

Heavy Vote by Students Marks Final Elections

Hardie Is Chosen Prexy of Student Body Last Tuesday

Casey Wins Junior Class Managership in Final Election This Week

Byron Hardie, junior mining student from Las Vegas, was elected president of the student body in a general election last Tuesday.

Hardie won by a margin of 164 votes, piling up 446 ballots to Henry Clayton's, Sigma Phi Sigma candidate, 282. The total of 728 votes was one of the heaviest ever cast in a campus election.

HONOR ROLL STUDENT

An honor roll student for three semesters, Hardie is a member of Nu Eta Epsilon, honorary engineering fraternity, and the Crucible Club, of which he is president. He is also a member of the Associated Independents.

He has also been very active in high school and varsity athletics, winning all-state honors in football at Las Vegas high school in 1935 and playing with the Nevada varsity for the last two years.

He has also been a valuable trackman at Nevada, consistently placing high in the javelin. He placed in the event in the track meet with the Cal Aggies last Saturday.

MEMBER ATHLETIC CONTROL

The new student head will be sworn in at a student body meeting to be held next week, outgoing-President Dave Goldwater said. He will automatically become a member of the newly-created board of athletic control, which will take control of the athletic situation here next week.

William Casey, sophomore arts and science student from Sparks, was also elected on Tuesday's ballot to serve as junior class manager next year. He won over Leland Strauch, S. A. E. candidate, by a count of 110 to 91.

Casey, a member of Sigma Nu, has been active in varsity debate. He also is a member of Blue Key, Sagers and the Press Club.

FIRST INDEPENDENT

Hardie is the first Independent student to be chosen student body president in some years. He ran fourth in the voided general election of two weeks ago.

The new student head's election provided the second member of the board of athletic control. Harry Frost, Reno business man and a graduate of the university, has already been named as the alumni member of the board.

Other officers last week at the primary election were Ross Ashley, senior class manager, and Paul Seaborn, sophomore class manager.

Four Officers Apply For Regular Army

Four senior R. O. T. C. officers successfully completed a physical examination to become applicants for a year's duty in the regular army under the Thomason act.

They are John Barrett, Clinton McKinley, John Etchemendy and Kenneth Wayne.

The Thomason act provides that a certain number of R. O. T. C. graduates be taken into the regular army following a year's tryout in a regular regiment.

One, or possibly two, candidates will be selected from Nevada to compete for a permanent commission in the infantry. Last year's Nevadans were Thomas Shone and Paul Azneraz, who are now stationed at the Presidio of San Francisco.

The officers selected by Colonel Oral E. Clark, military department head, will enter training with the 30th Infantry at San Francisco. Following a year of concentrated training, a board of officers will decide which candidates will remain in the army.

Carnival Heads Named by Roche

Dick Roche, newly-appointed chairman of the second annual University of Nevada Ski Carnival, announced the appointment of his committee heads this week.

New committee heads line up with Dick Ronzone, chairman of the finance board; Barbara McKenzie, corresponding secretary; Bill Moran, publicity chairman; Pat Meeker, social chairman. Committee chairmen will appoint all members of their committees, Roche stated.

The new board will hold its first meeting next Monday night at the A. S. U. N. building.

Student's Choice

BYRON HARDIE

Pasutti Chosen Medical Prexy

Dr. Vernon Cantlon Lectures on Thyroid Glands at Meeting

William Pasutti was elected president of Alpha Epsilon Delta, national honorary pre-med society, at a meeting held last evening. Pasutti, a junior student from Sparks, is a member of S. A. E. fraternity.

Other officers elected at the meeting were Pete Jensen, vice-president; Eleanor DuPratt, secretary; Cliff Lassen, treasurer; Kern Karrasch, historian.

CANTLON IS SPEAKER

At an open meeting held before the business meeting, Dr. Vernon Cantlon spoke on "The Thyroid Gland." He traced the history of the gland and the methods of treatment used in thyroid diseases. The talk was made most interesting by the frequent use of description of actual case histories.

Dr. Cantlon said that the most common type of thyroidism is the simple goitre which may be cured in most cases by administering iodine to the patient. He added that goitre is most often found where there is a deficiency of iodine in the soil and hence a deficiency of it in the water.

Dr. Cantlon went on to say that it is difficult to perform an operation on the thyroid gland because it is the most vascular gland in the body and therefore gives the risk of hemorrhage.

Alpha Epsilon Delta will hold a picnic on Sunday, April 30. The freshman pre-med and pre-nursing students will be invited to attend. The committee in charge of the affair is Sam Stark, chairman; Dean Nelson, Peter Jensen, Ruby Nay, Jean Knouse, Will Pasutti and Glenda Wilson.

Board to Examine H. J. Heinen First

Harold J. Heinen, B. A. and graduate of Hope College, Holland, Mich., in 1937, will be the first of nine prospective candidates to be orally questioned by an examining board for the completion of his master of arts degree.

Heinen is a candidate for the advanced degree in chemistry and his thesis is "A Metabolic Study of Cystinuria."

The oral examination will take place on May 3 in room 301 Mackay Science hall, and members of the questioning board are George W. Sears, S. Allan Lough, Fredrick Wood, Harold Brown and A. L. Higinbotham.

In order to receive a master of arts degree, a candidate must first undergo a rigid oral examination by members of the faculty who are appointed by the graduate committee.

Ted Wise Elected Phi Sig President

Ted Wise, junior student from Sparks, was elected president of the Nevada Eta Deuteron chapter of Phi Sigma Kappa at the last meeting held by the group.

Other officers elected for the coming year are Lowell Hillygus, vice-president; John Giomi, treasurer; Joe Koskowski, secretary; Henry Mayer, sentinel, and Loyal Willis, inductor.

Wise has been active in student affairs, being secretary of the intrafraternity council and treasurer of the mining engineers.

Nevada Tracksters Clash With Chico Wildcats Tomorrow

Coleman Predicts Close Meet; Relay May Determine Winner

Completely outclassed by a strong Aggie team last week, the University of Nevada tracksters will again play hosts this Saturday with the Chico Wildcats invading the Mackay oval. The first events will be run off starting at 1:30.

With three meets, College of Pacific, San Francisco State and Cal Aggies, already to their credit the Chico men will have a decided advantage in competitive experience.

RELAY MAY DECIDE

"If Chico hasn't progressed over the Cal Aggie meet and we show the improvement we should, it will be one of those meets in which the relay will decide the winner," Track Coach Jim Coleman stated.

Losing one of their most powerful performers, Bennie Reams who last year negotiated a 9.5 century, Chico, nevertheless, has his brother to fall back on. Though not as fast as his speed-burning kin, the younger Reams can cover a hundred yards in 10 flat, and should offer plenty of competition to the Nevada sprinters.

Hoffman, conference javelin champion last year, is back competing for the Wildcats and headed for plenty of Chico points in the field events. A shotputter who averages around 45 feet, three feet better than the best Nevada efforts, is another strong element in the Chico attack.

CONOWAY IMPROVES

Emery Conoway, Nevada 220 and 440 man, has shown the greatest improvement of any varsity performer, Coleman said. Though he tired out in the finish of a good 440 against the Aggies last week, Coleman reported the sophomore runner has toured the one lap in 53.8 this week in trials and is counted on for a first place in that event tomorrow.

In the hurdles, Chico has a decided advantage and will probably pick up a number of places in these two events, as Nevada has no low-hurdlers and only Bob Cameron in the highs.

In the other track events, Chico has a slight edge in the half and mile, but Mastroianni, in view of last Saturday's performance, should win the two-mile, Coleman said.

FIELD EVENTS STRONG

Field events, however, should contribute most of Nevada's points. Friedhoff, King and Cobeaga are sure to account for points in the high jump. Cameron can be counted on to cop a first in the pole vault, Sala and Garamendi assure a couple of places in the discus and Day and Triger should get two places in the broad jump.

This will be the last dual meet for the Nevada track and field men. Next Saturday a three-cornered affair with Chico and Cal Aggies is scheduled, then the Far Western Conference meet in the following weekend.

Music Week to Be Celebrated Here

National Music Week is to be celebrated in Reno as a festival of music, with many groups both of the university and city taking part.

The festival will open with an orchestra and choral concert under the direction of Professor Theodore Post, head of the department of music, Thursday evening, April 27, at the Civic auditorium. Post has prepared a program of exceptionally important music as the contribution of the university to the festival.

Beginning Monday, May 1, there will be nightly recitals and concerts, closing with an exposition of historical sacred music to be given Sunday afternoon, May 7.

A number of university students will assist in the preparation of the recital, from the choirs of both the Federated church and St. Stephen's chapel.

Robb to Be Made Brevet Captain

John Robb, outstanding R. O. T. C. cadet, will receive the highest award given a military student when he is raised to the rank of brevet captain during the Governor's Day ceremonies April 29.

Robb, who is a cadet master sergeant and commander of the color guard, will be accorded the honor because of exceptional excellence in both drill and theory.

Ordinarily, no basic cadet may attain a rank beyond master sergeant, which is the highest grade given a non-commissioned officer. The brevet rank carries a temporary commission, allowing the cadet a chance to command higher units than would his non-commissioned grade.

World's Greatest Marble Exhibit To Be Presented

Dr. Church to Officially Turn Valued Collection Over to University

Official presentation of probably the most complete marble exhibit in the world will be made today at 4 o'clock in the exhibit room of the University of Nevada library when Dr. J. E. Church turns over the valued collection to the university.

The exhibit, known as the Ludovica Graham collection, was presented to the university by Mrs. Graham and will take its place as one of the rare and valuable possessions of the institution.

A catalogue translating the Italian names to English was completed this week by the department of classics to make possible the formal presentation.

MAKES PRESENTATION

Dr. J. E. Church, head of the classics department, is recipient of the collection and will make the presentation, and Dr. B. F. Chappelle will act as translator, giving the Italian names in English.

Acting President L. W. Hartman and Mrs. A. F. Bails, president of the Nevada Federation of Women's Clubs, will accept the marble on behalf of the university. Members of the women's organization will be honored guests at the occasion.

Tomorrow the marble collection will again be open to the public, with a talk by Dr. Church taking place at 3 p. m. The exhibit will be open from 2 to 5 on Saturday.

COLLECTED FROM WORLD

Combining the finest of Italian and foreign marbles, the original collection was gathered by Cardinal Lampolla, secretary of Pope Leo VIII. Many of the specimens came from the ruins of the ancient Roman Coliseum and others came from Spain, Asia, Africa, America, Labrador and Greece.

When Mrs. Graham first obtained the collection, she planned to have it inlaid as a mosaic table-top for a villa in southern California. Her plans did not materialize, however, and she donated the treasure to the University of Nevada.

The exhibit combines over 1050 pieces of fascinating stone, blending into a pleasant glow irradiating subdued color. Four sizeable tables are covered by the marble with special emphasis on blending and harmonizing of color.

