UNIVERSITY OF NEVADA, RENO, NEVADA, FRIDAY, APRIL 20, 1951

## Shirley Hodge is queen for Engineers' Day Sat.

By Ruth Moore

The Associated Engineers will take over the Nevada campus tomorrow to celebrate the 33rd annual Engineers' Day. Shirley Hodge of Manzanita Hall has been chosen by the Associated Engineers to reign as queen over the celebration.

Exhibits from different engineering departments will be on display in the engineering buildings from 9-4 tomorrow. Various contests including slide rule, surveying, drilling, mucking, and riveting will be held throughout the day and trophies will be awarded to the winning department in each field.

Miss Hodge was elected queen over four other candidates. The other candidates included Salle Jolle, Delta Delta Delta; Martha Oviatt, Manzanita Hall; Helen Keddie, Artemisia Hall; and Marcia Malcolm, Delta Delta Delta.

Climaxing the day a smoker-banquet will be held by the engineers at the Colombo. Those attending will be engineering students, faculty, alumni from the engineering department and practicing engineers.

Approximately 200 are expected to attend, according to Val Larson, chairman of the banquet.

An overall award will be presented to the department which wins the exhibits of interest. Last year the civil engineers won the trophy for their exhibits.

### Civil Engineers

Five major exhibits are on the program for the civil engineers.

They will feature a collection of construction equipment which will be arranged in the parking area around the new engineering building. Models of three different type bridges will also be on display, including a timber trestle, a Bailey bridge and a pontoon bridge. Photographs of other types of steel and concrete bridges will be shown.

In the non-metallic lab the civil engineers will show concrete specimens of different water-cement ratios. At different stages these specimens will be tested with a compression testing machine.

Tests will be run on oils and soil samples. Various pieces of lab equipment and charts will also be on display.

In the fluid mechanics lab there will be in operation a 3,000 gallon per minute deep well pump. A reaction turbine and an impulse turbine will be shown to the public in addition to the pump.

Different types of field equipment such as transits, levels and rain gauges will be on display in the civil engineering building.

### Mining Engineers

Outstanding feature in the mining department will be the front of the Mackay School of Mines

whose entrance is being made to resemble the entrance to a mine. Panning for gold will be demonstrated in front of the building.

Assaying for gold and silver will be going on throughout the day. Mining machinery used in 1870 up to the present time will be displayed.

Another feature of the mining department is a map locating each graduate of the Mackay School of Mines. This map will be on display in the building.

Specimens of petrified wood and silver buttons from the assay of silver ore will be given to the public.

A special collection of commercial displays will be exhibited in the old gym and on the adjoining parking lot. Twenty-three companies have donated displays including a steam power plant, a lifeline motor, diamond bits, carbide bits and drilling displays.

Diesel and electronic equipment has been donated to the miners for exhibition as has a weapons display. Other exhibits include a geiger counter used to test for uranium, a fluorescent mineral exhibit; slides of national parks, a petrographic display, and studies of thin sections of rock sections.

### Mechanical Engineers

An auto exhibit will be shown by the mechanical engineers contrasting old and new cars. Also shown will be a cutaway Diesel engine with parts removed showing how the engine works.

Miniature gold pans will be given to the public Saturday by the mechanical engineering students.

Various types of gauges and measuring devices (such as micrometers and pressure gauges) will be on display in the mechanical engineering building. The mechanical engineering work shop will be open to the public.

Another feature of this department will be the exhibition of different types of gears. Various experiments will also be shown to the public throughout the day.

### Electrical Engineers

Different experiments will be performed by the electrical engineers with students and faculty demonstrating class work.

One student will draw up a brief synopsis of each experiment and explain it to the audience. Then the students will perform the experiment and at the same time explain each step to the public.

### Geology Department

Although not directly connected with the Engineering department, the geology department will display several exhibits.

The seismograph used to measure earth tremors will be available for inspection all day Saturday, and petroleum exhibit will show the development of oil in Nevada.

