

# CHARLES MAPES NAMED ASUN PRESIDENT

## Busy Schedule For Senior Week Promised In Tentative Program

### Teas, Pilgrimage And Banquet Will Highlight Events

#### Peraldo And Committee Outline Gala Fetes For Graduates

Arrangements by graduating seniors for the annual senior week celebration which begins the last part of next week, are near completion, according to Louis Peraldo, class manager.

The tentative program as outlined by the committee in charge consists with a tea to be given by members of the Associated Women Students in the home economics rooms Friday, May 2.

On the following Monday, members of the faculty will meet the senior softball team on Mackay field at 5 o'clock in the afternoon.

#### Hartman Entertain

President Leon W. Hartman will entertain the graduates at a tea to be given at his home Tuesday afternoon from 4 to 6 o'clock.

A picnic will be held at Lawton's Wednesday afternoon starting at 2 o'clock, according to present plans. The picnic is open to seniors only and entertainment will be furnished.

Thursday evening at 6:30 members of the class will meet at the Tavern for the annual banquet. Guests at the banquet will include President and Mrs. Hartman, Dean and Mrs. R. C. Thompson, Dean Margaret E. Mack, and the newly elected student president.

Pilgrimage Friday

A pilgrimage will feature the program for Friday when the graduates will visit each of the buildings on the campus. Speakers on the trek, which starts at 10:30 a. m., will be Ray Garamendi, student union building; Kathryn Devlin, Hazeman Memorial; Mary Kornmayer, bulletin board; Georgia Ereno, Morrill hall; Frank McCulloch, Mackay Science; Cyril Ham, engineering bench; Bill Mitchell, new engineering building; Harvey Johnson, Mackay statue; Marjory Gusewelle, senior bench; Bill Casey, library; Helen Cameron, agriculture building; James Tranter, education building; John Sala, gymnasium; Hank Clayton, Mackay field; Marjory Gusewelle, senior gift.

Gamma Phi Beta sorority will give a tea in the afternoon at the chapter house.

Included on the program for Saturday will be the presentation of the new engineering building by Governor E. P. Carville. Before the presentation, dedication ceremonies will be held in the gymnasium. The address will be given by Prof. Raymond Davis of the University of California.

Senior Ball Set

A Phi Kappa Phi banquet honoring newly elected members will be held at Bits of Sweden Saturday night following which the senior ball will be held. Scheduled to deliver the main address at baccalaureate services in the gymnasium, May 11, is Rev. Augustine Jones, son of Dr. Stephen A. Jones, who was second president of the University.

Judge Frank Norcross will give the main address at graduation Monday evening at 10:30.

Members of the senior week committee: Kay Devlin, chairman program committee; Ralston Hawkins, senior gift; Margaret Hermansen, announcements; Byron Hardie, pilgrimage; Henry Clayton, picnic; Marjory Gusewelle, publicity.

### Wolves Meet Chico, Cal Ags Tomorrow

Coach Jim Bailey and 14 tracksters will leave tomorrow morning for Chico, where they will compete in a three-cornered meet with the Wildcats and the Cal Ags Mustangs.

Both these teams have defeated Nevada this season and the Wolves are not figured to win the meet, although they may sneak through to a good showing if the other squads cut into each others scores enough.

McNabney and Seaborn, double winners last week, are expected to carry the brunt of Nevada's efforts. The Wolves are still seeking their first win in two years.

Others who will make the trip are Trigerro, DuPratt, Williams, Barrett, Kent, Mastroianni, Perkins, Sala, Polish, Rosaschi, Sorenson, and Friel.

### Student Conscriptees Advised To Get Summer Jobs; Boards To Consider Deferment Requests

"I recommend that all university students who are registered for selective service go on as though there were not going to be any induction of college men," said Earl Wooster, chairman of local draft board No. 2, this week.

"Students should plan their future education without worrying about possible induction," he continued, "and in the same manner they should not let thoughts of a year's training interfere with obtaining summer employment."

To Meet Next Week

The local draft boards are going to meet next week to consider the questionnaires that were given to university men to enable them to provide selective service officials with information in addition to that in the regular questionnaire blanks.

This information will enable the officials to give each registrant more consideration when he comes up for reclassification after the blanket deferment of college students is ended.

In addition to student-supplied information on the questionnaires, professors were contacted for recommendations if the student conferred with the advisor for his college. Dean R. C. Thompson served as advisor for arts and science students and Prof. Warren O. Wagner of the engineering department advised engineering students.

#### Engineers Interested

Dean Thompson reported that not more than half of the registered arts and science men reported to him last week when the conferences were held. Prof. Wagner reported that engineering students seemed to be more interested in chances for possible deferment if figures mean anything. About 90 per cent of the engineers reported to him in connection with the effort of the selective service officials to learn more about the students so that they can make deferments on "individual merit."

About 65 University of Nevada students have been classified as 1D men this year, draft officials of the two boards said this week. The 1D classification stands until May 15 at which time they will be re-classified.

#### Doctors Scarce

Difficulties in obtaining services of physicians for giving physical examinations to selectees is giving the draft boards some trouble at the present time, according to Wooster.

It had been the intention of the boards to have physical examinations given this month to all college students who have received questionnaires, but difficulty in getting the men examined has so far halted this project.

It was this trouble that kept Jerry Berry from entering the service immediately. Instead of immediate induction he will have to wait until the quota is sent out.

Induction faces Charles Butterworth, English instructor, as he has received his questionnaire and has undergone his physical examination. He is not certain whether he will return for school next fall, or will be induced before then.

### ROTC Unit Given Federal Inspection

ROTC cadets underwent federal inspection this week as the war department made its annual checkup on the proficiency of its various military units.

The inspection was made by Lieut. Col. Oscar J. Nuendorf, professor of military science and tactics at Reno high school.

Three days were taken by the inspecting officer. Classes were inspected Wednesday and Thursday, and this afternoon a formal review and inspection was held on Mackay field.

#### HARRY BONY CALLED FOR MILITARY DUTY

Harry Bony, junior student, has received word that he must leave late next week for advanced military training at Ft. Monroe, Va.

Bony is a sergeant in the Nevada national guard. In order that he might leave for his assignment, President Leon W. Hartman has granted him permission to take his final examinations early, with the remark that such a reason will be only valid one for excusing finals.

### Semester Finals To Begin May 5

Final examinations for juniors and underclassmen will begin Monday, May 5, and will continue through Friday morning. Friday afternoon and Saturday are reserved for conflicts.

All conditions from last semester not made up by this time will be recorded as failures, Mrs. Jeanette Rhodes, registrar, advised. Students have but one semester to make up a grade, she added.

The examination schedule follows.

- Monday, May 5—8:00 a. m.—8:00 MWF classes. 10:30 a. m.—4:00 MWF classes. 2:00 p. m.—8:00 TT classes.
- Tuesday, May 6—8:00 a. m.—9:00 MWF classes. 10:30 a. m.—3:00 TT classes. 2:00 p. m.—9:00 TT classes.
- Wednesday, May 7—8:00 a. m.—10:00 MWF classes. 10:30 a. m.—2:00 TT classes. 2:00 p. m.—10:00 TT classes.
- Thursday, May 8—8:00 a. m.—11:00 MWF classes. 10:30 a. m.—2:00 MWF classes. 2:00 p. m.—11:00 TT classes.
- Friday, May 9—8:00 a. m.—1:00 MWF classes. 10:30 a. m.—1:00 TT classes.

### Graduation Plans Completed Today

A three-day program to celebrate the 50th anniversary of the graduation of the first class to receive the bachelor's degree from the University was released today by the committee in charge.

Activities will start May 10 at 10:30 a. m. with the governor's review of the University of Nevada ROTC battalion.

Prof. Raymond E. Davis, University of California, will give the dedicatory address for the new engineering building in the gymnasium at 2 that afternoon. President Leon W. Hartman will preside at this meeting.

#### To Dedicate Building

After the dedication, Governor Carville will present the new building to the university on behalf of the people of the state. Silas E. Ross, chairman of the board of regents, will accept the building on behalf of the university.

Alumni will gather on the university baseball field at 3:30 for a barbecue.

The Rev. Augustine Jones, son of Dr. Stephen A. Jones, who was second president of the university, will address guests of the Phi Kappa Phi dinner Saturday evening at Bits of Sweden.

Sunday day of the program will feature the baccalaureate services at 2:30 p. m. in the gymnasium. Mr. Jones will preach the sermon. Services will be presided over by President Hartman.

