

Wolves Play Last Home Series This Week With S.F.U.

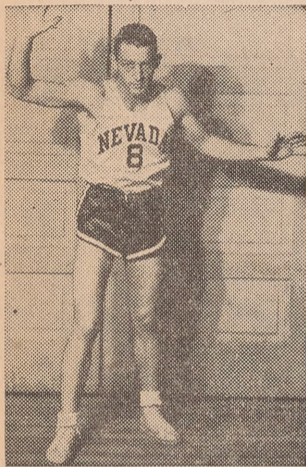

Non-Conference Five Stands Good Chance of Winning

The University of Nevada's hard-luck Wolves make their last home appearance of the year when they meet the powerful University of San Francisco Dons in a two-game series beginning tonight at 8 o'clock in the university gym.

Though the Dons are not a conference team, the Pack will be out for blood after dropping a heart-breaking 40-38 decision to the College of Pacific last Friday night.

All-Veteran Team

U. S. F., however, should be able to give the Wolves all they want in the way of competition. Boasting an all-

Constantly breaking up the opposing team's offensive plays is Ted Olsen, stellar pack guard. Ted improves with the speed of the contest and will be a thorn in the side of U.S.F. cage quintet this weekend.

veteran team, they have run through a very successful season on the coast, ending up second in the strong Northern California Intercollegiate League, and making things very tough for such teams as Stanford and the University of California.

Led by Tony Fransulich, smooth forward who ran last year's champion Wolves ragged in a two-game series, the Dons have every first-string man back from the team which lost two games, 50-45 and 47-41, to the '38 edition of the Pack.

Besides the high-scoring Fransulich, Coach Wally Cameron has Knifsend, Ignoffo, Guinee and Jaeger, all smooth veterans back from last year.

Split With San Jose

Like Nevada, the Dons split with San Jose State, but against College of Pacific they fared considerably better, winning a pair of games by wide margins. They also have beat the powerful St. Mary's squad twice, have split with Santa Clara, and gave Cal's Pacific Coast Conference league leaders a bad scare, losing out in the final minutes of play.

The Nevada cause will be far from hopeless, however. The Wolves lost to C. of P. on Friday night merely because they had tough luck in shooting fouls, and came back strong in the second game to win by a 44-35 game. Against common opponents, the records of the two teams have been practically the same and, in addition, the Wolves will be appearing before a home crowd for the last time this season.

Coach J. E. "Doc" Martie has been drilling the Pack hard on smothering out its offense this week and has eliminated several weaknesses apparent in the C. of P. games.

Injury Jinx

As usual the injury jinx is still riding with the Wolves. Mitch Cobega, sophomore forward and sparkplug of several Nevada wins, has a severely sprained ankle and may be lost for the season. John Etchemendy's bad wrist still is stiff, and Ray Waldren, who hurt his foot in the San Jose series, is not yet back in top shape.

Ray Harris, who turned in his customary fine performance against the Bengals last week, taking scoring honors in both games and playing a good floor game, will start at one guard. He scored a total of 31 points in the series.

Olsen, defensive ace, will give the Don forwards plenty to worry about from his guard position, and Radovich's size and one-handed pivot shot should bother them as much as they did last year.

Max Forbes, who has continue to show well at his forward post, will team up with either John Etchemendy or Gordon Thompson. Thompson, especially, has shown a tremendous improvement this week and seems to have found his shooting eye.

Blake Speers, John Lemich and Ray Waldren at guards, John Mayse at center, and Lee Conaway at forward will all probably see plenty of action.

Nevada Ski Special to San Francisco For Jumping Championship Arranged

Plans for the semi-annual University of Nevada special train to the bay region were completed this week, and tickets were placed on sale by the students engineering the affair.

The special train has been chartered to take Nevada students and townspeople to the Golden Gate International Exposition to witness the intercollegiate ski jumping championships sponsored by the University of Nevada Ski Club.

The train will leave Reno Friday noon, February 24, and will arrive in San Francisco around 8 p. m. The ski events will take place Saturday and Sunday and the train will return Sunday night. However, tickets are good for a ten-day stay.

The special train will be arranged much as the others in the past, with coaches for traveling and a club car stripped for dancing. The sponsors of the train promise that it will live up to or even better the fun-trips of the past and are doing everything in their power to have everything arranged.

The fare to San Francisco will be \$5.40, which is very cheap considering

that the railroad rates for the fair are around \$7 for a round-trip ticket.

While at the fair the students will be able to see practically everything, since the exhibit is expected to be complete at the opening date, February 18.

The ski jumping is a special attraction of the first week of the fair and will be open only until February 26. Other attractions of the first week include an all-star track meet and several outstanding dances with the best name-bands in the country providing the music.

The ski meet contestants will be college jumpers of the west coast, and the ski club promises many outstanding jumps will be made because of the excellence of the hill.

Another feature of the meet will be the return of Ferdinand the Bull that created such a furore at the Winter Carnival, only this time he will perform on the ski jump.

Anything can happen at the meet and the special train will make available to students an opportunity they may never again have.

Engineers' Day Speaker Is Named

Diesel Engineering Specialist Chosen as Guest Speaker

Frank L. Peterson, specialist in Diesel engineering and recent arrival to the United States from Africa, where he has been stationed for several years, recently was named guest speaker for the Engineers' Day banquet to be held on the evening of March 4.

The subject of Mr. Peterson's talk will be "Diesel Engines in Industry and Their Application in Africa."

At the present he is visiting in Illinois but is scheduled to stop off at Reno for the engineering celebration while making a western visit.

The Engineers' Day committee announced earlier in the week that an exhibit representing White Pine county will be entered during the event.

Walter W. Anderson, Ely district supervisor for trade and industrial education, has been making a collection of student work composed of copper work, types of welding, bend tests, and fluorescent minerals to be exhibited during the engineering event.

Varsity Debaters Are Dinner Guests

Francis Breen, Robert Joy and Leo McCuddin, varsity debaters, last Wednesday night were the principal guest speakers at a patriotic dinner given by the Veterans of Foreign Wars.

The Veterans hall in the State building was the scene of the affair, which was attended by several hundred war veterans, and Varsity Debate Coach Professor Robert C. Griffin.

Lieutenant Governor Maurice J. Sullivan acted as toastmaster of the evening, while Thomas H. Barry of the auxiliary post No. 1, U. S. W. V., was in charge of the program.

Breen, senior student and last year's manager of the Nevada debate squad, spoke upon William McKinley, and Robert Joy, present manager, delivered an address on George Washington. Leo McCuddin discussed Abraham Lincoln's life.

The patriotic dinner was held as a triple celebration honoring the three great war presidents, whose birthdays all occur within this month.

Five Neophytes Receive Formal Degrees

Formal initiation services for five Sigma Nu neophytes were held at the Methodist Church last week.

The new members are Walter Culver, Chesley Freeman, Artemus Ham, Paul Seaborn and Thomas Smart.

Following the initiation, the new members were honored at a banquet at Carlin's Inn.

ONE OF RAREST COLLECTIONS OF MARBLE IS POSSESSED BY UNIVERSITY OF NEVADA

The University of Nevada is the proud possessor of one of the world's rarest collections of marble, Dr. J. E. Church announced today.

Collected by the late Cardinal Rampolla of the Vatican, Rome, and donated to the university by Mrs. Ludovica D. Graham, this collection numbers 1,080 pieces.

Practice Held for Mackay Day Play

'Washington Jitters' to Be Presented at Spring Celebration

The end of the first week of preparation finds the stagehands as well as the actors in the midst of systematic industry for the presentation of "Washington Jitters," Mackay Day play, to a downtown audience.

With a minimum of seven sets of scenes required for the play, the stage manager's crew has its work cut out for it in having everything in readiness by March 24.

Although the play will be staged in the Granada theatre, all scenes have to be built at the university and later transported to the downtown site.

Complicated Scenery This drama necessitates probably the most complicated scenery arrangement ever used by the Play Productions group, according to Professor William Miller, director of the play.

The various scenes occupy limited space on the stage, and changes in scenes are done by spots, small tab curtains, or by partially closing the traveling front curtain. There will be two distinct levels on which the actors will portray their various scenes.

Stage Crew Rehearses "This is the first time in my experience as play director at the University of Nevada that I have had to rehearse the stage crew as diligently as I do the regular cast," Miller said.

Members of the stage crew are Bob Grenig, manager, and Grant Anderson, Bill Mitchell, Bud Owens, Harold Johnson, John Marean, Burr Smith, Guy Allen, Kenneth Mann, stagehands.

DEBATE LABORATORY FORMED BY GRIFFIN

Robert Griffin, assistant professor of English and coach of debate, has rearranged his classroom in the Hall of English to accommodate the large group of debaters who are participating in the activity this spring.

A large collection of pamphlets, magazines, booklets and copies of authoritative speeches are available in the new "debate laboratory" at all times. The room is open day and night to allow the current intramural debate teams and the tryees for the varsity teams unlimited time for the preparation of their arguments.

Lack of privacy in the school library, which the debaters formerly used for a laboratory, brought about the new study site. The librarians also had a habit of wanting to go home just when the debaters were getting a good start on their preparations, according to the debaters.

Makes Trip

Edward Zareh, chairman of the University of Nevada mechanical engineering society, left Wednesday for Los Angeles on student engineering business. He will return this weekend.