SHIRLEY HODGE, Manzanita Hall, was chosen by the Associated Engineers from five candidates to reign over their 33rd annual Engineers' Day, tomorrow. Miss Hodge will present trophies for contests tomorrow.

## Ulph charges "suppression" in dismissal

By Joseph Abbott

Charges of suppression of opinion were made this week against the university administration by Dr. Owen Ulph, assistant professor of history.

Dr. Ulph is not being recommended for permanent appointment to the faculty next year.

In an interview with a Sagebrush reporter, Dr. Ulph stated that he felt his "non-conformist" ideas have caused his dismissal.

Dr. Frederick Wood, dean of the college of arts and science, stated that because of reduced enrollment expected next year, there are no openings for positions with permanent tenure in the history department.

The rules of the university stipulate that after the three year temporary term to which all faculty members are first appointed, a professor either has to be dropped or given permanent academic tenure. No extensions are given.

Dr. Love, president of the university, said in an interview with United Press this week, that Dr. Ulph's dismissal was part of a program to fit budget reapportionments.

"Dr. Ulph has never been officially told not to express his viewpoints," Dean Wood said yesterday. "There has never been any question of academic freedom in Dr. Ulph's

## Library hours restored

By Don Loveless

Hours at the University of Nevada library will return to near normal by next week, according to James J. Hill, director of the university library.

Hill announced that he received word from President Love this week to spend the \$250 which he had said would enable him to open the library to near normal hours.

The new hours are: Monday through Thursday the library will be open from 7:45 a.m. to 5:30 p.m. and from 7 p.m. to 9:30. Fridays remain the same, 7:45 a.m. to 5 p.m. Saturdays the library will remain open from 9 a.m. to 12 noon. And Sunday hours will remain the same, 2 to 5 p.m.

### Hours Shorter

The new schedule is eight hours short of what it was last semester. The library was open then for 72 hours a week. It will now be open for 64.

The library will begin its new schedule Saturday, April 21, remaining open until noon.

President Love stated that he was very happy to see the library able to resume more normal hours and pointed out also that the library budget was not the only budget to be cut this semester.

He said that every department in the university received a similar cut.

## New car, old car, ME's have them for Engineer Day

By Shirley Kershner

If you're interested in buying a new car, or if you'd just like to dream about a few of the newest models, you shouldn't miss the car exhibit to be put on by the mechanical engineers as part of the Engineers' Day program tomorrow.

Ten of Reno's automobile dealers are participating in the display which will be held in the parking lot near the engineering building. About twenty new models will be exhibited by the participants. Diamond Motors, Hermann and Wilson, McCaughy Motors, Scott Motors, Hudson Agency, Holland Motors, Johnson Chevrolet Co., Richardson-Lovelock, the Studebaker Agency, and Brown Motors.

In case you're one of the old-

timers, and don't care for all these modern trimmings, the ME's have something to suit your taste too! They are planning to exhibit about five old models that came out well before the thirties.

Roland Giroux, one of the originators of Reno's Horseless Carriages Club, is lending a few of the club's old steam driven cars for the day.

The engineers hope that the display will include, besides a White and a Stanley steamer, a Mobile Steamer built in 1899 and driven by a stick rather than a steering wheel.

Another Horseless Carriage contribution which may be displayed is a 1908 Thomas Flyer. This car in 1908 was the American entry in a worldwide automobile race. It won by such a great margin that it established permanently the supremacy of the American made automobile.

The final car on display will be a "modern" Model T Ford of 1926 which is still in very good running condition.

The ME's will also have on dis-

## Nation begging for engineers

The Bureau of Employment Security reports this week the nation now requires 30,000 engineers a year. The biggest requirements are in the field of mechanical and electrical engineering.

In the last two years 50,000 college graduate engineers have been absorbed by industry. With the increasing demand the government has formed an interagency committee to find engineers and place them in the spots of greatest need at their highest skills.

The Bureau said that there are 50,000 defense jobs still unfilled in the United States.

play a diesel switch engine donated by the Western Pacific railroad. It will be located on the siding near the parking lot and will be staffed with a crew to show it to the visitors and explain to them how it works.