#### To Hold Reception

A reception for alumni, former students, the graduating class, and friends of the university will be held after baccalaureate from 4 to 6 p. m. at the president's home.

Judge Frank H. Norcross, only living member of the first class, will deliver the address at commencement which is scheduled for May 12 at 10:30 a. m.

Announcement of prizes and gifts will be made at this time. Dr. Hartman will again preside.

All Nevada alumni have been sent programs of the celebration.

### Students Take Part In Spring Concert

Many university of Nevada students and faculty members joined with Reno musicians in presenting the annual spring concert Wednesday evening at the Civic auditorium.

A capacity crowd filled the auditorium, showing great appreciation for the music. Prof. Theodore Post directed the entire presentation.

The concert is an annual affair, sponsored by the Reno Chamber of Commerce. The University-Community orchestra, Reno Civic chorus and the University Singers combined in presenting the festival.

#### BLUE KEY HEAD

PAUL SEABORN

### Seaborn Elected Head Of Blue Key

Paul Seaborn, junior, was elected president of the Blue Key fraternity at a dinner meeting held at Hotel Golden last night. Named to assist Seaborn as officers for the coming year were Warren Ferguson, vice-president; George Basta, secretary-treasurer, and Clifton Young, corresponding secretary.

Bob Hawley was named chairman of a committee to make preparations for the semi-annual Blue Key get-together which will be held during the first week of school next fall. John Gabrielli was also named on the dance committee.

Seaborn, president of the Sigma Nu fraternity, succeeds Bill Casey as president of the organization. Outstanding project of the group this year was the successful inauguration of the campus parking plan.

### Five Period Plan To Be Used For Final Assembly

The last ASUN meeting of the school year, and the first to be held under the new 40-minute period system, will be held Tuesday in the Education auditorium.

Main business of the assembly will be the induction into office of Charles Mapes, new student body president, by the incumbent, Ray Garamendi. New managers of the senior, junior, and sophomore classes will also be sworn in by the present holders of each respective office.

For the entertainment part of the program, the students of the short productions class will present a play one-act play, and the University Singers will sing a medley.

The assembly will begin with the end of the third period, at 10:15, and end at 11:10, when the fourth period will begin.

The new five period morning program will be into effect at the beginning of the fall semester on any day on which an assembly is scheduled.

### Nevada Is Visited By Many Boards

The University of Nevada has become national defense conscious during this semester. Two army flying cadet examining boards, one marine corps examining board, and this week an examining board from the navy have visited the campus.

The naval examining board, headed by Lieutenant McPherson, arrived Thursday for a two-day stay. The board is conducting physical examination for appointment as flying cadets in the navy.

In order to be eligible for appointment, the candidate must be between 20 and 27 years of age and in good physical condition.

On acceptance, the flying cadet is sent to a flying school on the Pacific coast and later to the naval aviation base at Pensacola, Florida. Upon completion of the course, the cadet is commissioned an ensign in the naval reserve.

#### NOTICE

Because of conflicts with the Senior examination schedule, the Sagebrush will not be issued on Friday, May 2, but will be published Tuesday, May 6.

### Tau's Retain Lead In Wild Baseball Race

#### Beekays Upset Dope In Victory Over League Leaders

BY HARRY BELL

Alpha Tau Omega virtually clinched a first place in the baseball race last night by virtue of a wild-haired victory over the Sigma Nu nine.

Earlier in the week, the Tau's were upset by the unpredictable Beta Kappa team, throwing the league into a two-way tie for first. The race is one of the best in years, and it is given added interest due to the fact that the Kinnear trophy still hangs in the balance, with Lambda Chi and Alpha Tau Omega both having a good chance to take the coveted cup home.

#### "Shag" Hurls 6-Hitter

Last evening, the ATO's pounded out a sloppy 16-9 win over the Sigma Nu's. The game was marred by the many walks, and errors on the part of fielders. Both teams played alternatively good and bad ball, with the last two innings of play as long and wild as any seen this season.

Bob "Shag" O'Shaughnessy hurled six-hit ball for the winning Tau's, three of the hits being of the scratch variety. He sent 13 batters back to the dugout by strikeouts. McCulloch and Benedetti pitched for Sigma Nu, with the latter allowing nine runs to score in the inning and a half he was in the game.

John Lemich featured the hitting with two towering home runs, both with one man on base.

The upset win of the season was staged as Beta Kappa came from behind in a seventh inning batting spree to nose out the league-leading ATO's 8-6 on Wednesday. The game was close all the way.

The Tau's took a short lead, gave way to a four run spurge in the fourth inning on Mortenson's triple with the bases loaded, and went back into the lead with four runs on three hits and an infield bobble in the sixth. But the Beekays took the game home in the seventh as "Bounding Lou" Barkley tripled over the fence and came home on Harold Keen's long home run.

#### LCA Trounces Phi Sig's

Tuesday evening, the up-and-coming Lambda Chi's pounded out an 18 to 5 decision over the disorganized and crippled Phi Sig's. Lyle Roush, pitcher and leading hitter of the Lambda Chi's, was the star of the game.

Roush, besides doing the route, striking out 12 opposing batsmen, and allowing only five singles, personally accounted for 11 runs. His three doubles and one homer drove in eight tallies, more than enough to score the victory. Sala and Pierce also hit for the circuit for the Lambda Chi's, with Pierce driving in four scores.

#### Sigma Nu Downs SPS

The feature game of the week was played Monday as Sigma Nu scored a 10-7 win over the Sigma Phi Sigma team. The game was a free-hitting one with a good infield play adding to the excitement.

Helphinstiel led the swat parade with three singles, while Kinneberg, chucker for the Virginia Street boys, homered with two mates on base. Brad Johns and John Hattala at second base and shortstop for the Sigma Phi's cut down many infield hits.

Friday, hapless Lincoln hall and threatening Sigma Alpha Epsilon staged a brawl. Both teams were minus the services of several players, and the pickups played ragged ball. The Violet won the game 10-8 although Knevrolet kept the Hall in the game with good pitching and a home run.

### Graduate Manager Still In Hospital

Graduate Manager Joe T. McDonnell is still in Washoe General hospital, where his condition is unchanged, according to Louis Peraldo, who is taking McDonnell's place during the graduate manager's illness.

McDonnell has been hospitalized for ever a week, suffering from a severe respiratory tract involvement. According to Peraldo, there is little prospect of his being released before the middle of next week.

#### Underclass Picnic

The combined membership of the freshman and sophomore classes will gather at Lawton's Springs Sunday, April 27, Carl Digno and Gene Mastroianni, heads of the freshman and sophomore class respectively, announced this week.

Jack Streeter has been placed in charge of arrangements for the affair.

#### YOUR NEW BOSS

CHARLES MAPES

### ASUN Heads Will Attend Conclave

Ray Garamendi, ASUN president, and Charles Mapes, ASUN president-elect will attend the convention of Pacific Student Presidents, May 1-4, at Catalina Island. They plan to leave April 29.

Ray Garamendi and Charles Mapes are to meet the student body presidents of the University of California, University of Washington, and San Francisco State at San Francisco in order that they may make the remainder of the trip together.

Garamendi is scheduled to lead a discussion group of representatives from small colleges of under 2000 students at the convention. The subject of the discussion is to be "Student, Faculty, Alumni, and Administration Relations."

Purpose of the convention is to allow the presidents of Pacific coast colleges and Hawaii to exchange ideas pertaining to student government.

Business meetings and formal discussions are to be dispensed with during the first two days of the convention in order that the remaining time may be utilized for recreational activities.

### Juniors To Conduct Campus Poll For Senior Ball Tunes

What is your favorite song? The senior ball committee, headed by Kenneth Eather, is launching a drive next week not only to learn the song the students want to hear, but to make every man and woman "Senior Ball" conscious.

The annual affair at which juniors play hosts to the seniors will be held in the state building May 10.

Ballots will be sent the beginning of next week to every organization on the hill requesting that they be filled out as to the individual's song choice.

Winners in the campus hit parade contest will be announced in next week's Sagebrush. Eather said.

The students' choice will be sung by Andrea Anderson at the ball, changed this year to "A Night in Hawaii."

The island theme will be carried out in colors, decorations and entertainment. Harry Upson's 9-piece band will furnish the music, Hawaiian and American.