Mrs. Graham, a long-time resident of Reno, a world traveler and an intimate friend of the university, purchased this valuable collection from Cardinal Rampolla several years ago, and recently donated it to the department of classics.

Under the direction of Dr. Church, the collection has been mounted, forming the tops of four large tables. Dr. B. F. Chappelle is translating the Italian descriptions into English, and will soon prepare a catalog of complete description of the marbles, Church said.

This group of marbles, the only one of its kind in the world, will remain on permanent display in the library building.

Frank Capra May Choose Mackay Day Queen This Year

New and Novel Plans Being Considered for Success Of Celebration

Reigning queen of the 1939 Mackay Day celebration next month may be chosen by Frank Capra, outstanding Hollywood motion picture producer, George Hardman, chairman of the Mackay Day committee, announced today.

Capra was contacted by Hardman this week but as yet no definite answer has been received to Hardman's letter. Capra directed such outstanding hits as "You Can't Take It With You" and "It Happened One Night."

Chosen This Week

Nominees for the honorary position will be chosen this week by sororities and Manzanita Hall Association. Each candidate must submit a photograph to the Mackay Day committee chairman by next Saturday.

Last year's queen, Kathleen Meeks, was chosen for the honor by R. C. Richards, casting director for Selznick Productions. The year previous, Cecil B. DeMille chose Genevieve Hansen to reign over the annual celebration.

New and novel plans are being considered by the committee this year in an attempt to make the annual fete more of a success than in previous years.

Revolving Trophy

Outstanding change considered by the committee is the inauguration of a huge revolving trophy which will be awarded to the group or organization making the best showing in the Mackay Day contests.

The revolving trophy will take the place of the individual cups and awards formerly offered for decorations, exhibits, etc., by the fraternities and sororities.

A committee has been appointed by Hardman to work out a system of points by which the trophy can be awarded. It is hoped by the committee that, with such a prize at stake, the competition for it will be much keener than in the past.

Donkey Baseball

Tentative plans also have been made to have a donkey baseball game on the program. The game is played under regular baseball rules with the exception that each player must ride a donkey. Arrangements for this part of the program may be left up to the Aggie club, Hardman said.

Cups for the beard-growing contest among the campus males probably will be offered again this year for the longest, blackest, reddest, etc. The beard-growing contest will start next week after the Military Ball and will be under the supervision of the men's upper-class committee.

Camera Club Plans Photograph Show

A photography exhibit featuring the work of many campus amateur photographers will be held by the Camera Club some time within the next three weeks, Walt Lobenstein, head of the club, said this week.

The exhibit will be held in the exhibit room of the library and will show many fine examples of different phases of photography, Lobenstein announced.

Due to lack of attendance at meetings of the organization, no meetings have been scheduled last semester or this semester, Lobenstein revealed, although definite attempts will be made to make the group an active member of campus life.

NEVADA STUDENTS ARE GIVEN CHANCE TO SEE EXPOSITION

Twenty University of Nevada students will get a chance to see the Golden Gate International Exposition gratis if they will attend the intercollegiate jumping championships at Treasure Island and act in different official capacities.

The University of Nevada Ski Club which is sponsoring the meet at Treasure Island has asked for students willing to act in official capacities at the meet to see Wayne Poulsen, ski team coach.

The ski club will be able to arrange for the student passes to the fair and to all the concessions on Treasure Island if the students will act as officials. It is hoped that the ski club members will provide most of the number needed, but if this is not possible the chance will be thrown open to all members of the student body, whether men or women.

The students will have to arrange for their own transportation to the fair, probably all going on the special train scheduled for the meet, along with the members of the ski team, student and town rooters.

Further information concerning the specific details for those interested may be had by seeing Wayne Poulsen, Don McMeekin or Earl Edmunds.

COMPANY, ATTEN—SHUN!

First honorary captains of the Nevada R. O. T. C. unit are photoed this week. The coeds were elected by the respective companies which they represent, last week, and are selected on a popularity basis. They will be present at all company functions and will be honorary attendants to the honorary major at the Military Ball tomorrow night in the State building. Left to right they are Jean Henderson, company A; Pat O'Brien, company B, and Kathleen Meeks, Military Band. Kneeling, Thelma Crosby, company C.

Twenty-six Cadets Named Corporals

Twenty-six basic course men of the R. O. T. C. battalion were promoted to the rank of corporal yesterday in accordance with an order issued by Colonel Oral E. Clark, professor of military science and tactics.

The duties of the newly-assigned non-commissioned officers consist of commanding a squad or acting on the battalion staff.

The promotions were made in view of the grades of the students in theory, and their ability on the drill grounds. Julian Mapes attained the highest ranking, being first on the list of seniority.

Corporals appointed in their order of seniority are: Julian Mapes, Lee Barrett, Nick Pappas, John Bazzini, Leon Etchemendy, Frank McCulloch, Samuel Holliday, John Robb, Mitchell Cobega, John Beach, Grant Anderson, Carlyle Pribbenow, Earl Nygren, John Morrison, William Wald, David Langberg, Darrell Birch, Donald Bowen, William Dunseath, Robert McDonough, James Griswold, Ernest McKenzie, George Friedhoff, Ralph Isaac, Elliot Lima and Carl Hill.

FRENCH CONSUL GIVES BOOKS TO LIBRARY

A gift of seventeen volumes was received recently from Roger Gaucheron, French consul general at San Francisco, Dr. Leon W. Hartman announced today. "This gift was made to the university," Hartman said, "through the department of modern languages, and constitutes a valuable addition to our library."

Notice

Grand March at the Military Ball in the State building will start at 9:30 p. m. instead of 9 p. m. as advertised. SCABBARD AND BLADE.

Notice

Any boxer wishing to participate in Stag Night, turn in name to Graduate Manager.

THREE ARTICLES BY DR. CHURCH PUBLISHED IN BULLETIN OF SNOW-ICE COMMISSION

In addition to having Dr. J. E. Church, a member of the University of Nevada faculty, president of the International Commission of Snow and Glaciers, the part played by the University in the scientific study of snow and ice conditions the world over is clearly emphasized in the recent publication of bulletin 23, covering the meeting of the commission in Edinburgh.

The bulletin, a 300-page journal, has three articles by Dr. Church expounding his world-famous snow survey methods, and an article entitled "Electrical Resistance of Snow and Ice" by Dr. Irwin Roman, formerly of the U. S. Bureau of Mines station on the campus.

The book also has numerous illustrations of snow and ice formations, experiments carried on and data gathered in the vicinity of Reno and in the Sierra Nevada mountains.

The Social Whirl

"I asked that darling captain to the Pan-Hel dance . . . so he's taking me to the Military Ball. I HOPE he didn't think that was what I expected!" "My dad gave me a check to get a new formal . . . and nobody's asked me yet! What shall I do?"

"Listen, chum . . . there just isn't anything on the top of my formal to pin a corsage on . . . do you think Jack will mind if I just come out and ASK him to send me an orchid for my hair?"

"I TOLD Jimmy to tell those people he wanted to be an officer . . . it just doesn't seem right to be going with someone who won't be in uniform . . ."

"I got so sunburned out skiing yesterday that my nose is all red and peeling. . . I WOULD go out and buy a red formal!"

The conversation goes on like this for hours . . . to up or not to up your hair . . . what color nail-polish with a purple dress . . . will Joe's big boots ruin my white satin slippers?

The masculine side of the story is not so different . . . will saddle-soap make my boots as shiny as regular polish? . . . I'd like to get a manicure to please my ma . . . but I feel so silly in a beauty parlor . . . I can't shag with this sword beating around my knees!

This tender thought marks the crowning glory of the tale . . . "Ever since I got this @!?! Sing Sing haircut . . . I can't get my cap on!"

MACKAY PORTRAIT TO BE PRESENTED

A life-size painting of Clarence H. Mackay, the University of Nevada's greatest benefactor, will be presented to the student body on Mackay Day of this year, Dave Goldwater, A. S. U. N. president, announced this week.

Goldwater, who will present the painting, said that it probably will be hung in the library.

Painted by Hans Meyer-Kassel, nationally-known artist, the portrait was begun in Mr. Mackay's home in New York City a few days after Mackay Day of last year. It was finished early last fall.

Martial Splendor Of Military Ball Is Seen Tomorrow

Grand March Led by Wines, Colonel Clark to Open Affair at 9:30

By WALTER WILCOX

The military year at the University of Nevada bursts into its climax tomorrow night when the Military Ball gets under way in all its martial splendor.

The soldiers' affair will begin at 9 in the State building, and dancing as well as other entertainment will continue for three hours.

Gene Wines, honorary major of the university R. O. T. C. battalion, will preside at ceremonies to take place during the evening. Assisting Miss Wines will be an honorary staff of four captains.

The honorary major's aides, elected by the cadet battalion, are Jean Henderson, "A" company; Pat O'Brien, "B" company; Thelma Crosby, "C" company, and Kathleen Meeks, R. O. T. C. band.

Grand March

Officially opening the affair, the grand march at 9:30 p. m. will be led by Miss Wines and Colonel Oral E. Clark, professor of military science and tactics.

The ball will be on the air from 9:30 until 10 when station KOH will describe the grand march and comment upon the decorations.

The couples will march under an arch of sabers, held aloft by members of Scabbard and Blade, sponsors of the ball. The grand march will take the place of the first dance.

