Students are urged by Adams to present written opinions of the proposed plan to the registrar before the faculty meeting on Tuesday.

#### Courses Added

New courses for several departments in the college of arts and sciences were approved by the college faculty last night.

In the botany department, agrostology will replace a course on plants on the range and in the English department and new course 95 was added. In economics, new courses on business cycles and consumption economics and four courses in business covering auditing and payroll tax accounting will be offered. Economics courses in twentieth century economic thought, social institutions, and the scope and method of economics were dropped.

Sociology courses in race problems, the family, population, social security and methods in social work have been added. In the school of education, courses in teaching social study and in the education of exceptional children are to be offered. Practice teaching courses have also been renumbered.

## Barb Emblems Given to Members

Distribution of pins to members in the Independents was the main issue of the meeting Monday night in the home economics room in the Agricultural building, according to Robert DeFosset, president.

Additional pins were ordered for those members who failed to order with the first group.

Plans for the remainder of the semester were discussed.

Following the meeting, refreshments were served.

## French Honor Given To Pres. Clark On Coast

In recognition of twenty years of outstanding public service, Dr. Walter E. Clark had conferred upon him Tuesday the rank of Knight of the Legion of Honor of the republic of France.

French Consul general M. Roger Gaucheron conferred the rank at a banquet in Doctor Clark's honor Tuesday evening at the French consulate in San Francisco.

Consul General M. Yves Meric de Bellefon, now attached to the French embassy at London, made the recommendation which was approved by a council headed by the president of France.

#### Dates to Napoleon

The order of the Legion of Honor dates back to May 19, 1802, when it was founded by Napoleon. Two years later it was organized to recompense notable military and civil services. On March 28, 1816, it was reorganized. In recognition of the fact that distinguished public service is a matter of international as well as national interest, a regulation was passed early in the history of the order to enable foreigners, as well as Frenchmen, to be eligible for membership.

The decoration of the order is in the form of a star with twofold rays. The star for the rank of knight is of silver. It is enameled in white and has a diameter of 40 millimeters.

According to reports from San Francisco, President Clark was visibly touched by the ceremony. "You have conferred on me a great honor and I am deeply grateful," he said. "Even more than being an honor to me personally, it is a mark of distinction that you have conferred on the University of Nevada and its entire staff."

## Coast Militarist To Inspect R.O.T.C.

Major Horace J. Mann, head of the San Francisco high school R.O.T.C. units, was designated this week to inspect the University of Nevada R.O.T.C. units during the week beginning April 30. Major Mann will also have charge of the inspection of the Reno high school units during the same week.

As in the past, the inspecting officer was chosen by the commander of the Ninth Corps area, of which Nevada is a part.

The major will determine the rating of the units upon their performance in drill, manual of arms, etc. For the past few years the university units have been judged "excellent."

The R.O.T.C. cadets, officers and the military band will all take part in the final inspection of the semester.

## Mardi Gras Revival Plan of Press Group

The first steps toward the revival of the Press club Mardi Gras were taken yesterday afternoon when a Press club committee met at the Student Union building and discussed preliminary plans for presenting the costume and masquerade ball.

This costume dance, formerly one of the oldest annual affairs at the university, was last given by the student journalists' group in 1935. The date set for this year's function is March 19.

The committee, which is under charge of Don Kinkel, has no permanent plans to date. Committee members, however, plan to make costumes compulsory, and furnish masks at the door for those attending the ball.

Members of the Press club serving on the committee include Beverly Joyce, Margaret Turano, Jim Sullivan, Hudson Lee, Eleanor Gardella, Helen Shovlin, Kathleen Meeks, Thelma Armstrong, Don Kinkel and Francis Breen.

## Females Foot Bill In Evening of Fun At Pan-Hel Dance

### Prizes Will Be Presented To Best Represented Houses

### Large Crowd Is Expected To Be Present at Coed Reverse

By BETTY BURLEIGH

Here they come, headed for an evening of hilarious fun at the annual Pan-Hel reverse dance at the I.O.O.F. hall tomorrow night.

"Check, please," will be the cry of the coeds as they escort their "boy friends" to the dance, show them around afterwards and see them home safe and sound. For 364 nights a year the boys may furnish the wherewithal for the good times, but tomorrow night it's the women who pay, and pay, and pay. The bonnie Scotch lassie is advised to stick to her highlands, as she will have no place in the scheme of things here.

#### Crowd Expected

"I expect to see at least 75 couples at the dance," Georgia Cooper, Pan-Hel president, stated this week.

It is expected that a large crowd will attend, as the coed Greek letter groups are urging their members to go, and because of the successes of previous Pan-Hel reverse dances.

"The profits (we hope) will be placed in the Pan-Hellenic treasury, out of which we pay for the Artemisia panel, the expenses of teas and the cups awarded for sports and scholarship," Norma Anderson, chairman of the dance committee, said this week.

Jerry Salter's orchestra will furnish the music.

#### Evening's Highlight

The "highlight" of the evening will be the awarding of prizes to the best represented fraternity and sorority groups. Tickets, in the form of red and gold programs, will be punched at the door to make it impossible for any couple to register twice. E'Lois Campbell and Edith Delmore are in charge of the door.

Large facemasks of the different sorority pins will be the keynote of the decorations. Each sorority is responsible for decorating a corner or a wall with its pin, from which streamers of the sorority colors will be extended to the center of the room.

Sports dress will be worn, the Pan-Hel council decided last week. The dance, originally scheduled for last semester, was to have been either a costume or semi-formal affair.

Lola Stoddard and Pat Meaker are in charge of the advertising. Members of the dance committee are Norma Anderson, chairman, Lola Stoddard, Mary Bozickiewicz and Jessie McClellan.

Patrons and patronesses will include Dean Mack, Dean and Mrs. Thompson and the house mothers of the sororities.

## Contributions Given For Rita Winer Scholarship

Contributions from four organizations and one individual this week brought the total Rita Winer scholarship fund to \$55. It was announced by Mrs. William Maher, who is managing the move on the campus.

This amount was comprised of donations from Sigma Nu fraternity, \$20; Gamma Phi Beta sorority, \$10; Kappa Alpha Theta, \$10; Chi Delta Phi, \$10, and Betty Jane McCulloch, graduate of the U. of N., \$5.

#### \$100 Campus Goal

Mrs. Maher has set a goal of \$100 to be raised on the campus, the rest, to total \$1000, will be gathered among townspeople, among whom Miss Winer had many friends.

Interest from this money, in a trust fund, is to be awarded annually to the most deserving senior woman who is including in her work all maximum required courses in the school of education to entitle her to a high school degree and who plans to be a public school teacher.

The scholarship will go into effect in the spring semester of 1939, if sufficient funds are raised. Selection of the student for the award will be made by the dean of education and the chairman of the faculty committee on scholarships and prizes.

