

# The Hat NO Sagebrush

Nevada's Largest Weekly Newspaper

Member

Associated Collegiate Press

Entered at the Post Office at Reno, Nevada, as second class matter. Published at Reno, Nevada, by the Associated Students of the University of Nevada

Editor: Gene McKenna  
Business Manager: Bob Kent

### STEPPING OFF IN THE RIGHT DIRECTION

Everyone wants to start off on a new project in the right direction and the staff of your student publication, the Sagebrush, is extremely eager to do just that.

The beginning of a new college year at the University of Nevada means that a new group of students will be at the reins of your campus newspaper. We intend to make the school year '49-'50 one which can be looked back upon with pride.

One thing should be understood. The Sagebrush is NOT an organ of any special group. It is strictly an independent newspaper for the students and controlled only by the Publications Board. It is not affiliated with the Journalism department in any way. The student editors do, however, receive valuable assistance regarding newspaper makeup, editing, copy reading, etc., from the journalism faculty members, for which they are grateful. Stories appearing in this newspaper are NOT censored by any faculty member or outside student. The Sagebrush student editor is responsible for all articles in the newspaper.

Just as the large dailies have their board of directors or stockholders who guide operations, so does the Sagebrush have a controlling board to set down regulations. The Board of Publications, which guides the Sagebrush according to the ASUN constitution, is composed of seven students and one faculty member who acts as chairman. Four of these student members have no voting power because they are editors and business managers of the Sagebrush and Artemisia. The three voting students are seniors appointed by the senate. The faculty member is also chairman of the Finance Control Committee.

Thus, the Sagebrush is a newspaper for the students, put out by students. It is NOT influenced by individuals or groups seeking personal gain. It will, however, be influenced by the students as a whole and will act in accordance with their wishes.

### A FRIENDLY WELCOME

After going through several days of campus orientation where many hearty welcomes were extended by university faculty and student officials, another welcome to new students would probably sound weak.

We do not want to pass up our first opportunity, however, so on behalf of all Nevada students, "welcome to the hill."

The University of Nevada campus is noted for its friendly atmosphere. It's one of our traditions, in fact. Being a small university, Nevada students can soon become acquainted with each other and in no time those "smiling nods" with warm "hello's" fill the air between classes.

Our tradition of friendliness became so strong two years ago that a special day was set aside for it and labeled "Hello on the Hill."

On becoming a student at Nevada you may find many complexing problems before you. Frosh will find schedules not working "just right," many seemingly unjustified traditions which must be followed, and other campus regulations which may seem at first glance "plain silly." But remember, the university has been operating for 75 years and the systems and regulations set up have proven themselves worthy.

In accord with our friendly atmosphere, every university official and old student will gladly answer your questions if they can, or will direct you to someone who has the answer.

In a few months, or even weeks, you will have adjusted yourself to life on the "hill" so completely that it will be hard to look back on those first "frightening" experiences in college.

Welcome to Nevada and best wishes for success and enjoyment during your years at the university.

"This ought to break it up!"

New Ideas . . . New Snacks . . . Bigger and Better Than Ever Before

WHERE GOOD FRIENDS MEET AND NEW FACES SOON BECOME OLD FRIENDS.

THE WOLF DEN

Fredrick Wood, Dean of the College of Arts and Science (top left) and Stanley G. Palmer (top right), Dean of the College of Engineering, will again greet new and old students registering at Nevada this week.

### THE PREXY SPEAKS

Greetings and Felicitations:

As it must to all men, education comes this week to you loyal students of the University of Nevada. And along with classes you will also be "blessed" with a new ASUN administration. As is the case with all growing things, which eventually reach proportions where they can be recognized, your ASUN is clamoring for attention, and in this connection it is my pleasure to play the part of Raymond, opening the squeaking door and bidding you welcome.

The beginning of a university year is definitely a very important time for the ASUN, for it is then that the die is cast for the entire year. This is true since the activities sponsored by the Associated Students depend upon the cooperation and participation of the entire student body, and such student backing must be secured and guaranteed at the earliest opportunity.

We depend upon the returning students for their experience, initiative and school spirit, which is essential to the success of the ASUN, and we depend on the new students for the life and fire they bring with them which we can use everywhere on campus. You, as old and new students, make a combination which can produce an organization, and consequently an activity year, seldom equaled and never surpassed.

