## Juniors to promenade

### Cupid and St Valentine to be honored by king and queen of annual junior prom

Dan Cupid's arrows will be flying in the Fable room of the Hotel Mapes tomorrow evening when the men and women students of the university elect their king and queen to reign at the St Valentine's junior prom.

The prom will begin at 9 o'clock and will last until 12 o'clock. Tickets, \$1.50 couple will be sold at the door. Cupids and large and small red hearts with fancy lace edges will surround the walls of the Fable room.

Coronation of the junior prom king and queen will begin at 11 o'clock sharp. Lynn Horner and Mel Guerrero, last year's queen and king will crown the new royalty.

Candidates for queen included Joan Miller, Pi Phi; Barbara Rohlfing, KAT; Nancy West, Delta Delta Delta; Nancy Hartke, Artemisia hall; and Alice Melendy, Gamma Phi.

King candidates are Jerry Carstens, Sigma Nu; Jim Miller, Theta Chi; Bert Munson, Lambda Chi; Floyd Vice, Phi Sig; Henry Clark, SAE.

The candidate's pictures have been posted on the bulletin boards on campus for the past two weeks. The candidates were selected by the sororities, fraternities and women's dormitory.

Ballots will be supplied as the couples come in the door, announced Elbert Gardner, chairman of the prom and junior class manager. As in previous years, the men will vote for the prom queen and the women will elect the prom king.

#### Committee

Committees for the prom include orchestra, Floyd Vice; publicity, Vana Grant; decorations, Mary Anne Norlen, Rollan Melton and Marie Nielson; king and queen, Barbara Rohlfing, Annette Caprio and Arthur Bachelor; guest committee, Bill Brown, and Alice Melendy; ticket sales and programs, Bill Kottinger and Elwood Haggerty.

Guests for tomorrow evening will be Prof and Mrs John C. Sheppard, Dr and Mrs William C. Miller, Dean and Mrs. William D. Carlson and Dean Elaine Mobley.

in PE 101, 102 and 201.

Twelve months service, 2 credits in PE 101, 102, 201, 202.

Three months service, 1 credit in PE 161.

Six months service, 2 credits in PE 161 and 162.

Nine months service, 2½ credits in PE 161, 162 and 261.

Twelve months service, 3 credits in PE 161, 162, 261, 262.

Credit has previously been granted only to world war II veterans, and the new policy has been started to prevent dissatisfaction among veterans of the Korean war. Foreign students can obtain credit for service with foreign armed forces, provided they can present adequate proof of this service.

## Physical ed credit for Korea veterans

Students who are veterans of the Korean war can obtain credit in physical education on the basis of their military service according to a letter from the admissions committee to Dean Wood of the college of A&S.

Honorable discharge and credentials showing the record of enlistment must be presented to the admissions office, where the veteran may pick up a form for application for advanced standing in physical education.

All applications must have the approval of the physical education department and the dean of the college in which the student is registered.

Credit is assigned in proportion to the amount of military service:

#### Men

Three months service, ½ credit in PE 101.

Six months service, 1 credit in PE 101 and 102.

Nine months service, 1½ credits

### Carnival assembly heralded by band

A six-piece German Tyrolean-type marching band will herald students to the Ski Carnival assembly Thursday morning at 11 and take part in this opening activity of the ski carnival, Burt Munson, assembly chairman, declared, promising a colorful and entertaining program.

The marching band will play a few selections during the assembly, and will make appearances at the ski banquet and during Sunday's jumping events at Galena creek.

#### Program

Dave Buckman will be master of ceremonies for the assembly. The past ski carnival history and a calendar of events to take place during the carnival will be explained by Brent Aiken. Ski carnival queens representing the competing colleges will be introduced by Bob Winkel. He will also explain the what-to-wear, when, where, and how much of the Snow-Ball dance to be held Saturday night.

Nevada's Ski team will be introduced by coach Chelton Leonard of Nevada.

A skit to acquaint students with some of the finer points of skiing will be presented by Lyle Joy, Don Thompson and Judy MacNeil.

### Tri-Delta initiates 20 new members

Delta Delta Delta initiated 20 new members last week, concluding a three day stay at the house for the ex-pledges.

The initiation started with an them.

The new Tri Deltas include Diane Black, Marilyn Royle, Benita Stockham, Marge Titus, Janet Van Valey, Shirley Allen, Anna Mae

### UN ski carnival is largest in nation

The Ski Carnival which has grown up from a small local carnival to the largest intercollegiate invitational ski carnival in the nation, promises to be this year, with several renovations, on an even higher level, said Brent Aiken, general ski chairman.

Ski clothes day, which will be held Friday preceding the carnival, will replace the ski sweater assembly of past years.

Aiken urges all students to take part in all activities of the carnival. Tampers and gatekeepers are needed for the competition. The carnival can be only as good as the participation, he commented. Competitors are arriving this week from twelve western colleges and more than 130 people are expected to enter the various races.

Activities included in the winter carnival will be the banquet, Snow ball, the assembly, fraternity and sorority open houses and house decorations.

Bob Winkel has announced that awards for the events will be awarded at the banquet. Also planned for entertainment at the banquet will be group singing by the ski teams. The governor is expected to be there. The banquet will cost \$2.25 per plate and the student body is invited.

Vana Grant has announced that the Snow ball will be held at the Fable room of the Mapes hotel and that a seven piece band and singer have been hired for the evening. Special decorations will be used to add to the festivities.

The courses will be decorated on Thursday night. Patti Jefferson is in charge. Bill Pelter is in charge of the house decorations.