Later in the evening, fourteen junior officers will complete the last phase of their induction into Scabbard and Blade when they are presented with their insignias by Miss Wines. The junior officers are then presented to the senior members in a brief ceremony.

Honorary Members

Six honorary members will also be initiated into the organization in one of the night's ceremonies.

They are Mapor R. O. Bassett, university military instructor; General J. H. White, adjutant general of Nevada; Major Eugene Howell, 115th Engineers; Captain Miles N. Pike, infantry; Major John W. Grant, 40th Military Police; and Captain William W. Koskella of the 40th Military Police.

Theme of the dance will center around flags, supplemented by infantry weapons. Refreshments will be served during lulls in the dancing.

Tickets to the affair are being sold by members of Scabbard and Blade.

Mazour and Ross Speak at Chapel

Dr. Anatole Mazour of the university history department addressed an attentive crowd at St. Stephen's chapel last Sunday evening. His topic revolved around the menace of fascism to the church.

After the address, the meeting was opened to discussion. Many university students took part in the discussion.

This Sunday evening Miss Emily Ross of the university faculty will speak on "Chinese Adventure." She also will exhibit some of the important and interesting works of art which she collected during her travels in China.

PHI KAPPA PHI DAY TO BE SPONSORED NEXT FRIDAY

The University of Nevada branch of the Phi Kappa Phi, national honorary scholastic society, will sponsor annual Phi Kappa Phi Day, Friday, February 24.

Guest speaker for the day will be Dr. John C. Almack, professor of education at Stanford University.

Dr. Almack will address the student body Friday morning at a general assembly and later on in the afternoon he will speak to Phi Kappa Phi members and initiates.

Dr. Almack is a nationally-known educator, having published several books upon the subject of education. For many years he has devoted his time to school administration. One of Dr. Almack's books, "Research and Thesis Writing," has been for several years one of the best of its kind to be published.

The university branch of the organization will meet next Thursday to elect initiates from senior groups with high scholastic averages.

DEAN MACK LEAVES

Dean Margaret E. Mack will leave Saturday morning for Cleveland, Ohio, for the conference of National Association of Deans of Women.

Problems of housing, sororities and other things will be discussed at the meeting. She will return February 28.

University Groups Help Mardi Gras

Students to Entertain With Tumbling Act In Floor Show

Two university organizations will be represented in the first annual Mardi Gras ball to be held in the state building next Tuesday.

The University athletic department and St. Stephen's student group are to appear in the floor show.

Final work in the organization of the first ball was completed with the formation of the central committee, which is made up of representatives of each of the groups that are to take part in its promotion.

Student Acts

Two University students, the Hart brothers, will put on a tumbling act as part of the entertainment. Skits and various acts, with all groups participating, will furnish the rest of the entertainment.

Various committees placed in charge of parts of the program consist of the following: Program and music committee, Mrs. John Fulton, Edwin Semenza, and Joseph Ashton; publicity committee, Mrs. Henriette Osgood, Mrs. George Snow, Mrs. Emerson Wilson, Mrs. Lillian Borghi and Miss Peggy Pearson; finance and budget committee, Jack Fasson, Edward Green and Mrs. Charles Murphy.

The orchestra will be under the direction of Rube M. Tuttle, former student and assistant director of the band at the University, who will return from his engagement at Treasure Island, San Francisco, for the Mardi Gras.

Pageant and Floor Show

Plans are under way for the opening pageant and floor show which is being described as "An Invasion From the Moon." The skit parade will be ushered in at 9 o'clock by Pierotte and Columbine. The floor show will be under the direction of Harlequin. Acts will be presented by the Latimer Art club, Nevada Art association, University athletic department, St. Stephen's student group, and will end with a play presented by the Reno Little theater.

Masks are required for everyone. Prizes will be awarded for the best man's costume and the best woman's costume, for the handsomest costumed couple, and for the most original costume.

The program will be presented in the following order:

Grande Entrance, "Ridi Pagliaccio"; L'Amour de l'Apache, Osgood and Osgood; La Cinquantaine, Christine Woodward; Les Gavroches, Hart Brothers (University Athletic Department); Car Soursurrealisme, Nevada Art Association; "Artiste, Latimer Art Club; Eclair d'Epee, Osgood and Osgood; Valse Masquerade, Murphy and Blunt; Le Coeur de Pierrot by M. de Faux Pas, Reno Little Theater directed by Edwin Semenza (Pierrot I, Jim Blune; Pierrot II, Jack Newman-Clark; Harlequin, Preston Freeland; Columbine, Mary Margaret Murphy); Bal Masque, midnight, and the removal of masks, with prizes awarded. Collegiate orchestra under Rube Tuttle.

"Can you explain what strategy is?" "Well, when you run out of ammunition and you don't want the enemy to know it, it is strategy to keep on firing."

No man has lived who hasn't some time during his life felt so small that he could look under a daschund without stooping.

Once a Scotchman's wife had a baby. So the Scotchman hurried to the hospital to see if the infant had any silver spoons in its mouth.

"My foot's asleep. What shall I do?" "Nothing. You should let sleeping dogs lie."

"MITCH"

Forced to light work due to a training injury, "Mitch" Cobeaga may view most of the weekend series from the bench. He will be able to play if needed, however. Mitch has been the spark that set off several Nevada wins this year.

Two Large Firms Employ U.N. Grads

Two graduates with the class of '38 of the University of Nevada have been accepted for employment in graduate engineering courses in the two largest electrical companies in the United States.

According to Stanley G. Palmer, head of the electrical engineering department, Ben Morehouse left early in January for East Pittsburgh where he entered the Westinghouse graduate student course. He joined Bob Davey of the class of '37, who also is employed by the same company.

Llewellyn Young also went into further electrical study when he left last week to enter the graduate student course of the General Electric company at Schenectady, N. Y.

Both Morehouse and Young were outstanding in student affairs while at Nevada. Morehouse was a member of Phi Kappa Phi and president of the senior class. Young was a member of Nu Eta Epsilon and headed the Associated Engineers.

THE ANSWER

Distressed by the galloping hole summarily gouged in their wallets, a group of students edged up to their professor at the beginning of one of his lectures and queried him grievously, "Why, point blank—do you charge so much for your book?"

He didn't answer but, bowing politely, glided off his platform and was gone a full five minutes. When he returned, he was accompanied by an exquisite thing in a stunning Paris creation.

The prof turned to the roomful of students, waited for silence, then spoke: "Gentlemen, my daughter!"

"I dropped my watch out of a second-story window onto a concrete pavement and it ran for three days without stopping."

"Gosh! It must have been pretty scared!"

"What's your name?" "Jones."

"How do you spell it?" "S-m-l-t-h."

The trouble with being the best man at a wedding is that you don't get a chance to prove it.

F. Percival Speaks At Engineer Meet

Moving-pictures and a talk given by Mr. Fred Percival, resident engineer of the California Corrugated Culvert at Sacramento, guest speaker, were featured at a meeting of the University of Nevada Civil Engineers last week.

The sound-pictures and talk dealt upon the installation and use of metal pipe culverts and their importance in highway, agricultural and conservation projects.

Tentative plans for the civil department's participation during Engineer's Day were also discussed at the meeting. Fred Maynard was appointed head of the civil committee which will tend to the civil engineering department's portion of the annual Engineer's Day program.

A contest is to be held among the civil engineers in order to pick the students best qualified to enter into the Engineer's Day contests. The details of the contest will be announced at an early date.

Nevada Graduate Photos Lightning

Pictures of lightning were "caught" on the top of the Empire State building recently by three men, one a Nevada graduate, by using combined photographic and oscillographic studies of lightning strokes.

An article in a recent issue of American Institute of Electrical Engineering Magazine told, with illustrations, how these three men observed for three summers on the top of the building, 1250 feet from the ground, in order to film the spectacular sight.

P. B. Headley, the electrical engineering graduate at Nevada in 1931, was the man who successfully operated the equipment during the three summers. He is employed in the high-voltage research department of the General Electric company.

Prizes Received For High School Awards

Numerous prizes which will be given to the winners of the state-wide high school mechanical drawing contest, sponsored by the University of Nevada Associated Engineers as an Engineers' Day program feature, were received by the engineering department Wednesday.

The prizes, donated by the Detzgen company, nationally-known mechanical instrument manufacturers, are composed of several valuable instruments which are indispensable to the mechanical drawing student.

"I keep thinking that today is Saturday."
"Well, it is."
"I know—that's why I keep thinking it is."

MAGAZINE COMMENDS DR. CHURCH IN EDITORIAL

Dr. J. E. Church of the University of Nevada was commended in a recent editorial in the Mechanical West magazine for the efficiency of his snow survey methods that have been used to a great advantage in the Sierra Nevada mountains.

The editorial indicated that, because of the accuracy of these surveys of the Sierra watersheds, the amount of annual run-off can be predicted and proves invaluable to power companies, and to farmers who use the water for irrigation.

Last year, through data compiled by the survey, the actual maximum height of the water in Lake Tahoe was accurately predicted.

The technique is now applied to all sections of the west where water, as in Nevada, is a factor in power and irrigation.

The Sierra survey is carried on by the Nevada Cooperative Snow Survey which was established by Dr. Church. For the past ten years, however, the survey has been in charge of Professor H. P. Boardman of the University of Nevada. George Devore of the Sierra Pacific Power company, and Leigh Sanford of the Reno Evening Gazette.

