

WOLF PACK LEAVES FOR TWO-GAME HOOP SERIES WITH HIGHLY-RATED CHICO STATE COLLEGE WILDCATS

Schuchardt Expresses Desire for Revenge Over Pacific Coast Basketball; Nevada Is Seriously Handicapped by Lack of Height

Ten players, Coach Charles Schuchardt, and team manager, John Gabrielli, left by bus this morning for Chico, Calif., where the Wolf Pack cagers play their second series of the season tonight and tomorrow night against a favored Chico State Teacher's quintet.

The Wildcats, Schuchardt commented, have just finished a tour of southern California and are going to be tough competition, but he was optimistic.

"I'd like especially to win this series," the coach stated, "as Chico is the one team we have not been able to beat since I've been here."

"Because of the team's lack of height we will have to utilize speed and shooting ability, and if the boys play basketball, our chances of beating the Wildcats are good."

"We were handicapped against the taller Brigham Young team, but against players nearer our own height we should do much better."

Harry Paille will start at center for the Wolves. Speedy Jim Melarkey, smallest man on the team, and sharp-shooting Bob O'Shaughnessy will start at the forward spots, and Jim McNabney and Alf Sorensen will see action as guards.

Dave Melarkey, Fausto Mentaberry, Gene Mastroianni, Orsie Graves and Royce Hardy are the remaining team members making the trip.

Blue Key Dance Set for Tonight

Committee chairman, John Gabrielli, has announced that the semi-annual Blue Key get-together, for the purpose of acquainting new students on the campus, will be held tonight from 9 to 12 at Tony's El Patio Ballroom.

Assisting Gabrielli are Gene Mastroianni, Jim Kohoe, Bob Hawley, Warren Ferguson, Bob Hoyer, Tom Cooke, Pat Mann and Jim Bett. Other Blue Key members will be stationed behind the soft drink concession and at the door.

The Campus Swingers, an orchestra composed mostly of campus members and featuring Barbara Bernhardt in vocal numbers, will furnish the music for the affair. Admission price will be 25 cents for women and 50 cents for men. Federal tax will be added to the admission price.

Chaperones for the evening include Mr. and Mrs. Joe T. McDonnell, Dr. and Mrs. R. C. Griffin and Dean and Mrs. Reuben C. Thompson.

Albany Professor To Address Campus Chemistry Society

Prof. Arthur Knudson, Albany Medical College, will speak to the local chapter Wednesday night in Mackay Science hall's room 215. "Nutrition and Health" will be his topic.

The content of his speech will lay emphasis on the part proper diet plays in food conservation during the war. The talk is open to the public. Special invitations are to be issued to campus pre-medical and home economics students, to whom the subject is of especial significance.

Professor Knudson is now engaged in an extensive western lecture tour under the sponsorship of the American Medical Society. There is no local branch of this organization, but through the student's affiliate which the local Chem club joined last fall, the campus has been given an opportunity to hear his lecture.

Virginia Spencer Heads Dance Club

Virginia Spencer, senior, was elected president of the University Dancers this week succeeding Jo Ann Record. Betty Preece was elected secretary.

Meetings of the group have been set for Tuesday afternoon at 4:30 and Friday at 4:00. At next Tuesday's meeting new members will be elected.

Formal initiation for newly elected members will be held next Friday evening. At that time honored guests will be charter members who are Billie Jean Stinson, Marie Hursh, Mary Kathryn Carroll, Myrtle Dohr, Virginia Spencer and Jane Goodyear. Non-active members who will also be invited include Elizabeth Schwartz, Penny Osgood, Pat Chism, Iris Kinneberg and Mary Ferguson.

Active members of the University Dancers are June Conser, Mary Kathryn Carroll, Florence Alexander, Jo Ann Record, Virginia Spencer, Dorothy Barrett, Wilma Smith, Viola Sorensen, Betty Preece and Mary Higgins.

Nevada to Offer Courses in Light Metal Production

Magnesium Processes To Be Studied in Projected New Chemistry, Mining Classes

Projected southern Nevada magnesium mining will result in increased emphasis on light metal study at Nevada, Prof. Sears and Carpenter announced this week.

These men, together with Profs. Williams and Smythe, recently returned from a trip to the Basic Magnesium corporation plant at Las Vegas. All expressed amazement at the extent of this new Nevada industry. The company will require four thousand permanent employees to accomplish the two-fold purpose of mining the mineral at Luning and processing it at Las Vegas, a good percentage of whom must be skilled chemists and metallurgists. It is this need of skilled workers that the university will help to fill through its newest light metal courses.

Prof. Carpenter announced that the mining department will offer light metal courses leading to a degree of bachelor of science in chemistry next fall. Other aids for this new industry are planned.

Action is forthcoming from Prof. Sear's chemistry department, too. Chemistry 72—inorganic preparations—and chemistry 64—special problems in metallurgical chemistry—will be slanted toward light metal production during this semester. Other additions in the chemistry department for the training of magnesium and other light metal workers will be added as soon as arrangements can be completed.

