UNIVERSITY OF NEVADA, RENO, TUESDAY, SEPTEMBER 14, 1948

Dean of Men Offers Advice and Aid In Solving Student Body Problems

Dr. Griffin Outlines the High Standards Which Are Prevailing at the University of Nevada

To All New Students:

"The office of the dean of men extends to all new students a sincere and cordial greeting. You will find everyone in our office dedicated to friendly helpfulness. You are invited to drop in, get acquainted and ask questions. We will find for you a room, a job, a friend. Whatever be your problem, you are invited to try us for a solution. If we don't know the answers, we probably know who does.

"You have no doubt heard a good many things about colleges in general, and about the University of Nevada in particular. It is quite likely that much of what you have heard is only partially accurate at best. There are, however, some things upon which you may count. During your orientation and afterward, it might be well to keep in mind.

"First, the standards of the university are high, both in scholarship and in personal conduct. The faculty is highly trained, energetic and fully competent to give you the best kind of instruction in your chosen field. Despite certain limitations in equipment and facilities, the university is equipped to give you superior training and experience in most of the fields in which it attempts to offer major studies. Much will be expected of you in the way of personal endeavor. If you may be certain of receiving a you give your best efforts, you superior education.

"In the matter of personal conduct, you will also be expected to meet the high standards which are established. In identifying yourself with the University of Nevada, you assume your share of responsibility for its fair name and reputation. As that good reputation is protected by you, so will that good reputation reflect itself beneficially upon you and your career in the future. Your own reputation in college will follow you the rest of your life. Begin at once to conduct yourself in a manner at all times which will earn for you the enduring respect of your fellow students and faculty.

"The university is a complex organization. There are regulations and procedures governing almost all your activities. Begin now by studying your handbook and learning all that you can about the university and how it operates. Many a slip and many a headache could have been avoided in the past if students had known of the university and of what the university expects of the student. Don't let the misfortunes of ignorance become your lot.

"One last word. If you find yourself in difficulty over anything, do not hesitate to ask for advice and help. Take your problems to someone in a position of responsibility. Your instructors, the dean of your colleges, the deans of men and women will all take time to consult with you and give you accurate information and competent advice.

"Again may I extend to you my own cordial greeting and best wishes for success and enjoyment during the years which you will spend at the U. of N.

Sincerely yours,

R. S. Griffin,
Dean of Men.

Notice to Frosh Planning to Pledge

All freshmen who are planning to pledge sororities or fraternities this semester are cautioned to arrange their schedules so they are carrying at least 12 semester hours. This is the minimum study load accepted by frats and sororities. All who pledge should keep in mind that these organizations want their members to maintain a 2.2 grade average.

Freshmen who are planning to join other campus organizations are referred to the university bulletin for requirements of the various organizations. Bulletins may be obtained at the registrar's office in the quonset huts.

Parade Acquaints Frosh With 'Hill' Group Activities

Colorful Booths Attract 700 New Students Seeking Club Information

"The Activities Parade," held amid gayly decorated booths in the campus gymnasium Monday evening, attracted approximately 700 new freshmen, seeking information about campus organizations.

Professor Craig Sheppard of the department of art, assisted by Professors Joe Moose, J. R. Van Dyke, Clarence Byrd and Irving Sandorf, were in charge of the parade program.

Student organizations advertised their activities from stalls along the parade midway, and refreshments were served to the incoming frosh.

Orientation will be continued tomorrow morning, when new students will again meet at the gymnasium, and be introduced to college deans, sing Nevada songs, and hear talks concerning traditions and planning for cultural values in college.

New women students will then adjourn to the education auditorium where they will be addressed by Miss Elaine Mobley, dean of women. At this time the AWS fashion show, under the direction of Lorraine Houghton, Associated Women Students president, will be presented.

At the same time, men students will remain in the gymnasium where Dr. Robert Griffin, dean of men, will speak. Mr. Keith Lee, veterans training officer, will answer questions on veterans affairs. In the afternoon, instructions will be given non registration procedure.

Wednesday, everyone registers, and Thursday classes begin as scheduled.

CALENDAR COMMITTEE MEETING SCHEDULED

First meeting of the calendar committee has been set for Tuesday, September 21, at 4 pm, announced Dr. Robert S. Griffin, dean of men.

Dr. Griffin's office in the administrative quonset hut will be the place of meeting.

