

Second Largest University Class Received

Four Students Slated For Advanced Degrees

With four students—Ida De Nevi, Charles L. Hill, Frances M. Wood and Angus Bethune—receiving advanced degrees, the second largest graduating class in the history of the University of Nevada will be granted diplomas at commencement exercises next Monday morning.

The 156 graduates matches the class of 1934, tops last year's class of 151 and the class of '36, when 154 students received diplomas. Since 1928, when 138 students graduated, there have been over 119 students receiving diplomas each year.

As in the past, by far the largest proportion of students will receive degrees of bachelor of arts, with bachelor of science in medicine, mining, agriculture, civil engineering and electrical engineering degrees in that order. Thirty-two students will receive teaching diplomas for grammar and high school.

Jobs For Graduates

With the current depression, department heads are finding difficulty in placing students for jobs, the civil engineering department being the only one to place all graduates. Next in order for job placing, the mining department has announced that all but three of its graduates are placed. Dr. Frandsen, department of biology head, stated that all pre-medical students intend to continue at studies at medical schools prior to entering the field.

Students receiving bachelor of arts degrees:

- John Armbruster
- Samuel Basta
- Clyde Beck
- Gladys Blair (Dec. 22, '37)
- Nina Bosckiewicz
- Lloyd Bowen
- John Brackett
- Donald Brandon
- Alvin Lynd Brown
- Kevin Callahan
- John H. Cleary
- Robert M. Cleary
- Marshall Creel
- Dean Croft
- Grover De La Mare
- Charles Doherty
- William H. Elwell (Dec. 22, '37)
- Harold Foremaster
- Gaynell Giblin
- Margaret Gill
- Frances Haire
- Hattie Hard

- Christie Hermansen
- Felton Hickman
- Winifred Hiltonen
- Ellen Hoffman
- Mrs. Edith Holmes
- Chester W. Howard
- Laurada Jarvis
- Max Jensen
- Beverly Joyce
- Paul Lalolo
- Donald Leighton
- J. Paul Lommori (Dec. 22, '37)
- Mrs. Irma Loforth
- James M. Mapes
- Rosalys Martinez
- Mary Mathews
- Katheryne McCleary
- Russell McDonald (Dec. 22, '37)
- Hollis McKinnon
- Stanford McNair
- James McNeely
- Lois Miller
- Robert C. Miller
- Murray M. Moler
- Edith Dutton Orr
- Joseph Radetich
- Walter L. States (Dec. 22, '37)
- Thomas Shone
- Rebecca Fadel (Dec. 22, '37)
- Kenneth Tedford
- Margery Totman
- James B. Twombly
- Prescott Wilson

Students receiving high school diplomas and bachelor of arts degrees:

- Norma Anderson
- Thelma Armstrong
- Elizabeth Best
- Charles Calhoun
- Grace Cantlon
- Camille Crosby
- Elizabeth Fredrickson
- Eleanor Gardella
- Jeanette Green
- Elda Haslett
- Beverly Jones
- Melva Lauritzen
- Josephine Little
- Lincoln Liston (Dec. 22, '37)
- Jessie McClure
- Elizabeth Naismith
- Frances Nichols
- Elizabeth Osborn
- Virginia Posvar
- Ruth Rowe
- Jean Smith
- Raymond Tennant

New AWS Chairman Announces Plans For Coming Year

Definite Purposes of Women's Group to Be Stressed By New Leader

Helen Shovlin, new AWS executive board chairman, has formulated several new plans for the coming year for the Associated Women Students.

Miss Shovlin feels that talks by prominent Reno women at the AWS meetings will be worthwhile for the group. Vocational talks by Reno business women are a part of the planned program.

"I feel that the AWS meetings should have a definite purpose, and in view of this there will not be an AWS meeting every month as there has been previously," Miss Shovlin stated.

Executive Council

The executive council, composed of the senators from the sorority houses, will handle most of the business of the AWS, and meetings will only be called when there is some reason to do so.

Another idea that Miss Shovlin received from the recent AWS convention at Pullman, Washington, was that of having the women students present a radio program. The women students at Oregon have done this and found that it was very successful, Miss Shovlin declared.

"I would like to see the Nevada women students do something like this. It would advertise the University of Nevada to students in the state and make them realize that we have a college here," she said.

AWS students who will be hostesses at the annual tea at Manzanita Hall tomorrow afternoon are: Eunice Beckley, Clarethel Masterson, Charlotte Caton, Helen Brown, Mildred Woodward, Georgia Cooper, Mary Boczkiewicz, Kathleen Meeks, Teletha Kirm and Helen Shovlin.

Both men and women are invited to the tea, it was announced. Miss Shovlin intends to formulate other plans during the summer vacation and to have them ready to put into practice at the beginning of the school year, she said today.

Initiation Held By S. A. E. Monday

Initiation for new members and a dinner for new members and graduating seniors was held Monday night by members of Sigma Alpha Epsilon fraternity.

The initiation was held in the Ross-Burke chapel at 5:30, after which the members adjourned to the Lincoln Hotel in Sparks for the banquet.

New members receiving the formal degrees were Carl Bechdolt, Jr., Steve Podesta, Geno Pisani, James Worden, Craig Tranter and George Marsh.

Graduating seniors honored at the banquet included Russell McDonald, Kirk Fairhurst, Russell Bailey, Mel Wilder, Don Fanning and John Armbruster.

Nevada Art Exhibit Open At Library This Week

An exhibit of work of Nevada painters and sculptors was opened Monday at the university library and will be open to the public through Monday, May 9.

Nineteen exhibitors presented over one hundred pieces for the exhibit, with paintings in oils, water color, pastel, etchings, sculpture in both plaster and wood carving and hand-painted china contained in the exhibit.

The pieces were judged by experts Sunday and the pieces chosen as outstanding will be sent to Rockefeller Center, New York, for the showing of the third annual exhibition of American art to be held between June 14 and July 31.

Among the winners of the exhibit was a painting by Cliff Sagerbloom, junior student at the University of Nevada, whose painting, "Indian Boy With a Jug," was adjudged excellent by the state committee.

Other winners whose works were selected are: Paintings—Robert A. Griffin, Zella Key Piersall, Dr. William Bernard Johnson and Minerva Pierce, all of Reno. Sculptures—Frederic Forbusch of Elko.

A photography exhibit prepared by Ned Westover, senior student at Nevada, is also shown at the exhibit.