Commenting on the donation, Dr. Church said: "A noteworthy collection enters into the actual life of the public and the university."

Another feature of the day will be a display of Charles F. Cutts' art, water colors, etchings and prints. The Robert C. Caples' collection of paintings also will be present.

Edwards Named Commerce Prexy

Gus Edwards, sophomore arts and science student, was elected president of the recently organized Commerce Club, at a meeting held by the group Thursday night.

Other officers named at the meeting were Dyer Jensen, vice-president; Margaret Hermansen, secretary, and Phillips Anker, treasurer.

Edwards replaces David Hall, who has successfully served as president of the Commerce Club for the past semester.

Besides electing officers a short discussion was held in regards to holding an informal picnic the latter part of this month, and Edwards appointed the following committee to handle all arrangements for it: Eli Nickovich, chairman; Margaret Hermansen, Dyer Jensen, Jack Pieri, Clara Hansen, Bill Andrews and Mary Sala.

E.C.P.D. COMMITTEE WILL VISIT CAMPUS EARLY NEXT WEEK

To settle the question of permanent accrediting of the mechanical and electrical engineering schools, an investigation committee of the Engineering Committee for Progressive Development visited the campus the first of the week.

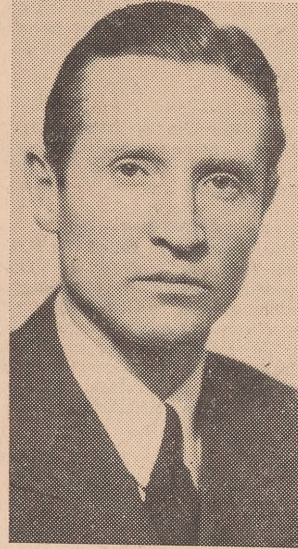

Composed of Professor G. M. Butler of the University of Arizona, Dr. B. M. Woods of the University of California and Dr. H. S. Adams from the University of Colorado, the E. C. P. D. committee made several suggestions for changes, but no official report was given.

The committee will report its conclusions to a western committee, which will then give its decisions to an eastern committee which will pass final judgment on the accrediting permanently of the two University of Nevada engineering schools.

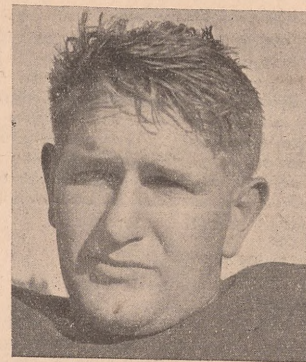

The mechanical engineering school is temporarily accredited for a one-year period and the electrical school holds a two-year temporary accreditation.

Prof. Harwood, Dean Wood Are Named by Hartman To Act on Athletic Board

BOARD MEMBERS

HARRY FROST

"HANK" CLAYTON

PROF. PAUL HARWOOD

The above four men, together with Byron Hardie, new A. S. U. N. president, will be in charge of the athletic destinies of Nevada for the next year.

Nation-wide Recognition of Methods Of Snow Survey Is Given Dr. Church

Nation-wide recognition of the new method of snow surveying invented to Dr. J. E. Church, head of the department of classics at the University of Nevada, was confirmed recently when the American magazine announced that it would dramatize the method in next February's issue.

Life magazine, popular pictorial publication, also put in a bid to publish a dramatic series of photographs on the subject.

A number of pictures were taken by the American photographer in the vicinity of Mount Rose and Slide mountains recently showing different phases of measurement of snow. The pictures will be in four-impression color.

In the event that the photographs taken by Americans representative fall, Life will receive the right to publish the pictorial story next winter. In any event, the picture magazine will run the story in 1940.

The intensely interesting method of snow survey shows the water content of the substance by a scales, especially designed to weigh the water in the snow.

A twenty-foot object resembling a pipe is thrust into a snowbank, where it is filled with the frozen substance. It is then drawn out and weighed on the scales, on the face of which is a dial registering the water content.

DR. HARTMAN EXPECTS CONSTRUCTION ON UNIVERSITY BUILDINGS TO START IN MAY

With plans for the new engineering building nearly completed and those for the new gymnasium well under way actual construction may begin some time in May, Dr. Leon W. Hartman, acting president, said today.

The engineering building plans call for a two-story structure with full basement measuring 160 feet by 60 feet. In addition, a 50 by 40-foot wing will be constructed to the rear of the right end of the building.

This new building, of the same type of architecture as the Mackay Hall of

Science, will house the mechanical and civil engineering schools. Its plans have been drawn up by Russell Mills, local architect.

Plans for the gym have not been completely drafted, but will be completed by the next meeting of the board of regents which is scheduled for the middle of May. Fred Delongchamps, local architect and architect of the Mackay Hall of Science and the Education building, is working on plans for the gym, Dr. Hartman said.

Annual Inspection Given ROTC Units

University of Nevada military groups received their official annual inspection Wednesday and Thursday, Major Earl B. Diggers, member of the military staff at the University of California, conducting the inspection.

On Wednesday, Major Diggers visited the classrooms of the cadets and investigated the administration of the military department.

On Thursday, he conducted an inspection of the Reno high school junior unit and band, examining the students in both theory and drill.

Later in the day, the university R. O. T. C. passed in review before the inspecting officer. Major Diggers returned to California last night.

Ross and Davies Attend Math Society Meeting

Miss Emily Ross and Merton Davies, both members of the faculty of the department of mathematics at the University of Nevada, attended the meeting of the American Mathematical Society at Stanford University last Saturday.

Discussions of a highly technical nature were held. Principal speaker was Dr. T. Y. Thompson of U. C. L. A. Both Miss Ross and Mr. Davies are graduates of Stanford University.

ROSS TO REPRESENT NEVADA AT NATIONAL MATHEMATICS MEET

Miss Emily Ross, assistant professor of mathematics at the University of Nevada, has recently been appointed to represent the state of Nevada at the convention of the National Council of Teachers of Mathematics to be held in San Francisco July 3, 4, 5.

As described by Miss Ross, the National Council of Teachers of Mathematics is "a national organization that attempts to further the teaching of mathematics in the schools of the nation."

This year's meeting, which will be held in conjunction with the convention of the National Educational Association, will be divided into sections dealing with the teaching of mathematics in elementary schools, secondary schools and junior colleges.

Notice!

Students with last semester's conditions must clear them by the end of the semester. For information see page 131 in the university catalogue.

Notice!

I wish to thank all those who supported me in my recent campaign for student body president.

"HANK" CLAYTON.

President's Action Completes Recently Established Group

Committee Will Probably Hold Initial Meeting Beginning of Next Week

The Board of Regents refused to recognize Henry Clayton as a member of the Athletic Control Board, according to a report from Student Body President Goldwater today.

The regents will not recognize the legality of Clayton's appointment, Goldwater says, because he was not elected according to the resolution as drawn up by the regents. The resolution provided for Block N to have one member on the board who must be elected by the student body. Clayton was not elected by the student body; he was elected by members of Block N at a meeting of that group Wednesday.

Goldwater said nominated candidates from Block N were not brought before the student body for election because he wanted to get the Athletic Control Board organized and working as soon as possible.

"An open student election would have caused a delay," he continued. "Due to the fact that there is no constitutional provision for such an election and a method to provide for such an election would have had to be provided by the Student Senate. However, now that the regents have refused Clayton, there will have to be an election for the Block N representative, which may cause several weeks' delay."

Professor Paul A. Harwood and Dean Frederick Wood were selected this morning by acting-President of the university, Leon Hartman as faculty members of the athletic control board.

The appointment of the two faculty members makes the board complete. The other three are Henry Clayton, Block N representative; Harry Frost, alumni member, and the student body president, which will be Byron Hardie after May 31.

In commenting on his appointments Dr. Hartman said: "I selected these men because I thought they were qualified, and because of their experience in handling matters pertaining to athletics. Then, too, the students, themselves, selected Dean Wood on the committee several years ago."

Harwood, associate professor of English, has served on several student and athletic groups. At present he is master of Lincoln Hall, Nevada's faculty representative to the Far Western Conference, a member of the student affairs committee, and is chairman of the faculty athletic committee.

He is a graduate of the University of Nevada with the class of '24. In 1924 he was named as a Rhodes scholar to Oxford.

Wood is dean of the college of arts and science and professor and head of the department of mathematics. He served on the athletic board at the university several years ago, and was dean at Hamline University at St. Paul, Minn., before coming to Nevada.

Henry Clayton, two-year letterman in football, was elected by Block N to represent that society on the board of athletic control at a meeting Wednesday.

Clayton is a member of Sigma Phi Sigma fraternity, a member of Coffin and Key, a Sundowner, treasurer of Block N and has served on numerous committees.

He is a graduate of Alhambra high school where he began his football career. Upon entering the University of Nevada he played on the freshman football team and for the past two years as played end.

The first appointment to the board was made Tuesday, when the alumni (Continued on Page 6)

SAGENS' INITIATION CEREMONIES HELD

The Sagens held initiation services at 5:30 yesterday evening for Thelma Crosby, Helen Collins, Earlmond Baker, and Gertrude Freeman. The services were held at the A. S. U. N. building.

Immediately following the initiation, a banquet, in honor of the new initiates and the graduating seniors who belong to the group, was held at the Colombo. The seniors who were honored at the banquet included Betty Kormmayer, Eunice Beckley, Maude Patterson and Verna Bullis.

Dean Adams Plans Coast Vacation After Retirement

Dean Expects to Teach Class a Day After Return From Coast Trip

By FRANK McCULLOCH

Dean Maxwell Adams, vice-president of the University of Nevada, who will retire at the end of this semester after 33 years of service to the institution, leaned back in his chair.

"After retirement?" he mused. "Oh, as yet I haven't any really definite plans for that. I'll probably go down to the coast for a while for my health, but I fully intend to get back to Nevada at the earliest date possible.

"I hope to be able to go on teaching one class a day here after my return," he continued; "but other than that I don't know just what I will do. Just sit back and enjoy things, I guess."

DEAN 20 YEARS

Since coming to Nevada from Chico State College in 1906, Dean Adams, so-called because for 20 years he served as dean of the College of Arts and science at Nevada, and their affairs while bringing both himself and the university distinction through his work in teaching, research chemistry and religion.

In his relations with the students themselves, Dean Adams has been especially active and effective. He has served, at one time or another, as chairman of the Admission Committee,

the Rhodes Scholarship Committee, the Graduating Committee, and the Scholarship Committee, the latter two of which he is chairman at present, and numerous other committees of a similar type.

The present Mackay Science Hall, adjudged to be one of the best of its kind and size on the Pacific coast, is another tribute to his work at Nevada. Spending one entire summer observing the design of similar buildings in eastern universities, he returned to Reno in the fall and, with Fred DeLongo, local architect, drew up the plans for the building as it stands today.