#### NOTICE

The De Molay Snow Carnival scheduled for February 13 has been indefinitely postponed.

Dick Roche.

#### SUFFERS INFECTION

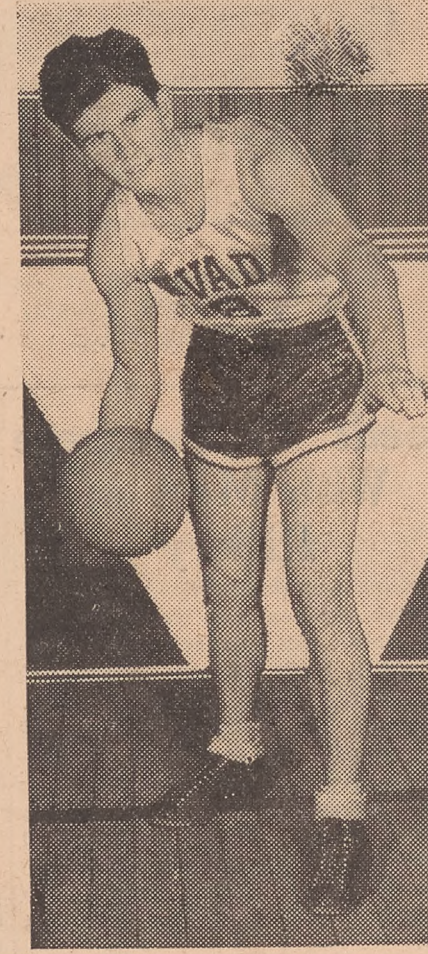

Arthur Simpson was confined to the university hospital last week because of an infection in his neck. He is improving rapidly.

## Pack Meets Pacific Tigers In Important Far Western Loop Games This Weekend

### READY TO STOP TIGER

RAY WALDREN

BOB CAMERON

Job of stopping the Pacific Tigers may fall upon these two men in the games tonight and tomorrow night, if the ailing regulars are unable to go the whole route. Both are good ball handlers, but are lacking in experience.

## 'U. OF N. MUST BE TERRIBLE! NATIONAL PAN-HEL TREASURER ANSWERS PREVAILING OPINIONS

"Reno. Oh, what an influence it must have on a college! The University of Nevada must be terrible!"

That, according to Mrs. M. C. Burnaugh, national Pan-Hellenic treasurer and national officer of Beta Sigma Omicron, is the general attitude taken toward the university here by out of state people.

"I do not think that they realize the culture in this town," Mrs. Burnaugh said in an interview this week.

"I think that this university compares very favorably with other colleges and I am impressed with Nevada's lovely campus. When I came here first, in 1928, I was amazed!"

"I send postcards to my friends when I am in Reno. When I get home they ask me what I was doing in Reno 'of all wild places.' When I tell them that I was inspecting a chapter, they gasp and ask who or what has a chapter in such a place. Some of them are very surprised to learn that the University of Nevada is located in Reno."

"I am very much amused by this attitude. They do not realize that the university's young people are much like those of the other leading colleges."

"I cannot say too much for the hospitality that the Nevada campus has shown me. I have always enjoyed my trips here."

Mrs. Burnaugh, who is on her annual inspection trip of Beta Sigma Omicron chapters, has been highly feted this week. She arrived Monday evening from Berkeley, and left Wednesday noon for the coast.

She was the guest of honor at a tea sponsored by the Pan-Hellenic council, intersorority group, at the Gamma Phi Beta house Tuesday afternoon at 4 o'clock. Georgia Cooper and Norma Anderson were in charge.

Monday evening active officers of Beta Sigma held a formal dinner in her honor at the home of Mrs. Alice B. Marsh, faculty adviser. Mrs. Burnaugh inspected both active and pledge meetings.

Tuesday noon the national representative was the luncheon guest of Georgia Cooper, president of Beta Sig, and Mrs. Harold Hart, alumni representative. Tuesday evening she was entertained by officers of the Beta Sigma alumni group, at a meeting and informal party at the home of Mrs. William Maher, 652 Forrester street.

Mrs. Burnaugh's official visit ended Wednesday noon when she left for San Francisco. From there she intends to travel to Los Angeles, through Arizona to Del Paso, then to New Mexico, and to St. Louis, where she will confer with the national president of Beta Sigma Omicron. From St. Louis she will travel to her home in Chicago.

## Cooperation Is Asked by Moler

Complete cooperation in making the Engineers' Day celebration a success was asked yesterday of all engineering students by Marvin Moler, chairman of the event.

Moler, speaking for the central committee, stated, "We do not ask any one student to work on all committees, but it is expected of each student to help with something."

The central committee suggests that any engineering students who have ideas for the betterment of the celebration, submit these suggestions to the program committee.

"There will be a lot of work to be accomplished; let's have no loafers," he asked.

#### AFTERNOON A. S. U. N. MEETING IS PLANNED

For the first time in the history of the University of Nevada a student body meeting will be held in the afternoon.

According to Dick Taw, A. S. U. N. president, the meeting will be held at 1:15 p. m. on Thursday or Friday. If the plan works out, the meetings will be held regularly at that time, Taw said.

Besides the regular meeting, moving pictures will be shown.

## Season's Record Gives C. of P. Slight Edge Over Wolves

### Illness of Three Regulars Reduces Chances for Nevada Wins

By BOSS ASHLEY

Riding the crest of the conference wave, and hoping to give Nevada's title hopes a fatal ducking, the College of Pacific Tigers meet the Wolf Pack tonight and tomorrow night on the Wolves' home floor.

The Tigers, surprise conquerors of Chico State, defending loop titlists, by overwhelming scores in two games last week, will take to the floor as fairly strong favorites over the Wolves, on the strength of comparative scores against Chico. Nevada took a double-header from the Wildcats, 43-38 and 52-44, while Pacific more than doubled the Wolves' margin, trouncing Chico 50-33 and 41-23.

#### Early Records

Early season records, showing Nevada winning both ends of a double-header from U.S.F., which handed a pair of drubbings to Pacific, and splitting a series with San Jose, which also turned back the Tigers twice, favor the Wolves, but recent performances give the nod to Pacific.

Another factor favoring the invaders is the illness of three Nevada regulars, John Radovich, Joe Radetich and Ray Harris. Radovich and Radetich, starting center and guard, and Harris, one of the three first string guards, contracted colds at Fresno last weekend and were out of practice several days this week. All three worked out at the last practice session Wednesday afternoon, but were not up to full effectiveness.

Nevada is "on the spot" tonight. The Wolves, one game down as a result of their unexpected split series with Fresno last week, can't afford to drop any more contests if they are to remain in the championship race. On the other hand, they have shown that they can really click when the blue chips are down, as they did in the second Fresno game, and having their number up may make the Wolves ramble.