To this end, I urge each of you to become an active member of the Associated Students by buying a student body card, by supporting our functions, with your attendance, and by taking part in the ASUN committee work which makes our activities possible. Between us, you and I, I believe we can have the best in campus activities, the best of fun to round off the academic grind, and a memorable campus year for '49 and '50.

Again I wish you welcome and the best of luck in the year ahead. Sincerely, P. O. REIMER

Salesman: "I've been trying to see you all week. When may I make an appointment?"

Manager: "Make a date with my secretary."

Salesman: "I did that, and we had a grand time, but I still want to see you."—from the University of Texas Ranger.

Paul "P. O." Reimer, ASUN president, officially takes over his duties as prexy this week. A Highlander, Reimer is a civil engineer major and comes from Alturas, California.

### University Deans Set for '49-'50

Students entering the University of Nevada this semester will find able guidance and willing assistance from the two deans of colleges who are Dr. Frederick Wood, Dean of the College of Arts and Sciences; Professor Stanley Palmer, Dean of the College of Engineering.

Dean Frederick Wood received his A.B. at the University of Wisconsin, 1915; M.A., 1916; and Ph.D., 1923. Dean Wood came to the University of Nevada in 1932 and has held his present position since 1939.

Dean Stanley G. Palmer received his B.S. at the University of Nevada in 1909; M.E., Cornell University, 1910. Dean Palmer, who is a professor of electrical engineering, came to the University of Nevada in 1915 and has been the dean of the College of Engineering since 1942.

**Jimmie Harker**

campus ambassador

for Carlisle's

Caught short on the Campus with no supplies to work with? Just call "Jimmie" . . . he'll come a runnin' with anything you need from Carlisle's in the way of stationery supplies, engineering equipment, etc. You'll find it a pleasure to do business with Carlisle's through Jimmie Harker. Dial 4195, 2-5391 or 2-3891.

### Graduate Manager Sets Buying Rules

Under new regulations, all purchases made through the graduate manager's office by campus groups using it must be made with purchase orders issued by the office.

Former practices of some groups, which called for cash purchases by an individual who later sought reimbursement, are a definite thing of the past, according to Gene Mas-

troianni, graduate manager. Mastroianni advised campus groups to notify his office well ahead of the time a payment is due, as such payments take from four to ten days.

Father Firefly to mother, as they watched their youngster flying: "He's bright for his age."

### Campus Males Cry, Bid Fond Goodbye To Old Gym Bunks

Men at the University of Nevada will have new housing available at the start of the fall semester. Two barracks from the Reno Army Air Base have been set up and reconstructed on a site next to Clark field.

The new dormitories will house from 72 to 75 men. Small rooms which accommodate two men make up the wooden sections of the structure while a bricked portion which houses the boiler room connects the whole unit.

According to the dean of men's office, the new dorms will take the place of the old gym facilities. At a later date the old gym will be used for other activities.

### SAGEBRUSH SPROUTS 'NEW LOOK' IN TYPE

If your Sagebrush looks a little different this year you have good reason to suspect changes have been made.

A new size type, eight point on a nine point slug, is being put into use starting with this issue.

The new type will make room for about 18 per cent more copy space. Eight point type is used commonly by the major dailies in the United States.

\*PAUL REIMER SAYS: "My pipe from Southworth's helps me to relax."

\*PRESIDENT, ASSOCIATED STUDENTS

Fellas, have you got a heavy schedule ahead . . . studies, football games, dates, a job . . . more than you can cram into a 24-hour day? Then take a tip from Paul Reimer and buy a pipe from Southworth's. It'll help ease the strain. A pipe is so relaxin' . . . looks well on a man, too. Southworth's have just the pipe to suit your type. Go in and see 'em.

## 'Hello on the Hill' Opens Thursday; Dance, Rally Set

"Hello on the hill" the annual friendship festival at the University of Nevada, will begin this Thursday when name tags will be given out to students. The celebration continues on through Friday and Saturday and concludes with the annual Blue Key and Hello Week dance at the university gym Saturday night.

On Friday, September 23, there will be an all student assembly at 11am. Student officials for the 1949-1950 school year will be introduced as will members of the 1949 varsity football team.