The gallery will be open to the general public from 2 to 5 p. m. and 7 to 9 p. m. every day this week, including Sunday, May 8, and on Monday, May 9, from 5 p. m. only.

Miller to Work For United Press

Robert Miller, 1938 Nevada journalism graduate, will become assistant manager of the Fresno, California, bureau of the United Press the day after his graduation next week. Miller is the second of this year's journalism class to be chosen by the United Press, world-wide news-gathering and distributing organization. Murray Moler is now on the job as head of the U. P. radio news processing bureau in Salt Lake City.

Miller did his newspaper internship course required of all senior majors in journalism, with the Reno United Press bureau, under the direction of Ernest Foster, bureau manager.

The Kappa Alpha Theta annual formal will be held this Saturday night at the Riverside Hotel. Chaperones will be Dean and Mrs. A. C. Thompson and Dr. and Mrs. P. A. Lehenbauer.

With The Wolfettes

By LOUISE LEONARD

One member of the Women's Athletic Association is still awaiting word from the registrar as to the possibility of his graduation. According to the latest rumors, he may stay around until next year, so he can annoy all the W. A. A. amazons in the dressing rooms. The character in question is none other than the frog who made his appearance in the women's showers three weeks ago. So far, all efforts to capture him have been in vain.

One, two, three—swing, swing, swing—and right out of the gym they go. Of course, the swingers are members of the dancing classes, who concluded their work this week.

Verna Bullis, representative to the Athletic Federation Conference for American College Women, returned last Monday from the scene of the convalesce at Pullman, Washington. She was the official delegate from the local W. A. A.

W. A. A. activities for the year were concluded this week with a meeting held by the new executive

committee which will handle the organization's affairs for next year. According to Betty Kormmayer, president of the group, a very active program has been planned for next fall, and it will include the sponsorship of several new sports.

Moving pictures of the spring dance festival, tumbling and several athletic contests which were held two years ago, were shown yesterday afternoon in the Mackay Science building. This was the first time that such a program has been given, and plans have already been completed to have movies taken of the

W. A. A. activities next year.

ELECTRICAL QUIZ

How many of these Questions can you Answer?

1. What was the first successful application of reduction gear drive to a large marine vessel?
2. How many kinds of heat are supplied by the "Corox" surface units of a Westinghouse electric range?
3. Who introduced the Parsons steam turbine to the United States?
4. What are the seven major types of rectifiers?
5. What alloy, consisting of non-ferromagnetic elements, is nevertheless ferromagnetic?
6. What type of power is used on the electrified portions of the Pennsylvania Railroad? What voltage?
7. What and where was the first commercial "repeating" broadcasting station?
8. When were the main rolls of a steel mill electrified for the first time?
9. What was the first large-scale display of incandescent lighting ever seen?
10. What is a sterilamp?

Poetry

The following poem was written by the Reverend Henry B. Thomas and read before the student body assembled at the Mackay statue last Mackay Day. It was wired to Clarence H. Mackay in New York by his daughter, Mrs. Katherine O'Brien, who was present at the Mackay Day celebration:

CANTICLE OF THE MOTHER LODE

By THE REV. HENRY B. THOMAS

O clap your hands, ye people,
And all ye hills give praise.
Across the desert comes a wind
With a song of older days.

Be silent, all ye people,
And hold your praise, ye hills,
The desert wind is a minstrel voice,
With a hum of miners' drills.

Breaking a lonely silence,
Breaking a glittering tide,
Telling a saga of wonder,
Of beautiful strength and stride.

Back half a hundred years,
And then a decade more:
(The desert wind begins its tale
With the sweep of epic lore.)

John Mackay climbed from the valley—
Sure were his lifted eyes;
A flame was in his heart,
And on his face, sunrise.

John Mackay knew long trails;
His boots tramped a questing road,
But now his way had found its day—
Mother Ireland to the Mother Lode.

Bound in the rock lies treasure,
And there's gold in the heart of man;
(Who knows, calls the wind of the desert,
Which ore this man will pan?)

Some have turned my gold to brass,
And tarnished the silver vein:
These hills have given empty lives
Brief and empty reign.

Mackay knew gold when he saw it,
And he knew the silver thrill,
But he knew more the need of the world,
And his heart was a mighty mill.

From the depths of the earth his gold has gone
Out to the needs of men:
O clap your hands, ye people,
Ye hills, give praise again.

("When we the high heart magnify,
And the strong name celebrate,
And worship greatness passing by,
We ourselves are great.")

Singing of the beautiful,
Singing of the strong,
But hear a growing measure
Treading through the song.

The tread of generations,
Coming down the road,
Borne from Mackay's heart
A deeper Mother Lode.

Singing of the beautiful,
Singing of the strong,
And joyous is the singing,
And rich and full the song.

Over every land your hearts
Of noble Alma Maters sing,

Comments... From Other Newspapers

(Note: Considerable interest in state papers has been evidenced during the past semester in the condition of university affairs. There have been all kinds of criticism, and one which the Sagebrush regards as very constructive appeared in a recent issue of the Carson City Chronicle. Anxious to see that criticism of this sort get passed on, the editorial from the Chronicle is reprinted below.)

Nevada's highest educational institution, the University of Nevada, has been the target in recent weeks of innumerable attacks from all over the state, many of them well-founded; others groundless. These charges, however, come from individuals who have the well-being of the university at heart, and their action may lead, it is hoped, to a further investigation of the school's conditions which will eventually result in either an upheaval or a white-wash. Whatever the outcome, the public should be informed, in fairness to the university administration and to the people of the state. The proposal for a new gymnasium precipitated the recent outbursts, most of which were directed

Bountiful mother who has nourished
Them in everything.

But here Nevada gladly sings
Another mother as our abode;
Rich and fertile, gold she brings,
Nevada—the Mother Lode.

Gold of thought and gold of feeling,
Best of the heart's ore;
A world awaits the gold we bring
Out of our treasure store.

O desert wind with your olden song,
Carry our singing, too;
Only the men who give to life
Live in the ages new.

We, too, shall be pioneers,
Putting back into life our part,
Bringing gold to the needs of men—
Transmutations of the heart.

Then shout, ye mountains glorious;
Ye vivid hills give praise;
Ye desert winds bring strength,
And all ye people praise.