The carnival is being given national as well as local coverage. Press releases have been sent to all schools on the west coast, and Saturday's banquet will be recorded and presented over the radio. Color slides are going to be shown at downtown theaters of last year's carnival. Standard oil photographers will be on hand.

Bugica, Ann Cunningham, Barbara Dooley.

Guylene Ferguson, Bev Sue Hug, Lorraine Meunier, Sandra Mitts, Mary Moore, Janice Palludan, Janet Quilici, Pat Samon, Dixie Sturges, Evelyn Titus and Carol Tollefson.

Pat Samson received a check for having the highest grades in the pledge class and Sandra Mitts received the cup for the highest points in the class.

Jim Miller

Jerry Carstens

Floyd Vice

### Shakespeare appears in levis at formal

Dressed in levis and cotton dresses, more than fifty couples attended the Sundowners' levi formal at Echo's barn last Saturday night.

A prize skit from the Wolves Frolic was reenacted during the intermission. Jim Brooks played announcer, and Frank Schadrack, Lyle Joy, Ken Duck, Vince Laveage, Paul Argeres and Hank Clark resumed their original parts in a parody on a scene from Shakespeare's Midsummer's Night Dream.

Without props a few appropriate lines, costumes, other than levis, the men entertained the audience.

#### Member

Dean W. C. Carlson was made an honorary Sundowner during the evening and was presented with the traditional black hat and gold pin, a mark of Sundowner membership.

Carlson and his wife were guests at the dance as were Mr and Mrs Joseph Lintz, Cap Edward Fry, Miss Mary Rulifson and Dean Elaine Mobley.

**Social calendar**

The social calendar for the spring semester was officially released by the dean of women's office. The calendar is final, and no changes will be honored.

**FEBRUARY**

- 13 Sigma Nu
- 14 Junior Prom
- 20 Winter Carnival
- 21 Winter Carnival
- 28 Sigma Alpha Epsilon; Lambda Chi Alpha; Tau Kappa Epsilon

**MARCH**

- 6 Theta Chi; Gamma Phi Beta
- 7 Pi Beta Phi; Phi Sigma Kappa
- 13 Sigma Rho Delta; Kappa Alpha Theta
- 14 Sigma Alpha Epsilon; Lambda Chi Alpha; Delta Delta Delta
- 21 W. U. S. Carnival

**APRIL**

- 10 Alpha Tau Omega
- 11 Theta Chi
- 17 Gamma Phi Beta; Tau Kappa Epsilon; Lambda Delta Sigma
- 18 Sigma Nu; Sigma Rho Delta
- 24 Phi Sigma Kappa
- 25 Military Ball

**MAY**

- 1 Big Bonanza
- 2 Big Bonanza
- 8 Artemisia-Manzanita; Pi Beta Phi
- 9 Alpha Tau Omega; Sigma Nu; Lincoln hall ass'n; Lambda Chi Alpha

**MAY**

- 15 Senior Ball
- 16 Delta Delta Delta; Theta Chi; Gamma Phi Beta
- 22 Phi Sigma Kappa
- 23 Sigma Alpha Epsilon; Kappa Alpha Theta; Sigma Nu

**Pan-Hel holds meet for new rushees**

Rushing will be informal this semester, announced the Pan-Hellenic council. An important meeting for rushees will be held tomorrow, Saturday, at 10:30 in the Education auditorium.

All girls interested in rushing who have not yet signed up are urged to attending the meeting Saturday, announced Annette Caprio, Pan-Hel president. There are ten girls signed up for rushing to date.

The usual formal teas for rushees are being done away with during this semester. February 18 to the 25th are the dates set aside for rushing in order to finish the activities before the sorority houses

are prepared for Ski Carnival guests.

Each sorority will hold either a dinner or party for rushees on the 18th. These activities will be very informal.

A workshop not held during the past two years is being planned for April. Meetings with pledges, actives, and alumni from all sororities will feature former Pan-Hellenic members as guest speakers. Members attending the work-shop will divide into panels to discuss different ideas and phases of sorority life.

Members of the Pan-Hellenic Council for the 52-52 school year are Annette Caprio, Ruth Moore, Jean Zelayeta, Joanne Menu, Mardell Leonasio, Mary Jane Zunino, Bervery Miles, and Elsie Shaver.

**Electrical engineers to feature Dalziel**

Featured speaker at the annual Electrical Engineers banquet at the El Cortez March 13, will be Prof Chrales E. Dalziel, America's foremost authority on electrical shocks and resuscitation.

Professor Dalziel of the University of California, is a specialist on electrical hazards. He recently completed a trip around the world after spending several months studying the electrical industries of the various countries of the world.

The internationally-known authority of electronics, who is also a prominent literary figure, will relate his experiences during his tour of the globe at the formal dinner next month.

He graduated from the University

of California in 1927 then continued his studies, receiving a masters degree in 1934 and an electrical engineering degree the following year.

Some of Prof Dalziel's recent literary works include The Electrical Fence, Effects of Frequency on Let go Currents, Sensations Arising during the passage of a constant Galvanic Current, and Electrocutation by Electric Fence.

During the war Prof Dalziel was the chief technical aid for the city of New York. He is also a former engineer of General Electric and San Diego Gas and Electric.

**Where's your jingle?**  
 It's easier than you think to make \$25 by writing a Lucky Strike jingle like those you see in this ad. Yes, we need jingles—and we pay \$25 for every one we use! So send as many as you like to: Happy-Go-Lucky, P. O. Box 67, New York 46, N. Y.

College students attending the 57th annual congress of American industry in New York City as guests of the national association of manufacturers look on as Gen Douglas MacArthur, seated, autographs his photograph. At left is Erich A. Helfert, student at the University of Nevada.