Pacific is a big question mark in the conference. Beaten in every start in the Northern California conference, by such teams as St. Mary's, Santa Clara, San Jose and U. S. F., the Tigers turned around and upset the Far Western loop appellate by spilling Chico.

Starting for Nevada will probably be Dick Kolbus and John "Ham" Robb, forwards, John Radovich, center, Joe Radetich and Elmer Bawden, guards. Kolbus and Bawden have recovered from the sprained ankles that hampered their play for a few weeks and are all ready to go.

Kolbus has been consistently "hot" this season, turning in high-scoring, smooth floor-working performances in nearly every game. He led the Wolves in counters in both Fresno contests last week.

Bawden and Radetich, veteran guard combination, will bear watching by the Tigers. Bawden has had a reputation as a "deadeye" on long shots since last season, while Radetich has been ringing up nice figures in the point column lately. His specialty, a one-hand push shot from any angle, consistently drops in without touching the hoop.

Rodvich, "Honest John," 6 foot 4 inch center, is another sharpshooter who can haunt an opposing team with a "pet" shot. His one-hander from the pivot spot rattled the Chico defense in the conference opener, and paved the way for both Nevada wins.

Robb, playing his third year as a regular forward, is the coolest player on the squad, and sparks the tight zone defense and fast-breaking offense of the Wolves.

Gordon Thompson, center, John Etchewind, Bob Cameron and Dean Croft, forwards, and Ray Harris and Ray Waldren, guards, will probably see action, with Milt Parsons ready to fill in at guard.

#### CONFINED TO HOME

Leslie Leggett, freshman student and newly initiated member of Sigma Alpha Epsilon, is confined to his home with a severe throat disease.

#### SPRAINS ANKLE

Pat Turner, senior student, sprained her ankle while playing basketball last night. Her condition is reported to be quite serious.

# April 23 Chosen Date for Annual W.A.A. Play Day

## Group Constitution Revisions Are Accepted at Meet Last Night

April 23 was the date set for the annual W.A.A. play day at a meeting of the Women's Athletic association held in the gymnasium last night. This play day will be on the order of former play days, with only a few changes being made. High schools all over the state of Nevada will send delegates to participate in the events to be held.

**May Have Dance**  
A dance play day may also be held this spring, although no definite date has been set for it. If this get-together is sponsored it will be handled through the dancing classes of the university. Revision of the W.A.A. constitution was passed upon by the group at their meeting last night also.

Following are the changes:  
Article 2, section 2. Initiation. New members will be initiated after each sport season. Initiation shall be a part of sport banquets.

Formerly one initiation was held in the fall and one in the spring.

Article 3, section 4a. The president shall call and preside at all meetings of the association and of the executive committee, and post notices of meetings at least two days before the meeting. She shall submit copies of the constitution to the new officers at the first executive meeting of the year. The incoming president shall go to the W.A.A. convention.

Before the new W.A.A. president read the constitution at the first meeting.

d. Treasurer. It shall be the duty of the treasurer to assist in making out budgets and to attend finance control meetings when necessary.

Before the treasurer handled all W.A.A. money.

Article 5, section 2. The reporter shall be dropped.

In the previous constitution, a reporter handled all publicity for the group.

Article 7, section 1. There shall be four meetings a year; one meeting at the end of each sports season. The meetings shall be part of the sport banquets.

Previously meetings were held only when necessary.

### By-Laws

Section 1b. Any person who does not actively participate in two sports a year shall be automatically dropped from membership in W.A.A.

Previously any woman attending several practices of any sport was considered a W.A.A. member.

Section 5b. W.A.A. shall promote at least one play day for high school girls.

Section 6. W.A.A. shall sponsor a play day for Lassen Junior college, Placer Junior college and Sacramento Junior college. This play day shall come in the fall of the year.

The last two sections have just been added to the constitution.

Before the constitution goes into effect it must be read before the senate.

## Dean Mack Entertains At Informal Teas

During the past two weeks of cold weather, Dean Margaret E. Mack, matron of Manzanita hall, has given a series of teas for the members of the association when they came in from afternoon classes.

This is the first time that these social affairs have been held and they have proved very popular. They are under the entire direction and sponsoring of Miss Mack.

On every Friday afternoon the Manzanita association are hostesses to the other sorority women on the campus at a tea from 4:30 to 5:30.

These teas are under the supervision of Helen Shovlin, social chairman.

## Coeds to Compete With Men in Riflery

Within the next two weeks, the Nevada coeds will compare their shooting ability with the university men's rifle team, and the Reno rifle team.

Sometime next week ten women will compete with ten men in the university barracks. The following week every woman eligible to shoot this season will put forth her most skillful efforts attempting to again defeat the Reno rifle team, which suffered at the hands of the coeds by one point last year.

Coeds Defeated

The University of Washington defeated Nevada by eight points this week, with the final score standing 499 to 491. Shooting on this team are Eunice Beckley, Grace Cantlon, Margaret Harrison, Mary Mathews, Lois Miller, Felicia Moos, Frances Smith, Gertrude Polander, Earlmond Baker and Emily Graunke.

Next week Nevada will compete with Louisiana State university, University of Pennsylvania, Indiana university, University of Wichita, University of Oregon and Kansas State university. Competition with all teams except Kansas university will be in prone position, and positions in competing with this team will be prone and sitting.

TRI-DELTS ENTERTAIN

With music being furnished by Merle Snider at the piano, the Delta Delta Delta sorority will entertain the Alpha Tau Omega fraternity at a tea dance in the chapter house on Sierra street, this afternoon.

Mrs. M. Shattuck, house mother, will pour tea from 4 to 6 o'clock.

## STUDENTS FIND NOVELTY IN ROCK DRILL

Two University of Nevada senior students, Bert G. Cummings and Marion C. Brooks, made an interesting discovery last spring when they were assigned to study the Burleigh rock drill in the Mackay School of Mines museum.

During their study of the drill they found that it had a feature in common with our present day drills. They found that this old drill, used between 1874 and 1878, had an automatic forward feed, an item in mine equipment that was not fully developed until many years later.

The Burleigh rock drill was featured in an article in the January issue of Compressed Air Magazine.

This drill was used in the drilling of the Sutro tunnel probably between 1874 and 1878 and is of much interest as a relic of the Comstock lode.

Some of the material for the article in the Compressed Air Magazine was that prepared last spring by the two senior students in their class assignment.

Through the courtesy of Professor Jay A. Carpenter, acting director of the Mackay school of mines, the two reports and accompanying photographs were made available to Compressed Air Magazine.

Photographs accompanying the article include: the small stamp mill in the Mackay museum which was given by James G. Fair to his 5 year old son as a Christmas present and was used by the lad to stamp out gold for spending money from rich ores given him by his father; the safe in the Mackay museum, formerly used by John W. Mackay when he was directing operations on the Comstock lode and now used to hold the school's collection of high grade ores; two Hale & Norcross pay checks showing the signatures of John W. Mackay and James G. Fair; the Burleigh drill shown in comparison to the smaller hand drill of the present day; a picture of Gen. U. S. Grant visiting at the Comstock lode, and the statue of John W. Mackay at the entrance to the Mackay school of mines.