Your voices in high honor,
Open wide your eyes;
Keep flame within your hearts,
And on your brow, sunrise.

at the low standards of the university's engineering department, which an investigating council refused to accredit. The question has been raised — and rightfully so — what would happen if an investigating council delved into the status of the arts and science section of the university? These same people say that the engineering departments were always regarded as being exceptional, while the arts and sciences departments were just known to exist. If investigators found such fault with the engineering department, it follows that a Wickersham report would be necessary for the arts and science.

The salary scale at the university is a masterpiece of incongruity. An assistant professor (university graduate, of course), earns \$125 a month, which is less than a plumber on the grounds staff and only ten dollars more than one of the laborers.

Where does the blame lie? Is it with the administration or with the legislature? The answer is probably both, plus the fact that the underlying trouble is a lack of sufficient funds. It is humanly impossible to run a several million dollar plant on \$200,000 a year, and that is just what the university administration has been forced to do for the last several years.

That there is a solution, university officials agree, the problem being how to effect it. Thirty-five per cent of the Nevada liquor tax money (about \$70,000) is being used each year to redeem the emergency employment bonds of \$312,000, which were issued in 1935. There is also a one cent general property tax which is being used to liquidate these bonds, which are supposed to be redeemed at \$10,000 a year and mature in twenty years. At the rate the money is being paid out, the bonds will be redeemed in four years.

It is conceded that the one cent general property tax by itself would bring in enough revenue each year to meet the bond payments and interest, aside from the revenue from

Students Interested In Flying Training

Two university students, James Hart and Guy Brown, are completing student flying training at the Sparks Airport under the supervision of Ted Morrill, flying instructor.

Hart expects to complete his training next year upon graduation from the university and plans to enter the Boeing School of Aeronautics at Oakland, California. Brown recently completed his first solo flight.

the liquor tax. The University of Nevada is, at the present time, receiving fifteen per cent of the liquor tax money, or between \$25,000 and \$30,000. If the university percentage could be raised to even twenty-five, the school would have an annual revenue of approximately \$50,000 from that source.

The principal drawback to this plan of diverting the tax revenue to the university is that the state administration is desirous of setting a record in the redemption of bonds and is reluctant to have any opposition. The "One Sound State" phil-

osophy is excellent, but it can go too far. The one cent tax levy can take care of the bonds, while a larger portion of the liquor revenue can be diverted to the university if officials can be convinced of the serious condition which exists at the school.

ANSWERS TO THE ELECTRICAL QUIZ

1. The installation of marine reduction-gears on the U. S. S. "Neptune," a naval collier, marked the beginning of such propulsion for large vessels. This installation was made by Westinghouse in 1912.
2. Three kinds of heat are supplied by the "Corox" surface units of a Westinghouse electric range—radiated heat, conducted heat, and convected heat.
3. George Westinghouse introduced the Parsons steam turbine to the U. S. in 1899, and built the first commercial turbine generator units.
4. The seven major types of rectifiers are: (1) Hot-cathode, vacuum; (2) Hot-cathode, gas-filled; (3) Dissimilar electrodes; (4) Mercury arc; (5) Electrolytic; (6) Dry electronic; and (7) Mechanical.
5. HEUSLER, an alloy of copper, manganese and aluminum, none of which is ferromagnetic, is itself ferromagnetic.
6. The electrified portions of the Pennsylvania Railroad use 11,000 volt alternating current, pioneered by Westinghouse.
7. Westinghouse Station KFKX, at Hastings, Neb., was the world's first commercial "repeating" broadcasting station.
8. The electrification in 1905, by Westinghouse, of the main rolls at the Edgar Thomson Works of the Carnegie Steel Company was the first of its kind to be accomplished.
9. The Westinghouse lighting of the World's Columbian Exposition, held at Chicago in 1893, was the first large-scale display of incandescent lighting ever seen.
10. A sterilamp is a tubular glass lamp containing inert gas and mercury vapor which emits ultra-violet rays lethal to bacteria when it is excited by an electric discharge. It was developed in the Westinghouse Lamp Division laboratories at Bloomfield, N. J.

This completes the series of "Electrical Quiz" questions and answers which have been published by Westinghouse to create a broader interest in electricity among college students.

NOTE: Our attention has been called to an editorial slip in our first "Electrical Quiz." The elevators in Radio City travel at a speed of 1400 feet per minute—not, of course, 1400 feet per second, as erroneously stated.

Westinghouse Electric & Mfg. Co. Pittsburgh, Pa.

Westinghouse

The name that means everything in electricity

...and how it grew and grew!

In 1891 this writing desk type telephone was installed in a Long Island general store. It was a good telephone, but it could be connected with only a part of the Bell System's 250,000 telephones in the country at that time. Service was slow and expensive.

Year by year this strange looking telephone, with a more modern transmitter and receiver substituted from time to time, grew in usefulness as the Bell System grew longer in reach—shorter in time needed for making connections—higher in quality of service—lower in cost.

In 1937 "old faithful" was retired to become a museum exhibit, but 15 million modern Bell telephones "carry on."

BELL TELEPHONE SYSTEM

IN THE SPORTLIGHT SHORTS ON SPORTS FROM FAR & NEAR

By CLARENCE HECKETHORN Just as a climax to final semester examinations, ten questions dealing with University of Nevada sports have been compiled. Try them and test your knowledge of the past year's sports

- 1-What Nevada player scored the first touchdown of the 1937 football season? 2-What Nevada football players were placed on the all-Far Western Conference football team? 3-What was the Wolf Pack's first scheduled basketball game defeat? 4-Who won the intramural tennis singles championship? 5-What team won the intramural horseshoe doubles? 6-How does Nevada's ski team rank in national ratings? 7-What fighter scored the quickest knockout in the Block N stag night? 8-Who is the co-holder of the Far Western Conference 100-yard dash record? 9-Who pitched the only no-hit game during the intramural baseball season? 10-What is the latest recognized minor sport at the university? Any student answering all questions will receive membership in the Jock Society. Tryees are on the honor system. Answers are at the bottom of Sportlight.

Lambda Chi Alpha was crowned winner of the Intramural Baseball League Friday when it defeated Sigma Phi Sigma, 9 to 8, in a tie play-off.

However, Sigma Phi Epsilon, not disputing Lambda Chi's right to the championship, still believes that it can defeat the champions. S. A. E. went so far as to challenge Lambda Chi to a non-scheduled contest. When the league winners refused, S. A. E. offered big betting odds, but Lambda Chi still refused. Maybe we shouldn't blame them. The Lambda Chis have everything to lose and nothing to win, as far as honors are concerned.