(Continued on Page 2)

## Love named veep of college assn.

Notification of his election as vice president of the Western College Association came to the university's president, Dr. Malcolm A. Love, last Saturday shortly after his return from the semi-annual meeting of the group.

His election to the vice presidency marked the first time that a Nevada president has been elected to a major post in the association since the university became a member in 1947.

Some 300 delegates, representing the 40 western colleges and universities which make up the association, met for the semi-annual conference on the Whittier College campus in southern California. The program given the educators of the western states was titled, "Science and Education," and one of the main topics discussed and acted upon by the group concerned the accrediting of curricula.

The association holds its meetings semi-annually in order to discuss those problems which are shared by the educational institutions in the western states.

## Campus spots close for student assembly

In an effort to facilitate attendance at student body assemblies, recreation facilities on campus were closed this morning from 11:15 until noon. The Wolf Den, Blue Silver, and the YWCA snack bar closed their doors at the request of student leaders.

The action came on the heels of reports of low assembly attendance, although students were excused from classes in order to attend. Since the year's first assembly, the attendance has fallen off considerably.

The action began with the suggestion from the ASUN executive committee and it was agreed upon as a necessary measure by student leaders before being acted upon.

## Rifle team third in SF-Utah match

By John K. O'Neill

The University of Nevada rifle team placed third in matches with the Universities of San Francisco and Utah Saturday on the home range. University of San Francisco scored 1388, University of Utah 1369, and Nevada 1312.

The Nevada team was definitely in better form than it was in recent matches at Berkeley. But, against such top teams as Uta hand USF, its lack of experience shows in competition in shoulder to shoulder shooting, Sergeant C. Brunetti, team coach, said. However he continued, arrangements have been made to hold shoulder to shoulder matches with the Reno Rifle club and the Reno High School teams every week next year. This, it is believed, will give the team confidence and practice that should make it a threat to any competitors.

Shooters on the team Saturday were Lowell Miller, Marvin Guerrero, George Schindler, William Becker, Kim Choy, George Iveson, and William Engle. Several other members of the team could not enter competition because of mumps.

The team fired its portion of the Pershing Rifles match Wednesday. This is a postal match with teams of students taking basic military training at other universities.

## Love's inauguration during graduation

Announcement was made today by M. W. Deming, chairman of the ceremonials committee, University of Nevada, that the inaugural ceremonies for Dr. Malcolm A. Love would be held in conjunction with commencement exercises, June 11, 1951.

At his own request, the installation ceremonies of Dr. Love as president of the University of Nevada will be an abbreviated ceremony combined with the regular graduation program.

Speaker for the commencement-inaugural exercises will be Harry K. Newburn, president of the University of Oregon. Dr. Newburn has been a personal friend of President Love since they were classmates together at the University of Iowa.

## Three departments set up musicale

"Down in the Valley," a one act opera by the German-American composer Kurt Weill, will be presented on May 17 and 18 with the cooperation of the English, physical education and music departments.

The opera will be performed as the second half of the annual spring concert of the university singers in the old gymnasium.

Weill's work gives the story of mountain folk and a condemned man who escapes from prison to see his love "down in the valley."

The principal characters in the opera are Joseph Battaglia, tenor, who will play Brack Weaver, the convict who breaks out to see his girl, Jennie Parsons, played by Odile Frost, soprano. Manfred Hardesty, baritone, is cast as a preacher.

Mr. Battaglia has sung for the university on several other occasions. He sang in the performance of the "Messiah" last Christmas.

A small orchestra will support the soloists and the university singers. Professor Theodore H. Post, head of the music department, will direct.

Dancing will be under the direction of Miss Fay Briggs, instructor in women's physical education. The staging will be handled by dramatic classes with Dr. William Miller, associate professor of English, directing and coaching the stage action.

## New gym areas to get lawn soon

The long awaited landscaping of the area north and west of the new gymnasium is in progress now, according to Carl Horne, superintendent of buildings and grounds. There was no appropriation for the work during the past two years, but the last legislature provided funds for the job.