Elizabeth Best was in charge of entertainment, assisted by Frances Smith, president of Gothic N.

## Artemisia Stages Track at Gothic N Party

Artemisia hall was the scene of an indoor track meet last night when Gothic N entertained the freshman women belonging to W.A.A.

Each event was introduced by a poem, after which the coeds participated in such events as a fifty yard dash, pole vaulting and other things one finds at a track meet.

In connection with the party the gymnasium has been adorned with jingles and cartoons for the past several weeks to stir up interest among the freshman women.

The purpose of the get-together was to acquaint the freshmen with members of Gothic N, and the activities of this group.

Refreshments were served after the track meet was completed and prizes in the form of animals were awarded to the winners.

Elizabeth Best was in charge of entertainment, assisted by Frances Smith, president of Gothic N.

## PLEDGES ENTERTAIN

This afternoon the members of the Gamma Phi Beta sorority were entertained by their pledges, when the regular semester tea was given.

Entertainment was given by the pledges from 3:30 to 5:30.

The loon's tiny wings, fine for swimming, are so small that it has to take a running start on water to get into the air.

## Military Dance Said Successful

Declaring the Military Ball a social and financial success, Basil Kehoe, president of Scabbard and Blade, stated that one of the largest crowds during the history of the affair was present at the State building Saturday night.

Miss Elizabeth Osborn, honorary major, led the grand march with Colonel William L. Reed at 9:40.

A description of the grand march was broadcast over KOH, along with a musical program from the dance floor from 9:30 to 10 o'clock.

Reuben Tuttle and Ray Sancts' orchestra furnished the music for the affair. Vocal numbers were given by Mary Kay Read, Ray Sancts and Reuben Tuttle.

There were only ten dances during the evening, due to the presentation of the official insignia to the new Scabbard and Blade members and the grand march.

## BLOCK N COMES THROUGH!

Attempt of the constitution revision committee to make a change in the system of awarding Block N sweaters is drawing considerable interest from campus groups, particularly Block N society itself.

While there have been no objections to a change, it being generally conceded that some sort of an alteration is necessary because of A. S. U. N. finances, there have been objections to the specific proposal advanced by the revision committee.

In substance, the change as proposed by the revision group would limit each player to one award in each sport, with provision for the presentation of certificates when a man re-letters in the particular sport. If a player wins three consecutive awards in a particular sport, he may be presented with an official blanket.

Block N society, on the other hand, turned around, and suggested that instead of limiting the number of sweaters, the time requirement for earning an award in football be raised from 25 per cent of total minutes played to 30 per cent of total minutes played.

The reason for Block N's decision to substitute an amendment of its own is hardly apparent, unless it be merely a desire of that group to show that it is still existent by participating in student government.

Had Block N taken the trouble to investigate its proposition and compared it to the one proposed by the revision committee, it would have discovered that it was offering a much better proposal to the A. S. U. N. as far as saving money is concerned.

Last semester, a total of 27 football awards were given, with 16 men lettering for the first time, eight earning final letters, and three making second year letters.

Had these sweaters been awarded on the basis of the change proposed by the revision committee, a total of 24 would have been given—16 for the new lettermen and eight for the outgoing seniors.

Under the change proposed by Block N society, the number of men eligible for letters would have been decreased to 17.

Thus, by using the system proposed to Block N society, the A. S. U. N. would have saved on ten awards, whereas on the other system, it would have saved only on three—a difference of seven, or evaluated into terms of dollars, approximately \$80.00.

Very nearly the same ratio has prevailed during the past few years, a check-up revealed. In 1935 and 1936, 21 awards were given each year.

Block N has unwittingly aided the A. S. U. N. by their proposed revision, but the matter is by no means settled. Their proposal affects only football players, and in order to do justice, similar changes should be made in the other major sports—basketball and track.

Has Block N enough interest and spirit to carry their own suggestion through?

## A. W. S. CHANGES TO AMEND CONSTITUTION

Proposed changes in the constitution of the Associated Women Students of the University of Nevada.

To amend Article IV to read: EXECUTIVE DEPARTMENT:

Section 1. Executive board:

The executive authority of the Associated Women Students shall be vested in a board composed of the women members of the A.S.U.N. senate.

Section 2. Officers:

The officers of this executive board of the A.W.S. of the University of Nevada shall be a chairman and a secretary-treasurer.

The office of chairman shall be held in rotation by each organization represented by the women member of the A.S.U.N. senate in the order of its establishment. This order is as follows:

- Manzanita association (1896)
- Independents (1900)
- Delta Delta Delta (1913)
- Pi Beta Phi (1915)
- Gamma Phi Beta (1921)
- Kappa Alpha Theta (1922)
- Beta Sigma Omicron (1931)
- Alpha Delta Theta (1932)

The secretary-treasurer will be elected from within the group at the first meeting of each year.

To amend article VII to read: MEETINGS:

Section 1:

Meetings will be called by the executive board whenever deemed necessary. Special meetings may be called upon presentation to the executive board of the A.W.S. of a petition signed by 25 active members of the association. Action must be taken on such petition within two days following presentation.

Section 2:

A regular meeting of the association will be considered properly advertised when notice has been posted 24 hours before the time set for the meeting.

To add article IX.

AMENDMENTS:

Section 1:

This constitution or its by-laws may be amended by a two-thirds vote of those voting, a quorum being present at a regular meeting of the A.W.S. provided that the proposed amendment was submitted in writing to the executive board at least two weeks prior to the meeting and during the same semester, posted at least ten days on the official bulletin board, and published at least once in the University of Nevada Sagebrush.

## LETTERS To The Editor

To the editor:

I propose—

That a student council to foster men's intramural athletics be provided for in the revised A.S.U.N. constitution. In such a council each fraternity, Lincoln Hall association and the Independents' organization shall have one representative and one vote. The council shall promote intramural competition by offering cups and otherwise attempting to create a wider interest in this type of activity on the campus.

Such a council as proposed would take over the part now played in intramural athletics by the Interfraternity council. All rules and regulations set down by the Interfraternity council governing eligibility of competitors and competition itself shall be adopted by the student council. An additional rule to insure the permanence and continuance of the proposed council should read: "Any member organization which fails to pay prorated amounts for awards, dues, or otherwise violates the rulings of the council, shall automatically forfeit its membership, which it shall retain only with unanimous approval of the remaining members."

The reason for this proposal? Not more than 60 per cent of the men on the campus, those affiliated with either a fraternity or Lincoln Hall association, have any special inducement for participating in intramural sports. The remaining 40 per cent, who are Independents, have no reason for entering intramural competition other than a recreational one. One organization, such as the Independents' group, is unable to offer all its men who compete in the program, awards similar to the championship cups offered members of the Interfraternity council.