Beis are two to one that Walt Powers' 9.8 100-yard dash co-record in the Far Western Conference will be broken tomorrow.

Chico's Reams ran the fastest century of the year last Saturday on Mackay Field, with the assistance of a strong wind, timed at 9.4. Powers was third, running behind Rhoades of Cal Aggies.

Powers' best chance this season is to break Emery Graunke's 220 co-record, tied last year. The Sparks flyer has beaten all opposition thus far in the event and has ran the event with impressive times.

ANSWERS TO QUESTIONS

- 1-Bill Grubbs made a ten-yard run through guard against the University of Wyoming on Mackay Field. 2-Hollis McKinnon and Sam Basta. 3-The second contest of the San Jose State series, by a count of 50-45. 4-Eugene Peterson. 5-Alpha Tau Omega, comprised of Tilly Botti and Peter Kelley, and John Etchemendy alternating. 6-Third. Dartmouth first and Washington second. 7-Jim Griswold won by a technical kayo over Ted Olson during the first minute of the first round. 8-Walt Powers. Tied the record of 9.8 last year. 9-Frank McCullough against Lincoln Hall. 10-Wrestling, organized by Eddy Kuhlan in 1936.

Winifred Hiltonen, graduating senior, will return to her home in Goldfield for the summer.

Baseball Players Select All-Star Team From Intramural League

Choice this year for the all-fraternity baseball team was one of the most difficult of recent years. Abundance of infield material made it almost impossible to make a choice of infielders. On the other hand, the outfield material was lacking in quality, and therefore some of the players selected for the outfield did not actually play in the outfield all season. This year's team was selected by compiling the all-fraternity teams selected by members of the teams of each of the houses. Points were awarded to men placing on the individual fraternity teams and the men receiving the most points qualified for the various positions.

First Base

The selection for first base was primarily between Bill Grubbs and "Chuck" Calhoun. Both boys were consistent hitters, but "Chuck's" edge on fielding gave him the nod. The choice for second baseman was a real problem. "Mitch" Cobea and Perry Carlson were both good ball players, and the choice of either player would not have weakened the team. However, Carlson was the choice, due to five votes as to four for Cobea.

Shortstop was another hard selection to make. Ted Olsen was outstanding at shortstop for the Sigma Phi Sigmas, while Bill Peccole was the "brains" of the S. A. E. outfit. His terrific hitting won him the place over Olsen on the team.

Outstanding Infielder

Fran Menante was without doubt the outstanding third baseman of the league. His steady fielding and ability to get on base was noticeable all year.

The selection for the outfield brought into play twelve different players that included Herrick, Mayer, Grubbs, Olsen, Foley, Shepley, Callahan, Gravelle, Dimock, Giomi, Frazer and Robb. This made it a very difficult task to nominate three players to the outfield. Herrick, Mayer and Grubbs were selected, due to their heavy stick work and all-around ability.

Pitching Talent

Choosing a pitcher was a ticklish problem, for the league offered a multitude of good horsehide slingers. "Sugar" Cain won the final selection, due to his steady maund work throughout the season. Cain led all the pitchers in the strikeout department. However, Frank McCullough was the only pitcher to chuck a no-hit game. Kinneberg was outstanding, in spite of the poor support he received. Cain also won the individual pitching trophy for the second successive year.

The position of catcher went to Paul Aznarez, who won the nod over Pat Eaton. Paul was a steady catcher behind the plate and frequently broke up the ball game with long drives. Eaton also was a real hitter. However, he was of the steady type, not long hits, but hitting often. Eaton tied with Mayer for the best batter's trophy for the year.

Nellie and Josephine Little will return to their home in Fernley for the summer.

Six Have Earned Awards in Track

Only six men have earned letters in track so far this semester, according to Coach Jim Coleman. The men include Walt Powers, Jack Rhoades, Ed Barrett, Pio Mastroanni, Bob Cameron and Kenny Day.

Of the six, Day and Powers are the only ones having previously earned awards. There still is a chance for the other members of the squad to earn letters this season, Coleman explained, if they take a place in the Far Western Conference meet at Davis this week-end.

Nellie Roseberry, member of Pi Beta Phi, will spend the summer at her home in Elko.

CLOVER VALLEY LUMBER CO. Lumber - - Mill Work Phone 3197 401 East Sixth Street RENO, NEVADA

Walter Cain Wins Pitcher's Award

'Lefty' Mayer, Pat Eaton Tie For Batter's Award

Walter ("Sugar") Cain, steady chucker from the Lambda Chi house, won for the second successive year the individual pitcher's award, while "Lefty" Mayer and Pat Eaton wound up the season in a tie for the individual batter's award. There will be a duplication of cups for the batters. Trophies were given by the Sagebrush.

In the pitching department, Cain amassed a total of 512 points over his nearest opponent, Ed Pine, from the A. T. O's.

The selection of pitchers was based on three factors, namely, games won, hits allowed and strikeouts, and points were awarded for each. Cain led the league in games won and strikeouts.

Outstanding Performance The most outstanding performance of the year was turned in by Freshman Frank McCullough of the Buckingham Palace team who turned in a no-hit performance against the Lincoln Hall nine.

The batting averages were unusually high this year, with Mayer of the Phi Sigs and Pat Eaton, S. A. E., ending the season with a batting average of .750. Mayer was in the lead until the last game of the year, when he found the pitching of Ed Pine, A. T. O., too difficult to hit. Pat Eaton found the pitching of the entire league to his liking and wound up the season with his .750 average.

Sigma Nu Picnic Held At Pyramid

Sigma Nu fraternity held its annual spring picnic at Pyramid Lake last Sunday.

Leaving town about 10 o'clock, the group journeyed to the lake, where they enjoyed lunch.

Baseball and swimming were enjoyed by the majority of the boys, in spite of rain, while most of the girls were content to climb rocks.

Lambda Chi Takes '38 Baseball Title

The powerful Lambda Chi Alpha baseball nine this week emerged as undisputed holder of the 1938 baseball title, when they defeated the Sigma Phi Sigma team by a 9 to 8 count.

The only blemish on the season's record for the Hilltoppers was a 12 to 12 tie with the Virginia street boys, the game which was played off this week, resulting in a win for the Lambda Chis. The game was close all the way and was tied up, 8 to 8, until the last half of the ninth inning, when an error by the Sigma Phi Sigmas brought in the winning run. Errors on the part of the Sigma Phi Sigmas were the contributing factor in the game, as they outthrew their opponents.

