

## TRAILER COURT READY FOR USE BY APRIL SIXTH

University Also Takes  
Over Housing Units  
Of Reno Army Air Base

By Bill Gillis

The trailer court will be ready for occupancy on the sixth of April.

That was the heartening news that Acting Dean of Men Robert S. Griffin offered this week as the acute housing shortage continued to be the main topic of campus conversation. With Lincoln Hall, which normally accommodates 70 men now housing 92, and the Highland Terrace project short on adequate facilities, the acquisition of the trailers should alleviate the situation somewhat.

According to Dr. Griffin, university and Federal Public Housing Administration officials signed a lease this week whereby the university will take over the plot of ground located on the corner of West Second and Chism. The lease will be renewed annually and will terminate at the end of four years.

### Utilities Installation

The present program calls for the installation by the FPHA, of all facilities, including extensions of sewer, lines water lines and power lines," Dr. Griffin stated.

Sanitation facilities will be provided for by installation of large central units and the ground, already graded, will be gravelled in the very near future. The trailers are to be conditioned and put in first class condition under the direction of the FPHA prior to the April deadline," Griffin added.

### Priorities

Primarily designed for married couples, priority, as in the past, will be based in the following order: on (1) residents of the state of Nevada, (2) former non-resident students, and (3) non-residents of the state not previously enrolled at the university.

Coinciding with this announcement came the news that university authorities have received word this week through Captain Harold Simer, commanding officer of the Reno Army Air Base, that officials in Washington have granted authority to place certain air base facilities at the base at the disposal of the university.

### Bachelors' Quarters

This program calls for the making available, by the army, ten units of bachelor officers quarters to the University of Nevada. Each unit contains 40 rooms and though relatively small can accommodate two men each if necessary.

In addition, each unit is equipped with lounging and club rooms which will be available to all occupants.

## Frat Ranks Swelled By Eleven This Week

Fraternity pledge ranks were swelled by 11 this week when Acting Dean of Men Robert S. Griffin announced that five organizations had added new men to their rosters.

Leading the parade was Sigma Nu who pledged Fausto Mentaberry, Rondell Shaw and Peter Smith. Sigma Alpha Epsilon added the names of Robert Bedeau and Lester Johnston; Alpha Tau Omega extended bids to Robert Voyles and J. E. Standish; while Bob Berkeley and Lewis Ferguson joined Theta Chi. Lambda Chi Alpha pledged Joe Foley to complete the ten-man list.

Sigma Rho Delta, local fraternity, pledged Pete Mygatt and Walter Averett.

## WAA OFFERING ARCHERY

Archery, a new activity to be offered for WAA credit, started this week, Miss Ruth Russell, assistant instructor in physical education for women, announced this week.

This class will be held at 4 pm and 5 pm on Monday and Wednesday afternoons in the old gymnasium and is for both beginners and advanced archers, Miss Russell said.

## BOB HOPE PROGRAM BROADCAST FROM UN

Hollywood Funnyman Brings Good Cast  
To Play Before Students and Renoites

"This is Bob 'University of Nevada in Reno on the Truckee' Hope," was the catch line that opened the program which kept the students and Reno townspeople in a state of laughter that hasn't been experienced on this campus in many long winters, during his campus broadcast here Tuesday night.

Hope invaded the campus with his humor contingent of Jerry Colonna, Frances Langford, Skinnay Ennis and Wendell Niles, announcer, and guest star ever-so-British David Niven. For over an hour the old gym rocked with the antics of Hope and Colonna, plus the songs of Francis Langford, and the music of Ennis and his band.

Seating the large crowd in an orderly manner and completing the task within the allotted time of 15 minutes were Pat Heher, John Kentera, Matt Klemazewski, John Michael, Don Ealy, Morley Bockman and Curt Baker, under the direction of the campus veterans president, Bill Gillis.

Gag lines for the show were flavored by glorified downtown activities and take-offs on the Mackay School of Mines, not forgetting the "history making on Manzanita Lake." Everything from human slot machines to rolling dice for class grades spiced the program. What may have been overlooked in the 30 minutes of broadcast was certainly brought out in the before and after impromptu performance.

### Sixth of Series

The broadcast Tuesday night was sixth in a series of campus programs staged by the Hope show. While on overseas tours, Hope found GI audiences always responsive and peppy. Keeping along this line he discovered college students are also a live audience and make for a fast moving show, which is one of the aims behind all of Hope's broadcasts.

Richard L. Davis, producer of the show, first contacted university officials two weeks ago from Hollywood in order to obtain administration permission to stage the broadcast here. Permission was granted and the program was slated for February 26. Because of delays, College of the Pacific was substituted that week and March 5 was tentatively set as the broadcast date.