The Independents' organization applied for membership in the Interfraternity council for the sole purpose of contributing toward the expenses of cup awards in each sport, and to become equally eligible with other groups to receive those awards. The application was denied on the grounds (1) that the Independents was not a fraternal group, and therefore had no mutual interests with fraternities other than in the field of intramural athletics; (2) that a limited membership such as applied for could not be granted under the Interfraternity council constitution; (3) that the permanence of the Independents' organization was not assured, and that the numbers of Independents gave that group unfair advantages over fraternities. I think that was about all.

Objection number one is erased by this proposal to create a new council, with a lone and specific interest in the student side of intramural sports.

Objection number two is erased by this proposal to create a new council, with a lone and specific interest in the student side of intramural sports.

Objection number three is answered by the rule which is proposed above to be added to those now enforced by the Interfraternity council. Should the Independents dissolve for one year, they would lose their membership with the chance of regaining it solely in the hands of the fraternities and Lincoln Hall.

The number of Independent men eligible for competition would be limited by the rules enforced by the Interfraternity council regarding eligibility of intramural athletes.

As a corollary to objection number one above to the Independents being admitted to the Interfraternity council on the ground that it was not a fraternal group, may I point out that the Interfraternity council, therefore, should confine its interests to matters affecting fraternities alone.

The Interfraternity council, though its action in lending impetus to the intramural sports movement to date is certainly commendable, should not be compelled to take further interest in a matter which concerns the entire male student body. Intramural athletics should be made important to 100 per cent of the men in school as is now the case. I feel that a student council, open to groups which would represent the entire male student body, would be better able to raise intramural sports to the position of importance it deserves than can the Interfraternity council, which acts solely in the interest of less than 60 per cent of the men student body.

This appears to me to be a method of improving the student life in general which cannot be objected to on any ground which is not apparently selfish and obviously the result of harmfully placing clique interest above the interest of the student body as a whole.

Critiques, harangues, blasts, etc., to this proposal will be answered. Support, oh, yes, support—especially, will be heartily welcomed and appreciated.

MAX JENSEN.

## Returns to Classes After Short Illness

Professor R. C. Thompson, dean of men, returned to his classes Wednesday morning after two days' confinement to his home from a slight case of flu.

Thompson's illness was one of the numerous cases of severe colds that swept the campus following the snow storms. The university hospital staff reports that the winter weather has resulted in a considerable addition to the number of cases of the prevalent "common cold."

## DIGGING IN - - - - By Parsons

## HORATIO HALGER --- ON THE SKIS

By HORATIO

When Monday came, the only thing I was sorry about was that Monday always comes after Saturday and Sunday, which is followed by Monday, which means that the two days before must be the two days in the week which conclude and commence the week you are in and the one you just finished, don't it? All of which simmers down to the fact that they were the days that I went skiing.

Under the doubtful cognomen of Horatio, I proceeded to gather the necessary equipment with which to master those skittish skids known as skis.

Under the expert attention of a ski expert I was enabled to obtain expert ski equipment from salesmen experted in extracting the last vestige of pecuniary possibilities from the unwary's pocket, which should make me some kind of an expert.

With such nice equipment I felt that I should immediately do something which would deserve them being owned by me. With that in mind I made my light footed way to see the coach of the Nevada ski team. Upon entering the door I could see the coach hunched over the table. Immediately I said, "See here, coach, I'm going out for the ski team."

(With that sally we said grace and sat down to a five course dinner which consisted of a four decker sandwich and a glass of water, tasty victuals, what.)

But anyway with that sally he laughed till the rafters rang; I answered the phone and promised both Mr. and Mrs. Rafter that we would quiet down.

Being firm in purpose I wouldn't let the coach's retort to my application to his ski team scare me out, so I suggested that he allow me to enter the time trials which were to be held that weekend. That was okeh, and he turned out to be a real nice fellow because he suggested that I use that new ski that was designed, he said.

for "Kister Shusers," which is called "Kister Kister on the Rumpellog."

Came early Friday night, and with my cronies I decided to go around town and see what a pale pink color looked like on the edifices along Va. street. Saturday morning when the judge said 30 days on good behavior and suspended sentence, I learned that after 12 scotch and sodas, five beers, three whisky straight and several miscellaneous mixed concoctions, that I had been unjustly accused of doing a galendesprung over a dear old lady's bed who lived in the apartment next door. (It wasn't a galendesprung at all, I was just trying to catch her; she was running around her room trying to keep me from borrowing back the bottle of scotch I had lent her for the Pink Tea party she had thrown the week before.)

However, when I reached the hill on which the time trials were being held, the coach, with an evil gleam in his eye, while mine looked like I had washed them in mercurochrome, and said simply that the trials for the slalom were being held then. So off I went.

WALDORF THE PLACE WHERE COLLEGIANS DRINK REAL COKES WALDORF

## PICKLED PLATTITUDES

By MAX JENSEN

(Written for Jensen by Ghost Writer No. 4) Jensen and I sat down to write his column. After a brief sit, we had a brief stand, and did this alternately until we got tired. Then we lay down on the floor. It was quite cozy down there, except for the rats, yeah, Brackett and States dropped in for tea.

After a brief respite on the floor, Jensen sought the advisability of hanging from the balcony by his legs. It did not take long to test the advisability, and Jensen's quaint remarks as he lifted himself from the first floor of Tammany Hall, known in B.S. as the A.S.U.N. citadel, have been censored by the editor, with good sense.

Then came what in these circles is known as the Wednesday night swing session, at which time the bull is grasped firmly by the tail and swung with some vigor until Jensen has material for his column. However, this was of great disappointment to Jensen and his column, we only got half way through the blondes on the campus when one of them walked through the door and swingsters set out in hot pursuit. (Several hours later. Latest Bulletin from the swingsters is that the blonde's old man landed and had the situation well in hand, for three of them showed up the next day at school with orbs of a rather blue hue.)

However, at 11:30 we looked at the clock and it was 11:30, much to our surprise, and still nothing accomplished, surprise, and still nothing accomplished. The column had to come out rain or shine (only the rain was left, our pants now did a beautiful job of the rest). Then it started to snow.

Jensen with fervor jumped out of his seat and shouted "Eureka. I've got it."

We hung on his every word awaiting what the momentous decision which

might reshape the world would be. Finally, when the silence was deafening, I rose out of my lethargy (I write pretty, don't I) and shouted "for Ch—'s sakes, what?"

Came back the brilliant Jensen, "That bad bug—he's had a free ride long enough."

"Bilge" of course came in with his classic remark, with the feeling and fervor which only "Bilge" can emulate, and tersely remarked "Jock," but that said volumes (our thinking was censored).