The trio assumed charge of the survey when Dr. Church left on a trip to Greenland ten years ago for a glacial study, and they have kept it up ever since.

Prexies' Meet Postponed Until April

The High Schools' Student Body Presidents' Convention has been postponed to April.

Jean Rice, general chairman, stated that the convention will be held in conjunction with the High School Forensic Tournament. Plans are being made to make this convention one of the most successful as yet.

The following have been appointed to work on committees for the convention: Loyal Willis, secretary; Don Bowen, Evelyn Bulmer, Henry Wells and Lawson Sullivan.

No Word Received On Aviation Course

Hope for an aviation school at the University of Nevada waned this week when a check of officials most likely to be concerned revealed that nothing further has been done about the project.

Dean H. F. Sibley of the College of Engineering has not been contacted, nor has he heard of the project in connection with this university.

No mention of aviation has been officially made to the military department, military officials stated.

Dave Goldwater, A. S. U. N. president, who formerly was contacted with a request for those interested, has heard nothing further concerning the matter.

As two California schools already have adopted aviation in an experimental stage, it is highly doubtful that a unit will be established at Nevada this late in the semester, informed persons revealed.

California colleges initiating the courses are San Jose State and Pomona Junior College.

Akin to the sailor who takes a boat ride on a holiday and to the mailman who takes a walk on his vacation is the college student who spends his vacation loafing.

"I got up at dawn yesterday to see the sun rise."
"Well, you couldn't have picked a better time."

PRIZES OFFERED FOR MINING PAPERS

Prizes are to be given to two members of the Crucible Club who write the best papers on mining and metallurgical subjects by the Nevada section of the American Institute of Mechanical Engineering.

Prof. Jay Carpenter, secretary of the A. I. M. E., announced this week that the contest is to be sponsored by the Consolidated Coppermine Corporation, through its general manager, J. B. Haffner.

The exact date of the contest has not yet been decided on but the prizes already have been selected. To the student who wins first prize goes a Brunton compass, an oto the second best a hand mineral magnifying lens.

At Nevada you say "Hello!"

Nevada Students Given Scholarships

Three nominees for the Rose Sigler Mathews scholarship were named this week by the scholarship committee, Dr. Leon W. Hartman said today.

Helen Byrd, junior home economics student from Reno, Hal C. Peterson, freshman Arts and Science student from Ely, and Raymond Swingle, freshman engineering student from Dayton, were selected to receive these three scholarships, each carrying a value of \$50.

"And I suppose, like a brave soldier, you followed the colors?"
"Yes, I noticed the colors were flying, so I fled, too."

TO COLLEGE MEN WHO WANT REAL PIPE-JOY
GIVE YOUR PIPE WOES THE RUN-AROUND, MEN, WITH FRAGRANT, MELLOW-SMOKING PRINCE ALBERT. YOU GET 50 PIPEFULS OF THAT GRAND TOBACCO IN EVERY BIG RED P.A. TIN!
YOU get extra taste, extra mildness out of your pipe when you put "no-bite" treated Prince Albert in it! P. A. smokes cool and mellow, with a full, rich body. Packs easier, burns slower, too, because of its famous "crimp cut." Say "PRINCE ALBERT" today, and get real smoking joy.
SO MILD—SO TASTY!
THE BIG 2 OUNCE RED TIN
PRINCE ALBERT
THE NATIONAL JOY SMOKE
SMOKE 20 FRAGRANT PIPEFULS of Prince Albert. If you don't find it the mellowest, tastiest pipe tobacco you ever smoked, return the pocket tin with the rest of the tobacco in it to us at any time within a month from this date, and we will refund full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Company, Winston-Salem, N. C.
50 pipefuls of fragrant tobacco in every 2-oz. tin of Prince Albert

Posts to Be Open For Several Aggie Grads This Spring

Department of Agriculture To Hire Over 100 Students

More than one thousand positions will be available through the Department of Agriculture in graduating agricultural students in the United States this year, according to information received from the Washington headquarters of the department this week.

Because of enlarged research programs to be carried on by the department, there will be examinations given for 1100 junior scientists.

Varied Fields

These examinations include the fields of agronomy, bacteriology, biology, botany, dairy husbandry, economy, engineering, entomology, forestry, geology, home economics, pomology, pharmacy, plant pathology, range examining, soil science, statistics, textile technology, physiology and veterinary science.

Further information may be obtained from announcement No. 18 and application No. 8, which will be sent to applicants on writing to the Civil Service Commission in Washington, D. C.

Four Labs Established

The Department of Agriculture also is establishing four research laboratories throughout the country this year. Each of these laboratories will employ approximately 200 research technicians at starting salaries of \$2000 a year. Additional information may be obtained also from the Civil Service Commission in Washington, D. C., by writing for announcement No. 18 and application No. 8. Applications from states west of Colorado must be on file with the Civil Service Commission by March 2.

BETA SIGMA, TRI DELT LAMBDA CHI TAKE PAN-HEL AWARDS

A large heart on which was pictured a child holding a sponge for her valentine, designed by Beta Sigma Omicron, won for that sorority the prize for the best decoration at the Panhellenic reverse dance in the Odd Fellows' hall last Saturday night.

Other prizes were awarded to Delta Delta Delta and Lambda Chi Alpha for the best sorority and fraternity representation.

Much interest was shown in the way each sorority carried out the theme of St. Valentine's Day in its decorations. Pi Beta Phi decorated a heart with a bright nosegay. On hearts of graduating sizes, Kappa Alpha Theta placed silhouettes representing sweethearts, and a lady holding a large valentine in her hand adorned the Delta Delta Delta decoration.

Differing from the others, Gamma Phi Beta had a large frame of a heart behind which Norma McDowell and Sybil Furchner sang "Sweethearts" during the intermission.

According to Georgia Cooper, Panhellenic head, the dance was a success, and money was made to rth the organization.

GRADUATE ELECTED CHAIRMAN OF NEVADA HEALTH ASSOCIATION

Neil Scott, '32, instructor of physical education at the B. D. Billingshurst junior high school, was elected chairman of the newly organized Nevada Health Recreation and Physical Education Association in Reno.

The object of this organization is to awaken a wider interest in the physical education program, and to promote it throughout the state, bringing about more unity and cooperation of all those in the field.

Having held two meetings this year, a new constitution has been drawn up which is more in keeping with the district and national association constitutions. Professor James Coleman, of the university, and member of the program committee for the national convention which is to be held in San Francisco April 3 to 6, led a discussion on the convention, urging the attendance of all those who can go this year.

Miss Frances Humphrey, Reno high school physical education department and membership chairman, has been emphasizing a more concentrated effort at organization in order that this branch may have a representative on the legislative committee. A minimum of 25 members is required for this privilege, and all people interested in the program have been invited to attend meetings, the next of which will be held March 7 at Northside junior high school.

Those who have been active in the organization so far are: Kathryn Schnell, Eliza Sameth, Chester Scranton, J. E. Martie, Mae Simas and James Coleman of the university staff; George Gadda, Bruce Moore, Neil Scott and Helene Stark of B. D. Billingshurst junior high school; Idel Anderson, Northside junior high; Millicent Johnson, Fernley; Kathryn Luke, Gardnerville, and Frances Humphrey, Bud Beasley and Herbert Foster of Reno high school.

"What are you thinking about?"
"Nothing."
"Oh."
"What did you think I was thinking about?"
"Oh, nothing."
"What are you looking for?"
"A nickel."
"Where did you lose it?"
"I didn't lose one. I just want one."

COEDS PLAN FINANCE CONTROL GROUP FOR COEDS

Women students are making a study of conditions which would be favorable to having women's activities under the control of a women's finance committee, with faculty advisors.

Proposals have been made to take one-fourth of the money left over for the general fund, which would be \$2.40 after the money for Artemisia, Sagebrush, debate, class and athletics has been taken out of the \$10 fee, and put in a women's fund controlled by A. W. S. executive committee, heads of women's activities, and faculty advisors.

In this way the women's athletics will receive money for activities, as well as A. W. S., Y. W. C. A., Fine Arts and others.

Women senators will present a detailed plan of this proposal at the next senate meeting.

Y.W.C.A. to Begin Drive Next Week

Starting next week the campus Young Women's Christian Association will launch its Far Eastern Emergency drive.

The drive will be inaugurated at the student body meeting to be held soon. A speaker from the organization will explain the campaign to the students and ask for the student body's support for the drive.

Members of the organization will begin a tag sale immediately after the meeting which will be prolonged for an entire week. The tags will not have a special price and as much or as little as the purchaser wishes to give will purchase the tag.

Uedge cards for larger sums also will be provided in case a student wishes to be more liberal. The committee handling the drive consists of Florence Butler, chairman; Mildred Wiley, Eleanor Potts and Lila Stoddard.

Entries Open for Senior Book Prize

Entries are now open for the Armarko Senior Library Book Prize, awarded each year by the Armarko Office Supply company to the graduating senior possessing the best private library. Professor A. E. Hill, head of the department of English, announced this week.

The prize consists of \$100 worth of books selected by the winning student and purchased by Armarko's for that student at list price.

To be eligible for the prize, each entrant must list each of his books according to author, title, and place and date of publication. The volumes also should be classified under such headings as fiction, essays, references, history, mechanics, geology and the like. Textbooks should be listed separately under such classifications as language, science, literature, etc.