**Leonard speaks on ski carnival plans**

Shelton Leonard, Nevada ski coach spoke briefly on the importance of perfect plans for the Winter Carnival, to be held next weekend, at the Ski club meeting Wednesday.

The Nevada Winter Carnival has grown to be one of the three largest ski events throughout the country, along with the Dartmouth Winter Carnival and the Nationals. Leonard stated that the future of Nevada's skiing participation depends on the outcome of this year's carnival.

Jeff Lobaugh and Brent Aikin, Carnival chairman, made plans for recorders, gate keepers and timers.

Announcement was made of the annual ski clothes day on the Nevada campus for February 20. All students will wear ski clothes in preparation for the Winter Carnival weekend. A Winter Carnival assembly is to be held the same day.

Dave Ryan and Pati Jefferson are in charge of the sale of raffle tickets to be sold at the Carnival.

**Syrian student starts in engineering at UN**

Among the new faces on the campus this semester is one new foreign student, Gregory Jeanbart from Syria.

A native of Syria, Gregory was born in Aleppo, in the northern part of the country. Since Syria was mandated to France as soon as 1922, Gregory attended first a French high school and later a French lycee in his home city, where he recently passed his final exam.

As Gregory wanted to get a better technical education in the profession of his choice, electrical engineering, rather in the U.S.A. than in his country, he decided to complete his education here.

The new foreign student chose the University of Nevada, as his sister, who is married to an American lives in Reno. He is intending to stay in her home.

Winning prize is a complete week-end of skiing at Squaw Valley.

**ACCIDENT**

Paul Argeres and Gordon Foote were injured when Argeres in his 1951 Cadillac hit some telephone poles last Sunday morning at 3:45. The accident occurred on Fourth

street between Reno and Sparks.

The automobile, stated Argeres, was totally demolished.

Foote dislocated his collar bone, and has been in the hospital since Sunday morning. He hopes to

attend classes next week. Foote is

a junior and a member of ATO. Argeres received some bruises,

and he has spent the past week resting at home. He is a senior and a member of Sigma Nu.

**AN OPPORTUNITY FOR GRADUATE ENGINEERS WITH GOODYEAR**

Representatives of the Goodyear Tire & Rubber Company and the Goodyear Atomic Energy Corporation will be on your campus to interview Seniors with B.S. and advanced degrees in the following fields of technical study:

- Chemical Engineering
- Mechanical Engineering
- Electrical Engineering
- Industrial Engineering
- Civil Engineering
- Chemistry

Opportunities for graduates with the above degrees now exist in the following fields:

- Plant Engineering
- Production Development
- Process Development
- Research
- Machine Design
- Factory Management
- Technical Sales

Contact your student placement office now for your interview with the Goodyear representative on Feb. 23.

## GROW UP

Students returning to campus after vacation found numerous signs on the walls of the snack bar asking people not to throw cigarettes and matches on the floor. Unfortunately, these signs have been ignored, and the floors are as littered as they ever were.

There is no apparent reason why people can't be more considerate of the snack bar staff and try to save them some work. Many ashtrays are provided so that cigarette butts, matches, and other refuse can be kept off the floor.

Ash cans are spread about the rooms so that cups and paper plates can be thrown away instead of being left on tables.

It is disgraceful to enter the snack bar and to continually have to wade through the mess. As soon as the room is cleaned up, negligent students throw things around making the snack bar look as though it were the pig pan at the South Virginia farm.

Someday Nevada hopes to have a student union. Will you be proud to have it resemble the snack bar now? If your answer is no, why don't you start right now and practice using some willpower or a little extra energy and reach for the ash tray.—S.S.

## Largest collegiate ski tournament to get underway at UN next week

The fourteenth annual winter carnival will get underway with Thursday's ski clothes assembly. The biggest invitational collegiate ski tourney in the United States will begin competitive activity Friday at Mt Rose with the downhill and cross country events. Thirteen prominent ski teams representing Western colleges and universities will participate.

Led by Marvin Crawford, one of the most outstanding four-event collegiate performers, Denver university tops the entries.

Washington, Oregon state, Portland university, Utah, COP, California, UCLA, Stanford, University of Colorado, Modesto junior college, San Jose state, in addition to the host Wolf Pack, follow Friday's events with the giant slalom Saturday.

Sunday will feature jumping at Galena creek and the coed powderpuff derby.

### Top

As the downhill event is being run off Friday, top skiers representing all ski areas in the Sierras will compete in the Reno silver dollar derby.

The more than 130 competitors will begin arriving Tuesday and will be housed in sororities and fraternities.

Social activities that follow Thursday's assembly include sorority open houses, Friday evening. Promising to be the most spectacular social event of the year, the entire student body and competing teams are invited to attend, stated Dorothy Bell, open house chairman.

### Queens

Saturday's skiers' banquet, which will include skiers, coaches and fans will be highlighted by the introduction of queens, and a song fest by the participating ski teams.

Following the banquet the annual Snow Ball will be held in the Fable room of the Mapes. The coronation of the queen, presenta-

tion of sorority and fraternity trophies, in addition to a seven-piece orchestra will round out the social agenda.

## Engineers to meet at national convention

Fifteen student representatives from the University of Nevada student chapter of the American society of civil engineers will attend the society's annual national convention at San Francisco on March 2.

The Nevada delegation will be headed by Dave Townner, president of the student chapter, and will include David Arneson, Bruce Brown, Keith Gosling, Earl Latham, David Storm, Oliver Warren, John Smales, Daryl Doyle and Donald Wooden.