### Housing Problem

Where to hold the broadcast? This was the major problem that confronted Davis and the administration. Although inadequate, the old gym was decided upon. Time then became the issue. In the space of two days the gym was practically rewired, special telephone lines and cable were laid, sound equipment and loudspeakers were hauled by bus from Los Angeles; in short, the gym was completely transformed into an NBC sound stage.

## Refreshment Bar Equipment Bought; Delivery Awaited

Preparation of the interior of the snack bar in the basement of Stewart Hall will take place upon the delivery of furnishings from Herlong, California, and Las Vegas, Nevada, according to Dr. Charles H. Gorman, comptroller and treasurer of the University of Nevada.

The date for the arrival of the furnishings is not certain, but Nevada is first on the list for transfer services.

Last week, equipment such as chairs, stools, settees and an ice cream cooler was purchased by the university from the base at Herlong and the base at Las Vegas.

"These furnishings will be distributed about the campus, with the veterans getting their share, as well as being put to use in the snack bar," Dr. Gorman stated, "but we believe we have adequate equipment for all needs."

The snack bar is only in need of a coffee urn and a counter now. In obtaining a coffee urn, the university will be forced to use a gas one because the electrical overload would be too great if an electric coffee urn were used.

Coming to Reno with Hope by air Monday was a group of 46, the majority of which have been with him since the program first went on the air eight years ago. While not busy broadcasting, most of the cast's time is monopolized by motion pictures. Hope has just finished a Paramount picture, "Monsieur Beaucaire." Guest star David Niven recently completed "The Perfect Marriage" with Loretta Young, his first picture since his return from the British army.

### Last Western College

Hope's western college tour will end next week with a scheduled broadcast from the University of Arizona at Tucson, from there he begins a tour of the larger eastern colleges.

According to Carl Horn, superintendent of grounds, "There were 1278 people at the broadcast. Every student and faculty member who asked for a ticket got one."

## Radio Programs Get Under Way; 2nd on Sat., 8:15

"We'll Take It From Here," University of Nevada radio program, was broadcast over station KOH last Saturday night. The second of the series of student broadcasts will be presented tomorrow night at 8:15, according to Jim Coleman, director of the program.

While in Reno with the Bob Hope show, Skinnay Ennis and his band made a recording of "Hail to Our Sturdy Men," Nevada's school song, which will be used as the theme song for the university radio program. The University of Nevada band furnished the theme song music for last week's broadcast.

### Talent Tryouts

Auditioning of prospective talent was continued this week under the direction of Tosca Masini. Wednesday afternoon tryouts were held for this week's program.

Bill Geraughty acted as announcer for Saturday's program, while Alma Hochstrasser commented on social happenings on the campus. An editorial entitled "A New Student Union Building" was written by George Ross and presented to the radio audience by Jo Miller. A celebrity of the week, Jimmy Melarkey, was announced by Jim Thompson. Bill Friel read the sports and front page news.

At the conclusion of the program a song "Coffee Time" was played and dedicated to Kappa Alpha Theta. Each week a sorority has the privilege of choosing the song of the week. Gordon Harris acts as engineer for the presentations.

Tomorrow night "We'll Take It From Here" will feature Coach Jake Lawlor as the celebrity of the week. He will be introduced and interviewed by Bobby Durham. Pi Beta Phi will choose the song of the week.

## Archery Exhibit To Be Held March 22

An archery exhibition by Stanley Tower, well known archer, will be held in the old gymnasium on March 22 at 11:15 am, Miss Ruth Russell, assistant instructor in physical education, announced.

At one time the seventh ranking national archer, Tower, a second time visitor to the university, will demonstrate the technique of shooting.

## BOB HOPE ENTERTAINS STUDENTS AFTER BROADCAST

The man with the "ski snoot" as he puzzles over some gag in process for delivery to University of Nevada students following his broadcast here Tuesday evening. More than 1000 spectators packed the old gymnasium to view the radio show.

## Bumper Beard Crop To Begin Blossoming March 25

March 25 is the date set for the University of Nevada men to start raising a bumper crop of whiskers for the forthcoming Mackay Day celebration, according to Noel Willis, head of the men's upperclass committee.

Remarkable and amazing results will be expected from the veterans in the beard contest since they have undoubtedly had experience along this line.

A prize will be given to the man with the thickest beard, the best trimmed beard and the reddest beard.

All excuses for not raising a beard must be presented to Noel Willis, head of the men's upperclass committee, or an ASUN officer before March 25.

## University Choir Slates Concert

University of Nevada women's choir is preparing for an appearance before the 20th Century Club of Reno and a spring concert.