Those assisting Eather include Jim Kehoe, Mary Jane McSorley, Bill Wylie, George Ross, Tom Cooke, Ralph Sullivan, Pat Mann, Andrea Anderson, and Robert McDonough.

#### AYE THERE, LADDIE! 'TIS A PRETTY BONNET YOU'VE GOT

Sergt. Michael J. McCormick has a new hat. Whether it was Easter or a change in army regulation has become a debatable subject around military headquarters.

The cap is the newest type offered by the quartermaster in San Francisco. It is of the overseas type and is piped with green cord.

Wonderment has been voiced by students as to the reason for the green piping. Some expressed the opinion that McCormick is a veteran of Roger's Rangers; others say the green is part of the army's current camouflage program.

Military authorities said, however, that the green stands for detached service, just as blue stands for infantry and red for the field artillery.

### Amendments Pass As Student Body Casts Heavy Vote

#### Gabrielli, Shaw Elected To Manage Junior, Sophomore Classes

By a majority of 77 votes, Charles Mapes, junior SAE nominee, defeated James DuPratt for the ASUN presidency today.

Mapes, who will succeed Ray Garamendi, received 427 votes to Du Pratt's 350.

The election, one of the most keenly contested in recent years, was also the largest, with 792 ballots being cast.

Two ballots were declared void. Thirteen students voted on the constitutional amendments but did not cast ballots for the ASUN president.

John Gabrielli, ATO, was elected junior class manager by a margin of 108 to 97 over George Moore, Beta Kappa.

Bill Shaw, Lambda Chi Alpha, defeated John Hawkins, ATO, for the sophomore class managership. Shaw received 135 ballots, Hawkins, 102.

All seven of the proposed constitutional amendments passed. On amendment one, 602 voted yes, 108 no; amendment two, 599 yes, 71 no; amendment three, 638 yes, 62 no; amendment four, 536 yes, 115 no; amendment five, 508 yes, 149 no; amendment six, 603 yes, 90 no; amendment seven, 610 yes, 97 no.

All new officers will be sworn into office Tuesday at 10:15 a. m.

George Escobar headed the election board, which did not finish compiling the results of the heavy vote until 6:30 tonight.

### Hansen Is Elected Aggie President

Lee Hansen, sophomore student from Yerington, was elected president of the university Aggie club at a meeting Tuesday night.

Leslie Stewart was elected vice-president; Leonard Anker, secretary-treasurer; and Arthur Palmer, historian.

The Aggie club picnic will be held at Bowers' Mansion at 1:30 Sunday.

### New CE Building Dedication Is Set For Commencement

With nearly two and one-half months to go before completion, the new engineering building is scheduled for dedication May 10, President Leon W. Hartman announced this week.

Dedication services will probably be held in the gymnasium, with Prof. R. E. Davis of the University of California at Berkeley, giving the address.

After the program is over, those attending will march to the building where Gov. E. P. Carville, on behalf of the people of Nevada will present the building to Silas E. Ross, chairman of the board of regents on behalf of the university.

Construction of the building is two weeks head of schedule at this time and there is a possibility of an even greater gain with favorable weather.

Nearly two weeks of the one-month lead on the building schedule were lost in waiting for the steel work trusses, according to A. Carlson, construction superintendent. The trusses have now arrived and the installation started this week.

Brick work on the building is rapidly approaching completion as is installation of the tile for the room partitions.

### Aggie Club Seeks Jobs For Students

Government and state agencies are being contacted by the executive committee of the Aggie Club in an effort to locate as many summer jobs as possible for agricultural students, officials of the organization said this week.

The response from at least one of the offices, the cricket control, has been encouraging.

The idea behind the embryo employment agency is to give students field experience in the work they plan to enter upon leaving college. Various bureaus hiring aggie students on a permanent basis have complained from time to time of the inefficiencies in hiring well-educated but inexperienced men.

In charge of the summer work plan are John Bazzini, John Gliomi, and Burley Dooley.

### Reno, Eureka Win Forensic Crowns

Announcement of Reno and Eureka as winners in the class A and B debate competition, respectively, climaxed the annual state forensic meet held at the university last week.

Fourteen schools from Nevada and the neighboring Sierras, with 15 students entered, competed in debate, oratory, extempore speeches, dramatic interpretations, Shakespearean scenes, and one-act plays.

Ed Reed and Tom Buckman composed the debate squad from Reno high school. They competed in class A against Sparks, Las Vegas, Fallon, and Winnemucca. Guild Gray, University of Nevada graduate of 1936, coached the team.

Eureka was victorious in competition with nine teams entered in class B. Squad members were Willis De Paol and, Ester Borgna. Emile Gezelin, 1937, is the Eureka coach. Both Gezelin and Gray while at Nevada were squad members of the university debate team under Prof. Robert Griffin.

Teams entered in Class B include Lassen County, Panaca, Eureka, Carson City, Boulder City, Tonopah, Yerington, Lovelock, and Hawthorne.

No awards were made in the other divisions, although ratings were given by the adjudicator, Dr. Ray K. Immel, director of speech at the University of Southern California.

### Sagers Initiate 25 Into Membership

Twenty-five new members were initiated into Sagers at their last meeting of the year held in the Lincoln hotel in Sparks Wednesday night.

New Sagers are Don Hellwinkle, Jack Scott, Addison Milliard, Don Good, Munsey Kollhoss, Tel Ward, Bryant Cleary, Myneer Walker, Dan Potter, Walt Riggle, Harry Cornwall, Art Larrance, Michael Zoradi, Gerald Johnson, Bill King, Bruce Bowen, Bud Tholl, Elwyn Freemonth, Dick Joplin, Franklin Stewart, John Knemeyer, Don O'Hagan, Dean Berry, Weley Morrithon, Bob Crowell, and Brad Johns.

The Sager constitution will be rewritten and presented to the group for their approval at the first meeting next year, Burton Barrett, president, said.

### Batchelder Elected Phi Sig President

Fred Batchelder, junior student from Yerington, will preside over the Phi Sigma Kappa fraternity as the result of an election held Monday night. Batchelder, who succeeds Elliot Lima, was president of the chapter during the fall semester of 1940.

Noel Willis, a freshman, also from Yerington, was named vice president, while Charles Brock, Berkeley, Cal., junior, was renamed to the secretaryship.

Joseph Giomi retains his position of treasurer and house manager, while Henry Jones, a Reno junior, is the new sentinel. Austin Imus will fill the instructor's chair for the semester.

### Pilot Commissions Open To ROTC Men

An opportunity for ROTC graduates to obtain commissions in the air corps reserve was announced by the war department last week.

Those interested have been asked to apply to the university military department.

About 1,000 reserve second lieutenants who will receive their commissions in June will be transferred to the air corps.

The following information is taken from a war department bulletin: "Those students who are completing their ROTC training in June, 1941, and whose commissions have been or may be issued in some other section may, upon acceptance, immediately apply for transfer to the air corps reserve. Upon recommendations of the chief of air corps, they may be transferred to that section without a certificate of capacity."

The air corps is especially interested in graduates who have been trained in some technical field. Many officers are needed for supply and procurement.

Special consideration is being given to officers trained in aeronautical and mechanical engineering and business administration.

### Attorney Donates Books To Nevada

A collection of over 70 books was given to the university library Monday by Felice Cohn, Reno woman attorney.

Outstanding item of the collection is a set of 50 paper-bound folios of the individual works of Shakespeare, published by Virtue and Yorston.

Two other sets, of six volumes each, are included in the gift. They are a three-quarter leather bound set of the works of Macaulay, and a cloth bound set of works of Macaulay, and a cloth bound set of Schiller's works.

Miss Cohn informed Joy that she has stipulated in her will that her entire law library be given to the university in hope that a law school may be developed in the near future.

### University Presented Shakespeare Edition

An attractive ten-volume edition of the complete works of William Shakespeare has been presented to the university library by Mrs. Walter N. Davis of Reno, according to Thea Thompson, librarian.

The set, known as the 1880 "Stratford on Avon" edition, is bound in three-quarter blue leather, with mottled green end and insets. There are 186 full-page illustrations in the set.

The collection is edited by the Rev. Alexander Dyce and was printed by Swan Sonnenschein & Co. of Paternoster Square, London.

### Dancers To Perform At 20th Century Club

Featuring a complete program of this year's dances, the University Dancers will entertain university students and Reno residents at a silver dessert hour Monday evening at 8 at the Twentieth Century club.