Additional representatives have not yet been selected.

The program will include a paper contest in which a representative from each chapter will present a ten minute talk illustrating an engineering problem of his own choosing.

## KAMPUS KAPERS by sandra mitts

The first semester is finally over and once again, much to everyone's dismay, the pocket books are light and the schedules heavy. The freshman are seen walking about campus with their noses in the air because now they are second semester freshmen and have a little bit of pull around here—Or so they think!

—o—

Right now the big thing on the agenda is the Junior prom to be held tomorrow night at the Mapes. The price is \$1.50 per couple.

—o—

Of course tonight is the Sigma Nu pledge dance. This is the second social event of the group this semester. After four months of paying for the fun they had at their first pledge dance this year, the affair will no doubt be fairly tame.

—o—

Their first event was their open house on February 5. The affair was a great success even without the famous Sigma Nu punch. Herb Hughes did all of the art and decorating of the house for the evening and had good reason to be proud of it.

—o—

The Levi formal at Echo's proved to be a good example of the sort of things the Sundowners are capable of doing. Everyone had a wonderful time. The highlight of the evening was a representation of their famous Pyramid and This-bee skit with which they made such a good showing in the Wolves Frolic. Lyle Joy again stole the show.

—o—

Marvela Chandler proved herself the best woman skier last Sunday when she came in first in the inter-sorority ski meet at Mount Rose. Nan Imperatrice and Ann Boero came in second and third respectively.

—o—

Along with new faces on campus are seen new pins. The Tri-Delts were the first social group to initiate those pledges who had made their grades. The initiation began with a slumber party on registration night and ended with the group attending Mass at St. Thomas Aquinas cathedral last Sunday. There were 20 girls initiated.

—o—

Other sororities will have their initiations this weekend. Also next week there will be good evidence seen on campus of the commencement of Hell Week for some of the fraternities.

—o—

While speaking of pins—Rita LaVoy revealed her not-too-secret pinning when she passed candy at the Tri-Delt house Monday night. Joe Bugica, of course, was on the giving end. The pinning took place between semesters.

—o—

Ski Carnival, which everyone has been eagerly awaiting, is now only one week off. The sororities will begin decorating for their open houses to begin at 7 p. m. next Friday night in opening the affair. The celebration will close with the Snow Ball dance Saturday night.

—o—

Next Wednesday will end the "hands off" period for the girls going through rushing. Informal parties will begin on Thursday. All girls interested in rushing have been requested to attend a meeting in the education auditorium tomorrow morning to hear the rules.

—o—

Since WRA has included skiing in the activities, there have been even more regular trips to the mountain than before. The sport is also now being taught as a regular women's physical education course.

—o—

The Lambda Chis and the girls from Artemisia hall had a social at the fraternity house last Wednesday night. The affair was another display of the JB Harris ingenuity. Both men and women were decked out in sweatshirts and levis. Dancing was the main event of the evening.

## Pack Tracks

By ROLLAN MELTON

The local chapter of Sundowners may have a chance to get "soaked" at the fourteenth annual winter carnival next week. It'll be with snow, though, for the organization will be asked to help tamp the course at Mt Rose. The group, incidentally, has a new member, dean of men W. D. Carlson. The dean was not subjected to the same initiation rites as undergraduate members, however.

Mary Ellen Jack, former student and Gamma Phi here, is now at College of Pacific and probably will ski for that school in the powderpuff derby at Mt Rose next Sunday.

The Tom Jordan who mixed it with Bill Griggs on the Chico card last week will be around to do some more boxing. He's a freshman from Las Vegas with several fights under his belt. The 175-pound Vegan had trained only four days prior to the Monday match, and to make matters worse, was paired with Griggs who has decisively whipped all comers this season.

Courage and good old intestinal fortitude are marks of distinction among men, and here on the Nevada campus there's a fellow who stands way up on the list. He's Marvin Baker of Sparks, who's the best heavyweight prospect to show here in a long while.

Marv, a freshman, has over the years refused to let a leg injury handicap him. In fact, it would seem that he has let the injury be a motivating force toward excellence in athletics and association with his fellows.

He sweated, blocked, and tackled his way to a berth on the all-state football team while at Sparks high school, then lettered as a freshman on the Nevada grid team this fall. He's already won a boxing numeral and he's tabbed by mitt coach Jimmy Olivas, as a top notch ring prospect.

During the Homecoming's football clash with Fresno state in the fall, Marv came trotting out of the game at one stage and sagged on the bench. He was tired, and like other players, and the fans, unhappy with the course of the game. Yet not more than five minutes later, he was back in there and, to put it literally, kicked the hell out of any Fresno lineman or back he got his hands on.

During this college boxing season Marv lost one bum decision to two men he had seemingly trounced. But the red head's vocabulary doesn't include the word "quit." He chased Chico's Wilber Facey all over the ring last week, to win a unanimous decision.

In victory or defeat, in the ring or on the gridiron, Marvin Baker will always be a winner.

While it was no reflection on abilities, during the Sam Macias-Elwood Haggerty exhibition at Elko two weeks ago, a slightly inebriated fellow got up and chortled the Blue Danube Waltz. Sam and Elwood took care of each other. The local law took care of the crooning fan.

THIS AND THAT: Bill Afflis, Green Bay's professional tackle, is back in school for the spring semester. He's the father of a girl now. . . . After the Idaho state fights, Olympic runner-up Elsworth "Spider" Webb, called Tom Massey the most durable fighter he's ever met. Even tougher than the Austrian who beat him in the semi-finals at Helsinki, Webb continued. . . . The Pack's ski team is dominated by underclass men this season, the only seniors on the squad being John Cowley and Jack Rykken. . . . Stanford's co-ed ski team, here to compete in the powderpuff derby, will drop their gear at the Gamma Phi Beta house.

