Established by the A.S.U.N. Founded October 19, 1893.

VOL. XXVII, No. 17

UNIVERSITY OF NEVADA, RENO, FRIDAY, JANUARY 27, 1950

## REGISTRATION DAY LOOMS; MANY SEND IN APPLICATIONS

University of Nevada students will register for the second semester of the 1949-50 college year on February 8, with classes scheduled to begin the following day.

Before registering, new students will take the college aptitude and the English placement tests on Tuesday, February 7.

As in the past, all Nevada students will be admitted upon presentation of credentials of graduation from their high schools, while out of state students are required to meet certain scholastic standards before admittance. Beginning with the fall semester of 1950, state of Nevada applicants for registration also will be required to meet certain standards before being admitted as students of the university.

All Nevadans who intend to enroll at the university are urged to get their credentials into the registrar's office immediately.

Little decrease is expected in enrollment for the second semester, although there is a normal drop of about 150 students from the first semester's total. In the fall semester, 1776 students were registered at the university.

Thus far, only 63 students have withdrawn from the university. Of this number 48 are men.

Twelve of the former students left to go to work. Illness was the reason given by ten others who dropped their studies, and nine said they had "financial" difficulties. Other reasons given are illness or death in the family, business, re-enlistment in the army, moving to another town and transferring to another institution.

More than 250 applications have come to the university from prospective students thus far. About two-thirds of them are from persons from out of state. Some of these students are expected to enroll next fall.

The only recess next semester will be the Easter vacation from

April 6 to 12. Mackay Day will be on May 6, and Engineers Day on May 20.

The second semester will close on June 9, with the commencement exercises scheduled for June 12.

## 'Nevada's Fantastic Snow Man' Title Given to Dr. J. E. Church

### No Brush Feb. 3

The University of Nevada Sagebrush will discontinue publication next week due to final examinations.

It will resume on February 10.

### Current Article in Magazine Tells Retired Professor's Love of Snow

Nevada's famed Dr. James Edward Church holds that snow offers a key to good will and peace among nations, according to a full length feature article on him in the current issue of The Saturday Evening Post (January 28), authored by Roger Butterfield.

Dr. Church, a retired professor of the University of Nevada, is a world-renowned scientist on cold. He lives in Reno.

The article, entitled "Nevada's Fantastic Snow Man," quotes Dr. Church as pointing out that "snow knows no national boundaries, and neither does the water that flows from it."

He continues: "Today we have the United States and Canada, Argentina and Chile, India and Nepal, Switzerland and Holland, Norway and Sweden and Finland, all working together on the conservation and better use of snow which is their common property. And that is only the beginning. Nearly a third of the earth has a seasonal snow cover. The nations which have the most snow are the very ones that will decide the peace of the world."

"Wherever I have gone to study snow I have found sympathy and even love among the people I met. It has been the same in the Russia of Stalin as in the England of Churchill, in the Argentina of Peron as in the India of Gandhi. There is something about the beauty and power of snow that seems to draw people together, and that is the most important conclusion that I can draw from all my work. Someday I will write my autobiography. When I do, I will put on the title page these words: 'I sought snow, and found peace and understanding among men.'"

Dr. J. E. Church, noted snow surveyor and retired University of Nevada professor, looks over the article appearing in the current issue of Saturday Evening Post on his long career as a snow expert. The article, entitled "Nevada's Fantastic Snow Man" was authored by Roger Butterfield.

## Jobs Available In Civil Service

Engineering students at the University of Nevada will soon have the opportunity to take civil service examinations for positions with the United States Bureau of Reclamation.

Stanley G. Palmer, dean of the college of engineering, said this week that two men from the reclamation bureau office in Salt Lake City had visited the campus recently.

One of the men was Lawrence Mathews, Nevada graduate in 1925, who now is chief of the Resources and Development Division of Power Utilization in Salt Lake. The other was Robert L. Donaldson of personnel division.

Both men talked with many university engineering students on the possibilities of securing government positions. According to the reclamation officials, jobs will be available for engineer trainees. These will pay from \$2650 to \$2875 per year, they said.

Students interested in applying for these positions can obtain blanks from Dean Palmer or from Professor Howard B. Blodgett.

Reno has been designated as one of the examination points, it was announced. Date for the examinations have not been announced as yet. Reports are, however, that it will be sometime next month.

## Brush Reporter Gets Reactions of Dr. J. E. Church

By JAMES HULSE

"Nevada's Fantastic Snow Man."

That is the way the Saturday Evening Post referred to Dr. James E. Church of the University of Nevada in an article that appeared on the newsstands this week.

The magazine, dated January 28, contains a sketch of Dr. Church's career written by Roger Butterfield, prominent historical writer and resident of Virginia City. It gives an account of his world travels and interest in snow.

Dr. Church has gained international recognition for his studies on snow measurements to determine probable water run-off which will result. He was elected the first president of the International Commission of Snow in 1933.

"Roger has emphasized the things that I feel most deeply," Dr. Church said when asked about the article. "However, I don't feel that I've been fantastic. Maybe I've been queer, but not fantastic."

"The human side of snow is my

primary interest," Dr. Church says.

"Snow and rivers are international possessions, and should be used as such."

The article tells of Dr. Church's first trip to the top of Mt. Rose in 1895. He and a comrade were the first men to make the climb during winter.

"I'll tell you a story about that," Dr. Church said, discussing the article. "I went up there on a dare."

"I was walking down the street with a man named Hamilton, and happened to say that someday I wanted to climb that mountain during the winter."

"Well, Hamilton said I was a fool. That made me mad. It's a bad habit to take any kind of a dare, but that's the way I am. I decided to climb the mountain, and did it on the 31st of December, 1895."

"That's the way this whole thing started, and it has been a wonderful study ever since."

"Incidentally," he said, "the first student newspaper on the campus was being published at that time."

It was called the 'Independent.' When we came back the paper printed a story to the effect that we said we had been to the top of Mt. Rose. They didn't believe us, and it made me mad."

"Roger tended to over-emphasize a few of the points in the article," Dr. Church said. "Some of my activities have been called Ripleyisms (referring to Robert Ripley's Believe It or Not feature). By the same token, I would call a few of these things Rogerisms."

Butterfield described Dr. Church as "a wispy looking man with . . . a large domed skull that is almost completely bare."

"That's the first time I've been called wispy." I always considered myself plump," Dr. Church said, "and I never realized my head was so noticeable."

Dr. Church, 80, is the oldest member of the university faculty from the standpoint of service. He began teaching at Nevada since 1892, a professor of classics. He retired as an active professor in 1939.

## Final Examination Schedule --- First Semester, 1949-50

	8:00 AM - 10:15 AM	10:30 AM - 12:45 PM	2:00 PM - 4:15 PM
Monday, January 30.....	8:00—M. W. F. Classes..	All Classes, English A, 101, 120	8:00—T. Th. Classes
Tuesday, January 31.....	9:00—M. W. F. Classes..	2:00—M. W. F. Classes.....	9:00—T. Th. Classes
Wednesday, February 1..	10:00—M. W. F. Classes..	2:00—T. Th. Classes.....	10:00—T. Th. Classes
Thursday, February 2 ...	11:00—M. W. F. Classes..	3:00—M. W. F. Classes.....	11:00—T. Th. Classes
Friday, February 3 .....	1:00—M. W. F. Classes..	3:00—T. Th. Classes.....	1:00—T. Th. Classes

## DP Student Interest Grows, Dickinson Says

Mrs. Marjorie Dickinson, executive secretary of the YWCA at the University of Nevada, reported that the American Association of University Women has shown great interest in the displaced person program.