Both departments plan further research into the magnesium field as a further aid to this new light metal field. Already the metal has proved to have advantages over aluminum in all types of structural construction.

Shila Wiley Joins Women's PE Staff; To Teach Dancing

Shila Wiley, graduate of University of New Mexico, has joined the faculty of the women's physical education department as a fellow. She will teach tap and advanced dance classes and will assist in coaching the University Dancers.

Miss Wiley has attended University of California and the National University of Mexico in Mexico City, specializing in Mexican, New Mexican and Spanish dancing. She has also received instruction at the Georgia Brown School of Dancing and the Rhea Dale McMurray School of Dramatic Art in Kansas City, Mo.

For her bachelor's degree from New Mexico, Miss Wiley majored in history and minored in education, English and health and physical education.

OL' MAN WINTER PAYS VISIT TO NEVADA CAMPUS

Residents of Reno were treated to a comparatively different scene upon arising from their beds one morning during the Christmas vacation. It had snowed, but considerable.

The campus, too, of course came in for its share of winter's mantle, with snow festooning the many trees, buildings and broad expanses of lawn.

Following the snow storm, a wave of considerable cold set in, and skaters soon appeared on Manzanita Lake. Meanwhile skiers, children with sleds, and onlookers covered the slopes below Orr ditch for a session of winter sports, almost in their backyards.

A few of the stay-at-homes promptly engaged in the age-old sport of snowball pitching. No casualties were reported, although several campusites were definitely on the hit parade.

Amateur and professional photographers had a field day, and with the exception of a few motorists, the first snow of the winter season was enjoyed by all.

RED CROSS MEETING

To decide upon a regular meeting date members of the Red Cross first aid class will meet Monday at 7 o'clock in the gym, according to Elsa Sameth. Evening class is a preliminary for women's motor corps work. Similar first aid course is offered for university credit.

Winter Comes to the Campus

Scene on the tram, overlooking the lake, with Manzanita hall in the background, after Christmas snow had made the hill a winter sports area as well as happy hunting grounds for photographers. —Photo by Charles Duncan.

Nevadans Enlist In Many Branches Of Armed Forces

The long lines that formed outside local marine and navy recruiting offices after the Japs bombed Pearl Harbor contained many Nevada students, ex-students and alumni. The navy reaped the biggest campus harvest, 15 collegians having joined this branch of the service, while the marines have recorded six known Nevada U. men on their roster to date.

Navy Volunteers

Robert "Lefty" McDonough, Sigma Nu, and Robert McElwee were among the first active students to enlist in naval aviation, while SAE's Jack Piel has received third class yeoman rating in Uncle Sam's sea forces. George "Gooch" Gates, SAE; Sam Osgood, Beta Kappa, and Bill Hill, Tau affiliate, became seamen shortly after the Pearl Harbor incident.

Graduates and ex-collegians number Samuel Stark, Sigma Nu, and Edward Folsom, SAE, among the naval aviation cadets, while Harley Harmon has donned seaman blue and Warren Harrison is a six-year volunteer in the navy. Richard Hillman, Sparks high instructor and Nevada graduate, has received the rating of second class yeoman. Milton Wallace, Marvin Triger and George Tole have been accepted into the navy, but have not yet been inducted.

Marine Recruits

Jack Means, SAE; Don Maestretti, Lincoln Hall; Herman Ubbins and Nell Barber are recent marine volunteers. Two graduates—David Goldwater, ex-student body president, and Max Jensen, former Sagebrush and Gazette writer, also joined the marines.

Fine Arts Group To Hold Election

A primary election for a president and a vice-president will be held by the Fine Arts club either next Monday or Tuesday. The general election will be held Wednesday.

The graduation of Doris Rice at Christmas time left a vacancy in the president's office, and the vice-presidency was left open by the marriage of Jean Caple.

No new plans for exhibits and programs for this semester have yet been announced.

DEVIL DOG

Root Is Assigned To Active Service

Briscoe Root, a former student of the University of Nevada, is now in active service with a unit of the United States marine corps, it was announced recently.

Root graduated from training at the marine corps base at San Diego last month. While training there he won medals for his skill with the rifle, pistol and bayonet, the dispatch stated.

A member of Phi Sigma Kappa, Root was an arts and science student, and was a business administration major while attending school. He also had training in the civilian pilot program.

Root enlisted at the marine recruiting station in the Reno postoffice.

R. M. Oliver Joins University Faculty

R. M. Oliver, who for the past two years has been associated with the Westinghouse Co. of Pittsburgh, has been appointed as instructor in mechanical drawing and in the mechanical engineering laboratory.

Mr. Oliver received his B.S. degree from the University of California in 1938 and received his master's degree from the same institution in 1940.

Engineer Classes Now Housed in New CE Building

Mechanical and civil engineering classes are now all housed in the new Civil Engineering building, Dean Stanley G. Palmer said this week.