The two areas will require many yards of loam and fertilizer because of the nature of the ground and the hard usage it receives. Mr. Horne says that the study blue grass and clover being planted will improve the appearance of the gym and of the whole area. No shrubs are to be planted now since it is too late in the season for such planting. Some will be planted next fall when the lawn is thriving.

The university grounds and their

care require the efforts of fifteen men, and nearly a mile of hose, he said, as well as eight traveling sprinklers which move along as they water the lawns and the Thompson high pressure sprinklers which use a pressure of 70 pounds and water an area of 200 feet at once placing.

The pansy beds in front of Morrill Hall have survived the recent cold spells and maintained their vivid vari-colored blooms even in the recent snow. They will remain as they are until June when they will be replaced with summer flowers, probably asters, zinnias, marigolds and petunias.

## Comstock Stomp

Phi Sigma Kappa fraternity will embody the spirit of the old west April 28 when it holds its second annual Comstock Stomp at the chapter house.

The front of the house has been decorated to resemble an old Virginia City saloon, and stage coaches, buckboards, and dancing girls will round out the atmosphere. Board walks will be fashioned in the front and back of the house.

Guests will be invited from all campus fraternities, and a number of Phi Sigma alumni are expected.

## Griffin backs clamp on speeders; recommends student traffic court

Dr. R. S. Griffin, dean of men, said he would back any student measures to bring campus reckless driving and speeding under control.

"It is high time somebody, somewhere, did something about the situation," said Griffin.

The dean has suggested to the student senate, as a possible solution to the situation, a "student court" which would try all offenders of discipline on the university grounds.

The dean also suggested as a means of control a possible vigilante committee of the mothers of the Victory Heights area, whose obligation it would be to report any offender to the authorities.

### Three Offending Classes

There are three classes of offenders, according to the dean.

"1. The students who attend afternoon affairs at Clark Field and as soon as the affair is over they take off in a cloud of dust, tearing and spinning around corners with no concern for others in the least.

"2. The students who attend late afternoon classes of military drill, band or some other affair on the campus; these go speeding through campus as if it were a race track.

"3. The people who for some reason can't get up in the morning and make a last minute dash for class, speeding through campus, not even

slowing down for the students who are walking about the grounds." The dean also mentioned a fourth class of offenders and they are, "the habitual reckless, gambler of other people's life and limb, this is the worst of the lot because with this type it is an all-the-time occurrence."

Two years ago when the traffic regulations were altered there was not a speed regulation inserted. Now after two years it becomes necessary to correct this error.

The previous regulation stated a fine of 10 cents per mile over the specified limit of 15 miles per hour would be charged all speeders convicted. The dean said if this seemed too small to teach the speeders a lesson then the fine would be increased till it would be felt by the offenders and "felt hard," Dean Griffin put it.

The dean says, "It doesn't matter who enforces the measures but the fact that they will be enforced is what counts."

## Ulph dismissal

(Continued from Page 1)

case."

Two speeches given by Dr. Ulph last spring resulted, according to Ulph, in much criticism from other members of the faculty.

The loyalty oath was the topic of one speech given before the Faculty club. Dr. Ulph said that he was invited to speak and freely expressed his opinions. Some faculty members, according to Ulph, resented his ideas and suggested that he exercise more discretion.

**Supports Creative Individualism**  
"I support creative individualism," maintains Dr. Ulph. "The founding fathers of this country were non-conformists. The very purpose of the constitution is to protect individuality and freedom of thought."

"Communism is incompatible with individualism," stated Dr. Ulph. "The regimentation and collectivism of Communism are directly opposed to freedom of the individual."

Dr. Ulph explained, however, that to criticize Communism, one should learn the basic principles and philosophies of Communism. Communism must be brought out into the open so that it can be objectively studied.

Dr. Ulph went on to explain that

he thought that dogmatism and orthodoxy were emphasized too much in the present world. A person no longer feels free to express opinions that went counter to the ideals of the majority.

"The United States is attacking Communism by adopting its ways," he said. "The very freedom that the constitution stands for is being curtailed by the 'red-baiters,' he maintained.