Mrs. Robert Arkell, chairman of the international relations group of the AAUW, met with Mrs. Dickinson recently to hear of the progress the DP plan committee has made and to make plans for the part the AAUW will take in helping bring a DP student to this campus.

March 1 is the deadline set for sending applications for DP's. The funds allocated by congress for the international relief organization will be discontinued in June, therefore it will be impossible for IRO to pay transportation from Europe to New York after that time, it was explained.

The University of Nevada already agreed to waive tuition for the DP student.

### DP STUDENTS

"Without vision the people shall perish . . ." These words of Abraham Lincoln serve as a by-word for our times. With vision we see one world—one world with many peoples and many problems.

One of the acute problems of this day, which indirectly will effect all the peoples of the globe, is the problem of the refugees of Europe who are without homes and names and friends. They crowd the slums of all major cities in western Europe. They swell the overcrowded IRO camps in Germany and France, which formerly were prison and concentration camps. Among this nameless and homeless mass are thousands of displaced students, who have fled the political terror of Eastern Europe, where they have been too outspoken against the decline of academic freedom in the universities there.

Our scope of vision faces us with the challenge to do something for these students who are courageous and eager to continue their studies. We have the resources and the capacity to bring these students to our universities.

There is only one hurdle that stands in our way. That hurdle is FEAR. Is it not true that the malicious, the unscrupulous, and the subversive will come to our shores in the guise of a DP student to overthrow and destroy our democratic system? This essential fear in the minds and hearts of many of us is a sad tribute to our own lack of faith in the system which has made America truly great. Democracy as a way of life is crowded out of our existence by FEAR. Let us have faith in our heritage. Let us live our democracy and use it to change and challenge attitudes. Let us bring to our campus one of these courageous student leaders who has stood up for democracy in Eastern Europe where his doing so has threatened his life and made uncertain his future.

## Moral: It Pays to Use Your Head

Evidently trapped underneath the third floor of Stewart Hall, the woodpecker who had been pecking a hole through the second story ceiling proved there was method to his madness Friday.

Mrs. Annie Bailey, custodian of Stewart Hall, said she was watching the bird work when he squeezed through the hole and fell to the floor too exhausted to move.

The bird was picked up by one of the professors and placed on a desk near a window. After recuperating several minutes the bird took off out the window.

First attention was called to the bird last week when inhabitants of

Stewart Hall began complain to Carl Horn about a woodpecker drilling a hole in the ceiling. It was then believed that the bird had just taken up residence in the structure and was pecking away for the fun of it.

Carl Horn, superintendent of buildings and grounds, surmised the bird was driven into the building by a storm and could not find his way out. Facing starvation, he applied his natural assets to use and pecked away for days until the hole was large enough for escape.

Ask a man about how he became successful and he will generally give you a lot of platitudes. But ask him how he earned his first dollar, and you are in for half an hour of intimate biography.

## Letter to Editor

Oriel College, Oxford  
January 7, 1950

Mr. Gene McKenna  
Editor, the U of N Sagebrush  
University of Nevada  
Reno, Nevada

Dear Gene:

Here is a letter you might use to fill in some of those embarrassing spaces that occasionally turn up at the last minute in the Brush format; it might be interesting for U of N students to hear about what gives at Oxford.

In the first place, Oxford University as such exists only as a group of people. The colleges are the vital units of the university; each college, of which there are over 20, is a separate unit, housing, feeding, and controlling academic work for its members. My college, Oriel, is built around three small grassy quads; in the three story buildings surrounding these quads, some 250 students live, study, eat, drink and shoot the breeze. Each man has two rooms of his own, a sitting room and a bedroom. These rooms are arranged on staircases, and referred to by their staircase location; my room, for example, is 7-1-A; room 1-A, staircase 7.

Oriel, like most of the other colleges, is a hodge-podge of architecture; the dining hall, a huge vaulted room with stained glass Gothic windows bearing the coats of arms of famous Orielenses (Edward the Black Prince, Sir Walter Raleigh, Cecil Rhodes, etc.), was originally built early in the 17th century; the section of the buildings where I live was put up circa 1730. It's just as cold as it was when it was built!

Each college has its own athletic teams; big sports are soccer, Rugby football, cricket, and rowing. Competitions are held between colleges in each sport, and the university teams are picked from the college teams. I have had a shot at playing Rugby football, not with any outstanding success; the game is different enough from American football to be perplexing. Furthermore, since no one wears any sort of pads or helmets, and there are no substitutions allowed, things get a little rough from time to time. I played in two games for the Oriel "second fifteen," a college second team that is made up of whoever happens to be available on the afternoons games are scheduled. Our first game, against Brazenose College, was played in an intermittent icy rain, and our second, against Exeter College, in a swamp of mud. I play something known as "wing three-quarters," a combination of halfback and end.

The students here are a pretty good crew, and the "bull sessions" far into the night over the omnipresent ale tankards are really something. We have, in Oriel, in addition to Englishmen from all over England, four Americans, a Maltese, four South Africans, a Canadian, a New Zealander, three Australians and a Pole. My friends from Scotland would rebel at being classified as Englishmen!

Instruction is given by means of a tutor-lecture system. When one arrives, one is assigned to a tutor, who directs one's reading and suggests lectures that might be valuable during one's weekly stint. The student doesn't have to go to any lectures if he doesn't want to; the lectures are given weekly, and no attendance is taken. However, since

## Campus Queries

"What parts of our Nevada student government are most respected and effectively functional?"

This question asked of a number of students this week caused a variety of responses. Many of the students admitted frankly that they were not familiar enough with the activities of the various parts of the student government to give an adequate answer.

Some stated that they were just not interested in the subject.

Still others felt that no part of the student government fit these qualifications. The answers given varied as follows:

Pat Fee, senior arts and science Gamma Phi, said, "There is really no question. Patti Jones and her red hot women's upperclass committee are not only the most respected part of the Nevada student government, but also the most feared—furthermore, they do not only function—they function automatically."

Georgia Ward, junior arts and science student affiliated with Tri-Delta sorority, believes that, although the YWCA is not strictly a part of the student government, its student-run activities do more for the students as a whole than any part of the student government.

Vincent Asta, senior in the college of arts and science, also believes that the YWCA would have to be considered on a level with the student government and, as such, is the most "effectively functional."

A transfer pre-medical student from the University of California, Gordon Saxton, replied, "Do we

the tutor usually requires essays weekly, it pays to attend a few lectures. Examinations are held at the end of one's course; that is, usually after three years. Needless to say, these exams, or "schools," are pretty deadly.

I won't say anything about food in college; enough to mention that gow house chow seems like banquet in comparison. One can always order a pint of ale at dinner, though!

There is an infinite number of clubs one can join, usually meeting one night a week. If your interests are chess, anti-vivisection, Communism, chamber music, Far Eastern politics, dramatics, bell ringing, bridge, or genetics, to name just a few, there's a club at Oxford for you!