After the program, an informal reception will be held. Funds received will help finance the club's annual tour around Nevada, which will begin May 13.

### Senior Examinations To Begin Monday

With senior final examinations scheduled to begin April 28, candidates for degrees will write "finis" to their academic education next week.

No set schedule will be followed, with hours being arranged by each instructor. Senior examinations will end Saturday, May 3, at noon.

Grades will be on file in the registrar's office by May 5.

Seniors not likely to graduate because of failure will be warned early, Mrs. Jeanette Rhodes, registrar, stated.

### INTERNATIONAL SITUATION

"The step taken by President Roosevelt in declaring Greenland to be under U. S. protection is not a sudden one, but rather a natural outgrowth of our recent relations with that country," said Dr. J. E. Church, emeritus professor of classics, in an interview on Greenland this week.

Dr. Church, famed for his snow surveying work and now meteorologist at the Hatch Experiment Station, spoke from a wealth of experience in Greenland. He has visited the big, barren island twice on expeditions.

"The people of Greenland have long liked Americans," he declared. "Much of their export trade has been with this country, and the importance of the United States as a market for their products has been heightened since the war in Europe, and especially the German domination of Denmark has almost entirely cut them off from Europe. Recently Red Cross supply ships, bearing gifts bought by subscription of Danes in this country and other interested persons, have further cemented the friendship the Eskimos hold for the United States."

"The Eskimos were happy under Danish government, but, in view of the liquidation of Denmark, are probably happy over the act placing them under our protection."

Asked about the commerce of Greenland, Dr. Church replied that "of course the move on the part of the American government was strategic rather than commercial."

"Cryolite, a mineral used in the processing of aluminum and steel, is the only major export of Greenland, although furs and fish are important products. Greenland is the only place in the world where any appreciable amount of cryolite is produced, and most of it has been exported to this country for

some time."

Dr. Church expressed the hope that no interference with the local government in Greenland would be made. "The people there live a far different and much simpler life than ours. The government pays them a fixed price for their furs and fish, sells them for what they can get in the world markets, and then turns the funds into the national treasury, after which it is used for the people's needs. This means that there is no wish on anyone's part to better himself at the expense of his neighbor, and allows them to live in peace and harmony, a distinct departure from our commercialized civilization."

In reply to a question as to the possibility of establishing air bases in Greenland, Dr. Church said that he believed that amphibian airplanes would be the only practical type to be stationed there.

"The terrain is so rough that the construction of landing fields will be extremely difficult, but many lakes near the coast line would make excellent landing places," he said. "Of course, the long and severe winters would be another detriment to air traffic, and any aircraft stationed there would probably have to land on skis during a part of the year, whether on land or on the ice covering of water bodies."

Speaking of the strategical value of the acquisition of Greenland, he said that it would mean that the U. S. can now safely convoy ships on their way to Britain as far as Greenland. He expressed himself as being strongly in favor of convoying these ships, and said that if necessary, they should be convoyed to the shores of England.

"There is no point in sending aid to Britain, if precaution is not taken that that aid reaches its destination," he said.

### Nevada Tennis Squad Thumps Chico Team

Nevada's varsity tennis players won every match as they scored a clean sweep of the Wolves, who showed the local courts last weekend.

The match was the first in three weeks for the Wolves, who showed good form in losing but two sets in the six matches.

The results:

**SINGLES**  
Mills (N), d. Morehead (C) 4-6, 6-3, 6-3.

Roush (N), d. Pillsburg (C) 6-1, 6-3.  
McCabe (N), d. Schleuter (C) 6-3, 6-0.

**DOUBLES**  
Mills and Roush (N), d. Morehead and Pillsburg (C) 7-5, 8-6.

McCabe and Joplin (N), d. Schleuter and Davis (C) 6-1, 6-1.

### Higginbotham Gives Talks In Lovelock

Prof. A. L. Higginbotham, journalism head, traveled to Lovelock Monday where he made two addresses.

The first talk was given before the Lions Club on the "Service of a Newspaper to Its Community."

The history of the University of Nevada was outlined by Prof. Higginbotham to an assembly of Pershing county high school students in the second speech. The topic was chosen in view of the coming celebration honoring the first to receive bachelors' degrees at Nevada.

### New Chem Society Will Meet Tonight

The first meeting of the newly-chartered University of Nevada student affiliate branch of the American Chemical Society will be held tonight at the home of Dr. George Sears, head of the chemistry department.

The new organization is for students majoring in chemistry. There are 16 charter members. Dr. Sears pointed out that students belonging to the club will meet for social as well as for professional reasons.

Charter members of the new association include Kenneth Edson, Charles McCabe, Harold Kling, Robert Smith, Virginia Spencer, John Yapuncich, Dorothy James, William Bennet, Emma Mae Shum, Alfred Mills, Eleanor Hecker, Raymond Lambert, Harriet Williams, Helen Gung, Robert Wolfe, and William Latimer.

**Sears To Speak**  
Dr. George W. Sears was the featured speaker at the final meeting this semester of the Nevada chapter, American Association of University Professors, held last night at Bits of Swene. "University Standards" was the subject of Dr. Sears' talk. A group discussion was held after his speech. Professors' wives were guests at the dinner meeting.

**Miners Honored**  
The annual Crucible Club dinner, honoring graduating mining students, was held last night at the Lincoln hotel in Sparks.  
Each of the graduates spoke briefly. They are George Dawson, Bob Fulton, Byron Hardie, Harvey Johnson, John Kinneberg, Mark Nesbitt, William Newman, Harry Plath, Ted Rischard, Dean White, and Charles Yetter.

### Nevada Graduate Is Given Honor

Thor Smith, Nevada '27 and now promotion manager of the San Francisco Call-Bulletin, was among a select handful of the nation's newspaper promotion experts honored recently when his paper was given a first place ribbon in a contest sponsored by "Editor and Publisher," weekly magazine devoted to the fourth estate.

The San Francisco paper was judged winner of the "most valuable direct mail campaign" in the advertising field in the nationwide contest, results of which were based upon performances in 1940.

Smith is the son of Alfred Merritt

Smith, 229 Maple street, Nevada graduate of 1900. A graduate of the university's course in journalism, Smith's career followed in the footsteps of his undergraduate activities, which included editorship of the Artemisia, campus year-book, and participation in publishing of the Desert Wolf and Sagebrush, college publications.

The Call-Bulletin was the only winner selected in the western section of this country. The New York Times, awarded three firsts and three second place nominations, gained top honors in the contest.

Four Formals Bring Spring Social Whirl To Full Swing

Spring formals continue as the social highlights of this week, with three scheduled for the weekend.

Members of Manzanita Association will entertain their guests at Bits of Sweden this evening. The theme "Wishing Well" will be carried out in the decorations.

Ella Corbett, Eileen Buck and Edna Pflum are in charge of the dance. Chaperones will be Dean Margaret E. Mack, Matron Clarabess Garrison, Ruth Russell, and Mrs. Alice Marsh.

Beta Kappa will hold its spring formal tomorrow night at the Riverside. Chaperones are Prof. and Mrs. Vincent Gianella and Prof. and Mrs. William Davidson. Sam Osgood is in charge of the arrangements.

Mike Misculin, Clark Guild, Addison Millard and Jack Scott are planning the Alpha Tau Omega formal to be held this evening at the Riverside hotel.

Guests include John Knemeyer, LHA; Jim Gibbs, Sigma Phi Sigma; Larry Callahan, Lambda Chi Alpha; Elliot Lima, Phi Sigma Kappa; Dave Melarkey, SAE; Bob Hawley, Sigma Nu; Warren Ferguson, Beta Kappa.

Mark Nesbitt's orchestra will furnish the music. Chaperones will be Pres. and Mrs. Leon W. Hartman, Dean and Mrs. Reuben C. Thompson, and Dean Margaret E. Mack.

Phi Sigs and their guests will attend the Phi Sigma Kappa formal tomorrow evening at Lawton's. Mark Nesbitt's orchestra will furnish music for the affair.

Guests include Joe McDonald, SAE; Jack Streeter, Sigma Nu; Grant Sawyer, ATO; Larry Callahan, Lambda Chi Alpha; Leland Whipple, Sigma Phi Sigma; John Knemeyer, LHA; Ed Dodson, Beta Kappa.

Austin Imus is committee chairman and will be assisted by Joe Giomai and Henry Jones.

Chaperones will be Joseph Lommori and guest, Prof. and Mrs. Paul Harwood.