DR. JOHN O. MOSELEY (CASEY JONES) ARRIVES IN CHICAGO

Dr. John O. Moseley, president of the University of Nevada, takes time out during his recent vacation to play engineer on the Union Pacific's miniature streamliner exhibited at the Chicago Railroad Fair. Pictured, front to rear, are Dr. Moseley, Mr. Ralph Bradford, executive vice-president of the United States Chamber of Commerce, Mrs. Moseley, Alice Brady of Las Vegas and Margaret Moseley.

Frosh Presented With Ice Breaker

Frost orientation week and the 1948-49 social season began officially Saturday night with the annual "ice breaker" dance, held in the gymnasium under the sponsorship of the YWCA.

The decorations committee under the leadership of Bonnie Molognoni had as their theme igloos and a large parachute with blue and white streamers. Name tags were presented to the freshmen by Dolores Spradling and her program committee. The refreshment committee was headed by Joan Greggor.

Dancing began at 7:30. Music was furnished by Joyce Ficus and her seven piece band.

As part of the orientation program, representatives from each of the Reno churches gave brief talks on college life and YWCA. Jean Howden, new YWCA secretary, was introduced by Rex Jemison, student body president and master of ceremonies.

Freshmen were also given a somewhat informal introduction to campus traditions by Rex Jemison and Mark Bray.

Barbara Smith was overall chairman for the dance.

DEAN OF MEN

Dr. R. S. Griffin

Headman Speaks

To All New Students: I am grateful to the editor of the Sagebrush for this opportunity to welcome to the University of Nevada the members of the class of 1952.

You are entering a university which has a noble origin, a proud history and a long record of successful achievement. May I suggest that you resolve now to identify yourselves with its ideals and activities in order that you might make yourselves truly a part of it.

You will find here every facility for the development of your character, personality and scholarship, all of which combine to make a truly educated person.

May I wish for each of you a happy and successful year. Your faculty members and administrative officers are here to serve you. Please feel free to call upon us at any time. Let us join in making the year, 1948-49, memorable in our lives and in the progress of our university.

Sincerely yours,
John Moseley.

Fancy Decals for Auto Registrants

Fancy decal stickers issued by Blue Key men to campus car registrants will add a proud look to your jalopy.

These blue and white colored transfers are being given out to students and faculty members in order to register their cars for campus parking areas.

Blue Key, national honorary service organization, will set up shop to issue the decals during registration. Students will receive blue colored transfers, and the faculty members, white.

Car owners will favor the Blue Key men by remembering their license plate number. In exchange, the honorary group will register a number that will remain with one car owner all through college.

Dean of Women Extends Welcome

"I am happy to have this opportunity to express my personal greeting to you during the first week of your residence as a University of Nevada student.

"We want you to feel that you belong to one of the friendliest universities in the country. The freshmen week program has been planned to help you become socially acquainted with each other, to give you the opportunity to meet the dean of the colleges and to give you specific information on vocations and the techniques of registering. Your advisors, professors and fellow students are all ready and waiting to assist you.

"The dean of women's office is located in the north quonset and we shall be happy to have you drop in at any time. If you are looking for employment, we may be able to assist you. If you have what seems to be a problem, stop by the office, perhaps we can help you solve it or direct you to someone in authority who can.

Sincerely yours,
Elaine Mobley,
Dean of Women.

DEAN OF WOMEN

Miss Elaine Mobley

Nevada's 1948 Registration Figure Will Equal or Pass Record Mark

Number of High School Graduates From This State Expected to Enroll Will Exceed 1947's Count

NOTICE

Railroad tickets for old students will be distributed at the registrar's office Wednesday morning, September 15, beginning at 10 o'clock.

All students who attended summer session are requested to pick up their grade cards at the registrar's office immediately. It may be necessary to have these cards in order to register for the fall semester.

"Total registration for 1948 at the University of Nevada will equal or slightly exceed the 1800 mark set last year," announced Dr. Merl W. Deming, director of admissions.

Of the 634 new students including freshmen and transfers enrolled at present, 347 of them are Nevada high school graduates. This shows an appreciable increase above the enrollment of Nevada high school graduates last year. Dr. Deming stated that enrollment would probably be increased by at least 60 students.

The university's board of admissions have set a maximum of 250 for out of state students. At present the figure is almost complete with 226 enrolled. Before registration is closed the 250 mark is virtually assured.

For the first year since the end of the war, veterans enrolling at the university under the GI bill of rights will be in the minority. Although approximately one-third of the student body will be ex-GIs, the majority of them will be former Nevada students.

