

Beta Kappa, A. T. O. Still Dominating Baseball League

Tau Takes S. A. E. and Sigma Phi Sigma Nines To Keep in Running

Alpha Tau Omega continued to press hard on the heels of the league-leading Beta Kappa nine this week by sending the Sigma Alpha Epsilon baseballers to the showers under a 12-3 defeat yesterday afternoon.

The Taus took full command of the situation in the last half of the first inning when their big guns blasted nine runs across the plate before the Evans Avenue boys could stop the barrage of base hits.

After the first inning the game settled down to an air-tight exhibition of baseball with each team only putting three runs across the plate.

Etchemendy pitched outstanding ball for the winners and Peccole, who relieved Babcock in the first, also hurled good ball for the losers.

LINCOLN HALL WINS

Lincoln Hall finally broke into the win column on Wednesday evening by edging out the hapless Lambda Chis, last year's champions, by a score of 12-11. Knemeyer was the winning pitcher, while Hansen and Smith twirled for the Lambda Chis. Smith hit a home run for the losers.

Sigma Phi Sigma and Sigma Nu put on a comic farce on Tuesday night with the Virginia Street aggregation taking a 13-8 victory. Neither team used its regular players, and errors were amazingly frequent on both sides. Beloso and Gallagher pitched for Sigma Nu and McDonald and Anderson did the mound work for Sigma Phi Sigma.

The all-conquering Beta Kappa team continued to dominate the league by whipping Phi Sigma Kappa, 7 to 2, on Monday night for its seventh straight win. Led by Bill Shewan and Leland Tucker, who hit Phi Sigma Kappa's "Lefty" Mayer both hard and often, the Beekays won the game in the fifth with a five-run rally which broke up a tight pitchers' duel between Mayer and Dud Davis, Beta Kappa chucker.

TEN HITS

The league leaders collected ten hits and two walks while committing two bobbles. The Phi Sigs got only three hits and one walk from Davis and had fifteen men go down via the strikeout route. Mayer struck out ten and otherwise pitched good ball, but got little support from his team-mates.

A. T. O. stayed in the race for the league crown by pouncing out a decisive 10 to 4 win over Sigma Phi Sigma on Friday night. "Little John" Etchemendy had full possession of his winning ways and let the Virginia Street team down with six hits and three walks. He struck out eleven.

Grubbs, Sigma Phi chucker, allowed eleven hits and four walks while whiffing seven.

Hawkins and Lemich led the A. T. O. hitters, and Grubbs and Dorsey, as usual, led the Sigma Phi Sigmas.

In other games of the week, Phi Sigma Kappa squeezed through with an 8-7 win over a surprisingly tough Lambda Chi team on Friday, and the Independents defaulted to Sigma Nu on Sunday.

| League stands: | Won | Lost | Pct. |
|-----------------|-----|------|-------|
| Beta Kappa | 7 | 0 | 1.000 |
| A. T. O. | 6 | 1 | .857 |
| S. A. E. | 3 | 2 | .600 |
| Sigma Phi Sigma | 3 | 2 | .600 |
| Phi Sigma Kappa | 4 | 3 | .571 |
| Sigma Nu | 3 | 5 | .375 |
| Lincoln Hall | 1 | 6 | .142 |
| Lambda Chi | 0 | 6 | .000 |
| Independents | 0 | 7 | .000 |

Military Men Given Practice Shooting

Practical instruction on the firing range in the use of the U. S. army rifle for first and second-year military students and the regulation officers' pistol for first-year cadet officers, concluded the 1938-39 year of military instruction of the University of Nevada. R. O. T. C. unit. No final examinations in the basic courses are scheduled.

The target practice was under the direction of Major Richard O. Bassett, assistant professor of military science and tactics at the university. Major Bassett is one of the outstanding marksmen of the U. S. infantry.

Theoretical and tactical instruction was discontinued last Monday for all basic-course military students, and the men checked in their uniforms at the R. O. T. C. barracks the latter part of the week.

Picnic Held

Sigma Nu social fraternity held its annual picnic at Sandy Beach, Lake Tahoe, last Sunday.

The group left Reno at 9 a. m. and spent the day at the lake in playing baseball and swimming.

1959 Signatures Already in 'Book of The Oath' Which Seniors Sign Monday

"The Book of the Oath" will be available for seniors to sign Monday morning," Miss Carolyn Beckwith, secretary to the president, said today. Graduating students may come in any time during the week to sign the book that has been signed by 19 graduating classes.

Although the signing of the book is not compulsory, 1959 students have scrawled their names on the leaves of the volume since it was first brought into existence by Dr. Clark in 1920.

"The Book of the Oath" was an entirely original idea of Dr. Clark's, and

since its start has been copied by the University of West Virginia which several years ago wrote asking permission to use the idea.

Bound with blue leather and hinged and nameplated with silver metal bands, "The Book of Oaths" is paged with heavy leaves of parchment.

The oath of allegiance in the front of the book is followed by pages of nineteen graduating classes. In 1920, 33 graduates signed the first page; last year 143 graduating seniors signed.

A copy of the oath is given to every graduate as he accepts his diploma.

Committee Studies Engineering Schools Here Last Week

Civil Engineering School Not Examined Before New Building Is Erected

Studying the curricula of the engineering schools, their equipment, the type of instruction, examinations and organization of schools, a committee of the E. C. P. D. spent several days last week in preparation for a report on the accrediting of the schools of mechanical and electrical engineering at the University of Nevada.

"The committee seemed pleased with the prospect of a new engineering building, and the change set up in the engineering laboratories since its last visit to the campus in the spring of 1937," acting-President L. W. Hartman said yesterday.

Dr. Hartman also stated that "the civil engineering school was not examined at this time because the new building was deemed to be essential at the time of examination."

The Engineering Council for Professional Development committee was composed of three members.

Dean G. M. Butler of the University of Arizona school of mines, Dr. B. M. Woods, University of California professor of mechanical engineering, and Dr. Herbert S. Evans, who is the dean of engineering at the University of Colorado, comprised the group that made a detailed report which, in turn, is to be submitted to a regional western committee which makes its study and sends its criticisms to the central eastern office.

Senior Banquet Plans Being Made

Plans are rapidly going ahead on the Senior Banquet this year which will be held Wednesday, May 10, at 6:30 o'clock at Club Fortune.

This banquet is perhaps the last time that the class of '39 will be together all in one group at a table. As is the case almost every year, this banquet turns out to be quite a success in the eyes of the seniors as well as those outside the senior class. The seniors get together and talk about the old times and of the four years of fun and work they have had in college.

This year the senior class will pay for half of the banquet while the seniors will have to pay for the other part. All seniors who can attend this dinner are urged to get in contact with the seniors on the Senior Week committee and make arrangements before hand.

On Friday the senior programs having all the events and talks scheduled to go off on Senior Week will be out and given to all graduating seniors. This program includes the names of the speakers for the baccalaureate and commencement exercises as well as those seniors who will have to make talks during the week.

Senior announcements also will be out on Friday.

STATE SENATOR TALKS AT CRUCIBLE CLUB, ENGINEERS' MEETING

A joint meeting of the Nevada branch of the American Institute of Mining Engineers and the Crucible Club of the University of Nevada was held at the Mackay School of Mines building last night.

Principal speakers were State Senator Noble Getchell, who spoke on the discovery and early development of the Getchell mine, and Roy A. Hardy, Getchell mine consulting engineer, who spoke on mining and milling at that property.

The Getchell mine, largely an open-pit proposition, is now running 800 tons a day through its mammoth mill.

Additions to this mill, said to be the most up-to-date in the world, will be made this summer, which will increase its capacity to 1000 tons daily, making it the second largest gold mill in the United States. The Homestake mill in South Dakota is the largest.

