VOL. LII No. 16

UNIVERSITY OF NEVADA, RENO, FRIDAY, JANUARY 18, 1946

PRICE FIVE CENTS

THEY WILL PARTICIPATE IN UNIVERSITY WINTER CARNIVAL

Pictured above are five members of the University of Nevada ski team. Dick Rowley, frosh skier, is a cross country specialist. Jimmie Keresey recently returned from the marines, will enroll next semester, as will Les Hawkins and Eddie Meaker, also pictured. Hawkins is a former mountain trooper, while Meaker served in the army air corps. Both are downhill and slalom specialists. Peter Lawlor, New Zealand's contribution to the team, is already enrolled, and is a fast downhill skier. Not pictured are Jerry Wetzel, Ashley van Slyck, Bill Moran, John Hawkins, and Nevada's two women skiers, Jerry Brown and Lois Post.

## Jim Coleman Begins Organization of Radio Program Following Approval of Venture by ASUN Senators

Five Tentative Appointments Are Made By Newly-Elected Program Manager

By Carol Dundee

Tentative lineup of assistants to aid Jim Coleman, production manager of the proposed weekly 15-minute radio program, was announced yesterday. Included are George Ross, director of news; Helen Brania, program director; Tosca Masini, talent scout; Jo Miller and Bob Durham, script and casting managers, and Gordon Harris, chief engineer. Coleman, who was elected manager at a senate meeting Wednesday, stated that he expects the program to get under way sometime in March. Scripts for three weeks will be lined up in advance of the first program. Tryouts for parts in the program will be announced after the scripts have been submitted to the group.

Office on Campus

The radio program, which will be submitted to the radio audience over KOH, will be designed to acquaint listeners with campus functions and activities. An office for the radio program will be located in the AWS room in the ASUN building. Anyone interested or with any suggestions for the radio program should contact Jim Coleman.

Coleman has a combined background of radio and journalism experience. A journalism major at the university, he has had a year and a half of radio work at KOH which include a 15-minute daily farm program, teletype experience and news broadcasting.

Newspaper Experience

He also worked four months last summer for the Gazette, was manager of the football team last spring and Sigma Nu, and vice-president of the interfraternity council, a member of the senate, Coffin and Keys, Sagers, Press Club and past master counselor of DeMolay.

As Coleman's assistants, Gordon Harris, a Sigma Nu, has had past experience working for KOH; Jo Miller, Kappa Alpha Theta president, will start her own radio program tomorrow; Bob Durham, Alpha Tau Omega, has had experience in student assemblies and dramatics.

Tosca Masini and Helen Brania, Delta Delta Delta and Gamma Phi Beta, respectively, have both had experience in radio work and in Reno Little Theater, and George Ross, Phi Sigma Kappa, is serving his journalism internship at the Reno Evening Gazette and is also campus correspondent for the Gazette.

PROFESSOR ILL

Dr. Charles G. Laird, head of the English department, has been at home for the past week with a bad sinus infection. He is expected to return to school next week.

## Patricia Ussery Transferring to Venezuela School

Patricia Ussery, former junior class manager and Pan-Hellenic board president, will leave Reno tomorrow morning with her parents, Mr. and Mrs. Huling Ussery, en route to Venezuela where they will reside for the next several years.

The Usserys will make their new home in Maracay, where Mr. Ussery has an appointment with the state department. Miss Ussery is planning to continue her education at the National University of Venezuela in Caracas, the capital of Venezuela.

Visit in Texas

Miss Ussery, accompanied by her family, will drive as far as Texas where they will visit relatives and continue their voyage as far as Miami by train. The latter part of the journey will be made by plane, making stops at Cuba, Haiti and Panama, then on to Venezuela.

Besides being an active member of Gamma Phi Beta, Miss Ussery has been active in the Sagens, Chi Delta Phi, Press Club, YWCA, war bond, Sagebrush, Artemisia and the Blue Peppers.

## Small Class to Get Degrees This Month

Approximately a dozen students will be graduated from the university this month, a tentative list released from the registrar's office revealed. Mrs. Jeanette C. Rhodes, registrar, stated that many students have not yet checked with her, hence the list is not complete. No names will be released until the list has been finalized.

Arts and sciences graduates lead the list with seven candidates for the degree of bachelor of arts, while only one agriculture student will be graduated. From the college of engineering three men will be graduated.

## Custodian of Leaves Title Is Given Ambitious UN Student

"Everybody wants to get into the act!" This exclamation was made by Robert Webb, production manager of Twentieth Century-Fox while conferring with Dr. Robert S. Griffin, dean of men, about arrangements for filming the forthcoming film, "Margie."

Mr. Webb came forth with the statement when Don Turner made a bid for notice. It seems Mr. Turner was visiting the dean's secretary at the time of the conference and overheard Mr. Webb mention to Dr. Griffin that the studio would have to cover the campus with leaves, but he didn't know where to get enough leaves to do the job.

Volunteer

Mr. Turner promptly volunteered to take on the job saying that he had just neatly piled up a stack of leaves in back of the frat house.

Mr. Webb bestowed on Turner the title of "custodian of the leaves" and he will be assisted by several company trucks to transport them to the campus.

For the sake of art, Turner says he will undo the week's work spent in stacking the leaves and will make them available to the film company.

## Rush Week Date Scheduled by Panhell Council

At the meeting of the Pan-Hellenic Council last Tuesday, headed by Helen Brania, newly appointed chairman who replaces Pat Ussery, the first formal rush week during the spring semester was decided upon.

The estimated number of women to be pledged by the four campus sororities is less than 59, including out of town students. The last rush week during this semester included 92 women pledged.

Silence Week

The week of silence which must be observed by all of the pledges, will commence at 12 o'clock midnight, February 2.

The pledge parties will be set for Tuesday and Wednesday, February 5 and 6, during the afternoon and evening, Thursday night, February 7, will be the preferential dinner, and pledging will be Friday, February 8.

# OVER 300 STUDENTS SOUGHT BY COMPANY AS EXTRAS IN THE FILMING OF "MARGIE"

## SENATE NAMES M. McCOLLISTER TOURNEY HEAD

Original Directors Declared Ineligible

Mary Jean McCollister, sophomore from Reno, has been named winter carnival tournament director by the ASUN senate, student body president, Paul Parraguire, revealed following the meeting Wednesday evening. She replaces original meet directors, Jerry Brown and Peter Lawlor, who are ineligible to direct the tournament because of their participation in the contest as members of the ski team.

Parraguire further stated that a financial limit was set on sorority and fraternity house decorations, \$40 being the limit for the women's groups, which will decorate both the inside and outside of their homes. Fraternity expenditures are limited to \$10, since only exterior decorations will be used.

Stanley Brown, chairman of the seventh annual winter carnival, announced that despite rumors to the contrary the date of the carnival has not been changed. The festivities and ski tournament will still be held on February 15, 16 and 17.

Brown also announced that Placer Junior College has accepted Nevada's invitation to the winter carnival, with acceptances yet to come from USC, UCLA, University of Idaho and University of Utah.