Hydraulics, surveying and study of strength of materials are among the civil engineering courses, while mechanical drawing and dynamics comprise a portion of the mechanical curriculum.

Transfer of these engineering courses into the newest campus structure meant "moving day" for Professors Bixby, Van Dyke, Harris, Oliver and Kaufman.

Mrs. Joslin's art classes have moved into the two large rooms vacated, the north civil engineering drafting room and the southwest mechanical engineering drafting room. Cramped quarters in Mrs. Joslin's previous location were a big factor in the art department's switch to its new home.

Artemisia Staff Appointments Planned

Final staff appointments for the Artemisia will be completed next week, according to Teddyanna Pease, editor. All students who wish to be on the yearbook staff should contact Miss Pease and sign up at once for a position.

At present work is going rapidly ahead in order that all pictures may be mounted and sent to the engraver by February 1. Write-up assignments will be given next week so that the stories may be turned in very soon.

A picture schedule will be published in the Sagebrush and placed on the bulletin board next week. All students are asked to cooperate by keeping the appointments on the schedule.

Skiers to Compete In Sun Valley Meet

Five skiers from the university will represent Nevada in Sun Valley January 17 and 18 at the annual Jeffers cup race. Gerald Wetzel, Barnes Berry, Ashley Van Slyck, Chelton Leonard and Warren Hart will comprise the five-man team competing in slalom, downhill and jumping.

The team is sponsored by the Reno Ski club.

REGISTRATION FIGURES FOR FIRST WEEK SHOW A MARKED DECREASE; 664 ENROLL FOR SPRING PERIOD

Marked Drop in Enrollment Appears in Lower Classes; Freshman, 183; Sophomores, 170; Juniors, 146; Seniors, 142; Men Outnumber Women 388 to 276

Four Suspended Permanently for Poor Classwork

Twenty-Five Dismissed for Semester; Nineteen Men, Six Women on Probation

Twice suspended, four students have been permanently dismissed from the university, it was announced today by Dean Robert Stewart, chairman of the registration and scholarship committee. All were men.

Suspended, but eligible for reinstatement were four women and 21 men. Twenty-five students have been placed on probation, six of this number being girls.

The number suspended and on probation this year is considerably lower than at the same time a year ago, when 68 students were suspended, and 63 were placed on probation. The difference, Dean Stewart says, may be due to the slightly higher registration of a year ago over last semester (1044 to 1003), and the fact that faculty members this semester, in view of the trying conditions, have taken it easier on the student's grades.

Following is a list of rules regarding probation and suspension:

- Probation**
1. A student must be passing in at least two-thirds of his work or he may be placed on probation.
 2. A student may be placed on probation at any time his conduct warrants such action.
 3. All but special students must remove entrance deficiencies before their second year of residence or they shall be on probation.
 4. A student who has been suspended for one semester will be on probation for one entire semester when he returns.

- Suspension**
1. A student must be passing in at least one-half of his work or he may be suspended from the university.
 2. A student may be suspended at any time his conduct warrants such action.
 3. A student who is on probation at the end of each of two consecutive semesters may be suspended from the university.
 4. If the class preparation, attendance or progress of a student toward a degree is deemed unsatisfactory, the student may be suspended from the university at any time.
 5. A student who fails to comply with any university regulation may be suspended at any time.
 6. A student who has been twice suspended from the university shall not be permitted to register again.
 7. Students may be suspended only by action of the appropriate committee and with the approval of the president of the university.
 8. At the beginning of each semester the registration and scholarship committee will be in session two days before registration begins for the purpose of hearing applications of students for readmission.

Calender Committee To Adjourn Tuesday

The university calendar committee headed by Dean Margaret E. Mack, will meet next Tuesday at 4 in Room 103, Agriculture building.

Others on the committee are Professors R. C. Thompson, T. H. Post, R. S. Griffin, W. C. Miller, R. Sameth and J. E. Martie.

Block N Organization Will Purchase Bonds

Members of the Block N society authorized Joe T. McDonnell, graduate manager, to buy United States Defense Savings Bonds for the organization, Thursday.

The Block N society is the first campus organization to purchase bonds through the graduate manager's office. They are going to buy two \$100 and one \$50 bond.

Block N Organization Will Purchase Bonds

Members of the Block N society authorized Joe T. McDonnell, graduate manager, to buy United States Defense Savings Bonds for the organization, Thursday.

The Block N society is the first campus organization to purchase bonds through the graduate manager's office. They are going to buy two \$100 and one \$50 bond.

Frat Pledging Nil During First Week

No new pledges have been reported this week by the campus Greek letter fraternities, Dean Thompson's office announced yesterday.

Showing a decrease of 339 over last semester's enrollment, 664 students had completed registration at the university today.

Greatest decrease over last semester was found in the underclasses, with registration by classes as follows: freshman, 183; sophomores, 170; juniors, 146; seniors, 142; specials, 11; graduates, 12.

An important decrease was noted in the enrollment of men students, 388 men students have enrolled, while 276 women have entered.