Sigma Alpha Epsilon, last year's champions, ended up the year defeated only by the titleholders, but with a 15 to 15 tie with the Sigma Phi Sigmas. Their final standing

in the league was an .833 percentage. The S. A. E.'s had one of the most powerful teams in the league, placing men on the batters', pitchers', and all-fraternity team lists.

Two teams tied for third place, with the Sigma Phi Sigmas and A. T. O.'s winning five and losing two for a .714 percentage. Sigma Nu nine had a corner on third place by winning four and losing two.

Phi Sigma Kappa and Independents ended the season with a 428 average to tie for fourth place. Lincoln Hall won one and lost seven to finish ahead of Beta Kappa.

MEL KOONTZ-FAMOUS HOLLYWOOD ANIMAL TAMER-WRESTLES A FULL-GROWN LION!

HERE'S MEL KOONTZ alone in the cage with four hundred and fifty pounds of lion. The huge lion crouches - then springs straight at Koontz. Nerves cool as ice, Mel meets the charge head on. Man and lion clinch while onlookers feel their nerves grow tense. But Mel shows himself complete master of the savage beast. No doubt about his nerves being healthy! And, as Mel points out, one big difference in Camels has to do with having healthy nerves. Mel says: "No matter how many I smoke, Camels don't frazzle my nerves."

"I'll say it makes a difference to me what cigarette I smoke" SAYS MEL KOONTZ TO PENN PHILLIPS "I guess you have to be particular about your cigarette, Mel. I've often wondered if Camels are different from other kinds?" "Take it from me, Penn, any one-cigarette's-as-good-as-another talk is the bunk. There are a lot of angles to consider in smoking. Camel is the cigarette I know really agrees with me on all counts. My hat's off to 'em for real, natural mildness-the kind that doesn't get my nerves ragged-or make my throat raspy."

"WE CHOOSE CAMELS FOR OUR OWN SMOKING. WE KNOW TOBACCO" - SAY THESE TOBACCO PLANTERS

"I know the kind of tobacco used for making various cigarettes," says Mr. Beckham Wright, who has spent 19 years growing tobacco, knows it from the ground up. "Camel got my choice grades last year - and many years back," he adds. "I'm talking facts when I say Camels are made from MORE EXPENSIVE TOBACCO'S."

Mr. George Crumbaugh, another well-known planter, had a fine tobacco crop last year. "My best yet," he says. "And the Camel people bought all the choice lots-paid me more than I ever got before, too. Naturally, Camel's the cigarette I smoke myself. Fact is, most planters favor Camels. So I know that Camels use finer tobaccos."

Mr. Cecil White, successful planter of Danville, Ky. "Like most planters around here, I sold the best of my last crop to the Camel people. And at the best prices. I stick to Camels and I know I'm smoking choice tobaccos."

Ten Trackmen To Compete In Far-Western Conference Meet Tomorrow At Davis

By JIM DuPRATT

A squad of ten men with Track Coach Jim Coleman left this morning for Davis, California, to participate in the Far Western Conference track and field meet, which will open at Davis tomorrow.

Accompanying Coleman on the trip are Walt Powers, Kenny Day, Jack Rhoades, Ray Garamendi, Ferron Bunker, Harry Gallaway, Ed Barrett, Pio Mastroianni, Bob Cameron and Ernie Rodriguez.

Of the men making the trip, Coleman said he had hopes of only two of them taking first places. Walt Powers in the 220 and Kenny Day in the broad jump. Still, the rest all have good chances of placing, he added.

Fourth or Fifth Place

"My highest hopes reach about as far as a fourth or a fifth," Coleman said, "as I figure the 25 points I expect the men to get will give us that standing."

The events Coleman will enter men in are. 100 and 220-yard dashes—Powers; broad jump—Day and Rhoades; discus—Garamendi; javelin—Bunker and Galloway; mile—Barrett; two-mile—Mastroianni; high jump—Bunker and Cameron; Cameron in the pole vault, and Rodriguez in the 880.

Coleman said he won't enter a relay team or men in the shotput, 440 or the hurdles, as he has no possible point-takers in those events.

Record Dash Expected

According to pre-meet ratings, the 100-yard dash will be the highlight of the meet, with four of the fastest men on the West Coast competing in the event.

Chico's Benny Reams, who last week in a triangular meet between Cal Aggies, Chico and Nevada tied the existing world's record of 9.4 for the century, will be a heavy favorite to cop the event.

However, he will be given stiff competition for first honors when dusky Tommy Nelson, colored speedster from Fresno, steps to his marks beside Reams. Nelson took fourth in the Drake relays this year and has been clocked at times tying the present conference record and also at 9.6.

Two more men who threaten the conference record in the hundred are Rhoades from the Cal Aggies and Powers of Nevada. Rhoades has been clocked at a 9.5 hundred and took a close second from Reams last Saturday. Powers has been beaten by both Reams and Rhoades at all the meetings of the trio. However, the Nevada speedster may turn the (Continued on Page Seven)

Pack Tennis Men To End '37 Season

Little Hope Held For Win At Conference Meet

Ending their season in what they hope to be a blaze of glory, three racquetees will carry the colors of the Nevada Wolves into the Far Western Conference tennis championships at Fresno tomorrow. Gene Peterson in the singles and Frank Goodner and Ross Ashley in the doubles will represent Nevada in the matches.

Slim Victory Chance

Although their chances of a victory are slim, the players expect to make a creditable showing. Peterson is especially relied upon to advance in the competition. Although only a sophomore, "Pete" has demonstrated a marked ability in singles.

The doubles team suffered a loss when Robert Leaver was forced to

U. N. Tracksters May Get Bids To Relays

Chances of Nevada tracksters to compete in the West Coast relays in Fresno May 14 will depend on the showing of the Wolves in the Far Western Conference meet tomorrow at Chico, according to Coach Jim Coleman.

Walt Powers, co-holder of the Far

Western 100-yard dash record, is expected to turn in good times in both the century and 220 tomorrow and will probably receive an invitation to the Fresno meet. Powers placed fourth in a photo finish in the relays last year.

Kenny Day is also expected to receive a bid to the relays if he shows up well in tomorrow's meet. Day

is capable of doing 22 feet in the broad jump.

Artemisia Makes Campus Appearance

Special Tint Process Used In Photographs

With over one-half of the student body already in possession of their 1938 Artemisias, distribution of the annual is expected to be completed at the end of this week, according to Sam Wilson, editor of the annual.