Senior members of Manzanita Hall Association will be honored at a breakfast at the Riverside hotel Sunday morning at 9 o'clock.

Seniors of the association who will attend are Grace Amonette, Mary Ellen Bennetts, Edna Pflum, Marie Borrsini, and Alice Wade.

Six senior women who are not members of the association but are residents of the dormitories have been invited as special guests. They are Betty Baird, Ruth Pray, Kathryn Lowney, Evelyn Berry, Elsa Jensen, and Delphine Golicheva.

Dean Margaret E. Mack, Matron Clarabess Garrison, Matron Kathryn Rawles, and Ruth Russell have also been invited.

ON THE HILL IT'S HELLO.

University Files To Be Protected

As a result of a process known as photomicrography, all vital student records on file in the registrar's office since the university's inception are now preserved from all natural agents of destruction.

The recording, being done by Charles T. Godwin of Sacramento, is performed by a machine which photographs the records on 35-millimeter film. The machine makes 6,400 exposures per 400-foot reel, or 16 exposures to the foot. About 8,000 frames are exposed in each day's work. When the university contract is completed, about 16,400 frames will have been taken.

The films are developed by Godwin and deposited with the registrar. A small darkroom has been installed adjacent to the registrar's office, where enlarged reproductions of any record can be printed on regular photographic paper, whenever needed by any student. The reproductions are in the same color relationship as the original, and not reversed, as in photostatic copies, Godwin stated.

The new system will aid the registrar's office greatly by obviating the necessity of handwritten or typewritten copies, which require much more time and labor than the new method. Godwin travels throughout the states in the course of his work, but will return to the university annually to keep the records up to date.

Press Club Sets Date For Picnic

Scheduling a picnic for May 9 at Lawton Hot Springs, the University Press Club held its last business meeting of the semester Tuesday afternoon.

Plans to dedicate a plaque to a pioneer Nevada journalist were abandoned because of lack of time before the close of the semester, Sam Francovich, president, said.

A committee appointed to arrange the picnic consists of Dean Quillie, chairman, Jack Streeter, Warren Salmon and Charlotte Mason.

Juniors Cut Capers At Annual Cut Day

Cutting en masse was the order for the day as the junior class observed the annual Junior Cut Day Wednesday at Lawton's.

Over 100 juniors and "friends" attended the picnic and barbeque, which lasted from ten o'clock in the morning until late afternoon. Barbequed meat, prepared under the direction of Bob Johns, who was in charge of the affair, was served as a picnic lunch. During the remainder of the day "downright laziness" was enjoyed by those who attended.

A short program of impromptu entertainment was presented by Leland Whipple, Sigma Phi Sigma, and Ed Dodson, Beta Kappa. The two entertained with impersonations of campus and national characters.

Saval Named To Head Manzanita Association

Dolores Saval, junior, was elected president of Manzanita Hall Association at a recent meeting of the group.

Other new officers include Eileen Sayre, vice-president; Eileen Buck, senator; Frances Natusch, secretary; Ethel Crouch, treasurer.

Awards Announced Tuesday At WAA Annual Banquet

Presentation of awards, installation of officers and initiation of new members were highlights of the annual WAA banquet held at the Baptist church Tuesday night.

Proficiencies and varsities in WAA activities were announced during the dinner. Barbara Mann, Betty Preece, Wilma Smith and Dorothy Barrett were awarded proficiencies in WAA dancing. University Dancers given varsities are Viola Sorensen, Mary Katherine Carroll, Florence Alexander, Myrtle Elges and June Conser.

Varsities in WAA riding went to Pat Henry, Mildred Riggle and Betty Mason, manager. Riding proficiencies were awarded Lauris Gulling and Elaine Hagar.

The blanket awards announced at the Mackay Day luncheon were made to Mary Kornmayer, Eleanor Goldsworthy and Lola Fraser.

Board Announced

During the evening, announcement of the WAA board was made and the executive board installed. Officers installed are Harriet Morrison, president; Mary Katherine Carroll, vice-president; Frances Hawkins, treasurer, and Jean Clawson, secretary.

Girls inducted into WAA were Dorothy Barrett, Ellen Batjer, Frances Bauman, Helen Cashbaugh, Evelyn Boyer June Conser, Shirley Dimeck, Annette Donati, Doris Evans, Prudence Gould, Rosalie Hauck, Loreen Hammock, Margaret Luhrs, Wilma Smith, Betty Preece, Gloria Rowley, Rubymae Swalley, Alice Kohloss, Helen Parks, Norene Springer, Jane Reading, Viola Sorensen, Winifred Trude and Frances Yee.

Graduating seniors who have been prominent in women's athletics were presented corsages. Delta Delta Delta won the prize for the best sorority representation at the dinner.

University Singers To Give Concert

The University Singers will present a child welfare concert next Thursday night at the Twentieth Century club.

Sponsored by the Century Club, Reno Business Women, and the American Legion Auxiliary, this annual May Day child welfare program for the state of Nevada will be free to the public.

Under the direction of Prof. Theodore H. Post, the University Singers will present ten numbers.

ON THE HILL IT'S HELLO.

CONNIE COED

For those sorority and fraternity formals, now here—yours for a dramatic entrance in a long sleeved formal of white rayon crepe! A monogram embroidered directly in front, just below a round neck adds a dash of chic. As long as we are viewing a tailored style, there is a long swooping stripe from the neckline to the edge of the wrist length sleeves to add glamour.

Connie believes some of Nevada's exotic coeds would look swell in a "Totem Pole" formal. Don't be alarmed, the name comes from the design of the bodice which supplies every color to the flowing white rayon jersey skirt. The bodice is simply styled with tucks and gathers and it sports the newest sleeve style.

If his "certain request number" is not the exotic type, see if he wouldn't enjoy escorting you in fluffy ruffles. You'll change his impression in a hurry!

All around the embroidered square yoke are ruffles—scads of them. The waist is form fitting, but suddenly the creation flares to great widths. It is obtainable in either black or navy silk and rayon marquisette with the yolk in flesh color.

With a formal to match your mood, your heart-throb just can't help but say "he is honored with your presence."

CONNIE.

Phi Sigma Kappa Holds Initiation Rites For Five

Five men were initiated into the Phi Sigma Kappa fraternity at formal rites held in the chapter house Sunday. A banquet honoring the new men was held at the Lincoln hotel, Sparks, following the induction, said Fred Batchelder, chapter president.

The men initiated include Charles Burke, John Gamble, Edward Grundel, George Hahn and Evo Giorgi.

Activity Board Named By WAA

Announcement of the new WAA board was made at the annual WAA banquet held this week, at the Baptist church, Tuesday night.

Activity managers who serve on the board also have complete charge of their sport, its practice periods, tournaments and publicity. They meet with the executive board once a month to determine policies and discuss problems.

Managerships announced are archery, Margaret Reading, assisted by Helen Parks; badminton, Viola Sorensen and assistant, Evelyn Boyer; bowling, Clara-beth Haley; volleyball, Goldie Howard.

Florence Alexander will serve as manager of co-educational badminton; play day manager is Lois Rabe; swimming, Helma Hill; Jean Clawson, tennis, and Barbara Grimmer is the new basketball manager.

Notification Of Change In Address Requested

Anyone having a change in home address this semester should notify the registrar as soon as possible, Mrs. Jeanette Rhodes, registrar, announced this week. It is necessary that this be done if the students are to receive their grades, she added.

Nevada Transfer & Warehouse Co. PHONE 4191

Five Elected To Coed Honorary

Five new members have been elected to Cap and Scroll, national women's scholastic society, but their names will not be revealed until Wednesday, Eleanor Goldsworthy, president of the group announced this week.

Formal initiation ceremonies will be held April 30, and will be followed by a banquet. Mary Ellen Bennetts and Grace Ammonette are co-chairman for the affair. All alumnae members are being invited to attend.

Friday May 2, has been set aside by President Leon Hartman as Cap and Scroll day. Plans for that occasion will be made at the next club meeting, Miss Goldsworthy said.

Harriet—You had no business to kiss me.

Harry—It wasn't business, it was a pleasure.

MRS. RHODES WARNS DELINQUENT STUDENTS

Not-so-bad "E's" will automatically become gosh-awful "F's" if not made up this semester, Mrs. Jeanette Rhodes, registrar, announced this week.

An "F" means a semester's work, or at least attendance, gone to naught, but a "D" rates at least one grade point, aspiring graduates should realize.