Friday night there will be a gigantic bonfire rally at Mackay Stadium before the football team leaves for Portland, Oregon, for their game with the University of Portland.

Ted Lokke, Hello Week chairman, said hot dogs and cokes will be served at the bonfire rally.

Saturday night, Blue Key, honorary service fraternity, and the Hello Week committee will cooperate in putting on the annual Hello Week dance at the university gymnasium. Admission charge will be 60 cents per person, Lokke said.

The Hello Week committee consists of Ted Lokke, chairman, with Lou Eccles, Ted Short, Joan Rich, and Nilda Cox as members. Bob Vaughan, president of Blue Key, is in charge of his organization's part in the celebration.

## Hill Student Dead, Another Injured In Summer Accident

Gus W. Lowry, 26, was killed and one other University of Nevada student was injured in an automobile accident on Highway 40 west of Reno on August 27.

Thrown 20 feet from a 1939 coupe he was driving, Lowry died after the car went out of control and turned over three times. Lowry was a chemistry major, and had one more semester to graduate.

Also injured was Lowry's fraternity brother, Joseph E. Dini, Jr. Both were members of Phi Sigma Kappa. Dini was hurled 50 feet by the impact, and is now in a local hospital with a broken jaw. He was to have married Jean Demuth of Gamma Phi Beta on the following Sunday.

The only other passenger, Lawrence Matthews of Yerington, had both ankles broken. Matthews was to be Dini's best man at the wedding.

Two Phi Sigma Kappa fraternity brothers of Lowry attended his funeral at McComb, Miss. They were Robert W. Calvert from Dallas, Texas, and Jack H. Fikes from Oklahoma.

## Freshman Week Ends Tomorrow

Two more days of Freshman Week will complete the cycle, and 400 new students will be a full-fledged part of life "on the hill." With three days of the program behind, all that is left is one day or orientation lectures . . . then registration!

Tomorrow will be taken up from 7:45 am until 9:45 am with advisory talks by Dr. Fred Tramer, Dr. Robert Hume, Mr. Robert Tate, Dean Robert Griffin, and Dean Elaine Mobley. Dr. Tramer will discuss "Success in College; What It Takes." Topic for Dr. Hume will be "Planning for Cultural Values," while Mr. Tate will introduce Nevada school songs.

"Your Personal Problems" will be dealt with by Dr. Griffin, dean of men, while Dean of Women Elaine Mobley will discuss "What Every Good Wolf Should Know." Time from 9:45 until noon will be devoted to conferences with faculty advisors, with the afternoon taken up by physical examinations and continuation of faculty conferences.

Final step in the program comes Wednesday morning at 8 am, when registration begins. New students should get there early and know exactly what they are supposed to do.

Completed are such as entrance examinations, the progressive dinner conducted by the local churches, the freshman ice-breaker dance, and the Presidential reception.

Purposes of Freshman Week have been explained, the deans and directors have all been introduced, and registration has been outlined. All this has culminated in tonight's activities parade.

This parade is set up for the purpose of acquainting the new students with the various clubs and organizations "on the hill."

## Carol Diane Lampe, Miss Nevada, 1949, Back to Distract

After competing with the beauties of the land, "Miss Nevada," Carol Lampe, returns to the Nevada campus this fall to resume classroom competition with the senior class. Carol Diane Lampe was Nevada's first representative to the world famous "Miss America" contest at Atlantic City. "Miss Nevada" was the second tallest lovely in the pageant.

A 4-H'er, Miss Lampe planned to enter a Hereford cow in the talent division and give a three minute talk on how she raised it from a calf. Her plans were halted when the judges effected a "no more animal" ruling. The judges' decision was unpopular when "Miss Montana" was allowed to exhibit a horse in the same division.

"Miss Nevada" is a member of Kappa Alpha Theta and is majoring in education. When she graduates she intends to teach in an elementary school.

## Frade, 4-H Winner, Registers on 'Hill'

The winner of the 1949 First National Bank of Nevada 4-H scholarship, Joe Frade, will register in the University of Nevada, College of Agriculture Wednesday.

Frade won over a statewide field though competition was close, the Lyon county youth was unanimously selected for first place.

## Newman Hall Will Open Wednesday

Newman Hall, recently completed building across from campus for Catholic students, opens its doors for a meeting of the Newman Club at 4:30 pm, Wednesday.