SCIENTIFIC RESEARCH

Perhaps one of his greatest accomplishments, which has brought him world-wide recognition among bio-chemists and opened the possibilities of many new industries in the state of Nevada, is his work with sage and rabbit-brush oils.

Obtaining the oil of these plants by distillation with steam, he discovered and developed several valuable qualities of the product. He found several medicinal products of high quality in sufficient amounts to make their production practical. He also did extensive research on the possibilities of the production of rubber from the desert plants.

Graduate students at the university have been carrying on his work since his poor health and lack of time caused him to cease such research about a year ago.

Before beginning his career at the University of Nevada, he already had established a brilliant record at Chico State College, where he taught chemistry from 1896 until 1904 and served as vice-president from 1901 until 1905.

CHURCH AFFILIATIONS

His rise in Nevada was equally fast. In 1910 he was chosen president of the Nevada State Sunday School Association.

Twenty-four Named To Sundowners

Twenty-four university men were extended bids yesterday to the Sundowners, men's good-fellowship organization, Duncan Dorsey, president of the group, said.

Those receiving bids are John Mayes, Hubert Smithwick, Jim Shepley, Lee Barrett, Bob Cash, Jim Gibbs, Vincent Shea, Bob Pillifant, Jack Beech, Bob Taylor, Carlisle Pribbernow, John Polish, Fred McIntyre, Ralph Moyer, Dick Ronzone, Mitch Cobeaga, Dick Smith, Pio Mastrianni, Frank McCulloch, Ted Wise, Clarence Heckethorn, Olinto Barsanti, Joe Kosakowski and Frank Shumaker.

Plans were discussed at the Wednesday night meeting for the coming "chicken chase" initiation to be held April 28, and for the formal initiation to be held April 30.

Election of new officers was held, with Ray Garamendi replacing Duncan Dorsey as president and Perry Carlson being elected to the new office of treasurer.

A short talk was given by Jim McDonald as to the purpose of the organization, with suggestions as to what needs to be done to increase the activities and good feeling between fraternities.

The "chicken chase" will consist of much more activity than those in the past few years and the campus is promised something rather novel in initiations.

OUT OF THE SCRAPBOOK

BRAWN PRODUCER

Coach Carl G. Snavey, Cornell football mentor, recently laid down the law to next year's football prospects. The coach stated in effect that Cornell football men would have to give up automobile riding and would have to return to the walking days. Bike riding, however, is encouraged and is considered as an excellent muscle-builder by the coach.

BACKFIRE

When Dr. Jean Piccard, noted balloonist, was lecturing recently at the University of Minnesota, he had the opportunity of putting a certain rapid-fire questioning student in his place.

The student shot the following question at the doctor during the campus meeting: "How does a penguin escape from a polar bear?"

This visitor was not one to be left holding the proverbial bag. Said he, "Well, polar bears live in the Arctic and penguins in the Antarctic, and the polar bears aren't allowed to go across the line."

UNUSUAL

Election returns several weeks ago on the University of Southern California campus showed that Adolph Hitler does not always win an election.

Rosemary Watkins was elected assistant cheer-leader over her nearest rival, Adolph, by a vote of 7 to 3.

LOOKING AHEAD

Novel was the purpose of a seminar specialty recently introduced at the University of California. Officially sanctioned by the College of Engineering, a conference on unemployment in electrical engineering was held at which a discussion on problems confronting graduating engineers was featured.

Personal experiences in seeking employment in that field of engineering were related by several prominent Berkeley electrical engineers.

STORY OF THE WEEK

Northeastern University was the scene of a little "freshman pun" a few weeks ago. A frosh went to a math class without his homework or any class preparation whatsoever.

When the professor asked how come the freshman replied, "Well, you see,

sir, I didn't have any time to do the math as I had to help my father figure out his income-tax blank all last night."

NOTE

Mrs. Franklin D. Roosevelt recently accepted the honorary chairmanship of the Intercollegiate Committee to Aid Student Refugees.

NO MORE THUMBS

An organization called the National College-University Travel Club is being formed for the purpose of making ride-catching easier for the college student by a Texas A. & M. student.

The organization proposes to sell reflecting emblems which could only be obtained by college students and members of the organization.

NUTTY!

The College of Agriculture of the University of California has developed a novel method of cracking walnuts. The nuts are fed into a machine on leather belts while a power saw slices a small hole in the shell of each nut. A tiny jet then forces a mixture of acetylene and oxygen into the nut. The nut falls down into a chamber and meets up with a gas flame. The heat causes the gas to explode and the shell is fractured, which means nuts all over the place.

BRAINWORK

Some people do not give professors credit for much knowledge. However, after reading this their tables will probably be turned like a Los Angeles prof of psychology turned them on a would-be hold-up man.

The prof was taking a walk late in the evening and chanced to stroll down an alley. He soon noticed that he was being followed and, thinking he might be the object of a hold-up, he began to figure out a way to foil the attempt.

He went only a few steps before he hit upon the idea. The prof about-faced and walked towards his shadow and said, "Hi, buddy, can you spare a dime. I haven't eaten since yesterday." The would-be stickupper stood back amazed and answered, "And here I was going to hold you up." The prof was given the much-needed dime—which was added to a sizeable roll already in his pocket . . . and, thanking the kind soul, he went on his way.

Pi Beta Phi Leads Badminton Tourney

Pi Beta Phi is leading in the intramural badminton tournament which started at the first of the week. The Pi Phis won the singles game against the Tri Deltas when Audrey Sellman defeated Betty Parrish Tuesday afternoon.

Each of the other teams have lost one game, with the Independents taking the only doubles tilt to be held so far. The Independents forfeited a game to Pi Phi, and Shirley Fuetsch, Kappa Alpha Theta, defeated Wilma Foote, Beta Sigma Omicron.

Signed up on the doubles teams so far are: Delta Delta Delta, Eleanor DuPratt and Mary Kornmayer; Gamma Phi Beta, Earmond Baker and Ann Allen, and Independents, Eleanor Goldsworthy and Lola Frazer.

Those playing singles are: Beta Sigma Omicron, Wilma Foote; Delta Delta Delta, Betty Parrish; Kappa Alpha Theta, Shirley Fuetsch; Pi Beta Phi, Audrey Sellman and Independents, Dorothy Elkins.

MELVIN TILLEY NAMED PRESIDENT OF M. E.'S

Melvin Tilley, prominent junior mechanical student and winner of a technical discussion contest held recently during the Pacific Southwestern Mechanical Engineers' convention, was elected president of the mechanical engineers for next year.

At a meeting last week other officers elected by the group were Walter Elkins, vice-president, and Herman Konnorth, secretary-treasurer.

The new heads will replace Edward Zareh, president this year, and Bill Mitchell, secretary-treasurer.

Edward Zareh, present head of the engineering society, commented yesterday upon the organization's success this year.

He stated "the mechanical engineers have certainly shown a greater interest in the organization's activities this year than they have in the past.

"The cooperation given me this year was truly excellent and the members deserve a great deal of thanks. The university's participation as hosts to the other colleges at the convention recently held at San Francisco was indeed quite successful."

SAGEBRUSH MAY NOT AWARD BASEBALL TROPHIES THIS YEAR

The Sagebrush will not award either the best batter's or best pitcher's cup this year, unless the official scorebook, lost two weeks ago, is found, Don Kinkel, editor of the paper, said this week. At present the Sagebrush is using a makeshift system of scores from the score books of each contesting team in compiling unofficial averages of leading hitters and pitchers.

So many men are tied or have credit for doubtful hits under the present system that the awarding of either of the cups will be an impossibility, Kinkel said.

Engineers To Have Banquet Thursday

The annual Civil Engineers' banquet, which is expected to end the activities of the society for this year, is to be held Thursday at 6:30 p. m. at El Cortez hotel.

Final arrangements for the annual dinner are being completed by a committee of engineers and it is expected that program plans will be announced at an early date.

Many guests are expected to attend the banquet representing numerous engineering departments from both Nevada and California. The list of guests will include Mr. J. W. Panhorst, state bridge engineer of California; Robert Allen, Nevada state highway engineer and Chester Hill, city engineer.

Scabbard, Blade Publicized by National Journal

University of Nevada military activities received considerable favorable publicity in the recent issue of the Scabbard and Blade Journal, national publication of the Scabbard and Blade organization.

Featuring the increased interest and activity displayed by the local university R. O. T. C. unit under the guidance of Colonel Oral E. Clark, the magazine traced the completed projects of the R. O. T. C. and also listed plans for the units future doings.

A group picture of the honorary captains, including Kathleen Meeks, Thelma Crosby, Pat O'Brien and Jean Henderson, was printed in the magazine. Gene Wines, honorary major, was pictured individually.

Swing music is driving folks to the jitter-bughouse.

It's hard for a man to play straight with a girl who is all curves.

SIERRA PACIFIC POWER COMPANY

Powers Competes For Olympic Club

Following the footsteps of former Nevada track stars, Walt Powers, ineligible Nevada sprinter, is competing for the San Francisco Olympic Club against the powerful coast teams.

Powers, who has been clocked in 9.6 and 9.7 centuries, competed against the University of California sprinters in the dual meet last week.

Poor condition, however, caused him to fail to place in a 10 second hundred, which is average speed for the speedy "Sparks flier." In the 220 that afternoon, he led the entire field the first 200 yards and then tied up, failing to place in that race also.

He has been working out daily with the Nevada track men and will have another chance to prove his ability when the Olympic Club meets the University of Southern California tomorrow.

He will compete again Monday for the Olympic Club in a meet with Fresno State.

Sigma Alpha Epsilon Holds Spring Formal

The annual spring dinner-dance formal of Sigma Alpha Epsilon fraternity will take place tomorrow night at the Hotel Riverside.

Arrangements for the formal affair has been made by a committee composed of Eli Nickovich, Jack Pieri, Leo McCuddin and Craig Tranter.

Patrons and patronesses at the dance will be Professor E. L. Bixby, Mrs. Jeanette Rhodes, Melvin Jepson, Miss Louise Sissa, Dr. and Mrs. J. J. Sullivan, Mr. and Mrs. Silas Ross and Dean Margaret E. Mack.

Some people will spend a million dollars a year just to give the impression they have money.

BAKER TAKES FOURTH MATCH OF TOURNEY

Earmond Baker, sophomore, yesterday won the fourth match of the women's golf tournament when she defeated Lola Frazer, 5-4. The tournament, which started this week will be finished next week.

Other matches resulted in Margaret Nash defeating Betty Ross, 5-4; Marie Hursh winning over Annie Laurie Ballom, 6-5, and Isabel Fairhurst and Charla Fletcher tying. All of the matches so far have been played by members of the "A" division.