The choir is composed of the following 28 women, according to Professor Theodore H. Post: First altos, Pat Riley, Beverly Lewis, Genevieve Swick, Aleta Brown, Mary Libbey and Pela Oyarbide; second altos, Mona Tuttle, Gloria Rosaschi, Joylyn Johnson, Sally Beebe, Betty Boggess, Carol Keith and Larna Drown.

First sopranos, Vivian Davis, Teddy Hicks, Georgiana Hicks, Mary Hanley, Hazel Beckleman, Norma Eason, Betty Johnston, Junerwanda McMichael, Jackie Ross, Jane Perkins, Maile Chase, Nora Saudres and Dorothy Thomas.

Officers of the organization are Mary Libbey, president; Nora Morris, librarian, and Teddy Hicks, secretary. No definite date is set for either performance as yet, said Professor Post.

## Scholarships Offered

The American Legion is offering National Commander Scholarships to sons of deceased veterans of World War I and World War II, who are in need of financial assistance to continue their education.

There is no limitation as to the age of the applicant and he is eligible at any stage of a regular course in a college, professional or technical school, even though his father was not a member of the American Legion.

## Coach Jake Lawlor, 12-Man Squad Leave for Kansas City Tourney Sunday

Coach Jake Lawlor and a 12-man squad, still receiving congratulatory notices for one of the most successful basketball seasons in Nevada history, are scheduled to depart for Kansas City from the Reno airport at 12:21 Sunday morning to compete in the National Association of Intercollegiate Basketball tournament. Original plans to take only ten men and Lawlor were scrapped last night when the athletic control board voted to send the entire squad.

### Season Record

With a regular season record of 26 wins in 30 games behind them, Lawlor's proteges aim their sight on national recognition in the forthcoming tourney. The week long tournament opens on Monday, March 11, with the finals scheduled to be contested the following Saturday.

### Not Favorites

By no means the pre-tourney favorites, the Wolf Pack will definitely enter the national play-offs set on dumping some of the country's best clubs.

"We're not going for the ride," was Coach Lawlor's only comment which means that the local quintet will be shooting the works all the way.

### Top Teams

At Kansas City, the Silver and Blue bearers will engage the outstanding independent teams in the country. Already signed up for the week-long set are such luminaries as East Washington, sporting a spotless record with 23 wins; Pepperdine College, always a giant killer in southern California circles; Loyola of New Orleans; New Mexico Mines, which features Elmo Morgenthaler, top scorer of the nation with 591 points in 27 games; Eastern Kentucky, which claims Fred Lewis, third high individual

## Seven "Stray Greeks" Roam Freely On Nevada Campus

Seven "stray Greeks" are now registered at the University of Nevada. These students are members of national fraternities or sororities not having chapters at Nevada.

To date, the seven strays that have been discovered are Mary Noble, Alpha Chi Omega from the U. of Colorado; Girard Parker, Alpha Gamma Delta from Brenau College, Georgia; Margaret Moseley, Chi Omega, from the U. of Tennessee.

Barbara Ray, Alpha Gamma Delta, from the U. of California; Vivian Peterson, Alpha Omicron Pi, from Indiana U.; Grant Davis, Beta Theta Pi, from Vanderbilt U., Tennessee, and James Mackey, Beta Theta Pi, from Ohio U.

scoring leader in the country, and Arizona University, border conference big-wig.

### Making Journey

Making the trip in addition to Lawlor will be Max Dodge, Jim Mackey, Bob O'Shaughnessy, Jim Melarkey, Orsie Graves, Harry Paille, Les Johnson, Norbert Smolinski, Ebby Robertson, Grant Davis, Bill Gillis and Jack Swendenborg. Present plans call for the team to return next Sunday arriving at 8 pm.

## Literary Contest Revived on Hill

State-wide poetry and short story contest for Nevada high school students is now being sponsored by Chi Delta Phi, national English society, under the direction of Eileen Kerr, president, and Mary Ancho, chairman.

Discontinued for the past few years because of the war, the contest which formerly was an annual event has been revived this year with the hope that it will continue to be a yearly occurrence, Miss Kerr said.

Entries for the contest should be mailed not later than March 31 to Eileen Kerr, 710 Sierra street, Reno. Rules may be learned from Miss Kerr.

## Five Frosh Join Chemistry Club

Five freshman students, Joan Matcovich, Walter Averett, Rosalie Enke, Lois Hitchens and Donald Small, are new members of the Chemistry Club, according to Dr. George W. Sears, head of the department of chemistry.

Dr. Sears is sending the applications of these students to the American Chemistry Society, which will approve them as members of the Nevada chapter of student affiliates of the American Chemistry Society. This chapter is popularly known on the campus as the Chemistry Club.