## "A-1 Fit!" Collegians Say Of Arrow Gabanaro Sports Shirts

College students report that precision-sized Arrow Gabanaro sports shirts bring them greater comfort—plus neater, smarter appearance. Gabanaro—washable rayon gabardine—is available in exact collar sizes and sleeve lengths, in a wide range of colors, at all Arrow dealers.

## Scott discusses Russian situation

DAVE TRAITEL

How do the Russian people feel about going to war with the United States? Is there any chance of a break-up in the regime in a fight for personal power after Stalin dies? These are but two of the questions I had answered for me Wednesday afternoon by John Scott, foreign correspondent for Time and Life magazine.

Scott spent nine years in the Soviet Union prior to 1937 and returned again in 1940, so he has an extensive knowledge of the Russian people. He is also acquainted with the affairs of western Europe, where he put in a good deal of time during the summer of 1952.

In reply to the question on the feeling of the Russian people as to the prospect of war with the United States he informed me that they definitely are not interested in war. In spite of the propaganda they would rather stay peaceful than fight. Of course the rule of their leaders is the determining factor.

As to the break-up of the regime in a fight for personal power Scott believes this is quite possible and mentions as those vying for leadership Molotov, Beria, Malenkov, and Bulganin. Scott further points out that while the struggle for power is going on, Russia's foreign policy will suffer greatly.

The existence of counter revolutionary parties is almost non-existent behind the Iron Curtain, Scott stated. One reason is the power and efficiency of the NVD, the Russian secret police, although there are not quite as many shootings and arrests as there have been in the past, Scott informed me.

He pointed out further that the Russian people would certainly forsake their type of government for another if given the opportunity.

## Time correspondent gives lecture series

A first hand report of Russia's present foreign policy, the unification of Western Europe, and journalism in the United States was given by John Scott.

Scott, noted correspondent for Life and Time magazine, gave a series of lectures to university students and faculty members last Wednesday.

Scott drew upon his nine years' experience in Russia to explain the present foreign policy of that country to members of political science and history classes.

Russia is now in a position to

lend money to foreign countries for political benefits, Scott stated. This new position has made Russia a competitor for the world trade market now controlled by the United States.

### Symbolism

He spoke to the journalism students about symbolism in contemporary journalism, about a correspondent's work and about the workings and policy of Time magazine.

Unification is the only solution if Western Europe is to survive the communist threat, Scott pointed out at his evening lecture.

Western Europe is a disadvantage as far as ground and air strength are concerned. This is not so great a handicap that Russia will move in. With more unification of Europe and building up of arms, it is even less likely that Russia will try anything, Scott stated.

What position will Western Germany occupy in this setup? As it is now, France and Germany are squabbling as to who is to have the most power. This sort of thing must stop if unification is to be achieved, he continued.

There is a trend, however, that

Pan-Europeanism rather than nationalism, and that this can well be the solution to the economic and military problems.

### Unity

Scott's hope for defense of Western Europe is a unified Western army rather than a national army.

Germany is the plum of Europe, Scott added. It is his belief that Germany will become an important factor in uniting Western Europe.

It is vital that the United States do all it can to bring forth a united Europe. As he says, history will forgive some of our blunders, if we can help establish in Europe an economy of freedom and plenty.

The speech was given in the education auditorium and was attended by students and the public. He is currently touring colleges and universities throughout the United States.

## Nevadans attend Cal dinner and songfest

Several women students of the University of Nevada and alumni from the Reno area attended a University of California alumni dinner given at the Mapes hotel Wednesday evening.

The dinner was in honor of the male glee club from the University of California, which presented An Evening of Song in the State building auditorium following the dinner.

This is the first visit of the California glee club to this area.

The program was presented by the Reno Light Opera association to raise money for the remodeling fund of the State building auditorium.

## ...EARTHQUAKE...

In the predawn of last July 21, the most severe California earthquake since 1906 struck the small town of Tehachapi.

Walls were collapsing, buildings were folding. The town's telephone office shook to its foundation. But the night operator remained at her switchboard until it went dead. Main cables to the office were pulled to the ground when a nearby wall caved in.

This was at 4:50 A.M.

By 8:30 A.M. telephones were set up on the edge of town for use by the Red Cross and other emergency workers.

By late afternoon, the telephone switchboard was working. Tehachapi residents were able to contact friends and relatives concerned about their safety.

By 9 P.M. two TV stations were sending live telecasts of the damage. Telephone men had established a radio-relay system in less than 12 hours.

It was a typical disaster—brutal and unannounced. But telephone men were prepared. They quickly restored communication when it was needed most. They demonstrated the resourcefulness and technical skill typical of telephone people.

These are some of the qualities we seek in the college graduates we hire. Your Placement Officer can give you details about opportunities for employment in the Bell System. Or write to American Telephone and Telegraph Company, College Relations Section, 195 Broadway, New York 7, New York, for the booklet, "Looking Ahead."

BELL TELEPHONE SYSTEM

# V and T records possessed by UN

The University of Nevada is now in possession of the financial, engineering and operating records of the Virginia and Truckee railroad, Nevada's famed short line, which was in operation from 1869 to 1950.

The records which were donated by the Ogden Mills estate in a formal presentation at the university Tuesday night by Gordon A. Sampson, former vice president and general manager, will probably form the nucleus of a research library.