Turning back to the subject at hand, we decided that a bird in hand wasn't so good, so we turned to the subject of politics.

Finally someone said that someone looked in the mirror at his house and set bear traps all over the place and someone laughed and we went quietly to sleep again.

It may have been an hour later when I got my inspiration. Briefly it was to write a book. Not so briefly the name of the book was to be called "Gone with the Binge," in memory of the forgotten idea of the evening.

## First Place Honors to The Winner

It will be a fight for top standing in the Far Western conference basketball tourney when the Wolf Pack meets the undefeated College of Pacific Bengal Tigers in the local gym tonight and tomorrow night.

Pacific is in first place with an average of 1,000 by merit of two straight wins over Chico. Next in line is Martie's Wolf Pack with two wins over Chico and a split series with Fresno.

"Watch Mick Parsons" will be the cry of the Nevadans when the games with Pacific roll around. Mick and his brother, Beck Parsons, were the scoring wizards of the Bengals last year. Beck went through the season to cop scoring honors of the C. of P. five; next in line was brother Mick. Beck graduated from his alma mater last spring and reports from the bay region are to the effect that Mick is following in the footsteps of his brother.

The Bengals account for their good record thus far in the season to Willie Myers, publicity director of College of Pacific sports. Not that Myers is able to participate in any of the Bengals' contests or because of his writing ability, but because his presence is a symbol of "good luck" to the Californians and when he is around the C. of P. lads are invincible.

As evidence of this superstition, the Californians point to their records in sports for the past two years. During the 1936 football season Myers handled the publicity for Coach A. A. Stagg and his C. of P. gridgers and the Bengals completed the season with the Far Western conference crown. Shortly after this the scribe left his course of study at the institution to take a trip around the world, and the Bengals haven't had a conference crown resting on their cranium since. But now that Myers is back the Wolves' opponents forecast a victory in the two games this weekend.

## Still a Chance For Handball Tie-Up

Three of the university's leading handball players are anxiously watching the performances of one Lefty Mayer, a batting "southpaw" from Phi Sigma Kappa, with great anticipation of his defeat. However, at present no one has succeeded in stopping the determined march of Mayer for the title. The closest he has come to seeing defeat was by losing one contest of a three game match to Lincoln hall's Eddy Kulhan this week.

Should Charley Turner, Beta Kappa, stop Mayer when the two meet, the tournament will be knotted in a three way tie for first place, with Bill Peccole, S.A.E.; Turner; and Mayer each with a record of one loss.

## Ski Spillings Related by Doherty

Nevada's sturdy men in the snow fields afar acquitted themselves admirably and would have won the meet if, and that thing's in again, they had had any luck in the slalom race. Concede an outside chance to show good in the crosscountry the men of silver and blue lost nine points in the arduous event, and were within two-tenths of a point in the downhill race.

During the first day of the slalom, a controlled race through several gates, the Nevadans were on top of the heap, ranking right next to Washington despite the fact that they were the last team to have a man to run the race. Came the second day and things did not fare so well. Earl Edmunds, bulwark of the team, was disqualified for missing a gate. Jimmy Worden, one of the best men in the Sierra in negotiating the difficult flush, fell going between two flags. A flush, incidentally, is when several flags are lined up seven feet apart and the skier must go through every opening. Then Don Fanning caught his binding against a pole and lost fully 50 seconds before he could extricate himself.

Finally came the jumping. It was Nevada's forte, as previously stated, and the Sagebrushers did mighty fine, taking three out of the first four places. And now all the Nevadans are doing is praying for a chance to once again display their abilities at the invitational meet sponsored by the Washingtonians at Mount Rainier some time this or next moon.

## Tri-Delts Feted By Lambda Chis

Last Wednesday evening from 7 till 8 o'clock the Lambda Chi Alpha fraternity entertained members of the Delta Delta Delta sorority at a social hour in the chapter house at 255 University terrace.

Music was furnished by Merle Snider at the piano. During the hour songs of the two houses were sung. Ice cream and cake were served during the evening.

## Frosh to Meet Susanville 20-30s, Fallon This Week

### Coleman Sees Hard Fought, Close Games But Cub Victories

### Freshmen Improve Rapidly In Shooting During Week

After their rest last weekend, the frosh hoopsters will face stiff work-outs against the Susanville 20-30 club tonight and Fallon high school tomorrow night. The games will be played on the university court and will start at 8:45.

According to reports, the Susanville service club will put a good outfit on the floor, and will give the frosh plenty of trouble. The Twenty-Thirtys all are former high school and junior college stars, and although short on practice they have a better than even chance of licking the cubs.

Fallon high, after a "rest win" over Winnemucca last week, is in good shape, and it, too, should give the yearlings a scare. The Fallon outfit will be handicapped by the size of the university court, the Churchill boys being used to playing on their floor, which is under the regulation size. Coach Jim Coleman, the Cubs' head man, figures that the Fallon team will "give out" in the second half, due to the size of the floor.

In his comments on the prospects of the games, Coach Coleman said, "They ought to be close, hard fought games, but we should win by small margins. If the frosh play the ball they are capable of we will win."

During the past week, the frosh have shown rapid improvement in their shooting, being able to sink them from any position on the floor with pleasing regularity. According to Coleman, their team play is not up to par, but is gradually improving.

John Lemich, former Ely high school basket tosser, will start at forward. Hawkins, a "dark horse" who has been coming to the top fast, will be the other forward. Lee Conway, who shared scoring honors with Hawkins against Wadsworth, will be the center. Cobega and Donovan, consistent and good ball handlers, will start at guard.

## Wolf Cubs Crush Wadsworth Five

Demonstrating an ability to hit the hoop from all angles, the Nevada Frosh basketball squad crushed the Wadsworth high school five Friday night by a 45 to 16 score.

The outcome was never in doubt as the dead-eyed cubs began garnering points from the opening gun. Coach Coleman kept his team's score down as he substituted freely and gave every one of his players a chance to "show his stuff." In all, 17 players saw action for the Frosh.

A contest scheduled for Saturday night was called off when the Dayton high school squad was unable to reach Reno because of the snow.

## BENGALS PLOT AGAINST WOLVES

COACH RALPH B. FRANCIS AND HAL KNIVETON-GUARD

## Whites, Blues Lose Reno League Contests

In a clean, exciting game played at the university gymnasium last night, the Reno Print finally edged out a victory over the U. of N. Blues by a score of 27-25.

The game went into two overtime periods, for at the end of the regular time the score was tied 21-21. In the first overtime period both teams managed to score three points, leaving the game still tied at 24-24. In the final period with seconds to go, Ted Barnes, Print guard, sank a long one to give the Printers a hard earned victory.

The first game played last night between the junior varsity Whites and the Waldorf club ended in a decisive victory for the Clubbers 28-14.