## SENATE AWARDS GRID SWEATERS TO 13 PLAYERS

ASUN President Voted  
\$15 Per Week Salary;  
Stewart Given Position

By Sylvie Geraghty

Upon recommendation of the ASUN senate, Block N sweaters will be awarded to 13 football players for their participation in the 1945 football season. It was also recommended that the investigating committee examine the scholarship requirements for possible violation on the part of athletes taking part in major sports of the university.

A player must be passing in 11 credit hours, must participate in a specified number of football quarters, be passed upon by the senate executive committee and the senate, and be recommended for letters by the Block N society.

Jack Dieringer's case caused some debate, because although he carried eight and one-half credit hours of work, he was repeating two courses to raise his grades, giving him a total of 17½ hours.

The constitution as interpreted by the executive committee was that "courses retaken or carrying no credit, such as some of the new high school refresher courses now offered in the university curriculum, should not be averaged in with credit carrying courses in determining whether a student athlete may receive a Block N award."

Robert Durham, Max Dodge, Gus Cammerano, Darwin Farnsworth, Maurice Hagleen, Stan Kitchner, Matt Klemeszewski, John Kentara, Walter Polenske, Carl Robinson, Edward Robertson, Norbert Smolinski and Pat Heher.

A ruling was made to pay a \$15 a week salary to Paul Parraguire, student body president, at the ASUN senate meeting last Wednesday, while an amendment to the constitution was proposed that each succeeding president also be paid this wage.

At the next general election, the amendment will be brought to a student body vote. Both the editors and the business managers of the Sagebrush and the Artemisia as well as the circulation manager of the Sagebrush receive salaries for their services.

The senate named Henry Stuart as chairman of the University of Nevada improvement committee, the function of which is to investigate the needs of the university relative to instructors, classroom space, more equipment and better facilities.

Elmer Vacchini, Nora Saunders, Rose Nannini, Frances Cook, Myrl Nygren, Betty Waugh, Dorothy Sewell, Harry Kraul, Arthur Johnson, Jack Dieringer, Curt Baker, Bill Geraghty and Franklin Gardner serve on the committee, representing various social groups on campus.

Paul Parraguire named Frances Escobar to replace Bill Morris, who is no longer a senator, as a member of the board of finance control. Harley Harmon was appointed to the nominating committee to fill the vacancy left by John Baker.

It was also decided that there will be a joint meeting of the student senate and the faculty administrative council next Wednesday at 4 pm in the Mackay science hall. This will be the first of the regular meetings which are held twice yearly to clear up student-faculty problems.

## Book Supplies Still Scarcity

All educational supplies, including everything from drawing boards to text books, are still a scarcity at the University Book Store, according to Frank Erickson, book store owner.

Some of the many reasons for the shortages are the closing of publishing houses because of paper needs, the not yet complete reconversion of supply houses back to educational supplies and mainly the enrollment here, as well as all over the nation, is much higher than anticipated.

### THE NEW GYMNASIUM

Many slams have been directed toward our shiny "white elephant" here on the hill, but never has it taken a verbal beating like the one it took on Tuesday.

Perhaps a good number of comments about the worthlessness of the new gymnasium have not been justified. However, it is safe to say that there are a substantial number which rightly may be filed against it.

When Bob Hope's agent contacted university officials seeking a place to stage their show on our campus, they met considerable difficulty in locating an auditorium suitable to their needs.

The new gymnasium might have been ideal except for the fact that it is not acoustically sound. It is totally ironical that this condition should exist in a comparatively new building in which it was anticipated that shows and programs might be given.

There are other reasons, too, contributing to the title "white elephant" used in connection with the new gymnasium. Some of these were ironed out when various administration officials were queried yesterday concerning the situation.

However, one valid charge against the structure is that it cannot be used for anything other than basketball. Originally it was to serve many sports—handball, tumbling, boxing, wrestling, to name a few. As things stand now — it is possible that it will be a considerable length of time before rooms will be fitted to serve these purposes.

The women's handball court is a farce. Situated below basement level of the building, the room has high, dungeon-like walls, an unfinished ceiling consisting of a network of pipes. Perhaps these things could be overlooked if it weren't for the fact that the room is about 18 by 20 feet—not nearly large enough for a handball court.

The men's tumbling room doesn't look so bad on first glance—it, too, has not yet been completed. We could overlook this if it were not for the fact that the ceiling is much too low for tumbling. This mistake cannot be corrected by furnishings and interior finishings.

The pillars which support the baskets on the court have been the subject of much criticism. Although no player has yet been seriously injured by one of these obstructions, there is always the possibility that this may happen. We inquired as to the purpose of these columns and found that they were to be used to hold curtains to divide the main floor so that two basketball groups might practice at the same time.