Senior Week Schedules

Friday, May 5—Senior Parade to A. S. U. N. meeting in taps and gowns. (Cancelled.)

Sunday, May 7—Tea for senior women by S. A. E.

Monday, May 8—Faculty softball game, 1:15; Theta tea, 3:30.

Tuesday, May 9—Cap and Scroll-Blue Key tea, 3 to 5 at A. T. O. house.

Wednesday, May 10—Picnic at Lake Tahoe.

Thursday, May 11—Pilgrimage, 10:30 a. m.; banquet at Club Fortune, 6:30 p. m.

Saturday, May 13—Senior ball.

Sunday, May 14—Baccalaureate service, 10:30 a. m.

Monday, May 15—Commencement service, 10:30 a. m.

Banquet Planned By Phi Kappa Phi

Dr. Oswald McCall to Be Principal Speaker of Annual Dinner Meet

Phi Kappa Phi, national honor society, will hold its annual banquet at the Riverside hotel on the evening of Saturday, May 13, Miss Eva B. Adams, chairman in charge of the affair, announced this week.

Honored guests at the banquet will be all members elected either this or last semester, those who will be elected after final grades are in, and the sophomore and junior students ranking highest in grades in their respective classes at the end of this semester.

This will mark the first time that the society has honored the high-ranking sophomore and junior.

Principal speaker at the affair will be Dr. Oswald McCall, pastor of the First Congregational Church of Chicago, who will also deliver the baccalaureate address on Sunday.

Dr. McCall, one of the nation's most distinguished lecturers has toured the British Isles and Africa, speaking to large audiences in principal cities of each. He is known to many Nevadans through his sermons at the Berkeley Congregational church.

COMMITTEE MEMBERS

Members of the committee in charge of the banquet are Miss Adams, chairman, Dr. S. Allen Lough, associate professor of chemistry, and A. L. Higginbotham, professor of journalism.

All faculty and alumni members of the society are urged to attend, Miss Adams said.

Willamette Prexy Visits U. N. Campus

Bruce R. Baxter, president of the Willamette University at Salem, Oregon, was a campus visitor last Monday, Dr. Leon W. Hartman, acting president, said today.

President Baxter came to Reno to attend the annual Rotarian convention, Hartman said. His interest in universities prompted his visit to our campus, and he was highly impressed with the University of Nevada, Hartman explained.

BALL COMMITTEE PLANS STREET DANCE

Members of the Senior Ball committee today decided to rope off the 300-block on West First street to take care of the expected large attendance at the Senior Ball May 13.

Until today the committee expected to use only the Century Club, but an increase in reservations necessitated the renting of the adjoining street.

A. S. U. N. Senators To Hold Yearly Picnic

All A. S. U. N. senators will meet next Sunday for their annual picnic. The old and new senators will hold the picnic at the home of Georgia Cooper on Lake Tahoe.

Picnic arrangements are under the direction of Dick Roche, Georgia Cooper, Dave Goldwater and Kathleen Meeks.

University Enters Varsity Trackmen In Conference Meet

Day, Sala, Mastrianni Given Excellent Chances To Cop First Prizes

With no chance of winning but an excellent chance of making a good showing, Coach Jim Coleman and thirteen track men left early this morning for Stockton to enter the Far Western Conference track and field meet to be held there tomorrow.

The meet, which includes all the Far Western Conference teams, Fresno State, College of Pacific, Chico, Cal Aggies and Nevada, will rank with the best on the Pacific Coast in times and distances.

FRESNO FAVORED
Fresno, with a powerful aggregation despite being a great deal weaker than former Bulldog track teams, is a heavy favorite to walk away with a majority of the honors Saturday. College of the Pacific is set for second place honors, although heavily pressed by the Cal Aggies.

Of the entire Nevada team making the trip, only three men stand chances of taking first places, Coach Jim Coleman pointed out. Kenny Day, who won the conference broadjumping championship last year, should repeat, although Fresno has a sophomore jumping around 23 feet who will give Kenny plenty of competition.

SALA HAS CHANCE
John Sala, who has proven his superiority in the discus in all the meets so far this year, has the best chance of all for a first place. His toughest competition will be offered by Swaggerty of C. of P.

Pio Mastrianni, unbeaten in the two mile so far this year, stands a good chance of keeping his record clean in the conference meet.

Summing up Nevada's chances in the meet, Coleman stated, "With the best possible luck, the maximum number of points we can hope to score is 22."

MANY MAKE TRIP

Making the trip in addition to Carlyle Pribbernow, team manager, will be Barrett, entered in the two-mile, Bunker in the javelin, Cameron in the sprints and pole vault, Conoway in the 440, Friedhoff and King in the high jump, Mastrianni in the two-mile, Stewart and Perkins in the shot and discus, Sala in the discus, Rodriguez in the 880, Trigero in the broadjump and 440, and Day in the broadjump.

SENIORS COMPETE

Three seniors, Kenny Day, John Barrett and Ernie Rodriguez, will compete for the last time wearing Nevada colors. All three are lettermen, and consistent point-getters in the meets held this year and their loss will be keenly felt next year.

Despite the absence of these men, Coleman stated, the possibility of a good season next year looks better than it has since 1928, the last time Nevada won the Far Western Conference track championship.

TWO JUNIORS ENTERED

Only two men on this year's team are juniors, the rest being sophomores. The freshman team has a bunch of good varsity material.

Callahan, in the mile and two-mile, would be right out in front this year, Coleman pointed out, and with McNabney and Seaborn in the hurdles, Harrigan in the weights, Stein in the broadjump, these men will be a great asset next year.

Wells Is Chosen Future Farmers' Prexy This Week

Henry Wells, prominent junior student, was elected president of the collegiate chapter of the F. F. A. at a meeting held last week.

Following the elections, Dr. Swanson, national vocational advisor, spoke to the group on the importance of the vocational teaching of agriculture in the high school. Dr. Swanson was formerly a student trainer in all phases of such vocational study.

During the speech he cited several examples which proved the necessity of having well trained, qualified teachers in such capacity in the high schools.

The club voted to purchase a scrapbook in which all graduating members shall sign their names each year and in which will be kept a record of the club's activities throughout each year.

Refreshments were served at the conclusion of the meeting to the following: Dr. Swanson, Professor Higgins, John Bazzini, Mark Stewart, Leland Whipple, Delbert Stewart, Chester Jacobsen, Charles York, Ferron Bunker, John Giomi, Jed Oxborrow, Julian Mapes, Anthony Belmonte, George Frey, Philip Jones and Avidies Darang.

NOTICE!

All seniors planning to attend the senior picnic or the senior banquet please let some member of the senior week committee know as soon as possible in order that accommodations can be arranged for everyone. Senior programs available this afternoon.

FRAN BREEN.

'Midnight Oil' Sessions Now in Vogue As Week of Final Exams Approaches

Tales of the ancient "midnight oil" sessions have regained their popularity these days with final examinations, the biggest hurdle of the academic year, set for the last week of school beginning Monday.

With the giving of finals left to the discretion of the instructor in previous years, the university faculty last semester, however, adopted 2 1/2-hour finals as a requirement in all courses.

Given under a schedule in the final week of school last semester that found students having as many as three examinations in one day, the schedule this semester, however, has been completely revised and its biggest faults eliminated.

The revised schedule allots the heavily-

attended morning classes two successive days of the examination week and is designed to eliminate the congestions of examinations on the first few days of the week which occurred last semester.

Practically all conflicts of examination hours have been done away with. Special arrangements have been made for what few conflicts remained, which in some cases necessitated the shifting of the whole class to a new examination hour.