Those listed in the "B" division are: Betty Hardy, Lily Venton, Wilma Jones, Aileen Smith, Romietta Ward and Jeanne Brannon. All matches in this group must also be played off by the end of next week.

Students eliminated must play at least one set of nine holes a week for the rest of the semester and turn in their scores before they will be given credit in physical education this semester.

The best score in the class was made by Earmond Baker, who had a low score of 47 points for nine holes. Other low scores were made by Lola Frazier, 664, and Betty Ross and Margaret Nash, both of whom made 68 points.

SENIOR ENGINEERS ENTERTAIN HOME ECS

An annual custom was observed Thursday night when the University of Nevada senior electrical engineers entertained the student members of the Home Economics department.

The engineers sponsored a moving picture, "Nevada's Year," and a comedy short as an entertainment feature. Refreshments were also served at the party.

Each year the engineers and home economics members plan their annual get-together. Next year the engineers will be the guests of the other department.

The cave man won his girl with a club. The modern man does it with a diamond.

Coed Debate Squad To Have Trip Each Semester Next Year

Women's Debate Manager Explains Present Squad In Call for Material

More trips for the women's debate team will offer greater attraction to women on the campus who may wish to enter the activity.

By economizing on the recent trip to Pasadena where the tournament for western colleges and universities was held, the squad will be able to attend one meet each semester next year. In this way, the group will be better prepared for the spring tournament.

MORE COED INTEREST

Betty Mason, women's manager, stated yesterday that more women should take an interest in debating since there are only two on the varsity team.

"Many of the high schools are represented in the forensic tournaments by women," Miss Mason said, "and there should be more at the university who could speak if they would try. They seem to be afraid either that they don't know enough, or they think they will not be able to put over what they want to say."

PUBLIC PROBLEMS

She went on to explain that, besides learning to debate, a lot may be gained in learning about public problems and in paying more attention to what goes on throughout the world.

"In cases," she said, "it becomes easier to reason things out for yourself and to express your thoughts accurately."

Kathryn Devlin and Betty Mason are the only women members of the university debate squad at present. Miss Devlin recently won second place in impromptu speaking, and fourth place in extemporaneous contest at the western division tournament in Pasadena.

Military Program To Be April 29

Preparations have been completed by the university military department for the annual Governor's Day program, April 21, in conjunction with a visit to the campus of Major General Albert J. Bowley, commander of the Fourth Army and Ninth Corps area.

Governor E. P. Carville will inspect the R. O. T. C. cadets to feature the day's activities.

The reviewing party will be greeted at the south gate of the campus at 10:30 a. m. by a guard of honor composed of a detachment of R. O. T. C. cadets. An infantry cannon, situated in front of Stewart Hall, will fire a salute in honor of Governor Carville.

The party will then be escorted to Mackay Field where the university military unit will stage a full-dress review.

The reviewing line will be composed of Governor Carville, General Bowley, L. W. Hartman, acting president of the university; Silas E. Ross, chairman of the board of regents, and John A. Cooper, mayor of Reno.

Various medals will be presented outstanding cadets by Governor Carville prior to the review.

EDWARD BEAUPEURT ELECTED PRESIDENT OF BAND FRATERNITY

Edward Beaupeurt, junior arts and science student and member of Alpha Tau Omega fraternity, was elected president of Delta Delta Epsilon, honorary band fraternity, at a banquet meeting at Carlan's Lakeside Inn last Tuesday night.

Other officers were elected and short talks by the outgoing officers rounded out a full and entertaining program.

Buddy Williams was chosen vice-president and Melvin Woodgate was named as treasurer. Beaupeurt succeeded Pio Mastroianni as president of the musical organization.

A short speech by Professor T. H. Post, director of music at the University of Nevada, was given for the benefit of the six newly initiated members, Fred Stiverson, Harry Anderson, Warren Ferguson, George Clark, Franklin Fisher and Kenneth Eather.

Several business features were discussed at the banquet. The newly-initiated members will receive a key symbolic of the Delta Delta Epsilon fraternity. The organization also plans to help the Blue Peppers get organized next semester.

This was the last meeting of the semester for the band group.

Wolf Den to Remain Closed Until Fall

The Wolf Den, which has been closed since Easter, will not be opened next fall unless there are suitable offers to rent the place, according to Gordon Andrews and Fred Limbery, Reno cafe owners.

Andrews and Limbery, who also operate the Bank cafe in Douglas alley, stated that the business in the Bank cafe was taking more of their time than the business the Wolf Den had to offer. The Wolf Den was closed so they could utilize all of their time and efforts downtown.

Offers to lease the campus eating-place have been made to the co-owners but as yet no offers have appeared to the leasers.

Press Club Work Recognized by Prominent Newspapers This Week

Nation-wide recognition of the University of Nevada Press Club's recent commemoration of the birth of the first printed newspaper in Nevada was revealed this week in commendatory articles published in prominent newspapers.

The Press Club, through WPA aid, erected a monument on which a bronze plaque was placed, at the site of the origin of the famed Territorial Enterprise in Genoa, which was the first printed paper in the state. An appropriate dedication ceremony was held at the unveiling of the monument.

The Christian Science Monitor, one of the best conservative papers in the United States, in a semi-journalistic front-page article, said: "Journalism today and journalism eighty years ago were brought into sharp contrast by a recent ceremony at Genoa, the oldest town in Nevada."

The article then went on to give a brief history of the Enterprise, com-

menting on the fact that Mark Twain began his career as a writer on its staff.

The Oakland Tribune, in an editorial, lauded the work of the Press Club in bringing wide attention to the colorful history of Nevada's first paper. The article unveiled Professor Higginbotham's unweaving speech in which he spoke of early Nevada history and the part of the press in American life.

The erection of the plaque was accomplished as a project of the Press Club in memory of frontier journalism of the west. The wide acclaim, however, came as a distinct surprise to the club members and to Professor Higginbotham.

This is the second marker erected by the Press Club, a similar plaque in honor of Mark Twain was placed in Virginia City where the famed writer and humorist furthered his literary career as a reporter on the staff of the Enterprise.

Coed Riders Hosts To Cadet Officers

Breakfast Ride Scheduled Sunday Morning by Women and Militarists

Saddle and Spurs, women's riding group, will entertain members of Scabbard and Blade at a breakfast ride Sunday morning, Sacramento Junior College riding class, scheduled to arrive here for an exchange ride, will be unable to attend.

The entire western program which was arranged for the women's group will be carried to Sunday, beginning with the ride to the Lone Star ranch at 9:30 where breakfast will be served. Dressed in western attire, Mary Mahoney, Ethel Graunke and Beatrice Lansdon will act as hostesses.

DRILL TEAM

A drill team, the first in Nevada, will present a series of drills as a part of the entertainment. Various formations, including circling and figure-eights, will be shown by the eighteen members of the group. They are:

Mary Mahoney, Aileen Mahoney, Doris Chestnut, Nancy Hall, Felicia Moos, Dorothy Schooly, Ann Gamble, Mary Margaret Cantlon, Wilma Foote, Ethel Graunke, Betty Marie Shidler, Margaret Hermansen, Maureen Boney, Ramona Beachman, Helen Westall, Marie Varnon, Kathryn Schnell and Beatrice Lansdon.

TO CIRCLE VALLEY

Carrying out the western program, the groups will sing songs typical of this section of the country, and will continue the ride on up to the Virginia range canyons, circling the valley before returning to Reno.

The drill team plans to practice during the summer, and present a part of the program of the annual rodeo and stock show in Reno on the Fourth of July. No other such groups have appeared in Nevada.

Next year, plans have been made to have exchange rides with other women's groups, including Mills College, the University of San Francisco, Chico and College of Pacific.

On April 30, varsity and proficiency awards in riding will be presented, and new members to Saddle and Spurs will be initiated.

RENO CHORAL UNION TO PRESENT ANNUAL CONCERT WEDNESDAY

The Reno Choral Union, of which many university students are members, will present its annual spring concert at the Reno Civic auditorium at 8:15 Wednesday night.

The concert is made possible this year through the combined efforts of the Reno Community Chorus, the Campus Choral Club, the University Singers and the University-Little Symphony Orchestra under the direction of Theodore Post, director of the band at the University of Nevada.

Given in honor of National Music Week, the concert will feature Mrs. Dorothy B. Post and Marjorie Stout, former U. of N. student, sopranos; Helen Parsons, pianist, and Leota Maestretti, U. of N. graduate, first violin and concert master, in solo numbers.

The program of the concert includes a variety of music of old and modern choral and symphonic composers, and will be presented in seven different parts. The public will be admitted free of charge.

The Reno Choral Union is under the direction of Arthur Daniels, president; John Marean, vice-president; R. G. Baker, manager, and George Lohse, Nevada graduate, secretary.

The advisory board of patrons and patronesses includes Mesdames Charles W. Mapes, Lester D. Summerfield, John W. Hall, John A. Fulton, Frank Humphrey, E. R. Simms, Leigh Sanford, Parker Liddell; Messrs. Samuel Platt, J. E. Horgan, E. Otis Vaughn, Father Henry B. Thomas, Mayor John A. Cooper and Dr. G. C. Steinmiller.

Name Added to List

Chester A. Green, arts and science student, will be given a degree of bachelor of arts at spring exercises, it was announced by the registrar today.

We know a man who would rather play poker than go to the races. He puts the card before the horse.

R.O.T.C. Battalion Passes in Review

The University of Nevada R. O. T. C. battalion passed in review yesterday afternoon on Mackay Field in honor of Reno's Mayor John A. Cooper, Major R. M. Hay, Reno member of the officers' reserve corps, and Major Eugene Howell of the Nevada National Guard.

The battalion formed on the west walk of the university quadrangle and moved to Mackay Field, where the honored guests witnessed on the south side of the reviewing stand on the review side of the field.

Gene Wines, honorary major, marched with the battalion headquarters staff, and the honorary captains, Jean Henderson, Thelma Crosby, Kathleen Meeks and Patricia O'Brien marched with their respective companies.

This review, aside from honoring Mayor Cooper, Major Hay and Major Howell, was used as the basis for determining the winner of the competition among the battalion companies for the colors awarded the company having the highest proficiency in drill. Major Hay and Major Howell were the judges in this competition. The winners of colors will be announced later.

INDEPENDENTS HOLD BEAN FEED; PLAN DINNER DANCE

At the Independent bean feed on Monday night Barbs and their guests roasted marshmallows, sang songs and fed royally on beans prepared by Dave Barber. The committee in charge of the bean feed was Dave Barber, Walter Wilcox and Pete Henford.

The first annual Independent dinner dance will be held at Carlan's Friday night at 8 o'clock. The committee in charge of the semi-formal affair are Dick Roche, Walter Wilcox and Ruby Nay.