All in all, Oxford life is an experience I wouldn't miss.

Best wishes to my acquaintances at Nevada.

Sincerely,  
BARNEY CHILDS '49

have a student government? It isn't very noticeable."

Rod Eason, Sigma Nu senior, arts and science student, stated emphatically, "I have opinions on the subject but I'd rather not state them."

Norma Carnel, junior arts and science student, expressed the opinion that "there is no up-to-par student government on campus, much less an outstanding one. The most notable ruling force on campus is Panhellenic."

Lorrie Lothrop, Kappa Alpha Theta, said that she thought the senate of our student government was by far the most effectively run part of the government.

Pete Reading, Alpha Tau Omega, was quoted as saying, "The Interfraternity Council has been functional in its guidance of the fraternity men and their social, athletic and scholastic programs which have tended to create interest in school life."

Helen Mansfield, Artemisia Hall, voted on the student senate as being the smoothest run organization on the hill.

"The women's upperclass committee, in my opinion, is the most effectively run despite strong opposition by the freshmen," said Madge Riley, Artemisia.

Lorne Black, an SAE senior arts and science student, answered the question this way, "In my four years here I have never seen any effective branch of the student government. It always seems like the student government has been dominated too much by the administration."

Jerry Dondero, Alpha Tau Omega, felt that the student government functions too much on individual leadership, and that it should be developed more around the viewpoints and ideas of the entire student body.

Margery McKnight, Gamma Phi Beta, seemed to feel that the upperclass committee has the respect of everyone for the good job it has been doing.

## Readings by Poets Heard on Records

Contemporary poets will be presented each week reading their own compositions, on recording, in a series of informal record hours arranged by Robert Gorrell, associate professor of English.

Co-sponsors of the program are Fay Fryberger and Portia Hawley, English majors.

The first record hour was held last Tuesday in English temporary classroom 17 and, according to Miss Fryberger, was well received. The two sponsors said that everyone is invited to these informal hours which will be given weekly.

## Brush Strokes

By MARK CURTIS

OPERATION FINAL EXAM: Don't get too intent lookin' over somebody else's shoulder. There's a worn out story about a football player up here who saw written on his neighbor's paper, "I don't know" to a certain question. So gridironhead wrote on his, "I don't know either." . . . A meal merchant near the campus of Michigan State offers students coffee for three cents during final exam week. Says they need it. . . . Somebody heard somebody say, "A college education is one of the few things a person is willing to pay for—and not get." . . . If you feel up to it after this seMESter, sign up for Psychology 375. Packed in four months. . . . "Marriage, Homemaking, and Divorce." Just like Lana Turner. However, no alimony. Just two credits. . . . The working wives of Stanford students have conferred on themselves the "PHT" degree. Putting Husbands Through. God bless 'em.

THE SNOWING CIRCLE: Tahsin Karacabey will probably be the name of the next capitol of Turkey. When Tahsin shows up with his armload of publicity stills, they'll give him all the turkey he can eat. He's had his picture taken with everybody but Harry Truman . . . (give him time). He's the Steve Hannagan of Asia. . . . Nevada's former president, John O. Moseley, was the principle speaker before the Boise Chamber of Commerce Wednesday before last. He was concerned with "instilling the pioneer spirit into our youngsters." Significant is the fact that the College of Idaho has a vacant president's chair. Just thought we'd mention it. . . . Laugh this over. Now that you're convinced the atom bomb is of absolutely no consequence, play around with this. The hydrogen bomb . . . perhaps even now in blueprint . . . is conservatively estimated as 1000 times more powerful than the lady-finger known as atomic fission. It could wipe out 100 square miles. Give up? . . . The students who will be swallowed up in job offers before their degrees are cold, will be those who plan to teach. There's a shortage of one million teachers.

SOMETHING TO LOOK FORWARD TO: Sunday, October 22, the Wolf Pack meets Santa Clara at Sacramento . . . exactly one week after Clara warms up playing Stanford. November 5, Nevada faces St. Mary's at Kezar . . . the week after the Gaels tune up with California Golden Bears. . . . Tommy Kalmner, Nevada 4-year-football-letterman, Collier's all Pacific in 1948, was turned down by Clark Shaughnessy while at Pitt. "Sorry, kid, you're too small." Tommy is now the most potent potential of the Los Angeles Rams . . . or so thinks the Ram's coach . . . fella named Clark Shaughnessy. . . . The owner of the Globetrotters and the manager of the Sphas mixed it up for a few minutes in the locker rooms after their first game here last week. The Sphas were T-eeed because the clock had to be held back so the Trotters could finish their baseball act. . . . Hal Hayes as referee that night tried five times to get the ball from "Goose" Tatum. Buddy Garfinkle must've taken notes. Next night he pulled a Tatum on Tatum . . . snatched the egg right from under the Goose.

A rather sharp edge fell on some sorority pledges this week. Though women's affairs are too complicated for analysis here, experts say the girls lost their pins because of scholastic standing . . . rather falling. You see, the sororities have their eye on the scholastic cup again. By standing on each others backs they may reach it. . . . In about a month, a local radio work shop will be air borne . . . a kind of little theater of the air. Though it plans to use only high school acting talent, it could use some of your old dusty scripts. Material should be for one-half hour . . . script form . . . no short stories. When your story is in production, you'll be on hand. Write "Strokes." . . . Students up here used to have to salute the president and male members of the faculty (should have left that out). . . . The annual will devote a page to campus court jesters . . . like Jerry Wyness . . . who will have his picture taken backward . . . that is he will appear backward . . . well, not exactly that, either . . . what we mean is . . . OH LET IT GO! . . . In a New England college, an academic procession was waiting to march into the chapel to begin the 150th anniversary ceremony. The president, who was to lead the group on stage, turned and murmured something to two prominent educators who were to follow him . . . then he started off. The entire procession followed him and ended up . . . slightly chagrined, at the door of the men's room. . . . The Xmas Seal drive put the U of N on its list of drive groups for the first time. They were amazed at the fine donation which came off the hill. But, don't stop. Nevada, the least populated state in the union, ranks eighth in TB deaths.

## Former Graduate Doing Research

Louis Pico, class of '49, is perfecting aircraft equipment in the engineering laboratories at Wright Field, it has been learned by Professor Irving Sandorf, of the electrical engineering department. Pico's research, Sandorf said, is concerned with the development of protective devices to keep electrical equipment in plants from burning up. During his stay at Nevada, Pico was affiliated with Sigma Rho Delta fraternity. His home is in Las Vegas, Nevada.

"Aren't you pretty young to be a practicing physician?" asked the severe looking female person sternly. The young medico twiddled his fingers nervously. Well, you see, madam, I only doctor children."

## U of N Gow Hall 'Excellent Place,' Says Dr. Fortier

By P. B. KING

"The diets and foods prepared at the university dining hall are adequate in all the essential elements and surpass by far the average diets of similar eating places." So reports Dr. Fortier, university physician, who inspected the dining hall and says that he was greatly pleased to find it to be such an excellent place to eat.

Many complaints have reached Dr. Fortier concerning the food served in the dining hall and they usually ran to such comments as too much carbohydrates, too many vegetables, too few vegetables, too little fruit, and so on.