One hour after Business Manager Ted Olds opened the first carton containing the year books, over two hundred students called to claim an annual.

Six Divisions
Consisting of 232 pages, the contents of the book are divided into six sections, labeled administration, classes, activities, social life, athletics and advertising. Largest section is the social section, covering fifty-five pages.

"The yearbook is dedicated to the taxpayers of the state of Nevada to give them a comprehensive record of the past college year," Wilson stated.

Tint Process Used
A special tint process is featured in the photographs marking the divisions, while the same motif is carried throughout the book by a small border at the bottom of each page depicting students in their various phases of college life.

An added attraction is the page showing the pictures of eight outstanding seniors selected by their class in a secret ballot. These students—Jessie McClure, Llewellyn Young, Elizabeth Naismith, Richard Taw, Elizabeth Osborn, Max Jensen, Winifred Hiltonen and John Brackett—were chosen for this honor on a basis of service to their university, scholarship, ability and activity.

Snapshots are carried in the advertising copy to attract readers.

Four Applications Made to Attend Girls' Camp

Four students have filed counselor's applications for the Campfire Girls' camp, which will be held during the last week of July at Camp Cello, Nevada City, California.

According to Mrs. Mae Simas, who is in charge of the arrangements, there is still time for women to apply for the positions, but notices of application must be in by May 7.

Miss Lois Zimmerman, director of the camp, will meet with the Reno applicants on the morning of May 7, and will preside at the morning breakfast, which will be held at the Northside Junior high school.

The leaders who are chosen for the camp will specialize in work on waterfront safety, outdoor camping and general scout training, Mrs. Simas stated.

UN Trackmen Take Lacing in Meet Saturday

The University of Nevada track and field team was trounced Saturday when it met the Cal Aggies and Chico State in a tri-cornered meet on Mackay Field.

Chico amassed 88½ points to take first place, while the Aggies captured second honors with 41½. Nevada trailed at third place, chalking up 29 points.

Good Times
A biting wind was present all afternoon, which greatly hampered the distance men, but helped to hang up good marks in two events. Reams of Chico was pushed by the wind to finish the century in 9.4 seconds, with Powers of Nevada and Rhoades of the Aggies trailing by a scant foot. This is the fastest outdoor 100 yard dash mark in North America this year. Frick, Cal Aggie, cleared the high hurdles in 14.7 seconds.

Bob Cameron, stellar Nevada cinderman, captured points in the pole vault, high jump, high hurdles, broad jump and 440-yard dash. Powers won the 220-yard dash for Nevada, as did Day the broad jump.

Summaries
100-yard dash—Reams (C) first, Rhoades (A) second, Powers (N) third, Bailey (C) fourth. Time, 9.4 seconds.

220-yard dash—Powers (N) first, Davis (C) second, Bailey (C) third, Rhoades (A) fourth. Time, 23.3 seconds.

440-yard dash—Dallas (C) first, Holland (C) second, Farquar (A) third, Cameron (N) fourth. Time, 52.3 seconds.

880-yard run—Kostiz (C) first, Garner (C) second, Underhill (A) third, McMullen (N) fourth. Time, 2:5.7.

1 mile run—Kostiz (C) first, Gardner (C) second, Rodriguez (N) third, Groth (A) fourth. Time, 4:59.1.

Two-mile run—Taylor (C) first, Mastroianni (N) second, Metzger (C) third, Moler (N) fourth. Time, 11:9.2.

220 low hurdles—Reams (C) first, Frick (A) second, Pheiler (A) third, Aren (C) fourth. Time, 25.2 seconds.

Seven Bar Contest Entries Submitted

Seven students of the university submitted entries in the Washoe County Bar Association prize contest before the closing date of the contest, Miss Beckwith, secretary to the president, said today.

The entrants who will compete for prizes of \$50 and \$25 wrote upon the subject: "The Necessity For and the Background of the First Ten Amendments to the Constitution of the United States."

Winners in the contest will be announced at the commencement exercises on May 9.

120 high hurdles—Frick (A) first, Arrans (C) second, Scarlett (A) third, Cameron (N) fourth. Time, 14.7 seconds.

Shotput—Campbell (C) first, Vonsach (C) second, Anderson (A) third, Sale (A) fourth. Distance, 45 feet 9½ inches.

Discus throw—Campbell (C) first, Anderson (A) second, Garamendi (N) third, Sale (A) fourth. Distance, 129 feet 5 inches.

Javelin throw—Campbell (C) first, Hoffman (C) second, Westfall (A) third. Distance, 159 feet 6 inches.

High jump—Potter (C) first, Baker (N) second, Jacobson (A) third, Cameron (N) and Ferguson (A) tied for second. Distance, 5 feet 11¼ inches.

Pole vault—Nitta (A) first, Cameron (N) and Buckley (C) tied for second, Welsh (C) fourth. Distance, 11 feet 6 inches.

Broad jump—Day (N) first, Campbell (C) second, Rhoades (A) third, Cameron (N) fourth. Distance, 21 feet 9¾ inches.

Relay—Won by Chico's team of Holland, Garner, Kostiz and Dallas. Time, 3:36.5.

WE NEVER CLOSE

Track Team

(Continued from Page Six)
tables on all three runners and take the event.

Another duel is expected to be fought out in the 220-yard dash, with Powers and Nelson again fighting it out for first place honors. Nelson has turned in the fast time of 21.4 during the season, while Powers has turned in exceptionally good times in winning the dash from all comers in conference meets.

Fresno Win in Half
Fresno's Bill Stevenson seems to have a corner on the 880-yard dash with a time of 1:58.3, but will have a tough job defeating Chico's Kostiz and Gardner. Ray Rodriguez, diminutive Nevada half-miler, has turned in good times in practice this year and if right will give everyone a surprise in this event.

Fresno seems to have a first and second assured in the pole vault, with two men vaulting over 12 feet. One of them, George Hoffman, has a height of 13 feet recorded. Both will find tough competition from Cal Aggies' Nitta, Nevada's Cameron and Chico's Buckley.

In the javelin throw, Fresno's Jones, Baird and Cook have marks of 170 feet or better, while Campbell of Chico has been consistently

hitting above that mark. Bunker or Galloway from Nevada are given outside chances to place in this event.