The winter carnival will be covered in both the February and March issues of Western Skiing Magazine, it was learned here by publicity chairman, Virginia Olesen. Miss Olesen has appointed Evelyn Payne to write up both the festivities and the ski meet.

Tourney Director McCollister has asked ski-minded sorority members to cut and measure the red and blue slalom flags this weekend. She further revealed that Charlie Procter, prominent western skier and expert on ski meet direction, has been contacted for advice and information.

President Joe McDonald of the Reno Ski Club has promised that the downtown organization will furnish officials and judges. Bill Morgan will head the judges who are Walter Herz, head timer; Edcelle Herz, Jim Scragham, Earl Edmund, Dorothy Savage, Bette Poe and Glenn Jones.

## Assoc. Engineers Make Plans for Revival of Club

Plans to revive the Associated Engineers Club, an organization to which all engineering students are eligible to belong, are now being made, Stanley G. Palmer, dean of the school of engineering, announced.

The organization in former years planned and carried out the engineer's dance, known as the engineer's brawl, in the fall semester. It also supervised Engineer's Day in the spring semester, and installed the engineer's bench in front of the electrical engineering building on which are placed the bronze plaques also given by the organization, listing the names of the engineering students in each graduating class.

There will probably not be enough time or a sufficient number of students to organize and conduct an Engineer's Day exhibit this spring, but at a meeting early next semester plans will be discussed for an engineer's banquet, which was a regular feature of Engineer's Day.

A prominent engineer is to address the first meeting and the nomination of officers are to be held, Dean Palmer said.

## University Leases Dormitory for Use by Veterans

To alleviate the critical student housing shortage, a dormitory in the Highland Terrace housing project has been leased by the university, according to Dr. Robert S. Griffin, campus coordinator for veterans.

An influx of returning war veterans is expected to greatly overtax current facilities during the forthcoming semester.

Henceforth to be referred to as Lincoln Hall Annex, the dormitory, adjoining the university property, consists of 10 single and double rooms capable of accommodating 30 men. Only veterans will be housed in the dormitory.

Dr. Griffin further stated that negotiations are now under way to lease several of the small apartments, also located in the Highland Terrace area, to accommodate married veterans who plan to enroll here.

## Ban on Corsages Requested of Interfrat Council

A recommendation to the interfraternity council that all corsages and favors at fraternity dances except formal should be discontinued was decided by the ASUN senate Wednesday. This action was taken due to the numerous complaints of accumulating expenses made by male students.

Bob Craig, Independent representative, was appointed to make an estimate of the costs of new furnishings for the snack bar in Stewart Hall which will go into operation the second week in February. Items needed are couches, chairs and tables.

During registration signs will be posted by the Sagers giving instructions to new freshmen and other students as to registration of cars and purchasing of student hand books.

Senate will not meet again until the next semester, February 6.

## 2 Math Courses To Be Resumed

According to an announcement made by the department of mathematics, math 22 and math 34, which have not been offered for some time, will be available next semester.

Math 22 is designed to meet special needs of students of agriculture and biological sciences, which includes pre-med students. The course includes parts of college algebra, trigonometry and analytic geometry of greatest practical value to these students.

Math 34 deals with mathematics of air navigation and was first introduced just after Pearl Harbor. Instructor for the course will be R. K. Zeigler, former AAF navigation instructor.

As a special service to returning veterans, the algebra refresher course, math A, will be offered again next semester. The course carries no college credit but may be used to remove entrance deficiencies. As is usual in the second semester, plane geometry, math B, will be given, also without credit.

## Appear in Exhibit

Charcoal sketches of Helen Brania, Bob Cross, Frank Simoni, Rachel Rand, Marjorie Swenson will appear in the fine arts exhibit in the electrical engineering building beginning January 20 and ending January 25.

## Student Casting Starts Tomorrow Under Direction of Helen Rachie

By Margie Maestretti

Registration of university students as extras for the forthcoming filming of "Margie" on this campus by Twentieth Century-Fox will commence tomorrow at 9 am, according to Miss Helen Rachie. Miss Rachie has been named casting director for students and will have charge of lining up 300 to 400 students to be used in the production.

"Margie" is based on sketches which appeared in the New Yorker magazine with the screen play written by F. Hugh Herbert, author of "Kiss and Tell." Henry King, director of such hits as "A Bell for Adano," "Song of Bernadette" and "Wilson," will direct the production which stars Jeanie Crain.

Official Visits Campus

In charge of preliminary arrangements for filming the picture is Robert Webb, production manager. Mr. Webb spent several days in Reno conferring with university and city officials and making arrangements for filming the production. It was estimated by Mr. Webb that more than 100 technicians and actors will be brought from Hollywood to the job.

Filming of the technicolor production on the campus will begin January 31 and will continue until about February 4. In addition, the company expects to be working on Maple and Elm streets in Reno for another two or three weeks. Although not all students will be needed at once, everyone who registers will work one of the days.

Application for Work

Application for work in the production may be made by filling out the form which appears at the bottom of Twentieth Century-Fox advertisement in this issue of the Sagebrush. These forms are to be filed with Miss Rachie at her office in the basement of Stewart Hall. The deadline for registering is set for Wednesday afternoon, January 23.

The next meeting of this new group will be held Wednesday, January 23, in the education auditorium at 7:30 pm.

## Three Students Pledged by 3 Fraternities

Three fraternities have pledged three students since Christmas vacation, according to word received from the office of Dr. Robert S. Griffin, acting dean of men. They are Phi Sigma Kappa, who last week pledged George Voss; Theta Chi, Ed Gomes, and ATO, Edward Denton.

Rule Changed

Formerly it was necessary for men to be in college for a complete semester before they could be initiated, Dr. Griffin said, but it is now a national rule that fraternity pledges may be initiated before completing a semester at college.

Formal pledging will begin with the spring semester, and Lambda Chi Alpha will start the week off with a dinner for prospective pledges at the chapter house Tuesday evening, February 5. About 22 members of the fraternity are expected to return next semester, and at least 14 of them will live at the house, according to Buck White, president.

Final Degree

Lambda Chi will finish the last degree of initiation this Sunday, followed by a banquet, arranged by Mel Rovetti and Royce Gregory, at the El Cortez Hotel.

## TWELVE NEW RECORDS INSTALLED IN JUKE BOX

Twelve new records have been installed in the juke box in the basement of Stewart Hall, and the damages done by the musical minded thief have been repaired, according to Rose Nannini, YWCA president.

Eleven records were stolen last week when someone forced open the back of the box. The thief has not yet been apprehended, according to Miss Nannini.

## Vets Organization Plans Discussed At Wed. Meeting

By Marilyn Reynolds

In the first step toward organizing a University of Nevada veterans organization, 25 former servicemen met Wednesday evening in the English building to formulate plans for campus activities in the forthcoming semester.