The last business meeting of the semester will be held Monday, April 24, in room 109 Aggie building. The chief topic of discussion will be the new constitution.

M'Lady . . .

By BETTY BURLEIGH

In the new line of footwear anything goes. It is here that you can let your rugged individualism exert itself. Platform soles are definitely on the up and up, both for low and high-heeled numbers alike. Some models boast of the tip of the heel and the platform sole in a contrasting color to the shoe—yes, even in those passionate new purplish shades of red. Of course, you've seen the new candy-striped soles on sports oxfords that are raging here on the campus right under your nose. If it's attention you're after, try the metal-studded platform soles and your shoes will glitter with gold-colored nail-heads. Ridiculous? Yes, but definitely new! You get the tang of Holland's Zuider Zee in the number of Dutch models with those interesting, rounded, low heels. The newest shoes may be anything—as long as they are decidedly on the unusual side. The wedgies belong to the days of yore! Too bad!

'Tis no longer extremely smart to have your entire ensemble matching in two colors. You must have either three or four . . . a two-toned dress with hat and purse of a contrasting color, and shoes and gloves of still another. Sounds like a rainbow, doesn't it?

Not only do you contrast your accessories, but it is very implied to contrast your slip. Taffeta is slated on the prediction market to be very popular—and you must admit that it IS swishish. Another choice angle concerning the new slips: They take into consideration the new short dresses and have adjustable hemlines. Yes sirree, if you are slipping, out comes the scissors and off comes a ruffle. Just as good as before? Of course!

If you are the type that revels in that sophisticated touch—forget your yearnings long enough to purchase a frock that will give you that "little-girl look." A simple dress with buttons down the back, a round neck and shrug sleeves will make you look like the innocent you are not. But it will do definite things to your boy friend and also to your style.

Black is always THE smart color any

time of the day or night of any season of the year. But after a weary winter spent in the darker shades, we can't help heralding the luscious new light shades with the hip-hip-hooray. Two-tone tweed suits have a long coat or fairly short jacket. Skirts are wide and short with optional pleating.

Spring and formals are synonymous in the minds of coeds. Hoops are in, but you by no means have to be the owner of one to be in the height of fashion. Non-wearers of hoops have the advantage when it comes to getting in and out of ye old jallopie. Skirts are very full to the extent of extreme billowing. Waists are wasp-like. One favorite is tulle shirred to the hips with Lastez. It gives you that cloud-drift effect, and heaven help your man of the moment.

And the new hats . . . This is where I came in . . . G'bye.

S. S. East Indian and Lake Ormoo of the Ford Fleet

FORD SHIPS SAIL THE SEVEN SEAS

DOWN to the sea in Ford ships go millions of tons of shipping. The Ford docks berth one of the largest industrial fleets in the world.

There are 29 Ford ships in all, including seven seagoing craft, the two largest motorships on the Great Lakes, barges, tugs and canal boats. They are kept busy bringing raw materials to Ford plants, or carrying parts or assembled cars outward-bound.

Ford production methods eliminate all extra handling or storage of material and parts. Waste motion is waste money. Useless storage takes time, space, and ties up capital.

So, parts and materials flow in a steady, unstoping stream to and from the great Ford plant on the River Rouge. Iron ore—much of it dug from Ford mines—and coal from Ford mines—come to the Rouge in Ford ships.

Ore that reaches the plant Monday morning may emerge about 28 hours later—or Tuesday noon—as part of a finished car. In its progress from earth to automobile it has been constantly under way and under control. There is no guesswork.

Ford efficiency begins at the beginning. In the end, the sum of these savings is passed along to buyers of Ford cars and trucks—in the form of lower price and higher value.

The editorials in the University of Nevada Sagebrush express the thoughts of the editor of the publication and make no pretense of being the barometer of the sentiment of the University of Nevada student body or administration. All editorials are written by the editor unless signed otherwise.

MOST IMPORTANT PHASE

of the athletic situation yet to be written, will probably be decided next week when the newly elected or appointed members of the newly created Board of Athletic Control will meet to begin initial plans for coming athletic seasons.

The Sagebrush does not envy the members of the board in their new jobs. They have the weight of a great responsibility hanging upon their shoulders. By their actions and plans they may clear the stigma hanging above the Nevada athletic horizon or they may bring the wrath and derision of the public down upon themselves and the students of the University of Nevada.

The members of this board must when they enter the portals of the meeting chamber cast aside all of the previous prejudices which they may have fostered in previous periods. The only way that the board can function as a whole and do creditable work for the A. S. U. N. is to work entirely without prejudice.

The board will have several huge problems which will confront them immediately upon their first meeting. Among the most pertinent will be:

- 1—Deciding upon the amount of finances necessary to carry on a complete athletic schedule.
- 2—Decisions as to the make-up of the athletic department.
- 3—Decisions as to the personnel of the athletic department; and
- 4—Decision as to the appointment, salary of such a graduate manager as recommended by the alumni and legislative committees.

The above problems are only a few which the committee will have to face. Others equally as vital will probably rise after the committee has been functioning for a time.

At the meeting next week, the groundwork of the most important plans will be laid. We hope that the board will have the far-sightedness to make this the students' second attempt at athletic control a definite success.

ALTHOUGH WHEN IN THE THROES

of the alumni and legislative committee reports, the Sagebrush editorial column went on record as definitely objecting to the establishment of a co-op store, certain recent events have in a measure changed our line of thought.

Probably every student on the campus is now aware that the Wolf Den is no longer operating and dispensing food, soft drinks, etc., to the students, faculty and workers of the university. Probably a great number of the students and faculty could also inform you now that it is little more than a nuisance to walk the several blocks downtown for their various meals.

It would be a good idea to investigate the situation, and the whys and wherefores carefully. If the plans are drawn and the situation is favorable, it might be possible for the Associated Students of the University of Nevada to set up a co-operative cafeteria in the now defunct Wolf Den.

The Sagebrush is convinced that such an arrangements is the only way that the establishment will be in operation during the entire school year. The co-operative cafeteria could be a non-profit organization working only during the school year for the convenience of the University of Nevada.

Although a number of obstacles probably will be encountered when working on such a project, the Sagebrush believes that it is a worthwhile project with which the new student prexy can begin his term of office.

GENERALLY THE STUDENTS

at the University of Nevada for all their exuberant spirits and love of fun conduct themselves as befitting young ladies and gentlemen. Yet, during the past two weeks, two incidents have happened which are not on the credit side of the records of the students.

During the recent elections, some rash person or persons allowed their natural good behavior to be thrown to the four winds, and wantonly despoiled community property by painting a childish remark on the door of the Student Union building, thereby spoiling recent improvements on the building.

This act will necessitate another coating of the door with several layers of paint, at additional cost to the students, to cover the evidences of the election fervor.

The second mark of the students' unnecessary exuberance was occasioned during the recent Junior Cut Day. As the day was drawing to a close, several of the students broke almost all of the windows in the ski hut at Galena Creek. The hut is not the property of the student body but was kindly loaned to the juniors as a favor. The junior class, naturally, is going to pay for the damage which a few of its members caused.

It is probably a waste of time to go further with any kind of reproaches or criticisms but we do say "We thought you were grown up!"

TSK! TSK!

Three more weeks and three more days and we'll be out of the calaboose—i-dee-di-dee-di—or, twenty-four more days—or 576 more hours—or 34,560 more minutes—or . . . oh, well, you get the idea—it won't be long now! And are we shedding any tears? Whatda-ya think?

Settling down to business, we find first and foremost, the startling news (Boys, hold your breath!) that fair Cleone Stewart and "has-been" Goldwater are seen together ALL the time. We furnish sympathetic shoulders to all those broken-hearted Stewart fans. Romance, romance—da-da . . . have you seen the sparkler on graduating senior Mildred Woodard. Congrats, Millie.

Brass to the right and left (That's what Spring does!): Kenny Day is minus his Tau pin. We were beginning to wonder when you'd break down, Kenny.

Bill Newman has lost his heart and pin to a rather recent addition to our campus, Doris Rice . . . not bad—not bad!

That couple, Perry Carlson and Betty Hardy, have us confused . . . pin, pin, who's got the pin—you tell us!

Joe Moore boiled himself in the oil of Nellie Roseberry's wrath a couple of weeks ago around A. T. O. Bowers time, but from the looks of things, the "oil" has cooled.

The Bowery, the Bowery (Conjugation—bowery, brewery, brawl) . . . We know it's ancient history, but there's things we'd like to remember. For instance: Aileen Angus with Harry Morston. We think—everything was so . . . well, we weren't there long!

Doc Summerbell sported that gorgeous Marge Rives (Did we hear a button pop, Doc?). Mitch Cobega treaded on dangerous ground, and escorted Verna Bullis. Little Etch was seen with Inabelle Jarvis (This is getting to be something!) and big brother Johnny laughed the evening away with Clara "Mouse" Hanson and—Bill Andrews pulled a fast one (or did he?) by taking Patsy Dawson . . . Where's your guns, Pierre?

Glancing here and there, we notice new romances on all sides of us (Oh, to be young again!). Neal Campbell and Wyoma Shain have caught our eye. Glen Kyser and Shirley Heany found us staring, but we've given up trying to keep up with Miss Heany. Look for her at the S. A. E. formal.

Then there were those smarties who left town over Easter. Margaret Hermansen went to Vegas. We wonder

why? Who do you know in Vegas . . . or did you MEET someone? Vernon Wines was also seen in the dusty town of Vegas with a local—her name is Pauline Honrath. The two Mahoney girls had to stay here and they were so lonely that Bud Smith had to send them flowers to console them . . . nice gesture!

Back to romance: It looks like Blanche Brackett and Bob Cash are hitting it off . . . and Katie Meeks and Louie Peraldo STILL!! What's this I hear about Thelma Crosby and Bill Foster . . . well, what is it?

Yes, and there's Chuck Withum and Lily Venton . . . hum-m-m! As a sideline, we want to know more about the report about Smithwyck changing shirts. There's a new man on the string—but it looks like Theta Wilma Jones saw him first. George Tweedy is the name.

Who said the Juniors can't give a cut day what am! Sue Hicks knows all about it (just ask her). Prib wonders why he was serenaded with "Marley" Tony Y. showed up late with the buns and Mary Sala (Which took the most time to get?). Margaret Johnson didn't like the state of affairs—we could tell by the look on her face. And what was little Etch doing with—sh-h-h—lipstick on his NECK!

"Mickey" Barsanti has gone "dippy," because of his curly hair. We knew it would happen "Dooner" or later.

It appears that Clarence "Hecky" Heckethorn has gone Ellen Lou Connolly on us. And what's Maude Patterson got that none of the rest of girls has (a car?) . . . that to Johnny Mayes . . . nice work if you can keep it.

Our newly elected president, Byron Hardie, already has started to make news. (He'll keep it up if he doesn't watch out.) What do you think, Lois Downs?