Hurdles
In the 220 low hurdles, Reams of Chico, Zebal and Nichols of Fresno and Frick of the Aggies look like first place men. In the high hurdles, Frick of the Aggies seems to be assured of first place, but will be given a tough race by Zebal and Nichols of Fresno. There will be no Nevada entries in either hurdle race.

In the mile run, Fresno's Stevenson and Sinclair, Nevada's Barrett, Chico's Kostiz and Gardner, and Cal Aggies' Groth will be in the running. Nevada's Mastroianni, Fresno's Sinclair and Chico's Taylor will fight it out for first place in the two

W.A.A. Constitution Changes Approved At Senate Meeting

Membership Qualifications Are Changed in New Document

Qualifications for membership in the Women's Athletic Association will be changed when the revised constitution of the group goes into effect next fall.

According to the new revisions, which were read and accepted by the student senate last week, women must have been members of class teams in two different sports. The old requirements stated that a new member need only participate in one sport.

Initiation for those eligible will now be held after the closing of the second sport season each semester. In previous years, new members were admitted to the group at the finish of each season.

The women who participate in any activity of the group must hereafter have a general average of at least a three and must be passing a required number of hours. According to the old constitution, there were no scholastic requirements for participation in the organization's activities.

The office of reporter for the group was eliminated from the executive committee and the work will now be taken care of by the staff member of the Sagebrush who is assigned to the W. A. A. beat.

There are several other minor changes in the revised document pertaining to the time of the banquets and meetings of the group. A definite time has been set for each under the revised constitution, while in previous years they were held only when it was deemed necessary by the executive committee.

Members of the revision committee were: Janet Parish, chairman; Gertrude Freeman, Kennedy Walker, Beatrice Lansdon and Shirley Fuetsch.

Semi-Formal Dinner In Los Angeles Planned

LOS ANGELES, May 5—(Special)—A semi-formal dinner will be held by the University of Nevada Alumni Association of Southern California May 21 at 6:30 p. m. on the Southern California campus, Mrs. Catherine S. Huntley, secretary of the organization, said this week.

All graduates, students and faculty members are invited to the dinner or to contact the group in Southern California if any of them are coming to Southern California for a visit or to make a home.

Reservations for places at the dinner should be made before May 19, Mrs. Huntley said, and the reservations may be obtained from Dr. Herbert Shirley, whose residence is at 6381 Hollywood boulevard.

President Walter E. Clark, who is vacationing from duties at the University of Nevada, will be honored guest at the dinner meeting, Mrs. Huntley stated.

ONLY KEE-WEES ARE ABLE TO BE A B. M. O. C.

"I'm going to jelly with a kee-wee gal tonight," said the B. M. O. C. as he went truckin' out of the room.

"Oh, that date of yours is a rum-dum and a goon," replied his senior roommate.

"Say, what are you fellas talking about, anyway?" asked a bewildered little freshman who was sitting in the corner listening to his upperclass fraternity brothers.

"What did you say? Don't you know what we're talking about?" asked the seniors in unison.

"Why, no I don't. I guess I never heard anyone use that kind of words before. You see, they speak English in my home town, and I guess I never have heard that kind of language before."

"Well, in that case, I suppose we ought to tell him something about our English on the campus, Bill," Johnny replied.

The seniors then proceeded to give the amazed frosh a dictionary of words which would enable him to get along in his new circles.

B. M. O. C.—Big man on the campus.

Apple polisher—One who carries favor with instructor.

Being—To blackball a candidate for a fraternity.

Fruit fly—Those who study in fruit shop.

Goon—Silly or boring person.

Hardware—Fraternity jewelry.

In the swish—To be in the know.

Jam sessions—A good, noisy free-for-all.

Jolly up—Get together.

Kee-wee—Good, swell, or any other meaning.

Nub—An unattractive person.

Pitching woo—Known as petting.

Plant a pin—Hang a frat pin.

Quilling—Making up to a prof.

Rum-dum—An uninteresting person.

Sklooking—Unromantic term for romantic urge to make love.

T. P. or table party—Informal at frat house.

Morgue—Posting of exam grades.

Jelly—Soda and cigarette date.

Wheel a sled—Drive a car.

Wolfing—Snaking other girl's dates.

School of Mines Will Graduate 15

Fifty Letters of Application Sent Out For Positions

With most of the candidates already in possession of positions with mining companies, the School of Mines will graduate fifteen students this year, the largest graduating group in the history of the school.

Those who will receive B. S. degrees in mining engineering are: Ralph Birchard, Denzil Carr, John Burgess, Louis Carpenter, Ellis Gates, Edward Olds, Henry Lang, Robert Cleary, Eugene Grutt, Milton Steinheimer, Grover DeLaMare, John Cleary, Clyde Keegel, Milton Parker and Richard Thormeyer.

Many of these students have secured positions with companies engaged in the mining industry in Nevada.

Professor Jay A. Carpenter, acting director, said that the School of Mines has sent out over fifty letters of application to alumni and the various Nevada mining operators to secure positions for the graduating students of that department.

FASHION TIPS

By JANE FRISBIE

Off for home and various vacation spots, and our concern of the moment is to look bewitching. Get a beautiful golden brown and meet a few millionaires with yachts and such other things as the lads in that class are supposed to have!

If you're going to the beach or the lake, you're unusually lucky, because you can get fascinating clothes for very, very little and look like Miss Van Astor in person—in fact, it is possible to make Mrs. Van Astor feel apologetic about her own wardrobe.

The new street length beach coats to wear with or without your bathing suit come in a number of white materials, and they have jersey girdles. The slack and sport suits have all their emphasis on strictly tailored or strictly sloppy smartness!

Cool dresses for warm days! There are quantities of gay little Tyrolean fashions. They come in native India prints for the glamour girl, in flower

Dr. Dwight Lemmon To Assist On Hunt Trip

Dr. Dwight M. Lemmon, Palo Alto engineer, has been selected to assist the University of Nevada School of Mines faculty on the annual S. F. Hunt field geology course.

Limited to eight mining students, the field course is taken annually each summer and is of twelve weeks' duration. The summer will be spent chiefly in the vicinity of Eureka, Nevada, Professor Jay A. Carpenter said last night.

Students who have applied for the trip are: Eugene Grutt, Milton Steinheimer, Grover De La Mare, Gordon Macdonald, Evilio Hernandez, Robert Cleary, Harvey Kohoss, William Smythe, Sam Wilson and William Osborn.