Enrollment figures for Jan. 31, 1941, totaled 1044. Of that number 660 were men and 384 women. Figures for September 6, 1941, at the close of the registration for the fall semester were 633 men and 370 women, making a total of 1003.

Nevada Graduates, Former Students Called to Colors

Many Nevada graduates and former students are now in various branches of the United States army and navy.

Lieut. Olinto Barsanti, '40, United States infantry, spent a few days in Reno during the holidays. Barsanti, Sigma Nu, played guard for Nevada's 1939 team, and was an all-star western conference guard. He was football coach of the team which won the southern all-army championship this season.

Jim Gibbs received his commission as a second lieutenant at Christmas. He is to report to Fort Arthur, Utah, Jan. 13, and then will be sent to Fort Benning, Ga., to attend infantry school.

Walter Wilcox, graduate of 1941, and also a commissioned second lieutenant, will accompany Gibbs.

Donald McMeekin, former Nevada student and member of Sigma Alpha Epsilon, after taking a course at the preliminary flight base at Oakland has just been transferred to the advanced base at Dallas, Texas, to complete his flight training.

Elliot Lima, graduate last May, will leave Feb. 1 for Quantico, Va., to enter the United States marine corps officers' training camp. Lima is former president of Phi Sigma Kappa.

Jack Mustard, former freshman student at the university, has enlisted in the United States army air force as a ground mechanic and expects to leave soon for Corpus Christi, Texas.

Ensign Fred Laing, USN, former University of Nevada student, paid a brief visit to his parents in Reno, following his recent graduation from Annapolis naval academy.

William J. Wald, former Nevada student and member of Phi Sigma Kappa, is now training in the army air corps at Thunderbird Field, Glendale, Ariz.

Nelson Eddy, Phi Sigma Kappa and former member of the varsity golf team, will graduate from Mather Field today.

Frank Beloso, former Nevada football star, becomes a second lieutenant today when he graduates from Mather Field, where he has completed several months of aviation pilot training.

Four former university students were accepted by the United States aviation cadet examining board recently. They are Robert A. Singleton, Sigma Alpha Epsilon; W. Richard Kellison, Sigma Nu; John Lemich, Alpha Tau Omega, and Joe Weihe, Beta Kappa. Weihe has already left for the coast, while the other three are to be sworn in after concluding their personal affairs.

Richard E. Jameson, University of Nevada graduate and member of Lambda Chi Alpha, has been transferred to Kelly Field, Texas, where he will start a flying cadet course. He has been at Sheppard Field, Texas.

Clarence Heckthorn, Sigma Nu and former editor of the Sagebrush, is now stationed at Fort Lewis, Wash., where he is a first lieutenant in the United States infantry. Heckthorn passed through Reno Dec. 17 on his way to Washington.

Nevada May Offer Extra CPT Course

Officials of the western division of the Civilian Pilot Training suggested this week to Dr. Hartman that the University of Nevada sponsor a CPT course in Las Vegas.

No decision on the suggestion has been made, but it is being considered. Details of the reasons behind the request could not be ascertained, but it was apparently in line with the expansion of the CPT as an aid to the nation's war effort.

Wedding Bells Ring Over Yuletide Holidays For Many U. N. Graduates, Former Students

Wedding bells ringing for former Nevada students nearly eclipsed Christmas bells and New Year sirens during the vacation.

Betty Ricker, Theta, from Berkeley, married Gordon Thompson, son of Dean R. C. Thompson. Betty graduated at Christmas and Gordon, a graduate of last spring, is now attending Stanford law school. They will live in Palo Alto, Calif.

Helen Heaster, Delta Delta Delta, just announced her marriage, which took place two months ago in Oakland. Evening class is a preliminary for women's motor corps work. Similar first aid course is offered for university credit.

married to Thomas Diskin in Reno. Diskin is employed by the Basic Magnesium plant in Las Vegas where the couple will live.

John DuPratt, Jr., Sigma Nu, married Jean George. They will live in Reno. Verna Reynolds, senior, married Ottilio Rivera, orchestra leader at the Columbo.

Jean Bryant married Lester Adams, a former student, in Las Vegas, and the couple will make their future home in Reno. Lee Whipple married Helen Pocock of Moapa in Las Vegas. Lee will continue his classes at the university. Ruth Doan, Gamma Phi Beta, from

Sparks, was married to Roy Roseberry of Tuscarora. They will make their home there.

Perry Pollock, member of Scabbard and Blade, and now a second lieutenant in the United States army, married Eleanor Parlante in Reno. The couple will live here.

Myra Saucer, Delta Delta Delta, married Vlad Ratay in Seattle, and their residence will be San Francisco.

Elinor Robinson, Gamma Phi Beta, who has been teaching at Orris Ring school, married rancher Leslie Raffetto. Coral Sorenson from Fallon was married to Jack Hiatt and they will reside near Lovelock.