The floor plan of the structure shows a maze of unnecessary doors, passages, closets and unutilized space. One small room, about five by five feet, has four doors!

The heating system, which has not yet been completed, has been a source of discomfort during the winters for all occupants of the building. However, when materials for the completion of the system are available, it is believed that this situation will be remedied.

Some students believed that a swimming pool was to be included in the construction of the building. This is untrue. It is true, however, that a pool was considered when the plans were laid out and there is room on the north side of the building for its construction.

There are many of us who wonder just why these conditions exist. That is a good question—but more specifically—a moot question. We don't know.

Perhaps it seems somewhat futile to bring this problem up at this time—since the building is nearly completed. This is easily explained in view of the fact that we have more buildings on the way and we should hate to see a repetition of mistakes.

### Barbs Offering Prize In Membership Drive

given to persons selling second and third highest number of cards and turning in an equal amount of money," Craig, added.

"Prizes for the person selling the most membership cards over ten by March 4, will be a leather bound brief case type removable three ring binder," stated Robert R. Craig, president of Organized Independents, referring to a contest among Independents to boost membership, beginning February 18 and ending March 4.

### GRAD REPRESENTS U OF N

Jay O. Gibson, 1942 graduate and formerly of Reno, represented the university at the inauguration of Dr. Arthur H. Compton as chancellor of Washington University in St. Louis, Missouri, February 22. The inauguration took place on the ninety-third anniversary of the founding of the university.

## June Harp Named Outing Club Prexy

June Harp, freshman, was elected president of the Outing Club at a meeting on March 7. Mary Catherine Hanley, freshman, will serve as vice-president, and Beryl Dickerson, sophomore, secretary-treasurer. Miss Harp succeeds Phyllis Snyder.

Plans were made at the meeting for a bicycle ride and picnic to be held on March 16, announced Miss Ruth Russell, assistant instructor in physical education.

Miss Margery Turner, assistant instructor in physical education, will accompany the group on the all-day outing. The destination for the ride has not yet been decided, Miss Russell said.

## House Inspection Nixed by Council

Motion requiring a monthly inspection of campus fraternity houses by the office of the dean of men was repealed Monday afternoon by members of the Interfraternity Council, according to Doug Launer, secretary. The motion had been passed at a special meeting of the interfrat group February 25.

Also defeated by the members of the Interfraternity Council was the proposed amendment to the by-laws of the council requiring one full semester's attendance at the university with a grade average of at least 1.7 of all fraternity pledges before they may receive the formal initiation of the fraternity, Launer said.

## Coming Events

- Friday, March 8—
  - Lambda Chi Alpha social for Kappa Alpha Theta.
  - Alpha Tau Omega social for Delta Delta Delta.
  - Pi Beta Phi exchange dinner with Kappa Alpha Theta.
  - Theta Chi pledge dance.
- Saturday, March 9—
  - Sigma Alpha Epsilon Founder's Day banquet.
  - Alpha Tau Omega pledge dance.
- Sunday, March 10—
  - Lambda Chi Alpha initiation banquet.
  - Pi Beta Phi tea for Mrs. N. Fulton.
- Monday, March 11—
  - Sorority and fraternity house meetings.
- Wednesday, March 13—
  - Delta Delta Delta social for Alpha Tau Omega and Theta Chi.
- Thursday, March 14—
  - Theta Chi social for Gamma Phi Beta.
  - Kappa Alpha Theta social for Sigma Alpha Epsilon and Sigma Rho Delta.

## Military Department Plans Under Way For Addition of Air Force Program

The U. of N. military department is now making plans for the addition next fall of an air force program that will be offered along with the infantry training, according to Col. Gilbert Parker, professor of military science and tactics.

In 1942 the war department decreed that the regular service schools relieve the ROTC of the function of training new officers and the advanced courses were discontinued at all civilian educational institutions.

**Pre-War Course**  
Prior to World War II it was required here that all men students take a two year basic ROTC course which at that time consisted only of infantry, with the advanced course being elective. The advanced training also last two years but included a six weeks summer camp following the first year of advanced work.

The advanced military work was accepted as a minor in the college of arts and science. Upon satisfactorily completing the advanced training the student was rewarded with a commission as a second lieutenant in the infantry reserve.

**Follow Same Plan**  
Next fall when the infantry advanced course is re-established it will follow along the same basis as before. Enrollments at that time will be accepted for the first year only. The allotment for this university is 50 men. The minimum age accepted is 19. With those who reach the age of 18 without having had previous duty in the armed services being drafted, it is expected that most of this quota will be filled from eligible veterans. Changes in the draft could alter this picture materially before the fall semester.

Under present plans the basic courses will be the same for both the infantry and air force programs.