Every piece of paper in the collection of over a half-million documents is highly valuable. When the collection of 61 packing crates, including the railroad's cash books, general ledgers, journals, the complete file of profile maps, the plans for every engineering project ever undertaken by the railroad, and the

great numbers of letters, bills and receipts are catalogued, it will provide excellent reference material for Nevada's general economic history as well as the V&T and its mines and mills.

### Appreciation

Pres Stout and Silas E. Ross, chairman of the board of regents, both expressed their appreciation for the collection.

The crates of files are now being stored in a vault in the new engineering building until they can be catalogued.

Included on the committee that arranged the transfer of the valuable collection were Dr William C. Miller, chairman, of the English speech department, Dr Effie Mona Mack, Mrs Robert Z. Hawkins, and Lawson Sullivan, all of Reno.

Attending the presentation Tuesday were Pres Stout, Sampson, Regent Roy Hardy, Dr Miller, James J. Hill, librarian, and Dr Charles R. Hicks of the history and political science department.

# Freedom Crusade shows good results

The 1953 freedom crusade drive on the campus showed a very good result since several hundred freedomgrams and a gratifying amount of money were turned into the dean's office, according to William D. Carlson, director of student affairs, who was in charge of the action. The drive started January 18 and ended last week.

I am very pleased, Dr Carlson said, that students and faculty members participated in such great number. I appreciate particularly the cooperation of the campus organizations.

Due to the fact that the March of Dimes was going on at the

same time on the campus, the collected amount of money was not very large, but gratifying.

The signed, freedomgrams as well as the money were turned in to the Washoe county's Freedom Crusade office which is headed by Prof John Edward Martie, chairman of the department of physical education.

The Freedom Crusade in Washoe county is going along very well, said Martie, and I am quite sure that we will fulfill our quota by March 1.

Both the radio station, Free Europe and Free Asia, will receive the fruits of the Freedom Crusade in the United States. The money will be used to enlarge old stations and to establish new stations of the voice of the free world.

The signed freedomgrams will

be read over the stations as individual signs of friendship and good will from Americans to the enslaved people living in the countries behind the Iron Curtain.

# ASUN president to be mag feature

A week in the life of ASUN President Procter Hug will be a feature of the March issue of a local magazine.

Photographer, Jim Nickell, followed Hug this week to record on film his busy life. From the ATO house to class; to meetings with the senate, Pres Stout, and the student union committee; from the Wolf Den to home again, Nickell snapped Hug.

## Nevada wins one, Olympic club one to even score in weekend tourney

An advantage in height and deadly shooting were the factors that gave the Olympic club its victory over the Nevada Wolf Pack last Saturday night. This win evened the score for the weekend series as Nevada took the opener 63-57.

Both teams played hard fast ball with no give and take. But the loss of Reggie DePaoli and Mert Baxter via fouls drained too much from the Nevada offense for them to make a come-back. The Olympic club took the second game 77-55.

Those Olympic Club boys are awfully good, said Coach Jake Lawlor. We took the first one but we couldn't get that spark in the second.

Bill Cooper, first string forward, missed both games due to ineligibility.

If Cooper can make up the deficit which knocked his grades down he will play in the next game.

Coach Lawlor feels the team will do well in Portland this weekend. The teams are pretty evenly matched, he said. The boys have done a wonderful job this year, Jake said. They're one of the best teams I've had, and they've had a lot of competition. The only thing we're lacking is experienced reserves.

The Wolf Pack left for Portland Thursday by train.

Nevada dropped one and won one in its game with San Francisco State several weeks ago.

for the first day of the weekend event. ATO holds second team place, followed by SAE, Theta Chi and Lambda Chi.

The winning time for the Saturday downhill was 39.0, Dick Thomas; followed by Bruce Wilson ATO with a 40.1 and Bill Thornton SN with a 40.5. Team results for Saturday's downhill were 100 for Sigma Nu; 81, ATO; SAE, 60; Theta Chi, 40.

### Cross-Country

The Saturday cross-country was won by Dick Thomas with 13.02, followed by Bill Thornton (13.54) and Bruce Wilson (14.41). Team results for Saturday's cross-country were 100, Sigma Nu; ATO, 90.5; Lambda Chi, 56.0; Theta Chi was disqualified due to one man not finishing the correct course.

The Sunday slalom time results are Dick Thomas, with winning time of 85.4; Brent Aikin, Theta Chi; Dick Ankers, Bill Thornton, Dave Mathis, ATO; Bob Jepsen, Bill Edwards, Sigma Nu; Giles Altenberg, ATO; Darrell Cannon, SAE; John Bruce Harris, Lambda Chi; Bob Potter, SAE; Jeff Lobaugh, Theta Chi; Dick Gould, SAE and Bob Gerring, Theta Chi. One of the main attractions of

the women's slalom event held Sunday at Mt Rose was Don "snow-bunny" Thompson amazing time of 69.0 time as compared to the winning time of 27.8 by Marvella Chandler. This startling record is notable for the fact that Don "snow-bunny" Thompson ran the course backwards. Nan Imperatrice held second place with a 29.9, followed in third place by Ann Boero with a 36.5. Others racing were Patti Jefferson, Vivienne Potter, Dorothy Hill, Diane Lewers, Martha Oviatt, Adele Benetti and Marge Andrews.

## Sigma Nus celebrate return to social life

Sigma Nu fraternity celebrated its reinstatement to social privileges by holding open house registration night. The fraternity had spent the previous semester without social privileges.

William D. Carlson, dean of students affairs, let it be known that he was highly pleased with the party and regarded it as a success.

Guests at the party were Dean and Mrs Carlson and Dean Elaine Mobley.