After several lengthy discussions concerning the advisability of such an organization, Douglas Launer, temporary chairman, appointed a committee to correspond with the Universities of California, Stanford, California at Los Angeles and San Jose State College concerning the procedure in drafting a charter and to obtain other suggestions to make such a group function.

Launer, in announcing the formation of the vets organization, stressed the fact that all campus servicemen are eligible for membership as are veterans planning to attend the university this coming semester.

The next meeting of this new group will be held Wednesday, January 23, in the education auditorium at 7:30 pm.

Application for work in the production may be made by filling out the form which appears at the bottom of Twentieth Century-Fox advertisement in this issue of the Sagebrush. These forms are to be filed with Miss Rachie at her office in the basement of Stewart Hall. The deadline for registering is set for Wednesday afternoon, January 23.

The basement of Stewart Hall will be used for the makeup and costume department. Company artists and hairdressers will make up the students to portray high school boys and girls of 1928, and appropriate costumes will be furnished by the company.

Cars Needed

Students owning 1928 year cars or older will be paid extra and may have their cars painted to resemble new 1928 models. Students owning bicycles will be paid extra for their use.

Leaves and artificial trees will be placed about the campus to give the appearance of fall. A cardboard statue of Daniel Webster will be erected in front of Morrill Hall in the cement circle, and all modern cars will be cleared from the campus during the filming.

Special Work

Two university students with some dramatic experience or Reno Little Theater work may be needed for special work in the film. Students with photogenic features, personality and some experience will be interviewed by Mr. King for these two positions, according to Mr. Webb.

## Formal Initiation Scheduled by SAE

Formal initiation of six pledges of the Sigma Alpha Epsilon fraternity will be held at 4 pm Sunday in the Ross-Burke chapel. For the first time since the chapter's reactivation on the hill last year, the initiation offices will be filled by members of the active chapter.

Approximately 100 alumni members are expected to attend the ceremonies. Following the initiation a banquet will be held at the Golden Hotel.

Pledges who will receive their pins Sunday are Douglas Baugus, Fred Disiderio and Jim Thompson of Reno, Bill Buck of Boulder City, Milton Gottardi of Loyalton and John Beyer of San Francisco, California.

### COMMITTEE APPOINTMENTS

One of the first recommendations before the senate Wednesday in regard to the radio program was that a member of each sorority and fraternity be appointed to the radio committee. It is high time that the University of Nevada got away from their class system.

Talent is not so divided that it falls equally in each social organization. One group may have several members who are talented in one field while it is void of people who know anything about another.

In appointing committees it would be well to remember that it is much more important to get qualified people than it is to get a representative from each house on the hill.

We do by no means advocate that fair representation be forgotten. For such groups as the senate, it is imperative that all organizations have their say. However, in the event that a committee is appointed to do one specific job, it would be much wiser to choose students by their initiative, talent and experience, rather than by their social affiliation.

Nevada is too small for the "clique" system, there are too few students to support such a plan. Where leaders have a limited number to choose assistants from, they should be wise enough to consider what a candidate can do and not "who" he is.

### A POINT OF ETIQUETTE

On attending dances of their fraternities after returning from two or three years in the service, past Nevada students have been embarrassed to find that the date they brought was the only woman present without a corsage.

Interfraternity by-laws state that corsages are barred from all fraternity dances except the fraternity formal and all favors are ruled out. In past years this policy has been strictly adhered to.

But sometime during the war the principle slipped. Junior Rockerfellows attending the university could afford a corsage on Friday and another on Saturday—while those who couldn't, afforded them anyhow because of the social pressure.

The GI Bill of Rights, though a generous measure, provides the men attending this college only limited funds—and other men are working to pay for their educations. Orchids cost \$7.50 apiece.

The rule has been made. The reasoning behind the rule is sound. Though women like corsages, they are willing to forego them if there is reason.

Why not follow tradition, carry on the custom of the past that has been proved good. Too, its only good manners.—M.W.

## Students Requested to Line Up Courses for Spring Semester

Students were this week urged to begin lining up their classes for the new semester following the release of the new schedule from the office of the registrar.

As previously announced, students will be permitted to register for the next term during final week. Dean Frederick Wood, advised that as many students as possible should take advantage of this opportunity and thereby alleviate some of the confusion on registration day. The final examinations schedule follows:

	8:00 am to 10:15 am	10:30 am to 12:45 pm	2:00 pm to 4:15 pm
Saturday, January 26	8:00—M.W.F. Classes	1:00—T.Th. Classes	8:00—T.Th. Classes
Monday, January 28	9:00—M.W.F. Classes	2:00—M.W.F. Classes	9:00—T.Th. Classes
Tuesday, January 29	10:00—M.W.F. Classes	2:00—T.Th. Classes	10:00—T.Th. Classes
Wednesday, January 30	1:00—M.W.F. Classes	3:00—M.W.F. Classes	11:00—T.Th. Classes
Thursday, January 31	11:00—M.W.F. Classes	3:00—T.Th. Classes	

### Wedding Plans Made By U of N Students

Merla Funkhouser, former student of the university and member of Kappa Alpha Theta, will be married at 3 pm tomorrow to Lieutenant Robert Hale of San Francisco. The wedding, with a reception following the ceremony, will take place at the Twentieth Century Club.

Jeanne Chartier, senior, received a gift of crystal from her Gamma Phi Beta sorority sisters at the chapter dinner Monday night. Miss Chartier is engaged to Lieutenant Louis Mason of Clinton, Iowa, who was formerly stationed at the university with the 313th CTD. A lingerie shower will be given in honor of Miss Chartier this evening at the home of Betty Lou Kirkley.

On the hill it's hello!

### Meal Planning Class Ends Term

Formal dinner served to 10 guests in the home economics department last night culminated the semester's work of the meal planning class whose members are Maie Nygren, Myrl Nygren and Frances Burke.

Throughout the semester three guests have been served at each of the numerous breakfasts, lunches and dinners whose planning, shopping and preparing have been done by the individual members of the class.

Next week the meal planning class will serve a buffet supper in connection with the demonstration class, whose members are Dace Ricketts and Barbara Whipple.

Donate to March of Dimes.

## COMING EVENTS

Friday, January 18—  
Social at Sigma Nu chapter house after game.

Phi Sigma Kappa and Alpha Tau Omega dances, 8 pm.

Saturday, January 19—  
Independent's all-school dance in the dining hall following the game.

Sunday, January 20—  
Newman Club, 9:30 am mass for communion breakfast at St. Thomas Aquinas Cathedral.

Gamma Phi Beta social for campus men at 710 Sierra, 7 to 9 pm.

Tuesday, January 22—  
Theta Chi and Phi Sigma Kappa social at the Theta Chi chapter house for the Pi Phis, 7 to 9 pm.

January 21 through 26—  
Cinnamon rolls, hot chocolate, and coffee served at the Gamma Phi Beta house, 710 Sierra, after every performance of the Little Theater production, "A Bell for Adano."

## Post Game Dance To Be Held Sat.

Independents will entertain university students with an after-game get-together Saturday night in the dining hall from 9:30 pm to 12:30 am. Chad Summers, chairman of the affair, announced today.