Examinations for seniors have been completed this week, although some instructors, in accordance with the new faculty ruling which does not make it compulsory to give seniors exams, have not given any tests this week.

Big Jock Ashley's Trial Held Today

Big Jock Ashley was arraigned before the finance control committee today on trial for embezzling funds allotted him to sponsor the Senior Ball May 13 at the Century Club.

Blige was found last week absconding with the money on an east-bound freight. He was captured by Inspector Pieri and put in the student "hosegown" until trial this morning.

No decision was rendered by the finance group at press time, but indications were that Blige would be sentenced to two weeks of hard labor and fined sixty cents.

In the meantime, Jock members and the two Jock pledges, John Sala and Ray Garamendi, threatened to make projects of the accusers.

Blige still maintains that the whole affair is a lot of slush, and that he was merely making a trip east to get decoration ideas for the Senior Ball. The only idea he had received at the time of his capture, according to Big Jock, was "Green Pastures."

Mining Students To Make Hunt Trip

Eight Seniors to Make Ten-Weeks' Trip Into Nevada Mining Country

Eight senior mining students and one geology major will leave May 17 for a ten weeks' trip into the Nevada mining country.

Known as the Hunt trip, this practical experience course, made possible by the S. Frank Hunt Foundation, is required of all students graduating from the Mackay School of Mines.

Led by Dr. Harry Wheeler, assistant professor of geology in the Mackay school, the party will leave for the Pioche district on Wednesday following graduation.

STUDY FORMATIONS

The group will remain in this district for three weeks studying geological formations, mineral deposits and mining and milling conditions in general.

This is the third consecutive year that the Hunt party has worked in the Pioche district. Last year the students did a great deal of valuable work in discovering an orebody in the Bristol mine.

It has not yet been decided whether the party will go to the Mineral Hills district, lying between White Pine and Eureka counties, or come back to western Nevada upon leaving the Pioche country.

GRUTT TO ACCOMPANY

Eugene Grutt, who graduated from the University of Nevada last May, will accompany the party as assistant geologist. Dr. Vincent P. Gianella will relieve Dr. Wheeler some time in June.

Professor Jay A. Carpenter and Director John A. Fulton of the Mackay school will probably have charge of the trip in its final stages.

Graduating seniors who will make the trip are Martin Hannifan, Conrad Martin, Modesto Leonardi, Ernie Rodriguez and Jack Gardner. John Hoffman and Art Atkins, both low seniors, and Bill Newbold, geology major, will also accompany the party.

BARBS HOLD LAST MEETING OF SEMESTER

At the last meeting of the Organized Independents Monday night, the new president, Walter Wilcox, was duly installed, and took over the meeting.

The new constitution, which provides for the reorganization of the group, was read by Pete Hanford, chairman of the constitutional committee, and discussed by the group.

Complete adoption of the constitution has been deferred until after a trial of the new organization which will take place in the first month of the next semester.

Artemesia will be available at 9:30 Wednesday morning in the A. S. U. N. building.

FRAN BREEN, Business Mgr.

Bids for \$175,000 Engineer Building Will Be Released

General Appearance of New Structure to Be Same as Science Hall

Bids for the new \$175,000 engineering building may be let immediately following the next meeting of the board of regents, it was learned from an authoritative source this week.

The new building will have an overall length of 150 feet, will be 110 feet wide on the wing end and 60 feet wide on the east end.

TO FACE SOUTH

The front of the building with its spacious, four-pillar portico, will face south. The general appearance of the building will be about like that of the Mackay Science Hall. The portico will be nearly identical with the one on the Mackay School of Mines building.

Many windows—thirty-nine in the front of the building, fourteen on each end—assure a maximum of light and fresh air.

TO HAVE LAB

In the basement of the building will be the hydraulics laboratory. This laboratory, required by the E. C. P. D. to put the school of civil engineering on an accredited rating, will be 47 feet long by 57 feet wide, and will be at the west end of the building near the Orr ditch. The room will be two stories high to make room for tanks and other equipment.

Also in the basement will be three material-testing laboratories, a lecture room, a small shop, and one office. Ramps will lead into both ends of the building.

THREE-STORY WING

A recent addition to the general plans will be the 40-foot by 50-foot three-story wing, which will house laboratories and lecture rooms for the mechanical engineering department. This wing will be on the northeast corner of the building.

The first floor will contain four lecture rooms, three offices, one small instrument room and a continuation of the hydraulics laboratory.

DRAFTING ROOMS

Five drafting rooms, one blue-print laboratory and two offices will grace the second floor.

The building will be constructed almost entirely of brick and reinforced concrete.

Banquet Is Given Sager Initiates

New members of Sagers, men's pep and service group, were honored at a dinner Tuesday night at Lincoln hotel in Sparks.

Jack Pieri, president of the organization, acted as toastmaster of the evening, and entertainment was provided by the new initiates in the form of short, informal jokes.

The committee in charge of the banquet consisted of Jim Bett and Cameron Badger.

Those honored at the affair were: Bud Miller, Hugh Gallagher, Robert McDonough, Leland Strauch, Ralph Sullivan, Charles Mapes, Jim Breen, David Hall, Sam Franovich, George Basta, Arthur Kenneburg, Jim Gibbs, Walter Wanke, Ray Swingle, Kenneth Eather, Darrell Birch, Harold Jacobson, Dyer Jensen, James Franovich, Wes Slayger, Gene McNabney, Sam Osgood, Warren Ferguson and Ed Dodson.

Nevada Debaters Feted at Banquet

Eighteen University of Nevada debaters held their last banquet of the school year Wednesday night at the Lincoln hotel in Sparks.

Leo McCuddin, graduating senior from this year's varsity debate squad, acted as the official toastmaster of the evening.

Those attending the affair were Professor Robert S. Griffin, Kathleen Devlin, Eunice Beckley, Betty Mason, Fran Breen, Robert Joy, Jim Driscoll, Bill Casey, Charles Mapes, Jim Breen, Don Downs, Leo McCuddin, Ross Ashley, Jim Barrett, Russell Strom, Bill Lattin, Darrell Birch, Tom Cooke and Andrew Rosaschi.

Commerce Picnic Postponed Until Fall

Postponement of the annual Commerce Club picnic to the beginning of the fall semester was announced this week by Eli Nickovich, chairman of the committee in charge of the arrangements.

It was decided that there were entirely too many other social activities interfering with the proposed picnic, which was scheduled for today at Galena creek.

Nevada Graduate Publishes Article

Coeds Get Positions in State for Next Year By Ed. Department

Written by a University of Nevada graduate, Laurence Larkin Quill, a 150-page article entitled "The Trans-uranium Elements" recently appeared in Chemical Review, nationally-known scientific publication.

The heaviest-known element is uranium, but men of science have long toyed with the idea of building up, from radio-active elements, an element known as the "trans-uranium" element which will exceed the weight of uranium.

In his recent article Dr. Quill has condensed all work done along this line by scientists in all parts of the world. Laurence L. Quill graduated from the University of Nevada in 1924. A year later he took his master's degree in chemistry from this institution. In 1928 Quill was granted his Ph. D. in chemistry by the University of Illinois.

As a national research fellow, Dr. Quill did post-graduate work at the University of Gottingen, in Germany. While there, he studied under a famed mineralogist, Dr. Victor M. Goldschmidt.

Dr. Quill is now an associate professor of chemistry at the University of Ohio. He is in charge of all freshman work in chemistry.

Cadet Battalion Congratulated By Colonel Clark

Congratulating the University of Nevada R. O. T. C. unit for its exemplary work in accepting an entirely new staff of military instructors this year and yet maintaining a very high standing in all phases of military work, Colonel Oral E. Clark, professor of military science tactics, expressed his thanks this week in a published memorandum to all student cadets.