Officially known as Newman Hall with the purpose to serve as a religious, cultural, and educational organization, the modern structure is also temporarily the parish of

St. Albert the Great. Pastor in charge of the parish is Rt. Rev. Msgr. John T. Smith. Chaplain W. J. Price is head of the Newman Club. Fr. Price is a Dr. of Comparative Literature of the Sorbonne.

Formal dedication of Newman Hall will be announced by the Most Rev. Thomas K. Gorman, bishop of Reno, in the near future.

## '49 NEVADA GRADUATE AWARDED COMMISSION

Edwin W. Gramkow, a 1949 graduate of the University of Nevada was one of 26 Air ROTC Cadets who received commissions as second lieutenants in the United States Air Force Reserve at Hamilton Air Force Base, California, this summer.

## MANY THANKS!

If you wondered how this edition of the Sagebrush got published before school actually started it was through the efforts of some students who gave up part of their vacation. The Sagebrush staff appreciates their work and publicly thanks Len Crocker, Bob Long, Bob Strang, George Umbenhaur, Tom Cuniffe, and Mark Curtis.

## Portland Pilots Next for Pack

Next on the schedule for the Nevada Wolf Pack are the Pilots from Portland University. Set for next Sunday, the game will be the second time the two teams have met, although last season they were not scheduled against each other. In 1947 the Pack dropped the Pilots, 51-6.

Last year the crew from Portland came up with a record of two wins, five losses and one tie. The wins were over Montana State and Pepperdine. The losses were to Willamette, Oregon State, College of the Pacific, St. Mary's and Idaho. Fresno State gained a 6-all tie.

Returning from last year's squad are 26 lettermen, as well as several highly-touted men from last year's frosh team. Among the outstanding players to be watched are John Freeman, who last year rated high in the nation for return of kick-offs; Willie Kang, noted as a very fast open field runner; and Bud Hickman, outstanding guard.

The head coach, line coach, and backfield coach are all former Notre Dame gridders, and two of them worked together before moving to Portland. Head Coach is Harry Wright, who played two years as first string quarterback for the "Fighting Irish," then switched to guard for his last season. After leaving the Marine Air Force, Wright served three years as head coach at Aquinas Institute, in Rochester, New York, where he ran up a record of 18 wins, two losses, and three ties. There he was join-

ed by Line Coach Neil Green. Green became assistant to Wright at Aquinas after serving three years with the Navy.

Backfield coach Floyd Simmons was rated as one of the top backs at Notre Dame on the all-time team, playing one year of pro football with the Chicago Cardinals before turning to coaching.

Comparative statistics on the common opponents of the Pilots and the Pack, although they prove nothing show Portland and Fresno State battling to a six-all tie, while Nevada beat Fresno 53-7. Portland dropped to St. Mary's 19-0, while the Pack beat the Gaels, 48-20.

This year Nevada is using a new system, with lots of last season's starting team gone, so don't hold the statistics too closely in trying to predict the outcome.

## Air Line Graduates Former Hill Student

Miss Lois C. Post of Reno, Nev., has just been awarded her wings as a stewardess for United Air Lines following a four weeks' training course at the company's stewardess training school in Cheyenne, Wyo. She is now flying United Mainliners out of Seattle.

Miss Post attended the College of Pacific and graduated from the University of Nevada. She was a member of Kappa Alpha Theta and Mu Phi Epsilon.

## Background Told Of Wolf Pack Coaching Staff

Let's take a look at the men who guide the destiny of the Nevada Wolf Pack football team, the coaching staff.

Joe Sheeketski, athletic director and head football coach, is beginning his third season as head mentor of the Pack. A graduate of Notre Dame, Joe played right halfback on the teams of 1930-31-32. When he graduated from Notre Dame in 1933, he became assistant to Dr. Eddie Anderson at Holy Cross. When Dr. Anderson left in 1938, Sheeketski became head coach of the Crusaders, a position he held until 1941. From 1941-45 Joe was a special investigator for the Federal Bureau of Investigation, returning to coaching as assistant coach at Notre Dame, then at Iowa. He accepted his position at Nevada in the spring of 1947. Married, with a son, Sheeketski has just completed a new home in Reno.