Music will be furnished by Bradley's five-piece orchestra and a dance contest is slated to be held.

Guests of honor invited to the affair are Mrs. Florence Peacock, Mrs. Lola Stout, Mrs. Alice B. Marsh, Dr. Robert Griffin and Dr. Paul Eldridge.

Aiding Summers with arrangements are Bob Craig, David Gramkow, Pat Ross, Barbara Ball, Emmet Johnson, John Lebanok, Ethel Longabaugh, Pete Lawlor, Jo Ann Berg, Pat Burkhalter, Frank Apoletegui and Maurya Wogan.

Then there was the little lady who was so dumb that she thought a goblet was a sailor's child.

Professor: What made you oversleep this morning?

Sleepy Student: Well, there are eight of us in the family and the alarm was set for seven.

## Fleet City Five Added to Nevada Basketball Sked

Three games were added to the university basketball schedule this week when it was announced that the crack Fleet City team would appear in Reno for a two game series on February 5 and 6. A March of Dimes benefit game with Treasure Island has been tentatively scheduled for Wednesday, January 30.

The addition to the schedule means that the silver and blue clad casaba aggregation will appear in at least nine more home games before hanging up their suits for the season.

The remainder of the 1946 schedule follows:

February 1 and 2 — Chico at Reno.

February 5 and 6 — Fleet City at Reno.

February 8 and 9 — San Francisco State at San Francisco.

February 15 and 16 — California Aggies at Reno.

February 22 and 23—University of San Francisco at Reno.

### BREAKFAST MEET PLAN OF NEWMAN CLUB SUN.

Members of the Newman Club will gather for communion breakfast in the basement of St. Thomas Aquinas cathedral Sunday morning at 9:30 am following the morning mass, according to President Pat Heher.

Heher, in making the announcement, requested that all members expecting to be present on Sunday contact club officers Milton Gottardi, Yolo Musso or Nancy Connolly.

Attend U of N games. Back the Wolf Pack.

## Type of Antique Which Might Interest Film Co.

An example of the "Vanishing American," a model T, appeared on campus yesterday, sputtered, and finally stalled in front of the Wolf Den. For an hour it sat there; its driver, Chuck Marriage, of Carson City, straining over the crank.

Pushing, pulling and praying were to no avail—the T still remained inanimate. Not one of the many passersby could give any assistance, they were all ignorant of its mechanisms. Each cry of "get a horse" furthered Chuck's indignation, but still the Ford did not budge. When last seen it was still "at ease."

To those who were on campus last year this model T was reminiscent of the "orange crate" driven by Bob Titus and Bill Root from one end of the university to the other, the bane of all pedestrians. The "orange crate" is dormant now, both of the fellows are now students at Annapolis.

Patronize your advertisers. Now's the time to study for finals.

# Nevada Wolf Pack Seeks Thirteenth Win of Season Against Visiting San Jose State College Tonight

**Two Teams Vie Again Tomorrow Evening; Reserves to Play at 7, Varsity at 8:15 o'Clock**

In the first series against college competition on the home court in two years, Coach Jake Lawlor's basketballers take on the high stepping San Jose State College five tonight in the local gymnasium in the first of a two-game set-to. The two teams will meet again tomorrow evening with the contest scheduled to get underway at 8:15.

Lawlor, in an attempt to add victories 13 and 14 to the already impressive Nevada seasonal record, will open with Jim Melarky and Ebby Robertson at the forward berths, Norbert Smolinski at the pivot post and Ormie Graves and Jim Mackey at guards. Melarky, currently the Wolves main scoring threat, has hit for 70 points in the last four games for an average of better than 17 points per contest.

**Greatly Improved**  
San Jose, after a slow season start has improved greatly the past few weeks and cannot in any sense of the word be considered underdogs for the series. Earlier in the year the Spartans split with the Stanford Redskins, winning the finale, 39-21. Nevada defeated Stanford 47-30 in the invitational tournament.

Notoriously a second half aggregation, the State College five last week against the University of San Francisco overcame a first half nine-point deficit to defeat the Bay City five by 14 points going away. In their most recent outing on Wednesday night, the Spartans after leading San Francisco State by five points at intermission time, came back strong in the final 20 minutes of play to register a 60-42 victory.

High scorer to date has proved to be Ed Magetti, who registered 28 counters against USF and 26 against S. F. State.

**Davis, Dodge to Play**  
While Lawlor will rely mainly on his first line combination which has been clicking lately, certain to see plenty of action during the two-night stand are Grant Davis and Max Dodge. Dodge will alternate at center while Davis will fill one of the forward positions.

Preliminary games starting at 7 pm between the Nevada reserves and local town teams will precede the varsity skirmishes.

## New ROTC Head Takes Over Job

Replacing Lt. Col. E. Lewis Field as head of the department of military science and tactics is Col. Gilbert E. Parker. Col. Parker's assignment to the University of Nevada staff is his first since his return from the European theater of operations, where he was the infantry member of the War Department observers board.

Col. Parker is a civil engineering graduate of Cornell University, and has served 28 years in the regular army. He has seen service in Panama, Hawaii and Europe.

In Washington he served as director of civilian marksmanship and as executive of the national board for the promotion of rifle practice.

He also was a member of the development division headquarters forces, in which capacity he was the staff member responsible for research and development of uniforms, rations, and other quartermaster corps supplies.

Col. Parker was on ROTC duty at the University of Missouri from 1927 to 1932.

On the hill it's "hi."  
Carry your frosh bibles.

THE MOST HONORED WATCH ON THE CAMPUS

THE WORLD'S MOST HONORED WATCH

WINNER OF 10 WORLD'S FAIR GRAND PRIZES, 28 GOLD MEDALS AND MORE HONORS FOR ACCURACY THAN ANY OTHER TIMEPIECE

## ROTC Rifle Team To Fire Against West Virginia U.

Under the direction of M/Sgt. Michael McCormick the University of Nevada ROTC rifle teams are progressing well, and it is believed that even though they had a rather late start they will do well in the matches soon to be fired, Col. Gilbert Parker stated today.

The matches soon to be fired will be against the following schools: West Virginia, January 25; Montana State University, February 2; Pittsburg University, February 15, and Oklahoma A & M, March 2. These matches will be telegraphic, which means that the results of the firings held here and those held at the other schools will be telegraphed to obtain the results.

**Two Matches**  
In addition to the above matches the ROTC rifle team will participate in the Ninth Service Command intercollegiate matches, and the William Randolph Hearst national intercollegiate matches. In these matches the Nevada team will come up against the neighboring teams of Utah, Arizona, California, Washington and Oregon. These, too, will be telegraphic matches.

The men trying out for the 15-man team are Carl Robinson, Don Reid, Jerry Munk, Vern Kinner, Joe Cannan, Bob Tavernia, Elmer Oxborrow, Bob Creveling, Twain West, Roger Olmstead, Bob Bratton, Don Raker, Ed Dysel, Ed Crockett, Bob Patmont, Al Westall and Frank Ambler. Roger Olmstead and Bob Bratton have been leading the group in preliminary work, according to Sgt. McCormick.