"Nobody knows the whole truth, but some know partial truths. Therefore," said Dr. Ulph, "let us hear both sides of all questions."

The Henry Hudson arch bridge, New York City, has the longest plate girder, fixed steel arch in the world.

## SDX ranks fifth in national report

The University of Nevada chapter of Sigma Delta Chi, national professional journalistic fraternity, was rated fifth among the 53 college chapters in 1949-1950.

The high ranking was the result of a report evaluating each chapter on its program, efficiency, placement of graduates into the profession, and compliance with the ethics of journalism.

Sigma Delta Chi members are elected annually from among upper-classmen preparing for a journalistic career and with above average scholarship.

## Inter-faith plans retreat

Plans for a retreat sponsored by the Inter-Faith Council to be held April 27, 28 and 29 at Lake Tahoe, are nearly completed, according to Arlene Freedman, chairman of the retreat.

Inter-Faith, an organization composed of representatives from all the student religious groups on campus, is sponsoring the three day meet to further unify the different groups.

The program includes lectures on family relations by Rev. H. E. Broughton of the Las Vegas Methodist church, and possibly other speakers. There will also be dancing, swimming if the weather permits, boating, and games.

The fee of \$5.00 for the retreat will take care of lodging and food for the three days. Transportation will be arranged, and any students wishing to attend may make arrangements with Miss Freedman before April 23.

## 'Putting husbands thru'

### Degree conferred on grads' wives

Wives of the graduating seniors will share the limelight again this year during June commencement when they receive the degree of P.H.T. (Putting Husband Through).

Efforts to compile an accurate list of eligible candidates have slowed down inasmuch as the regular list of graduating seniors will not be available at the registrar's office for at least two weeks. Because of this condition, those married seniors who intend to graduate in June should submit the required information to a member of the senior class committee as soon as possible.

Plans are under way to conduct these exercises at the annual senior banquet which is tentatively scheduled for June 2.

## Post troupe has date with PTA in Loyalton

The University Singers will perform at the annual spring meeting of the Parents Teachers Association at the Loyalton, California, high school Saturday, according to Prof. Theodore H. Post, head of the music department.

The program consists of works of a variety of composers, performed by chorus and solos. Soloists of the University of Nevada are Joline McCarthy, soprano; J. Albrecht and

## Cap, gown rental in charge of 'Y'

The rental of caps and gowns for graduation is now handled by the campus YWCA, according to Marjorie Dickinson, executive secretary. The rental was formerly handled by the U of N library.

The price has been increased, but the Y is charging exactly the same amount it has to pay to the Cap and Gown Company of California, Mrs. Dickinson said.

Four women, headed by Pat Jefferson, are in charge of handling the gowns, which have to be cleaned first. The Y has submitted bids to local cleaners, and will accept the lowest price.

One hundred and fifty caps and gowns are owned by the University of Nevada, and will be rented at the same price as the rented gowns, since the money is needed for maintenance and handling. The women's committee of the Y is going to repair the gowns and to sew names into them.

The charge ranges from \$2.50 to \$3.00, according to the type desired.

Charles Hicks, tenors; Nona Lee Barber and Thelma Perry, altos. Verlita Johnson will play the piano, and Katherine Meyer the violin. Lynn Allen, senior of Loyalton high school, will sing a solo part.

A supper will be served for the University Singers after the program.

Nevada is the leading state in the production of tungsten concentrates.

## Letter to the Editor

Editor:

I would like to bring to your attention a grievance felt rather strongly by members of this organization. We are thoroughly disgusted with the limited publicity given to Engineers' Day in the Brush last week, April 13, 1951. Of an appalling eleven lines devoted to our activities in the entire issue, eight were consumed in pointing out the misspelling of "Mackay" in the Mackay Miner publication. Thanks for bringing it out. We missed it! Engineers' Day, which annually brings as many as fifty companies and several hundred visitors to the campus, and who are the ultimate employers of a number of grads, certainly deserve more attention from the school paper than that received this year, last year, and other years. A good coverage in the Brush always spreads the word to the downtown papers, and in this particular instance would have certainly enhanced the success of the day. For this letdown, from our school paper, we feel slighted. For, even as engineers, we are a part of the ASUN and it's time for consideration as such.