The basic ROTC training or equivalent training elsewhere is a prerequisite in both advanced courses. Allotment for the air force is also held at 50 men in the advance work.

**Longer Course**  
The air force advanced course is longer than the infantry program as the summer camp lasts 10 weeks and includes sufficient flying instruction to qualify the candidate, if he desires to apply to the CAA, for a private flying license. After satisfactory completion of the second year of advanced training he is granted a provisional commission in the air corps reserve.

Immediately after graduation from the university the provisional officer will be required to take a year of active duty. During this period he completes ground school, basic and advanced flying, and participates in administration and training duties appropriate for a junior officer.

**Flying License**  
When this year has been completed, the provisional commission is replaced by a standard commission as second lieutenant in the air corps reserve. By this time the stu-

dent has had enough training and experience to qualify him to apply to the CAA for any commercial flying license requiring not more than 200 hours of flying time.

Both of the advanced groups of students will receive the same pay. Mid-year enrollment in the advanced military courses is discouraged by the ROTC department, though it is possible that a few exceptional cases will be accepted in the 1946-47 school year. In following years fall enrollment only will be the rule.

## Taylor's Boxers Edge Susanville In College Meet

Coach Dick Taylor's boxing squad made their 1946 seasonal debut a successful one when they edged the Lassen College team by the narrow margin of 3-2. The matches were held last Saturday at Susanville in conjunction with the California college's first homecoming day.

Frenchy Laxalt won cleverly in the welterweight division, Sharron Wasson and Len Alloy were awarded defaults in the light and middleweight classes while light-heavyweight Bob Mason dropped a furious three round slugging match. Don Ealy in losing a close decision in the 140 pound class nevertheless shared the evening's honors with his opponent by having the fight tabbed as the most popular on the card.

The main event of the evening featured Jack Swobe and Merle Evans, former Nevada Golden Gloves champ, putting on a three-round no decision exhibition.

Other exhibition bouts included matches between heavyweights Pat Heher and John Kentera and Wasson and Alloy.

### FROSH-SOPH TO COMBINE

Members of the sophomore and freshman classes are planning to combine forces and present a "frosh-soph hop" March 22, Mel Rovetti, manager of the sophomore class, said today. Committees for planning the dance will be appointed soon.

## Warm-Up Jackets Arrive for Final Home Game

Fans of the University of Nevada's basketball team who witnessed Saturday night's contest with the Olympic Club, saw the Wolves adorned with their new warm-up jackets for the first time this season.

The jackets, which were ordered before the season started along with sweat pants, were very late in arriving, because of the inability of the knitting mills to get materials sooner, Coach Jake Lawlor said.

Most local fans will be unable to see the Pack dressed in them again this year, due to the fact that Saturday's home game was the last of the regular season.

The jackets are all white with blue stripes down the sleeves and all blue collar. Although ordered with the jackets, the sweat pants are not expected to arrive before the Wolves leave for Kansas City.

## ROTC Rifle Team Finishes Eighth

Results of the Hearst trophy matches for the ninth service command were announced this week with the Nevada ROTC rifle team finishing in eighth place among the 20 teams competing in the senior division. The University of Nevada ROTC score in the match was 822 out of a possible 1000.

Highest individual score from among the varsity men competing on these teams was shot by Cadet Fred M. Bratmon, University of Nevada. Bratmon fired 188 out of a possible 200. In accordance with the regulations governing the matches, Cadet Bratmon will receive a gold medal in recognition of his achievement.

All of the firing was done on the team's own range and the targets sent to Ft. Douglas.

Captain of the team was Roger R. Olmsted. Other members of the team were Bratmon, Don S. Johnson, Edward C. Dysle and Donnel R. Raker.

## Wolf Pack Takes Pair of Wins From Olympic Club As Season Ends With 26 Wins Against Four Defeats

### Nevada Five Trails Star-Studded Winged-O Team In Second Contest, Pulls Into Lead in Second Half

Winning easily Friday night, 58 to 42, and coming from behind Saturday night to eke out a 43 to 40 verdict, the University of Nevada Wolf Pack climaxed its most successful season on record by pasting a double defeat on the vaunted Olympic Club of San Francisco, to boast a season total of 26 wins against four defeats.

Going into an early lead, which they never relinquished, Nevada won Friday night with much more ease than some 3000 fans who crowded the new gymnasium anticipated. The Wolf Pack proved its versatility in gathering points as the long-range ring of "Bombsight" Bob O'Shaughnessy and "Howiaer" Jim Mackey was slightly erratic, and the 300-point jump shot of Jimmy Melarkey failed to connect—Jim being doped on sulfa to counteract an earache.