Awards to Be Made Commencement Day

Gold Medal Presentation Will Head Program

Announcement of the recipients of over thirty scholarships and awards carrying a total value in excess of \$3000 will be one of the annual features of Commencement Day, Professor Jay A. Carpenter, chairman of the awarding committee, said last night.

Scholarships are awarded each spring on Commencement Day, and have become a highlight of the exercises of that day. Many of them date several decades back, and have been made possible by the many friends of the university, by various campus organizations, and others.

The number and character of scholarships offered to students at the University of Nevada is such as to offer appeal and interest to every student on the campus, Carpenter said.

Several new scholarships and awards will be made this year. The values and requirements of the new awards will not be known until they are formally announced on Commencement Day.

Gold Medal Award

Heading the list of awards to be presented is the gold medal awarded to the member of the graduating class who has attained the highest average grade of scholarship throughout his college course.

Other awards are the senior public service prize, the French medal, the W. C. T. U. prizes, the Regents' scholarships, the Ella S. Stubbs memorial scholarship, the Lewis D. Folsom scholarship, an upperclass women's prize, the Philo Sherman Bennett prize and the Clovis Alberta Preston memorial foundation.

Also the Theodora Stubbs Fulton memorial foundation, the S. Frank Hunt foundation, the Armanko senior prize, the Washoe County Bar Association prize, the Mary Williams Butler Scholarship, the Azro E. Cheney trust fund prize, the General O. M. Mitchell women's relief corps scholarship, the Grand Army of the Republic scholarship, and the Mrs. Carl Otto Herz scholarship.

The Charles Elmer Clough scholarships in engineering, the James Ward German scholarship, the Carrie Brooks Layman scholarship, the William S. Lunsford scholarship in journalism, the premedical-prenursing scholarship, the Vern F. Henry memorial Masonic scholarship and the Raymond Spencer scholarship.

Romie Pine, junior student, will be among those employed at Home-wood, Lake Tahoe, this summer.

Positions Secured by Eight Mining Graduates

Eight out of the fifteen graduates of the Mackay School of Mines have already obtained positions, Professor Jay Carpenter, head of the mining school, announced today.

Five of the positions are located in Nevada. Other men of the graduating class have filled out applications with South American companies, United States Steel, and for fellowships at other universities.

Of the fifteen graduates, seven were graduated from Nevada high schools and the rest from California high schools. Only six of the fifteen completed the four-year course in the allotted time. The youngest man to graduate is 21 years of age.

Three of the men have been elected to engineering honor societies, Nu Eta Epsilon, and one of the three was elected to the national honor society, Phi Kappa Phi.

The mining engineering course is one of the two accredited courses at the University of Nevada and thus applies on the usual six years of work necessary to obtain an engineering license.

The following mining students have accepted positions: Ted Olds, Donovan Mine in Nevada; Milton Parker, Parker assaying office in Reno; Ralph Birchard, mine in southern California; John Birgess, Consolidated Copper Mine at Ely; Louis Carpenter, mine in Colorado; Denzil Carr, Pennolse mine in Nevada; Ellis Gates, Jumbo mine in Nevada; Henry Lang, Ingersoll Rand Company at New Jersey.

Thompson to Speak At Stanford Lane

Dean Reuben C. Thompson, dean of men at Nevada, last week accepted an invitation to give the commencement address at Stanford Lane school of nursing graduation exercises on May 20.

The Stanford school of nursing is connected with the Stanford Lane Hospital in San Francisco. Several prominent University of Nevada students are attending the school.

Dean Thompson will also represent the University of Nevada at the Far Western Conference officials' meeting at Davis over this week-end.

Lobenstein Elected Camera Club Prexy

Walter Lobenstein was elected president of the Camera Club last Friday night at the last meeting of the group this semester.

Last week, Lobenstein was elected president of the Civil Engineers. He is secretary of Lincoln Hall Association, an honor roll student, member of the Artemisia staff, and has been secretary for the Camera Club for the past year.

Robert Grenig, LHA, who was winner of the campus Camera Club contest, was elected as secretary and treasurer.

Ned Westover, outgoing president, will graduate next week. He plans to obtain employment with a photography or advertising agency.

The camera enthusiasts will spend their vacation in getting some choice shots, which will go on exhibit during the first of next semester. The prints will be exhibited in downtown windows. This exhibit had been planned for this school year, but due to last minute rushing, was postponed.

Robert Grenig gave an illustrated lecture Friday night on "Photographic Pictorialism."

Former Dean Honored Guest At Normal Dinner

Former Dean of Education J. W. Hall and Mrs. Hall and the normal school graduates were the honored guests at a formal dinner given Tuesday night by the education faculty and Mrs. F. Traner at the Traner home.

The graduates honored at the dance are Virginia Palmer, Lillian Funk, Angiolena Cordano, Geraldine Ghiglieri, Carrie Pimentel and Marion Waring.

NOVEL WORD FAD DESCENDS UPON THE CAMPUS

The University of Nevada, breeding place for novelties, has just given birth to a new fad. Now it's plain, common everyday names, inserted into conversation here and there.

If you are walking down the campus and some person comes up to and greets you with a "Hello, Dirty," don't run to the nearest mirror and give your neck and ears a once over, for it's just another way a certain group has of saying hello, and no offense is meant.

"Then, there's 'Foo.' Shades of 'Smokey Stover' in the comic sections of the Sunday newspapers. Whenever you want to say something and can't find a word for it, you just substitute foo. Simple, isn't it? Foo instance: 'In Rome, Foo as the Romans foo, or Bei Mir Bist Du Foo.'"

The Jock Club, another organization on the campus, has coined words which to the rest of the students are quite undignified.

Josephine Seddon and Ethel Graunke will attend the inter-session of the University of California.

Frosh Barbecue Termed Success

The Frosh Barbecue and Barn Dance held last week-end at Baker's Barn was proclaimed a success and will probably become a tradition, according to Jack Pieri, chairman of the affair.

Due to bad weather, the event was held indoors and not out in the yard, as was previously planned. A good representation was present, many of them upperclassmen.

The barbecue was a financial success and the surplus will be used to repair the scoreboard on Mackay Field, Pieri announced.

A dance was held in Baker's Barn and refreshments were served to those attending.

Cap and Scroll, Blue Key Give Senior Tea

At the ATO house on Tuesday afternoon, Cap and Scroll and Blue Key entertained from 3 to 5 with a tea-dance in honor of graduating seniors.

Nevada needs a new gym.