TOAST TO A HERO

A young Nevadan has joined the ranks of American heroes of World War II. He is Joseph F. McDonald, Jr., and he died while defending a small island in mid-Pacific over which floated the flag of the United States.

For many days a band of marines and several members of a civilian construction crew defended Wake Island in the face of overwhelming odds. They sank Nipponese warships, and shot down planes. They demonstrated to a crew of veteran Japanese murderers that liberty-loving men are fighting men. In so doing they brought honor to their flag and their country as Americans have done countless times in the past.

The saga of Wake Island is lifted from the category of a tragedy by the deeds those men did. When Joe's native state was in its infancy many heroes gave their lives that Nevada might take a place in the rightful order of things. Like those heroes, Joe died for a great cause. And in a similar measure, those that come after him will endeavor to make sure his ideals are carried on.

From this rugged State shall come many men to bear arms in the fight for liberty in which he gave his life. Some of them will not return to their homes. Some of them will march with drawn bayonet through the streets of the citadels of assassins.

Moran Appointed Ensign in Reserve

William Moran, a former student of the University of Nevada, has been commissioned an ensign in the naval reserve, according to a dispatch received recently from Corpus Christi, Texas.

At the training school Moran specialized in flying carrier planes. He served as a platoon commander in the aviation cadet regiment.

Moran, a member of Sigma Alpha Epsilon while attending Nevada, gained a CPT private license before entering the naval aviation corps, and was also a member of the varsity ski team.

He enlisted in the naval aviation corps March 1, 1941, and completed elimination flight training at the Oakland naval reserve aviation base.

monest delight of the race, the most satisfactory thing a man can do.

Openings Still Exist In Flight Classes, Says Prof. Sandorf

There are still many openings in the preliminary and advanced civilian pilot training courses, according to Prof. I. J. Sandorf, CPT ground school instructor.

The preliminary course, which meets one evening and one afternoon a week, is open to students of sophomore standing between the ages of 19 and 26.

The advance course meets three evenings a week, and the applicant must have sufficient hours so that his total at the end of the semester is 60. He must also have a valid private pilot's license, and in order to take to the air, his birth certificate must have been checked and approved by government flight officials.

Honeymoon: That part of a girl's life that comes between the lipstick and the broomstick.

Former Students Seek Commissions In Aviation Corps

CORPUS CHRISTI, Texas, Jan. 9.—(Special to the Sagebrush)—The presence of seven alumni of the University of Nevada at the navy's gigantic new "University of the Air" in Corpus Christi, Texas, places Nevada among the 45 states whose 551 schools have alumni here.

The University of Nevada lads are Grant T. Anderson, son of Mr. and Mrs. Peter T. Anderson of Fernley, Nev.; H. J. Baird, of Bucklin, Kans.; Julian K. Day, son of Mrs. Rose E. Day of Sparks, Nev.; D. D. Fryberger, son of Mr. and Mrs. D. O. Fryberger of Lovelock, Nev.; G. F. Harman, son of Mr. George Hardman of Reno, Nev.; Henry R. Hickman, son of Mr. Harry Hickman and Mrs. Margaret Kirkpatrick of Lovelock, Nev.; and W. J. Moran of Reno who received his wings Dec. 23.

States not represented are Maine, Vermont and Delaware, all eastern states, which illustrates the fact that although all regions of the country have their representatives, most of the aviation cadets here are from schools west of the Mississippi. California leads in number of trainees with 453 alumni from 61 California schools. Texas is second in number of sons at the naval air station with 226 alumni from 40 Texas colleges, and the state of Washington is third with 151 from 17 institutions.

A Pacific northwest institution, the University of Washington, supplying 83 cadets, has the largest number of its former students in training at the naval air station. The University of California and the University of Minnesota are second and third with 66 and 55, respectively.

This largest naval air station in the world is the only one offering a complete course in military flying—primary, intermediate and advanced—under one single command, and for this reason it is truly a "University of the Air."

It takes seven months for one of the Nevada lads to complete training.

Hearst ROTC Rifle Competition Set for Jan. 10 to March 18

The 1942 national ROTC rifle matches for the William E. Hearst trophies will be conducted during the period Jan. 10 to March 18, inclusive, it was announced today at the headquarters of Major General Jay L. Benedict, commanding general, ninth corps area, Presidio of San Francisco.

The competition which is held annually is open to all ROTC units in the United States, Hawaii and Puerto Rico. It is conducted under the direction of the nine corps area commanders.

Matches are fired by five-man teams. Each member fires one sighting shot and five shots for record in each of the four positions—prone, kneeling, sitting and standing—at a range of 50 feet with a .22 caliber rifle.

Participating teams are divided into the following groups: Senior group representing universities and colleges, one junior group representing essentially military schools, and another junior group representing all other secondary schools.

Each ROTC unit may enter one or more teams in the competition. An entry card for each team will be mailed to the commander of the corps area in which the school is located. Upon receipt of the entry card at the corps area headquarters, official targets and blanks for reporting team scores and certificates of witnesses will be forwarded to the entrants.