## Sigma Nu wins interfrat ski meet

Sigma Nu fraternity won the University of Nevada intramural ski title February 6 and 7 at Mt Rose with a total of 300 points. Sigma Nu finished far ahead of its four fraternity competitors with Dick Thomas, winner of the downhill, cross-country and slalom. Second and third place winners were Bill Thornton and Dick Ankers, both of Sigma Nu.

The winning Sigma Nus hold a first and third in the downhill and a one-two lead in the cross-country

### Second atom project begins at university

The university may undertake a second atomic energy research program, stated Sen. George W. Malone from Nevada this week.

The biology department would be contracted to work on the effect that the dust from atomic explosions has on plant and animal life as well as on water sources.

Dr Harold Plough is being sent by the atomic energy commission from Washington to talk with university officials.

#### Methods

New methods of processing uranium ores are being worked on at the present time, under the direction of Mr J. N. Butler.

Mr Butler came to the university on August 1. Previously he worked at Salt Lake and Monticello, Utah, on research and processing of uranium ores.

He has two full time assistant metallurgists. Bob Stephens from Washington and Henry Ehrlinger from Mexico are now employed. Marvin Abrams, a graduate in chemical engineering from Nevada, is also on the staff.

#### Expand

Mr Butler hopes to expand his program until eight or nine persons are employed permanently.

The work is still in the preliminary stages. The basement of the Mackay school of mines is being renovated and office partitions and laboratories are being built. New paint is evident all over.

The contract with the government is a year by year arrangement. For this first year sixty thousand dollars has been appropriated.

#### Taught

Butler did undergraduate and graduate work at Washington state, Pullman, Washington where later he taught metallurgy.

Information concerning the project and proposed project at the university is confidential, and only broad generalizations may be printed, stated Mr Butler.

### 61 new students for new semester

Sixty one new students have enrolled at the University of Nevada

with the beginning of the second semester, according to the registrar's office. Thirty-five of them are high school graduates, 26 are transfer students.

Naturally Nevada is leading in the number of the new enrolled high school graduates, as 27 of them graduated from Nevada high

schools. Fifteen are Reno high school graduates.

California is the home state of five high school graduates, whereas one came from Illinois and one from Wisconsin. One among the new faces on the campus is one foreign student from Syria.

California is far ahead among

the transfer students, having 17, followed by New York with three and Utah with two transfer students. One each transferred from Kansas, Minnesota, Ohio and Mississippi.

Among the transfer students there are five sophomores, two juniors and three seniors.

# MAPES

Of Course

IT TAKES a good, tough, serious guy to wear the gear of an Aviation Cadet. But if you can measure up, here's your chance to get the finest in aviation training—training that equips you to fly the most modern airplanes in the world and prepares you for responsible executive positions, both in military and commercial aviation.

It won't be easy! Training discipline for Aviation Cadets is rigid. You'll work hard, study hard, play hard—especially for the first few weeks. But when it's over, you'll be a pro—with a career ahead of you that will take you as far as you want to go. You graduate as a 2nd Lieutenant in the Air Force, with pay of \$5,300.00 a year. And this is only the

beginning—your opportunities for advancement are unlimited.

**ARE YOU ELIGIBLE?** To qualify as an Aviation Cadet, you must have completed *at least* two years of college. This is a minimum requirement—it's best if you stay in school and graduate! In addition, you must be between 19 and 26½ years, unmarried, and in good physical condition.

**YOU CAN CHOOSE BETWEEN PILOT OR AIRCRAFT OBSERVER** If you choose to be an Aircraft Observer, your training will be in Navigation, Bombardment, Radar Operation or Aircraft Performance Engineering.

## New Aviation Cadet Training Classes Begin Every Few Weeks!

### HERE'S WHAT TO DO:

1. Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.
2. If application is accepted, the Air Force will arrange for you to take a physical examination at government expense.

3. Next, you will be given a written and manual aptitude test.
4. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet training class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

### Where to get more details:

Visit your nearest Air Force Base or Air Force Recruiting Officer. Or write to: Aviation Cadet, Headquarters, U. S. Air Force, Washington 25, D. C.

# Student sees ward for polio victims

By DAVE TRAITEL

Last week I saw where some of the funds for the march of dimes go. I was conducted on a tour of the polio ward at Washoe medical center by superintendent of nurses Media Pringle, who told me about the patients and the disease as we walked along.

The polio section at Washoe medical center is in the north wing of the hospital. The first rooms are for those who are convalescing. These rooms are filled with equipment that will enable the patient to stretch his muscles and regain his strength. The first room I looked into housed two kids from Garss Valley, who were well on their way to recovery. I judged the children to be about 10 years old, pale from being indoors, but nevertheless showing signs of progress.

I'm glad I saw these kids first because it showed me what proper medical care could do for a person who had been stricken. What was to come was not so heartening.

The nurse continued down the hall and pointed out the room where patients who were suspected of having the disease were kept. She explained to me that all patients must first be kept here until it is certain they had polio.

From this room Mrs Pringle led on. This was it. We were about to enter the ward where the critical cases were kept. After donning surgical gowns we entered.

There were two rooms, divided by

a partition, and in each there were four iron lngs. In one there was a bed. The ages of those in this room ranged all the way from four years old to 32.

### Think

As I stood there looking at these people, I wondered what they were thinking. How did they feel about being cooped up in these prisons which kept them alive. Did they need the help coming through the polio foundation? I decided to talk to some of them individually and find out.