Glenn "Jake" Lawlor, line coach at Nevada since 1942, played varsity football and basketball while an undergrad student "on the hill." A member of the class of '30, Jake played several years of pro baseball in the Pacific Coast League, then turned to teaching. Before assuming his duties as line coach and head basketball coach here, Lawlor taught high school in Virginia City, Nevada, and Delano, California.

End Coach Dick Evans graduated from the University of Iowa in 1940, playing football then with the Green Bay Packers and the Chicago Cardinals in pro circles. While in the Marine Corps during the war, Dick coached the famed Santa Barbara Marines. He was serving as a physical education instructor at Long Beach City College when called to Nevada in 1947.

Last, but far from least, is Frosh Coach Hugh Smithwick, former Nevada varsity football player himself. Playing on the teams of 1949-41-42, Smitty captained the 1942 squad. During last season, his first "on the hill" as a coach, Hugh put out an undefeated frosh team. In addition to his duties as frosh coach, Smitty is varsity trainer.

## PE Course Required For Post-War Vets

Veterans who went into the service after September 1, 1945, will be required to register for physical education classes this year, according to Dr. John E. Martie, chairman of the Physical Education department.

The new ruling will affect only those who entered service after the September, '45, date. Veterans with service before then are still exempt from PE classes. Dr. Martie explained, "that a line had to be drawn somewhere," and the termination of World War II hostilities was set as the dividing line.

His wife lay on her deathbed. She pleaded, "John, I want you to promise me that you'll ride to my funeral in the same car with my mother."

He signed, "Okay, but it's going to ruin my whole day."—from the University of Washington Columns.

These are the men who will guide the Wolf Pack football destinies, the members of the coaching staff. Shown above, from left to right, are Joe Sheeketski, athletic director and head football coach; Glenn "Jake" Lawlor, line coach; Dick Evans, end coach; and Hugh Smithwick, frosh coach. Sheeketski is beginning his third year at Nevada, while Lawlor has been a member of the coaching staff since 1942. Evans began here in 1945, with Smithwick, who is also the varsity trainer, in his second season.

## Freshmen Turnout For Cub Eleven; Four Games Listed

Frosh football coach Hugh Smithwick received candidates for the 1949 Wolf Cub eleven today and ushered in the second postwar year of freshman football at Nevada.

Last year's frosh team, the first at Nevada since pre-war days, developed into quite a powerhouse, rolling to an undefeated, untied season and sending several prospects up to the varsity.

Ed Jesse, quarterback on the '48 frosh, Wally Graf, running back and "Punjab" Hairston, both of the same undefeated Cubs, are expected to see quite a bit of action on the 1949 varsity.

This year's frosh squad has quite a bit to live up to and perhaps they will do just that, if every first-rate man turns out for the coming season. Smithwick urged all prospective players among the frosh to turn out.

Four games, all at Reno, have been scheduled for the coming season.

October 9—USF Frosh.  
November 6—Alhambra Alumni.  
November 13—Hill Air Force.  
November 18—Sacramento JC.

## 18 Year Old's Still Register for Draft

Young men who turn 18 years of age must still register with the Selective Service System. Harry S. Truman, president, by proclamation on July 20, 1948, provided for continuing registration, according to state headquarters at Carson City.

Although the induction and examination of men has been temporarily stopped, registration must be completed within five days of their birthday.

## Carter Named Head Of Campus Yearbook

Barbara Carter, junior A&S student, has taken over the editorship of the Artemisia, University of Nevada yearbook, it was announced recently.

Miss Carter, a Tri-Delt, was assistant editor of last year's publication. She was voted in as editor by the Publications Board a few weeks before university classes began.

## PACK TRACKS

By Len E. Crocker

Head Coach Joe Sheeketski begins his third year as boss of the Silver and Blue grid fortunes with 23 lettermen from last season, 10 men up from the frosh, five seasoned transfers, and two former varsity players from several years ago. He begins also with a new system of play, the split-tee.

As explained by end coach Dick Evans, the split-tee differs from the standard tee formation only that the linemen are played with a con-

## Pack Downs Cincy

(Continued from Page 1)

again for the Cats, completing two passes and running the ball once, to put it on the Nevada 22. A pass to Stayman in the end zone and another conversion by Sweeney made the tally 34-21.