The doctor claims that such complaints reveal faulty eating habits and a lack of knowledge as to what and how much of the different foods such as carbohydrates, fats, proteins, vegetables, and fruits are necessary and beneficial in the diet.

Several students have come to the attention of the health service after trying to go on reducing diets without direction. Others have complained when they could not get sufficient amounts of the foods necessary to carry out "fad" diets of which they had heard. When students are in need of diets, the health service will be glad to see them and discuss their situation with them.

## Dividend Checks Not Assignable

E. F. Reed, manager of the Reno Veterans Administration, today warned that dividends paid to veterans on their GI insurance are not assignable under the law, and that dividend checks may not be withheld from them as security for indebtedness due an individual or firm.

VA issued this warning after noting that some veterans have directed that their checks be mailed to certain business establishments in various localities.

VA said the agency has no choice but to honor such requests, since the veteran has the right to have his check mailed to any address he designates.

However, no one has the legal right to withhold dividend checks from veterans after receipt, either for the purpose of procuring settlement of a debt or for any other reasons.

## Announcements Now Available For Seniors

Senior graduation announcements are now available in the ASUN president's office or from Louie Mendive, senior class manager, it was learned today.

Announcements may be purchased by either February or June graduates, Mendive said. However, a deposit of one dollar must accompany every order to insure proper handling and delivery.

February 30 has been set as the deadline for orders.

Students may purchase as many of the announcements as they desire, at 16 cents a piece.

Name cards are also available but have to be bought at a minimum of 100, Mendive said.

Students wishing to contact Mendive may do so by phoning 2-8879, or at his home, 643 Chestnut street.

Dual control autos would be mighty popular with some people.

## Coffee for Coeds

On the afternoon of registration day, the YWCA is inviting all coeds to relax over a cup of coffee in the YWCA room in the basement of Stewart Hall, from 1 to 3 pm.

# March of Dimes Benefit Slated for Gym Tuesday

By BOB PETRINI

The University of Nevada gymnasium will be the site of a special March of Dimes benefit on January 31. Gene Mastroianni, chairman of the event, said today that plans for the evening's entertainment had been almost completed. Starting time has been tentatively set at 7:15 pm.

Headlining the benefit program will be a special non-conference basketball game between Sparks and Reno high schools.

Also scheduled to perform is the university's tumbling team, under the direction of Art Broten. Warren "Punjab" Harriston, Nevada footballer, will sing some of his popular songs.

Buddy Garfinkle's "midget basketballers" from several Reno grade schools will keep the action going during intermission. Schools to be represented here are the Mary S. Doten, Orvis Ring, and St. Thomas.

Comedy for the evening will be provided by a "basketball" game between the Reno 20-30 Club and the Reno Rotary Club. A handicap rule will be followed, with one team donning boxing gloves.

Mastroianni also said that he hoped to get both the Sparks and Reno high school bands to play during the evening.

All services for the night will be donated. This will include all ticket sellers, gate crews, ushers, teams, referees.

Admission has been tentatively set at \$1 for adults, 50 cents for children.

## Officers Elected At ME Meet

Four new officers were elected to the University of Nevada student branch of the American Society of Mechanical Engineers at a recent meeting.

Dave Spoon will succeed W. H. Zenklusen as chairman of the organization. The new vice-president, taking the place of John Boynton, will be Jim Sartor. William Phillips will take the place of Lester Brownell as secretary, and Walter Long will act as treasurer for another term.

At the last meeting Everett W. Harris, professor of mechanical engineering, presented a program on old phonographs. He demonstrated his lecture by playing some old records, including old cylinder records that dated back to 1905.

At the next meeting, Roland Jiraud, a Reno resident who makes a hobby of steam engines, will speak on the White Steam car.

### JANE TRUEX PINNED

Jane Truex, member of Tri-Delta, has been displaying the Snake pin of Jim Stratton since Christmas.

## Block N Ditch Overflows Monday

The southeast section of the campus, south of the Engineering building, was flooded when the so-called Block N ditch overflowed its bank Monday, Carl Horn, superintendent of building and grounds, said.

Although the area flooded is not now being put to use, Carl Horn had men keep a constant watch on the ditch for fear that it would break out farther north and flood the English and Engineering buildings.

Danger that the water would back up into the football field posed a problem to Mr. Horn since at one point the Block N ditch runs under the Evans ditch, providing a bottleneck.

The Block N ditch is a natural drainage ditch from Mount Peavine and was swollen by rains to overflowing.

If the forthcoming depression is as far around the corner as the 1931 prosperity . . . we are sitting pretty for a long time.

## President's Office Gets New Lights

Traditional routine and orderliness suffered a little recently in the president's office as additional lighting facilities were being installed in the reception room.

Alice Terry and Melba MacFarland, part of the office force, worked among ladders and tools. The new fixture is intended to improve the present lighting, which is inadequate on cloudy days.

# 36 U of N Professors In West's Who's Who

## First Pacific Edition Gives Biographical Sketch of Nevadans

By DAVE MATHIS

Thirty-six professors of the University of Nevada are included in the first edition of "Who's Who in the West," a biographical dictionary of noteworthy men and women of the Pacific coast and the western states.

Arts and science professors in the publication are Edward Maurice Beasley, associate professor of mathematics; Alfred L. Higginbotham, professor of journalism; Austin E. Hutcheson, associate professor of history and political science; Ralph A. Irwin, professor of psychology; Mildred Klaus, lecturer in secondary education; Charlton G. Laird, professor of English; Sibmund W. Liefson, professor of physics; J. E. Moose, professor of chemistry; C. C. Smith, professor of history and political science; Loring R. Williams, associate professor of chemistry; and Eldon Wittwer, director of teaching.

Deans of the college appearing in "Who's Who" are Robert Stuart Griffin, dean of men and master of Lincoln Hall; Honnor Elaine Mobley, dean of women; Stanley G. Palmer, dean of the college of engineering and professor of electrical engineering; Fredrick W. Tranter, dean and professor of education; and Fredrick Wood, dean of the college of arts and sciences and professor of mathematics.

Professors of engineering whose names are in the book are Everett W. Harris, professor of mechanical engineering; and James R. Van Dyke, professor of mechanical engineering.

Mackay School of Mines instructors and professors mentioned in "Who's Who" are Jay A. Carpenter, professor of mining and director of the Mackay School of Mines; Vincent P. Gianella, professor of geology; Edward J. Matson, mining engineer; and Walter S. Palmer, professor of metallurgy and director of state analysis laboratory.

Meredith R. Miller, chemist, agricultural experimental station; and Lyman R. Vawter, associate in veterinary both of whom are connected with the agricultural department, were mentioned in the book.

Physical education professors are John E. Martie, professor of physical education for men; and Ruth Irene Russell, associate professor of physical education for women.

Others mentioned were Clarence E. Byrd, director of admissions; James E. Church, emeritus professor of the classics; Walter Earnest

Clark, president emeritus; S. B. Doten, emeritus director agricultural experimental station; James J. Hill, librarian; Phillip A. Lehenbauer, emeritus professor of biology and horticulture; George Wallace Sears, emeritus professor of chemistry; R. C. Thompson, emeritus professor of philosophy; Jeanne Wier, emeritus professor of history and political science; and James R. Young, emeritus professor of psychology.