The memorandum states that "the past school year has been an exceptionally difficult one owing to the fact that there has been a complete new detail of military personnel; yet with all, the showing made by the R. O. T. C. unit at inspections, ceremonies, and in class work has steadily improved and brought much favorable comment."

Colonel Clark refers to the commendations from local reserve officers for the unit's showing in the Armistice Day parade of last fall and of Major Earl Driggers of the University of California who, after reviewing the battalion two weeks ago, said: "This is a unit of which the university may justly be proud."

Colonel Clark continued his memorandum saying that "no one professor of military science and tactics or his assistants can bring about this favorable condition alone. It must be done by the cadets themselves. It has taken the hard work of each and every cadet to build up this fine esprit de corps. All inspectors of the local university unit have been highly pleased with the showing of the troops."

The memorandum concludes with Colonel Clark extending his personal thanks to the R. O. T. C. unit and his assistants in the military department.

Golf Team Adds Another Victory

The University of Nevada golf team last Sunday continued to add to its long list of wins, when it easily defeated the Reno Golf Club "shock troops" eight points to four in a match held at the Washoe county golf course. The results were:

H. Taber (R) defeated Bob Cameron (N), 3 and 0; J. Hoffman (N) defeated H. Bailey (R), 2 and 1; J. Rhoades (N) defeated D. Busey (R), 3 and 0; R. Taylor (N) defeated L. Hickman (R), 3 and 0.

Army Examinations Will Be Given Soon

The war department has announced an examination on July 17-21 inclusive for the purpose of qualifying candidates for appointment as first lieutenants in the medical corps of the United States army.

The examination is open to all male American citizens of less than 32 years of age who are graduates of an acceptable medical school and have served one year of internship.

An examination to qualify men for the veterinary corps will also be held from July 4 to July 29. Anyone interested in either examinations should write for additional information to the adjutant general, war department, Washington, D. C., before June 30, 1939.

Nevada Graduates Visit University

Mrs. Helen Fulton Peterson, graduate of the class of 1910 and sister of John Fulton, director of the Mackay School of Mines, visited the university campus this week while attending the Fulton Foundation lectures which were established in 1924 by the Fulton family.

Mrs. Peterson and her husband, Frank LeRoy Peterson, 07, were campus visitors several weeks ago during the Engineers' Day celebration. They have since then been in Los Angeles.

Their trip to the campus is significant inasmuch as they reside in Rosebank, South Africa, where Mr. Peterson is employed as engineer and district sales manager for the Caterpillar Tractor Company.

MILITARY STUDENTS TO ATTEND SUMMER TRAINING JUNE 15

Twelve first-year advanced military men and one second-year cadet officer will convene at Giggling Military Reservation, near Monterey, California, June 15, for special summer instruction in tactical training in regular army maneuvers.

The summer encampment, which lasts until July 27, is a prerequisite for application for a commission in either the regular army or in the reserves, and is attended by R. O. T. C. officers from universities and colleges throughout the Ninth Corps area.

The encampment is being held at Giggling for the first time this year, having formerly been held at the Monterey presidio. Giggling is the site of maneuvers of all army units of the Ninth Corps area.

First-year cadet officers taking the instruction this year are Olinio Barsanti, Edward Beaupre, Guy Brown, Ned Dickson, Robert Grenig, Virgil Hrt, Clarence Heckethorn, Max Johnson, Donald Kinkel, Roy Shipp, Delbert Stewart and Vernon Wines.

Dick Roche, second-year cadet officers, will attend the camp and will receive his commission in the reserve officers of the U. S. army on completion of the instruction.

A PROBLEM Montana State University men are in a quandry. It seems that there is an exceedingly tough date problem facing them. The dates on the Montana campus are hard to get because there are 618 more men than women.

However, a few years ago the situation at Stanford University was a bit tougher. Then there were seven men to every woman. The Stanford faculty, however, has recently fixed it so that the ratio is only three to one on the California campus.

Hanging of Mackay Portrait Delayed

"Chemicals in the Mackay Hall of Science will ruin the portrait of the late Clarence H. Mackay, which was presented to the university by Dr. L. W. Hartman for the Associated Students last Mackay Day, unless it is sheathed with glass," David Goldwater, past A. S. U. N. president, stated as the reason for the delay in hanging the work.

"With the summer cleaning-up of the campus buildings soon to be started, the glass-covered picture will probably not be placed until after school is closed," Goldwater said.

The oil painting, done by Professor Hans Meyer-Kassel, is to be hung in the center of the main hall in the science building facing the entrance. An unique lighting system had been planned to show the picture to a better advantage.

Dr. Hartman said at the Mackay Day luncheon last March:

"The Science hall was the last gift of Mr. Mackay to the University of Nevada, and I think that it is only fitting we should place the painting where it will be seen by all the students of the institution."

RELATIONS MEET PLANNED AT MILLS

Plans for the fifth annual Institute of International Relations to be held at Mills College in Oakland, June 20 to 30, are rapidly nearing completion.

The institute at Mills College is one of the nine held throughout the United States for the purpose of providing interested citizens with accurate knowledge of international affairs and opportunity for intelligent discussion of critical world issues.

University of Nevada students and members of the local International Relations Club have attended the past few institutes at Mills College and Dominican College. As yet, however, no Nevada students have signified their intention to attend the coming institute.

Nevada Graduate's Article Published

Dr. Lloyd P. Smith, class of '25, and Dr. Paul L. Hartman, class of '34, were co-authors of an article appearing in the last issue of the Bulletin of the American Physical Society.

The article was entitled, "Electron Anode of a Mercury Discharge."

Smith, a Phi Kappa Phi member, is a professor of physics at Cornell University. Hartman, son of the acting president, Dr. Leon W. Hartman, is also a Phi Kappa Phi member. He is an instructor in physics at Cornell University.

The U. of N. Sagebrush

Don Kinkel Editor
 Ross Morris Business Manager

THE TRULY GREAT WONDERS

of nature are never quite so apparent as in the spring as can well be proven by the numerous lounging figures of campusites basking in the sun these early mornings.

It is a casual observation of the Sagebrush that the upperclass committees ceased firing a little early. Every morning from the moment of the first class period passersby can discern the small groups of students lounging on the grass down by the lake.

At that, however, we find it rather easy to overlook the fact that a tradition is being broken. It is darn comfortable to say the least to move down to the lake's edge, stretch full length on the green sward and contemplate nature. Perhaps as a project for Blue Key or some other service organization a section of the lake's edge could be reserved for such nature-loving people. Then there would be no tradition-breaking and students still could be comfortable reclining in the spring and fall sunshine.

Many of the students who have not taken advantage of the sunshine and the semester's ending do not realize that Lake Manzanita is a veritable fishpond. Groups of students spend many minutes on the bank of the lake watching for the bass that venture near the shore.

For many years or at least as long as our campus memory serves us, it has been advocated occasionally that the lake should be cleaned up and the stagnant growths removed. Just idly reflecting, the Sagebrush can't imagine what advantage would result from such an action. In fact, it might just be possible that in such case the fine bass sanctuary would disappear and the many moments' occupation of numerous students vanish into thin air.

The Sagebrush is fully aware that the above writings do not have much bearing on the momentous happenings of campus affairs but we hope that our readers will put it down to a form of spring mania and bear with us for another week.

ALTHOUGH IT IS TRUE

that the system of examinations now in force at the University of Nevada is still in the experimental form and that the faculty is making changes every semester to help improve the system, it has come to our ears again this semester that the disadvantage of last semester's examinations is still with us.

Many of the students are complaining that, although the faculty did rearrange the exam hours, still most of their classes come at the beginning of the week within the first two or three days.