Let's get rolling! Get the news! The correct news; At the correct time! It will be appreciated.

Thank you.

Yours very truly,  
Secretary, Crucible Club  
Bill Flangas.

## Psi Chi hashes over topics with guests

History and background of clinical psychology was the topic of Dr. Harry McNeill from the U. S. Public Health Service at the last meeting of Psi Chi. The honorary psychological society met Thursday, April 12, at the Tri-Delt house.

Dr. McNeill, who is secretary of the division of clinical psychology of the U. S. Psychological Association, spoke about his own experiences in this field.

The next meeting, on Thursday, April 26, will feature Captain Spitz of the Reno police department, according to Secretary Taffy Rule. He will speak about psychological aspects of juvenile delinquency.

Hoover (Boulder) Dam is the principle engineering structure of the Boulder Canyon Project, which provides many benefits through the regulation of the Colorado river.

Thirty-six states report openings for 1,736 mechanical engineers and 1,317 electrical engineers.

## Senior ball termed success

More than 100 couples attended the Senior Ball Saturday night, April 14, in the Redroom room of the Riverside Hotel. Lou Levitt's orchestra furnished dance music from 9 p.m. to 1 a.m.

The dance was termed "highly successful" by Tom Gaffey, senior class manager, because of the unusual large number of attending seniors.

Dormitory and sorority house residents were allowed special hour privileges for the night, while hour restrictions for graduating senior women were lifted from that night until the end of the semester.

Chaperones and guests for the dance included Mr. and Mrs. James Dickinson, Mr. and Mrs. Gordon Shelly, Dean and Mrs. Robert Griffin, and Miss Elaine Mobley.

## Mackay queens introduced today in assembly

Six senior girls, candidates for Mackay Day queen, were introduced to the student body by Edward Scripps, Mackay Day chairman, in an assembly in the education auditorium this morning.

The coeds are: Maisie Gibson, Delta Delta Delta; Mary Micheo, Kappa Alpha Theta; Julia Connolly, Artemisia Hall; Shirley Hodge, Manzanita Hall; Colleen Gilbert, Gamma Phi Beta; and Ruth Irwin Alguin, Pi Beta Phi.

Pictures of the six girls will be sent to the art editor of Esquire magazine who will choose the final girl to reign as queen over the Mackay Day festivities.

Scripps explained that the usual difficulties have arisen over certain facets of the Mackay Day celebration. The speaker originally invited will be unable to attend, and a new one will have to be found.

A vigilante committee, selected from the various fraternity houses will be active on the campus next week to give those students without beards and without excuses a dunking in Lake Manzanita.

He also stated that due to the short time allowed for the assembly Friday morning, the skits will have to adhere to strict time limits, and it is probable that fraternity houses will have to submit scripts to the judging committee a couple of days before the assembly in order to assure a good show with organized skits.

## Petrini elected Newman prexy

Bob Petrini was elected president of Newman club at elections held Wednesday, April 18. Chosen to assist him were Carl Herera as vice president; Inez Pasquale, secretary; and Alice Facha, treasurer.

Newman club is an organization of Catholic students. It provides them with religious instruction and social activities.

Petrini will take over previous to the Newman convention being held this weekend, in which approximately 500 students from Pacific coast schools will participate.

## Four coeds vie for Miss Reno

Four coeds have been chosen to represent the University of Nevada sororities in the Miss Reno contest June 2.

The four are Salle Jolly, Tri-Delt; Joan Foster, Gamma Phi; Mary Jane Zunino, Kappa Alpha Theta; and Sheila Murray, Pi Beta Phi.

These contestants will compete with other girls sponsored by downtown businesses in the contest at the university gymnasium.

The winner will receive a \$250 scholarship and will represent Reno in the Miss Nevada contest June 23. The girls will be judged 25 per

cent on beauty of face, 25 per cent on figure, 25 per cent on talent, and 25 per cent on personality. The contest is being sponsored jointly by the Reno Junior Chamber of Commerce and the Associated Women Students on campus.