The admissions director emphasized the fact that applications are far over the practical number able to be handled by the university. Lack of housing, inadequate teaching facilities and an insufficient supply of instructors were given as reasons for limited enrollment.

Jim McNabney To Be Assistant Graduate Manager

Jim McNabney, Nevada graduate in the class of 1942 and resident of Reno is the new assistant graduate manager, being appointed to that post last June.

McNabney was named to fill the assistant's job when Joe T. McDonnell resigned as graduate manager at the close of the spring semester, and Eugene Mastroianni moved up to fill the vacancy.

The new number two man of the graduate manager's office is well known to Nevadans. He was a Block N winner in basketball and track. Jim was affiliated with the Lambda Chi Alpha fraternity, Scabbard and Blade and Sagers.

During World War II McNabney served as an infantry officer. He is married to the former Marie Williams, also of Reno.

Reservation Needed For San Jose Tilt

Students planning to go to the Nevada-San Jose football game in San Jose, California, should notify the graduate manager's office so enough seats can be reserved for the student section, it was announced today.

No student will be admitted to the game without a student body card. ASUN cards will be available at registration this week.

The game will be Nevada's only night game of the season. Kickoff time is set for 8 pm, September 24.

Ceiling Raised For Vets Wages Under GI Bill

The majority of veterans attending colleges and universities full time under the GI bill will be able to work part time without having their subsistence allowances reduced, Veterans Administration officials announced recently.

No reduction in subsistence will be made as long as income from productive labor and subsistence allowance do not exceed these monthly "ceilings" established by public law 512 last spring: (1) \$210 for a veteran without dependents; (2) \$270 for a veteran with one dependent; or, (3) \$290 for a veteran with more than one dependent.

This does not mean that there is a limit on what a veteran may earn while attending college full time. It does mean that a veteran student may receive his full subsistence allowance if his monthly earnings are not more than \$135 if he has no dependents, \$165 if he has one dependent, and \$170 if he has more than one dependent.

The VA also released information regarding the National Service Life Insurance. Veterans carrying NSLI term policies will be able to renew them for an additional five years upon expiration of the present term period.

GI term insurance taken out by veterans before January 1, 1946, carries a term period of eight years from date of issue. Policies issued after that date are for a five-year term.

NSLI may still be reinstated, but a medical examination is required if the policy lapses three months or more prior to date of application.

Nevada vets are urged to take their problems out to 1000 Locust Street where VA officials will be more than glad to lend a helping hand.

ROOTERS' HEADGEAR ON SALE THIS WEEK

Traditional Nevada silver and blue "rooter" hats will go on sale this week.

In addition to the sunshade visor feature, the headgear has fast colors and is waterproof which makes it practical for a variety of uses.

Reversible color combinations of the caps give them a tricky makeup.

They will be sold at the cost figure of \$1.

The opinions expressed in the editorials of the Sagebrush are those of the editor and do not necessarily reflect the viewpoint of any other individual or of any campus organization.

With this special frosh edition finally off the press, the editorial and business staffs of the Brush wish to dedicate it as a welcome to the class of '52. We, your partners, stand ready to protect and assist your interests whenever necessary.

NOW IS THE TIME—

The majority of you have been dreaming for many years about your coming college careers. You have been looking forward to the day that the term "Student" would be synonymous with "adulthood." That day is here! You are no longer children; you are no longer boys and girls; you are now men and women and as such, the responsibility of your future depends on you.

Your dream, about to be a reality, can materialize into the very essence of all you hold college life to be. It can also end in bitter disillusionment. The degree of success and happiness you are to experience on the campus will be determined by your sincerity of purpose.

If you cultivate poor study habits or a belligerent attitude toward your superiors you can never expect the successful completion of your college career. Start off on the right foot by staying abreast of your studies and by assuming a respectful attitude for those who are here to help you. It is difficult for a student to understand that a professor who fails him may actually be doing him a good turn. What good is a diploma if we can't live up to the responsibility it places on our shoulders?

It is in your freshman year that, perhaps, the entire structure of your higher education will be formulated. Not so much by what you learn but by the habits you form. Many of you can probably boast that you found high school a "snap" and that you seldom needed to crack a book. Maybe this is true; however, don't believe for a minute that you will be able to continue at such a pace through college. With the increasing scholastic standards of university work, the so-called high school genius is very likely to find himself below average, unless he applies himself in a mature manner to this new life.