Results of these matches will be published as soon as they are completed, Col. Parker added.

## YWCA to Sell Refreshments At Game Tonight

Popcorn and cokes will be sold at the basketball game tonight by YWCA members, according to Rose Nannini, president of the campus group. This is the first in a series of activities for the spring semester which were discussed at a meeting held Tuesday night in Artemisia Hall.

Uniforms of white or red sweaters with "Y" emblems will be worn by the members tonight. Gloria Mapes and Jean Bicknell are in charge of this concession.

**Plan Social**  
Among other activities discussed at the meeting was a social for all campus students to be held in the basement rooms of Stewart Hall. The tentative date is February 6. Teddy Hicks is in charge of the affair.

Anita Hincelot was appointed treasurer of the snack bar committee at the meeting. The snack bar will open the first of next semester, Miss Nannini said.

**National Convention**  
Two YWCA members will attend the national YWCA convention to be held in Atlantic City, New Jersey, on March 2. The names of these delegates will be announced later, according to Miss Nannini.

Barbara Olesen and Vivian Davis were named co-chairmen of a regular ASUN assembly to be sponsored by YWCA. The date was set April 26.

Leslie Harvy gave a report on the regional student assembly which was attended by Miss Helen Rachie, campus YWCA secretary, Jean Adrian Sutton, Dr. Ernest Inwood and Miss Harvey. The YMCA and YWCA convention was held at Pacific Palisades near Santa Monica December 21 to January 1.

## BADMINTON TOURNAMENT

Doubles and singles championships will be played in a badminton tournament, sponsored by WAA to begin Tuesday, according to Mrs. Ethel Whitlatch, instructor in women's physical education. Doris Hansen will manage the tournament.

## Hut Bunny Sez

This little old rabbit called Hut Bunny (cousin to the Snow Bunny) would once again like to bring the picture of frost and crisp christies to you more passive ski fans.

Last Sunday while I was resting my aching skis down in Reno I missed a spectacle that any bunny would like to see — Jerry Brown and Lois Post schussing the big hill. Just to let some of you in on a secret, these schuu sisters came to a stop in an upright position after traveling down 2800 feet of mountain with a vertical drop of 1000 feet. I don't envy the little angel's job of riding down on the back of those waxed hickories.

Publicity is under way for the ski carnival and Sunday Ernie Mack was taking action shots of the team. Peter Lawlor was looking good and the sun was right (this hurts me to mention it). Pete took off for what looked like a nice gelandesprung. The picture still looks nice, but Peter—not so. How man and hickory and steel can become so wrapped up in each other—it's amazing.

Before I leave the memoirs of the big hill I want to make a novice's gesture to a great skier as well as a great fellow. Hats off to you, Bobby Wetzel. We were half way down the hill Saturday when Warren Hart stopped the ski school long enough for us to watch the Wetzel brothers, Jerry leading his blind brother down the hill. Following Jerry's shadow, which is all Bobby can see, the former California jumping champion who lost his sight as a result of a mine exploding in his face during the battle of Voltorno river in 1943, displayed skiing form not often found. Seeing something like this makes your heart slip up into your throat and gives you a guilty conscience for having a sound body and then not being able to really ski.

New faces and methods of skiing appear quite often on the little hill, but I don't think Old Man Mountain has taken such a beating since I first learned the snowplow turn. Saturday Bob Durham, who claims he has water skied; Ginny Cole, whose first trip on skis was behind her home in Ely on a whole foot of snow; Sylvie Geraghty, Pat Ireland, Marianne Wells, Billie Kennedy and Jim Thompson had the whole mountainside looking like mouse-eaten Swiss cheese in a remarkably short time.

## You Can Be An AIRLINE STEWARDESS

Today United Air Lines is seeking young women to be the interesting career of flying the nation's airways as stewardesses on its Mainliners.

- The requirements are:
- Age — 21 to 26 years
  - Height — 5' 2" to 5' 6"
  - Weight — 125 lbs. or less
  - Unmarried
  - Good Health and Vision
  - United States Citizen
  - 2 Years College, or Registered Nurse

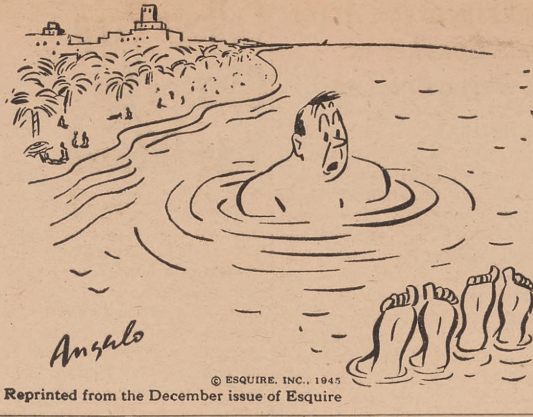

Successful applicants will be furnished transportation to Chicago where they will receive four weeks training at full pay.

Young women who can meet the above qualifications but who are not available for employment at the present time should apply now for future Stewardess classes.

A new booklet "How to Become a Mainliner Stewardess" is now available.

To obtain one, write or apply at Hubbard Field, Reno

**UNITED AIR LINES**

Reprinted from the December issue of Esquire

## Wolves Continue Victory Record With 37-35 Win

With Jim Mackey's 30-foot field goal in the final seconds of play providing the margin of victory, the Nevada Wolves continued their currently successful season last Friday evening when they defeated the Alameda naval air station by a score of 37-35. A scheduled second game the following night was cancelled due to naval regulations.

Except in the first quarter when the Wolves assumed an eight point lead (14-6) and midway in the final period when they came from behind to erase a three point deficit (22-25) did the locals perform up to their early season standard. Halftime found the score deadlocked at 18-18.

**Final Play**  
In the final 20 minutes of play the two quintets traded basket for basket with neither aggregation able to gain more than a four point advantage. Tony Torncello, classy Alameda guard, kept the sailors in striking distance with his long range accuracy connecting for several field goals from almost mid-court.

Jim Melarky's 13 points as a result of four field goals and five free throws, and Ebby Robertson's

## Army Asks Return Of Unused Clothing

World War II veterans throughout the west are being urged by the Ninth Service Command quartermaster at Fort Douglas, to return to the army any unwanted items of GI clothing and equipment still in their possession.

Especially needed are woolen garments, including blouses, OD shirts and underwear. Veterans desiring to turn in clothing and equipment may dispatch them collect to the nearest army installation in care of the property officer.

Five baskets and a pair of charity tosses for a total of 12, led the Pack scoring.

**Decisive Factor**  
Both fives collected 14 field goals during the game, but in the final reckoning the Wolves' ability to capitalize on their free throws, 9 for 13, was the decisive factor.