We have no suggestion to make as how to reform the situation but we do feel that the faculty should make a thorough examination of such and take steps to remedy it.

SCREAMS from the Dark

Well, we promised it to you and for the first time in almost quite awhile we are able to present to you in original form that mythical document, the constitution of the Royal Pipers of the Flight.

But, for a little background on the subject. As you know, the "Brush" has had scores of stenographers and a flight or so for the past few weeks busily engaged in searching the archives of the Student Union building for scientific data concerning an ancient fraternity which was purported to have suddenly blossomed forth in the reign of William Cashill I to become a great power at Nevada only to lose impetus in a short while and become something of which only the elders speak.

And then, suddenly, the breath-taking moment when one of the weaker sex stumbled upon the phrase in a charred and yellowed document which read as follows: "These public-visioned gentlemen (and ladies) have applied for official recognition as a campus activity." WE KNEW we had something then—and sure enough there followed the following historical document which has been sent to the Smithsonian Institute for expert perusal. It is:

ARTICLE I

Section 1—The name of this organization is the University of Nevada chapter of "Pipers of the Flight."

Section 2—The motto is: "Here's Looking at You."

Section 3—Official song: "The Way You Look Tonight."

ARTICLE II

Section 1—The objects of the Pipers shall be: (a) Observation of the better movements on the campus; (b) research and discussion of same.

Section 2—Official oath: "I—(full name and at least one alias)—do solemnly affirm in the name of Allah, Buddha and Confucius, that I will, to the best of my ability and with the full strength of my ocular powers observe the better movements in our community, striving wholeheartedly to look for the finer things in life. So help me Gawd."

ARTICLE III

Section 1—Faculty membership: The ranking professor in the astronomy department shall be eligible for membership.

Section 2—Qualifications: Only students who show characteristics of high moral standing, interest in college activities, subtleness, split-vision, shall be considered for membership.

Section 3—Members shall be elected after a close scrutiny of their qualifications and by a secret process.

Section 4—Dues: Any member failing to pay his dues within ten (10) days after the prescribed time shall be re-

quired to wear smoked glasses until payment of said sum.

ARTICLE IV

Section 1—Government of the local chapter shall be conducted by an executive committee which will keep its collective eye on everything.

ARTICLE V

Section 1—Meetings shall be held monthly in the clubhouse, which is Piper's Opera House in Virginia City.

Although most of the staff packed up their equipment and left the premises of the Student Union after the great discovery, a small group of experts remained staring in fascination at the above remarkable document.

They finally concluded, and with reason, we think, that there was a remarkable similarity of the ancient order of the Pipers and the present-day campus order of Green Pea. However, since there were several rather indistinct differences, the conclusion was that the Green Pea organization of today is a higher stage of the Pipers which came about by process of evolution through the ages.

Just for the process of comparison the motto of the Green Peas is, "If at first you don't succeed, try, try Green Pastures again."

Reckon we don't understand why the faculty legally decided to start the day off at 8 o'clock in the morning next year. Heck, most of us have been starting our 7:45's at eight, anyhow.

One thing we will miss, though, is that early morning rise when the sun is just peeping over the mts. It's really invigorating during the spring.

Now that spring has finally come, most of the fellas are figuring on clipping a lot of the luscious winter growth off the domes. Of course, those leading exponents of the clippers—Carpenter, Etchemendy, Cardinal and the like—seem to have something there, but, nevertheless, we just can't take our gazes off the long, curly, cute heads of hair such as typified by campusites Rives and Barsanti. Hope Barsanti doesn't get the spring bug, especially,

because it would be a shame to lose a beautiful head of golden hair as such.

Two dead boys in the middle of the night,

Woke one day and decided to fight; Back to back they faced each other, Drew their swords and shot each other. A deaf policeman heard the noise—came 'round and shot the two dead boys— Don't it awful!

We were rummaging around through the records the other day and ran across a two-year-old story concerning one Hossain Afghan. Along with the other changes next year will be the absence of Hossain. For night on to a long time, the first day of spring and the first day of football practice found Hossain stationed in his regular spot by Mackay stadium busily dispensing his wares. Many a coed and feller, distressed by the warmish weather, found an obliging friend in Hossain. But, due to city council restrictions, no longer will the little horse and wagon prove the boon to hungry or thirsty under-graduates. Juss guess we'll havta suff'r.

We're waiting with crossed finger until we can find out what the senior gift will be. Hasn't been a great deal of agitation or curiosity this year. Hope they don't try to present a stuffed wolf to guard the campus or something or other as was planned one year.

Huhm! See where sixty men donned football togs and moved out on Mackay Field for a spring practice or something once upon a time—Aesop's fable.

Dream man o' the year is glad his turn at the highlights is over. He says that there are too many girls coming

around for autographs lately. I hope we got your complaint right, Prexy Dave.

We're certainly longing for some more of those famous Bay trips which set the school on end in years past. Looking into the future, we just can't see any of such looming very soon so, going back to our memoirs, we just dream of the time that the conductor en route dished us out a lecture on berth control at 2 a. m.

Jock Ashley—Hey, where you going? What scratched up your face? Yriberry—I'm looking for the guy that said silence gives consent.

Seems as if we committed a horrible blunder in the printed matter of the Man o' the Week article last week. The person about whom the article was written (we won't tell his name) approached us this a. m. and said that, while the base of the article was true, there was a false statement regarding him personally which threw his character into bad light and made the whole situation rather embarrassing.

Although rather taciturn at first, by tactful questioning we drew the whole

story forth. He admitted that everything nice we said about him was truthful and not at all exaggerated, but he said, as a rosy blush spread throughout his countenance, "I aint gonna graduate."

Well, the time approaches for us to leave you for another week and, as we make our preparations to leave, it is with this thought that we say au revoir:

There's the wonderful love
 Of a beautiful maid,
 And the love of a staunch, true
 man;
 There's the wonderful love
 Of those unafraid,
 Battling life as they can.
 There's the wonderful love
 Of the little one;
 Still greater the love of a
 mother.
 But the greatest love is that
 greater love
 Of the one dead-drunk for an-
 other.

Love and be loved, kiss and be kissed;
 If you don't indulge you'll never be
 missed.

"ON THE AIR"
 also means
 "ON THE WIRE"

Did you know that radio broadcasting stations from coast to coast are linked by more than 53,000 miles of special telephone circuits?

Even before the earliest days of broadcasting, Bell System engineers developed means of transmitting sounds of all kinds by wire. These have been improved constantly to transmit the extremely high and low sound frequencies of music and entertainment.

Just as years of telephone research stand back of today's special broadcasting circuits—so the research of today is helping to solve the communications problems of tomorrow. Another Bell System contribution to your daily life.

How about a telephone call to Dad?

Wolf Cindermen Place Third in Chico Tournament

Mastroianni, Cameron And Sala Turn in First Places for Nevada

Crippled by examinations and military reviews, a small Nevada track team placed third in the three-cornered meet at Chico last Saturday.

Taking six first places, the California Aggies won with 63½ points. Chico was close behind with 61½ and Nevada trailed with 33. Chico and the Aggies were tied 58½-all before the relay.

FIRST IN VAULT

Bob Cameron of Nevada vaulted 12 feet 6 inches to take first place in the pole-vault. He placed second in the 100-yard dash, and third in the 220-yard run. Mastroianni of Nevada took first in his specialty, the two-mile, running the distance in 10:33.

Nevada just didn't have enough manpower to compete with the two larger and more balanced teams. Kenny Day, Nevada conference broad-jump champion, and John Barrett, Nevada's lone miler, had to remain home to take part in the R. O. T. C. activities. Ernie Rodriguez, half-miler, had to stay home to take a civil service examination.