There are numerous conditions on the records now, and students who have put off doing something about them should attend to it as soon as possible, Miss Rhodes said.

PROSPECTING WITH SMOKY EVANS

It was a grim but fascinating hour. We followed the searchlight of a trained, experienced mind as it probed through the 1941 blackout of civilization. We could verify here the sharp blitz of reality shatter this spring-time of 1941. Suddenly the shaft of light shifted, we saw England fighting on in the smoking ruins, while Jugoslavia slid slowly down beside the still forms of France and Holland and Norway. Why did one stand—and others fall? Air power! Today, the decisive field of combat is in the clouds. Only thirty of us heard Congressman Scragham Tuesday evening in Mackay Science hall. Surely never before was the swish of the black wings of High Destiny so audible on this quiet Hill. No trace of partisanship or deference to anything but the truth, in the words of this former dean of engineering, Nevada editor, and governor. True to his engineering training, Mr. Scragham pyramided with crystal logic these facts: 1. Such institutions as Nevada are to cultivate reasoning, that we may understand things as they really are, and use such understanding for the good of community and nation. 2. The basic law of things as they are, is the survival of the fittest and strongest. If a nation wills to live, only incessant battle and determination will let it live. 3. The entire world is in a period of death struggles and rebirths of nations—the most brutal conflict in all history. This brutality was recently symbolized in England, when in one week 250 soldiers died on the battle field, but 10,000 women, men and children died by bombs dropped from the air. 4. In such a brutal age America must acquire the strength to resist any possible combination of foes, even those from within! 5. The world to come will in no way resemble the world we have known. Private industrial control is dying in England and America as surely as the feudal system of the Middle Ages died. Our system of money, the tremendous increase of taxes, the warding off of inflation, all these and more economic changes to come still should not destroy the hard-won liberties that are the essence of American life. We who are coming up will receive these problems; how we solve them will determine in what form America survives. To survive, America must chart a course, and then work unitedly and without selfish interest, to see it through. Here Congressman Scragham went into a few vital details: a. Our aeronautic bureau chiefs are still blind to the ten-fold necessity of a separate air force, rather than one divided between army and navy. Today, nations stand or fall more by air power than anything else! b. The dead hands of entrenched bureaucracy stifle the advanced aircraft designers and air strategists. For instance, we are still building our hangars and repair shops in open country, rather than in just-as-handy hills, which offer superior camouflage and protection. c. Much of the money spent now for defense goes to building the machines and structures of defense so they may be adapted to the purposes of rebuilding the normal way of American life. Tonight, many hours after this talk, we cannot brief it or put its essence in a few short words. The scope is that of the seven seas the issue is the life of civilization. We can only try to see things as they are—finding truth in

FOOTLIGHTS

That long-awaited day of reckoning is growing near, and it won't be long now till we know whether we graduate or not. However, aside from the exam jitters and all, this has been an eventful year, dramatically speaking. We all remember "The Wolves Frolic" well attended and, believe it or not, showing a profit. Then you recall George Kelly's "The Show-Off" with thespians Grant Sawyer, Shirley Huber, Bill Curtis, Nonie Goldwater, Bee Thompson, and others. And we mustn't neglect to mention the Radio Club which began last semester but somehow got lost in the rush this semester. The attempt was there, and here's hoping some guy who wants 'headaches galore and worry a-plenty will take up the broken wires and bring the thing over the air once again. And you surely remember the new experiment tried in the presentation of "Family Portrait." The play was well received, and the chance for some worthy actors to show their talent was given. Janette Winn, playing Mary, the mother of Jesus, and Jack Freeman, playing Judas, the betrayer, gave superb performances. We see plenty of top-billings to come from these two. Grant Sawyer, familiar to all, had his final college dramatic triumph in "The Return of the Vagabond." His graduation will be a real loss to the campus productions, for his ability and mastery of dramatics is the gift of a few... The final production of the semester was "Pygmalion and Galatea." We saw some dramatic blunders, but then we also saw some fine acting on the part of Bob Bruce and Patsy Prescott. The bright moments were frequent and the play quite well-done. Well, that's just about "30" for the year... and leaves you with such such hideous realities as a row of homes and all within them suddenly atomized in one brief blast of light and heat. This is part of the Reality of 1941, the bloodiest year of 8,000 years of written record of man on earth. If the American way looks good to you, consider your place in it and prepare for your work in keeping it good. No other generation since 1776 faces the problems we face. This war is not England against Germany—this war is civilized man again the cruelist creatures of all — greedy men who want ALL riches and power for themselves.

« For Engine Ears »

Electricals: Nominations of officers for the coming year were made by the electrical engineering students at a meeting held Tuesday at 7:30 p. m. in room 101 in the electrical engineering building. Nominated for organization offices were John Knemeyer and Fred Heinen, president; Harry Stavert, Bill Gustin and Lyman Earl, vice-president, and John Damm, Edwin Monsanto and Irel Carter, secretary-treasurer. It is expected that a speaker will be presented before the group at the Tuesday meeting and refreshments will be served. Civils: M. J. Brickley, professor of modern history at the Sacramento junior college, was guest speaker at the annual banquet of the university civil engineers which was held last night at the Hotel Golden dining room. The subject of Brinkley's speech was "The Battle of Britain." Guests at the banquet included the chairman of the junior section of the American Society of Civil Engineers and several members of the Sacramento section of the ASCE. Associated: The annual banquet of the associated thespians as Bill Cochran, Bob Johns, Jeanette Winn, Shirley Huber, Patsy Prescott, Bob Bruce, Jack Freeman, Bill Curtis, Ridgely Pierson, Bee Thompson, Jack Diehl, Mannie Chappelle, and numerous others to carry on in the light of the foots and bring you better and finer campus productions in years to come. Thanks for listenin'.

engineers will be held Friday, May 2, at the Colombo dining room beginning at 9 p. m., Cyril Ham, president of the associated, announced this week. Installation of the recently elected officers of the group will be held at the banquet. New officers who will take part in the ceremonies include Jim Bett, president, Gene Mastrianni, vice-president, and Lyman Earl, secretary-treasurer. Graduating engineering students will be honored guests at the affair. Other members of the associated will make reservations for the banquet by contacting Dallas Downs, Lee Lawhead, Byron Hardie or Bill Mitchell. Reservations will not be accepted after noon next Thursday. Chaperones for the affair will be Mr. and Mrs. Warren O. Wagner and Mr. and Mrs. William Davidson. Mechanicals: Joe Gross, Chet Salsbury, and Art Weller were installed as president, vice-

YOU DID IT

You elected a new student body president today. You elected him on the basis of his ability and experience and because you thought he was the best man of the two. You elected him of your own free will, under no compulsion from anyone to vote for either. You elected him to a term of office which might well witness the great "turning point" of this university. You elected him to a year of thankless tasks, responsibility, and worry. You elected him. Now support him.

TRAIL'S END

It's been about eight months and or 33 issues since we first took over this job of giving you what you didn't want in the Sagebrush; and now, as we near the end of the trail, we'd like to fire our final shot and clear a few things up. First, our thanks, simple and sincere, for bearing with us throughout the year. This is, after all, your paper; and you have the perfect right when you don't like it—and a lot of you haven't—to see to it that some change is made. Whether you forebore this year because of a consideration for our feelings or were just too darn lazy to do anything about it, we're grateful for your indulgence. We think we've learned and gained a lot in the year of experience you granted us. Second, some of you have no doubt become a little irred during the course of the year at our habitual practice of bouncing in and out of trouble with downtown merchants, the state legislature, and various and sundry other individuals. In most cases, we were partly in the wrong and partly in the right, but sincere always and completely. If we've hurt anybody, we're sorry, for it was neither our purpose nor our wish to do so.

Third, we didn't fulfill even a fair proportion of the promises we made to you in the last issue of last year's Sagebrush, following our election to the editorship of the paper but before we had actually taken over the reins. Somehow, somewhere along the way we either changed our mind about a number of things or lost sight of them entirely. Our successors, we believe, however, will be able not only to make better promises but also keep more of them. That might serve as some reparation for our failure.

Fourth, we've been proud to serve you, and despite the fights and sleepless nights and criticisms and disappointments, nothing would make us happier than the privilege to do it again. Since that would be neither fair nor in accordance with your wishes, we'll step down now and let the next poor sucker put his pants in our wobble-legged office chair and his feet on our cluttered desk.