## Unregistered Student Is Successful in Attending UN Classes

By George Himes

New faces are seen on the campus every day as registration time nears for second semester classes but the newest face is man's, or should we say woman's, best friend, the dog.

Our new friend, called Dog, Junior and various other names because he does not choose to divulge his true name, has definitely shown that he is not interested in any engineering or aggie course, but rather leans toward the arts. His favorite class it seems is art, for that is the one he attends most frequently. He also attends the journalism lab occasionally.

**Well Behaved**  
In class Dog is very well mannered and this leads us to think that if he registers for spring classes he might make very good pledge material for one of our fraternities. Dog has also shown that he is no slouch as a campus "wolf"

either, for he attends every class with one of our campus "belles" and has even mastered the revolving doors at the libe so he can follow them in to study.

**He Gets Around**

He is a regular visitor at the Wolf Den and Artemisia Hall and he is even seen at the YWCA rooms in Stewart Hall occasionally. Some of Dog's newly found girl friends are worried now because he seems to be suffering from a cold. When we asked Dog he had nothing to say.

### Administration Places 8 Students As Housing Shortage Grows Worse

Applications from 59 married men for housing facilities have been filed with the dean of men, Dr. Robert S. Griffin, and of this number, eight have been placed in the Highland Terrace public housing project and three have found apartments for themselves. This leaves a total of 48 married veterans planning to attend university next semester, for whom no housing is immediately available.

Applications from 149 single men have been filed and the normal capacity in Lincoln Hall is 72. A dormitory has been leased at the Highland Terrace public housing project, which will house 30 men. This makes a total of 102 accommodations immediately available for single men.

**Use Fire Escape Room**  
By crowding three men into some of the rooms at Lincoln Hall and by placing beds in fire escape rooms, the capacity can be extended to about 86. If this is done, it will provide accommodations for only 116 men. This still leaves 33 men not provided for, Dr. Griffin said.

The housing problem for single men may be partially solved if the university is successful in leasing a second dormitory in the Highland Terrace project. This second dormitory would care for an additional 30 men. "If no more applications are received, the men may then be housed successfully," said Dr. Griffin. "However, applications continue to arrive and it is expected they will continue to come in until the time that registration for veterans is no longer possible. There is no way of knowing what the additional demand will be," he added.

**Apply to FPHA**  
The university has placed application with the federal public housing authority for erection of temporary units somewhere near the campus for the purpose of housing married student veterans. Since it appears likely that a considerable amount of time may elapse before such housing units can become available, the university is negotiating with the FPHA for the erection of a trailer camp which would accommodate from 35 to 50 veterans.

University administration heads hope to acquire the right to use all of the facilities in the Highland Terrace project, eventually. The total capacity of this project is 100 families and 98 single men. If the full facilities of the Highland Terrace project become available to the university, the trailer camp, if established, can later be made available to the housing authorities of Reno for the taking care of distressed families.

**Ultimate Demand**  
"No one," Dr. Griffin said, "can predict at this time what the ultimate demands for student housing will be. It is estimated that the peak of the problem may develop in the fall semester of 1946 or in the spring of 1947."

The efforts of the university to provide additional housing for student veterans is being coordinated with the efforts of the civic authorities of Reno in attempting to house distressed families in this community.

**Frat Houses Help**  
The pressure on the university for housing single men is being relieved considerably by the re-opening of all fraternity houses. Efforts are being made by the university to help provide the fraternities with needed equipment such as beds, dining room and kitchen items. It is estimated that the total number of students housed by the frats will be approximately 120 single men.

A number of private citizens of the community have offered to make available rooming accommodations to students but the charges in general, are higher than most students can afford to pay. It is urged, however, that people who know of moderately priced apartments, which may become vacant within the next few weeks, contact the office of the dean of men and give the student veterans some preference in the matter.

Read this sentence only once: "Federal fuses are the result of years of scientific study combined with experience of years."

There are six F's in the above sentence. Average intelligence recollects three of them. If you spotted four, you're above average. If you got five you can turn up your nose at anybody. If you got all six, you're a genius.

Oscar came to the big city and got a job as a janitor in a girls' boarding school and was given a pass key to every room in the building. The following week the dean came across him. "Why didn't you come around Friday to get your pay, Oscar?" she asked. "Vot," gasped Oscar. "Do I get wages, too?"

### School of Mines Asked to Aid Mining Activity

The Mackay School of Mines, through the Nevada Mine Operators' Association, has been asked by the state to aid in a program for the preparation of an increase in mining activity, Director Jay A. Carpenter announced.

Four resolutions passed by the governor's advisory board in Carson City for this program are: The Mackay School of Mines should operate a pilot plant where large-scale tests could be made on refractory ores.

The school of mines should operate a practice mine for students giving them access to latest types of equipment and familiarize themselves with classroom-taught modern mining methods.

A geophysical laboratory containing all modern mining instruments for field work as well as classroom study should be maintained. Research to solve metallurgical problems and improve metallurgy in existing plants and mines should begin immediately.

Such a program could be further advanced throughout the state by the use of modern, scientific methods such as geophysical prospecting, and the use of electronic instruments, the association representative pointed out.

### Instructors Back To Campus After Military Leaves

Dean Fredrick Wood of the college of arts and sciences announced the return of several former instructors who have been on military leave, to their prewar posts on the university faculty.

Dr. Everett White Harris, associate professor of mechanical engineering, will take up his campus duties where he left off before serving as lieutenant commander in the navy.

Also serving with the navy in a lieutenant commander's capacity was Professor Paul Atkins Harwood, associate professor of English and master of Lincoln Hall. He rejoins the English department next semester.

Returning as associate professor of geology is Dr. Harry Eugene Wheeler who finished his tour of duty as a lieutenant senior grade in the navy. Ruth Irene Russell, who served as a lieutenant senior grade in the WAVES, will return to the women's PE department as instructor of physical education.

R. K. Zeigler will return to the staff of the mathematics department next semester after service with the army air corps.

### New Music Courses To Be Introduced

Two new music appreciation courses will be offered by the music department next semester, it was recently announced by Prof. Theodore H. Post, head of the department of music.

The first is a study of the living composers of all nationalities. The other, according to Prof. Post, deals with the 19th century romanticists. Similar courses are being completed by students this semester on Russian composers and 18th century music.

Hollywood version: A coward dies a thousand deaths, but a cowboy hero, never.

The streamliner came to a sudden grinding stop. "What has happened, conductor?" asked a nervous old lady.

"Nothing much, we just ran over a cow." "Was it on the track?" "No," replied the disgusted conductor. "We chased it into a barn."

### Shakespearean Actor Guest Speaker at Chi Delta Phi Tea

Gareth Hughes, former Shakespearean actor, was the speaker at the Chi Delta Phi meeting held Wednesday in the English seminar room of the library. Mr. Hughes was introduced to members and guests by Eileen Kerr, club president.

Mr. Hughes' talk consisted of readings from two of Shakespeare's plays, "The Merchant of Venice" and "Richard II." The particular scenes depicted by Mr. Hughes were the bargaining scene from "The Merchant of Venice" which is probably due to the fact the Shylock is one of his favorite characters, and the abdication scene from "Richard II."