The standing of each competing team and high individual will be determined within the group and forwarded together with the targets, team names, and certificates, to the corps area commander. After a check for correctness, the results to the adjutant general who has been designated by the War Department to determine the national winners.

Targets received at the corps area headquarters after midnight, March 18, 1942, will not be considered.

Schmidt Completes Elimination Flights

Seaman second class Walter Schmidt, '41, has completed elimination flight training at the naval reserve aviation base at Oakland, an official dispatch stated today.

He will be transferred to the naval reserve aviation base at Dallas, Texas, for further training as an aviation cadet. Upon completion of his advanced flight training, Schmidt will be commissioned an ensign in the naval reserve and assigned to active duty.

Schmidt, the son of Ralph Schmidt, of 633 West Second Street, Reno, was an arts and science student at Nevada, and graduated with a major in botany. He enlisted in the reserve as a seaman second class under the V-5 plan which the navy has established to speed pilot training.

While at Nevada he was active in intramural skiing, and was a member of the University Ski Club.

BY JERRY WETZEL

THE SNOW ON THE GROUND . . . is not the reason for Jim Aiken's long and gloomy face this week. Returning from Detroit last week the Nevada mentor was informed by the registrar that a number of the boys whom he was counting on for next fall's grid battles would not return to school this semester and not because they are being drafted. Scholastic deficiencies eliminated a number of the fellows that were counted on as first stringers next season. Anyone wishing the Nevada coach a Happy New Year will do so at his own risk.

ST. MARY'S EVIDENTLY GOT . . . over their peevish contracted way back in 1934 when the Pack upset a favored Gael eleven, 9 to 7, thus ending relations between the two schools for the past seven years. The California school has been dickered with Nevada for a game in Kezar Stadium next Oct. 4, but this was abandoned this week when USF was granted that date.

COACHING JOBS AT NEVADA . . . are about the un-surest jobs on the Hill at the present time. Aiken's contract, which is good for three and a half years yet, is the only sure coaching spot on the campus at the present time. We wonder what he will be doing next semester—he'll look good teaching the girls the fine art of archery or badminton.

Beneath the sod rests Mannie
They put him there today.

Football Profits Show Drop From Last Year's Total

Track May Be Curtailed Because of Probable Athletic Deficit

A preliminary report submitted by Joe T. McDonnell, graduate manager, to the board of athletic control recently showed that the 1941 varsity football season had shown a profit of \$1894.47. This was a decrease of \$226.82 under profits of the previous season.

Although the football season showed a profit, it is likely that the entire athletic program will show a deficit, McDonnell said. Basketball and track, as well as the entire minor sports program, including tennis, golf and wrestling, have always lost money, he pointed out.

Added to this fact is the decrease in enrollment which seems to be forthcoming. At the end of last year, the athletic program of the university showed a loss overall of \$169.08. Estimates made last Dec. 1 indicate a loss for 1941-42 program of \$731.03. However, in the view of existing conditions, some of the minor sports will be drastically curtailed in an attempt to reduce the estimated deficit. The continuance of track, and the minor sports program appears unlikely at this time, McDonnell indicated.

Comparative figures released by the graduate manager show that in 1940 income from student fees was \$7371, while in 1941 \$6251.00 was derived from this source. Other sources of income for 1940 totaled \$19,317.82 compared with \$18,820.35 for 1941. The 1940 total income was \$26,688.82, compared with 1941 income of \$24,871.35.

Expenses of the 1940 season totaled \$24,567.53, and in 1941 \$22,976.88 was paid out.

McDonnell said that none of the fees from student sources, or moneys taken in at games could be used for athletic scholarships.

WAA Basketball Matches Open This Afternoon

Intra-class and selected team games will feature WAA basketball which began this afternoon in the gymnasium.

Practice periods for the activity are scheduled for Tuesday and Friday afternoons at 4 o'clock, with all women interested urged to attend the sessions. Any campus women desiring to learn to officiate basketball games are asked to see Ruth Russell, instructor in the women's physical education department, as soon as possible.

Other WAA activities planned for the semester are dance, which is scheduled to begin soon, and badminton and riding, which will begin later in the semester.

Doris Post Leaves For Idaho Resort

Doris Post, Kappa Alpha Theta, left two weeks ago for Sun Valley, Idaho, where she will spend the winter months working at a part-time job and skiing. Miss Post, a sophomore, is the daughter of Prof. and Mrs. T. H. Post.

Roush Takes Lead As Handball Season Begins This Week

Lambda Chi and ATO remained undefeated in the forfeit-marred first two days of interfrat singles handball competition. Roush of the Chis became dopster's choice with two well deserved victories, while Willie Etchemendy's close triumph over Lincoln Hall won him much sideline support. Thirty remaining games with SAE yet to see action, makes future prediction hazardous.

George Tweedy, Sigma Nu, gave Roush a hard fight in Wednesday's first set before bowing by slim margins in both matches. Willie Etchemendy had second-set trouble with Don O'Hagen before subduing the tall Hallman, 21-10, 21-19. Phi Sigma Kappa forfeited to the Independents, and the scheduled SAE-BK canto was postponed.