May he curse, berate, and enjoy them as much as we have.

MAN O' THE WEEK

Fashion note: Eagles, gold braid and insignias will be all the rage this season, for the women of the nation have gone absolutely mad over the military effect. C'mon, gals, enlist at the nearest shoppe! With fashion parades looking like military reviews, it is only fitting that we salute an officer. Who is more logical than Captain Ralston Hawkins, ("Judge," to you civilians), who is quite devastating in his medal-burdened uniform. These medals came to Hawkins early in his military life. He was but a sophomore when one was bestowed upon him for his enviable attendance record. Exhausting drill was this man's meat and learning the manual of arms was more fun than fixing in mind the tricks of tapping a beer keg. It was only natural that he should receive such an honor. This gift to the army halls from

Winnemucca where he gained recognition early in childhood with his tactics during snowball warfare. He is another of the Activity Men. Blue Key, Coffin and Keys, Scabbard and Blade and ATO prey are only a few of the activities on his achievement record. Yet many girls still call him A Bashful. Hawkins is the transportation agent of the elite Flunky committee, a decidedly non-honorary society. His conscientious work on a multitude of clean-up committees gained him this office. His friends send up the cry, "A 'orse for 'awkins." Perhaps, should it come, Hawkins could master the cavalry. Too many women these days have have the reputation of picking their friends—picking them to pieces. "I've just taken a shine to your wife," said the stork to the Negro when leaving the house.—Lampoon.

We Feel Bad about Violets

POETS always call the violet the shrinking violet. We feel bad about anything that shrinks—but chiefly shirts.

So we've spent our life making the shirt that doesn't shrink, the ARROW shirt. It's Sanforized Shrunk, which means fabric shrinkage less than 1%. Its Mitoga figure fit is superb and its collar is the world's finest. College men everywhere prefer Arrows. Try an Arrow Gordon today.

**Wolf Prints**  
BY GEORGE ROSS

Playing the part of the second-guesser is our idea of poor ethics, journalistic or otherwise. The following beef, then, is to be taken for what it's worth, and with no dafamation of the persons involved. Judging of several of the championship bouts in last night's Golden Gloves slugfest was questionable, but the awarding of trophies was especially haphazard.

George Rainone, however game and willing he appeared in his one round stay with a bigger, tougher, more experienced man, was not the best entry from the campus in our opinion. It's a matter of arithmetic. Marion Motley, who lasted three cantos with the champ, Ebarb, clearly took the nod in the first round, although badly cut-up and dazed at the final gong. The same Ebarb tied up Rainone with his rushing style and won by a knockout before the round was over. Only because he was chosen to fight the first night, then, did Motley wind up the tourney with nothing but cuts and bruises, while Rainone had some salve in the trophy, cup and trunks given to the runner-up.

It's all over now, of course, but a more sensible match would have pitted Motley and Rainone in the elimination tourney, with the winner meeting Ebarb, titleholder in several important amateur battles.

Inter-fraternity baseball was tied in several knots this week as the league-leading Taus got dropped by the unpredictable Beekays. Although they came back last night to thump the Sigma Nu nine, 16-9, to go into first place again, the Taus broke the hearts of the Lambda Chis, who must get a fourth place, at least, to take the Kin-near trophy.

The decision will rest heavily upon winners of the Tau-SAE, the Lambda Chi-SAE, and the Sigma Phi Sigma-Beta Kappa fracas.

The all-fraternity baseball team will be chosen, as usual, by canvassing team members, who will name their all-opponent selections for next week's "Brush. A little before the gun, however, this corner offers its own all-star squad for an hors-d'oeuvre to next week's beef dinner.

We put Bob O'Shaughnessy, Tau, pitcher, despite the big bat of Roush. Sigma Nu's Broberg has to be put in at catcher, though his hitting is weaker than Lemich's. At first, hustling Charlie Brock, Phi Sig, outfielded the other candidates, and gathered a few bingles. Sigma Phi's Brad Johns is the second baseman, with no argument allowed. Phil Seewald, playing on a winning club, gets the nod over Barkley and Hattala. Hawkins is on our starting line-up at third, picked over the Beekay's Keen.

Hold on to your tempers for the outfield. We can't ignore Roush, who unfortunately was forced to pitch when he could have grabbed an infield job, so he goes to left field. Tom Kot, Sigma Phi, is a standout at center, and Lemich goes to right because of his power at the plate.

What color is a Burp. Answer; Purple. U. N. tolerates no knockers.

**Rainone Makes AAU Final; Motley, Wisniewski Beaten**

Although tagged in the closing minutes of the first round of the Reno Golden Gloves tourney held last night, rugged George Rainone carried off the laurels of the university entries by winning runner-up honors in the senior heavyweight class. The Nevada gridder was defeated by John Ebarb, entry of the Richmond, Cal., Red Robin A. C.

Marion Motley and Al Wisniewski, grid stars entered in the senior heavyweight and light-heavy classifications, respectively, also fared badly in Wednesday night battles in the A. A. U.-sponsored event. Motley dropped a decision to Ebarb, former Cleveland and Memphis Golden Glove champion, who added the Reno title in defeating Rainone. Wisniewski, pitted against Jess Slocum, colored entry of the Richmond club, went to the second stanza before being stopped by the deadly-punching of his more experienced opponent.

Rainone, weathering the dazzling speed of the heavier champion in the opening minutes, came back with rights and lefts to the face to check the hard-punching Ebarb. The two swung leather toe-to-toe in the center of the ring, falling into jarring in-fighting. Rainone slipped to the canvas, but refused to take a count, and bounced back up to spar and clinch with his opponent.

Backed into his own corner, the Nevada footballer took several jarring blows to the head, and dropped to the canvas dazed and tired. Although he managed to get up on one knee, he was unable to continue the battle.

A capacity crowd, estimated at 3,000, saw the stocky Sacramento junior college transfer win a trophy as the best university entry, a cup for runner-up honors in his division, and a pair of red-white-and-blue trunks, given for reaching the finals.

**Frosh Given Edge Over Prep Stars**

Nevada's small but strong freshman track squad will meet Reno and Sparks high school team in a three-corner meet at Mackay stadium tomorrow afternoon.

Winner over Placer junior college by a score of 64 to 58, the Cub's are expected to win the meet with the prep stars.

Forson, in the dashes and weights, is the outstanding performer of the yearlings and should cop three or four first places.

Edsall and Stice are sure bets in the hurdles, while Waldman in the 440, Crowell in the distance races, and Gould in the weights are expected to garner their share of the points.

The frosh will conclude the season by entertaining Lassen junior college here, May 3.

**Jim Coleman Elected P. E. Division Head**

Prof. J. W. Coleman was elected president of the American Association of Health, Physical Education and Recreation, southwest division, at the group's annual meeting in Reno last weekend.

Coleman also served as general chairman of the convention. He was assisted by several other university faculty members, including Dr. H. N. Brown, program Dr. Peter Frandsen, program; Prof. J. E. Martie, hospitality; Prof. C. M. Scranston, athletics; Prof. Ella Sameth, arrangement; Audrey Stewart, publicity; Ruth Russell, banquet; and Prof. W. C. Higgins, registration.

**Freshmen Defeat Placer Cindermen In Close Meet**

Led by Fred Forson's 100-yard dash in 9.9 seconds, Nevada freshmen downed Placer Junior college in a close dual meet at Auburn last Friday. The score was 64 to 58.

Forson took 22 points to lead individual scoring, and his first place in the javelin throw, the last field event of the meet, cinched the meet for the freshmen. His throw was 154 feet, nine inches.

Other good marks were turned in by Waldman of Nevada with a 54.5 quarter mile, Gould of Nevada with a 39 foot, nine inch shot put, McGee of Placer with a 12 foot, two inch pole vault and Fowler of Placer with 22.3 in the 220.

Mile—Won by Crowell (N), time 5:03.3; second, Elkus (P); third, Gent (N).

100—Won by Forson (N), time :9.9; second, Fowler (P); third, Quillel (N).

220—Won by Fowler (P), time :22.3; second, Forson (N); third, Morrison (N).

Shot—Won by Gould (N), distance 39 feet, nine inches; second, Vanderbilt (P); third, Lenedon (P).

High Hurdles—Won by Edsall (N), time :16; second, Hakola (P); third, Melarkey (N).

440—Won by Waldman (N), time :54.5; second, Perry (P); third, Yparaguire (N).