All applications must be in the hands of Professor Hill by April 20.

The committee appointed to determine the winner of the prize consists of Professors A. E. Hill, Stanley G. Pimer and Eldon Wittwer.

Grad to Sail For Philippines

Jack Ericson, graduate of the Mackay School of Mines in 1930, and formerly of Ely, Nevada, has been appointed general superintendent of the Exiban Mining company at Paracale, Camarines, Philippine Islands.

The mining company, situated approximately 150 miles from Manila, is on the island of Luzon. Ericson has charge of a 50-ton flotation unit, working gold ore from a shaft mine. Accompanied by his wife, he will leave for the islands some time this month, by way of San Francisco.

Send the 'Brush home.

W.A.A. Delegates To Berkeley Named

Delegates to the national Women's Athletic Association conference to be held in San Francisco April 14 and 15 were named by the W. A. A. at a meeting Tuesday afternoon. They are Beatrice Lansdon, Gertrude Freeman, Felicia Moos, Marie Varnon and Betty Kormmayer.

The University of Nevada was admitted into the national organization in 1922, and has been active in the conference since that time.

At the same meeting, Earlmond Baker was put in charge of the badminton games held on Thursday nights. Marie Varnon, senior, was named chairman of the nominating committee for W. A. A. elections which will be held in the middle of March. The rest of the committee is composed of all seniors in the club who are of good scholastic standing.

Caroline Best will take over the position of ski manager in the absence of Kathleen Starratt, who is training at Sun Valley with the United States Olympic team. Those eligible for W. A. A. credit is skiing are Audrey Sellman and Mary Jane McSorley.

FORMER STUDENTS MARRY TOMORROW

The marriage of Miss Virginia Beckley, '38, and Jack A. Richardson, '37, will take place tomorrow afternoon at the Methodist church in Las Vegas.

Misses Marilyn Rhoades, Eunice Beckley, Shirley Ferron and Barbara Ferron will be bridesmaids, and Ruthie Doolittle, former university student, will be the maid of honor.

John Sala, Jerry Havens and Lester Kitch, classmates and fraternity brothers of the groom, have been chosen ushers.

Miss Beckley is the daughter of Mr. and Mrs. Will Beckley of Las Vegas and was affiliated with Kappa Alpha Theta sorority. Richardson was a member of Lambda Chi Alpha.

Beta Kappa Members Given Banquet

Honoring Mrs. W. J. Cook, former president of the Beta Kappa Mothers' Club, a banquet for members of the club was held at the chapter house last week.

Mrs. Cook has been president of the club for over five years.

Mrs. J. Benjamin Parker, head of the group, presided at the banquet and announced that a card party with refreshments would be held February 18 at the fraternity home. A house inspection by mothers and members of the group completed the banquet.

HOME ECONOMICS CLUB HOLDS ELECTION OF OFFICERS

New officers for members of the Home Economics Club at its annual banquet last week.

The new officers who will take their positions immediately include Gertrude Freeman, president; Mary Arentz, vice-president; Ruth Pray, secretary; Caroline Best, treasurer; Dorothy Stakel, historian, and Eileen Sayre, publicity manager.

The banquet was prepared by members of the class in quantity cooking, and about forty-two coeds attended the dinner meeting. Tables were decorated in motifs of graduation, spring, desert and ski, according to the class ranking.

Tri-Delts to Give Annual She-Jinx

Delta Delta Delta will sponsor the annual She-Jinx, get-together for all university women, some time this spring after basketball is over, Clarethel Masterson, Tri Delt prexy, announced.

The date will be announced after arrangements are made with the women's physical education department and Miss Sameth. The Jinx cannot be held until basketball is over, Masterson said.

The She-Jinx is an annual affair, sponsored by Delta Delta Delta sorority, for the furtherance of good will and friendship between all women of the university.

GOLF TOURNEY PLANNED FOR COEDS

For all women students who took golf for physical education credit last semester, a tournament will be held during the latter part of March, and credit in physical education will be given them.

It will be necessary for all interested to play one round, or eighteen holes each week, and the fee will be set with the completion of enrollment in the class.

Lola Frazer and Earlmond Baker have been named managers of the activity.

W. M. Jones Named Theta President

Wilma M. Jones, prominent junior, has been elected president of Kappa Alpha Theta sorority for the 1939-40 school year.

Other new officers are: Vice president, Dorothy Atcheson; corresponding secretary, Maris Maule; recording secretary, Shirley Fuetsch; treasurer, Kathryn Devlin; assistant treasurer, Annie Laurie Ballom; rush chairman, Thelma Crosby; assistant rush captain, Betty Hardy.

Activity chairman, Juanita Elcano; social chairman, Aileen Smith; assistant social chairman, Merian Ducker; fraternity educator, Janet Holcomb; historian, Inabelle Jarvis; archivist, Mary Arentz; chaplain, Margaret Johnson; editor, Marjory Gusewelle; marshal, Helen Cameron; house manager, Georgine Best; library chairman, Georgia Ereno; music chairman, Margaret Heitman; assistant music chairman, Mickey Fairhurst; senator, June Adams. Panhellenic delegates are Wilma Jones and Thelma Crosby.

"What are you waiting for?"
"Street car."
"But there are no street cars here."
"That's why I'm waiting."

Mechanical Engineers Hold Meetings Weekly

Since the beginning of the second semester, the Nevada Mechanical Engineering Society has been scheduling weekly meetings at 11:25 on Friday mornings in the Mechanical Engineering building.

Various form of entertainment are featured at the engineering meetings along with the general business.

Talks are given by mechanical students on topics taken from American Society of Engineers magazine and at intervals motion pictures are presented before the mechanical group.

This morning, at the weekly engineering meeting, a moving picture was presented before the society. The sound-movie was produced by the Pontiac motor company.

According to Edward Zareh, chairman

of the Nevada student engineers' association, "the meetings should positively be of interest to Nevada mechanical engineers and all are urged to attend."

"Is there anything at all you're sure of?"
"I'm sure I don't know."

The best of all cobblers
to be—

Shoe Shop on the Rouge

IT MAY surprise you to learn that a cobbler's shop runs daily at the Ford Rouge plant in Dearborn. But the Ford plant is full of surprises. Every one has a practical answer.

Hundreds of workers in the Rouge require special types of footwear. These the company furnishes. So a steady stream of worn-out footwear reaches the Rouge cobblers,

and the busy tap-tap of their hammers joins the rhythm of ten-ton presses and heavy rolling mills.

The cobbler's shop is one part of the great drive that prevents waste in the Rouge. Lumber from incoming crates is sorted and used for outgoing shipments. Waste paper and wood chips go to the Rouge paper mill. Metal particles removed

by grinding wheels and metal saws are reclaimed. Nothing is lost—nothing wasted.

All this plays a part in making finer, better Ford cars. Pennies saved are pennies earned. Multiplied at the Rouge into millions, they help build the value that keeps millions of Fords delivering dependable, economical service year after year.

Represented for National Advertising by National Advertising Service, Inc., College Publishers Representative, 420 Madison Ave., New York, N. Y. ; Chicago, Boston, Los Angeles, San Francisco

The editorials in the University of Nevada Sagebrush express the thoughts of the editor of the publication and make no pretense of being the barometer of the sentiment of the University of Nevada student body or administration. All editorials are written by the editor unless signed otherwise.

THE ANNUAL MACKAY DAY CELEBRATION

will start in reality next Monday morning when male members of the University of Nevada student body begin to cultivate crops of hair upon prominent or receding lower jaws.

With the inauguration of the 1939 Whiskerino contest, to all intents, will begin a real job for the men's upperclass committee. A great deal of checking, etc., is required every year during and preceding the Mackay Day celebration. If done properly, the men's upperclass committee does much to help the celebration committee and the celebration itself.

It is the opinion of the Sagebrush, however, that the aforesaid tradition's committee will have to show a little more activity than it has shown so far this semester.

Last year, after much wrangling, the student senate created a subordinate committee to the men's upperclass committee composed of sophomores whose duty it is to help uphold and to enforce the traditions of the University of Nevada.

Outside of a news story concerning the appointments of these students early in the fall semester, no action has been apparent from this group.

Although the dinks and bibles have been done away with during the spring semester, there are numerous other traditions that have not been enforced since the beginning of school, and which should be enforced more thoroughly.

The Sagebrush suggests that the chairman of the men's upperclass committee get his sophomore vigilants into action and perform the duties for which both the upperclass and underclass groups were formed.

THE Y.W.C.A. HAS STARTED

a drive on the campus to secure funds with which some student in the Far East can continue a college career. The organization does not ask a very large sum of the students at the university. Only a spare nickel or dime that might be spent foolishly is solicited. Chinese students especially, retreating farther and farther into the interior of China in order to continue the process of education, are in need of the emergency fund.

Many students naturally will question the drive, wondering why a drive isn't started for the benefit of United States scholars. There are dozens of reasons which will not be discussed here but which may be argued out at any meeting of the Y.W.C.A. In the first place, local students are not menaced by the tons of steel from Japanese guns. Again, there are numerous forms of student relief which the American student can apply for.

It won't even make a dent in your expenses for the weekend to forego a package of cigarettes or a bar of candy or a coca-cola and place the nickel or dime in the fund. Perhaps someday someone on some foreign shore may do the same thing for your children.