O'Hagen outpointed the Independent's Paul Arenaz, 21-11, 21-17, in Thursday's play. Roush won a rousing 21-3, 21-8 win over Beta Kappa's Ralph Moyer in the second half of the twin bill. Sigma Nu took a bloodless victory over Phi Sig, and Sigma Phi Sigma forfeited to SAE in other scheduled duels.

Seven Sweaters Awarded to Frosh Gridders This Year

Out of the 17 frosh football players who were recommended for frosh numerals only seven will receive a sweater. The seven who passed their required number of hours and played the set number of minutes were Dick Aldrich, Stan Cohen, Jordan Ellades, Ken Olinghouse, Bill Parrish, Bob Wise and Al Woodward. In order to receive a letter player must have played enough minutes and passed 11 hours of scholarship work.

The sweaters this year will be similar to those of last year. It will be a blue slipover sweater with '45 on the front. These frosh will probably see action on the varsity squad next year and it was announced that Marlon Motley, Nevada halfback, has been deferred from military duty; he will be playing for Nevada again next year. Two frosh who will be greatly missed are Jack Brace and Bob Robinett. Brace will be drafted for military service this month and Bob Robinett did not return to school this semester.

BYU Downs Pack Twice in Season Openers at Ely

Brigham Young's tall, sharp-shooting cagers set back a fighting Nevada Wolf Pack two nights running on the hardwood court of Ely's big new gymnasium over the holiday.

In the Friday night game, the Wolf Pack's first of the season, the Brigham Young Cougars grabbed the lead and refused to be threatened for the rest of the night. The Cougars had rolled up 13 points before Nevada scored a tally. Completely outclassed, Nevada ended up on the short end of a 65-31 score.

The following night, however, a sharper shooting, more accurate passing Nevada team took the floor, and for a time it looked as if the BYU's eight-game winning streak might be broken. The superior height of the opposition proved too much, however, and though the Wolf Pack led, 8 to 7, at one point in the game, and were tied, 13-13, at another stage, the Cougars went on to win, 76 to 44.

The consistent shooting of O'Shaughnessy, who led his team both nights in scoring, and the accurate passing

Cub Team Resumes Practice This Week

The freshmen basketball practice started this week after a three-week layoff. A few of the players who Coach Bailey has been counting on for this year's frosh squad did not return this semester. Jack Brace will be drafted into military service this month and will not do any basketball playing for Bailey this year, and Bob Robinett, another person whom Bailey was counting on a great deal, was unable to return to school this semester.

Bailey is counting on such players as of Melarkey, Sorenson and O'Shaughnessy were the high spots in the Nevada team's play.

Walker and Fulmer were the outstanding Cougar players.

University to Aid In Defense Plans During Coming Year

Hartman Pledges Nevada's Resources for Training In Essential Fields

Many of the resources of the University of Nevada will be directed toward the defense of the nation during the second semester, President L. W. Hartman said this week.

Special courses in defense activities will be given in several fields, while the work of many regular departments is such as to furnish needed training to young persons in the prosecution of the war.

The civil aviation program, which in its two years has prepared a score of young men for service with the armed forces of the nation, will continue during the semester, offering both ground and flight training.

During January a two-week refresher course in nutrition for defense will be given on the campus to qualified persons by the school of home economics and several cooperating agencies in addition to the regular home economics instruction.

A beginning toward special training in magnesium production will get under way during the semester, especially in courses in metallurgy. A full separate course in this field is being considered by President Hartman and the board regents.

The agricultural extension service is in charge of the educational campaign among farmers to produce more "food-for-freedom" while the agricultural experiment station also is active in helping farmers raise more needed food.

A great many samples of ore have been assayed by the university analyti-

cal laboratory as the search for strategic metals goes on in the state.

Training for the armed forces of the nation is carried on regularly through the university reserve officers' training corps, with first and second year men enrolled. Special training is offered for candidates for reserve officerships.

With the old gymnasium urgently needed as an armory, work is being held up on the new structure. While much of the structural steel is available a lack of reinforcing steel, on account of priorities, may hold up the progress of the building and prevent the old gym from being used as an armory soon.

With engineers in special demand, the engineering schools have been busy this year with an increased enrollment of young men preparing themselves for this vital field of defense. Especially active are the schools of mechanical and electrical engineering.

A new intensive course in engineering drawing is on the schedule for the semester. It will be in charge of R. M. Oliver, new mechanical engineering instructor, who comes to Nevada after extensive experience in industry in the east.

Stimulated by the need for food for defense from the farms and ranches of the nation, students in agriculture will prepare themselves in the most approved methods of farming.

The usual pre-medical and pre-nursing courses offer training preparatory to study in these two professions.

Chemistry, physics and mathematics, courses basic to all the applied sciences which are so important in the defense of the country, will furnish needed training as part of their regular work, President Hartman stated.