DO YOU HAVE A MIND OF YOUR OWN?

A few days ago we were confronted with the question, presented by a member of the class of 1952, as to what fraternity should he join.

Each year the same question arises in the minds of many freshmen students and regardless to the number of pertinent issues they may be faced with at the time of entering college, they persist in finding an answer to this question before anything else. This foolish eagerness makes them more than susceptible to any false glitter a fraternal organization may present.

It is not our intentions to speak for or against such organizations. Rather, we wish to assist the new student in taking the question in stride and finding the answer himself.

For this reason many colleges and universities make sophomore standing a prerequisite to pledging. This is not so at Nevada. Therefore, it is up to you new students to avoid being rushed into any particular house and to exercise your own judgement as to which way you shall go.

Take your time, face the important problem of getting a good start scholastically and then see the color of several pledge cards before you sign the dotted line.

Another issue which arises is the case of the freshman who suddenly feels he is a social outcast because he or she hasn't been invited to join a fraternity or sorority. This is a ridiculous conclusion. The only plausible reason for your not being invited is the fact that your name has escaped the clutches of the pledging committees.

There are many attending college who for personal reasons do not wish to join a social organization. This is your prerogative which, if taken, doesn't hamper your chances one iota for social or educational success.

COLLEGE DEANS

Frederick Wood, dean of the college of arts and science, professor in mathematics, came to the university in 1932 and has held his present position since 1939. Cecil W. Creel, dean of the college of agriculture, has been at Nevada since 1919, and is starting his third year as head aggie. Stanley G. Palmer, dean of the college of engineering, became a member of the faculty in 1915 and moved up to dean in 1942. He also is a professor of electrical engineering.

ASUN PRESIDENT

Rex Jemison.

ASUN President Extends Welcome To New Students

"This edition of the Sagebrush could easily be hung in front of the ASUN building and replace the welcome mat. By this time I'm sure the freshmen and new students have grasped the idea that they really are welcome. The organizations want new members; the men want new women; the women want new men, and the ASUN is glad to see everyone.

"The purpose of the Associated Students of the University of Nevada is to see to it that though this haze of welcome everyone has a good time.

"No matter what your interests happen to be, there is some phase of ASUN activities to provide the satisfaction of accomplishment and entertainment for you. There is a place in the ASUN to develop and exhibit whatever particular talent you may possess. We can only hope that you will welcome us as heartily as we welcome you."

Yours for a good year,
Rex Jemison.

Tridelt: How do you know he was drunk?

Pi Phi: Well, he shook the closetree and then started to feel around the floor for some apples.

Student Rooters Must Sign Applications for Seats in Kezar Stadium for Don Encounter

When you get those USF game seat applications, don't think your graduate manager has sold you short. "The application is merely an attempt to prevent a recurrence of the mix-up experienced in the past," stated Gene Mastroianni, graduate manager.

The applications will be given to students at the same time they receive their "railroad tickets" from the registrar. The required information

is to be filled out and the application turned in to the graduate manager's office only if the student is going to attend the game in San Francisco.

Number of seats in the Nevada rooting section will be determined by the number of individual applications received. Deadline for the application being turned into the office of the graduate manager is 5 pm Wednesday, September 22, 1948.

A list of all those applying for seats will be kept at the gate in Kezar Stadium. Only those whose name appears on that list will be permitted in the Nevada rooting section. All others will be given seats behind the end zone.

There is no limit to the seats available to the Nevada student body, but the stadium in San Francisco must have an idea of the number to reserve.

Remember, then, if you want

to be a part of the organized cheering section, vocally assisting your Wolf Pack in their efforts against the Dons of San Francisco, you must fill out this application. Do it the first day of registration and we'll see you in 'Frisco the day of the game.

Everything may have a hidden meaning—even the little red school house may have something behind it.

Loaded Wolf Pack Tackles Toughest Slate in History

Thirty-Two Lettermen Give Depth, Finesse To Veteran Squad

Pointing towards September 24, the opening game with San Jose State, Nevada's Wolf Pack is busy sharpening its attack in a fall tuneup for the coming 1948 football season.

Coach Joe Sheeketski, in his second year on the hill, has a well seasoned and veteran loaded team to shoot at this year's opponents.

With the exception of five men, Sheeketski has his entire Salad Bowl champion team intact. Progress in practice has been rapid in that players and coaches all know each other, are well grounded in the Sheeketski system, which operates from the "T" formation.