ACCORDING TO THE NEWSPAPERS

the investigating committee has practically finished its investigation of the University of Nevada and will have its report ready to submit to the legislature of the state early next week.

The Sagebrush hopes that the legislature will recognize the need for time and act upon the report without delay. The legislature has only a few short weeks within which to consider the proposals and act upon them. Unnecessary delays only serve to create difficult situations which might lead to complications next year.

Coed Quartet Provides Entertainment

The Coed Quartet, accompanied by Mrs. Theodore H. Post, presented several songs as entertainment at a dinner meeting of the Veterans of Foreign Wars Wednesday night at the Veterans hall.

Songs by the group included: "Tenting on the old Camp Ground," "Silver and Blue," "Little Elf Men" and "Little Papoose." Members of the quartet are Delphine Truelove and Emogene Byars, sopranos, and Norma McDowell and Barbara Grimmer, altos.

Card Received From U. N. Graduate

Professor J. A. Carpenter, Mackay School of Mines, received a card last Monday posted from Tripoli, Libya, January 19, by Chandler Johnson, University of Nevada graduate.

Johnson, accompanied by Julius Broili, also a Nevada graduate, has just reached the "half-way" mark of an 'round-the-world trip.

Bernard Lecture Ticket Sales Excellent

Reserve tickets for the lecture and motion picture by Theos Bernard, well known lecturer and explorer, who will speak on Tibet at the Civic Auditorium March 21, are nearly all sold, Bob Parker, in charge of the affair, states.

Bernard will speak on "The Penthouse of the Gods," a subject recently made popular by the motion picture "Lost Horizon," and will illustrate his topic with colored motion pictures made by him in Tibet.

Actual costume worn by lama priests in the remote interior of Tibet will be shown by Bernard, who was the only white man ever to be admitted into their sect. Bernard's hair-raising adventures exploring this least-known Oriental country also will be told in conjunction with the colored film.

"What's your name, anyway?"
 "Oh, it's a Swedish name."
 "Well, what is it?"
 "Can't say. I don't speak Swedish."

SCREAMS...

From the Dark

By OPHELIA, '00

Busy, busy, busy was the tempo being lived up to by members of the student body for the past week. First of all there was all the rehashing of the outstanding weekend events consisting of such things as who took who to the Pan-Hel dance and what happened after the dance. Blue Monday loomed its heavy load wearing two other colors, the red and white (in honor of Lincoln's birthday), then right in the midst of everything lucky blonde, red-headed and dark-haired damsels found themselves either with or without remembrances of love and such on St. Valentine's Day—the remainder of the week seems to have been concentrated on making last-minute dates and preparations for the gala Military Ball which finally becomes a reality tomorrow night.

Had you complained that your ears had been ringing these past few weeks, according to tradition, we could have explained it by saying that someone has been talking about you. Oh, and what a lot of talking there has been! But if we can believe in promises we will know what all the conversation has been about early next week. In case you don't get it, I am referring to the final windup of the investigating committee. The time is near when they must tell all, and from present indication that "all" is going to contain lots of interesting and perhaps embarrassing facts. I hear tell, too, that a suggestion or two will be included.

Since I have neglected to award any orchids for quite some time now, I'm sure there will be no objections if two are awarded at this time, especially since I plan to pin them on the manly chest of none other than that man-about-the-campus, Becko. I based this award on the ever-present evidence that he is a hard-working feller. Have you ever chanced to notice how many times his name has appeared along with important notices on our bulletin board? Yes, he's the fellow that also puts out the women's upperclass committee notices.

There it is again—that upperclass business. I try to steer clear of that topic on account of—well, just on account of, I can't help wondering if both the men's and the women's committees have crawled into the hole with the groundhog. Pray tell me, pretty maid, who is going to start checking the growth of beards that, if I have my dates right, is to start next week?

One, two, three, four, who are we for? Nevada, rah! rah! And so we have a pep rally a bit late in the season, perhaps, but at least in a slight way it shows that the student are aware that Nevada has a basketball team—and though it doesn't drag home lots of trophies, they are out there fighting and trying—and I believe they deserve a lot of credit for all that they have been and will continue doing during the remainder of the season.

Peace be with you weary little girls of the A. W. S. executive board who have been trying so hard to create a little interest and entertainment for the women students of the campus. For the third time this semester plans for the A. W. S. fashion show were thwarted. Let's hang in there and fight, gang! Maybe if you are lucky, maybe, you will be able to work out a time suitable for showing what the weary coeds should

OUT OF THE SCRAPBOOK

WILL IT SOLVE?

Coach Granville Leavitt, athletic coach at Wells high school, recently sent out questionnaires to state-wide coaches inaugurating the first move for a wide-open state-wide high school basketball tournament.

Said Coach Leavitt, in a letter accompanying the questionnaire: "Under our present set-up the same teams go year after year and the boys in the smaller schools do not get to see the university and consequently the university loses many good athletes. Perhaps the open tournament would help solve the athletic problem of the U. of N. Most of the small schools have one or two natural athletes, capable of playing in college. If every school could send just one good boy to the university it would mean the nucleus of a fine squad!"

Results of Coach Leavitt's questionnaire show a majority of state coaches to be in favor of the plan. Also, a majority favored returning the tournament to Block N control, and the plan that the new system be put into use this year.

WISE-CRACKS

From The Northeastern News comes this ACP release on the history of a few wise-cracks: Smart though today's wise-cracking collegian may be, he's not so inventive as he thinks he is, if you believe the researches of University of Buffalo librarians.

Among the modern wisecracks that are not so modern, according to their discoveries, are the following: "I'll tell the world," was first used by Shakespeare 315 years ago.

wear home after the close of this semester.

Things to be thankful for: Read recently that in Rockford, Ill., those revelers that chanced to later become confined to the jail on the charge of drunkenness are placed on a diet of bread and water and castor oil. Oooh, nasty, nasty! Aintcha glad no such rule exists out this-a here-way.

More important meetings of the week were those of the Mackay Day committee and the Finance Control Board. The Mackay Day committee already has fairly well planned out this year's celebration and soon will begin bearing down on filling out and polishing these plans. The money-pinchers approved the audits of the Sagebrush and Artemisia books and sat back with a worldly wise way when the way in which the allotted debate money is to be spent was discussed.

Heard tell that there is to be a change in the grading system. What ho, what confusion from henceforth if said change is made. The four will be the high grade and the one the shame-shame factor. Wo, wo, what a smarty I'll look like from then on! But woe is me regardless of how they figure the thing out—it still requires a lot of time, thought, worry and something "upstairs" to come out on the right side.

DUKE UNIVERSITY SCHOOL OF MEDICINE DURHAM, N. C.

Four terms of eleven weeks are given each year. These may be taken consecutively (graduation in three and one-quarter years) or three terms may be taken each year (graduation in four years). The entrance requirements are intelligence, character and three years of college work, including the subjects specified for Class A medical schools. Catalogues and application forms may be obtained from the Admission Committee.

"Not so hot," is from the same author's "Winter's Tale."
 "Beauty but skin deep" was Philip James Bailey's description of a woman in 1861.

"I'm no angel" was coined by Thackeray about 1848.

So, before you cliché inventors lay claim to a new word combination, you'd better check the classics first.

A SCOOP!

Northeastern University journalism jokesters recently set a pace as far as fish stories are concerned.

"One of the freshman members of the News, an unsuspecting chap, arrived one morning to find a notice that he was to call a certain number and ask for Mr. Trout. Sensing a future scoop for himself, the lad immediately obliged. Imagine his discomfiture to find that some naughty boys had been hoaxing him, for the number was that of the aquarium!"

INQUIRY?

From the column of a Fallon Standard writer issued forth information on the university investigation.

"While the University of Nevada 'investigation' has made the headlines for two weeks, Chairman Lattin of the senate-assembly committee has recently said he prefers the name of 'inquiry' applied to the hearings called at the state capitol and on the campus.

"University officials and faculty members, however, look upon the inquisitive lawmakers as conducting a 'probe!'"

RADIO-LECTURE

Lectures a la radio are featured by Professor C. E. Kirkwood of the School of General Science at Clemson College, South Carolina. The professor lectures into his short-wave mike, and a friend of his several hundred miles away picks up math pointers. The professor's friend works on his problems mornings and then they both go over the results in the afternoon, via short-wave radio.

GIRLS, BEWARE!

The story of mice and miners recently cropped out anew at the University of Idaho campus. In order to stimulate great campus interest in Idaho university "Muckers' Ball," a something-for-nothing proposition was created. To the ten persons who arrived first at a gymnasium the morning of the ball with a live, healthy mouse, the Associated

Miners gave complimentary tickets to the event. As a further condition, the Idaho miners stated that the mice would become their property.

MUSIC

Montana State University students gathered in the student auditorium last week to hear a recital presented by Albert Spaulding, noted violinist. The concert was well attended and the artist was called back to play four encores.

SWING 'N' STUFF

University of Indiana dancer-students will have the opportunity to "go dancin' with Anson" at their annual military ball, February 18, which will feature the orchestra of Anson Weeks, nationally-famous maestro.

GAB-FEST

A feature in courses at the University of Minnesota is a "conversation laboratory." Students and faculty members gather for discussions and the conversations are recorded for future study.

A BIG SEND-OFF

Speaker-to-be at the University of Indiana 1939 commencement will be William Allen White, publisher of the

Emporia, Kansas, Gazette. The "Sage of Emporia" has, for many years, been one of the leading journalist-crusaders in this country.