With fighting carried on in distant lands, a knowledge of foreign languages will be of value to those in the armed forces of America, and this instruction is available in courses in French, Spanish, German and Italian at the university.

Professor Lawton B. Kline has been named co-ordinator of a movement to teach Spanish to army and navy air corps men who may be stationed in western Nevada.

In furnishing a background for understanding the war, courses in history, political science, and economics will be available, while journalism classes afford training advantageous in information work with armed and civilian forces.

Hartman Outlines Value of College Training in Crisis

University Head Believes Education Essential To Security

With the second semester of the University of Nevada 1941-42 year opening, President L. W. Hartman this week called the attention of present and prospective students to the value of college education in the defense of the nation.

The need for university trained men and women is more important than ever, he said, and this has been recognized by those best able to judge the nation's requirements.

"In the desperate life and death struggle with the axis powers in which our country is now engaged," President Hartman stated, "every red-blooded American man will wish to serve his country in that capacity for which he is best fitted.

"As a general rule, one's experience, his preparation and training, best qualify him for specific tasks or duties. It is essential, indeed, all important, that our college and university youth should keep in mind this fundamental principle."

Clear thinking, deliberate planning and calm decision, the University of Nevada head said, are more vital at this time than impetuous, impulsive, rash action.

"The contributions of trained minds and skilled hands may be of greater value than the employment of great physical force," he declared.

"This fact has been emphasized by the leading educators of our country, by military authorities, even by the president of the United States—all of whom have urged college students to continue with their studies as long as possible.

"These leaders know only too well that the colleges and universities are doing good work, indeed, an essential work, in the training and preparation of youth for the tasks to be performed in the days immediately ahead."

The government authorities are better able to judge the need and time for service than is the individual, President Hartman believes.

"It is the part of wisdom, then, for every young man to continue with his college work in order to equip himself as fully as possible for the days ahead which are surely going to test a man's mind, his ability, his soul and his character," he said.

"Unless called to serve, it is the duty of each young man to continue his preparation in order that he may best qualify himself for the task which he will be called upon to perform.

"Opportunities will come; demands

Gabrielli Calls for Basketball Managers

John Gabrielli, basketball manager, called for freshmen to try out for assistant managers. There will be four assistants and so far only two freshmen, Dave Sinai and Bill Purdy, have reported to Gabrielli as tryees for the job. Each of the four assistants will receive a manager's sweater for his work and will be eligible for varsity manager in his junior year.

Red Cross Classes To Start Saturday

Mrs. Eunice Griffith, matron of the University infirmary, requests all girls interested in instruction in making surgical dressings and in Red Cross home nursing to report to the infirmary Saturday, Jan. 10, at 2:30 pm.

A Red Cross certificate will be given at the completion of the home nursing course. Practical demonstration of nursing methods will be given.

"Girls will learn home nursing by doing," said Mrs. Griffith.

The course will also include almost all first aid techniques, such as bandaging and artificial respiration.

Night Classes Added To Education School

Six evening classes have been added to the spring curriculum at the university. The classes, which are all in the education department, are as follows:

"History of Secondary Education," Monday evening at 7:15 pm, taught by Dr. Harold Brown. "Education of Superior Children," Wednesday at 7:15 pm, a two-hour course taught by Prof. J. P. Puffinbarger; Donald Seaman, Boy Scout executive, will teach a course in "Scoutcraft for Men," Wednesday at 8:00 pm; "Group Leadership for Women" will be taught Tuesday and Thursday at 3:00 pm by Mae Simas, former instructor in the physical education department. "Content Material in Kindergarten-Primary Grades" will be taught by Edith Reubsam at 3:30 pm Tuesday. Prof. John W. Hall will teach a course in "School Supervision," but the hour for class meetings has not been arranged.

will be made, and the educated man or woman with trained mind who can satisfy the emergency call is the person whom the nation will need the most."

Nevada Ski-Men Meet California In Informal Meet

Nevada skiers will have a chance to show their strength in an informal meet sponsored by the University of California tomorrow at the Bear's ski grounds on the Donner Summit. The meet, a four-event tournament, is likely to determine the strong team in Pacific coast college competition this year as both teams are likely contenders for coast championship honors this season.

Coach James Scrugham expects his six-man team to offer strong competition against the California squad and

gives them an even chance to emerge victors.

Although no team has yet been selected, this weekend's meet will likely determine Nevada's '42 ski team. Eligible for competition will be Bill Nelson, Gerald Wetzel, Ashley Van Slyck, Bernard Smith, Bill Bechdolt, Duane Ramsey, Barnes Berry, Oliver Henrikson and John Hopkins, while Shelton Leonard, who was counted on as a potential point winner, will be ineligible because of scholastic deficiencies. Bill Nelson has indicated that he may not compete because of a heavy scholastic schedule this semester.

The jumping event is Scrugham's biggest worry with only two experienced men in this event on the team, but the slalom racers should hold their own with any team on the coast, Scrugham states.