Kondel took the kick-off on the 20, running it back to the Nevada 40. Kondel went to the UC 42. Osborne through tackle to the 32. Subda around end to the 22. Subda through guard to the 17. Osborne then put on a real show of his running ability, dragging two tacklers with him to the two-yard strip. Osborne went through center for the score. Corley converted, and the score read 41-21, Nevada.

Cincinnati had the ball on the Nevada 45 when Hopper intercepted a pass from O'Malley and later-erred to Klosterman, who went to the UC 44. Brady went in at quarter for Nevada.

Nevada lost the ball on downs on the UC 23. McMillan was forced to kick, the ball being taken by Al Noccio, who returned it to the Bearcat 43. A Brady pass was intercepted on the 10 yard line by Gene Bibson, who ran it back to the UC 39.

Herman Fisher intercepted a pass by McMillan as the game ended, with the final score Nevada 41, Cincinnati 21.

### Statistics

	UN	UC
First downs	27	11
Net yards, rushing	548	119
Net yards, passing	100	142
Passes attempted	11	21
Completed	5	11
Intercepted	2	3
Number of punts	0	5
Average distance, from scrimmage	0	34
Fumbles	2	1
Ball lost on fumbles	1	1
Number of penalties	6	2
Yardage penalized	50	10

siderable space between them, rather than shoulder-to-shoulder. In the Nevada version, a flanker will be used, instead of a fullback in the regular position for tee-style ball. Named among those who will be playing the flanker spot are Wally Graf, up from the frosh, Ed Klosterman, and transfer Pat Brady. Quarterbacking the new system will be Ed Jesse, another product of last year's unbeaten frosh, with Johnny Subda also handling the spot.

One of the backs to watch this season will be Bill Osborne. Ozzie ran from the fullback position last season, switching to halfback for the split-tee. Osborne has been called by some sports writers "one of the hardest running backs on the coast," and should show better than ever this year. Keep an eye also on Pat Brady. The rangy southpaw throws a mean pass, and his punting is something to watch.

Here's some added ope on the University of Cincinnati Bearcats, whom the Pack met Saturday in Cincinnati for the opening game of the season.

Their last season's record shows three wins, six losses, and one tie. Wins were over Ohio University (18-13), Butler (16-7), and West Reserve (26-13). Losses went to Xavier (13-7), Mississippi State (27-0), Kentucky (28-7), Miami of Florida (36-6), Tulane (6-0), and Miami of Ohio (43-19). The tie was a 7-all affair with Hardin-Simmons.

Scheduled to meet the Cats this year, in addition to the Pack are Hardin-Simmons, West Michigan, Mississippi State, West Reserve, Kentucky, Ohio University, Xavier, Miami, and College of the Pacific, which the Pack meets in Stockton, October 8.

The college has an enrollment of 6153 men and 2139 women, a total of 8292. Its home field is Nippert Stadium, with a seating capacity of 30,000. They have a 150-piece band, and wear red and black uniforms.

# Spring Honor Roll Released This Week

Maclin B. Summers, Howard F. McKissick, and Bonifacio Yturbe with straight 4.0's topped last spring's honor roll of 88 students, Jeanette C. Rhodes, registrar at the University of Nevada, announced this week.

Delta Delta Delta again copped honors among the sororities with an overall 2.471 average. Gamma Phi Beta was second with 2.497. Pi Beta Phi had 2.410 and Kappa Alpha Theta 2.330.

Student body average for the semester was 2.267, women's average was 2.320 and men's average was 2.237.

Dean R. S. Griffin's office, which handles the fraternity scholarship averages, had not compiled them as yet due to a shortage of help during the summer.

The honor roll list from the registrar's office is as follows:

Name	College	Average	No. Hrs.
1. Summers, Maclin B.	A&S	4.00	17
2. McKissick, Howard F.	A&S	4.00	16
3. Yturbe, Bonifacio	A&S	4.00	16

## COLONEL GILBERT E. PARKER ACTING PRESIDENT FOR YEAR

### Soldier, Educator, Sportsman Named To Replace Moseley as Chief Executive

Nevada students returning to the campus for the fall semester will be greeted by a new president.

Colonel Gilbert E. Parker, former chairman of the department of Military Science and Tactics, is the new acting president of the University of Nevada. He was named to that post last spring.

Soldier, educator, sportsman—these mark the career of the new University of Nevada chief administrator.