Hey! Last-minute blows are always the worst: Have you heard this bit? Ray Garamond and Shirley Fuetsch? With that one we ought to leave you . . . sounds like a good idea. We're tired—you talk for a while. Bye now!

Flash! THE Romeo of Romeos has just sneaked into town and captured our own Bertie Polander . . . yeah, the famous Doug. has COME! For a good look, just hang around the Pi Phi house any time.

This time we're gone!

SENIOR SKETCHES

MARY KATHLEEN MEEKS
Mary Kathleen Meeks completes her fourth activity-crammed year this spring to take her place with the foremost seniors on the Nevada campus.

Breaking all records for women's activity, Miss Meeks attained two of the highest honors possible for coed student. In her sophomore year she shattered tradition by being named honorary major of Scabbard and Blade. The following year she was elected to reign as Mackay Day Queen.

Miss Meeks is especially active in campus productions, playing leading roles in such plays as Double Door, You and I, Royal Family, Twelfth Night, Much Ado About Nothing, 1999, The Torch Bearers and Washington Jitters. She has been a member of Campus Players since her freshman year and was elected into Masque and Dagger, national dramatic society, when a junior.

She served as a Sagebrush reporter during her first two years, and was selected assistant editor when a junior. She now occupies the women's editor desk. Active on other publications, she is a member of the Artemisia editorial staff and has worked on the News Bureau for the past three years.

The voice of Miss Meeks is often heard in student politics where she holds a seat in the student senate. She has been a member of the A. W. S.

executive board for the past two years and has served on such committees as the finance control, nominating, A. W. S. budget, Junior Cut Day, Big Sister, Tradition Revision, Senior Gift, A. S. U. N. Constitution Revision, Ski Club Host and Women's Upper Class of which she was chairman last year.

A Harvard freshman has a way of teaching those who would break up his love affair a lesson. When he could stand a certain competitor no longer he slapped him in handcuffs and tossed the key under a subway train.

School to Conclude In Social Whirl

School will close in a flurry of social whirls in which the formals of the various houses will be the main attraction. Ending the season will be the Senior Ball on May 13, two days before Commencement.

Starting the formal season were Beta Kappa and Phi Sigma, who held affairs at the Riverside hotel last weekend. Corsages of gardenias were the favors for the women attending the formals.

Social calendar for the rest of the year is as follows:

April 21, Manzanita Hall, Beta Sigma Omicron, Lincoln Hall; April 22, Sigma Alpha Epsilon, Lambda Chi Alpha; April 27, Civil Engineers' banquet; April 28, Gamma Phi Beta, Sigma Phi Sigma, Phi Sigma Kappa, Pi Beta Phi; April 29, Alpha Tau Omega. May 5, Pi Beta Phi, Sigma Alpha Epsilon, Sigma Nu; May 6, Kappa Alpha Theta, Delta Delta Delta; May 8 to 13, examinations; May 12, Pi Beta Phi; May 13, Senior Ball, Phi Sigma Kappa address; May 14, Baccalaureate Sunday; April 15, Commencement.

LIFE-SAVING CORPS HONORS EXAMINER AT DINNER MEETING

Carl Belliston, field representative and examiner for the National Red Cross Life-saving Corps, was the honored guest at a dinner meeting held by the Nevada life-saving group Wednesday evening.

The dinner, held at Carlan's Inn, is an annual affair and is held during the recheck examination period of the members of the corps.

Belliston is the Red Cross field representative in the swimming, life-saving, water safety and first-aid branches of the service. He is in town at the present time to examine the examiners of the Reno Red Cross. About twenty-five persons are expected to take the tests.

Ben Cardine, president of the campus group, acted as master of ceremonies, and the business of the meeting included discussion of the national plan in which examiners passing tests in the future will be considered swimming and diving instructors and will teach as well as examine persons interested in life-saving.

Further business included discussing plans for the membership drive and increasing campus interest in the life-saving corps.

FORENSIC MEET FOR HIGH SCHOOLS HELD HERE LAST WEEK

The fourteenth annual high school forensic league meeting, which was held last week upon the Nevada campus, was declared by Professor Robert S. Griffin as one of the best and largest ever to be held in the history of the tournament.

All of the events on the forensic program were constructively criticized and the various debate teams rated by Dr. Louis A. Mallory of the University of Wyoming, who was again brought here this year in accordance with the unanimous vote of the coaches and directors present at last year's meeting.

The subject of the debates was "Resolved, That the United States Should Form an Alliance with Great Britain." Each team alternated from the negative to the affirmative side of the question, with no decisions being rendered in any case.

Other contests on the three-day forensic program were the dramatic interpretation, Shakespearean scenes, oratory, and the class A and class B one-act plays.

The high school forensic meet is sponsored annually by the division of speech of the university department of English and is under the direction of Debate Coach Robert S. Griffin, who is assisted by William C. Miller, director of university play productions.

The following high schools were represented in the tournament: Reno, Sparks, Winnemucca, Las Vegas, Panaca, Eureka, Hawthorne, Lovelock, Carson, Bunkerville, Virginia City and Smith Valley.

At Nevada you say "Hello!"

CHANGES, PROMOTIONS MADE IN LOCAL R.O.T.C. BATTALION

Six promotions and three changes of assignment were made within the R. O. T. C. battalion this week in accordance with an order issued by the military department.

Three officers were transferred to different duty. Cadet Lieutenant Olinto Barsanti was shifted to battalion headquarters as battalion supply officer. Cadet Lieutenant Roy Shipp was moved from Company A to battalion headquarters as intelligence officer. Cadet Lieutenant Stanley Wines will fill the vacancy created by the detachment of Barsanti.

Two cadet corporals were advanced to the rank of sergeant. They are William Wald and Carl Hill.

The following first-class privates were promoted to the rank of corporal in the priority listed: Robert Cash, Leland Strauch, Charles Jones and Dallas Downs.

The non-commissioned officers will receive cadet warrants signed by Colonel Oral E. Clark, head of the department.

brush N sports

SPORTSLITE

By FRANK McCULLOCH
Our hats are off to the University of Nevada varsity track team for the admirable showing they put up against the powerful Cal Aggies last Saturday. Conceded 25 points at the most by the dopesters, the Wolves surprised by coming through with five firsts and a smattering of seconds and thirds for a total of 43 points.

Especially surprising and gratifying were the performances of Bobby Cameron, who ran a close second in a 9.8 hundred; Jarrel Perkins, who won the shot, and Ferron Bunker, who won the javelin. The other firsts, Kenny Day's win in the broad jump; Pio Mastroianni in the two mile and John Sala in the discus, were more or less expected, but the places by the first boys named were very pleasant surprises.

Incidentally, six Wolves earned their letters in the meet. Bob Cameron, Elwyn Trigerio, Pio Mastroianni, Ferron Bunker, Jarrel Perkins and Kenny Day.

Incidentally, the local tracksters deserve a lot more support than they get from the student body. Mackay stadium, as a general rule, is about as populated on the day of a track meet as the middle of the Sahara desert. The track men work the hardest for the least glory of any athletes in major sports on the campus. Maybe students just don't know what they miss by staying away.

Speaking of neglected sports at Nevada, how about varsity tennis? The Wolf netters open their intercollegiate competition for the year tomorrow against Sacramento Junior College, their one and only home appearance of the year. Led by the veterans Peterson and Goodner, twelve men have been working out steadily under Coach Chet Scranton this year and should give Nevada the best representation it's had in the sport for years. Anyway, it might be well worth your while to be at the courts tomorrow and find out.

Maybe the brand of baseball played in local amateur circles isn't so bad, after all. Al "Lefty" Olsen, who pitched for the Smith Valley team in the Western Nevada league last year and who was known to many university students who played in the league, made his debut in the Pacific Coast league the other day in a San Diego uniform. He appeared against the Seattle team and for nine innings toyed with them as he pleased, yielding only two scratch hits and one unearned run. Local hitters usually managed to solve his deliveries for a far better average than that.

Congratulations are in order for John Etchemendy, A. T. O.'s versatile little athlete. Rounding out his enviable record in basketball, tennis, handball, volleyball and track, "Etch" this year tried his hand at pitching when the Taus found themselves without a regular chucker at the beginning of the baseball season. From all present indications he's doing all right. In his second appearance on the mound this year he pitched a no-hitter against last year's champions and at present he's well out in the lead in the race for the pitcher's cup.

The university golf team is keeping on its toes at all times, if present indications mean anything. They will play a match with C. of P. at Stockton tomorrow and may get more competition from other coast universities before the semester is over. And they're doing all this without any student or administrative aid, at the expense of their own pockets and time. They deserve a big hand for their good work.

This corner two weeks ago was forced to call attention to the lower and better scores appearing in the interfraternity league baseball games and then went out and got tangled up in a 15-12 affair with the fighting Beta Kappas. Life's funny that way.

Well, anyway, it was nice to think about spring football.

Taus Take Copper Stein for Seventh Straight Season

Alpha Tau Omega fraternity will keep the Kinnear revolving trophy in interfraternity athletics for the seventh year.

Points amassed by the hilltop men are sufficient for them to claim title to the trophy even though their closest competitor, Sigma Alpha Epsilon, may take first place in the intrafrat baseball, which pays off 100 points.

Total points earned by the A. T. O. contingents amounted to 350. S. A. E. follows in second place with 230 points, lacking the twenty tallies which would enable it to tie A. T. O. if S. A. E. should win the baseball contest.

Total points for the fraternities to date are: Alpha Tau Omega, 350; Sigma Alpha Epsilon, 230.75; Lambda Chi Alpha, 163; Sigma Nu, 117.5; Lincoln Hall Association, 64.25; Beta Kappa, 80; Sigma Phi Sigma, 30; Phi Sigma Kappa, 25, and Independents, 10.

"Bill shouldn't have married Irene. In less than a year she's made him a pauper."
"Really? Is it a boy or a girl?"

Two Frat Teams Remain Unbeaten In Baseball Play

Beta Kappa, Sigma Phis Lead League as Fourth Week of Tourney Ends

Beta Kappa and Sigma Phi Sigma continued undefeated in interfraternity baseball league play as the fourth week of play drew to a close.

Beta Kappa, topping the standings with four wins and no losses, kept its record intact, but ran into unexpected hard opposition in the Lambda Chis, finally winning out by a score of 6 to 4.

Led by hard-hitting Jack McKenzie the Beekays jumped to an early 6-to-1 lead, but Lambda Chi settled down after that and several times threatened to pull the game out of the fire.

Davis, who worked well on the mound for Beta Kappa, limited the Hilltoppers to four hits while he was ringing up nine strikeouts.

Smith, Lambda Chi pitcher, gave up ten safe blows and sent seven Beta Kappas down swinging.