## Theta's Party Is Coeds Holiday

Women were outnumbered four to one by the men at the Kappa Alpha Theta open house held last Friday night at the old gym. The party was given in honor of campus efforts in the selection of Jeanne and Eleanor Fulstone as All American Twins in the recent national contest.

Despite the long stag line, the party was a big success, said Beverly Poe, chairman of the event. An estimated 400 persons attended the party.

Doctor Ernest L. Inwood, professor of economics, introduced the Fulstone twins. They gave a short speech thanking the students and faculty for their assistance in the contest. The affair ended at midnight.

I'd follow her to the end of the earth . . . providing she buys the gas.

## International Club Shows 3 Films At Ed Auditorium

Three travel films were shown by the International Club to townpeople of Reno and to university students Friday evening in the Education auditorium.

Hilmi Voskay, president of the club, introduced foreign students at the University of Nevada and gave the history of the club.

He also presented Willem Houwink, foreign student from the Netherlands, who spoke on Dachau, the concentration camp in which he spent three years during the war.

The first film was on Cambridge University of England, which took a complete tour of the campus and explained old landmarks and ancient traditions connected with that institution.

Dr. Richard C. Bernhard, lecturer in economics, told of the "International House" at the University of California at Berkeley.

The second film showed the rebuilding of Holland after World War II in which the damage of the war and the sea constituted a double treat to the security of the Hollanders.

A technicolor film on the Scandinavian countries was the last film shown. This is the first program of this type that the International Club has sponsored.

The doctor's new secretary, conscientious girl, was puzzled by an entry in the doctor's notes on an emergency case: "Shot in the lumbar region," it read. After a moment she brightened and, in the interest of clarity, types into the record: "Shot in the woods."

THE NATION'S champion dumb blond, but right smart to look at is Marie (My Friend Irma) Wilson shown posing at Paramount studios.

## '47 Journalism Grad Publishes Paper

Paul Weaver, Jr., 1947 journalism graduate, is the publisher of a new weekly newspaper, The Post, in Pacific Palisades, California.

After his graduation, Weaver was editor and publisher of the Nevada State Labor News. Later, he was with the Weaver Publishing Company in Santa Monica.

He is a charter member of the University of Nevada chapter of Sigma Delta Chi.

## Phi Sigma Kappa Installs Officers

Newly elected officers of Phi Sigma Kappa were installed during the regular meeting last Monday night.

Officers-elect are Ted Klimasewski, president; Fred Lee, vice-president; Ted Covington, secretary; Sam Savini, treasurer; Bob Walker, sentinel; and Don Reid, inductor.

## Saddle and Spurs Plan Steak Fry

A steak fry was elected to be the next get-together activity of Saddle and Spurs, at a recent meeting of that organization.

Pat Fee, president of the riding club, said that members plan to invite guests, and will hold their outing at the Galena Creek lodge some time after semester exam week.

Saddle and Spurs, an organization for women who have completed a WRA riding class and have passed a riding skill test, is planning the steak fry to encourage a livelier interest among members.

During the meeting, new members voted to order their emblems. Also discussed were the possibilities of forming a Saturday morning riding group in the spring.

### ENGAGEMENT

Connie Burkholder, Tri-Delt, was presented with a ring recently by George Lindesmith, Phi Sigma Kappa.

### CREVLING-SPOON PINNED

Bette Crevling, Tri-Delt, received at Christmas time the Sigma Nu ring of Ed Spoon.

but what could I tell my friends?"*

**THE TWO GERMANYS—AS A NEW PHASE IN THE STRUGGLE OPENS**

Official Marine Corps Photo

**"AH, LUCKY AVIATOR,"** you say! Except he's only a wax mannequin. But the gal on the right sure is real enough. She's Paula Doretta from Anaheim, Calif., who stopped the show during the Orange County Fair at Costa Mesa when she posed before the El Toro marine exhibit.

After Santa Claus had finished his rounds and all the gifts distributed, this lovely wrapped package was found under the Christmas tree with no tag on it. If not claimed within ten days, the package will be returned to Hollywood as it is believed to contain actress Janet Leigh.

Versatile Charles "Red" Higgins, who sat out most of the early season with an injured knee, has returned as one of the stalwart reserves in the Wolf Pack lineup.  
A former all-state forward for Las Vegas high school, Higgins is also remembered for his role as "poule-valuting Belvedere."  
He expected to see plenty of action against San Jose State in this weekend's series at the Nevada gymnasium.

If someone should shout "Hey Deadeye!" anyone of this group would be qualified to answer. Here are the members of the 1950 varsity rifle team. Front row, left to right, they are Ed Callahan, Lowell Miller, Tom Macaulay, and Jay Atwood. Back row, Dave Colling, Knight Beauchamp, Sgt. Caesar Brunetti (team coach), Gay Woo, and Jimmy Atkinson. Callahan placed first in individual scoring in last year's inter-fraternity rifle matches, with 178x200, while Macaulay was first in 1946, with 185x200.

## PACK MEETS SAN JOSE STATE HERE TONIGHT AND TOMORROW

By BERK BAKER  
Spartan Daily Sports Staff  
San Jose State College

San Jose State's hoopmen come to Reno tonight for the weekend series against the Wolf Pack in the midst of their worst slump in three years.

The Spartans' season record of six wins and five losses shows little of what have been if the potential of the present squad had hit its peak. The only bright spot on the record is the season's opener, a surprise 53-48 win over San Francisco, the National Invitational champions from last year.

But that was 11 games ago, and although the Joseans have won five games since then, they have also lost five. Some of those losses were not quite expected, either.

Two nights after the USF upset, Stanford edged the Spartans, 43-41, down on the farm. After the Indians' raid came wins over St. Mary's (58-43) and YMI of San Francisco (54-41).

The axe fell again in the opening round of the Los Angeles Invitational tourney, and Gonzaga dropped the Spartans from the meet with a 51-43 setback. After a 26 day layoff during Christmas recess, San Jose beat Sacramento State, 52-46, then opened conference competition with a 60-52 win over San Diego State. That same weekend, however, Pepperdine's Waves rolled in on the crest of a 58-51 game, in an overtime period.

San Francisco State fell in an overtime, 51-49, but Fresno State came up with a 63-61 win last Saturday night. Tuesday evening, the Spartans bowed before the might of Hank Lusetti's Stewart Chevrolet team, 49-34.

Four of last year's starting five

have returned to the Spartan team. Stu Inman, Bob Wuesthoff, Don McCaslin, and Ralph Romero are back, with only Bob Hagen missing from the group. This is virtually the same team that beat the Wolf Pack twice last year in the Spartan gym.

Two changes have occurred in the starting five, however. Romero has given way to Chuck Crampton, a reserve on last year's squad, and Bobby Crowe has taken over Hagen's forward post.

McCaslin missed Tuesday's game against the Stewart Chevrolet group, and may not be ready for the Pack. If he is not, Stu Inman will shift to forward, and the 6-6 sophomore George Clark will take over the pivot post. Inman is at present leading the Spartan scoring with 167 points.

Coach Walt McPherson will bring with him a 10-man squad and will hope for the best. Here are the men on the travelling squad: Forwards, Don McCaslin, Bobby Crowe and Dean Giles. Centers: Stu Inman, George Clark and Junior Morgan. Guards: Bob Wuesthoff, Chuck Crampton, Ralph Romero and Ted Prescott.