He was born in Iowa, where his father was a newspaper editor and in the manufacturing business.

President Parker comes from old American stock. He is a direct descendant of a Colonel Parker who served in the Colonial forces in the Revolutionary war.

He was born in Iowa, where his father was a newspaper editor and in the manufacturing business.

#### Military Ambition

Wanting to be a soldier even as a boy, he ran away from home and tried to join the Iowa National

Guard for service in the Spanish-American war.

After finishing his education in the Iowa public schools, he attended Cornell University, Ithaca, N. Y., from which he was graduated with a degree in civil engineering. Even before graduation, he worked as an engineer in Iowa and in New York state.

Then came World War I, and his military and education career began. He entered the first officers' training camp and won a commission in the U. S. army. During the war, he served in training camps in Minnesota and Massachusetts.

#### Continued Career

Following the war, he continued his military career, attending various army schools and serving as instructor in them. During this time he was well acquainted with General Dwight D. Eisenhower and General Mark Clark, military figures in World War II.

He began his college educational work in the department of military science and tactics at the University of Missouri in 1927.

For six months he was detailed to work with the Civilian Conservation Corps.

From then on until World War II, he served in Hawaii, Canal Zone, California, and Oregon.

#### Grenade Course

While at Fort Ord and Camp Roberts, California, he designed the grenade course which has since been adopted as the army standard.

During the last World War, he organized and commanded battalions, served as executive officer of infantry camps, and held high posts in infantry schools at home and abroad.

Early in the war, he organized the 78th replacement battalion at Fort Ord and commanded it one year at Camp Roberts.

He then served as executive officer of the 31st infantry at Camp Ruskert, Alabama.

#### Infantry Tactician

Next, he became chairman of the committee on general tactics of the infantry school and was acting

chief of the tactical section and acting coordinator of training.

During the early part of the war, he completed a number of advanced courses for army officers.

In 1944, he became a colonel on the staff of the Army Ground Forces in Washington, D. C. He was executive head of the National Board for the Promotion of Rifle Practice and staff officer in charge of the development of all quarter-master supplies and equipment, all chemical items, and all airborne equipment.

He was a director and member of the administrative council of the National Rifle Association, the Infantry Association, and the Infantry Journal.

#### Observers' Board

As the war ended, he was appointed infantry member and eventually president of the War Department Observers' Board in the European theater of operations.

Before coming to the University of Nevada, he received the Certificate of Completion from the Armed Forces Staff College, which might be considered the equivalent of a doctor's degree in military science.

Throughout the years, President Parker has been an active sportsman, holding minor championships and local records in basketball, golf, tennis, diving, table tennis, track, bowling, bridge, fishing, rifle shooting, and pistol shooting.

His daughter is a graduate of the university and former member of the University of Nevada home economics staff. She is Mrs. Louis C. Pico, Jr., and lives in Las Vegas.

#### '49 FOOTBALL SCHEDULE

Sept. 17: Cincinnati—Cincinnati, O.  
Sept. 25: Portland—Portland, Ore.

Nov. 11: Loyola—Los Angeles.  
Nov. 24: North Texas State—Reno.

Jackie Keenan, winsome junior coed, displays the charms that took her to the Berkeley Football Festival as Nevada's candidate for "Miss Football" over the weekend. Pictured with Miss Keenan are Fred Leon, tackle; Coach Joe Sheeketski, "King of Football"; and Buster Tilton, tackle.

## Seat Reservation Forms Available For St. Mary's Tilt

Application for student reserved seats in Kezar stadium for the Nevada-St. Mary's football game on October 2 will be available on registration day at the gym or at the graduate manager's office, it was announced this week.

Deadline for the applications has been set for Monday, Sept. 26, and those not turned in by that date will not be honored.

Only those students whose names appear on the list will be allowed in the reserved section prior to game time. Students who do not apply for a reserved seat can still gain free admittance to the stadium but will not be able to sit in the reserved section.

The Board of Athletic Control stated that student body cards will be revoked from all students found "passing" their cards to others. This measure was taken due to last year's practice by the students.

Middie: "Meet me at the Waldorf-Astoria at eight."

Date: "The Waldorf? Gee, that's a nice place."

Middie: "Yeah, and it's real close to where we're going, too."—from the U. S. Naval Academy Log.
