

SPORT SNORTS

BY B. MOLIGNONI

Sports Editor

Nevada's whizz kids took the Fallon (feather) Merchants to a neat cleaning Saturday night in the gym when they drove them back to Fallon with a 40-29 defeat.

Frankly, this sportscaster wasn't too optimistic concerning the Nevada team's possibilities. The youngsters, although packed with fight and possibilities, hadn't played together long enough to insure sufficient cooperation to defeat a team that had practiced together over a long period of time.

But the Nevada Wolf Pack went on the floor and played a commendable game—though a great deal of rough stuff was overlooked by the referee, Sgt. Montgomery.

Hill, Reno high school stellar hoopster, proved himself to have a good eye, despite the ballyhoo printed in this column last week which featured his night club tan.

Chuck Sheehan, Fernley high school, also played a fairly good game. However, more was expected of him than he managed to produce.

High ranking among the overlooked possibilities was Walter Case, Winnemucca high school fellow, who threw the discus far enough in an off-the-record field and track meet to approximate the national inter-scholastic record. Case is fast and shifty, and proved himself to be a calm, consistent player.

Layson, mainstay of the team, is credited with knowing how to keep his team "under his wing"—and really makes time out count. He played varsity ball in '36.

DuPratt, outstanding Yerington high

school player, indicated that he knew the fundamentals of basketball—and a little bit more. He is a good shot, but has a bum knee which he injured slightly in the Saturday game. He will play next Saturday, however, and may get enough breaks to play the game through this time.

Engineers vs. Marines

The Nevada Engineers will play the preliminary game on the hill Saturday night. A good man to watch is Curtis Tarr, who formerly played basketball on the freshman team at Stanford. Tarr, a lanky fellow who is outstanding by virtue of his unusual height, manages to get to the basket rather often. Another valuable fellow on the Engineers' team is Floyd Edsall, former Sparks man who ran on the Nevada track team during the past three years. Of course, among the mentionables is Johnny Hattala, former Nevada varsity man now with the engineers, who manages the team on and off the floor.

The Hawthorne Marines, a little known basketball squad this year, had a strong team last year and may be a formidable opponent.

Nevada-Reno Army Air Base

In their practice tilts with the air base, the Nevada team was pretty sloppy. Nobody seemed to be able to get anywhere—and Layson was almost entirely without support.

However, the Nevada fellows have had quite a bit of practice since those last games, and may be able to squelch the base quintet on the floor Saturday night. At any rate, it will be a hard fought game, and the Wolf Pack does not plan to quit until it is all over.

O'Brien, one of those six feet four inch threats, was on the all serviceman state team last year. Who's going to take care of him? As the radio announcers say, "Tune in and find out if the Wolf Pack ticks the air base in tomorrow's chapter of 'Nevada Freshmen Strive Valiantly Against Seasoned Hoopsters.'"

Speaking of Attendance

Shame on you! There were scarcely enough people at last week's game to warrant a Nevada team on the floor. You've all whooped and hollered for a Nevada basketball team until the board of athletic control gave in and okayed one.

Now, why under the sun aren't you out there supporting it? These fellows are new at varsity basketball—they do try hard. But there are very few Nevadans in the rooting section to give them the necessary support.

The time and place of the Saturday game will be posted on the bulletin board by Friday. Casually look it up—and for heaven's sake, GET THERE, you basketball enthusiasts!

Who knows? This may be Nevada's year.

Don't let the SQUANDER BUG eat your money BUY WAR BONDS

SQUANDER'S MISTAKE ABOUT THE CAMPUS

Many good things have happened to Squander since he received his letter from Brother Boswell. Squander didn't have anything to become morose about this week.

The women's war council wasn't doing anything, the ASUN senate was not doing anything—but as it is Squander's job is to see that they continue not doing anything, he was on the watch.

After careful investigation, he discovered that maybe there would not be a bond sale contest—the committee hadn't functioned. But then again, who is on the committee, was the question that bothered Squander.

Today he checked. He found out that the bond drive was becoming a reality. He had no way to stop its progress.

Not even the editor of the Sagebrush knew the details. How in the world is he going to find out about the developments of the bond contest, if the editor of the college paper doesn't know anything about it.

Maybe by next week something will break in the columns of the newspaper about the contest. But, Squander thought, "I can't wait a week. I've got to stop the machine before it begins to motivate." So with that in mind he continued his investigations.

He found that Pan-Hellenic council had something to do with it. He found that Sagens had something to do with it. He also found that Chi Delta Phi had something to do with it.

He even discovered, to his amazement, that a lot of coeds knew about it.

That was enough. With so many people in on the IN, how was he, Squander Bug, Adolph's agent from Berlin, going to stop the bond contest.

He gave up. He retired to his favorite nook in Idlewild park and cussed himself out. He cussed and cussed and cussed, but he knew that no matter how hard he cussed nothing would happen to the bond contest—nothing detrimental anyway, because that is one project that will eventually take shape. So he continued cussing.