Nevada frosh will again play the preliminary games to both the San Jose State-Nevada varsity games. Tonight, the Cubs will meet Lassen Junior College, and will tangle with Wells Cargo of the Reno city league tomorrow evening.

If every boy in the United States could read every girl's mind, the gasoline consumption would drop 50 per cent.

Men who exercise forethought are builders of a world. All others are merely tenants.

## Sixteen Games In City Loop

Here is the schedule of city league games for the week of January 30-February 2. Remember, BDB means the games are at Billingshurst gym on Plumas street; NS means they're at Northside at Four and North Center. First game is at 7:15 pm, with the night-cap at 8:45 pm. Admission is 25 cents.

January 30—BDB: Washoe Market vs. Sparks M-Men; Roy's Clothiers vs. Reno M-Men. NS: Sunshine Laundry vs. Air Guard; Sportsman vs. Sierra Sport.

January 31—BDB: Naval Reserve vs. Garrett Realty; Wells Cargo vs. Little Waldorf. NS: The Stag vs. Serve-Yourself Gas; Mervin-Gardner vs. Bank of Commerce.

February 1—BDB: Reno Print vs. Reno Co-Ops; YMCA vs. McCaughey Motors. NS: Vaughan Mill vs. Truckee Ropers; Ready-Mix vs. First National Bank.

February 2—BDB: Reno Newspapers vs. So. Virginia Bar; Risone's vs. Brickie's Chevron. NS: DeMolay vs. Deluxe Taxi; Harlem Butterflies vs. Clark-Star.

Fat Wun, happy job printer, takes out his \$15 pen that writes under water. (now selling for 49 cents) and writes that: Whenever you read short, wise sentences . . . be assured the author thought long and hard, in writing them.

It's a good thing for the country that a good portion of political campaign promises are never kept.

## Nevada Boxers Set Schedule For 1950 Meets

The recently released University of Nevada boxing schedule for the 1950 season includes seven separate cards, plus two tournaments.

Due to meet the Pack mittmen are UCLA, San Francisco State, Chico State, Cal Aggies, Idaho State (two weekends) and California.

In addition to the regular bouts, the team will have entries in the Intermountain tournament at Pocatello, Idaho, and at the Pacific coast tournament, at Sacramento.

Here are the cards on the schedule with date, opponent and place:

- Saturday, February 4, UCLA, at Reno.
- Monday, February 6, San Francisco State, at Reno.
- Monday, February 13, Chico State, at Chico.
- Saturday, February 18, Cal Aggies, at Reno.
- Saturday, February 25, Idaho State, at Pocatello.
- Saturday, March 4, Idaho State, at Elko.
- Saturday, March 11, California, at Reno.
- Friday and Saturday, March 17-18, Intermountain Tourney, at Pocatello.
- Thursday, Friday, and Saturday, March 23, 23, 25, Pacific Coast Tourney, at Sacramento.

### Theta Shooting

An investigation conducted by Kappa Alpha Theta sorority girls last week disclosed that the three shots fired at the upstairs window Wednesday night were from a .410 gauge shotgun.

No further developments have been revealed about the shooting, however, and police are still searching for the missing marksman.

## Nevada Skiers at Utah Tournament; Pacific Coast Intercollegiate Next

By JOAN METZGER

Playing host to skiers from most of the western states, the University of Utah will sponsor the Utah Winter Carnival January 27, 28 and 29, at Alta. The University of Nevada squad will be there to take part in the four-way meet.

Following good showings in the Nevada State Championships last weekend, Les Hawkins, Bob Ramsey, John Gianotti, Jack Parke, Chelton Leonard, and Harvey Rose have been chosen by team coach Hal Coddling to represent Nevada in the meet. The members of the team and coach for this trip, Ken Beck, formerly of Sun Valley, left Wednesday morning at 6 am.

Starting order for the men has already been determined. In downhill and slalom, Hawkins, Ramsey, Leonard, Parke and Gianotti will participate. In jumping and cross country the starting order is Rose, Parke, Gianotti, Ramsey and Hawkins. According to Hal Coddling, five men are to race each event, with the four best times to count in the final scoring.

Although members of the Nevada team failed to place in the first five during the Nevada State Championships downhill Saturday, John Gianotti placed seventh; Jack Parke, ninth; Les Hawkins, 13th; Chelton Leonard, 14th; Bob Ramsey, 15th; and Harvey Rose, 24th, out of 43 men racers. During the second run of slalom the Wolf Pack skiers took the majority of places in the first ten. Bob Ramsey was the only Pack skier who entered the jumping, placing sixth in the class B jump.

Snow conditions at Mt. Rose and White Hills should be better now that new snow has fallen since the weekend. Rain ruined races over at Squaw Valley Saturday, and turned ice into slush during the Nevada Championships. Sunday saw slalom and jumping hill turned into a sheet of ice from the rains.

The next meet on the University of Nevada's team schedule is the Pacific Coast Intercollegiate Championships with no date set yet. Bill Briner, manager of the team, is reported to be recovering from his leg injury slowly, and expects to be back with the team by the Nevada Winter Carnival.

### SHIRLEY DOES IT

Members of Lambda Chi Alpha serenaded the Kappa Alpha Theta house recently to honor the engagement of Shirley McDonough and Bob LeGoy.

ELMO DERICCO.

## Ski Carnival Heads Approved By ASUN Senate

Committeemen and officials appointed for the Winter Carnival to be held February 17, 18 and 19, were approved by the senate last Wednesday night.

They are Norman Olsen, tournament chairman; George Vucanovich, program chairman; Ken Cusik, head timer; Brent Aiken, head gate keeper; Glen Menu, equipment head; Sue Broadbent and Betty Sweeney, registration and results; Lee DeLauer, meals; Web Brown, housing, and Shirley Bell, corresponding secretary.

Social chairman is "Skip" Wigg, and social committeemen are Jim Lee, Don Thompson, Bob McCrae, Tom Bowman, Mary Lou Burg, Homer Haines, Jeanne Baehr, Beverly Harris, Odile Frost, and John Shevlin.

### STRANG PINS REUTER

Gretta Reuter, Kappa Alpha Theta, is now wearing the Sigma Alpha Epsilon pin of George Strang.

## Pack Opponents Win Nine of 11 Over Weekend

By CHUCK CHARLETON

Nevada's early season basketball opponents won nine of 11 games this last weekend, and continued to make the Wolf Pack look good.

Probably the most impressive wins were registered by Chico State, which two-timed San Francisco State 81-47 and 68-61. The wins were the fifth and sixth conference victories for the Wildcats, compared to but one defeat. The double win came hard on the heels of their record-smashing 98-point splurge against Humboldt State two weeks ago.

Indiana State, whose worst defeat was at the hands of Nevada, ran its record in the victory column to 11, as it edged Indiana Central, 61-60, then romped over Evensville, 66-53. The Sycamores, who have been beaten only three times, play in tough midwest competition.

University of San Francisco, defending champions of the National Invitational Tournament, added two more victories over the weekend, and now owns nine wins and four losses. The Dons trounced Stanford Friday night 54-39, then trampled on St. Mary's, 64-37, on Saturday.