Grant "Skippy" Davis came to the fore and put on a scoring spree from under the hoop which netted him 18 points, high for the evening. O'Shaughnessy drove in for four field goals and capitalized on his free throws by sinking six out of seven to total 14 points, second high for the Pack.

Former Stanford Star Leading the Winged-O attack was formed Stanford All-American Don Burness. Firing a deadly left handed push shot both from under the basket and out front, Burness racked up 16 points to be the visitors' big threat.

Forrest Anderson, although limited to two field goals, constantly got in Nevada's hair by intercepting passes and his own flashy passing. A former Stanfordite, he has tremendous speed and utilizes it by lying back waiting for an opponent to pass the ball. Almost before the ball is passed he is on his way and intercepts before the ball arrives at its destination.

Good Floor Game Jim Mackey also turned in a good floor game and netted 10 points on three field goals and four free throws. Big Max Dodge got nine, all in the first five minutes of play.

Saturday night saw the Pack all decked out in the belated warm-up jackets nearly stubbed its toe as the Olympic Club served notice that advance predictions weren't all hokey and went into an early lead only to lengthen it as the game went on.

Nevada was careless in its passing which proved nearly disastrous as flashy Forrest Anderson continued with renewed vigor where he

left off the night before, in his ball hawking and fancy passing. Coupled with Don Burgess, who again lead the Olympic scoring with 10 points, he kept the Pack from getting under way and did a little scoring of his own to keep his team well out in the lead until the final minutes.

### NAVY HELLCAT MOVED

The navy hellcat fighter, formerly kept behind the electrical engineering building, has been moved to the Reno Army Air Base where it will be kept under guard. The move became necessary when vandals began cutting the wings of the plane and tampering with the instrument panel. The plane will be returned to the university when the air force ROTC has been installed on the university campus.

Father: Who was that man I saw you kissing last night?  
Daughter: Ah—what time was it, dad?

"I told him that he mustn't see me any more."  
"What did he do?"  
"He turned out the lights."

## Planting Television

ABOUT 7,000 miles of coaxial cable will be added to our plant during the next few years. Inside each cable are six or eight copper tubes—each pair a broad communications highway over which two television programs or nearly 500 long distance telephone calls can travel. Giant plow-trains will "plant" much of this cable deep in the ground—safe from storm and fire.

This construction is but a part of our activity in the television field. Now in an advanced experimental stage are plans to link coaxial cables and high frequency radio relay systems to provide a nationwide television network.

Our part in television is the transmission of programs from one station to another. As this new industry develops, the Bell System will be prepared to provide whatever network facilities are needed.

BELL TELEPHONE SYSTEM

## Committees for AAAS Meeting Named by Convention Chairman

Faculty Members Lay Plans for Convention June 17 to 22 of West Coast Scientists

By Ardis Fitch

Committees have been announced for the convention of the American Association for the Advancement of Science to be held on the campus June 17 to 22, according to Dr. George W. Sears, general chairman for the convention and head of the chemistry department.

Scientists from the west coast will be on hand to exchange knowledge and discuss developments made in the field of science.

Dr. Ernest L. Inwood, head of the department of economics, business, and sociology, will as chairman of the finance committee for the convention. Professor Alfred L. Higginbotham, head of the department of journalism, will be in charge of the printing and publicity work. Dr. Harry E. Wheeler, associate professor of geology, will be in charge of exhibits, transportation and excursions. Various trips will be taken by the scientists to surrounding points of interest, Dr. Sears said.

### Accommodations

Dr. Robert S. Griffin, acting dean of men, will handle hotel and dormitory accommodations for the delegates to the convention. Dr. Sears added that it is hoped that sorority and fraternity houses and dormitories will cooperate in housing the scientists.

Cecil W. Creel, director of the agricultural extension division of the university, will be head of a

committee to arrange receptions and entertainment. Director Jay A. Carpenter of the Mackay School of Mines, will have charge of registration and information.

### Programs and Meetings

Dean Stanley G. Palmer, dean of the college of engineering, will have charge of properties and meeting places. Dr. William D. Billings, associate professor of biology, will be in charge of the committee which is to arrange the programs and cooperation with participating societies.

In 1927 the University of Nevada campus was the scene of the American Association for the Advancement of Science convention. These men have not convened since 1942 when they met in Salt Lake City, according to Dr. Sears.

### NOTICE

The bi-monthly meeting of the student veterans campus organization will be held Thursday evening, March 14, at 7:30 in the auditorium of the education building, according to President Bill Gillis. Date for the first veterans dance of the spring semester will be determined at that time.