Members of the club served tea to the guests, and at this time those present examined the collection of rare manuscripts, including early editions of Shakespeare's plays and leaves from hand illustrated manuscripts belonging to Mr. Hughes.

At the present time Mr. Hughes is residing in Wadsworth where he is pastor of a local church.

### Banquet Slated For 19 Recently Elected Sagers

An initiation banquet for 19 men recently elected to membership in Sagers is scheduled to be held as soon as possible next semester. Tentative date for the affair has been set for Thursday night, February 7, according to Royden Beardall, Sager president. Don Johnson is in charge of arranging the banquet.

Elected to membership from the Sigma Nu fraternity were Herman Cooper, Dick Gilbert, Sinclair Melner, Ty Short and Vernon Kinner. Representing the Sig Alphas were Fred Desiderio, Bill Buck, Milton Gottardi, John Beyer and Douglas Baugus.

Eric Richards, Dick Gorman, Bob Ninnis, Dick Wait and Roger Bissitt were elected from Lambda Chi Alpha. The Taus placed three men, Rex Ricketts, Dave Parraguirre and Bob Cross. Ronald Hicks was elected to membership from the Theta Chi fraternity, but he will be unable to attend the initiation banquet because of his recent enlistment in the navy.

### Students May Submit Quotes to Quiz Book

University students may earn \$2 for clever questions and answers submitted to a new Quiz Book, according to a letter received by Alice B. Marsh, acting dean of women, from Walter E. Hensel, manager of publication of the Park Publishing Company, which is compiling the new book.

In the letter, Mr. Hensel stated that selections would be confined to the better type of humorous and educational questions. Rules concerning entries for the new book will be distributed to students through their sororities, fraternities and other campus organizations, Mrs. Marsh said.

On the hill it's "hi."

### College Prep Courses for Vets Offered

At an arts and science faculty meeting held this afternoon, new courses to be offered next semester were discussed.

In order to satisfy the needs of veterans who are not high school graduates, and who wish to enter the University of Nevada next semester, the following college preparatory courses are to be offered: English A, to be given Monday, Wednesday and Friday at 11 by Mrs. Harriet B. Spencer, assistant in English; history A, to be given Monday, Wednesday and Friday at nine by Dr. Austin E. Hutcheson, associate professor of history and political science; mathematics A (algebra) to be given Monday, Wednesday, Tuesday and Friday at 10 by Dean Fredrick Wood, head of the department of mathematics, and mathematics B (plane geometry) which will be given Monday, Wednesday, Friday and Saturday at eight by R. K. Zeigler.

These courses are for the benefit of veterans or other students who desire college preparatory courses or refresher courses. The preceding courses will carry no college credit, but may be used to remove entrance deficiencies.

### Pioche Is Topic At AIME Meeting

"Progress at Pioche" was Paul Gemmill's talk at a meeting of the Nevada section of the American Institute of Mining Engineers last Monday evening in the Mackay School of Mines building.

Gemmill was a graduate of the school of mining in 1930 and since that time has been employed in Pioche as a mining engineer and geologist, Director Jay A. Carpenter, Mackay School of Mines, said.

Gemmill, who is considered an authority on the Pioche district, outlined in his speech the history of the Pioche mines from the time of their discovery. He also told briefly the daily tonnage of these mines and sketched the probable future prospects. About 75 representatives were present at this meeting of the AIME.

### FORMER STUDENT VISITS

Seaman 1/c Gerry Lokke, student at the university last year, returned to the Great Lakes naval training station Thursday night after spending a two week leave with his family in Sparks.

Lokke is stationed in the personnel division at Great Lakes. On campus he was a member of the Sigma Alpha Epsilon fraternity.

On the hill it's "hello!"

### University Sends \$1114 to WSSF Office at Geneva

Topping their goal by over \$100, the University of Nevada sent in \$1114.02 to the World Student Service Fund center in Geneva, Switzerland. Gloria Mapes and Jimmy Glynn were co-chairmen of the student soliciting committee which completed its work December 12.

"A large part of the success of the drive is due to the effort and cooperation of all of the committees, whose members were thanked by individual letters from the planning committee. However, it was the dollars donated by the university students and faculty who made the topping of our goal possible, and we would like to thank them all at this time," stated Helen Rachie, faculty advisor of the drive, and Billy Heath, general chairman.

### U of N Skiers In Utah Meet

With Jerry Wetzel as captain, Les Hawkins, John Hawkins and Eddie Meaker, all members of the University of Nevada's ski team, will journey to an invitational intercollegiate ski tournament January 25 and 26 at Alta, Utah.

The ski team's expenses will be paid through the university's athletic fund. Teams from Denver University, Colorado University and Montana State College have also accepted bids from the University of Utah to participate in the tournament.

### NUTRITIONIST GIVES LECTURE ON DIETING

"Fashions in Food" was the subject of a talk given by Mrs. Andrew Rice, University of Nevada nutritionist, at the Tri-Delta house this afternoon.

This was the first courtesy clinic talk given this year and attendance was compulsory for all freshman women, Mary Watts Moore, chairman of the service board, stated.

### Nev. Band, Choir Plan Appearances

With increased enrollment expected next semester, the university band is hoping for new recruits, according to Prof. Theodore H. Post, head of the department of music. Plans are also being made for public appearances of the university women's choir, he said.

The band will start rehearsals with the Reno civic orchestra and the Reno civic chorus with the hope of presenting a spring program.

Neither the civic orchestra nor chorus have been active for the past few months, he said.

The women's choir plans to make appearances before the Order of Eastern Star and Twentieth-Century Club during the spring semester.

### Food for Thought Topic at Lecture

"Food Fashions," mimeographed copies of weight charts of average women and of the amount of calories in the foods which should be eaten every day, compiled by Mrs. Andrew Rice, University of Nevada dietician, were distributed at her courtesy clinic lecture at the Tri-Delta house this afternoon.

Mrs. Rice, who studied dietetics at Columbia, ranks as one of the foremost nutritionists in American colleges.

Next month the courtesy clinic lecture will be a discussion pertaining to dress design and color, according to Alice B. Marsh, acting dean of women.

### Three Students Take Part in New Play

Portraying Tina in the play, "A Bell for Adano," Helen Brania, junior student, will appear in the next production of the Reno Little Theater, slated to start January 31. Miss Brania will play opposite David Goldwater who will take the part of Major Joppolo. This will mark her third appearance before Little Theater audiences.

Two other university students will take part in the play, Robert Creveling and Alphonse DiChiarra, both freshman students.

### J. Coughlin Speaks To Chemistry Club

"Trans-Uranium Elements" was the subject of a talk given by James Coughlin at a meeting of the Chemistry Club Tuesday night at the home of Dr. Wallace Sears, according to Jane McCuiston, president.

Each member gave a short review of a scientific article recently printed and discussed these with the group. Refreshments were served after the meeting.