REAL NEWS!

In a survey conducted to find out whether college men considered college women "gold-diggers" at DePaul University, it was discovered that the coeds were content to have only \$2 spent on them in one evening. The men surprised everyone by voting for a \$3 maximum per night.

BLOATED

According to the University of Utah Chronicle, "Lemon-sucking was the order of the day" last week on the Utah campus when it was discovered that a "mumps" quarantine placard had been posted in front of the Sigma Nu fraternity. The reason for general campus lemon-sucking was because several of the I-don't-want-to-be-confined Sigma Nus had skipped out after discovering the plight of a brother—and the campus medicos were frantic.

POPULATED

Not only every state, but 47 different countries are represented in the Harvard University student body.

When You're in Sparks Visit the

Improved Freshman Cage Team to Meet Leaguers, Serpents

Frosh Play Preliminary to U. of San Francisco Tonight

An improved Nevada freshman basketball team will face two strong opponents when it entertains the City League's California Grocery five tonight in a game preliminary to the Nevada-San Francisco University tilt, and travels to Hawthorne tomorrow night to engage Hawthorne's lanky high school cagers.

The Grocers come to the Nevada gym tonight for their first contest of the season with the Nevada Babes. In play so far this season, they have four victories and three defeats to their credit, and will be heavily favored to win another game at the expense of the Nevada Frosh.

Return Game
Saturday night's game will match the Nevada Cubs with Hawthorne in a return game. In their first contest two weeks ago, the Yearlings defeated them by the score of 34-13 to swamp the hapless Serpents.

The Hawthorne five won its sixth game of the season last week but, unless it plays better ball than it has been doing, it will be easy to predict a win for the Nevada Freshmen. However, the small gym and the trip from Reno may make the difference between a win and a loss.

Follow Shots Practiced
At practice this week Freshman Coach Jim Coleman had his charges working overtime, especially in passing and in perfecting the follow-up shots. Coleman remarked that all of his men are in the best of shape, with the exception of Mario Vial, stellar guard, who underwent an operation for appendicitis last Tuesday at a local hospital.

The probable starting lineup for this week's games include: Paul Seaborn, Winfield Babcock and Robert Hawley at forwards, and Bill Harrington and Bud Anderson at guards.

Others expected to play are Herbert Smithwick, Peter Rosaschi, Bryon Waldman, Clark Guild, Marvin Luhrs, Bill Lattin and Kenneth Mann.

Handball Doubles Starts Tomorrow

Completion of the regular handball singles tourney marks the commencement of the handball doubles competition between the university tongs Saturday when all of the eight teams will go into action.

No certain favorite has been set up as graduation riddled last year's combinations.

Alpha Tau Omega, perennial holders of the Kinnear trophy for supremacy in intramural sports, will either have to win this handball tourney or finish high in the final standings of the coming baseball round-robin competition to keep the trophy.

Other fraternities having seen a ray of hope of capturing intra-fraternity leadership in athletics at the university makes the coming handball season have all the earmarks of a "dog fight."

Complete schedule for the doubles tournament is:

Saturday, Feb. 18—1 p. m., Independents vs. Lincoln Hall; 2 p. m., Lambda Chi Alpha vs. Beta Kappa; 3 p. m., Sigma Nu vs. Alpha Tau Omega; 4 p. m., Phi Sigma Kappa vs. Sigma Phi Sigma.

Monday, Feb. 20—4 p. m., Sigma Alpha Epsilon vs. Independents; 5 p. m., Lincoln Hall vs. Lambda Chi Alpha.

Wednesday, Feb. 22—4 p. m., Beta Kappa vs. Sigma Nu; 5 p. m., Alpha Tau Omega vs. Phi Sigma Kappa.

Saturday, Feb. 25—1 p. m., Sigma Phi Sigma vs. Lincoln Hall; 2 p. m., Sigma Alpha Epsilon vs. Lambda Chi Alpha; 3 p. m., Phi Sigma Kappa vs. Independents; 4 p. m., Alpha Tau Omega vs. Beta Kappa.

Monday, Feb. 27—4 p. m., Sigma Nu vs. Sigma Phi Sigma; 5 p. m., Lincoln Hall vs. Phi Sigma Kappa.

Wednesday, March 1—4 p. m., Lambda Chi Alpha vs. Alpha Tau Omega; 5 p. m., Lincoln Hall vs. Phi Sigma Kappa.

Saturday, March 4—1 p. m., Sigma Phi Sigma vs. Independents; 2 p. m., Phi Sigma Kappa vs. Lambda Chi Alpha; 3 p. m., Alpha Tau Omega vs. Lincoln Hall; 4 p. m., Sigma Nu vs. Sigma Alpha Epsilon.

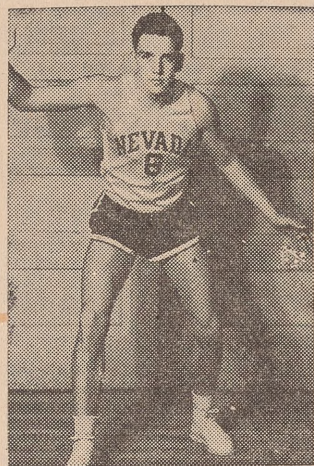

Monday, March 6—4 p. m., Beta Kappa vs. Sigma Phi Sigma; 5 p. m., Independents vs. Sigma Nu.

Wednesday, March 8—4 p. m., Lincoln Hall vs. Sigma Alpha Epsilon; 5 p. m., Independents vs. Alpha Tau Omega.

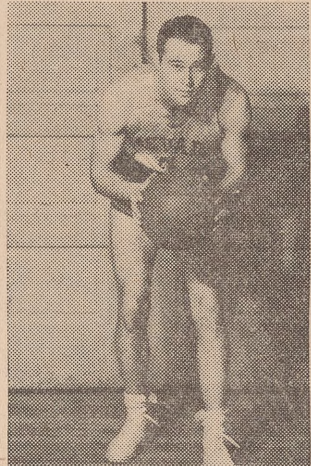

A coed is an appetite wrapped up in a raccoon coat and wearing dirty shoes.

WOLF PACK RESERVES

BLAKE SPEERS

JOHN MAYSE

LEE CONWAY

JOHN LEMICH

Four of the Wolves who test the fire and mettle of the first-string during the week are shown above. These boys get very little of the glory but are the work-horses of the Pack. Although they haven't seen a great deal of action during the season, they will be ready at any time to bolster the Pack.

Frosh Hoopsters Win Two Straight

The Nevada frosh basketball team rolled through two prep teams last weekend to stretch its string of victories to four straight.

The Cubs downed the Stewart Indians 33 to 20 in Stewart Friday, and nosed out Yerington by a 35-to-31 count in a thrilling overtime battle Saturday.

Win Babcock, freshman forward, captured scoring honors in the Stewart tilt, chalking up 14 goals.

Roy Anderson led the Yearlings in Saturday's game with a total of nine points.

JUNIOR VARSITY BEATS FALLON MERCHANTS 38 TO 23

The fast-improving Junior Varsity quintet hit its stride Wednesday evening and walked all over the powerful Fallon Merchants by a score of 38-23.

With a fast break and a zone defense working smoothly, the Jayvees led all the way and at no time did the Fallon team seriously threaten.

The Merchants, boasting one of the strongest town teams in the state, were lost on the big court and were kept in the game only by Lofthouse's long shots.

McNabney with 10 and Edwards and McCulloch with eight points each, led the Junior Varsity, while Lofthouse chalked up nine for the losers. Taylor and Hawkins both turned in fine floor games for the winners.

Wife—How do you like my new gown? I got it for an absurd price.

Hubby—You mean for a ridiculous figure, don't you?

S.A.E., Beta Kappa Tied in Handball

Bill Peccole, S. A. E., halted Leland Tucker, Beta Kappa, in his march to the 1939 intramural handball singles championship when he scored a 21-17, 22-20 victory over the B. K. representative Saturday.

The result of the B. K.-S. A. E. match threw the tourney into a three-way tie for first, but Lambda Chi Alpha stopped Lefty Mayer of Phi Sigma Kappa, the third claimant to first place, with scores of 21-11, 21-17 against him. By virtue of this victory Lambda Chi and the Phi Sigs are in a tie for third place.

Play Off Tie

Tucker and Peccole will play off their tie next Monday. Lambda Chi and Sigma Phi Sigma will rest on their laurels and remain co-holders of the third spot.

Results of other games of this, the final week, of competition, found Lincoln Hall handing Sigma Nu its eighth straight defeat by counts of 21-16, 17-21, 21-19; Lambda Chi Alpha taking the Independents 21-18, 21-11, and Phi Sigma Kappa conquering A. T. O.

Other Wins

Independents also won over Sigma Phi Sigma, 21-15, 21-12; S. A. E. defeated Lincoln Hall; Sigma Nu defaulted to Phi Sigma Kappa, and Lambda Chi Alpha got a gift game from Sigma Phi Sigma by default.

Final standings (without play-offs):

	Won	Lost
Beta Kappa	7	1
Sigma Alpha Epsilon	7	1
Phi Sigma Kappa	6	2
Lambda Chi Alpha	6	2
Independents	4	4
Sigma Phi Sigma	3	5
Alpha Tau Omega	2	6
Lincoln Hall	1	7
Sigma Nu	0	8

Jr. Varsity Meets Waldorf Tomorrow

Ready to display a new razzle-dazzle offense and defense, Coach Ray Harris' Junior Varsity basketball players will encounter the Club Waldorf, last year's City League's champions tomorrow night in a preliminary game to the Nevada-San Francisco tilt.