## VETERANS GET TOP OFFICES IN UN FRATS

Theta Chi's Last Greeks To Hold Election Of Officers for Year

With Theta Chi the only fraternity not having held their election, March found Nevada's fraternities well underway in the spring semester headed by their new officers. Judging by elections held throughout February to decide who will head the various fraternities during the ensuing year, the general trend seemed to be to turn the executive positions back to veterans who either held the office previously or who were in line for the office before leaving for the service.

The Sigma Nus turned to the leadership of Doug Trail as commander, assisted by Vernon Kinner as secretary. Trail is a junior in agriculture and hails from Reno, while Kinner is a freshman engineering student from Sparks.

### Alpha Tau Omega

Max Dodge, senior journalism student who came to Nevada from Fall City, Washington, last fall, will be the one to keep the Alpha Tau Omega in tow for the next year. The Taus elected Frank Gardner, freshman pre-legal student from Lovelock, to serve as secretary.

Lambda Chi Alpha will be headed by Lytle Roush, physical education senior from Las Vegas, while Stan Brown will perform the duties of secretary. Brown is a freshman arts and science student from Reno.

Roy Beardall, former head of Sigma Alpha Epsilon, turned his post over to Elmer Vaccina for the coming year. Vaccina, sophomore business administration student, will be aided by Jim Thompson, freshman engineering student. Both men are from Reno.

### Phi Sigma Kappa

Noel Willis, senior agriculture student from Yerington, will continue as Phi Sigma Kappa head, assisted by Don Reid, a junior mining engineering major from Henderson, Nevada, as secretary.

Sigma Rho Delta, local fraternity, is headed by Bill Fryer, senior agriculture student who hails from Oakland. Secretary for the organization will be Ben Lewis, sophomore mining student from Los Angeles.

The Theta Chis will be headed by Gordon Mills and Fred Bratman until their spring elections to be held soon, Mills said.

## Counselors Sought By Campfire Group

"Mrs. Clarence Jones will file application blanks in this office next week for counselors for the summer Camp Fire Girls camp at Lake Tahoe," stated Mrs. Alice B. Marsh, acting dean of women, this week.

She also said that any woman interested in becoming counselors for the camp may call at the dean of women's office and register for the work. Mrs. Jones will give a course in counselling to those accepted for the positions.

Camp will begin the third week in June and will be in session for two weeks.

"For further details," added Mrs. Marsh, "please see Mrs. Jones."

## Dean Pronounces Radio Program For Vets Success

The first student veterans radio program was pronounced a complete success by Robert S. Griffin, veterans campus coordinator, as offers for part-time employees continued to pour into the dean of men's office.

"Several veterans have already been placed in part-time employment and several job offers remain unfilled," stated the acting dean of men.

Griffin urged that veterans interested in part-time employment should inquire in room 203 Morrill Hall for further information concerning the varied assortment of unfilled positions.

The vets program, first aired over radio station KOH through the courtesy of the studio management, will continue to broadcast on a weekly basis every Thursday afternoon at 5:45.

Main purpose of the program will be to secure part time jobs as well as housing facilities for veterans, but from time to time, entertainment by the veterans will be furnished, according to George Rogers, chairman of the student veterans employment bureau.

## Barbershop Quartet Rehearsals Under Way in Music Dept.

Strains of "Down by the Old Mill Stream" and "How Can I Leave You," done in the best barbershop quartet fashion, echo in the halls of the education building every Monday and Wednesday afternoon.

The GI quartet, Ed Philips, first tenor; Royden Beardall, second tenor; Lloyd Johnson, baritone, and Dick Jamison, bass, are responsible for these afternoon renditions devoted to the producing of the closest of close harmony.

While not restricted to the usual barbershop harmony style of music,

by ear, this quartet expects to render in no uncertain chords some of the old songs and ballads for local programs, Prof. Theodore H. Post, professor and director of music, stated.

**GOOD NEWS for young women who want to be UNITED AIR LINES STEWARDESSES**  
New qualifications—new planes—more flights—increased opportunities  
You are a person to be envied when you are a United Air Lines Stewardess. You fly in the finest planes. You wear a smart, attractive uniform. Your work is pleasant and appreciated. You travel over interesting routes. Your schedule calls for only 85 hours in the air per month. You are stationed in such cities as San Francisco, Denver, or Portland.  
From now on more young women can become United Air Lines Stewardesses. Applicants can now be 5' 7" tall instead of 5' 6". The minimum height is 5' 2". Young women are now accepted with one year of college and one year of business experience, or two years of college. Registered nurses are eligible without college training. Other requirements are: age 21 to 26; weight—135 pounds or less; unmarried; good health and vision; United States citizen. A new booklet—"How to become a Mainliner Stewardess" is now available.  
Successful applicants will be given 4 weeks training at full pay. New classes are being organized now. Apply today, or write