SIGMA PHI WINS
Sigma Phi Sigma lived up to all advance notices in defeating S. A. E., 4 to 3, on Monday night.

Bill Grubbs, throwing from the port side, turned in one of the most outstanding performances of the year in holding the hard-hitting S. A. E. to five hits and whiffing 11. The Evans-avenue boys didn't get a hit until Pecole broke through with a double in the sixth inning.

Pecole, pitching smart, heady ball, scattered 10 Sigma Phi Sigma hits sufficiently to keep his team in the running at all times. He fanned six.

SIGMA NU LOSES
Phi Sigma Kappa served notice to the rest of the league that it will be one of the toughest teams in the league to beat by the end of the season, when it administered a thorough 9-3 lacing to Sigma Nu on Wednesday night.

"Lefty" Mayer showed his best form of the year by scattering ten Sigma Nu blows and fanning 13.

McCulloch allowed the Phi Sig team only seven hits while fanning eight, but got very poor support afield.

PHI SIGS WIN
In other games of the week, Phi Sigma Kappa walloped Lincoln Hall by an 18-to-9 score, with Quist getting credit for the victory and Knemeyer receiving the loss; and A. T. O. eked out a thrilling 7-5 win over Sigma Nu.

Etchemendy pitched a masterful game, fanning 13 and giving up only three hits. McCulloch, Sigma Nu pitcher, allowed six hits and whiffed ten Taus.

Lincoln Hall-A. T. O. game, scheduled for last night, was postponed because of the military review.

Team standings:

	W.	L.	Pct.
Beta Kappa	4	0	1.000
Sigma Phi Sigma	2	0	1.000
A. T. O.	3	1	.750
S. A. E.	3	1	.750
Phi Sigma Kappa	3	2	.600
Sigma Nu	2	3	.400
Lambda Chi	0	3	.000
Independents	0	3	.000
Lincoln Hall	0	4	.000

The remainder of the schedule is as follows:

April 23, 3 p. m., S. A. E. vs. Lambda Chi; April 24, 4 p. m., Beta Kappa vs. Sigma Phi Sigma; April 25, 4 p. m., A. T. O. vs. Independents; April 26, 4 p. m., S. A. E. vs. Sigma Nu; April 27, 4 p. m., Beta Kappa vs. Lincoln Hall; April 28, 4 p. m., Phi Sigma Kappa vs. Lambda Chi; April 29, 4 p. m., A. T. O. vs. Sigma Phi Sigma; April 30, 3 p. m., Sigma Nu vs. Independents.

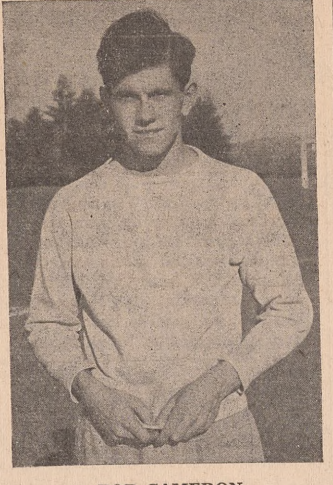

May 1, 4 p. m., Beta Kappa vs. Phi Sigma Kappa; May 2, 4 p. m., Sigma Phi Sigma vs. Sigma Nu; May 3, 4 p. m., Lincoln Hall vs. Lambda Chi; May 4, 4 p. m., A. T. O. vs. S. A. E.; May 5, 4 p. m., Lincoln Hall vs. Independents; May 6, 1 p. m., Beta Kappa vs. S. A. E.; May 6, 3:30 p. m., Phi Sigma Kappa vs. Sigma Phi Sigma; May 7, 3 p. m., Lambda Chi vs. Independents.

Some girls would rather stay single, while others would rather knot.

Frosh Take Prep School Track Meet

Cub Cindermen Show Individual Times Better Than in Varsity Meet

The University of Nevada frosh track team, with some athletes superior to the Nevada varsity, took first place in a five-cornered track meet with Nevada high schools last Saturday on Mackay Field.

Winning 67 1/2 points, the frosh, with many individuals stars and prospective varsity material, swept through the less experienced high school cindermen.

RENO SECOND
Reno high school, which displayed its power and showed that it will be strong contenders for the prep championship, was second with 50 1/2 points.

Hawthorne tallied 13 1/2, Fallon 12 1/2 and Yerington made 4 1/2.

Larry Callahan, Nevada frosh from Ely, was the individual star of the meet. He set a fast and steady pace in the mile to win the four-lapper in 4 minutes 43.2 seconds, better time than the Varsity-Cal. Aggies meet entries made that afternoon and better than the state high school record. He followed up with a 2:08.6 in the 880.

21-FT. 2 IN. BROAD JUMP
Joe Stein, a Nevada frosh, jumped 21 feet 2 inches, nearly equalling the mark made by the varsity squad.

This meet indicated that there will be plenty of good varsity material to work on next year. The contest also found several remarkable times being made, considering the early stage of the season.

WEEKEND REVIEW

"So you had to give up the man you loved?"
"Yes, my husband bought a frigid-aire."

Here's one about a poor burglar who was troubled by flat feet. They kept arresting him.

We know of a man who made a fortune in crooked dough. He was a pretzel manufacturer.

Nevada Golf Team Makes Its Debut Versus C. of P. Team

Taylor, Games, Hoffman, Rhoades to Compose University Team

After a long-delayed start, the University of Nevada golf team will make its debut tomorrow in a scheduled match with the College of Pacific golfers on the Stockton fairways.

The four-man team, made up of the best student golfers in the state, will leave early Saturday morning, play the matches that day, and return on Sunday, Jack Rhodes, student manager, said.

FIRST TEAM IN HISTORY
The golf team, first in the history of the institution, is made up of four of the best golfers in this section.

Bob Taylor, one of its outstanding members, learned his golf on the Ely course. In the last club tournament on the Reno greens, he was runner-up, losing to the city champion, Arrieta.

Jack Hoffman, who is a transfer from the University of California and former team captain for that school, is one of the best golfers to tour the Washoe course.

Jack Rhoades, student team manager, played his first golf down in Las Vegas, and is said to be a "natural." He is one of the strongest men representing Nevada.

ROUNDS OUT TEAM
Rounding out the foursome and playing for Bob Cameron, regular team member, is Bob Games, a freshman from Reno. He has played a lot of golf and is capable Rhoades said, of taking over for Cameron who will be busy with a track meet.

MORE MEETS
A favorable outcome of the College of Pacific matches may result in more and better meets with stronger coast teams for this spring and fall season, Rhoades said. More interest in the team's success also may help secure financial backing by the university athletic department, Rhoades added.

Falling to be recognized by the athletic department as a minor sport last fall, the golf team scheduled a number of matches, but financial difficulties put a stop to the team's activities.

Still beset with the same handicap, the golfers, however, rallied and are going to Stockton "on their own" to compete under Nevada colors tomorrow.

SIG ALPHA HANDBALL TEAM DEFEATS B. K. TO TAKE TOURNEY

Sigma Alpha Epsilon's handball doubles team of John Radovich and Bill Pecole battled its way to the championship of the intramural tournament this week with a 21-13, 22-20 victory over the runner-up Beta Kappa duo composed of Ralph Meyer and Le-Land Tucker.

This match marked the end of one of the most hotly contested handball tournaments in years, and the championship was decided only after three teams, SAE, BK, and Lambda Chi Alpha, had finished the regular season in a three-way tie for the top spot.

After having had to postpone the play-offs for some two or more weeks, due to epidemics of illness or conflicting baseball games, the deadlocked teams finally got together, and, with the SAE's drawing a bye, the BK's ruined the Lambda Chi's chances with a first round defeat.

NEVADA TENNIS TEAM TO PLAY SACRAMENTO J. C. HERE TOMORROW

The University of Nevada tennis team will play its first inter-collegiate match of the season when it meets the Sacramento Junior college team here tomorrow.

Nevada's five-man team will play five singles matches, two doubles, against the junior college aggregation.

Members of the Nevada team are Clint McKinley, Bud Young, Eugene Peterson, Ned Dickson and Frank Goodner. Teamed for the doubles play are Peterson and Young, Dickson and Goodner.

Peterson was runner-up for the conference championship last year when he went into the play-offs with less than two weeks of practice. Weather conditions have been ideal for practice this year, and with more than six weeks of play under his belt, Peterson should have an excellent chance to cop the conference title.

Frank Goodner, Nevada's only two-letter man, should also make a fine showing this year. Goodner made the semi-finals in the doubles play-off last year.

The matches will start at 10:00 a. m., should run on well into the afternoon. Play will be on the University courts.

Outlaws hold men up, and in-laws hold them down.

NEVADA GRAPPLERS SHOW GOOD BOUTS IN HAWTHORNE TRIP

For the first time this year the University of Nevada wrestling team made a trip, when it put on a series of exhibition bouts in Hawthorne last week. The trip was sponsored by the Hawthorne American Legion and the volunteer firemen.

"The team did very well and the townsmen of Hawthorne were well pleased," Frank Rosaschi, wrestling coach, said. The program consisted of five bouts and a battle royal.

The battle royal was the highlight of the evening. Four members of the Nevada team were blindfolded and put into the ring with the cry, "May the best man win," ringing in their ears.

"Tom Guild and Roger Highman wrestled according to professional rules and their bout was unusually well received," Rosaschi said.

Isaac Corrao and Lewis Sanborn, fencers, went with the team and demonstrated the finer points of fencing

in an exhibition fencing match. "Wrestling practice ends next week, but we hope to have a bigger and better team next year. Plans are now under way to supply new equipment and have a team that will wrestle often in competition with other colleges and universities in this conference," Rosaschi said.

Those making the trip to Hawthorne last week include Frank Rosaschi, ePte Della Santa, Orin Meade, Tom Guild, Johns Morrison, Bill Lattin and Tom Smart.

Cal Aggies Defeat Nevada Trackmen Here Last Week

Wolves Take Four Firsts In Field Events; Aggies Sweep Hurdles

Fielding a powerful, well-balanced aggregation, the Cal Aggie Farmers smothered the University of Nevada track team in a dual meet on Mackay Field last week, hanging up a 81.1 to 49.1 win.

The Aggies captured ten first places, taking everyone of the track events except the two mile race which little Pio Mastriani won in the best time he has made all year. He led the Aggie distance men most of the way and came home with a driving finish to run his last lap in faster time than he did the first.

In the field events, however, the Wolves put on a show of strength to capture four first places. Jarrell Perkins, sophomore weight man, won the shot with a 42.9½ heave; big John Sala, away off form, won the discus with a 128-foot heave; Ferron Bunker whipped the javelin 187 feet, and Kenny Day won the broad jump with an easy 21-foot 8-inch leap.