TEAM MEMBERS

Men who made the trip are Cameron, Mastroianni, Bunker, Stewart, Perkins, King, Friedhoff, Sala, Trigerio, Conaway and Coach Coleman.

Results of the meet:

100-yard Dash—Rhoades (A), Cameron (N), Oavis (C). Time 9.9.

440-yard Dash—Wood (A), Whited (C), Pastor (A), Fried (A). Time 51.4.

120-yard High Hurdles—Mahoney (A), King (C), Moore (C), Kilday. Time 15.6.

Two-mile—Mastroianni (N), Taylor (C), Witter (C), McFarland (A). Time 10:33.

880-yard Run—Underhill (A), Kostiz (C), Gray (A), King (C). Time 22.

220-yard Dash—Davis (C), Rhoades (A), Cameron (N), Farquhar (A). Time 24.6.

Relay: Aggies 1, Chico 2, Nevada 3. Time 3:30.8.

Javelin—O. Hoffman (C), Westfall (A), Bunker (N), Farquhar (A). Distance 175.24 feet.

Pole Vault—Cameron (N), three-way tie for second, Nitta (A), Hoffman (C) and Palmiter (C). Height 12 feet 6 inches.

Shotput—Vonasek (C), Stewart (N), Perkins (N), Foskett (A). Distance 44 feet 5 inches.

High Jump—McFarland (A), four-way tie for second, King (C), Friedhoff (N), King (N) and Mahoney (A). Height 5 feet 11 inches.

Discus—Sala (N), Stewart (N), Vonasek (C), Perkins (N). Distance 132.43 feet.

Broad Jump—Hoffman (C), Rhoades (A), Perkins (N), King (N). Distance 20 feet 9½ inches.

LETTERS to the EDITOR . . .

To the Editor:

In your last week's publication some member of your staff, being at particularly low ebb, decided to name me "This Week's Man of Last Week." You will forgive me if I am a little biased and if I try to make a rhetorical stand in the interests of my "worth, integrity and good-fellowship," whatever they are. Like all heroes whose names appear in the Sagebrush, I am a little puzzled and not a little pleased at this climax to my "eventful campus career." To a man who has always minded his own business this tongue-in-cheek distinction has the appearance of having been dragged in by the heels.

You attach my name to crackpot enterprises that I have never been connected with. It appears to be almost chemically-pure Blue Key propaganda. It's like this duck legend they started. A duck, they said, is a bird which has a flat bill and swims. Schoolboys took up the cry and soon full-grown men started to go duck hunting with red caps on. The fact is that ornithologists have been studying birds for a long time and have come to the conclusion that there is no such bird as the duck.

To uphold the literary intelligence of the Sagebrush I will distinguish the genuine Hickey enterprises from all WPA projects and plans originated by the Circle.

1—The Orr ditch should be diverted down University avenue so that students who do not have cars may come to school in canoes.

2—A medal should be struck off for the sheriff who, at the risk of his life, keeps people from parking on the grounds.

3—The cemetery should be removed from its location near Lincoln Hall. The Waldorf should take the cemetery's place. The gymnasium should be moved to where the Waldorf was, and this would go on indefinitely until Blue Key petitioned the legislature for more money and we found somebody who wanted an old cemetery.

4—Mr. Tony Galento should be engaged to check up on this strange, ephemeral "athletic situation." (He could also give lectures on the strange ways of the canvasback.)

5—Cadet officers in the R. O. T. C. unit should be enjoined from playing mumblety-peg with their swords in front of the library.

In conclusion, I wish to point out certain salient facts which your special pleader of a reporter failed to bring out. I am a lover of birds, nature, butterflies, flowers and music. I was not a candidate for the city council of Reno. That is what "topped off my character with hair." What harm can come to you who are associated with such a one?

"FORLORN 'HICKEY.'"

Nine U. N. Women Get School Posts

Nine University of Nevada women who will graduate at the end of this semester with teachers' certificates will teach next year in Nevada schools, according to an announcement made by the education department.

Helen Bigler, normal school graduate, will be employed by the Palisade grammar school, and Verle Harris will be placed in the same capacity at Gerlach. Margaret Pearson will teach in the high school of the same town.

Gertrude Polander, editor of this year's Artemisia and a prominent student in other campus activities, will teach home economics at Eureka high school.

Charlotte Caton, president of Pi Beta Phi sorority and a member of student publications and governing bodies, has received a contract to teach in the Ruth elementary school.

Mary Henley will be employed by the Eureka elementary school and Mildred Woodward will teach home economics at Bunkerville high school.

Lola Yvonne Stoddard, president of the Delta Delta Delta sorority this year, will be placed in the McGill grammar school.

In addition, Ruth Rowe, graduate with the class of 1938, will return to Nevada after teaching this year in a settlement school in Tennessee. She has a contract with the Ruth elementary school.

Tony—How many reporters work here, Don?
Kinkel—Oh, about half!

CHINESE PUPPET SHOWS PRESENTED IN RENO THIS WEEK

The Red Gate players, on their way to the worlds' fair in San Francisco, will present their Chinese puppet plays in Reno today and May 8.

Under the supervision of Miss Pauline Benton, who first saw the plays in China, the show will be given May 5 at the Northside junior high school, and May 8 at Billingshurst junior high school.

For eight years Miss Benton has been traveling throughout the United States presenting puppet plays which once delighted emperors and court ladies of old China.

The historical plays are symbolic of the struggle between good and evil with gods, demons and dragons aiding the human warriors. There are scenes in a Peking street, wedding processions, jugglers, acrobats and lion dancers.

Lines are spoken by the operators, and special strange sound effects are produced by the company's musician. The puppets themselves are made of parchment, and are manipulated by sticks tied to their joint with their shadows being thrown on a screen.

The performance will begin at 8 p. m. for both presentations.

Native—Well, what do you think of our little city?

Visitor—It's the first cemetery I ever saw with lights and paving.

Press Club Ends Year With Banquet

The University of Nevada Press Club concluded one of its most active years in its history last night with a banquet at Carlan's Lakeside Inn.

Honored guests at the banquet were new members, each of whom gave a short talk.

The club this year sponsored its annual high school editors' convention, gave a highly successful dance, and dedicated a plaque to Nevada's first printed newspaper, the Territorial Enterprise, for which it received favorable editorial comment in some of the nation's leading newspapers.

Ginsburg Jewelry to Give Watch to Sophomore

Beginning next January the Ginsburg jewelry company will award a seven-teen-jewel watch each year to the sophomore man judged to have the best three-semester record.

This new award, announced this week by the downtown jewelry company, will be an annual award to some male member of each sophomore class.

The presentation of the award will be made annually at the beginning of the spring semester.

SPORTSLITE

By FRANK McCULLOCH

Maybe the University of Nevada should give a little more attention and support to its so-called minor or even unrecognized sports if the showing made by the varsity tennis team in Davis last weekend means anything. The Wolf netters walloped the Cat Aggie team by as decisive a score as could possibly be run up in winning—6 to 0. Yet look at the record between the two schools in the last few years in the major sports: The Aggies have thoroughly whaled the track and basketball teams this year and last year did the same to the football team.

Then, too, look at skiing. Nevada puts out team in that sport which not only can, but does, beat any collegiate team on the Pacific coast and possibly in the nation. Try to imagine the Wolves snowing California under in football as they did "on the boards" this winter.

Now take the golf team. Two weeks ago they proved that they were definitely superior to some of the best conference had to offer when they defeated the College of Pacific 9½ to 2½.

It's not at all improbable that Nevada could rise to a leading position in the intercollegiate athletic world if its students and administration would give their "minor" sports the backing they deserve.