Another Motley

Biggest change this year is the moving of fleet-footed Sherman Howard to the fullback post. The 190 pound converted end, and track star of last year has been tabbed by Wolf coaches to be potentially as great a fullback as Marion Motley, former Nevada star and named by many to be the best fullback in professional football today.

Depth in Lineup

Sheeketski has several combinations working and depth in probable lineups run: Team 1, fullback, Howard, 190; left half, Tommy Kalmanir, 165; right half, Dick Trachok, 170; quarterback, Stan Heath, 190; ends, Scott Beasley, 200; Dan Orlich, 215; tackles, Tom Reinhardt, 200; Fred Leon, 210; guards, Ken Sinofsky, 205; Frank Sanches, 175; center, Bob Corley, 210.

Team 2 lines up with Bill Osborne, 205, fullback; Ted Kondel, 165, left half; John Subda, 175, right half; Alva Tabor, 185, quarterback; Jim

EXPECT BEST YEAR IN NEVADA'S FOOTBALL HISTORY

Heading Nevada's football fortunes for 1948 are Coaches Joe Sheeketski (top left), Dick Evans (top right) and Glen "Jake" Lawlor (bottom). This trio guided Nevada to its most successful season last fall, when the Wolf Pack won nine of 11 games, climaxed by a victory over North Texas State in the Salad Bowl New Year's Day at Phoenix, Arizona. Sheeketski is head coach and athletic director. Evans handles the ends, and Lawlor takes care of line direction.

Wilson, 195, end; Harold Hayes, 185, or Carl Robinson, 165, end; Dick Tilton, 230, Mel Grevich, 190, tackles; Fred Hooper, 210, Jack Carmody, 210, guards; and Carmel Caruso, 220, center.

All told, there are 32 returning lettermen from last season's team. These include Orlich Hayes, Lindeman, Wilson, Beasley and Robinson, ends, Reinhardt, Tilton, Hooper, Leon, Grevich and Barger, tackles.

Sinofsky, Carmody, Hooper,

Davis, Sanches, Bell, guards; Corley, Caruso, Morris, centers; Heath, Tabor, quarterbacks; Kalmanir, Subda, Enslin, Kondel, Trachok and Elder, halfbacks. Howard and Klosterman, fullbacks.

Letterman lost by graduation or not returning are Tinnas Carlson, Jordan Eliades, Mike Mirabelli, Ernie Zeno and Darwin Farnsworth.

Nine Games

Nevada opens its nine-game schedule less than two weeks from now with San Jose State

on a Friday night in San Jose, Sept. 24. Then comes University of San Francisco at San Francisco, Oct. 3; North Texas State College, Reno, Oct. 9; St. Mary's in San Francisco, Oct. 17; University of Tulsa, Tulsa, Oct. 23; Oklahoma City College, Reno, Oct. 30 (Homecoming); Santa Clara, Sacramento, Nov. 7; Fresno State College, Nov. 11, at Fresno; Wichita University, Wichita, Nov. 25.

Spank the Spartans in the opening game.

Frosh Football To Be Resumed; Four Tilts Set

Freshman football, after several years of dormancy, moves back into the athletic fold on the Nevada campus.

Coach Hugh Smithwick, issued his first call to newcomers this morning and a fair size turnout showed up to battle it out for first string assignments on the yearling squad.

A four game schedule has been drawn up for the first year men. Two games are on tap for Reno and the other two encounters are out of town affairs.

Lack of material, man power and equipment has kept freshman football on the shelf since pre-war days. Those difficulties have finally been overcome and this year should be a banner one providing every first year man with any talent at all comes up to Clark field to show his wares, stated Nevada athletic coaches, in viewing the coming season.

Frosh Schedule

Sept. 24: Placer JC at Auburn.
Oct. 1: Klamath Falls Vocational, at Klamath Falls.
Oct. 24: Lassen JC, at Reno.
Nov. 14: USF frosh, at Reno.

CANDLEPOWER FOR WOLF ELEVEN

In an effort to avoid such a catastrophe as last season's drubbing at Detroit, when the Wolf Pack ran into trouble playing their only night game of the year, Coach Joe Sheeketski is running his boys through drills under the arcs left by the Shrine circus.

Nevada's opener with San Jose State September 24 is a night encounter and there will be no slip-up as was the case with the Titans.

Welcome to the University of Nevada, frosh.

Dogs in Siberia are the fastest in the world because the trees are so far apart. Whatever her posture, the girl who walks home from a car ride walks properly.