## Pack Splits Series To Drop From First Place

The Nevada Wolf Pack slipped from first place to second spot in Far Western conference hoop standings over the weekend when they split their series with Fresno State college.

The Wolves dropped a heart-breaking 46-44 decision to the Bulldogs in the series opener, after leading all the way. Saturday night, however, Nevada reversed the result, spilling the Fresnoans to the tune of 42-37.

Friday night's game was a thriller from the point of view of the Fresno stands, as they saw their team trailing until the last few minutes of play. Then the Fresnoans staged a rally that put them two points in front of the visitors as the gun brought the game to a close.

Fresno's center, Croson, was the sparkplug in this rally, and he also led both of the teams in the scoring honors for the night with 13 points. He was followed by his own teammate, Toby Lawless, who had 12, while Kolbus and Harris of Nevada each had 11.

In the Saturday night game the Wolves held the lead until late in the first half, when Fresno again looked as though it might duplicate the previous night's play as it rallied again to tie up the count at 35 all. The combination of Kolbus and Robb was clicking, however, and the six points that was put in between them in the closing play was enough to put the game on the ice.

Warmerdam of Fresno was the high point man for the evening with 16 tallies, followed closely by Dick Kolbus, with Ham Robb, his running mate, next in line with 11 points.

## DANCE POSTPONED

The Manzanita Hall association dance planned for tonight has been postponed due to the cold weather and the Pan-Hellenic dance tomorrow night.

Helen Shovlin, social chairman, said it would be held at a later date.

## HE SEES WHO BUYS WHAT TOBACCO

Like so many other independent experts, Bill Whitley, Tobacco Auctioneer of Henderson, N. C., smokes Luckies

**WILLIAM D. (BILL) WHITLEY** sold over 15 million pounds of tobacco last year. It's easy to see that he's an expert who knows tobacco.

So it's important to you when he says... "At 14 different markets in Georgia, North Carolina, South Carolina, Tennessee and Kentucky, I've seen Luckies buy the best tobacco. I figure it's good tobacco that makes a good smoke. So my own cigarette is Lucky Strike!"

"I've noticed, too, that independent buyers, not connected with any cigarette manufacturer, smoke Luckies more than any other brand."

Mr. Whitley is correct. For sworn records show that, among independent tobacco experts, Luckies have twice as many exclusive smokers as have all other cigarettes put together. Remember: The men who know tobacco best smoke Luckies 2 to 1.

**HAVE YOU HEARD "THE CHANT OF THE TOBACCO AUCTIONEER" ON THE RADIO?**

When you do, remember that Luckies use the finest tobacco. And also that the "Toasting" process removes certain harsh irritants found in all tobacco. So Luckies are kind to your throat.

**Sworn Records Show That... WITH MEN WHO KNOW TOBACCO BEST-IT'S LUCKIES 2 TO 1**

## Horatio Halger

(Continued from Page Four)

Arriving at the top of the hill I suddenly decided that it might have been a good idea to have sworn at the judge and stayed in the local bastille.

However, when the first young lad went down the hill I didn't feel so badly, he missed every flag. So when they called my name I set off, I was a virtual panic. A demon incarnate, an instrument of Hades, in fact I was pretty good. Out of the 32 possible flags I only missed one, and it was stuck in the ground so hard that a team of mules had to be called on to dig it out. I felt pretty good, except for the many bruises which graced my now triumphant figure.

The ah's and oh's which I had expected were gasps of glee, and whiz, sometimes even going so far as to put them together. But I was happy. Finally when the trials were over and the rest of the fellows didn't take out more than one or two apiece, I knew that I was the star of the outfit. The coach came over to me and as he went by the only salute he gave me was, "Whee."

Following the race as we all tramped down the hill, one of the fellows drew me off to the side and commented on my outstanding performance, with some reservation for the sitting part, and blithely suggested that the idea of the race was to miss the poles by going around or between.

Well, I was so surprised that you could be knocked me down with a feather, or with a short length of lead pipe, but if you think I'm going to sit here and tell you how to knock me

down, then you're crazy.  
(Ed. note: Don't talk to the cash customers that way, lug.)  
Shut up, Ed.  
Who's getting knocked down, you or me?  
When he told me that I guess I must have fainted. Because when I came to they were daintily massaging my face with a bucketful of water. And my first valuable lesson in skiing was completed. I know now that the old adage "If at first you don't succeed, pry and pry again." So that opened the way to the next lesson, "Beauty is only skin deep, but it's a game after all." (Get it, skin game, hah! hah!)  
(Keep posted on Horatio's skiing by reading next week's installment in the Sagebrush)

Get the "hello" habit.

### Entries Deadline For Mackay Queen Set for Feb. 25

#### Moving Picture Producer Will Select Winning Coed

### Students and Faculty Asked To Wear Celebration Costumes

Deadline for entries in the contest for the Mackay Day queen was set at February 25, it was announced this week by Duncan Dorsey, chairman of the committee in charge of the celebration.

A representative will be chosen by each sorority, the Independents and Manzanita hall to participate in the contest. A picture of each contestant must be sent to the committee, and the photo must be 8 by 10 inches in size. A moving picture producer or director will make the selection.

#### Dance Decorations

It was decided at the meeting Tuesday that there will be a limit of \$2 which a sorority might spend in decorating its corner of the gymnasium the night of the dance. The Independents will also be eligible to compete in this contest, and an award will be given to the organization having the best decoration.

All students and members of the faculty will be asked to wear costumes appropriate for the occasion on both Friday and Saturday. In previous years such dress was worn only at the dance.

A sheriff and a posse will be appointed by the committee to take into custody all those who do not wear the proper apparel. A definite punishment for the offenders has not as yet been decided upon, but plans for it will be discussed at the next meeting, Dorsey said.

Arrangements are being made to have two blocks on Ninth street and University avenue shut off to traffic. No cars will be allowed on the university grounds, including the section behind the gymnasium, Dorsey said. Those who wish transportation to school will have to use bicycles or ride horseback.

A subcommittee composed of George Hardman, Ross Ashley and Gordon Thompson was appointed to make all plans for the sale of tickets for the Mackay Day luncheon. The tickets will go on sale March 25.

The committee will attempt to serve the lunch in the upstairs as well as downstairs of the gymnasium in order to accommodate several hundred students and alumni who are expected to attend. The tables will be arranged by classes as in the past year, and freshman women will take charge of all serving.

The men of the campus will put away all shaving utensils on February 20, which will mark the beginning of the annual whiskering contest. All males will be compelled to grow a beard unless a satisfactory excuse is presented to members of the men's upperclass committee, which will take charge of all deliberate offenders.

Judges of this contest will be five

### Skiers Place Second In Contest at Yosemite

For the third successive year the University of Nevada ski team placed second in the Pacific Coast Intercollegiate ski meet when they were unable to best the favored University of Washington team at the meet held last week end at Yosemite.