Speaking of the golf team—look 'em over, campus! Once again they've gone out and "done it." After whipping C. of P. they came home, and on the next weekend repeated over the Reno Golf Club. Now, to top it all off, they're going to Stockton again tomorrow, this time to compete in the first Far Western Conference golf meet which, if they have anything like their share of the breaks, they should win as handily as they have each of their other matches of the year. Jack Rhoades, Bob Taylor and John Hoffman will make up the team as conference rules limit each squad to three men.

Now that the baseball season is practically over, this corner would like to slip in its selection as to an all-fraternity baseball team before the official aggregation is picked by the votes of the competing teams next week.

Here they are, and don't say we didn't warn you:

Catcher—Dunc Dorsey, Sigma Phi Sigma.

Alternate Catcher—Fred McIntyre, Beta Kappa.

Pitcher—John Etchemendy, A. T. O. Alternate Pitcher—Dud Davis, Beta Kappa.

First Base—Bill Shewan, Beta Kappa.

Second Base—Perry Carlson, S. A. E. Shortstop—Bill Peccole, S. A. E.

Third Base—Ralston Hawkins, A.T.O. Left Field—Kirk Herrick, A. T. O.

Center Field—Lefty Mayer, Phi Sigma Kappa.

Right Field—Frank Beloso, Sigma Nu.

And don't let anyone tell you that picking this year's team is any easy job. When such men as John Lemich, Jack McKenzie, Mitch Cobcaga, John Sala, John DuPratt, Neal Campbell, Jim Shepley, Win Babcock, Bill Grubbs, and Ted Olsen are left off the team, it's more a matter of flipping the good old coin to see just who will be first string and who won't.

It's funny what one year can do to a baseball team. Last year the mighty Lambda Chis rode herd over the rest of the league with little or no trouble. In fact they walloped the Beta Kappas

Strong Squad of Nevada Freshmen Take Track Meet

Cubs Score 68½ Points Versus Reno, Sparks And Lassen J. C.

Showing their superior ability, the University of Nevada freshmen last Saturday captured a four-cornered track meet on Mackay Field with a total of 68½ points.

Reno high school was second with 40, while Lassen junior college followed with 27½, and the lone Sparks entry, Floyd Edsall, captured 11 points.

Paul Seaborn of the Frosh was the high scorer of the day with 11½ points to his credit, closely followed by Edsall of Sparks with 11 and Royce Hardy of Reno with 10.

Results of the meet were:

100-yard Dash—Won by Hardy (R); second, William (F); third, McNabney (F); fourth, Stein (F). Time :9.9.

220-yard Dash—Won by Hardy (R); second, McNabney (F); third, Williams (F); fourth, Hamlin (R). Time :23.5.

440-yard Dash—Won by Freeman (L); second, Burrus (R); third, Dooly (L); fourth, Francovich (F). Time :54.4.

Half-mile—Won by Morrill (L); second, Barrett (F); third, Nethercroft (L); fourth, Musson (F). Time 2:12.5.

1 Mile Run—Won by Callahan (F); second, Williams (L); third, Musson (F); fourth, Stewart (L). Time 4:52.

Low Hurdles—Won by Seaborn (F); second, Solari (R); third, Donaldson (L). Time :24.2.

120 High Hurdles—Won by Seaborn (F); second, Carman (L); third, Edsall (S); fourth, Nichols (R). Time :15.4.

Pole Vault—Won by Hart (R). Height 12 feet.

High Jump—Won by Edsall (S); tie for second between Harrigan (F) and Steve (F); tie for fourth between Paille (R) and Dassmann (L). Height 5 feet 5 inches.

Board Jump—Won by Stein (F); second Edsall (S); third, Paille (R); fourth Dooley (L). Distance 21 feet 2 inches.

Shotput—Won by Rosaschi (F); second, Paille (R); third, Vaughn (R); fourth, Guild (FR). Distance 45 feet, 8½ inches.

Discus Throw—Won by Smithwick (F); second, Rosaschi (F); third, Vaughn (R); fourth, Harrigan (F). Distance 128 feet 9 inches.

Javelin Throw—Won by Vaughn (R); second, Schlager (F); third, Boise (L); fourth, Edsall (S). Distance 140 feet 11 inches.

Relay Race—Won by Freshmen (Williams, Smithwick, Seaborn and McNabney). Time 1:35.2.

WEIGHT, A LIABILITY

A novel, yet expensive, form of dance admission charge recently was introduced at Fenn College. Students paid their admission at the rate of one cent for every five pounds.

Gate weigher-inners reported that 5980 pounds attended the dance.

by a score of something like 31-2. Take a look at the standing this year: The Beekays are sitting at the top of the heap without a loss and the Lambda Chis still have their first game to win. Maybe some day it'll be the Sigma Nu's turn.

It's funny what one year can do to a baseball team. Last year the mighty Lambda Chis rode herd over the rest of the league with little or no trouble. In fact they walloped the Beta Kappas

Frosh Trackmen Show Promise for Varsity Material

Nevada Frosh last Saturday piled up 68½ points to sweep the tri-cornered Lassen Jaycee, Reno high school meet. The last meet of the season for the university freshman showed considerable potential varsity material for next year.

Larry Callahan, who a week previous ran a 4 min. 43.2-second mile, was slowed by the heavy wind that swept the field, but won his race again only several seconds slower. Paul Seaborn was a double winner in the hurdles, taking the lows in 24.4 second and the highs in 15.4 seconds.

Bull Harrigan shows promise on the pole-vault, tying for second place at 11 ft. 9 in. and Joe Stien's 21 ft. 2 in. broad jump bested the varsity mark of last week's Chico meet by almost a foot.

McNabney took his usual points in the dashes and shows plenty of promise as well as do Smithwick and Rosaschi who won the discus throw and shotput respectively. Smithwick threw the disc a distance of 128 ft. 9 in., and Rosaschi heaved out the shot 45 ft. 8½ in.

Garamendi Named Inter-Frat Prexy

Ray Garamendi, junior student belonging to the Lambda Chi Alpha fraternity, was elected president of the interfraternity council at a meeting held last Monday. Other officers who were elected with Garamendi include Ralston Hawkins, A. T. O., vice-president, and Jimmie Gibbs, A. T. O., secretary and treasurer.

Frazier West, S. A. E., was appointed by Garamendi to be chairman of the fraternity council annual bean feed held at the Mackay stadium usually during the first two weeks of the fall semester. Others appointed to help West on the bean feed include Ointo Barsanti, Sigma Nu, and Bill Mitchell, Lincoln Hall Association.

Fresno to Present Annual West Coast Relays on May 13

West Coast Universities, Colleges, High Schools To Compete in Meet

The west coast relays, held every year under the auspices of Fresno State College, promise to be exceptional in that the greatest group of college stars on the coast ever assembled will be on hand to compete.

The meet will open May 13 with the distance medley relay, which promises to be one of the greatest track and field thrillers of the Pacific Coast this year.

MANY STARS TO VIE

Among the stars of the meet will be Louis Zamperini of Southern California and Cecil Cole of California. Zamperini is considered by many as the best intercollegiate miler in the business today.

Universities and colleges entered in the intercollegiate class included the University of Southern California, the University of California, Stanford University, the University of California at Los Angeles, Fresno State College, Occidental San Diego State, Chico State, Pomona, California Aggies, San Jose State, George Pepperdine College and San Francisco State.

JUNIOR COLLEGES ENTER

Junior colleges entered include Citrus, Bakersfield, Chifey, Coalinga, Lassen, Compton, Fullerton, Long Beach, Modesto, Pasadena, Porterville, Placer, Reedley, Riverside, Sacramento, San Mateo, Santa Ana, Santa Maria, Santa Rosa, Salinas, Taft, Visalia and Los Angeles.