Marnie Miller, AWS president, announced the complete cooperation of the AWS with the Reno Junior Chamber of Commerce for the event. These students will sell tickets, arrange for the use of the gym, and in general, provide complete campus service for the event.

The mountains of Nevada have produced more than a billion dollars worth of mineral wealth, chiefly in gold, silver and copper.

# ATO leading; SAEs second in interfraternity athletics

Interfraternity athletics are nearing completion for this year with three houses still vying for top honors in a very close race. Alpha Tau Omega seems virtually to have the Kinnear trophy in the bag, but if either the Sigma Nu's or the SAE's can cop the three remaining sports they will emerge with the coveted award.

Baseball, tennis and handball are still being played. Due to the recent rains some of the baseball games have been canceled but providing the weather holds out the schedule will be followed without further delays. Lambda Chi Alpha is leading so far in the bat and ball sport. Following is a list of the team standings in baseball.

	W	L
Lambda Chi	2	0
A T O	1	1
Sigma Nu	1	0
Phi Sig	1	0
Theta Chi	0	1
S A E	0	1

Some teams have been disqualified according to interfraternity rules by forfeiting two games.

Following is a list of the standings in the Kinnear trophy race:

A T O	345.83
S A E	265.83
Sigma Nu	250.
Theta Chi	187.50
Lambda Chi	170.
Ind	60.
Phi Sigs	8.33
Sigma Rho	1.

## Tennis squad loses to Chico; plays Sac today

The tennis team left today for Sacramento, where they will meet the Sacramento Junior College tennis squad in their second match of the year.

Last week the Nevada squad failed to win a match, but gained much experience against a tough Chico State team. Dale Riddle, Nevada's number one man (determined by ladder play-off) was defeated by Chico's top man 1-6. Robert Miller lost his match 1-6, 0-6, to the second top man, while Jack Luwe went down 2-6, 3-6 and W. T. Chin likewise, 0-6, 0-6. Bob Lindsay and Elmo Dericco both lost 1-6, 1-6 and 5-7, 4-6 respectively.

In the doubles competition Riddle and Luwe were down 5-7 and 0-6, and W. T. Chin and Dericco lost 7-9 and 1-6.

The Nevada squad will play a return match with the Sacramento team again in Reno on May 5.

Lee Schroder was one of the top point getters in the recent track meet with Chico State. Schroder captured the 220 yard dash in the fine time of 22 seconds flat, ran second in the 100, and placed first in the discus with a throw of 125 feet. The Nevada track squad is idle this week, but will return to active competition next week.

Attend Engineers' Day tomorrow, April 21. New car display, contests, demonstrations. No admission. Open all day.

## Golf team wins one, drops one, plays here today

The university golf team took it on the chin last week, after soundly trouncing the Cal Aggies, by the Chico State golf team.

The team will play its first home match tomorrow at 10:30, when they meet the Sacramento Junior College squad at the Washoe County golf course.

Against the Cal Aggies the team won all of its matches. Wayne Adams, the number one man on the

squad beat his opponent, 3-0, as did Bob Larson, number two man, and Jim Boyle, number five. Don Petroni and Jim Patterson both took their matches by 2½-½.

Nevada only managed to grab two matches against the Chico State squad with Adams winning 2-1 and Boyle taking his encounter 3-0. Don Petroni and Bob Larson lost both of their tilts 1-2, while Patterson was downed 0-3.

Benjamin Franklin in 1752 demonstrated, when flying a kite during a thunderstorm, that lightning is a discharge of electricity.

## Nevada skiers end fine season

Nevada skiers ended their 1951 collegiate season by placing second to the University of California in the Pacific Coast Intercollegiate Ski Union championships. Last weekend's meet at Squaw Valley saw Wolf Pack slatmen place first in the cross country and giant slalom, but the Bears walked off with the team title in both events.

John Gianotti, Nevada captain, was individual winner of the cross country race. Teammate Pat Myers raced to victory in Saturday's slalom in a meet marked by the postponement of two of the scheduled four events because of scant snow conditions.