The Aggies scored sweeps in both the low hurdles and the 440. Outstanding performances in a meet that was marked by slow times and poor distances included the 9.8 hundred-yard dash by Rhodes of the Aggies, the 15.4 flight of high hurdles stepped by Mahoney of the Mustangs and Kenny Day's leap of 21 feet 8 inches to win the broad jump.

High point man of the meet was speedy little Rhodes of the Aggies who made twelve points on firsts in the two dashes and a tie for third in the broad jump. Bob Cameron was high for the Wolves with 6½. In the pole vault, Cameron tied for third, but kept on jumping and finally went out at 12 feet 4 inches, which was four inches higher than the winning leap of Nitta, Aggie vaulter. Elwyn Trigero, former Reno High star, pressed Cameron for point honors, scoring six.

Results of the meet:

- 100-yard Dash—Won by Rhoades (A); second, Cameron (N); third, Trigero (N). Time :9.8.
- 220-yard Dash—Won by Rhoades (A); second, Trigero (N); third, Farquhar (A). Time :22.9.
- 440-yard Run—Won by Pastor (A); second, Underhill (A); third, Wood (A). Time :52 flat.
- 880-yard Run—Won by Gray (A); second, Rodriguez (N); third, Mortenson (N). Time 2:6.
- Mile Run—Won by Hayes (A); second, Pennfield (A); third, Barrett (N). Time 4:49.
- Two-mile Run—Won by Mastrolanni (N); second, Hayes (A); third, McFarland (A). Time 10:56.
- Shot Put—Won by Perkins (N); second, Foskett (A); third, Gaines (A). Distance 42 feet 9½ inches.
- Discus Throw—Won by Sala (N); second, Garamendi (N); third, Westfall (A). Distance 128 feet.
- Javelin Throw—Won by Bunker (N); second, tie between Hardie (N) and Westfall (A). Distance 187.2 feet.
- 220-yard Hurdles—Won by Schoomover (A); second, Underhill (A); third, Nitto (A). Time :26.9.
- 120-yard Hurdles—Won by Mahoney (A); second, Cameron (N); third, Kildar (A). Time :15.4.
- Broad Jump—Won by Day (N); tie for second between Trigero (N) and Rhoades (A). Distance 21 feet 8½ inches.
- High Jump—Won by McFarland (A); second, tie between Cobeaga (N), King (N), Friedhoff (N); Mahoney (A), Ferguson (A).
- Pole Vault—Won by Nitto (A); second, Sealey (A); tie for third between Cameron (N) and Jones (A). Height 12 feet.

NU ETA EPSILON INITIATES MEMBERS

Six new members were initiated into Nu Eta Epsilon, local honorary engineering society, last night. The new members are Fred Maynard, Gene McDaniel, Dave Hartman, Byron Hardie, Curtis Thomas and Albert Caton.

Chosen entirely from the college of engineering, the six men represent the upper one-eighth, scholastically, of the junior class.

Ferron Bunker, competing for his second season with the Wolf Pack, is expected to show strong in the meet Saturday. Last week he took a first in the javelin throw against the Cal Aggies.

Block N Approves Basketball Players

Block N society last night approves 12 members of the 1939 basketball team and the manager as members of the society and eligible for the Block N and sweater award.

The 13 students all made the required 11 semester hours before the award was given. Another requirement for a letter in basketball was that each participant play in 60 per cent of the scheduled games.

Players approved were: Max Forbes, John Radovich, Ray Harris, Ted Olsen, John Etchemendy, Gordon Thompson, Mitchell Cobeaga, Ray Waldren, John Mayse, John Lemch, Blake Speers, Lee Conaway.

Vernon Wines was the student manager.

PRESIDENT'S ACTION COMPLETE BOARD

(Continued from Page 1)

association announced that Harry Frost had accepted the post as an alumni representative.

Frost is a graduate of the class of '28. As a student, he played varsity football three years, was a member of Coffin and Keys, a member of the men's upperclass committee, a member of finance control and sophomore class manager.

He also served as a member of the alumni investigating committee this year.

The other member of the board will be Byron Hardie, the newly elected student body president.

Hardie, too, has played an active part in athletics both in high school and at the university.

In 1934-5 he played end under Douglas Dashiell on the Las Vegas Wildcat team, and at the end of the '35 season was named all-state end.

At the university, he played on the freshman squad and on the varsity squad during his sophomore year. This year he is a member of the varsity track squad, having placed second in the javelin in the Aggies-Nevada meet Saturday.

NO COMMENTS

Members of the board refused to comment on the athletic and coaching situation for next year until later. The head football coach will be forced to select his assistants not only in football but also in track and basketball. His other duties will be to secure equipment and attend to numerous minor details.

The new scholarship committee is expected to be organized as soon as the board of control selects a graduate manager.

Fulton Memorial Foundation Lectures To Be Resumed May 2 by Dr. Milliken

After a suspension of eight years, the Fulton Memorial Foundation lectures will be resumed May 2 when Dr. Robert A. Millikan, internationally-known physicist and president of the California Institute of Technology, will deliver the first of a series of three lectures.

"Some Recent Scientific Discoveries and Their Social Significance," the first lecture, will be heard Tuesday evening, May 2. Dr. Millikan will deliver his second lecture, "Science and Social Justice," Wednesday morning, May 3, at the regularly scheduled A. S. U. N. assembly period.

The third talk, "In the Coming Century," will be given Wednesday evening, Dr. Leon W. Hartman, acting president, said.

Places of presentation and exact hours for these lectures are not definitely scheduled, Dr. Hartman added.

Hundreds of people were turned away from the small education building auditorium when Dr. Millikan lectured here in 1925, at which time the Fulton Memorial Foundation was started.

Because of the limited seating capacity of the auditorium, there is possibility that Dr. Millikan will be heard in the gymnasium, Dr. Hartman explained. The auditorium will be used only if Dr. Millikan's lectures are illustrated.

In view of the popular nature of his subjects, Dr. Millikan's lectures will be of great delight and interest to all, Hartman said. All these talks will be so presented as to be understood by the scientist, the physicist and the layman as well.

Dr. and Mrs. Millikan will be feted at a faculty reception on Wednesday, May 3, Dr. Hartman said.

DEAN ADAMS PLANS COAST VACATION

(Continued on Page 6)

ciation, in which capacity he served until 1912. In 1911 he received international recognition as a religious worker when he was elected to the executive committee of the International Sunday School Association.

The year 1918 saw him getting the second important administrative position of a still young teaching career when he became dean of the college of arts and science at Nevada and, four years later, in 1922, he became vice-president of the institution, in which capacity he is serving today. He resigned from the position of the dean of the college of arts and science last fall because of increasingly poor health.

National and international recognition have been no novelty for Dean Adams. He is a member of the American Chemical Society, Deutsche Chemische Gesellschaft, the California Academy of Science, Phi Kappa Phi and Sigma Xi, tops in honor fraternities among men of science.

He holds a fellowship in the American Association for the Advancement of Science, and is a frequent contributor to the American Chemical Journal, the Journal of the American Chemical Society and the Journal of Industrial and Engineering Chemistry, magazines with wide circulations among American scientists.

Mr. Adams' education began in West Virginia, where he was born in 1869. He was a student at the State Normal School there in 1888 but, for the following two years, attended the University of West Virginia. He received his A. B. from Stanford in 1895 and his M. A. from the same institution in 1896.

Finding time enough for both his teaching duties at Chico and the further development of his education, he earned his Ph.D. at the University of Chicago in 1904 and, after assuming his duties at Nevada, studied at Zurich, Switzerland, in 1913, and at the University of Göttingen in 1914.

Such has been the full and rounded career of Dean Adams, and such will be the loss of the University of Nevada when he returns.

PERALDO ELECTED MAYOR OF LINCOLN HALL THIS WEEK

Lincoln Hall Association officers were elected for the coming year at a meeting held Monday night.

The association officials named were: Louis Peraldo, mayor; Dallas Downs, secretary; Grant Anderson, treasurer; Robert Smith, senator; Ike Caraco, alternate senator; Bill Mitchell, interfraternity council representative; Guy Allen, alternate representative; Ned Dickson, historian and John Knemeyer, custodian.

The new officers will replace George Wade, mayor; Walter Lobenstein, secretary and Ab Atkinson, treasurer, the Hall Association's leaders this year.

Hall Association social activities this year will come to an end tonight following the annual formal which will be held at the Riverside Hotel at 8:00 p. m.

A bathing costume is never a girl's long suit.

One touch of scandal makes the whole world chin.

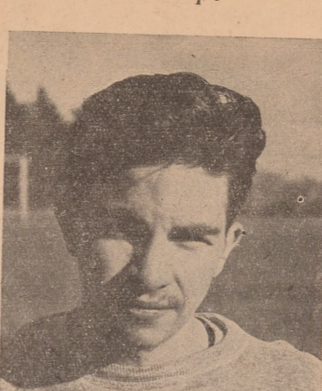

We want a choir singer. But she's just a know acquaintance.

Antelope

Small, wiry Ernie Rodriguez, veteran middle distance man for Nevada, will have a tough race on his hands when he meets the Chico 880 men this Saturday. Ernie has been a constant point-gainer for the Pack during the last two years and is expected to finish strong.

Recital Scheduled

Members of the chapel choir of St. Stephen's House will attend the recital to be given by Richard Dyer-Bennet Sunday afternoon.

Dyer-Bennet, a celebrated luteist and ballad singer, is being sponsored by the Tri-Delt Alliance.

Members of the choir who are expected to attend include Mary Margaret Murphy, Barbara Rook, George Gates, Guy Allen and Art Atkins.

Two pints make one gallant.

Seven Plan Mining Trip for Weekend

Six students from the Mackay School of Mines, accompanied by Professor William Smyth, will tonight for a weekend visit to Silver Peak and Manhattan.

Members of the party plan to visit three mills recently erected in the Silver Peak and the big gold dredge at Manhattan.

Students to make the trip are Charles Harris, Arthur Frazier, Ernest Jorgensen, Louis Sanborn, Jack Myers and Dudley Davis.

Transportation and traveling expenses will be furnished by the Hunt foundation.

"I'm burning with love for Fred!"

"Oh, don't make a fuel of yourself."

The Best in the West when it comes to **Real Cokes** **WALDORF**

Television would show you **Chesterfield** has the RIGHT COMBINATION for More Smoking Pleasure

Every year thousands of visitors to the Chesterfield factories see the infinite care with which the world's best tobaccos are combined to give you Chesterfield's can't-be-copied blend.

It is this wonderful blend that makes Chesterfield so refreshingly different . . . milder, better-tasting, with a more pleasing aroma.

When you try them you will see why Chesterfield gives millions of men and women more smoking pleasure . . . why **THEY SATISFY**

Shown here is one of the many blending operations in the making of Chesterfields. Everything science knows about or money can buy is used to make Chesterfield a milder, better-tasting cigarette.

They Satisfy