NEVADA GRADUATE IS CALL-BULLETIN CIRCULATION HEAD

Thor M. Smith, University of Nevada graduate with the class of '27, has been appointed promotion manager of the San Francisco Call-Bulletin, according to a recent announcement.

Smith, who is one of the most successful graduates from the university department of journalism, has worked with some of the outstanding publications in the United States.

He has been on the staff of the Los Angeles Examiner in the promotion department, later was classified display manager of the New York American. Then in 1937 he went to the Chicago Herald and Examiner and later to the Chicago Evening American.

A number of promotion campaigns prepared by him have won national awards, including two by Editor and Publisher, national newspaperman's magazine.

Basta Is Named Cinder Manager

George Basta was elected varsity track manager for the coming year, at a meeting held last night. Basta succeeds Carlyle Pribbernow who held the position this year.

Assisting Basta will be Dave Hall, sophomore manager, and a volunteer freshman staff which will be called for the next season.

Serving on the election committee were Dave Goldwater, Earl Brooks, Kenneth Day, Max Jensen and Carlyle Pribbernow.

And business is so bad—now it's the boss's daughter who hopes she can marry one of the help.

Famous Physicist Ends Lecture Series This Week

Millikin Declares World Can Be Saved From Chaos By Scientific Attitude

In a series of three lectures delivered here this week, Dr. Robert A. Millikin, world-famed physicist, declared that the world can be saved from the impending chaos only by maintaining a "scientific attitude."

Pointing out that the scientific attitude is applicable to human problems whether in natural or social schemes, Dr. Millikin's observations ranged from a discussion of the patronage system in the United States to a prophecy of what the next hundred years will bring to the world of science.

STRESSES SOCIETY

Dr. Millikin spent very little time discussing problems of purely technical nature. By far the greatest part of his lectures was devoted to the effect of scientific developments and attitudes on society in general.

Dr. Millikin believes that the greatest improvements in the next century will be made in the biological sciences. He is of the opinion that many of our developments, such as mechanical power plants and communications, have about reached their peaks.

NATIONS CIVILIZED

He pointed out that nations are civilized in the proportion that they use labor-saving devices—then went on to say that he discounted the idea that we could revolutionize the sources of power, such as tapping the atom, utilizing the power of the sun, etc., within the next hundred years.

Dr. Millikin concluded his lectures by stating that all prophecies that he had made for developments in the social and scientific fields were made on the assumption that civilization will not be destroyed by wars.

Three Home Ec Students Elected To Honor Society

Mildred Woodward, Manzanita Hall, Betty Kornmayer and Loreta Collins, Tri Deltas, were elected to membership in Sigma Sigma Sigma, national honorary home economics society, it was announced this week.

The honor is the highest that a home economics student can attain and, in order to belong to the organization, a coed must be a home economics major, must have attained exceptional grades in all home economics courses and must have been active in the field.

Initiation for the new members of the society was held last week, followed by a banquet at Margo's, Miss Sarah Lewis, head of the department of home economics, said.

University Illnesses Show Slight Increase For Second Semester of School Year

Illnesses on the University of Nevada campus have been slightly more prevalent the second semester than during the first part of the school year, according to a summary of the year's hospital cases issued by Mrs. Ethel Shurtleff, matron of the university hospital this week.

During the second semester, the number of members eligible for hospital services was larger than the previous session by a count of 563 to 520, and consequently the total number of consultations was larger, 1627 to 1110. The individual consultations were about even, ranging from 492 for the second semester and 446 for the first part of the school year.

The hospital patients for the first semester were 38, spending a total of 113 days in the infirmary, while the patients of the second semester, totaling 46, spent only 76 days on the sick list.

Major operations were at a minimum both semesters—eight for the first semester and six for the second part of the school year. However, 100 minor operations were performed during the first semester against 81 the second semester.

The emergency treatments were nearly equal with 110 cases the first part of the year to 94 the second half. The number of prescriptions and miscellaneous items the second half exceeded the previous semester by 1012 to 1000.

Colds and influenza took the biggest toll for the whole year, catching a total of 752. The second semester's winter months took their toll by getting 401 of the 752 cases reported. Next on the list was infections, the second semester again leading by 163 to 126.

Nervous disturbances were at a higher level the first semester, with 81 cases against 16 for the second half of the school year. Following is the rest of the hospital list, the first semester as compared with the last semester: Tonsillitis, 81 cases to 17; digestive upsets, 18 to 21; heart trouble, 3 to 6; mumps, 11 to 14; measles, 4 to 37; scarlet fever, 0 to 1; chicken pox, 2 to 3, and miscellaneous diseases, 21 to 47.

"The second semester has been slightly more active than the first," Mrs. Shurtleff stated, "because of the epidemics of measles, mumps and influenza. However, this year as a whole, has been just about the same as previous years."

For \$4 a semester a registering student is entitled to hospital services and may have free consultations if wanted from the college doctor every day, anything pertaining to a diagnosis and any X-ray services.

BETA SIG HOLDS ANNUAL BANQUET LAST MONDAY

Beta Sigma Omicron held its annual "thank you" dinner at the Lincoln hotel in Sparks, Monday night.

President Edith Salvi presented gifts to Mr. and Mrs. H. Cooper, Mrs. J. P. Cerrita, Mrs. H. Grimmer, Mrs. Alice B. Marsh and George Cooper, outgoing president. Thomas Kitchen was also an honored guest.

This traditional "thank you" dinner is given by the sorority in honor of those who have been helpful to the group during the school year.

Pre-Med Picnic Held at Thomas Creek

The members of Alpha Epsilon Delta, national honorary pre-medical society, held their annual picnic at Thomas Creek on Sunday.

Special guests were the freshman pre-med and pre-nursing students, Dr. and Mrs. Edward Lowrance chaperoned.

Civil Engineers Elect Officers

The election of officers for the coming year was held at the last official meeting of the university civil engineers last Friday.

Named president of the engineering group was Fred Maynard, Melvin Woodgate and Harold Johnson were elected vice-president and secretary-treasurer respectively.

Outgoing officers of the organization are Walter Lobenstein, president; Joe Littlefield, vice-president, and George Wade, secretary-treasurer.

The engineers have planned no more meetings for this semester.

AD LIBS

Milwaukee State Teachers' College is organizing a reducing class for the benefit of coeds who are 20 per cent or more overweight.

In the olden days, if a man missed the stagecoach, he would wait contentedly three or four days for the next one. Now, in these modern times of speed, a man usually squawks if he misses one section of a revolving door.

High heels, according to Christopher Morley, were invented by a woman who had been kissed on the forehead.

Since 1930, 64 per cent of the Rhodes scholars have entered careers in public life.

Maynard Elected C. E. President

Fred Maynard, junior engineering student, was elected president of the civil engineers for the coming year at a final meeting of the group Tuesday night.

Melvin Woodgate was chosen as vice-president, while Harold Johnston is the new secretary-treasurer of the organization.

Maynard replaces Walter Lobenstein, who has successfully held the post for the past year. Other outgoing officers include Joe Littlefield, vice-president, and George Wade, secretary-treasurer.

Women's Honorary Society to Hold Initiation Sunday

Initiation will be held on Sunday at 5:30 for the six new members of Cap and Scroll, women's honorary service group, in Dr. Church's room at the university. Dr. Church is the advisor for the group.

Immediately following the initiation ceremonies, the new members will be honored with a banquet at the Club Fortune.

The guests of honor will be Evelyn Bulmer, Shirley Fuetsch, Sybil Furchner, Patricia Meaker, Betty Parish and Nellie Roseberry. The alumni of Cap and Scroll are invited to attend the banquet.

After the banquet a meeting will be held at which time election of officers for the new year will be held.