I talked to a 17-year-old Sparks high school student who wasn't in a lung but in bed. He was almost completely paralyzed being able to move only his right hand, and at that very little. In spite of this he seemed in good spirits and showed all the grit and determination in the world. He was particularly happy about an automatic page turner that had been given him through the polio fund. Because of this he will be able to do his lessons while in the hospital and then graduate with his class in June, something he wants very much to do, but

would be unable to do if not for this gift.

### Student

Another I talked to had been a pre-med student at the University of Washington, and had been in the iron lung since December 14. I asked him how he felt that the polio foundation was working and he told me this, They saved my life. For four days I was in extremely critical condition, but because of the excellent medical care provided through the foundation, I am now on the road to recovery.

On my way out I could not help but notice a pretty blonde, blue-eyed little girl of four whose name was Teresa; nor an older man of 50 who was sitting next to the lung in which she was. At the time I believed him to be a hospital attendant; but when I left the ward, I was soon to learn an interesting story about the two of them.

Several months ago the older man whose name is Joe was brought into the hospital with polio, and put in an iron lung. Shortly afterward, his wife was also stricken, and brought to the hospital, only instead of recovering she died. For six

weeks the nurses hesitated to tell Joe of his wife's death, and when they finally did he threatened to kill himself. Then he discovered little Theresa, and since then he has been inseparable from her. Now that he is almost well, and ready to leave, he has refused to go, and intends to stay on and work there in order to be near her.

### Together

Hospital personnel say she is the only thing that has given Joe anything to hang to, and the feeling seems to be mutual, for Joe is the only one for whom Teresa will sing or smile.

So it is in the polio ward. Not pleasant but nevertheless it exists. The cost of doctoring the people in this ward is excessive. Whole blood costs \$32.50 a pint, helium \$9.20 a tank, blood plasma \$60 a pint. Every one of these things is vital to the

survival of a patient. On top of that the hospital charges \$21 per day and special nursing \$40 a day. As one doctor put it, it's a very expensive disease.

The dimes that are contributed to the march of dimes help these people to stay alive. A trip through one of these wards, and you will never let one of them walk alone.

### ELECTED

Joan Miller was elected president of Pi Beta Phi at a recent chapter meeting. Other officers elected for the spring semester were: Annette Caprio, vice president; Vivienne Potter, recording secretary; Carol Dickerson, corresponding secretary; Irene Marshall, treasurer; Eleanor Jessen, assistant treasurer; Beverly Griggs, social chairman; Jackie McGowan, house manager and senator.

AKRON 15, OHIO

# Nevada pugilists beat Chico, 7 to 1

Nevada's fighting wolf pack ringsters avenged a previous setback at the hands of Chico state here Monday, turning back the injury-riddled Wildcats 7-1 in a dual meet.

In the feature fight of the evening, Nevada's fast-improving heavyweight Marvin Baker pounded out a decision over husky Wilbur Facey, the hefty Wildcat who had previously won a nod over Baker at Chico.

Doug Byington remained unbeaten in college ranks with an aggressive win over wirey Karl Arroyo in the 147-pound division.

The other Nevada intercollegiate win was picked up by punching Duane Moore of Lovelock, who won an airtight three-rounder from the Chico representative in the 139 pound class.

Because of illness and injury the visiting Wildcats were forced to forfeit to the Nevadans in three bouts.

In the opening intrasquad match unbeaten collegian Bill Griggs jolted newcomer Tom Jordan with a series of wicked short lefts, then spun him to the deck in the third canto with a hooking K.O. blow to the

head. Jordan, who has fought previously around Las Vegas, looked effective at times, despite the fact he has been working out just four days. "Hugo" Griggs had a KO over his Chico opponent in the first meeting of the two teams, then walloped the Idaho State representative in the light heavyweight class.

Bill Cockrell and John Cobb, both of the university, belted each other in a lively exhibition that proved both men to be in good shape and willing mixers.

In the other exhibition inter-squad clash, Elwood Haggerty and Sammy Macias staged a crowd-pleasing three-round go.

There were no decisions in the intrasquad matches.

In an intermission attraction, professional footballers Bill Afflis and Pack griddler Buddy Brooks

# Fourth carnival for WUS planned

World University Service's fourth annual carnival plans are now being formed. Marilyn Royle, carnival chairman, stated that the committees are being organized and beginning to function. The carnival will be held March 21.

WUS, formerly known as World Student Service Fund, is an organization of students in colleges and universities all over the free world, whose purpose is to contribute jointly to the needs of student

centers. The reason for the change in name, which has been changed all over the world, is because it is not actually just a fund. Contributions of books, paper, and other supplies are also needed.

grunted nad groaned through a display of how the pro's do it.

centers. The reason for the change in name, which has been changed all over the world, is because it is not actually just a fund. Contributions of books, paper, and other supplies are also needed.

WUS was first organized in 1937 as the Far Eastern relief fund to aid students in China. Since then it has branched out to 36 countries all over the world. Many of these countries, although they do not have enough for themselves, share what they have with their less fortunate neighbors.

Last year's carnival made over 500 dollars, one half of which went to help the University of Assam in India. It is hoped that Nevada can go on helping this same university for several years. The rest of the money last year went into the general fund.

# Royal Family plays to packed houses

The Royal Family, a three-act play given by the campus players January 23 and 24, was viewed by full houses of 125 persons on each night of the production.

Half of the proceeds from contributions were given by the ASUN to the March of Dimes.

The play, a take-off on the Barrymore family by George Kaufman and Edna Ferber, went off quite well, according to Dr William C. Miller, director.

Starring were Myrtle Coates as Julie Cavandish, Joan Miller as Fanny Cavandish, and Bob Moran and Bill James who switched off in playing Tony Cavandish and Herbert Dean.