Despite their domination of the jumping event, the Wolves were erratic in the other events, failing to place a man in the slalom and garnering a lone eighth place in the crosscountry.

Earl Edmunds, Wolf captain, led his teammates in scoring by tying for first in the downhill race with the time of 4:53.3, and placing second in the jump.

#### Win Jumps

He was closely followed by Carl Bechdolt, crack Nevada jumper, who copied first place honors in the jump event with a leap of 91 feet and who also won a fifth place in the downhill race.

James Worden also finished in the scoring column with a fourth in the downhill race along with Jack Starrett, who took fourth in the jump.

By virtue of their second place in this meet, the Nevada skiers are still in third place in national ranking, with Dartmouth and Washington in first and second places, respectively.

The final standings of the Yosemite were: Washington, 389.2; Nevada, 378.1; Stanford, 331.7; U. C. L. A., 282.7; Fresno, 231.9; Sacramento J. C., 227.1.

#### STAG NIGHT PLANNED

A stag night held each semester for the pledges of the Phi Sigma Kappa fraternity will be held tomorrow night in the chapter house on Lake street.

Refreshments will be served immediately after the basketball game.

persons who are not students. According to Dorsey, professors and townspeople will be asked to choose the winners of this contest.

It was also decided to dispense with the selling of tickets for the dance before the affair, and instead they will be sold at the door.

A nautical radio beam is effective for approximately 100 miles.

### Sagens Will Sell Ice Cream Bars

At a meeting last night the Sagens made plans to sell thirty-five dozen ice cream bars at the Nevada-C. of P. series, Eunice Beckley, president, said. Women interested in qualifying for membership in the group are asked to report to help in the sales, she added. In charge of the sales are Jeanette Hutchins and Reveau Hanson.

The annual Sagens dance will be held March 5 at the I.O.O.F. hall. The dance will be a sports affair, featuring cards, sweaters and skirts. The dance committee consists of: Juanita Elcano, chairman; Mary Alice Plath and Marie Belz, Mary Margaret McGill and June Bradbury are in charge of publicity.

Donation to the Rita Hope Wine scholarship will be postponed until a financial report is made, Eunice Beckley said.

### S. A. E. Initiates Fourteen Pledges

Fourteen pledges were initiated by Sigma Alpha Epsilon fraternity this week, according to Jack Hansen, president.

Following the initiation ceremonies, a dinner was held at the Toscano hotel, with Harold Luce, alumni, presiding, and at which several other members of the active chapter and alumni made speeches.

Those initiated include Leland Strauch, Blake Speers, William Pecole, Perry Carlson, Heath Hovey, John Pierre, Thomas Rice, John Spann, Joe McDonald Jr., William Byington, Robert Madison, Herbert Austin, Leslie Leggett and James Shepley.

### Tau Initiates Give Groans of Agony

With the swish of paddles and the groans of pledges who were bearing the brunt of their sting, Alpha Tau Omega began its official Hell Week at midnight yesterday.

Save your stories for the 'Brush.

### Pacific Leads Race For Basketball Crown

A battling crew of Tigers from College of Pacific stood at the top of the Far Western basketball heap at the end of last week's battles. The Bengals earned their position by virtue of two crushing victories over the Chico Wildcats last weekend. Scoring at will, the Pacific five won 50 to 33 and 41 to 23.

Trailing the Stockton crew in second place is the Nevada Wolf Pack. The Wolves dropped their first conference game Friday when Fresno State upset them 46 to 44. Against this lone defeat, the Pack has chalked up three victories. They won over the Fresno crew Saturday night, 46 to 37, and have two wins over the Chico Wildcats earlier in the season.

By virtue of their Friday victory over the Nevadans, Fresno is in third place with one game won and one lost for a .500 average.

Chico's Wildcats are holding down the number four spot with two wins and four losses. They won two straight over the Cal Aggies, who are in the cellar position with two losses and no wins.

Pacific, Nevada and Fresno are thus left in the running for the crown. The first two mentioned meet this weekend in Reno to determine the league leader.

Nevada ends its season two weeks hence against the Cal Aggies on the university floor.

The standing of the teams is as follows:

	W	L	Pct
Pacific	2	0	1.000
Nevada	3	1	.750
Fresno	1	1	.500
Chico	2	4	.333
Cal Aggies	0	2	.000

An amateur photographer scooped a group of professionals recently by obtaining the only distinct action shot of the Niagara "Honeymoon" bridge collapse.

### C. Es. to Sponsor Bridge Pictures

Forty-five minutes of colored sound movies, dealing with the construction of the San Francisco Golden Gate bridge, will be sponsored by the civil engineers on Engineers' Day.

The movies will be furnished by John A. Roebing & Sons, cable manufacturers.

An attempt is being made to secure five reels of black and white silent movies on the manufacture of steel.

Movies dealing with the manufacture of pit cast pipes, a special kind of iron pipe, were shown to the civil engineering group at their meeting last week.

### Basketball Special Will Leave Next Thursday

The basketball special to San Francisco will leave Reno on Thursday, February 17, at 8:30 p. m., Herb Winer announced today.

The price will be \$5.40 round trip. The train will carry a club car or a car for dancing. Tickets may be bought from Blake Speers, Herb Winer or Walter States.

While in San Francisco Nevada will make its headquarters at the Powell hotel. The management of the hotel has offered special rates to Nevadans. Those wishing reservations may secure them by writing to Win Read at the Powell hotel.

### Nevada Transfer & Warehouse Co.

### Mayer Leads Phi Sigs to Top in Handball

Still remaining on top of the annual intramural handball tournament is Lefty Mayer, Phi Sig southpaw, by virtue of a 21-12, 10-12, 21-12 hard fought victory over Eddie Kuhlman of Lincoln Hall.

In a two-cornered tie for second place are Charlie Turner, Beta Kappa, and Bill Peccole of Sigma Alpha Epsilon. In games played Saturday, Sigma Phi Sigma defaulted to the S.A.E.s, and the contest between S.A.A. and Beta Kappa was postponed because of an injury to Turner's arm.

On Wednesday Lincoln Hall's Eddie Kuhlman defeated Jim Griswold, Sigma Nu, 21-15, 21-5, and Kenneth Dimmock lost to Lefty Mayer 21-5, 21-15.

No games were played Wednesday, with Sigma Phi defaulting to A.T.O. and the Independents defaulting to Sigma Nu.

Even an upright man may have his inclinations.

### STATE FOLKSONGS SOUGHT BY HIGGINBOTHAM

A. L. Higginbotham, professor of journalism, is searching for Nevada folksongs suitable for use on the University of Nevada broadcast in July.

The type of songs Professor Higginbotham is looking for includes those which are sung around the buckaroo's campfire; characteristic ballads of mining days; Indian melodies known to pioneers, and any other songs which are characteristic of the state's life.