# Dr. Brown, Director, Outlines Courses To Be Offered in Two Summer Sessions

Geography, beginning languages, journalism, literature appreciation and composition, sociology and business courses are among the many new courses to be offered in the 1946 summer sessions, according to Dr. Harold N. Brown, director.

The first term will open June 12 and close July 19. The second term is from July 22 to August 30. With the exception of two or three instructors, all have been selected, according to Dr. Brown.

Courses which have not been offered before include a refresher course in Gregg shorthand and an education and sociology course entitled "The Community and the School." Current problems of the secondary teacher and education for family and community living will be offered by the education department.

## Tulane University Devises Scheme To Divide Studies

New Orleans, La. (IP)—Creation of five divisions within the undergraduate and graduate academic organization of Tulane University, designed to provide for the "fuller teaching and research strength of the faculties" of all non-professional schools of the university was announced by President Rufus C. Harris.

The divisions are the humanities, fine arts, social studies, physical sciences and the biological sciences, Dr. Harris said, with connected departments grouped under each of these heads.

He said that languages and literature, English and foreign, journalism, philosophy and Bible will be grouped under the humanities division. The fine arts division will embrace music, theater, dramatics, speech and education. The division of physical science will group physics, chemistry, geology, astronomy and mathematics.

Under the biological sciences will be botany, zoology, anatomy and physiology (on arts and science level) and psychology.

President Harris said that the division plan with the various departments coordinated under it will make "possible the development of an effective research program for each university department." He said that it would also provide a quite important economy, particularly in personnel, in that a full teaching strength of the faculties may be utilized more flexibly and more completely.

## Math Instructor Returns to Staff After Army Duty

R. Keith Zeigler, formerly a first lieutenant in the army air force, will return to the campus next semester as acting instructor in the department of mathematics.

Mr. Zeigler came to Nevada in 1941 from Kansas State University as assistant in mathematics. He enlisted in 1942 and was commissioned in 1943. After service as a weather officer at various posts, he transferred to navigation.

He expects to complete his work for a master's degree in June and plans to continue his studies at a larger university.

## College Women Play Dual Roll

New Brunswick, N. J. (IP)—The role of the American colleges for women during the past few years has proved to be a double one: to equip women to meet the grave responsibilities for leadership calling them during the present crisis, and to keep alive the vestal fires which kindle the torches of the liberal arts during this period when they have been so dimmed at the college for men, according to Dean Margaret T. Corwin of New Jersey College for Women.

Dean Corwin observed that many changes contemplated at the beginning of the war have proved unnecessary, although a classroom innovation last year was the "coed," the Rutgers University upperclass civilian student "who joined our students for advanced courses in the liberal arts for which it was impossible to provide in Rutgers classrooms, crowded to capacity by students in uniform. They fitted cheerfully and well into their unaccustomed setting, their one apparent concern being how they could explain to their grandchildren why they had been educated at a college for women."

Few academic changes at the women's college were necessitated by the war, Dr. Corwin noted. Reviewing the records of N. J. C.'s 25th anniversary year, she said, "We seem to have avoided any threat of a middle-aged slump. The problems of the times called forth a teamwork within our staff comparable to that of the early days of the college. There was a most generous response on the part of the faculty to requests to meet shortages in departments other than those in which they were accustomed to teach."

Dr. Corwin said the faculty would study in detail the findings of the graduate record examinations, conducted for the first time here last year, with a view to offering cooperation for the fullest possible development of the college program. The showing of N.J.C. seniors in the profile tests, covering the most characteristic fields of a liberal arts curriculum, "indicated an average at all points in advance of the averages listed for the outstanding colleges for women in the east," Dr. Corwin reported.

## Student Collects News Articles

Of interest to most journalism students is Bud Mason's hobby. Bud has collected important news items and their headlines since he was 13 years old. He started this hobby because he had always been interested in news, and his father had collected them. Bud hopes some day that these articles will be worth something commercially.

Some of the older papers in his collection include one from the Civil War, and several from the Spanish American war. Some especially important novelties in the news he has had framed, such as, the stock market crash, World Wars I and II, Pearl Harbor and peace.

Have you seen that lovely 1928 Hudson super six, called the "screeching six," around the campus? Well, if you haven't, you have really missed something. The screeching six is Pat Riley's pet hobby. The car has quite a family history, as a matter of fact, it has been in the Riley family since before Pat was born.

Last year Pat had the car on campus for awhile, and this year it has been a constant companion. You always see it chugging up the hill loaded down with a minimum of 15 people.

Several times the "six" has been taken up skiing, and at such times often has a vapor lock, but coming down the hill it passes everything on the road. The car also has another bad habit of starting to "blow its top" right in the middle of heavy traffic downtown, which usually causes no end of confusion.

A new window has just been installed in the screeching six, so it can now be said that the vehicle has one good window. Pat never has any fears about her pet, because she has worked in a gasoline station, and can handle almost everything that goes wrong.

A designing profession is what Walt Polenske is looking forward to. Walt has sketched things since he was in the first grade, and hopes someday to attend an art school. To keep up with his hobby while here at school he is taking some art courses.

Walt has never done anything in colors, in fact he prefers blacks and whites, with pencil the favorite medium.

Through school Walt has done numerous posters, and last year his sketch of the high school was on the inside cover of the school yearbook.

Hal the sailor observes: Women like a strong, silent man, because they think he's listening.

## University Heads Urge Postponing Military Training

Washington, D. C. (IP)—Presidents of 34 colleges and universities have urged the postponement of a decision on universal military training until a proposed national defense commission could determine its necessity in a long range, comprehensive program of defense against powerful, unprovoked attack.

Until the commission could present its findings the educators proposed the extension of existing selective service and vigorous promotion of voluntary enlistments.

The proposal of the 34 college and university heads was delivered to Representative Andrew T. May, chairman of the house military affairs committee.

The college and university presidents urge adoption of the following program as an alternative to the proposal for enactment now of universal military training.

Extension of existing selective service on year to year basis, with an amendment limiting the period of military service of draftees to 15 months.

Vigorous promotion of new program of voluntary enlistment, stressing adequate pay, attractive retirement options and opportunities for vocational and other training.

Postponement of decision on universal military training, since it is only one element in a long range, comprehensive program of national defense.

## Grad Sends Tubes To EE Department

John A. Goetz, electrical engineering graduate in 1942, has just sent to the school of electrical engineering 17 radio tubes of new design, Dean Stanley G. Palmer, school of engineering, announced.

Following his graduation Goetz worked in navy research at Moffat Field, California, and then went to the National Union Radio Company in New Jersey, where he is now employed as a commercial engineer.

These tubes, ranging from radar tubes used by both the United States and England during the war, and tubes just released in the last few months, are a part of the equipment that has been received from this company.

CLUB PLANS PARTY Plans for a Valentine Day party February 14 were discussed at a meeting of the Math Club last week, according to Charlotte Ferris, president. The party will feature games to be played by the club members.