Students Compete For Scholarships

Chicago, Ill.—(IP)—Some 200 high school students, including those who still would have one or two more years of high school, gathered recently at the University of Chicago to compete for scholarships offered by the university of its four-year college where college education starts at the traditional junior high school grade.

The competition was unique in that it marked the first time in the history of the University of Chicago when competition for all scholarships was on the basis of comprehensive tests for determining the intellectual power and ability of students rather than on what they know in terms of facts.

This innovation is in line with the Philosophy of the so-called "Chicago plan," introduced at the university in 1930 and gradually extended since, whereby the procedure of passing students in accord with grades and credits is substantially eliminated. Now the Chicago plan has been applied to competitions for all scholarships. The university hopes to award more than 100 scholarships, covering all levels in the college, during the full year.

Results of the aptitude tests are scored by electrical equipment, Dean Aaron J. Brumbaugh, chairman of the scholarship committee of the university, said. While the aptitude tests are a large factor in determining winners, Dean Brumbaugh also points out that other criteria are taken into account. The other criteria includes the comments and recommendations of high school principals and teachers, the student's general record in high school and the student's participation in school and community activities.

SHOWER GIVEN

A shower was given for Mrs. Giles Warren Payzant last Friday evening by Zeta Phi Zeta, according to Jerry Streshley, president. Mrs. Payzant, formerly Edith Batchelder, was married at Paul's Episcopal church in Oakland on December 18. Her husband is now stationed at Alameda air base.

Vanderbilt Plans Study of Humanity

Nashville, Tenn (IP)—Aided by a grant of \$7500 from the Rockefeller Foundation, the division of humanities of Vanderbilt University will conduct a year long, cooperative southwide study of the nature and function of the humanities in the postwar educational program.

Recently a group of nine southern educators met with the Vanderbilt division to make preliminary plans for the study, Dr. Walter Clyde Curry, professor of English, has announced. Next summer a work conference will be held here, with representatives from the colleges and universities of the region participating. Following the conference a report will be published indicating the participants' beliefs on constructive approaches to the teaching of the humanities.

proaches to the teaching of the humanities.

Dr. Curry said that the war has stimulated public interest in the humanities to such an extent that the conference will seek ways of "maintaining the present level and even raising it."

"CANDID" CAMERA SHOOTS SIX FOOT NEGATIVES!

THE world's largest camera, developed and used by Bell Telephone Laboratories, makes negatives up to 6 feet high at the rate of 20,000 a month. The crew works inside the camera which has a battery of lenses with focal lengths to 70 inches. Photographs to full scale are made of valuable technical drawings that are costly to produce. These were formerly short-lived through the repeated heat and handling of blue-printing. This safer, faster method helps speed the designing of new and special communications equipment for the armed forces—now the main job of Bell Laboratories' scientists.

School of Mines Distributes News Of Nevada Grads

The annual mimeographed bulletin containing news of alumni of the mining department has recently been published under the supervision of Prof. Jay A. Carpenter, director of the Mackay School of Mines. They are sent to former graduates of that department. Material for this bulletin is compiled from letters received from mining engineering graduates through the year, Professor Carpenter said. It covers the classes from 1934 to 1943.

Dr. Harry E. Wheeler, associate professor of geology, is now stationed at Peru, Neb., as a lieutenant in a naval college training unit. He left the campus last May.

Of the class of 43, Abbott Charles is now with the Braden Copper Co. in Chile, Col. Fred Haley, George Mar and Herb Reynolds are with Basic Refractories in Gabbs, and Fred Humphrey is a member of the engineering staff of the Anaconda at Gabbs.

Gerald Hartley is an engineer on the staff of U. S. Vanadium in Bishop, Calif. Mike Tenney is with Rutile Mining Co. in South Jacksonville, Fla. Robert West and Fish Yuen are engineering for Consolidated Copper mines in Kimberley, while Bartow Van Voorhis and Jack Wells do geology work in Wyoming. Ted Overton is with a government office in Reno, and Elliott Beyer is

Pistol Packin' Mama Played by Rubinoff

David Rubinoff, nationally known violinist, appeared before a military and student audience in the university gymnasium, Monday, January 17.

Among selections played was "Pistol Packin' Mama," given in seven different versions, first a classic arrangement, followed by Viennese, Scotch, Irish, Arabian, Russian and American tempos. "Sweet Mystery of Life," "Intermez-zo," "Dance of the Russian Peasants," "Flight of the Bumblebee," and the "Star Spangled Banner" were included in the program.

Lt. Ircel Carter, '43, Visits Nevada Campus

Lt. Ircel L. Carter, 1943 graduate of the university, visited the campus this week, on leave from his station with the infantry at Camp Blanding, Fla.