The Pack trailed the Golden Bears, and was followed by the University of California at Los Angeles, Stanford, and Placer college.

Trailing Gianotti in the cross country was Don Baer of the University of California and Dave Taylor of Stanford.

Most of the collegiate skiers refused to jump on the Lake Tahoe Ski Club's hill because they termed the lack of snow too dangerous.

Nevada missed the services of Chelton Leonard who is out with an ankle injury and Alan Ramsey who could not make the trip. John Cowley substituted for Ramsey as Nevada competed with only five men.

Nevada has managed to win one title this year in the Vanderbilt Cup races.

Wolf Pack skiers led by Gianotti and Myers plan to enter the Silver Belt giant slalom at the Sugar Bowl on Sunday.

## Home ecs initiate nutrition drive

"Market Basket Day," sponsored by the home economics department, will be held on Friday, April 27.

Students in that department are working in conjunction with a nationwide effort to promote better nutrition in the various grocery stores.

"The health of the nation is one of its major points of wealth," President Malcolm Love said in proclaiming next Friday as "Market Basket Day."

"It is my hope that all cooperation will be given to this worthy effort of promoting good nutrition to the people of Reno," Dr. Love stated.

## Jensen retires to write

Dr. Paul H. Jensen, assistant professor of education at the University of Nevada for the past four years, announced this week that he will retire from his position at the end of the current school year.

"On my trips to Europe I collected considerable material on education in foreign countries which I would like to consolidate into a college textbook on comparative education," said Dr. Jensen. "To complete the material I plan to visit Argentina, Chile, Columbia, Brazil, and Mexico in late summer," said Dr. Jensen.

Dr. Jensen is well known in Nevada and other states as a lecturer and writer. He has traveled a great deal in the United States and made

trips to 34 foreign countries. He got his college education at the universities of Copenhagen (Denmark) and Berlin (Germany) and lectured in seven foreign countries. In the summer of 1950 he headed a group of students from the University of Nevada and the University of Cali-

fornia making a trip to eleven western European countries.

The 33rd Engineers' Day will be tomorrow, April 21. The mechanical, electrical, mining and civil engineering departments will demonstrate equipment, phenomena, and engage in many interesting contests.

### Aggie club show slates new events

Elimination heats for two year olds entered in the Aggie Horse show's futurity race will be run off May 6 at the Reno Rodeo grounds. Entries in this class total well over 15, according to Ray Alzola, manager.

New events scheduled for this year's show on May 12 and 13 are a stock horse class and a junior horse class.

Women agriculture majors, newly admitted into the club, will hold some of the key positions in the show. In addition several coeds will present the championship trophies and awards on Sunday.

Committee heads for the two day show are: Dick Reid, assistant manager; Eyer Boies and Gary Hyde, publicity; Mr. and Mrs. Dick Knight, programs; Laura Sauer, tickets; Elwin Pulsipher, concession. Joe Cribbens, announcer; Corky Lingfelder, racing secretary.

Judges are: Professor C. E. Howell of the University of California for the gaited, fine harness, Arabian and Palomino classes; Charles Araujo of Coalinga, California, for the quarter horse classes; John Lilley of Van Nuys, California, judging cutting and trail horse events.

Admission for university students attending the show will be 50 cents.

### Kline to assist on Mexican tour

Dr. Lawton B. Kline, assistant professor of foreign languages at the University of Nevada, will serve as assistant director on a tour to Mexico which is being sponsored by Stanford University this summer. It will be led by Dr. Juan B. Rael of the Stanford Roman languages department.

The tour may be taken for either a two week or a four week period, and is scheduled to start the last week in June. It is open to college

and high school teachers, students, and other interested persons. The two week trip will cost \$278, the four week tour \$478, including all but meals while in Mexico City.

Mexico City, Cuernavaca, Taxco, Acapulco, Guadalajara, Puebla, and many other points of interest will be visited.

Persons interested may contact Dr. Kline at the foreign language department. Dr. Kline accompanied the tour last summer.