Pole Vault—Won by McGee (P), height 12 feet, 2 inches; second, Kne-meyer (N); third, Melarkey (N).

880—Won by Baxter (P), time 2:04.7; second, Campbell (P); third, Crowell (N).

Discus—Won by Forson (N), distance 114 feet, five inches; second, Gould (N); third, Vanderbilt (P).

High Jump—Tie for first, Forson (N) and Melarkey (N); height 5 feet, 6 inches.

Broad Jump—Won by Fowler (P), distance 20 feet, four inches; second, Hakola (P); third, Morrison (N).

Javelin—Won by Forson (N), distance 154 feet, nine inches; second, Julliel (P); third, Vanderbilt (P).

Low Hurdles—Won by Edsall (N), time :17.8; second, Hakola (P); third, Hart (P).

**Wildcats Take Close Win From Pack In Last Home Track Meet Of Season**

Leading all the way, Chico's Wildcats finished strong in the last two events to defeat Nevada 70 1-10 to 59 9-10 at Mackay stadium last Saturday.

Jim McNabney and Paul Seaborn kept Nevada within striking distance most of the way as they won two events and placed in others.

McNabney won both dashes, placed third in the low hurdles and tied with four others for first in the high jump, while Seaborn came through with a double win in the hurdles and another tie in the high jump.

The outstanding race of the day was in the 440, when Trigerco nosed out Whited of Chico after trailing most of the way.

Chico was strongest in the distances, sweeping the 880 and placing first and second in the mile and two mile.

John Sala placed third in his specialty, the discus, and Perkins won the shot put event.

John Polish, recovering from a broken ankle, placed second in the discus and javelin and third in the shot for additional Nevada points.

A bit of humor entered the meet when Alf Sorenson entered the two-mile under the impression that it was the 880. After setting the pace for first lap at a furious gait, he was informed that there were seven more to go and so gave up the race.

Many a young lady with shapely pins has stuck a guy for something.

**Aiken Is Pleased With Trip Result**

Jim Aiken, Nevada football coach and athletic director, returned this week from a tour of the state which he made last week in company with President Leon W. Hartman.

The trio offered Coach Aiken an opportunity to speak to promising Nevada high school athletes, with a view of pointing out to them the advantages of receiving their higher education at Nevada. He announced that of the boys he talked to, "about 14," intend to matriculate at Nevada.

Included in the list of prospective University of Nevada students and athletes were Rose and Lemich of Ely, both members of Ely's state basketball championship team; Bunker and Olinghouse of Alamo; Cleo Whitney of Overton; Larsen, Adams, and Tobler of Bunkerville; Charles Hale, Las Vegas (N).

**Golfers Face Busy Weekend On Greens**

University of Nevada golfers will play host to golf teams from California Aggies and Sacramento J. C., meeting the Davis team today and the storn Sacramento club tomorrow.

The Nevada golfers chalked up a win and a loss during the past week on the Reno course. Friday the well-balanced Spartan team from San Jose State College downed the Wolf Linkmen 18½ to 8½. Saturday the Nevadans came back to take a one-sided victory from Chico State 13½ to 1½.

Bob Taylor and Jack Rhoades, Nevada veterans, were the mainstays of the university squad, while freshman Perry Jensen garnered points in both meets.

## Eighteen Complete National Defense Drafting Course

The engineering defense training course offered at the university was officially closed Wednesday when certificates were awarded students who have successfully passed 216 class hours in civil engineering drawing.

In commenting on the progress of the course Professor Warren O. Wagner, in charge of the program, stated this week, "This course has been highly satisfactory, not only from the standpoint of knowledge gained by the individuals concerned but also from the standpoint of placement. It is expected that within the next few weeks all those who have not been placed in positions to date will find employment in this field."

Eighteen students completed the course which began Jan. 4 and has continued five nights a week since. Students who received the certificates were Orville Anderson, Ray Barozzi, James Breen, Joe Buckhart, Lawrence Chambers, Charles Chun, Benjamin Collins, Harry Cornwall, Herbert Christie, Barry Cronin, Murray Dreyette, Harry Holbrook, Wesley Johnson, Max Lamb, Jack Layson, Richard Murfit, Harry Stavert and Miller Vaughan.

The success of the course was apparent this week when word was received that the United States Civil Service Commission had recently given the course the valuation of one year of experience in ratings.

If a preliminary survey now being made proves favorable, a similar course will be given in the near future and announcements will be made by the university engineering department regarding qualifications and provisions for enrollment.

## Air Corps Takes 13 Applicants

Thirteen applicants were found to be physically fit by the army air corps examining board which visited the campus last week. Two of the thirteen are applying for a non-flying status as aeronautical engineers, the rest as flying cadets.

Found physically fit were Leland Tucker, Byron Hardie, John DuPratt, William Kyle Leonard Wagner, Tom Forman, Oscar Nuendorfer, William Vall, Carl Edmund, Franklin Stewart, James Barrett, Theodore Rischard, and Anthony Fialdini.

Forman and Hardie are applying for non-flying status.

## Draft To Strike Hard At Ranks Of Mackay School Of Mines Graduates, Carpenter Says

"Fewer mining graduates will go directly into the mining industry this summer than has been the case in many years, in spite of the fact that '41 class is one of the largest in the school's history," said Prof. Jay A. Carpenter, director of the Mackay School of Mines, this week.

He explained that this paradoxical situation does not exist because of lack of openings for graduates, but that the unsettled state of national affairs in general and the selective service act in particular are to blame.

"Several of this year's graduates have already been drafted, and will be inducted into service upon their graduation, except for those who will take part in the Hunt field trip or the summer surveying course," Prof. Carpenter said. "Drafted graduates participating in these courses will not be called until the work is completed, because its completion is necessary to make valid the diplomas of those concerned."

**Won't Apply For Jobs**  
"Several other graduates have low draft numbers and expect to be called in the near future, and they see no point in beginning in positions with mining companies when they are to be called," the Mackay school head went on.

He stated that most of those who do not expect to be drafted immediately are not attempting to find positions mining companies, but are trying to get positions with the government or with defense industries, in order to insure themselves draft exemption.

"Only a few of the graduates have entered applications with mining companies," Prof. Carpenter said. **Draft Near For These**  
Graduates who have already received draft questionnaires, and who may be

inducted into service following commencement or completion of the Hunt trip or summer surveying course are Ted Rischard, Robert Fulton, Byron Hardie, and John Kinneberg.

George Dawson will leave for his native Canada after the Hunt trip, where he will probably enter service.

"I hear Admiral Byrd took his dogs with him to the South Pole."  
"Ye, they that it was his dogs that first discovered the pole."—Urchin.

## Future Farmers End Conference

Future Farmers of America, from throughout the state, held their 12th annual convention on the campus this week, with 140 members and guests attending. Verl Hendrix, Churchill county, was elected president of the Nevada association for the coming year. The three-day conclave was brought to an end Wednesday night with the annual banquet held at the LDS church, at which newly elected officers were presented, winners of the various contests announced and special awards made.

"Sweepstake" honors, going to the team that won the highest number of contests, were taken by the Bunkerville chapter. The Nevada State Farm Bureau presented the winning team with a cup. Dean Robert Stewart and W. C. Higgins of the college of agriculture took part in the convention. Stewart spoke at the general sessions held each day, at which the delegates were addressed on topics of interest to young farmers.

## Finance Committee Okays Trip, Bassoon

The U. of N. band purchases a bassoon and Ray Garamendi goes to a presidents' convention—but it all comes under the head of business passed at the last meeting of the Finance Control Committee.

Garamendi will attend the 18th annual convention of the Pacific Student Presidents' Association as Nevada's delegate. The convention will be held at Santa Catalina Island, from May 1 to 4.

Besides various social activities, the ASUN president will participate in discussions on campus problems of all types. Jim Devere of UCLA is president of the association.

The band's new bassoon, highly recommended by Professor Post, was inspected by him during a recent trip to Los Angeles. It is a German-made instrument, of a quality difficult to obtain since the beginning of the present war, Post pointed out.

Higgins is recreation director of the FFA, and a member of the university faculty.

A fast game finished... pause and Turn to Refreshment

After exercise, nothing is more pleasant than a refreshing pause with ice-cold Coca-Cola. Its taste is delicious; and a welcome, refreshed feeling always follows. So when you pause throughout the day, make it the pause that refreshes with ice-cold Coca-Cola.