Lieutenant Carter was affiliated with Sigma Alpha Epsilon while on the campus. He attended officer candidate school at Fort Benning, Ga.

Mary Katherine Nannini Engaged to Air Cadet

The engagement of Mary Katherine Nannini, sophomore student at the university, to aviation cadet William M. Sodja, former University of Utah student, has been announced.

Miss Nannini is a home economics major and is affiliated with Delta Delta Delta.

Moises Ponce was recently released from the second Filipino infantry at Camp Cooke, Calif., to work in the mines at Butte, Mont.

Eugene Michal is taking a navy degassing course at San Francisco, and George Homer is attending naval training school at Cornell University.

Roy Peterson appeared at commencement last May in a marine uniform, and is now on active duty in the Pacific area. Edward Grundel is a second lieutenant in the marine corps, and is stationed on the Pacific coast.

New Jersey College Offers 100 Awards To Freshman Women

New Brunswick, N. J. (IP)—New Jersey College for Women is offering approximately 100 scholarships to freshmen who will enter the college next September, Dean Margaret T. Corwin announced here.

She emphasized the special wartime obligation of women's colleges to train students for responsible positions of leadership when young men are, with few exceptions, being withdrawn from college for military service.

The high scholastic standing of this year's freshman class at NJC is evidenced by statistics showing that more than 80 per cent of the 307 entering students were in the first quarter of their high school class, and over 40 per cent were in the upper tenth. There are 29 high school valedictorians in the class of 1947.

Education Aid
 "Dean Corwin is hopeful that the NJC scholarships will continue next year to make college possible for just as outstanding a group of students who need aid in financing their higher edu-cations,"

she explained. "We must be sure that girls who have within them the qualities of intellectual courage and spiritual integrity needed to shape a better world of the future do not fail to receive the training which our American colleges and universities are equipped to give."

Plans were made for a Lambda Chi get-together January 22. Members, alumnae and engineer trainees who were Lambda Chi affiliates last year will attend.

CHARLES FLEMING ELECTED LX A HEAD

Charles Fleming, sophomore, was elected president of Lambda Chi Alpha fraternity at a recent meeting.

Other officers elected were Vern Keiler, vice-president; Gene Grotgut, secretary, and Fleming, senate representative.

Husband: I kept the big plant in the hall watered all the week you have been away.
 Wife: You dumbbell. That's my new Easter hat.

Sagebrush Blunders Notice on Course

There will be no college credits for the Red Cross home nursing course as announced in last week's Sagebrush, Pat Thomas, chairman of the home nursing committee, stated today.

However, she added the course will be given to interested students. The course will consist of home treatment of invalids, isolation of communicable diseases, care of babies and care of convalescents. It will begin in February.

WAA Course Includes Varied Activities

Roller skating, bowling and possibly archery and badminton will be offered as WAA activities next semester, Dorothy Reynolds, president, announced.

"It is definite that there will be roller skating," Miss Reynolds said, "and we are trying to provide archery and badminton. There is also a small chance that there might be tennis in the spring."

Jim Rookus Stationed With Army in Aleutians

Lieut. James D. Rookus, graduate in mining engineering with the class of 1942, is now stationed in the Aleutian area.

While on the campus, Lieutenant Rookus was affiliated with Sigma Rho Delta, social fraternity, and a member of Scabbard and Blade, the Crucible Club and the American Institute of Mining Engineering.

"How do you know he's in love?"
 "What else would make a man absent minded enough to put his dirty shirt to bed and then jump down the clothes chute?"

Paul Fontana Promoted To Lieutenant Colonel

Marine Major Paul Fontana, graduate of the University of Nevada, has been promoted to lieutenant colonel and stationed at El Tera, Calif., near Santa Ana, in charge of training marine pilots.

Lieutenant Colonel Fontana received the navy cross and other citations during 18 months of combat flying in the Solomons area.

Sirkegian Represents AIME at Mining Meet

Paul J. Sirkegian, member of the board of regents of the University of Nevada, will represent the Nevada section of the American Institute of Mining Engineers at a conference in New York in February, according to Prof. Jay A. Carpenter, director of the Mackay School of Mines.

Sirkegian graduated from the Mackay School of Mines with the class of 1924.

"You say you worked as a draftsman in a factory last summer?"

"Yeah, I opened and closed the win-dows."

Give a woman a hair ribbon now-a-days and she will make a formal gown, a bathing suit, and a pair of pajamas out of it.

WAA INITIATES

Initiation of WAA members will be held the week following registration, according to Dorothy Reynolds, president.

To qualify for membership a girl must have completed her participation requirements in at least one WAA activity, Miss Reynolds added.

Student: Hey, you can't smoke in here.
 Other student: I'm not smoking.
 Student: Well, you've got a cigarette in your mouth.
 Other student: Yeah, you've got pants on, but you're not panting.

Hear no evil, see no evil, speak no evil, and you'll never be a success at a tea party.