Losing only two games so far this season Harris' squad is full of vim and vigor and out to stretch their ever-increasing list of wins.

Since defeating the strong Reno Print cagers this week, the Waldorf five will provide the Nevada Juniors with plenty of trouble.

Wolf Pack Splits Two-Game Series With College Of Pacific

The University of Nevada basketball Wolves split a series of two games with College of Pacific last week. By a 38-40 score, the Pack dropped the game Friday but won the final tilt 44-35.

A tied score of 38-38 with 45 seconds left in the game added to the intensity of the opening contest. Paul Rippon, Pacific forward, hit the basket for the winning goal. Nevada had just finished a six-minute rally which had erased a 37-29 Pacific lead.

In the final game of the series, Nevada evened the score with a 44-35 victory. Ray Harris was high point man in both games, accounting for a total of 31 points in the series.

Although Nevada's chances are considerably lessened now after the College of Pacific split series, the Wolves are not out of the conference title race. Should the Cal Aggies take the College of Pacific in their series, a double win for Nevada over the Aggies would place the Wolf Pack in the Conference lead.

CITY LEAGUE TEAM GIVES J. V. SETBACK

Coach Ray Harris' Junior Varsity basketball team received a 31-23 setback by the powerful City League Elks Club quintet last Saturday at Billingshurst gym.

The Elks Club caged 13 baskets to the Jayvee's 10, but inaccuracy at the foul line kept the Nevada boys from winning.

The first half was close with the Jayvees holding a 12-10 lead at the half-way point after the first quarter ended in a 6-to-6 deadlock.

Taylor led the Nevadans with four baskets, with Shepley and Edwards scoring seven points apiece, while Andrews closely followed with six. For the Elks, Mayer was high with three baskets and two foul shots.

The Junior Varsity five played good basketball in the first half of the game, but during the last half met with hard luck in shooting, which accounts for its downfall.

Intermural Ski Meet Is Planned

An interfraternity ski meet will be held some time in the near future if plans discussed in the last interfraternity council meeting go through.

The contest will be on a tryout basis to see if the sport may be placed on the list of interfraternity sports for next year. No points toward the Kinnear trophy will be awarded the winner this year but a cup put up by the council will be given the winning team.

The same rules will apply to the ski meet that apply to other interfraternity sports.

Other business discussed at the council meeting last week were plans for group buying among the fraternities as well as other proposals concerning financial affairs.

Dr. Church's Work To Be Lauded in Two Publications

Snow Surveying Articles Will Appear Late This Month

International recognition of the work of a University of Nevada faculty member will be given late this month by two prominent magazines when they publish articles about Dr. J. E. Church and the method of snow surveying developed by him.

One article will appear in the March number of the Scientific American, and a condensed version will be carried in the March issue of the Readers' Digest, which has one of the largest circulations of any magazine in America.

Both articles are written by Myron M. Stearns, who made a special trip to the Nevada campus this autumn to gather material for the piece, and Blaine Stubblefield.

The Readers' Digest article explains the service to snow surveying to the ranchers, irrigation districts, power companies, lumbering interests and others in forecasting the runoff in the streams which head in the mountains. Referring to Dr. Church "the leading snow scientist in this country," the article tells how he developed the approved method of measuring snow.

Referring to Dr. Church's presidency of the International Commission on Snow, the Readers' Digest says he is "endowed with the flaming scientific spirit of an Audubon."

The Digest article originated with that publication, and was placed by it with the Scientific American for use at greater length, according to word received on the campus from Charles W. Ferguson, associate editor of the Digest.

Outstanding College Photos Will Be Gathered for Collegiate Annual

Outstanding collegiate pictures, appearing in campus yearbooks and newspapers, will be gathered for the first issue of the Collegiate Camera Annual, which will appear next fall.

To encourage photographic competition, a trip to Alaska with all expenses paid is offered to the student or faculty member of any college in the United States or Canada submitting the most popular picture.

National and local solons, specializing in collegiate photographic displays, have volunteered to submit outstanding pictures. Closing date for the contest is May 31, when most yearbooks will have finished their work. Already striking feature pictures have been forwarded by numerous editors, for possible inclusion in the new publication.

Purpose of the Collegiate Annual is to show what collegiate photographers are doing, and to act as a standard by which yearbook editors and photographers may judge their pictures and get ideas for unusual feature shots. Further information may be obtained from Collegiate Camera Annual, Wheaton College, Wheaton, Ill.

N.Y.A. STUDENTS RECEIVE \$918.81

N. Y. A. students, numbering 87, received \$918.81 for the month of January, according to Dean Margaret E. Mack, head of the N. Y. A. division on the campus.

The total number of working hours were 1989.1 for the period of time. Students are employed as typists, clerks, stenographers, janitors, assistants and other types of work.

PAUSE THAT REFRESHES

Halting for a moment during the full day of skiing that Nevada ski enthusiasts have been enjoying are two University of Nevada skiers who pause to take stock of the situation. Little will be seen of the Wolf Pack skiers during the next few weekends. The entire team is planning to participate in skiing events being held at the Golden Gate International Exposition during the next few weeks.

Stout to Speak To Campus Club

Frank Stout, member of the Lincoln Brigade fighting in the Spanish revolution, will be the featured speaker before members of the Campus Club at the Federated church this Sunday.

The subject of Stout's speech was not disclosed but he will probably reveal some of his experiences in the Spanish war. All interested students are urged to attend the meeting.

According to Darrel Cain, member of the organization, the Campus Club is working upon a new plan of meetings this semester.

The club will hold its initial gathering at 5:15 every Sunday evening for a buffet supper, after which they will adjourn to the chapel for a short service and at 6:30 the members will hold a discussion on topics of the day.

INQUIRY COMMITTEE COMPLETES ANALYSIS

The legislative committee investigating conditions at the University of Nevada concluded its hearings here and at the capitol this week and is now preparing the report on its findings.

The report, reputed to contain some "surprising" recommendations, must be submitted to the legislature on or before Monday, February 20.

The report covers both athletic and academic matters, though the committee had originally planned to make a separate report on each.

Details will be wound up tomorrow morning when the committee will meet to hear suggestions for proposed legislation dealing with the bookkeeping and pension systems at the university.

Cecil W. Creel, head of the Nevada extension service and professor of agricultural extension, appeared before the committee on Tuesday and discussed his organization with them at a closed hearing.

Forensic Tourney Planned in April

High School Squads to Meet At U. of N. for Annual Tournament

The annual high school forensic tournament will be held at the University of Nevada on April 13, 14 and 15.

In accordance with the unanimous vote of the coaches and directors at last year's meet, Professor Robert S. Griffin, state director of the tournament, has secured the services of Dr. Louis A. Mallory of the University of Wyoming faculty to act as adjudicator of the various contests.

For the first time in the history of the tournament, the judging of the various debate teams will be placed on the dual system of rating.

Student speakers will rate their opponents speaking against a total of eight other speakers. This will, in effect, select an all-opponents' team.

In addition to this ranking of the speakers by their opponents, each team will have one debate before a committee of three or five qualified judges, which will include Professor Mallory and Professor Griffin.

Thus at the conclusion of the tournament the debaters will have an idea of how they rank in the eyes of their opposition, as well as in the eyes of the official ranking committee.

The subject of debate this year is, "Resolved, That the United States Should Establish an Alliance With Great Britain," and each team entered in the meet will alternate from the affirmative to the negative side of the question.

Other contests scheduled to be included in the forensic tournament are the one-act plays, Shakespearean scenes, dramatic interpretation and oratory.

Professor Griffin said yesterday that he is looking forward to having the largest and most successful tournament in the history of the University of Nevada.

"Say, know what time it is?" "Yeah." "That's what I thought it was."

A. T. O. Initiates Twelve Members

Alpha Tau Omega fraternity will initiate twelve pledges into membership Sunday morning.

Wilbourne Andrews, Thomas Cooke, George Dangberg, Leon Etchemendy, Sam Francovich, Jay Gibson, Clark Guild, David Hall, Peter Kelley, Arthur Kinneberg, Andrew Rosachi and Frank Rosaschi will be the newly honored "Taus."

After the initiation, a banquet will be held in their honor at Carlan's Lakeside Inn.

"What piece of fire apparatus can't go down a one-way street?" "Well, what?" "A fireplug."

A certain Scotchman named Vincent changed his name to Vin—so he could save the cent.

NEVADA INFANTRYMEN Routed in First MAJOR ENGAGEMENTS

Following the first major engagement of their career, twelve Nevada soldiers recently retired from the field completely defeated and suffering painful wounds.

The infantrymen, junior officers in the R. O. T. C. battalion, assaulted the enemy twice in the past two weeks and were forced to spend the period preceding reorganization in their fraternity-house beds.

Next Monday the doughboys sally forth again in the last engagement of the battle.

Scene of the fight will be the university hospital. The enemy will consist of Dr. Vernon Cantion, university physician, armed with the murderous needle used for the smallpox and typhoid injections required of the cadets before attending summer camp.

A girl doesn't have to wear a cellophane dress in order to have some fellows see through her.