Fresno State, which started slowly, has now compiled a three-game winning streak. In their last two outings, the Bulldogs downed Santa Barbara State 49 to 41, then upset San Jose State 63-61. They are currently in second place in the California Collegiate Conference.

College of the Pacific avenged an early season defeat by beating the Olympic Club of San Francisco, 55 to 34.

Regis College of Denver, playing its first game since its 69-50 defeat at the hands of the Wolf Pack, ran

all over a good Colorado Mines quintet, 61-48, for its eighth victory of the year.

Only former Nevada opponent to lose over the weekend was Colorado A&M, which has been losing one close ball game after another to tough Skyline Six opponents. This time it was Wyoming who squeezed by the Rams 46-41 Friday night, then had to go into overtime to beat them 56-45 on Saturday.

Portland, which has split four games with the Pack, was idle.

### THETA ENGAGED

Ramona Walker, Kappa Alpha Theta, and James Atkinson, Lambda Chi Alpha, recently announced their engagement.

### SHELLY PINNED

Alice Shelly and Jerry Schafer were initiated into the Sigma Alpha Epsilon Sweetheart Club Monday night at the Tri-Delta house.

## Pack Tracks

With the approach of the Wolf Pack's series against San Jose State tonight and tomorrow, the test will be applied to the team. As you know, many of the more enthusiastic followers on the hill are taking up the possibility of Nevada playing in the NAIB tournament in Kansas City. I still think the goal is a pretty high one, but if Nevada can get by this crew, we might well be in. A split series might even do it. With fingers crossed, let's wait and see. That would be a fine trip to K. C.

Speaking of good basketball . . . the Harlem Globetrotters, self-admitted "World's Greatest" in pro basketball, put on a slightly hot-and-cold exhibition here last weekend. Thursday night, the doubleheader was almost enough to bring sleep to the most ardent fans. Friday night, however, things looked up, and a fine first game and a good show during the nightcap were on tap for the near-capacity audience. Good half-time performance, too, the Jumping Jupiters on the trampoline.

Sidelights on some of the members of the Globetrotter team . . . Reece "Goose" Tatum, clown prince of basketball, has a reach from fingertip to fingertip of 84 inches, and even seven feet! . . . Nat Sweetwater Clifton, star center for the team, is also a professional baseball player. Last year he hit .328, and will move up to the "A" league team of Wilkes-Barre, Pennsylvania. The team is a member of the Cleveland Indian farm system. Clifton plays first base . . . "Jumping Johnny" Wilson, a forward who stands only about six feet tall, is claimed to jump higher than any other man in basketball . . . could be, it seems he went almost elbows high above the basket for the ball on one play Thursday night . . . the least publicized, yet one of the most valuable men on the team, Louis "Babe" Pressley, for 13 years a member of the team . . . a guard, and a fine one at that.

From the sublime to the . . . don't forget the Reno city league basketball at the two junior high schools each night Monday through Friday. Admission is 25 cents for a doubleheader.

Three University of Nevada football players have been included in the list of players whose draft rights have been acquired by professional football teams. Dick "Buter" Tilton, who played both tackle and guard for the Pack, has been drafted by the Washington Redskins. Tackle Fred Leon and Fullback Bill Osborne have been drafted by the Green Bay Packers. The Packers, of course, does not mean the players will sign with those teams. It means merely that those teams will have first call on the men if they decide to play pro ball, and if contract agreements can be reached with the clubs.

A late note on the weekend series against San Jose State's Spartans . . . Joe Harris, national forecaster, has picked Nevada to split with the Spartans, Nevada to win by six points Friday night, and San Jose State to pull an exact switch Saturday. NAIB and Kansas City, here we come.

Two printers gazed admiringly at the beautiful dress of the leading chorine.

"Who made her dress?" asked one of his companions.

"I'm not sure, but I think it was the police."

Yes, you can believe your eyes! They ARE wearing boxing gloves and that IS Gene Mastroianni, Nevada's graduate manager, getting clipped on the chin, and the game they are playing IS called basketball. You'll see this and plenty more if you take in the big "March of Dimes" benefit slated for the university gym next Thursday night. Mastroianni will referee the comedy game between the Reno 20-30 Club and the Rotary Club.

### Carnival Dance To Feature 'Faculty Row'

A "faculty row" will be one of the features of a "carnival dance" tentatively planned by the YWCA for March 4.

The YWCA has called on the faculty to volunteer for duty as fortune tellers, shoe shine boys and novelty salesmen. Pat De Walt is in charge.

Proceeds of the dance will be used as the university's contribution to the World Student Relief Fund. In the past this fund has been supported by direct contribution. Rather than approach students directly, the YWCA will try to raise the needed funds with the carnival dance.

Plans call for the various campus student groups to set up and manage booths. Jim Klens' orchestra has offered to play for the dance.

"I represent Sheep and Shere Wool Company," began the snappy young salesman. "Would you be interested in coarse yarns?"

"Gosh, yes," breathed the gal, hopefully. "Tell me a couple."

### Alumni Group To Form In Ely

A chartering meeting for a University of Nevada alumni chapter will be held in Ely on Saturday, February 11. This is to be the first of a series of meetings designed to activate alumni chapters throughout the state.

## Annual PE Show To Be Held On February 22

A combined tumbling and dance program on February 22 will mark the beginning of a free annual physical education show. The show will get bigger each year. said Dr. J. E. Martie, chairman of the physical education department, early this week.

This year the program will include modern and American dancing by the women's physical education department and tumbling and gymnastics by the men's department.

"We are also contemplating a contest between our tumbling team and the team from the College of the Pacific," Dr. Martie said. "We will know by next week whether the contest will be possible." In future, years, two or three other teams might be invited here, he continued.

Six modern dances with percussion and record accompaniment will be done by Orchesis, women's dance organization, and some of the women of the modern dance class. A group of women from the American rhythms class will do a sequence of dances representing the various forms of folk dancing and novelty dancing that have been popular in this country. All of the dancing will be in costume.

Statuary work will be done by

the men's physical education department, along with the tumbling and gymnastics. There will be eight or ten gold and marble looking "statues" of various athletic poses, said George A. Broten, instructor in physical education.

## CORRESPONDENCE CURRICULUM NOW OFFERING SIX NEW COURSES

Several new courses have been added this year in the correspondence study at the University of Nevada, and Nevada residents may choose from more than 50 subjects.

New courses for 1950 include:

Education, guidance and counseling in secondary schools; mathematics, algebra and engineering calculus; philosophy, social ethics and philosophy, and political problems; English, elementary composition.

In addition are offered the usual courses in economics, business administration, education, English, French, German, Italian, Spanish, geography, home economics, history, mathematics, metallurgy, music, naturalization, philosophy, physical education, physics, political science, psychology, and sociology.

Dr. M. W. Deming, director of the home study department, explained that the majority of the courses are those offered by the university to regular students and carry university credit.

They may be used toward satisfying graduation requirements or for obtaining or renewing teachers' certificates.

Only requirement for enrolling in home study courses is the ability to do the work, Dr. Deming said.

Former students who desire to continue with their studies toward a university degree, business and professional people, nurses and teachers who are working for certifications, and persons who are interested in self-improvement are enrolled in the courses at the present time.

The instructors are chosen from the regular university staff and are qualified by knowledge of their individual fields and an understanding of the requirements of correspondence instruction.

A bulletin describing the courses offered is available, through Dr Deming's office at the University of Nevada, Reno.

## LIFE EXHIBIT SET FOR DISPLAY

Scheduled for showing at the University of Nevada early in February is a photographic exhibition prepared by the editors of "Life" magazine and presented by J. Craig Sheppard of the university art department.

The exhibition is entitled "Egypt" and contains the most recent photographs of remaining art monuments from an Egyptian culture of almost 5000 years ago.

Based on the photographic essay, "Art of Egypt," which appeared in the January 19, 1948, issue of "Life," the exhibition is a display of the photographs of Eliot Elisofon taken while he was on an assignment for "Life" in the Nile Valley; and the exhibition was assembled under the direction of W. C. Hayes of the department of Egyptology at the Metropolitan Museum of Art.

## Library Hours

Library hours will be as regularly scheduled during final week from Monday, January 30, through Saturday, February 4. Mrs. Caryl H. Moore, loan librarian, has announced.

The library will be closed, however, on Sunday, February 5, and open from 8:00 am to 5:00 pm only on February 6, 7, and 8.

On Thursday, February 9, the regular schedule will be resumed.

## 'Shady' Salesman Caught in East

By ED SCRIPPS

Nevada fraternity houses no longer need worry about the clothing salesman who was said to be forgetful about fulfilling orders after they were paid for. An Associated Press dispatch early this week said that a clothing salesman was booked under the name of David S. McIntyre at St. Louis, Mo.

A salesman using the same name was reported to Robert S. Griffin, dean of men at the University of Nevada, last week by officials of the University of Oklahoma.

Using the name, David S. McIntyre, the salesman had been accepting orders on suits, and receiving deposits on them, but not delivering the goods.

Deputy Sheriff Philip K. Moeller of the St. Louis sheriff's office, said that McIntyre had admitted that he had accepted \$700 from University of Oklahoma students and never put their orders through.

McIntyre was arrested at Washington University after requesting permission to sell suits at fraternity houses there. Assistant dean, Don A. Fischer, recognized him from a wanted circular and notified authorities. He is being held in St. Louis for Oklahoma authorities.

The salesman is wanted by the interfraternity council at the University of Oklahoma as well as the Interstate Garment Manufacturing Company of Chicago, the firm which he claimed to represent.

## Travelers Vote To Extend Trip

Members of the European tour planned for this summer met Sunday afternoon at 3 pm in room 104 of the Education building, and voted to extend the trip to Rome, Italy, and to Oberammergau, Bavaria, where the famous passion play draws crowds from all parts of the world.

The passion play was an exceedingly popular religious play of the middle ages, and when residents of Oberammergau were unharmed by a plague that swept the neighboring countryside, they made a vow to perform such a play every ten years. They have done this since 1663.

## Coming Events

Friday, January 27, basketball . . . University of Nevada vs. San Jose State . . . new gymnasium . . . 8:15.

Saturday, January 28 . . . basketball . . . University of Nevada vs. San Jose State . . . new gymnasium . . . 8:15.

Saturday, February 4 . . . boxing . . . University of Nevada vs. UCLA.

Monday, February 6 . . . boxing, U of N vs. U of San Francisco.

## Aggie Club Elects Officers

Election of officers was the main feature of the last regular Aggie Club meeting. In addition, the Aggies discussed plans for the Horse Show and heard a report on the recent livestock judging trip.

Gary Hyde took office as president and Bill Charles as vice-president. Walt Mackenzie is the new secretary-treasurer and Bill Sumner is historian.

Eyer Boies, Ray Alzola, Les MacKenzie, and Gary Hyde told the members about a few of the highlights of their trip to the Western Livestock Show in Denver.

The club also discussed advertising plans for their Horse Show to be held May 13 and 14.

## Banff Meet Off For Pack Skiers

Due to a conflict with finals, the Banff Intercollegiate Ski Championships in Banff, Alberta, Canada, will not be included on the University of Nevada's ski team schedule. The meet is set for February 4-5 and is sponsored by the University of Alberta.

Prospects of meeting the same teams that are to race at Banff are good for the Nevada varsity skiers, however. The University of Washington is sponsoring the Northwestern Ski Championships at Stevens Pass on March 17, 18 and 19, with the same western teams that are to participate at Banff invited. A few of these teams are Utah, Alberta, Idaho, Colorado, Washington, Oregon, and California.

## Two Instructors Added to Staff

Two new instructors have been added to the university staff effective with the spring semester. They are Willard F. Williams, who will teach agricultural economics, and John Whittlesey, who will teach both physics and astronomy.

Mr. Williams spent four years in the Air Corps and received his M.S. at the University of California where he was engaged in agricultural research. He is married and has one child.

Mr. Whittlesey is a graduate of the California Institute of Technology and received his master's degree in astro-physics there. He is unmarried and when interviewed expressed an interest in the Polkaters and the Ski Club.

### Rules for 1950 'Miss Nevada' Set

A candidate for the Miss America contest to be held in Atlantic City next September will be chosen from candidates submitted by the different sections of the state in a preliminary contest to be held June 10.

The girls submitted must come from Nevada, have charm, talent, and poise in order to be able to compete for the title of Miss Nevada. Emphasis is placed on talent, according to word received from the contest officials.

Max Dodge, president of the Reno Junior Chamber of Commerce, announced that the Jaycees became sponsors of the state to select a representative from the state because of the unwillingness of any of the University of Nevada organizations to sponsor the contest.

Upon discovering that none of

the campus organizations would sponsor the contest the Jaycees wrote a letter to Miss Lenora Slaughter, national committee member, asking for the contest. Miss Slaughter replied that it was difficult entering a Miss Nevada in last year's contest and to drop out now would make it more difficult in future years to install a Nevada participant.

In May there will be a preliminary contest staged in Reno where all state entrants will vie for the Miss Nevada title.

The first award for the Miss Nevada this year will be a trip to Chicago to attend the national convention of the Junior Chamber of Commerce, June 14-17.

Weather Report: Thursday, dew; Friday, dew; Saturday, dew; Sunday, don't.

### Campusites to Star In 'Theater' Drama

Irving Sandorf, professor of electrical engineering, and Clarence Brown, a University of Nevada student, will carry two of the leading roles in "Material Witness," a psychological suspense drama to be presented by the Reno Little Theater February 2, 3 and 4.

Prof. Sandorf will portray the part of Dr. Harley. Clarence Brown, who handled one of the main parts in "Command Decision," will have the role of William Staunton, an attorney.

The play was written by Dr. N. B. Joseph, Reno optometrist.

Teacher: "Why don't you like our school, George?"

George: "Oh, it's not so much the school, it's the principal of the thing."—Tid-bits.

### Ox Bow Incident Presented On Air

The "Ox Bow Incident" taken from a book written by Walter Clark, an alumnus of the University of Nevada and president of the Reno Tennis Club, was presented over NBC recently.

### Prof. Blair Honored

A dedication of two communion plates in memory of the late Prof. G. Bruce Blair, former member of the faculty of the University of Nevada, took place at the Federated Church two weeks ago.

Prof. Blair taught physics and astronomy at the university.
